report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer Non-accelerated filer Smaller reporting company Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

APPLICABLE ONLY TO ISSUERS INVOLVED IN BANKRUPTCY PROCEEDINGS DURING THE PRECEDING FIVE YEARS:

Indicate by check mark whether the registrant has filed all documents and reports required to be filed by Sections 12, 13 or 15(d) of the Securities Exchange Act of 1934 subsequent to the distribution of securities under a plan confirmed by a court. Yes No

APPLICABLE ONLY TO CORPORATE ISSUERS:

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date: 20,692,615 common shares, without par value, at April 30, 2019.

PEOPLES BANCORP INC. AND SUBSIDIARIES

NOTES TO THE UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

Note 1 Summary of Significant Accounting Policies

Basis of Presentation: The accompanying Unaudited Consolidated Financial Statements of Peoples Bancorp Inc. and its subsidiaries ("Peoples" refers to Peoples Bancorp Inc. and its consolidated subsidiaries collectively, except where the context indicates the reference relates solely to Peoples Bancorp Inc.) have been prepared in accordance with accounting principles generally accepted in the United States ("US GAAP") for interim financial information and the instructions for Form 10-Q and Article 10 of Regulation S-X. Accordingly, these financial statements do not contain all of the information and footnotes required by US GAAP for annual financial statements and should be read in conjunction with Peoples' Annual Report on Form 10-K for the fiscal year ended December 31, 2018 ("Peoples' 2018 Form 10-K").

The accounting and reporting policies followed in the presentation of the accompanying Unaudited Consolidated Financial Statements are consistent with those described in Note 1 Summary of Significant Accounting Policies of the Notes to the Consolidated Financial Statements included in Peoples' 2018 Form 10-K, as updated by the information contained in this Form 10-Q. Management has evaluated all significant events and transactions that occurred after March 31, 2019 for potential recognition or disclosure in these consolidated financial statements. In the opinion of management, these consolidated financial statements reflect all adjustments necessary to present fairly such information for the periods and at the dates indicated. Such adjustments are normal and recurring in nature. Intercompany accounts and transactions have been eliminated. The Consolidated Balance Sheet at December 31, 2018, contained herein, has been derived from the audited Consolidated Balance Sheet included in Peoples' 2018 Form 10-K.

The preparation of the consolidated financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes. Results of operations for interim periods are not necessarily indicative of the results to be expected for the full year, due in part to seasonal variations and unusual or infrequently occurring items. Peoples' insurance income includes performance-based insurance commissions that are recognized by Peoples when received, which typically occurs, for the most part, during the first quarter of each year. For the three months ended March 31, 2019 and 2018, the amount of performance-based insurance commissions recognized totaled \$1.4 million and \$1.3 million, respectively.

New Accounting Pronouncements: From time to time, new accounting pronouncements are issued by the Financial Accounting Standards Board ("FASB") or other standard setting bodies that are adopted by Peoples as of the required effective dates. The following accounting pronouncements should be read in conjunction with Note 1 Summary of Significant Accounting Policies of the Notes to the Consolidated Financial Statements included in Peoples' 2018 Form 10-K.

Accounting Standards Update ("ASU") 2017-04 - Intangibles - Goodwill and Other (Topic 350): Simplifying the Test for Goodwill Impairment. The amendments in this ASU simplify how an entity is required to test goodwill for impairment by eliminating the requirement to calculate the implied fair value of goodwill to measure a goodwill impairment charge. This accounting guidance will be effective for interim and annual reporting periods beginning after December 15, 2019 (effective January 1, 2020 for Peoples). Peoples early adopted this new accounting guidance as of January 1, 2019, and it will be incorporated in the October 1, 2019 annual goodwill and intangible assets impairment analysis, but it is not expected to have a material impact on Peoples' consolidated financial statements.

ASU 2016-13 - Financial Instruments - Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments. This accounting guidance replaces the current "incurred loss" model for recognizing credit losses with an "expected loss" model, referred to as the Current Expected Credit Loss ("CECL") model. Under the CECL model, Peoples will be required to present certain financial assets carried at amortized cost, such as loans held-for-investment and held-to-maturity debt securities, at the net amount expected to be collected. ASU 2018-19 clarified that receivables arising from operating leases are not within the scope of Subtopic 326-20, and should be accounted for according to Topic 842.

The measurement of expected credit losses is to be based on information about past events, including historical experience, current conditions, and reasonable and supportable forecasts that affect the collectability of the reported amount. This measurement will take place at the time the financial asset is first added to the balance sheet and periodically thereafter. This differs significantly from the "incurred loss" model required under current US GAAP, which delays recognition until it is probable a loss has been incurred. Accordingly, Peoples expects that the adoption of the CECL model will materially affect how the allowance for loan losses is determined and could require significant increases to the allowance for loan losses. Moreover, the CECL model may create more volatility in the level of Peoples' allowance for loan losses. If required to

Table of Contents

materially increase the level of allowance for loan losses for any reason, such increase could adversely affect Peoples' business, financial condition and results of operations.

The new CECL standard will become effective for interim and annual reporting periods beginning after December 15, 2019 (effective January 1, 2020 for Peoples). Peoples has a committee that meets regularly to monitor progress and oversee the project. Peoples has implemented a third-party software solution, and is utilizing the tool to run test calculations throughout 2019 in anticipation of the full implementation at the beginning of 2020. Peoples will complete model validation during 2019, and is currently refining the economic forecasting process, documenting accounting policies, reviewing business processes and evaluating potential changes to the control environment. Peoples is presently evaluating the impact that the CECL model will have on Peoples' financial statements and expects to recognize a one-time cumulative-effect adjustment to the allowance for loan loss provision as of the beginning of the first reporting period in which the new standard is effective, consistent with regulatory expectations set forth in interagency guidance issued at the end of 2016. The impact of the adoption will depend on relevant data at the adoption date, including the characteristics of the loan portfolio, macroeconomic conditions and forecasts. Peoples has not yet determined the magnitude of any such one-time cumulative-effect adjustment or of the overall impact of the new standard on Peoples' financial condition or results of operations.

Note 2 Fair Value of Assets and Liabilities

Fair value represents the amount expected to be received to sell an asset or paid to transfer a liability in its principal or most advantageous market in an orderly transaction between market participants at the measurement date. In accordance with fair value accounting guidance, Peoples measures, records and reports various types of assets and liabilities at fair value on either a recurring or a non-recurring basis in the Consolidated Financial Statements. Those assets and liabilities are presented below in the sections entitled "Assets and Liabilities Required to be Measured and Reported at Fair Value on a Recurring Basis" and "Assets and Liabilities Required to be Measured and Reported at Fair Value on a Non-Recurring Basis."

Depending on the nature of the asset or liability, Peoples uses various valuation methodologies and assumptions to estimate fair value. The measurement of fair value under US GAAP uses a hierarchy, which is described in Note 1 Summary of Significant Accounting Policies of the Notes to the Consolidated Financial Statements included in Peoples' 2018 Form 10 K.

Assets and liabilities are assigned to a level within the fair value hierarchy based on the lowest level of significant input used to measure fair value. Assets and liabilities may change levels within the fair value hierarchy due to market conditions or other circumstances. Those transfers are recognized on the date of the event that prompted the transfer. There were no transfers of assets or liabilities required to be measured at fair value on a recurring basis between levels of the fair value hierarchy during the periods presented.

Assets and Liabilities Required to be Measured and Reported at Fair Value on a Recurring Basis

The following table provides the fair value for assets and liabilities required to be measured and reported at fair value on a recurring basis on the Consolidated Balance Sheets by level in the fair value hierarchy.

	Recurring Fair Value					
	Measurements at Reporting					
	Date					
	March 31, 2019		December 31, 2018			
(Dollars in thousands)	Level 1	Level 2	Level 1	Level 2	Level 3	Level 3
Assets:

(a) Included in Other assets on the Consolidated Balance Sheets. For additional information, see Note 9 Derivative Financial Instruments of the Notes to the Unaudited Consolidated Financial Statements.

Table of Contents

(b) Included in Other liabilities on the Consolidated Balance Sheets. For additional information, see Note 9 Derivative Financial Instruments of the Notes to the Unaudited Consolidated Financial Statements.

Available-for-Sale Investment Securities: The fair values used by Peoples are obtained from an independent pricing service and represent either quoted market prices for the identical securities (Level 1) or fair values determined by pricing models using a market approach that considers observable market data, such as interest rate volatility, LIBOR yield curves, credit spreads and prices from market makers and live trading systems (Level 2). Management reviews the valuation methodology and quality controls utilized by the pricing services in management's overall assessment of the reasonableness of the fair values provided, and challenges prices when management believes a material discrepancy in pricing exists.

Equity Investment Securities: The fair values of Peoples' equity investment securities are obtained from quoted prices in active exchange markets for identical assets or liabilities (Level 1) or quoted prices in less active markets (Level 2).

Derivative Assets and Liabilities: Derivative assets and liabilities are recognized on the Consolidated Balance Sheets at their fair value within other assets/liabilities. The fair value for derivative instruments is determined based on market prices, broker-dealer quotations on similar products, or other related input parameters (Level 2).

Assets and Liabilities Required to be Measured and Reported at Fair Value on a Non-Recurring Basis

The following table provides the fair value for each class of assets and liabilities required to be measured and reported at fair value on a non-recurring basis on the Unaudited Consolidated Balance Sheets by level in the fair value hierarchy.

(Dollars in thousands)	Non-Recurring Fair Value Measurements at Reporting Date			
	March 31, 2019		December 31, 2018	
	Level 1 Level 2	Level 3	Level 1 Level 2	Level 3
Impaired loans	\$—	\$27,200	\$—	\$24,129
Other real estate owned ("OREO")	—	81	—	94

Impaired Loans: Impaired loans are measured and reported at fair value when the amounts to be received are less than the carrying value of the loans. One of the allowable methods for determining the amount of impairment is estimating fair value using the fair value of the collateral for collateral-dependent loans. Management's determination of the fair value for these loans uses a market approach representing the estimated net proceeds to be received from the sale of the collateral based on observable market prices or the market value provided by independent, licensed or certified appraisers (Level 3), less estimated selling costs. At March 31, 2019, impaired loans with an aggregate principal balance of \$33.2 million were outstanding and reported at fair value of \$27.2 million. For the three months ended March 31, 2019, Peoples recognized an increase of \$752,000 in the specific reserve on impaired loans, through the allowance for loan losses.

Other Real Estate Owned ("OREO"): OREO, included in other assets on the Consolidated Balance Sheets, is comprised primarily of commercial and residential real estate properties acquired by Peoples in satisfaction of a loan. OREO obtained in satisfaction of a loan is recorded at the lower of cost or estimated fair value, less estimated costs to sell the property. The carrying value of OREO is not re-measured to fair value on a recurring basis, but is based on recent real estate appraisals and is updated at least annually. These appraisals may utilize a single valuation approach or a combination of approaches including the comparable sales approach and the income approach. Adjustments are routinely made in the appraisal process by the independent appraisers to adjust for differences between the comparable sales and income data available (Level 3).

Table of Contents

Financial Instruments Not Required to be Measured or Reported at Fair Value

The following table provides the carrying amount for each class of assets and liabilities and the fair value for certain financial instruments that are not required to be measured or reported at fair value on the Consolidated Balance Sheets.

(Dollars in thousands)	Fair Value Hierarchy Level	Fair Value Measurements of Other Financial Instruments			
		March 31, 2019		December 31, 2018	
		Carrying Amount	Fair Value	Carrying Amount	Fair Value
Assets:					
Cash and cash equivalents	1	\$82,072	\$82,072	\$77,612	\$77,612
Held-to-maturity investment securities:					
Obligations of:					
States and political subdivisions	2	4,401	4,965	4,403	4,896
Residential mortgage-backed securities	2	28,348	28,276	29,044	28,603
Commercial mortgage-backed securities	2	2,857	2,825	3,514	3,464
Total held-to-maturity securities		35,606	36,066	36,961	36,963
Other investment securities:					
Federal Home Loan Bank ("FHLB") stock	2	27,586	27,586	29,367	29,367
Federal Reserve Bank ("FRB") stock	2	12,294	12,294	12,294	12,294
Nonqualified deferred compensation	2	1,210	1,210	987	987
United Bankers' Bancorporation Inc. ("UBB") stock	2	60	60	60	60
Other investment securities (a)		41,150	41,150	42,708	42,708
Net loans	3	2,716,641	2,884,562	2,708,583	2,907,537
Loans held for sale	2	2,191	2,069	5,470	5,492
Bank owned life insurance	3	69,419	69,419	68,934	68,934
Servicing rights (b)	3	2,507	3,973	2,655	4,568
Liabilities:					
Deposits	2	\$3,137,413	\$3,149,980	\$2,955,465	\$2,953,452
Short-term borrowings	2	191,363	191,259	356,198	349,994
Long-term borrowings	2	105,995	104,285	109,644	107,696

(a) Other investment securities, as reported on the Consolidated Balance Sheets, also includes equity investment securities for 2018, which are reported in the Assets and Liabilities Required to be Measured and Reported at Fair Value on a Recurring Basis table above.

(b) Included in other intangible assets on the Consolidated Balance Sheets. Servicing rights are carried at the lower of cost or market value.

For certain financial assets and liabilities, carrying value approximates fair value due to the nature of the financial instrument. These instruments include cash and cash equivalents, demand and other non-maturity deposits, and overnight borrowings. Peoples used the following methods and assumptions in estimating the fair value of the following financial instruments:

Cash and Cash Equivalents: Cash and cash equivalents include cash on hand, balances due from other banks, interest-bearing deposits in other banks, federal funds sold and other short-term investments with original maturities of ninety days or less. The carrying amount for cash and due from banks is a reasonable estimate of fair value. (Level 1).

Held-to-Maturity Investment Securities: The fair values used by Peoples are obtained from an independent pricing service and represent either quoted market prices for the identical securities (Level 1) or fair values determined by pricing models using a market approach that considers observable market data, such as interest rate volatility, LIBOR yield curves, credit spreads and prices from market makers and live trading systems (Level 2). Management reviews the valuation methodology and quality controls utilized by the pricing services in management's overall assessment of

the reasonableness of the fair values provided, and challenges prices when management believes a material discrepancy in pricing exists.

Other Investment Securities: Other investment securities are measured at their respective redemption values (Level 2).

Net Loans: The fair value of portfolio loans assumes sale of the notes to a third-party financial investor. Accordingly, this value is not necessarily the value to Peoples if the notes were held to maturity. Peoples considered

Table of Contents

interest rate, credit and market factors in estimating the fair value of loans (Level 3). Fair values for loans are estimated using a discounted cash flow methodology. The discount rates take into account interest rates currently being offered to customers for loans with similar terms, the credit risk associated with the loan and other market factors, including liquidity.

Loans Held for Sale: Loans originated and intended to be sold in the secondary market, generally one-to-four family residential loans, are carried, in aggregate, at the lower of cost or estimated fair value. The use of a valuation model using quoted prices of similar instruments are significant inputs in arriving at the fair value (Level 2).

Bank Owned Life Insurance: Peoples' bank owned life insurance policies are recorded at their cash surrender value (Level 3). Peoples recognizes tax-exempt income from the periodic increases in the cash surrender value of these policies and from death benefits.

Servicing Rights: The fair value of the servicing rights is determined by using a discounted cash flow model, which estimates the present value of the future net cash flows of the servicing portfolio based on various factors, such as servicing costs, expected prepayment speeds and discount rates (Level 3).

Deposits: The fair value of fixed maturity certificates of deposit ("CDs") is estimated using a discounted cash flow calculation based on current rates offered for deposits of similar remaining maturities (Level 2).

Short-term Borrowings: The fair value of short-term borrowings is estimated using discounted cash flow analysis based on rates currently available to Peoples for borrowings with similar terms (Level 2).

Long-term Borrowings: The fair value of long-term borrowings is estimated using a discounted cash flow analysis based on rates currently available to Peoples for borrowings with similar terms (Level 2).

Certain financial assets and financial liabilities that are not required to be measured or reported at fair value can be subject to fair value adjustments in certain circumstances (for example, when there is evidence of impairment). These financial assets and liabilities include the following: customer relationships, deposit base, banking center networks, and other information required to compute Peoples' aggregate fair value that are not included in the above information. Accordingly, the above fair values are not intended to represent the aggregate fair value of Peoples.

Note 3 Investment Securities

Available-for-sale

The following table summarizes Peoples' available-for-sale investment securities:

(Dollars in thousands)	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
March 31, 2019				
Obligations of:				
States and political subdivisions	\$ 83,822	\$ 1,240	\$ (235)	\$ 84,827
Residential mortgage-backed securities	711,917	4,034	(8,975)	706,976
Commercial mortgage-backed securities	6,706	—	(57)	6,649
Bank-issued trust preferred securities	4,196	116	(194)	4,118
Total available-for-sale securities	\$ 806,641	\$ 5,390	\$ (9,461)	\$ 802,570
December 31, 2018				
Obligations of:				
States and political subdivisions	\$ 88,358	\$ 787	\$ (558)	\$ 88,587
Residential mortgage-backed securities	705,289	2,720	(15,401)	692,608
Commercial mortgage-backed securities	6,812	—	(105)	6,707
Bank-issued trust preferred securities	4,196	75	(282)	3,989
Total available-for-sale securities	\$ 804,655	\$ 3,582	\$ (16,346)	\$ 791,891

The unrealized losses related to residential mortgage-backed securities at March 31, 2019 and December 31, 2018, were attributed to changes in market interest rates and spreads since the securities were purchased.

Table of Contents

The gross gains and gross losses realized by Peoples from sales of available-for-sale securities for the periods ended March 31 were as follows:

	Three Months Ended March 31,	
(Dollars in thousands)	2019	2018
Gross gains realized	\$ 30	\$ 2
Gross losses realized	—	1
Net gain realized	\$ 30	\$ 1

The cost of investment securities sold, and any resulting gain or loss, was based on the specific identification method and recognized as of the trade date.

The following table presents a summary of available-for-sale investment securities that had an unrealized loss:

(Dollars in thousands)	Less than 12 Months			12 Months or More			Total	
	Fair Value	Unrealized Loss	No. of Securities	Fair Value	Unrealized Loss	No. of Securities	Fair Value	Unrealized Loss
March 31, 2019

Total	\$57,735	\$ 244	67	\$545,678	\$ 16,102	195	\$603,413	\$ 16,346

Management systematically evaluates available-for-sale investment securities for other-than-temporary declines in fair value on a quarterly basis. At March 31, 2019, management concluded no individual securities were other-than-temporarily impaired since Peoples did not have the intent to sell, nor was it more likely than not that Peoples would be required to sell, any of the securities with an unrealized loss prior to recovery. Further, the unrealized losses at both March 31, 2019 and December 31, 2018 were largely attributable to changes in market interest rates and spreads since the securities were purchased.

