Validus Holdings, Ltd.

Notes to the Consolidated Financial Statements (unaudited)

(Expressed in thousands of U.S. dollars, except share and per share information)

1. Basis of preparation and consolidation

These unaudited Consolidated Financial Statements (the “Consolidated Financial Statements”) have been prepared in accordance with accounting principles generally accepted in the United States of America (“U.S. GAAP”) for interim financial information and with the instructions to Form 10-Q and Article 10 in Regulation S-X. Accordingly, they do not include all of the information and footnotes required by U.S. GAAP for complete financial statements. In addition, the year-end balance sheet data was derived from audited financial statements but does not include all disclosures required by U.S. GAAP. This Quarterly Report on Form 10-Q should be read in conjunction with the financial statements and related notes included in Validus Holdings, Ltd.’s (the “Company”) Annual Report on Form 10-K for the year ended December 31, 2017, as filed with the U.S. Securities and Exchange Commission (the “SEC”).

During the fourth quarter of 2017, the Company changed its reportable segments to “Reinsurance,” “Insurance,” and “Asset Management.” The change in reportable segments and primary lines of business had no impact on the Company’s historical consolidated financial positions, results of operations or cash flows as previously reported. Where applicable, all prior periods presented have been reclassified to conform to this new presentation.

The Company consolidates in these Consolidated Financial Statements the results of operations and financial position of every voting interest entity (“VOE”) in which the Company has a controlling financial interest and variable interest entity (“VIE”) in which the Company is considered to be the primary beneficiary. The consolidation assessment, including the determination as to whether an entity qualifies as a VIE or VOE, depends on the facts and circumstances surrounding each entity.

In the opinion of management, these unaudited Consolidated Financial Statements reflect all adjustments (including normal recurring adjustments) considered necessary for a fair statement of the Company’s financial position and results of operations as at the end of and for the periods presented. All significant intercompany accounts and transactions have been eliminated. The results of operations for any interim period are not necessarily indicative of the results for a full year.

The preparation of these Consolidated Financial Statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. While the amounts included in the Consolidated Financial Statements reflect management’s best estimates and assumptions, actual results could differ from those estimates. The Company’s principal estimates include:

- the reserve for losses and loss expenses;
- the premium written on a line slip or proportional basis;
- the valuation of goodwill and intangible assets;
- the loss reserves recoverable, including the provision for uncollectible amounts; and
- the valuation of invested assets and other financial instruments.

The term “ASC” used in these notes refers to Accounting Standard Codification issued by the United States Financial Accounting Standards Board (the “FASB”).

2. Recent accounting pronouncements

There have been no accounting pronouncements issued or adopted during the quarter ended June 30, 2018 that warrant disclosure in the Consolidated Financial Statements.

3. Business combinations

American International Group, Inc. (“AIG”)

On July 18, 2018, the Company completed its previously announced definitive agreement and plan of merger (the “Merger Agreement”) with American International Group, Inc. (“AIG”) in accordance with Section 105 of the Bermuda Companies Act 1981. Pursuant to the Merger Agreement the Company merged with an existing AIG subsidiary in accordance with the Bermuda Companies Act 1981 (the “Merger”), with the Company continuing as the surviving corporation and as a wholly-owned subsidiary of AIG.

Pursuant to the Merger Agreement, each issued and outstanding common share, par value \$0.175 per common share, of the Company, other than shares that were owned by the Company as treasury shares, owned by a subsidiary of the Company, owned by AIG or any of its subsidiaries or that were subject to any Company Award (as defined in the Merger Agreement), were converted into the right to receive \$68.00 in cash, without interest and subject to any applicable tax withholdings. Each of the Company’s issued and outstanding Series A and Series B Preferred Shares remains issued and outstanding, and continues to be listed on the NYSE and registered under the Exchange Act. Also on July 18, 2018, in connection with the consummation of the Merger, the Company notified the New York Stock Exchange (“NYSE”) of the completion of the Merger and requested that trading in the Common Shares be withdrawn from listing on the NYSE. The NYSE filed a notification of removal from listing on Form 25 with the Securities and Exchange Commission (“SEC”) with respect to the Common Shares to report the delisting of the Common Shares from the NYSE and to suspend trading of the Common Shares on the NYSE prior to the opening of trading on July 18, 2018.

On July 26, 2018 the Company filed with the SEC a certificate of notice of termination on Form 15 with respect to its Common Shares, requesting that the Common Shares be deregistered under the Securities Exchange Act of 1934, as amended (the “Exchange Act”), and that the reporting obligations of the Company with respect to the Common Shares under Sections 13 and 15(d) of the Exchange Act be suspended.

Crop Risk Services (“CRS”)

On May 1, 2017, Western World, a wholly-owned subsidiary of the Company acquired all of the outstanding capital stock of CRS for an aggregate purchase price of \$185,576 in cash. CRS is a primary crop insurance managing general agent (“MGA”) based in Decatur, Illinois with 1,170 agents across 36 states. CRS does not have insurance licenses of its own, but acts solely as an MGA in that it can produce business for any properly licensed entity on a commission basis. Concurrent with closing of the transaction, Stratford, a wholly-owned subsidiary of Western World, was granted the required licenses to write crop insurance in the United States and executed several agreements to transfer the related agriculture book of business to Stratford.

The CRS acquisition was undertaken to expand the Company’s presence in U.S. primary specialty lines.

For segmental reporting purposes, the results of CRS’ operations, including the related agricultural book of business have been included within the Insurance segment in the Consolidated Financial Statements from the date of acquisition.

For further information regarding the acquisition of CRS please refer to Note 5, “Business combinations,” included within the Company’s Annual Report on Form 10-K for the year ended December 31, 2017.

Other investments include investments in various funds and pooled investment schemes. These alternative investments employ various investment strategies primarily involving, but not limited to, investments in collateralized obligations, fixed income securities, private equities, distressed debt and equity securities. Certain debt-like investments totaling \$196,379 (December 31, 2017: \$186,734) are either rated or consist of underlying securities or instruments which carry credit ratings issued by nationally recognized statistical rating organizations. Other equity-like investments totaling \$169,805 (December 31, 2017: \$168,484) are unrated given the nature of their underlying assets, such as private equity investments, and as such do not carry credit ratings.

Certain securities included in other investments are subject to redemption restrictions. Distributions from these funds will be received as the underlying investments of the funds are liquidated. Currently, it is not known by the Company when these underlying assets will be sold by their investment managers; however, it is estimated that the majority of the underlying assets of the investments will liquidate over five to ten-year periods from inception of the funds. Furthermore, the underlying investments held in the overseas deposit funds are liquid and will generally trade freely in an open market. However, the Company's ability to withdraw from the overseas deposit funds is restricted by annual and quarterly funding and release processes for Lloyd's market participants.

The Company's maximum exposure to any of these alternative investments is limited to the invested amounts and any remaining capital commitments. Refer to Note 15, "Commitments and contingencies," for further details. As at June 30, 2018, the Company does not have any plans to sell any of the other investments listed above.

(c) Investments in investment affiliates

Included in the Company's managed investment portfolio as at June 30, 2018 are investments in Aquiline Financial Services Fund II L.P. ("Aquiline II"), Aquiline Financial Services Fund III L.P. ("Aquiline III"), Aquiline Technology Growth Fund L.P. ("Aquiline Tech") and Aquiline Armour Co-Invest L.P. ("Aquiline Armour") (collectively the "Aquiline partnerships").

For further information regarding the Company's Aquiline partnerships refer to Note 7(c), "Investments in investment affiliates," included within the Company's Annual Report on Form 10-K for the year ended December 31, 2017.

The following table presents a reconciliation of the Company's beginning and ending investments in investment affiliates for three and six months ended June 30, 2018 and 2017:

(f) Pledged investments and cash

As at June 30, 2018, the Company had \$6,310,851 (December 31, 2017: \$5,853,744) of cash and cash equivalents, restricted cash, short-term investments and fixed maturity investments that were pledged during the normal course of business. Of those, \$6,282,368 were held in trust (December 31, 2017: \$5,789,081). Pledged assets are generally for the benefit of the Company's cedants and policyholders, to support AlphaCat's fully collateralized reinsurance transactions, as collateral for derivative instruments and to facilitate the accreditation of Validus Reinsurance, Ltd. ("Validus Re"), Validus Reinsurance (Switzerland) Ltd. ("Validus Re Swiss") and Lloyd's Syndicate 1183 (the "Talbot Syndicate") as alien (re)insurers by certain regulators.

In addition, the Company has pledged cash and investments as collateral under the Company's credit facilities in the amount of \$539,627 (December 31, 2017: \$576,864). For further details on the credit facilities, refer to Note 13 "Debt and financing arrangements."

