**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**

**MARCH 31, 2010**

**NOTE 1 - ORGANIZATION AND BASIS OF PRESENTATION**

The unaudited financial statements included herein have been prepared, without audit, pursuant to the rules and regulations of the Securities and Exchange Commission ( SEC ). The financial statements and notes are presented as permitted on Form 10-Q and do not contain information included in the Company's annual statements and notes. Certain information and footnote disclosure normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted pursuant to such rules and regulations, although the Company believes that the disclosures are adequate to make the information presented not misleading. It is suggested that these financial statements be read in conjunction with the December 31, 2009 Form 10-K filed with the SEC on March 17, 2010, including the audited financial statements and the accompanying notes thereto. While management believes the procedures followed in preparing these financial statements are reasonable, the accuracy of the amounts are in some respects dependent upon the facts that will exist, and procedures that will be accomplished by the Company later in the year.

These unaudited financial statements reflect all adjustments, including normal recurring adjustments which, in the opinion of management, are necessary to present fairly the operations and cash flows for the periods presented.

The Company was incorporated in Utah in 1907 under the name Croff Mining Company ( Croff ). The Company changed its name to Croff Oil Company in 1952 and in 1996 changed its name to Croff Enterprises, Inc. In the twenty (20) years prior to 2008, the Company's operations consisted entirely of oil and natural gas production. Due to a spin-off of its operations in December 2007, Croff had no business operations or revenue source and had reduced its operations to a minimal level, although it continued to file reports required under the Securities Exchange Act of 1934. As a result of the spin-off, Croff was a shell company under the rules of the Securities and Exchange Commission ( SEC ).

***Agreement and Plan of Reorganization***

On July 6, 2009, Croff entered into an Agreement and Plan of Reorganization (the Agreement ) with AMHN Acquisition Corp., a newly formed Delaware corporation and wholly owned subsidiary of Croff ( Merger Sub ), America's Minority Health Network, Inc., a Delaware corporation ( America's Minority Health Network ) and the major shareholders of the America's Minority Health Network (the Major Shareholders ). The terms of the Agreement provide for (i) the transfer of 100% of the issued and outstanding shares of common stock of America's Minority Health Network in exchange for the issuance to the shareholders of America's Minority Health Network of an aggregate of 13,693,689 shares of common stock of Croff (the Croff Common Stock ) at a conversion ratio where one share of America's Minority Health Network is converted into 13,693.689 shares of Croff; (ii) the resignations of the Company's officers and directors prior to the consummation of the Agreement and the election and appointment of officers and directors as directed by America's Minority Health Network; and (iii) America's Minority Health Network to become a wholly owned subsidiary of Croff. A full description of the terms of the Agreement (the Transaction ) is set forth in the Agreement as filed as an exhibit to the Report on Form 8-K filed with the Securities and Exchange Commission on July 10, 2009.

On July 27, 2009, the Closing Date of the Transaction pursuant to the terms and conditions of the Agreement, Croff acquired 100% of the issued and outstanding shares of America's Minority Health Network in exchange for the issuance of an aggregate of 13,693,689 shares of Croff Common Stock. In accordance with the provisions of this triangulated merger, Merger Sub merged with and into America's Minority Health Network as of the Effective Date of the Agreement, as that term is defined therein. Upon consummation of the Agreement

and all transactions contemplated therein, the separate existence of Merger Sub ceased, Croff became the surviving parent corporation, and America's Minority Health Network became its wholly owned subsidiary (the Company's subsidiary).

As a result of the Transaction, Croff ceased being a shell company. The sole business of Croff became that of its operating subsidiary, America's Minority Health Network. Croff experienced a change in control and the former shareholders of America's Minority Health Network acquired control of the Company. For accounting purposes, the Transaction was treated as a reverse merger. As a result of the Transaction, the figures contained in the financial statements are those of America's Minority Health Network, the operating company.

***Agreement with Global Arena Capital Corp.***

On September 11, 2009, the Company's Board of Directors approved an agreement with Global Arena Capital Corp. (the Global Agreement) through which Global Arena Capital Corp. (Global) would serve as the Company's exclusive placement agent in an attempt to raise up to five million dollars (\$5,000,000) through the offer and sale by the Company of its securities. Under a related private placement memorandum (PPM), the Company offered twenty-five (25) units for the purchase price of two hundred thousand dollars (\$200,000) each (the Offering). Each unit consisted of 200,000 shares of the Company's Common Stock and a detachable, transferable Warrant to purchase 70,000 shares of the Company's Common Stock. The Warrant was exercisable in whole or in part during the five-year period following issuance at an exercise price of \$1.10 per share. The Offering period was for sixty (60) days and could be extended for an additional sixty (60) day period. No funds were raised under the Offering and the Offering was closed on January 9, 2010.