At March 31, 2019, approximately 99% of the mortgage-backed securities with a market value that had been at an unrealized loss position for twelve months or more were issued by U.S. government sponsored agencies. The remaining 1%, or two positions, consisted of privately issued mortgage-backed securities with all of the underlying mortgages originated prior to 2004. Both of these positions had a fair value of less than 90% of their book value, with an aggregate book and fair value of \$214,000 and \$146,000, respectively. Management analyzed the underlying credit quality of these securities and concluded the unrealized losses were primarily attributable to the floating rate nature of these investments and the low number of loans remaining in these securities.

The unrealized losses with respect to the two bank-issued trust preferred securities that had been in an unrealized loss position for twelve months or more at March 31, 2019 were primarily attributable to the subordinated nature of the debt.

Table of Contents

The table below presents the amortized cost, fair value and total weighted-average yield of available-for-sale securities by contractual maturity at March 31, 2019. The weighted-average yields are based on the amortized cost. In some cases, the issuers may have the right to call or prepay obligations without call or prepayment penalties prior to the contractual maturity date.

(Dollars in thousands)	Within 1 to 5 1 Year	5 to 10 Years	Over 10 Years	Total

Other Investment Securities

Peoples' other investment securities on the Consolidated Balance Sheet consist largely of shares of FHLB of Cincinnati and FRB of Cleveland, and equity investment securities.

The following table summarizes the carrying value of Peoples' other investment securities:

(Dollars in thousands)	March 31, 2019	December 31, 2018
FHLB stock	\$27,586	\$29,367
FRB stock	12,294	12,294
Nonqualified deferred compensation	1,210	987
Equity investment securities	299	277
UBB stock	60	60
Total other investment securities	\$41,449	\$42,985

During the first quarter of 2019, Peoples redeemed \$1.8 million of FHLB stock to be in compliance with requirements of the FHLB of Cincinnati.

During the three months ended March 31, 2019, Peoples recorded the change in the fair value of equity investment securities held at March 31, 2019 in other non-interest income, resulting in unrealized gains of \$22,000. During the

three

15

Table of Contents

months ended March 31, 2018, Peoples recorded the change in the fair value of equity investment securities held at March 31, 2018 in other non-interest income, resulting in unrealized losses of \$460,000. Net realized gains on sales of equity investment securities, included in other non-interest income during the first three months of 2019, consisted of a realized gain of \$787,000 related to the sale of restricted Class B Visa stock, which had been held at a carrying cost and fair value of \$0 due to the litigation liability associated with the stock.

At March 31, 2019, Peoples' investment in equity investment securities was comprised largely of common stocks issued by various unrelated bank holding companies. There were no equity investment securities of a single issuer that exceeded 10% of Peoples' stockholders' equity.

Pledged Securities

Peoples had pledged available-for-sale investment securities with carrying values of \$500.8 million and \$430.0 million at March 31, 2019 and December 31, 2018, respectively, and held-to-maturity investment securities with carrying values of \$16.2 million and \$16.9 million at March 31, 2019 and December 31, 2018, respectively, to secure public and trust department deposits, and repurchase agreements in accordance with federal and state requirements. Peoples also pledged available-for-sale investment securities with carrying values of \$58.0 million and \$60.1 million at March 31, 2019 and December 31, 2018, respectively, and held-to-maturity securities with carrying values of \$16.1 million and \$16.7 million at March 31, 2019 and December 31, 2018, respectively, to secure additional borrowing capacity at the FHLB and the FRB.

Note 4 Loans

Peoples' loan portfolio consists of various types of loans originated primarily as a result of lending opportunities within Peoples' primary market areas of northeastern, central, southwestern and southeastern Ohio, west central West Virginia, and eastern Kentucky. Acquired loans consist of loans purchased in 2012 or thereafter. Loans that were acquired and subsequently re-underwritten are reported as originated upon execution of such credit actions (for example, renewals and increases in lines of credit). The major classifications of loan balances (in each case, net of deferred fees and costs) excluding loans held for sale, were as follows:

(Dollars in thousands)	March 31, 2019	December 31, 2018
Originated loans:		
Commercial real estate, construction	\$116,992	\$124,013
Commercial real estate, other	630,679	632,200
Commercial real estate	747,671	756,213
Commercial and industrial	558,070	530,207
Residential real estate	297,667	296,860
Home equity lines of credit	90,831	93,326
Consumer, indirect	410,172	407,167
Consumer, direct	69,710	71,674
Consumer	479,882	478,841
Deposit account overdrafts	518	583
Total originated loans	\$2,174,639	\$2,156,030
Acquired loans:		
Commercial real estate, construction	\$7,966	\$12,404
Commercial real estate, other	171,785	184,711
Commercial real estate	179,751	197,115
Commercial and industrial	34,837	35,537
Residential real estate	308,137	296,937
Home equity lines of credit	38,084	40,653
Consumer, indirect	111	136
Consumer, direct	2,021	2,370

Edgar Filing: PEOPLES BANCORP INC - Form 10-Q

Consumer	2,132	2,506
Total acquired loans	\$562,941	\$ 572,748
Loans, net of deferred fees and costs	\$2,737,580	\$ 2,728,778

Table of Contents

Peoples has acquired various loans through business combinations for which there was, at acquisition, evidence of deterioration of credit quality since origination, and for which it was probable that all contractually required payments would not be collected. The carrying amounts of these purchased credit impaired loans included in the loan balances above are summarized as follows:

(Dollars in thousands)	March 31, December 31,	
	2019	2018
Commercial real estate	\$ 11,076	\$ 11,955
Commercial and industrial	1,251	1,287
Residential real estate	19,275	20,062
Consumer	57	58
Total outstanding balance	\$ 31,659	\$ 33,362
Net carrying amount	\$ 20,884	\$ 22,475

Changes in the accretable yield for purchased credit impaired loans for the three months ended March 31 were as follows:

(Dollars in thousands)	March 31, March 31,	
	2019	2018
Balance, beginning of period	\$ 8,955	\$ 6,704
Accretion	(484)	(412)
Balance, March 31	\$ 8,471	\$ 6,292

Peoples completes annual re-estimations of cash flows on acquired purchased credit impaired loans in August of each year. At the end of each quarter, Peoples evaluates factors to determine if a material change has occurred in acquired loans accounted for and if a re-estimation is needed. Factors evaluated to determine if a re-estimation is needed include changes in: risk ratings, maturity dates, charge-offs, payoffs, nonaccrual status and loans that have become past due. Prepayments affect the estimated life of the loans and could change the amount of interest income, and possibly the amount of principal, expected to be collected. In reforecasting future estimated cash flows, credit loss expectations are adjusted as necessary. Peoples evaluates changes quarterly and compares the new estimated cash flows to those at the previous cash flow re-estimation date and the related materiality of the changes, and when compared to the total loan portfolio, the differences in estimated cash flows at the most recent cash flow re-estimation date compared to the previous cash flow re-estimation date would not have a material impact on amounts recorded since the last re-estimation. Peoples completed a re-estimation of cash flows on purchased credit impaired loans in August 2018.

Cash flows expected to be collected on purchased credit impaired loans are estimated by incorporating several key assumptions, similar to the initial estimate of fair value. These key assumptions include probability of default and the amount of actual prepayments after the acquisition date. Prepayments affect the estimated life of the loans and could change the amount of interest income and possibly the principal expected to be collected. In re-forecasting future estimated cash flows, credit loss expectations are adjusted as necessary.

Pledged Loans

Peoples pledges certain loans secured by 1-4 family and multifamily residential mortgages under a blanket collateral agreement to secure borrowings from the FHLB of Cincinnati. The amount of loans pledged under this blanket collateral agreement totaled \$500.3 million and \$505.7 million at March 31, 2019 and December 31, 2018, respectively. Peoples also pledges commercial loans to secure borrowings with the FRB of Cleveland. The outstanding balances of these loans totaled \$182.5 million and \$180.9 million at March 31, 2019 and December 31, 2018, respectively.

Nonaccrual and Past Due Loans

A loan is considered past due if any required principal and interest payments have not been received as of the date such payments were required to be made under the terms of the loan agreement. A loan may be placed on nonaccrual status regardless of whether or not such loan is considered past due.

Table of Contents

The recorded investments in loans on nonaccrual status and loans delinquent for 90 days or more and accruing were as follows:

(Dollars in thousands)	Nonaccrual Loans		Loans 90+ Days Past Due and Accruing	
	March 31, 2019	December 31, 2018	March 31, 2019	December 31, 2018

Delinquency trends remained stable, as 98.6% of Peoples' portfolio was considered "current" at March 31, 2019, compared to 98.5% at December 31, 2018.

Credit Quality Indicators

As discussed in Note 1 Summary of Significant Accounting Policies of the Notes to the Consolidated Financial Statements included in Peoples' 2018 Form 10-K, Peoples categorizes the majority of its loans into risk categories based upon an established risk grading matrix using a scale of 1 to 8. A description of the general characteristics of the risk grades used by Peoples is as follows:

"Pass" (grades 1 through 4): Loans in this risk category involve borrowers of acceptable-to-strong credit quality and risk who have the apparent ability to satisfy their loan obligations. Loans in this risk grade would possess sufficient mitigating factors, such as adequate collateral or strong guarantors possessing the capacity to repay the loan if required, for any weakness that may exist.

"Special Mention" (grade 5): Loans in this risk grade are the equivalent of the regulatory definition of "Other Assets Especially Mentioned." Loans in this risk category possess some credit deficiency or potential weakness, which requires a high level of management attention. Potential weaknesses include declining trends in operating earnings and cash flows and/or reliance on a secondary source of repayment. If left uncorrected, these potential weaknesses may result in noticeable deterioration of the repayment prospects for the loan or in Peoples' credit position.

"Substandard" (grade 6): Loans in this risk grade are inadequately protected by the borrower's current financial condition and payment capability or the collateral pledged, if any. Loans so classified have one or more well-defined weaknesses that jeopardize the orderly repayment of the loan. They are characterized by the distinct possibility that Peoples will sustain some loss if the deficiencies are not corrected.

“Doubtful” (grade 7): Loans in this risk grade have all the weaknesses inherent in those classified as substandard, with the added characteristic that the weaknesses make collection or orderly repayment in full, on the basis of

Table of Contents

current existing facts, conditions and values, highly questionable and improbable. Possibility of loss is extremely high, but because of certain important and reasonably specific factors that may work to the advantage and strengthening of the exposure, classification of the loan as an estimated loss is deferred until its more exact status may be determined. "Loss" (grade 8): Loans in this risk grade are considered to be non-collectible and of such little value that their continuance as bankable assets is not warranted. This does not mean a loan has absolutely no recovery value, but rather it is neither practical nor desirable to defer writing off the loan, even though partial recovery may be obtained in the future. Charge-offs against the allowance for loan losses are taken during the period in which the loan becomes uncollectible. Consequently, Peoples typically does not maintain a recorded investment in loans within this category. Consumer loans and other smaller-balance loans are evaluated and categorized as "substandard," "doubtful," or "loss" based upon the regulatory definition of these classes and consistent with regulatory requirements. All other loans not evaluated individually, nor meeting the regulatory conditions to be categorized as described above, would be considered as being "not rated."

The following table summarizes the risk category of loans within Peoples' loan portfolio based upon the most recent analysis performed:

In the first three months of 2019, Peoples' classified loans, which are loans categorized as substandard or doubtful, increased compared to the balances at December 31, 2018 mostly due to downgrades during the quarter, which were partially offset by paydowns on classified loans. At March 31, 2019, criticized loans, which are those categorized as special mention, substandard or doubtful, declined compared to the balance at December 31, 2018 largely due to the upgrade of one commercial relationship during the first quarter of 2019.

Peoples' impaired loans shown in the table above included loans that were classified as troubled debt restructurings ("TDRs").

In assessing whether or not a borrower is experiencing financial difficulties, Peoples considers information currently available regarding the financial condition of the borrower. This information includes, but is not limited to, whether (i) the borrower is currently in payment default on any of the borrower's debt; (ii) a payment default is probable in the foreseeable future without the modification; (iii) the borrower has declared or is in the process of declaring bankruptcy; and (iv) the borrower's projected cash flow is insufficient to satisfy contractual payments due under the original terms of the loan without a modification.

Peoples considers all aspects of the modification to loan terms to determine whether a concession has been granted to the borrower. Key factors considered by Peoples include the borrower's ability to access funds at a market rate for debt with similar risk characteristics, the significance of the modification relative to the unpaid principal balance or collateral value of the debt, and the significance of a delay in the timing of payments relative to the original contractual terms of the loan. The most common concessions granted by Peoples generally include one or more modifications to the terms of the loan, such as (i) a reduction in the interest rate for the remaining life of the loan, (ii) an extension of the maturity date at an interest rate lower than the current market rate for new loans with similar risk, (iii) a temporary period of interest-only payments, and (iv) a reduction in the contractual payment amount for either a short period or the remaining term of the loan.

Table of Contents

The following table summarizes the loans that were modified as a TDR during the three months ended March 31:

(Dollars in thousands)	Number of Contracts	Three Months Ended Recorded Investment (a)		Remaining Recorded Investment
		Pre-Modification	Post-Modification	
March 31, 2019				
Originated loans:				
Commercial and industrial	2	\$ 38	\$ 38	\$ 36

Commercial real estate, other	1	\$ 50	\$ 50	\$ 50
Residential real estate	2	269	269	269
Consumer, direct	1	1	1	1
Total acquired loans	4	\$ 320	\$ 320	\$ 320

(a) The amounts shown are inclusive of all partial paydowns and charge-offs. Loans modified in a TDR that were fully paid down, charged-off or foreclosed upon by period-end are not reported.

Peoples did not have any originated or acquired loans that were modified as a TDR during the last twelve months that subsequently defaulted. Peoples had no commitments to lend additional funds to the related debtors whose terms have been modified in a TDR.

Allowance for Loan Losses for Acquired Loans

Acquired loans are recorded at their fair value as of the acquisition date with no valuation allowance, and monitored for changes in credit quality and subsequent increases or decreases in expected cash flows. Decreases in expected cash flows of acquired purchased credit impaired loans are recognized as an impairment, with the amount of the expected loss included in management's evaluation of the appropriateness of the allowance for loan losses. The methods utilized to estimate the required allowance for loan losses for non-impaired acquired loans are similar to those utilized for originated loans; however, Peoples records a provision for loan losses only when the computed allowance exceeds the remaining fair value adjustment.

Table of Contents

The following table presents activity in the allowance for loan losses for acquired loans:

(Dollars in thousands)	Three Months Ended	
	March 2019	March 31, 2018
Nonimpaired loans:		
Balance, January 1	\$383	\$ —
Charge-offs	(3)	—
Balance, March 31	\$380	\$ —

Purchased credit impaired loans:

Balance, beginning of period	\$153	\$ 108
Balance, March 31	\$153	\$ 108

Note 5 Long-Term Borrowings

The following table summarizes Peoples' long-term borrowings:

(Dollars in thousands)	March 31, 2019		December 31, 2018	
	Balance	Weighted-Average Rate	Balance	Weighted-Average Rate
FHLB putable, non-amortizing, fixed-rate advances	\$85,000	2.05 %	\$85,000	2.05 %
FHLB amortizing, fixed-rate advances	13,670	1.73 %	17,361	2.09 %
Junior subordinated debt securities	7,325	7.55 %	7,283	7.83 %
Total long-term borrowings	\$105,995	2.38 %	\$109,644	2.44 %

Peoples continually evaluates its overall balance sheet position given the interest rate environment. During the first three months of 2019, no additional borrowings were entered into, and one long-term FHLB non-amortizing advance in the amount of \$30.0 million was reclassified to short-term borrowings as the maturity became less than one year. As of March 31, 2019, Peoples' had one remaining FHLB putable option-based advance. The FHLB has the option, at its sole discretion, to terminate the advance after the initial fixed rate period of three months, requiring full repayment of the advance by Peoples prior to the stated maturity. If the advance is terminated prior to maturity, the FHLB will offer Peoples replacement funding at the then-prevailing rate on an advance product then offered by the FHLB, subject to normal FHLB credit and collateral requirements. Peoples is required to make quarterly interest payments. The amortizing, fixed-rate FHLB advances have a fixed rate for the term of each advance, with maturities ranging from two to thirteen years. These advances require monthly principal and interest payments, with some having a constant prepayment rate requiring an additional principal payment annually. These advances are not eligible for optional prepayment prior to maturity.

Effective April 3, 2019, Peoples terminated the Credit Agreement, dated as of March 4, 2016, between Peoples, as Borrower, and Raymond James Bank, N.A., as Lender (the "RJB Credit Agreement"), with a revolving line of credit in the maximum aggregate principal amount of \$15.0 million. As of the termination date, March 31, 2019, and December 31, 2018, there were no borrowings outstanding under the RJB Credit Agreement. Additional information regarding the RJB Credit Agreement can be found in Note 9 Long-Term Borrowings of the Notes to the Consolidated Financial Statements included in Peoples' 2018 Form 10-K.

Table of Contents

The aggregate minimum annual retirements of long-term borrowings in future periods are as follows:

(Dollars in thousands)	Balance	Weighted-Average Rate	
Nine months ending December 31, 2019	\$2,871	1.41	%
Year ending December 31, 2020	22,555	1.59	%
Year ending December 31, 2021	21,979	1.74	%
Year ending December 31, 2022	16,521	1.95	%
Year ending December 31, 2023	1,157	1.04	%
Thereafter	40,912	3.45	%
Total long-term borrowings	\$105,995	2.38	%

Note 6 Stockholders' Equity

The following table details the progression in Peoples' common shares and treasury stock during the three months ended March 31, 2019:

	Common Stock	Treasury Stock
Shares at December 31, 2018	20,124,378	601,289
Changes related to stock-based compensation awards:		
Release of restricted common shares	—	11,869
Cancellation of restricted common shares	—	391
Grant of restricted common shares	—	(118,200)
Grant of common shares	—	(3,200)
Changes related to deferred compensation plan for Boards of Directors:		
Purchase of treasury stock	—	2,130
Disbursed out of treasury stock	—	(74)
Common shares issued under dividend reinvestment plan	5,698	—
Common shares issued under compensation plan for Boards of Directors	—	(1,826)
Common shares issued under employee stock purchase plan	—	1
Shares at March 31, 2019	20,130,076	492,380

Under its Amended Articles of Incorporation, Peoples is authorized to issue up to 50,000 preferred shares, in one or more series, having such voting powers, designations, preferences, rights, qualifications, limitations and restrictions as determined by Peoples' Board of Directors. At March 31, 2019, Peoples had no preferred shares issued or outstanding. The following table details the cash dividends declared per common share during 2019 and the comparable period of 2018:

	2019	2018
First quarter	\$0.30	\$0.26
Second quarter	0.34	0.28
Total dividends declared	\$0.64	\$0.54

Accumulated Other Comprehensive Loss

The following table details the change in the components of Peoples' accumulated other comprehensive loss for the three months ended March 31, 2019:

(Dollars in thousands)	Unrealized Loss on Securities	Unrecognized Net Pension and Postretirement Costs	Unrealized Gain (Loss) on Cash Flow	Accumulated Other Comprehensive Loss

Edgar Filing: PEOPLES BANCORP INC - Form 10-Q

			Hedge	
Balance, December 31, 2018	\$(10,082)	\$(3,711)	\$ 860	\$(12,933)
Reclassification adjustments to net income:				
Realized gain on sale of securities, net of tax	(24)	—	—	(24)
Other comprehensive income (loss), net of reclassifications and tax	6,893	15	(1,448)	5,460
Balance, March 31, 2019	\$(3,213)	\$(3,696)	\$(588)	\$(7,497)

Note 7 Employee Benefit Plans

Peoples sponsors a noncontributory defined benefit pension plan that covers substantially all employees hired before January 1, 2010. The plan provides retirement benefits based on an employee's years of service and compensation. For employees hired before January 1, 2003, the amount of postretirement benefit is based on the employee's average monthly compensation over the highest five consecutive years out of the employee's last ten years with Peoples while an eligible employee. For employees hired on or after January 1, 2003, the amount of postretirement benefit is based on 2% of the employee's annual compensation during the years 2003 through 2009, plus accrued interest. Effective January 1, 2010, the pension plan was closed to new entrants. Effective March 1, 2011, the accrual of pension plan benefits for all participants was frozen. Peoples recognized this freeze as a curtailment as of December 31, 2010 and March 1, 2011, under the terms of the pension plan. Effective July 1, 2013, a participant in the pension plan who is employed by Peoples may elect to receive or to commence receiving such person's retirement benefits as of the later of such person's normal retirement date or the first day of the month first following the date such person makes an election to receive his or her retirement benefits.

