NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)
(Amounts in thousands)

1. BASIS OF PRESENTATION

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three months period ended March 31, 2001, are not necessarily indicative of the results that may be expected for the year ending December 31, 2001.

The balance sheet at December 31, 2000 has been derived from the audited financial statements at that date but does not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. For further information, refer to the consolidated financial statements and footnotes thereto

7. POST BALANCE SHEET EVENT

On April 30, 2001, the Company's wholly-owned subsidiary, Billion Luck, through its nominees, acquired the 39% equity interest in its 61%-owned subsidiary, HARC, from the Farming Bureau, for total consideration of RMB129,405 (US\$15,629) (the "Purchase Consideration"). Following the acquisition, HARC has become an indirect wholly-owned subsidiary of the Company. Concurrent with the acquisition, HARC has entered into several agreements with the Farming Bureau to dispose of certain assets, including 24,877,008 shares of Hainan Sundiro Motorcycle Co. Ltd., a 13% equity interest in Xilian Timber Mill and a 58% equity interest in Hainan Weilin, valued in the aggregate at RMB78,800 (US\$9,517). The Company has ceased the timber processing operations following the disposition of its 58% interest in Hainan Weilin. Management does not anticipate recording a loss on the disposition of these assets.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITIONS AND RESULTS OF OPERATION

RESULTS OF OPERATIONS

The following table shows the selected unaudited condensed consolidated income statement data of the Company and its subsidiaries for the three months ended March 31, 2001 and 2000. The data should be read in conjunction with the unaudited Condensed Consolidated Financial Statements of the Company and related notes thereto.

The discussions below are presented in the Company's primary operating currency, which is the Renminbi Yuan ("RMB"). For information purposes only, the amounts may be translated into U.S. dollars at an exchange rate of \$1.00 = RMB8.28, which represents the approximate single rate of exchange as quoted by the People's Bank of China on March 31, 2001. No representation is made that RMB amounts could have been, or could be, converted into U.S. dollars at that rate or any other rate.

NET SALES AND GROSS PROFIT

Supermarket operations were established by the Company in the fourth quarter of 1999. Net sales from supermarket operations increased by 16.7% from RMB1,151,000 (US\$139,000) for the first quarter of 2000 to RMB1,343,000 (US\$162,000) for the first quarter of 2001. For the first quarter of 2001, supermarket operations had gross profit and gross profit margin of RMB325,000 (US\$39,000) and 24.2%, respectively. For the first quarter of 2000, supermarket operations had gross profit and gross profit margin of RMB196,000 (US\$24,000) and 17.0%, respectively. The increase in net sales and gross profit margin were due to the successful marketing efforts of the Company and its ability to source less expensive and better quality products from suppliers.

Processed timber operations commenced in the first quarter of 2000. Disposition of the processed timber business resulted in a gross loss of RMB95,000 (US\$11,000) or 38.6% on sales for the first quarter of 2000, as the processing factory was still in the start-up phase and was operated at one-third of its full capacity. There were no sales of processed timber in the first quarter of 2001 as market conditions were poor and the Company was reluctant to sell the processed timber at a reduced price. The Company's disposition of its 58% interest in Hainan Weilin to the Farming Bureau in the second quarter of 2001 resulted in cessation of its timber processing operations (see Note 7 to condensed consolidated financial statements).

Notwithstanding the cessation of natural rubber operations in early 2000, the Company engages in trading of natural rubber occasionally when a profit is anticipated. During the first quarter of 2001, the Company had sales of RMB3,185,000 (US\$385,000) and gross profit margin of 0.1%. The natural rubber market remained relatively stable in 2000 and 2001 and management anticipates that natural rubber prices will continue to remain stable for the foreseeable future. Therefore, the Company has decided to trade natural rubber again in the first quarter of 2001.

11

SELLING, GENERAL AND ADMINISTRATIVE EXPENSES

Selling, general and administrative expenses for the first quarter of 2001 decreased by 10% to RMB4.0 million (US\$482,000) from RMB4.4 million (US\$531,000) for the first quarter of 2000. The decrease was mainly due to set up costs incurred for its supermarket and timber operations in the first quarter of 2000, including professional and registration expenses for establishing new subsidiaries.

