NOTES TO CONSOLIDATED FINANCIAL STATEMENTS Accounting Policies

TARGET CORPORATION

The accompanying consolidated financial statements should be read in conjunction with the financial statement disclosures contained in our 2002 Annual Report to Shareholders throughout pages 28-36. The same accounting policies are followed in preparing quarterly financial data as are followed in preparing annual data. In the opinion of management, all adjustments necessary for a fair presentation of quarterly operating results are reflected herein and are of a normal, recurring nature.

Certain prior year amounts have been reclassified to conform to the current year presentation.

Due to the seasonal nature of the retail industry, quarterly earnings are not necessarily indicative of the results that may be expected for the full fiscal year.

#### **New Accounting Pronouncements**

During 2002, the Emerging Issues Task Force reached a consensus on Issue No. 02-16, "Accounting by a Customer (Including a Reseller) for Certain Consideration Received from a Vendor." Under the new guidance, if the consideration received represents a payment for assets delivered to the vendor, it should be classified as revenue. If the consideration is a reimbursement of a specific, incremental, identifiable cost incurred in selling the vendor's product, the cost should be characterized as a reduction of that cost incurred. Generally, all other cash consideration received from a vendor should be classified as a reduction of cost of sales. As required, we adopted this guidance in the first quarter of 2003. In the third quarter, the company refined its implementation of this accounting standard, resulting in a financial statement reclassification of certain consideration received from vendors within our consolidated results of operations. The effect of this reclassification was to reduce third quarter and year-to-date cost of goods sold by \$36 and \$98 million, respectively, and to increase third quarter and year-to-date selling, general, and administrative expenses by like amounts. These reclassifications had no impact on our sales, net earnings, cash flows or financial position for any period. On November 25, 2003, the FASB ratified the EITF's consensus on Issue 03-10 "Application of Issue 02-16 by Resellers to Sales Incentives Offered to Consumers by Manufacturers" which amends EITF 02-16. According to the amended guidance, if certain criteria are met, consideration received by a reseller in the form of reimbursement from a vendor for honoring the vendor's sales incentives offered directly to consumers (i.e. manufacturer's coupons) should not be recorded as a reduction of the cost of the reseller's purchases from the vendor. We do not believe the adoption of EITF 03-10 will have a material impact on our net earnings, cash flows, or financial position.

In April 2003, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards (SFAS) No. 149, "Amendment of Statement 133 on Derivative Instruments and Hedging Activities." SFAS No. 149 amends and clarifies accounting for derivative instruments, and is effective for contracts entered into or modified after June 30, 2003. The adoption of SFAS No. 149 had no material impact on our net earnings, cash flows or financial position.

In May 2003, the FASB issued SFAS No. 150, "Accounting for Certain Financial Instruments with Characteristics of both Liabilities and Equity." SFAS No. 150 clarifies the classification and measurement of certain financial instruments with characteristics of both liabilities and equity, and is effective for financial instruments entered into or modified after May 31, 2003, or otherwise for the first interim period beginning after June 15, 2003. The adoption of SFAS No. 150 had no material impact on our net earnings, cash flows or financial position.

#### **Share Repurchase Program**

We maintain a share repurchase program under which our Board of Directors previously authorized the repurchase of \$2 billion of our common stock. Since the inception of our share repurchase program, we have repurchased a total of 42 million shares of our common stock at a total cost of approximately \$1.2 billion (\$29.39 per share), net of the premium from exercised and expired put options.

Common stock repurchases under our program have been essentially suspended. Consequently, common stock repurchases did not have a material impact on our third quarter or year-to-date 2003 net earnings or financial position.

#### **Long-term Debt and Derivatives**

During the first nine months of 2003, we repurchased \$297 million of long-term debt with a weighted average interest rate of approximately 7.8 percent. These transactions resulted in a pre-tax loss of about \$15 million (about \$.01 per share), which is included in interest expense in the Consolidated Results of Operations. There were no long-term debt repurchases during the third quarter.

During the third quarter, we entered into two interest rate swaps with notional amounts of \$400 million and \$500 million. The swaps hedge the fair value of certain debt by swapping a fixed rate to a variable rate. The fixed rates we will receive for the duration of the swaps are each 4.4 percent and the variable rate applicable to the quarter for each swap was 1.3 percent. We also terminated an interest rate swap with a notional amount of \$400 million. These transactions did not have a material impact on net earnings.