5. Fair value measurements

(a) Classification within the fair value hierarchy

Fair value is defined as the price to sell an asset or transfer a liability in an orderly transaction between market participants. Under U.S. GAAP, a company must determine the appropriate level in the fair value hierarchy for each fair value measurement. The fair value hierarchy prioritizes the inputs, which refer broadly to assumptions market participants would use in pricing an asset or liability, into three levels. It gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities and the lowest priority to unobservable inputs. The level in the fair value hierarchy within which a fair value measurement in its entirety falls is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

The three levels of the fair value hierarchy are described below:

Level 1 - Fair values are measured based on unadjusted quoted prices in active markets for identical assets or liabilities that we have the ability to access.

Level 2 - Fair values are measured based on quoted prices in active markets for similar assets or liabilities, quoted prices for identical assets or liabilities in inactive markets, or for which significant inputs are observable (e.g., interest rates, yield curves, prepayment speeds, default rates, loss severities, etc.) or can be corroborated by observable market data.

Level 3 - Fair values are measured based on unobservable inputs that reflect the Company's own judgments about assumptions where there is little, if any, market activity for that asset or liability that market participants might use. The availability of observable inputs can vary from financial instrument to financial instrument and is affected by a wide variety of factors including, for example, the type of financial instrument, whether the financial instrument is new and not yet established in the marketplace, and other characteristics particular to the instrument. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires significantly more judgment.

Accordingly, the degree of judgment exercised by management in determining fair value is greatest for instruments categorized in Level 3. In periods of market dislocation, the observability of prices and inputs may be reduced for many instruments. This may lead the Company to change the selection of the valuation technique (for example, from market to cash flow approach) or to use multiple valuation techniques to estimate the fair value of a financial instrument. These circumstances could cause an instrument to be reclassified between levels within the fair value hierarchy.

In accordance with ASC Topic 820 "Fair Value Measurements," investments measured at fair value using the net (a) asset value ("NAV") per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy.

(b) In accordance with ASC Topic 825 "Financial Instruments," the Company's investments in investment affiliates have not been classified in the fair value hierarchy.

At June 30, 2018, managed Level 3 investments totaled \$345,808 (December 31, 2017: \$331,282), representing 5.7% (December 31, 2017: 5.2%) of total managed investments.

(b) Valuation techniques

There have been no material changes in the Company's valuation techniques during the periods presented in these Consolidated Financial Statements. The following methods and assumptions were used in estimating the fair value of each class of financial instrument recorded in the Consolidated Balance Sheets.

Fixed maturity investments

In general, valuation of the Company's fixed maturity investment portfolio is provided by pricing services, such as index providers and pricing vendors, as well as broker quotations. The pricing vendors provide valuations for a high volume of liquid securities that are actively traded. For securities that do not trade on an exchange, the pricing services generally utilize market data and other observable inputs in matrix pricing models to determine month end prices. Prices are generally verified using third party data. Index providers generally utilize centralized trade reporting networks, available market makers and statistical techniques.

In general, broker-dealers value securities through their trading desks based on observable inputs. The methodologies include mapping securities based on trade data, bids or offers, observed spreads, and performance on newly issued securities. Broker-dealers also determine valuations by observing secondary trading of similar securities. Prices obtained from broker quotations are considered non-binding, however they are based on observable inputs and by observing secondary trading of similar securities obtained from active, non-distressed markets. The Company considers these valuations to be Level 2 inputs as they are corroborated with other market observable inputs. The techniques generally used to determine the fair value of the Company's fixed maturity investments are detailed below by asset class.

U.S. government and government agency

U.S. government and government agency securities consist primarily of debt securities issued by the U.S. Treasury and mortgage pass-through agencies such as the Federal National Mortgage Association, the Federal Home Loan Mortgage Corporation and the Government National Mortgage Association. Fixed maturity investments included in U.S. government and government agency securities are primarily priced by pricing services. When evaluating these securities, the pricing services gather information from market sources and integrate other observations from markets and sector news. Evaluations are updated by obtaining broker dealer quotes and other market information including actual trade volumes, when available. The fair value of each security is individually computed using analytical models which incorporate option adjusted spreads and other daily interest rate data. As the significant inputs used to price these securities are observable, the fair values of these investments are classified as Level 2.

Non-U.S. government and government agency

Non-U.S. government and government agency securities consist of debt securities issued by non-U.S. governments and their agencies along with supranational organizations (also known as sovereign debt securities). Securities held in these sectors are primarily priced by pricing services that employ proprietary discounted cash flow models to value the securities. Key quantitative inputs for these models are daily observed benchmark curves for treasury, swap and high issuance credits. The pricing services then apply a credit spread for each security which is developed by in-depth and real time market analysis. For securities in which trade volume is low, the pricing services utilize data from more frequently traded securities with similar attributes. These models may also be supplemented by daily market and credit research for international markets. As the significant inputs used to price these securities are observable, the fair values of these investments are classified as Level 2.

U.S. states, municipalities and political subdivisions

The Company's U.S. states, municipalities and political subdivisions portfolio contains debt securities issued by U.S. domiciled state and municipal entities. These securities are generally priced by independent pricing services using the techniques described for U.S. government and government agency securities described above. As the significant inputs used to price these securities are observable, the fair values of these investments are classified as Level 2.

Agency residential mortgage-backed securities

The Company's agency residential mortgage-backed investments are primarily priced by pricing services using a mortgage pool specific model which utilizes daily inputs from the active to be announced market which is very liquid, as well as the U.S. treasury market. The model also utilizes additional information, such as the weighted average maturity, weighted average coupon and other available pool level data which is provided by the sponsoring agency. Valuations are also corroborated with daily active market quotes. As the significant inputs used to price these securities are observable, the fair values of these investments are classified as Level 2.

(Expressed in thousands of U.S. dollars, except share and per share information)

Non-agency residential mortgage-backed securities

The Company's non-agency mortgage-backed investments include non-agency prime residential mortgage-backed fixed maturity investments. The Company holds no sub-prime fixed maturity investments in its fixed maturity investments portfolio. Securities held in these sectors are primarily priced by pricing services using an option adjusted spread model or other relevant models, which principally utilize inputs including benchmark yields, available trade information or broker quotes, and issuer spreads. The pricing services also review collateral prepayment speeds, loss severity and delinquencies among other collateral performance indicators for the securities valuation, when applicable. As the significant inputs used to price these securities are observable, the fair values of these investments are classified as Level 2.

U.S. corporate

U.S. corporate debt securities consist primarily of investment-grade debt of a wide variety of U.S. corporate issuers and industries. The Company's corporate fixed maturity investments are primarily priced by pricing services. When evaluating these securities, the pricing services gather information from market sources regarding the issuer of the security and obtain credit data, as well as other observations, from markets and sector news. Evaluations are updated by obtaining broker dealer quotes and other market information including actual trade volumes, when available. The pricing services also consider the specific terms and conditions of the securities, including any specific features which may influence risk. In certain instances, securities are individually evaluated using a spread which is added to the U.S. treasury curve or a security specific swap curve as appropriate. As the significant inputs used to price these securities are observable, the fair values of these investments are classified as Level 2.

Non-U.S. corporate

Non-U.S. corporate debt securities consist primarily of investment-grade debt of a wide variety of non-U.S. corporate issuers and industries. The Company's non-U.S. corporate fixed maturity investments are primarily priced by pricing services. When evaluating these securities, the pricing services gather information from market sources regarding the issuer of the security and obtain credit data, as well as other observations, from markets and sector news. Evaluations are updated by obtaining broker dealer quotes and other market information including actual trade volumes, when available. The pricing services also consider the specific terms and conditions of the securities, including any specific features which may influence risk. As the significant inputs used to price these securities are observable, the fair values of these investments are classified as Level 2.

Bank loans

The Company's bank loan investments consist primarily of below-investment-grade debt of a wide variety of corporate issuers and industries. The Company's bank loans are primarily priced by pricing services. When evaluating these securities, the pricing services gather information from market sources regarding the issuer of the security and obtain credit data, as well as other observations, from markets and sector news. Evaluations are updated by obtaining broker dealer quotes and other market information including actual trade volumes, when available. The pricing services also consider the specific terms and conditions of the securities, including any specific features which may influence risk. As the significant inputs used to price these securities are observable, the fair values of these investments are classified as Level 2.

Also, included in the bank loan portfolio is a collection of loan participations held through an intermediary. A third party pricing service provides monthly valuation reports for each loan and participation using a combination of quotations from loan pricing services, leveraged loan indices or market price quotes obtained directly from the intermediary. Significant unobservable inputs used to price these securities include credit spreads and default rates; therefore, the fair values of these investments are classified as Level 3.

