Table of Contents

**HAWKINS, INC.**  
**NOTES TO CONDENSED FINANCIAL STATEMENTS (UNAUDITED)**

**Note 1 Basis of Presentation**

The accompanying unaudited condensed financial statements have been prepared in accordance with the instructions for Form 10-Q and, accordingly, do not include all information and footnotes required by generally accepted accounting principles for complete financial statements. These statements should be read in conjunction with the financial statements and footnotes included in our Annual Report on Form 10-K for the fiscal year ended March 28, 2010, previously filed with the Securities and Exchange Commission ( SEC ). In the opinion of management, the accompanying unaudited condensed financial statements contain all adjustments necessary to present fairly our financial position and the results of our operations and cash flows for the periods presented. All adjustments made to the interim financial statements were of a normal recurring nature.

The accounting policies we follow are set forth in Item 8. Financial Statements and Supplementary Data, Note 1 Nature of Business and Significant Accounting Policies to our financial statements in our Annual Report on Form 10-K for the fiscal year ended March 28, 2010 ( fiscal 2010 ) filed with the SEC on June 4, 2010.

The results of operations for the period ended September 30, 2010 are not necessarily indicative of the results that may be expected for the full fiscal year ending April 3, 2011 ( fiscal 2011 ).

**Note 2 Earnings per Share**

Basic earnings per share ( EPS ) are computed by dividing net earnings by the weighted-average number of common shares outstanding. Diluted EPS includes the incremental shares assumed to be issued upon the exercise of stock options and the incremental shares assumed to be issued as performance units and restricted stock. Basic and diluted EPS were calculated using the following:

	Three months ended		Six months ended	
	September 30,		September 30,	
	2010	2009	2010	2009
Weighted average common shares outstanding - basic	10,257,175	10,250,719	10,255,297	10,248,577
Dilutive impact of stock options, performance units, and restricted stock	75,589	29,533	66,058	25,866
Weighted average common shares outstanding - diluted	10,332,764	10,280,252	10,321,355	10,274,443

For the period ended September 30, 2010, there were no shares or stock options excluded from the calculation of weighted average common shares for diluted EPS. For the three and six months ended September 30, 2009, 70,665 stock options were excluded from the calculation of weighted average common shares for diluted EPS because their effects were antidilutive.

### Note 3 Cash and Cash Equivalents and Investments

The following table presents information about our financial assets and liabilities that are measured at fair value on a recurring basis as of September 30, 2010, and indicates the fair value hierarchy of the valuation techniques utilized to determine such fair value.

<u>Description</u> (In thousands)	September 30, 2010	Level 1	Level 2	Level 3
Assets:				
Cash	\$ 34,781	\$ 34,781	\$	\$
Certificates of deposit	27,862		27,862	
Money market securities	318	318		

Our financial assets that are measured at fair value on a recurring basis are certificates of deposit ( CD s ), with maturities ranging from three months to two years which fall within valuation technique Level 2. The CD s are classified as investments in current assets and noncurrent assets on the Condensed Balance Sheets. As of September 30, 2010, the CD s in current assets have a fair value of \$24.9 million, and in noncurrent assets, the CD s have a fair value of \$3.0 million.

The carrying value of cash and cash equivalents approximate fair value, as maturities are three months or less. We did not have any financial liability instruments subject to recurring fair value measurements as of September 30, 2010.

Table of Contents**Note 4 Inventories**

Inventories at September 30, 2010 and March 28, 2010 consisted of the following:

<b>(In thousands)</b>	<b>September 30, 2010</b>	<b>March 28, 2010</b>
Finished goods (FIFO basis)	\$ 27,416	\$ 23,258
LIFO reserve	(2,645)	(1,931)
Net inventory	\$ 24,771	\$ 21,327

The first in, first out ( FIFO ) value of inventories accounted for under the last in, first out ( LIFO ) method was \$27.2 million at September 30, 2010 and \$23.1 million at March 28, 2010. The remainder of the inventory was valued and accounted for under the FIFO method. The LIFO reserve decreased \$0.1 million during the three months ended September 30, 2010 compared to \$4.2 million the three months ended September 30, 2009. During the six months ended September 30, 2010, the LIFO reserve increased \$0.7 million while the reserve decreased \$7.0 million in the six months ended September 30, 2009 as a result of the changes in inventory costs and inventory product mix. The valuation of LIFO inventory for interim periods is based on our estimates of year-end inventory levels and costs.