Upon execution of the Global Agreement, the Company agreed to pay a retainer to Global through the issuance of 76,075 Warrants exercisable for one cent (\$0.01) which represented one half of one percent (0.50%) of the then issued and outstanding shares of Common Stock of the Company. The Warrants were accounted for in the third quarter of 2009, but have not yet been issued. The Warrants have not been registered under the Securities Act or the securities laws of any state, and such securities will be issued in reliance upon exemptions from the registration requirements of such laws, which depend in part, on the intent of the warrant holder not to make distribution of such securities.

***Name Change***

On September 14, 2009, the Company changed its name to AMHN, Inc. Unless otherwise stated or unless the context otherwise requires, the description of our business set forth below is provided on a combined basis. The Company's office is located at 100 North First Street, Suite 104, Burbank, California 91502.

On September 25, 2009, the Company's Board of Directors approved the redomicile of the corporation from Utah to Nevada and the AMHN, Inc. 2009 Long Term Incentive Compensation Plan. Shareholders must approve both actions.

***Business Overview***

The Company's subsidiary is a place-based provider of digital video education for medical practices who primarily service minorities. Research has shown that due to socioeconomic and sociopolitical issues, African-Americans suffer from exceptionally high mortality and morbidity rates. Lack of proper healthcare education has been cited as one of the factors leading to higher health risks for the African-American community. The Company's subsidiary provides a digital platform to increase African-American health education awareness that can increase the longevity and well-being of African-American men and women, while providing relevant advertising of related products. The Company's subsidiary has created a viable solution to meet the needs of physicians who are constantly searching for ways to better inform their patients and for advertisers that are searching for ad space to communicate specific products to African-Americans.

The Company's subsidiary currently provides direct-to-consumer television programming across the United States to subscribing medical offices with a predominantly African-American patient base. Currently, 160 offices have subscribed to the service with 140 offices live and receiving programming. Our rollout plan calls for one thousand (1,000) subscribing locations in our first phase. Each month updated healthcare segments and relevant advertising are digitally delivered in high definition directly to waiting rooms filled with a well-defined African-American target audience. Medical office waiting rooms provide a captive audience with the typical presence of over 1,000 patients per month per location, where viewers are pre-disposed to watch and listen to the pertinent information offered.

***Accounting Standard Codification***

Effective July 1, 2009, the Company adopted the Financial Accounting Standards Board ( FASB ) Accounting Standards Codification ( ASC ) 105-10, Generally Accepted Accounting Principles Overall ( ASC 105-10 ). ASC 105-10 establishes the FASB Accounting Standards Codification (the Codification ) as the source of authoritative accounting principles recognized by the FASB to be applied by nongovernmental entities in the preparation of financial statements in conformity with U.S. GAAP. Rules and interpretive releases of the SEC under authority of federal securities laws are also sources of authoritative U.S. GAAP for SEC registrants. All guidance contained in the Codification carries an equal level of authority. The Codification superseded all existing non-SEC accounting and reporting standards. All other non-grandfathered, non-SEC accounting literature not included in the Codification is non-authoritative. The FASB will not issue new standards in the form of Statements, FASB Positions or Emerging Issue Task Force Abstracts. Instead, it will issue Accounting Standards Updates ( ASUs ).

The FASB will not consider ASUs as authoritative in their own right. ASUs will serve only to update the Codification, provide background information about the guidance and provide the bases for conclusions on the change(s) in the Codification. References made to FASB guidance throughout this document have been updated for the Codification.

***Going Concern***

The financial statements of the Company have been prepared in conformity with generally accepted accounting principles in the United States of America, and assume that the Company will continue as a going concern. Due to the start-up nature of the Company's business, the Company expects to incur losses as it expands. To date, the Company's cash flow requirements have been entirely met with funds raised through loans from a strategic vendor and shareholder of the Company. There is no assurance that additional funds will

be available for the Company to finance its operations should the Company be unable to realize profitable operations. These conditions, among others, give rise to substantial doubt about the Company's ability to continue as a going concern. The financial statements do not include adjustments relating to the recoverability and realization of assets and classification of liabilities that might be necessary should the Company be unable to continue in operation.

