Commission File Number: 1-14795

AMERICAN SAFETY INSURANCE HOLDINGS, LTD.

(Exact name of registrant as specified in its charter)

Bermuda
(State of incorporation

or organization)

31 Queen Street 2nd Floor

Hamilton, Bermuda
(Address of principal executive offices)

Registrant's telephone number: (441) 296-8560

30-0666089
(I.R.S. Employer

Identification No.)

HM 11
(Zip Code)

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§229.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of large accelerated filer, accelerated filer and smaller reporting company in Rule 12b-2 of the Exchange Act. (check one)

Large accelerated filer Accelerated filer

Non-accelerated filer Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act). Yes No

The aggregate number of shares outstanding of Registrant's common stock, \$0.01 par value, on August 1, 2012, was 10,252,617

American Safety Insurance Holdings, Ltd. and Subsidiaries

Notes to Consolidated Financial Statements

June 30, 2012

(Unaudited)

Note 1 Basis of Presentation

The accompanying consolidated financial statements of American Safety Insurance Holdings, Ltd. (American Safety Insurance) and its subsidiaries and American Safety Risk Retention Group, Inc. (American Safety RRG), a non-subsiary risk retention group affiliate (collectively, the Company), are prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) as established by the FASB Accounting Standards Codification[®] (Codification or ASC). The preparation of financial statements in conformity with GAAP requires management to make estimates, based on the best information available, in recording transactions resulting from business operations. Certain balance sheet amounts involve accounting estimates and/or actuarial determinations and are therefore subject to change and include, but are not limited to, invested assets, deferred income taxes, reinsurance recoverables, goodwill and the liabilities for unpaid losses and loss adjustment expenses. As additional information becomes available (or actual amounts are determinable), the estimates may be revised and reflected in operating results. While management believes that these estimates are adequate, such estimates may change in the future.

The results of operations for the three and six months ended June 30, 2012, may not be indicative of the results for the fiscal year ending December 31, 2012. These unaudited interim consolidated financial statements and notes should be read in conjunction with the financial statements and notes included in the audited consolidated financial statements on Form 10-K of the Company for the fiscal year ended December 31, 2011.

The unaudited interim consolidated financial statements include the accounts of American Safety Insurance, each of its subsidiaries and American Safety RRG. All significant intercompany balances as well as normal recurring adjustments have been eliminated. Unless otherwise noted, all balances are presented in thousands.

Table of Contents**Note 2 Investments**

Table of Contents

During the six months ended June 30, 2012 and 2011, available-for-sale and trading fixed maturity securities were sold for total proceeds of \$18.4 million and \$154.5 million, respectively, resulting in gross realized gains to the Company. The gross realized gains on these sales totaled \$0.05 million and \$11.3 million in 2012 and 2011, respectively. For the purpose of determining gross realized gains, the cost of securities sold is based on specific identification.

Trading securities are reported at fair value, with unrealized holding gains and losses reported as part of net earnings. Net unrealized holding losses from trading securities totaled \$0.01 million for the six months ended June 30, 2012. These holding losses are included in net realized gains and losses for the period. There were no trading securities within the portfolio prior to the second quarter of 2012.

The amortized cost and estimated fair value of fixed maturity securities at June 30, 2012, is shown below by contractual maturity.

	Amortized cost (dollars in thousands)	Estimated fair value
Due in one year or less	\$ 31,105	\$ 31,429
Due after one year through five years	107,180	114,638
Due after five years through ten years	160,483	178,648
Due after ten years	73,340	91,985
Mortgage and asset-backed securities	359,923	379,648
Total	\$ 732,031	\$ 796,348

The following tables summarize the gross unrealized losses of the Company's investment portfolio as of June 30, 2012 and December 31, 2011, by category and length of time that the securities have been in an unrealized loss position.

	Less than 12 months		12 months or longer		Total

Common stock	6,751	(175)			6,751	(175)
Preferred stock	1,436	(50)	509	(19)	1,945	(69)
Total temporarily impaired securities	\$ 79,256	\$ (1,701)	\$ 5,941	\$ (62)	\$ 85,197	\$ (1,763)

We hold a total of 1,436 available-for sale securities, of which 37 were in an unrealized loss position for less than twelve months and five were in an unrealized loss position for a period of twelve months or greater as of June 30, 2012. Unrealized losses greater than twelve months on fixed maturities were the result of increased credit spreads and higher market yields relative to the date the securities were purchased. We do not consider these investments to be other-than-temporary impaired at June 30, 2012.

We routinely review our investments that have experienced declines in fair value to determine if the decline is other than temporary. These reviews are performed with consideration of the facts and circumstances of an issuer in accordance with the Securities and Exchange Commission (SEC), Accounting for Non-Current Marketable Equity Securities; ASC-320-10-05, Accounting for Certain Investments in Debt and Equity Securities, and related guidance. The identification of distressed investments and the assessment of whether a decline is other-than-temporary involve significant management judgment and require evaluation of factors including but not limited to:

percentage decline in value and the length of time during which the decline has occurred;

recoverability of principal and interest;

market conditions;

ability and intent to hold the investment to recovery;

a pattern of continuing operating losses of the issuer;

rating agency actions that affect the issuer's credit status;

adverse changes in the issuer's availability of production resources, revenue sources, technological conditions; and

adverse changes in the issuer's economic, regulatory, or political environment.