Peoples also provides post-retirement health and life insurance benefits to former employees and directors. Only those individuals who retired before January 27, 2012 were eligible for life insurance benefits. As of January 1, 2011, all retirees who desire to participate in the Peoples Bank medical plan do so by electing COBRA, which provides up to 18 months of coverage; retirees over the age of 65 also have the option to pay to participate in a group Medicare supplemental plan. Peoples only pays 100% of the cost for those individuals who retired before January 1, 1993. For all others, the retiree is responsible for most, if not all, of the cost of the health benefits. Peoples' policy is to fund the cost of the benefits as they arise.

The following tables detail the components of the net periodic cost for the plans:

	Pension Benefits Three Months Ended March 31,	
(Dollars in thousands)	2019	2018
Interest cost	\$ 109	\$ 105
Expected return on plan assets	(195)	(147)
Amortization of net loss	19	28
Net periodic income	\$(67)	\$(14)

Table of Contents

	Postretirement Benefits Three Months Ended March 31,	
(Dollars in thousands)	2019	2018
Interest cost	\$ 1	\$ 1
Amortization of net gain	(2)	(2)
Net periodic income	\$ (1)	\$ (1)

There were no settlement charges recorded during the three months ended March 31, 2019 and March 31, 2018 under the noncontributory defined benefit pension plan.

Note 8 Earnings Per Common Share

The calculations of basic and diluted earnings per common share were as follows:

	Three Months Ended March 31,	
(Dollars in thousands, except per common share data)	2019	2018
Distributed earnings allocated to common shareholders	\$5,777	\$ 4,716
Undistributed earnings allocated to common shareholders	8,490	6,962
Net earnings allocated to common shareholders	\$14,267	\$ 11,678
Weighted-average common shares outstanding	19,366,008	18,126,089
Effect of potentially dilutive common shares	142,860	129,946
Total weighted-average diluted common shares outstanding	19,508,868	18,256,035
Earnings per common share:		
Basic	\$0.74	\$ 0.64
Diluted	\$0.73	\$ 0.64
Anti-dilutive common shares excluded from calculation:		
Restricted shares and stock appreciation rights	2,057	32

Note 9 Derivative Financial Instruments

Peoples utilizes interest rate swap agreements as part of its asset liability management strategy to help manage its interest rate risk position. The notional amount of the interest rate swaps does not represent amounts exchanged by the parties. The amount exchanged is determined by reference to the notional amount and the other terms of the individual interest rate swap agreements.

Derivatives and Hedging Activities - Risk Management Objective of Using Derivatives

Peoples is exposed to certain risks arising from both its business operations and economic conditions. Peoples principally manages its exposures to a wide variety of business and operational risks through management of its core business activities. Peoples manages economic risks, including interest rate, liquidity and credit risk, primarily by managing the amount, sources and duration of its assets and liabilities, and through the use of derivative financial instruments. Specifically, Peoples enters into derivative financial instruments to manage exposures that arise from business activities that result in the receipt or payment of future known or expected cash amounts, the values of which are determined by interest rates. Peoples' derivative financial instruments are used to manage differences in the amount, timing and duration of Peoples' known or expected cash receipts and its known or expected cash payments principally related to certain variable rate borrowings. Peoples also has interest rate derivatives that result from a

service provided to certain qualifying customers and, therefore, are not used to manage interest rate risk in Peoples' assets or liabilities. Peoples manages a matched book with respect to customer-related derivative financial instruments in order to minimize its net risk exposure resulting from such transactions.

Table of Contents**Cash Flow Hedges of Interest Rate Risk**

Peoples' objectives in using interest rate derivatives are to add stability to interest income and expense, and to manage its exposure to interest rate movements. To accomplish these objectives, Peoples has entered into interest rate swaps as part of its interest rate risk management strategy. These interest rate swaps are designated as cash flow hedges and involve the receipt of variable rate amounts from a counterparty in exchange for Peoples making fixed payments. As of March 31, 2019, Peoples had entered into twelve interest rate swap contracts with an aggregate notional value of \$110.0 million. Peoples will pay a fixed rate of interest for up to ten years while receiving a floating rate component of interest equal to the three-month LIBOR rate. The interest received on the floating rate component is intended to offset the interest paid on rolling three-month FHLB advances, which will continue to be rolled through the life of the swaps. Amounts reported in accumulated other comprehensive loss ("AOCL"), related to derivatives will be reclassified to interest income or expense as interest payments are made or received on Peoples' variable-rate assets or liabilities. During the three months ended March 31, 2019 Peoples had reclassifications of gains to interest expense of \$83,000, and during the three months ended March 31, 2018, Peoples had reclassifications of losses to interest expense of \$12,000.

For derivatives designated as cash flow hedges, the effective portion of changes in the fair value of each derivative is reported in AOCL (outside of earnings), net of tax, and subsequently reclassified to earnings when the hedged transaction affects earnings, and the ineffective portion of changes in the fair value of the derivative is recognized directly in earnings. Peoples assesses the effectiveness of each hedging relationship by comparing the changes in cash flows of the derivative hedging instrument with the changes in cash flows of the designated hedged transaction. The reset dates and the payment dates on the 90-day advances used to fund the swaps are matched to the reset dates and payment dates on the receipt of the 3-month LIBOR floating portion of the swaps to ensure effectiveness of the cash flow hedge. Effectiveness is measured by ensuring that reset dates and payment dates are matched. The amount of pre-tax AOCL for Peoples' cash flow hedges was \$745,000 at March 31, 2019. Additionally, Peoples had \$19,000 in reclassifications to expense in the three months ended March 31, 2019 and \$30,000 in reclassifications to earnings in the three months ended March 31, 2018.

The following table summarizes information about the interest rate swaps designated as cash flow hedges:

(Dollars in thousands)	March 31, 2019	December 31, 2018
Notional amount	\$110,000	\$110,000
Weighted average pay rates	2.37	%2.37 %
Weighted average receive rates	2.30	%2.57 %
Weighted average maturity	5.9 years	6.2 years
Unrealized (losses) gains	\$(589) \$860

The following table presents net losses (gains) recorded in AOCL and in the Unaudited Consolidated Statements of Income related to the cash flow hedges:

(Dollars in thousands)	Three Months Ended March 31,	
	2019	2018
Amount of loss (gain) recognized in AOCL, pre-tax	\$1,833	\$(1,378)
Amount of (loss) gain recognized in other non-interest income	\$(19)\$30

Table of Contents

The following table reflects the cash flow hedges included in the Consolidated Balance Sheets:

(Dollars in thousands)	March 31, 2019		December 31, 2018	
	Notional Amount	Fair Value	Notional Amount	Fair Value
Included in other assets:				
Interest rate swaps related to debt	\$40,000	\$1,333	\$60,000	\$2,093
Total included in other assets	\$40,000	\$1,333	\$60,000	\$2,093

Included in liabilities:

Interest rate swaps related to debt	\$70,000	\$2,216	\$50,000	\$1,111
Total included in other liabilities	\$70,000	\$2,216	\$50,000	\$1,111

Non-Designated Hedges

Peoples maintains an interest rate protection program for commercial loan customers, which was established in 2010. Under this program, Peoples originates variable rate loans with interest rate swaps, where the customer enters into an interest rate swap with Peoples on terms that match the terms of the loan. By entering into the interest rate swap with the customer, Peoples Bank effectively provides the customer with a fixed rate loan while creating a variable rate asset for Peoples Bank. Peoples Bank offsets its exposure in the swap by entering into an offsetting interest rate swap with an unaffiliated institution. These interest rate swaps do not qualify as designated hedges; therefore, each swap is accounted for as a standalone derivative. Peoples had interest rate swaps associated with commercial loans with a gross notional value of \$434.9 million and fair value of \$4.2 million of equally offsetting assets and liabilities at March 31, 2019, and a gross notional value of \$453.4 million and fair value of \$2.5 million of equally offsetting assets and liabilities at December 31, 2018. These interest rate swaps did not have a material impact on Peoples' results of operation or financial condition.

The following table reflects the non-designated hedges included in the Consolidated Balance Sheets at:

(Dollars in thousands)	March 31, 2019		December 31, 2018	
	Notional Amount	Fair Value	Notional Amount	Fair Value
Included in other assets:				
Interest rate swaps related to commercial loans	\$217,428	\$4,189	\$226,662	\$2,451
Total included in other assets	\$217,428	\$4,189	\$226,662	\$2,451

Included in liabilities:

Interest rate swaps related to commercial loans	\$217,428	\$4,189	\$226,662	\$2,451
Total included in other liabilities	\$217,428	\$4,189	\$226,662	\$2,451

Fair Values of Derivative Instruments on the Balance Sheet

Peoples' fair value of the derivative financial instruments was \$5.5 million in an asset position and \$6.4 million in a liability position at March 31, 2019, and there was \$4.5 million in an asset position and \$3.6 million in a liability position at December 31, 2018. The amounts are recorded in other assets, and accrued expenses and other liabilities on the Unaudited Consolidated Balance Sheet at the date indicated. At March 31, 2019, Peoples had cash of \$4.8 million pledged against the interest rate swaps. At December 31, 2018, Peoples had no cash pledged against interest rate swaps, however, the counterparties had pledged \$130,000 to Peoples.

Note 10 Stock-Based Compensation

Under the Peoples Bancorp Inc. Third Amended and Restated 2006 Equity Plan (the "2006 Equity Plan"), Peoples may grant, among other awards, nonqualified stock options, incentive stock options, restricted common stock awards, stock appreciation rights ("SARs"), performance units and unrestricted common share awards to employees and non-employee directors. The total number of common shares currently available under the 2006 Equity Plan is

891,340. The maximum number of common shares that can be issued for incentive stock options is 500,000 common shares. Prior to 2007, Peoples granted nonqualified and incentive stock options to employees and nonqualified stock options to non-employee directors

Table of Contents

under the 2006 Equity Plan and predecessor plans. Since February 2009, Peoples has granted restricted common shares to employees, and periodically to non-employee directors, subject to the terms and conditions prescribed by the 2006 Equity Plan. Additionally, in 2018, the Board of Directors granted unrestricted common shares to non-employee directors and to all full-time and part-time employees who did not already participate in the 2006 Equity Plan. In general, common shares issued in connection with stock-based awards are issued from treasury shares to the extent available. If no treasury shares are available, common shares are issued from authorized but unissued common shares.

Restricted Common Shares

Under the 2006 Equity Plan, Peoples may award restricted common shares to officers, key employees and non-employee directors. Since 2018, common shares awarded to non-employee directors have vested immediately upon grant with no restrictions. Restrictions on restricted common shares awarded to employees expire after periods ranging from one to three years. In the first three months of 2019, Peoples granted an aggregate of 117,200 restricted common shares subject to performance-based vesting to officers and key employees with restrictions that will lapse three years after the grant date provided that in order for the restricted common shares to vest in full, Peoples must have reported positive net income and maintained a well capitalized status by regulatory standards for each of the three fiscal years preceding the vesting date. During the first three months of 2019, Peoples granted, to certain key employees, an aggregate of 1,000 restricted common shares subject to time-based vesting with restrictions that will lapse after periods ranging from immediate grant date vesting to vesting three years after the grant date. The following table summarizes the changes to Peoples' restricted common shares for the three months ended March 31, 2019:

	Time-Based Vesting		Performance-Based Vesting	
	Number of Common Shares	Weighted-Average Grant Date Fair Value	Number of Common Shares	Weighted-Average Grant Date Fair Value
Outstanding at January 1	43,679	\$ 29.64	175,772	\$ 31.08
Awarded	1,000	31.92	117,200	32.20
Released	—	—	33,400	17.86
Forfeited	250	31.10	141	35.43
Outstanding at March 31	44,429	\$ 29.69	259,431	\$ 33.29

For the three months ended March 31, 2019, the total intrinsic value for restricted common shares released was \$1.1 million compared to \$2.9 million for the three months ended March 31, 2018.

Performance Unit Awards

Under the 2006 Equity Plan, Peoples may grant performance unit awards to officers, key employees and non-employee directors. On July 26, 2017, Peoples granted a total of seven performance unit awards to individuals who were then serving as officers, with a maximum aggregate dollar amount of \$1.3 million represented by the performance units subject to such awards and each performance unit representing \$1.00. As of March 31, 2019, one of seven performance unit awards had been forfeited as one of the individuals granted a performance unit award left Peoples before meeting the minimum service requirement to retain the performance unit award. The performance unit awards granted cover the performance period beginning January 1, 2018 and ending on December 31, 2019, and are subject to two performance goals. Twenty-five percent of the performance units subject to each award will vest if, but only if, the related company-specific target performance goal is achieved. The remaining 75% of the performance units subject to each award will vest based on the relative performance of Peoples compared to a defined peer group (measured by percentile ranking) with respect to the related maximum performance goal. If, for the performance period, the target level of achievement for the first performance goal and/or the maximum level of achievement for the second performance goal is not reached, the dollar amount represented by the performance units associated with each performance goal will be adjusted to reflect the level of performance achieved. After the vesting date, the participant will receive that number of common shares of Peoples equal to (i) the aggregate number of the participant's performance units (and equivalent dollar value of such performance units) that vested based on the performance

achieved under both performance goals (ii) divided by the fair market value of a common share of Peoples on the date the performance units are deemed to have vested (which will be the last day of the performance period) and rounded down to the nearest whole common share.

Table of Contents

Stock-Based Compensation

Peoples recognizes stock-based compensation, which is included as a component of Peoples' salaries and employee benefit costs, for restricted common shares and performance unit awards, as well as purchases made by participants in the employee stock purchase plan. For restricted common shares, Peoples recognizes stock-based compensation based on the estimated fair value of the awards on the grant date, for the portion of awards that is expected to vest over the vesting period. For performance unit awards, Peoples recognizes stock-based compensation over the performance period, based on the portion of the awards that is expected to vest based on the expected level of achievement of the two performance goals. Peoples also has an employee stock purchase plan whereby employees can purchase Peoples' common shares at a discount of up to 15%. The following table summarizes the amount of stock-based compensation expense and related tax benefit recognized for each period:

	Three Months Ended March 31,	
(Dollars in thousands)	2019	2018
Total stock-based compensation expense	\$1,208	\$1,086
Recognized tax benefit	(254)	(228)
Net expense recognized	\$954	\$858

Restricted common shares were the primary form of stock-based compensation awards granted by Peoples in the three months ended March 31, 2019 and 2018. The fair value of restricted common share awards on the grant date is the market price of Peoples' common shares. Total unrecognized stock-based compensation expense related to unvested awards was \$4.3 million at March 31, 2019, which will be recognized over a weighted-average period of 2.2 years. On January 31, 2018, Peoples granted, to non-employee directors, an aggregate of 3,200 unrestricted common shares, which resulted in an additional \$102,000 of stock-based compensation expense being recognized. On February 14, 2018, an aggregate of 11,112 unrestricted common shares were granted as a one-time special award to all full-time and part-time employees who did not already participate in the 2006 Equity Plan, with a related stock-based compensation expense of \$388,000 being recognized. For the three months ended March 31, 2019 and 2018, Peoples recorded \$39,000 and \$44,000, respectively, of stock-based compensation associated with the performance unit awards. Additionally, Peoples recognized \$16,000 and \$14,000 of stock-based compensation associated with the employee stock purchase plan, based on purchases by employees thereunder, in the three months ended March 31, 2019 and 2018, respectively.

Table of Contents

Note 11 Revenue

The following table details Peoples' revenue from contracts with customers:

(Dollars in thousands)	Three Months Ended	
	March 31, 2019	March 31, 2018
Insurance income:		
Commission and fees from sale of insurance policies (a)	\$3,033	\$3,189
Fees related to third-party administration services (a)	169	119
Performance-based commissions (b)	1,419	1,347
Trust and investment income (a)	3,112	3,068
Electronic banking income:		
Interchange income (a)	2,443	2,264
Promotional and usage income (a)	544	521
Deposit account service charges:		
Ongoing maintenance fees for deposit accounts (a)	752	675
Transactional-based fees (b)	1,589	1,445
Commercial loan swap fees (b)	146	116
Other non-interest income transactional-based fees (b)	171	281
Total	\$13,378	\$13,025

Timing of revenue recognition:

Services transferred over time	\$10,053	\$9,836
Services transferred at a point in time	3,325	3,189
Total	\$13,378	\$13,025

(a) Services transferred over time.

(b) Services transferred at a point in time.

Peoples records contract assets for income that has been recognized over a period of time for fulfillment of performance obligations, but has not yet been received related to electronic banking income. This income typically relates to bonuses for which Peoples is eligible, but will not receive until a certain time in the future. Peoples records contract liabilities for payments received for commission income related to the sale of insurance policies, for which the performance obligations have not yet been fulfilled. The contract liabilities are recognized as income over time, during the period in which the performance obligations are fulfilled, which is over the insurance policy period. Peoples also records contract liabilities for bonuses received related to electronic banking income, for which income is recognized during the period in which the performance obligations are fulfilled.

The following table details the change in Peoples' contract assets and contract liabilities for the period ended March 31, 2019:

(Dollars in thousands)	Contract	
	Assets	Liabilities
Balance, January 1, 2019	\$ 207	\$ 5,055
Additional income receivable	90	—
Additional deferred income	—	2,424
Receipt of income previously receivable	(11)	—
Recognition of income previously deferred	—	(2,121)
Balance, March 31, 2019	\$ 286	\$ 5,358

Table of Contents

Note 12 Acquisitions

On April 12, 2019, Peoples completed the previously-announced merger with First Prestonsburg Bancshares Inc. ("First Prestonsburg"). First Prestonsburg merged into Peoples and First Prestonsburg's wholly-owned subsidiary, First Commonwealth Bank of Prestonsburg, Inc. ("First Commonwealth"), which operates nine full-service branches located in eastern and central Kentucky, merged into Peoples Bank. As of March 31, 2019, First Prestonsburg had, on a consolidated basis, \$297.1 million in total assets, which included \$137.1 million in total loans, and \$252.1 million in total deposits. Consideration of \$43.7 million was paid in the merger, which included 12.512 common shares of Peoples paid to shareholders of First Prestonsburg for each share of First Prestonsburg common stock they owned, which resulted in the issuance of 1,005,478 common shares of Peoples. In addition, immediately prior to the closing of the merger, First Prestonsburg paid a special cash distribution of \$140.30 per share (for an aggregate amount of \$11.3 million) to its shareholders.

