Daqo New Energy Announces Fourth Quarter and Fiscal Year 2010 Results

Record Revenue and Record Earnings

CHONGQING, China March 7, 2011 Daqo New Energy Corp. (NYSE: DQ) (Daqo New Energy or the Company), a leading polysilicon manufacturer based in China, announced today its financial results for the fourth quarter and fiscal year 2010.

Fourth Quarter 2010 Financial and Operating Highlights

Polysilicon shipments were approximately 966 metric tons, or MT. Photovoltaic (PV) module shipments were 3.5 Mega watts, or MW. The company also shipped approximately 20.5 MT polysilicon to toll into PV wafer.

Revenues were \$81.9 million, an increase of 29.6% from the third quarter of 2010 and 158.2% from the fourth quarter of 2009.

Gross profit were \$45.8 million, an increase of 70.2% from the third quarter of 2010 and 466.4% from the fourth quarter of 2009.

Gross margin was 55.9% in the fourth quarter of 2010, compared to 42.5% in the third quarter of 2010 and 25.5% in the fourth quarter of 2009.

Operating income were \$41.3 million, an increase of 71.8% from the third quarter of 2010 and 379.5% from the fourth quarter of 2009.

Operating margin was 50.4%, compared to 38.0% in the third quarter of 2010 and 27.1% in the fourth quarter of 2009.

Net income attributable to Daqo New Energy Corp. shareholders was \$32.8 million, an increase of 85.3% from the third quarter of 2010 and 229.3% from the fourth quarter of 2009

Earnings per fully diluted ADS were \$0.95, compared to \$0.64 in the third quarter of 2010, and \$0.40 in the fourth quarter of 2009. Earnings per fully diluted ordinary share were \$0.19, compared to \$0.13 in the third quarter of 2010 and \$0.08 in the fourth quarter of 2009.

Full Year 2010 Results Financial and Operating Highlights

Polysilicon shipments were 3,650 MT, an increase of 143.6% from 2009.

Revenues were \$242.7 million, an increase of 118.3% from 2009.

Gross profit was \$106.2 million, an increase of 153.2% from 2009.

Edgar Filing: DAQO NEW ENERGY CORP. - Form 6-K

Gross margin was 43.8% for 2010, compared to 37.7% for 2009.

Operating income was \$92.5 million, compared to \$36.4 million for 2009.

Net income was \$69.1 million, compared to \$29.9 million for 2009.

Net income attributable to Daqo New Energy Corp. shareholders for 2010 was \$68.6 million, an increase of 122.4% from 2009.

Earnings per fully-diluted ADS for 2010 were \$2.32, compared to \$1.45 in 2009.

We are very pleased with our operating performance in the fourth quarter of 2010. We executed our business plan well, which resulted in a record quarter, based on the key metrics of revenue, gross profit, gross margin, operating margin and net income. We also successfully completed the Phase 1 polysilicon debottlenecking project, which will enable us to increase our name plate capacity from 3,300 MT to 4,300 MT, said Dr. Gongda Yao, the chief executive officer of the company. With the successful listing on the NYSE during the quarter, we now have a platform to grow the company into a leading global solar supply company. In 2011, we will focus on building our Phase 2 polysilicon production facility in Xinjiang, China. We will also commence our 250 MW solar wafer production, along with expanding our PV module capacity. In the beginning of 2011, we have continued to see strong demand from our customers for quality polysilicon, which should lay a strong foundation for a successful year for Daqo New Energy.

Fourth Quarter 2010 Results

Revenues

Revenues in the fourth quarter of 2010 were \$81.9 million, an increase of 29.6% from the third quarter of 2010 and a 158.2% increase from the fourth quarter of 2009. The increase was primarily attributable to an increase in revenues generated from sales of polysilicon. The Company sold approximately 966 MT of polysilicon, which contributed revenues of \$73.4 million in the fourth quarter of 2010, compared to revenues of \$55.2 million for 973 MT of polysilicon sold in the third quarter of 2010, and revenues of \$31.7 million for 597 MT of polysilicon sold in the fourth quarter of 2009. The increase from the third quarter of 2010 in revenues was primarily due to a higher average selling price for the polysilicon product. The increase from the fourth quarter of 2009 in revenues was also primarily due to the higher average selling price of polysilicon product combined with the higher sales volume.

In the fourth quarter of 2010 the Company also generated \$6.6 million and \$1.9 million for the sales of PV modules and wafers respectively.

Gross profit and margin

Gross profit in the fourth quarter of 2010 was \$45.8 million, compared to \$26.9 million in the third quarter of 2010 and \$8.1 million in the fourth quarter of 2009.

Gross margin was 55.9% in the fourth quarter of 2010, compared to 42.5% in the third quarter of 2010 and 25.5% in the fourth quarter of 2009. The increase from the third quarter of 2010 in gross profit and the gross margin was primarily due to a higher average selling price for the polysilicon product. The increase from the fourth quarter of 2009 in gross profit and the gross margin was also mainly due to higher average selling price of the polysilicon combined with lower production cost per kilogram for the polysilicon product.

Operating expenses

Total operating expenses in the fourth quarter of 2010 were \$4.5 million, an increase of \$1.6 million from the third quarter of 2010 and \$5.0 million from the fourth quarter of 2009. The increase from the third quarter of 2010 was primarily due to \$1.2 million expenses as a result of the shut-down period in December 2010. The increase from the fourth quarter of 2009 was primarily due to the decrease of government subsidy.

Operating income and margin

As a result of foregoing, operating income in the fourth quarter of 2010 was \$41.3 million, compared to \$24.0 million in the third quarter of 2010 and \$8.6 million in the fourth quarter of 2009. Operating margin was 50.4%, compared to 38.0% in the third quarter of 2010 and 27.1% in the fourth quarter of 2009.

Net Interest expense

Net interest expense in the fourth quarter of 2010 was \$1.8 million, compared to \$2.3 million in the third quarter of 2010, and \$1.7 million in the fourth quarter of 2009. The decrease from the third quarter of 2010 was primarily due to reduction in the Company's average short-term and long-term borrowing and the interest capitalization in the fourth quarter of 2010.

Foreign exchange loss

The foreign exchange loss in the fourth quarter of 2010 was \$0.5 million, compared to \$0.7 million in the third quarter of 2010.

Income tax expense

Income tax expense in the fourth quarter of 2010 was \$6.0 million, compared to \$3 million in the third quarter of 2010 and income tax benefit of \$3.2 million in the fourth quarter of 2009. The increase from the third quarter of 2010 was primarily due to the higher income before tax in the fourth quarter of 2010, while the year-over-year increase was primarily due to the lower R&D tax deduction and lower investment tax credit in the fourth quarter of 2010.

Net Income attributable to our shareholders, margin and earnings per share

Net income attributable to Daqo New Energy Corp. shareholders was \$32.8 million in the fourth quarter of 2010, compared to a net income of \$17.7 million in the third quarter of 2010 and \$10.0 million in the fourth quarter of 2009.

Net margin attributable to Daqo New Energy Corp. shareholders was 40.1% in the fourth quarter of 2010, compared to 28.0% in the third quarter of 2010 and 31.4% in the fourth quarter of 2009.

Earnings per fully diluted ADS were \$0.95, compared to \$0.64 in the third quarter of 2010, and \$0.40 in the fourth quarter of 2009. Earnings per fully diluted ordinary share were \$0.19, compared to \$0.13 in the third quarter of 2010 and \$0.08 in the fourth quarter of 2009.

Full Year 2010 Results

Revenues

Revenues for 2010 were \$242.7 million, compared to \$111.2 million for 2009, an increase of 118.3% from the previous year. This increase was primarily due to the increase in revenues generated from the sale of polysilicon. The Company sold approximately 3650 MT of polysilicon during 2010, compared to 1498 MT of polysilicon during 2009.

Gross profit and margin

Gross profit for 2010 was \$106.2 million, compared to \$41.9 million for 2009. Gross margin was 43.8% for 2010, compared to 37.7% for 2009. The increase in gross profit was primarily due to an increase of sales volume of polysilicon. The increase of profit margin was primarily due to the lower production cost per kilogram for polysilicon production cost marginally offset by lower average selling price of polysilicon.

Operating expenses

Total operating expenses for 2010 were \$13.7 million, compared to \$5.5 million for 2009. The increase in the operating expenses was primarily due to decrease in government subsidy of \$3.2 million and a \$2.7 million charges related to a withdrawn IPO during the first quarter of 2010.

Operating income and margin

As a result of foregoing, operating income for 2010 was \$92.5 million, compared to \$36.4 million for 2009. Operating margin for 2010 was 38.1% for 2010, compared to 32.8% for 2009.

Net Interest expense

Net interest expense for 2010 was \$9.3 million, compared to \$6.2 million for 2009. The increase of interest expenses in the full year 2010 was primarily due to higher interest capitalization amount in 2009.

Foreign exchange loss

There was a foreign exchange loss of \$1.2 million for 2010 due to the continuing strengthening of Renminbi against the U.S. dollar during 2010.

Income tax expense

Income tax expense for 2010 was \$12.8 million, compared to \$0.2 million for 2009. The increase was primarily due to higher income before tax in 2010 combined with the lower R&D tax deduction and lower investment tax credit in 2010.

Net Income attributable to our shareholders, margin and earnings per share

Net income attributable to Daqo New Energy Corp. shareholders was \$68.6 million for 2010, compared to a net income of \$30.8 million for 2009. Net margin attributable to Daqo New Energy Corp. shareholders was 28.3% for 2010, compared to 27.7% for 2009.

Earnings per fully-diluted ADS for 2010 were \$2.32, an increase of 60.4% compared to \$1.45 per fully diluted ADS for 2009.

Financial Condition

As of December 31, 2010, Daqo New Energy Corp. had \$203.7 million in cash and cash equivalents and restricted cash, compared with \$75.2 million as of September 30, 2010. As of December 31, 2010, the accounts receivable balance was \$10.7 million, compared to \$31.3 million as of September 30, 2010. As of December 31, 2010, total bank borrowings were \$154.6 million, of which \$83.0 million were long-term borrowings, while total bank borrowings were \$166.8 million, of which \$106.9 million were long-term borrowings as of September 30, 2010.

Q1 2011 Outlook

For the first quarter of 2011, the company expects its total revenue to be in the range of \$81.5 million to \$83.5 millions. The company expects to ship between 1075 MT to 1100 MT of polysilicon and generate revenues from the sales of polysilicon in an amount between US\$74 million to US\$76 million in the first quarter of 2011. The Company also expects its revenue for the PV module sales to be approximately \$7.5 million with the sales of approximately 4 MW PV modules under the company's own brand and sales of approximately 8 MW PV modules outsourcing for its customers.

Why did some shareholders receive a one-page notice in the mail regarding the internet availability of proxy materials instead of a full set of the printed proxy materials?

In accordance with the rules and regulations of the Securities and Exchange Commission (the "SEC"), instead of mailing a printed copy of our proxy materials to each shareholder of record, we may furnish proxy materials by providing access to those documents on the internet. Most shareholders received a notice of internet availability (the "Notice") containing instructions as to how to access and review all of the proxy materials on the internet. The Notice also contains instructions on how shareholders can request a paper copy of our proxy materials including our proxy statement, our 2012 annual report to shareholders and a proxy card form. The Notice also instructs shareholders how to submit their proxy on the internet. Shareholders receiving the Notice who would like to receive paper or email copies of our proxy materials should follow the instructions in the Notice for requesting those materials. To ensure timely delivery of such proxy materials prior to the Annual Meeting, shareholders should make such request by May 10, 2013.

How do I attend the Annual Meeting?

All shareholders of record as of March 18, 2013 are invited to attend the Annual Meeting in person. If you plan to attend the annual meeting, you will need to present proof of ownership and valid photo identification for admission. Proof of ownership can include a brokerage statement or letter from your broker showing that you owned shares of our stock as of the record date, March 18, 2013. If you do not have proof of ownership and valid photo identification, you will not be admitted to the Annual Meeting.

Who is entitled to vote at the Annual Meeting?

Only shareholders of record at the close of business on March 18, 2013, the record date for the meeting, are entitled to vote at the Annual Meeting. As of the record date, we had 268,426,737 shares of common stock and 9,532 shares of \$3.00 cumulative convertible preferred stock, series A, issued, outstanding and entitled to vote at the Annual Meeting. You are entitled to one vote for each share of common stock and each share of preferred stock you own. The number of shares you own (and may vote) is listed on the proxy card or the Notice that you received.

What constitutes a quorum?

A majority of all outstanding shares entitled to vote at the Annual Meeting, or 134,218,135, constitutes a quorum, which is the minimum number of shares that must be present or represented by proxy at the Annual Meeting in order to transact business. Subject to the rules regarding the votes necessary to adopt the proposals discussed below, abstentions and broker non-votes will be counted for purposes of determining whether a quorum is present. Generally, "broker non-votes" occur when brokerage firms return proxies for which no voting instructions have been received from beneficial owners and the broker does not have discretionary authority to vote on the proposal. Once a share is represented for any purpose at the Annual Meeting, it will be deemed present for quorum purposes for the remainder of the meeting (including any meeting resulting from an adjournment of the Annual Meeting, unless a new record date is set).

How do I vote?

1. In person. If you are a shareholder of record, you may attend the Annual Meeting and vote your shares or send a personal representative with an appropriate proxy.

If you own your shares in "street name" (i.e., through a broker-dealer or other financial institution) and you want to vote at the Annual Meeting, you will need to obtain a proxy card from the institution that holds your shares and present that card at the Annual Meeting.

If you own share equivalents through the Lincoln National Corporation Stock Fund of the LNC Employees' 401(k) Savings Plan (the "Employees' 401(k) Plan") or the LNL Agents' 401(k) Savings Plan (the "Agents' 401(k) Plan"), or through our dividend reinvestment plan, you cannot vote in person at the Annual Meeting. Instructions on voting these share equivalents are described in more detail below under "How do I vote my 401(k) and/or dividend reinvestment plan shares?"

You can obtain additional information on voting in person at the Annual Meeting, including appropriate forms of proof of ownership and directions to the meeting location, by contacting Shareholder Services at 1-800-237-2920 or shareholderservices@lfg.com.

2. By Mail. Mark, date, sign and mail the proxy card in the prepaid envelope the Company has provided you if you received a paper copy of the proxy materials. If you return the proxy card but do not mark your voting preference, the individuals named as proxies will, to the extent permissible, vote your shares in accordance with the Board's recommendation on each item in this proxy statement. With respect to any other matter that properly comes before the Annual Meeting, the individuals named as proxies will, to the extent permissible, vote all proxies in the manner they perceive to be in our best interests.

3. By Telephone or Internet. If you are a shareholder of record, you may submit your proxy with voting instructions by telephone if you are calling within the United States, Canada or Puerto Rico. If you are a shareholder of record,

you may also submit your proxy through the internet by visiting the website listed on the proxy card or Notice.

If you choose to submit your proxy with voting instructions by telephone or through the internet, you will be required to provide your assigned control number noted on the proxy card or Notice before your proxy will be accepted. In addition to the instructions that appear on the proxy card or Notice, step-by-step instructions will be provided by recorded telephone message or at the designated website on the internet.

If you hold your shares in "street name," please check your proxy card or Notice, or contact your broker, nominee, fiduciary or other custodian to determine if you will be able to vote by telephone or internet.

How many votes are needed to approve each proposal and what are the effects of broker non-votes, abstentions and unmarked proxy cards?

A majority of the votes cast by the holders of shares entitled to vote at the annual meeting, assuming a quorum is present, is required for the approval of the election of each director, the ratification of the appointment of Ernst & Young LLP as our independent registered accounting firm and the advisory resolution to approve the Company's Executive Compensation. Abstentions will not count as votes cast either for or against a nominee or the above proposals.

The proposal regarding the approval of the compensation of our named executive officers is advisory only and not binding on the Board of Directors. If any other matters are properly presented at the Annual Meeting, a particular proposal will be approved if the number of votes cast in favor of the proposal exceeds the number of votes cast against the proposal.

If you sign and return a proxy or voting instruction card, but do not mark how your shares are to be voted, they will be voted as the Board recommends. If you hold your shares in "street name," you may instruct your broker how you would like your shares voted. If you choose not to provide voting instructions, your shares are referred to as broker non-votes and the bank, broker or other custodian may be permitted to vote your shares (discretionary voting) only on the ratification of the appointment of the independent registered accounting firm. These broker non-votes will be included in the calculation of the number of shares considered to be present at the meeting for purposes of determining a quorum, but will not be considered in determining the number of votes necessary for approval and will have no effect on the outcome of the vote for directors or the advisory resolution on the Company's Executive Compensation.

Can I revoke my proxy or change my vote after I vote my proxy?

Yes. You may revoke your proxy or change your vote at any time prior to the Annual Meeting by: (1) sending our Corporate Secretary a written revocation; (2) submitting a new proxy by mail, telephone or internet; or (3) attending the Annual Meeting and voting your shares in person.

How do I vote my 401(k) and/or dividend reinvestment plan shares?

If you have invested in the Lincoln National Corporation Stock fund of the Employees' 401(k) Plan or the Agents' 401(k) Plan, your voting instructions, whether submitted via telephone or through the internet, will instruct the trustee of your plan how to vote the shares of common stock allocated to the plans. If our stock books contain identical account information regarding common stock that you own directly and common stock that you have an interest in through these plans, you will receive a single proxy/voting instruction card representing all shares owned by you. If you participate in one of these plans and do not provide the trustee with your voting instructions by 11:59 p.m. (E.D.T.) on May 21, 2013, the trustee of the plans will vote the shares in your account in proportion to shares held by the plans for which voting instructions have been received.

If you participate in our dividend reinvestment plan, your proxy/voting instruction card(s) will also include your shares of common stock allocated to your accounts in that plan. To vote your shares in this plan, you must return your proxy/voting instruction card(s) or submit your voting instructions by telephone or over the internet as instructed on your proxy/voting instruction card(s).

Who may solicit proxies?

Our directors, officers and employees, as well as Georgeson Inc., our proxy solicitation firm, may solicit proxies on behalf of the Board in person, by mail, telephone, fax and other electronic means.

Who pays for the costs of soliciting proxies?

We will pay the cost of soliciting proxies. Our directors, officers and employees will receive no additional compensation for soliciting proxies. We will reimburse certain brokerage firms, banks, custodians and other fiduciaries for the reasonable mailing and other expenses they incur in forwarding proxy materials to the beneficial owners of stock that those brokerage firms, banks, custodians and fiduciaries hold of record. As noted above, we have retained Georgeson Inc. to solicit proxies. We will pay Georgeson Inc. a fee of \$11,000, plus reasonable expenses, for

these services.

SECURITY OWNERSHIP

Security Ownership of More than 5% Beneficial Owners

We have two classes of equity securities outstanding: common stock and preferred stock, which are listed on the New York Stock Exchange (“NYSE”). The following table shows the names of persons known by us to beneficially own more than 5% of our common stock as of December 31, 2012.

SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS
AS OF DECEMBER 31, 2012

TITLE OF CLASS	NAME AND ADDRESS OF BENEFICIAL OWNER	AMOUNT AND NATURE OF BENEFICIAL OWNERSHIP	PERCENT OF CLASS

Common Stock	The Vanguard Group 100 Vanguard Boulevard Malvern, Pennsylvania 19355	16,179,226	5.88%

The information set forth in this table is based solely on our review of Schedules 13G filed with the SEC and as of the date set forth above. We do not have information regarding the foregoing share positions after December 31, 2012. The information regarding the amount and nature of beneficial ownership is to the best of our knowledge.

Security Ownership of Directors, Nominees and Executive Officers

The following table shows the number of shares of common stock and stock units (i.e., non-transferable, non-voting “phantom” units, the value of which is the same as the value of the corresponding number of shares of common stock) beneficially owned on March 15, 2013, by each director, nominee for director and Named Executive Officer, individually, and by all directors and executive officers as a group. As of March 15, 2013, none of the persons listed in the table owned any shares of our preferred stock.

Whenever we refer in this proxy statement to the “named executive officers” or “NEOs”, we are referring to those executive officers that we are required to identify in the Summary Compensation Table on page 41.

2. LNC Stock Units are non-voting, non-transferable phantom stock units that track the economic performance of our common stock.

GOVERNANCE OF THE COMPANY

Our Board of Directors consists of 11 members. Ten of these directors are non-employees, or outside directors, and the Board has determined that all 10 are independent as discussed below.

Board Leadership Structure

The Board has no policy requiring separation of the offices of chief executive officer, or CEO, and Chairman of the Board. The Board believes this decision is part of the succession planning process and takes into consideration the best interests of the Company in making this determination. Currently, we separate the roles of CEO and Chairman of the Board in recognition of the differences between the two roles. The CEO is responsible for setting the strategic direction for the Company and the day-to-day leadership and performance of the Company, while the Chairman of the Board provides guidance to the CEO and management, consults on the agenda for Board meetings, and presides over meetings of the full Board. In May 2012, independent director, William H. Cunningham, was re-elected to serve another one-year term as the non-executive Chairman of the Board. In addition to the duties described above, Mr. Cunningham acts as the key liaison between the Board and management and presides over meetings of the independent directors. As chairman, Mr. Cunningham also has the authority to call special meetings of the Board.

Board's Role in Risk Oversight

Enterprise risk management is an integral part of our business processes. Senior management is primarily responsible for establishing policies and procedures designed to assess and manage the Company's significant risks. Additionally, we have a Corporate Enterprise Risk and Capital Committee made up of members of senior management and the Chief Risk Officer that provides oversight of our enterprise-wide risk structure and the processes established to identify, measure, monitor, and manage significant risks, including credit risk, market risk, and operating risk. The Corporate Enterprise Risk and Capital Committee periodically reviews the Company's strategies and policies for managing these risks. The Board's role is regular oversight of the enterprise risk management process, including reviews of operational, financial, legal and regulatory, and strategic and competitive risks.