These financial statements have been prepared on a going concern basis which implies the Company will continue to realize its assets and discharge its liabilities in the normal course of business. The Company has generated revenues of only \$25,897 since inception and has an accumulated deficit of \$2,237,465 through March 31 2010. The Company needs to raise additional funds to carry out its business plan.

Besides generating revenues from proposed operations, the Company may need to raise additional capital to expand operations to the point at which the Company can achieve profitability. The terms of financing that may be raised may not be on terms acceptable by the Company. If adequate funds cannot be raised outside of the Company, the Company's current shareholders may need to contribute funds to sustain operations.

**NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

***Cash and Cash Equivalents***

The Company considers all highly liquid debt instruments and other short-term investments with maturity of three months or less, when purchased, to be cash equivalents. The Company maintains cash and cash equivalent balances at one financial institution that is insured by the Federal Deposit Insurance Corporation.

***Fixed Assets***

The Company currently has 135 sites commissioned live as of this filing. Depreciation commences on the first day of the month following the installation of the sites and is calculated using the straight-line method over the estimated useful lives of the related assets. Costs of maintenance and repairs will be charged to expense as incurred. Depreciation of \$85,936 was recorded through March 31 2010.

***Segment Library***

The segment library is reflected as intangible assets on the accompanying condensed consolidated balance sheet with a useful life of 5 years. These costs represent the production costs relating to producing the segments that will be presented in the professional offices. Management has determined the life of the segment library to be 5 years. As of March 31, 2010, the Company has 41 segments available for play on its network. The Company amortizes the segments commencing on the first day of the month following the segments placed into service. Amortization expense for the period April 2, 2009 (Inception) through March 31, 2010 was \$48,167.

***Recoverability of Long-Lived Assets***

Although the Company does not have any long-lived assets at this point, for any long-lived assets acquired in the future the Company will review their recoverability on a periodic basis whenever events and changes in circumstances have occurred which may indicate a possible impairment. The assessment for potential impairment will be based primarily on the Company's ability to recover the carrying value of its long-lived assets from expected future cash flows from its operations on an undiscounted basis. If such assets are determined to be impaired; the impairment recognized is the amount by which the carrying value of the assets exceeds the fair value of the assets. Fixed assets to be disposed of by sale will be carried at the lower of the then current carrying value or fair value less estimated costs to sell.

***Fair Value of Financial Instruments***

The carrying amount reported in the balance sheet for cash and cash equivalents, accounts payable, and accrued expenses approximate fair value because of the immediate or short-term maturity of these financial instruments. The Company does not utilize derivative instruments.

***Stock-Based Compensation***

The Company adopted the provisions of ASC 718-10 *Share Based Payments*. The adoption of this principle had no effect on the Company's operations.

ASC 718-10 requires recognition of stock-based compensation expense for all share-based payments based on fair value.

The Company has elected to use the modified-prospective approach method. Stock-based compensation expense for all awards granted is based on the grant-date fair values. The Company recognizes these compensation costs, net of an estimated forfeiture rate, on a pro rata basis over the requisite service period of each vesting tranche of each award. The Company considers voluntary termination behavior as well as trends of actual option forfeitures when estimating the forfeiture rate.

The Company measures compensation expense for its non-employee stock-based compensation under ASC 505-50, *Accounting for Equity Instruments that are Issued to Other Than Employees for Acquiring, or in Conjunction with Selling, Goods or Services*. The fair value of the option issued is used to measure the transaction, as this is more reliable than the fair value of the services received. The fair value is measured at the value of the Company's common stock on the date that the commitment for performance by the counterparty has been reached or the counterparty's performance is complete. The fair value of the equity instrument is charged directly to compensation expense and additional paid-in capital. For common stock issuances to non-employees that are fully vested and are for future periods, the Company classifies these issuances as prepaid expenses and expenses the prepaid expenses over the service period. At no time has the Company issued common stock for a period that exceeds one year.

**Table of Contents****AMHN, INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (continued)****MARCH 31, 2010****NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)*****Income Taxes***

The Company accounts for income taxes utilizing the liability method of accounting. Under the liability method, deferred taxes are determined based on differences between financial statement and tax bases of assets and liabilities at enacted tax rates in effect in years in which differences are expected to reverse.