Note 13 Leases

Peoples leases certain banking facilities and equipment under various agreements with original terms providing for fixed monthly payments over periods generally ranging from two to twenty years. Certain leases contain renewal options and rent escalation clauses calling for rent increases over the term of the lease. Short-term leases of certain facilities and equipment, with lease terms of 12 months or less, are recognized on a straight-line basis over the lease term. At March 31, 2019, Peoples did not have any finance leases or any significant lessor agreements.

The table below details Peoples' lease expense, which is included in net occupancy and equipment expense in the Unaudited Consolidated Statements of Income:

	Three Months Ended March 31, 2019
(Dollars in thousands)	
Operating lease expense	\$ 307
Short-term lease expense	30
Total lease expense	\$ 337

The following table details the right-of-use asset, the lease liability and other information related to Peoples' operating leases:

(Dollars in thousands)	March 31, 2019
Right-of-use asset:	
Other assets	\$ 4,990
Lease liability:	
Accrued expenses and other liabilities	\$ 5,138

Other information:

Weighted-average remaining lease term	8.1 years
Weighted-average discount rate	3.02 %

Table of Contents

The following table summarizes the maturity of remaining lease liabilities:

(a) Reflects the impact of the acquisition of ASB Financial Corp. ("ASB") beginning April 13, 2018.

(b) These amounts represent non-US GAAP financial measures since they exclude the balance sheet impact of goodwill and other intangible assets acquired through acquisitions on total stockholders' equity and total assets. Additional information regarding the calculation of these non-US GAAP financial measures can be found under the caption "Capital/Stockholders' Equity."

(c) Data presented as of the end of the period indicated.

(d) Ratios are presented on an annualized basis.

(e) Return on average tangible equity represents a non-US GAAP financial measures since it excludes the after-tax impact of amortization of other intangible assets from earnings and it excludes the balance sheet impact of goodwill and other intangible assets acquired through acquisitions on total stockholders' equity. Additional

information regarding the calculation of this non-US GAAP financial measure can be found under the caption "Return on Average Tangible Equity Ratio."

Return on average assets adjusted for non-core items represents a non-US GAAP financial measure since it excludes the impact of the Tax Cuts and Jobs Act on the remeasurement of deferred tax assets and deferred tax liabilities, and the after-tax impact of all gains and/or losses, core banking system conversion revenue and expenses, acquisition-related expenses, pension settlement charges, and other non-recurring expenses in earnings. Additional information regarding the calculation of this non-US GAAP financial measure can be found under the caption "Return on Average Assets Adjusted for Non-Core Items."

(f) Information presented on a fully tax-equivalent basis.

The efficiency ratio is defined as total non-interest expense (less amortization of other intangible assets) as a percentage of fully tax-equivalent net interest income plus total non-interest income (excluding all gains and losses). This amount represents a non-US GAAP financial measure since it

Table of Contents

excludes amortization of other intangible assets, and all gains and/or losses included in earnings, and uses fully tax-equivalent net interest income. Additional information regarding the calculation of this non-US GAAP financial measure can be found under the caption "Efficiency Ratio."

The efficiency ratio adjusted for non-core items is defined as core non-interest expense (less amortization of other intangible assets) as a percentage of fully tax-equivalent net interest income plus core non-interest income excluding all gains and losses. This amount represents a non-US GAAP financial measure since it excludes the (i) impact of all gains and/or losses, core banking system conversion revenue and expenses, acquisition-related expenses, pension settlement charges, and other non-recurring expenses included in earnings, and uses fully tax-equivalent net interest income. Additional information regarding the calculation of this non-US GAAP financial measure can be found under the caption "Efficiency Ratio."

Pre-provision net revenue is defined as net interest income plus total non-interest income (excluding all gains and losses) minus total non-interest expense. This ratio represents a non-US GAAP financial measure since it excludes the provision for loan losses and all gains and/or losses included in earnings. This measure is a key metric used by (j) federal bank regulatory agencies in their evaluation of capital adequacy for financial institutions. Additional information regarding the calculation of this non-US GAAP financial measure can be found under the caption "Pre-Provision Net Revenue."

(k) Nonperforming loans include loans 90+ days past due and accruing, renegotiated loans and nonaccrual loans.

(k) Nonperforming assets include nonperforming loans and other real estate owned.

(l) Includes loans categorized as special mention, substandard and doubtful.

(m) Includes loans categorized as substandard and doubtful.

(n) Peoples' capital conservation buffer was 6.97% at March 31, 2019 and 6.33% at March 31, 2018, compared to 2.50% for the fully phased-in capital conservation buffer required at January 1, 2019.

Forward-Looking Statements

Certain statements in this Form 10-Q, which are not historical fact, are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, Section 21E of the Securities Exchange Act of 1934, as amended, and the Private Securities Litigation Reform Act of 1995. These forward-looking statements are identified by the fact they are not historical facts and include words such as "anticipate," "estimate," "may," "feel," "expect," "believe," "plan," "will," "would," "should," "could," "project," "goal," "target," "potential," "seek," "intend," and similar expressions.

These forward-looking statements reflect management's current expectations based on all information available to management and its knowledge of Peoples' business and operations. Additionally, Peoples' financial condition, results of operations, plans, objectives, future performance and business are subject to risks and uncertainties that may cause actual results to differ materially. These factors include, but are not limited to:

- the success, impact, and timing of the implementation of Peoples' business strategies, including the successful
- (1) integration of the business of First Prestonsburg following the merger, and the expansion of consumer lending activity;
- (2) Peoples' ability to integrate future acquisitions, which may be unsuccessful, or may be more difficult, time-consuming or costly than expected;
- competitive pressures among financial institutions, or from non-financial institutions, which may increase
- (3) significantly, including product and pricing pressures, changes to third-party relationships and revenues, customer acquisition and retention pressures, and Peoples' ability to attract, develop and retain qualified professionals;
- changes in the interest rate environment due to economic conditions and/or the fiscal policies of the United States
- (4) ("U.S.") government and the Board of Governors of the Federal Reserve System (the "Federal Reserve Board"), which may adversely impact interest rates, interest margins, loan demand and interest rate sensitivity;
- (5) uncertainty regarding the nature, timing, cost, and effect of legislative or regulatory changes or actions, promulgated and to be promulgated by governmental and regulatory agencies in the state of Ohio, the Federal Deposit Insurance Corporation, the Federal Reserve Board and the Consumer Financial Protection Bureau, which may subject Peoples, its subsidiaries, or one or more acquired companies to a variety of new and more stringent legal and regulatory requirements which adversely affect their respective businesses, including in particular the

- rules and regulations promulgated and to be promulgated under the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010, and the Basel III regulatory capital reform;
- (6) the effects of easing restrictions on participants in the financial services industry;
 - local, regional, national and international economic conditions (including the impact of potential or imposed tariffs,
 - (7) a U.S. withdrawal from or significant renegotiation of trade agreements, trade wars and other changes in trade regulations) and the impact these conditions may have on Peoples, its customers and its counterparties, and Peoples' assessment of the impact, which may be different than anticipated;
 - (8) the existence or exacerbation of general geopolitical instability and uncertainty;

Table of Contents

- (9) changes in policy and other regulatory and legal developments, and uncertainty or speculation pending the enactment of such changes;
- (10) Peoples may issue equity securities in connection with future acquisitions, which could cause ownership and economic dilution to Peoples' current shareholders;
- (11) changes in prepayment speeds, loan originations, levels of nonperforming assets, delinquent loans and charge-offs, which may be less favorable than expected and adversely impact the amount of interest income generated;
- (12) adverse changes in economic conditions and/or activities, including, but not limited to, continued economic uncertainty in the U.S., the European Union (including the uncertainty surrounding the actions to be taken to implement the referendum by British voters to exit the European Union), Asia, and other areas, which could decrease sales volumes, add volatility to the global stock markets, and increase loan delinquencies and defaults;
- (13) deterioration in the credit quality of Peoples' loan portfolio, which may adversely impact the provision for loan losses;
- (14) Peoples may have more credit risk and higher credit losses to the extent loans are concentrated by location or industry of the borrowers or collateral;
- (15) changes in accounting standards, policies, estimates or procedures, including the new current expected credit loss rule issued by the Financial Accounting Standard Board in June 2016, which will require banks to record, at the time of origination, credit losses expected throughout the life of the asset portfolio on loans and held-to-maturity securities, as opposed to the current practice of recording losses when it is probable that a loss event has occurred, which may adversely affect Peoples' reported financial condition or results of operations;
- (16) Peoples' assumptions and estimates used in applying critical accounting policies, which may prove unreliable, inaccurate or not predictive of actual results;
- (17) the discontinuation of the London Inter-Bank Offered Rate and other reference rates may result in increased expenses and litigation, and adversely impact the effectiveness of hedging strategies;
- (18) adverse changes in the conditions and trends in the financial markets, including political developments, which may adversely affect the fair value of securities within Peoples' investment portfolio, the interest rate sensitivity of Peoples' consolidated balance sheet, and the income generated by Peoples' trust and investment activities;
- (19) the volatility from quarter to quarter of mortgage banking income, whether due to interest rates, demand, the fair value of mortgage loans, or other factors;
- (20) Peoples' ability to receive dividends from its subsidiaries;
- (21) Peoples' ability to maintain required capital levels and adequate sources of funding and liquidity;
- (22) the impact of larger or similar-sized financial institutions encountering problems, which may adversely affect the banking industry and/or Peoples' business generation and retention, funding and liquidity;
- (23) the costs and effects of new federal and state laws, and other regulatory and legal developments, including the outcome of potential regulatory or other governmental inquiries and legal proceedings and results of regulatory examinations;
- (24) Peoples' ability to secure confidential information and deliver products and services through the use of computer systems and telecommunications networks, including those of Peoples' third-party vendors and other service providers, which may prove inadequate, and could adversely affect customer confidence in Peoples and/or result in Peoples incurring a financial loss;
- (25) Peoples' ability to anticipate and respond to technological changes, and Peoples' reliance on, and the potential failure of, a number of third-party vendors to perform as expected, including Peoples' primary core banking system provider, which can impact Peoples' ability to respond to customer needs and meet competitive demands;

Table of Contents

- (26) operational issues stemming from and/or capital spending necessitated by the potential need to adapt to industry changes in information technology systems on which Peoples and its subsidiaries are highly dependent; changes in consumer spending, borrowing and saving habits, whether due to tax reform legislation, changes in
- (27) business and economic conditions, legislative or regulatory initiatives, or other factors, which may be different than anticipated; the adequacy of Peoples' internal controls and risk management program in the event of changes in strategic,
- (28) reputational, market, economic, operational, cyber security, compliance, legal, asset/liability repricing, liquidity, credit and interest rate risks associated with Peoples' business;
- (29) the impact on Peoples' businesses, personnel, facilities, or systems, related to fraud, theft, or violence; the impact on Peoples' businesses, as well as on the risks described above, of various domestic or international
- (30) widespread natural or other disasters, pandemics, cyber attacks, civil unrest, military or terrorist activities or international conflicts;
- (31) Peoples' continued ability to grow deposits; and other risk factors relating to the banking industry or Peoples as detailed from time to time in Peoples' reports filed with the Securities and Exchange Commission (the "SEC"), including those risk factors included in the
- (32) disclosures under the heading "ITEM 1A. RISK FACTORS" of Peoples' Annual Report on Form 10-K for the fiscal year ended December 31, 2018 and under the heading "ITEM 1A. RISK FACTORS" in Part II of this Form 10-Q.

All forward-looking statements speak only as of the filing date of this Form 10-Q and are expressly qualified in their entirety by the cautionary statements. Although management believes the expectations in these forward-looking statements are based on reasonable assumptions within the bounds of management's knowledge of Peoples' business and operations, it is possible that actual results may differ materially from these projections. Additionally, Peoples undertakes no obligation to update these forward-looking statements to reflect events or circumstances after the filing date of this Form 10-Q or to reflect the occurrence of unanticipated events except as may be required by applicable legal requirements. Copies of documents filed with the SEC are available free of charge at the SEC's website at www.sec.gov and/or from Peoples' website – www.peoplesbancorp.com under the "Investor Relations" section. This discussion and analysis should be read in conjunction with the audited Consolidated Financial Statements, and Notes thereto, contained in Peoples' 2018 Form 10-K, as well as the Unaudited Consolidated Financial Statements, Notes to the Unaudited Consolidated Financial Statements, ratios, statistics and discussions contained elsewhere in this Form 10-Q.

Business Overview

The following discussion and analysis of Peoples' Unaudited Consolidated Financial Statements is presented to provide insight into management's assessment of the financial condition and results of operations.

Peoples offers diversified financial products and services through 89 locations, including 80 full-service bank branches, and 86 Automated Teller Machines ("ATMs") in northeastern, central, southwestern and southeastern Ohio, west central West Virginia, and central and eastern Kentucky through its financial service units – Peoples Bank and Peoples Insurance Agency, LLC ("Peoples Insurance"), a subsidiary of Peoples Bank. Peoples Bank is subject to regulation and examination primarily by the Ohio Division of Financial Institutions (the "ODFI"), the Federal Reserve Bank of Cleveland and the Federal Deposit Insurance Corporation (the "FDIC"). Peoples Bank is also subject to regulations of the Consumer Financial Protection Bureau (the "CFPB") which regulates consumer financial products and services and certain financial services providers. Peoples Insurance is subject to regulation by the Ohio Department of Insurance and the state insurance regulatory agencies of those states in which Peoples Insurance may do business.

Peoples' products and services include traditional banking products, such as deposit accounts, lending products and trust services. Peoples provides services through traditional offices, ATMs, mobile banking and telephone and internet-based banking. Peoples also offers a complete array of insurance products and makes available custom-tailored fiduciary, employee benefit plan and asset management services. Brokerage services are offered by Peoples exclusively through an unaffiliated registered broker-dealer located at Peoples Bank's offices.

Table of Contents

Critical Accounting Policies

The accounting and reporting policies of Peoples conform to US GAAP and to general practices within the financial services industry. The preparation of the financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could materially differ from those estimates. Management has identified the accounting policies that, due to the judgments, estimates and assumptions inherent in those policies, are critical to understanding Peoples' Unaudited Consolidated Financial Statements, and Management's Discussion and Analysis at March 31, 2019, which were unchanged from the policies disclosed in Peoples' 2018 Form 10-K.

Summary of Recent Transactions and Events

The following is a summary of recent transactions and events that have impacted or are expected to impact Peoples' results of operations or financial condition:

At the close of business on April 13, 2018, Peoples closed the acquisition of ASB. ASB merged into Peoples, and ASB's wholly-owned subsidiary, American Savings Bank, fsb, which operated seven full-service bank branches and two loan production offices in southern Ohio and eastern Kentucky, merged into Peoples Bank. Under the terms of the merger agreement, Peoples paid total consideration of \$41.5 million. The acquisition added \$239.2 million of total loans and loans held for sale in the aggregate, and \$198.6 million of total deposits at the acquisition date, after acquisition accounting adjustments. Peoples also recorded \$2.6 million of other intangible assets and \$18.1 million of goodwill.

On April 12, 2019, Peoples completed the previously announced merger with First Prestonsburg Bancshares Inc. ("First Prestonsburg"). First Prestonsburg merged into Peoples and First Prestonsburg's wholly-owned subsidiary, First Commonwealth Bank of Prestonsburg, Inc., which operated nine full-service bank branches in central and eastern Kentucky, merged into Peoples Bank. As of March 31, 2019, First Prestonsburg had \$297.1 million in total assets, which included \$137.1 million in total loans, and \$252.1 million in total deposits. Aggregate consideration of \$43.7 million was paid for the acquisition, of which \$11.3 million was in the form of a special cash dividend paid to shareholders prior to the merger with the remainder being paid in stock totaling 1,005,478 Peoples common shares. Refer to Note 12 Acquisitions of the Notes to the Unaudited Consolidated Financial Statements for additional information.

On April 3, 2019, Peoples entered into a Loan Agreement (the "U.S. Bank Loan Agreement") with U.S. Bank National Association. The U.S. Bank Loan Agreement provides Peoples with a revolving line of credit in the maximum aggregate principal amount of \$20 million that may be used for: (i) working capital purposes; (ii) to finance dividends or other distributions (other than stock dividends and stock splits) on or in respect of Peoples' capital stock and redemptions, repurchases or other acquisitions of any of Peoples' capital stock permitted under the U.S. Bank Loan Agreement and (iii) to finance acquisitions permitted under the U.S. Bank Loan Agreement.

Effective April 3, 2019, Peoples terminated the Credit Agreement, dated as of March 4, 2016 between Peoples, as Borrower, and Raymond James Bank, N.A., as Lender (the "RJB Credit Agreement"), with a revolving line of credit in the maximum aggregate principal amount of \$15.0 million.

During the first quarter of 2019, Peoples recorded a recovery of loan losses of \$263,000, compared to a provision for loan losses of \$1.0 million for the linked quarter and \$2.0 million for the first quarter of 2018. The recovery of loan losses for the first quarter of 2019 was driven by net recoveries of \$1.0 million, which included the recognition of a \$1.8 million recovery on a previously charged-off commercial loan.

During the first quarter of 2019, Peoples sold its restricted Class B Visa stock, which had been held at a carrying cost and fair value of \$0 due to the litigation liability associated with the stock, resulting in a gain of \$787,000 recorded in other non-interest income.

During the first quarter of 2019, Peoples incurred \$253,000 of acquisition-related costs, all of which were recorded in total non-interest expense. Peoples incurred \$382,000 and \$149,000 of acquisition-related costs during the fourth and first quarter of 2018, respectively, all of which were recorded in total non-interest expense for both periods. The acquisition costs in 2019 and 2018 were primarily related to the First Prestonsburg and ASB acquisitions, respectively.

During the first quarter of 2019, Peoples closed one insurance office located in Ohio when the lease for the location expired at the end of January 2019 and one full-service bank branch located in West Virginia when the lease for the location expired in March 2019. Employees at the the closed locations were relocated to other branches or offices. Additionally, Peoples provided notification during 2018 that it will be closing one additional full-service bank

Table of Contents

branch located in West Virginia, which is currently leased. The lease term for this location expires in 2019 and will not be renewed.

Multiple items impacted Peoples' income tax expense during 2018, primarily as a result of the Tax Cuts and Jobs Act, which lowered the statutory federal corporate income tax rate to 21% as of January 1, 2018, from a previous rate of 35%.

Beginning on January 1, 2018, Peoples began recognizing income tax expense at the 21% statutory federal corporate income tax rate.

