NOTE 2—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(a) *Principles of Consolidation and Basis of Presentation*

The condensed consolidated financial statements include the accounts of B. Riley Financial, Inc. and its wholly-owned and majority-owned subsidiaries. The condensed consolidated financial statements also include the accounts of (a) Great American Global Partners, LLC which is controlled by the Company as a result of its ownership of a 50% member interest, appointment of two of the three executive officers and significant influence over the funding of operations, and (b) GA Retail Investments, L.P. which is controlled by the Company as a result of its ownership of a 50% partnership interest, appointment of executive officers and significant influence over the operations. The condensed consolidated financial statements have been prepared by the Company, without audit, pursuant to interim financial reporting guidelines and the rules and regulations of the Securities and Exchange Commission (“SEC”). Certain information and footnote disclosures normally included in annual financial statements prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”) have been condensed or omitted pursuant to such rules and regulations. In the opinion of the Company’s management, all adjustments, consisting of only normal and recurring adjustments, necessary for a fair presentation of the financial position and the results of operations for the periods presented have been included. These condensed consolidated financial statements and the accompanying notes should be read in conjunction with the audited consolidated financial statements and accompanying notes included in the Company’s Annual Report on Form 10-K for the year ended December 31, 2017, filed with the SEC on March 14, 2018. The results of operations for the six months ended June 30, 2018 are not necessarily indicative of the operating results to be expected for the full fiscal year or any future periods.

(b) *Use of Estimates*

The preparation of the condensed consolidated financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the condensed consolidated financial statements and reported amounts of revenue and expense during the reporting period. Estimates are used when accounting for certain items such as valuation of securities, reserves for accounts receivable and slow moving goods held for sale or auction, the carrying value of intangible assets and goodwill, the fair value of mandatorily redeemable noncontrolling interests, fair value of share-based arrangements, fair value of contingent consideration in business combinations and accounting for income tax valuation allowances. Estimates are based on historical experience, where applicable, and assumptions that management believes are reasonable under the circumstances. Due to the inherent uncertainty involved with estimates, actual results may differ.

(c)

Revenue Recognition

On January 1, 2018, we adopted Accounting Standards Codification (“ASC”) 606 – *Revenue from Contracts with Customers* using the modified retrospective method and the impact was determined to be immaterial on our consolidated financial statements. The new revenue standard was applied prospectively in our condensed consolidated financial statements from January 1, 2018 forward and reported financial information for historical comparable periods will not be revised and will continue to be reported under the accounting standards in effect during those historical periods.

Revenues are recognized when control of the promised goods or performance obligations for services is transferred to our customers, in an amount that reflects the consideration we expect to be entitled to in exchange for the goods or services.

Revenues from contracts with customers in the Capital Markets segment, Auction and Liquidation segment, Valuation and Appraisal segment, and Principal Investments – United Online segment are primarily comprised of the following:

Capital Markets segment - Fees earned from corporate finance and investment banking services are derived from debt, equity and convertible securities offerings in which the Company acted as an underwriter or placement agent. Fees from underwriting activities are recognized as revenues when the performance obligation for the services related to the underwriting transaction is satisfied under the terms of the engagement and is not subject to any other contingencies. Fees are also earned from financial advisory services rendered in connection with client mergers, acquisitions, restructurings, recapitalizations and other strategic transactions. The performance obligation for financial advisory services is satisfied over time as work progresses on the engagement and services are delivered to the client. The performance obligation for financial advisory services may also include success and performance based fees which are recognized as revenue when the performance obligation is no longer constrained and it is not probable that the revenue recognized would be subject to significant reversal in a future period. Generally, it is probable that the revenue recognized is no longer subject to significant reversal upon the closing of the investment banking transaction.

Fees from wealth and asset management services consist primarily of investment management fees that are recognized over the period the performance obligation for the services are provided. Investment management fees are primarily comprised of fees for investment management services and are generally based on the dollar amount of the assets being managed.

Revenues from sales and trading are recognized when the performance obligation is satisfied and include commissions resulting from equity securities transactions executed as agent or principal and are recorded on a trade date basis and fees paid for equity research.

Auction and Liquidation segment - Commission and fees earned on the sale of goods at auction and liquidation sales are recognized when evidence of a contract or arrangement exists, the transaction price has been determined, and the performance obligation has been satisfied when control of the product and risks of ownership has been transferred to the buyer. The commission and fees earned for these services are included in revenues in the accompanying condensed consolidated statements of income. Under these types of arrangements, revenues also include contractual reimbursable costs.

Revenues earned from auction and liquidation services contracts where the Company guarantees a minimum recovery value for goods being sold at auction or liquidation are recognized over time when the performance obligation is satisfied. We generally use the cost-to-cost measure of progress for our contracts because it best depicts the transfer of services to the customer which occurs as we incur costs on our contracts. Under the cost-to-cost measure of progress, the extent of progress towards completion is measured based on the ratio of costs incurred to date to the total estimated costs at completion of the performance obligation. Revenues, including estimated fees or profits, are recorded proportionally as costs are incurred. Costs to fulfill the contract include labor and other direct costs related to the contract. Due to the nature of the guarantees and performance obligations under these contracts, the estimation of revenue that is ultimately earned is complex and subject to many variables and requires significant judgment. It is common for these contracts to contain provisions that can either increase or decrease the transaction price upon completion of our performance obligations under the contract. Estimated amounts are included in the transaction price at the most likely amount it is probable that a significant reversal of revenue will not occur. Our estimates of variable consideration and determination of whether or not to include estimated amounts in the transaction price are based on an assessment of our anticipated performance under the contract taking into consideration all historical, current and forecasted information that is reasonably available to us. Costs that directly relate to the contract and expected to be recoverable are capitalized as an asset and included in advances against customer contracts the accompanying condensed consolidated balance sheets. These costs are amortized as the services are transferred to the customer over the contract period, which generally does not exceed six months, and the expense is recognized a component of direct cost of services. If, during the auction or liquidation sale, the Company determines that the total costs to be incurred on a performance obligation under a contract exceeds the total estimated revenues to be earned, a provision for the entire loss on the performance obligation is recognized in the period the loss is determined.

Valuation and Appraisal segment - Revenues in the Valuation and Appraisal segment are primarily comprised of fees for valuation and appraisal services. Revenues are recognized when the performance obligation is completed and is generally at the point in time upon delivery of the completed services to the customer. Revenues in the Valuation and Appraisal segment also include contractual reimbursable costs.

Principal Investments – United Online segment - Revenues in the Principal Investments - United Online segment include subscription service revenues that are derived primarily from fees charged to pay accounts and are recognized in the period in which the transaction price has been determinable and the related performance obligations for services are provided to the customer. The Company's pay accounts generally pay in advance for their services by credit card, PayPal, automated clearinghouse or check, and revenues are then recognized ratably over the service period. Payments from pay accounts received in advance of our performance obligations are recorded in the condensed consolidated balance sheets as deferred revenue.

Advertising revenues consist primarily of amounts from the Company's Internet search partner that are generated as a result of users utilizing the partner's Internet search services and amounts generated from display advertisements. The Company recognizes such advertising revenues in the period in which the advertisement is displayed or, for performance-based arrangements, when the related performance criteria are met. In determining whether an arrangement exists, the Company ensures that a written contract is in place, such as a standard insertion order or a customer-specific agreement. The Company assesses whether performance criteria have been met and whether the transaction price is determinable based on a reconciliation of the performance criteria and the payment terms associated with the transaction. The reconciliation of the performance criteria generally includes a comparison of customer-provided performance data to the contractual performance obligation and to internal or third-party performance data in circumstances where that data is available.

In accordance with ASC 323 - *Investments - Equity Method and Joint Ventures*, the Company will record equity method income (losses) as a component of investment income based on the change in our proportionate claim on net assets of the investment fund, including performance-based capital allocations, assuming the investment fund was liquidated as of each reporting date pursuant to each fund's governing agreements, and (iii) other miscellaneous income.

(f) *Concentration of Risk*

Revenues from one liquidation service contract to a retailer represented 13.6% of total revenues during the three months ended June 30, 2018. Revenues in the capital markets, valuation and appraisal and principal investments – United Online segments are currently primarily generated in the United States. Revenues in the auction and liquidation segment are primarily generated in the United States, Australia, Canada and Europe.

The Company's activities in the auction and liquidation segment are executed frequently with, and on behalf of, distressed customers and secured creditors. Concentrations of credit risk can be affected by changes in economic, industry, or geographical factors. The Company seeks to control its credit risk and potential risk concentration through risk management activities that limit the Company's exposure to losses on any one specific liquidation services contract or concentration within any one specific industry. To mitigate the exposure to losses on any one specific liquidation services contract, the Company sometimes conducts operations with third parties through collaborative arrangements.

The Company maintains cash in various federally insured banking institutions. The account balances at each institution periodically exceed the Federal Deposit Insurance Corporation's ("FDIC") insurance coverage, and as a result, there is a concentration of credit risk related to amounts in excess of FDIC insurance coverage. The Company also has substantial cash balances from proceeds received from auctions and liquidation engagements that are distributed to parties in accordance with the collaborative arrangements.

Share-Based Compensation

The Company's share-based payment awards principally consist of grants of restricted stock and restricted stock units. In accordance with the applicable accounting guidance, share-based payment awards are classified as either equity or liabilities. For equity-classified awards, the Company measures compensation cost for the grant of membership interests at fair value on the date of grant and recognizes compensation expense in the condensed consolidated statements of income over the requisite service or performance period the award is expected to vest. The fair value of the liability-classified award will be subsequently remeasured at each reporting date through the settlement date. Change in fair value during the requisite service period will be recognized as compensation cost over that period.

The restructuring charge of \$6,214 and \$6,588 during the three and six months ended June 30, 2017, respectively, was primarily related to costs savings measures taking into account the planned synergies as a result of the acquisition of FBR & Co. Income Taxes

The Company recognizes deferred tax liabilities and assets for the expected future tax consequences of events that have been included in the condensed consolidated financial statements or tax returns. Deferred tax liabilities and assets are determined based on the difference between the financial statement basis and tax basis of assets and liabilities using enacted tax rates in effect for the year in which the differences are expected to reverse. The Company estimates the degree to which tax assets and credit carryforwards will result in a benefit based on expected profitability by tax jurisdiction. A valuation allowance for such tax assets and loss carryforwards is provided when it is determined to be more likely than not that the benefit of such deferred tax asset will not be realized in future periods. Tax benefits of operating loss carryforwards are evaluated on an ongoing basis, including a review of historical and projected future operating results, the eligible carryforward period, and other circumstances. If it becomes more likely than not that a tax asset will be used, the related valuation allowance on such assets would be reduced.

The Company recognizes tax benefits from uncertain tax positions only if it is more likely than not that the tax position will be sustained on examination by the taxing authorities, based on the technical merits of the position. Once this threshold has been met, the Company's measurement of its expected tax benefits is recognized in its financial statements. The Company accrues interest on unrecognized tax benefits as a component of income tax expense. Penalties, if incurred, would be recognized as a component of income tax expense.

The Tax Cuts and Jobs Act (the "Tax Act") was enacted on December 22, 2017. The Tax Act reduces the U.S. federal corporate tax rate from 35% to 21%, requires companies to pay a one-time transition tax on earnings of certain foreign subsidiaries that were previously tax deferred, provides an exemption from U.S. federal tax for dividends received from foreign subsidiaries, and creates new taxes on certain foreign sourced earnings. As of the completion of these financial statements and related disclosures, we have not completed our accounting for the tax effects of the Tax Act; however, as described below, we have made a reasonable estimate of such effects and recorded a provisional tax expense of \$13,052, which is included as a component of income tax expense in the fourth quarter of 2017. This provisional tax expense incorporates assumptions made based upon the Company's current interpretation of the Tax Act, and may change as we receive additional clarification and implementation guidance and as the interpretation of the Tax Act evolves. In accordance with SEC Staff Accounting Bulletin No. 118, the Company will finalize the accounting for the effects of the Tax Act no later than the fourth quarter of 2018. Future adjustments made to the provisional effects will be reported as a component of income tax expense from continuing operations in the reporting period in which any such adjustments are determined.