The Board exercises its responsibilities periodically as part of its meetings and through its Committees. The Board has delegated the regular oversight of our risk management efforts to the Audit Committee, the oversight of risks involving the capital structure of the enterprise to the Finance Committee and the oversight of compensation-related risk to the Compensation Committee. For a further discussion of the Audit and Finance Committees' oversight responsibilities, see "Audit Committee" and "Finance Committee" at pages 13 and 14 respectively. For a further discussion of the Compensation Committee's oversight of compensation-related risk, see "Risk Considerations Relating to Compensation" at page 32.

The Audit Committee receives quarterly reports from members of senior management, including the Chief Risk Officer, on areas of material risk to the Company, including operational, financial, legal, regulatory, strategic and competitive risks. After the Audit Committee receives these reports, the Chair of the Audit Committee provides a summary of the discussion to the full Board during the Audit Committee report at the next Board meeting. Similar reports are provided by the Compensation and Finance Committees to the full Board. This enables the Board and its Committees to coordinate the risk oversight role, particularly with respect to risk interrelationships. In addition, at its meetings, the Board reviews the most significant risks facing the Company and the manner in which our executives manage these risks. We believe that our current leadership structure supports the Board's oversight role.

Our Corporate Governance Guidelines

The Board of Directors has developed and adopted a set of Corporate Governance Guidelines (the “Guidelines”) to promote the functioning of the Board and its committees and to set forth a common set of expectations as to how the Board should perform its functions. The full text of the Guidelines is available on our website at www.lfg.com. The Guidelines provide a framework for effective corporate governance, including the following key principles:

- A majority of our Board, including the nominees for director, must at all times be independent as that term is defined under the applicable SEC rules and our guidelines for determining the independence of directors, which meet the NYSE listing standards.
- The independent directors must meet in executive session at least once a year and may meet at such other times as they may desire. The outside directors, all of whom are independent, meet in connection with each regularly scheduled Board meeting and at such other times as they may desire.
- Only independent directors may serve on the Audit Committee, Compensation Committee and Corporate Governance Committee.

- The written charters of the Audit, Compensation, Corporate Governance and Finance Committees of the Board are reviewed not less than annually. The charters of the Audit, Compensation and Corporate Governance Committees comply with the NYSE's listing standards and are available on our website at www.lfg.com.
- We have a Code of Conduct that is available on our website at www.lfg.com. The Code of Conduct comprises our "code of ethics" for purposes of Item 406 of Regulation S-K under the Securities Exchange Act of 1934, as amended (the "Exchange Act") and our "code of business conduct and ethics" for purposes of the NYSE listing standards. We intend to disclose amendments to or waivers from a required provision of the code by including such information on our website at www.lfg.com.
 - Directors may not stand for election or reelection after their 75th birthday.
- The Board conducts an annual review of the performance of the Board and the Audit, Compensation, Corporate Governance and Finance Committees each year.
 - The Corporate Governance Committee must re-evaluate the Guidelines each year.

Director Independence

Our Board maintains independence standards, which are included in the Guidelines. These independence standards require that a majority of our directors must at all times be independent as that term is defined under the applicable SEC rules and meet the criteria for independence as set forth in the NYSE listing standards. The NYSE listing standards provide that in order to be considered independent, the Board must determine that a director has no material relationship with us other than as a director.

The Corporate Governance Committee and the Board have reviewed the independence of each director, including the nominees for director at the Annual Meeting, under the standards set forth in the Guidelines and the NYSE listing standards. As a result of this review, the Board has affirmatively determined that directors Avery, Cunningham, Henderson, Johnson, Kelly, Lachman, Mee, Payne, Pittard and Tidwell are independent because they have none of the following material relationships with us (either directly or as a partner, shareholder or officer of an organization that has a material relationship with us):

- is or was an employee, or whose immediate family member is or was an executive officer, of us or our subsidiaries during the three years prior to the independence determination;
- has received, or whose immediate family member received, from us, during any 12-month period within the three years prior to the independence determination, more than \$120,000 in direct compensation, other than director and committee fees and pension or other forms of deferred compensation for prior service (provided such compensation is not contingent in any way on continued service);
- (1) is, or an immediate family member is, a current partner of our external or internal auditor (to the extent the internal auditor is a third-party); (2) is a current employee of such a firm; (3) has an immediate family member who is a current employee of such a firm and who personally works on our audit; or (4) was, or who has an immediate family member that was, within the three years prior to the independence determination (but is no longer) a partner or employee of such a firm and personally worked on our audit within that time;
- is or was employed, or whose immediate family member is or was employed, as an executive officer of another company where any of our present executives served at the same time on that company's compensation committee within the three years prior to the independence determination;
- is or was an executive officer or an employee, or whose immediate family member is or was an executive officer, of a company that makes payments to, or receives payments from, us for property or services in an amount which, in

any single fiscal year, exceeds the greater of \$1 million or 2% of such other company's consolidated gross revenues within the three years prior to the independence determination;

- is an executive officer of a not-for-profit organization to which we or the Lincoln Financial Foundation, Inc. made discretionary contributions in excess of the greater of \$1 million or 2% of the organization's latest publicly available total annual revenues; or
- has any other material relationship with us (either directly or as a partner, shareholder or officer of an organization that has a relationship with us, including any contributions we made to a charitable organization of which the director serves as an executive officer).

For purposes of determining whether any of the independent directors has any other material relationship with us that would be inconsistent with the foregoing, the Board of Directors also has determined that the following relationships are not material and do not impair a director's independence and do not require further review by the Board of Directors:

- a director's, or a director's immediate family member's, purchase or ownership of an insurance, annuity, mutual fund or other product from us, or use of our financial services, all on terms and conditions substantially similar to those generally available to other similarly situated third parties in arm's-length transactions and does not otherwise violate the criteria listed above;
- a director's membership in the same professional association, or the same social, fraternal or religious organization or club, as one of our executive officers or other directors;
- a director's current or prior attendance at the same educational institution as one of our executive officers or other directors;
- a director's service on the board of directors of another public company on which one of our executive officers or directors also serves as a director, except for prohibited compensation committee interlocks;
- a director's employment by another public company whose independent registered public accounting firm is the same as ours;
- relationships involving the provision of products or services either by or to the Company or our subsidiaries or affiliates and involving a director, a director's immediate family members, or a company or charitable organization of which the director or an immediate family member is (or at the time of the transaction, was) a partner, stockholder, officer, employee or director so long as the following conditions are satisfied: the products and services are being provided in the ordinary course of business and on substantially the same terms and conditions, including price, as would be available to similarly situated customers; and the payments to, or payments from, the Company for such products or services do not, in any single fiscal year, equal or exceed the greater of \$120,000 or 2% of the consolidated gross revenues of such other company or charitable organization;
- a director's or a director's immediate family member's service as an officer, director or trustee of another company to which the Company is indebted where the total amount of interest and other fees payable to such other company do not equal or exceed the greater of \$120,000 or 2% of the consolidated gross revenues of such other company; and
- a director's or a director's immediate family member's service as an officer, director or trustee of a charitable organization where our discretionary charitable contributions to the organization are less than the greater of \$120,000 and 2% of that organization's consolidated gross revenue.

In addition, a director who is also a member of our Audit Committee must meet the following additional requirements regarding independence as required by Rule 10A-3(b)(1)(ii) under the Exchange Act:

1. A director is not independent if he or she accepts, directly or indirectly, any consulting, advisory or other compensatory fee from us or any of our subsidiaries, other than the receipt of fixed amounts of compensation under a retirement plan (including deferred compensation) for prior service with us or any of our subsidiaries (provided that such compensation is not contingent in any way on continued service); and
- 2.

A director is not independent if he or she is an “affiliated person” (as defined in Rule 10A-3(e)(1) under the Exchange Act) of us or any of our subsidiaries.

The Board also determined that those directors who are members of the Audit, Compensation and Corporate Governance Committees are likewise independent of our management and us under the Guidelines and the applicable SEC and NYSE rules.

In conducting its independence review, the Board considered, among other things, transactions and relationships between each outside director or any member of his or her immediate family and us or our subsidiaries and affiliates. In making these determinations, the Board considered that in the ordinary course of business, transactions occur between us and companies at which some of our directors are or have been directors, employees or officers. Mr. Cunningham is a professor at and employee of The University of Texas with which we engage in ordinary course of business transactions, namely, providing a 403(b) plan. In each case, the transactions were on terms that are substantially equivalent to those prevailing at the time for comparable transactions, and none reached the threshold levels set forth in our standards.

Under our standards, only discretionary contributions to not-for-profit organizations, for which a director serves as an executive officer, which are greater than \$1 million or 2% of the organization's latest publicly available total annual revenues will impair the director's independence. None of our directors are executive officers of the not-for-profit organizations to which we or the Lincoln Financial Foundation, Inc. made contributions during 2012.

Director Nomination Process

The Corporate Governance Committee of the Board, which is composed solely of independent directors, is responsible for: (1) assisting the Board by identifying individuals qualified to become Board members; (2) recommending to the Board the director nominees for the next annual meeting of shareholders; and (3) evaluating the competencies appropriate for the Board and identifying missing or under-represented competencies. Our Corporate Governance Guidelines provide that the Board is responsible for selecting its own members.

The Corporate Governance Committee does not have any specific minimum qualifications that must be met by a nominee. However, its charter provides that "[I]n nominating candidates, the Committee shall take into consideration such factors as it deems appropriate. These factors may include judgment, skill, diversity, experience, the extent to which the candidate's experience complements the experience of other Board members and the extent to which the candidate would be a desirable addition to the Board and any Committees of the Board. The Committee may consider candidates proposed by management, but is not required to do so."

The Corporate Governance Committee begins by reviewing the individual director assessments of existing directors who are being considered for re-nomination. Current members of the Board who have skills and experience that are relevant to our business, who are willing to continue to serve and whose director assessment indicates the director has performed well during the most recent term are considered for re-nomination. If any member of the Board being considered for re-nomination does not wish to serve, or if the Corporate Governance Committee decides not to re-nominate a given member, the Corporate Governance Committee identifies the desired skills and experience that a potential new nominee should possess. The Corporate Governance Committee also considers whether it is necessary or desirable that the nominee be considered independent under the NYSE listing standards, and, if so, whether the individual meets the standards for independence. The Corporate Governance Committee may, but is not required to, retain an outside firm to assist in the identification and evaluation of potential nominees.

The Corporate Governance Committee is responsible for reviewing with the Board the appropriate skills and characteristics required of Board members in the context of the current make-up of the Board. This assessment includes integrity, business acumen, age, experience, professional accomplishments, skills such as an understanding of marketing, finance, accounting, regulation and public policy and a commitment to our shared values, among others – all in the context of an assessment of the perceived needs of the Board at a given point in time. Our Corporate Governance Guidelines also specify that diversity should be considered by the Corporate Governance Committee in the director identification and nomination process. The Committee seeks nominees with a broad diversity of backgrounds, experience, professions, education and differences in viewpoints and skills. The Board does not have a formal policy with respect to diversity; however, the Board and the Corporate Governance Committee believe that the backgrounds and qualifications of the directors, considered as a group, should provide a substantive blend of experience, knowledge and abilities that allow the Board to fulfill its responsibilities. In the annual evaluation of the Board and committees, the Board considers whether the members of the Board reflect such diversity and whether such diversity contributes to a constructive and collegial environment.

In connection with the evaluation of a new nominee, the Corporate Governance Committee determines whether it should interview the nominee, and, if warranted, one or more members of the Corporate Governance Committee interview the nominee. Other directors may also be asked to interview the nominee. Upon completing the evaluation

and the interview, the Corporate Governance Committee makes a recommendation to the Board as to whether to nominate the director nominee.

Although the Corporate Governance Committee does not solicit shareholder recommendations regarding director nominees to be proposed by the Board, it will consider such recommendations if they are made in accordance with the procedures set forth in Article I, Section 11 of our Bylaws, which is set forth in Exhibit 1 to this proxy statement and discussed beginning on page 58 under the heading "Shareholder Proposals." If the Corporate Governance Committee determines that such a nominee should be considered as a director, it will recommend the nominee to the Board. The Board may accept or reject the proposed nominee. There are no differences in the manner in which the Corporate Governance Committee evaluates nominees for director based on whether the nominee is recommended by a shareholder.

Communications with Directors

The Board provides a process for shareholders and other interested persons to send communications to the Board or to the outside directors of the Board. Shareholders and other interested persons may send such communications to the outside members of the Board of Directors at:

The Outside Directors
Lincoln National Corporation
150 N. Radnor Chester Road
Radnor, PA 19087
Attention: Office of the Corporate Secretary

All communications will be received and processed by the Corporate Secretary. Relevant and appropriate communications will be referred to the non-executive Chairman of the Board. You may communicate anonymously and/or confidentially. If you choose to submit your communication anonymously, we will be unable to contact you in the event we require further information. If you choose to communicate confidentially, we cannot guarantee absolute confidentiality.

The Audit Committee has established a policy for reporting information related to possible violations of our Code of Conduct, or concerns or complaints pertaining to our accounting, internal controls or audit matters or other related concerns. The policy can be found on our website at www.lfg.com.

Director Attendance at 2012 Annual Meeting

The Board does not have a formal policy regarding attendance by Board members at our Annual Meeting of Shareholders, but directors are encouraged to attend the Annual Meeting of Shareholders. All of our directors attended the 2012 Annual Meeting of Shareholders.

THE BOARD OF DIRECTORS AND COMMITTEES

Our Board is composed of 11 members. The members of the Board, including Board nominees, their relevant term of office and certain biographical information are set forth beginning on page 15 under "Item 1 – Election of Directors." Compensation of our directors is discussed on page 20 under "Compensation of Directors."

During 2012, the Board met four (4) times. All directors attended 75% or more of the aggregate of: (1) the total number of meetings of the Board and (2) the total number of meetings held by committees on which he or she served.

Board Committees

The Board currently has six standing committees: the Audit Committee, the Compensation Committee, the Corporate Governance Committee, the Executive Committee, the Finance Committee and the Committee on Corporate Action. The following table lists the Directors who currently serve on the Committees and the number of meetings held for each Committee during 2012. The Audit, Compensation, Corporate Governance and Finance Committees each conduct a self-evaluation of their respective committee's performance each year.

The functions and responsibilities of the standing committees of our Board are described below.

Audit Committee

The primary function of the Audit Committee is oversight, including risk oversight. The principal functions of the Audit Committee include:

- assist the Board of Directors in its oversight of: (1) the integrity of our financial statements; (2) our compliance with legal and regulatory requirements; (3) the independent auditor's qualifications and independence; (4) the performance of our general auditor and independent auditor; and (5) our policies and processes for risk assessment and risk management;
- appoint, retain and terminate the independent auditors, and approve all engagements of the independent auditors;
 - discuss any significant matters arising from any audit;
- discuss our annual and quarterly consolidated financial statements and "Management's Discussion and Analysis of Financial Condition and Results of Operations" included in our SEC filings and annual report to shareholders, if applicable;
- inquire about significant risks and exposures, if any, and review and assess the steps taken to monitor and manage such risks;
- review and discuss the risk policies and procedures adopted by management and the implementation of these policies;
 - review the qualifications and background of senior risk officers;
- establish procedures for the receipt, retention and treatment of complaints regarding accounting, internal auditing controls or auditing matters, and for the confidential, anonymous submission by our employees of concerns regarding questionable accounting or auditing matters;
 - consult with management before the appointment or replacement of the internal auditor;
- prepare the report required to be prepared by the Audit Committee pursuant to SEC rules for inclusion in our annual proxy statement; and
- report the Committee's activities to the Board on a regular basis and make any recommendations as the Committee deems appropriate.

The Board has determined that William J. Avery is an "audit committee financial expert," as defined under Item 407 of Regulation S-K under the Exchange Act. Mr. Avery is an independent director under applicable SEC rules, NYSE listing standards and our Corporate Governance Guidelines. The Audit Committee has authority to obtain advice and assistance from internal or external legal, accounting or other advisors. The Board has adopted a written charter for the Audit Committee, a copy of which is available on our website at www.lfg.com.

More information concerning the Audit Committee, including the Audit Committee Report, is set forth under "Ratification of the Appointment of the Independent Registered Public Accounting Firm" beginning on page 22.

Compensation Committee

The principal functions of the Compensation Committee include:

- establish, in consultation with its compensation consultant and senior management, our general compensation philosophy;
 - ensure succession plans are in place for the CEO and other executive officers;
- review and approve corporate goals and objectives relevant to the compensation of the CEO, evaluate the CEO's performance in light of these goals and set the CEO's compensation level based on this evaluation;

- evaluate on an annual basis whether the Company's compensation programs create unnecessary risks that are reasonably likely to have a material adverse effect on the Company;
- discuss with management the Compensation Discussion and Analysis to be included in the Company's proxy statement;
- review and approve all compensation strategies, policies and programs that encompass total remuneration of our executive officers and key personnel;
- make recommendations to the Board regarding incentive compensation and equity-based plans, and approve all grants and awards under such plans to executive officers;
 - approve employment and severance agreements for executive officers;
- approve employee benefit and executive compensation plans and programs and changes to such plans and programs, if the present value cost of each plan or change to a plan will not exceed \$20 million for the next five calendar years after their effectiveness; and
- report the Committee's activities to the Board on a regular basis and make any recommendations as the Committee deems appropriate.

A copy of the Compensation Committee Charter is available on our website at www.lfg.com. The Compensation Committee is directly responsible for the appointment, compensation and oversight of the work of any compensation consultant, independent legal counsel and other advisers. The Compensation Committee may

select any such adviser only after taking into account certain independence factors. More information concerning the Compensation Committee, including the role of its compensation consultant and our executive officers in determining or recommending the amount or form of executive compensation, is set forth in the “Compensation Discussion & Analysis” section beginning on page 24.

Corporate Governance Committee

The principal functions of the Corporate Governance Committee include:

- identify individuals qualified to become Board members;
- subject to our Bylaws, recommend to the Board nominees for director (including those recommended by shareholders in accordance with our Bylaws) and for Board Committees;
- take a leadership role in shaping our corporate governance and recommend to the Board the corporate governance principles applicable to us;
 - develop and recommend to the Board standards for determining the independence of directors;
 - recommend to the Board an overall compensation program for directors;
- make recommendations to the Board regarding the size of the Board and the size, structure and function of Board Committees;
 - assist in the evaluation of the Board and be responsible for the evaluation of individual directors; and
- report the Committee’s activities to the Board on a regular basis and make any recommendations as the Committee deems appropriate.

The Corporate Governance Committee has the authority to retain and terminate search firms and to approve any search firm’s fees and terms of retention and to obtain advice and assistance from internal or external legal, accounting or other advisors. A copy of the Corporate Governance Committee Charter is available on our website at www.lfg.com.

Executive Committee

The Executive Committee meets at such times as it determines to be appropriate and has the authority to act for the Board in the management and direction of the business and affairs of the Company during intervals between Board meetings, except for those matters that are expressly delegated to another committee or the full Board. The Executive Committee will report to the Board of Directors any actions taken by the Committee as soon as practicable. A copy of the Executive Committee Charter is available on our website at www.lfg.com.

Finance Committee

The principal functions of the Finance Committee include:

- review and provide guidance to senior management with respect to our annual three-year financial plan;
- review and provide guidance to senior management with respect to our capital structure, including reviewing and approving (within guidelines established by the Board) issuance of securities by us or any of our affiliates, reviewing and approving significant “off balance sheet” transactions and reviewing and recommending changes, if necessary, to our dividend and share repurchase strategies;
 - review our overall credit quality and credit ratings strategy;
 - review and provide guidance to senior management with respect to our reinsurance strategies;
- review and provide guidance to senior management with respect to proposed mergers, acquisitions, divestitures, joint ventures and other strategic investments;

- review the general account and approve our investment policies, strategies and guidelines;
- review our hedging program and the policies and procedures governing the use of financial instruments including derivative instruments;
- review the adequacy of the funding of our qualified pension plans, including significant actuarial assumptions, investment policies and performance; and
- report the Committee's activities to the Board on a regular basis and make any recommendations as the Committee deems appropriate.

The Finance Committee has authority to obtain advice and assistance from internal or external legal, accounting or other advisors. A copy of the Finance Committee Charter is available on our website at www.lfg.com.

Committee on Corporate Action

Within limits now or hereafter specified by the Board and, in some cases, the Finance Committee, the principal functions of the Committee on Corporate Action include:

- determine the pricing of the securities offered from our shelf registration statement (including the interest rate, dividend rate, distribution rate or contract adjustment payments, as applicable, the conversion ratio or settlement rate, as applicable, the price at which such securities will be sold to the underwriters, the underwriting discounts, commissions and reallowances relating thereto and the price at which such securities will be sold to the public);

- approve, as necessary, the underwriting agreement, security and other transaction documents relating to the offering and sale of the securities under our shelf registration statement; and
 - appoint certain classes of our officers as the Board may determine by resolution.

ITEM 1 - ELECTION OF DIRECTORS

Our Board is currently divided into three classes. Directors elected at the Annual Meeting are elected for three-year terms. However, the Board intends to adopt amendments to the Company's Bylaws at its May 2013 meeting to begin declassifying the Board in 2015. Accordingly, beginning with the 2015 Annual Meeting of Shareholders, the class of directors that will be up for re-election at that meeting will only be elected for a one-year term. We will continue this process each year thereafter, such that by the 2017 Annual Meeting of Shareholders, the board will no longer be classified and each director will be elected on an annual basis.

William H. Cunningham has served as our non-executive chairman since 2009 and a director since 2006. The Board of Directors is authorized under our Bylaws to fill a vacancy on the Board or reduce the size of the Board without seeking shareholder approval.

The following descriptions of each of our directors provide information as of the date of this proxy statement regarding the particular experience, qualifications, attributes or skills that led our Board to the conclusion that each of the persons listed below should serve as a director for the Company. Each director brings a strong and unique background and set of skills to the Board, giving the Board as a whole competence, diversity and experience in a wide variety of areas. The Board believes all of our directors have integrity and honesty and adhere to high ethical standards. They have each demonstrated business acumen and an ability to exercise sound judgment, as well as a commitment of service to the Company and our Board.

