**CHECK POINT SOFTWARE TECHNOLOGIES LTD. ANNOUNCES PRELIMINARY
FIRST QUARTER 2006 RESULTS**

Updates Guidance for Full Year 2006

REDWOOD CITY, Calif., April 3, 2006 Check Point® Software Technologies Ltd. (NASDAQ: CHKP), the worldwide leader in securing the Internet, today announced preliminary results for the first quarter ended March 31, 2006. The company anticipates revenues for the quarter of approximately \$133 - \$134 million and GAAP earnings per share (EPS) of approximately \$0.25 - \$0.26. These results include, pursuant to new accounting requirements, estimates for equity based compensation expenses. The company anticipates non GAAP EPS¹ to be approximately \$0.30 - \$0.31. Deferred revenue is estimated to increase by approximately \$10 million in the quarter.

We believe that our first quarter results were impacted by three main factors: 1.) The change in our decision to acquire Sourcefire; 2.) A shift in product mix toward increased longer term engagements such as software subscriptions and SmartDefense and decreased product revenues; and 3.) A slower growth pace in our industry, said Check Point CEO Gil Shwed. The success of our subscription and SmartDefense programs resulted in a healthy increase in our deferred revenues and contributed to the overall business generated in the quarter.

¹ Non GAAP EPS excludes equity based compensation and acquisition related charges from the Zone Labs acquisition.

Edgar Filing: CHECK POINT SOFTWARE TECHNOLOGIES LTD - Form 6-K

Shwed continued, In light of the foregoing factors, we have reassessed our forecast for the remainder of 2006. Reflecting the current market conditions, the customer shift toward subscription contracts in the first quarter and the exclusion of approximately \$40 million of Sourcefire results from our annual numbers, we expect revenues for the year to be in the range of \$580 \$610 million. Earnings per share are expected to continue to show growth this year. We expect GAAP EPS for the year, including estimated equity based compensation expenses, to be in the range of \$1.16 \$1.24. We expect non-GAAP EPS⁹ to be in the range of \$1.37 to \$1.45.

Check Point will host a conference call to discuss our preliminary first quarter results with the investment community Tuesday, April 4, 2006 at 8:30 a.m. EDT/5:30 a.m. PDT. Please dial (973) 935-8512 and reference confirmation code 7240567 to access the live call or visit the company's Web site at www.checkpoint.com/ir for the live webcast. A replay of the conference call will be available through April 21, 2006 at the company's Web site or by telephone at (973)341-3080, confirmation code 7240567.

Check Point will report its complete first quarter financial results before market opens on April 24, 2006. A conference call with management will be held the same day at 8:30 a.m. EDT/5:30 a.m. PDT. For more information, please visit <http://www.checkpoint.com/ir>.

Statements in this press release such as the results of the first quarter are forward-looking statements. Forward-looking statements include statements regarding Check Point's preliminary results for the first quarter of 2006 and Check Point's expectations regarding operating results for the full year 2006. Because these statements pertain to future events they are subject to various risks and uncertainties, and actual results could differ materially from Check Point's current expectations and beliefs. Factors that could cause or contribute to such differences include, but are not limited to: the risk that Check Point's actual results may be different from the preliminary results as a result of final determination of revenues, operating expenses and charges, and as a result of the quarterly review by the company's independent accountants; the impact on revenues of general market conditions in the company's industry; the mix of sales of new products and long-term subscriptions; economic and political uncertainties; the impact of political changes and weaknesses in various regions of the world, including the commencement or escalation of hostilities or acts of terrorism; the inclusion of network security functionality in third-party hardware or system software; any foreseen and unforeseen developmental or technological difficulties with regard to Check Point's products; changes in the competitive landscape, including new competitors or the impact of competitive pricing and products; rapid technological advances and changes in customer requirements to which Check Point is unable to respond expeditiously, if at all; a shift in demand for products such as Check Point's; factors affecting third parties with which Check Point has formed business alliances; timely availability and customer acceptance of Check Point's new and existing products; and other factors and risks discussed in Check Point's Annual Report on Form 20-F for the year ended December 31, 2005, which is on file with the Securities and Exchange Commission. Check Point assumes no obligation to update information concerning its expectations.
