CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

Certain information included or incorporated herein by reference in this report may be deemed to be forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements may include, but are not limited to, statements relating to our objectives, plans and strategies. All statements (other than statements of historical fact) that address activities, events or developments that we intend, expect, project, believe or anticipate will or may occur in the future are forward-looking statements. These statements are often characterized by terminology such as believe, hope, may, anticipate, should, intend, plan, will, expect, positioned, strategy and similar expressions, and are based on assumptions and assessments made by management in light of their experience and their perception of historical trends, current conditions, expected future developments and other factors they believe to be appropriate. For example, information appearing under Management s Discussion and Analysis of Financial Condition and Results of Operations includes forward-looking statements. Forward-looking statements are not guarantees of future performance and are subject to risks and uncertainties. Important factors that could cause actual results, developments and business decisions to differ materially from forward-looking statements are more fully described in this report, including the risks set forth under Risk Factors in Item 1A, but include the following:

- any negative consequences resulting from the economy, including the availability of liquidity to us, our independent Distributors and our suppliers or the willingness of our customers to purchase products;
- our relationship with, and our ability to influence the actions of, our independent Distributors, and other third parties with whom we do business;
- improper activity by our employees or independent Distributors;
- negative publicity related to our products, ingredients, and the nutritional supplement industry or direct selling organization;
- changing consumer preferences and demands;
- our reliance upon, or the loss or departure of any member of, our senior management team which could negatively impact our Distributor relations and operating results;
- increased state and federal regulatory scrutiny of the dietary supplement industry;
- the competitive nature of our business and the nutritional supplement industry;
- regulatory matters governing our products, ingredients, the nutritional supplement industry, our direct selling program, or the direct selling market in which we operate;
- legal challenges to our direct selling program or to the classification of our independent Distributors;
- risks associated with operating internationally and the effect of economic factors, including foreign exchange, inflation, disruptions or conflicts with our third party importers, governmental sanctions, ongoing Ukraine and Russia political conflict, pricing and currency devaluation risks, especially in countries such as Ukraine, Russia and Belarus;
- uncertainties relating to the application of transfer pricing, duties, value-added taxes, and other tax regulations, and changes thereto;

esti

- our dependence on increased penetration of existing markets;
- our reliance on our information technology infrastructure;
- the sufficiency of trademarks and other intellectual property rights;
- changes in tax laws, treaties or regulations, or their interpretation;
- taxation relating to our independent Distributors;
- product liability claims;
- share price volatility related to, among other things, speculative trading; and
- the full implementation of our joint venture for operations in China with Fosun Industrial Co., Ltd., as well as the legal complexities, unique regulatory environment and challenges of doing business in China generally.

All forward-looking statements speak only as of the date of this report and are expressly qualified in their entirety by the cautionary statements included in or incorporated by reference into this report. Except as is required by law, we expressly disclaim any obligation to publicly release any revisions to forward-looking statements to reflect events after the date of this report. Throughout this report, we refer to Nature s Sunshine Products, Inc., together with its subsidiaries, as we, us, our Company or the Company.

NATURE S SUNSHINE PRODUCTS, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Amounts in thousands, except per share information)

(Unaudited)

(1) Basis of Presentation

Nature s Sunshine Products, Inc., together with its subsidiaries (hereinafter referred to collectively as the Company), is a natural health and wellness company primarily engaged in the manufacturing and direct selling of nutritional and personal care products. The Company is a Utah corporation with its principal place of business in Lehi, Utah, and sells its products to a sales force of independent Managers and Distributors who use the products themselves or resell them to other independent Distributors or consumers. The formulation, manufacturing, packaging, labeling, advertising, distribution and sale of each of the Company s major product groups are subject to regulation by one or more governmental agencies.

The Company markets its products in Australia, Austria, Belarus, Canada, Colombia, Costa Rica, the Czech Republic, Denmark, the Dominican Republic, Ecuador, El Salvador, Finland, Germany, Guatemala, Honduras, Hong Kong, Iceland, Indonesia, Ireland, Italy, Japan, Kazakhstan, Latvia, Lithuania, Malaysia, Mexico, Moldova, Mongolia, the Netherlands, New Zealand, Nicaragua, Norway, Panama, the Philippines, Poland, Russia, Singapore, Slovenia, South Korea, Spain, Sweden, Taiwan, Thailand, Ukraine, the United Kingdom, and the United States. The Company also exports its products to Argentina, Australia, Chile, Israel, New Zealand, Norway, Peru and the United Kingdom. The Company discontinued operations in Vietnam, which were approximately 0.2 percent and 0.4 percent of consolidated net sales during the six month periods ended June 30, 2015 and 2014, respectively.

Principles of Consolidation

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. The unaudited condensed consolidated financial statements include the accounts of the Company and its subsidiaries. All significant intercompany accounts and transactions are eliminated in consolidation. In the opinion of management, the accompanying unaudited condensed consolidated financial statements contain all adjustments (consisting of normal recurring accruals), considered necessary for a fair presentation of the Company s financial information as of June 30, 2015, and for the three- and six-month periods ended June 30, 2015 and 2014. The results of operations of any interim period are not necessarily indicative of the results of operations to be expected for the fiscal year ending December 31, 2015.

It is suggested that these condensed consolidated financial statements be read in conjunction with the consolidated financial statements and the notes thereto included in the Company s Annual Report on Form 10-K for the year ended December 31, 2014.

Classification of Belarus as a Highly Inflationary Economy and Devaluation of Its Currency

Since June 30, 2012, Belarus has been designated as a highly inflationary economy. The U.S. dollar is the Company s functional currency for this market. As a result, there were no resulting gains or losses from a re-measurement of the financial statements using official rates of the Company s Belarusian subsidiary. However, as a result of the weakening of the Belarusian ruble, the purchasing power of the Company s independent Distributors in this market has diminished. During the three months ended June 30, 2015 and 2014, the Company s Belarusian subsidiary s net sales revenue represented approximately 1.7 percent and 2.4 percent of consolidated net sales revenue, respectively. During the six months ended June 30, 2015 and 2014, the Company s Belarusian subsidiary s net sales revenue represented approximately 1.9 percent and 2.5 percent of consolidated net sales revenue, respectively.

Recent Accounting Pronouncements

In May 2014, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2014-09 Revenue from Contracts with Customers (Topic 606). This update requires an entity to recognize revenue to depict the transfer of promised goods and services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods and services. As such, this update affects an entity that either enters into contracts with customers or transfers goods and services or enters into contracts for the transfer of nonfinancial assets unless those contracts are within the scope of other standards. This update will supersede the revenue recognition requirements in Topic 605, Revenue Recognition, and most industry-specific guidance, and creates a Topic 606. In July 2015, the FASB approved a proposal that extended the required implementation date one year to the interim and annual periods beginning after December 15, 2017, but would also permit companies to adopt the standard at the original effective date, which was the interim and annual periods beginning after December 15, 2016. The

Table of Contents

adoption of this ASU is not expected to have a material impact on the Company s consolidated financial statements and footnote disclosures.

In August 2014, the FASB issued ASU No. 2014-15, Presentation of Financial Statements Going Concern (Subtopic 205-40). The purpose of this ASU is to incorporate into U.S. GAAP management s responsibility to evaluate whether there is substantial doubt about an entity s ability to continue as a going concern within one year after the date that the financial statements are issued, and to provide related footnote disclosures. This update is effective for the annual period ending after December 15, 2016, and for annual periods and interim periods thereafter. Early application is permitted. The adoption of this guidance is not expected to have a material impact on the Company s results of operations, consolidated financial statements and footnote disclosures.

