The date of mailing of this proxy statement and form of proxy is approximately February 12, 2004.

OUTSTANDING STOCK AND VOTING RIGHTS

The board of directors has fixed the close of business on January 30, 2004 as the record date for determining the stockholders entitled to notice of, and to vote at, the annual meeting. Only stockholders of record on that date will be entitled to vote. If you submit your proxy on the accompanying form, you have the power to revoke it by notice of revocation directed to the proxy holder at any time before it is voted. Unless you withhold authority in writing, proxies, which are properly executed, will be voted for the proposals. Although you may have given your proxy, you may nevertheless attend the meeting, revoke your proxy and vote in person. The election of the directors nominated requires the affirmative vote of a plurality of the shares of Viragen's common stock voting at the annual meeting in person or by proxy.

As of January 30, 2004, the record date for determining our stockholders entitled to notice of, and to vote at, the annual meeting, 361,577,256 shares of our common stock, \$.01 par value, were outstanding. Each share of common stock outstanding entitles the holder to one vote on all matters brought before the annual meeting. The quorum necessary to conduct business at the annual meeting consists of a majority of the shares of common stock outstanding (180,788,629 shares) as of the record date. Abstentions and broker non-votes are counted for purposes of determining the presence or absence of a quorum at the annual meeting.

Directors are elected by a plurality of votes cast. The adoption of each of Proposals Two, Three, Four and Five requires the affirmative vote of a majority of the shares of our common stock voting at the annual meeting in person or by proxy. Broker non-votes have no effect on the election of directors or on the adoption of Proposals Two, Three, Four or Five. Abstentions have no effect on the election of directors but have the effect of a vote against Proposals Two, Three, Four and Five.

Table of Contents**DIRECTORS AND EXECUTIVE OFFICERS**

On February 28, 1997, we amended our certificate of incorporation and set up a classified board of directors commencing with the 1997 annual meeting. Following that meeting, we divided directors into three subclasses consisting of class A, class B and class C. The initial term of the class A directors expired after the 1998 annual meeting of stockholders and their second term expired after the 2001 annual meeting; the term of the class B directors initially expired after the 1999 annual meeting and their second term expired after the 2002 annual meeting; and the term of the class C directors initially expired after the 2000 annual meeting.

At each annual meeting of stockholders, directors of the respective class whose term has expired will be elected. The directors chosen to succeed those whose terms have expired will be elected to hold office for a term to expire at the third ensuing annual meeting of stockholders after their election, and until their respective successors are elected and qualified. At the 2003 annual meeting, stockholders will be asked to elect one class B director and three class C directors, to hold office until their successors are elected at the 2006 annual meeting of stockholders.

A copy of the audit and finance committee charter is attached to this proxy statement as Appendix A and is available on our web site at www.viragen.com.

The role of the audit and finance committee is to assist the board in monitoring (1) the integrity of our financial statements, (2) our compliance with legal and regulatory requirements, (3) the independent auditor's qualifications and independence, (4) the development, implementation and performance of our internal audit function and (5) the performance of our independent auditors. The audit and finance committee also prepares the report required by the rules of the Securities and Exchange Commission to be included in our annual proxy or information statement.

Table of Contents

In December 2003, following the adoption of new American Stock Exchange rules issued that same month, Mr. Salisbury resigned from the audit and finance committee and was replaced in this position by Dr. Pohlman.

Each member of our audit and finance committee is independent within the meaning of Rule 10A-3 under the Securities Exchange Act of 1934 and satisfies the independence standards of Section 121A of the Rules of the American Stock Exchange.

Report of the Audit and Finance Committee

The audit and finance committee reviews our financial reporting process on behalf of the board of directors. Management has the primary responsibility for the financial statements and the reporting process, including the system of internal controls. In this context, the committee has met and held discussions with management and the independent auditors. Management represented to the committee that Viragen's consolidated financial statements were prepared in accordance with accounting principles generally accepted in the United States, and the committee has reviewed and discussed the consolidated financial statements with management and the independent auditors. The committee discussed with the independent auditors matters required to be discussed by Statement on Auditing Standards No. 61 (Communication With Audit Committees).

In addition, the committee has discussed with the independent auditors, the auditor's independence from the company and its management, including the matters in the written disclosures required by the Independence Standards Board Standard No. 1 (Independence Discussions With Audit Committees).

