Factors that could cause actual results to differ materially from the results anticipated or projected include, but are not limited to, the following: (i) risks that the Company s recently completed acquisition of The Private Bank of California (PBOC) may disrupt current plans and operations, the potential difficulties in customer and employee retention as a result of the transaction and the amount of the costs, fees, expenses and charges related to the transaction; (ii) a worsening of current economic conditions, as well as turmoil in the financial markets; (iii) the credit risks of lending activities, which may be affected by deterioration in real estate markets and the financial condition of borrowers, may lead to increased loan and lease delinquencies, losses and nonperforming assets in our loan and lease portfolio, and may result in our allowance for loan and lease losses not being adequate to cover actual losses and require us to materially increase our loan and lease loss reserves; (iv) the quality and composition of our securities portfolio; (v) changes in general economic conditions, either nationally or in our market areas; (vi) continuation of the historically low short-term interest rate environment, changes in the levels of general interest rates, and the relative differences between short- and long-term interest rates, deposit interest rates, our net interest margin and funding sources; (vii) fluctuations in the demand for loans and leases, the number of unsold homes and other properties and fluctuations in commercial and residential real estate values in our market area; (viii) results of examinations of us by regulatory authorities and the possibility that any such regulatory authority may, among other things, require us to increase our allowance for loan and lease losses, write-down asset values, increase our capital levels, or affect our ability to borrow funds or maintain or increase deposits, which could adversely affect our liquidity and earnings; (ix) legislative or regulatory changes that adversely affect our business, including changes in regulatory capital or other rules; (x) our ability to control operating costs and expenses; (xi) staffing fluctuations in response to product demand or the implementation of corporate strategies that affect our work force and potential associated charges; (xii) errors in our estimates in determining fair value of certain of our assets, which may result in significant declines in valuation; (xiii) the network and computer systems on which we depend could fail or experience a security breach; (xiv) our ability to attract and retain key members of our senior management team; (xv) costs and effects of litigation, including settlements and judgments; (xvi) increased competitive pressures among financial services companies; (xvii) changes in consumer spending, borrowing and saving habits; (xviii) adverse changes in the securities markets; (xix) earthquake, fire or other natural disasters affecting the condition of real estate collateral; (xx) the availability of resources to address changes in laws, rules or regulations or to respond to regulatory actions; (xxi) inability of key third-party providers to perform their obligations to us; (xxii) changes in accounting policies and practices, as may be adopted by the financial institution regulatory agencies or the Financial Accounting Standards Board or their application to our business, including additional guidance and interpretation on accounting issues and details of the implementation of new accounting methods; (xxiii) war or terrorist activities; and (xxiv) other economic, competitive, governmental, regulatory, and technological factors affecting our operations, pricing, products and services and the other risks described in this report and from time to time in other documents that we file with or furnish to the SEC, including, without limitation, the risks described under Item 1A. Risk Factors in our Annual Report on Form 10-K for the year ended December 31, 2012.