**Note 5 Goodwill and Intangible Assets**

The carrying amount of goodwill as of September 30, 2010 and March 28, 2010 was \$1.2 million.

Intangible assets consist primarily of customer lists, trade secrets and non-compete agreements classified as finite life and trademarks and trade names classified as indefinite life, related to previous business acquisitions. A summary of our intangible assets as of September 30, 2010 and March 28, 2010 were as follows:

**September 30, 2010**  
**Net**

	<b>Gross Carrying Amount</b>	<b>Accumulated Amortization</b>	
<b>(In thousands)</b>			
Finite-life intangible assets	\$ 3,259	\$ (972)	\$ 2,287
Indefinite-life intangible assets	1,227		1,227
Total intangible assets, net	\$ 4,486	\$ (972)	\$ 3,514

	<b>March 28, 2010</b>		
	<b>Gross Carrying Amount</b>	<b>Accumulated Amortization</b>	<b>Net</b>
<b>(In thousands)</b>			
Finite-life intangible assets	\$ 3,259	\$ (851)	\$ 2,408
Indefinite-life intangible assets	1,227		1,227
Total intangible assets, net	\$ 4,486	\$ (851)	\$ 3,635

Table of Contents**Note 6 Income Taxes**

In the preparation of our financial statements, management calculates income taxes based upon the estimated effective rate applicable to operating results for the full fiscal year. This includes estimating the current tax liability as well as assessing differences resulting from different treatment of items for tax and book accounting purposes. These differences result in deferred tax assets and liabilities, which are recorded on the balance sheet. These assets and liabilities are analyzed regularly and management assesses the likelihood that deferred tax assets will be recovered from future taxable income. We record any interest and penalties related to income taxes as income tax expense in the statements of income.

We recognize the effect of income tax positions only if those positions are more likely than not of being sustained. Changes in recognition or measurement are reflected in the period in which the change in judgment occurs.

We are subject to U.S. federal income tax as well as income tax of multiple state jurisdictions. The tax years beginning with 2006 remain open to examination by the Internal Revenue Service, and with few exceptions, state and local income tax jurisdictions.

**Note 7 Accumulated Other Comprehensive Income**

Components of accumulated other comprehensive income were as follows:

<b>(In thousands)</b>	<b>September 30, 2010</b>	<b>March 28, 2010</b>
Unrealized gain (loss) on:		
Available-for-sale investments	\$ 64	\$ 66
Post-retirement plan liability adjustments	(29)	(29)
Accumulated other comprehensive income	\$ 35	\$ 37

**Note 8 Stock Based Compensation**

*Stock Option Awards.* Our Board of Directors approved a long-term incentive equity compensation arrangement for our executive officers during the first quarter of fiscal 2009. This long-term incentive arrangement provides for the grant of nonqualified stock options that vest at the end of a three-year period and expire no later than 10 years after the grant date

The following table represents the stock option activity for the six months ended September 30, 2010:

	<b>Shares</b>		<b>Weighted- Average Exercise Price</b>	<b>Exercisable</b>
Outstanding at beginning of period	131,997	\$	17.82	
Granted				
Exercised				
Forfeited or expired				
Outstanding at end of period	131,997	\$	17.82	

Compensation expense for the three months ended September 30, 2010 and 2009 related to stock options was not material. We recorded \$0.1 million in compensation expense related to stock options for the six month periods ended September 30, 2010 and 2009.

*Performance-Based Restricted Stock Units.* Our Board of Directors approved a performance-based equity compensation arrangement for our executive officers during the first quarter of fiscal 2009. This performance-based arrangement provides for the grant of performance-based restricted stock units that represent a possible future issuance of restricted shares of our common stock based on our pre-tax income target for the applicable fiscal year. The actual number of restricted shares to be issued to each executive officer will be determined when our final financial information becomes available after the applicable fiscal year and will be between zero shares and 73,387 shares in the aggregate for fiscal 2011. The restricted shares issued will fully vest two years after the last day of the fiscal year on which the performance is based. We are recording the compensation expense for the outstanding performance share units and then-converted restricted stock over the life of the awards.