The committee discussed with our independent auditors the overall scope and plans for their respective audit. The committee meets with the independent auditors, with and without management present, to discuss the results of their examinations, the evaluations of Viragen's internal controls, and the overall quality of our financial reporting.

In reliance on the reviews and discussions referred to above, the committee recommended to the board of directors, and the board has approved, that the audited consolidated financial statements be included in Viragen's annual report on Form 10-K for the year ended June 30, 2003, for filing with the Securities and Exchange Commission. The committee and the board also have recommended, subject to shareholder approval, the selection of Ernst & Young, LLP, as our independent auditors.

Compensation Committee

The compensation committee was organized in February 2001. Prior to the adoption of the compensation committee charter in December 2003, the committee operated without a written charter. A copy of the charter of the compensation committee is attached to this proxy statement as Appendix B and is available on our web site at www.viragen.com

Under its charter, the compensation committee is to consist of not less than two members. Each member of the compensation committee satisfies the independence standards of Section 121A of the Rules of the American Stock Exchange.

Table of Contents

The compensation committee was formed to discharge the board of director's responsibilities relating to (1) compensation payable to our executive officers and non-employee directors, (2) incentive and equity-based compensation plans, including stock option plans in which officers or employees are eligible to participate and (3) arrangements with executive officers and other key officers relating to their employment relationship with us.

During fiscal 2003, the compensation committee met on one occasion.

Nominating and Governance Committee

The nominating and governance committee was organized in January 2003. Prior to the adoption of the nominating and governance committee charter in December 2003, the committee operated without a written charter. A copy of the charter of the nominating and governance committee is attached to the proxy statement as Appendix C and is available on our web site at www.viragen.com.

Under its charter, the nominating and governance committee is to consist of not less than two members. Each member of the nominating committee satisfies the independence standards of Section 121A of the Rules of the American Stock Exchange. The executive committee with common members, met on behalf of the nominating and governance committee met on three occasions during fiscal 2003.

The nominating and governance committee is responsible for selecting those individuals to recommend to the entire board of directors for election to the board. The committee will consider candidates for directors proposed by security holders. The nominating and governance committee has no formal procedures for submitting candidates and, until otherwise determined, accepts written submissions that include the name, address and telephone number of the proposed nominee, along with a brief statement of the candidate's qualifications to serve as a director. If the proposed nominee is not the security holder submitting the name of the candidate, a letter from the candidate agreeing to the submission of his or her name for consideration should be provided at the time of submission.

The nominating and governance committee identifies director nominees through a combination of referrals, including by management, existing board members and security holders, and direct solicitations, where warranted. Once a candidate has been identified the nominating and governance committee reviews the individual's experience and background, and may discuss the proposed nominee with the source of the recommendation. If the committee believes it to be appropriate, committee members may meet with the proposed nominee before making a final determination whether to recommend the individual as a nominee to the entire board of directors to stand for election to the board.

Among the factors that the committee considers when evaluating proposed nominees are their experience in the biopharmaceutical industry, knowledge of and experience with regulatory processes, particularly those relating to the Food and Drug Administration and its international counterparts, and knowledge of and experience in business matters, finance, capital markets and mergers and acquisitions. The committee may request references and additional information from the candidate prior to reaching a conclusion. The committee is under no obligation to formally respond to recommendations, although as a matter of practice, every effort is made to do so.

The nominating and governance committee received no security holder recommendations for nomination to the board of directors in connection with the 2004 annual meeting of stockholders. There are three director nominees for the 2004 annual meeting of stockholders who are neither incumbent directors standing for reelection nor executive officers. Per-Erik Persson was known to the nominating and governance committee based upon his serving as a director of Viragen International, Inc. our

to provide an environment where innovation, dedication and success are rewarded; and

to provide participation in stock appreciation as part of an incentive based compensation package.

The performance of executive officers is evaluated routinely by the compensation committee as well as by the board of directors as a whole. The compensation committee considers each employee's total compensation package, including base salary, stock options and other benefits as provided in their respective employment agreements.

Chairman of the Board and Chief Executive Officer. Robert C. Salisbury was appointed chief executive officer and president of Viragen on January 31, 2003. Mr. Salisbury has been a director of Viragen since December 1998. Mr. Salisbury has not entered into an employment agreement with Viragen nor does he receive a salary from the Company. On February 7, 2003, Mr. Salisbury was granted an option to purchase 350,000 shares of Viragen common stock at \$0.11 per share. The option vests one-half upon grant and one-half upon the first anniversary of the grant date. The option is exercisable for five years from vest date.