Edgar Filing: AMERICAN SAFETY INSURANCE HOLDINGS LTD - Form 10-Q

Additionally, credit analysis and/or credit rating issues related to specific investments may trigger more intensive monitoring to determine if a decline in market value is other than temporary (OTTI). For investments with a market value below cost, the process includes evaluating the length of time and the extent to which cost exceeds market value, the prospects and financial condition of the issuer, and evaluation for a potential recovery in market value, among other factors. This process is not exact and further requires consideration of risks such as credit risk and interest rate risk. Therefore, if an investment's cost exceeds its market value solely due to changes in interest rates, recognizing impairment may not be appropriate. For the six months ended June 30, 2012 and 2011, the Company did not incur any OTTI losses.

Table of Contents

Note 3 Segment Information

We segregate our business into two segments: insurance operations and other. The insurance operations are further classified into three divisions: excess and surplus lines (E&S), alternative risk transfer (ART) and assumed reinsurance (Assumed Re). E&S consists of seven product lines: environmental, primary casualty, excess, property, surety, healthcare, and professional liability. ART consists of two product lines: specialty programs and fully funded. Assumed Re consists of property and casualty business assumed from unaffiliated specialty insurers and reinsurers. Other includes lines of business that we no longer underwrite (run-off) and other ancillary product lines. Prior year amounts have been reclassified to conform to the current year presentation.

Within E&S, our environmental insurance products provide general contractor pollution and/or professional liability coverage for contractors and consultants in the environmental remediation industry and property owners. Casualty provides general liability insurance for residential and commercial contractors as well as general liability and product liability for smaller manufacturers, distributors, non-habitational real estate and certain real property owner, landlord and tenant risks. Excess provides excess and umbrella liability coverages over our own and other carriers primary casualty policies. Our property product encompasses surplus lines commercial property business and commercial multi-peril (CMP) policies. American Safety specializes in a full range of contract and commercial bonds for small to medium size surety businesses, including bonds for environmental contractors, consultants and other professionals. Healthcare provides customized liability insurance solutions primarily for long-term care facilities. Professional Liability provides miscellaneous liability and professional liability coverage on both a primary and excess basis. Professional liability coverage is provided to lawyers, insurance agents, and other businesses, while miscellaneous liability coverage is provided to private and not for profit entities and, to a lesser extent, public companies.

In our ART division, specialty programs provide insurance to homogeneous niche groups through third-party program managers. Our specialty programs consist primarily of property and liability insurance coverages for certain classes of specialty risks including, but not limited to general and trade contractors, pest control operators, tanning salons, auto dealers, pizza delivery operators and federal employees. Fully funded policies provide our insureds the ability to fund their liability exposure via a self-insurance vehicle for which we generate fee income. We write fully funded general and professional liability for businesses operating primarily in the healthcare and construction industries.

Our Assumed Reinsurance division offers property and casualty reinsurance products in the form of treaty and facultative contracts targeting specialty insurers, risk retention groups and captives. We provide this coverage on an excess of loss and, to a lesser extent, a quota share basis. We reinsure casualty business, which includes medical malpractice, general liability, commercial auto, professional liability and workers compensation. The assumed reinsurance division also participates in one property catastrophe treaty that provides a maximum of \$20 million of coverage over the treaty period. The treaty covers world-wide property catastrophe losses including hurricanes and earthquakes.

Our Other segment includes lines of business that we have placed in run-off, such as workers compensation, excess liability insurance for municipalities, other commercial lines, real estate and other ancillary product lines.

The reportable insurance divisions are measured based on underwriting profit (loss) and pre-tax operating income (loss).

Equity	\$ 99,462	\$ 224,778	\$ 324,240

Note 4 Income Taxes

United States federal and state income tax (benefit) expense from operations consists of the following components (dollars in thousands):

	Three Months Ended		Six Months Ended	
	June 30,		June 30,	
	2012	2011	2012	2011
Current	\$ (443)	\$ 343	\$ (2,837)	\$ 656
Deferred	209	(892)	3,709	(1,237)
Total	\$ (234)	\$ (549)	\$ 872	\$ (581)

Table of Contents

Income tax (benefit) expense for the periods ended June 30, 2012 and 2011 differed from the amount computed by applying the United States Federal income tax rate of 34% to earnings before Federal income taxes as a result of the following (dollars in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2012	2011	2012	2011
Expected income tax expense	\$ 596	\$ 1,191	\$ 2,468	\$ 3,866
Foreign earned income not subject to U.S. taxation	(830)	(1,812)	(1,685)	(4,539)
Tax-exempt interest	(3)	(3)	(6)	(6)
State taxes and other	3	75	95	98
Total	\$ (234)	\$ (549)	\$ 872	\$ (581)

Note 5 Equity Based Compensation

The Company's incentive stock plan grants incentive stock options to employees. The majority of the options outstanding under the plan vest evenly over a three year period and have a term of 10 years. The Company uses the Black-Scholes option pricing model to value stock options. The Company's methodology for valuing stock options has not changed from December 31, 2011. During the first six months of 2012 and 2011, the Company did not grant any stock options. Stock based compensation expense related to outstanding stock options was \$69 and \$140 for the three months ended June 30, 2012 and 2011, respectively and \$187 and \$329 for the six months ended June 30, 2012 and 2011, respectively, and is reflected in the Consolidated Statement of Operations in other underwriting expenses.