Asset-backed securities

Asset backed securities include mostly investment-grade debt securities backed by pools of loans with a variety of underlying collateral, including automobile loan receivables, student loans, credit card receivables, and collateralized loan obligations originated by a variety of financial institutions. Securities held in these sectors are primarily priced by

pricing services. The pricing services apply dealer quotes and other available trade information such as bids and offers, prepayment speeds which may be adjusted for the underlying collateral or current price data, the U.S. treasury curve and swap curve as well as cash settlement. The pricing services determine the expected cash flows for each security held in this sector using historical prepayment and default projections for the underlying collateral and current market data. In addition, a spread is applied to the relevant benchmark and used to discount the cash flows noted above to determine the fair values of the securities held in this sector. As the significant inputs used to price these securities are observable, the fair value of these investments are classified as Level 2. Where pricing is unavailable from pricing services, we obtain non-binding quotes from broker-dealers. This is generally the case when there is a low volume of trading activity

and current transactions are not orderly. Broker-dealer quotes for which significant observable inputs are unable to be corroborated with market observable information are classified as Level 3.

Commercial mortgage-backed securities

Commercial mortgage backed securities are investment-grade debt primarily priced by pricing services. The pricing services apply dealer quotes and other available trade information such as bids and offers, prepayment speeds which may be adjusted for the underlying collateral or current price data, the U.S. treasury curve and swap curve as well as cash settlement. The pricing services determine the expected cash flows for each security held in this sector using historical prepayment and default projections for the underlying collateral and current market data. In addition, a spread is applied to the relevant benchmark and used to discount the cash flows noted above to determine the fair value of the securities held in this sector. As the significant inputs used to price these securities are observable, the fair values of these investments are classified as Level 2.

Catastrophe bonds

Catastrophe bonds are priced based on broker or underwriter bid indications. Level 2 catastrophe bonds are those traded over-the-counter; catastrophe bonds available only via private issuances are classified as Level 3.

Short-term investments

Short-term investments consist primarily of highly liquid securities, all with maturities of less than one year from the date of purchase. The fair value of the portfolio is generally determined using amortized cost which approximates fair value. As the highly liquid money market-type funds are actively traded, the fair value of these investments are classified as Level 1. To the extent that the remaining securities are not actively traded due to their approaching maturity, the fair values of these investments are classified as Level 2.

Other investments

Hedge funds

The hedge fund's administrator provides quarterly NAVs with a three month delay in valuation. The fair value of this investment is measured using the NAV practical expedient and therefore has not been categorized within the fair value hierarchy.

Private equity investments

The private equity funds provide quarterly or semi-annual partnership capital statements with a three or six month delay which are used as a basis for valuation. These private equity investments vary in investment strategies and are not actively traded in any open markets. The fair value of these investments are measured using the NAV practical expedient and therefore have not been categorized within the fair value hierarchy.

Fixed income investment funds

The Company's investment funds classified as Level 2 consist of a pooled investment fund. The pooled investment is invested in fixed income securities with high credit ratings and is available only to Lloyd's Trust Fund participants. The fair value of units in the investment fund is based on the NAV of the fund, which is traded on a daily basis. Included in investment funds is a residual equity tranche of a structured credit fund valued using a dynamic yield that calculates an income accrual based on an underlying valuation model with a typical cash flow waterfall structure. Significant unobservable inputs used to price this fund include default rates and prepayment rates; therefore, the fair value of the investment fund is classified as Level 3.

The fair value of the Company's remaining investment funds is based on the NAV of the fund as reported by the independent fund administrator. The fund's administrators provide a monthly reported NAV with a one or three month delay in their valuation. The fair value of these investments is measured using the NAV practical expedient and therefore it has not been categorized within the fair value hierarchy.

None of these investments are probable of being sold at amounts different than their NAVs.

Overseas deposits

The Company's share of a portfolio of Lloyd's overseas deposits is managed centrally by Lloyd's and invested according to local regulatory requirements. The composition of the portfolio varies and the deposits are made across the market. The fair values of the deposits are based on the portfolio level reporting that is provided by Lloyd's. The fair values of these investments are measured using the NAV practical expedient and therefore have not been categorized within the fair value hierarchy.

There were no transfers into or out of Level 3 during the three and six months ended June 30, 2018 or 2017.

(d) Financial instruments not carried at fair value

ASC Topic 825 “Financial Instruments” is also applicable to disclosures of financial instruments not carried at fair value, except for certain financial instruments, including insurance contracts and investments in affiliates. The carrying values of accrued investment income, other assets, net payable for investments purchased and accounts payable and accrued expenses approximated their fair values at June 30, 2018, due to their respective short maturities. As these financial instruments are not actively traded, their respective fair values are classified within Level 2.

6. Variable interest entities

The Company consolidates all VIEs in which it is considered to be the primary beneficiary. The Company’s VIEs are primarily entities in the AlphaCat segment.

(a) Consolidated VIEs

AlphaCat sidecars

Beginning on May 25, 2011, the Company joined with other investors in capitalizing a series of reinsurance and investment entities, referred to as “sidecars,” for the purpose of investing in collateralized reinsurance and retrocessional contracts. Certain of these sidecars deployed their capital through transactions entered into by AlphaCat Reinsurance Ltd. (“AlphaCat Re”). Each of these entities returns capital once the risk period expires and all losses have been paid out. The AlphaCat sidecars are VIEs and are consolidated by the Company. The Company’s maximum exposure to any of these sidecars is the amount of capital invested at any given time.

AlphaCat ILS funds

The AlphaCat ILS funds received third party subscriptions beginning on December 17, 2012. The Company and third party investors invest in the AlphaCat ILS funds for the purpose of investing in instruments with returns linked to property catastrophe reinsurance, retrocession and ILS contracts. The AlphaCat ILS funds have varying risk profiles and are categorized by the maximum permitted portfolio expected loss of the fund. The permitted portfolio expected loss represents the average annual loss over the set of simulation scenarios divided by the total limit. Lower risk ILS funds are defined as having a maximum permitted portfolio expected loss of less than 7%, whereas higher risk ILS funds have a maximum permitted portfolio expected loss of 7% or greater. The AlphaCat ILS funds primarily deploy their capital through transactions entered into by AlphaCat Re and AlphaCat Master Fund Ltd. (“AlphaCat Master Fund”). All of the AlphaCat ILS funds are VIEs and were consolidated by the Company through May 31, 2017. However, on June 1, 2017, the Company redeemed its investment in one of the lower risk AlphaCat ILS funds. As a result, the Company was no longer deemed to be the primary beneficiary and therefore this fund was deconsolidated effective June 1, 2017.

The Company’s maximum exposure to any of the AlphaCat ILS funds is the amount of capital invested at any given time and any remaining capital commitments.

AlphaCat Re and AlphaCat Master Fund

The Company utilizes AlphaCat Re and AlphaCat Master Fund (collectively the “Master Funds”), both market facing entities, for the purpose of writing collateralized reinsurance and investing in capital markets products, respectively, on behalf of certain entities within the Asset Management segment and direct third party investors. AlphaCat Re enters into transactions on behalf of the AlphaCat sidecars and ILS funds (collectively the “Feeder Funds”) and direct third party investors, whereas AlphaCat Master Fund only enters into transactions on behalf of certain AlphaCat ILS funds. All of the risks and rewards of the underlying transactions are allocated to the Feeder Funds and direct third party investors using variable funding notes. The Master Funds are VIEs and are consolidated by the Company.

Notes Payable to AlphaCat Investors

The Master Funds issue variable funding notes to the Feeder Funds, and direct to third party investors, in order to write collateralized reinsurance and invest in capital markets products on their behalf. The Company’s investments in the Feeder Funds, together with investments made by third parties in the Feeder Funds and on a direct basis, are provided as consideration for the notes to the Master Funds. The duration of the underlying collateralized reinsurance contracts and capital market products is typically twelve months; however, the variable funding notes do not have a stated maturity date since repayment is dependent on the settlement and income or loss of the underlying transactions. Therefore, the notes are redeemed as the underlying transactions are settled. The income or loss generated by the underlying transactions is then transferred to the Feeder Funds and direct third party investors via the variable funding notes.

Any notes issued by the Master Funds to the consolidated Feeder Funds are eliminated on consolidation and only variable funding notes issued by AlphaCat Re directly to third party investors and non-consolidated Feeder Funds remain on the Consolidated Balance Sheets as notes payable to AlphaCat investors with the related income or loss included in the Consolidated Statements of (Loss) Income and Comprehensive (Loss) Income as (income) attributable to AlphaCat investors. To the extent that the income has not been returned to the investors, it is included in accounts payable and accrued expenses in the Consolidated Balance Sheets.

One of the AlphaCat ILS funds (the “Fund”) issued both common shares and structured notes to the Company and third party investors in order to capitalize the fund. The Fund deploys its capital through AlphaCat Re; therefore, the structured notes do not have a stated maturity date since repayment is dependent on the settlement and income or loss of the variable funding notes with AlphaCat Re. The structured notes rank senior to the common shares of the Fund and earn an interest rate of 6.5% (2017: 7%) per annum, payable on a cumulative basis in arrears.