Other Executive Officers. As with the compensation of the chief executive officer, the compensation committee evaluates and establishes the compensation packages for other executive officers of the company. These executives are evaluated routinely based on the effectiveness of their efforts in their respective areas of responsibility as well as their contribution to achieving our overall goals. The compensation committee has structured compensation packages so that the base salaries are conservative by pharmaceutical industry standards. The emphasis is on compensation through the issuance of stock options. As a consequence, the executive officers may maximize their total compensation through the attainment of corporate goals as reflected in appreciated stock values.

1997 Amended Stock Option Plan and 1995 Amended Stock Option Plan

Edgar Filing: VIRAGEN INC - Form DEF 14A

On May 15, 1995 the board of directors adopted, subject to approval by the stockholders, a stock option plan, called the 1995 Stock Option Plan. On September 22, 1995, the board of directors amended the 1995 Stock Option Plan to define certain terms and clarify the minimum exercise price of the non-qualified options. The minimum exercise price of non-qualified options cannot be less than 55% of the fair market value. Viragen stockholders ratified the 1995 Stock Option Plan at the annual meeting held on December 15, 1995.

Table of Contents

On January 27, 1997 the board of directors adopted, subject to approval by the stockholders, a stock option plan called the 1997 Stock Option Plan. The 1997 stock option plan contains terms and provisions similar to the 1995 Stock Option Plan. Viragen stockholders ratified the 1997 Stock Option Plan at the annual meeting held on February 28, 1997. On April 24, 1998 the board of directors adopted, subject to ratification by the stockholders, an amendment to the 1997 Stock Option Plan. This amendment reserved an additional 1,000,000 shares of common stock for issuance under that plan. This amendment brought the total shares reserved under the 1997 Stock Option Plan to 4,000,000 shares. On July 31, 1998, the stockholders ratified this amendment to the 1997 Stock Option Plan.

The audit and finance committee and the compensation committee of the board of directors and the board of directors currently administer the plans. Administration of the plan includes determining:

- the persons who will be granted plan options,
- the type of plan options to be granted,
- the number of shares subject to each plan options, and
- the exercise price of plan options.

Options granted under either the 1995 or the 1997 stock option plans may qualify as incentive stock options, under Section 422 of the Internal Revenue Code of 1986, as amended. In addition, the plans also include a reload option provision. This provision permits an eligible person to pay the exercise price of the plan option with shares of common stock owned by the eligible person. The person then receives a new plan option to purchase shares of common stock equal in number to the tendered shares. Any incentive option, which is granted under a plan must provide for an exercise price of not less than 100% of the fair market value of the underlying shares, on the date of such grant. The exercise price of any incentive option granted to an eligible employee owning more than 10% of our common stock must be at least 110% of the fair market value, as determined on the date of the grant. The board of directors, the audit and finance committee or the compensation committee determine the term of each plan option and the manner in which it may be exercised. No plan option may be exercisable more than 10 years after the date of its grant. In the case of an incentive option granted to an eligible employee owning more than 10% of Viragen's common stock, no plan option may be exercisable more than five years after the date of the grant.

Officers, directors, key employees and consultants of Viragen and its subsidiaries are eligible to receive non-qualified options under the stock option plans. Only officers, directors and employees who are employed by Viragen or by any of its subsidiaries are eligible to receive incentive options.

Incentive options are non-assignable and nontransferable, except by will or by the laws of descent and distribution during the lifetime of the optionee. Only the optionee may exercise incentive options. Under an amendment to the 1997 stock option plan, non-qualified options may be transferable under limited circumstances for estate planning, if authorized by the board of directors or the compensation committee. If an optionee's employment is terminated for any reason, other than his death or disability, or if an optionee is not an employee but is a member of Viragen's board of directors and his service as a director is terminated for any reason, other than death or disability, the plan option granted to him will lapse to the extent unexercised on the earlier of the expiration date or 90 days following the date of termination. If the optionee dies during the term of his employment, the plan option granted to him will lapse to the extent unexercised on the earlier of the expiration date of the plan option or the date one year following the date of the optionee's death. If the optionee is permanently and totally disabled, the plan option granted to him lapses to the extent unexercised on the earlier of the expiration date of the option or one year following the date of the disability.