Table of Contents

On June 10, 2009 and June 2, 2010, we awarded performance-based restricted stock units to our executive officers under this arrangement. The following table represents the restricted stock activity for the six months ended September 30, 2010:

	Shares		Weighted- Average Grant Date Fair Value
Outstanding at beginning of period	23,000	\$	19.90
Granted	26,500		25.81
Vested			
Forfeited or expired			
Outstanding at end of period	49,500	\$	23.06

We recorded compensation expense of \$0.3 million and \$0.5 million related to performance share units for the three and six months ended September 30, 2010, respectively. We recorded compensation expense of \$0.1 million and \$0.2 million related to performance share units for the three and six months ended September 30, 2009, respectively.

*Restricted Stock Awards.* As part of their retainer, each non-employee Director receives restricted stock for their Board services. The restricted stock awards are expensed over the requisite vesting period, which begins on the date of issuance and ends on the date of the next Annual Meeting of Shareholders, based on the market value on the date of grant.

On August 5, 2009 and July 28, 2010 we awarded restricted stock to the Board. The following table represents the Board's restricted stock activity for the six months ended September 30, 2010:

	Shares		Weighted- Average Grant Date Fair Value
Outstanding at beginning of period	6,000	\$	18.68
Granted	6,996		30.00
Vested	(6,000)		18.68

Forfeited or expired			
Outstanding at end of period	6,996	\$	30.00

Compensation expense for the three months ended September 30, 2010 and 2009 related to restricted stock awards to the Board was not material. We recorded \$0.1 million in compensation expense related to restricted stock awards to the Board for the six month periods ended September 30, 2010 and 2009.

## Note 9 Commitments and Contingencies

**Litigation** We are a party from time to time in various legal proceedings arising in the ordinary course of our business. None of the pending proceedings are expected to have a material effect on the Company's financial statements.

## Note 10 Discontinued Operations

In February 2009, we agreed to sell our inventory and entered into a marketing agreement regarding the business of our Pharmaceutical segment, which provided pharmaceutical chemicals to retail pharmacies and small-scale pharmaceutical manufacturers. On May 22, 2009 the majority of the inventory was sold for cash of approximately \$1.6 million which approximated its carrying value. The remaining inventory, with a carrying value of approximately \$0.1 million, was sold during fiscal 2010. The agreement provides for annual payments based on a percentage of gross profit on future sales up to a maximum of approximately \$3.7 million. We have no significant remaining obligations to fulfill under the agreement. We initially recorded a receivable of approximately \$1.7 million, equal to the carrying value of the assets that were related to this business. The first year payment under the agreement of approximately \$0.8 million was received in the second quarter of fiscal 2011. Amounts received in excess of the \$0.9 million remaining receivable will be recorded as a gain on sale of discontinued operations in future periods. The results of the Pharmaceutical segment have been reported as discontinued operations for all periods presented.

Table of Contents**Note 11 Segment Information**

We have two reportable segments: Industrial and Water Treatment. The accounting policies of the segments are the same as those described in the summary of significant accounting policies. Product costs and expenses for each segment are based on actual costs incurred along with cost allocation of shared and centralized functions. We evaluate performance based on profit or loss from operations before income taxes not including nonrecurring gains and losses. Reportable segments are defined by product and type of customer. Segments are responsible for the sales, marketing and development of their products and services. The segments do not have separate accounting, administration, customer service or purchasing functions. There are no intersegment sales and no operating segments have been aggregated. Given our nature, it is not practical to disclose revenues from external customers for each product or each group of similar products. No single customer represents 10 percent or more of our revenue. Sales are primarily within the United States and all assets are located within the United States.

<b>Reportable Segments (In thousands)</b>	<b>Industrial</b>	<b>Water Treatment</b>	<b>Total</b>
Three Months Ended September 30, 2010:			
Sales	\$ 44,928	\$ 25,470	\$ 70,398

Gross profit	17,264	16,008	33,272
Operating income	9,130	11,219	20,349

Table of Contents

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following is a discussion and analysis of our financial condition and results of operations for the three and six months ended September 30, 2010 as compared to September 30, 2009. This discussion should be read in conjunction with the Condensed Financial Statements and Notes to Condensed Financial Statements included in this Form 10-Q and Item 8 of our Annual Report on Form 10-K for the fiscal year ended March 28, 2010 ( fiscal 2010 ). References to fiscal 2011 refer to the fiscal year ending April 3, 2011.