As the Fund is consolidated by the Company, the structured notes issued to the Company are eliminated on consolidation and only the structured notes issued to third party investors remain on the Consolidated Balance Sheets as notes payable to AlphaCat investors, with any related interest included in the Consolidated Statements of (Loss) Income and Comprehensive (Loss) Income as (income) attributable to AlphaCat investors. To the extent that the accrued interest on the structured notes has not been returned to the investors, it is included in accounts payable and accrued expenses in the Consolidated Balance Sheets.

BetaCat ILS funds

The BetaCat ILS funds follow a passive buy-and-hold investment strategy, investing exclusively in catastrophe bonds (principal-at-risk variable rate notes and other event-linked securities, referred to collectively as “Cat Bonds”) focused on property and casualty risks and issued under Rule 144A of the Securities Act of 1933, as amended. Two of the three BetaCat ILS funds are VIEs, one of which is consolidated by the Company. The remaining fund is a VOE and is consolidated by the Company as it owns all of the fund’s voting equity interests. The Company’s maximum exposure to any of the funds is the amount of capital invested at any given time.

The following table presents the total assets and total liabilities of the Company’s consolidated VIEs, excluding intercompany eliminations, as at June 30, 2018 and December 31, 2017:

	June 30, 2018		December 31, 2017	
	Total	Total	Total	Total

BetaCat ILS funds	89,161	210	77,221	261

Assets of consolidated VIEs can only be used to settle obligations and liabilities of the consolidated VIEs and do not have recourse to the general credit of the Company. Investments held by these entities are presented separately in Note 4, “Investments,” as non-managed investments.

(b) Non-Consolidated VIEs

The Company invests in private equity and other investment vehicles as part of the Company’s investment portfolio. The activities of these VIEs are generally limited to holding investments and the Company’s involvement in these entities is passive in nature. The Company’s maximum exposure to the VIEs is the amount of capital invested at any given time, and the Company does not have the power to direct the activities which most significantly impact the VIEs economic performance. The Company is therefore not the primary beneficiary of these VIEs. Refer to Note 4, “Investments,” for further details.

7. Noncontrolling interests

Investors in certain of the AlphaCat and BetaCat ILS funds have rights that enable them, subject to certain limitations, to redeem their shares. Such investments held by third parties are therefore recorded in the Company's Consolidated Balance Sheets as redeemable noncontrolling interests, a mezzanine item between liabilities and shareholders' equity. If and when a redemption notice is received, the fair value of the redemption is reclassified to accounts payable and accrued expenses.

The AlphaCat sidecars and one of the AlphaCat ILS funds have no shareholder redemption rights. Therefore, the third party equity is recorded in the Company's Consolidated Balance Sheets as noncontrolling interests.

The following tables present a reconciliation of the beginning and ending balances of redeemable noncontrolling interests and noncontrolling interests for the three and six months ended June 30, 2018 and 2017:

	Redeemable Noncontrolling Interests		Noncontrolling Interests		Total

8. Derivative instruments

The Company enters into various derivative instruments in the form of foreign currency forward exchange contracts, interest rate swap contracts and weather derivative instruments. These derivative instruments are used to manage exposures to currency and interest rate risks, to enhance the efficiency of the Company's investment portfolio and to provide protection against cedants' financial exposure to variability in weather patterns. All of the Company's outstanding derivative financial instruments are recognized in the Consolidated Balance Sheets at their fair values. The effect on earnings from recognizing the fair values of these derivative financial instruments depends on each instrument's intended use, hedge designation, and effectiveness in offsetting the exposure it is intended to hedge.

(a) Derivatives not designated as hedging instruments

The following tables summarize information on the classification and amount of the fair value of derivatives not designated as hedging instruments within the Company's Consolidated Balance Sheets as at June 30, 2018 and December 31, 2017:

	June 30, 2018			December 31, 2017		
	Notional Exposure	Asset	Liability	Notional Exposure	Asset	Liability

Interest rate swap contracts	\$200,000	\$ 10,306	\$ —	\$200,000	\$ 1,589	\$ —
Weather derivative contracts	\$4,825	\$ 8,380	\$ —	\$4,825	\$ 853	\$ —

(a) Asset and liability derivative positions are classified within other assets and accounts payable and accrued expenses, respectively, within the Company's Consolidated Balance Sheets.

The foreign currency forward contracts and interest rate swap contracts are valued on the basis of standard industry valuation models. The inputs to these models are based on observable market inputs, and as such the fair values of these contracts are classified as Level 2. The weather derivative contracts are valued on the basis of modeled and other information provided by Validus' counterparties. Validus reviews this information, which represents Level 3 inputs, as it is ultimately management's responsibility to ensure that the fair values reflected in the Company's financial statements are appropriate.

The following table summarizes information on the classification and net impact on earnings recognized in the Company's Consolidated Statements of (Loss) Income and Comprehensive (Loss) Income relating to derivatives that were not designated as hedging instruments during the three and six months ended June 30, 2018 and 2017:

(b) Derivatives designated as hedging instruments

Derivative instruments designated as cash flow hedges

During 2012 and 2013, the Company entered into several swap agreements with third parties in order to convert the floating interest rates associated with its Junior Subordinated Deferrable Debentures into fixed rates. See Note 13, "Debt and financing arrangements," for further details. The Company also designates certain foreign exchange contracts as cash flow hedges of anticipated foreign currency-denominated sales or purchases.

There was no balance sheet offsetting activity as at June 30, 2018 or December 31, 2017.

The Company provides investments as collateral for interest rate swap contracts and weather derivative contracts. The Company does not provide collateral or financial instruments as security for foreign currency forward contracts. Our derivative instruments are generally traded under International Swaps and Derivatives Association master agreements, which establish terms that apply to all transactions. On a periodic basis, the amounts receivable from or payable to the counterparties are settled in cash.

The Company has not elected to settle multiple transactions with an individual counterparty on a net basis.

(a) Credit risk

The cession of reinsurance does not legally discharge the Company from its primary liability for the full amount of the (re)insurance policies it writes, and the Company is required to pay the loss and bear collection risk regarding reinsurers' obligations under reinsurance and retrocession agreements. Validus records provisions for uncollectible reinsurance recoverable when collection becomes unlikely due to the reinsurer's inability to pay.

To the extent the creditworthiness of the Company's reinsurers were to deteriorate due to adverse events affecting the reinsurance industry, such as a large number of major catastrophes, actual uncollectible amounts could be significantly greater than the Company's provision. Amounts recoverable from reinsurers are estimated in a manner consistent with the underlying loss reserves.

The Company evaluates the financial condition of its reinsurers and monitors concentration of credit risk arising from its exposure to individual reinsurers. The reinsurance program is generally placed with reinsurers whose rating, at the time of placement, is A- or better as rated by Standard & Poor's or the equivalent with other rating agencies. Exposure to a single reinsurer is also controlled with restrictions dependent on rating. As at June 30, 2018, \$1,033,890 or 99.1% (December 31, 2017: \$1,270,503 or 99.2%) of the Company's reinsurance balances recoverable were either fully collateralized or recoverable from reinsurers rated A- or better.

Information regarding the Company's concentration of credit risk arising from its exposure to individual reinsurers as at June 30, 2018 and December 31, 2017 is as follows:

12. Stock plans

(a) Long Term Incentive Plan

The Company's Amended and Restated 2005 Long Term Incentive Plan ("LTIP") provided for grants to employees of options, stock appreciation rights ("SARs"), restricted shares, restricted share units, performance shares, dividend equivalents or other share-based awards. As at June 30, 2018, the total number of shares reserved for issuance under the LTIP were 2,753,292, of which 479,086 shares were remaining. The LTIP was administered by the Compensation Committee of the Board of Directors. No SARs were granted. The grant date fair value of each award was established at the fair market value of the Company's common shares at the date of grant.

(i) Options

The Company did not grant any stock option awards after September 4, 2009. These stock option awards were fully amortized as at December 31, 2012, and the final options outstanding were exercised during the year ended December 31, 2017.

While outstanding, the Company's options could be exercised for voting common shares upon vesting and had a term of ten years. The fair value of the option awards at the date of grant was determined using the Black-Scholes option-pricing model. Expected volatility was based on the stock price volatility of comparable publicly-traded companies. The Company used the simplified method consistent with U.S. GAAP authoritative guidance on stock compensation expenses to estimate expected lives for options granted during the period.

Activity with respect to options for the six months ended June 30, 2017 was as follows:

	Options	Weighted Average Grant Date Fair Value	Weighted Average Grant Date Exercise Price
Options outstanding, beginning and end of period	26,136	\$ 6.78	\$ 23.48

(ii) Restricted share awards

Restricted shares granted under the LTIP vested either pro rata or 100% at the end of the required service period and contained certain restrictions during the vesting period, relating to, among other things, forfeiture in the event of termination of employment, and transferability. The Company recognized share compensation expenses in respect of restricted share awards during the three and six months ended June 30, 2018 of \$7,190 (2017: \$9,745) and \$15,303 (2017: \$18,789), respectively. The expenses represent the proportionate accrual of the fair value of each grant based on the remaining vesting period.

