COMPENSATION COMMITTEE REPORT ON EXECUTIVE COMPENSATION

The Compensation Committee reviews and establishes management compensation, compensation policies and procedures. Following review and approval by the Committee, all issues pertaining to executive compensation are submitted to the full Board of Directors for its approval. The Committee also has responsibility for the grant of awards under Westar's stock option plan.

Executive officer compensation is based on Westar's overall performance in the past year and an analysis of compensation levels necessary to attract, maintain and motivate quality personnel. In this way, Westar is able to compete for and retain talented executives who are critical to our long-term strategies for success. It also aligns the interest of those executives with the long-term interests of our stockholders.

Executive compensation consists of three components: cash compensation, long term incentives in the form of stock options and normal employee fringe benefits. The three components are intended to provide executives with incentives to achieve the long-range objectives of Westar and to reward exceptional performance. Performance is evaluated not only with respect to Westar's earnings but also with respect to the accomplishment of Westar's business objectives, the individual's contribution to stockholder value, and also with respect to comparable industry results and experience. Executive officers receive all normal employee fringe benefits.

In determining the overall compensation package for the Chief Executive Officer, the Committee considered each of the factors enumerated in the preceding paragraphs regarding compensation for executive officers of Westar as well as the performance achieved by Westar during the past fiscal year.

To motivate extraordinary job performance and to encourage growth in stockholder value, significant stock options are granted under Westar's stock option plan to all executives and all other company personnel in order to encourage substantial contributions toward the overall success of Westar. The Committee believes that this focuses attention on managing Westar from the perspective of owners with an equity stake in the business.

INFORMATION ABOUT WESTAR 1994 STOCK OPTION PLAN

In 1996, the Company adopted, and the stockholders approved, the amendment of the 1994 Stock Option Plan (the "1994 Stock Option Plan") providing for the granting of options to purchase 600,000 shares to employees, directors and consultants of the Company and its affiliates. On October 8, 1998, the Board of Directors approved an increase of 750,000 shares to a total of 1,350,000. The Company estimates that approximately 87 employees and two consultants, along with all current directors of the Company, are currently eligible to receive option grants under the 1994 Stock Option Plan. The Company, by means of the 1994 Stock Option Plan, seeks to retain the services of persons now employed by or serving as consultants or directors to the Company, to secure and retain the services of persons capable of filling such positions and to provide incentives for such persons to exert maximum efforts toward the success of the Company. The 1994 Stock Option Plan provides for the granting of Incentive Stock Options ("ISOs") as that term is used in Section 422 of the Internal Revenue Code of 1986, as amended (the "Code"), as well as for the granting of Non-statutory Stock Options ("NSOs") which do not qualify as incentive stock options under the Code.

The 1994 Stock Option Plan is administered by the Board of Directors upon recommendation of its Compensation Committee. The Board or the Committee determines from time to time which of the persons eligible under the 1994 Stock Option Plan shall be granted options, when and how the options shall be granted, whether such options shall be ISOs or NSOs and the provisions of each of the options (which need not be identical), subject to the restrictions set forth in the 1994 Stock Option Plan. ISOs may be granted only to employees (including officers) of the Company and its affiliates while NSOs may be granted to employees (including officers) and directors of, or consultants to, the Company and its affiliates.

The exercise price of each option shall not be less than one hundred percent (100%) of the fair market value of the stock subject to the option on the date the option is granted. The exercise price of any ISO granted to any optionee owning more than ten percent (10%) of the voting power of all classes of the Company's stock, shall not be less than one hundred ten percent (110%) of the fair market value of the stock on the date of the grant of the ISO. Generally, an option shall terminate three months after termination of the optionee's employment or relationship as a consultant to, or director of, the Company or its affiliates, and an option shall not be transferable except by will or the laws of descent and distribution (although an ISO may also be transferred pursuant to a qualified domestic relations order as defined by the Code or Title I of the Employee Retirement Income Security Act, or the rules thereunder). The market price of the Company's common stock as of the close of trading on March 31, 2001 on which a trade took place, was \$2.50.

The 1994 Stock Option Plan permits options granted to be either qualified Incentive Stock Options pursuant to the Code or non-qualified stock options, as the Board may elect. Upon exercise of a non-qualified option, the optionee will realize ordinary income in an amount equal to the excess of the fair market value of the shares of common stock received over the exercise price of such shares. That amount increases the optionee's basis in the stock acquired pursuant to the exercise price of such shares. That amount increases the optionee's basis in the stock acquired pursuant to the exercise of the non-qualified option. Upon a subsequent sale of the stock, the optionee will generally recognize

Edgar Filing: WESTAR FINANCIAL SERVICES INC/WA/ - Form DEF 14A

additional capital gain or loss. The Company generally will be allowed a federal income tax deduction for the amount recognized as ordinary income by the optionee upon the exercise of the option.

The Board may at any time, and from time to time, amend the 1994 Stock Option Plan. However, no amendment shall be effective unless approved by the stockholders of the Company where such amendment would, among other things, increase the number of shares reserved for issuance pursuant to options granted under such plan.

As of March 31, 2001, options representing a total of 1,118,200 shares have been granted, 221,050 of which had been exercised, the remainder include 398,430 options which were vested and were

11

exercisable, 232,420 options which had not vested yet, and 266,300 options which have expired. These options are held by twenty-one (21) persons, are exercisable at between \$2.00 \$11.00 per share and remain exercisable for three to five years from the date of grant, subject to certain conditions.