With respect to securities loaned, the Company receives collateral in the form of cash. The amount of collateral required to be deposited for securities borrowed, or received for securities loaned, is an amount generally in excess of the market value of the applicable securities borrowed or loaned. The Company monitors the market value of the securities borrowed and loaned on a daily basis, with additional collateral obtained, or excess collateral recalled, when deemed appropriate.

(n) *Due from/to Brokers, Dealers, and Clearing Organizations*

The Company clears all of its proprietary and customer transactions through other broker-dealers on a fully disclosed basis. The amount receivable from or payable to the clearing brokers represents the net of proceeds from unsettled securities sold, the Company’s clearing deposit and amounts receivable for commissions less amounts payable for unsettled securities purchased by the Company and amounts payable for clearing costs and other settlement charges. This amount also includes the cash collateral received for securities loaned less cash collateral for securities borrowed. Any amounts payable would be fully collateralized by all of the securities owned by the Company and held on deposit at the clearing broker.

(o)

Accounts Receivable

Accounts receivable represents amounts due from the Company's auction and liquidation, valuation and appraisal, capital markets and principal investments - United Online customers. The Company maintains an allowance for doubtful accounts for estimated losses inherent in its accounts receivable portfolio. In establishing the required allowance, management utilizes a specific customer identification methodology. Management also considers historical losses adjusted for current market conditions and the customers' financial condition and the current receivables aging and current payment patterns. Account balances are charged off against the allowance after all means of collection have been exhausted and the potential for recovery is considered remote. The Company does not have any off-balance sheet credit exposure related to its customers. Bad debt expense and changes in the allowance for doubtful accounts for the three and six months ended June 30, 2018 and 2017 are included in Note 5.

(p) *Advances Against Customer Contracts*

Advances against customer contracts represent advances of contractually reimbursable funds incurred prior to, and during the term of the auction and liquidation services contract. On April 18, 2018, the Company entered into an agency agreement to participate in the right to liquidate certain assets of The Bon-Ton Stores, Inc. (the “Agency Agreement”). There are three parties to the Agency Agreement which were granted the right to act as the exclusive agent to conduct the sale of substantially all of the assets of The Bon-Ton Stores, Inc. (the “Bon-Ton Transaction”). The Company initially advanced \$407,426 in connection with Agency Agreement. As of June 30, 2018, \$199,243 remained outstanding and is included in the advances against customer contracts balance of \$200,036. Management expects the outstanding advance continue to be repaid from proceeds generated from the liquidation of the assets related to the Bon-Ton Transaction.

(q) *Property and Equipment*

Property and equipment are stated at cost. Depreciation and amortization is computed using the straight-line method over the estimated useful lives of the assets. Property and equipment held under capital leases are amortized on a straight-line basis over the shorter of the lease term or estimated useful life of the asset. Depreciation and amortization expense was \$1,187 and \$694 for the three months ended June 30, 2018 and 2017, respectively, and \$2,364 and \$1,214 for the six months ended June 30, 2018 and 2017, respectively.

(s) *Fair Value Measurements*

The Company's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment and considers factors specific to the asset or liability. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A fair value measurement assumes that the transaction to sell the asset or transfer the liability occurs in the principal market for the asset or liability or, in the absence of a principal market, the most advantageous market. In general, fair values determined by Level 1 inputs utilize quoted prices (unadjusted) for identical instruments that are highly liquid, observable and actively traded in over-the-counter markets. Fair values determined by Level 2 inputs utilize inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active and model-derived valuations whose inputs are observable and can be corroborated by market data. Level 3 inputs are unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities. In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, the level in the fair value hierarchy within which the fair value measurement in its entirety falls has been determined based on the lowest level input that is significant to the fair value measurement in its entirety. The Company's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment, and considers factors specific to the asset or liability.

The Company's securities and other investments owned and securities sold and not yet purchased are comprised of common and preferred stocks and warrants, corporate bonds, loans receivable and investments in partnerships. Investments in common stocks that are based on quoted prices in active markets are included in Level 1 of the fair value hierarchy. The Company also holds nonpublic common and preferred stocks and warrants for which there is little or no public market and fair value is determined by management on a consistent basis. For investments where little or no public market exists, management's determination of fair value is based on the best available information which may incorporate management's own assumptions and involves a significant degree of judgment, taking into consideration various factors including earnings history, financial condition, recent sales prices of the issuer's securities and liquidity risks. These investments are included in Level 3 of the fair value hierarchy. Investments in partnership interests include investments in private equity partnerships that primarily invest in equity securities, bonds, and direct lending funds. The Company's partnership interests are valued based on the Company's proportionate share of the net assets of the partnership which is derived from the most recent statements received from the general partner which are included in Level 3 of the fair value hierarchy. The Company also invests in certain proprietary investment funds that are valued at net asset value ("NAV") determined by the fund administrator. The underlying securities held by these investment companies are primarily corporate and asset-backed fixed income securities and restrictions exist on the redemption of amounts invested by the Company. As a practical expedient, the Company relies on the NAV of these investments as their fair value. The NAVs that have been provided by the fund administrators are derived from the fair values of the underlying investments as of the reporting date. In accordance with ASC "Topic 820: Fair Value Measurements," these investment funds are not categorized within the fair value hierarchy.

The fair value of mandatorily redeemable noncontrolling interests is determined based on the issuance of similar interests for cash, references to industry comparables, and relied, in part, on information obtained from appraisal reports and internal valuation models.

Edgar Filing: B. Riley Financial, Inc. - Form 10-Q

As of June 30, 2018 and December 31, 2017, financial assets measured and reported at fair value on a recurring basis and classified within Level 3 were \$87,717 and \$88,163, respectively, or 4.7% and 6.4%, respectively, of the Company's total assets. In determining the fair value for these Level 3 financial assets, the Company analyzes various financial, performance and market factors to estimate the value, including where applicable, over-the-counter market trading activity.

The changes in Level 3 fair value hierarchy during the six months ended June 30, 2018 and 2017 are as follows:

	Level 3 Balance at Beginning of Year	Level 3 Fair Value Adjustment	Level 3 Changes During the Period Relating to Undistributed Earnings	Purchases, Sales and Settlements	Transfer in and/or out of Level 3	Level 3 Balance at End of Period

Contingent consideration	1,242	8	—	(1,250)	—	—

The fair value adjustment for contingent consideration of \$8 represents imputed interest for the six months ended June 30, 2017. During the second quarter of 2017, the Company had a triggering event for the mandatorily redeemable noncontrolling interests that resulted in a fair value adjustment of \$6,250. In connection with this event, the Company received proceeds of \$6,000 from key man life insurance. These amounts have been recorded in the condensed consolidated statements of income in selling, general and administrative expenses in the corporate segment. The amount reported in the table above also for the six months ended June 30, 2018 and 2017 includes the amount of undistributed earnings attributable to the noncontrolling interests that is distributed on a quarterly basis.

The carrying amounts reported in the condensed consolidated financial statements for cash and cash equivalents, restricted cash, accounts receivable, accounts payable and accrued expenses and other liabilities approximate fair value based on the short-term maturity of these instruments.

The carrying amount of the senior notes payable approximates fair value because the contractual interest rates or effective yields of such instruments are consistent with current market rates of interest for instruments of comparable credit risk.

During the six months ended June 30, 2018 and 2017, there were no assets or liabilities measured at fair value on a non-recurring basis.

The Exercise Price and the number of shares of Company common stock issuable upon exercise are subject to customary anti-dilution and adjustment provisions, which include stock splits, subdivisions or reclassifications of the Company’s common stock. The common stock warrants expire on July 3, 2022.

(v) *Equity Investment*

At December 31, 2017, the Company had a loan receivable from bebe stores, inc. (“bebe”) with a fair value of \$16,867 included in securities and other investments owned. On January 12, 2018, the loan receivable in the amount of \$16,867 plus accrued interest of \$51 was converted into 2,819,528 shares of common stock of bebe, representing a conversion price at \$6.00 per share. On January 12, 2018, the Company also purchased 500,000 shares of bebe common stock at \$6.00 per share of which 250,000 shares were newly issued common stock by bebe and 250,000 shares were purchased from the majority shareholder of bebe. At June 30, 2018, the Company had an ownership of approximately 30.1% of bebe’s outstanding common shares.

The equity ownership in bebe is accounted for under the equity method of accounting. The carrying value for the bebe investment at June 30, 2018 was \$24,951 and is included in prepaid expenses and other assets in the condensed consolidated balance sheets. For the three and six months ended June 30, 2018, the equity income from the 30.1% ownership in bebe was \$6,470 and \$6,082, respectively, and is included in income from equity investments on the condensed consolidated statements of income.

(w) *Statements of Cash Flows – Supplemental Non-cash Disclosures*

During the six months ended June 30, 2018, non-cash investing activities included the conversion of a loan receivable in the amount of \$16,867 and accrued interest receivable of \$51 into an equity investment that totaled \$16,918 as more fully discussed in Note 2(v) above.

(x) *Variable Interest Entity*

In January 2018, the operations of GACP II, LP, a private debt investment limited partnership (the “Partnership”) commenced operations. The Company’s investment in the Partnership is a Variable Interest Entity (“VIE”) since the unaffiliated limited partners do not have substantive kick-out or participating rights to remove the Company’s

subsidiary that is the general partner managing the Partnership. The Company has determined that it is not the primary beneficiary due to the fact that its fee arrangements are considered at-market and thus not deemed to be variable interests, and it does not hold any other interests in the Partnership that are considered to be more than insignificant. The Company determines whether it is the primary beneficiary of a VIE at the time it becomes involved with a VIE and reconsiders that conclusion at each reporting date. In evaluating whether the Company is the primary beneficiary, the Company evaluates its economic interests in the entity held either directly by the Company or indirectly through related parties. The consolidation analysis can generally be performed qualitatively; however, if it is not readily apparent that the Company is not the primary beneficiary, a quantitative analysis may also be performed.

The carrying value of the Company's investments in the VIE that was not consolidated is shown below.

	June
	30,
	2018
Partnership investments	\$6,562
Due from related party	528
Maximum exposure to loss	\$7,090

The impact of this reclassification is reflected in the revenues as reported in the condensed consolidated statements of income for the six months June 30, 2018. The impact of this reclassification on the amount reported during the three months ended March 31, 2018 was deemed to be immaterial.

Recent Accounting Pronouncements

In March 2018, the Financial Accounting Standards Board (the “FASB”) issued ASU 2018-05: *Income Taxes (Topic 740) - Amendments to SEC Paragraphs Pursuant to SEC Staff Accounting Bulletin No. 118*. The amendments in this update provide guidance on when to record and disclose provisional amounts for certain income tax effects of the Tax Cuts and Jobs Act (“Tax Reform Act”). The amendments also require any provisional amounts or subsequent adjustments to be included in net income from continuing operations. This ASU also discusses required disclosures that an entity must make with regard to the Tax Reform Act. This ASU is effective immediately as new information is available to adjust provisional amounts that were previously recorded. The Company has adopted this standard and will continue to evaluate indicators that may give rise to a change in our tax provision as a result of the Tax Reform Act. See Note 10 for additional information on the Tax Reform Act.

