**NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS**

Forward Looking Statements

*Certain statements made in this Quarterly Report on Form 10-Q are forward-looking statements regarding the plans and objectives of management for future operations. Such statements involve known and unknown risks, uncertainties and other factors that may cause our actual results, performance or achievements of the Company to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. The forward-looking statements included herein are based on current expectations that involve numerous risks and uncertainties. Our plans and objectives are based, in part, on assumptions involving judgments with respect to, among other things, future economic, competitive and market conditions and future business decisions, all of which are difficult or impossible to predict accurately and many of which are beyond our control. Although we believe that our assumptions underlying the forward-looking statements are reasonable, any of the assumptions could prove inaccurate and, therefore, there can be no assurance that the forward-looking statements included in this report will prove to be accurate. In light of the significant uncertainties inherent in the forward-looking statements included herein particularly in view of the current state of our operations, the inclusion of such information should not be regarded as a statement by us or any other person that our objectives and plans will be achieved. Factors that could cause actual results to differ materially from those expressed or implied by forward-looking statements include, but are not limited to, the factors set forth under the headings Business, and Risk Factors in our Annual Report on Form 10-K for the year ended December 31, 2007 as filed with the Securities and Exchange Commission ( SEC ).*

**Note 1. - Business and Summary of Significant Accounting Policies**

**Business**

The Company, through its wholly-owned subsidiary, Sunteck Transport Co., Inc. (Sunteck), is a non-asset based transportation services company. As a non-asset based provider of brokerage and contract carrier transportation services, the Company does not own any equipment and its services are provided through its strategic alliances with less than truckload, truckload, air, rail, ocean common carriers and independent owner-operators to service customers' needs. The Company's brokerage and contract carrier services are provided through a network of independent sales agents throughout the United States and Canada. During its most recently completed fiscal year, the Company generated revenue, net revenue and net income of approximately \$110.3 million, \$21.3 million and \$1.6 million, respectively.

**Summary of Significant Accounting Policies**

**Basis of Presentation**

The financial statements of the Company have been prepared using the accrual basis of accounting under accounting principles generally accepted in the United States of America (GAAP).

The consolidated financial statements, which are unaudited, have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission (SEC). In management's opinion, these financial statements include all adjustments (consisting only of normal recurring adjustments) necessary for a fair presentation of the results of operations for the interim periods presented. The results of operations for the six months ended June 30, 2008 and 2007 are not necessarily indicative of results to be expected for the entire year. Pursuant to SEC rules and regulations, certain information and footnote disclosures normally included in financial statements prepared in accordance with GAAP have been omitted from these statements. The consolidated financial statements and notes thereto should be read in

conjunction with the financial statements and notes included in our Annual Report on Form 10-K for the year ended December 31, 2007.

Principles of Consolidation

The consolidated financial statements include the accounts of the AutoInfo, Inc. (the Company), its wholly-owned subsidiary Sunteck Transport Co., Inc. and its wholly-owned subsidiaries Sunteck Transport Carriers, Inc., and Eleets Logistics, Inc. (collectively, Sunteck). All significant intercompany balances and transactions have been eliminated in consolidation.

Use of Estimates

The preparation of these financial statements in conformity with GAAP requires management to make certain estimates and assumptions. These estimates and assumptions affect the reported amounts of assets, liabilities and contingent liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the periods presented. The Company believes that all such assumptions are reasonable and that all estimates are adequate, however, actual results could differ from those estimates.

Revenue Recognition

As a third party transportation logistics provider, the Company acts as the shippers' agent and arranges for a carrier to handle the freight. Gross revenues consist of the total dollar value of services purchased by shippers. Revenue is recognized upon delivery of freight, at which time the related transportation cost, including commission, is also recognized. At that time, the Company's obligations are completed and collection of receivables is reasonably assured.

Emerging Issues Task Force No. 99-19, Reporting Revenues Gross as a Principal Versus Net as an Agent (EITF 99-19), establishes criteria for recognizing revenues on a gross or net basis. The Company is the primary obligor in its transactions, has all credit risk, maintains substantially all risk and rewards, has discretion in selecting the supplier, and has latitude in pricing decisions. Accordingly, the Company records all transactions at the gross amount, consistent with the provisions of EITF 99-19.

Cash and cash equivalents

Cash and cash equivalents consist of cash in banks.