Table of Contents

The board of directors may amend, suspend or terminate the stock option plans at any time. However, no amendment can be made which changes the minimum purchase price, except in the event of adjustments due to changes in Viragen's capitalization. Unless the plans have been suspended or terminated by the board of directors, the 1995 Stock Option Plan will terminate on May 15, 2005, and the 1997 Stock Option Plan will terminate on January 27, 2007. The termination of either plan will not affect the validity of any plan options previously granted.

As of January 30, 2004, there were approximately 109,000 and 473,000 options available under the 1995 and 1997 stock option plans, respectively.

Other Option Grants

On February 7, 2003, Viragen granted 5,000 options to purchase shares of Viragen common stock to Charles J. Simons and Carl N. Singer. These grants represented the normal annual grant to existing non-employee directors of Viragen. The options vest one-half on the date of grant and one-half on the first year anniversary. The options are exercisable over five years from the vest dates, at a price of \$0.11 per share.

In June, November and December 2003, Viragen granted 25,000 options to purchase shares of Viragen common stock each to C. Richard Stafford, Per-Erik Persson and Randolph A. Pohlman. These options are exercisable at prices ranging from \$0.25 to \$0.27 per share. These grants represent Viragen's normal initial grant to non-employee directors upon being appointed to the board of directors. These options vest one-half on the date of grant and one-half on the first year anniversary and are exercisable over five years from the vest dates.

Beneficial Ownership Reporting Compliance

Section 16(a) of the Exchange Act requires our directors and executive officers, and persons who own more than ten percent (10%) of a registered class of our equity securities, to file with the Securities and Exchange Commission initial reports of their ownership and reports of changes in their ownership of common stock and other equity securities of Viragen. Officers, directors and greater than ten percent (10%) stockholders are required by regulation to furnish us with copies of all Section 16(a) forms they file.

To our knowledge, based solely on a review of the copies of these reports furnished to us and written representations that no other reports were required, during the fiscal year ended June 30, 2003, all Section 16(a) filing requirements applicable to our officers, directors and greater than ten percent (10%) beneficial owners were completed and timely filed.

Certain Relationships and Related Transactions

Carl N. Singer, Viragen's chairman of the board, also serves as president and chief executive officer of Viragen International, Inc. Dennis W. Healey, executive vice president and chief financial officer of Viragen, serves in the same capacities for Viragen International. Mr. Healey also serves as a director of Viragen International.

In January 2003, Mr. Gerald Smith resigned his positions as chairman, president and chief executive officer of Viragen, Inc. and Viragen International. Upon his resignation, Mr. Smith received a one time payment of \$170,000. Mr. Smith also entered into a one-year consulting agreement related to our avian transgenics program. This agreement provides for annual compensation of \$155,000, health insurance and automobile related expenses. In October 2003, Mr. Smith resigned as a director of Viragen, Inc. and Viragen International.

Upon Mr. Smith's resignation as president and chief executive officer of Viragen, Mr. Robert C. Salisbury was appointed president and chief executive officer of Viragen. Mr. Salisbury receives no salary for serving in these positions. On February 7, 2003, Mr. Salisbury was granted an option to purchase 350,000 shares of common stock at \$0.11 per share, the then current market price. The option vests one-half upon grant and one-half upon the first anniversary of the grant date. The option is exercisable for five years from vest date.

In June 2003, we entered into a consulting agreement with Dr. Douglas Lind, a director of Viragen, upon the expiration of his employment agreement. This agreement provides for annual compensation of \$60,000. The agreement does not contain a fixed term. However, either Viragen or Dr. Lind has the option to terminate the agreement for any reason upon 90 days written notice. Under the agreement, Dr. Lind has been engaged to consult with management on a variety of scientific and biopharmaceutical market issues. The consulting agreement also provides for additional non-equity compensation for Dr. Lind's assistance in the facilitation of potential financing transactions, corporate collaborations or partnerships and merger and acquisition activity. To date, no fees have been paid under this provision. For his consulting services, we issued Dr. Lind 250,000 common stock purchase warrants exercisable at \$0.26 per share for a period of five years. We recognized non-compensation expense of \$52,000 in connection with the grant of these warrants. Concurrent with his entering into the consulting agreement and the issuance of the related common stock purchase warrants, Dr. Lind surrendered 275,000 common stock purchase options granted during the term of his expired employment agreement.