In February 2016, the FASB issued ASU No. 2016-02: *Leases (Topic 842)* (“ASU 2016-02”). The amendments in this update require lessees, among other things, to recognize lease assets and lease liabilities on the balance sheet for those leases classified as operating leases under previous authoritative guidance. This update also introduces new disclosure requirements for leasing arrangements. In July 2018, the FASB issued ASU 2018-10: *Codification Improvements to Topic 842, Leases*, which provides narrow-scope improvements to the lease standard. ASU 2016-02 and ASU 2018-10 will be effective for the Company in fiscal year 2019, but early application is permitted. The Company is currently evaluating the impact of these updates on the consolidated financial statements.

In February 2018, the FASB issued ASU 2018-02, *Income Statement - Reporting Comprehensive Income (Topic 220): Reclassification of Certain Tax Effects from Accumulated Other Comprehensive Income* that provides for the reclassification from accumulated other comprehensive income to retained earnings for stranded effects resulting from the Tax Cuts and Jobs Act of 2017. The accounting update is effective for the fiscal year beginning after December 15, 2018 and early adoption is permitted. The accounting update should be applied either in the period of adoption or retrospectively to each period in which the effect of the change in the U.S. federal corporate income tax rate in the Tax Act of 2017 is recognized. We are currently evaluating the impact of the accounting update, but the adoption is not expected to have a material impact on our consolidated financial statements.

In August 2016, the FASB issued ASU 2016-15, *Statement of Cash Flows (Topic 230): Classification of Certain Cash Receipts and Cash Payments* (“ASU 2016-15”), which clarifies how companies present and classify certain cash receipts and cash payments in the statement of cash flows. ASU 2016-15 is effective for us in our first quarter of fiscal year 2019, but early application is permitted. The Company has not yet adopted this update and is currently evaluating the impact it may have on its financial condition and results of operations.

In January 2017, the FASB issued ASU 2017-04, *Intangibles—Goodwill and Other (Topic 350) Simplifying the Test for Goodwill Impairment*. This standard simplifies the accounting for goodwill impairment. The guidance removes Step 2 of the goodwill impairment test, which requires a hypothetical purchase price allocation. Goodwill impairment will now be the amount by which a reporting unit’s carrying value exceeds its fair value, not to exceed the carrying amount of goodwill. The revised guidance will be applied prospectively, and is effective for calendar year-end SEC filers for its annual or any interim goodwill impairment tests in fiscal years beginning after December 15, 2019. Early adoption is permitted for interim or annual goodwill impairment tests performed on testing dates after January 1, 2017. The Company has not yet adopted this update and currently evaluating the effect this new standard will have on its financial condition and results of operations

On January 1, 2018, we adopted ASU 2016-18 – *Statement of Cash Flows (Topic 230): Restricted Cash* (“ASU 2016-18”) using the retrospective method which requires adjustment to prior periods in the statement of cash flows. ASU 2016-18 clarifies how restricted cash should be presented on the statement of cash flows and requires companies to include restricted cash with cash and cash equivalents when reconciling the beginning of period and end of period totals on the statement of cash flows. Restricted cash previously classified under investing activities is now included in the reconciliation of beginning and ending cash on the statement of cash flows. The adoption of ASU 2016-18 did not have a material impact on the Company’s financial condition and results of operations.

On January 1, 2018, we adopted ASC 606 – *Revenue from Contracts with Customers* using the modified retrospective method and the impact was determined to be immaterial on our consolidated financial statements. The new revenue standard was applied prospectively in our consolidated financial statements from January 1, 2018 forward and reported financial information for historical comparable periods will not be revised and will continue to be reported under the accounting standards in effect during those historical periods. See Note 9 for additional information on the adoption of this standard.

As a result of the acquisition of FBR, the Company has an active securities borrowed and loaned business in which it borrows securities from one party and lends them to another. Securities borrowed and securities loaned are recorded based upon the amount of cash advanced or received. With respect to securities loaned, the Company receives collateral in the form of cash. The amount of collateral required to be deposited for securities borrowed, or received for securities loaned, is an amount generally in excess of the market value of the applicable securities borrowed or loaned. NOTE 7— CREDIT FACILITIES

Credit facilities consist of the following arrangements:

(a) \$200,000 Asset Based Credit Facility

On April 21, 2017, the Company amended its credit agreement (as amended, the “Credit Agreement”) governing its asset based credit facility with Wells Fargo Bank, National Association (“Wells Fargo Bank”) to increase the maximum borrowing limit from \$100,000 to \$200,000. Such amendment, among other things, also extended the expiration date of the credit facility from July 15, 2018 to April 21, 2022. On April 19, 2018, the Company entered into an amended and restated consent to the Credit Agreement, pursuant to which Wells Fargo Bank increased the maximum borrowing limit solely for the purposes of the Bon-Ton Transaction from \$200,000 to \$300,000, and reverts back to \$200,000 upon repayment of the amounts borrowed in connection with the Bon-Ton Transaction. The Credit Agreement continues to allow for borrowings under the separate credit agreement (a “UK Credit Agreement”) which was dated March 19, 2015 with an affiliate of Wells Fargo Bank which provides for the financing of transactions in the United Kingdom. Such facility allows the Company to borrow up to 50 million British Pounds. Any borrowings on the UK Credit Agreement reduce the availability on the asset based \$200,000 credit facility. The UK Credit Agreement is cross collateralized and integrated in certain respects with the Credit Agreement. Cash advances and the issuance of letters of credit under the credit facility are made at the lender’s discretion. The letters of credit issued under this facility are furnished by the lender to third parties for the principal purpose of securing minimum guarantees under liquidation services contracts more fully described in Note 2(c). All outstanding loans, letters of credit, and interest are due on the expiration date which is generally within 180 days of funding. The credit facility is secured by the proceeds received for services rendered in connection with liquidation service contracts pursuant to which any outstanding loan or letters of credit are issued and the assets that are sold at liquidation related to such contract. The Company paid Wells Fargo Bank a closing fee in the amount of \$500 in connection with the April 2017 amendment to the Credit Agreement. The interest rate for each revolving credit advance under the Credit Agreement is, subject to certain terms and conditions, equal to the LIBOR plus a margin of 2.25% to 3.25% depending on the type of advance and the percentage such advance represents of the related transaction for which such advance is provided. The credit facility also provides for success fees in the amount of 2.5% to 17.5% of the net profits, if any, earned on the liquidation engagements funded under the Credit Agreement as set forth therein. Upon the occurrence of an event of default under the Credit Agreement, the lender may cease making loans, terminate the Credit Agreement and declare all amounts outstanding under the Credit Agreement to be immediately due and payable. The Credit Agreement specifies a number of events of default (some of which are subject to applicable grace or cure periods), including, among other things, nonpayment defaults, covenant defaults, cross-defaults to other material indebtedness, bankruptcy and insolvency defaults, and material judgment defaults.

Borrowings under the UOL Credit Agreement will bear interest at a rate equal to (a) (i) the base rate (the greater of the federal funds rate plus one half of one percent (0.5%), or the prime rate) for U.S. dollar loans or (ii) at UOL's option, the LIBOR Rate for Eurodollar loans, plus (b) the applicable margin rate, which ranges from two percent (2%) to three and one-half percent (3.5%) per annum, based upon UOL's ratio of funded indebtedness to adjusted earnings before interest, taxes, depreciation and amortization (EBITDA) for the preceding four (4) fiscal quarters. Interest payments are to be made each one, three or six months for Eurodollar loans, and quarterly for U.S. dollar loans.

UOL paid a commitment fee equal to 1.00% of the aggregate commitments upon the closing of the UOL Credit Agreement. The UOL Credit Agreement also provides for an unused line fee payable quarterly, in arrears, in an amount equal to: (a) 0.50% per annum times the amount of the unused revolving commitment that is less than or equal to the amount of the cash maintained in accounts with the agent (as depositary bank); plus (b) 1.00% per annum times the amount of the unused revolving commitment that is greater than the amount of the cash maintained in accounts with the agent (as depositary bank). In addition, the Company and B. Riley Principal Investments, LLC, the parent corporation of UOL and a subsidiary of the Company, are guarantors of the obligations under the UOL Credit Agreement pursuant to standalone guaranty agreements pursuant to which the shares of outstanding capital stock of UOL are pledged as collateral. The obligations under the UOL Credit Agreement are secured by first-priority liens on, and a first-priority security interest in, substantially all of the assets

of UOL and the Secured Guarantors, including a pledge of (a) 100% of the equity interests of the Secured Guarantors and (b) 65% of the equity interests in United Online Software Development (India) Private Limited, a private limited company organized under the laws of India. Such security interests are evidenced by pledge, security and other related agreements.

The UOL Credit Agreement contains certain negative covenants, including those limiting UOL's and its subsidiaries' ability to incur indebtedness, incur liens, sell or acquire assets or businesses, change the nature of their businesses, engage in transactions with related parties, make certain investments or pay dividends. In addition, the UOL Credit Agreement requires UOL and its subsidiaries to maintain certain financial ratios. We are in compliance with all covenants in the UOL Credit Agreement at June 30, 2018.

Revenues are recognized when control of the promised goods or performance obligations for services is transferred to our customers, in an amount that reflects the consideration we expect to be entitled to in exchange for the goods or services. A performance obligation may be satisfied over time or at a point in time. Revenue from a performance obligation satisfied over time is recognized by measuring our progress in satisfying the performance obligation in a manner that depicts the transfer of the goods or services to the customer. Revenue from a performance obligation satisfied at a point in time is recognized at the point in time that we determine the customer obtains control over the promised good or service. The amount of revenue recognized reflects the consideration we expect to be entitled to in exchange for those promised goods or services (i.e., the “transaction price”). In determining the transaction price, we consider multiple factors, including the effects of variable consideration. Variable consideration is included in the transaction price only to the extent it is probable that a significant reversal in the amount of cumulative revenue recognized will not occur when the uncertainties with respect to the amount are resolved. In determining when to include variable consideration in the transaction price, we consider the range of possible outcomes, the predictive value of our past experiences, the time period of when uncertainties expect to be resolved and the amount of consideration that is susceptible to factors outside of our influence, such as market volatility or the judgment and actions of third parties. Revenues by geographic region by segment is included in Note 16 – Business Segments.

The following provides detailed information on the recognition of our revenues from contracts with customers:

Corporate finance and investment banking fees. Fees earned from corporate finance and investment banking services are derived from debt, equity and convertible securities offerings in which the Company acted as an underwriter or placement agent. Fees from underwriting activities are recognized as revenues when the performance obligation for the services related to the underwriting transaction is satisfied under the terms of the engagement and is not subject to any other contingencies. Fees are also earned from financial advisory services rendered in connection with client mergers, acquisitions, restructurings, recapitalizations and other strategic transactions. The performance obligation for financial advisory services is satisfied over time as work progresses on the engagement and services are delivered to the client. The performance obligation for financial advisory services may also include success and performance based fees which are recognized as revenue when the performance obligation is no longer constrained and it is not probable that the revenue recognized would be subject to significant reversal in a future period. Generally, it is probable that the revenue recognized is no longer subject to significant reversal upon the closing of the investment banking transaction.

Wealth and asset management fees. Fees from wealth and asset management services consist primarily of investment management fees that are recognized over the period the performance obligation for the services are provided. Investment management fees are primarily comprised of fees for investment management services and are generally based on the dollar amount of the assets being managed.