Activity with respect to unvested restricted share awards for the six months ended June 30, 2018 and 2017 was as follows:

	Six Months Ended June 30,			
	2018		2017	
	Restricted Share Awards	Weighted Average Grant Date Fair Value	Restricted Share Awards	Weighted Average Grant Date Fair Value
Restricted share awards outstanding, beginning of period	2,080,397	\$ 43.66	2,469,982	\$ 40.89
Restricted share awards granted	1,552	67.64	481,619	53.42

Restricted share awards outstanding, end of period	743,190	\$ 49.92	2,108,220	\$ 43.58

At June 30, 2018, there were \$33,551 (December 31, 2017: \$48,907) of total unrecognized share compensation expenses in respect of restricted share awards that are expected to be recognized over a weighted-average period of 2.1 years (December 31, 2017: 2.3 years).

(iii) Restricted share units

Restricted share units under the LTIP vested either ratably or 100% at the end of the required service period and contain certain restrictions during the vesting period, relating to, among other things, forfeiture in the event of termination of employment, and transferability. The Company recognized share compensation expenses in respect of restricted share units during the three and six months ended June 30, 2018 of \$284 (2017: \$327) and \$616 (2017: \$642), respectively. The expenses represent the proportionate accrual of the fair value of each grant based on the remaining vesting period.

Activity with respect to unvested restricted share units for the six months ended June 30, 2018 and 2017 was as follows:

	Six Months Ended June 30,			
	2018		2017	
	Restricted Share Units	Weighted Average Grant Date Fair Value	Restricted Share Units	Weighted Average Grant Date Fair Value
Restricted share units outstanding, beginning of period	109,394	\$ 42.20	112,808	\$ 40.95

Restricted share units vested	(81,139)	39.27	(18,241)	41.66
Restricted share units issued in lieu of cash dividends	2,105	42.25	1,468	40.98
Restricted share units forfeited	(17)	44.63	—	—
Restricted share units outstanding, end of period	30,343	\$ 50.04	108,271	\$ 42.24

At June 30, 2018, there were \$1,319 (December 31, 2017: \$1,909) of total unrecognized share compensation expenses in respect of restricted share units that are expected to be recognized over a weighted-average period of 2.3 years (December 31, 2017: 2.4 years).

(iv) Performance share awards

Performance share awards vested three years after the grant date, with the grant date fair value of each share awarded recognized evenly over this period. The number of performance shares initially granted was adjusted via “conversion adjustments” to reflect the compounded growth in the Dividend-Adjusted Book Value per Diluted Share over the three years as determined by the Company’s Compensation Committee. The cumulative compensation expense recognized and unrecognized as at any reporting period date represented the adjusted estimate of performance shares that would ultimately be awarded, valued at their original grant date fair values.

The Company recognized share compensation expenses in respect of performance share awards during the three and six months ended June 30, 2018 of \$8,566 (2017: \$1,074) and \$9,850 (2017: \$1,206), respectively. The share compensation expenses represent the proportionate accrual of the fair value of each grant based on the remaining vesting period.

15. Commitments and contingencies

(a) Funds at Lloyd's

The Company operates in Lloyd's through a corporate member, Talbot 2002 Underwriting Capital Ltd ("T02"), which is the sole participant in Lloyd's Syndicate 1183 (the "Talbot Syndicate"). Lloyd's sets T02's Economic Capital Assessment ("ECA") annually based on the Talbot Syndicate's business plan, rating environment and reserving environment together with input arising from Lloyd's discussions with regulatory and rating agencies, and other parties. This ECA is satisfied by syndicate net assets determined on a basis consistent with Solvency II, an EU directive covering capital adequacy, risk management and regulatory reporting for insurers. Any syndicate net liabilities on a Solvency II basis are required to be funded in addition to the ECA. Such additional funds, known as Funds at Lloyd's ("FAL"), comprises cash and investments. The Company provided FAL in the amount of \$661,600 during the fourth quarter of 2017 (2016: \$583,600).

The amounts which are provided as FAL are not available for distribution to the Company for the payment of dividends. T02 may also be required to maintain funds under the control of Lloyd's in excess of its capital requirement and such funds also may not be available for distribution to the Company for the payment of dividends.

(b) Lloyd's Central Fund

Whenever a member of Lloyd's is unable to pay its debts to policyholders, such debts may be payable by the Lloyd's Central Fund. If Lloyd's determines that the Central Fund needs to be increased, it has the power to assess premium levies on current Lloyd's members up to 3% of a member's underwriting capacity in any one year. The Company does not believe that any assessment is likely in the foreseeable future and has not provided any allowance for such an assessment. However, based on the Company's 2018 estimated premium income at Lloyd's of £650,000, at June 30, 2018 using an exchange rate of £1 equals \$1.32 and assuming the maximum 3% assessment, the Company would be assessed approximately \$25,740 (December 31, 2017: \$26,325).

(c) Unfunded investment commitments

As at June 30, 2018 and December 31, 2017, the Company had total unfunded investment commitments related to the following:

	Unfunded investment commitments	
	June 30, 2018	December 31, 2017
Fixed maturity investments ^(a)	\$26,477	\$ 22,082
Other investments ^(b)	83,894	86,697
Investments in investment affiliates ^(c)	95,788	125,996
Total unfunded investment commitments	\$206,159	\$ 234,775

(a) The Company has an outstanding commitment to participate in certain secured loan facilities through participation agreements with an established loan originator.

(b) The Company's total capital commitments related to other investments as at June 30, 2018 was \$268,000 (December 31, 2017: \$268,000).

(c) Refer to Note 4(c), "Investments in investment affiliates."

16. Related party transactions

Additional information related to the Company's investments in Aquiline II, III, Tech and Armour is disclosed in Note 4(c), "Investments in investment affiliates." The Company had, as of June 30, 2018 and December 31, 2017, investments in Aquiline II, III, Tech and Armour with a total value of \$127,247 and \$100,137 and outstanding unfunded commitments of \$95,788 and \$125,996, respectively. For the three and six months ended June 30, 2018, the Company incurred \$3,767 and \$3,899 (2017: \$130 and \$486), respectively, in partnership fees associated with these investments.

(b) Other

Certain shareholders of the Company and their affiliates, as well as employees of entities associated with directors and officers may have purchased insurance and/or reinsurance from the Company in the ordinary course of business. The Company does not believe these transactions to be material.

17. Earnings per common share

The following table sets forth the computation of basic (loss) earnings per common share and (loss) earnings per diluted common share available to Validus common shareholders for the three and six months ended June 30, 2018 and 2017:

	Three Months Ended June 30,		Six Months Ended June 30,

Basic (loss) earnings per common share				
Net (loss) income (attributable) available to Validus common shareholders	(52,898)	101,095	(56,976)	195,656
Weighted average number of common shares outstanding	79,650,474	79,270,561	79,488,081	79,202,116
Basic (loss) earnings per share (attributable) available to Validus common shareholders	\$(0.66)	\$ 1.28	\$(0.72)	\$ 2.47
(Loss) earnings per diluted common share				
Net (loss) income (attributable) available to Validus common shareholders	\$(52,898)	\$ 101,095	\$(56,976)	\$ 195,656
Weighted average number of common shares outstanding	79,650,474	79,270,561	79,488,081	79,202,116
Share equivalents:				
Stock options	—	14,739	—	15,059
Unvested restricted shares	—	1,587,151	—	1,644,823
Weighted average number of diluted common shares outstanding	79,650,474	80,872,451	79,488,081	80,861,998
(Loss) earnings per diluted common share (attributable) available to Validus common shareholders	\$(0.66)	\$ 1.25	\$(0.72)	\$ 2.42

Earnings per diluted common share assumes the exercise of all dilutive stock options and restricted stock grants. Due to the net loss incurred during the three and six months ended June 30, 2018, share equivalents were not included in the computation of loss per diluted share due to their anti-dilutive effect. Share equivalents that would result in the issuance of common shares of 412,603 and 207,054 were outstanding for the three and six months ended June 30, 2017, respectively, but were not included in the computation of earnings per diluted share because the effect would be anti-dilutive.

Specialty - Other: casualty and financial lines of business.

Insurance Segment

The Insurance segment operates globally and focuses on specialty insurance within both the Lloyd’s and the U.S. commercial insurance markets and is focused on a wide range of insurance products within the following lines and classes of business:

Property: direct property and downstream energy and power;

Specialty - Short-tail: accident & health, agriculture, aviation, contingency, marine, and political lines (including war and political violence); and

Specialty - Other: financial, liability (including general liability, professional liability, products liability and miscellaneous malpractice), marine and energy, political risk and products and airports.

Asset Management Segment

The Asset Management segment leverages the Company’s underwriting and analytical expertise and earns management and performance fees primarily through the management of ILS funds and sidecars.