During the fourth quarter of 2018, Peoples finalized the remeasurement of its net deferred tax assets and liabilities at the new statutory federal corporate income tax rate of 21%, which resulted in a reduction to income tax expense of \$705,000 in 2018. The final adjustment was mainly due to Peoples' contribution of \$3.2 million to Peoples' defined benefit pension plan during 2018.

During 2018, Peoples released a valuation allowance, which reduced income tax expense by \$0.8 million. The valuation allowance was related to a historical tax credit that Peoples had invested in during 2015. Peoples sold \$6.7 million of equity investment securities in the second quarter of 2018, which resulted in a capital gain for tax purposes. This capital gain was large enough to offset an anticipated future capital loss, which is expected to be recognized due to the structure of the historical tax credit investment, resulting in the release of the valuation allowance.

During the fourth quarter of 2018, Peoples incurred \$91,000 in pension settlement costs due to the aggregate amount of lump-sum distributions to participants in Peoples' defined benefit pension plan exceeding the threshold for recognizing such charges during the period. There were no such costs during the first quarter of 2019 or the first quarter of 2018.

On July 31, 2018, Peoples entered into \$50.0 million of interest rate swaps, which became effective immediately and will mature between 2021 and 2028, with interest rates ranging from 2.92% to 3.00%. Additionally, the three interest rate swaps acquired with the ASB acquisition matured in July of 2018. These swaps locked in funding rates for \$40.0 million, in notional value, in FHLB advances that matured in 2018, which had interest rates ranging from 3.57% to 3.92%. For additional information regarding Peoples' interest rate swaps, refer to Note 9 Derivative Financial Instruments of the Notes to the Unaudited Consolidated Financial Statements.

On January 1, 2018, Peoples adopted ASU 2016-01, resulting in the reclassification of \$7.8 million of equity investment securities from available-for-sale investment securities to other investment securities and the reclassification of \$5.0 million in net unrealized gains on equity investment securities from accumulated other comprehensive loss to retained earnings.

The Federal Reserve Board began tightening monetary policy in December 2015 by raising the benchmark Federal Funds Target Rate. Since then, the rate has increased several times from a range of 0.25% to 0.50% to its current range of 2.25% to 2.50%. No additional rate increases are anticipated in 2019. The Federal Reserve Board has also indicated it would pause reducing its balance sheet beginning in September 2019. As a result, interest rates will likely remain within a relatively narrow range throughout the remainder of 2019. Peoples is closely monitoring interest rates, both foreign and domestic; and potential impacts of changes in interest rates to Peoples' operations.

The impact of these transactions and events, where material, is discussed in the applicable sections of this Management's Discussion and Analysis of Results of Operations and Financial Condition.

EXECUTIVE SUMMARY

Peoples recorded net income of \$14.4 million for the first quarter of 2019, representing earnings per diluted share of \$0.73, compared to \$13.9 million, or \$0.71 per diluted share, for the fourth quarter of 2018, and \$11.7 million, or \$0.64 per diluted share, for the first quarter of 2018. During the first quarter of 2019, earnings per common diluted share were positively impacted by \$0.07 per share for the recovery on a previously charged-off commercial loan and by \$0.03 per share for income related to the sale of restricted Class B Visa stock, partially offset by the negative impact of \$0.01 per share for acquisition-related costs. During the fourth quarter of 2018, earnings per common diluted share were positively impacted by \$0.03 per share related to the final impact of the federal income tax rate change recorded during the fourth quarter of 2018, partially offset by \$0.01 per share in the aggregate for acquisition-related expenses and pension settlement charges, in the fourth quarter of 2018. During the first quarter of 2018, earnings per diluted common share were positively impacted by

Table of Contents

\$0.06 due to the reduced effective tax rate associated with the Tax Cuts and Jobs Act enacted in December 2017, and by \$0.03 due to increases in the fair value of investments in equity securities.

Net interest income declined slightly to \$33.9 million for the first quarter of 2019, a decrease of 1%, compared to \$34.1 million for the fourth quarter of 2018, and increased by 16% compared to \$29.4 million for the first quarter of 2018. Net interest margin was 3.80% for the first quarter of 2019, an increase from 3.77% for the fourth quarter of 2018, and from 3.66% for the first quarter of 2018. The first quarter of 2019 had two fewer days in which interest was earned compared to the linked quarter, resulting in the decline in net interest income. The increase in net interest income compared to the first quarter of 2018 was largely due to higher interest income on loans, partially offset by an increase in interest expense on deposits. The increase in interest income on loans was driven by a combination of loan growth, which included the impact of the ASB acquisition, and higher yields from interest rate increases. In addition, during the fourth quarter of 2018 and the first quarter of 2018, net interest income was impacted by proceeds of \$305,000 and \$341,000, respectively, received on an investment security for which an other-than-temporary-impairment had previously been recorded. These proceeds added 3 basis points and 4 basis points to the net interest margin for the fourth quarter of 2018 and the first quarter of 2018, respectively.

For the first quarter of 2019, accretion income from acquisitions, net of amortization expense, was \$722,000, compared to \$506,000 for the fourth quarter of 2018 and \$566,000 for the first quarter of 2018, which added 8 basis points, 6 basis points, and 7 basis points, respectively, to net interest margin. The increase in accretion income compared to the linked quarter was driven by a decline in the amortization of the fair value adjustment to acquired ASB time deposits, which will be fully amortized by the end of the second quarter of 2019.

During the first quarter of 2019, Peoples recorded a recovery of loan losses of \$263,000, compared to provisions for loan losses of \$975,000 for the fourth quarter of 2018 and \$2.0 million for the first quarter of 2018. The recovery of loan losses during the first quarter of 2019 was driven by net recoveries of \$1.0 million, which included the recognition of a \$1.8 million recovery on a previously charged-off commercial loan.

For the first quarter of 2019, total non-interest income increased \$1.3 million, or 9%, compared to the fourth quarter of 2018 and \$460,000, or 3%, from the first quarter of 2018. The increase in total non-interest income from the fourth quarter of 2018 was largely due to increased insurance income, mainly due to annual performance-based insurance commissions that are primarily received in the first quarter each year, and are a core component of insurance income. Additionally, realized and unrealized gains on equity investment securities increased \$810,000 compared to the linked quarter, primarily due to \$787,000 of income related to the sale of restricted Class B Visa stock during the current quarter, which had been held at a carrying cost and fair value of \$0 due to the litigation liability associated with the stock. The increase in total non-interest income from the first quarter of 2018 was due primarily to higher mortgage banking income, which more than doubled, due to increased origination activity as the result of the mortgage operation acquired from ASB. Additionally, income from deposit account service charges and electronic banking income were up compared to a year ago, both of which benefited from the ASB acquisition.

Total non-interest expense increased \$904,000, or 3%, in the first quarter of 2019 compared to the fourth quarter of 2018 and grew \$3.6 million, or 13%, compared to the first quarter of 2018. The increase compared to the linked quarter was primarily due to salaries and employee benefit costs, coupled with increased net occupancy and equipment expense, and data processing and software expense. The increase in salaries and employee benefit costs was driven by higher medical insurance costs due to medical claims, as well as expenses which occur primarily in the first quarter each year related to stock-based compensation and contributions to employee health benefit accounts. Stock-based compensation for the first quarter of 2019, which increased \$722,000 compared to the fourth quarter of 2018, included \$469,000 of expense related to stock grants to retirement eligible individuals, and \$128,000 of expense related to the annual vesting of prior stock grants. The remaining increase was attributable to the annual stock grants to non-retirement eligible individuals. Annual contributions to employee health benefit accounts resulted in an expense of \$450,000. These increases were partially offset by lower professional fees, and foreclosed real estate and other loan expenses. The growth in total non-interest expense compared to the first quarter of 2018 was led by higher salaries and employee benefit costs and the ongoing increased operating costs associated with the additional footprint and client accounts of ASB. Base salaries and medical insurance were the main contributors to the increase in salaries and employee benefit costs, which were impacted by the ASB acquisition, as well as by higher medical claims and

employees that have been added in the last twelve months for succession purposes and recent and future growth. Peoples' efficiency ratio, calculated as total non-interest expense less amortization of other intangible assets divided by fully tax-equivalent ("FTE") net interest income, plus total non-interest income, excluding all gains and losses, for the first quarter of 2019 was 62.7%, compared to 62.0% for the fourth quarter of 2018 and 61.8% for the first quarter of 2018. The efficiency ratio, when adjusted for non-core items, was 62.2% for the first quarter of 2019, compared to 61.0% for the fourth

Table of Contents

quarter of 2018 and 61.4% for the first quarter of 2018. The increase in the efficiency ratio compared to both the linked quarter and the first quarter of 2018 was driven by a higher increase in total non-interest expenses compared to revenue.

During the first quarter of 2019, income tax expense was \$3.4 million, compared to \$2.5 million for the linked quarter and \$2.4 million for the first quarter of 2018. The increase in income tax expense compared to the linked quarter was due to higher pre-tax income, partially offset by the benefit recorded for the vesting of restricted stock during the current quarter. Also contributing to the increase was the amount recorded in the fourth quarter of 2018 related to the final remeasurement of net deferred tax assets because of the Tax Cuts and Jobs Act, which resulted in a reduction of income tax expense of \$705,000. The increase in income tax expense compared to the first quarter of 2018 was due to higher pre-tax income, coupled with a lower benefit recorded for the vesting of restricted stock of \$133,000 during the first quarter of 2019 compared to a benefit of \$290,000 in the first quarter of 2018.

At March 31, 2019, total assets were \$4.02 billion, compared to \$3.99 billion at December 31, 2018. The 1% increase compared to December 31, 2018 was driven by loan growth of \$8.8 million, coupled with an increase in total investment securities of \$7.8 million. The allowance for loan losses increased slightly to \$20.9 million, or 0.76% of total loans, compared to \$20.2 million and 0.74%, respectively, at December 31, 2018.

Total liabilities were \$3.48 billion at March 31, 2019, up \$10.7 million since December 31, 2018. The increase in liabilities during the first three months of 2019 was primarily due to an increase in deposits of \$181.9 million, partially offset by a decline in borrowings of \$168.5 million.

At March 31, 2019, total stockholders' equity was \$535.1 million, an increase of \$15.0 million, compared to December 31, 2018. The increase in total stockholders' equity was mostly due to net income of \$14.4 million for the first three months of 2019 and a decrease in accumulated other comprehensive loss of \$5.4 million, partially offset by dividends paid of \$5.9 million.

RESULTS OF OPERATIONS**Net Interest Income**

Net interest income, the amount by which interest income exceeds interest expense, remains Peoples' largest source of revenue. The amount of net interest income earned by Peoples each quarter is affected by various factors, including changes in market interest rates due to the Federal Reserve Board's monetary policy, the level and degree of pricing competition for both loans and deposits in Peoples' markets, and the amount and composition of Peoples' earning assets and interest-bearing liabilities.

Net interest margin, which is calculated by dividing fully tax-equivalent ("FTE") net interest income by average interest-earning assets, serves as an important measurement of the net revenue stream generated by the volume, mix and pricing of interest-earning assets and interest-bearing liabilities. FTE net interest income is calculated by increasing interest income to convert tax-exempt income earned on obligations of states and political subdivisions to the pre-tax equivalent of taxable income using a federal corporate income tax rate of 21%.

The following table details the calculation of FTE net interest income:

(Dollars in thousands)	Three Months Ended		
	March 31, 2019	December 31, 2018	March 31, 2018
Net interest income	\$33,914	\$34,121	\$29,359
Taxable equivalent adjustments	200	212	227
Fully tax-equivalent net interest income	\$34,114	\$34,333	\$29,586

Table of Contents

The following tables detail Peoples' average balance sheets for the periods presented:

(Dollars in thousands)	For the Three Months Ended								
	March 31, 2019			December 31, 2018			March 31, 2018		
	Average Balance	Income/Expense	Yield/Cost	Average Balance	Income/Expense	Yield/Cost	Average Balance	Income/Expense	Yield/Cost

(a) Average balances are based on carrying value.

(b) Interest income and yields are presented on a fully tax-equivalent basis using a 21% statutory federal corporate income tax rate.

Table of Contents

Interest income and yield presented for the fourth quarter of 2018 and first quarter of 2018 includes \$305,000 and (c) \$341,000, respectively, of proceeds on an investment security for which an other-than-temporary-impairment had been recorded in previous years.

Average balances include nonaccrual, impaired loans and loans held for sale. Interest income includes interest (d) earned and received on nonaccrual loans prior to the loans being placed on nonaccrual status. Loan fees included in interest income were immaterial for all periods presented.

(e) Loans held for sale are included in the average loan balance listed. Related interest income on loans originated for sale prior to the loan being sold is included in loan interest income.

The following table provides an analysis of the changes in FTE net interest income:

(Dollars in thousands)	Three Months Ended March 31, 2019 Compared to					
	December 31, 2018			March 31, 2018		
Increase (decrease) in:	Rate	Volume	Total (a)	Rate	Volume	Total (a)

Net interest income	\$822	\$(1,041)	\$(219)	\$767	\$3,761	\$4,528

(a) The change in interest due to both rate and volume has been allocated to rate and volume changes in proportion to the relationship of the dollar amounts of the changes in each.

(b) Interest income and yields are presented on a fully tax-equivalent basis using a 21% statutory federal corporate income tax rate.

The decline in net interest income compared to the fourth quarter of 2018 was due to two fewer days in which interest was earned during the first quarter of 2019. The increase in net interest income compared to the first quarter of 2018 was largely due to higher interest income on loans, partially offset by an increase in interest expense on deposits. The increase in

Table of Contents

interest income on loans was driven by a combination of loan growth, which included the impact of the ASB acquisition, and higher yields from rate increases. Higher deposit costs were primarily the result of increased competition for deposits.

Average quarterly total loan balances increased \$16.0 million, or 1%, compared to the linked quarter and increased \$359.3 million, or 15%, including acquired loans from the ASB acquisition, compared to the first quarter of 2018. Compared to the fourth quarter of 2018, an increase in average balances of commercial and industrial loans of \$21.3 million, or 4%, was mostly offset by a decline in average balances of commercial real estate loans of \$12.9 million, or 2%, driven by large payoffs during the first quarter of 2019. Average consumer indirect lending balances grew \$7.6 million, or 2%, compared to the linked quarter. Compared to the first quarter of 2018, average balances in residential real estate loans increased \$111.5 million, or 23%, while average balances in commercial and industrial loans increased \$99.2 million, or 21%, and average balances in consumer indirect loans increased \$66.8 million, or 19%. The fourth quarter of 2018 and first quarter of 2018 also benefited from proceeds received on an investment security that had been previously written down due to an other-than-temporary impairment of \$305,000 and \$341,000, respectively. These proceeds added 3 basis points and 4 basis points to the net interest margin for fourth quarter of 2018 and first quarter of 2018, respectively. Peoples recorded no similar proceeds during the first quarter of 2019. The accretion income from acquisitions, net of amortization expense, was \$722,000 for the first quarter of 2019, compared to \$506,000 for the fourth quarter of 2018, and \$566,000 for the first quarter of 2018, which added 8 basis points, 6 basis points, and 7 basis points, respectively, to net interest margin. The increase in accretion income compared to the linked quarter was driven by a decline in the amortization of the fair value adjustment to acquired ASB time deposits, which will be fully amortized by the end of the second quarter of 2019.

Additional information regarding changes in the Consolidated Balance Sheets can be found under appropriate captions of the "FINANCIAL CONDITION" section of this discussion. Additional information regarding Peoples' interest rate risk and the potential impact of interest rate changes on Peoples' results of operations and financial condition can be found later in this discussion under the caption "FINANCIAL CONDITION - Interest Rate Sensitivity and Liquidity." (Recovery of) Provision for Loan Losses

The following table details Peoples' (recovery of) provision for loan losses:

(Dollars in thousands)	Three Months Ended		
	March 31, 2019	December 31, 2018	March 31, 2018
(Recovery of) provision for other loan losses	\$(360)	\$ 800	\$ 1,842
Provision for checking account overdrafts	97	175	141
(Recovery of) provision for loan losses	\$(263)	\$ 975	\$ 1,983
As a percentage of average total loans (a)	(0.04)%	0.14 %	0.34 %

(a) Presented on an annualized basis.

The recovery of, or provision for, loan losses recorded represents the amount needed to maintain the appropriate level of the allowance for loan losses based on management's formal quarterly analysis of the loan portfolio and procedural methodology that estimates the amount of probable credit losses. This process considers various factors that affect losses, such as changes in Peoples' loan quality, historical loss experience, current economic conditions, and other environmental factors such as changes in real estate market conditions, unemployment, and the economic impact of tariffs. The recovery of loan losses was driven by net recoveries for the first quarter of 2019 of \$1.0 million, compared to net charge-offs of \$661,000 for the linked quarter and \$2.0 million for the first quarter of 2018. Recoveries during the first quarter of 2019 were primarily driven by the recognition of a \$1.8 million recovery on a previously charged-off commercial loan.

Additional information regarding changes in the allowance for loan losses and loan credit quality can be found later in this discussion under the caption "FINANCIAL CONDITION - Allowance for Loan Losses."

Net Gains (Losses) Included in Total Non-Interest Income

The following table details Peoples' net gains and losses, recognized in total non-interest income:

Table of Contents

(Dollars in thousands)	Three Months Ended		
	March 2019	December 31, 2018	March 31, 2018
Net gain on investment securities	\$30	\$ —	\$ 1
Net (loss) gain on asset disposals and other transactions	(182)	(15)	74

The following table details the net (loss) gain on asset disposals and other transactions recognized by Peoples:

(Dollars in thousands)	Three Months Ended		
	March 2019	December 31, 2018	March 31, 2018
Net (loss) gain on other assets	\$(157)	\$ 15	\$ 79
Net loss on other real estate owned ("OREO")	(25)	(30)	(5)
Net (loss) gain on asset disposals and other transactions	\$(182)	\$(15)	\$ 74

During the first quarter of 2019, net loss on other assets was primarily due to \$118,000 of market value write-downs related to closed offices that were held for sale. The net gain on other assets in the first quarter of 2018 related to increased indirect lending activity in connection with which assets had been repossessed and sold at a gain or loss.

Total Non-Interest Income, Excluding Net Gains and Losses

Insurance income comprised the largest portion of the first quarter 2019 total non-interest income. The following table details Peoples' insurance income:

(Dollars in thousands)	Three Months Ended		
	March 2019	December 31, 2018	March 31, 2018
Property and casualty insurance commissions	\$2,674	\$ 2,656	\$ 2,645
Performance-based commissions	1,419	4	1,347
Life and health insurance commissions	359	591	544
Other fees and charges	169	149	119
Insurance income	\$4,621	\$ 3,400	\$ 4,655

Revenue related to performance-based commissions is due to annual performance-based insurance commissions, which are primarily recognized in the first quarter of each year and are a core component of insurance income. The decline in life and health insurance commissions was primarily due to an increase in deferred revenue.

