---

**Table of Contents**

**TERADYNE, INC.**

**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**

**(Unaudited)**

**A. The Company**

Teradyne, Inc. ( Teradyne ) is a leading global supplier of automatic test equipment. Teradyne s automatic test equipment products and services include:

semiconductor test ( Semiconductor Test ) systems; and

military/aerospace ( Mil/Aero ) test instrumentation and systems, hard disk drive test ( HDD ) systems, and circuit-board test and inspection ( Commercial Board Test ) systems (collectively these products represent Systems Test Group ).

**B. Accounting Policies**

*Basis of Presentation*

The condensed consolidated interim financial statements include the accounts of Teradyne and its subsidiaries. All significant intercompany balances and transactions have been eliminated. These interim financial statements are unaudited and reflect all normal recurring adjustments that are, in the opinion of management, necessary for the fair presentation of such interim financial statements. Certain prior year s amounts were reclassified to conform to the current year presentation. The December 31, 2010 condensed consolidated balance sheet data was derived from audited financial statements, but does not include all disclosures required by accounting principles generally accepted in the United States of America.

The accompanying financial information should be read in conjunction with the consolidated financial statements and notes thereto contained in Teradyne s Annual Report on Form 10-K, filed with the SEC on March 1, 2011 for the year ended December 31, 2010.

On March 21, 2011, Teradyne completed the sale of Diagnostic Solutions, its automotive diagnostic and test business unit. The results of operations of Diagnostic Solutions as well as balance sheet and cash flow amounts pertaining to this business have been classified as discontinued operations in the condensed consolidated financial statements (see Note D Discontinued Operations ).

*Preparation of Financial Statements*

The preparation of consolidated financial statements requires management to make estimates and judgments that affect the amounts reported in the financial statements. Actual results may differ significantly from these estimates.

**C. Recently Issued Accounting Pronouncements**

In March 2010, FASB issued an Accounting Standards Update ( ASU ) 2010-17, *Milestone Method of Revenue Recognition* , to Accounting Standards Codification ( ASC ) 605, *Revenue Recognition*. The guidance in this consensus allows the milestone method as an acceptable revenue recognition methodology when an arrangement includes substantive milestones. The guidance provides a definition of substantive milestone and should be applied regardless of whether the arrangement includes single or multiple deliverables or units of accounting. The scope of this consensus is limited to the transactions involving milestones relating to research and development deliverables. The guidance includes enhanced disclosure requirements about each arrangement, individual milestones and related contingent consideration, information about substantive milestones and factors considered in the determination. The consensus is effective prospectively to milestones achieved in fiscal years, and interim periods within those years, after June 15, 2010. Early application and retrospective application are permitted. Teradyne adopted this final consensus prospectively in January 2011. Adoption had no material impact on Teradyne s financial position, cash flows or results of operations.

**Table of Contents****D. Discontinued Operations**

On March 21, 2011, Teradyne completed the sale of its Diagnostic Solutions business unit, which was included in the Systems Test Group segment, to SPX Corporation for \$40.6 million in cash, subject to a post closing working capital adjustment. Teradyne sold this business as its growth potential as a stand-alone business within Teradyne was significantly less than if it was part of a larger automotive supplier. The financial information for Diagnostic Solutions has been reclassified to discontinued operations for all periods presented. Net revenues and income from discontinued operations for the three months ended April 3, 2011 and April 4, 2010 were as follows:

	April 3, 2011	April 4, 2010
	(in thousands)	
Net revenues	\$ 9,086	\$ 10,285
Income from discontinued operations before income taxes	\$ 1,278	\$ 1,001
Gain from disposal of discontinued operations before income taxes	29,781	
Income tax provision	4,311	
Income from discontinued operations	\$ 26,748	\$ 1,001

**E. Financial Instruments and Derivatives****Financial Instruments**

Teradyne uses the market and income approach to value its financial instruments and there was no change in valuation techniques used by Teradyne during the three months ended April 3, 2011 and April 4, 2010. As defined in ASC 820-10, *Fair Value Measurements and Disclosures*, fair value is the price that would be received from the sale of an asset or paid to transfer a liability in an orderly transaction between market participants. ASC 820-10 requires that assets and liabilities are carried at fair value and are classified in one of the following three categories:

Level 1: Quoted prices in active markets for identical assets as of the reporting date.

Level 2: Inputs other than Level 1, that are observable either directly or indirectly as of the reporting date. For example, a common approach for valuing fixed income securities is the use of matrix pricing. Matrix pricing is a mathematical technique used to value securities by relying on the securities' relationship to other benchmark quoted prices.

Level 3: Unobservable inputs that are not supported by market data. Unobservable inputs are developed based on the best information available, which might include Teradyne's own data.

For the right to sell the auction rate securities, held by Teradyne, back to UBS (UBS Put), Teradyne elected fair value treatment under ASC 825-10, *Financial Instruments*. The UBS Put was the only instrument of this nature or type that Teradyne held and for which Teradyne has elected the fair value option under ASC 825-10. The UBS Put was exercised in June 2010.

During the three months ended April 3, 2011 and April 4, 2010, there were no significant transfers in and out of Level 1 and Level 2.

The following table sets forth by fair value hierarchy Teradyne's financial assets and liabilities that were measured at fair value on a recurring basis as of April 3, 2011 and December 31, 2010.

	April 3, 2011

Other accrued liabilities	\$	\$	157	\$	\$	157
---------------------------	----	----	-----	----	----	-----

**Table of Contents**

The following table represents changes in the fair value of Level 3 financial assets:

	For the Three Months Ended			
	April 3, 2011		April 4, 2010	
	Long-Term Auction Rate Securities	UBS Put	Long-Term Auction Rate Securities	UBS Put
	(in thousands)			
Balance at beginning of period	\$	\$	\$ 23,649	\$ 2,830
Sale of auction rate securities			(150)	
Change in unrealized gain included in interest income			198	
Change in unrealized loss included in interest expense and other				(143)
Balance at end of period	\$	\$	\$ 23,697	\$ 2,687

During the three months ended April 3, 2011 and April 4, 2010, Teradyne recorded a loss of \$0.2 million and \$0.3 million, respectively, from sale of marketable securities. During the three months ended April 4, 2010, Teradyne recorded a gain of \$0.2 million for the change in the auction rate securities fair value.

Realized losses from sale of marketable securities, decreases in auction rate securities fair value and other-than-temporary impairment losses are included in interest expense and other. Increases in auction rate securities fair value are included in interest income.

The carrying amounts and fair values of financial instruments at April 3, 2011 and December 31, 2010 are as follows:

	April 3, 2011		December 31, 2010	
	Carrying Value	Fair Value	Carrying Value	Fair Value
	(in thousands)			
Marketable securities	\$ 680,041	\$ 680,041	\$ 657,757	\$ 657,757
Cash equivalents	286,055	286,055	276,450	276,450
Convertible debt(1)	146,916	634,363	144,059	506,350
Japan loan	7,249	7,249	8,573	8,573

(1) The carrying value represents the bifurcated debt component only, while the fair value is based on quoted market prices for the convertible note which includes the equity conversion feature.