Corporate and Investments

The Company’s Corporate and Investments function, which includes the activities of the parent company, carries out certain functions for the group, including investment management. Corporate and Investments includes investment income on a managed basis and other non-segment expenses, predominantly general and administrative, stock compensation, finance and transaction expenses. Transaction expenses are primarily composed of legal and financial advisory services incurred in connection with the Company’s Merger with AIG in 2018, and the acquisition of CRS in 2017. Corporate and Investments also includes the activities of certain key executives such as the Chief Executive Officer and Chief Financial Officer. For reporting purposes, Corporate and Investments is reflected separately; however, it is not considered a reportable segment under these circumstances. Other reconciling items include, but are not limited to, the elimination of certain inter segment revenues and expenses and other items that are not allocated to the reportable segments.

19. Subsequent events

On July 18, 2018, the Company completed its previously announced Merger with AIG. Refer to Note 3, “Business combinations,” for further details.

On July 26, 2018, AIG executed a guarantee (the “Preference Shares Guarantee”) with respect to the Series A Preferred Shares and the Series B Preferred Shares of the Company. Under the terms of the Preference Shares Guarantee, AIG provided a full and unconditional guarantee of the Company’s obligations under the certificates of designation governing the Series A Preferred Shares and the Series B Preferred Shares, as applicable. Additionally on July 26, 2018, AIG executed a guarantee with respect to the Company’s aggregate outstanding 8.875% Senior Notes due 2040, pursuant to which AIG provided a full and unconditional guarantee of the Company’s obligations under the related indentures.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following is a discussion and analysis of the Company's consolidated results of operations for the three and six months ended June 30, 2018 and 2017 and the Company's consolidated financial condition, liquidity and capital resources as at June 30, 2018 and December 31, 2017. This discussion and analysis should be read in conjunction with the Company's unaudited Consolidated Financial Statements and notes thereto included in this filing and the Company's audited Consolidated Financial Statements and related notes for the fiscal year ended December 31, 2017, the discussions of critical accounting policies and the qualitative and quantitative disclosure about market risk, as well as management's discussion and analysis of financial condition and results of operations contained in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2017.

For a number of reasons, the Company's historical financial results may not accurately indicate future performance. See "Cautionary Note Regarding Forward-Looking Statements." The Risk Factors set forth in Part I, Item 1A of the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2017 present a discussion of important factors that could cause actual results to differ materially from the results described in or implied by the forward-looking statements contained herein.

Executive Overview

During the fourth quarter of 2017, we changed our reportable segments to “Reinsurance,” “Insurance,” and “Asset Management.” Furthermore, to better align our disclosures with our current strategy, we also changed our primary lines of business to “Property,” “Specialty - Short-tail” and “Specialty - Other.” The change in reportable segments and primary lines of business had no impact on our historical consolidated financial positions, results of operations or cash flows as previously reported. Where applicable, all prior periods presented have been reclassified to conform to this new presentation.

In addition, we have a corporate and investments function (“Corporate and Investments”), which includes the activities of the parent company, and which carries out certain functions for the group, including investment management. Corporate and Investments includes investment income on a managed basis and other non-segment expenses, predominantly general and administrative, stock compensation, finance and transaction expenses. Corporate and Investments also includes the activities of certain key executives such as the Chief Executive Officer and Chief Financial Officer. For reporting purposes, Corporate and Investments is reflected separately; however, it is not considered a reportable segment. Our corporate expenses, capital servicing and debt costs and investment results are presented separately within the Corporate and Investments discussion.

Our strategy is to concentrate primarily on short-tail risks, which has been an area where management believes prices and terms provide an attractive risk-adjusted return and the management team has proven expertise. Our profitability in any given period is a function of net earned premium and investment revenues, less net losses and loss expenses, acquisition expenses and operating expenses. Financial results in the (re)insurance industry are influenced by the frequency and/or severity of claims and losses, including as a result of catastrophic events; changes in interest rates, financial markets and general economic conditions; the supply of (re)insurance capacity and changes in legal, regulatory and judicial environments.

Merger Agreement

On July 18, 2018, we completed the Merger Agreement with AIG. Pursuant to the Merger Agreement, the Company merged with an existing AIG subsidiary in accordance with the Bermuda Companies Act 1981 (the “Merger”), with the Company continuing as the surviving corporation and as a wholly-owned subsidiary of AIG.

Pursuant to the Merger Agreement, each issued and outstanding common share, par value \$0.175 per common share, of the Company, other than shares that were owned by the Company as treasury shares, owned by a subsidiary of the Company, owned by AIG or any of its subsidiaries or that were subject to any Company Award (as defined in the Merger Agreement), were converted into the right to receive \$68.00 in cash, without interest and subject to any applicable tax withholdings. Each of the Company’s issued and outstanding Series A and Series B Preferred Shares remains issued and outstanding, and continues to be listed on the NYSE and registered under the Exchange Act.

Also on July 18, 2018, the Company notified the NYSE of the completion of the Merger and requested that trading in the Common Shares be withdrawn from listing on the NYSE. The NYSE filed a notification of removal from listing on Form 25 with the SEC with respect to the Common Shares to report the delisting of the Common Shares from the NYSE and to suspend trading of the Common Shares on the NYSE prior to the opening of trading on July 18, 2018.

On July 26, 2018 the Company filed with the SEC a certificate of notice of termination on Form 15 with respect to its Common Shares, requesting that the Common Shares be deregistered under the Exchange Act, and that the reporting obligations of the Company with respect to the Common Shares under Sections 13 and 15(d) of the Exchange Act be suspended.

Also on July 26, 2018, AIG executed a guarantee (the “Preference Shares Guarantee”) with respect to the Series A Preferred Shares and the Series B Preferred Shares of the Company. Under the terms of the Preference Shares Guarantee, AIG provided a full and unconditional guarantee of the Company’s obligations under the certificates of designation governing the Series A Preferred Shares and the Series B Preferred Shares, as applicable. Additionally on July 26, 2018, AIG executed a guarantee with respect to the Company’s aggregate outstanding 8.875% Senior Notes due 2040, pursuant to which AIG provided a full and unconditional guarantee of the Company’s obligations under the related indentures.

Business Outlook and Trends

We underwrite global property (re)insurance and have large aggregate exposures to natural and man-made disasters. The occurrence of claims from catastrophic events results in substantial volatility, and can have material adverse effects on the Company's financial condition and results and its ability to write new business. This volatility affects results for the period in which the loss occurs because U.S. GAAP does not permit (re)insurers to reserve for such catastrophic events until they occur. Catastrophic events of significant magnitude historically have been relatively infrequent, although management believes the property catastrophe reinsurance market has experienced a higher level of worldwide catastrophic losses in terms of both frequency and severity in the period from 1992 to the present. We also expect that increases in the values and concentrations of insured property will increase the severity of such occurrences in the future. The Company seeks to reflect these types of trends when pricing contracts.

Table of Contents

Property and other reinsurance premiums have historically risen in the aftermath of significant catastrophic losses. As loss reserves are established, industry surplus is depleted and the industry's capacity to write new business diminishes. The global property and casualty (re)insurance industry has historically been highly cyclical. Since 2007, increased capital and the relative infrequency of significant catastrophic events resulted in a softening of rates on most lines. From 2010 to 2012, there was an increased level of catastrophe activity, principally the Chilean earthquake, Deepwater Horizon, the Tohoku earthquake, the New Zealand earthquakes and Superstorm Sandy; however, the impact of these events in the aggregate were not severe enough to increase rates. As such, the Company continued to see increased competition and decreased premium rates in most classes of business. Following the significant catastrophic events of 2017 - Hurricanes Harvey, Irma and Maria and the Northern and Southern California Wildfires - the Company has seen rate increases across certain loss affected classes, some of which are noted in the renewal commentary below.

During the Reinsurance and Asset Management segments' mid year 2018 renewal periods, the Company maintained its strategic position across all major markets with terms and conditions across the market remaining generally unchanged. The U.S. property markets saw a continuation of the rate trends observed at the January 1 renewals where rate increases were in the low single-digits with higher increases on loss impacted business.

Business written by the Insurance segment is distributed evenly throughout the year. Through June 30, 2018, the Insurance segment experienced a whole account rate increase of 6.9% on business written through the Talbot Syndicate, primarily driven by rate increases on loss impacted accounts in the property and specialty - other classes, and a whole account rate increase of 5.4% on business written through Western World, primarily driven by increases in the property classes.

Non-GAAP Financial Measures

In presenting the Company's results, management has included and discussed certain non-GAAP financial measures. The Company believes that these non-GAAP measures, which may be defined and calculated differently by other companies, better explain and enhance the understanding of the Company's results of operations. However, these measures should not be viewed as a substitute for those determined in accordance with U.S. GAAP.

Book value financial indicators

In addition to presenting book value per common share determined in accordance with U.S. GAAP, the Company believes that the key financial indicator for evaluating our performance and measuring the overall growth in value generated for shareholders is book value per diluted common share plus accumulated dividends, a non-GAAP financial measure.