Commissions, fees and reimbursed expenses. Commissions and other fees from clients for trading activities are earned from equity securities transactions executed as agent or principal are recorded at a point in time on a trade date basis. Commission, fees and reimbursed expenses earned on the sale of goods at auction and liquidation sales are recognized when evidence of a contract or arrangement exists, the transaction price has been determined, and the performance obligation has been satisfied when control of the product and risks of ownership has been transferred to the buyer. Revenues from fees and reimbursed expenses for valuation services to clients are recognized when the performance obligation is completed and is generally at the point in time upon delivery of the completed services to the customer.

Subscription services. Subscription service revenues are derived primarily from fees charged to pay accounts and are recognized in the period in which the transaction price has been determinable and the related performance obligations for services are provided to the customer. The Company's pay accounts generally pay in advance for their services by credit card, PayPal, automated clearinghouse or check, and revenues are then recognized ratably over the service period.

Service contract revenues. Service contract revenues are primarily earned from auction and liquidation services contracts where the Company guarantees a minimum recovery value for goods being sold at auction or liquidation are recognized over time when the performance obligation is satisfied. We generally use the cost-to-cost measure of progress for our contracts because it best depicts the transfer of services to the customer which occurs as we incur

costs on our contracts. Under the cost-to-cost measure of progress, the extent of progress towards completion is measured based on the ratio of costs incurred to date to the total estimated costs at completion of the performance obligation. Revenues, including estimated fees or profits, are recorded proportionally as costs are incurred. Costs to fulfill the contract include labor and other direct costs related to the contract. Due to the nature of the guarantees and performance obligations under these contracts, the estimation of revenue that is ultimately earned is complex and subject to many variables and requires significant judgment. It is common for these contracts to contain provisions that can either increase or decrease the transaction price upon completion of our performance obligations under the contract. Estimated amounts are included in the transaction price at the most likely amount it is probable that a significant reversal of revenue will not occur. Our estimates of variable consideration and determination of whether or not to include estimated amounts in the transaction price are based on an assessment of our anticipated performance under the contract taking into consideration all historical, current and forecasted information that is reasonably available to us.

Advertising and other. Advertising and other revenues consist primarily of amounts from the Company's Internet search partner that are generated as a result of users utilizing the partner's Internet search services and amounts generated from display advertisements and the sale of product revenues from the sale of mobile broadband service devices to customers. Advertising revenues are recognized in the period in which the advertisement is displayed or, for performance-based arrangements, when the related performance criteria are met. In determining whether an arrangement exists, the Company ensures that a written contract is in place, such as a standard insertion order or a customer-specific agreement. The Company assesses whether performance criteria have been met and whether the transaction price is determinable based on a reconciliation of the performance criteria and the payment terms associated with the transaction. The reconciliation of the performance criteria generally includes a comparison of customer-provided performance data to the contractual performance obligation and to internal or third-party performance data in circumstances where that data is available. Sale of product revenues also includes the related shipping and handling fees.

Information on Remaining Performance Obligations and Revenue Recognized from Past Performance

We do not disclose information about remaining performance obligations pertaining to contracts that have an original expected duration of one year or less. The transaction price allocated to remaining unsatisfied or partially unsatisfied performance obligations with an original expected duration exceeding one year was not material at June 30, 2018. Corporate finance and investment banking fees and retail liquidation engagement fees that are contingent upon completion of a specific milestone and fees associated with certain distribution services are also excluded as the fees are considered variable and not included in the transaction price at June 30, 2018.

Contract Balances

The timing of our revenue recognition may differ from the timing of payment by our customers. We record a receivable when revenue is recognized prior to payment and we have an unconditional right to payment. Alternatively, when payment precedes the provision of the related services, we record deferred revenue until the performance obligations are satisfied. Receivables related to revenues from contracts with customers totaled \$33,111 and \$20,015 at June 30, 2018 and December 31, 2017, respectively. We had no significant impairments related to these receivables during the three and six months ended June 30, 2018. Our deferred revenue primarily relates to retainer and milestone fees received from corporate finance and investment banking advisory engagements, asset management agreements, valuation and appraisal engagements and subscription services where the performance obligation has not yet been satisfied. Deferred revenue at June 30, 2018 and December 31, 2017 was \$3,600 and \$3,141, respectively. During the three and six months ended June 30, 2018, we recognized revenue of \$2,491 and \$4,466, respectively, that was recorded as deferred revenue at the beginning of the period.

Contract Costs

Contract costs include: (1) costs to fulfill contracts associated with corporate finance and investment banking engagements are capitalized where the revenue is recognized at a point in time and the costs are determined to be recoverable and (2) costs to fulfill auction and liquidation services contracts where the Company guarantees a minimum recovery value for goods being sold at auction or liquidation where the revenue is recognized over time when the performance obligation is satisfied.

At June 30, 2018, capitalized costs to fulfill a contract were \$605, which is recorded in prepaid expenses and other assets in the condensed consolidated balance sheet. For the three and six months ended June 30, 2018, we recognized expenses and related capitalized costs to fulfill a contract of \$147 and \$602, respectively. There were no significant impairment charges recognized in relation to these capitalized costs during the three and six months ended June 30, 2018.

NOTE 10— INCOME TAXES

The Tax Act was enacted on December 22, 2017. The Tax Act reduces the U.S. federal corporate tax rate from 35% to 21%, requires companies to pay a one-time transition tax on earnings of certain foreign subsidiaries that were previously tax deferred, provides an exemption from U.S. federal tax for dividends received from foreign subsidiaries, and creates new taxes on certain foreign sourced earnings. As of the completion of these financial statements and related disclosures, we have not completed our accounting for the tax effects of the Tax Act; however, we have made a reasonable estimate of such effects and recorded a provisional tax expense of \$13,052, which is included as a component of income tax expense in the fourth quarter of 2017 and is comprised of (a) \$12,954 related to the remeasurement of deferred tax assets and liabilities in the United States and (b) \$98 related to the transition tax on foreign earnings. This provisional tax expense incorporates assumptions made based upon the Company's current interpretation of the Tax Act, and may change as we receive additional clarification and implementation guidance and as the interpretation of the Tax Act evolves. In accordance with SEC Staff Accounting Bulletin No. 118, the Company will finalize the accounting for the effects of the Tax Act no later than the fourth quarter of 2018. Future adjustments made to the provisional effects will be reported as a component of income tax expense in the reporting period in which any such adjustments are determined.

The Company's effective income tax rate was a provision of 21.9% and a benefit of 58.9% for the six months ended June 30, 2018 and 2017, respectively. During the six months ended June 30, 2017, the Company elected to treat the acquisition of UOL as a taxable business combination for income tax purposes in accordance with Internal Revenue Code Section 338(g) ("IRS Code Section 338(g)"). This resulted in the Company foregoing the income tax attributes of UOL that existed at the acquisition date which included net operating loss carryforwards, capital loss carryforwards and foreign tax credits. The income tax election in accordance with IRS Code Section 338(g) provides the Company with a tax step-up in the basis of the intangible assets and goodwill acquired for tax purposes. In accordance with ASC 740, the impact of the election in accordance with IRS Code Section 338(g) on deferred income taxes resulted in the recording of a tax benefit in the amount of \$8,389 during the six months ended June 30, 2017.

As of June 30, 2018, the Company had federal net operating loss carryforwards of approximately \$63,445 and state net operating loss carryforwards of \$76,978. The Company's federal net operating loss carryforwards will expire in the tax years commencing in December 31, 2029 through December 31, 2034. The state net operating loss carryforwards will expire in the tax years commencing in December 31, 2029.

The Company establishes a valuation allowance if, based on the weight of available evidence, it is more likely than not that some portion or all of the deferred tax assets will not be realized. Tax benefits of operating loss, capital loss and tax credit carryforwards are evaluated on an ongoing basis, including a review of historical and projected future operating results, the eligible carryforward period, and other circumstances. The Company's net operating losses are subject to annual limitations in accordance with Internal Revenue Code Section 382. Accordingly, the Company is limited to the amount of net operating loss that may be utilized in future taxable years depending on the Company's actual taxable income. As of June 30, 2018, the Company believes that the existing net operating loss carryforwards will be utilized in future tax periods before the loss carryforwards expire and it is more-likely-than-not that future taxable earnings will be sufficient to realize its deferred tax assets and has not provided a valuation allowance. The Company does not believe that it is more likely than not that the Company will be able to utilize the benefits related to capital loss carryforwards and has provided a full valuation allowance in the amount of \$2,582 against these deferred tax assets.

The Company files income tax returns in the U.S., various state and local jurisdictions, and certain other foreign jurisdictions. The Company is currently under audit by certain federal, state and local, and foreign tax authorities. The audits are in varying stages of completion. The Company evaluates its tax positions and establishes liabilities for uncertain tax positions that may be challenged by tax authorities. Uncertain tax positions are reviewed on an ongoing basis and are adjusted in light of changing facts and circumstances, including progress of tax audits, case law developments and closing of statutes of limitations. Such adjustments are reflected in the provision for income taxes, as appropriate. The Company is currently open to audit under the statute of limitations by the Internal Revenue Service for the calendar years ended December 31, 2014 to 2017.

NOTE 11— EARNINGS PER SHARE

Basic earnings per share is calculated by dividing net income by the weighted-average number of shares outstanding during the period. Diluted earnings per share is calculated by dividing net income by the weighted-average number of common shares outstanding, after giving effect to all dilutive potential common shares outstanding during the period. Basic common shares outstanding exclude 453,365 common shares that are held in escrow and subject to forfeiture, the common shares held in escrow includes 66,000 common shares issued to the former members of Great American Group, LLC that are subject to forfeiture upon the final settlement of claims for goods held for sale in connection with the transaction with Alternative Asset Management Acquisition Corp. in 2009 and 387,365 common shares that are subject to forfeiture to indemnify the Company for certain representations and warranties in connection with the acquisition of Wunderlich. These shares are subject to forfeiture upon the final settlement of claims as more fully described in the related escrow instructions. Dilutive common shares outstanding includes contingently issuable shares that are currently in escrow and subject to release if the conditions for the final settlement of claims in accordance with the escrow instructions were satisfied at the end of the respective periods.

Basic and diluted earnings per share was calculated as follows:

NOTE 12— COMMITMENTS AND CONTINGENCIES

Legal Matters

The Company is subject to certain legal and other claims that arise in the ordinary course of its business. In particular, the Company and its subsidiaries are named in and subject to various proceedings and claims arising primarily from our securities business activities, including lawsuits, arbitration claims, class actions, and regulatory matters. Some of these claims seek substantial compensatory, punitive, or indeterminate damages. The Company and its subsidiaries are also involved in other reviews, investigations, and proceedings by governmental and self-regulatory organizations regarding our business, which may result in adverse judgments, settlements, fines, penalties, injunctions, and other relief. In view of the number and diversity of claims against our company, the number of jurisdictions in which litigation is pending, and the inherent difficulty of predicting the outcome of litigation and other claims, we cannot state with certainty what the eventual outcome of pending litigation or other claims will be. Notwithstanding this uncertainty, the Company does not believe that the results of these claims are likely to have a material effect on its financial position or results of operations.

In 2012, *Gladden v. Cumberland Trust, WSI, et al.* filed a complaint in Circuit Court, Hamblen County, TN at Morristown, Case No. 12-CV-119. This complaint alleges the improper distribution and misappropriation of trust funds. The plaintiff seeks damages of no less than \$3,925, an accounting, and among other things, punitive damages. In October 2017, the Tennessee Supreme Court remanded the case to the Tennessee State Trial Court for determination of which claims are subject to arbitration and which are not. This case was settled during the second quarter of 2018.