Valuation allowances are established, when necessary, to reduce deferred tax assets to amounts that are expected to be realized.

***Revenue Recognition***

The Company will generate revenue from the sale of advertising spots on its network. The revenue will be recognized in the month in which the spots run.

***Loss per Share of Common Stock***

Basic net loss per common share is computed using the weighted average number of common shares outstanding. Diluted earnings per share (EPS) include additional dilution from common stock equivalents, such as stock issuable pursuant to the exercise of stock options and warrants. Common stock equivalents are not included in the computation of diluted earnings per share when the Company reports a loss because to do so would be anti-dilutive. The following is a reconciliation of the computation for basic and diluted EPS.

	<b>March 31, 2010</b>
Net loss	\$ (347,392)
Weighted-average common shares outstanding (Basic)	15,790,209
Weighted-average common stock equivalents	
Stock options	-0-
Warrants	-0-
Weighted-average common shares outstanding (Diluted)	15,790,209

***Uncertainty in Income Taxes***

The Company follows ASC 740-10, Accounting for Uncertainty in Income Taxes (ASC 740-10). This interpretation requires recognition and measurement of uncertain income tax positions using a more-likely-than-not approach. ASC 740-10 is effective for fiscal years beginning after December 15, 2006. Management will evaluate their tax positions on an annual basis.

**NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

*Use of Estimates*

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

*Recently Issued Accounting Standards*

In September 2006, ASC issued 820, *Fair Value Measurements*. ASC 820 defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles, and expands disclosure about fair value measurements. This statement is effective for financial statements issued for fiscal years beginning after November 15, 2007. Early adoption is encouraged. The adoption of ASC 820 is not expected to have a material impact on the financial statements.

In February 2007, ASC issued 825-10, *The Fair Value Option for Financial Assets and Financial Liabilities – Including an amendment of ASC 320-10*, ( ASC 825-10 ) which permits entities to choose to measure many financial instruments and certain other items at fair value at specified election dates. A business entity is required to report unrealized gains and losses on items for which the fair value option has been elected in earnings at each subsequent reporting date. This statement is expected to expand the use of fair value measurement. ASC 825-10 is effective for financial statements issued for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years.

In December 2007, the ASC issued ASC 810-10-65, *Noncontrolling Interests in Consolidated Financial Statements*. ASC 810-10-65 establishes accounting and reporting standards for ownership interests in subsidiaries held by parties other than the parent, changes in a parent's ownership of a noncontrolling interest, calculation and disclosure of the consolidated net income attributable to the parent and the noncontrolling interest, changes in a parent's ownership interest while the parent retains its controlling financial interest and fair value measurement of any retained noncontrolling equity investment.

ASC 810-10-65 is effective for financial statements issued for fiscal years beginning after December 15, 2008, and interim periods within those fiscal years. Early adoption is prohibited. Management is determining the impact that the adoption of ASC 810-10-65 will have on the Company's financial position, results of operations or cash flows.

In December 2007, the Company adopted ASC 805, *Business Combinations* ( ASC 805 ). ASC 805 retains the fundamental requirements that the acquisition method of accounting be used for all business combinations and for an acquirer to be identified for each business combination. ASC 805 defines the acquirer as the entity that obtains control of one or more businesses in the business combination and establishes the acquisition date as the date that the acquirer achieves control. ASC 805 will require an entity to record separately from the business combination the direct costs, where previously these costs were included in the total allocated cost of the acquisition. ASC 805 will require an entity to recognize the assets acquired, liabilities assumed, and any non-controlling interest in the acquired at the acquisition date, at their fair values as of that date.

***Recently Issued Accounting Standards (Continued)***

ASC 805 will require an entity to recognize as an asset or liability at fair value for certain contingencies, either contractual or non-contractual, if certain criteria are met. Finally, ASC 805 will require an entity to recognize contingent consideration at the date of acquisition, based on the fair value at that date. This will be effective for business combinations completed on or after the first annual reporting period beginning on or after December 15, 2008. Early adoption is not permitted and the ASC is to be applied prospectively only. Upon adoption of this ASC, there would be no impact to the Company's results of operations and financial condition for acquisitions previously completed. The adoption of ASC 805 is not expected to have a material effect on the Company's financial position, results of operations or cash flows.