Table of Contents

On February 7, 2000, the board of directors voted to modify the terms of an option to purchase one million shares of Viragen common stock at \$0.50, which had been granted to Mr. Smith, then Viragen's president, during October 1995. The board of directors extended the expiration of this common stock option by three years. Under the modified terms, the expiration date of the common stock option was extended to October 5, 2003. No other terms were changed. Under the provisions of APB No. 25, we recognized compensation expense of \$941,000 relating to this modification. This option expired unexercised on October 5, 2003.

On February 18, 2000, we entered into a subscription agreement with Active Investors Ltd. II, an investment fund managed by Mr. Carl Singer, a director of Viragen, through Fundamental Management Corporation, a Florida-based institutional investment fund. Under the terms of the subscription agreement, we issued to Active Investors Ltd. II a convertible promissory note for the principal amount of \$1,000,000. The promissory note had an interest rate of 9.5% per annum. Active Investors Ltd. II could elect to convert the unpaid principal and interest, at any time, into common shares at the fixed rate of \$1.00 per share. The principal and interest were payable on February 17, 2001. This note was converted into 1,015,716 shares of common stock, which included \$35,400 in interest, on June 30, 2000. In connection with this agreement, Active Investors Ltd. II also received a warrant to purchase 100,000 shares of Viragen common stock at \$2.00 per share. The warrant expired unexercised on February 17, 2003.

Active Investors Ltd. II has also participated as an investor under the shelf registration on Form S-3 dated March 21, 2000 (File No. 333-32306). Active Investors Ltd. II invested \$1,000,000 in exchange for 784,300 shares of our common stock.

Mr. Robert Salisbury, our president and chief executive officer, also serves as president and a director of Fundamental Management Corporation, which manages the Active Investors Ltd. II fund. Mr. Salisbury and Mr. Charles Simons, a director of Viragen, are investors in the Active Investors Ltd. II fund.

During May 2001, Robert C. Salisbury entered into a consulting agreement with Viragen. He was to provide consulting services to Viragen for a three-year period ending May 31, 2004. These consulting services were in addition to his service on the board of directors. As compensation, he would have been granted warrants to purchase up to 110,000 shares of common stock. The warrants would have been granted in tranches upon performance of specific criteria. The warrants would have vested one-half on the first anniversary of the date of grant and one-half on the second anniversary of the date of grant. The warrants would have been exercisable for five years from the vest dates, at 115% of the fair market value of Viragen's common stock on the dates of grant. Subsequent to June 30, 2002, Mr. Salisbury and Viragen agreed to terminate this consulting agreement and the related warrants.

**PROPOSALS TWO, THREE AND FOUR:
FINANCING TRANSACTIONS**

American Stock Exchange Requirement

The requirements of the American Stock Exchange provide that we submit for approval of our stockholders any issuance of our common stock in a single transaction or in a series of related transactions that could exceed 19.9% of our outstanding common stock if such issuance could be made at less than fair market value measured on the date the agreement to issue the stock is made. Proposals Two, Three and Four relate to financing transactions under the American Stock Exchange requirement.

Reasons for the Financing Transactions

Viragen was and continues to be predominantly a research and development company. Revenue generation from products that we acquire or develop requires approvals from various regulatory authorities. Required regulatory approvals are subject to the successful completion of lengthy and costly clinical trials and the successful completion of any clinical trial project also depends on our ability to raise significant investment capital. As a result of the foregoing, our activities continue to be capital intensive and we are not currently able to offset the costs of capital expenditures with operating revenues. We expect to continue to incur losses from our research and development until we are able to generate substantial revenues from the sale of products that we acquire or develop.

We have historically disclosed that our future capital requirements are dependent upon many factors, including: revenue generated from the sale of our natural human interferon product, progress with future and ongoing clinical trials; the costs associated with obtaining regulatory approvals; the costs involved in patent applications; competing technologies and market developments; and our ability to establish collaborative arrangements and effective commercialization activities. While our acquisition of ViraNative enables us to produce our natural human interferon product for sale to third parties, Swedish regulatory authorities have mandated expansion of ViraNative's production facility, at an initial cost of approximately \$1.1 million. This expansion commenced in the fourth quarter of 2003. Based on product demand and available financing, the new facility could be further expanded and equipped. Our operating losses and working capital requirements continue to adversely affect cash flow, and we will require additional funding in the future. This amount represents our estimate of the funds necessary to service existing and projected debts attributable to working capital requirements as well as planned capital expenditures. In the event of our inability to raise capital, or a lack of expanded revenue from the sale of our natural human interferon product, we will likely be unable to meet our operating requirements. In this event we would be required to significantly curtail or suspend a portion or all of our operations.