In May 2014, *Waterford Township Police & Fire Retirement System et al. v. Regional Management Corp et al.*, filed a complaint in the Southern District of New York (the “Court”), against underwriters alleging violations under sections 11 and 12 of the Securities Act of 1933, as amended (the “Securities Act”). B. Riley FBR, Inc. (“B. Riley FBR”) (formerly, FBR Capital Markets & Co. (“FBRCM”)), a broker-dealer subsidiary of ours, was a co-manager of 2 offerings. On January 30, 2017, the Court denied the plaintiffs’ motion to file a first amended complaint, which would have revived claims previously dismissed by the Court on March 30, 2016. On March 1, 2017, the plaintiffs filed a notice of appeal and an opening brief on June 21, 2017. Defendant’s opposition motion was filed on September 12, 2017. Appellants filed their reply brief on October 17, 2017 and oral argument was held on November 17, 2017. On January 26, 2018, the Appellate court issued its order affirming the court’s order dismissing the plaintiff’s case and denying leave to amend.

On January 5, 2017, complaints filed in November 2015 and May 2016 naming MLV & Co. (“MLV”), a broker-dealer subsidiary of FBR, as a defendant in putative class action lawsuits alleging claims under the Securities Act, in connection with the offerings of Miller Energy Resources, Inc. (“Miller”) have been consolidated. The Master Consolidated Complaint, styled *Gaynor v. Miller et al.*, is pending in the United States District Court for the Eastern District of Tennessee, and, like its predecessor complaints, continues to allege claims under Sections 11 and 12 of the

Securities Act against nine underwriters for alleged material misrepresentations and omissions in the registration statement and prospectuses issued in connection with six offerings (February 13, 2013; May 8, 2013; June 28, 2013; September 26, 2013; October 17, 2013 (as to MLV only) and August 21, 2014) with an alleged aggregate offering price of approximately \$151,000. The plaintiffs seek unspecified compensatory damages and reimbursement of certain costs and expenses. In August 2017, the Court granted Defendant's Motion to Dismiss on Section 12 claims and found that the plaintiffs had not sufficiently alleged a corrective disclosure prior to August 6, 2015, when an SEC civil action was announced. Defendants' answer was filed on September 25, 2017. Plaintiffs have filed motions for class certification and to remand the case to state court following a positive ruling in an unrelated case by the U.S. Supreme Court. Although MLV is contractually entitled to be indemnified by Miller in connection with this lawsuit, Miller filed for bankruptcy in October 2015 and this likely will decrease or eliminate the value of the indemnity that MLV receives from Miller.

In February 2017, certain former employees filed an arbitration claim with FINRA against Wunderlich Securities, Inc. ("WSI") alleging misrepresentations in the recruitment of claimants to join WSI. Claimants also allege that WSI failed to support their mortgage trading business resulting in the loss of opportunities during their employment with WSI. Claimants are seeking \$10,000 in damages. WSI has counterclaimed alleging that claimants misrepresented their process for doing business, particularly their capital needs, resulting in substantial losses to WSI. WSI believes the claims are meritless and intends to vigorously defend the action.

In March 2017, United Online, Inc. received a letter from PeopleConnect, Inc. (formerly, Classmates, Inc.) ("Classmates") regarding a notice of investigation received from the Consumer Protection Divisions of the District Attorneys' offices of four California counties ("California DAs"). These entities suggest that Classmates may be in violation of California codes relating to unfair competition, false or deceptive advertising, and auto-renewal practices. Classmates asserts that these claims are indemnifiable claims under the purchase agreement between United Online, Inc. and the buyer of Classmates. A tolling agreement with certain California District Attorneys has been signed and informal discovery and production is in process. At the present time, the financial impact to the Company, if any, cannot be estimated.

In July 2017, an arbitration claim was filed with FINRA by Dominick & Dickerman LLC and Michael Campbell against WSI and Gary Wunderlich with respect to the acquisition by Wunderlich Investment Company, Inc. (“WIC”) (the parent corporation of WSI) of certain assets of Dominick & Dominick LLC in 2015. The Claimants allege that respondents overvalued WIC so that the purchase price paid to the Claimants in shares of WIC stock was artificially inflated. The Statement of Claim includes claims for common law fraud, negligent misrepresentation, and breach of contract. Claimants are seeking damages of approximately \$8,000 plus unspecified punitive damages. Respondents believe the claims are meritless and intend to vigorously defend the action.

In September 2017, Frontier State Bank (“Frontier”) filed a lawsuit against Wunderlich Loan Capital Corp., a subsidiary of WIC (“WLCC”), seeking rescission of the purchase a residential mortgage in the amount of \$1,300. Vanguard Funding, LLC (“Vanguard”) sold the mortgage to WLCC who then assigned its rights to Frontier. Shortly after closing, Frontier was advised that the mortgage had been previously pledged to another lender. In the lawsuit against WLCC, it is alleged that WLCC did not deliver the mortgage to Frontier with clear title. Discovery is ongoing.

Critical Accounting Policies

Our condensed consolidated financial statements have been prepared in accordance with generally accepted accounting principles in the United States (“GAAP”), which require management to make estimates and assumptions that affect reported amounts of assets and liabilities and disclosures of contingent assets and liabilities. The estimates and assumptions are based on historical experience and on other factors that management believes to be reasonable. Actual results may differ from those estimates. Critical accounting policies represent the areas where more significant judgments and estimates are used in the preparation of our condensed consolidated financial statements. A discussion of such critical accounting policies, which include revenue recognition, reserves for accounts receivable, the carrying value of goodwill and other intangible assets, fair value measurements, share-based compensation and accounting for income tax valuation allowances can be found in our Annual Report on Form 10-K for the fiscal year ended December 31, 2017. On January 1, 2018, we adopted Accounting Standards Codification (“ASC”) 606 – *Revenue from Contracts with Customers* using the modified retrospective method and the impact was determined to be immaterial on our consolidated financial statements. The new revenue standard was applied prospectively in our condensed consolidated financial statements from January 1, 2018 forward and reported financial information for historical comparable periods will not be revised and will continue to be reported under the accounting standards in effect during those historical periods. See Note 9 for additional information on the adoption of this standard.

Total revenues increased \$58.8 million to \$125.5 million during the three months ended June 30, 2018 from \$66.7 million during the three months ended June 30, 2017. The increase in revenues during the three months ended June 30, 2018 was primarily due to an increase in revenues from services and fees of \$54.5 million and an increase in revenues from interest income – securities lending of \$4.4 million. The increase in revenues from services and fees of \$54.5 million in 2018 was primarily due to an increase in revenues of \$49.5 million in the capital markets segment and \$5.0 million in the auction and liquidation segment, \$1.5 million in the valuation and appraisal segment, offset by a decrease in revenues of \$1.6 million in the principal investments – United Online segment. The increase of \$4.4 million in interest income – securities lending was as a result of the acquisition of FBR on June 1, 2017.

Revenues from services and fees in the capital markets segment increased \$49.5 million, to \$71.2 million during the three months ended June 30, 2018 from \$21.7 million during the three months ended June 30, 2017. The increase in revenues was primarily due to an increase in revenues of \$16.9 million from investment banking fees, \$17.1 million from wealth management services, \$3.7 million from sales and trading, \$3.9 million from other income and \$7.9 million from trading gains. The \$16.9 million increase in investment banking fees was primarily due to operations of FBR that we acquired on June 1, 2017. The increase in revenues from wealth management of \$17.1 million was primarily from the acquisition of Wunderlich on July 3, 2017. The increase in other revenues of \$3.9 million in 2018 was primarily attributable to the acquisition of Wunderlich. The increase of \$4.4 million in interest income – securities lending was as a result of the acquisition of FBR on June 1, 2017.

Revenues from services and fees in the auction and liquidation segment increased \$5.0 million, to \$26.8 million during the three months ended June 30, 2018 from \$21.8 million during the three months ended June 30, 2017. The increase in revenues of \$5.0 million was primarily due to an increase in revenues of \$3.1 million from services and fees from retail liquidation engagements and an increase in revenues of \$1.9 million from services and fees in our wholesale and industrial auction division.

Revenues from services and fees in the valuation and appraisal segment increased \$1.5 million, or 18.8%, to \$9.5 million during the three months ended June 30, 2018 from \$8.0 million during the three months ended June 30, 2017. The increase in revenues was primarily due to increases related to appraisal engagements where we perform valuations for the monitoring of collateral for financial institutions, lenders, and private equity investors.

Revenues from services and fees in the principal investments - United Online segment decreased \$1.6 million to \$11.4 million during the three months ended June 30, 2018 from \$13.0 million during the three months ended June 30, 2017. The decrease in revenues was primarily due to lower paid subscribers to our services and lower advertising impressions as a result of a decline in active accounts. Services revenues primarily from customer paid accounts related to our Internet access and related subscription services decreased \$0.8 million to \$9.0 million during the three months ended June 30, 2018 from \$9.8 million during the three months ended June 30, 2017. Advertising revenues from Internet display advertising and search related to our email and Internet access services decreased \$0.8 million to \$2.4 million during the three months ended June 30, 2018 from \$3.2 million during the three months ended June 30, 2017. Over the past several years revenues from paid subscription services have declined year over year as a result of a decline in the number of paid subscribers for our services. Management believes the decline in paid subscriber accounts is primarily attributable to the industry trends of consumers switching from dial-up Internet access to high speed Internet access such as cable and DSL. Management expects revenues in the principal investments - United Online segment to continue to decline year over year.

Total revenues increased \$101.7 million to \$221.3 million during the six months ended June 30, 2018 from \$119.6 million during the six months ended June 30, 2017. The increase in revenues during the six months ended June 30, 2018 was primarily due to an increase in revenues from services and fees of \$90.1 million and an increase in revenues from interest income – securities lending of \$11.7 million. The increase in revenues from services and fees of \$90.1 million in 2018 was primarily due to an increase in revenues of \$84.8 million in the capital markets segment, \$6.6 million in the auction and liquidation segment and \$2.2 million in the valuation and appraisal segment, offset by a decrease in revenues of \$3.5 million in the principal investments – United Online segment. The increase of \$11.7 million in interest income – securities lending was as a result of the acquisition of FBR on June 1, 2017.

Revenues from services and fees in the capital markets segment increased \$84.8 million, to \$124.2 million during the six months ended June 30, 2018 from \$39.4 million during the six months ended June 30, 2017. The increase in revenues was due to an increase in revenues of \$29.5 million from investment banking fees, \$34.4 million from wealth management services, \$10.6 million from sales and trading, \$8.6 million from other income and \$1.7 million from trading gains. The \$29.5 million increase in investment banking fees was primarily due to operations of FBR that we acquired on June 1, 2017. The increase in revenues from wealth management of \$34.4 million was primarily from the acquisition of Wunderlich on July 3, 2017. The increase in other revenues of \$8.6 million in 2018 is primarily attributable to the acquisition of Wunderlich.

Revenues from services and fees in the auction and liquidation segment increased \$6.6 million, to \$42.4 million during the six months ended June 30, 2018 from \$35.8 million during the six months ended June 30, 2017. The increase in revenues of \$6.6 million was primarily due to an increase in revenues of \$4.4 million from services and fees from retail liquidation engagements and an increase in revenues of \$2.2 million from services and fees in our wholesale and industrial auction division.

Revenues from services and fees in the valuation and appraisal segment increased \$2.2 million, or 14.1%, to \$18.0 million during the six months ended June 30, 2018 from \$15.8 million during the six months ended June 30, 2017. The increase in revenues was primarily due to increases related to appraisal engagements where we perform valuations for the monitoring of collateral for financial institutions, lenders, and private equity investors.