The following tables present reconciliations of book value per common share to book value per diluted common share plus accumulated dividends and other non-GAAP book value financial indicators:

	June 30, 2018

Book value per diluted common share ^(c)			\$ 42.71
Accumulated dividends			13.08
Book value per diluted common share plus accumulated dividends ^(c)			\$ 55.79

(a) Per share amounts are calculated by dividing the equity amount by the common shares.

(b) The equity amount used in the calculation of book value per common share represents total shareholders' equity available to Validus excluding the liquidation value of the preferred shares.

(c) Non-GAAP financial measure.

Book value per common share, a GAAP financial measure, decreased by \$1.72, or 3.9%, from \$44.06 at December 31, 2017 to \$42.34 at June 30, 2018.

Book value per diluted common share plus accumulated dividends, a non-GAAP financial measure, is considered by management to be the key financial indicator of performance, as the Company believes growth in book value on a diluted basis, plus the dividends that have accumulated, ultimately translates into the return that a shareholder will receive. Book value per diluted common share plus accumulated dividends decreased by \$0.22, or 0.4%, from \$55.79 at December 31, 2017 to \$55.57 at June 30, 2018. Cash dividends per common share are an integral part of the value created for shareholders. During the six months ended June 30, 2018, the Company paid cash dividends of \$0.76 (2017: \$0.76) per common share.

Book value per diluted common share, a non-GAAP financial measure, is considered by management to be a measure of returns to common shareholders, as the Company believes growth in book value on a diluted basis ultimately translates into growth in stock price. Book value per diluted common share after dividends paid decreased by \$0.98, or 2.3%, from \$42.71 at December 31, 2017 to \$41.73 at June 30, 2018.

The change in book value per diluted common share inclusive of dividends paid was (0.5)% and 5.0% for the six months ended June 30, 2018 and 2017, respectively.

Tangible book value per diluted common share, a non-GAAP financial measure, is considered by management to be a measure of returns to common shareholders excluding goodwill and other intangible assets, as the Company believes growth in tangible book value on a diluted basis ultimately translates into growth in the tangible value of the Company. Tangible book value per diluted common share decreased by \$0.93, or 2.5%, from \$37.81 at December 31, 2017 to \$36.88 at June 30, 2018.

Other financial indicators

In addition to presenting net (loss) income (attributable) available to Validus common shareholders determined in accordance with U.S. GAAP, the Company believes that showing net operating (loss) income (attributable) available to Validus common shareholders, a non-GAAP financial measure, provides investors with a valuable measure of profitability and enables investors, analysts, rating agencies and other users of its financial information to more easily analyze the Company's results in a manner similar to how management analyzes the Company's underlying business performance.

Net operating (loss) income (attributable) available to Validus common shareholders is calculated by the addition or subtraction of certain Consolidated Statement of (Loss) Income and Comprehensive (Loss) Income line items from net (loss) income (attributable) available to Validus common shareholders, the most directly comparable GAAP financial measure, as illustrated in the table below:

	Three Months Ended June		Six Months Ended June 30,

Annualized net operating return on average equity ^(b)	(3.8 %)	9.3 %	1.1 %	8.8 %

(a) Represents the tax expense or benefit associated with the specific country to which the pre-tax adjustment relates to. The tax impact is estimated by applying the statutory rates of applicable jurisdictions, after consideration of other relevant factors including the ability to utilize tax losses carried forward.

(b) Non-GAAP financial measure.

(c) Average shareholders' equity for the three months ended is the average of the beginning and ending quarter end shareholders' equity balances, excluding the liquidation value of the preferred shares. Average shareholders' equity for the six months ended is the average of the beginning, ending and intervening quarter end shareholders' equity balances, excluding the liquidation value of the preferred shares.

Highlights for the second quarter 2018 were as follows:

Gross premiums written for the three months ended June 30, 2018 were \$847.2 million compared to \$792.9 million for the three months ended June 30, 2017, an increase of \$54.3 million, or 6.8% driven by increases in the Reinsurance and Insurance segments.

Reinsurance premiums ceded for the three months ended June 30, 2018 were \$107.6 million compared to \$56.2 million for the three months ended June 30, 2017, an increase of \$51.3 million, or 91.3% primarily driven by an increase in the Insurance segment.

Net premiums earned for the three months ended June 30, 2018 were \$736.6 million compared to \$631.0 million for the three months ended June 30, 2017, an increase of \$105.6 million, or 16.7%. The increase was primarily driven by an increase in the Asset Management and Insurance segments and was partially offset by a decrease in the Reinsurance segment.

Losses and loss expenses for the three months ended June 30, 2018 were \$476.6 million compared to \$296.1 million for the three months ended June 30, 2017, an increase of \$180.5 million or 60.9% and included the following:

Notable and Non-notable Loss Events

The Company defines a notable loss event as an event whereby consolidated net losses and loss expenses aggregate to a threshold greater than or equal to \$30.0 million. The Company defines a non-notable loss event as an event whereby consolidated net losses and loss expenses aggregate to a threshold greater than or equal to \$15.0 million but less than \$30.0 million.

Notable Loss Events

There were no notable loss events occurring during the three months ended June 30, 2018 or 2017.

Non-notable Loss Events

Losses and loss expenses incurred during the three months ended June 30, 2018 from the Papua New Guinea Earthquake non-notable loss event were \$16.4 million, or 2.2 percentage points of the loss ratio.

There were no non-notable loss events occurring during the three months ended June 30, 2017, however during the three months ended June 30, 2017, the Company increased its loss estimate on a first quarter 2017 energy non-notable loss event by \$7.6 million, or 1.2 percentage points of the loss ratio.

Attritional losses

Attritional losses of \$472.8 million, or 64.2 percentage points of the loss ratio during the three months ended June 30, 2018 compared to \$331.9 million, or 52.6 percentage points of the loss ratio during the three months ended June 30, 2017. The increase in the attritional loss ratio was primarily driven by a higher frequency of low severity events which did not meet the non-notable loss threshold.

Change in prior accident years

Loss reserve development for the three months ended June 30, 2018 and 2017 was as follows:

(Dollars in thousands)	Three Months Ended	
	2018	2017
(Favorable) development on event losses	\$(3,507)	\$(5,069)
(Favorable) development on attritional losses	(9,064)	(38,221)
Change in prior accident years	\$(12,571)	\$(43,290)

The favorable development during the three months ended June 30, 2018 and 2017 was primarily driven by favorable development on attritional losses in the Reinsurance segment.

Table of Contents

The decrease was primarily driven by the non-renewal of one significant agriculture contract and was partially offset by new composite business written; and

Specialty - other premiums of \$182.4 million during the six months ended June 30, 2018, compared to \$101.8 million during the six months ended June 30, 2017, an increase of \$80.6 million, or 79.2%, primarily driven by new casualty business written.

Reinsurance premiums ceded for the six months ended June 30, 2018 were \$206.6 million compared to \$124.7 million for the six months ended June 30, 2017, an increase of \$81.8 million, or 65.6%. The increase was primarily driven by an increase in the property lines of \$47.5 million as a result of new aggregate and proportional covers purchased and an increase in the specialty - other lines of \$29.0 million as a result of a new casualty retrocession cover.

Net premiums earned for the six months ended June 30, 2018 were \$462.3 million compared to \$490.0 million for the six months ended June 30, 2017, a decrease of \$27.7 million, or 5.7%. The decrease is primarily driven by the earning of new reinsurance covers purchased during the first quarter of 2018 noted above, and during the fourth quarter of 2017.

Losses and loss expenses for the six months ended June 30, 2018 were \$220.8 million compared to \$195.2 million for the six months ended June 30, 2017, an increase of \$25.6 million or 13.1% and included the following:

Notable Loss Events

There were no notable loss events occurring during the six months ended June 30, 2018 or 2017.

Non-notable Loss Events

Losses and loss expenses incurred during the six months ended June 30, 2018 from the Papua New Guinea Earthquake non-notable loss event were \$5.0 million, or 1.1 percentage points of the loss ratio and related to the property and specialty - short-tail lines.

Losses and loss expenses incurred from a single energy non-notable loss event during the six months ended June 30, 2017 were \$10.9 million, or 2.2 percentage points of the loss ratio and related primarily to the specialty - short-tail lines.

Attritional losses

Attritional losses of \$248.5 million, or 53.8 percentage points of the loss ratio during the six months ended June 30, 2018 compared to \$231.2 million, or 47.2 percentage points of the loss ratio during the six months ended June 30, 2017. The increase in the attritional loss ratio was primarily due to \$10.0 million of losses from Winter Storm Friederike which did not meet the non-notable loss threshold and the earned impact of higher retrocession purchases as noted above.