Nominees for Director

Unless you direct otherwise, or specifically indicate that you wish to abstain from voting for one or more of the nominees on the proxy you complete, your proxy will be voted for the Board's nominees for terms expiring at the 2016 Annual Meeting or until their successors are duly elected and qualified. All of the nominees are current directors of the Company. All nominees have agreed to serve on the Board if they are elected. The identity of and certain biographical information relating to, the nominees are set forth below. If any nominee is unable (or for whatever reason declines) to serve as a director at the time of the Annual Meeting, proxies may be voted for the election of a qualified substitute nominee selected by the Board.

Nominees for a Term Expiring at the 2016 Annual Meeting

William J. Avery, Retired Chairman of the Board and Chief Executive Officer of Crown Cork & Seal Company, Inc.

Mr. Avery, 72, elected to the Board of Directors in 2002, serves as a member of the Audit and Corporate Governance Committees. In 2001, Mr. Avery retired from Crown Cork & Seal, a manufacturer of packaging products for consumer goods. Mr. Avery began his career as a management trainee with Crown Cork & Seal in 1959 in the

Chicago plant while he completed his studies at the University of Chicago. He attained successively more responsible positions with the company as plant manager, area manufacturing manager and vice president of sales in the Mid-West Division. In 1974, he was appointed corporate vice president of sales. He was appointed senior vice president in 1976 and in 1981 he became president and chief operating officer. In 1989, he became chief executive officer and, in 1990, he assumed the additional position of chairman of the board. Through his experience as the former President, CEO and Chairman of the Board of Crown, Cork & Seal (now Crown Holdings, Inc.), Mr. Avery brings a wealth of experience in driving strategic direction and leading organizational growth. Mr. Avery also has substantial experience in accounting, financial reporting, marketing and mergers and acquisitions, the first two of which serve to qualify him as an “audit committee financial expert” under the SEC guidelines. In addition to his years of service on our Board, he previously served for over 10 years on the board and audit committee of Rohm and Haas Company, a diversified chemical company.

Other Public Company Board Service: None.

William Porter Payne, Chairman, Centennial Holding Company, LLC

Mr. Payne, 65, elected to the Board of Directors in 2006, serves as the Chair of the Corporate Governance Committee and a member of the Executive Committee. Mr. Payne serves as the Chairman of Centennial Holding Company, LLC, a real estate investment firm. Previously, Mr. Payne served in an executive management role with Gleacher and Company, an investment banking and asset management firm, and had been with the firm from 2000 to 2013. Formerly, he was Vice Chairman of Bank of America, Director

of Healthcon/WebMD and Vice Chairman and Director of Premiere Technologies. Throughout his career, Mr. Payne has developed extensive experience and financial expertise by providing strategic advisory services to complex organizations. In addition to his financial and investment experience, earlier in his career, Mr. Payne worked as an attorney, specializing in commercial real estate transactions and mergers and acquisitions. This breadth of knowledge brings an interdisciplinary set of skills to the Board. Through his service on the board of a number of public companies, including Cousins Properties, Inc., Anheuser Busch, Inc. and Crown Crafts, Inc., Mr. Payne brings valuable expertise in corporate governance.

Other Public Company Board Service: Cousins Properties, Inc. (1996 – Present).

Recent Past Public Company Board Service: Anheuser Busch, Inc. (1997 – 2008); Crown Crafts, Inc. (2001 – 2006); and Jefferson-Pilot Corporation (1993 – 2006).

Mr. Pittard, 67, elected to the Board of Directors in 2006, serves as the Chair of the Compensation Committee. He also serves as a director of Lincoln Life & Annuity Company of New York, one of our insurance subsidiaries. Mr. Pittard currently serves as the Chairman of PPA LLC, a “C” level human capital firm. Prior to forming PPA LLC, Mr. Pittard served as the Chairman and CEO of ACT Bridge from 2011 to 2013. Mr. Pittard has also served on the faculty as a leadership instructor of the Terry School of Business at the University of Georgia since 2002. Before joining the University of Georgia, Mr. Pittard served as chairman, president and chief executive officer of Heidrick & Struggles International, Inc., a worldwide provider of executive-level search and leadership services. During his tenure as CEO of Heidrick & Struggles, the firm experienced impressive financial growth and global expansion. He began his career with Heidrick in 1983, and during his tenure held the titles partner, managing partner (Atlanta), North America managing partner, and president and CEO. Through his depth and breadth of experience from having served as the CEO of one of the largest publicly traded global recruiting firms, Mr. Pittard brings his insights as a senior executive along with his understanding of executive compensation matters, insurance, investments and his experience in driving strategic organizational growth. In addition to serving on our Board, Mr. Pittard has also served on the boards of other public companies, including Artisan Funds and CBeyond, Inc.

Other Public Company Board Service: Director of Artisan Funds (2001 – Present).

Recent Past Public Company Board Service: CBeyond, Inc. (2007 – 2009); and Jefferson-Pilot Corporation (1998 – 2006).

The Board of Directors recommends a vote FOR each of the nominees.

Recent Past Public Company Board Service: Jefferson-Pilot Corporation (2005 – 2006).

COMPENSATION OF DIRECTORS

The Board of Directors adheres to the following guidelines in establishing outside director compensation:

- a significant portion of each outside director's compensation is to be paid in shares of our common stock or stock units based on our common stock; and
- outside directors are expected to own shares of our common stock, or stock units based on our common stock, at least equal in value to three times the cash portion of their annual retainer (3x \$86,000) within five years after first being elected (33% of vested options to purchase the Company's common stock ("Options") are counted toward this requirement).

During 2012, our outside directors received an annual retainer of \$207,000, excluding any fees received for holding the position of non-executive Chairman of the Board, a committee chair or a member of the Audit Committee. The annual retainer was paid as follows: \$86,000 in cash; \$78,000 in deferred stock units; and \$43,000 in Options. Beginning in 2013, each Director will receive \$103,000 in deferred stock units, increasing their annual retainer to \$232,000. Directors may elect to defer the cash component of their annual retainer into various "phantom" investment options, including the Lincoln National Corporation stock unit investment option, available under the Lincoln National Corporation Deferred Compensation Plan for Non-Employee Directors (the "Directors' DCP"). The investment options are the same as those offered under the Employees' 401(k) Plan. Amounts notionally invested into "phantom" investment options are credited with earnings or losses as if the deferred amounts had been actually invested in either our common stock, or in any of the available investment options. All amounts deferred under the Directors' DCP are payable only upon the director's retirement or resignation from the Board. Any amounts invested in the Lincoln National Corporation stock unit investment option are payable only in shares of our common stock.

In addition, our non-executive Chairman of the Board receives an additional \$200,000 annual retainer payable in deferred stock units. Committee chairs receive an additional annual cash retainer of \$10,000, except the chair of the Audit Committee. The chair of the Audit Committee receives an additional annual cash retainer of \$20,000, and each other Audit Committee member receives an additional annual cash retainer fee of \$5,000.

No Board or Committee meeting fees are paid for regularly scheduled meetings. However, the Corporate Governance Committee has discretion to recommend to the Board additional compensation (\$1,100 per meeting) for meetings in addition to the regularly scheduled Board or Committee meetings. Outside directors who are also directors of Lincoln Life & Annuity Company of New York ("LNY"), our indirect, wholly owned subsidiary, receive an annual cash retainer of \$15,000 and a fee of \$1,100 for each Board and Committee meeting of LNY that they attend. For 2012, the outside directors of LNY who received such fees were Mr. Henderson, Ms. Lachman and Mr. Pittard.

We also provide financial planning services to non-employee directors with a value not to exceed \$20,000 for an initial financial plan, and \$10,000 for annual updates. A Lincoln Financial Network financial planner must provide the financial planning services to be eligible for reimbursement. We also allow non-employee directors to participate at their own cost in certain of our health and welfare benefits including our self-insured medical and dental plans as well as life insurance and accidental death and dismemberment coverages. The participating non-employee director is responsible for all of the premiums for the coverage. Finally, directors are eligible to participate in a charitable gift program through which the Lincoln Financial Foundation, Inc. will donate a matching gift from a director to one or more eligible recipient organizations, up to an annual total maximum of \$10,000 for all gifts. For 2013, the matching gift maximum will be \$15,000.

The table below contains information about the compensation paid to outside directors during the fiscal year ended December 31, 2012.

COMPENSATION OF NON-EMPLOYEE DIRECTORS DURING 2012

Name*	Fees Earned or Paid in Cash1 (\$)	Stock Awards2 (\$)	Option Awards3 (\$)	All Other Compensation (\$)	Total (\$)
William J. Avery	91,000	78,000	43,009	20,000 ^{4,5}	232,009
William H. Cunningham	86,000	278,000	43,009	10,000 ⁵	417,009
George W. Henderson, III	110,400	78,000	43,009	-	231,409
Eric G. Johnson	96,000	78,000	43,009	-	217,009
Gary C. Kelly	91,000	78,000	43,009	-	212,009
M. Leanne Lachman	125,400	78,000	43,009	10,000 ⁵	256,409
Michael F. Mee	86,000	78,000	43,009	-	207,009
William Porter Payne	96,000	78,000	43,009	-	217,009
Patrick S. Pittard	115,400	78,000	43,009	-	236,409
Isaiah Tidwell	91,000	78,000	43,009	9,500 ⁵	221,509

* Mr. Glass, an employee-director, does not receive any director compensation.

1. As described above, \$78,000 of the annual retainer of \$207,000 in 2012 was paid in deferred stock units under the Directors' DCP, which are reported in the Stock Awards column. The outside directors could elect to defer additional retainer and fees in the Directors' DCP. In 2012, Mr. Mee elected to defer 100% of his cash fees. The fees shown also include any fees that an outside director was paid or earned as the chair of a committee, as a member of the Audit Committee or for service on the Board of LNY.

2. Represents the grant date fair value of the portion of each director's annual retainer that was paid in deferred stock units. Mr. Cunningham received an additional \$200,000 in deferred stock units for serving as non-executive Chairman of the Board during 2012. The fair values of the stock and option awards were determined in accordance with Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic 718, Stock Compensation. The assumptions made in calculating the grant date fair value of stock and option awards are set forth in Note 19 of the Notes to the Consolidated Financial Statements, included in Item 8 of the Form 10-K for the year ended December 31, 2012. At December 31, 2012, the vested stock units beneficially owned by the directors were: Mr. Avery, 26,984; Mr. Cunningham, 59,719; Mr. Henderson, 43,586; Mr. Johnson, 36,618; Mr. Kelly, 8,801; Ms. Lachman, 46,422; Mr. Mee, 47,376; Mr. Payne, 25,132; Mr. Pittard, 27,194; and Mr. Tidwell, 19,862. Stock awards consist of the deferred stock units reported in the Stock Awards column above and phantom units awarded under the Directors' Value Sharing Plan, which was terminated as of July 1, 2004, and include any accrued dividend equivalents, which are automatically deemed reinvested in additional phantom units of our common stock.

3. Represents the grant date fair value of the portion of each director's annual retainer that was paid in option awards. At December 31, 2012, the number of unexercised Options held by each of the directors was: Mr. Avery, 20,119; Mr. Cunningham, 54,910; Mr. Henderson, 54,910; Mr. Johnson, 28,194; Mr. Kelly, 6,054; Ms. Lachman,

28,194; Mr. Mee, 28,194; Mr. Payne, 54,910; Mr. Pittard, 54,910; and Mr. Tidwell, 32,134. The Options held by Messrs. Cunningham, Henderson, Payne, Pittard, and Tidwell include former options for Jefferson-Pilot Corporation common stock, which were converted into options for our common stock in connection with our merger with Jefferson-Pilot.

4. This amount includes the provision of financial planning services with a Lincoln Financial Network advisor with an aggregate incremental cost to us of \$10,000.

5. Directors are eligible to participate in the Lincoln Financial Foundation, Inc. matching charitable gift program, which matches contributions to various non-profit entities. These amounts reflect matching contributions made under this program.

**ITEM 2 - RATIFICATION OF THE APPOINTMENT OF
THE INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM**

The Audit Committee evaluates the performance of the Company's independent auditors each year and determines whether to reengage the current independent auditors or to consider other audit firms. In doing so, the Audit Committee considers the quality and efficiency of the services provided by the auditors, the auditors' capability and the auditors' technical expertise and knowledge of the Company's operations and industry. On February 28, 2013, our Audit Committee appointed Ernst & Young LLP as our independent registered public accounting firm for the year ending December 31, 2013. We have engaged this firm and its predecessors in this capacity continuously since 1968.

Although not required, as a matter of good corporate governance, we request that you ratify this appointment. If you do not ratify this appointment, the Audit Committee may reconsider its appointment. Even if you do ratify this appointment, the Audit Committee is empowered to terminate Ernst & Young LLP and select and retain another independent registered public accounting firm at any time during the year.

Representatives of Ernst & Young LLP will be present at the Annual Meeting. They will be given the opportunity to make a statement, if they so desire, and will be available to respond to appropriate questions relating to the audit of our audited consolidated financial statements for the year ended December 31, 2012.

The Board of Directors recommends a vote FOR the ratification of Ernst & Young LLP as our independent registered public accounting firm for 2013.

**Independent Registered Public Accounting Firm
Fees and Services**

Below are fees that were incurred by Ernst & Young LLP, our independent registered public accounting firm, for fiscal years 2012 and 2011 for professional services rendered as well as the related percentage of total fees that each included in each category.

	Fiscal Year Ended -December 31, 2012	% of Total Fees	Fiscal Year Ended -December 31, 2011	% of Total Fees
Audit Fees ¹	\$9,109,780	87.5	\$8,224,297	86.5
Audit-Related Fees ²	1,146,755	11.0	1,285,754	13.5
Tax Fees ³	150,947	1.5	--	--
All Other Fees	--	--	--	--
TOTAL FEES:	\$10,407,482	100	\$9,510,051	100

- 1. Audit Fees.** Fees for audit services include fees and expenses associated with the annual audit, the reviews of our interim financial statements included in quarterly reports on Form 10-Q, accounting consultations directly associated with the audit, and services normally provided in connection with statutory and regulatory filings.
- 2. Audit Related Fees.** Audit-related services principally include employee benefit plan audits, service auditor reports on internal controls, due diligence procedures in connection with acquisitions and dispositions, reviews of registration statements and prospectuses and accounting consultations not directly associated with the audit or quarterly reviews.

3. Tax Fees. Fees for tax services include tax filing and advisory services.

Audit Committee Pre-Approval Policy

The Audit Committee pre-approves all audit and permissible non-audit services provided by the Independent Auditors. These services may include audit services, audit-related services, tax services and other services. The Audit Committee has adopted a policy for the pre-approval of services provided by the Independent Auditors.

- Under the policy, pre-approval is generally provided for work associated with the following:
- registration statements under the Securities Act of 1933 (for example, comfort letters or consents);
 - statutory or other financial audit work for that is not required for the Exchange Act audits;
 - due diligence work for potential acquisitions or dispositions;
 - attest services not required by statute or regulation;

- adoption of new accounting pronouncements or auditing and disclosure requirements and accounting or regulatory consultations;
 - internal control reviews and assistance with internal control reporting requirements;
 - review of information systems security and controls;
- tax compliance, tax planning and related tax services, excluding any tax service prohibited by regulatory or other oversight authorities, expatriate and other individual tax services; and
 - assistance and consultation on questions raised by regulatory agencies.

For each proposed service, the Independent Auditors are required to provide detailed supporting documentation at the time of approval to permit the Audit Committee to make a determination whether the provision of such services would impair the Independent Auditors' independence.

The Audit Committee has approved in advance certain permitted services whose scope is routine across business units, including services generally provided for work associated with the categories outlined above.

The Company has been advised that neither Ernst & Young LLP, nor any member of the firm, has any financial interest, direct or indirect, in any capacity in the Company or its subsidiaries. The Company has made similar inquiries of its directors and executive officers regarding their relationship to Ernst & Young LLP that identified no direct or indirect financial interest.

Audit Committee Report

Management has primary responsibility for preparing our financial statements and establishing financial reporting systems and internal controls. Management also is responsible for reporting on the effectiveness of the Company's internal control over financial reporting. The independent registered public accounting firm is responsible for performing an independent audit of the Company's consolidated financial statements and issuing a report on those financial statements. The independent registered public accounting firm is also responsible for issuing an attestation report on the Company's internal control over financial reporting.

In this context, the Audit Committee has reviewed and discussed with management the audited financial statements for the fiscal year ended December 31, 2012. The Audit Committee has also discussed with the Company's independent registered public accounting firm the matters required to be discussed by Statement on Auditing Standards No. 61, as amended (AICPA, Professional Standards, Vol. 1 AU section 380), as adopted by the Public Company Accounting Oversight Board in Rule 3200T, and other required matters. Additionally, the Audit Committee has received the written disclosures and the letter from the independent registered public accounting firm required by the applicable requirements of the Public Company Accounting Oversight Board regarding the independent registered public accounting firm's communications with the Audit Committee concerning independence, and has discussed with the independent registered public accounting firm the independent registered public accounting firm's independence.

Based upon the review and discussions referred to in this report, the Audit Committee recommended to the Board that the audited consolidated financial statements for the fiscal year ended December 31, 2012 be included in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2012 for filing with the SEC.

SECTION 16(a) BENEFICIAL OWNERSHIP
REPORTING COMPLIANCE

Section 16(a) of the Exchange Act requires our directors, certain officers and beneficial owners of greater than 10% of our equity securities to file reports of holdings and transactions with the SEC and the NYSE. Based on written representations that we have received from our officers subject to Section 16 and directors, and a review of the reports filed with respect to transactions that occurred during 2012, we believe that each of our directors and officers subject to Section 16 met all applicable filing requirements.

EXECUTIVE COMPENSATION

Compensation Discussion & Analysis

Overview

This Compensation Discussion & Analysis (“CD&A”) provides an overview and analysis of our executive compensation programs and philosophy, as well as the various actions taken with respect to the 2012 compensation of those executive officers named in the compensation tables (hereinafter referred to as “executives” or “NEOs”) beginning on page 41 of this proxy statement who are:

- Dennis R. Glass, President and Chief Executive Officer, our principal executive officer (“CEO”);
- Randal J. Freitag, Executive Vice President and Chief Financial Officer, our principal financial officer (“CFO”);
 - Adam G. Ciongoli, Executive Vice President and General Counsel;
 - Robert W. Dineen, Vice Chairman of Lincoln Financial Network; and
 - Mark E. Konen, President of Insurance Solutions and Annuities.

In general, this CD&A provides a discussion and analysis of:

- our foundational pay for performance compensation philosophy and how our compensation programs are structured to emphasize this philosophy;
 - the establishment, governance and administration of our compensation programs;
- the various actions taken in 2012 with respect to annual and long-term compensation programs for our executives; and
 - the short- and long-term incentive programs for the following performance periods:
 - the 2012 annual incentive awards for the performance period ended December 31, 2012; and
 - the 2012-2014 long-term incentive awards granted in 2012 for the performance period ending December 31, 2014.

We encourage you to read the CD&A in conjunction with the compensation tables on pages 41 to 56 of this proxy statement.

Executive Summary

Highlights of our 2012 Executive Compensation Program Design

- Compensation Tied to Performance and Shareholder Return. We link executive compensation to the performance of the Company as a whole and to the performance of our business units (for business unit executives). A large

percentage of total targeted compensation is incentive-based and at risk. We believe executives with higher levels of responsibility and a greater ability to influence enterprise results should have a greater percentage of their total compensation in the form of variable compensation that is dependent on performance.

The Annual Incentive Program (the "AIP") for 2012 uses a formulaic approach with balanced performance measures and goals that tie compensation to key enterprise performance metrics. The Long-Term Incentive Program (the "LTI") for 2012-2014 is comprised of a mix of long-term equity grants that includes performance shares with a three-year performance cycle.

The chart below illustrates the 2012 targeted direct compensation mix for the CEO (base salary, AIP and LTI):

Note, the amounts in this chart are shown at target and therefore will not match the values reflected in the Summary Compensation Table at page 41 of this proxy statement.

The chart below illustrates the average 2012 targeted direct compensation mix for the other NEOs in the aggregate:

Note, the amounts in this chart are shown at target and therefore will not match the values reflected in the Summary Compensation Table at page 41 of this proxy statement.

As the charts illustrate, the fixed element of compensation, base salary, makes up the smallest percentage of total annual compensation for our executives. The largest components of total annual compensation – long-term and annual incentive awards – are variable and will fluctuate in value based on corporate performance and share price.

- **Compensation Best Practices.** The Compensation Committee (or the “Committee”) considers competitive market trends and the views of its shareholders when considering changes to our compensation practices and policies. Some examples of our governance and compensation practices include:
 - “Double trigger” vesting provisions in our equity awards following a change of control;
 - No tax gross up benefits upon a change of control;
 - Limited perquisites for executive officers; and
 - Stock ownership guidelines and stock holding requirements.

For additional information, please see “Change of Control Arrangements” on page 50 of this proxy statement and “Alignment with Shareholders” on page 31 of this proxy statement.

- **Independent Compensation Consultant.** The Compensation Committee’s compensation consultant, Pay Governance LLC, was engaged by the Compensation Committee and provides services only to the Compensation and Corporate Governance Committees. The Compensation Committee consults with Pay Governance LLC on significant compensation decisions regarding our executives. For additional information, please see “Role of the Compensation Consultant” on page 32 of this proxy statement.

Linking Pay to Performance

Our approach to executive compensation is, and has been, to pay for performance – that is, an executive’s total compensation should rise or fall based on Company and individual performance. By making equity a substantial component of executive compensation, we tie our executives’ long-term interests directly to that of our shareholders.