Provision For Doubtful Accounts

The Company continuously monitors the creditworthiness of its customers and has established an allowance for amounts that may become uncollectible in the future based on current economic trends, its historical payment and bad debt write-off experience, and any specific customer related collection issues.

Fixed Assets

Fixed assets as of June 30, 2008 and December 31, 2007, consisting primarily of furniture, fixtures and equipment and computer system development costs, were carried at cost net of accumulated depreciation. Depreciation of fixed assets was provided on the straight-line method over the estimated useful lives of the related assets which range from three to five years.

Income Per Share

Basic income per share is based on net income divided by the weighted average number of common shares outstanding. Common stock equivalents outstanding were 2,203,000 and 3,299,000, and 2,282,000 and 3,701,000, respectively, for the three and six month periods ended June 30, 2008 and 2007, respectively.

Income Taxes

The Company utilizes the asset and liability method for accounting for income taxes. Under the asset and liability method, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and future benefits to be recognized upon the utilization of certain operating loss carryforwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date.

**Note 2- Income Taxes**

For the three and six month periods ended June 30, 2008 and 2007, respectively, the provision for income taxes consisted of the following:

	Three Months Ended June 30,			
	2008		2007	
	Current	Deferred	Current	Deferred
Tax expense before application of operating loss carryforwards	\$ 386,000		\$ 273,000	\$
Tax expense (benefit) of operating loss carryforwards	(329,000)	329,000	(233,000)	233,000
<b>Income tax expense</b>	<b>\$ 57,000</b>	<b>\$ 329,000</b>	<b>\$ 40,000</b>	<b>\$ 233,000</b>

	Six Months Ended June 30,			
	2008		2007	
	Current	Deferred	Current	Deferred
Tax expense before application of operating loss carryforwards	\$ 731,000		\$ 516,000	\$
Tax expense (benefit) of operating loss carryforwards	(624,000)	624,000	(441,000)	441,000
<b>Income tax expense</b>	<b>\$ 107,000</b>	<b>\$ 624,000</b>	<b>\$ 75,000</b>	<b>\$ 441,000</b>

The deferred tax asset of \$2,413,000 and \$3,037,000 at June 30, 2008 and December 31, 2007, respectively, represents expected future tax savings resulting from the Company's utilization of its net operating loss carryforwards. As of December 31, 2007, the Company had net operating loss carryforwards of approximately \$8.9 million for federal

income tax purposes which expire through 2014. Utilization of this benefit is primarily subject to the extent of future earning of the Company, and may be limited by, among other things, shareholder changes, including the possible issuance by the Company of additional shares in one or more financing or acquisition transactions.

Based upon available objective evidence, including the Company's post-merger history of profitability, management believes it is more likely than not that forecasted taxable income will be sufficient to utilize all of the net operating loss carryforwards before its expiration in 2014.

**MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

**Cautionary statement identifying important factors that could cause our actual results to differ from those projected in forward looking statements.**

*Readers of this report are advised that this document contains both statements of historical facts and forward looking statements. Forward looking statements are subject to certain risks and uncertainties, which could cause actual results to differ materially from those indicated by the forward looking statements. We undertake no obligation to revise or update publicly any forward looking statements for any reason. Examples of forward looking statements include, but are not limited to (i) projections of revenues, income or loss, earnings per share, capital expenditures, dividends, capital structure and other financial items, (ii) statements of our plans and objectives with respect to business transactions and enhancement of shareholder value, (iii) statements of future economic performance, and (iv) statements of assumptions underlying other statements and statements about our business prospects.*

The following Management's Discussion and Analysis of Financial Condition and Results of Operations should be read in conjunction with our financial statements and the notes thereto appearing elsewhere in this report.