The fair values of cash, accounts receivable, net and accounts payable approximate the carrying amount due to the short term maturities of these instruments.

The following table summarizes available-for-sale marketable securities which are recorded at fair value:

	Cost	April 3, 2011			Fair Market Value of Investments with Unrealized Losses
		Available-for-Sale			
		Unrealized Gain	Unrealized (Loss)	Fair Market Value	
		(in thousands)

	Cost	Unrealized Gain	Unrealized (Loss) (in thousands)	Fair Market Value	Fair Market Value of Investments with Unrealized Losses
Cash and cash equivalents	\$ 276,447	\$ 3	\$	\$ 276,450	\$
Short-term marketable securities	408,934	178	(51)	409,061	103,761
Long-term marketable securities	247,250	2,087	(641)	248,696	81,543
	\$ 932,631	\$ 2,268	\$ (692)	\$ 934,207	\$ 185,304

On a quarterly basis, Teradyne reviews its investments to identify and evaluate those that have an indication of a potential other-than-temporary impairment. Factors considered in determining whether a loss is other-than-temporary include:

The length of time and the extent to which the market value has been less than cost;

The financial condition and near-term prospects of the issuer; and

The intent and ability to retain the investment in the issuer for a period of time sufficient to allow for any anticipated recovery in market value.

As of April 3, 2011, the fair market value of investments with unrealized losses totaled \$178.1 million. There were no unrealized losses greater than one year.

As of December 31, 2010, the fair market value of investments with unrealized losses totaled \$185.3 million. Of this value, \$5.0 million had unrealized losses for greater than one year and \$180.3 million had unrealized losses less than one year.

#### **Derivatives**

Teradyne conducts business in a number of foreign countries, with certain transactions denominated in local currencies. The purpose of Teradyne's foreign currency management is to minimize the effect of exchange rate fluctuations on certain foreign denominated net monetary assets. Teradyne does not use derivative financial instruments for trading or speculative purposes.

To minimize the effect of exchange rate fluctuations associated with the remeasurement of net monetary assets denominated in foreign currencies, Teradyne enters into foreign currency forward contracts. The change in fair value of these derivatives is recorded directly in earnings, and is used to offset the change in fair value of the net monetary assets denominated in foreign currencies.

**Table of Contents**

The notional amount of foreign exchange contracts hedging monetary assets and liabilities denominated in foreign currencies was \$38.3 million and \$48.3 million at April 3, 2011 and December 31, 2010, respectively.

The following table summarizes the fair value of derivative instruments as of April 3, 2011 and December 31, 2010.

	Balance Sheet Location	April 3, 2011	December 31, 2010
		(in thousands)	
Derivatives not designated as hedging instruments:			
Foreign exchange contracts	Prepayments and other current assets	\$ 377	\$
Foreign exchange contracts	Other accrued liabilities		157
		\$ 377	\$ 157

The following table summarizes the effect of derivative instruments in the statement of operations recognized during the three months ended April 3, 2011 and April 4, 2010. The table does not reflect the corresponding gain (loss) from the remeasurement of the monetary assets and liabilities denominated in foreign currencies.

	Location of Gains (Losses) Recognized in Statement of Operations	For the Three Months Ended	
		April 3, 2011	April 4, 2010
Derivatives not designated as hedging instruments:			
Foreign exchange contracts	Interest expense and other	\$ 827	\$ (686)
		\$ 827	\$ (686)

See Note F Debt regarding derivatives related to convertible senior notes.

**F. Debt****Loan Agreement**

On March 31, 2009, Teradyne K.K., Teradyne's wholly-owned subsidiary in Japan, entered into a loan agreement with a local bank in Japan to borrow approximately \$10.0 million. The loan has a term of 5 years and a fixed interest rate of 0.81%. Approximately \$6.0 million of the loan is collateralized by a real estate mortgage on Teradyne K.K.'s building and land in Kumamoto, Japan and approximately \$4.0 million is unsecured. Teradyne, Inc. has guaranteed payment of the loan obligation. The loan is amortized over the term of the loan with semiannual principal payments of approximately \$1.0 million payable on September 30 and March 30 each year. At April 3, 2011, approximately \$2.4 million of the outstanding loan principal is included in current debt and approximately \$4.8 million is classified as long-term debt.

**Convertible Senior Notes**

On March 31, 2009, Teradyne entered into an underwriting agreement regarding a public offering of \$175 million aggregate principal amount of 4.50% convertible senior notes due March 15, 2014 (the "Notes"). On April 1, 2009, the underwriters exercised their option to purchase an additional \$15 million aggregate principal amount of the Notes for a total aggregate principal amount of \$190 million. The Notes bear interest at a rate of 4.50% per annum, payable semi-annually in arrears on March 15 and September 15 of each year, beginning on September 15, 2009. The Notes will mature on March 15, 2014, unless earlier repurchased by Teradyne or converted. The Notes are senior unsecured obligations and rank equally with all of Teradyne's existing and future senior debt and senior to any of Teradyne's subordinated debt.

## Edgar Filing: TERADYNE, INC - Form 10-Q

The Notes may be converted, under certain circumstances and during certain periods, at an initial conversion rate of approximately 182.65 shares of Teradyne's common stock per \$1,000 principal amount of Notes, which is equivalent to an initial conversion price of approximately \$5.48, a 25% conversion premium based on the last reported sale price of \$4.38 per share of Teradyne's common stock on March 31, 2009. The conversion rate is subject to adjustment in certain circumstances.

Holder may convert their Notes at their option prior to the close of business on the business day immediately preceding December 15, 2013, under the following circumstances: (1) during the five business-day period after any five consecutive trading day period (the measurement period) in which the price per Note for each day of that measurement period was less than 98% of the product of the last reported sale price of Teradyne's common stock and the conversion rate for such date; (2) during any calendar quarter, if the last reported sale price of Teradyne's common stock for 20 or more trading days in a period of 30 consecutive trading days ending on the last trading day of the immediately preceding calendar quarter exceeds 130% of the applicable conversion price in effect on the last trading day of the immediately preceding calendar quarter; or (3) upon the occurrence of certain specified events. Additionally, the Notes are convertible during the last three months prior to the March 15, 2014 maturity date. Upon conversion, holders will receive, at Teradyne's option, shares of Teradyne common stock, cash or a combination of cash and shares of Teradyne common stock, subject to Teradyne's option to irrevocably elect to settle all future conversions in cash up to the principal amount of the Notes and shares of common stock for any excess.

**Table of Contents**

During the three months ended April 3, 2011, the following circumstance that allows holders to convert their Notes at their option prior to December 15, 2013 occurred: the last reported sale price of Teradyne's common stock for 20 or more trading days in a period of 30 consecutive trading days ending on the last trading day of the immediately preceding calendar quarter exceeded 130% of the conversion price in effect on the last trading day of the immediately preceding calendar quarter. As of May 13, 2011, no holders have exercised their option to convert their Notes.