CEO Historical Direct Compensation (\$000) – Target versus Realized

Competitive Market for Talent – represents the market median of the peer company survey data from the Diversified Insurance Study of Executive Compensation presented to the Compensation Committee for the position the executive was in during the year that corresponds to the year on the horizontal axis of the chart. For additional information on the companies included in the survey data and the calculation of market median, see page 33 of this proxy statement.

LNC Annual Target – represents the annual targeted total direct compensation set by the Committee for the executive for the year corresponding to the year on the horizontal axis of the chart.

Value Realized – represents the actual value of base salary, discretionary bonuses, annual incentive program payments and long-term incentive program payments earned and paid; these payments are reflected in the year in which they were earned for annual compensation and in the year they were granted for long-term incentive compensation. The “value realized” also includes the fair market value of restricted stock units and the in-the-money value of Options that were granted in the year corresponding to the year on the horizontal axis of the chart above valued at December 31, 2012. The fair market value of the restricted stock units was calculated using the closing price of our stock on December 31, 2012. The value of the in-the-money Options was calculated using the spread between the closing price of our stock on December 31, 2012 and the stock option exercise price.

For additional information on data included in the above chart and the method used to calculate the values, see Exhibit 2 to this proxy statement.

LNC Year-end Closing Stock Price

Our executive compensation programs are designed to align our executives' interests with those of our shareholders. The chart below reflects the impact of our long-term incentive program design and share ownership requirements on the CEO's unrealized compensation that continues to be subject to future gains and losses thereby reinforcing the link between executive pay and shareholder value.

CEO – Outstanding Equity Awards
Accumulated Grant Date Fair Value vs. Current Value (\$000)

Outstanding Equity Award Value – Accumulated Grant Date Fair Value – represents the cumulative original grant date fair value for all equity awards that were outstanding (i.e., unvested stock and performance units and unexercised Options) at the end of the fiscal year corresponding to the year on the horizontal axis of the chart. For example, if \$1 million in Options were granted to an executive each year consecutively for 5 years in a row and the executive had not exercised any of the Options (i.e., they are still outstanding), then the cumulative original grant date value total of outstanding equity awards at the end of the last year would be \$5 million (i.e., \$1 million x five years). Once unexercised Options expire (historically the option term has been 10 years from the date of grant), these awards are then excluded from the accumulated total calculation.

Outstanding Equity Award Value – Year-End Current Value – represents the cumulative current market value total for all equity awards that were outstanding at the end of the fiscal year corresponding to the year on the horizontal axis of the chart. Current market value was calculated using the year-end stock price of the respective fiscal year, and for Options, current market value represents the in-the-money value of outstanding Options at the end of the respective fiscal year.

For additional information on data included in the above chart and the method used to calculate the values, see Exhibit 2 to this proxy statement.

2012 Performance Overview

Our full year operating results reflect the actions and strategies implemented in 2012, including:

- transitioning to higher return products and pivoting away from those with lower returns;
 - making strategic investments in technology and distribution; and
- returning capital to shareholders by repurchasing \$492 million of our common stock during 2012.

In addition, our Board increased the quarterly common stock dividend for 2012 by 60% to \$0.08 per share.

The graphs below illustrate some of the key measures of our full year 2012 results:

- Net income per share of \$4.56 was up from \$0.69 in 2011;
- Income from operations per share of \$4.47 was up 13% from \$3.94 in 2011;
- Total revenues of \$11.5 billion were also up from \$10.6 billion in 2011; and
 - Operating revenues of \$11.6 billion, up from \$11.0 billion in 2011.

Our fiscal year 2012 operating highlights also included:

- an increase in return on equity to 12% in 2012 versus 11.3 % in 2011;
- a 15% increase in book value per share, excluding accumulated other comprehensive income (loss), of \$41.11 versus \$35.75 in 2011; and
 - total shareholder return for 2012 of 35.1%.

Additional information on our business performance during 2012 can be found in our Form 10-K for the year ended December 31, 2012 (the “2012 Form 10-K”), included in our Annual Report to Shareholders accompanying this proxy statement. For a reconciliation of non-GAAP measures to their corresponding GAAP measures also see Exhibit 3 to this proxy statement.

2012 Executive Compensation Overview

This section discusses our philosophy, administration and governance of our executive compensation programs for 2012. The following table outlines the elements of targeted direct compensation and how each element aligns with our objectives and guiding principles.

The Company's Executive Compensation Program Philosophy

We believe that attracting and retaining key executives is essential to our growth. Our compensation programs are designed to motivate and engage successful, high-achieving executives through a pay for performance culture that fosters a long-term focus on enhancing shareholder value through superior financial performance. Accordingly, our executive compensation practices are based on the following fundamental guiding principles:

- Pay for Performance;
- Competitive Compensation;
- Balanced Performance Measures and Goals; and
- Alignment with Shareholders.

Each of these principles plays an important role in how we set and pay compensation to our NEOs and is discussed more fully hereafter.

Pay for Performance

A significant portion of our executives' annual compensation is linked to our annual and long-term business performance and each individual's contribution to that performance.

Our compensation programs are also designed to be easily communicated to and understood by both our shareholders and executives. We put a strong emphasis on "line of sight" factors for our executives that are specific to the business unit(s) they direct. It is important to us and to our executives for performance to be measurable and for compensation to be paid based on criteria that both executives and shareholders can easily identify and understand.

Competitive Compensation

In general, we aim to target total direct compensation (base salary, targeted annual incentive compensation opportunity and targeted long-term incentive compensation opportunity) at market median for our executives as compared to the compensation paid to executives in similar positions at those insurance-based, financial services, and investment management companies, as applicable, with which we compete for talent.

The Compensation Committee traditionally establishes compensation targets for the following fiscal year at its November meeting. In November 2011, the Compensation Committee’s independent compensation consultant, Pay Governance LLC, reviewed with the Compensation Committee market data for comparable executive roles with similar responsibilities in organizations in similar industries. Understanding that there is no perfect match between the roles played by our executives and the executives in the peer companies we have identified, we may consider multiple sources of market data for this purpose. However, market data is only one point in a discussion that considers a number of factors. For additional information on setting target compensation and our benchmarking processes, please see “Setting Target Total Direct Compensation” on page 33 of this proxy statement.

Balanced Performance Measures and Goals

Traditionally, our short- and long-term incentive programs have been designed to link the financial interests of our NEOs with those of our shareholders by putting executive pay at risk based on corporate and business unit performance. In establishing the performance measures and goals for the incentive programs for our NEOs, the Compensation Committee chooses measures that emphasize a focus on our overall corporate strategy of driving profitable business. The goals for each performance measure are then linked to the Company’s financial plan. In setting the goals, both management and the Compensation Committee intend for the maximum performance levels to present a challenge for our NEOs, therefore creating a strong incentive. For 2012, the Compensation Committee chose these performance measures for our incentive programs for the following reasons:

2012 Annual Incentive Program

Measure	Objective/Purpose
Income from Operations per Diluted Share	This is a key measure of profitability that management uses to evaluate our business and is also used by stock analysts to value companies in the financial services industry.
Sales	In our business, over time and at a compounded growth rate, sales create value by building the in-force contribution to earnings and returns. We believe that distribution strength (depth and breadth) is among the more important drivers of valuation, and sales growth is an effective way to measure the value of the distribution franchise and

overall product competitiveness.

Controllable Costs Management established a budget for the Company as well as a budget for each specific business unit as one of the key assumptions in attaining the success of our financial plan for 2012. The Compensation Committee set a budget-related performance goal to reinforce the importance of containing costs and expenses across the entire company.

2012 Long-term Incentive Program

Measure	Objective/Purpose
Growth in Return on Equity	This is an important measure used by stock analysts to value companies in the financial services industry because it is a critical indicator of capital efficiency and is closely aligned with long-term shareholder value.
Total Shareholder Return	This performance measure assesses the Company's delivery of shareholder value over time relative to our peers.

Alignment with Shareholders

Through our share ownership requirements and the features of our long-term equity programs, we tie the financial interests of our NEOs with those of our shareholders.

Share Ownership Guidelines and Holding Requirements. The share ownership requirements formalize the Compensation Committee’s belief that our officers should maintain a material personal financial stake in the Company. Further, the requirements are intended to promote a long-term perspective in managing our business, so as to align the long-term interests of our executives with those of our shareholders, and reduce the incentive for short-term risk-taking.

The share ownership and holding requirements are summarized in the following table:

Officer Position	Multiple of Base Salary	Additional Holding Requirements
CEO	7 times	25% of net profit base salary shares* for 5 years
Executive Officers (other than the CEO)	4 times	25% of net profit base salary shares for 5 years

* Net profit shares are the shares remaining after payment of the option exercise price and taxes owed at the time of exercise and the after-tax value of any vested restricted stock units or earned performance shares.

Our share ownership requirements are based on multiples of base salary and vary by job level. If at any point the ownership guideline is not met, the executive would be required to retain 50% of the net profit shares resulting from previously granted equity-based long-term incentive plan awards that are exercised or vest as applicable. Additionally, once an executive has met the minimum share ownership levels, they are also required to retain 25% of the net profit shares resulting from equity-based long-term incentive plan grants for five years from the date of exercise for Options or the date of vesting for other awards.

Amounts invested in shares of our common stock through our employee benefits plans, in-the-money Options, restricted stock and shares owned outright are counted in determining whether share ownership guidelines have been met.

Policy on Speculation and Hedging. We have an Insider Trading and Confidentiality Policy that governs trading in our securities and includes provisions prohibiting speculation in our securities. In addition, executives may not, without the approval of the Corporate Governance Committee, use derivative instruments to hedge the value of any of our securities. The Corporate Governance Committee has not granted any approval under this authority.

Multi-year Performance and Vesting Periods. The multi-year performance criteria and multi-year vesting elements of our long-term incentive programs promote the retention of our executives putting their focus on the long-term performance of the Company and correlating their interests with the interests of shareholders.

Prohibition on Repricing. In accordance with the terms of the Lincoln National Corporation 2009 Amended and Restated Incentive Compensation Plan (the “ICP”), the terms of outstanding awards of Options may not be amended to reduce the exercise price without shareholder approval.

Clawback Features. The equity awards for our NEOs are subject to clawback provisions. In the case of termination for cause the awards will be rescinded. The equity awards are also subject to non-compete, non-disclosure, non-solicitation, non-disparagement and other restrictive covenants. Violations of these provisions may result in the Compensation Committee's cancellation, forfeiture, or rescission of awards. Specifically, if a breach of a restrictive covenant occurs within six months of an option exercise or payment of performance shares, we may demand that the exercise or award be rescinded and the amount of gain realized or payment received by the executive be returned to us. We believe these clawback provisions protect the Company from anti-competitive behavior by former executives.

The Role of the Compensation Committee

The Compensation Committee of the Board has primary authority for considering and determining the compensation for our executive officers, including our NEOs. For a description of the principal functions of the Compensation Committee, see "The Board of Directors and Committees – Compensation Committee" on page 13 of this proxy statement.

The Compensation Committee approves the individual pay components and aggregate compensation levels of our executives. The Compensation Committee also determines the form in which the compensation will be paid – e.g., cash or equity – and determines the equity vehicles to be used, including Options, performance shares or restricted stock units, among others. The Compensation Committee also establishes the target award levels and performance measures under the various short- and long-term compensation programs.

The Compensation Committee normally determines the portion of performance-based incentive awards earned for completed performance cycles at its first regularly scheduled meeting of the calendar year (usually in February) following the end of the applicable

performance cycle. During this meeting, the Compensation Committee reviews financial data provided by management reporting the results for the various performance measures previously established for the just-completed annual and long-term performance cycles. The Compensation Committee certifies the achievement (or non-achievement) of the performance measures and approves the earned portion of the awards, as appropriate.

The Role of Executive Management

In making determinations with respect to executive compensation, the Compensation Committee considers input from a number of sources including executive management. Specifically, our CEO and chief human resources officer (“CHRO”) provide their views and insight on compensation for the NEOs to the Compensation Committee. The Compensation Committee believes the input of these executive officers with respect to the assessment of individual performance, the business environment, succession planning and retention is an essential component of the process. Our CEO and CHRO make recommendations to the Compensation Committee with respect to the base salary, target annual incentive award opportunities and target long-term incentive award opportunities for each of the NEOs, except for our CEO.

The Role of the Compensation Consultant

The Compensation Committee regularly consults with an independent compensation consultant in performing its duties. The Compensation Committee has the authority to retain and terminate the relationship with any compensation consultant, as well as to establish the scope of the consultant’s work.

During 2012, the Compensation Committee engaged Pay Governance LLC to provide advice regarding compensation practices for our executives.

During 2012, Pay Governance LLC provided the Compensation Committee with:

- an evaluation of executive officers’ base salaries and short- and long-term target incentive compensation relative to identified peers and the broader market;
- information on trends in executive compensation – such as the use of various forms of equity compensation and the prevalence of different types of compensation vehicles;
 - an evaluation of the impact of the Company’s equity programs on the pool of shares available for grant;
 - a review of all company-prepared materials in advance of each Committee meeting;
 - assistance in its review and discussions of all material agenda items throughout the year;
 - an independent review of our analytical work;
- insight and advice in connection with the design of and changes to our equity grants and short- and long-term incentive plans; and
 - feedback regarding the total targeted direct compensation package for our CEO.

Pay Governance LLC does not provide any services to the Company other than advice for the Compensation Committee regarding executive compensation and to the Corporate Governance Committee regarding director compensation. The Compensation Committee has assessed the independence of Pay Governance LLC pursuant to SEC rules and concluded that no conflict of interest exists.

Risk Considerations Relating to Compensation

We have designed the structure and administration of our compensation programs to, among other objectives, appropriately balance risk and reward.

As part of the risk assessment of our compensation plans, we undertook a formal process to identify, analyze, and evaluate the various compensation programs across our enterprise to assess any risks posed by those programs. The risk assessment process included, but was not limited to:

- identifying the compensation programs that cover all of our employees;
- reviewing the compensation programs from a design and governance perspective, including evaluating the behavior each program was designed to encourage and detailing the flow of compensation;
 - identifying any risks inherent in the programs; and
- identifying and discussing any additional mitigation factors in the program design and any additional risk controls outside of the compensation process specific to each business model.

Our CFO and the head of employee experience and services formally reviewed the analysis of our programs. The findings were then discussed with the Compensation Committee to determine whether such programs encourage risk-taking by our executives that is reasonably likely to materially and adversely affect the Company.

Some of the features of our compensation programs that limit risk include:

- our incentive plan awards are based on a variety of indicators of performance, thus preventing the potential of any single indicator of performance from having an undue influence on payout;
- the Compensation Committee approves the final incentive plan awards after the review of executive and corporate performance and has the right to

exercise negative discretion to decrease the awards even if the performance goals are met;

- the “clawback” features of our equity awards;
- the multi-year performance criteria for our LTI programs and the multi-year vesting elements of our other equity awards link the interests of our executives with the long-term health of the Company;
- the balanced pay mix minimizes the significance of any single element of pay and decreases the likelihood that an executive would take inappropriate risks to inflate such pay;
 - our share ownership guidelines and holding requirements discourage a short-term focus and require meaningful long-term executive ownership of Company shares that focuses our executives on sustaining long-term performance rather than maximizing performance in any single year; and
 - fixed compensation is set at a level that allows executives to meet their essential financial needs.

In addition to the features listed above, the evaluation also identified aspects of the administration and oversight of our plans that build considerable risk mitigation into the organizational structure of the plans. The Compensation Committee discussed in detail the evaluation and risk assessment review of our compensation programs and confirmed that our compensation programs do not create risks that are reasonably likely to have a material adverse effect on the Company.

Consideration of our 2012 Shareholder Vote on Executive Compensation.

At our 2012 Annual Meeting of Shareholders, we received substantial support for the compensation of our NEOs, with approximately 87% of the votes cast in favor of the “say on pay” advisory vote on executive compensation. The Compensation Committee and the Board appreciate and value the views of our shareholders. In considering the results of this advisory vote, the Compensation Committee was pleased that a significant majority of our shareholders approved the proposal, showing strong support for our overall pay practices and the compensation paid to our NEOs.

In evaluating our executive compensation programs, the Compensation Committee considered a number of factors, including the following:

- the Committee’s assessment of the interaction of our compensation programs with our enterprise business objectives;
 - the independent compensation consultant’s evaluation of our programs; and
 - the Committee’s review of data from peer companies.

In light of this evaluation and the support shown by shareholders, the Compensation Committee decided to maintain our general principles and philosophy in structuring executive compensation for 2013.

Setting Target Total Direct Compensation

The Compensation Committee made compensation decisions for the 2012 calendar year for the NEOs based on a detailed analysis of Company-specific and external data.

Benchmarking

Pay Governance LLC performed a comprehensive competitive compensation analysis in November 2011 to assist the Compensation Committee in setting 2012 target direct compensation levels for our NEOs (except for Mr. Ciongoli who joined the Company in May 2012). Pay Governance LLC analyzed base pay, annual incentive opportunities, long-term incentive values and total direct compensation (the sum of the elements listed above) to establish market rates for each executive officer position. They established competitive compensation rates based on

the Company’s philosophy that compensation levels should generally be targeted to the market median of our peers.

In some cases we may target above-median market compensation. The Compensation Committee may do this for a variety of reasons, including:

- organizational considerations, for example, because the role is considered critical to our overall business strategy and to our succession planning;
 - the need for specific expertise in the task of building a new business or improving an existing one; or
- to retain highly qualified executives whom we have recruited from outside of the insurance industry or whom we believe have management skills or experience that will further our corporate strategy.

For Messrs. Glass, Freitag and Konen, Pay Governance LLC used market data drawn from the stock companies shown in the table below, which are included in the Towers Watson 2011 Diversified Insurance Study of Executive Compensation:

AEGON USA	ING
AFLAC	John Hancock
AIG	Met Life
Allstate	Phoenix Companies
AXA Group	Principal Financial
CIGNA	Prudential Financial
CNO Financial	Sun Life Financial
Genworth Financial	Unum Group
Hartford Financial Services	

We have used the same survey for a number of years, and the companies listed above are identical to the companies used for the past several years, with the exception of the addition of CNO Financial. These companies are major competitors in one or more of the Company's businesses, but none represents the exact business mix of the Company. Because some of these companies have higher market capitalization, assets or revenue than the Company and some have lower market capitalization, assets and revenue than the Company, the data are size-adjusted to ensure comparability with the Company's scope.

For Mr. Dineen, the Vice Chairman of Lincoln Financial Network, our retail distribution business, the Compensation Committee reviewed compensation data for executives in similar positions from the McLagan Partners' Investment Products Sales and Marketing Survey for 2011, as well as from the above companies. For a list of the companies included in the McLagan Partners' Investment Products Sales and Marketing Survey refer to Exhibit 4 of this proxy statement.

Based on the data, as well as organizational requirements for the expertise that he brings to the Company, in 2012, we targeted above-median compensation for Mr. Dineen.

Tally Sheets

When making compensation decisions, the Compensation Committee considers:

- the recommendation of our CHRO, and, with respect to NEOs other than the CEO, our CEO, as well as the opinion of its compensation consultant;
 - the available market data; and
 - reports called "tally sheets" illustrating all elements of targeted total direct compensation, including:
 - base salary;
 - annual and long-term incentive awards;
 - deferred compensation and change in pension;
 - perquisites; and
 - potential payments for various termination scenarios.

The tally sheets enable the Compensation Committee to analyze the value of total compensation as well as the value of compensation actually delivered versus the value of compensation opportunities originally established by the Compensation Committee.

The tally sheets are also used to help the Compensation Committee assess whether our executive compensation program is consistent with the Company's compensation philosophy and desired positioning relative to the market data. However, they are just one point of information used by the Compensation Committee in the process of determining NEO compensation. The Compensation Committee performed a similar analysis to establish the total targeted direct compensation for our CEO. The CEO does not play a role in and is not present during discussions regarding his own compensation.

The below table reflects the dollar amount of targeted direct compensation levels for 2012 for our NEOs as established by the Compensation Committee at the November 2011 meeting, except for Mr. Ciongoli whose 2012 compensation was set when he joined the Company as General Counsel in May.

Name	2012 Targeted Compensation		
	Annual Incentive	Long-term Incentive Award	Total Targeted Annual

Edgar Filing: DAQO NEW ENERGY CORP. - Form 6-K

	Base Salary (\$)	Award at Target (\$)	at Target (\$)	Compensation (\$)
Dennis R. Glass	1,075,000	2,150,000	5,913,000	9,138,000
Randal J. Freitag	545,000	599,500	1,254,000	2,398,500
Adam G. Ciongoli	540,000	594,000	945,000	2,079,000
Robert W. Dineen	439,000	1,145,790	1,014,000	2,598,790
Mark E. Konen	610,000	854,000	1,486,000	2,950,000

We may also award discretionary cash or equity-based bonuses to our executives for a variety of reasons, including as a sign-on bonus, as a retention tool, or in recognition of significant challenges or difficult projects for which we have asked them to be responsible.

In order to induce Mr. Ciongoli to join the Company as General Counsel, the Compensation Committee approved a sign-on cash bonus for him in the amount of \$1,087,000 that was paid in 2012. Additionally, the Compensation Committee approved a sign-on grant of restricted stock units of our common stock (“RSUs”) to Mr. Ciongoli with a grant date fair value of approximately \$1,400,000 that will vest in three tranches over the next 3 years, with 25% vesting on each of the first and second anniversaries of the grant date and 50% vesting on the third anniversary of the grant date.

Annual Compensation Elements

During 2012, annual compensation was made up of salary and a short-term incentive award under the AIP.

Base Salary

Base salaries are reviewed annually. In setting base salary levels for 2012, the Committee took into account the compensation analysis discussed above and the individual performance of each NEO. The Compensation Committee made an adjustment to Mr. Freitag's base salary to bring it more in line with the current competitive levels within our marketplace for talent. Mr. Freitag's salary was increased from \$482,000 to \$545,000. No changes were made to the base salary levels of the other NEOs.