In March 2008, ASC issued ASC 815, *Disclosures about Derivative Instruments and Hedging Activities*, (ASC 815). ASC 815 requires enhanced disclosures about an entity's derivative and hedging activities. These enhanced disclosures will discuss: how and why an entity uses derivative instruments; how derivative instruments and related hedged items are accounted for and its related interpretations; and how derivative instruments and related hedged items affect an entity's financial position, financial performance, and cash flows. ASC 815 is effective for financial statements issued for fiscal years and interim periods beginning after November 15, 2008. The Company does not believe that ASC 815 will have an impact on their results of operations or financial position.

In April 2008, ASC issued ASC 350, *Determination of the Useful Life of Intangible Assets*. This amends the factors that should be considered in developing renewal or extension assumptions used to determine the useful life of a recognized intangible asset under ASC 350. The guidance is used for determining the useful life of a recognized intangible asset shall be applied prospectively to intangible assets acquired after adoption, and the disclosure requirements shall be applied prospectively to all intangible assets recognized as of, and subsequent to, adoption. The Company does not believe ASC 350 will materially impact their financial position, results of operations or cash flows.

Effective April 1, 2009, the Company adopted ASC 855, *Subsequent Events* (ASC 855). ASC 855 establishes general standards of accounting for and disclosure of events that occur after the balance sheet date but before financial statements are issued or are available to be issued. It requires disclosure of the date through which an entity has evaluated subsequent events and the basis for that date—that is, whether that date represents the date the financial statements were issued or were available to be issued. This disclosure should alert all users of financial statements that an entity has not evaluated subsequent events after that date in the set of financial statements being presented. Adoption of ASC 855 did not have a material impact on the Company's results of operations or financial condition. The Company has evaluated subsequent events through April 26, 2010, the date the financial statements were issued.

Effective July 1, 2009, the Company adopted FASB ASU No. 2009-05, *Fair Value Measurement and Disclosures (Topic 820)* (ASU 2009-05). ASU 2009-05 provided amendments to ASC 820-10, *Fair Value Measurements and Disclosures—Overall*, for the fair value measurement of liabilities. ASU 2009-05 provides clarification that in circumstances in which a quoted market price in an active market for the identical liability is not available, a reporting entity is required to measure fair value using certain techniques. ASU 2009-05 also clarifies that when estimating the fair value of a liability, a reporting entity is not required to include a separate input or adjustment to other inputs relating to the existence of a restriction that prevents the transfer of a liability. ASU 2009-05 also clarifies that both a quoted price in an active market for the identical liability at the measurement date and the quoted price for the identical liability when traded as an asset in an active market when no adjustments to the quoted price of the asset are required for Level 1 fair value measurements. Adoption of ASU 2009-05 did not have a material impact on the Company's results of operations or financial condition.

***Recently Issued Accounting Standards (Continued)***

In January 2010, the Company adopted FASB ASU No. 2010-06, *Fair Value Measurement and Disclosures (Topic 820) - Improving Disclosures about Fair Value Measurements* ( ASU 2010-06 ). These standards require new disclosures on the amount and reason for transfers in and out of Level 1 and 2 fair value measurements. The standards also require new disclosures of activities, including purchases, sales, issuances, and settlements within the Level 3 fair value measurements. The standard also clarifies existing disclosure requirements on levels of disaggregation and disclosures about inputs and valuation techniques. These new disclosures are effective beginning with the first interim filing in 2010. The disclosures about the roll-forward of information in Level 3 are required for the Company with its first interim filing in 2011. The Company does not believe this standard will impact their financial statements.

Other ASU s that have been issued or proposed by the FASB ASC that do not require adoption until a future date and are not expected to have a material impact on the financial statements upon adoption.

The valuation methodology used to determine the fair value of the Warrant(s) issued was the Black-Scholes-Merton option-pricing model. The Black-Scholes-Merton model requires the use of a number of assumptions including volatility of the stock price, the weighted average risk-free interest rate, and the weighted average expected life of the Warrant(s).

The risk-free interest rate assumption is based upon observed interest rates on zero coupon U.S. Treasury bonds whose maturity period is appropriate for the term of the Warrant(s) and is calculated by using the average daily historical stock prices through the day preceding the grant date. Estimated volatility is a measure of the amount by which the Company's stock price is expected to fluctuate each year during the expected life of the award. The Company's estimated volatility is an average of the historical volatility of peer entities whose stock prices were publicly available. The Company's calculation of estimated volatility is based on historical stock prices of these peer entities over a period equal to the expected life of the awards. The Company uses the historical volatility of peer entities due to the lack of sufficient historical data of its stock price.