AMORTIZATION

Expenses for the first quarter of 2001 represented amortization of acquired website technology on June 30, 2000 on the straight-line basis over two years.

FINANCIAL INCOME/(EXPENSES), NET

Net financial income for the first quarter of 2000 was RMB40,000 (US\$5,000), while the net financial expenses for the first quarter of 2001 was

Edgar Filing: CHINA RESOURCES DEVELOPMENT INC - Form 10-Q

RMB70,000 (US\$8,000). The change from net income to net expenses was due to margin loan interest expenses of RMB216,000 (US\$26,000) incurred in the first quarter of 2001 which were partly offset by an increase in interest income of RMB106,000 (US\$13,000) resulting from an increase in bank deposits in the first quarter of 2001.

OTHER INCOME, NET

Other income for the first quarter of 2000 represented a net gain on trading of marketable securities. Other income for the first quarter of 2001 represented a net gain on trading of marketable securities of RMB7.2 million (US\$870,000) and a premium earned on written call options of RMB3.2 million (US\$386,000).

INCOME TAXES

It is management's intention to reinvest all the income attributable to the Company earned by its operations outside the US. Accordingly, no US federal and state income taxes have been provided in these consolidated financial statements.

Income taxes for the first quarter of 2000 consisted of PRC federal income tax computed at 15% on assessable income in 2000 for foreign investment enterprises operating in Hainan. Income taxes for the first quarter of 2001 consisted of under-provision of PRC federal income tax on assessable income in 2000 for foreign investment enterprises operating in Hainan.

LIQUIDITY AND CAPITAL RESOURCES

The Company's primary liquidity needs are to fund inventories, trade receivables and operating expenses, and to expand business operations. The Company has financed its working capital requirements primarily through internally generated cash.

The Company had a working capital surplus of approximately RMB84.2 million (US\$10.2 million) as of March 31, 2001, compared to that of approximately RMB79.6 million (US\$9.6 million) as of December 31, 2000. Net cash provided by operating activities for the three months ended March 31, 2001 was approximately RMB41.7 million (US\$5.0 million), as compared to net cash used in operating activities of RMB9.7 million (US\$1.2 million) for the corresponding period in 2000. Net cash flows from the Company's operating activities are attributable to the Company's income and changes in operating assets and liabilities.

There has been no other significant change in financial condition and liquidity since the fiscal year ended December 31, 2000. The Company believes that internally generated funds will be sufficient to satisfy its anticipated working capital needs for at least the next twelve months.

MARKET RISK AND RISK MANAGEMENT POLICIES

All of the Company's sales and purchases are made domestically and are denominated in Renminbi. Accordingly, the Company and its subsidiaries do not have material market risk with respect to currency fluctuation. As the reporting currency of the Company's consolidated financial statements is also Renminbi, there is no significant translation difference arising on consolidation.

Edgar Filing: CHINA RESOURCES DEVELOPMENT INC - Form 10-Q

However, the Company may suffer exchange loss when it converts Renminbi to other currencies, such as Hong Kong dollars or United States dollars.

The Company's interest income is most sensitive to changes in the general level of Renminbi interest rates. In this regard, changes in Renminbi interest rates affect the interest earned on the Company's cash equivalents. As at March 31, 2001, the Company's cash equivalents are mainly Renminbi, Hong Kong Dollar and United States Dollar deposits with financial institutions, bearing market interest rates without fixed term.

As at March 31, 2001, the Company had short-term investments in marketable securities in the Hong Kong stock market with a total market value of RMB869,000 (US\$105,000). These investments expose the Company to market risks that may cause the future value of these investments to be lower than the original cost of such investments.

FINANCIAL POSITION

Marketable Securities

Marketable securities decreased by 99% from December 31, 2000 to March 31, 2001 due to the sale of the securities in the first quarter of 2001.

Margin Loan Payable

The margin loan payable at December 31, 2000 was used to purchase marketable securities. The margin loan was repaid when the securities were sold in the first quarter of 2001.

Other Payables and Accrued Liabilities

In the first quarter of 2001, the Company recognized the call option premium of RMB3,182,000 (US\$384,000) included in other payables and accrued liabilities. Also, the Company repaid a short term loan payable in the amount of RMB5,830,000 (US\$704,000).