Annual Incentive Award Program

Consistent with our pay for performance approach to executive compensation and our past practice, during 2012 our NEOs participated in an annual incentive award program. In February 2012, the Compensation Committee established the 2012 AIP, including the goals and measures.

The following table shows the dollar amount of the estimated possible payouts for the 2012 AIP at threshold, target and maximum as established by the Compensation Committee on the date of grant. The target opportunity for AIP is set as a percentage of each NEO's base salary, which percentages remained unchanged for 2012 from the 2011 target opportunity.

Mark E. Konen	4,484	854,000	1,708,000

The 2012 Annual Incentive Award Program Measures

The Compensation Committee approved: (1) income from operations per share; (2) sales growth; and (3) management of controllable costs, as the 2012 AIP performance measures in February 2012. The Compensation Committee chose these measures because they focus on our overall corporate strategy of balancing top-line revenue growth with profitability and financial stability.

"Income from Operations" is defined as net income for the relevant performance period in accordance with generally accepted accounting principles, but excluding the after-tax effects of the items detailed in Exhibit 5 of this proxy statement. To calculate "Income from Operations per Share," the value of Income from Operations (as defined in Exhibit 5) was divided by the average diluted shares.

Income from Operations is one of the financial measures we use to evaluate and assess our results. Management believes this performance measure explains the results of our ongoing businesses in a manner that provides a better understanding of the underlying trends in our current business because the excluded items are unpredictable and not necessarily indicative of current operating fundamentals or future performance of the business segments, and, in most instances, decisions regarding these items do not necessarily relate to the operations of the individual segments.

In setting the goals for each of the 2012 AIP performance measures, both management and the Compensation Committee intended the maximum levels to present a challenge for our NEOs, therefore requiring strong performance to achieve these goals. The target corporate Income from Operations per Share performance measure was set after consideration of a number of factors, including peer group performance and our financial plan. The target sales component of AIP, at both a corporate level and a business unit level, was based on our internal financial plan, which emphasizes our corporate strategy to grow and protect the business. The goal for managing costs at target was based upon controllable costs as budgeted for in our annual financial plan.

The 2012 Annual Incentive Award Performance Results

The performance results for the 2012 AIP were certified by the Compensation Committee in February 2013. Our 2012 financial results exceeded expectations. However, the Compensation Committee has the ability to exercise negative discretion to reduce award payouts. The specific factors that the Compensation Committee may consider are set forth in Items A through H of Exhibit 5, if they determine that they were reflective of individual performance. In certifying the results for the 2012 AIP awards, the Compensation Committee exercised its negative discretion to adjust the award payout levels downward.

The chart below sets forth the approved aggregated, weighted performance results for the 2012 AIP for each of our NEOs as a percentage of target.

Long-Term Compensation

The 2010 LTI Program

During the first half of 2010, the Company was subject to certain federal regulations that prohibited the payment or accrual of incentive compensation to certain of its executives. Messrs. Glass, Dineen, and Konen were among the executives affected by these regulations. As a result, the 2010 LTI Program for these NEOs consisted of grants of long-term restricted stock units (RSUs) that cliff vest three years from the date of grant, and as such vested on February 22, 2013.

The table below reflects these grants.

2010 Grants of Long-Term RSUs		
Name	Number of RSUs	Grant Date Value
Dennis R. Glass	99,501	\$2,501,923

Robert W. Dineen	33,155	\$835,933
Mark E. Konen	39,218	\$986,257

For additional details on these grants, refer to the Outstanding Equity Awards at Fiscal Year-End table on page 46 of this proxy statement. Mr. Freitag was not an NEO in 2010, and Mr. Ciongoli joined the Company in 2012.

The 2012 LTI Program

Our performance-based LTI programs are intended to pay out above-target compensation only when performance has been above-target, consistent with our fundamental pay for performance philosophy for executive compensation.

For 2012, the LTI compensation for our NEOs was composed of three elements: options to purchase shares of our common stock (“Options”); RSUs; and performance share awards. The charts below show the percentage of each element as a percentage of the total award for 2011 and 2012. In 2012, we revised the LTI awards to increase the percentage of the LTI award granted as performance shares and Options, and decrease the percentage of RSUs.

The RSUs and performance share awards will be settled in shares of our common stock if the applicable vesting date and/or performance targets are met. The Options, which vest ratably over a multi-year period, and the RSUs, which cliff vest in three years, are not tied to formulas that could focus our executives on specific short-term outcomes. Instead, the value of these awards to our NEOs depends on the positive financial performance of our Company over time, as expressed through the increase in share value. Long-term equity-based awards such as these encourage our NEOs to act as owners, thus aligning their interests with those of shareholders. These equity awards are subject to the clawbacks detailed on page 31 of this proxy statement.

The 2012-2014 Performance Award Cycle

The 2012-2014 performance cycle was established in February 2012 for a performance period beginning on January 1, 2012 and ending on December 31, 2014. The Committee established the target performance share award amounts payable to the NEOs, the relevant performance measures, the relative weighting of each performance measure, and the goals for threshold payout (25% of target) and maximum payout (200% of target) for each performance measure. For each performance measure the maximum award, 200% of target, will occur when performance is superior, and a minimum award, 25% of target, would result when a threshold level of performance is met, therefore a minimum award is calculated as follows: ((25% x the relative weighting of the performance measure) x target amount). If the threshold performance is not met, then no payout will occur. For the performance share awards to ultimately vest, the minimum achievement level for at least one of the performance measures must be attained. The 2012-2014 performance share awards granted to the NEOs are set forth in the Grants of Plan-Based Awards table on page 44. The 2012-2014 performance share awards will, if earned, be paid out in shares of our common stock.

The table below sets forth the performance measures approved for the 2012-2014 performance award cycle for all participating executives, as well as the relative weighting for each performance measure.

2012-2014 LTI Performance Award Measures	Objective/Purpose	Relative Weight
Return on Equity ("ROE")	This is a key measure of profitability that management uses to evaluate our business that is also used by stock analysts to value companies in the financial services industry. It provides a meaningful measure of performance that is closely tied to long-term shareholder value.	50%
Relative Total Shareholder	This performance measure assesses the Company's delivery of	50%

Return (“TSR”) shareholder value over time relative to our peers.

ROE for the 2012-2014 LTI is defined as Income from Operations (as defined above with respect to the 2012 AIP) divided by average shareholders’ equity for the year. Shareholders’ equity will exclude accumulated other comprehensive income or other similar items and any increase in equity due to goodwill associated with an acquisition during the performance period. TSR for the 2012-2014 LTI is a relative measure based on Lincoln’s TSR for the performance period ranked against the TSR results for the peer group shown below:

2012-2014 Relative TSR Peer Group

· Genworth Financial	· Protective Life
· Hartford Financial Services	· Prudential Financial
· Manulife	· Sun Life Financial
· MetLife	· Torchmark
· Principal Financial	· Unum Group

At its February 2012 meeting, the Compensation Committee established the weightings of the performance share plan measures. The selected weightings reflect the Committee’s and management’s current judgment that over the long-term, ROE is a key input to shareholder value, and TSR represents the actual value delivered to shareholders.

The Compensation Committee also set minimum, target, and maximum performance achievement levels for each measure. In setting the goals to be achieved with respect to each of the 2012-2014 LTI performance measures, the maximum levels were intended to present a challenge for management and were designed to create appropriate

incentives for our executives to create financial growth and long-term value for shareholders. The TSR and ROE performance measures were set after consideration of a number of factors, including peer group performance, competitive standards and our financial plan.

The performance level necessary for a payout at target for growth in ROE was set at ten and one-half percent over the three-year performance cycle period. The performance level necessary for a payout at target for relative TSR was set at the median of the peer group over the three-year performance cycle period. These targets were set for compensation purposes only and do not constitute, and should not be viewed as, management's projection of future results.

Other Compensation Considerations

Equity Award Procedures. The Compensation Committee formally approved equity grant procedures, including procedures for granting Options. Under these procedures, all Options for our common stock are granted with a "strike" or exercise price set at the closing price of our common stock, as reported on the composite transactions table of the NYSE, on the date of grant. Only the full Compensation Committee or the Board of Directors has the authority to make equity grants with respect to our executives.

The Compensation Committee generally grants equity awards to our executives once annually as part of our long-term incentive compensation program. These grants are made during its first regularly scheduled meeting of the calendar year. However, the Compensation Committee or the Board of Directors may also grant equity awards to executives at other regularly scheduled or special meetings or by taking action through unanimous written consent in order to accommodate special circumstances such as new hires or promotions. For equity awards granted to executives at a regularly scheduled meeting of the Board or Committee, the grant date is the date of the meeting. However, if the equity award is granted at a "special" meeting of the Board or Committee, and such meeting does not occur during the period in which trading of our securities is permitted under our Insider Trading and Confidentiality Policy (a "window period"), then the grant becomes effective on the first business day of the next window period. Window periods generally begin on the later of the second business day after our quarterly earnings release or the first business day after our public call with investors.

In cases where the Compensation Committee or the Board of Directors grant equity awards by written consent, the grant becomes effective on the first business day of the week following the effective date of the written consent; provided, however, that if such business day is not during a window period, the grant becomes effective on the first business day of the next window period.

The Compensation Committee has delegated to the Chair of the Committee the authority to approve changes to executive compensation, subject to the Compensation Committee's review and ratification. This delegation of authority was done to facilitate changes in compensation between Compensation Committee meetings, usually in connection with a promotion or new hire. However, grants of equity awards for executives and the establishment and determination of performance goals intended to satisfy the performance-based compensation exception of Section 162(m) of the Internal Revenue Code of 1986, as amended ("Section 162(m)") may only be made by the full Compensation Committee.

Tax Considerations. Section 162(m) generally limits a public company's corporate income tax deduction for compensation at \$1 million per year for each "covered employee," which includes each NEO (other than our CFO). However, compensation that qualifies as performance-based compensation is not subject to this limitation. In general, the incentive awards that we grant are intended to qualify as performance-based compensation under Section 162(m) and are subject to limits established under the ICP in compliance with the rules of that Section, although we

reserve the right to award compensation that is not deductible under Section 162(m).

The Compensation Committee may decide to further limit compensation awards. In the case of our performance share awards, the Compensation Committee retains the discretion to reduce the target award or payout of any “covered employee” as defined under Section 162(m), or increase or decrease any other executive’s individual payout, based on certain circumstances that may occur during the cycle. The guiding principle in making adjustments and modifications to compensation awards is to isolate the effect of management on the Company’s results. The Compensation Committee may also consider paying non-performance-based compensation to covered employees based on circumstances that could impact performance results such as changing economic and market conditions, mergers or acquisitions, sale of a business, restructuring charges, reserve strengthening or release, and/or extraordinary natural occurrences or man-made events (e.g., acts of war).

Notwithstanding the above and as may be permitted under our applicable plans, should compliance with Section 162(m) conflict with the Compensation Committee’s compensation philosophy, the Compensation Committee reserves the authority to act in the manner it perceives to be in the best interests of us and our shareholders, including awarding compensation that is not tax deductible.

Employee Benefit Plans

Many of the benefits offered to our executives are the same benefits that we offer to our general employee population. With some exceptions, the additional benefits available to our executives are offered through plans and programs that promote tax efficiency and replacement of benefit opportunities lost due to regulatory limits in the broad-based tax-qualified plans. In addition to providing retirement income, our benefits help to protect our employees and executives from the financial hardship that can result from unexpected illness, disability, or death. These types of benefits are typically offered by our peer group of companies with whom we compete, and therefore, help us to attract and retain key employees.

Our Deferred Compensation Plan. We provide certain benefits to our executive officers, including our NEOs, under our non-qualified defined contribution plan, the Lincoln National Corporation Deferred Compensation & Supplemental/Excess Retirement Plan (the “DC SERP”). For additional information on the DC SERP see page 48 of this proxy statement.

Change of Control Severance Arrangements. We sponsor a single severance plan that applies to our executives in connection with a change of control of the Company, the Lincoln National Corporation Executives’ Severance Benefit Plan (the “LNC COC Plan”), where the payment of benefits is triggered by a termination of employment (under specific circumstances) in anticipation of or within two years after our change of control.

The objectives of the change of control benefits are:

- to retain qualified executives in the face of an actual or threatened change of control of the Company;
- to enable such executives to help our Board assess any proposed change of control of the Company and advise the Board as to whether such a proposal is in the best interests of the Company, our shareholders, our policyholders and customers without being unduly influenced by the possibility of employment termination; and
- to demonstrate to those executives our desire to treat them fairly and competitively in such circumstances.

At its February 28, 2013 meeting, the Compensation Committee reviewed a tally sheet prepared by Pay Governance LLC estimating our costs and executive benefits associated with a potential change of control for each NEO. The Compensation Committee agreed that the costs associated with a change of control were reasonable. For additional information on the LNC COC Plan see page 50 of this proxy statement.

Severance Plans. We sponsor the Severance Plan for Officers of Lincoln National Corporation (the “Officers’ Severance Plan”), which provides for 52 weeks of severance benefits to our executive officers, including our NEOs, as well as a lump-sum severance stipend of \$200/week for each week of the severance period. In order to qualify for benefits under the Officers’ Severance Plan, each affected officer must sign our standard form of agreement, waiver and release of claims that includes a non-compete provision, among other conditions. Any payments made under the Officers’ Severance Plan would offset, or reduce, on a dollar-for-dollar basis, any payments to an executive under the LNC COC Plan. For additional information on the Officers’ Severance Plan see page 51 of this proxy statement.

Compensation Committee Report

The members of the Compensation Committee have reviewed and discussed this Compensation Discussion & Analysis with management. Based on that review and discussion, the Compensation Committee has recommended to the Board of Directors of the Corporation that the Compensation Discussion & Analysis be included in this proxy statement and incorporated by reference into the Corporation’s Form 10-K for the year ended December 31, 2012.

1. Represents the grant date fair value of stock awards granted in 2012, 2011, and 2010 under the ICP. The fair values of these awards were determined in accordance with Financial Accounting Standards Board Accounting Standards Codification Topic 718, Stock Compensation (“Topic 718”). The assumptions made in calculating the grant date fair value of stock awards with respect to the years ended December 31, 2012, 2011 and 2010 are set forth in Note 19 of the Notes to the Consolidated Financial Statements, included in Item 8 of the 2012 Form 10-K. The stock awards granted in 2012 include grants of RSUs and performance share awards. The performance share awards are subject to performance conditions. The below table shows the grant date fair value of the RSUs and performance share awards as well as the value of the performance share awards assuming the maximum level of performance is achieved (200% of target) under both the ROE and TSR performance measures as described on page 38. The grant date fair value for the performance share awards was calculated in accordance with Topic 718 using a performance factor of 1.19, the probable outcome on the date of grant. The stock awards granted in 2012 are described in more detail in the Grants of Plan-Based Awards table on page 44.

The assumptions made in calculating the grant date fair value of option awards with respect to the years ended December 31, 2012, 2011 and 2010 are set forth in Note 19 of the Notes to the Consolidated Financial Statements, included in Item 8 of the 2012 Form 10-K. The option awards granted in 2012 are described in more detail in the Grants of Plan-Based Awards table on page 44.

3. Represents the AIP awards earned for the 2012 performance period under the ICP. Additional information on the AIP awards is provided in the Grants of Plan-Based Awards table on page 44 and the CD&A at pages 35 to 37.

4. These amounts solely reflect the total of all increases in the actuarial present value of each NEO's accumulated benefits under our qualified and non-qualified defined benefit pension plans shown in the Pension Benefits table on page 48. We froze all of our qualified and non-qualified defined benefit pension plans at the end of 2007. Present values were calculated at year-end 2012, 2011 and 2010, respectively, using the interest rate and mortality rate assumptions used in Note 17 of the Notes to our Consolidated Financial Statements, included in Item 8 of the 2012 Form 10-K and the Form 10-K for the fiscal year ended December 31, 2011, and in Note 18 of the Notes to our Consolidated Financial Statements, included in Item 8 of the Form 10-K for the fiscal year ended December 31, 2010. Totals for the plans listed above include the sum of increases only. The NEOs did not have any preferential non-qualified deferred compensation earnings.

* Some numbers may not add due to rounding.

(a) For Mr. Glass, the amount reflects \$51,320 for the aggregate incremental cost of personal use of the corporate aircraft, as well as the cost of attending sporting events, and the incremental cost of welcome items for him and his spouse in connection with offsite business events, which spouses were expected to attend. In general, Mr. Glass only uses the corporate aircraft for personal use when necessary to accommodate his business schedule.

For Mr. Ciongoli, of the amount listed, \$118,422 is for relocation expenses in connection with his relocation to our principal corporate offices, and the reimbursement of the costs of a medical exam.

For Mr. Konen, the amount reflects the cost of matching charitable gifts made by Lincoln Financial Foundation, Inc. on his behalf, the reimbursement of financial planning and tax preparation expenses, and the incremental cost of activities and welcome items incurred in connection with offsite business events.

More information regarding perquisites and personal benefits, including the manner in which we value personal use of the corporate aircraft is discussed under “Narrative Disclosure to the Summary Compensation Table” below.

- (b) Represents amounts grossed-up for Mr. Ciongoli in connection with amounts paid for his relocation expenses.
 - (c) Represents Company matching, core and transition contributions under our Employees’ 401(k) Plan, and excess Company matching, core and transition contributions to the DC SERP, which are amounts above applicable Internal Revenue Code limits.
 - (d) For all NEOs, except Mr. Glass, an additional contribution – a “special executive credit” – was made to the DC SERP, which is described in more detail page 49 of this proxy statement.
6. Some numbers may not add due to rounding.
 7. Mr. Freitag became our principal financial officer on January 1, 2011.
 8. Mr. Ciongoli joined the Company in May 2012.

Narrative Disclosure to the Summary Compensation Table

2012 Annual Incentive Program

The dollar amounts included in the Summary Compensation Table at page 41 for the 2012 AIP for each of our NEOs reflect the performance results for this program that were certified by the Compensation Committee in February 2013, which exceeded target amounts. For further details on the 2012 AIP, including the performance measures and targets, see the CD&A, pages 35 to 37.

Perquisites and Personal Benefits

The following discusses the primary perquisites and personal benefits offered to the NEOs in 2012, not all of which were received by the NEOs. Under the financial planning and tax preparation program, the NEOs, along with the other executive officers, were eligible for reimbursement of the costs of utilizing a Lincoln Financial Network financial planner to provide financial planning services. The reimbursement opportunity was equal to 100% of the first \$1,800 of costs, plus 50% of costs above that amount up to a maximum of \$6,000. In addition, the same officer group was eligible to receive up to \$2,700 for the reimbursement of tax preparation services provided by any fee-for-service tax preparer who was a certified public accountant, excluding Ernst & Young LLP, our independent registered public accounting firm. If the officer does not use the entire tax preparation reimbursement allowance in a year, any remaining amount may be applied to the financial planning reimbursement, but not vice versa.

In 2005, the Committee adopted a policy advising our CEO to use the corporate aircraft for personal travel as well as business travel, when practical. The policy was adopted due to security concerns and to allow for more efficient travel time so that the CEO can devote more time to our business. In general, our policy with respect to our executive officers' personal use of the corporate aircraft is that to the extent any executive and guest of an executive used corporate aircraft for personal purposes, the usage is treated as a perquisite for proxy statement reporting purposes. For purposes of determining the value of such services, the personal use is calculated based on the aggregate incremental cost to us. For personal flights on corporate aircraft, the aggregate incremental cost is calculated based on a cost-per-flight-hour charge that reflects the operating costs of the aircraft, including parts, labor, overhauls (but not engine overhauls of the type incurred every 5-10 years), fuel, landing and parking fees/taxes and crew travel expenses. We also include, as an aggregate incremental cost, empty aircraft flights to reposition the corporate aircraft (i.e., dead head flights) that are determined to be the product of a personal flight. Executives, their families and invited guests occasionally fly on the corporate aircraft as additional passengers on business flights. Since such flights do not result in additional aggregate incremental costs under our cost-per-flight-hour methodology, no incremental cost is reflected in the Summary Compensation Table. Finally, if more than one executive is on a personal flight, we allocate the incremental cost on a proportional basis depending on the number of guests of each officer.

We also have a matching charitable gift program. Under the program in 2012, all NEOs were eligible to apply for matching contributions of up to \$10,000.

Retirement Benefits

Under the DC SERP, all of our participating NEOs are eligible to receive an additional contribution—a “special executive credit” as a percentage of “Total Pay.” For the purpose of determining the special executive credit, “Total Pay” under the DC SERP means base salary and AIP paid during the fiscal year.

For each NEO, the special executive credit is calculated annually as follows: 15% of Total Pay expressed as a percentage, offset by the total of: (a) the NEO's maximum basic matching contribution opportunity (6%); plus (b) core contributions (4%); plus (c) transition contributions, if any (up to 8%) as determined under the Employees' 401(k) Plan, each expressed as a percentage. For more details on the DC SERP, the contributions and the calculations of these amounts, see page 48 below.

Grants of Plan-Based Awards

1. Represents the potential 2012 AIP awards. Actual amounts earned by the NEOs are reflected in the Summary Compensation Table. More information on the 2012 AIP awards, including the applicable performance targets, is provided in the CD&A on pages 35 to 37.

2. Represents 36% of each NEO's 2012 LTI target awarded as performance share awards, for the performance period 2012-2014, payable 100% in shares. Awards under the 2012-2014 performance cycle will be determined in the first quarter of 2015 (for the performance period ending December 31, 2014), and the amount of the award that vests may range from 0% to 200% of target depending upon the satisfaction of applicable performance goals. For information on the 2012-2014 performance awards and a description of the performance goals applicable to these awards, see the CD&A on pages 37 to 39. Dividends accrue on the LTI performance share awards. The dividend equivalents are

payable in stock, based upon normal dividend rates, only if the related LTI award actually vests based on certification of performance.