The weighted average fair value of Warrant(s) granted and the assumptions used in the Black-Scholes-Merton model during the year ended December 31, 2009 are set forth in the table below.

Weighted average fair value of Warrant(s) granted	\$ 0.30

**NOTE 7 PROVISION FOR INCOME TAXES**

Deferred income taxes are determined using the liability method for the temporary differences between the financial reporting basis and income tax basis of the Company's assets and liabilities. Deferred income taxes are measured based on the tax rates expected to be in effect when the temporary differences are included in the Company's tax return. Deferred tax assets and liabilities are recognized based on anticipated future tax consequences attributable to differences between financial statement carrying amounts of assets and liabilities and their respective tax bases. As of March 31, 2010, there is no provision for income taxes, current or deferred.

At March 31, 2010, deferred tax assets consist of the following:

Net operating losses	\$ 761,000
Valuation Allowance	(761,000)
	\$ -0-

At March 31, 2010, the Company had a net operating loss carry forward of approximately \$2,237,000, available to offset future taxable income through 2030. The Company established valuation allowances equal to the full amount of the deferred tax assets due to the uncertainty of the utilization of the operating losses in future periods.

*Overview*

The Company was incorporated in Utah in 1907 under the name Croff Mining Company (Croff). The Company changed its name to Croff Oil Company in 1952 and in 1996 changed its name to Croff Enterprises, Inc. In the twenty (20) years prior to 2008, Croff's operations consisted entirely of oil and natural gas production. Due to a spin-off of its operations in December 2007, Croff had no business operations or revenue source and had reduced its operations to a minimal level, although it continued to file reports required under the Securities Exchange Act of 1934. As a result of the spin-off, Croff was a shell company under the rules of the SEC.

On July 6, 2009, Croff entered into an Agreement and Plan of Reorganization (the Agreement) with AMHN Acquisition Corp., a newly formed Delaware corporation and wholly owned subsidiary of Croff (Merger Sub), America's Minority Health Network, Inc., a Delaware corporation (America's Minority Health Network) and the major shareholders of the America's Minority Health Network (the

Major Shareholders ). The terms of the Agreement provide for (i) the transfer of 100% of the issued and outstanding shares of common stock of America s Minority Health Network in exchange for the issuance to the shareholders of American s Minority Health Network of an aggregate of 13,693,689 shares of common stock of Croff (the Croff Common Stock ) at a conversion ratio where one share of America s Minority Health Network is converted into 13,693.689 shares of Croff; (ii) the resignations of Croff s officers and directors prior to the consummation of the Agreement and the election and appointment of officers and directors as directed by America s Minority Health Network; and (iii) America s Minority Health Network to become a wholly owned subsidiary of Croff. A full description of the terms of the Agreement (the Transaction ) is set forth in the Agreement as filed as an exhibit to the Report on Form 8-K filed with the Securities and Exchange Commission on July 10, 2009.

On July 27, 2009, the Closing Date of the Transaction pursuant to the terms and conditions of the Agreement, Croff acquired 100% of the issued and outstanding shares of America s Minority Health Network in exchange for the issuance of an aggregate of 13,693,689 shares of Croff Common Stock. In accordance with the provisions of this triangulated merger, Merger Sub merged with and into America s Minority Health Network as of the Effective Date of the Agreement, as that term is defined therein. Upon consummation of the Agreement and all transactions contemplated therein, the separate existence of Merger Sub ceased, Croff became the surviving parent corporation, and America s Minority Health Network became its wholly owned subsidiary (the Company s subsidiary ). As a result of the Transaction, Croff ceased being a shell company. The sole business of Croff became that of its operating subsidiary, America s Minority Health Network, Croff experienced a change in control and the former shareholders of America s Minority Health Network acquired control of the Company. For accounting purposes, the Transaction was treated as a reverse merger.

Prior to the Closing, America s Minority Health Network received a letter from Seatac Digital Resources, Inc., offering funding or commitments for funding in the form of short term loans that in the aggregate may amount up to \$500,000 to cover operations of American s Minority Health Network for six (6) months. Through Seatac Digital Resources, Inc., a strategic vendor and principal shareholder ( Seatac ), America s Minority Health Network obtained (i) a \$100,000 loan through the issuance of a five-percent (5%) promissory note due on demand (the Note ), and (ii) a letter of commitment for an additional loan of up to \$500,000 ( Commitment Letter ), as noted above. The Note and Commitment Letter were attached as exhibits to the Current Report on Form 8-K filed with the Commission on July 29, 2009 and are incorporated herein by reference. Subsequently, Seatac provided to America s Minority Health Network the additional \$500,000 funding referenced in the loan commitment.