For all of the foregoing reasons, we have sought and continue to seek additional capital. To date, our success in attracting additional funding has been limited to transactions in which our equity is used as currency. In light of the availability of this type of financing, and the lack of alternative proposals, the board of directors has determined that the continued use of our equity for these purposes may be necessary if Viragen is to sustain operations.

The board of directors recommends that stockholders authorize us to potentially issue more than 19.9% of our common stock in connection with the financing transactions described in Proposals Two, Three and Four. If stockholders do not authorize the financing transactions, the transactions will, nonetheless be valid. However, Viragen may be in violation of American Stock Exchange requirements, which could be cited by the American Stock Exchange as a basis for delisting our shares from that Exchange.

The financing transactions are described in Proposals Two, Three and Four.

**PROPOSAL TWO:
AUTHORIZATION TO ISSUE MORE THAN 19.9% OF VIRAGEN'S COMMON STOCK UNDER A
SECURITIES PURCHASE AGREEMENT DATED JUNE 27, 2003**

On June 27, 2003, we entered into a securities purchase agreement with Palisades Equity Fund LP, Alpha Capital AG, Crescent International Ltd., Bristol Investment Fund, Ltd. and Gryphon Master Fund, LP. The securities purchase agreement provided for the purchase and sale of our convertible debentures in the aggregate amount of approximately \$5.55 million. Under the terms of the agreement, Viragen received approximately \$4.55 million, net of original issue discounts of \$661,333, and a 6.5% finder's fee and legal expenses. Our obligations under the convertible debentures were guaranteed by our subsidiaries and collateralized by a security agreement pledging all tangible and intangible assets not otherwise encumbered. As of December 31, 2003, none of these convertible debentures remain outstanding.

These convertible debentures mature on September 1, 2005, and are payable, without interest, in 24 equal payments of principal commencing September 1, 2003. In lieu of interest, the debentures provided for an original issue discount equal to \$661,333. The debentures were convertible immediately by the investors, in whole or in part, into shares of our common stock at an initial conversion price equal to \$0.3173, which was subsequently reduced to \$0.224 as a result of the September 29, 2003 securities purchase agreement discussed in Proposal Three. In the event the average of the ten closing bid prices of our common stock immediately prior to any monthly payment installment date exceeds 133% of the conversion price, we are permitted to repay such installment through the issuance of our common stock valued at the conversion price. We have the right to redeem all, but not less than all, debentures outstanding at 120% of the remaining principal of debentures then outstanding.

The conversion price of the debentures is subject to adjustment in the event of:

stock splits, dividends and combinations;

distributions on account of our common stock; and/or

our issuance of additional common stock at less than the conversion price of the debenture on the date of issuance or less than the fair market value of our common stock on the date of issuance.

on a cashless basis, whereby the holder, rather than pay the exercise price in cash, may surrender a number of warrants equal to the exercise price of the warrants being exercised.

Table of Contents

The number of shares issuable upon exercise of the warrants, and the exercise price, is subject to adjustment in the event of:

our issuance of additional common stock at less than the exercise price of the warrants on the date of issuance or less than the fair market value of our common stock on the date of issuance.

On June 1, 2003, we entered into an agreement which provided for the issuance to Palisades Equity Fund LP, Alpha Capital AG, Crescent International Ltd. and Bristol Investment Fund, Ltd. of one half of a warrant for each outstanding warrant issued in connection with a Securities Purchase Agreement dated April 16, 2003, exercised in cash prior to June 27, 2003. Between June 9, 2003 and June 26, (a) an aggregate of 31,317,766 outstanding common stock purchase warrants were exercised in cash resulting in net proceeds of approximately \$1.88 million to Viragen, and (b) we issued an aggregate of 15,658,885 new common stock purchase warrants to the warrant holders. The exercise price of the warrants, which had been \$0.275 per share, was subsequently reduced to \$0.224 in connection with the September 29, 2003 securities purchase agreement discussed in Proposal Three. The warrants can be exercised during the five year period terminating June 1, 2008.

The number of shares issuable upon exercise of the warrants, and the exercise price, is subject to adjustment in the event of:

subdivisions, combinations, stock dividends, mergers and/or reclassifications of our common stock;

distributions on account of our common stock; and/or

our issuance of additional common stock at less than the exercise price of the warrants on the date of issuance or less than the fair market value of our common stock on the date of issuance.