3. Represents 29% of each NEO's 2012 LTI target awarded as RSUs that cliff vest on the third anniversary of the grant date and are described in more detail in the CD&A on page 38. Dividend equivalents accrue on the RSUs, which are credited on each date dividends are paid on our common stock in the form of additional RSUs, and are payable in stock only upon vesting of the related restricted stock unit.
4. Represents 35% of each NEO's 2012 LTI target awarded in the form of Options as described in more detail in the CD&A on page 38. The Options granted have 10-year terms. The Options vest ratably over a three-year period, with one-third vesting on each anniversary of the grant date. These Options do not have a reload feature.
5. Represents the grant date fair value of the award determined in accordance with Topic 718. All assumptions made in calculating the aggregate fair value are set forth in Note 19 of the Notes to the Consolidated Financial Statements, included in Item 8 of the 2012 Form 10-K.
6. These RSUs vest in three tranches over the next 3 years, with 25% each vesting on the first and second anniversaries of the grant date and 50% vesting on the third anniversary of the grant date.

Narrative Disclosure to the Grants of Plan-Based Awards Table

In addition to the material terms of grants described in the footnotes to the Grants of Plan-Based Awards table above, we wish to point out the following:

- The exercise price and tax withholding obligations related to the exercise of all Options may be paid by delivery of shares, subject to certain conditions.
- With respect to stock awards, at the NEO's election, we withhold a sufficient number of shares to satisfy the NEO's mandatory minimum tax withholding obligations upon vesting.
- The Options and RSU awards granted in 2012 will vest fully upon a change of control only following the occurrence of two events (or triggers):

(1) our change of control, as defined in the LNC COC Plan; and

(2) either: (a) the executive's employment is terminated for any reason other than "cause" or (b) the executive terminates his or her employment for "good reason," as those terms are defined in the LNC COC Plan.

- Options and stock awards are not transferable except by will or pursuant to the laws of descent and distribution, unless the Compensation Committee permits such a transfer. The Compensation Committee has not permitted (nor historically permitted) a transfer with respect to any of the awards shown in the Grants of Plan-Based Awards table above.
- In cases where an executive participating in the 2012 LTI program dies, is disabled, voluntarily leaves the company after attaining age 55 with five years of service, or is involuntarily terminated for any reason other than for cause and signs a general release of claims against us, the executive (or the executive's beneficiary) will receive a pro-rated performance award based on the number of days of service out of the total number of days in the three-year performance cycle, provided that the applicable performance goals are achieved, and the Compensation Committee does not exercise its discretion not to pay out on the award. Any payout will be made at the same time, and in the same manner, as other participants are paid.
- The Options, RSUs and performance share awards are subject to four restrictive covenants in the form of non-competition, non-solicitation, non-disparagement, and non-disclosure provisions. We have the right to "clawback" an award—specifically, to demand that the NEO return the shares to us—upon breach of one of the covenants. The restrictive covenants and the "clawback" right expire six months after an option exercise, an RSU award vesting or the payment of performance shares. Additionally, we have the right to clawback any vested shares if the NEO is terminated for "cause" at any time after a share vests (no expiration date).

Any vested Options may be exercised by the executive or his/her beneficiary (as applicable), until the earliest to occur of:

- the expiration of the term of the option;
- the first anniversary of the date the executive died or was disabled;
- the fifth anniversary of the date the executive voluntarily left the company after attaining age 55 with five years of service; or
 - three months from the date the executive was involuntarily terminated for any reason other than for cause.

Outstanding Equity Awards at Fiscal Year-End

1. All of the exercisable Options shown in the Options Exercisable column of the table with an expiration date prior to 2016 for Messrs. Glass, Freitag and Konen were former options to purchase common stock of Jefferson-Pilot that were converted into Options to purchase our common stock on 4/3/06, which are completely vested.

The following table presents the vesting dates of the Options in the column showing unexercised Options that are unexercisable based on expiration dates.

Options vesting in three equal annual installments	
Expiration Dates	Vesting Begins

2/22/2022	2/22/2013
5/23/2022	5/23/2013

2. These stock awards are RSUs that vest as follows:

- Mr. Glass – 81,587 vest on 2/22/13; 18,394 vest on 8/11/13; 65,338 vest on 2/23/14; and 65,420 vest on 2/22/2015;
 - Mr. Freitag – 2,838 vest on 2/22/13; 12,389 vest on 2/23/14; and 14,301 vest on 2/22/2015;
- Mr. Ciongoli – 12,832 vest on 5/23/2015; and 65,549 vest in three installments: 25% on 5/23/13; 25% on 5/23/14; and 50% on 5/23/15;
- Mr. Dineen – 31,793 vest on 2/22/13; 1,446 vest on 8/11/13; 11,192 vest on 2/23/14; and 11,496 vest on 2/22/2015; and
- Mr. Konen – 33,088 vest on 2/23/13; 7,036 vest on 8/11/13; 16,606 vest on 2/23/2014; and 16,948 vest on 2/22/2015.

The stock awards include accrued but unpaid dividend equivalents credited in additional RSUs calculated at the normal dividend rate and settled in shares of our common stock only upon distribution of the vested award. Mr. Dineen is retiring from the Company effective May 1, 2013, as a result any RSUs that are scheduled to vest after that date, will vest on a pro rata basis in accordance with the terms of the awards.

3. For LNC stock, this represents the product of the shares and the closing price of our common stock as reported on the composite tape of the NYSE on December 30, 2012, or \$25.90.

4. Represents performance share awards granted in connection with the 2011-2013 performance cycle. Because our 2012 performance exceeded the target performance measures, these awards are shown at maximum (or 200% of target), plus accrued but unpaid dividend equivalents. However, the amount, if any, of these awards that will be paid out will depend upon the actual performance over the full performance period and the Compensation Committee's certification of the performance after completion of the performance cycle, which should occur in the first quarter of 2014 for the 2011-2013 performance cycle. Mr. Dineen is retiring from the Company effective May 1, 2013, as a result the amount of these awards that will be paid out will also be pro-rated in accordance with the terms of the awards.

5. Represents performance share awards granted in connection with the 2012-2014 performance cycle. Because our 2012 performance exceeded the target performance measures, these awards are shown at maximum (or 200% of target), plus accrued but unpaid dividend equivalents. However, the amount, if any, of these awards that will be paid out will depend upon the actual performance over the full performance period and the Compensation Committee's certification of the performance after completion of the performance cycle, which should occur in the first quarter of 2015 for the 2012-2014 performance cycle. Mr. Dineen is retiring from the Company effective May 1, 2013, as a result the amount of these awards that will be paid out will also be pro-rated in accordance with the terms of the awards.

1. Includes shares acquired upon vesting of RSUs for:

- Messrs. Freitag, Dineen and Konen that vested on May 14, 2012; and
- Messrs. Glass, Dineen and Konen that vested on November 2, 2012.

For Messrs. Glass and Dineen the amounts also reflect shares withheld on December 18, 2012 from grants of RSUs in accordance with IRS tax withholding regulations applicable to equity grants with early retirement provisions.

2. Represents the product of the shares vested and the average of the high and low prices for our common stock as reported on the composite tape of the NYSE on date prior to vesting, which for May 13, 2012 was \$23.43, for November 1, 2012 was \$25.17 and for December 17, 2012 was \$26.17.

Pension Benefits

Retirement Plans

In 2007, we converted our retirement program from a defined benefit to a defined contribution design. Effective as of December 31, 2007, benefit accruals ceased (i.e., were “frozen”) under the Lincoln National Corporation Retirement Plan for Employees Hired Prior to January 1, 2008 (the “LNC Retirement Plan”). We also maintain the Employees’ 401(k) Plan and the DC SERP, in which our NEOs, in general, participate.

Excess Retirement Plan

The Lincoln National Corporation Excess Retirement Plan (the “Excess Plan”) paid or “restored” benefits that would have been paid under the LNC Retirement Plan described above if certain limits did not exist under Sections 401(a) and 415 of the Internal Revenue Code of 1986, as amended (the “IRS limits”). The Excess Plan calculated benefits using the same formula as the qualified retirement plans that it “restored,” but without the imposition of IRS limits. The amount of the qualified retirement benefit payment is then deducted from, or offset against, the benefit calculated under the Excess Plan.

The Excess Plan was also “frozen” effective as of December 31, 2007. The present value of the “frozen” accrued benefit under the Excess Plan for each of our NEOs is set forth in the Pension Benefits table below. No enhancements to benefits payable under the Excess Plan are provided in the event of our change of control on or after January 1, 2008. The table below provides information on the tax-qualified and non-tax-qualified defined benefit pension benefits for each of the NEOs by plan for 2012.

1. As a result of freezing the plans, no additional benefits accrue under these plans after December 31, 2007.

2. The amounts shown for Mr. Dineen reflect the present value of the December 31, 2012 cash balance account projected to age 65 at the assumed interest crediting rate of 2.95%.

3. The amounts shown for Messrs. Glass, Freitag and Konen reflect the present value of the lump sum payable at age 65 (converted using a discount rate of 4.45% and the IRS prescribed IRC 417(e)(3) mortality table for 2013).

4. Except as noted above, all present values were determined using the same interest rate and mortality assumptions as those used for financial reporting purposes. Those assumptions are incorporated herein by reference to Note 17 of the Notes to our Consolidated Financial Statements included in Item 8 of the 2012 Form 10-K.

Nonqualified Deferred Compensation

We have adopted the DC SERP, which is a nonqualified plan that permits NEOs, as well as other officers, to defer amounts of salary and annual incentive bonus that cannot be deferred under our tax-qualified Employees' 401(k) Plan due to limits under the Internal Revenue Code (the "IRC").

The amount of eligible compensation (base salary and annual incentive bonus) employees may elect to contribute to the Employees' 401(k) Plan is subject to annual plan and IRS limits. During 2012, we contributed

to the Employees' 401(k) Plan: a basic matching contribution, at a rate of one dollar for each dollar contributed, on the first 6% of eligible compensation contributed; a "core contribution" of 4% of eligible compensation; and, for certain employees based on age and years of service as of December 31, 2007, a "transition contribution" up to 8% of eligible compensation. Any amounts of these "core" and/or "transition" contributions that cannot be contributed to the Employees' 401(k) Plan due to plan and/or IRC limits will be contributed to the DC SERP.

For all NEOs (except Mr. Glass), an additional contribution—a "special executive credit" as a percentage of "Total Pay"—was made to the DC SERP in 2012. For the purpose of determining the special executive credit, "Total Pay" under the DC SERP means base salary and annual incentive bonus paid during the fiscal year. For each NEO, the special executive credit is calculated annually as follows: 15% of Total Pay, expressed as a percentage, offset by the total of: (a) the executive officer's maximum basic matching contribution opportunity (6%); plus (b) core contributions (4%); plus (c) transition contributions, if any, (up to 8%) as determined under the 401(k) Plan and the DC SERP, each expressed as a percentage.

Mr. Glass did not receive a special executive credit in 2012 because he received a transition credit in excess of 5% under the 401(k) Plan. Typically, special executive credits are calculated and credited to the DC SERP by March of the following year. Effective 2018, the special executive credit will equal 5% of Total Pay for each executive officer as a result of the expiration of the transition contributions. In 2012, the special executive credits for our NEOs, expressed as a percentage of Total Pay were: Mr. Freitag 2.4%; Mr. Ciongoli 5%; Mr. Dineen 5%; and Mr. Konen 1.6%.

Special executive credits will vest on the earlier of: five years after becoming eligible to receive special executive credits under the DC SERP; death; eligibility for long-term disability benefits under a Company-sponsored plan; or, attainment of age 62. However, executive officers as of January 1, 2008, including Messrs. Glass, Dineen and Konen, were immediately vested in their special executive credits.

Under the terms of the DC SERP, we agree to pay out amounts based upon the aggregate performance of the investment measures selected by the participant. DC SERP participants may select from a menu of "phantom" investment options used as investment measures for calculating the investment return notionally credited to their deferrals. These are the same investment options that are available under the Employees' 401(k) Plan. Amounts deferred and contributed under the DC SERP are credited to "notional" (or bookkeeping) accounts, and are subsequently credited with earnings or losses mirroring the performance of the Employees' 401(k) Plan's available investment options. All matching contributions are initially invested in the same investment options that the participant has elected for salary and bonus deferrals and are credited with notional earnings or losses. Participants may at any time change their investment elections or, subject to our Insider Trading and Confidentiality Policy, transfer funds between notional investments. Executive officers, including all NEOs, may only change an investment election with respect to the LNC stock unit fund during permitted trading "window" periods, which generally occur quarterly. Actual shares of our common stock will be issued in settlement of these stock units when amounts credited to the LNC stock unit fund are actually paid to the participants. Before settlement, no voting rights or other rights of any kind associated with ownership of our common stock inure to the participants. The DC SERP is an unfunded plan and represents an unfunded promise to pay the benefits credited to each participant.

The DC SERP allows participants to maintain up to three different DC SERP accounts: any combination of a "termination year" account and/or specific "flexible distribution year" accounts. Distribution elections must indicate the payment form (i.e., lump sum or annual installments), and may additionally delay the timing of the payment of an account if a valid deferral election is made in compliance with applicable tax regulations. Participants will generally have two distribution election options for each account—an "initial" election and a "secondary" election. If a participant does not submit an initial distribution election by the applicable administrative deadline, the participant is deemed to

have made an initial election based on the default distribution rules for their particular accounts. For both termination year and flexible distribution year accounts, the default payment form is a lump sum and the default distribution date is the account valuation date. The valuation date for a termination year account is the first day of the month that is thirteen full months following the participant's separation from service (with payment to be made as soon as administratively practical, but not more than 90 days after the valuation date). The valuation date for flexible distribution year accounts—accounts that pay out in a designated year (e.g., 2015)—is February 5th of the applicable year (e.g., February 5, 2015), with payment to be made as soon as administratively practical, but not more than 90 days after the valuation date. Participants may also have the opportunity to make secondary or “re-deferral” elections. Participants who make secondary elections are required to delay payment (per the initial election) by a minimum of five years. Secondary elections may also, but are not required to, change the form of distribution (from lump sum to installments, or vice versa). No secondary election is effective for at least 12 months from the date it is made.

The table below provides information regarding each NEO's deferrals and our contributions to the DC SERP on behalf of each NEO during 2012, as well as each NEO's aggregate balance under the DC SERP as of December 31, 2012.

Nonqualified Deferred Compensation

Name	Executive Contributions in Last FY1 (\$) (a)	LNC Contributions in Last FY2 (\$) (b)	Aggregate Earnings in Last FY (\$) (c)	Aggregate Withdrawals/ Distributions (\$) (d)	Aggregate Balance Last FYE3 (\$) (e)
Dennis R. Glass	238,521	587,654	817,171	192,695	16,431,258
Randal J. Freitag	74,501	143,883	73,525	--	630,901

Robert W. Dineen	113,168	215,953	283,832	--	4,588,483
Mark E. Konen	99,676	205,065	128,366	--	3,278,028

1. Amounts shown reflect deferral of a portion of salary for 2012, which is included as Salary for Year 2012 in the Summary Compensation Table, and deferral of a portion of the AIP amounts paid in 2012 relating to 2011 performance, which was included as Non-Equity Plan Compensation for Year 2011, in the Summary Compensation Table as follows:

Name	Salary (\$)	Incentive Plan (\$)
Dennis R. Glass	64,500	174,021
Randal J. Freitag	32,700	41,801
Adam G. Ciongoli	17,446	0
Robert W. Dineen	26,340	86,828
Mark E. Konen	36,600	63,076

2. Amounts shown reflect our employer contributions above applicable Internal Revenue Code limits into the DC SERP during 2012, some of which were included in the All Other Compensation for 2011 in the Summary Compensation Table but paid in 2012. These amounts are described in footnote 5 to the Summary Compensation Table.

3. In addition to the amounts set forth in footnote 1 above, amounts disclosed in this column (other than earnings (losses) on deferred compensation) that were previously reported in prior years' Summary Compensation Tables, to the extent the NEO was our NEO at such prior time, are as follows: for Mr. Glass \$780,466; for Mr. Freitag \$47,132; for Mr. Dineen \$408,628; and for Mr. Konen \$310,960. Mr. Ciongoli was not an NEO in prior years.

Potential Payments Upon Termination or Change of Control

The narrative below describes the various termination and change of control arrangements applicable to our NEOs at December 31, 2012 that are not available to all employees on a non-discriminatory basis. The narrative is followed by tables showing potential payments each NEO would have received in the event of their termination (voluntary or involuntary, depending on the circumstances) or our change of control occurring on December 31, 2012.

Change of Control Arrangements

All of our executive officers, including our NEOs, are eligible to participate in the LNC COC Plan. Each NEO becomes eligible for benefits under the LNC COC Plan, if, in anticipation of or within two years after our change of control: (i) we, or a successor entity, terminate the executive's employment for any reason other than "cause" (defined as conviction of a felony, fraudulent or willful misconduct by the executive that is materially and demonstrably injurious to our business or reputation, or the willful and continued failure of the executive to perform his or her duties, despite warning notices), death or disability; or (ii) the executive terminates employment for "good reason" (defined as a "material and adverse" change in the executive's responsibilities or a reduction in salary or target annual incentive bonus opportunity or our failure to provide compensation and benefits materially similar to those offered in the past – with the exception of broad-based changes to our benefit plans that affect a significant portion of our employees).

If the conditions for payment under the LNC COC Plan are satisfied, a cash payment is paid to the executive based on a multiple of "annual base salary" and "target bonus." For purposes of the LNC COC Plan, "annual base salary" means the highest annual rate of salary

during the 12-month period immediately preceding the date of termination of employment, and “target bonus” means the higher of: (i) the target set for annual incentive bonus under the ICP during the calendar year in which the participating executive was terminated; or (ii) the target set in the year in which the change of control occurred. The amount of cash payment payable under the LNC COC Plan is determined as follows:

Chief Executive Officer	3 times the Plus annual base salary	3 times the target bonus
-------------------------	-------------------------------------	--------------------------

All Other Participating Executives (including our other NEOs)	2 times the Plus annual base salary	2 times the target bonus
---------------------------------------------------------------	-------------------------------------	--------------------------

In addition to the cash payment described above, the following additional benefits and benefit enhancements will be paid to our NEOs under the LNC COC Plan:

- Reimbursement of premiums paid by the NEO for the continuation of coverage under our welfare benefit plans in accordance with the Consolidated Omnibus Budget Reconciliation Act (“COBRA”) for a maximum of 18 months;
- For purposes of determining eligibility for retiree medical and dental coverage, additional credited service equal to the period that severance pay would be payable to the NEO under our broad-based employees’ severance plan;
- Vesting of AIP and LTI awards for each completed performance period, with vesting for open performance periods paid at target but pro-rated to reflect the date on which the termination occurred during the performance period in progress (the Compensation Committee has discretion under the ICP to fully vest awards); and
- Reimbursement of the cost of outplacement services, up to a maximum of 15% of the participating executive’s highest rate of annual base salary during the 12-month period immediately preceding the date of termination of employment.

During 2011, the Board of Directors amended the LNC COC Plan to eliminate the after-tax payment, or “gross up,” to cover any excise tax amounts deemed to be “excess parachute payments” under IRC Section 280G.

Executives participating in the LNC COC Plan may be eligible to receive payments under the Lincoln National Corporation Severance Pay Plan or other severance arrangements (as described below). However, any payments made to executives under those plans will reduce, on a dollar-for-dollar basis, the amount of any cash payment due to such executive under the LNC COC Plan.

The LNC COC Plan also contains non-disparagement and confidentiality obligations as a condition to the receipt of any payments or benefits under the LNC COC Plan. Additionally, the LNC COC Plan contains a non-solicitation obligation for a period of two years following the date of termination of the executive’s employment.

Change of Control Features of Other Plans and Programs

Notwithstanding the benefits provided under the LNC COC Plan, unvested grants of Options, restricted stock and RSUs with a grant date prior to December 31, 2010 will vest and become either immediately exercisable or non-forfeitable upon our change of control. Unvested grants of Options to purchase shares of our common stock, restricted stock and RSUs with a grant date after December 31, 2010 will vest and become either immediately exercisable or non-forfeitable upon (1) our change of control; and (2) either: (a) the executive's employment is terminated for any reason other than "cause;" or (b) the executive terminates his or her employment for "good reason." In addition, the Compensation Committee has the discretion to determine whether outstanding LTI awards (performance shares awards) will be paid in shares immediately upon our change of control, including the discretion as to whether to pay at target or maximum.

We also sponsor the Officers' Severance Plan, which provides for 52 weeks of severance benefits to our executive officers, including our NEOs, as well as a lump-sum severance stipend of \$200/week for each week of the severance period. Executive officers are paid in a lump sum no earlier than the first day of the month that is six months after the date the officer's job was eliminated.

In order to qualify for benefits under the Officers' Severance Plan, each affected officer must sign our standard form of agreement, waiver and release of claims that includes a non-compete provision, among other conditions. Any amounts payable to such executives under the Lincoln National Corporation Severance Pay Plan will offset or reduce, on a dollar-for-dollar basis, any amounts that would otherwise be payable under the Officers' Severance Plan. Also, any payments made under the Officers' Severance Plan will offset, or reduce, on a dollar-for-dollar basis, any payments to an executive under the LNC COC Plan.

We also maintain the Lincoln National Corporation Severance Pay Plan, which is our broad-based severance plan available to all employees on an equal basis, with eligibility

for benefits triggered by job elimination or job restructuring. As stated above, any payments made under this plan will reduce or offset, on a dollar-for-dollar basis, any payment made to an executive under the Officers' Severance Plan or the LNC COC Plan.

Upon a change of control of the Company, executives will receive the following benefit enhancements under the DC SERP:

- Any unvested Opening Balance account balances (discussed further below) and special executive credits will immediately vest.
- For executives who are eligible for benefits under the LNC COC Plan as of the date of our change of control and who separate from service within two years after such change of control, an additional two (or three in the case of our CEO) years' worth of core contributions, transition contributions, matching contributions, and special executive credits will be credited in an amount determined as of the executive's separation from service date.
 - An additional two (or three in the case of our CEO) years of vesting service will be credited if the executive has a Shortfall Balance account, which is discussed further below.