*Overview*

We derive substantially all of our revenues from the sale of bulk and specialty chemicals to our customers in a wide variety of industries. We began our operations primarily as a distributor of bulk chemicals with a strong customer focus. Over the years we have maintained our strong customer focus and have expanded our business by increasing our sales of value-added specialty chemical products, including repackaging, blending and manufacturing certain products. In recent years, we significantly expanded the sales of our higher-margin blended and manufactured products. We expect this specialty chemical portion of our business to continue to grow.

We have continued to invest in growing our business. In fiscal 2010, we invested in two new facilities, which expanded our ability to service our customers and facilitate growth within our Industrial Group. Our new facility in Centralia, Illinois began operations in July 2009 and primarily serves our food-grade products business. Additionally, our new facility in Minneapolis, Minnesota, built to handle bulk chemicals sold to pharmaceutical manufacturers, became operational in June 2009. We opened one branch for our Water Treatment Group in the first quarter of each of fiscal 2010 and 2011 and expect to continue to invest in new branches to expand our geographic coverage. The cost of these new branches is not expected to be material.

We seek to maintain relatively constant gross profit dollars on each of our products as the cost of our raw materials increase or decrease. Since we expect that we will continue to experience fluctuations in our raw material costs and resulting prices in the future, we believe that gross profit dollars is the best measure of our profitability from the sale of our products. If we maintain relatively stable profit dollars on each of our products, our reported gross profit percentage will decrease when the cost of the product increases and will increase when the cost of the product decreases.

We use the last in, first out ( LIFO ) method of valuing inventory, which causes the most recent product costs to be recognized in our income statement. The valuation of LIFO inventory for interim periods is based on our estimates of fiscal year-end inventory levels and costs. The LIFO inventory valuation method and the resulting cost of sales are consistent with our business practices of pricing to current commodity chemical raw material prices. Our raw material costs have been stable through the first six months of fiscal 2011, although we anticipate some increases in commodity costs by the end of fiscal 2011. As a result of these cost projections, we have recorded a \$0.1 million decrease in our LIFO reserve and a corresponding increase in our reported gross profit for the three months ended September 30, 2010. For the six months ended September 30, 2010, we have recorded a \$0.7 million increase in our LIFO reserve and a corresponding reduction in our reported gross profit. We anticipate continued competitive pricing pressure, which negatively impacted our margins in the second quarter and may have a negative effect on our margins in the remainder of fiscal 2011. Our raw material costs declined significantly in the first half of fiscal 2010, negatively impacting the results for that period due to selling higher cost inventory on hand at lower market prices. Our use of LIFO partially offsets the impact of the rapidly changing prices, and our LIFO reserve decreased significantly in fiscal 2010 due to declining costs. This decrease in the reserve increased our reported gross profit in the three months ended September 30, 2009 by \$4.2 million and in the six months ended September 30, 2009 by \$7.0 million.

Table of Contents**Results of Operations**

The following table sets forth the percentage relationship of certain items to sales for the period indicated:

	<b>Three months ended</b>		<b>Six months ended</b>	
	<b>September 30,</b>		<b>September 30,</b>	
	<b>2010</b>	<b>2009</b>	<b>2010</b>	<b>2009</b>
Sales	100.0%	100.0%	100.0%	100.0%
Cost of sales	(74.8)	(73.2)	(75.1)	(76.0)
Gross profit	25.2	26.8	24.9	24.0
Selling, general and administrative expenses	(9.7)	(10.1)	(9.3)	(9.3)
Operating income	15.5	16.7	15.6	14.7
Investment income	0.1	0.1	0.1	0.1
Income from continuing operations before income taxes	15.6	16.8	15.7	14.8
Provision for income taxes	(6.0)	(6.6)	(6.0)	(5.6)
Income from continuing operations	9.6	10.2	9.7	9.2
Income from discontinued operations, net of tax				0.1
Net income	9.6%	10.2%	9.7%	9.3%

**Three Months Ended September 30, 2010 Compared to the Three Months Ended September 30, 2009***Sales*

Sales increased \$5.4 million, or 8.3%, to \$70.4 million in the three months ended September 30, 2010 as compared to \$65.0 million in the same period a year ago. Sales of bulk chemicals, including caustic soda, were approximately 21.0% of sales during the three months ended September 30, 2010 and 18.8% during the three months ended September 30, 2009. We experienced increased sales across many of our product lines in the second quarter of fiscal 2011 as compared to the same period in fiscal 2010.