In addition to stock options discussed above, the Company grants restricted shares to employees under the incentive stock plan. During the three month period ended June 30, 2012, 5,000 shares of restricted stock were granted compared to none in 2011. During the first six months of 2012, the Company granted 96,330 shares of restricted stock compared to 38,681 for the same period in 2011. All 2012 shares granted, vest on the grant date anniversary ratably over three years at 25%, 25%, and 50%, respectively. Stock based compensation expense related to the restricted shares was \$481 and \$333 for the three months ended June 30, 2012 and 2011, respectively, and is reflected in the Consolidated Statement of Operations in other underwriting expenses. For the six months ended June 30, 2012 and 2011, \$885 and \$683 were recorded as compensation expense, respectively, and is reflected in the Consolidated Statement of Operations in other underwriting expenses. Additionally, the Company expensed \$83 and \$66 in expense for the three months ended June 30, 2012 and 2011, respectively, related to stock awards related to Director compensation. For the six months ended June 30, the company expensed \$165 and \$136 in 2012 and 2011, respectively, related to stock awards made as a portion of Director compensation.

Note 6 Fair Value Measurements

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurement assumes that the transaction to sell the asset or transfer the liability occurs in the principal market for the asset or liability, or in the absence of a principal market, the most advantageous market. Market participants are buyers and sellers in the principal (or most advantageous) market that are independent, knowledgeable, able to transact for the asset or liability, and willing to transact for the asset or liability.

Table of Contents

We determined the fair values of certain financial instruments based on the fair value hierarchy established in Fair Value Measurements, topic ASC 820-10-05. Valuation techniques consistent with the market approach, income approach and/or cost approach are used to measure fair value. The inputs of these valuation techniques are categorized into three levels. The guidance requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair value.

Our Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that can be accessed at the reporting date. The Company receives one quote per instrument for Level 1 inputs.

Our Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. These fair value measurements are provided by using quoted prices of securities with similar characteristics.

Our Level 3 inputs are valuations based on inputs that are unobservable. Unobservable inputs reflect the Company's own assumptions about the assumptions that market participants would use in pricing the asset or liability.

The Company receives fair value prices from its third-party investment managers who use an independent pricing service. These prices are determined using observable market information such as dealer quotes, market spreads, cash flows, yield curves, live trading levels, trade execution data, market consensus prepayment speeds, credit information, and the security's terms and conditions, among other things. The Company has reviewed the processes used by the third party providers for pricing the securities, and has determined that these processes result in fair values consistent with the GAAP requirements. In addition, the Company reviews these prices for reasonableness and has not adjusted any prices received from the third-party providers as of June 30, 2012.

Assets measured at fair value on a recurring basis are summarized below:

As of June 30, 2012

Fair Value Measurements Using

(dollars in thousands)

	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total

Balance at June 30, 2012	\$	6,706
Change in net unrealized gains relating to assets still held at reporting date	\$	(45)

There were no transfers in and out of Level 1 and 2 categories during the first six months of 2012.

A description of the Company's inputs used to measure fair value is as follows:

Fixed maturities (Available-for-Sale and Trading) Levels 1 and 2

United States Treasury securities are valued using quoted (unadjusted) prices in active markets and are therefore shown as Level 1.

United States Government agencies are reported at fair value utilizing Level 2 inputs. These fair value measurements are provided by using quoted prices of securities with similar characteristics.

States of the U.S. and political subdivisions of the states are reported at fair value utilizing Level 2 inputs. These fair value measurements are provided by using quoted prices of securities with similar characteristics.

Corporate securities are reported at fair value utilizing Level 2 inputs. These fair value measurements are provided by using quoted prices of securities with similar characteristics.

Mortgage-backed securities are reported at fair value utilizing Level 2 inputs. These fair value measurements are provided by using quoted prices of securities with similar characteristics.

Commercial mortgage-backed securities are reported at fair value utilizing Level 2 inputs. These fair value measurements are provided by using quoted prices of securities with similar characteristics.

Asset-backed securities are reported at fair value utilizing Level 2 inputs. These fair value measurements are provided by using quoted prices of securities with similar characteristics.

Equity securities (Level 1) For these securities, fair values are based on quoted market prices (unadjusted) in active markets.