Revenues from services and fees in the principal investments - United Online segment decreased \$3.5 million to \$22.8 million during the six months ended June 30, 2018 from \$26.3 million during the six months ended June 30, 2017. The decrease in revenues was primarily due to lower paid subscribers to our services and lower advertising impressions as a result of a decline in active accounts. Services revenues primarily from customer paid accounts related to our Internet access and related subscription services decreased \$2.3 million to \$18.2 million during the six months ended June 30, 2018 from \$20.5 million during the six months ended June 30, 2017. Advertising revenues from Internet display advertising and search related to our email and Internet access services decreased \$1.2 million to \$4.6 million during the six months ended June 30, 2018 from \$5.8 million during the six months ended June 30, 2017. Over the past several years revenues from paid subscription services have declined year over year as a result of a decline in the number of paid subscribers for our services. Management believes the decline in paid subscriber accounts is primarily attributable to the industry trends of consumers switching from dial-up Internet access to high speed Internet access such as cable and DSL. Management expects revenues in the principal investments - United

Online segment to continue to decline year over year.

Cash used in operating activities for the six months ended June 30, 2018 includes net income of \$22.6 million adjusted for noncash items and changes in operating assets and liabilities. The increase in cash used in operating activities of \$125.9 million was primarily due to changes in operating assets and liabilities that resulted in a decrease of \$243.3 million in cash flows from operations during the six months ended June 30, 2018, offset by (a) an increase in net income of approximately \$5.4 million to \$22.6 million during the six months ended June 30, 2018 from \$17.3 million during the six months ended June 30, 2017 and (b) an increase in non-cash charges and other items of \$11.9 million, which included depreciation and amortization of \$6.7 million, share-based compensation of \$5.6 million, income on equity investments of \$4.2 million, provision for doubtful accounts of \$0.6 million, impairment of leaseholds, lease loss accrual and loss on disposal of fixed assets of \$1.4 million, income allocated for mandatorily redeemable noncontrolling interests of \$0.5 million and other non-cash items of \$1.3 million.

Cash used in investing activities was \$3.7 million during the six months ended June 30, 2018 compared to cash provided by investing activities of \$9.6 million for the six months ended June 30, 2017. During the six months ended June 30, 2018, cash used in investing activities consisted of cash used for equity investments in the amounts of \$3.6 million and cash use of \$1.8 million for purchases of property and equipment, offset by \$1.7 million dividends received from equity investment. During the six months ended June 30, 2017, cash provided by investing activities consisted of (a) cash acquired from the acquisition of FBR of \$15.7 million, (b) proceeds from key man life insurance of \$6.0 million, and (c) proceeds of \$0.6 million from the sale of intangible assets, offset by (a) use of \$10.4 million to pay off acquisition consideration payable, and (b) use of \$2.1 million for the acquisition of other businesses.

Cash provided by financing activities was \$252.2 million during the six months ended June 30, 2018 compared to cash provided by financing activities of \$65.8 million during the six months ended June 30, 2017. During the six months ended June 30, 2018, cash provided by financing activities primarily consisted of (a) \$132.1 million proceeds from issuance of senior notes, (b) \$105.5 million net proceeds from our asset based credit facility, and (c) \$51.0 million proceeds from notes payable, offset by (a) \$17.3 million used to repurchase our common stock, (b) \$9.5

million used to pay cash dividends, (c) \$4.9 million used for payment of debt issuance costs, (d) \$3.6 million used for payment of employment taxes on vesting of restricted stock (e) \$0.4 million used for repayment of notes payable, and (f) \$0.8 million distribution to noncontrolling interests. . During the six months ended June 30, 2017, cash provided by financing activities primarily consisted of (a) \$20.2 million net proceeds from asset based credit facility and (b) \$60.4 million proceeds from issuance of senior notes, offset by (a) \$8.4 million used to pay cash dividends, (b) \$2.5 million used for payment of debt issuance costs, (c) \$1.6 million distributions to noncontrolling interests, (d) \$1.3 million used for the payment of contingent consideration, and (d) \$1.1 million used for the payment of employment taxes on vesting of restricted stock.

Credit Agreements

On April 21, 2017, we amended the Credit Agreement governing our asset based credit facility with Wells Fargo Bank to increase the maximum borrowing limit from \$100.0 million to \$200.0 million. Such amendment, among other things, also extended the expiration date of the credit facility from July 15, 2018 to April 21, 2022. On April 19, 2018, the Company entered into an amended and restated consent to the Credit Agreement, pursuant to which Wells Fargo Bank increased the maximum borrowing limit solely for the purposes of the Bon-Ton Transactions from \$200.0 million to \$300.0 million and reverts back to \$200.0 million upon repayment of the amounts borrowed in connection with the Bon-Ton Transactions. The Credit Agreement continues to allow for borrowings under the separate credit agreement (a “UK Credit Agreement”) which was dated March 19, 2015 with an affiliate of Wells Fargo Bank which provides for the financing of transactions in the United Kingdom with borrowings up to 50.0 million British Pounds. Any borrowing on the UK Credit Agreement reduce the availability of the asset based \$300.0 million credit facility. The UK Credit Agreement is cross collateralized and integrated in certain respects with the Credit Agreement. The Credit Agreement continues to include the addition of our Canadian subsidiary, from the October 5, 2016 amendment to the Credit Agreement, to facilitate borrowings to fund retail liquidation transactions in Canada. From time to time, we utilize this credit facility to fund costs and expenses incurred in connection with liquidation engagements. We also utilize this credit facility in order to issue letters of credit in connection with liquidation engagements conducted on a guaranteed basis. Subject to certain limitations and offsets, we are permitted to borrow up to \$200.0 million under the credit facility, less the aggregate principal amount borrowed under the UK Credit Agreement (if in effect). Borrowings under the credit facility are only made at the discretion of the lender and are generally required to be repaid within 180 days. The interest rate for each revolving credit advance under the related credit agreement is, subject to certain terms and conditions, equal to the LIBOR plus a margin of 2.25% to 3.25% depending on the type of advance and the percentage such advance represents of the related transaction for which such advance is provided. The credit facility is secured by the proceeds received for services rendered in connection with the liquidation service contracts pursuant to which any outstanding loan or letters of credit are issued and the assets that are sold at liquidation related to such contract, if any. The credit facility also provides for success fees in the amount of 2.5% to 17.5% of the net profits, if any, earned on liquidation engagements that are financed under the credit facility as set forth in the related credit agreement. We typically seek borrowings on an engagement-by- engagement basis. The credit agreement governing the credit facility contains certain covenants, including covenants that limit or restrict our ability to incur liens, incur indebtedness, make investments, dispose of assets, make certain restricted payments, merge or consolidate and enter into certain transactions with affiliates. At June 30, 2018, the balance on the asset based credit facility was \$105.0 million (net of unamortized deferred loan costs of \$0.5 million). At December 31, 2017, there was \$18.5 million of letters of credit outstanding under the credit facility.

On April 13, 2017, UOL, in the capacity as borrower, entered into a credit agreement (the “UOL Credit Agreement”) with the Banc of California, N.A. in the capacity as agent and lender. The UOL Credit Agreement provides for a revolving credit facility under which UOL may borrow (or request the issuance of letters of credit) up to \$20.0 million which amount is reduced by \$1.5 million commencing on June 30, 2017 and on the last day of each calendar quarter thereafter. The final maturity date is April 13, 2020. The proceeds of the UOL Credit Agreement can be used (a) for working capital and general corporate purposes and/or (b) to pay dividends or permitted tax distributions to its parent company, subject to the terms of the UOL Credit Agreement. Borrowings under the UOL Credit Agreement will bear interest at a rate equal to (a) (i) the base rate (the greater of the federal funds rate plus one half of one percent (0.5%), or the prime rate) for U.S. dollar loans or (ii) at UOL’s option, the LIBOR Rate for Eurodollar loans, plus (b) the applicable margin rate, which ranges from two percent (2%) to three and one-half percent (3.5%) per annum, based upon UOL’s ratio of funded indebtedness to adjusted earnings before interest, taxes, depreciation and amortization (EBITDA) for the preceding four (4) fiscal quarters. Interest payments are to be made each one, three or six months for Eurodollar loans, and quarterly for U.S. dollar loans.

UOL paid a commitment fee equal to 1.00% of the aggregate commitments upon the closing of the UOL Credit Agreement. The UOL Credit Agreement also provides for an unused line fee payable quarterly, in arrears, in an amount equal to: (a) 0.50% per annum times the amount of the unused revolving commitment that is less than or equal to the amount of the cash maintained in accounts with the agent (as depositary bank); plus (b) 1.00% per annum times the amount of the unused revolving commitment that is greater than the amount of the cash maintained in accounts with the agent (as depositary bank). Any amounts outstanding under the UOL Credit Facility are due at maturity. At June 30, 2018 and December 31, 2017, there was no outstanding balances under the UOL Credit Agreement.

On November 2, 2016, we issued \$28.8 million Senior Notes (the “2021 Notes”) and during the second half of 2017, we issued an additional \$6.5 million of the 2021 Notes pursuant to the At the Market Issuance Sales Agreement (the “Sales Agreement”) as further discussed below. During the six months ended June 30, 2018, we issued an additional \$6.0 million of the 2021 Notes. The 2021 Notes are unsecured and due and payable in full on October 31, 2021. On May 31, 2017, we issued \$60.4 million of Senior Notes (the “7.50% 2027 Notes”) and during the second half of 2017, we issued an additional \$32.1 million of the 7.50% 2027 Notes. During the six months ended June 30, 2018, we issued an additional \$8.1 million of the 7.50% 2027 Notes. The 7.50% 2027 Notes are unsecured and due and payable in full on May 31, 2027. In connection with the issuance of the 7.50% 2027 Notes, we received net proceeds of \$98.9 million (after underwriting commissions, fees and other issuance costs of \$1.8 million). The outstanding balance of the 7.50% 2027 Notes was \$99.1 million (net of unamortized debt issue costs and premium of \$1.6 million) at June 30, 2018.

In December 2017, we issued \$80.5 million of the 7.25% 2027 Notes and during the six months ended June 30, 2018, we issued an additional \$16.4 million of the 7.25% 2027 Notes. The 7.25% 2027 Notes are unsecured and due and payable in full on December 31, 2027. In connection with the issuance of the 7.25% 2027 Notes, we received net proceeds of \$94.3 million (after underwriting commissions, fees and other issuance costs of \$2.6 million). The outstanding balance of the 7.25% 2027 Notes was \$94.5 million (net of unamortized debt issue costs and premium of \$2.4 million) at June 30, 2018.

In May 2018, we issued approximately \$100.1 million of the 2023 Notes and during the three months ended June 30 2018, we issued approximately an additional \$1.6 million of the 2023 Notes pursuant. The 2023 Notes are unsecured and due and payable in full on May 31, 2023. In connection with the issuance of the 2023 Notes, we received net proceeds of \$99.6 million (after underwriting commissions, fees and other issuance costs of \$2.0 million). The outstanding balance of the 2023 Notes was \$99.6 million (net of unamortized debt issue costs and premium of \$2.0 million) at June 30, 2018.