Teradyne may not redeem the Notes prior to their maturity. Holders of the Notes may require Teradyne to purchase in cash all or a portion of their Notes at a price equal to 100% of the principal amount, plus accrued and unpaid interest, upon the occurrence of certain fundamental changes involving Teradyne (which include, among others, the liquidation or dissolution of Teradyne, the acquisition of 50% or more of the total voting shares of Teradyne, certain mergers and consolidations, and the delisting of Teradyne's stock).

Concurrently with the offering of the Notes, Teradyne entered into a convertible note hedge transaction with a strike price equal to the initial conversion price of the Notes, or approximately \$5.48. The convertible note hedge allows Teradyne to receive shares of its common stock and/or cash related to the excess conversion value that it would pay to the holders of the Notes upon conversion. The convertible note hedges will cover, subject to customary antidilution adjustments, approximately 34,703,196 shares of Teradyne's common stock. Teradyne paid approximately \$64.6 million for the convertible note hedges.

Separately, Teradyne entered into a warrant transaction with a strike price of approximately \$7.67 per share, which is 75% higher than the closing price of Teradyne's common stock on March 31, 2009. The warrants will be net share settled and will cover, subject to customary antidilution adjustments, approximately 34,703,196 shares of Teradyne's common stock. Teradyne received approximately \$43.0 million for the warrants.

The convertible note hedge and warrant transaction will generally have the effect of increasing the conversion price of the Notes to approximately \$7.67 per share of Teradyne's common stock, representing a 75% conversion premium based upon the closing price of Teradyne's common stock on March 31, 2009.

The Notes are classified as long-term debt in the balance sheet at April 3, 2011 and December 31, 2010. The tables below represent the components of Teradyne's convertible senior notes:

	April 3, 2011	December 31, 2010
	(in thousands)	
Debt principal	\$ 190,000	\$ 190,000
Unamortized debt discount	43,084	45,941
<b>Net carrying amount of the convertible debt</b>	<b>\$ 146,916</b>	<b>\$ 144,059</b>

	For the Three Months Ended	
	April 3, 2011	April 4, 2010
	(in thousands)	
Contractual interest expense	\$ 2,209	\$ 2,233
Amortization of the discount component and debt issue fees	3,061	2,697
<b>Total interest expense on the convertible debt</b>	<b>\$ 5,270</b>	<b>\$ 4,930</b>

As of April 3, 2011, the unamortized discount was \$43.1 million, which will be amortized over approximately 3.0 years, and the carrying amount of the equity component was \$63.4 million. As of April 3, 2011, the conversion rate was equal to the initial conversion price of approximately \$5.48 per share and the if-converted value of the Notes was \$619.1 million.

**G. Deferred Revenue and Customer Advances**

## Edgar Filing: TERADYNE, INC - Form 10-Q

Deferred revenue and customer advances consist of the following and are included in short and long-term deferred revenue and customer advances.

**Table of Contents**

	April 3, 2011	December 31, 2010
	(in thousands)	
Customer advances	\$ 108,309	\$ 132,559
Maintenance, training and extended warranty	35,636	36,626
Undelivered elements	1,076	1,839
Acceptance	774	2,083
Other	6,778	4,019
Total deferred revenue and customer advances	\$ 152,573	\$ 177,126

**H. Product Warranty**

Teradyne generally provides a one-year warranty on its products commencing upon installation or shipment. A provision is recorded upon revenue recognition to cost of revenues for estimated warranty expense based on historical experience. Related costs are charged to the warranty accrual as incurred. The balance below is included in other accrued liabilities.

	For the Three Months Ended	
	April 3, 2011	April 4, 2010
	(in thousands)	
Balance at beginning of period	\$ 9,886	\$ 6,435
Accruals for warranties issued during the period	3,577	3,655
Adjustments related to pre-existing warranties	(956)	587
Settlements made during the period	(3,005)	(2,338)
Balance at end of period	\$ 9,502	\$ 8,339

When Teradyne receives revenue for extended warranties beyond one year, it is deferred and recognized on a straight-line basis over the contract period. Related costs are expensed as incurred. The balance below is included in deferred revenue and customer advances and long-term other accrued liabilities.

	For the Three Months Ended	
	April 3, 2011	April 4, 2010
	(in thousands)	
Balance at beginning of period	\$ 8,972	\$ 4,055
Deferral of new extended warranty revenue	1,939	1,634
Recognition of extended warranty deferred revenue	(1,041)	(1,219)
Balance at end of period	\$ 9,870	\$ 4,470

**I. Stock-Based Compensation**

During the three months ended April 3, 2011, Teradyne granted service-based restricted stock units to employees, and service-based stock options and service and performance-based restricted stock units to executive officers. The total number of restricted stock units granted was 1.5 million at a weighted average grant date fair value of \$16.23. Restricted stock units vest in equal installments over four years. The percentage level of performance satisfied for performance-based grants is assessed on or near the anniversary of the grant date and, in turn, that percentage level determines the number of performance-based restricted stock units available for vesting over the vesting period; portions of the performance-based grants not available for vesting are forfeited. The total number of stock options granted to executive officers was 0.1 million at a weighted average grant date fair value of \$6.74. The stock options vest in equal installments over four years, and have a term of seven years

from the date of grant.

During the three months ended April 4, 2010, Teradyne granted service-based restricted stock units to employees, and service and performance-based restricted stock units and stock options to executive officers. The total number of restricted stock units granted was 2.6 million at a weighted average grant date fair value of \$9.34. The total number of stock options granted was 0.3 million at a weighted average grant date fair value of \$4.10. Restricted stock units and stock options vest in equal installments over four years. The stock options have a term of seven years from the date of grant.

**Table of Contents**

The fair value of stock options was estimated using the Black-Scholes option-pricing model with the following assumptions:

	For the Three Months Ended	
	April 3, 2011	April 4, 2010
Expected life (years)	4.00	4.75
Interest rate	1.5%	2.4%
Volatility-historical	52.1%	48.8%
Dividend yield	0.0%	0.0%

Teradyne determined the stock options expected life based upon historical exercise data for executive officers, the age of the executive officers and the terms of the stock option grant. Volatility was determined using historical volatility for a period equal to the expected life. The risk-free rate was determined using the U.S. Treasury yield curve in effect at the time of grant.