In January 2015, the FASB issued ASU No. 2015-01, Income Statement - Extraordinary and Unusual Items (Subtopic 225-20): Simplifying Income Statement Presentation by Eliminating the Concept of Extraordinary Items, which eliminates the concept of an extraordinary item from GAAP. As a result, an entity will no longer be required to segregate extraordinary items from the results of ordinary operations, to separately present an extraordinary item on its income statement, net of tax, after income from continuing operations or to disclose income taxes and earnings-per-share data applicable to an extraordinary item. However, this ASU will still retain the presentation and disclosure guidance for items that are unusual in nature and occur infrequently. This ASU is effective for annual periods ending after December 15, 2015, and interim periods thereafter. A reporting entity also may apply the amendments retrospectively to all prior periods presented in the financial statements. Early adoption is permitted provided that the guidance is applied from the beginning of the fiscal year of adoption. The adoption of this ASU is not expected to have a material impact on the Company s results of operations, consolidated financial statements and footnote disclosures.

In February 2015, the FASB issued ASU No. 2015-02, Consolidations (Topic 810): Amendments to the Consolidation Analysis. This update makes amendments to the current consolidation guidance, including introducing a separate consolidation analysis specific to limited partnerships and other similar entities. Under this analysis, limited partnerships and other similar entities will be considered a variable interest entity unless the limited partners hold substantive kick-out rights or participating rights. This update is effective for interim and annual periods beginning after December 15, 2015. The Company is currently evaluating both methods of adoption, as well as the effect this ASU will have on the Company is results of operations, consolidated financial statements and footnote disclosures.

(2) Discontinued operations

In November 2014, the Company ceased its operations in Venezuela due to the difficulties and uncertainties related to import controls, difficulties associated with repatriating cash and high inflation. This market was part of the Company s NSP Americas segment and all of the income (loss) from discontinued operations is related to the common shareholders of the Company.

The following table summarizes the operating results of the Company s discontinued operations for the six months ended:

	June 201	,	June 30, 2014
Net sales revenue	\$	\$	3,780
Income (loss) before income tax provision	\$	1,312 \$	(834)

Income tax provision		53
Income (loss) from discontinued operations	\$ 1,312 \$	(887)

During the six months ended June 30, 2015, the Company received \$1,312 in net proceeds from the sales of its fixed assets in Venezuela, which is included in the results from discontinued operations. The income (loss) from discontinued operations did not have a material impact on the Company s operating cash flows during the six months ended June 30, 2014.

(3) Restructuring Related Expenses

In April 2015, the Company announced its plan to streamline its operations and refocus its activities on profitable growth opportunities. The planned streamlining is expected to reduce costs, improve efficiencies and renew focus on larger and more profitable Company markets. As part of the plan, the Company ceased operations in Vietnam and eliminated approximately 100 positions worldwide through both severance and attrition. The Company incurred approximately \$2,100 of non-recurring expenses during the quarter, which are recorded primarily in selling, general and administrative expenses, of which \$1,960 was related to severance and termination benefits and \$140 was related to other exit costs. All but \$1,120 of the costs incurred during the three months ended June 30, 2015 have been paid. The Company expects to incur up to an additional \$500 of non-recurring expenses in the subsequent quarters.

10

Table of Contents

(4) Inventories

The composition of inventories is as follows:

	June 30, 2015		
Raw materials	\$ 12,466	\$	11,206
Work in progress	928		534
Finished goods	27,143		28,698
Total inventory	\$ 40,537	\$	40,438

(5) Intangible Assets

At June 30, 2015, and December 31, 2014, intangibles for product formulations had a gross carrying amount of \$1,763 and \$1,763, accumulated amortization of \$1,133 and \$1,059, and a net amount of \$630 and \$704, respectively. The estimated useful lives of the product formulations range from 9 to 15 years.

Amortization expense for intangible assets for the three months ended June 30, 2015 and 2014, was \$37 and \$37, respectively. Amortization expense for intangible assets for the six months ended June 30, 2015, and 2014, was \$74 and \$74, respectively.

(6) Investments

The amortized cost and estimated fair values of available-for-sale securities by balance sheet classification are as follows:

			Gross	G	ross	
	A	mortized	Unrealized	Unre	ealized	Fair
As of June 30, 2015		Cost	Gains	Lo	sses	Value
U.S. government securities funds	\$	1,791 \$	S	\$	(10) \$	1,781
Total short-term investment securities	\$	1,791	S	\$	(10) \$	1,781

As of December 31, 2014		Amortized Cost	Gross Unrealized Gains	l		Gross Unrealized Losses		Fair Value
Municipal obligations	\$	100	\$	1	\$	Losses	\$	101
U.S. government securities funds	·	1,791	•		·	(1:	5)	1,776
Equity securities		227		454		(12	2)	669
Total short-term investment securities	\$	2,118	\$	455	\$	(27	7) \$	2,546

During the six-month period ended June 30, 2015, and 2014, the proceeds from the sales of available-for-sale securities were \$810 and \$51, respectively. During the six-month period ended June 30, 2015, the Company had gross realized gains of \$294 on sales of available-for-sale securities (net of tax). There were no gross realized gains (losses) on sales of available-for-sale securities (net of tax) for the six-month period ended June 30, 2014.

The Company s trading securities portfolio totaled \$1,131 at June 30, 2015, and \$1,038 at December 31, 2014, and generated gains of \$21 and \$44 for the six months ended June 30, 2015, and 2014.

As of June 30, 2015, and December 31, 2014, the Company had unrealized losses of \$10 and \$15, respectively, in its U.S. government securities funds.

(7) Long-Term Debt and Revolving Credit Facility

The Company s revolving credit agreement with Wells Fargo Bank, N.A., permits the Company to borrow up to \$25,000 through September 1, 2016, bearing interest at LIBOR plus 1.25 percent (1.50 percent as of June 30, 2015, and December 31, 2014). The Company must pay an annual commitment fee of 0.25 percent on the unused portion of the commitment. Currently, the revolving credit agreement matures on September 1, 2016. The Company did not have any outstanding balance under the revolving credit agreement at June 30, 2015, and December 31, 2014, respectively.

The revolving credit agreement contains restrictions on liquidity, leverage, minimum net income and consecutive quarterly net losses. In addition, the agreement restricts capital expenditures, lease expenditures, other indebtedness, liens on assets, guaranties, loans and advances, and the merger, consolidation and the transfer of assets except in the ordinary course of business. The Company remains in compliance with these debt covenants as of June 30, 2015.

Table of Contents

(8) Net Income Per Share

Basic net income per common share (Basic EPS) is computed by dividing net income by the weighted average number of common shares outstanding during the period. Diluted net income per common share (Diluted EPS) reflects the potential dilution that could occur if stock options or other contracts to issue common stock were exercised or converted into common stock. The computation of Diluted EPS does not assume exercise or conversion of securities that would have an anti-dilutive effect on net income per common share.

Following is a reconciliation of the numerator and denominator of Basic EPS to the numerator and denominator of Diluted EPS for the three and six months ended June 30, 2015 and 2014:

	Three Months Ended June 30, 2015 2014			Six Months Ended Ju 2015			ne 30, 2014
Net income:							
Net income from continued operations	\$ 2,395	\$	3,550	\$	6,598	\$	13,786
Income (loss) from discontinued operations	\$	\$	(316)	\$	1,312	\$	(887)
Net income attributable to common shareholders	\$ 2,561	\$	3,234	\$	8,228	\$	12,899
Basic weighted average shares outstanding	18,720		16,187		18,671		16,183
Basic net income per common share:							
Net income from continued operations	\$ 0.13	\$	0.22	\$	0.35	\$	0.85
Income (loss) from discontinued operations	\$	\$	(0.02)	\$	0.07	\$	(0.05)
Net income attributable to common shareholders	\$ 0.14	\$	0.20	\$	0.44	\$	0.80
Diluted shares outstanding:							
Basic weighted average shares outstanding	18,720		16,187		18,671		16,183
Stock options and restricted stock units	524		37		486		209
Diluted weighted average shares outstanding	19,244		16,224		19,157		16,392
Diluted net income per common share:							
Net income from continued operations	\$ 0.12	\$	0.22	\$	0.34	\$	0.84
Income (loss) from discontinued operations	\$	\$	(0.02)	\$	0.07	\$	(0.05)
Net income attributable to common shareholders	\$ 0.13	\$	0.20	\$	0.43	\$	0.79
Potentially dilutive shares excluded from							
diluted per share amounts	348		133		348		133
Potentially anti-dilutive shares excluded from							
diluted per share amounts	691		653		641		468

Potentially dilutive shares excluded from diluted-per-share amounts include performance-based options to purchase shares of common stock for which certain earnings metrics have not been achieved. Potentially anti-dilutive shares excluded from diluted-per-share amounts include both non-qualified stock options and unearned performance-based options to purchase shares of common stock with exercise prices greater than the weighted-average share price during the period and shares that would be anti-dilutive to the computation of diluted net income per share for each of the periods presented.