Edgar Filing: AMERICAN SAFETY INSURANCE HOLDINGS LTD - Form 10-Q

Equity securities (Level 3) Includes private equity investments which are carried at the Company's equity in the estimated net assets of the investments based on valuations provided by the investee or other relevant market data. We assess the reasonableness of those fair values by evaluating the fund's financial statements and discussions with the fund manager. Due to the delay of reported information, our estimates are based on the most recent available information. These inputs are considered unobservable and therefore the private equity investments are being classified as Level 3 measurements.

Short-term investments are reported at fair value using Level 1 inputs.

Table of Contents

As management is ultimately responsible for determining the fair value measurements for all securities, we validate prices received from our investment advisor by comparing the fair value estimates to our knowledge of the current market and investigate any prices deemed not to be representative of fair value. We review fair values for significant changes in a one-month period and security values that change in value contrary to general market movements.

The following table sets forth the carrying amount, estimated fair value and level within the fair value hierarchy of financial instruments as of June 30, 2012 and December 31, 2011.

	Level in Fair Value Hierarchy	June 30, 2012		December 31, 2011	
		Carrying Amount	Estimated Fair Value	Carrying Amount	Estimated Fair Value
Assets:					
Cash and cash equivalents	Level 1	\$ 35,195	\$ 35,195	\$ 43,481	\$ 43,481
Fixed maturities	*	\$ 796,348	\$ 796,348	\$ 815,999	\$ 815,999
Equity securities	*	\$ 9,812	\$ 9,812	\$ 9,683	\$ 9,683
Short-term investments	*	\$ 97,531	\$ 97,531	\$ 57,417	\$ 57,417
Trading securities	*	\$ 4,935	\$ 4,935	\$	\$
Premiums receivable	Level 2	\$ 39,243	\$ 39,243	\$ 33,458	\$ 33,458
Reinsurance recoverable	Level 2	\$ 178,066	\$ 178,066	\$ 173,982	\$ 173,982
Liabilities:					
Loans payable	Level 2	\$ 39,183	\$ 39,183	\$ 39,183	\$ 39,183

* See investment assets measured at fair value on a recurring basis summary within Note 6 for disclosure of levels for classes of these financial assets.

Cash and cash equivalents The carrying amounts approximate fair value because of the short-term maturity of those instruments.

Premiums receivable The carrying value of premiums receivable approximate fair value due to its short-term nature.

Reinsurance recoverables The carrying value of reinsurance receivables approximate fair value. The Company has established an allowance for bad debts associated with reinsurance balances recoverable and is primarily related to specific counterparties.

Loans payable The carrying value of those notes is a reasonable estimate of fair value. Due to the variable interest rate of these instruments, carrying value approximates market value.

Note 7 Credit Facility

The Company has an unsecured line of credit facility for \$20 million that expires August 20, 2013. The principal amount outstanding under the credit facility provides for interest at LIBOR plus 200 basis points with a 3% floor. In addition, the credit facility provides for an unused facility fee of 15 basis points payable monthly. The line of credit facility contains certain covenants and at June 30, 2012, the Company was in compliance with all covenants. The Company has no outstanding borrowings at June 30, 2012.

Note 8 Loans Payable*Trust Preferred Offerings*

In 2003, American Safety Capital and American Safety Capital II, both non-consolidated, wholly-owned subsidiaries of the Company, issued \$8 million and \$5 million, respectively, of variable rate 30-year trust preferred securities. The securities require interest payments on a quarterly basis calculated at a floating rate of LIBOR + 4.2% and LIBOR + 3.95% for American Safety Capital and American Safety Capital II, respectively. The securities can be redeemed at the Company's option any time.

Table of Contents

In 2005, the American Safety Capital Trust III, a non-consolidated wholly-owned subsidiary of the Company, issued a 30-year trust preferred securities in the amount of \$25 million. The securities require interest payments of LIBOR + 3.4%. The securities may be redeemed at any time.

The balance of loans payable at June 30, 2012 was \$39.2 million.

Note 9 Variable Interest Entity

The Risk Retention Act of 1986 (the Risk Retention Act) allowed companies with specialized liability insurance needs that could not be met in the standard insurance market to create a new type of insurance vehicle called a risk retention group. We assisted in the formation of American Safety RRG in 1988 in order to establish a U.S. insurance company to market and underwrite specialty environmental coverages.

American Safety RRG is a variable interest entity (VIE) which is consolidated in our financial statements in accordance with ASC 810-10-5, as through the contractual relationships, the Company has the power to direct the activities of American Safety RRG that most significantly impact its economic performance and the right to receive benefits from American Safety RRG that could be significant to American Safety RRG. Due to these criteria being met, American Safety is the primary beneficiary of the variability of the underwriting profits of American Safety RRG. The liabilities of American Safety RRG consolidated by the Company do not represent additional claims on the Company s general assets; rather, they represent claims against the specific assets of American Safety RRG. Similarly, the assets of American Safety RRG consolidated by the Company do not represent additional assets available to satisfy claims against the Company s general assets.