During the second quarter, we issued \$500 million of long-term debt maturing in June 2013 at 4.00 percent. During the first quarter we issued \$500 million of long-term debt maturing in March 2008 at 3.38 percent and \$200 million of long-term debt maturing in May 2018 at 4.88 percent. Proceeds from these issuances were used for general corporate purposes. Also during the first quarter, concurrent with the issuance of the \$200 million of long-term debt maturing in 2018, we entered into an interest rate swap with a notional amount of \$200 million. The effect of this swap converts our interest expense to a floating rate, set at 1.2 percent for the third quarter.

The fair value of our outstanding swaps is reflected in the financial statements as a component of other long-term assets. No ineffectiveness was recognized in the third quarter or year-to-date related to these instruments. At November 1, 2003, the fair value of our existing swaps was \$52 million, compared to \$110 million at February 1, 2003 and \$114 million at November 2, 2002.

#### **Accounts Receivable**

Accounts receivable is recorded net of an allowance for expected losses. The allowance, estimated from historical portfolio performance and projections of trends, was \$411 million at November 1, 2003, compared to \$399 million at February 1, 2003 and \$360 million at November 2, 2002.

#### **Stock Option Plans**

In the first quarter, we adopted SFAS No. 123, "Accounting for Stock-Based Compensation," in accordance with the prospective transition method prescribed in SFAS No. 148, "Accounting For Stock-Based Compensation Transition and Disclosure." The fair value based method has been applied prospectively to awards granted subsequent to February 1, 2003 (the last day of our 2002 fiscal year). Awards granted in fiscal year 2002 and earlier years will continue to be accounted for under the intrinsic value method, and the pro forma impact of accounting for those awards at fair value will continue to be disclosed until the last of those awards vest in January of 2007. The adoption of this method did not have a material impact on our earnings in the first quarter.

Historically, and through February 1, 2003, we applied the intrinsic value method prescribed in APB No. 25, "Accounting for Stock Issued to Employees," to account for our stock option plans. No compensation expense related to options was recognized because the exercise price of our employee stock options equals the market price of the underlying stock on the grant date. The expense related to the intrinsic value of performance-based and restricted stock awards issued was not significant to third quarter or year-to-date 2003 net earnings, cash flows or financial position. If we had elected to recognize compensation cost based on the fair value of the awards at the grant date, net earnings would have been the pro forma amounts shown below.

### MANAGEMENT'S DISCUSSION AND ANALYSIS Analysis of Operations

#### TARGET CORPORATION

Third quarter 2003 net earnings were \$302 million, or \$.33 per share, compared with \$277 million, or \$.30 per share, for the same period last year. Net earnings for the first nine months of 2003 were \$1,009 million, or \$1.10 per share, compared with \$966 million, or \$1.06 per share for the first nine months of 2002.

#### Revenues and Comparable-Store Sales

Total revenues for the quarter increased 10.7 percent to \$11,286 million compared with \$10,194 million for the same period a year ago. For the nine month period ending November 1, 2003, total revenues increased 9.2 percent to \$32,592 compared with \$29,856 million for the same period a year ago. Our revenue growth reflected Target's new store expansion and comparable-store sales increases, as well as the growth in our credit card operations, partially offset by comparable-store sales decreases at Mervyn's and Marshall Field's.

Total comparable-store sales (sales from stores open longer than one year) increased 4.3 percent and 1.9 percent, for the quarter and nine month period ended November 1, 2003, respectively.

Year-over-year changes in comparable-store sales by business segment were as follows:

	Three Months Percentage Change	Nine Months Percentage Change
Target	6.7%	3.5%
Mervyn's	(11.1)	(8.8)
Marshall Field's	(4.9)	(4.1)
Total	4.3%	1.9%

The discussion of changes in gross margin rate and operating expense rate are net of the impact of the EITF 02-16 reclassifications discussed in the Notes to Consolidated Financial Statements.

#### Gross Margin Rate

Gross margin rate represents gross margin (sales less cost of sales) as a percent of sales. In the third quarter, our overall gross margin rate was unfavorable to the prior year, due to a modest rate decline at Target Stores as well as the mix impact of more rapid growth at Target, our lowest gross margin rate division.