(9) Capital Transactions

Dividends

The declaration of future dividends is subject to the discretion of the Company s Board of Directors and will depend upon various factors, including the Company s earnings, financial condition, restrictions imposed by any indebtedness that may be outstanding, cash requirements, future prospects and other factors deemed relevant by its Board of Directors.

On February 25, 2015, the Company announced a cash dividend of \$0.10 per common share in an aggregate amount of \$1,865 that was paid on March 23, 2015, to shareholders of record on March 12, 2015. On May 7, 2015, the Company announced a cash dividend of \$0.10 per common share in an aggregate amount of \$1,875 that was paid on June 2, 2015, to shareholders of record on May 22, 2015.

Table of Contents

Share Repurchase Program

In December 2014, the Company completed share repurchases under its previously announced \$10 million share repurchase program. In November 2014, the Board of Directors authorized a \$20 million share repurchase program beginning January 1, 2015. Such purchases may be made in the open market, through block trades, in privately negotiated transactions or otherwise. The timing and amount of any shares repurchased will be determined based on the Company s evaluation of market conditions and other factors and the program may be discontinued or suspended at any time. At June 30, 2015, the remaining balance available for repurchases under the program was \$16,217.

The following is a summary of the Company s repurchases of common shares during the six months ended June 30, 2015:

	Number of	Average Price Paid per	P	rogram Balance Used	
Period	Shares	Share	fe	or Repurchases	
January 1 June 30, 2015	275 \$	13	.77 \$	-	3,783

To enhance the Company s ability to repurchase shares, the Company established a trading plan pursuant to Rule 10b5-1 under the Securities Exchange Act of 1934 (the Exchange Act). A plan under Rule 10b5-1 allows the Company to repurchase its shares at times when it otherwise might be prevented from doing so in compliance with insider trading laws or because of a self-imposed trading blackout period. Repurchases are subject to Securities and Exchange Commission (SEC) regulations as well as certain price, market volume and timing constraints specified in the trading plan.

Share-Based Compensation

During the year ended December 31, 2012, the Company s shareholders adopted and approved the Nature s Sunshine Products, Inc. 2012 Stock Incentive Plan (the 2012 Incentive Plan). The 2012 Incentive Plan provides for the grant of incentive stock options, non-statutory stock options, stock appreciation rights, restricted stock, restricted stock units, dividend equivalent rights, performance awards, stock awards and other stock-based awards. The Compensation Committee of the Board of Directors has authority and discretion to determine the type of award as well as the amount, terms and conditions of each award under the 2012 Incentive Plan, subject to the limitations of the 2012 Incentive Plan. A total of 1,500 shares of the Company s common stock were originally authorized for the granting of awards under the 2012 Incentive Plan. During the period ended June 30, 2015, the Company s shareholders approved an amendment to the 2012 Incentive Plan, to increase the number of shares of Common Stock reserved for issuance by 1,500 shares. The number of shares available for awards, as well as the terms of outstanding awards, are subject to adjustment as provided in the 2012 Incentive Plan for stock splits, stock dividends, recapitalizations and other similar events.

The Company also maintains a stock incentive plan, which was approved by shareholders in 2009 (the 2009 Incentive Plan). The 2009 Incentive Plan also provided for the grant of incentive stock options, non-statutory stock options, stock appreciation rights, restricted stock, restricted stock units, dividend equivalent rights, performance awards, stock awards and other stock-based awards. Under the 2012 Incentive Plan, any shares subject to award, or awards forfeited or reacquired by the Company issued under the 2009 Incentive Plan are available for award up to a maximum of 400 shares.

Stock Options

The Company s outstanding stock options include time-based stock options, which vest over differing periods ranging from the date of issuance up to 48 months from the option grant date; performance-based stock options, which have already vested upon achieving operating income margins of six, eight and ten percent as reported in four of five consecutive quarters over the term of the options; performance-based stock options, which vest upon achieving cumulative annual net sales revenue growth targets over a rolling two-year period, subject to the Company maintaining at least an eight percent operating income margin during the applicable period; and performance-based stock options, which vest upon achieving annual net sales targets over a rolling one-year period.

Stock option activity for the six-month period ended June 30, 2015, is as follows:

	Number of Shares	Weighted Average Exercise Price Per Share
Options outstanding at December 31, 2014	2,037 \$	11.69
Granted	310	14.27
Forfeited or cancelled	(183)	14.71
Exercised	(373)	9.58
Options outstanding at June 30, 2015	1,791	12.27

Table of Contents

During the six-month period ended June 30, 2015, the Company issued time-based stock options to purchase 310 shares of common stock under the 2012 Stock Incentive Plan to the Company s Board of Directors and executive officers. These options were issued with a weighted-average exercise price of \$14.27 per share and a weighted-average grant date fair value of \$4.92 per share. All of the options issued have an option termination date of ten years from the option grant date.

The fair value of each option grant was estimated on the date of the grant using the Black-Scholes option-pricing model with the following weighted average assumptions for the six-month period ended June 30, 2015:

	2015
Expected life (in years)	5.0 to 6.0
Risk-free interest rate	1.5
Expected volatility	46.3 to 52.3
Dividend yield	2.8

Expected option lives and volatilities are based on historical data of the Company. The risk-free interest rate is calculated as the average U.S. Treasury bill rate that corresponds with the option life. The dividend yield is based on the Company s historical and expected amount of dividend payouts, at the time of grant. On August 29, 2013, and September 19, 2014, the Company paid special non-recurring cash dividends of \$1.50 per common share. The Company has excluded these special non-recurring cash dividends from the dividend yield used in the Black-Scholes option-pricing model calculations as it is not representative of future dividends to be declared by the Company.

Share-based compensation expense from time-based stock options for the three-month periods ended June 30, 2015, and 2014, was approximately \$160 and \$719, respectively; the related tax benefit was approximately \$63 and \$284, respectively. Share-based compensation expense from time-based stock options for the six-month periods ended June 30, 2015, and 2014, was approximately \$740 and \$1,616, respectively; the related tax benefit was approximately \$292 and \$638, respectively. As of June 30, 2015, and December 31, 2014, the unrecognized share-based compensation expense related to the grants described above was \$1,875 and \$2,018, respectively. As of June 30, 2015, the remaining compensation cost is expected to be recognized over the weighted-average period of approximately 1.7 years.

The Company has not recognized any share-based compensation expense related to the net sales revenue performance-based stock options for the six-month periods ended June 30, 2015 and 2014. Should the Company attain all of the net sales revenue metrics related to the net sales revenue performance-based stock option grants, the Company would recognize up to \$757 of potential share-based compensation expense.

At June 30, 2015, the aggregate intrinsic value of outstanding stock options to purchase 1,791 shares of common stock, exercisable stock options to purchase 993 shares of common stock and stock options to purchase 655 shares of common stock that are expected to vest was \$3,238, \$2,669 and \$541, respectively. At December 31, 2014, the aggregate intrinsic value of outstanding options to purchase 2,037 shares of common stock, the exercisable options to purchase 1,069 shares of common stock, and options to purchase 794 shares of common stock expected to vest was \$6,801, \$4,928 and \$1,779, respectively.

Restricted Stock Units

The Company s outstanding restricted stock units (RSUs) include time-based RSUs, which vest over differing periods ranging from 12 months up to 48 months from the RSU grant date; performance-based RSUs, which vest upon achieving both cumulative annual net sales growth targets over a rolling one-year period and RSUs which vest upon achieving operating income and earnings per share targets over a rolling one-year period. RSUs given to the Board of Directors contain a restriction period in which the shares are not issued until two years after vesting. At June 30, 2015, and December 31, 2014, there were 43 and 32 vested RSUs given to the Board of Directors outstanding that had a remaining restriction period.