The creditors of American Safety RRG do not have recourse to the Company for the obligations outside of obligations that exist due to contractual loss sharing or reinsurance arrangements that exist between American Safety RRG and other entities under common control in the ordinary course of the business. The equity of American Safety RRG is for the benefit of the policyholders and is considered a non-controlling interest in the shareholders equity section of the Company s Consolidated Balance Sheets. Should RRG incur net losses and the equity of RRG decline below regulatory minimum capital levels or result in a deficit, there is no legal obligation of the Company to fund those losses or contribute capital to the VIE. The profit and loss of the VIE increases or decreases the value of the non-controlling interest on the balance sheet of the Company and does not contribute to earnings or equity attributable to American Safety Insurance Holdings, Ltd.

Table of Contents

Assets and Liabilities of the VIE as consolidated in the Consolidated Balance Sheets (dollars in thousands):

	June 30, 2012	December 31, 2011
Investments	\$ 7,009	\$ 8,346
Cash and equivalents	1,302	2,268
Accrued investment income	44	45
Premiums receivable	826	629
Ceded unearned premiums	442	166
Reinsurance recoverables	1,256	3,055
Deferred policy acquisition costs	1,372	(454)
Deferred income tax	36	
Other assets	6,286	1,042
Total Assets	\$ 18,573	\$ 15,097
Unpaid losses and loss adjustment expenses	\$ 5,491	\$ 7,412
Unearned premium	5,430	623
Ceded premium(s) payable	901	296
Funds held	122	174
Total Liabilities	\$ 11,944	\$ 8,505

Note 10 Commitments and Contingencies

At June 30, 2012, the Company had aggregate outstanding irrevocable letters of credit which had not been drawn amounting to \$5.9 million. Those letters of credit included \$2.5 million for the benefit of the Vermont Department of Banking, Insurance, Securities and Health Care Administration, as well as \$2.5 million issued pursuant to a contingent payment obligation, and \$0.9 million issued to various other parties.

American Safety Reinsurance Ltd.(ASRe), our reinsurance subsidiary, provides reinsurance protection for risk retention groups, captives and insurance companies and may be required to provide letters of credit to collateralize a portion of the reinsurance protection. In the normal course of business they may provide letters of credit to the companies they reinsure. As of June 30, 2012, ASRe had \$68.3 million in letters of credit issued and outstanding.

Litigation Contingencies

Certain conditions may exist as of the date the financial statements are issued, which may result in a loss to the Company but which will only be resolved when one or more future events occur or fail to occur. The Company's management and its legal counsel assess such contingent liabilities, and such assessment inherently involves an exercise of judgment. In assessing loss contingencies related to legal proceedings that are pending against the Company or unasserted claims that may result in such proceedings, the Company's legal counsel evaluates the perceived merits of any legal proceedings or unasserted claims as well as the perceived merits of the amount of relief sought or expected to be sought therein.

If the assessment of a contingency indicates that it is probable that a material loss has been incurred and the amount of the liability can be estimated, then the estimated liability would be accrued in the Company's financial statements. If the assessment indicates that a potentially material loss contingency is not probable, but is reasonably possible, or is probable but cannot be estimated, then the nature of the contingent liability, together with an estimate of the range of possible loss if determinable and material, would be disclosed. Based on the information presently available, management does not believe that any pending or threatened litigation or arbitration disputes will have any material adverse effect on our financial condition or operating results.

Note 11 Accounting Pronouncements

In May 2011, the FASB issued ASU No. 2011-04, Fair Value Measurement (Topic 820): Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs (ASU 2011-04). This guidance resulted in a consistent definition of fair value and common requirements for measurement of and disclosure about fair value between GAAP and International Financial Reporting Standards. While many of the amendments to GAAP are not expected to have a significant effect on practice, this guidance changes some fair value measurement principles and disclosure requirements. ASU 2011-04 is applied prospectively. For public entities, this guidance is effective during the interim and annual periods beginning after December 15, 2011. The Company adopted ASU 2011-04 on January 1, 2012. See Note 6 for expanded disclosures.

In June 2011, the FASB issued ASU 2011-05 which provides new guidance on the presentation of comprehensive income. ASU 2011-05 eliminates the option to report other comprehensive income and its components in the statement of changes in stockholders' equity and instead requires an entity to present the total of comprehensive income, the components of net income and the components of other comprehensive income either in a single continuous statement or in two separate but consecutive statements. This guidance is effective for fiscal years, and interim periods within those years, beginning after December 15, 2011, with early adoption permitted. The adoption of this ASU did not have a significant impact on the Company's consolidated financial statements.

Note 12 Subsequent Events

On July 2, 2012, American Safety Holdings Corp., a wholly-owned subsidiary of the Registrant, completed the acquisition of 100% of the capital stock of Bluestone Agency, Inc., an Arizona corporation, and its wholly-owned subsidiary, Bluestone Surety, Ltd., an exempted company incorporated under the laws of the Cayman Islands. Accordingly, the financial results will be consolidated beginning July 1, 2012.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

We segregate our business into two segments: insurance operations and other. The insurance operations are further classified into three divisions: excess and surplus lines (E&S), alternative risk transfer (ART) and assumed reinsurance (Assumed Re). E&S consists of seven product lines: environmental, primary casualty, excess, property, surety, healthcare, and professional liability. ART consists of two product lines: specialty programs and fully funded. Assumed Re consists of property and casualty business assumed from unaffiliated specialty insurers and reinsurers. Other includes lines of business that we no longer underwrite (run-off) and other ancillary product lines. Prior year amounts have been reclassified to conform to the current year presentation.