**Overview**

Through our wholly-owned subsidiary, Sunteck Transport Co., Inc. (Sunteck), we are a non-asset based transportation services company, providing transportation capacity and related transportation services to shippers throughout the United States, and to a lesser extent, Canada. As a non-asset based provider of brokerage and contract carrier transportation services, we do not own any equipment and our services are provided through our strategic alliances with less than truckload, truckload, air, rail, ocean common carriers and independent owner-operators to service our customers' needs. Our services include ground transportation coast to coast, local pick up and delivery, air freight and ocean freight. We have strategic alliances with less than truckload, truckload, air, rail and ocean common carriers to service our customers' needs. Our business services emphasize safety, information coordination and customer service and are delivered through a network of independent commissioned sales agents and third party capacity providers coordinated by us. The independent commissioned sales agents typically enter into exclusive contractual arrangements with Sunteck and are responsible for locating freight and coordinating the transportation of the freight with customers and capacity providers. The third party capacity providers consist of independent contractors who provide truck capacity to us, including owner-operators who operate under our contract carrier license, air cargo carriers and railroads. Through this network of agents and capacity providers, Sunteck operates a non-asset based transportation services business with revenue, net revenue and net income of approximately \$110.3 million, \$21.3 million and \$1.6 million, respectively, during our most recently completed fiscal year and approximately \$81.8 million, \$14.3 million and \$1.1 million, respectively, during the six months ended June 30, 2008.

During the six months ended June 30, 2008, the increase in gross revenue and net revenue is readily measured by the number of transactions we have processed, which increased for the respective six month periods from 37,000 in 2007 to 60,000 in 2008, an increase of 62%. This is the direct result of the expansion of our agent network. Gross revenue increased by 69% and net revenue increased by 43% over the prior year period as compared to an increase of 62% in the number of transactions processed. We experienced a decrease in net revenue percentage of 3.3% from the corresponding period in 2007. This is the result of higher transportation costs and reflects the increase in fuel costs as well as other factors.

During the next twelve months, we plan to continue to offer our brokerage and contract carrier transportation services and expand our agent network. We are presently profitable and have adequate available lines of credit to satisfy our working capital requirements during the next twelve months.

**Results of operations****For the three and six months ended June 30, 2008 and 2007**

During the quarter ended June 30, 2008, we continued to implement our strategic growth business plan consisting primarily of the expansion of client services, the opening of regional operations centers in key geographical markets, and the addition of independent sales agents providing brokerage and contract carrier services. Our net revenues (gross revenues less cost of transportation) are the primary indicator of our ability to source, add value and resell service that are provided by third parties and are considered to be the primary measurement of growth. Therefore, the discussion of the results of operations below focuses on the changes in our net revenues. The increases in net revenues and all related cost and expense categories are the direct result of our business expansion.

The following table represents certain statement of operation data as a percentage of net revenues:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2008	2007	2008	2007
Net revenues	100.0%	100.0%	100.0%	100.0%
Commissions	62.9%	63.4%	63.8%	63.8%
Operating expenses	22.6%	22.8%	22.0%	22.9%
Interest expense	1.5%	1.1%	1.5%	1.0%
Income taxes	5.1%	5.3%	5.1%	5.2%
Net income	7.9%	7.4%	7.6%	7.1%

**Revenues**

Gross revenues, consisting of freight fees and other related services revenue, totaled \$45,234,000 for the three months ended June 30, 2008 as compared with \$26,224,000 in the same period of the prior year, an increase of 73%. Net revenues were \$7,535,000 for the three months ended June 30, 2008, as compared with \$5,146,000 in the same period of the prior year, an increase of 46%. This increase is the direct result of the continued expansion of our agent network and customer base which resulted in a 64% increase in the number of transactions processed. The increase in net revenue of 46% as compared to the increase in gross revenue of 73% is the result of revenue mix and increased direct freight costs relating to competition, the increase in fuel costs, and the availability of equipment.

Gross revenues, consisting of freight fees and other related services revenue, totaled \$81,796,000 for the six months ended June 30, 2008, as compared with \$48,278,000 in the same period of the prior year, an increase of 69%. Net revenues were \$14,282,000 for the six months ended June 30, 2008, as compared with \$10,001,000 in the same period of the prior year, an increase of 43%. This increase is the direct result of the continued expansion of our agent network and customer base which resulted in a 31% increase in the number of transactions processed. The increase in net revenue of 43% as compared to the increase in gross revenue of 69% is the result of revenue mix and increased direct freight costs, the increase in fuel costs, and the availability of equipment.

**Costs and expenses***Commissions*

## Edgar Filing: AUTOINFO INC - Form 10-Q

For the three months ended June 30, 2008, commissions totaled \$4,740,000 as compared with \$3,260,000 in the same period of the prior year. This increase is the result of the increase in net revenues. As a percentage of net revenues, commissions were 63% as compared with 63% in the same period of the prior year.