On September 11, 2009, the Company s Board of Directors approved an agreement with Global Arena Capital Corp. (the Global Agreement ) through which Global Arena Capital Corp. ( Global ) would serve as the Company s exclusive placement agent in an attempt to raise up to five million dollars (\$5,000,000) through the offer and sale by the Company of its securities. Under a related private placement memorandum ( PPM ), the Company offered twenty-five (25) units for the purchase price of two hundred thousand dollars (\$200,000) each (the Offering ). Each unit consisted of 200,000 shares of the Company s Common Stock and a detachable, transferable Warrant to purchase 70,000 shares of the Company s Common Stock. The Warrant was exercisable in whole or in part during the five-year period following issuance at an exercise price of \$1.10 per share. The Offering period was for sixty (60) days and could be extended for an additional sixty (60) day period. No funds were raised under the Offering and the Offering was not extended.

Upon execution of the Global Agreement, the Company agreed to pay a retainer to Global through the issuance of 76,075 Warrants exercisable for one cent (\$0.01) which represented one half of one percent (0.50%) of the then issued and outstanding shares of Common Stock of the Company. The Warrants were accounted for in the third quarter of 2009, but have not yet been issued. The Warrants have not been registered under the Securities Act or the securities laws of any state, and such securities will be issued in reliance upon exemptions from the registration requirements of such laws, which depend in part, on the intent of the warrant holder not to make distribution of such securities.

On October 1, 2009, the Company's Board of Directors approved an Investor Relations Consulting Agreement with Alliance Advisors, LLC (the Agreement). The twelve-month Agreement calls for cash payments of \$5,000 per month for months 1-3, \$6,000 per month for months 4-6, and \$7,000 per month for the remaining six (6) months. In addition to the cash payments, the Agreement calls for the issuance of 125,000 restricted shares of the Company's Common Stock during the first thirty days of the Agreement with an additional 125,000 restricted shares of the Company's Common Stock after the successful completion of the first six (6) months of service. The Company issued the first 125,000 shares called for in the Agreement on October 20, 2009.

On November 1, 2009, Seatac provided a second commitment for funding in the form of short term loans that in the aggregate amount up to \$500,000 to cover operations of the Company's subsidiary. Subsequently, Seatac provided \$200,000 to the Company's subsidiary under the funding commitment. To date, no loans have been provided under the March Loan Commitment.

On November 13, 2009, the Company relocated its principal offices to 100 North First Street, Suite 104, Burbank, California 91502 where it subleases 2,010 square feet of furnished office space. Lack of proper healthcare education has been cited as one of the factors leading to higher health risks for the African-American community. The Company's subsidiary provides a digital platform to increase African-American health education awareness that can increase the longevity and well-being of African-American men and women, while providing relevant advertising of related products. The Company's subsidiary has created a viable solution to meet the needs of physicians who are constantly searching for ways to better inform their patients and for advertisers that are searching for ad space to communicate specific products to African-Americans.

The Company's subsidiary currently provides direct-to-consumer television programming across the United States to subscribing medical offices with a predominantly African-American patient base. Currently, 160 offices have subscribed to the service with 140 offices live and receiving programming. Our rollout plan calls for one thousand (1,000) subscribing locations in our first phase. The Principal Base Amount of the Note, plus any and all additional advances made to the Company thereafter (the Aggregated Principal Amount), together with accrued interest at the annual rate of four percent (4%), is due in one lump sum payment on June 30, 2010 (the Maturity Date). The Note provides that the Note will automatically renew on the Maturity Date for additional ninety (90) day periods (the Extended Maturity Date) unless ten (10) days prior to the Extended Maturity Date the Holder provides written notice to the Company of its intent not to renew. ## Edgar Filing: AMHN, Inc. - Form 10-Q

The Note Purchase Agreement contains a number of negative covenants with which the Company must comply so long as the Note remains outstanding. Such negative covenants include, but are not limited to, restrictions on the Company's ability to (i) declare or pay any dividends or to purchase, redeem or otherwise acquire or retire any shares of the Company's capital stock; (ii) effect any reclassification, combination or reverse stock split of the Company's Common Stock; (iii) create, incur or assume any lien or other encumbrance (with limited exceptions as set forth in the Note Purchase Agreement); (iv) create, incur or assume (directly or indirectly) any indebtedness (with limited exceptions as set forth in the Note Purchase Agreement); (v) enter into a Change in Control Transaction (as defined in the Note Purchase Agreement); (vi) amend the Company's Articles of Incorporation or Bylaws; and (vii) enter into any transactions with affiliates.

