DEX 2017 Expense Ratio was 2.38%

Fees across the industry have declined significantly. In fact, 2017 was the largest year-over-year decline in expense ratios since Morningstar began tracking this trend in 2000. Yet, DEX’s high fees have barely changed because, we believe that, shareholders have not held DEX and its board accountable¹.

These fees compound over time and they have significantly diminished our return. A comparison with other manager’s open-end mutual funds and exchange-traded funds shows just how high DEX’s annual fees are. Remember you are paying fees every year!

<u>Manager²</u>	<u>Asset-Weighted Average Fees</u>