**J. Comprehensive Income**

Comprehensive income is calculated as follows:

	For the Three Months Ended	
	April 3, 2011	April 4, 2010
	(in thousands)	
Net income	\$ 94,872	\$ 50,100
Foreign currency translation adjustment	2,266	(573)
Unrealized gain on investments, net of tax of \$0 and \$0	15	697
Actuarial (gains) losses arising during period, net of tax of (\$15) and \$60	(51)	161
Amortization included in net periodic pension and post-retirement costs:		
Actuarial losses, net of tax of \$11 and \$44	2,078	1,755
Prior service costs, net of tax of \$0 and \$0	6	123
Settlement loss net of tax of \$35 and \$140	60	225
Comprehensive income	\$ 99,246	\$ 52,488

**K. Intangible Assets**

Amortizable intangible assets consist of the following and are included in intangible assets on the balance sheet:

	Gross Carrying Amount	April 3, 2011		Weighted Average Useful Life
		Accumulated Amortization	Net Carrying Amount	
		(in thousands)		
Developed technology	\$ 121,055	\$ 70,054	\$ 51,001	6.1 years
Customer relationships and service and software maintenance contracts	91,271	35,390	55,881	8.6 years
Trade names and trademarks	14,840	6,073	8,767	11.5 years
Customer backlog	300	300		0.5 years
Total intangible assets	\$ 227,466	\$ 111,817	\$ 115,649	7.6 years

Edgar Filing: TERADYNE, INC - Form 10-Q

	Gross Carrying Amount	December 31, 2010		Weighted Average Useful Life
		Accumulated Amortization	Net Carrying Amount	
(in thousands)				
Developed technology	\$ 121,055	\$ 65,610	\$ 55,445	6.1 years
Customer relationships and service and software maintenance contracts	91,271	32,749	58,522	8.6 years
Trade names and trademarks	14,840	5,866	8,974	11.5 years
Customer backlog	300	300		0.5 years
<b>Total intangible assets</b>	<b>\$ 227,466</b>	<b>\$ 104,525</b>	<b>\$ 122,941</b>	<b>7.6 years</b>

**Table of Contents**

Aggregate intangible asset amortization expense was \$7.3 million and \$7.4 million, respectively, for the three months ended April 3, 2011 and April 4, 2010. Estimated intangible asset amortization expense for each of the five succeeding fiscal years is as follows:

Year	Amount (in thousands)
2011 (remainder)	\$ 20,530
2012	25,732
2013	24,683
2014	21,598
2015	4,575

**L. Net Income per Common Share**

The following table sets forth the computation of basic and diluted net income per common share:

	For the Three Months Ended	
	April 3, 2011	April 4, 2010
	(in thousands, except per share amounts)	
Income from continuing operations	\$ 68,124	\$ 49,099
Income from discontinued operations	1,545	1,001
Gain on disposal of discontinued operations	25,203	
Net income for basic net income per share	\$ 94,872	\$ 50,100
Income impact of assumed conversion of convertible notes		4,387
Net income for diluted net income per share	\$ 94,872	\$ 54,487
Weighted average common shares-basic	184,720	176,867
Effect of dilutive potential common shares:		
Incremental shares from assumed conversion of convertible notes	23,360	34,703
Convertible note hedge warrant shares	18,822	9,123
Restricted stock units	3,512	2,869
Stock options	1,605	2,699
Employee stock purchase rights	61	16
Dilutive potential common shares	47,360	49,410
Weighted average common shares-diluted	232,080	226,277
Net income per common share-basic		
Continuing operations	\$ 0.37	\$ 0.28
Discontinued operations	0.14	
	\$ 0.51	\$ 0.28
Net income per common share-diluted		
Continuing operations	\$ 0.29	\$ 0.24
Discontinued operations	0.12	
	\$ 0.41	\$ 0.24

## Edgar Filing: TERADYNE, INC - Form 10-Q

The computation of diluted net income per common share for the three months ended April 3, 2011 excludes the effect of the potential exercise of stock options to purchase approximately 1.6 million shares because the effect would have been anti-dilutive.

The computation of diluted net income per common share for the three months ended April 4, 2010 excludes the effect of the potential exercise of stock options to purchase approximately 7.0 million shares and restricted stock units of 0.3 million, because the effect would have been anti-dilutive.

With respect to the Teradyne's convertible debt, Teradyne intends to settle its conversion spread (i.e., the intrinsic value of the embedded option feature contained in the convertible debt) in shares. Teradyne accounts for its conversion spread using the treasury stock method. In the fourth quarter of 2010, Teradyne determined that it had the ability and intent to settle the principal amount of the convertible debt in cash; accordingly as of the fourth quarter of 2010, the principal amount has been excluded from the determination of diluted earnings per share.

Teradyne's call option on its common stock (convertible note hedge transaction) is excluded from the calculation of diluted shares because the effect would be anti-dilutive. See Note F Debt regarding convertible note hedge transaction.

**Table of Contents****M. Restructuring and Other, Net****Restructuring**

In response to a downturn in the industry in 2008 and 2009, Teradyne initiated restructuring activities across all segments to reduce costs, principally through headcount reductions and facility consolidations. The tables below represent activity related to these actions. The remaining accrual for severance and benefits is reflected in the accrued employees' compensation and withholdings account on the balance sheet and is expected to be paid by July 2012. The remaining accrual for lease payments on vacated facilities is reflected in the other accrued liabilities account and the long-term other accrued liabilities account and is expected to be paid over the lease terms, the latest of which expires in 2013. Teradyne expects to pay approximately \$1.0 million against the lease accruals over the next twelve months. Teradyne's future lease commitments are net of expected sublease income of \$1.0 million as of April 3, 2011.

	Severance and Benefits	Facility Exit Costs (in thousands)	Total

## **Table of Contents**

During the three months ended April 3, 2011, Teradyne recorded restructuring charges related to ongoing efforts to lower expenses and its cost structure, additional charges for severance benefits related to prior period actions, and changes in estimates related to facility exit costs. The restructuring charges consisted of the following activities:

Q1 2011 Action:

\$0.6 million of severance charges related to headcount reductions of 5 people in Semiconductor Test segment.

Pre-2010 Actions:

(\$0.4) million related to changes in the estimated exit costs related to the Westford, MA and Poway, CA facilities in System Test Group segment, and the North Reading, MA facility across both segments.

Q2 2010 Actions:

\$0.2 million related to additional charges for severance benefits related to headcount reduction activities in Semiconductor Test segment.

Q4 2010 Actions:

\$0.1 million related to additional charges for severance benefits related to headcount reduction activities in Semiconductor Test segment.

During the three months ended April 4, 2010, Teradyne recorded restructuring charges related to ongoing efforts to lower expenses and its cost structure and an additional charge due to a change in estimated severance benefits related to a prior period activity. The restructuring charges consisted of the following activities:

Q1 2010 Actions:

\$0.4 million of severance charges related to headcount reductions of 4 people in Semiconductor Test segment.

Q2 2009 Actions:

\$0.5 million related to a change in the estimated severance benefits related to headcount reduction activities across both segments.

## **N. Retirement Plans**

### ***Defined Benefit Pension Plans***

Teradyne has defined benefit pension plans covering a portion of domestic employees and employees of certain non-U.S. subsidiaries. Benefits under these plans are based on employees' years of service and compensation. Teradyne's funding policy is to make contributions to these plans in accordance with local laws and to the extent that such contributions are tax deductible. The assets of these plans consist primarily of equity and fixed income securities. In addition, Teradyne has foreign unfunded defined benefit pension plans and an unfunded supplemental executive defined benefit plan in the United States to provide retirement benefits in excess of levels allowed by the Employment Retirement Income Security Act and the Internal Revenue Code.