Peoples' fiduciary and brokerage revenues continued to be based primarily upon the value of assets under administration and management, with additional income generated from transaction commissions, cross-selling of products and additional retirement plan services business. Brokerage income for the first quarter of 2019 declined compared to the fourth quarter of 2018 primarily due to lower market values of accounts in the beginning of 2019, resulting from market declines at the end of 2018. The following tables detail Peoples' trust and investment income and related assets under administration and management:

(Dollars in thousands)	Three Months Ended		
	March 2019	December 31, 2018	March 31, 2018
Fiduciary	\$1,636	\$ 1,579	\$ 1,606
Brokerage	965	1,050	964
Employee benefits	511	504	498
Trust and investment income	\$3,112	\$ 3,133	\$ 3,068

Table of Contents

(Dollars in thousands)	March 31, 2019	December 31, 2018	September 30, 2018	June 30, 2018	March 31, 2018
Trust assets under administration and management	\$1,471,422	\$1,384,113	\$1,489,810	\$1,454,009	\$1,447,636
Brokerage assets under administration and management	863,286	849,188	914,172	881,839	882,018
Total assets under administration and management	\$2,334,708	\$2,233,301	\$2,403,982	\$2,335,848	\$2,329,654
Quarterly average	\$2,312,098	\$2,316,201	\$2,378,676	\$2,331,529	\$2,352,798

Peoples' electronic banking ("e-banking") services include ATM and debit cards, direct deposit services, internet and mobile banking, and remote deposit capture and serve as alternative delivery channels to traditional sales offices for providing services to clients. The following table details Peoples' e-banking income:

(Dollars in thousands)	Three Months Ended		
	March 2019	December 31, 2018	March 31, 2018
Interchange fees	\$2,443	\$2,474	\$2,264
Promotional and usage income	544	543	521
E-banking income	\$2,987	\$3,017	\$2,785

Peoples' e-banking revenue is derived largely from ATM and debit cards, as other services are mainly provided at no charge to the customers. The amount of e-banking income is largely dependent on the timing and volume of customer activity. The increase in e-banking income compared to the first quarter of 2018 was the result of the increased usage of debit cards by more customers, which includes the impact of additional customers and accounts related to the acquisition of ASB.

Deposit account service charges are based on the recovery of costs associated with services provided. The following table details Peoples' deposit account service charges:

(Dollars in thousands)	Three Months Ended		
	March 2019	December 31, 2018	March 31, 2018
Overdraft and non-sufficient funds fees	\$1,433	\$1,748	\$1,439
Account maintenance fees	752	706	675
Other fees and charges	156	164	6
Deposit account service charges	\$2,341	\$2,618	\$2,120

The amount of deposit account service charges, particularly fees for overdrafts and non-sufficient funds, is largely dependent on the timing and volume of customer activity. Management periodically evaluates its cost recovery fees to ensure they are reasonable based on operational costs and similar to fees charged in Peoples' markets by competitors. The decline in overdraft and non-sufficient funds fees from the fourth quarter of 2018 was primarily due to seasonality of customer activity. The increases in account maintenance fees, and other fees and charges compared to the first quarter of 2018 were primarily due to the ASB acquisition, coupled with changes in fee schedules implemented in the first quarter of 2019.

The following table details the other items included within Peoples' total non-interest income:

(Dollars in thousands)	Three Months Ended		
	March 2019	December 31, 2018	March 31, 2018
Mortgage banking income	\$788	\$953	\$351
Bank owned life insurance income	485	495	468
Commercial loan swap fees	146	64	116
Other non-interest income (a)	1,101	1,512	1,331

(a) As of January 1, 2018, Peoples adopted ASU 2016-01, resulting in a gain in income of \$809,000 for the three months ended March 31, 2019, a reduction of income of \$1,000 for the three months ended December 2018, and a gain in income of \$460,000 for the three months ended March 31, 2018.

Table of Contents

Mortgage banking income is comprised mostly of net gains from the origination and sale of long-term, fixed-rate real estate loans in the secondary market, servicing income for sold loans as well as servicing released premiums for sold loans. As a result, the amount of income recognized by Peoples is largely dependent on customer demand and long-term interest rates for residential real estate loans offered in the secondary market. The decline in mortgage banking income from the fourth quarter of 2018 was mainly due to the seasonally low customer demand typically in the first quarter of each year. Compared to the first quarter of 2018, the increase in mortgage banking income was largely attributable to gains on sale of real estate loans originated by the mortgage origination operation acquired as part of the ASB acquisition.

In the first quarter of 2019, Peoples sold approximately \$13.7 million in loans to the secondary market with servicing retained and sold approximately \$10.9 million in loans with servicing released, compared to approximately \$16.4 million and \$18.4 million, respectively, in the linked quarter. Peoples sold \$10.1 million of loans to the secondary market with servicing retained during the first quarter of 2018. The volume of sales has a direct impact on the amount of mortgage banking income.

Commercial loan swap fees are largely dependent on timing, interest rates, and volume of customer activity. The increase compared to the linked quarter was primarily due to an increase in the average size of each transaction which resulted in a larger fee per transaction. The increase in the first quarter of 2019 compared to the first quarter of 2018 was due to an increase in the number of individual transactions.

Income from equity investment securities included in other non-interest income increased \$810,000 compared to the linked quarter and was up \$349,000 compared to the first quarter of 2018. During the first quarter of 2019, Peoples recognized \$787,000 of income related to the sale of restricted Class B Visa stock, which had been held at a carrying cost and fair value of \$0 due to the litigation liability associated with the stock. Small Business Administration income declined \$193,000 compared to the linked quarter and \$370,000 compared to the first quarter of 2018.

Non-Interest Expense

Salaries and employee benefit costs remain Peoples' largest non-interest expense, accounting for over one-half of total non-interest expense. The following table details Peoples' salaries and employee benefit costs:

	Three Months Ended		
	March 31, 2019	December 31, 2018	March 31, 2018
(Dollars in thousands)			
Base salaries and wages	\$ 11,874	\$ 11,521	\$ 10,372
Employee benefits	2,623	1,618	1,543
Sales-based and incentive compensation	2,609	3,339	2,236
Payroll taxes and other employment costs	1,377	960	1,184
Stock-based compensation	1,208	486	1,086
Deferred personnel costs	(556)	(539)	(431)
Salaries and employee benefit costs	\$ 19,135	\$ 17,385	\$ 15,990
Full-time equivalent employees:			
Actual at end of period	859	871	802
Average during the period	869	862	792

Full-time equivalent employees ("FTE's) can vary from quarter to quarter based on turnover and hirings. FTE's declined at March 31, 2019 compared to December 31, 2018 related to turnover exceeding hiring. The increase in FTE's in the first quarter of 2019 compared to the first quarter of 2018 was mainly due to additional employees from the ASB acquisition and employees that were added in the last twelve months for succession purposes and recent and future growth.

The increase in base salaries and wages for the first quarter of 2019 compared to the linked quarter was primarily due to annual merit increases, which included the implementation of a \$15 per hour minimum wage throughout the company, which was announced in early 2018 and will be fully implemented by January 1, 2020. The increase compared to the first quarter of 2018 was driven by an increase in FTE's.

The increase in employee benefits for the first quarter of 2019, compared to the linked quarter, was primarily due to higher medical insurance costs of \$1.1 million, which included annual contributions to employee health benefit accounts resulting in an expense of \$450,000. These contributions occur primarily in the first quarter of each year. Compared to the

Table of Contents

first quarter of 2018, the increase in employee benefits was driven by higher medical insurance costs due primarily to higher medical claims and the increase in the number of plan participants.

The decline in sales-based and incentive compensation for the first quarter of 2019, compared to the linked quarter, was due to lower sales-based compensation from mortgage banking, insurance, and retail lines of business. The increase in sales-based and incentive compensation for the first quarter of 2019, compared to the first quarter of 2018, was due to higher sales-based compensation from the mortgage banking, and insurance lines of business. The increase in mortgage banking growth compared to the first quarter of 2018 was largely attributable to the mortgage origination operation acquired as part of the ASB acquisition.

The increase in payroll taxes and other employment costs, compared to the linked quarter, included higher social security and unemployment taxes. Certain high earners reached their individual taxable earnings limit for social security and unemployment taxes prior to the fourth quarter of 2018. Those limits reset at the beginning of the new calendar year, resulting in a higher expense during the first quarter of 2019 compared to the fourth quarter of 2018. The increase compared to the first quarter of 2018 was primarily due to the increase in base salaries and wages, which was driven by an increase in FTE's.

Annual stock grants occur primarily in the first quarter of each year. The majority of the grants are expensed over the three year vesting period, with the exception of retirement eligible grantees. Stock grants to retirement eligible grantees are expensed either immediately or over a shorter period than three years. The \$1.2 million of stock-based compensation for the first quarter of 2019, which was an increase of \$722,000 compared to the fourth quarter of 2018, included \$469,000 of expense related to stock grants to retirement eligible individuals, and \$128,000 of expense related to the annual vesting of prior stock grants. The remaining increase was attributable to the 2019 annual stock grants to non-retirement eligible individuals. Stock-based compensation during the first quarter of 2018 included the Board of Directors' grant of a one-time stock award of unrestricted common shares to all full-time and part-time employees who did not already participate in the equity plans, which resulted in expense of \$388,000.

Peoples' net occupancy and equipment expense was comprised of the following:

(Dollars in thousands)	Three Months Ended		
	March 2019	December 31, 2018	March 31, 2018
Depreciation	\$1,249	\$ 1,233	\$ 1,218
Repairs and maintenance costs	770	622	848
Net rent expense	288	252	209
Property taxes, utilities and other costs	671	646	591
Net occupancy and equipment expense	\$2,978	\$ 2,753	\$ 2,866

The increase in net occupancy and equipment for the first quarter of 2019 was due to the increased maintenance costs associated with snow removal and addressing other weather conditions. Compared to the first quarter of 2018, net occupancy and equipment expense increased primarily due to costs related to the addition of seven full-service bank branches and two loan production offices from the ASB acquisition and ongoing increased operating costs associated with the expanded footprint. These increases were partially offset by a reduction in ATM repairs and maintenance costs driven by a new vendor contract.

Table of Contents

The following table details the other items included in total non-interest expense:

(Dollars in thousands)	Three Months Ended		
	March 2019	December 31, 2018	March 31, 2018
Electronic banking expense	\$1,577	\$ 1,648	\$ 1,528
Data processing and software expense	1,545	1,330	1,322
Professional fees	1,276	1,727	1,718
Franchise tax expense	705	897	644
Amortization of other intangible assets	694	861	754
Marketing expense	594	525	325
FDIC insurance expense	371	373	366
Communication expense	278	316	344
Foreclosed real estate and other loan expenses	255	508	228
Other non-interest expense	2,452	2,633	2,136

Data processing and software expense increased \$215,000, or 16%, from the linked quarter, and \$233,000, or 17%, from the first quarter of 2018. The increase was driven by the implementation of enhanced functionalities for Peoples' core banking system, including making certain mobile banking tools available to customers. Also impacting the changes was an increase in customer accounts and customer usage of mobile and online banking tools. Data processing and software expense included \$79,000 of acquisition-related expenses in the first quarter of 2019, none in the linked quarter, and \$34,000 in the first quarter of 2018.

Professional fees decreased \$451,000, or 26%, from the fourth quarter of 2018, driven by lower acquisition-related expenses of \$58,000 in the current quarter, down from \$370,000 in the fourth quarter of 2018. Professional fees were down compared to the first quarter of 2018, due to a decline in legal expenses of \$403,000.

The decline in franchise tax expense, compared to the fourth quarter of 2018, was driven by an adjustment to Ohio Financial Institution Tax during the fourth quarter of 2018 of \$171,000 related to the acquisition of ASB.

Peoples' amortization of other intangible assets is driven by acquisition-related activity. Amortization of other intangible assets for the first quarter of 2019 declined compared to the fourth quarter of 2018 and the first quarter of 2018 as a result of the amortization schedules related to core deposit and customer relationship intangible assets arising from acquisitions. Compared to the first quarter of 2018, the decline was partially offset by additional amortization related to the acquisition of ASB.

Marketing expense increased \$269,000, or 83%, for the first quarter of 2019, compared to the first quarter of 2018, due to the timing of product marketing campaigns, coupled with increased contributions to Peoples Bank Foundation, Inc.

Foreclosed real estate and other loan expenses declined compared to the linked quarter due to lower real estate loan expense and collection expenses. During the fourth quarter of 2018, real estate loan expenses included additional mortgage processing costs associated with the acquired origination group from the ASB acquisition, and collection expenses were higher due to growth in indirect consumer lending.

The increase in other non-interest expense of \$316,000, or 15%, for the first quarter of 2019, compared to the first quarter of 2018, was primarily due to overall increases as a result of the ASB acquisition.

Income Tax Expense

Income tax expense was \$3.4 million for the first quarter of 2019, compared to \$2.5 million for the linked quarter and \$2.4 million for the first quarter of 2018. The increase in income tax expense compared to the linked quarter was due to higher pre-tax income, partially offset by the benefit recorded for the vesting of restricted stock during the current quarter. Also contributing to the increase was the amount recorded in the fourth quarter of 2018 related to the final remeasurement of net deferred tax assets because of the Tax Cuts and Jobs Act, which resulted in a reduction of income tax expense of \$705,000. The increase in income tax expense compared to the first quarter of 2018 was due to higher pre-tax income, coupled with a lower benefit recorded for the vesting of restricted stock of \$133,000 during the current quarter compared to a benefit of \$290,000 in the year-ago quarter.

Additional information regarding income taxes can be found in Note 12 Income Taxes of the Notes to the Consolidated Financial Statements included in Peoples' 2018 Form 10-K.

Table of Contents

Pre-Provision Net Revenue

Pre-provision net revenue ("PPNR") has become a key financial measure used by state and federal bank regulatory agencies when assessing the capital adequacy of financial institutions. PPNR is defined as net interest income plus total non-interest income minus total non-interest expense while excluding the recovery of, or provision for, loan losses and all gains and losses included in earnings. As a result, PPNR represents the earnings capacity that can be either retained in order to build capital or used to absorb unexpected losses and preserve existing capital.

The following table provides a reconciliation of this non-US GAAP financial measure to the amounts reported in Peoples' Unaudited Consolidated Financial Statements for the periods presented:

(Dollars in thousands)	Three Months Ended			
	March 31, 2019	December 31, 2018	March 31, 2018	
Pre-provision net revenue:				
Income before income taxes	\$17,746	\$16,367	\$14,124	
Add: provision for loan losses	—	975	1,983	
Add: net loss on OREO	25	30	5	
Add: net loss on other assets	157	—	—	
Less: recovery of loan losses	263	—	—	
Less: net gain on investment securities	30	—	1	
Less: net gain on other assets	—	15	79	
Pre-provision net revenue	\$17,635	\$17,357	\$16,032	
Total average assets	\$3,985,621	\$3,990,331	\$3,597,043	
Pre-provision net revenue to total average assets (a)	1.79	% 1.73	% 1.81	%

(a) Presented on an annualized basis.

Pre-provision net revenue and pre-provision net revenue to total average assets increased in the first quarter of 2019 compared to the linked quarter, driven by higher non-interest income compared to the linked quarter. Compared to the first quarter of 2018, the increase in pre-provision net revenue was driven by higher net interest income. Pre-provision net revenue to total average assets for the first quarter of 2019, compared to the first quarter of 2018, declined as the increase in average assets, partially due to the ASB acquisition, more than offset the increase in pre-provision net revenue.

Table of Contents

Core Non-Interest Income and Expense (non-US GAAP)

Core non-interest income and core non-interest expense are financial measures used to evaluate Peoples' recurring revenue and expense streams. These measures are non-US GAAP since they exclude the impact of all gains and/or losses, acquisition-related expenses, pension settlement charges and other non-recurring expenses.

The following tables provide reconciliations of these non-US GAAP measures to the amounts reported in Peoples' Unaudited Consolidated Financial Statements for the periods presented:

(Dollars in thousands)	Three Months Ended		
	March 31, 2019	December 31, 2018	March 31, 2018
Core non-interest expense:			
Total non-interest expense	\$31,860	\$ 30,956	\$ 28,221
Less: acquisition-related expenses	253	382	149
Less: pension settlement charges	—	91	—
Core non-interest expense	\$31,607	\$ 30,483	\$ 28,072

Efficiency Ratio (non-US GAAP)

The efficiency ratio is a key financial measure used to monitor performance. The efficiency ratio is calculated as total non-interest expense (less amortization of other intangible assets) as a percentage of fully tax-equivalent net interest income plus total non-interest income excluding net gains and losses. This measure is non-US GAAP since it excludes amortization of other intangible assets and all gains and/or losses included in earnings, and uses fully tax-equivalent net interest income.

Table of Contents

The following table provides a reconciliation of this non-US GAAP financial measure to the amounts reported in Peoples' Unaudited Consolidated Financial Statements for the periods presented:

(Dollars in thousands)	Three Months Ended		
	March 31, 2019	December 31, 2018	March 31, 2018
Efficiency ratio:			
Total non-interest expense	\$31,860	\$ 30,956	\$28,221
Less: amortization of other intangible assets	694	861	754
Adjusted total non-interest expense	\$31,166	\$ 30,095	\$27,467
Total non-interest income	\$15,429	\$ 14,177	\$14,969
Less: net gain on investment securities	30	—	1
Less: net (loss) gain on asset disposals and other transactions	(182)	(15)	74
Total non-interest income excluding net gains and losses	\$15,581	\$ 14,192	\$14,894
Net interest income	\$33,914	\$ 34,121	\$29,359
Add: fully tax-equivalent adjustment (a)	200	212	227
Net interest income on a fully tax-equivalent basis	\$34,114	\$ 34,333	\$29,586
Adjusted revenue	\$49,695	\$ 48,525	\$44,480
Efficiency ratio	62.71	% 62.02	% 61.75 %
Efficiency ratio adjusted for non-core items:			
Core non-interest expense	\$31,607	\$ 30,483	\$28,072
Less: amortization of other intangible assets	694	861	754
Adjusted core non-interest expense	\$30,913	\$ 29,622	\$27,318
Total non-interest income excluding net gains and losses	\$15,581	\$ 14,192	\$14,894
Net interest income on a fully tax-equivalent basis	34,114	34,333	29,586
Adjusted revenue	\$49,695	\$ 48,525	\$44,480
Efficiency ratio adjusted for non-core items	62.21	% 61.04	% 61.42 %

(a) Based on a 21% statutory federal corporate income tax rate.

The increases in the efficiency ratio and the efficiency ratio adjusted for non-core items compared to both the linked quarter and the first quarter of 2018 were mostly due to higher total non-interest expense. Management is targeting an efficiency ratio of 59% to 61% for the full year of 2019, after excluding acquisition-related expenses and other non-core expenses.

Return on Average Assets Adjusted for Non-Core Items (non-US GAAP)

In addition to return on average assets, management uses return on average assets adjusted for non-core items to monitor performance. The return on average assets ratio adjusted for non-core items represents a non-US GAAP financial measure since it excludes the impact of the Tax Cuts and Jobs Act on the remeasurement of deferred tax assets and deferred tax liabilities, and the after-tax impact of all gains and losses, acquisition-related expenses, pension settlement charges, and other non-recurring expenses in earnings.