Within E&S, our environmental insurance products provide general contractor pollution and/or professional liability coverage for contractors and consultants in the environmental remediation industry and property owners. Primary casualty provides general liability insurance for residential and commercial contractors as well as general liability and product liability for smaller manufacturers, distributors, non-habitational real estate and certain real property owner, landlord and tenant risks. Excess provides excess and umbrella liability coverages over our own and other carriers' primary casualty policies. Our property product encompasses surplus lines commercial property business and commercial multi-peril (CMP) policies. Surety provides payment and performance bonds primarily to the environmental remediation and construction industries. Healthcare provides customized liability insurance solutions primarily for long-term care facilities. Professional Liability provides miscellaneous liability and professional liability coverage on both a primary and excess basis. Professional liability coverage is provided to lawyers, insurance agents, and other businesses, while miscellaneous liability coverage is provided to private and not for profit entities and, to a lesser extent, public companies.

In our ART division, specialty programs provide insurance to homogeneous niche groups through third party program managers. Our specialty programs consist primarily of property and casualty insurance coverages for certain classes of specialty risks including, but not limited to, construction contractors, pest control operators, auto dealers, real estate brokers, consultants, and restaurant and tavern owners. Fully funded policies provide our insureds the ability to fund their liability exposure via a self-insurance vehicle for which we generate fee income.

We write fully funded general and professional liability for businesses operating primarily in the healthcare and construction industries.

Our Assumed Reinsurance division offers property and casualty reinsurance products in the form of treaty and facultative contracts targeting specialty insurers, risk retention groups and captives. We provide this coverage on an excess of loss and, to a lesser extent, a quota share basis. We reinsure casualty business, which includes medical malpractice, general liability, commercial auto, professional liability and workers compensation. The assumed reinsurance division also participates in one property catastrophe treaty that provides a maximum of \$20 million of coverage over the treaty period. The treaty covers world-wide property catastrophe losses including hurricanes and earthquakes.

Table of Contents

Our Other segment includes lines of business that we have placed in run-off, such as workers compensation, excess liability insurance for municipalities, other commercial lines, real estate and other ancillary product lines.

The reportable insurance divisions are measured based on underwriting profit (loss) and pre-tax operating income (loss). The following information is presented on the basis of accounting principles generally accepted in the United States of America (GAAP).

Table of Contents

The following table presents key financial data by segment for the three months ended June 30, 2012 and 2011, respectively (dollars in thousands):

** The U.S. GAAP combined ratio is a measure of underwriting performance and represents the relationship of losses and loss adjustment expenses, acquisition expenses, and other underwriting expenses net of fee income to earned premiums.

*** Reclassifications between divisions and segments were made to allocate indirect corporate overhead costs.

**** Excise taxes have been classified as corporate expenses resulting in a reclassification of expenses for prior year.

Table of Contents

Three Months Ended June 30, 2012, compared to

Three Months Ended June 30, 2011

Net Earnings

Net earnings attributable to ASIH were \$2.2 million, or \$0.21 per diluted share, for the three months ended June 30, 2012, compared to \$4.1 million, or \$0.38 per diluted share, for the same period of 2011. Net earnings for the quarter include \$3.0 million of after-tax net weather related property losses within the ART Division. During the three months ended June 30, 2011, after-tax net weather related property losses were \$3.4 million comprised of \$2.7 million in the ART Division with the remainder in the E&S Division.

Combined Ratio

Our underwriting results are measured by the combined ratio, which is the sum of (a) the ratio of incurred losses and loss adjustment expenses to net earned premiums (loss ratio), and, (b) the ratio of acquisition expenses and other underwriting expenses, net of fee income, to net earned premiums (expense ratio). A combined ratio below 100% indicates that an insurer has an underwriting profit, and a combined ratio above 100% indicates that an insurer has an underwriting loss.

The combined ratio of 107.1% consists of a loss ratio of 65.8% and an expense ratio of 41.3%, compared to 67.4% and 38.2%, respectively, for the same quarter of 2011. Net pre-tax weather related property losses in the 2012 quarter were \$3.6 million (or 5.8 points) compared to \$5.1 million (or 8.6 points) for the 2011 quarter. The \$3.6 million is comprised of \$5.1 million in property catastrophe losses, offset by a \$1.5 million reduction in current accident year non catastrophe property losses. The loss ratio for the E&S Division improved 1.3 points due to lower weather related property losses and the assumed reinsurance loss ratio improved 6.0 points due primarily to mix of business and certain non-renewed contracts. The loss ratio for the ART Division increased 8.1 points due primarily to higher loss ratio assumptions for current year business. The expense ratio increase was attributable to: (a) lower acquisition costs in 2011 due to the impact of weather related losses on profit commissions, (b) mix of business and (c) costs associated with growth initiatives.