#### Operating Expense Rate

Operating expense rate represents selling, general and administrative expense as a percent of sales. It includes buying and occupancy, advertising, start-up and other expense, and excludes expenses associated with our credit card operations and depreciation expense because those items are separately disclosed in our Consolidated Results of Operations. In the third quarter, our operating expense rate was slightly unfavorable to last year due to a lack of sales leverage at Mervyn's and Marshall Field's, partially offset by the benefit of overall growth at Target, our lowest expense rate division.

#### Pre-tax Segment Profit

Our third quarter pre-tax segment profit increased 4.3 percent to \$650 million compared with \$623 million for the same period a year ago. Pre-tax segment profit in the first nine months of 2003 increased 2.3 percent to \$2,220 million compared with \$2,170 million for the same period a year ago. During the third quarter of 2003, Target's pre-tax profit increased 12.5 percent. Mervyn's pre-tax profit declined approximately 42 percent and Marshall Field's pre-tax profit declined approximately 55 percent. We define pre-tax segment profit as earnings before LIFO, interest, other expense and unusual items. A reconciliation of pre-tax segment profit to pre-tax earnings is provided in the Notes to Consolidated Financial Statements.

#### Other Performance Factors

In the third quarter and first nine months of 2003, total interest expense was \$131 million and \$429 million, representing a \$14 million and \$5 million decrease from the third quarter and first nine months of 2002, respectively. The decrease in interest expense was due to the benefit of a lower average portfolio interest rate, offset by higher average funded balances. Additionally, the variance for the first nine months of 2003 reflects a smaller loss on debt repurchase than the first nine months of 2002.

The estimated annual effective income tax rate was adjusted in the third quarter to a new rate of 37.8 percent from the 38.0 percent rate reflected in the first and second quarter of this year. The adjustment added approximately \$3 million to net income in the quarter (less than \$.01 per share). In 2002, the annual effective tax rate in the third quarter was 38.2 percent.

#### **Analysis of Financial Condition**

Our financial condition remains strong. We continue to fund the growth in our business through a combination of internally generated funds and debt.

During the third quarter, total gross receivables increased \$536 million, or 10.2 percent, over the third quarter of last year. Inventory increased \$657 million, or 11.7 percent, over the third quarter of last year primarily reflecting square footage growth at Target. The inventory growth was partially funded by a \$542 million, or 11.3 percent, increase in accounts payable.

Capital expenditures for the first nine months of 2003 were \$2,330 million, compared with \$2,393 million for the same period a year ago. Investment in Target stores accounted for 90 percent of current year capital expenditures.

We contributed \$200 million and \$150 million to our defined benefit plans in the first nine months of 2003 and 2002, respectively.

Our share repurchase program is described in the Notes to Consolidated Financial Statements.

#### **Credit Card Operations (millions)**

Our credit card programs strategically support our core retail operations and are an integral component of each business segment. Therefore, included in each segment's pre-tax profit is revenue and expense from its credit card operations.

Credit card contribution to pre-tax segment profit was as follows:

#### **Store Data**

During the quarter, we opened a total of 45 new Target stores. Net of relocations and closings, these openings included 24 discount stores and 12 SuperTarget stores. We also opened a new Mervyn's store in Antioch, California. At November 1, 2003, our number of stores and retail square feet were as follows:

	Nui	mber of Store	s	Retail Square Feet**					
	Nov. 1, 2003	Feb. 1, 2003	Nov. 2, 2002	Nov. 1, 2003	Feb. 1, 2003	Nov. 2, 2002			
Target	1,227*	1,147*	1,148*	152,757	140,255	140,331			
Mervyn's	267	264	264	21,679	21,425	21,425			
Marshall Field's	62	64	64	14,458	14,845	14,845			
Total	1,556	1,475	1,476	188,894	176,525	176,601			

<sup>\*</sup> Includes 118, 94 and 94 SuperTargets as of November 1, 2003, February 1, 2003 and November 2, 2002, respectively.