Potential Payment Tables

The tables below reflect potential payments to each NEO in the event of termination of the NEO's employment as a result of:

- voluntary termination/early retirement (if applicable);
 - involuntary not-for-cause termination;
 - for cause termination;
- termination following our change of control; and
 - death or disability.

The tables assume that all LNC Retirement Plan, Excess Plan and DC SERP benefits are paid in a lump sum. LNC Retirement Plan and Excess Plan benefits are payable either as lump sum or as annuities. The DC SERP amounts set forth in the tables are payable as either lump sums or as 5-, 10-, 15- or 20-year annual installments. Under the DC SERP, except for Mr. Ciongoli, the amounts shown in the Nonqualified Deferred Compensation Table on page 50 of this proxy statement under the Aggregate Balance at fiscal year-end are fully vested as of December 31, 2012, and therefore are fully payable and unaffected by the various termination scenarios.

The amounts shown below assume that such termination was effective as of December 31, 2012, and are, therefore, estimates of the amounts that would be paid out to the NEOs upon their termination. The amounts actually paid upon termination will differ from these estimates. The estimates constitute forward-looking statements for purposes of the Private Securities Litigation Reform Act of 1995. Additional assumptions are described in footnotes to the tables.

For all NEOs as applicable, long-term incentive compensation in tables below reflects:

- Stock Options – the aggregate dollar value of the difference between the exercise price of the Options and the closing price of our common stock on December 31, 2012 (\$25.90) for those Options with an exercise price below \$25.90.

Equity Incentive Plan awards – the aggregate value of the LTI equity awards multiplied by the closing price of our stock on December 31, 2012. We used a payout at target for the 2011-2013 performance cycle and at target for the 2012-2014 performance cycle. In addition, under all trigger events except a change of control, the LTI equity awards are not payable until the end of the actual performance cycle. For all trigger events, the LTI Equity Awards would be paid pro rata if the performance goals were satisfied. The effect of a change of control is discussed above beginning on page 50.

The tables exclude benefits, such as accrued vacation pay, distributions from the Employees' 401(k) Plan, disability benefits and life insurance benefits equal to one times salary, that all employees would be eligible to receive on the same basis.

Dennis R. Glass

The following table shows the potential payments upon termination or our change of control for Dennis R. Glass, our President and CEO.

Benefits and Payments	Trigger Events

- The amounts shown in this column would be payable only in the situation where the officer has been “job eliminated,” as that term is defined in our plan documents, and if the officer has also signed, and not revoked, an agreement, waiver and release in a form acceptable to the Company. If the officer was involuntarily terminated without cause and there is not an agreement, waiver and release in place between the officer and the Company then no amounts would be payable for AIP or Long-Term Incentive Compensation.
- For all trigger events except retirement, the LTI Equity Awards would be paid pro rata if the performance goals were satisfied. For retirement, the LTI Equity Awards would be paid in full as if Mr. Glass had provided service to LNC for the entire performance cycle, if the performance goals were satisfied.
- Amounts shown for the LNC Retirement Plan and the Excess Plan reflect the lump sum value of monthly benefits of \$3,756 and \$13,052, respectively, payable at age 65 as single life annuities. The lump sum value was determined using the October 2012 segment rates and the IRC 417(e)(3) Applicable Mortality Table for 2013. Upon Disability, Mr. Glass receives a temporary annuity (payable until age 65) equal to a percentage of

base pay at disability (30% plus 0.5% per year of service) from the LNC Retirement and Excess Retirement Plans. In addition, Mr. Glass receives a lump sum benefit at age 65 based on the benefit amounts described above (based on a fully phased-in December 2012 segment rates and the IRC 417(e)(3) Applicable Mortality Table for 2013). Upon Death, Mr. Glass's beneficiary receives 50% of the LNC Retirement Plan and Excess Retirement Plan benefits that would have been payable to Mr. Glass had he retired, unreduced for early commencement, payable at December 31, 2012 as a single life annuity.

4. Values for the DC SERP do not reflect the year-end balance shown in the Nonqualified Deferred Compensation Table on page 50 of this proxy statement, as Mr. Glass is fully vested in this amount, which would be payable under each scenario. Upon Involuntary Termination after "Change of Control," Mr. Glass receives an additional three years of DC SERP employer contributions under the DC SERP provisions (15.6% annual contributions) based on his rate of pay and target bonus percentage in effect at the date of termination.
5. Amounts shown under Involuntary Not for Cause Termination reflect a cash stipend provided over the severance period. Amounts shown under Involuntary Termination after Change-in-Control reflect amounts for outplacement, financial planning and tax preparation services under the LNC COC Plan.

Randal J. Freitag

The following table shows the potential payments upon termination or our change of control for Randal J. Freitag, our Executive Vice President and CFO.

If the officer was involuntarily terminated without cause and there is not an agreement, waiver and release in place between the officer and the Company then no amounts would be payable for AIP or Long-Term Incentive Compensation.
- Amounts shown for the Retirement and Excess Retirement Plans reflect the lump sum value of monthly benefits of \$3,002 and \$146, respectively, payable at age 65 as single life annuities. The lump sum value was determined using the October 2012 segment rates and the IRC 417(e)(3) Applicable Mortality Table for 2013. Upon Disability, Mr. Freitag receives a temporary annuity (payable until age 65) equal to a percentage of base pay at disability (30% plus 0.5% per year of service) from the LNC Retirement Plan and the Excess Retirement Plan. In addition, Mr. Freitag receives a lump sum benefit at age 65 based on the benefit amounts described above (based on a fully phased-in December 2012 segment rates and the IRC 417(e)(3) Applicable Mortality Table for 2013).

3. Values for the DC SERP do not reflect the year-end balance shown in the Nonqualified Deferred Compensation Table on page 50 of this proxy statement, as Mr. Freitag is fully vested in this amount, which would be payable under each scenario. The Special Executive Credit earned during 2012 of \$29,800 is payable only under some termination scenarios. The Special Executive Credit earned during 2012 is not payable if Mr. Freitag voluntarily terminated or was involuntarily terminated for cause as of December 31, 2012. Mr. Freitag receives an additional two years of DC SERP employer contributions under the DC SERP provisions (15% annual contributions) based on his rate of pay and target bonus percentage in effect at the date of termination.
4. Amounts shown under Involuntary Not for Cause Termination reflect a cash stipend provided over the severance period. Amounts shown under Involuntary Termination after Change-in-Control reflect amounts for outplacement, financial planning and tax preparation services under the LNC COC Plan.

Adam G. Ciongoli

1. The amounts shown in this column would be payable only in the situation where the officer has been “job eliminated,” as that term is defined in our plan documents, and if the officer has also signed, and not revoked, an agreement, waiver and release in a form acceptable to the Company. If the

officer was involuntarily terminated without cause and there is not an agreement, waiver and release in place between the officer and the Company then no amounts would be payable for AIP or Long-Term Incentive Compensation.

2. Amounts shown for the LNC Retirement and Excess Retirement Plans reflect the “cash balance” account values at December 31, 2012. Upon Death, Mr. Dineen’s beneficiary receives a single sum distribution equal to the December 31, 2012 cash balance in the account under the Retirement and Excess Retirement Plans.
3. Values for the DC SERP do not reflect the year-end balance shown in the Nonqualified Deferred Compensation Table on page 50 of this proxy statement, as Mr. Dineen is fully vested in this amount, which would be payable under each scenario. The Special Executive Credit earned during 2012 of \$94,307 is payable only under some termination scenarios. The Special Executive Credit earned during 2012 is not payable if Mr. Dineen voluntarily terminated or was involuntarily terminated for cause as of December 31, 2012. Upon Involuntary Termination after “Change of Control,” Mr. Dineen receives an additional two years of DC SERP employer contributions under the DC SERP provisions (15% annual contributions) based on his rate of pay and target bonus percentage in effect at the date of termination.
4. Amounts shown under Involuntary Not for Cause Termination reflect a cash stipend provided over the severance period. Amounts shown under Involuntary Termination after Change-in-Control reflect amounts for outplacement, financial planning and tax preparation services under the LNC COC Plan.

1. The amounts shown in this column would be payable only in the situation where the officer has been “job eliminated,” as that term is defined in our plan documents, and if the officer has also signed, and not revoked, an agreement, waiver and release in a form acceptable to the Company. If the officer was involuntarily terminated without cause and there is not an agreement, waiver and release in place between the officer and the Company then no amounts would be payable for AIP or Long-Term Incentive Compensation.
2. Amounts shown for the LNC Retirement Plan and the Excess Plan reflect the lump sum value of monthly benefits of \$3,380 and \$3,018, respectively, payable at age 65 as single life annuities. The lump sum value was determined using the October 2012 segment and the IRC 417(e)(3) Applicable Mortality Table for 2013. Upon Disability, Mr. Konen receives a temporary annuity (payable until age 65) equal to a percentage of base pay at disability (30% plus 0.5% per year of service) from the Retirement and Excess Retirement Plans. In addition, Mr. Konen receives a lump sum benefit at age 65 based on the benefit amounts described above (based on a fully phased-in December 2012 segment rates and the IRC 417(e)(3) Applicable Mortality Table for 2013). Upon Death, Mr. Konen’s beneficiary receives 50% of the LNC Retirement Plan and Excess Retirement Plan benefits that would have been payable to Mr. Konen had he retired, unreduced for early commencement, payable at December 31, 2012 as a single life annuity.
3. Values for the DC SERP do not reflect the year-end balance shown in the Nonqualified Deferred Compensation Table on page 50 of this proxy statement, as Mr. Konen is fully vested in this amount, which would be payable under each scenario. The Special Executive Credit earned during 2012 of \$26,580 is payable only under some termination scenarios. The Special Executive Credit earned during 2012 is not payable if Mr. Konen voluntarily terminated or was involuntarily terminated for cause as of December 31, 2012. Upon Involuntary Termination after “Change of Control,” Mr. Konen receives an additional two years of DC SERP employer contributions under the DC SERP provisions (15% annual contributions) based on his rate of pay and target bonus percentage in effect at the date of termination.
4. Amounts shown under Involuntary Not for Cause Termination reflect a cash stipend provided over the severance period. Amounts shown under Involuntary Termination after Change-in-Control reflect amounts for outplacement, financial planning, and tax preparation services under the LNC COC Plan.

ITEM 3 – ADVISORY PROPOSAL ON EXECUTIVE COMPENSATION

As required by Section 14A of the Exchange Act, shareholders may vote to approve, on an advisory basis, the compensation of our named executive officers as disclosed in this proxy statement. As discussed in detail in the Compensation Discussion and Analysis section of this proxy statement, our compensation principles and underlying programs are designed to attract, motivate and retain key executives who are crucial to our long-term success. The compensation paid to our named executive officers reflects our commitment to pay for performance by delivering a significant portion of their compensation in the form of long-term equity awards and the annual incentive award. Our compensation programs have a demonstrated history of annual and long-term incentive payouts that have varied with performance.

In addition, we recognize that strong governance principles are essential to an effective executive compensation program. These governance principles and our executive compensation philosophy are established by an independent Compensation Committee that is advised by an independent consultant. The Compensation Committee regularly reviews the compensation programs for our executive officers to ensure they continue to support our objectives of aligning our executive compensation structure with our shareholders' interests and current market practices. Key features of our compensation programs include:

- **Compensation Tied to Enterprise Performance and Shareholder Return.** The 2012 incentive compensation programs, AIP and LTI, have balanced performance measures and goals that tie executive compensation to key enterprise performance metrics, including operating earnings, top-line revenue growth, return on equity and relative total shareholder return.
- **Compensation Programs Incorporate Best Practices.** The LNC COC Plan does not have an excise tax gross-up provision and our equity grants have a double trigger vesting requirement upon a change of control.
- **Pay for Performance.** We link the largest portion of targeted direct compensation for our executives to the performance of the company as a whole. For 2012, 88% of the CEO's compensation was at risk and variable.
- **Equity Compensation Subject to Share Ownership Requirements.** Our executives are subject to stock ownership guidelines to further align their interests with the long-term interests of our shareholders. Executives are required to hold equity in an amount equal to a multiple of base salary and are subject to an additional retention requirement of 25% of the shares received net of taxes upon vesting or exercise.

Our compensation policies and procedures are described in detail on pages 24 to 56 of this proxy statement.

The advisory vote on this proposal is non-binding, meaning that our Board will not be obligated to take any compensation actions, or to adjust our executive compensation programs or policies, as a result of the vote. However, our Board and the Compensation Committee will consider the voting results in determining compensation policies and decisions, including taking such actions, if any, with regard to future executive compensation decisions as the Board or Committee may determine to be appropriate. Notwithstanding the advisory nature of the vote, the resolution will be approved if the votes cast for the proposal exceed those cast against the proposal. Abstentions and broker non-votes will not count as votes cast either for or against the proposal.

The Board unanimously recommends that shareholders support this proposal and vote FOR the following resolution:

“Resolved, that the shareholders approve the compensation of executives of the Company, as disclosed pursuant to the compensation disclosure rules of the Securities and Exchange Commission, including the Compensation Discussion and Analysis, the compensation tables regarding named executive officer compensation, together with the accompanying narrative disclosure, in this proxy statement.”

COMPENSATION COMMITTEE INTERLOCKS AND INSIDER PARTICIPATION

William H. Cunningham, Eric G. Johnson, Michael F. Mee and Patrick S. Pittard served on the Compensation Committee during 2012. No member of the Compensation Committee had an “interlock” reportable under Item 407(e)(4) of Regulation S-K under the Exchange Act, and no member was an employee, officer or former officer of us or our subsidiaries.

RELATED PARTY TRANSACTIONS

The Corporate Governance Committee of our Board of Directors adopted a written policy for the review, approval or ratification of transactions with related parties. The policy applies to any transaction or proposed transaction that we determine would be required to be publicly disclosed as a transaction or proposed transaction with a “related person” pursuant to Item 404(a) of Regulation S-K of the Exchange Act, and requires that the Corporate Governance Committee (or the full Board) pre-approve or ratify such transactions. In approving or ratifying any transaction or proposed transaction, the

Committee must determine that the transaction is fair and reasonable to us and otherwise complies with our policy on conflicts of interest. The Corporate Governance Committee is not required by this policy to obtain a fairness opinion or other third party support regarding the fairness of the transaction, but may determine to do so in its discretion. If a transaction is subject to ratification by the Corporate Governance Committee and the Committee does not ratify the transaction, we and/or the related person must make all reasonable efforts to terminate or unwind the transaction.

The policy does not apply to transactions involving insurance, annuities, mutual funds or other products, or financial services provided by us, our subsidiaries or affiliated planners, all on terms and conditions substantially similar to those available to similarly situated third parties in arm's-length transactions. This also applies to such products and services provided to an entity of which a related person is an executive officer or employee or vice versa, provided that, the related person receives the same benefits generally available to other employees of such entity of an equivalent title.

FMR LLC ("FMR") beneficially owns more than 5% of our outstanding common stock. Our subsidiaries have agreements with subsidiaries of FMR that were entered in in the ordinary course of our business for brokerage and advisory services. In 2012, our subsidiaries recorded revenues of approximately \$29 million from entities which were subsidiaries of FMR for brokerage and advisory services.

GENERAL

Shareholder Proposals

To Be Included in Our Proxy Materials

Any shareholder proposals intended to be considered for inclusion in the proxy materials for our 2014 Annual Meeting of Shareholders must be submitted in accordance with SEC Rule 14a-8, and received by us no later than December 13, 2013. All such proposals should be sent to our Corporate Secretary.

To Be Presented In Person at Shareholder Meetings

Shareholders wishing to propose matters for consideration at a meeting of shareholders or to propose nominees for election as directors must follow the procedures contained in our Bylaws. Such procedures include giving notice to the Corporate Secretary at least 90 and not more than 120 days prior to the first anniversary date of the annual meeting for the preceding year. However, if and only if the annual meeting is not scheduled to be held within a period that commences thirty (30) days before such anniversary date and ends thirty (30) days after such anniversary date (an annual meeting date outside such period being referred to herein as an "Other Annual Meeting Date"), such shareholder notice shall be given by the close of business on the later of (i) the date 90 days prior to such Other Annual Meeting Date or (ii) the tenth day following the date such Other Annual Meeting Date is first publicly announced or disclosed. Based on the Annual Meeting Date of May 23, 2013, to be considered timely received for the 2014 Annual Meeting of Shareholders such notice must be received on or after January 23, 2014 and on or before February 22, 2014. In the case of business to be brought before the meeting, the notice must include:

- the name and address of the proposing shareholder (as it appears in our stock records) and any associated person, (as defined in Exhibit 6);
 - a brief description of the business desired to be brought before the meeting;
- the class and number of our shares (and related derivative instruments) that are beneficially owned by the proposing shareholder and any shareholder associated person;

- a description of any transaction, agreement or understanding that has been entered into by the proposing shareholder and any shareholder associated person with the intent or effect of mitigating loss to, or managing risk or benefit of share price changes for, such person or increasing or decreasing the voting power or pecuniary or economic interest of such persons with respect to our shares; and
- a description of any interest of such proposing shareholder, and any shareholder associated person, in the business proposed.

There are additional requirements, which may be applicable. The applicable Bylaw requirements are set forth in Exhibit 6, and the summary information included in this “Shareholder Proposals” discussion should be read in conjunction with those provisions of our Bylaws.

In the case of a shareholder-proposed nominee for director, the required notice must contain as to each such nominee:

- the name, age, business address and residence address of such person;
 - the principal occupation or employment of such person;
- the class and number of our shares (and related derivative instruments) that are beneficially owned by such person;
- a description of any transaction, agreement or understanding that has been entered into by such person with the intent or effect of mitigating loss to, or managing risk or benefit of share price changes for, such person or increasing or decreasing the

- voting power or pecuniary or economic interest of such person with respect to our shares;
- any other information relating to such person that is required to be disclosed in solicitation of proxies for election of directors, or is otherwise required, in each case pursuant to Regulation 14A under the Exchange Act (including without limitation such person's written consent to being named in the proxy statement as a nominee and to serving as a director if elected); and
 - the qualifications of the nominee to serve as one of our directors.

In the case of a shareholder-proposed nominee for director, the required notice must also contain as to the proposing shareholder:

- the name and address of the proposing shareholder (as it appears in our stock records) and any associated person, as defined in Exhibit 6;
- the class and number of our shares (and related derivative instruments) that are beneficially owned by the proposing shareholder and any shareholder associated person;
- a description of any transaction, agreement or understanding that has been entered into by the proposing shareholder and any shareholder associated person with the intent or effect of mitigating loss to, or managing risk or benefit of share price changes for, such person or increasing or decreasing the voting power or pecuniary or economic interest of such person with respect to our shares; and
 - to the extent known by the proposing shareholder, the name and address of any other shareholder supporting the nominee for election or reelection as director.

The applicable Bylaw requirements regarding shareholder proposed nominees are set forth in Exhibit 6.

In the event any such matter is brought before the meeting in accordance with our Bylaws, the individuals identified on the proxy card may, if the matter will be voted on, vote the shares represented by proxies in their discretion in the manner they believe to be in our best interests. However, the person presiding at a meeting of shareholders (the chairman) is authorized by the Bylaws, if the facts warrant, to determine that the proposed business was not properly brought before the meeting, or was not lawful or appropriate for consideration at the meeting or that a nomination for director was not properly made. Upon a declaration of such determination by the chairman, the proposed business shall not be transacted or the defective nomination shall be disregarded, as the case may be.

2013 Shareholder Proposals

No shareholder proposals are included in this proxy statement. To the extent possible, your proxy will be voted in the discretion of the proxy holders with respect to each matter properly brought before the meeting that has not been enumerated in this proxy statement or for which no specific direction was given on the proxy card.

Incorporation by Reference

To the extent that this proxy statement has been or will be specifically incorporated by reference into any of our other filings under the Securities Act of 1933 or the Exchange Act, the sections of this proxy statement entitled "Audit Committee Report" and "Compensation Committee Report" shall not be deemed to be so incorporated, unless specifically provided otherwise in such filing.

Annual Report

A printed copy of the Annual Report on Form 10-K will be provided upon request and without charge to any shareholder requesting it in writing addressed to Corporate Secretary, Lincoln National Corporation, 150 N. Radnor

Chester Road, Radnor, PA 19087. In addition, you can access that report and other reports on the SEC's website at www.sec.gov and on our website at www.lfg.com.

Other Matters

The Board of Directors is not aware of any matters other than those set forth in this proxy statement that will be presented for action at the Annual Meeting. However, if any other matter should properly come before the meeting, the persons authorized by the accompanying proxy will vote and act with respect thereto in what, according to their judgment, is in the interests of the Company and its shareholders.

A list of shareholders entitled to vote at the Annual Meeting will be available for examination by shareholders at the Annual Meeting.