Components of net periodic pension cost for all plans for the three months ended April 3, 2011 and April 4, 2010 were as follows:

	<b>For the Three Months Ended</b>	
	<b>April 3, 2011</b>	<b>April 4, 2010</b>
	<b>(in thousands)</b>	
Service cost	\$ 688	\$ 1,045
Interest cost	4,348	4,573
Expected return on plan assets	(4,189)	(4,868)
Amortization of unrecognized:		
Prior service cost	155	182
Net loss	2,044	1,745
<b>Total net periodic pension cost</b>	<b>\$ 3,046</b>	<b>\$ 2,677</b>

**Table of Contents**

In the three months ended April 3, 2011, Teradyne contributed \$1.2 million, primarily, to its foreign pension plans.

***Post-Retirement Benefit Plans***

In addition to receiving pension benefits, U.S. Teradyne employees who meet early retirement eligibility requirements as of their termination dates may participate in Teradyne's Welfare Plan, which includes death, and medical and dental benefits up to age 65. Death benefits provide a fixed sum to retirees' survivors and are available to all retirees. Substantially all of Teradyne's current U.S. employees could become eligible for these benefits, and the existing benefit obligation relates primarily to those employees.

Components of net periodic post-retirement cost were as follows:

	For the Three Months Ended	
	April 3, 2011	April 4, 2010
	(in thousands)	
Service cost	\$ 16	\$ 20
Interest cost	136	219
Amortization of unrecognized:		
Prior service benefit	(150)	(59)
Net loss	45	54
 Total net periodic post-retirement cost	 \$ 47	 \$ 234

**O. Commitments and Contingencies*****Purchase Commitments***

As of April 3, 2011, Teradyne had entered into purchase commitments for certain components and materials. The purchase commitments are for less than one year and aggregate to approximately \$239.5 million.

***Legal Claims***

Teradyne is subject to various legal proceedings and claims which have arisen in the ordinary course of business. In the opinion of management, the ultimate disposition of these matters will not have a material adverse effect on Teradyne's results of operations, financial condition or cash flows.

**P. Segment Information**

Teradyne's two reportable segments are Semiconductor Test and Systems Test Group. The Semiconductor Test segment includes operations related to the design, manufacturing and marketing of semiconductor test products and services. The Systems Test Group segment includes operations related to the design, manufacturing and marketing of products and services for military/aerospace instrumentation test, hard disk drive test and circuit-board test and inspection.

**Table of Contents**

Teradyne evaluates performance based on several factors, of which the primary financial measure is business segment income before income taxes. The accounting policies of the business segments are the same as those described in Note B Accounting Policies in Teradyne's Annual Report on Form 10-K for the year ended December 31, 2010. Segment information is as follows:

	Semiconductor Test	Systems Test Group	Corporate and Eliminations (in thousands)	Consolidated
<b>Three months ended April 3, 2011:</b>				
Net revenues	\$ 319,250	\$ 57,911	\$	\$ 377,161
Income (loss) from continuing operations before income taxes(1)(2)	75,415	5,188	(6,993)	73,610
<b>Three months ended April 4, 2010:</b>				
Net revenues	\$ 289,677	\$ 29,661	\$	\$ 319,338
Income (loss) from continuing operations before income taxes(1)(2)	66,089	(5,451)	(6,709)	53,929

- (1) Interest income and interest expense and other are included in Corporate and Eliminations.  
(2) Included in the income (loss) from continuing operations before income taxes for each of the segments are charges for the three months ended April 3, 2011 and April 4, 2010 that include restructuring and other, net, and provision for excess and obsolete inventory, as follows:

Included in the Semiconductor Test segment are charges for the following:

	For the Three Months Ended	
	April 3, 2011	April 4, 2010
	(in thousands)	
Cost of revenues provision for excess and obsolete inventory	\$ 4,442	\$ 492
Restructuring and other, net	891	1,071
<b>Total</b>	<b>\$ 5,333</b>	<b>\$ 1,563</b>

Included in the Systems Test Group segment are charges for the following:

	For the Three Months Ended	
	April 3, 2011	April 4, 2010
	(in thousands)	
Cost of revenues provision for excess and obsolete inventory	\$ 185	\$ 685
Restructuring and other, net	(246)	(167)
<b>Total</b>	<b>\$ (61)</b>	<b>\$ 518</b>

Included in the Corporate and Eliminations segment are charges for the following:

	<b>For the Three Months Ended</b>	
	<b>April 3, 2011</b>	<b>April 4, 2010</b>
	<b>(in thousands)</b>	
Restructuring and other, net	\$ (232)	\$
Total	\$ (232)	\$

---

## **Table of Contents**

### **Item 2: Management's Discussion and Analysis of Financial Condition and Results of Operations**

Statements in this Quarterly Report on Form 10-Q which are not historical facts, so called forward looking statements, are made pursuant to the safe harbor provisions of Section 21E of the Securities Exchange Act of 1934, as amended. Investors are cautioned that all forward looking statements involve risks and uncertainties, including those detailed in our filings with the Securities and Exchange Commission. See also Part II, Item 1A of this Quarterly Report on Form 10-Q and Part I, Item 1A Risk Factors in our Annual Report on Form 10-K for the year ended December 31, 2010. Readers are cautioned not to place undue reliance on these forward-looking statements which reflect management's analysis only as of the date hereof. We assume no obligation to update these forward-looking statements to reflect actual results or changes in factors or assumptions affecting forward-looking statements, except as may be required by law.

#### **Overview**

We are a leading global supplier of automatic test equipment. We design, develop, manufacture, and sell automatic test systems and solutions used to test complex electronics in the consumer electronics, automotive, computing, telecommunications, and aerospace and defense industries. Our automatic test equipment products and services include:

semiconductor test ( Semiconductor Test ) systems; and

military/aerospace ( Mil/Aero ) test instrumentation and systems, hard disk drive test ( HDD ) systems and circuit-board test and inspection ( Commercial Board Test ) systems (collectively these products represent Systems Test Group ).

We have a broad customer base which includes integrated device manufacturers ( IDMs ), outsourced semiconductor assembly and test providers ( OSATs ), wafer foundries, fabless companies that design, but contract with others for the manufacture of integrated circuits ( ICs ), manufacturers of circuit boards, HDD manufacturers, aerospace and military contractors as well as the United States Department of Defense.

The sales of our products and services are dependent, to a large degree, on customers who are subject to cyclical trends in the demand for their products. These cyclical periods have had, and will continue to have, a significant effect on our business since our customers often delay or accelerate purchases in reaction to changes in their businesses and to demand fluctuations in the semiconductor industry. Historically, these demand fluctuations have resulted in significant variations in our results of operations. This was particularly relevant beginning in the fourth quarter of fiscal year 2008 where we saw a significant decrease in revenue in our Semiconductor Test business which was impacted by the deteriorating global economy, which negatively impacted the entire semiconductor industry. The sharp swings in the semiconductor industry in recent years have generally affected the semiconductor test equipment and services industry more significantly than the overall capital equipment sector.

Commencing in the fourth quarter of 2009, we experienced improvement in our Semiconductor Test business. We believe our acquisitions of Nextest and Eagle Test and our entry into the high speed memory and HDD markets have enhanced our opportunities for growth. We will continue to invest in our business to expand further our addressable markets while tightly managing our costs. As the last five quarters have demonstrated, with our current cost structure, we can achieve significantly higher profitability than we achieved at comparable revenue levels in the past.