Restricted stock unit activity for the period ended June 30, 2015 is as follows:

	Number of Shares	Weighted Average Grant Date Fair Value
Units outstanding at December 31, 2014	180 \$	15.09
Granted	593	12.76
Issued	(30)	13.63
Forfeited or cancelled	(75)	12.89
Units outstanding at June 30, 2015	668	12.59

Table of Contents

During the six-month period ended June 30, 2015, the Company granted 593 restricted stock units (RSUs) of common stock under the 2012 Incentive Plan to the Company s board, executive officers and other employees, which are composed of both time-based RSUs and net sales and operating income and earnings per share performance-based RSUs. The time-based RSUs were issued with a weighted-average grant date fair value of \$13.28 per share and vest in annual installments over a three year period from the grant date. The net sales and operating income and earnings per share performance-based RSUs were issued with a weighted-average grant date fair value of \$12.13 per share and vest upon achieving both (i) net sales and operating income targets over a three year period from the grant date and (ii) earnings per share targets over a six year period from the grant date.

RSUs are valued at the market value on the date of grant, which is the grant date share price discounted for expected dividend payments during the vesting period. For RSUs with post-vesting restrictions, a Finnerty Model was utilized to calculate a valuation discount from the market value of common shares reflecting the restriction embedded in the RSUs preventing the sale of the underlying shares over a certain period of time. The Finnerty Model proposes to estimate a discount for lack of marketability such as transfer restrictions by using an option pricing theory. This model has gained recognition through its ability to address the magnitude of the discount by considering the volatility of a company s stock price and the length of restriction. The concept underpinning the Finnerty Model is that restricted stock cannot be sold over a certain period of time. Using assumptions previously determined for the application of the option pricing model at the valuation date, the Finnerty Model discount for lack of marketability is approximately 17.5 percent for a common share.

Share-based compensation expense from RSUs for the six-month periods ended June 30, 2015, and 2014, was approximately \$583 and \$269, respectively; the related tax benefit was approximately \$230 and \$106, respectively. Share-based compensation expense from RSUs for the six-month periods ended June 30, 2015, and 2014, was approximately \$1,339 and \$466, respectively; the related tax benefit was approximately \$529 and \$184, respectively. As of June 30, 2015, and December 31, 2014, the unrecognized share-based compensation expense related to the grants described above was \$3,109 and \$849, respectively. As of June 30, 2015, the remaining compensation expense is expected to be recognized over the weighted average period of approximately 1.9 years.

The Company has not recognized any share-based compensation expense related to the net sales revenue and EPS performance-based RSUs for the six-month periods ended June 30, 2015 and 2014. Should the Company attain all of the net sales revenue metrics related to the net sales revenue performance-based stock option grants, the Company would recognize up to \$3,600 of potential share-based compensation expense.

The number of shares issued upon vesting or exercise for restricted stock units granted, pursuant to our share-based compensation plans, is net of shares withheld to cover the minimum statutory withholding requirements that the Company pays on behalf of its employees, which was eight shares for the six-month period ended June 30, 2015. Although shares withheld are not issued, they are treated as common share repurchases for accounting purposes, as they reduce the number of shares that would have been issued upon vesting. These shares do not count against the authorized capacity under the repurchase program described above.

Stock Appreciation Rights

The Company s outstanding stock appreciation rights (SARs) are time-based SARs, which vest over differing periods ranging from 12 months up to 48 months from the SAR grant date. The SARs have a strike price equal to the fair market value of one share of common stock on the grant date. Subsequent to vesting, the employee has the option to exercise the SAR and will receive the intrinsic value of the SAR as income on the exercise date. SARs do not entitle a participant to receive or purchase shares and are settled in cash. SARs will not reduce the number of shares of common stock available for issuance under the Company s Stock Incentive Plans.

Stock appreciation right activity for the period ended June 30, 2015 is as follows:

	Number of Shares	Weighted Averag Grant Date Fair Value	ge
Units outstanding at December 31, 2014	30	\$	5.47
Granted			
Forfeited or cancelled	(10)		5.86
Exercised			
Units outstanding at June 30, 2015	20		5.27

Expected SAR lives and volatilities are based on historical data of the Company. The risk-free interest rate is calculated as the average U.S. Treasury bill rate that corresponds with the option life. The dividend yield is based on the Company s historical and expected amount of dividend payouts, at the time of grant. On August 29, 2013, and September 19, 2014, the Company paid special non-recurring cash dividends of \$1.50 per common share. The Company has excluded these special non-recurring cash dividends from the dividend yield used in the Black-Scholes SAR-pricing model calculations as it is not representative of future dividends to be declared by the Company.

Table of Contents

Share-based compensation expense from SARs for the three-month period ended June 30, 2015, was approximately \$3; and the related tax benefit was approximately \$2. Share-based compensation expense from SARs for the six-month period ended June 30, 2015, was approximately \$6 and the related tax benefit was approximately \$3. As of June 30, 2015, and December 31, 2014, the unrecognized share-based compensation expense related to the grants described above was \$67 and \$150, respectively. As of June 30, 2015, the remaining compensation expense is expected to be recognized over the weighted average period of approximately 2.1 years.

(10) Segment Information

The Company has four business segments. These business segments are components of the Company for which separate information is available that is evaluated regularly by the chief executive officer in deciding how to allocate resources and in assessing relative performance.

The Company has two business segments that operate under the Nature s Sunshine® Products brand and are divided based on the characteristics of their Distributor base, similarities in compensation plans, as well as the internal organization of NSP s officers and their responsibilities (NSP Americas and NSP Russia, Central and Eastern Europe). The Company s third business segment operates under the Synergy® WorldWide brand, which distributes its products through different selling and Distributor compensation plans and has products with formulations that are sufficiently different from those of NSP Americas and NSP Russia, Central and Eastern Europe to warrant accounting for these operations as a separate business segment. The Company s fourth business segment, China and New Markets is deploying a multi-brand, multi-channel go-to-market strategy that offers select Nature s Sunshine branded products through retail locations across China as well as ecommerce, and select Synergy branded products through a direct selling model. The time to market will be dependent upon regulatory processes including product registration and permit approvals. The China and New Markets segment also includes the Company s export sales business, in which the Company sells its products to various locally managed entities independent of the Company that have distribution rights for the relevant market. All of the net sales revenue to date in the China and New Markets segment is through the Company s export business to foreign markets outside of China set forth above that were previously part of NSP Americas. Net sales revenues for each segment have been reduced by intercompany sales as they are not included in the measure of segment profit or loss reviewed by the chief executive officer. The Company evaluates performance based on contribution margin (loss) by segment before consideration of certain inter-segment transfers and expenses.

In the fourth quarter of 2014, the Company created the China and New Markets segment. The Company moved the reporting of its export business, in which the Company sells our products to a locally managed entity independent of the Company that has distribution rights for the market, from the NSP Americas segment to the China and New Markets segment during the year ended December 31, 2014, as well as the results of its NSP Peru & United Kingdom markets, which were converted to export markets during the prior year.

Reportable business segment information is as follows:

	Three Months Ended June 30,				Six Months Ended June 30,		
	2015		2014	20	15		2014
Net sales revenue:

Table of Contents

From an individual country perspective, only the United States comprised 10 percent or more of consolidated property, plant and equipment as follows:

	June 30, 2015	December 31, 2014		
Property, plant and equipment:				
United States	\$ 59,505	\$	48,013	
Other	2,744		3,330	
Total property, plant and equipment	\$ 62,249	\$	51,343	

(11) Income Taxes

For the three months ended June 30, 2015 and 2014, the Company s provision for income taxes, as a percentage of income before income taxes, was 24.7 percent and 38.2 percent, respectively, compared with a U.S. federal statutory rate of 35.0 percent. For the six months ended June 30, 2015 and 2014, the Company s provision (benefit) for income taxes, as a percentage of income before income taxes was 19.5 percent and (11.8) percent, respectively, compared with a U.S. federal statutory rate of 35.0 percent.