On June 5, 2018, we filed a prospectus supplement pursuant to which we may sell from time to time, at our option up to an aggregate of \$50.0 million, including notes offered pursuant to the prior prospectus supplement, of the 2021 Notes, the 7.50% 2027 Notes, the 7.25% 2027 Notes and the 2023 Notes. We previously entered into an At Market Issuance Sales Agreement (the "Sales Agreement") on December 19, 2017 with B. Riley FBR, pursuant to which we may offer to sell, from time to time, the 2021 Notes, the 7.50% 2027 Notes and the 7.25% 2027 Notes. As of June 5, 2018, we sold Notes having an aggregate offering price of \$6.3 million under the prior prospectus supplement dated April 25, 2018, leaving up to \$43.7 million available for offer and sale pursuant to the June 5, 2018 prospectus. The Notes sold pursuant to the Sales Agreement on or following June 5, 2018 will be issued pursuant to a prospectus dated April 6, 2018, as supplemented by a prospectus supplement dated June 5, 2018, in each case filed with the SEC pursuant to the Company's effective Registration Statement on Form S-3 (File No. 333-223789), which was declared effective by the SEC on April 6, 2018. The Notes will be issued pursuant to the Indenture, dated as of November 2, 2016, as supplemented by a First Supplemental Indenture, dated as of November 2, 2016, the Second Supplemental Indenture, dated as of May 31, 2017, and the Third Supplemental Indenture, dated as of December 13, 2017 and the Fourth Supplemental Indenture dated as of May 17, 2018, each between the Company and U.S. Bank, National Association, as trustee. Future sales of the 2021 Notes, 7.50% 2027 Notes, 7.25% 2027 Notes and the 2023 Notes pursuant to the Sales Agreement will depend on a variety of factors including, but not limited to, market conditions, the trading price of the notes and the Company's capital needs. There can be no assurance we will be successful in consummating future sales based on prevailing market conditions or in the quantities or at the prices that we may deem appropriate.

Other Borrowings

Notes payable include notes payable to a clearing organization for one of our broker dealers. The notes payable accrue interest at rates ranging from the prime rate plus 0.25% to 2.0% (5.25% to 7.00% at June 30, 2018) payable annually. The principal payments on the notes payable are due annually in the amount of \$0.4 million on January 31, \$0.2 million on September 30, and \$0.1 million on October 31. The notes payable mature at various dates from September 30, 2018 through January 31, 2022. At June 30, 2018 the outstanding balance for the notes payable was \$1.9 million.

On April 19, 2018, we borrowed approximately \$51.0 million from GACP II, L.P., a direct lending fund managed by Great American Capital Partners, LLC, a wholly owned subsidiary of the Company. In accordance with the note payable, we were advanced \$50.0 million and the note payable included an origination fee of \$1.0 million that increased the face value of the note payable to \$51.0 million. Interest is payable monthly and accrues at the three-month LIBOR rate plus 9% (11.34% at June 30, 2018). The note payable is due in full on September 28, 2018 and is collateralized by the proceeds generated from the joint venture liquidation of inventory and real estate related to a retail liquidation agreement. At June 30, 2018, the outstanding balance was \$50.4 million (net of unamortized debt issuance cost of \$0.6 million).

Off-Balance Sheet Arrangements

We have no obligations, assets or liabilities which would be considered off-balance sheet arrangements and do not participate in transactions that create relationships with unconsolidated entities or financial partnerships, often referred to as variable interest entities, established for the purpose of facilitating off-balance sheet arrangements. We have not guaranteed any debt or commitments of other entities or entered into any options on non-financial assets.

Recent Accounting Pronouncements

In March 2018, the Financial Accounting Standards Board (the "FASB") issued ASU 2018-05: *Income Taxes (Topic 740) - Amendments to SEC Paragraphs Pursuant to SEC Staff Accounting Bulletin No. 118*. The amendments in this update provide guidance on when to record and disclose provisional amounts for certain income tax effects of the Tax Cuts and Jobs Act ("Tax Reform Act"). The amendments also require any provisional amounts or subsequent adjustments to be included in net income from continuing operations. This ASU also discusses required disclosures that an entity must make with regard to the Tax Reform Act. This ASU is effective immediately as new information is available to adjust provisional amounts that were previously recorded. The Company has adopted this standard and will continue to evaluate indicators that may give rise to a change in our tax provision as a result of the Tax Reform Act. See Note 10 to our condensed consolidated financial statements for additional information on the Tax Reform Act.

In February 2016, the FASB issued ASU No. 2016-02: *Leases (Topic 842)* (“ASU 2016-02”). The amendments in this update require lessees, among other things, to recognize lease assets and lease liabilities on the balance sheet for those leases classified as operating leases under previous authoritative guidance. This update also introduces new disclosure requirements for leasing arrangements. In July 2018, the FASB issued ASU 2018-10: *Codification Improvements to Topic 842, Leases*, which provides narrow-scope improvements to the lease standard. ASU 2016-02 and ASU 2018-10 will be effective for the Company in fiscal year 2019, but early application is permitted. The Company is currently evaluating the impact of these updates on the consolidated financial statements.

In February 2018, the FASB issued ASU 2018-02, *Income Statement - Reporting Comprehensive Income (Topic 220): Reclassification of Certain Tax Effects from Accumulated Other Comprehensive Income* that provides for the reclassification from accumulated other comprehensive income to retained earnings for stranded effects resulting from the Tax Cuts and Jobs Act of 2017. The accounting update is effective for the fiscal year beginning after December 15, 2018 and early adoption is permitted. The accounting update should be applied either in the period of adoption or retrospectively to each period in which the effect of the change in the U.S. federal corporate income tax rate in the Tax Act of 2017 is recognized. We are currently evaluating the impact of the accounting update, but the adoption is not expected to have a material impact on our consolidated financial statements.

In August 2016, the FASB issued ASU 2016-15, *Statement of Cash Flows (Topic 230): Classification of Certain Cash Receipts and Cash Payments (ASU 2016-15)*, which clarifies how companies present and classify certain cash receipts and cash payments in the statement of cash flows. ASU 2016-15 is effective for us in our first quarter of fiscal year 2019, but early application is permitted. The Company has not yet adopted this update and is currently evaluating the impact it may have on its financial condition and results of operations.

In January 2017, the FASB issued ASU 2017-04, *Intangibles—Goodwill and Other (Topic 350) Simplifying the Test for Goodwill Impairment*. This standard simplifies the accounting for goodwill impairment. The guidance removes Step 2 of the goodwill impairment test, which requires a hypothetical purchase price allocation. Goodwill impairment will now be the amount by which a reporting unit’s carrying value exceeds its fair value, not to exceed the carrying amount of goodwill. The revised guidance will be applied prospectively, and is effective for calendar year-end SEC filers for its annual or any interim goodwill impairment tests in fiscal years beginning after December 15, 2019. Early adoption is permitted for interim or annual goodwill impairment tests performed on testing dates after January 1, 2017. The Company has not yet adopted this update and currently evaluating the effect this new standard will have on its financial condition and results of operations

On January 1, 2018, we adopted ASU 2016-18 – *Statement of Cash Flows (Topic 230): Restricted Cash* (“ASU 2016-18”) using the retrospective method which requires adjustment to prior periods in the statement of cash flows. ASU 2016-18 clarifies how restricted cash should be presented on the statement of cash flows and requires companies to include restricted cash with cash and cash equivalents when reconciling the beginning of period and end of period totals on the statement of cash flows. Restricted cash previously classified under investing activities is now included in the reconciliation of beginning and ending cash on the statement of cash flows. The adoption of ASU 2016-18 did not have a material impact on the Company’s financial condition and results of operations.

On January 1, 2018, we adopted Accounting Standards Codification (“ASC”) 606 – *Revenue from Contracts with Customers* using the modified retrospective method and the impact was determined to be immaterial on our consolidated financial statements. The new revenue standard was applied prospectively in our condensed consolidated financial statements from January 1, 2018 forward and reported financial information for historical comparable periods will not be revised and will continue to be reported under the accounting standards in effect during those historical periods. See Note 9 for additional information on the adoption of this standard.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

B. Riley's primary exposure to market risk consists of risk related to changes in interest rates. B. Riley has not used derivative financial instruments for speculation or trading purposes.

Interest Rate Risk

Our primary exposure to market risk consists of risk related to changes in interest rates. We utilize borrowings under our senior notes payable and credit facilities to fund costs and expenses incurred in connection with our acquisitions and retail liquidation engagements. Borrowings under our senior notes payable are at fixed interest rates and borrowings under our credit facilities bear interest at a floating rate of interest. In our portfolio of securities owned we invest in loans receivable that primarily bear interest at a floating rate of interest.

The primary objective of our investment activities is to preserve capital for the purpose of funding operations while at the same time maximizing the income we receive from investments without significantly increasing risk. To achieve these objectives, our investments allow us to maintain a portfolio of cash equivalents, short-term investments through a variety of securities owned that primarily includes common stocks, loans receivable and investments in partnership interests. Our cash and cash equivalents through June 30, 2018 included amounts in bank checking and liquid money market accounts. We may be exposed to interest rate risk through trading activities in convertible and fixed income securities as well as U.S. Treasury securities, however, based on our daily monitoring of this risk, we believe we currently have limited exposure to interest rate risk in these activities.

Foreign Currency Risk

The majority of our operating activities are conducted in U.S. dollars. Revenues generated from our foreign subsidiaries totaled \$1.3 million for the six months ended June 30, 2018 or less than 1% of our total revenues of \$221.3 million during the six months ended June 30, 2018. The financial statements of our foreign subsidiaries are translated into U.S. dollars at period-end rates, with the exception of revenues, costs and expenses, which are translated at average rates during the reporting period. We include gains and losses resulting from foreign currency transactions in income, while we exclude those resulting from translation of financial statements from income and include them as a component of accumulated other comprehensive income (loss). Transaction gains (losses), which were included in our consolidated statements of income, amounted to a gain of \$0.9 million and a loss of \$0.5 million during the six months ended June 30, 2018 and 2017, respectively. We may be exposed to foreign currency risk; however, our operating results during the six months ended June 30, 2018 included \$1.3 million of revenues from our foreign subsidiaries and a 10% appreciation of the U.S. dollar relative to the local currency exchange rates would result in approximately \$0.1 million increase in our operating income and a 10% depreciation of the U.S. dollar relative to the local currency exchange rates would have resulted in a net decrease in our operating income of

approximately \$0.1 million for the six months ended June 30, 2018.

Item 4. Controls and Procedures.

Evaluation of Disclosure Controls and Procedures

We maintain a system of disclosure controls and procedures (as defined in the Rules 13a-15(e) and 15(d)-15(e) under the Securities Exchange Act of 1934, as amended (the “Exchange Act”)) that is designed to ensure that information required to be disclosed in our Exchange Act reports is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission’s rules and forms, and that such information is accumulated and communicated to our management, including our Co-Chief Executive Officers and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosures.

Under the supervision and with the participation of our management, including our Co-Chief Executive Officers and Chief Financial Officer, we conducted an evaluation of our disclosure controls and procedures pursuant to Rule 13a-15 under the Exchange Act. Based upon the foregoing evaluation, our Co-Chief Executive Officers and our Chief Financial Officer concluded that as of June 30, 2018 our disclosure controls and procedures were effective at the reasonable assurance level.

Changes in Internal Control over Financial Reporting

There have been no changes to our internal control over financial reporting during the fiscal quarter covered by this Quarterly Report that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Inherent Limitation on Effectiveness of Controls

Our management, including our Co-Chief Executive Officers and Chief Financial Officer, does not expect that our disclosure controls and procedures or our internal control over financial reporting will prevent or detect all errors and all fraud. A control system, no matter how well-designed and operated, can provide only reasonable, not absolute, assurance that the control system's objectives will be met. The design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Further, because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that misstatements due to error or fraud will not occur or that all control issues and instances of fraud, if any, have been detected. The design of any system of controls is based in part on certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions. Projections of any evaluation of the effectiveness of controls to future periods are subject to risks. Over time, controls may become inadequate because of changes in conditions or deterioration in the degree of compliance with policies or procedures.

PART II—OTHER INFORMATION

Item 1. Legal Proceedings.