### **Supplemental Information** (millions)

We provide the following supplemental information derived from our financial statements because we believe it provides a meaningful aid to the analysis of our performance by segment. We define segment EBITDA as pre-tax segment profit before depreciation and amortization expense. Our definition of EBITDA and pre-tax segment profit may differ from definitions used by other companies. This presentation is not intended to be a substitute for GAAP reported measures of profitability and cash flow. A reconciliation of pre-tax segment profit to pre-tax earnings is provided in the Notes to Consolidated Financial Statements. Segment EBITDA and the reconciliation to pre-tax segment profit were as follows:

	Th	hs Ended	l		Nine Months Ended					
	ov. 1, 2003		ov. 2, 2002	% Change	Nov. 1, 2003		Nov. 2, 2002		% Change	
Target	\$ 871	\$	774	12.4%	\$	2,868	\$	2,604	10.1%	
Mervyn's	56		80	(30.1)		164		247	(33.7)	

<sup>\*\*</sup> In thousands, reflects total square feet, less office, warehouse and vacant space.

	Three Months Ended					Nine Months Ended				
Marshall Field's		43		65	(33.2)	133		178	(25.1)	
							_			
Total segment EBITDA	\$	970	\$	919	5.5%	\$ 3,165	\$	3,029	4.5%	
Segment depreciation and amortization		(320)		(296)		(945)		(859)		
Pre-tax segment profit	\$	650	\$	623	4.3%	\$ 2,220	\$	2,170	2.3%	
Cash flows provided by / (used for):

Financing activities						1,186		2,677		
Net (decrease)/ increase in cash and cash equivalents						\$ (263)	\$	335		

#### **Outlook for Fiscal Year 2003**

For the full year, we believe that Target Corporation is well-positioned to deliver meaningful earnings growth and profitably increase market share. As in recent years, this performance is primarily due to growth at Target Stores, resulting from increases in comparable store sales, new store expansion, and continued contribution from our credit card operations, particularly the Target Visa card.

Due to seasonality, the fourth quarter typically represents a meaningful proportion of our full year results. Our outlook for 2003 reflects an expectation of significantly sharper growth in this year's fourth quarter than in any of this year's first three quarters, due to the relatively weak sales and profit performance in the fourth quarter of 2002. This fourth quarter outlook envisions strong profit growth at Target Stores and much more moderate, if any, growth at Mervyn's and Marshall Field's.

We may or may not enter into long-term debt repurchase transactions during the balance of the year. Excluding the effect, if any, of such transactions, we expect interest expense to be modestly below prior year levels during this period, because we expect the adverse effect on our interest expense of our incremental funding needs will be more than offset by the ongoing benefit of lower interest rates.

#### **Forward-Looking Statements**

The preceding Management's Discussion and Analysis contains forward-looking statements regarding our performance, liquidity and the adequacy of our capital resources. Those statements are based on our current assumptions and expectations and are subject to certain risks and uncertainties that could cause actual results to differ materially from those projected. We caution that the forward-looking statements are qualified by the risks and challenges posed by increased competition, shifting consumer demand, changing consumer credit markets, changing capital markets and general economic conditions, hiring and retaining effective team members, sourcing merchandise from domestic and international vendors, investing in new business strategies, achieving our growth objectives, the outbreak of war and other significant national and international events and other risks and uncertainties. As a result, while we believe that there is a reasonable basis for the forward-looking statements, you should not place undue reliance on those statements. You are encouraged to review Exhibit (99)C attached to our Form 10-K Report for the year ended February 1, 2003, which contains additional important factors that may cause actual results to differ materially from those predicted in the forward-looking statements.

#### CONTROLS AND PROCEDURES

#### TARGET CORPORATION

As of the end of the period covered by this quarterly report, we conducted an evaluation, under supervision and with the participation of management, including the chief executive officer and chief financial officer, of the effectiveness of the design and operation of our disclosure controls and procedures pursuant to Rules 13a-15 and 15d-15 of the Securities Exchange Act of 1934, as amended (Exchange Act). Based upon that evaluation, our chief executive officer and chief financial officer concluded that our disclosure controls and procedures are effective. Disclosure controls and procedures are defined by Rules 13a-15(e) and 15d-15(e) of the Exchange Act as controls and other procedures that are designed to ensure that information required to be disclosed by us in reports filed with the Securities and Exchange Commission (SEC) under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms.

There have been no significant changes (including corrective actions with regard to significant deficiencies or material weaknesses) in our internal controls or in other factors that could significantly affect internal controls subsequent to the evaluation date.