The difference between the effective tax rate and the U.S. federal statutory tax rate for the three and six months ended June 30, 2015, was primarily attributed to adjustments to the valuation allowances on U.S. foreign tax credits and on U.S. capital loss carryforwards, offset by the impact of current year losses that will not provide tax benefit.

The difference between the effective tax rate and the U.S. federal statutory tax rate for the three months ended June 30, 2014, was primarily attributed to state taxes and an increase in tax liabilities associated with uncertain tax positions, offset by a favorable domestic manufacturing deduction and net favorable foreign items related to tax rate differences and adjustments to foreign valuation allowances.

The difference between the effective tax rate and the U.S. federal statutory tax rate for the six months ended June 30, 2014, was primarily attributed to foreign tax credits arising from intercompany dividends of \$21,500 paid by foreign subsidiaries to the U.S. corporation. This discrete item resulted in an income tax benefit of \$6,720 for the six months ended June 30, 2014.

Changes to the effective rate due to dividends received from foreign subsidiaries and the impact of foreign tax credits are expected to be recurring. Depending on various factors, changes from the foregoing items may be favorable or unfavorable in a particular period.

The Company s U.S. federal income tax returns for 2009 through 2013 are open to examination for federal tax purposes. The Company has several foreign tax jurisdictions that have open tax years from 2008 through 2014.

As of June 30, 2015, the Company had accrued \$7,058 related to unrecognized tax positions compared with \$6,598 as of December 31, 2014. This net increase was primarily attributed to increases in transfer pricing contingencies.

Interim income taxes are based on an estimated annualized effective tax rate applied to the respective quarterly periods, adjusted for discrete tax items in the period in which they occur. Although the Company believes its tax estimates are reasonable, the Company can make no assurance that the final tax outcome of these matters will not be different from that which it has reflected in its historical income tax provisions and accruals. Such differences could have a material impact on the Company s income tax provision and operating results in the period in which the Company makes such determination.

(12) Commitments and Contingencies

Legal Proceedings

The Company is party to various legal proceedings. Management cannot predict the ultimate outcome of these proceedings, individually or in the aggregate, or their resulting effect on the Company s business, financial position, results of operations or cash flows as litigation and related matters are subject to inherent uncertainties, and unfavorable rulings could occur. Were an unfavorable outcome to occur, there exists the possibility of a material adverse impact on the business, financial position, results of operations, or cash flows for the period in which the ruling occurs and/or future periods. The Company maintains product liability, general liability and excess liability insurance coverage. However, no assurances can be given that such insurance will continue to be available at an acceptable cost to the Company, that such coverage will be sufficient to cover one or more large claims, or that the insurers will not successfully disclaim coverage as to a pending or future claim.

Table of Contents

Non-Income Tax Contingencies

The Company has reserved for certain state sales and use tax and foreign non-income tax contingencies based on the likelihood of an obligation in accordance with accounting guidance for probable loss contingencies. Loss contingency provisions are recorded for probable losses at management s best estimate of a loss, or when a best estimate cannot be made, a minimum loss contingency amount is recorded. The Company provides provisions for potential payments of tax to various tax authorities for contingencies related to non-income tax matters, including value-added taxes and sales tax. The Company provides provisions for U.S. state sales taxes in each of the states where the Company has nexus. As of June 30, 2015, and December 31, 2014, accrued liabilities include \$2,009 and \$2,760, respectively, related to non-income tax contingencies. While management believes that the assumptions and estimates used to determine this liability are reasonable, the ultimate outcome of those matters cannot presently be determined. The Company is not able at this time to predict the ultimate outcomes of those matters or to estimate the effect of the ultimate outcomes, if greater than the amounts accrued, would have on the financial condition, results of operations or cash flows of the Company.

Other Litigation

The Company is party to various other legal proceedings in several foreign jurisdictions related to value-added tax assessments and other civil litigation. While there is a reasonable possibility that a loss may be incurred, either the losses are not considered to be probable or the Company cannot at this time estimate the loss, if any; therefore, no provision for losses has been provided. The Company believes future payments related to these matters could range from \$0 to approximately \$500.

(13) Fair Value Measurements

The fair value of a financial instrument is the amount that could be received upon the sale of an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Financial assets are marked to bid prices and financial liabilities are marked to offer prices. Fair value measurements do not include transaction costs. A fair value hierarchy is used to prioritize the quality and reliability of the information used to determine fair values of each financial instrument. Categorization within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement. The fair value hierarchy is defined into the following three categories:

Level 1: Quoted market prices in active markets for identical assets or liabilities.

Level 2: Observable market based inputs or unobservable inputs that are corroborated by market data.

Level 3: Unobservable inputs that are not corroborated by market data.

The following table presents the Company s hierarchy for its assets, measured at fair value on a recurring basis, as of June 30, 2015:

	i M	Level 1 toted Prices in Active larkets for ntical Assets	Level 2 Significant Other Observable Inputs	Level 3 Significant Unobservable Inputs	Total
Investments available-for-sale					
U.S. government security funds	\$	1,781	\$	\$	\$ 1,781
Trading investment securities		1,131			1,131
Total assets measured at fair value on a recurring					
basis	\$	2,912	\$	\$	\$ 2,912
		19			

Table of Contents

The following table presents the Company s hierarchy for its assets, measured at fair value on a recurring basis, as of December 31, 2014:

	Level Quoted P in Acti Markets Identical A	rices ve for	Level 2 Significant Other Observable Inputs		1	Level 3 Significant Unobservable Inputs	Total
Investments available-for-sale							
Municipal obligations	\$		\$	101	\$		\$ 101
U.S. government security funds		1,776					1,776
Equity securities		669					669
Trading investment securities		1,038					1,038
Total assets measured at fair value on a recurring							
basis	\$	3,483	\$	101	\$		\$ 3,584

Investments available-for-sale The majority of the Company's investment portfolio consist of various securities such as state and municipal obligations, U.S. government security funds, short-term deposits and various equity securities. The Level 1 securities are valued using quoted prices for identical assets in active markets including equity securities and U.S. government treasuries. The Level 2 securities include investments in state and municipal obligations whereby all significant inputs are observable or can be derived from or corroborated by observable market data for substantially the full term of the asset.

Trading investment securities The majority of the Company s trading portfolio consists of various marketable securities that are valued using quoted prices in active markets.

For the six months ended June 30, 2015, and for the year ended December 31, 2014, there were no fair value measurements using the significant unobservable inputs (Level 3).

The carrying amounts reflected on the consolidated balance sheet for cash and cash equivalents, accounts receivable, accounts payable and the revolving credit facility payable approximate fair value due to their short-term nature. During the six months ended June 30, 2015 and 2014, the Company did not have any re-measurements of non-financial assets at fair value on a nonrecurring basis subsequent to their initial recognition.

Table of Contents

Item 2. MANAGEMENT S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following Management s Discussion and Analysis should be read in conjunction with the unaudited consolidated financial statements and notes thereto included in this report, as well as the consolidated financial statements, the notes thereto, and management s discussion and analysis included in our Annual Report on Form 10-K for the year ended December 31, 2014, and our Reports on Form 8-K filed since the date of such Form 10-K. Certain information contained in Management s Discussion and Analysis of Financial Condition and Results of Operations are forward-looking statements . These statements are based on management s expectations and assumptions and are subject to risks and uncertainties that may cause actual results to differ materially from those expressed. Our actual results, performance or achievements may differ materially from the results discussed in this Item 2 because of various factors, including those set forth elsewhere herein. See Cautionary Note Regarding Forward-Looking Statements .