*Industrial Segment.* Industrial segment sales increased \$3.5 million, or 8.5%, to \$44.9 million for the three months ended September 30, 2010 as compared to the same period of the prior year, with the increase primarily driven by increased sales of bulk chemicals.

*Water Treatment Segment.* Water Treatment segment sales increased \$1.9 million, or 8.1%, to \$25.5 million for the three months ended September 30, 2010 as compared to the same period of the prior year. The sales increase was primarily due to increased sales of manufactured and specialty chemical products.

*Gross Profit*

Gross profit was \$17.7 million, or 25.2% of sales, for the three months ended September 30, 2010, as compared to \$17.4 million, or 26.8% of sales, for the three months ended September 30, 2009. The LIFO method of valuing inventory positively impacted gross profit by \$0.1 million for the three months ended September 30, 2010 and \$4.2 million for the three months ended September 30, 2009. The impact of LIFO in the prior year was primarily due to significant decreases in raw material costs experienced in the first two quarters of fiscal 2010, whereas we have seen raw material costs stabilize through the first half of fiscal 2011 and are expected to increase slightly by the end of the fiscal year.

*Industrial Segment.* Gross profit for the Industrial segment was \$9.6 million, or 21.3% of sales, for the three months ended September 30, 2010, as compared to \$8.8 million, or 21.3% of sales, for the three months ended September 30, 2009. The increase in gross profit dollars was attributable to increased sales, primarily of bulk chemicals, which was partially offset by decreases in profits due to competitive pricing pressures. Declining raw material costs in the second quarter of the prior year negatively impacted the per-unit profits realized in that period. The LIFO method of valuing inventory did not have a material impact on gross profit in this segment for the three months ended September 30, 2010 while it positively impacted gross profit by \$3.3 million for the three months ended September 30, 2009.

Table of Contents

*Water Treatment Segment.* Gross profit for the Water Treatment segment was \$8.2 million, or 32.0% of sales, for the three months ended September 30, 2010, as compared to \$8.6 million, or 36.5% of sales, for the three months ended September 30, 2009. The decrease in gross profit dollars was primarily due to increased overhead costs from investments in new facilities and personnel within existing and new markets to support growth in this segment, partially offset by increased sales. The LIFO method of valuing inventory positively impacted gross profit in this segment by \$0.1 million for the three months ended September 30, 2010 as compared to \$0.9 million for the three months ended September 30, 2009.

*Selling, General and Administrative Expenses*

Selling, general and administrative expenses were \$6.8 million, or 9.7% of sales, for the three months ended September 30, 2010 as compared to \$6.6 million, or 10.1% of sales, for the three months ended September 30, 2009. The increase was primarily a result of higher equity incentive plan costs.

*Operating Income*

Operating income was \$10.9 million for the three months ended September 30, 2010, an increase of \$0.1 million from the same period in the prior year. The Industrial segment increased \$0.7 million while the Water Treatment segment decreased \$0.6 million. The increase in operating income was driven by increased sales partially offset by decreases in profits due to competitive pricing pressures, and higher overhead costs in the Water Treatment segment.

*Investment Income*

Investment income was \$0.1 million for the three months ended September 30, 2010 and 2009.

*Provision for Income Taxes*

Our effective income tax rate was 38.0% for the three months ended September 30, 2010, compared to 39.0% for the three months ended September 30, 2009. The effective tax rate is impacted by projected taxable income, permanent items, and effective state tax rate projections.

***Six Months Ended September 30, 2010 Compared to the Six Months Ended September 30, 2009***

*Sales*

Sales increased \$6.5 million, or 5.0%, to \$145.1 million in the six months ended September 30, 2010 as compared to \$138.6 million in the same period a year ago. Sales of bulk chemicals, including caustic soda, were approximately 20.2% of sales during the six months ended September 30, 2010 and 19.1% during the six months ended September 30, 2009. We experienced increased sales across many of our product lines in the six months ended September 30 of fiscal 2011 as compared to the same period in fiscal 2010, which was partially offset by lower selling prices due to lower raw material costs in the first quarter of fiscal 2011 compared to the same period of fiscal 2010.