As security for the Company's obligations under the Note Purchase Agreement and the Note, the Company pledged all of the capital stock of its subsidiary, America's Minority Health Network, pursuant to the terms of a Stock Pledge and Escrow Agreement of even date therewith. Repayment of the Note is guaranteed by the Company's subsidiary and is also secured by a blanket lien encumbering the assets of the Company and its subsidiary.

The foregoing description of the Note Purchase Agreement, the Note, the Stock Pledge and Escrow Agreement, and related agreements is qualified, in its entirety, by reference to each agreement, copies of which are attached as exhibits to the Current Report on Form 8-K filed with the SEC on April 7, 2010, which Form 8-K and exhibits are incorporated herein by reference.

### *Results of Operations*

The following discussion of our financial condition and results of operations should be read in conjunction with our financial statements, included herewith. This discussion should not be construed to imply that the results discussed herein will necessarily continue into the future, or that any conclusion reached herein will necessarily be indicative of actual operating results in the future. Such discussion represents only the best present assessment of our management.

### *Results for the three month period ended March 31, 2010*

#### ***Revenues and Cost of Revenues***

AMHN had revenues of \$15,329 during the above referenced period.

#### ***Sales and Operating Expenses***

AMHN's sales expenses consisted of travel expenses, attendance at selected conferences, and mailing expenses while our operating expenses consisted of costs associated with service and maintenance of the programming provided via broadband delivery to subscribing offices. Sales and operating expenses for the above referenced period were \$115,821.

#### ***General and Administration, Professional, and Consulting Expenses***

AMHN's general and administrative expenses consisted of accounting and administrative costs, professional fees and other general corporate expenses. General and administrative expenses for the above referenced period were \$180,469.

#### ***Liquidity and Capital Resources***

The Company began its current operations in 2009 and has not as yet attained a level of operations which allows it to meet its current overhead. We do not contemplate attaining profitable operations until the late fourth quarter of 2010 or until 1,000 locations are deployed and sufficient advertising contracts are secured. There is no assurance that such an operating level can ever be achieved. We will be dependent upon obtaining additional financing in order to adequately fund working capital, infrastructure, production expenses and significant marketing related expenditures to gain market recognition, so that we can achieve a level of revenue adequate to support our cost structure, none of which can be assured. These factors raise substantial doubt about our ability to continue as a going concern and the accompanying consolidated financial statements do not include any adjustments related to the recoverability or classification of asset carrying amounts or the amounts and classification of liabilities that may result should we be unable to continue as a going concern.

As of March 31, 2010, AMHN's cash balance was \$48,049. Outstanding debt as of March 31, 2010 totaled \$1,498,296 including \$800,000 in loans from a related party and \$357,933 in accounts payable to related parties. The Company's working capital deficit as of March 31, 2010 was \$1,432,937.

## **Table of Contents**

The Company will need to raise additional capital to expand operations to the point at which the Company can achieve profitability. The terms of financing that may be raised may not be on terms acceptable by the Company. If adequate funds cannot be raised outside of the Company, the Company's current shareholders may need to contribute funds to sustain operations.

As further discussed in *Item 1. Business*, the Company initially received a loan from Seatac for \$100,000 which was then followed by three funding commitment letters from Seatac for \$500,000 each. The Company received \$500,000 under the first funding commitment and \$200,000 under the second funding commitment for an aggregate of \$800,000 to date; however, the funding commitment letters are non-binding and there is no guarantee that the funds will be received by the Company. Should funding from the second and third funding commitment letters be received by the Company, we would have sufficient financial resources to continue our business plan for an additional six (6) months.

### *Off-Balance Sheet Arrangements*

None.

### **Item 3. Quantitative and Qualitative Disclosures about Market Risk**

Our Company is a smaller reporting company as defined by Rule 12b-2 of the Exchange Act, and as such, is not required to provide the information required under this item.