Throughout this report, we refer to Nature s Sunshine Products, Inc., together with its subsidiaries, as we, us, our, Company or the Company

OVERVIEW

Nature s Sunshine Products, Inc., together with its subsidiaries, is a natural health and wellness company primarily engaged in the manufacturing and direct selling of nutritional and personal care products. The Company is a Utah corporation with its principal place of business in Lehi, Utah, and sells its products to a sales force of independent Managers and Distributors who use the products themselves or resell them to other independent Distributors or customers. The formulation, manufacturing, packaging, labeling, advertising, distribution and sale of each of our major product groups are subject to regulation by one or more governmental agencies.

The Company has four business segments that are divided based on the different characteristics of their Distributor bases, selling and Distributor compensation plans and product formulations, as well as the internal organization of our officers and their responsibilities and business operations. Two business segments operate under the Nature s Sunshine Products brand (NSP Americas and NSP Russia, Central and Eastern Europe), and one operates under the Synergy WorldWide brand. The Company s fourth business segment, China and New Markets, is deploying a multi-brand, multi-channel go-to-market strategy that offers select Nature s Sunshine branded products through retail locations across China as well as ecommerce, and select Synergy branded products through a direct selling model. The time to market will be dependent upon regulatory processes including product registration and permit approvals. The China and New Markets segment also includes the Company s export sales business, in which the Company sells its products to various locally managed entities independent of the Company that have distribution rights for the relevant market. All of the net sales revenue to date in the China and New Markets segment is through the Company s export business to foreign markets outside of China detailed below. The export business was previously part of NSP Americas.

We market our products in Australia, Austria, Belarus, Canada, Colombia, Costa Rica, the Czech Republic, Denmark, the Dominican Republic, Ecuador, El Salvador, Finland, Germany, Guatemala, Honduras, Hong Kong, Iceland, Indonesia, Ireland, Italy, Japan, Kazakhstan, Latvia, Lithuania, Malaysia, Mexico, Moldova, Mongolia, the Netherlands, New Zealand, Nicaragua, Norway, Panama, the Philippines, Poland, Russia, Singapore, Slovenia, South Korea, Spain, Sweden, Taiwan, Thailand, Ukraine, the United Kingdom, and the United States. We export our products to Argentina, Australia, Chile, Israel, New Zealand, Norway, Peru and the United Kingdom. The Company discontinued operations in Vietnam, which were approximately 0.2 percent and 0.4 percent of consolidated net sales during the six month periods ended June 30, 2015 and 2014, respectively.

In the second quarter of 2015, we experienced a decrease in our consolidated net sales of 12.5 percent (or 7.7 percent in local currencies) compared to the same period in 2014. NSP Russia, Central and Eastern Europe net sales decreased approximately 46.9 percent compared to the same period in 2014. Synergy WorldWide net sales decreased approximately 12.3 percent compared to the same period in 2014 (or 2.4 percent in local currencies). NSP Americas net sales decreased approximately 2.7 percent compared to the same period in 2014 (or 0.3 percent in local currencies). China and New Markets net sales decreased approximately 24.7 percent compared to the same period in 2014. The markets that experienced net sales growth in local currencies were primarily from our Synergy Europe, Synergy Indonesia and Synergy Japan markets in our Synergy WorldWide segment and NSP North America in our NSP Americas segment during the second quarter of 2015. Excluding the NSP Russia, Central and Eastern Europe segment, net sales would have decreased by approximately 7.0% percent (or 1.5 percent in local currencies). In addition to the declines in NSP Russia, Central and Eastern Europe, the strengthening of the U.S. dollar versus the currencies of our European, Latin American and Asian markets (beginning late last year) has resulted in an approximate 4.8 percent or \$4.5 million reduction of our net sales this quarter.

The Company expects that sales in NSP Russia, Central and Eastern Europe will continue to be affected by political unrest in Ukraine and Russia, sanctions against Russia and the significant impact of currency devaluation. We do not expect this decline in net sales to reverse in the near term as currency devaluations have continued into 2015. We remain strongly supportive and engaged with our independent Distributors in the region, and are supporting their activity with additional promotions and training. However, at this

Table of Contents

time, the Company expects that sales in its NSP Russia, Central and Eastern Europe segment will be significantly affected by the political unrest in Ukraine and Russia, sanctions in Russia and the impact of currency devaluation. We are continuing to evaluate various options to keep our distributor base engaged. Nevertheless, our strong partnership with our local partner in the region should provide a solid foundation to reignite growth once the situation stabilizes.

Over the same period, selling, general and administrative costs as a percentage of net sales revenue for 2015, increased to 33.7 percent from 32.3 percent in 2014 as a result of the decrease in net sales from our NSP Russia, Central & Eastern Europe, the impact of foreign currency devaluation versus the U.S. dollar in our other markets, and previously announced restructuring charges of approximately \$2.1 million taken during the quarter as part of a plan to streamline operations as discussed below. In absolute terms, selling, general and administrative expenses decreased \$2.5 million.

We distribute our products to consumers through an independent sales force comprised of Managers and Distributors, some of whom also consume our products. Typically a person who joins our independent sales force begins as a Distributor. A Distributor may earn Manager status by committing more time and effort to selling our products, recruiting productive independent Distributors and attaining certain product sales levels. On a worldwide basis, active Managers were approximately 13,400 and 15,200, and active Distributors and customers were approximately 262,300 and 300,900, at June 30, 2015 and 2014, respectively, primarily due to declines in our NSP Russia, Central and Eastern Europe segment as a result of the conditions noted above, as well as the conversion of the NSP Peru and United Kingdom markets to export markets.

Net sales revenue represents net sales including shipping and handling revenues offset by volume rebates given to independent Managers, Distributors and customers. Volume rebates as a percentage of retail sales may vary by country depending upon regulatory restrictions that limit or otherwise restrict rebates. We also offer reduced volume rebates with respect to certain products and promotions worldwide.

Our gross profit consists of net sales less cost of sales, which represents our manufacturing costs, the price we pay to our raw material suppliers and manufacturers of our products, and duties and tariffs, as well as shipping and handling costs related to product shipments and distribution to our independent Managers, Distributors and customers.

Volume incentives are a significant part of our direct sales marketing program, and represent commission payments made to our independent Managers and Distributors. These payments are designed to provide incentives for reaching higher sales levels and for recruiting additional independent Distributors. Volume incentives vary slightly, on a percentage basis, by product due to our pricing policies and commission plans in place in our various operations.

Selling, general and administrative expenses represent our operating expenses, components of which include labor and benefits, sales events, professional fees, travel and entertainment, Distributor marketing, occupancy costs, communication costs, bank fees, depreciation and amortization, and other miscellaneous operating expenses.

In April 2015, the Company announced its plan to streamline its operations and refocus its activities on profitable growth opportunities. The planned streamlining is expected to reduce costs, improve efficiencies and renew focus on larger and more profitable Company markets. As part

of the plan, the Company ceased operations in Vietnam and eliminated approximately 100 positions worldwide through both severance and attrition. The Company incurred \$2.1 million of non-recurring expenses during the quarter and expects to incur up to an additional \$0.5 million of non-recurring expenses in the subsequent quarters. As a result of this action, the Company expects to realize annualized savings of approximately \$10 million to \$15 million from lower operating and employment costs. Net sales in Vietnam were approximately 0.2 and 0.4 percent of consolidated net sales for the six months ended June 30, 2015 and 2014, respectively.

Most of our sales to independent Distributors outside the United States are made in the respective local currencies. In preparing our financial statements, we translate revenues into U.S. dollars using average exchange rates. Additionally, the majority of our purchases from our suppliers generally are made in U.S. dollars. Consequently, a strengthening of the U.S. dollar versus a foreign currency can have a negative impact on our reported sales and contribution margins and can generate transaction losses on intercompany transactions.

Table of Contents

RESULTS OF OPERATIONS

The following table summarizes our unaudited consolidated operating results from continuing operations in U.S. dollars and as a percentage of net sales revenue for the three months ended June 30, 2015 and 2014 (dollar amounts in thousands).