Gross Written Premiums

Gross written premiums increased 5.6% to \$87.5 million from \$82.9 million for the three months ended June 30, 2012 and 2011, respectively. The growth in the E&S division to \$50.4 million from \$43.9 million was attributable to increased production across all product lines but driven primarily by our excess, surety and healthcare products. The growth in Assumed Reinsurance from \$15.0 million to \$15.6 million was a result of new business opportunities in targeted classes. The ART Division's gross written premium declined to \$21.5 million from \$23.9 million in 2011 due to the non-renewal of certain programs.

Net Earned Premiums

Net earned premiums increased 4.9% to \$62.0 million for the three months ended June 30, 2012, compared to \$59.2 million for the same period of 2011. Net earned premium growth resulted from increased gross written premium discussed above.

Net Investment Income

Net investment income is derived from the investment portfolio net of investment expenses. Net investment income was \$7.4 million for the three months ended June 30, 2012, compared to \$8.1 million for the same period of 2011. Invested assets increased to \$908.6 million at June 30, 2012, as compared to \$863.1 million for the same period of 2011. Investment income is down due to lower yields on the portfolio.

Table of Contents

Acquisition Expenses

Acquisition expenses are commissions paid to producers that are partially offset by ceding commissions or fronting fees. Acquisition expenses also include premium taxes paid to states in which we are admitted to conduct business. Policy acquisition expenses were \$14.3 million or 23.1% of earned premium for the three months ended June 30, 2012, as compared to \$13.2 million or 22.4% of earned premium for the same period of 2011. The percentage increase in acquisition costs is attributable to: (a) 2011 weather related property losses that reduced or eliminated profit commissions to producers, (b) mix of business in E&S and Assumed Reinsurance and (c) higher reinsurance costs in the E&S Division.

Other Underwriting Expenses

Other underwriting expenses were \$12.0 million for the three months ended June 30, 2012, compared to \$10.2 million for the same 2011 period. As a percentage of net earned premiums, other underwriting expenses increased to 19.4% from 17.2% for the same three months of 2011. Other underwriting expenses increased due to the acquisition of underwriting teams and technology investments placed in service during 2011.

Income Taxes

The income tax benefit for the three months ended June 30, 2012, was \$0.2 million compared to \$0.5 million for the same period of 2011. The benefit is due to the geographic mix of United States and Bermuda net earnings.

Table of Contents

The following table presents key financial data by segment for the six months ended June 30, 2012 and 2011, respectively (dollars in thousands):

Table of Contents

Six Months Ended June 30, 2012, compared to

Six Months Ended June 30, 2011

Net Earnings

Net earnings attributable to ASIH were \$6.2 million, or \$0.59 per diluted share, for the six months ended June 30, 2012, compared to \$12.0 million, or \$1.11 per diluted share, for the same period of 2011. The decline in net earnings was due to lower investment income, realized gains and fee income as compared to prior year. For the six months ended June 30, 2012, after-tax net weather related property losses were \$3.0 million and net realized gains were \$0.04 million. The 2011 earnings included \$11.3 million in realized gains from investments offset by \$8.4 million in after-tax net weather related property losses.

Combined Ratio

The combined ratio was 104.2% compared to 110.8%, composed of a loss ratio of 63.3% and an expense ratio of 40.9%, compared to 72.3% and 38.5%, respectively, in the prior year. The decrease in the loss ratio is primarily attributable to lower pre-tax weather related property losses that for the six months ended June 30, 2012, totaled \$3.6 million (or 2.9 points) compared to \$10.8 million (or 9.5 points) for the same period in 2011. The increase in the expense ratio is due to the same factors discussed in the quarter results.

Gross Written Premiums

Gross written premiums increased 2.6% to \$161.3 million from \$157.2 million for the six months ended June 30, 2012 and 2011, respectively. The growth in the E&S division to \$89.1 million from \$79.9 million was attributable to increased production across all product lines but driven primarily by our excess, surety and healthcare products. ART gross written premiums declined due to certain non-renewed programs during 2011 and are expected to decline throughout 2012. Assumed Reinsurance gross written premiums declined approximately \$2.0 million primarily due to the commutation of two treaties in 2012.

Net Earned Premiums

Net earned premiums increased 8.7% to \$123.4 million for the six months ended June 30, 2012, compared to \$113.5 million for the same period of 2011 as a result of increased gross written premiums during 2012 and 2011.

Net Investment Income

Net investment income is derived from the investment portfolio net of investment expenses. Net investment income was \$15.2 million for the six months ended June 30, 2012, compared to \$15.5 million for the same period of 2011 decreasing as a result of lower yields. Average invested assets increased to \$897.6 million at June 30, 2012, as compared to \$840.8 million for the same period of 2011. The pretax investment yield for the six months was 3.6% and 3.9% respectively for 2012 and 2011.