Table of Contents

The following table provides a reconciliation of this non-US GAAP financial measure to the amounts reported in Peoples' Unaudited Consolidated Financial Statements for the periods presented:

(Dollars in thousands)	Three Months Ended		
	March 31, 2019	December 31, 2018	March 31, 2018
Annualized net income adjusted for non-core items:			
Net income	\$ 14,369	\$ 13,897	\$ 11,741
Less: net gain on investment securities, net of tax (a)	24	—	1
Add: net loss on asset disposals and other transactions, net of tax (a)	144	12	—
Less: net gain on asset disposals and other transactions, net of tax (a)	—	—	58
Add: acquisition-related expenses, net of tax (a)	200	302	118
Add: pension settlement charges, net of tax (a)	—	72	—
Less: impact of Tax Cuts and Jobs Act on deferred tax liability	—	705	—
Net income adjusted for non-core items	\$ 14,689	\$ 13,578	\$ 11,800
Days in the quarter	90	92	90
Days in the year	365	365	365
Annualized net income	\$ 58,274	\$ 55,135	\$ 47,616
Annualized net income adjusted for non-core items	\$ 59,572	\$ 53,869	\$ 47,856
Return on average assets:			
Annualized net income	\$ 58,274	\$ 55,135	\$ 47,616
Total average assets	3,985,621	3,990,331	3,597,043
Return on average assets	1.46	% 1.38	% 1.32
Return on average assets adjusted for non-core items:			
Annualized net income adjusted for non-core items	\$ 59,572	\$ 53,869	\$ 47,856
Total average assets	3,985,621	3,990,331	3,597,043
Return on average assets adjusted for non-core items	1.49	% 1.35	% 1.33

(a) Based on a 21% statutory federal corporate income tax rate.

The return on average assets and return on average assets adjusted for non-core items increased in the first quarter of 2019 compared to the linked quarter, driven by higher non-interest income compared to the linked quarter, combined with a slight decline in average assets. Compared to the first quarter of 2018, the increase in return on average assets and return on average assets adjusted for non-core items was driven by higher net interest income, partially offset by an increase in average assets, which were impacted by the ASB acquisition.

Table of Contents

Return on Average Tangible Equity

The return on average tangible equity ratio is a key financial measure used to monitor performance. The return on tangible equity is calculated as net income (less after-tax impact of amortization of other intangible assets) divided by tangible equity. The return on average tangible equity is calculated as net income (less the after-tax impact of amortization of other intangible assets) divided by average tangible equity. This measure is non-US GAAP since it excludes amortization of other intangible assets from earnings and the impact of goodwill and other intangible assets acquired through acquisitions on total stockholders' equity.

(Dollars in thousands)	Three Months Ended		
	March 31, 2019	December 31, 2018	March 31, 2018
Annualized net income excluding amortization of other intangible assets:			
Net income	\$ 14,369	\$ 13,897	\$ 11,741
Add: amortization of other intangible assets	694	861	754
Less: tax effect of amortization of other intangible assets (a)	146	181	158
Net income excluding amortization of other intangible assets	\$ 14,917	\$ 14,577	\$ 12,337
Days in the quarter	90	92	90
Days in the year	365	365	365
Annualized net income	\$ 58,274	\$ 55,135	\$ 47,616
Annualized net income excluding amortization of other intangible assets	\$ 60,497	\$ 57,833	\$ 50,033
Average tangible equity:			
Total average stockholders' equity	\$ 524,196	\$ 507,890	\$ 454,232
Less: average goodwill and other intangible assets	161,673	162,790	144,190
Average tangible equity	\$ 362,523	\$ 345,100	\$ 310,042
Return on average stockholders' equity ratio:			
Annualized net income	\$ 58,274	\$ 55,135	\$ 47,616
Average stockholders' equity	\$ 524,196	\$ 507,890	\$ 454,232
Return on average stockholders' equity	11.12	% 10.86	% 10.48
Return on average tangible equity ratio:			
Annualized net income excluding amortization of other intangible assets	\$ 60,497	\$ 57,833	\$ 50,033
Average tangible equity	\$ 362,523	\$ 345,100	\$ 310,042
Return on average tangible equity	16.69	% 16.76	% 16.14

(a) Based on a 21% statutory federal corporate income tax rate.

The return on average stockholders' equity ratio increased in the first quarter of 2019 compared to both the linked quarter and the first quarter of 2018 and the return on average tangible equity ratio increased compared to the first quarter of 2018, reflecting increases in net income, which were partially offset by dividends declared and paid during each quarter. The return on average tangible equity ratio declined compared to the linked quarter as the increase in tangible equity outpaced the increase in net income, excluding amortization of intangible assets.

FINANCIAL CONDITION

Cash and Cash Equivalents

At March 31, 2019, Peoples' interest-bearing deposits in other banks increased \$6.9 million from December 31, 2018. The total cash and cash equivalent balance included \$10.4 million of excess cash reserves being maintained at the FRB of Cleveland at March 31, 2019, compared to \$11.2 million at December 31, 2018. The amount of excess cash reserves

Table of Contents

maintained is dependent upon Peoples' daily liquidity position, which is driven primarily by changes in deposit and loan balances.

Through the first three months of 2019, Peoples' total cash and cash equivalents increased \$4.5 million as Peoples' net cash used in investing activities of \$8.9 million was less than the sum of net cash provided by financing and operating activities of \$7.1 million and \$6.3 million, respectively. Peoples' investing activities reflected a net increase of \$6.8 million in loans and purchases of \$37.5 million in available-for-sale investment securities, which were partially offset by \$34.5 million in net proceeds from sales, principal payments, calls and prepayments on available-for-sale and held-to-maturity investment securities. Financing activities included a net increase of \$181.9 million in deposits offset partially by a \$168.0 million decrease in short-term borrowings, as well as \$5.7 million of cash dividends paid. Further information regarding the management of Peoples' liquidity position can be found later in this discussion under "Interest Rate Sensitivity and Liquidity."

Investment Securities

The following table provides information regarding Peoples' investment portfolio:

(Dollars in thousands)	March 31, 2019	December 31, 2018	September 30, 2018	June 30, 2018	March 31, 2018
Available-for-sale securities, at fair value:

Total amortized cost	\$35,606	\$ 36,961	\$ 37,790	\$38,834	\$39,651
Other investment securities	\$41,449	\$ 42,985	\$ 43,044	\$42,007	\$46,756
Total investment securities:					
Amortized cost	\$883,696	\$ 884,601	\$ 900,265	\$897,058	\$895,096
Carrying value	\$879,625	\$ 871,837	\$ 874,159	\$876,765	\$877,317

Available-for-sale residential mortgage-backed securities were up at March 31, 2019, compared to December 31, 2018, primarily due to an increase in fair value driven by overall declines in market interest rates during the quarter. At December 31, 2018, the amortized cost of available-for-sale securities declined compared to September 30, 2018, as securities matured and were not replaced. During the second quarter of 2018, Peoples acquired, in the ASB acquisition, investment securities totaling approximately \$18.8 million and subsequently sold approximately \$14.6 million of acquired available-for-sale investment securities.

Peoples' investment in residential and commercial mortgage-backed securities largely consists of securities either guaranteed by the U.S. government or issued by U.S. government sponsored agencies, such as Fannie Mae and Freddie Mac. The remaining portions of Peoples' mortgage-backed securities consist of securities issued by other entities, including other financial institutions, which are not guaranteed by the U.S. government.

Table of Contents

The amount of these “non-agency” securities included in the residential mortgage-backed securities totals above was as follows:

(Dollars in thousands)	March 31, 2019	December 31, 2018	September 30, 2018	June 30, 2018	March 31, 2018
Total fair value	\$ 516	\$ 711	\$ 919	\$ 1,162	\$ 1,478
Total amortized cost	582	781	985	1,225	1,607
Net unrealized loss	\$ (66)	\$ (70)	\$ (66)	\$ (63)	\$ (129)

Management continues to reinvest the principal runoff from the non-agency securities in U.S. agency investments, which accounted for the decline in the past year. At March 31, 2019, Peoples' non-agency portfolio consisted entirely of first lien residential mortgages, with nearly all of the underlying loans in these securities originated prior to 2004 and possessing fixed interest rates. Management continues to monitor the non-agency portfolio closely for leading indicators of increasing stress and will continue to be proactive in taking actions to mitigate such risk when necessary. Additional information regarding Peoples' investment portfolio can be found in Note 3 Investment Securities of the Notes to the Unaudited Consolidated Financial Statements.

(a) Includes all loans acquired, and related loan discount recorded as part of acquisition accounting, in 2014 or thereafter. Loans that were acquired and subsequently re-underwritten are reported as originated upon execution of

such credit actions (for example, renewals and increases in lines of credit).
(b)Not meaningful.

60

Table of Contents

Period-end total loan balances at March 31, 2019 increased \$8.8 million, or 1% annualized, compared to December 31, 2018, due to originated growth of \$18.6 million, or 1% annualized, that was muted by \$27.2 million of payoffs related to several large commercial real estate loan relationships. Commercial and industrial loan balances experienced significant organic growth compared to December 31, 2018, and increased \$27.2 million, or 19% annualized. Consumer loans continued to provide additional growth, driven by an increase in residential real estate loans of \$12.0 million, or 8% annualized. During the first quarter of 2019, Peoples purchased \$19.0 million of 1-4 family first lien mortgages, which had the largest impact on residential real estate loan growth compared to December 31, 2018.

Period-end total loan balances at March 31, 2019 increased \$335.3 million, or 14%, compared to March 31, 2018. Originated loan growth was led by an increase in commercial and industrial loans of \$102.8 million, or 23%, and indirect consumer lending growth of \$62.6 million, or 18%. Total acquired loans grew \$149.7 million from period-end March 31, 2018 to period-end March 31, 2019. The increase included acquired ASB loans of \$198.6 million, partially offset by the continued decline of the loan balances acquired in previous acquisitions.

Loan Concentration

Peoples categorizes its commercial loans according to standard industry classifications and monitors for concentrations in a single industry or multiple industries that could be impacted by changes in economic conditions in a similar manner. Peoples' commercial lending activities continue to be spread over a diverse range of businesses from all sectors of the economy, with no single industry comprising over 10% of Peoples' total loan portfolio.

Loans secured by commercial real estate, including commercial construction loans, continued to comprise the largest portion of Peoples' loan portfolio. The following table provides information regarding the largest concentrations of commercial real estate loans within the loan portfolio at March 31, 2019:

(Dollars in thousands)	Outstanding Loan		Total	% of
	Balance	Commitments		
Commercial real estate, construction:				
Apartment complexes	\$ 39,724	\$ 23,697	\$ 63,421	32.7 %

Total commercial real estate, other	\$ 802,464	\$ 37,764	\$ 840,228	100.0	%

(a) All other outstanding balances are less than 2% of the total loan portfolio.

Peoples' commercial lending activities continue to focus on lending opportunities inside its primary and secondary market areas within Ohio, West Virginia and Kentucky. In all other states, the aggregate outstanding balances of commercial loans in each state were not material at either March 31, 2019 or December 31, 2018.

Allowance for Loan Losses

The amount of the allowance for loan losses at the end of each period represents management's estimate of expected losses from existing loans based upon its quarterly analysis of the loan portfolio. While this process involves allocations being made to specific loans and pools of loans, the entire allowance is available for all losses incurred within the loan portfolio.

The following details management's allocation of the allowance for loan losses:

(Dollars in thousands)	March 31, December 31,		September 30, June 30,		March 31,
	2019	2018	2018	2018	2018

As a percent of total loans	0.76	%0.74	% 0.73	% 0.72	%0.78	%

62

Table of Contents

At March 31, 2019, the allowance for loan losses was \$20.9 million, compared to \$18.8 million at March 31, 2018 and \$20.2 million at December 31, 2018. The ratio of the allowance for loan losses as a percent of total loans was 0.76% at March 31, 2019, compared to 0.78% at March 31, 2018 and 0.74% at December 31, 2018. The ratio includes all acquired loans, from both ASB and previous acquisitions, of \$562.9 million and allowance for acquired loan losses of \$533,000. The increase in the allowance for loan losses compared to December 31, 2018 was the result of the specific reserve on a non-accrual loan, coupled with loan growth.

The significant allocations of allowance for loan losses to commercial loans reflect the higher credit risk associated with this type of lending and the size of this loan category in relationship to the entire loan portfolio. The allowance allocated to the residential real estate and consumer loan categories is based upon Peoples' allowance methodology for homogeneous pools of loans. The fluctuations in these allocations have been directionally consistent with the changes in loan quality, loss experience and loan balances in these categories.

Table of Contents

Table of Contents

The net recoveries during the first quarter of 2019 was driven by the recognition of a \$1.8 million recovery on a previously charged-off commercial loan. During the second, third, and fourth quarters of 2018, the net charge-offs decreased as Peoples' asset quality remained stable.

The following table details Peoples' nonperforming assets:

Allowance for loan losses as a percent of NPLs (c)	115.28	% 104.35	% 109.71	% 106.77	% 109.08
Criticized loans as a percent of total loans (a)(c)	3.28	% 4.18	% 4.38	% 4.50	% 4.84
Classified loans as a percent of total loans (b)(c)	1.73	% 1.61	% 1.81	% 2.07	% 1.86

(a) Includes loans categorized as special mention, substandard or doubtful.

(b) Includes loans categorized as substandard or doubtful.

(c) Data presented as of the end of the period indicated.

(d) Nonperforming loans include loans 90+ days past due and accruing, troubled debt restructurings and nonaccrual loans. Nonperforming assets include nonperforming loans and OREO.

Nonperforming loans were down \$1.2 million, or 6%, compared to December 31, 2018, primarily due to the decrease in commercial real estate other and residential real estate loans 90+ days past due. Nonperforming loans were up \$0.9 million, or 5%, compared to March 31, 2018. The increase from March 31, 2018 was partially due to assets acquired from ASB. Classified loans, which are those categorized as substandard or doubtful, increased \$3.5 million, or 8%, compared to December 31, 2018, and were up \$2.7 million, or 6%, from March 31, 2018. Compared to December 31, 2018, the increase in classified loans was primarily due to downgrades during the quarter, partially offset by paydowns of other classified loans. Criticized loans, which are those categorized as special mention, substandard or doubtful, decreased \$24.4 million, or 21%, compared to December 31, 2018, and \$26.4 million, or 23%, compared to March 31, 2018. The improvement in both comparisons was largely due to the upgrade of one large commercial relationship during the first quarter of 2019.

Deposits

The following table details Peoples' deposit balances:

(Dollars in thousands)	March 31, 2019	December 31, 2018	September 30, 2018	June 30, 2018	March 31, 2018
Non-interest-bearing deposits (a)	\$ 628,464	\$ 607,877	\$ 617,447	\$ 585,861	\$ 570,804
Interest-bearing deposits:					
Interest-bearing demand accounts (a)	572,316	573,702	547,172	570,359	584,563
Savings accounts	477,824	468,500	473,240	480,615	461,440
Money market deposit accounts	403,642	379,878	391,377	389,893	364,232
Governmental deposit accounts	363,636	267,319	344,320	305,255	341,920
Retail certificates of deposit ("CDs")	404,186	394,335	402,309	406,214	335,843
Brokered CDs	287,345	263,854	265,258	211,062	154,379
Total interest-bearing deposits	2,508,949	2,347,588	2,423,676	2,363,398	2,242,377
Total deposits	\$ 3,137,413	\$ 2,955,465	\$ 3,041,123	\$ 2,949,259	\$ 2,813,181

(a) The sum of amounts presented is considered total demand deposits.

At March 31, 2019, period-end deposits increased \$181.9 million, or 6%, compared to December 31, 2018, and \$324.2 million, or 12%, compared to March 31, 2018. Compared to the linked quarter, the growth was driven by an increase of \$96.3 million in governmental deposits, which typically increase during the first quarter of each year, coupled with growth in money market deposit accounts of \$23.8 million and non-interest-bearing deposits of \$20.6 million, reflecting Peoples' focus on growing deposits. The increase in period-end deposit balances compared to March 31, 2018 included \$123.1 million of acquired deposits from the ASB acquisition on April 13, 2018. Compared to March 31, 2018, brokered certificates of deposit were up \$133.0 million, which includes one-way buy Certificate of Deposit Account Registry Services ("CDARs") deposits, retail certificates of deposit increased \$68.3 million, non-interest-bearing deposits were up \$57.7 million, and money market deposit accounts increased \$39.4 million.

Table of Contents

Total demand deposit accounts comprised 38% of total deposits at March 31, 2019, compared to 40% at December 31, 2018, 38% at September 30, 2018, 39% at June 30, 2018, and 41% at March 31, 2018. Peoples continues its deposit strategy of growing low-cost core deposits, such as checking and savings accounts and retail CDs when possible, and relying on higher-cost, non-core deposits, such as brokered CDs when deposits are not available in Peoples' footprint.

Borrowed Funds

The following table details Peoples' short-term and long-term borrowings:

(Dollars in thousands)	March 31, 2019	December 31, 2018	September 30, 2018	June 30, 2018	March 31, 2018
Short-term borrowings:					
FHLB overnight borrowings	\$ 24,000	\$ 165,000	\$ 102,000	\$ 173,000	\$ 34,000
FHLB 90-day advances	110,000	110,000	100,000	13,000	20,000
Current portion of long-term FHLB advances	13,188	30,000	30,000	98,566	50,579
Retail repurchase agreements	44,175	51,202	64,840	76,177	98,896
Unamortized debt issuance cost (a)	—	(4) (10) (16)—
Total short-term borrowings	\$ 191,363	\$ 356,198	\$ 296,830	\$ 360,727	\$ 203,475
Long-term borrowings:					
FHLB advances	\$ 98,670	\$ 102,361	\$ 103,860	\$ 105,890	\$ 116,352
Unamortized debt issuance cost (a)	—	—	—	—	(22
Junior subordinated debt securities	7,325	7,283	7,239	7,195	7,151
Total long-term borrowings	\$ 105,995	\$ 109,644	\$ 111,099	\$ 113,085	\$ 123,481
Total borrowed funds	\$ 297,358	\$ 465,842	\$ 407,929	\$ 473,812	\$ 326,956

(a) Unamortized debt issuance cost is related to the cost associated with the Credit Agreement with Raymond James Bank, N.A. which was a short-term obligation as of March 31, 2019.

Peoples' short-term FHLB advances generally consist of overnight borrowings maintained in connection with the management of Peoples' daily liquidity position. Borrowed funds, in total, which include overnight borrowings, are mainly a function of loan growth and changes in total deposit balances. Overnight borrowings as of March 31, 2019 declined \$141 million compared to December 31, 2018, primarily due to the increase in deposit balances during the quarter. Peoples locked in FHLB 90-day advances of \$110.0 million as of March 31, 2019, to fund interest rate swaps and are expected to extend every 90 days through the maturity dates of the swaps. As of March 31, 2019, Peoples had twelve effective interest rate swaps, for an aggregate notional value of \$110.0 million. The increase in short-term borrowings at June 30, 2018 compared to March 31, 2018 also includes \$21.0 million in short-term FHLB advances acquired from ASB, all of which matured in July of 2018. Peoples continually evaluates the overall balance sheet position given the interest rate environment. Long-term FHLB advances declined at March 31, 2019 compared to December 31, 2018 due to principal payments.