	Three Months June 30, 2		Three Month June 30,		Change

Net Sales Revenue

Our international operations have provided and are expected to continue to provide, a significant portion of our total net sales. As a result, total net sales will continue to be affected by fluctuations in the U.S. dollar against foreign currencies. In order to provide a framework for assessing how our underlying businesses performed excluding the effect of foreign currency fluctuations, in addition to comparing the percent change in net sales from one period to another in U.S. dollars, we compare the percentage change in net sales from one period to another period by excluding the effects of foreign currency exchange as shown below. Net sales excluding the impact of foreign exchange fluctuations is not a U.S. GAAP financial measure. Net sales in local currency removes from net sales in U.S. dollars the impact of changes in exchange rates between the U.S. dollar and the functional currencies of our foreign subsidiaries, by translating the current period net sales into U.S. dollars using the same foreign currency exchange rates that were used to translate the net sales for the previous comparable period. We believe presenting the impact of foreign currency fluctuations is useful to investors because it allows a more meaningful comparison of net sales of our foreign operations from period to period. However, net sales excluding the impact of foreign currency fluctuations should not be considered in isolation or as an alternative to net sales in U.S. dollar measures that reflect current period exchange rates, or to other financial measures calculated and presented in accordance

Table of Contents

with U.S. GAAP. Throughout the last five years, foreign currency exchange rates have fluctuated significantly. See Item 3. *Quantitative and Qualitative Disclosures about Market Risk*.

The following table summarizes the changes in our net sales revenue by operating segment with a reconciliation to net sales revenue excluding the impact of currency fluctuations for the three months ended June 30, 2015 and 2014 (dollar amounts in thousands);

	Net Sales Revenue by Operating Segment								
	Three Months Ended June 30, 2015		Three Months Ended June 30, 2014		Percent Change	Impact of Currency Exchange		Percent Change Excluding Impact of Currency

	\$ 165,125	\$ 186,298	(11.4)%	\$ (7,813)	(7.2)%

Consolidated net sales revenue for the three and six months ended June 30, 2015, was \$81.2 million and \$165.1 million, respectively, compared to \$92.8 million and \$186.3 million for the same periods in 2014, or a decrease of approximately 12.5 and 11.4 percent, respectively. The decline was principally related to a \$6.0 million and \$13.6 million decline in net sales revenue in our NSP

Table of Contents

Russia, Central and Eastern Europe segment for the three and six months ended June 30, 2015, as well as a \$4.5 million and \$7.8 million unfavorable impact in foreign currency exchange rate fluctuations during the same periods. Excluding the unfavorable impact of foreign currency exchange rate fluctuations, our consolidated net sales revenue would have decreased by 7.7 percent and 7.2 percent from 2014 for the three and six month periods ended June 30, 2015.

NSP Americas

Net sales revenue related to NSP Americas for the three and six months ended June 30, 2015, was \$45.1 million and \$91.6 million, respectively, compared to \$46.3 million and \$92.7 million for the same periods in 2014, or a decrease of 2.7 and 1.2 percent, respectively. In local currency, net sales decreased 0.3 percent and increased 1.1 percent, compared to the same three and six month periods in 2014. Fluctuations in foreign exchange rates had a \$1.1 million and \$2.1 million unfavorable impact on net sales for the three and six months ended June 30, 2015. Active Managers within NSP Americas totaled approximately 7,200 and 7,300 at June 30, 2015 and 2014, respectively. Active Distributors and customers within NSP Americas totaled approximately 135,600 and 141,100 at June 30, 2015 and 2014, respectively. The number of independent Managers, Distributors and customers decreased primarily due to lower recruiting in our Latin American markets. Independent Managers were down 1.4 percent, and active independent Distributors and customers were down 3.9 percent, compared to the prior year. The active independent Managers category includes independent Managers under our various compensation plans that have achieved and maintained certain product sales levels. As such, all independent Managers are considered to be active independent Managers. The active independent Distributors and customers category includes our independent Distributors and customers who have purchased products directly from the Company for resale and/or personal consumption during the previous six months.

Notable activity in the following markets contributed to the results of NSP Americas:

In the United States, net sales revenues increased approximately \$0.2 million and \$1.7 million, or 0.6 percent and 2.6 percent, for the three and six months ended June 30, 2015, respectively, compared to the same period in 2014. Growth this quarter marked our fourth consecutive quarter of growth, as we continued to see our new sales programs gain traction. We have seen increased adoption of both the IN.FORM sales method, which is focused on weight management, and our retail sales tools. In addition, this year we launched two new patent pending products and relaunched an updated essential oils line in support of this key market.

In Latin America, net sales revenues decreased approximately \$1.2 million and \$2.4 million, or 13.1 percent and 12.5 percent, for the three and six months ended June 30, 2015, respectively, compared to the same periods in 2014. In local currency, net sales decreased 5.0 percent and 5.2 percent, compared to the same periods in 2014. Currency devaluation had a \$0.8 million and \$1.4 million unfavorable impact on net sales for the three and six months ended June 30, 2015. In NSP Latin America, we faced continued headwinds due to changing regulations for product registration. To address this, we are taking steps to transition our markets to adopt the IN.FORM sales method, and at the same time, ensuring that our resources are aligned with this initiative.

Net sales revenue related to NSP Russia, Central and Eastern Europe markets (primarily Russia, the Ukraine, and Belarus) for the three and six months ended June 30, 2015, was \$6.8 million and \$14.3 million, respectively, compared to \$12.8 million and \$27.9 million for the same periods in 2014, or decreases of 46.9 percent and 48.9 percent. Active independent Managers within NSP Russia, Central and Eastern Europe totaled approximately 2,900 and 4,600 at June 30, 2015 and 2014, respectively. Active independent Distributors and customers within NSP Russia, Central and Eastern Europe totaled approximately 72,000 and 105,900 at June 30, 2015 and 2014, respectively. Net sales and the number of independent Managers, Distributors and customers buying and distributing our products decreased primarily as a result of the current political uncertainty in Ukraine and across the region, and the market decline in the value of the Ukrainian hryvnia and Russian ruble against the U.S. dollar. Although changes in exchange rates between the U.S. dollar and Ukrainian hryvnia do not result in currency fluctuations within our financial statements, the Company s products in Ukraine and Russia are priced in local currencies pegged to current U.S. dollar exchange rates and therefore become more expensive when the local currency declines in value. We remain strongly supportive and engaged with our independent Distributors in the region, and are supporting their activity with additional promotions and training. However, at this time, the Company expects that sales in its NSP Russia, Central and Eastern Europe segment will continue to be significantly affected by the political unrest in Ukraine and Russia, sanctions in Russia and the impact of currency devaluation. We are continuing to evaluate various options to keep our distributor base engaged. Our strong partnership with our local partner should provide a solid foundation to reignite growth once the situation stabilizes.

Synergy WorldWide

Synergy WorldWide reported net sales revenue for the three and six months ended June 30, 2015, of \$28.5 million and \$57.2 million, respectively, compared to \$32.5 million and \$62.5 million for the same periods in 2014, or decreases of 12.3 percent and 8.4 percent. Fluctuations in foreign exchange rates had \$3.2 million and \$5.5 million unfavorable impacts on net sales for the three and six months ended June 30, 2015, respectively. Excluding the impact of fluctuations in foreign exchange rates, local currency net sales in

Table of Contents

Synergy WorldWide would have decreased by 2.4 percent and increased by 0.3 percent from the same periods in 2014. Active independent Managers within Synergy WorldWide totaled approximately 3,300 at both June 30, 2015 and 2014, respectively. Active independent Distributors and customers within Synergy WorldWide totaled approximately 54,700 and 53,900 at June 30, 2015 and 2014, respectively. Synergy WorldWide s business model is operating under a traditional direct selling approach. Synergy WorldWide reported a decline in net sales revenue in local currencies due to lower year-over-year sales in Korea and continued declines in North America, offset by improvements in Europe, Indonesia and Japan for the three months ended June 30, 2015.