*Industrial Segment.* Industrial segment sales increased \$3.6 million, or 4.0%, to \$94.7 million for the six months ended September 30, 2010 as compared to the same period of the prior year. Increased sales of bulk chemicals and many other product lines were partially offset by reduced selling prices in response to lower raw material costs in the first quarter of fiscal 2011.

*Water Treatment Segment.* Water Treatment segment sales increased \$2.9 million, or 6.1%, to \$50.3 million for the six months ended September 30, 2010 as compared to the same period of the prior year. The sales increase was primarily due to increased sales of manufactured and specialty chemical products, partially offset by lower selling prices due to lower raw material costs in the first quarter of fiscal 2011.

*Gross Profit*

Gross profit was \$36.2 million, or 24.9% of sales, for the six months ended September 30, 2010, as compared to \$33.3 million, or 24.0% of sales, for the six months ended September 30, 2009. Due to projected increases in certain raw material costs at the end of fiscal 2011, the LIFO method of valuing inventory negatively impacted gross profit by \$0.7 million for the six months ended September 30, 2010, whereas LIFO positively impacted gross profit by \$7.0 million for the six months ended September 30, 2009 due to significant decreases in raw material costs experienced in the first six months of fiscal 2010 and projected to be in place at the end of fiscal 2010.

Table of Contents

*Industrial Segment.* Gross profit for the Industrial segment was \$19.9 million, or 21.0% of sales, for the six months ended September 30, 2010, as compared to \$17.3 million, or 19.0% of sales, for the six months ended September 30, 2009. The increase in gross profit dollars for this segment in the first six months of fiscal 2011 was attributable to increased sales of bulk chemicals, partially offset by decreases in profits due to competitive pricing pressures. Declining raw material costs in the first two quarters of the prior year negatively impacted the per-unit profits realized in that period. The LIFO method of valuing inventory negatively impacted gross profit by \$0.6 million in this segment for the six months ended September 30, 2010 while it positively impacted gross profit by \$5.5 million for the six months ended September 30, 2009.

*Water Treatment Segment.* Gross profit for the Water Treatment segment was \$16.3 million, or 32.3% of sales, for the six months ended September 30, 2010, as compared to \$16.0 million, or 33.8% of sales, for the six months ended September 30, 2009. The increase in gross profit dollars was primarily due to increased sales of manufactured and specialty chemical products, which was largely offset by increased overhead costs from investments in new facilities and personnel within existing and new markets to support growth in this segment. The LIFO method of valuing inventory negatively impacted gross profit in this segment by \$0.1 million for the six months ended September 30, 2010 while it positively impacted gross profit by \$1.5 million for the six months ended September 30, 2009.

*Selling, General and Administrative Expenses*

Selling, general and administrative expenses were \$13.5 million, or 9.3% of sales, for the six months ended September 30, 2010 as compared to \$12.9 million, or 9.3% of sales, for the three months ended September 30, 2009. The increase was primarily a result of higher equity incentive plan costs.

*Operating Income*

Operating income was \$22.7 million for the six months ended September 30, 2010, an increase of \$2.4 million from the same period in the prior year. The Industrial segment increased \$2.6 million while the Water Treatment segment decreased \$0.2 million. The increase in operating income was driven by increased sales partially offset by decreases in profits due to competitive pricing pressures, and higher overhead costs in the Water Treatment segment.

*Investment Income*

Investment income was \$0.2 million for the six months ended September 30, 2010 compared to \$0.1 million for the six months ended September 30, 2009.

*Provision for Income Taxes*

Our effective income tax rate was 38.2% for the six months ended September 30, 2010, compared to 38.3% for the six months ended September 30, 2009. The effective tax rate is impacted by projected taxable income, permanent items, and effective state tax rate projections.

*Liquidity and Capital Resources*

Cash provided by operations for the six months ended September 30, 2010 was \$17.3 million compared to \$27.4 million for the six months ended September 30, 2009. The decrease in cash provided by operating activities was due primarily to an increase in working capital balances, including the timing of inventory purchases and the related vendor payments and an increase in trade receivables associated with the timing of customer payments, offset by the increase in net income. The higher levels of cash generated from working capital in the six months ended September 30, 2009 was driven by the rapidly declining material costs and selling prices experienced in that period. Due to the nature of our operations, which includes purchases of large quantities of bulk chemicals, timing of purchases can result in significant changes in working capital investment and the resulting operating cash flow. Historically, our cash requirements increase during the period from April through September as caustic soda inventory levels increase as the majority of barges are received during this period. Additionally, due to the seasonality of the water treatment business, our accounts receivable balance generally increases during the same period.