Acquisition Expenses

Acquisition expenses are commissions paid to producers that are partially offset by ceding commissions or fronting fees. Acquisition expenses also include premium taxes paid to states in which we are admitted to conduct business. Acquisition expenses were \$29.1 million or 23.6% of earned premium for the six months ended June 30, 2012, as compared to \$25.0 million or 22.0% of earned premium for the same period of 2011. The percentage increase in acquisition costs is attributable to: (a) 2011 weather related property losses reduced or eliminated profit commissions to producers, (b) mix of business in E&S and Assumed Reinsurance and (c) higher reinsurance costs in the E&S Division.

Table of Contents

Other Underwriting Expenses

Other underwriting expenses were \$22.8 million for the six months ended June 30, 2012, compared to \$20.4 million for the same 2011 period. As a percentage of net earned premiums, other underwriting expenses increased to 18.4% from 17.9% for the same six months of 2011 due to increased earned premiums without a corresponding increase to other underwriting expenses. Other underwriting expenses increased due to the acquisition of underwriting teams and technology investments placed in service during 2011.

Income Taxes

The income tax expense for the six months ended June 30, 2012, was \$0.9 million compared to \$0.6 million of benefit for the same period of 2011 due to the income (loss) generated in the U.S. and Bermuda.

Liquidity and Capital Resources

The Company meets its cash requirements and finances its growth principally through cash flows generated from operations. The Company has experienced a reduction in premium rates due to the entrance of new competitors and overall market conditions. The Company's primary sources of short-term cash flow are premium writings and investment income. Short-term cash requirements relate to claims payments, reinsurance premiums, commissions, salaries, employee benefits, and other operating expenses. Due to the uncertainty regarding the timing and amount of settlements of unpaid claims, the Company's future liquidity requirements may vary; therefore, the Company has structured its investment portfolio to mitigate those factors. The Company believes its current cash flows are sufficient for the short-term needs of its business and its invested assets are sufficient for the long-term needs of its insurance business.

The Company has a line of credit facility of \$20 million. The facility is unsecured and expires August 20, 2013. At June 30, 2012, the Company had not drawn on the facility.

Net cash provided by operations was \$13.7 million for the six months ended June 30, 2012, compared to net cash provided by operations of \$34.6 million for the same period of 2011. The reduction in net cash provided by operations was primarily due to paid losses of \$58.8 million compared to \$53.3 million in 2011 and collateral released in the E&S and ART divisions pursuant to contractual provisions.

On January 24, 2012, the Company's Board of Directors authorized the repurchase of up to 500,000 shares of common stock. Pursuant to this authorization, the Company has repurchased a total of 11,032 shares of common stock at a cost of approximately \$.2 million during 2012.

Our ability to pay future dividends to shareholders will depend, to a significant degree, on the ability of our subsidiaries to generate earnings from which to pay dividends. The jurisdictions in which we and our insurance and reinsurance subsidiaries are domiciled place limitations on the amount of dividends or other distributions payable by insurance companies in order to protect the solvency of insurers. Given the capital requirements associated with our business plan, we do not anticipate paying dividends on the common shares in the near future.

Table of Contents

Forward Looking Statements

This report contains forward-looking statements. These forward-looking statements reflect the Company's current views with respect to future events and financial performance, including insurance market conditions, premium growth, acquisitions and new products, and the impact of new accounting standards. Forward-looking statements involve risks and uncertainties which may cause actual results to differ materially, including competitive conditions in the insurance industry, levels of new and renewal insurance business, developments in loss trends, adequacy and changes in loss reserves and actuarial assumptions, timing or collectability of reinsurance recoverables, market acceptance of new coverages and enhancements, changes in reinsurance costs and availability, potential adverse decisions in court and arbitration proceedings, the integration and other challenges attendant to acquisitions, and changes in levels of general business activity and economic conditions.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

For an in-depth discussion of the Company's market risks, see Management's Discussion and Analysis of Quantitative and Qualitative Disclosures about Market Risk in Item 7A of the Company's Form 10-K for the year ended December 31, 2011.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

The Company's management, with the participation of the Company's Chief Executive Officer and Chief Financial Officer, after evaluating the effectiveness of the Company's disclosure controls and procedures (as defined in Exchange Act Rule 13a-15(e)) as of the end of the period covered by this Report, concluded that, as of such date, the Company's disclosure controls and procedures were adequate and effective to ensure that material information relating to the Company (including consolidated subsidiaries) would be made known to them.

Changes in Internal Control

There were no changes in the Company's internal control over financial reporting identified in connection with the evaluation described above that occurred during the Company's last fiscal quarter that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

Table of Contents

PART II OTHER INFORMATION

Item 1. Legal Proceedings

The Company, through its subsidiaries, is routinely party to pending or threatened litigation or arbitration disputes in the normal course of or related to its business. Based upon information presently available, in view of reserve practices and legal and other defenses available to our subsidiaries, management does not believe that any pending or threatened litigation or arbitration disputes will have any material adverse effect on our financial condition or operating results.

Item 1A. Risk Factors

For an in-depth discussion of risk factors affecting the Company, see Part I, Item 1A. "Risk Factors" of the Company's Form 10-K for the year ended December 31, 2011.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

None.

Item 3. Defaults Upon Senior Securities

Not applicable.