For the six months ended June 30, 2008, commissions totaled \$9,111,000 as compared with \$6,385,000 in the same period of the prior year. This increase is the result of the increase in net revenues. As a percentage of net revenues, commissions were 64% as compared with 64% in the same period of the prior year.

### *Operating expenses*

For the three months ended June 30, 2008, operating expenses totaled \$1,705,000 as compared with \$1,175,000 in the same period of the prior year. As a percentage of net revenues, operating expenses were 23% as compared with 23% in the prior year period.

For the six months ended June 30, 2008, operating expenses totaled \$3,143,000 as compared with \$2,290,000 in the same period of the prior year. As a percentage of net revenues, operating expenses were 22% as compared with 23% in the same period of the prior year.

These increases are the direct result of the increase in selling, general and administrative expenses in connection with our business expansion. We presently have adequate facilities and management to handle the present and anticipated transaction volume in 2008 without a significant increase in overhead.

### *Interest Expense*

For the three months ended June 30, 2008, interest expense totaled \$108,000 as compared with \$55,000 in the same period of the prior year.

For the six months ended June 30, 2008, interest expense totaled \$211,000 as compared with \$101,000 in the same period of the prior year.

These increases are primarily the result of increased borrowings pursuant to our \$20.0 million line of credit.

### **Income tax**

Income tax expense for the three months ended June 30, 2008 of \$386,000 consisted of the utilization of the deferred tax benefit of \$329,000 and state income taxes of \$57,000 as compared with \$273,000 for the three months ended June 30, 2007 which consisted of the utilization of the deferred tax benefit of \$233,000 and state income taxes of \$40,000.

Income tax expense for the six months ended June 30, 2008 of \$731,000 consisted of the utilization of the deferred tax benefit of \$624,000 and state income taxes of \$107,000 as compared with \$516,000 for the six months ended June 30, 2008 which consisted of the utilization of the deferred tax benefit of \$441,000 and state income taxes of \$75,000.

The increase in income taxes is directly related to higher pre-tax income.

### **Trends and uncertainties**

The transportation industry is highly competitive and highly fragmented. Our primary competitors are other non-asset based as well as asset based third party logistics companies, freight brokers, carriers offering logistics services and freight forwarders. We also compete with customers and shippers internal traffic and transportation departments as well as carriers internal sales and marketing departments directly seeking shippers freight. We anticipate that competition for our services will continue to increase. Many of our competitors have substantially greater capital resources, sales and

## Edgar Filing: AUTOINFO INC - Form 10-Q

marketing resources and experience. We cannot assure you that we will be able to effectively compete with our competitors in effecting our business expansion plans. The most significant trend contributing to our growth during the past four years has been the expansion of our brokerage services agent network and expansion of our contract carrier agent and owner operator network. Sales agents are independent contractors and, as such, there are no assurances that we can either maintain our existing agent network or continue to expand this network.

For the six months ended June 30, 2008, our gross revenues increased to \$81.8 million from \$48.3 million in the prior year period. As of June 30, 2008, we had an accumulated deficit of \$4.8 million. Factors that could adversely affect our operating results include:

the success of Sunteck in expanding its business operations; and

changes in general economic conditions.

Depending on our ability to generate revenues, we may require additional funds to expand Sunteck's business operations and for working capital and general corporate purposes. Any additional equity financing may be dilutive to stockholders, and debt financings may involve restrictive covenants that further limit our ability to make decisions that we believe will be in our best interests. In the event we cannot obtain additional financing on terms acceptable to us when required, our ability to expand Sunteck's operations may be materially adversely affected.

Inflation and changing prices had no material impact on our revenues or the results of operations for the period ended June 30, 2008. During the three months ended June 30, 2008, however, rapidly rising fuel prices, among other factors, contributed to higher transportation costs and resulted in a decline in the net revenue percentage.

### Liquidity and capital resources

During the past two years, our sources for cash have been the cash flow generated from operations and available borrowings under our line of credit.