On March 21, 2011, we completed the sale of our Diagnostic Solutions business unit, which was included in the Systems Test Group segment, to SPX Corporation for \$40.6 million in cash, subject to a post closing working capital adjustment. We sold this business as its growth potential as a stand-alone business was significantly less than if it was part of a larger automotive supplier. The financial information for Diagnostic Solutions has been reclassified to discontinued operations for all periods presented.

#### **Critical Accounting Policies and Estimates**

We have identified the policies which are critical to understanding our business and our results of operations. There have been no significant changes during the three months ended April 3, 2011 to the items disclosed as our critical accounting policies and estimates in Management's Discussion and Analysis of Financial Condition and Results of Operations in our Annual Report on Form 10-K for the fiscal year ended December 31, 2010.

We are evaluating changing our method of recognizing actuarial gains and losses for all of our pension plans. Historically, we have amortized actuarial gains and losses into our operating results over the remaining service period of the plan participants, to the extent such gains and losses were outside of a corridor. We are evaluating changing our method to immediately recognize actuarial gains and losses into our operating

results.

**Table of Contents**

**SELECTED RELATIONSHIPS WITHIN THE CONDENSED CONSOLIDATED  
STATEMENTS OF OPERATIONS**

Gain on disposal of discontinued operations	7	
<b>Net income</b>	<b>25%</b>	<b>16%</b>

**Results of Operations***First Quarter 2011 Compared to First Quarter 2010**Book to Bill Ratio*

Book to bill ratio is calculated as net bookings divided by net sales. Book to bill ratio by reportable segment was as follows:

	<b>For the Three Months Ended</b>	
	<b>April 3, 2011</b>	<b>April 4, 2010</b>
Semiconductor Test	1.1	1.6
Systems Test Group	1.3	2.1
Total Company	1.2	1.6

**Table of Contents***Revenue*

Net revenues for our two reportable segments were as follows:

	For the Three Months Ended		Dollar Change
	April 3, 2011	April 4, 2010 (in millions)	
Semiconductor Test	\$ 319.3	\$ 289.7	\$ 29.6
Systems Test Group	57.9	29.6	28.3
	\$ 377.2	\$ 319.3	\$ 57.9

Net revenues increased by \$57.9 million or 18%, primarily due to the increase of \$29.6 million or 10% across all Semiconductor Test products, and an increase in Systems Test Group revenue of \$28.3 million or 96%, primarily due to the increase in sales of Hard Disk Drive test systems.

Our revenues by region as a percentage of total net revenue were as follows:

	For the Three Months Ended	
	April 3, 2011	April 4, 2010
Malaysia	15%	8%
Taiwan	14	25
United States	14	17
Philippines	13	11
Korea	11	2
China	8	7
Japan	8	4
Europe	7	6
Singapore	6	12
Thailand	3	7
Rest of World	1	1
	100%	100%

*Gross Profit*

Our gross profit was as follows:

	For the Three Months Ended		Dollar/Point Change
	April 3, 2011	April 4, 2010 (in millions)	
Gross Profit	\$ 192.4	\$ 169.9	\$ 22.5
Percent of Total Revenue	51.0%	53.2%	(2.2)

## Edgar Filing: TERADYNE, INC - Form 10-Q

Gross profit as a percentage of revenue decreased 2.2 percentage points from the first three months of 2010 to 2011. This decrease in gross profit was the result of a decrease of 2.9 points related to product mix and a decrease of 1.1 points due to higher inventory provisions. These decreases were partially offset by an increase of 1.0 points due to higher sales volume, and an increase of 0.8 points due to higher cost absorption.

We assess the carrying value of our inventory on a quarterly basis by estimating future demand and comparing that demand against on-hand and on-order inventory positions. Forecasted revenue information is obtained from the sales and marketing groups and incorporates factors such as backlog and future revenue demand. This quarterly process identifies obsolete and excess inventory. Obsolete inventory, which represents items for which there is no demand, is fully reserved. Excess inventory, which represents inventory items that are not expected to be consumed during the next four quarters, is written-down to estimated net realizable value.

During the three months ended April 3, 2011, we recorded an inventory provision of \$4.6 million included in cost of revenues, due to the downward revisions to previously forecasted demand levels. Of the \$4.6 million of total excess and obsolete provisions recorded in the three months ended April 3, 2011, \$4.4 million was related to Semiconductor Test and \$0.2 million was related to Systems Test Group.

**Table of Contents**

During the three months ended April 4, 2010, we recorded an inventory provision of \$1.2 million included in cost of revenues. Of the \$1.2 million of total excess and obsolete provisions recorded in the three months ended April 4, 2010, \$0.7 million was related to Systems Test Group and \$0.5 million was related to Semiconductor Test.

During the three months ended April 3, 2011 and April 4, 2010, we scrapped \$0.3 million and \$0.9 million of inventory, respectively. During the three months ended April 3, 2011 and April 4, 2010, we sold \$3.0 million and \$0.0 million, respectively, of previously written-down or written-off inventory. As of April 3, 2011, we had inventory related reserves for amounts which had been written-down or written-off totaling \$125.0 million. We have no pre-determined timeline to scrap the remaining inventory.

*Engineering and Development*

Engineering and development expenses were as follows:

	<b>For the Three Months Ended</b>		<b>Dollar Change</b>
	<b>April 3, 2011</b>	<b>April 4, 2010</b> (in millions)	
Engineering and Development	\$ 48.0	\$ 47.9	\$ 0.1
Percent of Total Revenue	12.7%	15.0%	

The increase of \$0.1 million in engineering and development expenses is due to a net increase in spending for engineering projects.

*Selling and Administrative*

Selling and administrative expenses were as follows:

	<b>For the Three Months Ended</b>		<b>Dollar Change</b>
	<b>April 3, 2011</b>	<b>April 4, 2010</b> (in millions)	
Selling and Administrative	\$ 58.2	\$ 54.7	\$ 3.5
Percent of Total Revenue	15.4%	17.1%	

The increase of \$3.5 million in selling and administrative expenses is due primarily to an increase in marketing and selling expenses for new products and customers.

*Restructuring and Other, Net**Restructuring*

In response to a downturn in the industry in 2008 and 2009, we initiated restructuring activities across all segments to reduce costs, principally through headcount reductions and facility consolidations. The tables below represent activity related to these actions. The remaining accrual for severance and benefits is reflected in the accrued employees compensation and withholdings account on the balance sheet and is expected to be paid by July 2012. The remaining accrual for lease payments on vacated facilities is reflected in the other accrued liabilities account and the long-term other accrued liabilities account and is expected to be paid over the lease terms, the latest of which expires in 2013. We expect to pay approximately \$1.0 million against the lease accruals over the next twelve months. Our future lease commitments are net of expected sublease income of \$1.0 million as of April 3, 2011.