For the Board of Directors,

Charles A. Brawley, III
Senior Vice President,
Associate General Counsel & Secretary
April 12, 2013

Section 11. Notice of Shareholder Nominees. (A) Nominations of persons for election to the board of directors of the corporation may be made at any annual meeting of shareholders by or at the direction of the board of directors or by any shareholder of the corporation entitled to vote for the election of directors at the meeting. Such shareholder nominations shall be made pursuant to timely notice given in writing to the secretary of the corporation. To be timely, a shareholder's notice must be delivered to or mailed and received at the principal office of the corporation, not less than ninety days nor more than one hundred twenty days prior to the first anniversary date of the annual meeting for the preceding year; provided, however, if and only if the annual meeting is scheduled to be held on an Other Annual Meeting Date, such shareholder notice shall be given in the manner provided herein by the close of business on the later of (i) the date ninety days prior to such Other Annual Meeting Date or (ii) the tenth day following the earlier of the date the corporation shall have mailed the notice of such meeting to shareholders or the date such Other Annual Meeting Date is first publicly announced. In the event the board of directors calls a special meeting of shareholders for the purpose of electing one or more directors to the board of directors, any shareholder may nominate a person or persons (as the case may be) for election to such position(s) as specified in the notice of meeting, provided that the shareholder's notice of such nomination contains the information specified in this Section 11 and is delivered to the secretary of the corporation not later than the close of business on the tenth day following the earlier of the date the corporation shall have mailed the notice of such meeting to shareholders or the date on which the date of such special meeting and either the names of the nominees proposed by the board of directors to be elected at such meeting or the number of directors to be elected are first publicly announced. In no event shall any adjournment or postponement of an annual or special meeting or the announcement or notice thereof by the corporation commence a new time period (or extend any time period) for the giving of a shareholder's notice as provided in this Section 11. Such shareholder's notice shall set forth as to each person whom the shareholder proposes to nominate for election or re-election as a director, (a) the name, age, business address and residence address of such person, (b) the principal occupation or employment of such person, (c) as of the date of the shareholder's notice, the class and number of shares of the corporation which are beneficially owned or held of record by such person and whether and the extent to which any derivative instrument, swap, option, warrant, short interest, hedge or profit interest has been entered into by or on behalf of such person with respect to shares of the corporation, (d) as of the date of the shareholder's notice, whether and the extent to which any other transaction, agreement, arrangement or understanding (including any short position or any borrowing or lending of shares of the corporation) has been made by or on behalf of such person, the effect or intent of which is to mitigate loss to, or to manage risk or benefit of share price changes for, such person or to increase or decrease the voting power or pecuniary or economic interest of such person with respect to shares of the corporation and (e) any other information relating to such person that is required to be disclosed in solicitation of proxies for election of directors, or is otherwise required, in each case pursuant to Regulation 14A under the Exchange Act (including, without limitation, such person's written consent to being named in the proxy statement as a nominee and to serving as a director if elected). In addition, such shareholder's notice shall set forth as to the shareholder giving notice (a) the name and address, as they appear on the corporation's stock records, of the shareholder proposing such nomination(s) and any Shareholder Associated Person, (b) as of the date of the shareholder's notice, the class and number of shares of the corporation which are beneficially owned or held of record by the shareholder and any Shareholder Associated Person and whether and the extent to which any derivative instrument, swap, option, warrant, short interest, hedge or profit interest has been entered into by or on behalf of any such person(s) with respect to shares of the corporation, (c) as of the date of the shareholder's notice, whether any other transaction, agreement, arrangement or understanding (including any short position or any borrowing or lending of shares of the corporation) has been made by or on behalf of the shareholder or any Shareholder Associated Person, the effect or intent of which is to mitigate loss to, or to manage risk or benefit of share price changes for, any such person(s) or to increase or decrease the voting power or pecuniary or economic interest of any such person(s) with respect to shares of the corporation and (d) to the extent known by the shareholder giving notice, the name and address of any other shareholder supporting the nominee for election or reelection as a director. No shareholder nomination shall be

effective unless made in accordance with the procedures set forth in this Section 11. The person presiding at the meeting shall, if the facts warrant, determine and declare to the meeting that a shareholder nomination was not made in accordance with the bylaws, and if he should so determine, he shall so declare to the meeting and the defective nomination shall be disregarded.

(B) A shareholder providing notice of any nomination proposed to be made at a meeting shall further update and supplement such notice, if necessary, so that the information provided or required to be provided in such notice pursuant to this Section 11 shall be true and correct as of the record date for the meeting and such update and supplement shall be delivered to, or mailed and received by, the secretary of the corporation not later than five (5) business days after the record date for the meeting.

(C) At the request of the board of directors, any person nominated by the board of directors for election as a director shall furnish to the secretary of the corporation that information required to be set forth in a shareholder's notice of nomination which pertains to the nominee.

(D) If information submitted pursuant to this Section 11 by any shareholder or nominee shall be inaccurate to any material extent as determined by the board of directors, any committee thereof or any officer authorized by the board of directors or any such committee to make such determination, such information may be deemed not to have been provided in accordance with this Section 11 in which case such shareholder shall be deemed not to have complied with the notice provisions of this Section 11. Upon written request by the secretary of the corporation, the board of directors or any committee thereof, the shareholder proposing a nominee at a meeting of shareholders or the nominee, if applicable, shall provide, within ten days of delivery of such request (or such other period as may be specified in such request), written verification, satisfactory in the discretion of the board of directors, any committee thereof or any officer authorized by the board of directors or any such committee, to demonstrate the accuracy of any information submitted by such person pursuant to this Section 11. If a shareholder or a nominee, if applicable, fails to provide such written verification within such period, the information as to which written verification was requested may be deemed not to have been provided in accordance with this Section 11 in which case such shareholder shall be deemed not to have complied with the notice provisions of this Section 11.

(E) In addition to the requirements of this Section 11 with respect to any nomination proposed to be made at a meeting, a shareholder shall also comply with all applicable requirements of state law and the Exchange Act with respect to any such nominations.

Exhibit 2

Computation Details for Supplemental Tables in the Compensation, Discussion and Analysis

For the CEO Historical Direct Compensation Table:

LNC Annual Target – represents the annual targeted total direct compensation (“Target TDC”) set by the Committee for the executive for the year corresponding to the year on the horizontal axis of the chart.

Target TDC includes:

1. Base Salary – as disclosed in the Summary Compensation Table for the applicable year.
2. AIP target – the target value as disclosed in the Grants of Plan Based Awards Table for the applicable year.
3. Salary Shares – as disclosed in the Grants of Plan Based Awards Table for the applicable year. Salary Shares were granted in 2010 when the Company was subject to certain compensation restrictions imposed on CPP participants.
4. RSU grant date fair value – as disclosed in the Grants of Plan Based Awards Table for the applicable year.
5. Stock Options grant date fair value – as disclosed in the Grants of Plan Based Awards Table for the applicable year.
6. Performance Shares target grant date value – reflects the target dollar value on the date of grant. This amount may be a different value than what was disclosed in the Summary Compensation Table because the SEC requires disclosure of the likely outcome of the performance plan as projected on the date of grant in the Summary Compensation Table. The amount does match the target amount shown in the Grants of Plan Based Awards table for the applicable year.
7. LTI Performance Cash – this amount differs (lower) from amount disclosed in the Grants of Plan Based Awards Table which reflects the portion of the original target award that was forfeited due to CPP restrictions on bonus accruals during the period that we were subject to the CPP compensation restrictions.

Value Realized – represents the actual value of base salary, discretionary bonuses, annual incentive program payments and long-term incentive program payments earned and paid; these payments are reflected in the year in which they were earned for annual compensation and in the year they were granted for long-term incentive compensation. The “value realized” also includes the fair market value of restricted stock units and the in-the-money value of Options that were granted in the year corresponding to the year on the horizontal axis of the chart as valued at December 31, 2012. The fair market value of the restricted stock units was calculated using the closing price of our stock on December 30, 2012. The value of the in-the-money Options was calculated using the spread between the closing price of our stock on December 30, 2012 and the Option exercise price.

Value Realized Includes:

1. Base Salary – as disclosed in the Summary Compensation Table for the applicable year.
2. AIP Paid – as disclosed in the Summary Compensation Table for the applicable year.
3. Salary Shares – as disclosed in the Grants of Plan Based Awards Table for the applicable year. Salary Shares were granted in 2009 and 2010 when the Company was subject to certain compensation restrictions imposed on CPP participants. The values were calculated using the net shares granted multiplied by the closing stock price of our stock on December 31, 2012.
4. RSUs – number of shares as disclosed in the Grants of Plan Based Awards Table for the applicable year multiplied by the closing stock price of our stock on December 31, 2012 (less any shares withheld to cover FICA tax liabilities imposed on grants with provisions for accelerated pro-rata vesting upon retirement as a result of the IRS requirements).
5. Stock Options – number of Options as disclosed in the Grants of Plan Based Awards Table for the applicable year. The value was calculated using the in-the-money value of Options using the closing stock price of our stock on

December 31, 2012. The result was \$0 as all outstanding vested CEO Options were under-water as of December 30, 2012.

6. Performance Shares for open performance periods – number of shares as disclosed in the Grants of Plan Based Awards Table for the applicable year multiplied by the closing stock price of our stock on December 30, 2012.
7. Performance Shares for completed performance periods – number of shares as disclosed in the Option Exercises and Stock Vested for the year in which the performance period was completed. For example, the 2007-2009 performance cycle completed in 2009 resulted in a final award equal to 0% of target, and the 2008-2010 performance cycle completed in 2010 resulted in a final award equal to 0% of target.
8. LTI Performance Cash Paid – as disclosed in the Summary Compensation Table for the applicable year.

For the CEO – Outstanding Equity Awards Accumulated Grant Date Values vs. Current Value Table:

Outstanding Equity Award Value – Accumulated Grant Date Value – represents the cumulative original grant date fair value total for all equity awards which were outstanding (i.e., unvested stock and performance units and unexercised Options at the end of the fiscal year corresponding to the year on the horizontal axis of the chart).

Accumulated Target Grant Date Value Includes:

1. Outstanding RSUs by year – corresponds to the number of shares disclosed in the Outstanding Equity Awards at Fiscal Year-End Table for the fiscal year corresponding to the year on the chart multiplied by the grant date fair value per share as derived from the Grants of Plan Based Awards Table in the year the RSU award was granted.
2. Outstanding Stock Options – corresponds to the number of Options disclosed in the Outstanding Equity Awards at Fiscal Year-End Table for the fiscal year corresponding to the year on the chart multiplied by the fair value per option derived from the Grants of Plan Based Awards Table in the year the Stock Option was granted. For Options granted prior to the revised proxy disclosure rules, the number of outstanding Options was multiplied by the weighted average option value disclosed in the 10-K for the fiscal year in which the stock option award was granted.
3. Outstanding Performance Shares – corresponds to the cumulative number of shares disclosed in the Grants of Plan Based Awards Table for performance shares which were outstanding at the end of a given year. This number would vary from the number disclosed in the Outstanding Equity Awards at Fiscal Year-End Table if we disclosed a number representing a projected payment other than target. The details on the level of performance reflected in amounts disclosed in the Outstanding Equity Awards at Fiscal Year-End Table for the applicable year corresponding to the year on the horizontal axis on the chart would be included in the footnotes to the applicable table for that year. The number of shares were multiplied by the average of the high and low stock prices of our stock on the trading day prior to the grant date; this value could vary from the grant date fair value disclosed in the Grants of Plan Based Awards Table when the accounting rules require the inclusion of projected future market performance to be factored into the grant date fair value calculation.

Outstanding Equity Award Value – Year-End Current Value – represents the cumulative current market value total for all equity awards which were outstanding at the end of the fiscal year corresponding to the year on the horizontal axis of the chart. Current market value was calculated using the year-end stock price of the respective fiscal year, and for Options, current market value represents the in-the-money value of outstanding Options at the end of the respective fiscal year.

Year End Value Includes:

1. Outstanding RSUs by year – corresponds to the number of shares disclosed in the Outstanding Equity Awards at Fiscal Year-End Table for the fiscal year corresponding to the year on the chart multiplied by the closing stock price of our stock for the respective fiscal year on the chart.
2. Outstanding Stock Options – corresponds to the number of Options disclosed in the Outstanding Equity Awards at Fiscal Year-End Table for the fiscal year corresponding to the year on the chart with the in-the-money value calculated using the closing stock price of our stock for the respective fiscal year on the chart.
3. Outstanding Performance Shares – corresponds to the cumulative number of shares disclosed in the Grants of Plan Based Awards Table for performance shares which were outstanding at the end of a given year. This number would vary from the number disclosed in the Outstanding Equity Awards at Fiscal Year-End Table if we disclosed a number representing a projected payment other than target. The details on the level of performance reflected in amounts disclosed in the Outstanding Equity Awards at Fiscal Year-End Table for the applicable year corresponding to the year on the horizontal axis on the chart would be included in the footnotes to the applicable table for that year. The number of shares was multiplied by the closing stock price of our stock for the respective fiscal year on the chart.

Reconciliation of Non-GAAP Measures

Definition of Income (Loss) from Operations and Return on Equity

Income (loss) from operations and return on equity ("ROE") are non-GAAP financial measures and do not replace GAAP net income (loss) and ROE. We exclude the after-tax effects of the following items from GAAP net income (loss) to arrive at income (loss) from operations:

- 1) Realized gains and losses associated with the following ("excluded realized gain (loss)"):
 - a. sale or disposal of securities;
 - b. impairments of securities;
 - change in the fair value of derivative investments, embedded derivatives within certain reinsurance arrangements

- 5) gain (loss) on early extinguishment of debt;
- 6) losses from the impairment of intangible assets; and
- 7) income (loss) from discontinued operations.

Return on equity measures how efficiently we generate profits from the resources provided by our net assets. Return on equity is calculated by dividing net income (loss) by average equity, excluding accumulated other comprehensive income (loss) ("AOCI").

Income (loss) from operations and return on equity, excluding AOCI, using income (loss) from operations are financial measures we use to evaluate and assess our results. Management believes that these performance measures explain the results of the company's ongoing businesses in a manner that allows for a better understanding of the underlying trends in the company's current business because the excluded items are unpredictable and not necessarily indicative of current operating fundamentals or future performance of the business segments, and, in most instances, decisions regarding these items do not necessarily relate to the operations of the individual segments.

Definition of Book Value Per Share Excluding AOCI

Book value per share excluding AOCI is calculated based upon a non-GAAP financial measure. It is calculated by dividing stockholders' equity excluding AOCI by common shares outstanding, assuming conversion of Series A preferred shares. We provide book value per share excluding AOCI to enable investors to analyze the amount of our net worth that is primarily attributable to our business operations. Management believes book value per share excluding AOCI is useful to investors because it eliminates the effect of items that can fluctuate significantly from period to period, primarily based on changes in interest rates. Book value per share is the most directly comparable GAAP measure. A reconciliation of book value per share to book value per share excluding AOCI as of December 31, 2012 and 2011, is presented below.

	As of December 31,	
	2012	2011
Book value per share, including AOCI	\$55.14	\$44.94
Per share impact of AOCI	14.03	9.19
Book value per share, excluding AOCI	41.11	35.75

2012 AIP

For the 2012 AIP, “Income from Operations” is defined as set forth in our Annual Report on Form 10-K for the year ended December 31, 2012, which is set forth in Exhibit 3. In addition, for calculating Income from Operations for the 2012 AIP the following items may be excluded from Income from Operations, all net of tax:

- A. Expenses related to acquisitions, mergers, divestitures, integration and restructuring activities, including restructuring charges, and losses associated with changes to employee benefit plans;
- B. Reductions in earnings in the performance period from those in the base year as a result of the on-going impact of a change in accounting principles;
- C. Losses and expenses resulting from claims, damages, judgments, liabilities and settlements arising from legal and regulatory proceedings in excess of \$10 million;
 - D. Reductions in earnings resulting from the sale or reinsurance of a business or block of business;
- E. Reduction in earnings from increases in our effective tax rate and the related taxes due to legislative changes and changes to income tax laws, including but not limited to: changes in the computation of the separate account dividends received deduction under the federal income tax law and increases to the corporate tax rate from the rate in effect at the beginning of the performance period;
- F. Reduction in earnings resulting from changes in regulatory requirements governing the Company; including but not limited to, the Dodd-Frank Wall Street Reform and Consumer Protection Act;
- G. Reduction in earnings resulting from changes in the assumption used in our actuarial models and systems, the changes resulting from the review of such models and systems and the changes to or conversion of actuarial systems; and
- H. Reduction in earnings from significant disruptions to the operations of the Company as could result from a natural disaster, acts of God, acts of terrorism, inability of the capital markets to function and other similar items in nature that impact the operations of the Company.

Section 10. Notice of Shareholder Business. (A) At any annual meeting of the shareholders, only such business may be conducted as shall have been properly brought before the meeting. To be properly brought before an annual meeting, business (other than nominations of directors, which must be made in compliance with, and shall be exclusively governed by, Section 11 of this Article I) must be (a) specified in the notice of meeting given in accordance with Section 4 of this Article I, (b) otherwise properly brought before the meeting by or at the direction of the board of directors or the chief executive officer, or (c) otherwise properly brought before the meeting by a shareholder who shall be entitled to vote at such meeting and who complies with the notice procedures set forth in this Section 10. Except for proposals properly made in accordance with Rule 14a-8 (or any successor provision) under the Securities Exchange Act of 1934, as amended, and the rules and regulations promulgated thereunder (as so amended and inclusive of such rules and regulations, the “Exchange Act”) and included in the notice of meeting given by or at the direction of the board of directors, the foregoing clause (c) shall be the exclusive means for a shareholder to propose business to be brought before an annual meeting of the shareholders. Without qualification, for business to be properly brought before an annual meeting by a shareholder pursuant to clause (c) above, the shareholder must have given timely notice thereof in writing to the secretary of the corporation. To be timely, a shareholder’s notice must be delivered to or mailed and received at the principal office of the corporation, not less than ninety days nor more than one hundred twenty days prior to the first anniversary date of the annual meeting for the preceding year; provided, however, if and only if the annual meeting is not scheduled to be held within a period that commences thirty days before such anniversary date and ends thirty days after such anniversary date (an annual meeting date outside such period being referred to herein as an “Other Annual Meeting Date”), such shareholder notice shall be given in the manner provided herein by the close of business on the later of (i) the date ninety days prior to such Other Annual Meeting Date or (ii) the tenth day following the earlier of the date the corporation shall have mailed the notice of such meeting to shareholders or the date such Other Annual Meeting Date is first publicly announced. In no event shall any adjournment or postponement of an annual meeting or the announcement or notice thereof by the corporation commence a new time period (or extend any time period) for the giving of a shareholder’s notice as provided in this Section 10. A shareholder’s notice to the secretary of the corporation shall set forth as to each matter the shareholder proposes to bring before the annual meeting or as to the shareholder giving notice, as applicable, (a) a brief description of the business desired to be brought before the annual meeting, including the text of any proposal to be presented, and the reasons for conducting such business at the meeting, (b) the name and address, as they appear on the corporation’s stock records, of the shareholder proposing such business and any Shareholder Associated Person, (c) as of the date of the shareholder’s notice, the class and number of shares of the corporation which are beneficially owned or held of record by the shareholder and any Shareholder Associated Person and whether and the extent to which any derivative instrument, swap, option, warrant, short interest, hedge or profit interest has been entered into by or on behalf of any such person(s) with respect to shares of the corporation, (d) as of the date of the shareholder’s notice, whether and the extent to which any other transaction, agreement, arrangement or understanding (including any short position or any borrowing or lending of shares of the corporation) has been made by or on behalf of the shareholder or any Shareholder Associated Person, the effect or intent of which is to mitigate loss to, or to manage risk or benefit of share price changes for, any such person(s) or to increase or decrease the voting power or pecuniary or economic interest of such persons with respect to shares of the corporation and (e) any interest of the shareholder or any Shareholder Associated Person in such business desired to be brought before the annual meeting. Notwithstanding anything in these bylaws to the contrary, no business shall be conducted at an annual meeting except in accordance with the procedures set forth in this Section 10. Shareholders shall not be permitted to propose business to be brought before a special meeting of shareholders, and the only matters that may be brought before a special meeting of shareholders are the matters specified in the notice of meeting given in accordance with Section 4 of this Article I. The person presiding at any meeting shall, if the facts warrant, determine and declare to the meeting that business was not properly brought before the meeting in accordance with the bylaws, or that business was not lawful or appropriate for consideration by shareholders at the meeting, and if he should so determine, he shall so declare to the meeting and any

such business shall not be transacted.

(B) For purposes of this Section 10 and Section 11 below, “Shareholder Associated Person” of any shareholder shall mean (i) any person controlling, directly or indirectly, or acting in concert with such shareholder, (ii) any beneficial owner of shares of the corporation owned of record or beneficially by such shareholder and (iii) any person controlling, controlled by or under common control with such Shareholder Associated Person, and “publicly announce” shall mean disclosure in a press release reported by a national news service or in a document publicly filed or furnished by the corporation with the Securities and Exchange Commission pursuant to Section 13, 14 or 15 of the Exchange Act.

(C) A shareholder providing notice of business proposed to be brought before an annual meeting shall further update and supplement such notice, if necessary, so that the information provided or required to be provided in such notice pursuant to this Section 10 shall be true and correct as of the record date for the annual meeting, and such update and supplement shall be delivered to, or mailed and received by, the secretary of the corporation not later than five (5) business days after the record date for the annual meeting.

(D) If information submitted pursuant to this Section 10 by any shareholder shall be inaccurate to any material extent as determined by the board of directors, any committee thereof or any officer authorized by the board of directors or any such committee to make such determination, such information may be deemed not to have been provided in accordance with this Section 10 in which case such shareholder shall be deemed not to have complied with the notice provisions of this Section 10. Upon written request by the secretary of the corporation, the board of directors or any committee thereof, the shareholder proposing business at an annual meeting of shareholders shall provide, within ten days of delivery of such request (or such other period as may be specified in such request), written verification, satisfactory in the discretion of the board of directors, any committee thereof or any officer authorized by the board of directors or any such committee, to demonstrate the accuracy of any information submitted by the shareholder pursuant to this Section 10. If a shareholder fails to provide such written verification within such period, the information as to which written verification was requested may be deemed not to have been provided in accordance with this Section 10 in which case such shareholder shall be deemed not to have complied with the notice provisions of this Section 10.

(E) This Section 10 is expressly intended to apply to any business proposed to be brought before an annual meeting of shareholders other than any proposal made pursuant to Rule 14a-8 (or any successor provision) of the Exchange Act. In addition to the requirements of this Section 10 with respect to any business proposed to be brought before an annual meeting, a shareholder shall also comply with all applicable requirements of state law and the Exchange Act with respect to any such business. Nothing in this Section 10 shall be deemed to affect any right of a shareholder to request inclusion of proposals in, nor the right of the corporation to omit a proposal from, the corporation's proxy statement pursuant to Rule 14a-8 (or any successor provision) under the Exchange Act.