Additional information regarding Peoples' interest rate swaps can be found in Note 9 Derivative Financial Instruments of the Notes to the Unconsolidated Financial Statements.

Capital/Stockholders' Equity

At March 31, 2019, capital levels for both Peoples and Peoples Bank remained substantially higher than the minimum amounts needed to be considered "well capitalized" institutions under applicable banking regulations. These higher capital levels reflect Peoples' desire to maintain a strong capital position. In order to avoid limitations on dividends, equity repurchases and compensation, Peoples must exceed the three minimum required ratios by at least the capital conservation buffer. The capital conservation buffer was phased in from 0.625% beginning January 1, 2016 to 2.50% by January 1, 2019, and applies to the common equity tier 1 ("CET1") ratio, the tier 1 capital ratio and the total risk-based capital ratio. At March 31, 2019, Peoples had a capital conservation buffer of 6.97%, compared to 2.50% for the fully phased-in capital conservation buffer required at January 1, 2019. As such, Peoples exceeded the minimum ratios including the capital conservation buffer at March 31, 2019.

Table of Contents

The following table details Peoples' risk-based capital levels and corresponding ratios:

(Dollars in thousands)	March 31, 2019	December 31, 2018	September 30, 2018	June 30, 2018	March 31, 2018	
Capital Amounts:						
Common Equity Tier 1	\$ 389,393	\$ 378,855	\$ 367,537	\$ 358,987	\$ 334,735	
Tier 1	396,719	386,138	374,776	366,182	341,886	
Total (Tier 1 and Tier 2)	417,657	406,333	394,655	385,448	360,684	
Net risk-weighted assets	\$ 2,789,500	\$ 2,782,995	\$ 2,764,951	\$ 2,755,112	\$ 2,517,848	
Capital Ratios:						
Common Equity Tier 1	13.96	% 13.61	% 13.29	% 13.03	% 13.29	%
Tier 1	14.22	% 13.87	% 13.55	% 13.29	% 13.58	%
Total (Tier 1 and Tier 2)	14.97	% 14.60	% 14.27	% 13.99	% 14.33	%
Leverage ratio	10.31	% 9.99	% 9.69	% 9.73	% 9.85	%

The capital ratios increased at March 31, 2019 compared to December 31, 2018 due to increased equity as earnings exceeded the dividends declared. Peoples' capital ratios at December 31, 2018 increased compared to September 30, 2018 due primarily to increased earnings, which was largely driven by loan growth. The capital ratios increased at September 30, 2018 compared to June 30, 2018 due to increased equity as earnings exceeded the dividends declared, while net risk-weighted assets decreased slightly in relation to some large payoffs that were higher volatility commercial real estate loans. Leverage ratio at September 30, 2018 decreased slightly compared to June 30, 2018 due to the increase in average assets in the third quarter of 2018 compared to the second quarter as ASB was acquired on April 13, 2018. Peoples' capital ratios at June 30, 2018 decreased compared to March 31, 2018 largely due to the percentage of risk-weighted assets acquired in the ASB acquisition that were greater than capital added, net of goodwill, from the ASB acquisition.

In addition to traditional capital measurements, management uses tangible capital measures to evaluate the adequacy of Peoples' stockholders' equity. Such ratios represent non-US GAAP financial measures since their calculation removes the impact of goodwill and other intangible assets acquired through acquisitions on amounts reported in the Unaudited Consolidated Balance Sheets. Management believes this information is useful to investors since it facilitates the comparison of Peoples' operating performance, financial condition and trends to peers, especially those without a similar level of intangible assets to that of Peoples. Further, intangible assets generally are difficult to convert into cash, especially during a financial crisis, and could decrease substantially in value should there be deterioration in the overall franchise value. As a result, tangible equity represents a conservative measure of the capacity for Peoples to incur losses but remain solvent.

Table of Contents

The following table reconciles the calculation of these non-US GAAP financial measures to amounts reported in Peoples' Unaudited Consolidated Financial Statements:

(Dollars in thousands)	March 31, 2019	December 31, 2018	September 30, 2018	June 30, 2018	March 31, 2018
Tangible equity:					
Total stockholders' equity	\$535,121	\$520,140	\$504,290	\$499,339	\$456,815
Less: goodwill and other intangible assets	161,242	162,085	163,401	163,953	143,820
Tangible equity	\$373,879	\$358,055	\$340,889	\$335,386	\$312,995
Tangible assets:					
Total assets	\$4,017,119	\$3,991,454	\$4,003,089	\$3,972,091	\$3,634,929
Less: goodwill and other intangible assets	161,242	162,085	163,401	163,953	143,820
Tangible assets	\$3,855,877	\$3,829,369	\$3,839,688	\$3,808,138	\$3,491,109
Tangible book value per common share:					
Tangible equity	\$373,879	\$358,055	\$340,889	\$335,386	\$312,995
Common shares outstanding	19,681,692	19,565,029	19,550,014	19,528,952	18,365,035
Tangible book value per common share	\$19.00	\$18.30	\$17.44	\$17.17	\$17.04
Tangible equity to tangible assets ratio:					
Tangible equity	\$373,879	\$358,055	\$340,889	\$335,386	\$312,995
Tangible assets	\$3,855,877	\$3,829,369	\$3,839,688	\$3,808,138	\$3,491,109
Tangible equity to tangible assets	9.70	%9.35	%8.88	%8.81	%8.97

The increase in the tangible equity to tangible assets ratio at March 31, 2019 compared to December 31, 2018, as well as previous periods, was the result of higher retained earnings, combined with an increase in the market value of available-for-sale investment securities. The increase at December 31, 2018 compared to previous periods was the result of higher retained earnings, partially offset by the decline in the market value of available-for-sale investment securities.

Interest Rate Sensitivity and Liquidity

While Peoples is exposed to various business risks, the risks relating to interest rate sensitivity and liquidity are major risks that can materially impact future results of operations and financial condition due to their complexity and dynamic nature. The objective of Peoples' asset-liability management function is to measure and manage these risks in order to optimize net interest income within the constraints of prudent capital adequacy, liquidity and safety. This objective requires Peoples to focus on interest rate risk exposure and adequate liquidity through its management of the mix of assets and liabilities, their related cash flows and the rates earned and paid on those assets and liabilities. Ultimately, the asset-liability management function is intended to guide management in the acquisition and disposition of earning assets and selection of appropriate funding sources.

Interest Rate Risk

Interest rate risk ("IRR") is one of the most significant risks arising in the normal course of business of financial services companies like Peoples. IRR is the potential for economic loss due to future interest rate changes that can impact the earnings stream, as well as market values, of financial assets and liabilities. Peoples' exposure to IRR is due primarily to differences in the maturity or repricing of earning assets and interest-bearing liabilities. In addition, other factors, such as prepayments of loans and investment securities, or early withdrawal of deposits, can affect Peoples' exposure to IRR and increase interest costs or reduce revenue streams.

Peoples has assigned overall management of IRR to its Asset-Liability Committee (the "ALCO"), which has established an IRR management policy that sets minimum requirements and guidelines for monitoring and managing the level of IRR. The methods used by ALCO to assess IRR remain largely unchanged from those disclosed in Peoples' 2018 Form 10-K.

Table of Contents

The following table shows the estimated changes in net interest income and the economic value of equity based upon a standard, parallel shock analysis with balances held constant (dollars in thousands):

Increase (Decrease) in Interest Rate (in Basis Points)	Estimated Increase (Decrease) in Net Interest Income			Estimated (Decrease) Increase in Economic Value of Equity		
	March 31, 2019	December 31, 2018		March 31, 2019	December 31, 2018	
300	\$11,651	8.9 %	\$7,351 5.5 %	\$(12,970) (1.3)%	\$(22,088)(2.1)%	
200	9,017	6.9 %	5,780 4.3 %	1,282 0.1 %	(7,191)(0.7)%	
100	5,748	4.4 %	3,588 2.7 %	9,553 0.9 %	3,926 0.4 %	
(100)	(11,111)	(8.5)%	(9,075)(6.8)%	(37,211) (3.6)%	(44,512)(4.2)%	
(200)	(25,072)	(19.2)%	(23,712)(17.6)%	(96,017) (9.3)%	(130,769)(12.4)%	

Estimated changes in net interest income and economic value of equity are partially driven by assumptions regarding the rate at which non-maturity deposits will reprice given a move in short-term interest rates. Peoples takes a historically conservative approach when determining what repricing rates (deposit betas) are used in modeling interest rate risk. These assumptions are monitored closely by Peoples and are updated at least annually. The actual deposit betas experienced recently by Peoples in the repricing of non-maturity deposits are lower than those used in Peoples' current interest rate risk modeling. Peoples has benefited from this trend in the current interest rate and competitor environment as it has provided for growth in Peoples' net interest income. However, in recent months, Peoples has experienced more pressure on margin expansion and rate competition in its markets.

Peoples also considers the interest rate risk impact of a bull flattener scenario in addition to analyzing the impact of parallel yield curve shifts. The bull flattener scenario is a yield curve shift in which long-term rates decline while short-term rates remain stable. The degree to which long-term rates fall and which maturities along the yield curve are affected is subjective. The bull flattener scenario provides an estimate of interest rate risk which may be more realistic in unusual interest rate environments. At March 31, 2019, the U.S. Treasury and LIBOR swap curves were relatively flat compared to historical norms, and some inversion was present for maturities of less than seven years. Given the shape of market yield curves at March 31, 2019, consideration of the bull flattener scenario yields insights which were not captured by parallel shifts. The key insight presented by the bull flattener scenario highlights the risk to net interest income when long-term yields fall while short-term rates remain constant. In such a scenario, Peoples' funding costs, which are correlated with short-term rates, remain constant, while asset yields correlated with long-term rates decline.

At March 31, 2019, Peoples' consolidated balance sheet was positioned to benefit from rising interest rates in terms of potential impact on net interest income. The table above illustrates this point as changes to net interest income increase in the rising rate scenarios. The increase in asset sensitivity from December 31, 2018 was largely attributable to the high balance of governmental deposits. Peoples' overnight FHLB borrowing position, which had declined substantially from December 31, 2018 to March 31, 2019 as a result of increased public funds deposits, ultimately led to a decline in liability sensitivity quarter-over-quarter. The increased public funds deposit balances are expected to decline through July 2019. While parallel interest rate shock scenarios are useful in assessing the level of interest rate risk inherent in the balance sheet, interest rates typically move in a non-parallel manner with differences in the timing, direction, and magnitude of changes in short-term and long-term interest rates. Thus, any benefit that might occur as a result of the Federal Reserve increasing short-term interest rates in the future could be offset by an inverse movement in long-term interest rates.

The table also illustrates a significant reduction in long-term interest rate risk as is evidenced by the drop in the negative impact of rising interest rates on economic value of equity. The reduction is largely attributable to the increased functionality of the new interest rate risk model employed by Peoples during the third quarter of 2018, primarily the ability to apply enhanced pre-payment estimates on loans.

Peoples has entered into interest rate swaps as part of its interest rate risk management strategy. These interest rate swaps are designated as cash flow hedges and involve the receipt of variable rate amounts from a counterparty in exchange for Peoples making fixed payments. As of March 31, 2019, Peoples had entered into twelve interest rate

swap contracts, with an aggregate notional value of \$110.0 million. Additional information regarding Peoples' interest rate swaps can be found in Note 14 Derivative Financial Instruments of the Notes to the Consolidated Financial Statements included in Peoples' 2018 Form 10-K and Note 9 Derivative Financial Instruments of the Notes to the Unconsolidated Financial Statements included in this Form 10-Q.

Table of Contents**Liquidity**

In addition to IRR management, another major objective of the ALCO is to maintain a sufficient level of liquidity. The methods used by the ALCO to monitor and evaluate the adequacy of Peoples Bank's liquidity position remain unchanged from those disclosed in Peoples' 2018 Form 10-K.

At March 31, 2019, Peoples Bank had liquid assets of \$186.6 million, which represented 4.2% of total assets and unfunded loan commitments. This amount exceeded the minimal level by \$97.9 million, or 2.2% of total loans and unfunded commitments, currently required under Peoples' liquidity policy. Peoples also had an additional \$72.7 million of unpledged investment securities not included in the measurement of liquid assets.

Management believes the current balance of cash and cash equivalents, and anticipated cash flows from the investment portfolio, along with the availability of other funding sources, will allow Peoples to meet anticipated cash obligations, as well as special needs and off-balance sheet commitments.

Off-Balance Sheet Activities and Contractual Obligations

In the normal course of business, Peoples is a party to financial instruments with off-balance sheet risk necessary to meet the financing needs of Peoples' customers. These financial instruments include commitments to extend credit and standby letters of credit. The instruments involve, to varying degrees, elements of credit risk in excess of the amount recognized in the Consolidated Balance Sheets. The contract amounts of these instruments express the extent of involvement Peoples has in these financial instruments.

Loan Commitments and Standby Letters of Credit

Loan commitments are made to accommodate the financial needs of Peoples' customers. Standby letters of credit are instruments issued by Peoples Bank guaranteeing the beneficiary payment by Peoples Bank in the event of default by Peoples Bank's customer in the performance of an obligation or service. Historically, most loan commitments and standby letters of credit expire unused. Peoples Bank's exposure to credit loss in the event of nonperformance by the counter-party to the financial instrument for loan commitments and standby letters of credit is represented by the contractual amount of those instruments. Peoples Bank uses the same underwriting standards in making commitments and conditional obligations as it does for on-balance sheet instruments. The amount of collateral obtained is based on management's credit evaluation of the customer. Collateral held varies, but may include accounts receivable, inventory, property, plant, and equipment, and income-producing commercial properties.

Peoples Bank routinely engages in activities that involve, to varying degrees, elements of risk that are not reflected in whole or in part in the consolidated financial statements. These activities are part of Peoples Bank's normal course of business and include traditional off-balance sheet credit-related financial instruments, interest rate contracts and commitments to make additional capital contributions in low-income housing tax credit investments. Traditional off-balance sheet credit-related financial instruments continue to represent the most significant off-balance sheet exposure.

The following table details the total contractual amount of loan commitments and standby letters of credit:

(Dollars in thousands)	March 31, December 31, September 30, June 30, March 31,				
	2019	2018	2018	2018	2018
Home equity lines of credit	\$ 103,343	\$ 101,265	\$ 101,651	\$ 103,975	\$ 86,787
Unadvanced construction loans	80,916	74,734	71,836	87,477	106,410
Other loan commitments	308,103	314,271	324,059	319,519	267,482
Loan commitments	\$ 492,362	\$ 490,270	\$ 497,546	\$ 510,971	\$ 460,679
Standby letters of credit	\$ 12,371	\$ 10,214	\$ 9,979	\$ 20,354	\$ 20,481

Management does not anticipate that Peoples Bank's current off-balance sheet activities will have a material impact on its future results of operations and financial condition based on historical experience and recent trends.

ITEM 3 QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The information called for by this Item 3 is provided under the caption "Interest Rate Sensitivity and Liquidity" under "ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS" in this Quarterly Report on Form 10-Q, and is incorporated herein by reference.

Table of Contents

ITEM 4 CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

Peoples' management, with the participation of Peoples' President and Chief Executive Officer and Peoples' Executive Vice President, Chief Financial Officer and Treasurer, has evaluated the effectiveness of Peoples' disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")) as of March 31, 2019. Based upon that evaluation, Peoples' President and Chief Executive Officer and Peoples' Executive Vice President, Chief Financial Officer and Treasurer have concluded that:

- (a) information required to be disclosed by Peoples in this Quarterly Report on Form 10-Q and other reports Peoples files or submits under the Exchange Act would be accumulated and communicated to Peoples' management, including its President and Chief Executive Officer and its Executive Vice President, Chief Financial Officer and Treasurer, as appropriate to allow timely decisions regarding required disclosure;
- (b) information required to be disclosed by Peoples in this Quarterly Report on Form 10-Q and other reports Peoples files or submits under the Exchange Act would be recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms; and
- (c) Peoples' disclosure controls and procedures were effective as of the end of the fiscal quarter covered by this Quarterly Report on Form 10-Q.

Changes in Internal Control Over Financial Reporting

There were no changes in Peoples' internal control over financial reporting (as defined in Rule 13a-15(f) under the Exchange Act) that occurred during Peoples' fiscal quarter ended March 31, 2019, that have materially affected, or are reasonably likely to materially affect, Peoples' internal control over financial reporting.

PART II

ITEM 1 LEGAL PROCEEDINGS

In the ordinary course of their respective businesses or operations, Peoples or one of its subsidiaries may be named as a plaintiff, a defendant, or a party to a legal proceeding or any of their respective properties may be subject to various pending and threatened legal proceedings and various actual and potential claims. In view of the inherent difficulty of predicting the outcome of such matters, Peoples cannot state what the eventual outcome of any such matters will be. However, based on management's current knowledge and after consultation with legal counsel, management believes these proceedings will not have a material adverse effect on the consolidated financial position, results of operations or liquidity of Peoples.

ITEM 1A RISK FACTORS

There have been no other material changes from those risk factors previously disclosed in "ITEM 1A. RISK FACTORS" of Part I of Peoples' 2018 Form 10-K. Those risk factors are not the only risks Peoples faces. Additional risks and uncertainties not currently known to management or that management currently deems to be immaterial also may materially adversely affect Peoples' business, financial condition and/or operating results.

Table of Contents

ITEM 2 UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

The following table details repurchases by Peoples and purchases by “affiliated purchasers” as defined in Rule 10b-18(a)(3) under the Securities Exchange Act of 1934, as amended, of Peoples’ common shares during the three months ended March 31, 2019:

Period	(a) Total Number of Common Shares Purchased	(b) Average Price Paid per Common Share	(c) Total Number of Common Shares Purchased as Part of Publicly Announced Plans or Programs ⁽¹⁾	(d) Maximum Number (or Approximate Dollar Value) of Common Shares that May Yet Be Purchased Under the Plans or Programs ⁽¹⁾
January 1-31, 2019	—	\$ —	—	\$ 15,049,184
February 1-28, 2019 ⁽²⁾ ⁽³⁾	12,719	32.26	—	15,049,184
March 1-31, 2018 ⁽³⁾	390	33.32	—	15,049,184
Total	13,109	\$ 32.29	—	\$ 15,049,184

(1) On November 3, 2015, Peoples announced that on that same date, Peoples' Board of Directors authorized a share repurchase program authorizing Peoples to purchase up to \$20.0 million of its outstanding common shares. No common shares were purchased under this share repurchase program during the three months ended March 31, 2019.

(2) Information reported includes 11,869 common shares withheld during February to pay income taxes associated with restricted common shares which vested.

(3) Information reported includes 850 common shares and 390 common shares purchased in open market transactions during February and March, respectively, by Peoples Bank under the Rabbi Trust Agreement. The Rabbi Trust Agreement establishes a rabbi trust that holds assets to provide funds for the payment of the benefits under the Peoples Bancorp Inc. Third Amended and Restated Deferred Compensation Plan for Directors of Peoples Bancorp Inc. and Subsidiaries.