The Company is subject to certain legal and other claims that arise in the ordinary course of its business. In particular, the Company and its subsidiaries are named in and subject to various proceedings and claims arising primarily from our securities business activities, including lawsuits, arbitration claims, class actions, and regulatory matters. Some of these claims seek substantial compensatory, punitive, or indeterminate damages. The Company and its subsidiaries are also involved in other reviews, investigations, and proceedings by governmental and self-regulatory organizations regarding our business, which may result in adverse judgments, settlements, fines, penalties, injunctions, and other relief. In view of the number and diversity of claims against our company, the number of jurisdictions in which litigation is pending, and the inherent difficulty of predicting the outcome of litigation and other claims, we cannot state with certainty what the eventual outcome of pending litigation or other claims will be. Notwithstanding this uncertainty, the Company does not believe that the results of these claims are likely to have a material effect on its financial position or results of operations.

In 2012, *Gladden v. Cumberland Trust, WSI, et al.* filed a complaint in Circuit Court, Hamblen County, TN at Morristown, Case No. 12-CV-119. This complaint alleges the improper distribution and misappropriation of trust funds. The plaintiff seeks damages of no less than \$3.9 million, an accounting, and among other things, punitive damages. In October 2017, the Tennessee Supreme Court remanded the case to the Tennessee State Trial Court for determination of which claims are subject to arbitration and which are not. The case was settled during the second quarter of 2018.

In May 2014, *Waterford Township Police & Fire Retirement System et al. v. Regional Management Corp et al.*, filed a complaint in the Southern District of New York (the “Court”), against underwriters alleging violations under sections 11 and 12 of the Securities Act of 1933, as amended (the “Securities Act”). B. Riley FBR, Inc. (“B. Riley FBR”) (formerly, FBR Capital Markets & Co. (“FBRCM”)), a broker-dealer subsidiary of ours, was a co-manager of 2 offerings. On January 30, 2017, the Court denied the plaintiffs’ motion to file a first amended complaint, which would have revived claims previously dismissed by the Court on March 30, 2016. On March 1, 2017, the plaintiffs filed a notice of appeal and an opening brief on June 21, 2017. Defendant’s opposition motion was filed on September 12, 2017. Appellants filed their reply brief on October 17, 2017 and oral argument was held on November 17, 2017. On January 26, 2018, the Appellate court issued its order affirming the court’s order dismissing the plaintiff’s case and denying leave to amend.

On January 5, 2017, complaints filed in November 2015 and May 2016 naming MLV & Co. (“MLV”), a broker-dealer subsidiary of FBR, as a defendant in putative class action lawsuits alleging claims under the Securities Act, in connection with the offerings of Miller Energy Resources, Inc. (“Miller”) have been consolidated. The Master Consolidated Complaint, styled *Gaynor v. Miller et al.*, is pending in the United States District Court for the Eastern District of Tennessee, and, like its predecessor complaints, continues to allege claims under Sections 11 and 12 of the

Securities Act against nine underwriters for alleged material misrepresentations and omissions in the registration statement and prospectuses issued in connection with six offerings (February 13, 2013; May 8, 2013; June 28, 2013; September 26, 2013; October 17, 2013 (as to MLV only) and August 21, 2014) with an alleged aggregate offering price of approximately \$151.0 million. The plaintiffs seek unspecified compensatory damages and reimbursement of certain costs and expenses. In August 2017, the Court granted Defendant's Motion to Dismiss on Section 12 claims and found that the plaintiffs had not sufficiently alleged a corrective disclosure prior to August 6, 2015, when an SEC civil action was announced. Defendants' answer was filed on September 25, 2017. Plaintiffs have filed motions for class certification and to remand the case to state court following a positive ruling in an unrelated case by the U.S. Supreme Court. Although MLV is contractually entitled to be indemnified by Miller in connection with this lawsuit, Miller filed for bankruptcy in October 2015 and this likely will decrease or eliminate the value of the indemnity that MLV receives from Miller.

In February 2017, certain former employees filed an arbitration claim with FINRA against Wunderlich Securities, Inc. ("WSI") alleging misrepresentations in the recruitment of claimants to join WSI. Claimants also allege that WSI failed to support their mortgage trading business resulting in the loss of opportunities during their employment with WSI. Claimants are seeking \$10.0 million in damages. WSI has counterclaimed alleging that claimants misrepresented their process for doing business, particularly their capital needs, resulting in substantial losses to WSI. WSI believes the claims are meritless and intends to vigorously defend the action.

In March 2017, United Online, Inc. received a letter from PeopleConnect, Inc. (formerly, Classmates, Inc.) ("Classmates") regarding a notice of investigation received from the Consumer Protection Divisions of the District Attorneys' offices of four California counties ("California DAs"). These entities suggest that Classmates may be in violation of California codes relating to unfair competition, false or deceptive advertising, and auto-renewal practices. Classmates asserts that these claims are indemnifiable claims under the purchase agreement between United Online, Inc. and the buyer of Classmates. A tolling agreement with certain California District Attorneys has been signed and informal discovery and production is in process. At the present time, the financial impact to the Company, if any, cannot be estimated.

In July 2017, an arbitration claim was filed with FINRA by Dominick & Dickerman LLC and Michael Campbell against WSI and Gary Wunderlich with respect to the acquisition by Wunderlich Investment Company, Inc. (“WIC”) (the parent corporation of WSI) of certain assets of Dominick & Dominick LLC in 2015. The Claimants allege that respondents overvalued WIC so that the purchase price paid to the Claimants in shares of WIC stock was artificially inflated. The Statement of Claim includes claims for common law fraud, negligent misrepresentation, and breach of contract. Claimants are seeking damages of approximately \$8.0 million plus unspecified punitive damages. Respondents believe the claims are meritless and intend to vigorously defend the action.

In September 2017, Frontier State Bank (“Frontier”) filed a lawsuit against Wunderlich Loan Capital Corp., a subsidiary of WIC (“WLCC”), seeking rescission of the purchase a residential mortgage in the amount of \$1,300. Vanguard Funding, LLC (“Vanguard”) sold the mortgage to WLCC who then assigned its rights to Frontier. Shortly after closing, Frontier was advised that the mortgage had been previously pledged to another lender. In the lawsuit against WLCC, it is alleged that WLCC did not deliver the mortgage to Frontier with clear title. Discovery is ongoing.

Item 1A. Risk Factors.

There are certain risks and uncertainties in our business that could cause our actual results to differ materially from those anticipated. A detailed discussion of our risk factors was included in Part I, Item 1A, “Risk Factors” of our Annual Report on Form 10-K for the year ended December 31, 2017, filed with the Securities and Exchange Commission on March 14, 2018. These risk factors should be read carefully in connection with evaluating our business and in connection with the forward-looking statements and other information contained in this Quarterly Report on Form 10-Q. Any of the risks described in the Annual Report on Form 10-K for the year ended December 31, 2017 could materially affect our business, financial condition or future results and the actual outcome of matters as to which forward-looking statements are made. Except as set forth below, there have been no material changes to the risk factors set forth in the Annual Report on Form 10-K for the year ended December 31, 2017.

Significant disruptions of information technology systems, breaches of data security, or unauthorized disclosures of sensitive data or personally identifiable information could adversely affect our business, and could subject us to liability or reputational damage.

Our business is increasingly dependent on critical, complex, and interdependent information technology (“IT”) systems, including Internet-based systems, some of which are managed or hosted by third parties, to support business processes as well as internal and external communications. The size and complexity of our IT systems make us potentially vulnerable to IT system breakdowns, malicious intrusion, and computer viruses, which may result in the impairment of our ability to operate our business effectively.

In addition, our systems and the systems of our third-party providers and collaborators are potentially vulnerable to data security breaches which may expose sensitive data to unauthorized persons or to the public. Such data security breaches could lead to the loss of confidential information, trade secrets or other intellectual property, or could lead to the public exposure of personal information (including personally identifiable information) of our employees, customers, business partners, and others. In addition, the increased use of social media by our employees and contractors could result in inadvertent disclosure of sensitive data or personal information, including but not limited to, confidential information, trade secrets and other intellectual property.

Any such disruption or security breach, as well as any action by us or our employees or contractors that might be inconsistent with the rapidly evolving data privacy and security laws and regulations applicable within the United States and elsewhere where we conduct business, could result in enforcement actions by U.S. states, the U.S. Federal government or foreign governments, liability or sanctions under data privacy laws that protect personally identifiable information, regulatory penalties, other legal proceedings such as but not limited to private litigation, the incurrence of significant remediation costs, disruptions to our development programs, business operations and collaborations, diversion of management efforts and damage to our reputation, which could harm our business and operations. Because of the rapidly moving nature of technology and the increasing sophistication of cybersecurity threats, our measures to prevent, respond to and minimize such risks may be unsuccessful.

In addition, the European Parliament and the Council of the European Union adopted a comprehensive general data privacy regulation (“GDPR”) in 2016 to replace the current European Union Data Protection Directive and related country-specific legislation. The GDPR took effect in May 2018 and governs the collection and use of personal data in the European Union. The GDPR, which is wide-ranging in scope, will impose several requirements relating to the consent of the individuals to whom the personal data relates, the information provided to the individuals, the security and confidentiality of the personal data, data breach notification and the use of third party processors in connection with the processing of the personal data. The GDPR also imposes strict rules on the transfer of personal data out of the European Union to the United States, enhances enforcement authority and imposes large penalties for noncompliance, including the potential for fines of up to €20 million or 4% of the annual global revenues of the infringer, whichever is greater.

We, and other third party transaction partners, are party to certain agreements regarding Vintage Capital’s indirect acquisition of Rent-A-Center. These agreements contain financial commitments which obligate us to ensure funding for Vintage to complete the acquisition, including the provision of debt and equity funding and a guarantee of certain of Vintage’s obligations. We may not be able to fulfill any or all of these obligations, and Vintage may fail to perform any or all of its obligations. We may incur liability above and beyond our financial commitments and obligations. If the transaction fails to be consummated as a result of our or another’s inability to fulfill these obligations, our business could be adversely affected, and our reputation may be harmed.

On June 17, 2018, we entered into certain agreements pursuant to which we, among other things, agreed to provide certain debt and equity funding and other support in connection with the Vintage Capital’s indirect acquisition of Rent-A-Center. In connection with the acquisition, Vintage Capital agreed to pay \$15.00 per share in cash for each common share of Rent-A-Center, which together with the assumption of net debt, represents a total transaction value of approximately \$1.365 billion. We, along with Vintage’s subsidiaries, and affiliates of Guggenheim Corporate Funding, LLC have issued commitments to provide an aggregate principal amount of approximately \$1.1 billion in

debt to finance the acquisition. Equity financing will be used to fund the remaining portion of the purchase price.

We have not allocated funds internally to fulfill our obligations under the Rent-A-Center transaction agreements and expect we will need to syndicate all or a substantial portion of our commitments. This syndication may not be successful, and, even if we are successful in syndicating our commitments, we may be required to syndicate our commitments on terms unfavorable or disadvantageous to us. If we are unable to obtain funding, or funding sufficient for our financial commitments, we may be required to utilize our internal resources which may have a material adverse effect on our financial condition. In these circumstances, we may be forced to scale back certain of our other initiatives or may be unable to pursue opportunities we feel would be advantageous or beneficial to us. Further, we have agreed to provide a limited guarantee of certain of Vintage's obligations in the acquisition, and have also agreed to be jointly and severally liable for certain actions of our transaction partners. In addition, if the acquisition cannot be completed due, in whole or in part, to our, Vintage or our transaction partners' failure to honor our collective or respective individual obligations, we may incur additional liability, and our reputation may be harmed due in whole or in part to circumstances beyond our control. We may, through the guarantee, actions of our transaction partners, and due to other circumstances incur liability above and beyond our financial commitments. If one or more of the foregoing circumstances were to occur, this would have a material negative impact on our business and could have a negative impact on the price of our common stock.