Notable activity in the following markets contributed to the results of Synergy WorldWide:

In South Korea, net sales revenue decreased \$2.3 million and \$2.6 million, or 15.8 percent and 9.6 percent, for the three and six months ended June 30, 2015, respectively, compared to the same periods in 2014. This decline was partially related to the adverse impact of fluctuations in foreign exchange rates, which had a \$0.8 and \$1.1 million unfavorable impact on net sales for the three and six months ended June 30, 2015. Excluding the impact of fluctuations in foreign exchange rates, local currency net sales decreased 10.5 and 5.3 percent for the three and six months ended June 30, 2015, respectively, compared to the same periods in 2014. The decline in local currency net sales was primarily due to new internet advertising restrictions on sites that were used successfully to promote net sales growth in 2014. To address this, we are taking steps to improve current programs and launch new programs to provide our distributors, affected by these internet advertising restrictions, additional tools to grow their business.

In Europe, net sales revenues decreased approximately \$1.1 million and \$1.9 million, or 14.1 percent and 12.2 percent, for the three and six months ended June 30, 2015, respectively, compared to the same periods in 2014. Fluctuations in foreign exchange rates, had \$1.6 million and \$3.0 million unfavorable impacts on net sales for the three and six months ended June 30, 2015, respectively. Excluding the impact of fluctuations in foreign exchange rates, local currency net sales increased 6.5 percent and 7.8 percent for the three and six months ended June 30, 2015, respectively, compared to the same periods in 2014. The growth in local currencies has been driven by the investment in additional sales resources last year, including several new regional sales managers, and the launch of our weight management product plan.

In Japan, net sales revenues decreased approximately \$0.3 million and \$0.1 million, or 9.6 percent and 2.3 percent, for the three and six months ended June 30, 2015, respectively, compared to the same periods in 2014. Fluctuations in foreign exchange rates had \$0.6 million and \$1.0 million unfavorable impacts on net sales for the three and six months ended June 30, 2015, respectively. Excluding the impact of fluctuations in foreign exchange rates, local currency net sales increased 30.0 percent and 20.0 percent for the three and six months ended June 30, 2015, respectively, compared to the same periods in 2014. We continue to see the growth of new products and implemented programs to stimulate activity, which have had a positive impact on sales volume in this market in the first quarter of 2015.

In North America, net sales revenues decreased approximately \$1.1 million and \$1.7 million, or 26.4 percent and 21.1 percent, for the three and six months ended June 30, 2015, respectively, compared to the same periods in 2014. These declines in sales are primarily driven by lower Distributor recruiting. Growth initiatives have been developed and implemented to more effectively support recruiting and Distributor training and motivation.

China and New Markets

China and New Markets reported export related net sales revenue for the three and six months ended June 30, 2015, of \$0.9 million and \$2.1 million, respectively, compared to \$1.2 million and \$3.2 million for the same periods in 2014, or decreases of 24.7 percent and 36.0 percent. The changes in net sales is primarily related to the conversion of NSP Peru and United Kingdom to export markets in the prior year.

Due to the size of NSP Peru and United Kingdom markets, lack of net sales growth, and continuing operating losses, we made the decision to transition these markets to export markets, in which we sell our products to a locally managed entity independent of the Company that has distribution rights for the market, effective December 30, 2014 and April 1, 2014, respectively.

With the discontinuance of our NSP Peru and United Kingdom markets in 2014, we no longer have any NSP affiliates in the Asia Pacific region.

Further information related to NSP Americas, NSP Russia, Central and Eastern Europe, Synergy WorldWide, and China and New Markets business segments is set forth in Note 10 to the Unaudited Condensed Consolidated Financial Statements in Part 1, Item 1 of this report.

Table of Contents
Cost of Sales
Cost of sales as a percent of net sales revenue increased to 25.9 percent and 26.0 percent for the three and six months ended June 30, 2015, respectively, compared to 24.6 percent and 24.4 percent for the same periods in 2014. The increases in the cost of sales percentages are primarily due to the strengthening of the U.S. dollar against the local currencies in many of our foreign markets, which has made our product more expensive in those markets, however, offset by a favorable change of approximately \$0.1 million as well as an unfavorable net change of approximately \$0.5 million in inventory reserves year-over-year for the three and six month periods ended June 30, 2015 as compared to 2014. The overall unfavorable change in inventory reserves for the six-month periods was due to a release of reserves in the prior year due to sales growth in many regions offset partially by increases in reserves for products in our NSP Russia, Central & Eastern Europe market this year.
Volume Incentives
Volume incentives as a percent of net sales revenue decreased to 36.4 percent and 36.3 percent for the three and six months ended June 30, 2015, respectively, compared to 36.9 percent and 37.1 percent from the same periods in 2014. The decreases were primarily due to market mix changes with a larger portion of our net sales coming from the U.S. which pays lower sales commission rates and declines in our NSP Russia, Central and Eastern Europe market, which pay higher sales commission rates then our global commission rate average.
Selling, General and Administrative
Selling, general and administrative expenses decreased by approximately \$2.5 million and \$5.4 million to \$27.4 million and \$53.7 million for the three and six months ended June 30, 2015 and 2014, respectively. Selling, general and administrative expenses were 33.7 percent and 32.5 percent of net sales revenue for the three and six months ended June 30, 2015, respectively, compared to 32.3 percent and 31.7 percent for the same periods in 2014.
The decreases in selling, general and administrative expenses for the three and six months periods ended June 30, 2015 were primarily related:
• \$1.8 million of prior year second quarter non-recurring professional fees related to pursuing a strategic alliance with Fosun Pharma & the evaluation and negotiation with a company with an alternative distribution channel, which we ultimately declined to pursue;
• \$1.1 million and \$2.2 million reduction of service costs due to lower net sales in Russia, Central and Eastern Europe for each period, respectively;
• \$0.8 million and \$1.8 million reduction U.S. healthcare and other benefit costs for each period, respectively;

\$0.8 million and \$1.7 million of favorable exchange rate changes due to the strengthening of the U.S dollar

relative to other foreign currencies for each period, respectively; and

domestic manufacturing deduction and net favorable foreign items related to tax rate differences and adjustments to foreign valuation allowances.

The difference between the effective tax rate and the U.S. federal statutory tax rate for the six months ended June 30, 2014, was primarily attributed to foreign tax credits arising from intercompany dividends of \$21.5 million paid by foreign subsidiaries to the U.S. corporation. This discrete item resulted in an income tax benefit of \$6.7 million for the six months ended June 30, 2014.

Changes to the effective rate due to dividends received from foreign subsidiaries and the impact of foreign tax credits are expected to be recurring. Depending on various factors, changes from the foregoing items may be favorable or unfavorable in a particular period.

The Company s U.S. federal income tax returns for 2009 through 2013, are open to examination for federal tax purposes. The Company has several foreign tax jurisdictions that have open tax years from 2008 through 2014.

As of June 30, 2015, the Company had accrued \$7.1 million related to unrecognized tax positions compared with \$6.6 million as of December 31, 2014. This net increase was primarily attributed to increases in transfer pricing contingencies.

Interim income taxes are based on an estimated annualized effective tax rate applied to the respective quarterly periods, adjusted for discrete tax items in the period in which they occur. Although the Company believes its tax estimates are reasonable, the Company can make no assurance that the final tax outcome of these matters will not be different from that which it has reflected in its historical income tax provisions and accruals. Such differences could have a material impact on the Company s income tax provision and operating results in the period in which the Company makes such determination.

Product Categories

Our line of over 700 products includes several different product classifications, such as immune, cardiovascular, digestive, personal care, weight management and other general health products. We purchase herbs and other raw materials in bulk and, after quality control testing, we formulate, encapsulate, tablet or concentrate them, label and package them for shipment. Most of our products are manufactured at our facility in Spanish Fork, Utah. Contract manufacturers produce some of our products in accordance with our specifications and standards. We have implemented stringent quality control procedures to verify that our contract manufacturers have complied with our specifications and standards.

Table of Contents

Presented below are the U.S. dollar amounts and associated revenue percentages from the sale of general health, immune, cardiovascular, digestive, personal care and weight management products for the three and six months ended June 30, 2015 and 2014, by business segment.

		Three mont	ed	
	2015		2014	
NSP Americas:				
General health	\$ 19,456	43.2%	\$ 20,453	44.2%