Cash and investments available-for-sale of \$63.0 million at September 30, 2010 increased by \$9.3 million as compared with the \$53.7 million available as of March 28, 2010, primarily due to cash flows generated from operations, offset by capital expenditures and dividends paid.

Table of Contents

***Capital Expenditures***

Capital expenditures were \$5.1 million for the six months ended September 30, 2010 compared to \$4.5 million in the same period in the prior fiscal year. Capital expenditures related to new facilities projects were approximately \$0.4 million for the six months ended September 30, 2010 compared to \$2.5 million for the six months ended September 30, 2009. Additional significant capital expenditures during the six months ended September 30, 2010 consisted of approximately \$2.1 million for business expansion and process improvement projects, \$1.8 million for other facility, regulatory and safety improvements and \$0.7 million for new and replacement route sales trucks for the Water Treatment segment. We expect our cash flows from operations will be sufficient to fund our planned capital expenditures for the remainder of fiscal 2011.

***Critical Accounting Policies***

Our significant accounting policies are set forth in Note 1 to our financial statements in our Annual Report on Form 10-K for the fiscal year ended March 28, 2010. The accounting policies used in preparing our interim fiscal 2011 financial statements are the same as those described in our Annual Report.

***Forward-Looking Statements***

The information presented in this Quarterly Report on Form 10-Q contains forward-looking statements within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended (the Exchange Act ). These forward-looking statements have been made pursuant to the provisions of the Private Securities Litigation Reform Act of 1995. These statements are not historical facts, but rather are based on our current expectations, estimates and projections, and our beliefs and assumptions. We intend words such as anticipate, expect, intend, plan, believe, estimate, will and similar expressions to identify forward-looking statements. These statements are not guarantees of future performance and are subject to certain risks, uncertainties and other factors, some of which are beyond our control and are difficult to predict. These factors could cause actual results to differ materially from those expressed or forecasted in the forward-looking statements. Additional information concerning potential factors that could affect future financial results is included in our Annual Report on Form 10-K for the fiscal year ended March 28, 2010. We caution you not to place undue reliance on these forward-looking statements, which reflect our management's view only as of the date of this Quarterly Report on Form 10-Q. We are not obligated to update these statements or publicly release the result of any revisions to them to reflect events or circumstances after the date of this Quarterly Report on

Form 10-Q or to reflect the occurrence of unanticipated events.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

At September 30, 2010, our investment portfolio included \$27.9 million of certificates of deposit classified as fixed income securities and cash and cash equivalents of \$35.1 million. The fixed income securities, like all fixed income instruments, are subject to interest rate risks and will decline in value if market interest rates increase. However, while the value of the investment may fluctuate in any given period, we intend to hold our fixed income investments until recovery. Consequently, we would not expect to recognize an adverse impact on net income or cash flows during the holding period. We adjust the carrying value of our investments if impairment occurs that is other than temporary.

We are subject to the risk inherent in the cyclical nature of commodity chemical prices. However, we do not currently purchase forward contracts or otherwise engage in hedging activities with respect to the purchase of commodity chemicals. We attempt to pass changes in material prices on to our customers, however, there are no assurances that we will be able to pass on cost increases in the future.

ITEM 4. CONTROLS AND PROCEDURES

**Evaluation of disclosure controls and procedures**

As of the end of the period covered by this Quarterly Report on Form 10-Q, we conducted an evaluation, under supervision and with the participation of management, including the chief executive officer and chief financial officer, of the effectiveness of the design and operation of our disclosure controls and procedures pursuant to Rules 13a-15 and 15d-15 of the Exchange Act. Based upon that evaluation, our chief executive officer and chief financial officer concluded that our disclosure controls and procedures are effective. Disclosure controls and procedures are defined by Rules 13a-15(e) and 15d-15(e) of the Exchange Act as controls and other procedures that are designed to ensure that information required to be disclosed by us in reports filed with the SEC under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by us in reports filed under the Exchange Act is accumulated and communicated to our management, including our principal executive and principal financial officers, or person performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

**Changes in Internal Control**

There was no change in our internal control over financial reporting during the second quarter of fiscal 2011 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.