**Table of Contents**

	Severance and Benefits	Facility Exit Costs (in thousands)	Total
<b>Pre-2010 Activities</b>

Balance at April 3, 2011	\$	\$	\$
<b>2011 Activity</b>			
<i>Q1 2011 Activity:</i>			

Edgar Filing: TERADYNE, INC - Form 10-Q

Provision	\$ 572	\$	\$ 572
Cash payments	(241)		(241)
Balance at April 3, 2011	\$ 331	\$	\$ 331
Balance at April 3, 2011	\$ 331	\$ 2,627	\$ 2,958

During the three months ended April 3, 2011, we recorded restructuring charges related to ongoing efforts to lower expenses and our cost structure, additional charges for severance benefits related to prior period actions, and changes in estimates related to facility exit costs. The restructuring charges consisted of the following activities:

Q1 2011 Action:

\$0.6 million of severance charges related to headcount reductions of 5 people in Semiconductor Test.

Pre-2010 Actions:

(\$0.4) million related to a change in the estimated exit costs related to the Westford, MA and Poway, CA facilities in System Test Group segment, and the North Reading, MA facility across both segments.

**Table of Contents**

Q2 2010 Actions:

\$0.2 million related to additional charges for severance benefits related to headcount reduction activities in Semiconductor Test segment.

Q4 2010 Actions:

\$0.1 million related to a change in the estimated severance benefits related to headcount reduction activities in Semiconductor Test segment.

During the three months ended April 4, 2010, Teradyne recorded restructuring charges related to ongoing efforts to lower expenses and its cost structure and an additional charge due to a change in estimated severance benefits related to a prior period activity. The restructuring charges consisted of the following activities:

Q1 2010 Actions:

\$0.4 million of severance charges related to headcount reductions of 4 people in Semiconductor Test segment.

Q2 2009 Actions:

\$0.5 million related to a change in the estimated severance benefits related to headcount reduction activities across both segments.

*Interest and Other*

Interest income increased by \$0.8 million, from the first three months of 2010 to 2011, due to an increase in marketable securities. Interest expense and other increased by \$0.6 million, from the first three months of 2010 to 2011, primarily due to an increase in interest expense related to our convertible senior notes.

*Income Taxes*

For the three months ended April 3, 2011 and April 4, 2010, we recorded a tax provision of \$5.5 million and \$4.8 million, respectively, which consisted primarily of foreign taxes. Due to the continued uncertainty of realization, we have maintained our valuation allowance at April 3, 2011 for deferred tax assets in the U.S. and Singapore. We will assess the level of the valuation allowance required in the future period. Should more positive than negative evidence regarding the realizability of tax attributes exist in a future period, the valuation allowance may be reduced or eliminated altogether. Reduction of the valuation allowance, in whole or in part, would result in a non-cash income tax benefit during the period of reduction.

**Contractual Obligations**

The following table reflects our contractual obligations as of April 3, 2011:

Payments Due by Period	Non-cancelable					Total
	Purchase Commitments	Lease Commitments(1)	Debt (in thousands)	Interest on Debt	Pension Contributions	
2011	\$ 239,500	\$ 8,517	\$ 1,208	\$ 4,326	\$ 3,524	\$ 257,075
2012		10,655	2,416	8,626		21,697

Edgar Filing: TERADYNE, INC - Form 10-Q

2013	7,138	2,416	8,592	18,146		
2014	5,313	191,209	4,307	200,829		
2015	3,152			3,152		
Beyond 2015	1,914			1,914		
Total	\$ 239,500	\$ 36,689	\$ 197,249	\$ 25,851	\$ 3,524	\$ 502,813

(1) Non-cancelable lease payments have not been reduced by sublease income of \$1.0 million due in the future under non-cancelable sublease agreements.

As of April 3, 2011, the total amount of unrecognized tax benefit for uncertain tax positions and the accrual for the related interest, net of the federal benefit, was \$7.1 million and \$1.0 million, respectively, and was included in long-term other accrued liabilities. We are unable to make a reasonably reliable estimate of when a cash settlement will occur with tax authorities as the timing of examinations and ultimate resolutions of those examinations is uncertain.

**Table of Contents****Liquidity and Capital Resources**

Our cash, cash equivalents and marketable securities balance increased by \$44.8 million in the first three months of 2011 to \$1.1 billion. Cash activity for the first three months of 2011 and 2010 was as follows:

	<b>For the Three Months Ended</b>	
	<b>April 3, 2011</b>	<b>April 4, 2010</b>
	<b>(in millions)</b>	
<b>Cash provided by operating activities:</b>		
Income from continuing operations, adjusted for non-cash items	\$ 106.3	\$ 84.1
Change in operating assets and liabilities, net of businesses sold	(82.5)	(59.2)
Cash (used for) provided by discontinued operations	(4.2)	1.2
<b>Total cash provided by operating activities</b>	<b>19.6</b>	<b>26.1</b>
Cash used by investing activities from continuing operations	(45.0)	(105.8)
Cash provided by investing activities from discontinued operations	39.0	
<b>Total cash used for investing activities</b>	<b>(6.0)</b>	<b>(105.8)</b>
<b>Total cash provided by financing activities</b>	<b>8.9</b>	<b>5.0</b>
<b>Increase (decrease) in cash and cash equivalents</b>	<b>\$ 22.5</b>	<b>\$ (74.7)</b>

In the three months ended April 3, 2011, changes in operating assets and liabilities, net of businesses sold, used cash of \$82.5 million. This was due to a \$30.8 million increase in operating assets and a \$51.7 million decrease in operating liabilities.

The increase in operating assets was due to a \$17.5 million increase in accounts receivable and a \$10.7 million increase in inventories due to higher sales volume, and a \$2.5 million increase in other current assets. The decrease in operating liabilities was due to a \$56.8 million decrease in accrued employee compensation due primarily to profit sharing and variable compensation payments, a \$27.1 million decrease in customer advance payments due to shipments of systems prepaid by customers in 2010 and \$1.2 million of retirement plan contributions, partially offset by a \$28.0 million increase in accounts payable due to increased sales volume, a \$2.9 million increase in other accrued liabilities and a \$2.5 million increase in deferred revenue.

Investing activities during the three months ended April 3, 2011 used cash of \$45.0 million, due to \$211.3 million used for purchases of marketable securities and \$22.1 million used for purchases of property, plant and equipment, offset by proceeds from sales and maturities of marketable securities that provided cash of \$188.4 million.

Investing activities of discontinued operations during the three months ended April 3, 2011, provided cash of \$39.0 million. Included in this balance is the net proceeds received for the sale of our Diagnostic Solutions business unit to SPX Corporation on March 21, 2011.

Financing activities during the three months ended April 3, 2011 provided cash of \$8.9 million, \$10.1 million was from the issuance of common stock under stock option and stock purchase plans which was partially offset by \$1.2 million of cash used for a payment on a long-term debt related to the Japan loan.

In the three months ended April 4, 2010, changes in operating assets and liabilities, net of businesses sold, used cash of \$59.2 million. This was due primarily to a \$35.4 million decrease in customer advances and deferred revenue due to shipments of systems prepaid by customers in 2009, \$6.7 million of retirement plan contributions, a \$4.0 million decrease in other accrued liabilities due to convertible notes interest payment, and an increase in accounts receivable of \$53.9 million, partially offset by a decrease in inventories of \$16.4 million due to increased shipments, a decrease in other current assets of \$20.1 million, and an increase in accounts payable of \$4.3 million due to increased sales volume.