At June 30, 2008, we had an outstanding balance of \$12,196,000 under our \$20,000,000 line of credit. In May, 2008, we increased our line of credit from 10.5 million to 20.0 million and extended the maturity date from June 2009 to June, 2010. The line of credit facility is at an interest rate of LIBOR plus 1 ¼ %, is subject to the maintenance of certain financial covenants, and is secured by accounts receivable and other operating assets. We believe that we have sufficient working capital to meet our short-term operating needs and that we will be able to increase, extend or replace the line of credit on terms acceptable to us.

At June 30, 2008, we had liquid assets of approximately \$156,000. Available cash is used to reduce borrowings on our line of credit.

The total amount of debt outstanding as of June 30, 2008 and 2007 was \$12,196,000 and \$3,363,000, respectively. The following table presents our debt instruments and their weighted average interest rates as of June 30, 2008 and 2007, respectively:

	Balance	Weighted Average Rate	Balance	Weighted Average Rate
	2008		2007	
Line of Credit	12,196,000	3.7%	3,363,000	7.3%

**Critical accounting policies**

Preparation of our financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Note 1 to the notes to the financial statements included in this report includes a summary of the significant accounting policies and methods used in the preparation of our financial statements. The most significant areas involving management estimates and assumptions are described below. Actual results could differ materially from management's estimates under different assumptions or conditions.

Revenue Recognition

As a third party transportation logistics provider, we act as the shippers' agent and arrange for a carrier to handle the freight. Gross revenues consist of the total dollar value of services purchased by shippers. Revenue is recognized upon the delivery of freight, at which time the related transportation cost, including commission, is also recognized. At that time, our obligations are completed and collection of receivables is reasonably assured.

Emerging Issues Task Force No. 99-19, Reporting Revenues Gross as a Principal Versus Net as an Agent (EITF 99-19), establishes criteria for recognizing revenues on a gross or net basis. We are the primary obligor in our transactions, have all credit risk, maintain substantially all risk and rewards, have discretion in selecting the supplier, and have latitude in pricing decisions. Accordingly, we record all transactions at the gross amount, consistent with the provisions of EITF 99-19.

Income Taxes

The deferred tax asset represents expected future tax savings resulting from our net operating loss carryforwards. As of December 31, 2007, we had net operating loss carryforwards of approximately \$8.9 million for federal income tax purposes which expire through 2014. Utilization of this benefit is primarily subject to the extent of our future earnings, and may be limited by, among other things, stockholder changes, including the possible issuance of additional shares in one or more financing or acquisition transactions. As of December 2006, we eliminated any valuation allowance for the future tax savings as management believes it is more likely than not that they will be realized by the end of the carryforward period.

Provision For Doubtful Accounts

We continuously monitor the creditworthiness of our customers and have established an allowance for amounts that may become uncollectible in the future based on current economic trends, our historical payment and bad debt write-off experience, and any specific customer related collection issues.

**Off-balance sheet arrangements**

We do not have any off-balance sheet arrangements.

**QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK**

A smaller reporting company is not required to provide the information required by this Item.

**CONTROLS AND PROCEDURES**

**(a) Evaluation of Disclosure Controls and Procedures**

Our management, with the participation of our president and chief financial officer, carried out an evaluation of the effectiveness of our disclosure controls and procedures (as defined in the Securities Exchange Act of 1934 (the Exchange Act) Rules 13a-15(e) and 15-d-15(e)) as of the end of the period covered by this report (the Evaluation Date). Based upon that evaluation, the president and chief financial officer concluded that as of the Evaluation Date, our disclosure controls and procedures are effective to ensure that information required to be disclosed by us in the reports that we file or submit under the Exchange Act (i) is recorded, processed, summarized and reported, within the time periods specified in the SEC's rules and forms and (ii) is accumulated and communicated to our management, including our president and chief financial officer, as appropriate to allow timely decisions regarding required disclosure.

**(b) Changes in Internal Control over Financial Reporting**

There were no changes in our internal controls over financial reporting that occurred during the period covered by this report that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

**Part II - OTHER INFORMATION**

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds  
During the quarter ended June 30, 2008, we issued 240,000 shares of Common Stock upon the exercise of options by a consultant. The issuance of these shares was pursuant to an exemption from registration provided under section 4(2) of the Securities Act of 1933, as amended (the Act). All of the stock certificates issued for the shares were imprinted with a legend restricting transfer unless pursuant to an effective registration statement or an available exemption under the Act.

**Part II - OTHER INFORMATION**

- Item 6. **EXHIBITS.**