## Edgar Filing: TERADYNE, INC - Form 10-Q

In the three months ended April 4, 2010, investing activities used cash of \$105.8 million, due to \$95.4 million of purchases of marketable securities and \$17.6 million of purchases of property, plant and equipment, partially offset by proceeds from sales and maturities of marketable securities that provided cash of \$7.2 million.

During the three months ended April 4, 2010, financing activities provided cash of \$5.0 million due to \$6.1 million from the issuance of common stock under stock option and stock purchase plans, partially offset by a payment on long-term debt related to a loan in Japan, of \$1.1 million.

We believe our cash, cash equivalents and marketable securities balance of \$1.1 billion will be sufficient to meet working capital and expenditure needs for at least the next twelve months. Inflation has not had a significant long-term impact on earnings.

## **Table of Contents**

### **Equity Compensation Plans**

As discussed in Note M Stock Based Compensation in our 2010 Form 10-K, we have a 1996 Employee Stock Purchase Plan and a 2006 Equity and Cash Compensation Incentive Plan (the 2006 Equity Plan ).

The purpose of the 1996 Employee Stock Purchase Plan is to encourage stock ownership by all eligible employees of Teradyne. The purpose of the 2006 Equity Plan is to provide equity ownership and compensation opportunities in Teradyne to our employees, officers, directors, consultants and/or advisors. Both plans were approved by our shareholders.

### **Recently Issued Accounting Pronouncements**

In March 2010, FASB issued an Accounting Standards Update 2010-17, *Milestone Method of Revenue Recognition* , to Accounting Standards Codification 605, *Revenue Recognition*. The guidance in this consensus allows the milestone method as an acceptable revenue recognition methodology when an arrangement includes substantive milestones. The guidance provides a definition of substantive milestone and should be applied regardless of whether the arrangement includes single or multiple deliverables or units of accounting. The scope of this consensus is limited to the transactions involving milestones relating to research and development deliverables. The guidance includes enhanced disclosure requirements about each arrangement, individual milestones and related contingent consideration, information about substantive milestones and factors considered in the determination. The consensus is effective prospectively to milestones achieved in fiscal years, and interim periods within those years, after June 15, 2010. Early application and retrospective application are permitted. We adopted this final consensus prospectively in January 2011 and the adoption had no material impact on our financial position or results of operations.

### **Item 3: Quantitative and Qualitative Disclosures about Market Risk**

For Quantitative and Qualitative Disclosures about Market Risk affecting Teradyne, see Item 7a. Quantitative and Qualitative Disclosures about Market Risks, in our Annual Report on Form 10-K filed with the SEC on March 1, 2011. There were no material changes in our exposure to market risk from those set forth in our Annual Report for the fiscal year ended December 31, 2010.

### **Item 4: Controls and Procedures**

As of the end of the period covered by this report, our management, with the participation of our Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of our disclosure controls and procedures pursuant to Rule 13a-15(b) promulgated under the Exchange Act. Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that, as of the end of the period covered by this report, our disclosure controls and procedures were effective in ensuring that material information required to be disclosed in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, including ensuring that such material information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

During the period covered by this report, there have been no changes in our internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met.

---

**Table of Contents**

**PART II. OTHER INFORMATION**

**Item 1: Legal Proceedings**

We are subject to various legal proceedings and claims which have arisen in the ordinary course of business. In the opinion of management, the ultimate disposition of these matters will not have a material adverse effect on our results of operations, financial condition or cash flows.

**Item 1A: Risk Factors**

In addition to the other information set forth in this Form 10-Q, you should carefully consider the factors discussed in Part I, Item 1A: Risk Factors in our Annual Report on Form 10-K for the year ended December 31, 2010, which could materially affect our business, financial condition or future results. The risk factors described in our Annual Report on Form 10-K remain applicable to our business with the addition of new risk factors set forth below.

The risks described in our Annual Report on Form 10-K are not the only risks that we face. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial condition and/or operating results.

***The recent natural disaster in Japan could disrupt our operations and those of our customers and adversely affect our results of operations.***

The recent events in Japan, including earthquakes, tsunamis and the related damage, have created economic uncertainty in that country. The combined effect of these events could impact short-term, end-user demand, disrupt our global supply chain for components manufactured in Japan, increase the cost of components that we acquire due to reduced supply, as well as cause other unforeseen effects to our business. As a result of the events in Japan, we purchased buffer inventory for certain components that are sourced in Japan and we may make additional inventory purchases in the future. Based on a review of our global supply chain and the customers' test facilities we serve in Japan, we do not expect a significant impact on our long-term ability to manufacture and sell our products, however, this situation remains uncertain and there can be no assurance that an adverse effect on our business, financial condition and operating results will not result from these events.

***Our operations and the operations of our customers and suppliers are subject to risks of natural catastrophic events, widespread health epidemics, acts of war, terrorist attacks and the threat of domestic and international terrorist attacks, any one of which could result in cancellation of orders, delays in deliveries or other business activities, or loss of customers and could negatively affect our business and results of operations.***

Our business is international in nature, with our sales, service and administrative personnel and our customers and suppliers located in numerous countries throughout the world. Our operations and those of our customers and suppliers are subject to disruption for a variety of reasons, including work stoppages, acts of war, terrorism, health epidemics, fires, earthquakes, hurricanes, volcanic eruptions, energy shortages, telecommunication failures, tsunamis, flooding or other natural disasters. Such disruption could materially increase our costs and expenses as well as cause delays in, among other things, shipments of products to our customers, our ability to perform services requested by our customers, or the installation and acceptance of our products at customer sites. Any of these conditions could have a material adverse effect on our business, financial conditions and results of operations.

**Item 2: Unregistered Sales of Equity Securities and Use of Proceeds**

In November 2007, Teradyne's Board of Directors (the Board) authorized a \$400 million stock repurchase program. The cumulative repurchases under this program as of December 31, 2008 totaled 8.5 million shares of common stock for \$102.6 million at an average price of \$12.14 per share. As of November 4, 2008, the Board suspended the stock repurchase program.

In November 2010, the Board cancelled the November 2007 stock repurchase program and authorized a new stock repurchase program for up to \$200 million. During the three months ended April 3, 2011, Teradyne did not repurchase any shares of common stock.

**Table of Contents**

The following table includes information with respect to repurchases we made of our common stock during the quarter ended April 3, 2011 (in thousands):

<b>Period</b>	<b>(a) Total Number of Shares (or units) Purchased</b>	<b>(b) Average Price Paid per Share (or Unit)</b>	<b>(c) Total Number of Shares (or Units) Purchased as Part of Publicly Announced Plans or Programs</b>	<b>(d) Maximum Number (or Approximate Dollar Value) of Shares (or Units) that may Yet Be Purchased Under the Plans or Programs</b>
January 1, 2011 - January 31, 2011		\$		\$ 200,000
February 1, 2011 - February 27, 2011		\$		\$ 200,000
February 28, 2011 - April 3, 2011		\$		\$ 200,000