The increase was primarily driven by rate improvements on existing business and the continued build out of product offerings in the U.S. short-tail property lines;

Specialty - short-tail premiums of \$656.3 million during the six months ended June 30, 2018, compared to \$307.4 million during the six months ended June 30, 2017, an increase of \$348.9 million, or 113.5%. The increase was primarily driven by new agriculture business written through CRS; and

Specialty - other premiums of \$284.5 million during the six months ended June 30, 2018, compared to \$238.0 million during the six months ended June 30, 2017, an increase of \$46.5 million, or 19.5%, primarily driven by increased participation on renewals and the build out of product offerings in U.S. liability lines.

Reinsurance premiums ceded for the six months ended June 30, 2018 were \$273.5 million compared to \$128.3 million for the six months ended June 30, 2017, an increase of \$145.2 million, or 113.2%. The increase was primarily driven by an increase in the specialty - short-tail lines of \$93.4 million driven by ceded agriculture premiums relating to new business written through CRS and an increase in the specialty - other lines of \$30.6 million as a result of the continued build out of U.S. liability lines as noted above.

Net premiums earned for the six months ended June 30, 2018 were \$699.3 million compared to \$584.0 million for the six months ended June 30, 2017, an increase of \$115.4 million, or 19.8%. The increase was primarily due to agriculture net premiums earned relating to new business written through CRS.

Losses and loss expenses for the six months ended June 30, 2018 were \$526.2 million compared to \$367.4 million for the six months ended June 30, 2017, an increase of \$158.9 million or 43.3% and included the following:

Notable Loss Events

There were no notable loss events occurring during the six months ended June 30, 2018 or 2017.

Non-notable Loss Events

Losses and loss expenses incurred during the six months ended June 30, 2018 from the Papua New Guinea Earthquake non-notable loss event were \$11.4 million, or 1.6 percentage points of the loss ratio and related to the property and specialty - short-tail lines.

Losses and loss expenses incurred from a single energy non-notable loss event during the six months ended June 30, 2017 were \$16.5 million, or 2.8 percentage points of the loss ratio and related solely to the property lines.

Attritional losses

Attritional losses of \$525.4 million, or 75.1 percentage points of the loss ratio during the six months ended June 30, 2018 compared to \$401.3 million, or 68.7 percentage points of the loss ratio during the six months ended June 30, 2017. The increase in the attritional loss ratio was primarily driven by a higher frequency of low severity events which did not meet the non-notable loss threshold.

The decrease was primarily driven by a higher allocation of costs to reporting segments during the six months ended June 30, 2018.

Share compensation expenses for the six months ended June 30, 2018 were \$11.8 million compared to \$8.0 million for the six months ended June 30, 2017, an increase of \$3.8 million, or 47.0%. The increase was driven by an increase in the performance share award conversion ratio.

Finance expenses for the six months ended June 30, 2018 were \$28.3 million compared to \$28.0 million for the six months ended June 30, 2017, an increase of \$0.3 million, or 1.2%.

Dividends on preferred shares for the six months ended June 30, 2018 were \$11.7 million compared to \$4.4 million for the six months ended June 30, 2017, an increase of \$7.3 million, or 164.5%. The increase was due to the issuance of \$250.0 million of new Series B preferred shares during the second quarter of 2017.

Tax (benefit) for the six months ended June 30, 2018 was \$(14.0) million compared to \$(4.7) million for the six months ended June 30, 2017.

Foreign exchange (losses) for the six months ended June 30, 2018 were \$(1.7) million compared to \$(6.2) million for the six months ended June 30, 2017, a decrease of \$4.6 million.

Transaction expenses for the six months ended June 30, 2018 were \$11.6 million compared to \$4.4 million for the six months ended June 30, 2017 and were composed of legal and financial advisory services in relation to the Company's Merger with AIG and its acquisition of CRS during the second quarter of 2018 and 2017, respectively.

Investments

Managed investments represent assets governed by the Company's Investment Policy Statement ("IPS") whereas, non-managed investments represent assets held in support of consolidated AlphaCat VIEs which are not governed by the Company's IPS. Refer to Note 6, "Variable interest entities," to the Consolidated Financial Statements in Part I, Item 1 for further details.

The fair value of the Company's investments, cash and cash equivalents and restricted cash as at June 30, 2018 and December 31, 2017 was as follows:

(a) The Company's investments in investment affiliates have been treated as equity method investments with the corresponding gains and losses recorded in income as "Income from investment affiliates."

As at June 30, 2018, the Company's managed cash and investment portfolio totaled \$6.9 billion (December 31, 2017: \$7.1 billion). Refer to Note 4 to the Consolidated Financial Statements, "Investments," in Part I, Item 1 for further details related to the Company's managed investments.

A significant portion of (re)insurance contracts written by the Company provide short-tail reinsurance coverage for losses resulting mainly from natural and man-made catastrophes, which could result in payment of a substantial amount of losses at short notice. Accordingly, the Company's investment portfolio is primarily structured to provide liquidity, which means the investment portfolio contains a significant amount of relatively short-term fixed maturity investments. The Company's IPS specifically requires certain minimum thresholds of cash, short-term investments, and highly-rated fixed maturity securities relative to our consolidated net reserves and estimates of probable maximum loss exposures at the 1 in 100 year threshold to provide necessary liquidity in a wide range of reasonable scenarios. As such, the Company structures its managed cash and investment portfolio to support policyholder reserves and contingent risk exposures with a liquid portfolio of high quality fixed-income investments with a comparable duration

profile.

The Company's IPS requires managed investments to have an average duration in the range of 0.75 years to 3.25 years. At June 30, 2018, the average duration of the Company's managed investment portfolio was 2.17 years (December 31, 2017: 2.17 years). This duration is reviewed regularly based on changes in the duration of the Company's liabilities and general market conditions.

The Company's IPS also requires certain minimum credit quality standards for its managed fixed maturity portfolio, including a minimum weighted average portfolio rating of A+ for securities with ratings. Further limits on asset classes and security types are

85

Table of Contents

also mandated. In addition, the Company stress-tests the downside risks within its asset portfolio using internal and external inputs and stochastic modeling processes to help define and limit asset risks to acceptable levels that are consistent with our overall ERM framework. At June 30, 2018, the Company's rated managed fixed maturity portfolio had an average credit quality rating of A+ (December 31, 2017: AA-). Refer to Note 4(a) to the Consolidated Financial Statements, "Investments," in Part I, Item 1 for further details related to the investment ratings of the Company's fixed maturity portfolio.

The value of the Company's managed fixed maturity portfolio will fluctuate with, among other factors, changes in the interest rate environment and in overall economic conditions. Additionally, the structure of the Company's overall managed investment portfolio exposes the Company to other risks, including insolvency or reduced credit quality of corporate debt securities, prepayment, default and structural risks on asset-backed securities, mortgage-backed securities and bank loans and liquidity risks on certain other investments, including hedge funds, fixed income investment funds and private equity investments. For further details on market risks, refer to Item 7A, "Quantitative and Qualitative Disclosures About Market Risk" in the Company's Annual Report on Form 10-K for the year ended December 31, 2017.

As part of the ongoing risk management process, the Company monitors the aggregation of country or jurisdiction risk exposure. Jurisdiction risk exposure is the risk that events within a jurisdiction, such as currency crises, regulatory changes and other political events, will adversely affect the ability of obligors within the jurisdiction to honor their obligations. The following tables provide a breakdown of the fair value of jurisdiction risk exposures outside the United States within the Company's managed fixed maturity portfolio:

Reserve for Losses and Loss Expenses

At June 30, 2018 and December 31, 2017, gross and net reserves for losses and loss expenses were estimated using the methodology as outlined in Part II, Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations - Critical Accounting Policies and Estimates" in the Company's Annual Report on Form 10-K for the year ended December 31, 2017.

The following tables indicate the breakdown of gross and net reserves for losses and loss expenses between lines of business and between case reserves and IBNR.

For the six months ended June 30, 2018, net favorable loss reserve development on prior accident years was \$20.1 million, of which \$32.6 million related to the Reinsurance segment and \$10.6 million related to the Insurance segment. The favorable development was partially offset by \$23.1 million of adverse development related to the Asset Management segment.

For further information regarding the Company's reserves for losses and loss expenses refer to Note 9 to the Consolidated Financial Statements, "Reserve for losses and loss expenses," in Part I, Item 1. The amount of recorded reserves represents management's best estimate of expected losses and loss expenses on premiums earned. The management of (re)insurance companies use significant judgment in the estimation of reserves for losses and loss expenses. Given the magnitude of some notable loss events and other uncertainties inherent in loss estimation, meaningful uncertainty remains regarding the estimation for these events. The Company's actual ultimate net loss may vary materially from these estimates. Ultimate losses for notable loss events are estimated through detailed review of contracts which are identified by the Company as potentially exposed to the specific notable loss event. However, there can be no assurance that the ultimate loss amount estimated for a specific contract will be accurate, or that all contracts with exposure to a specific notable loss event will be identified in a timely manner. Potential losses in excess of the estimated ultimate loss assigned to a contract on the basis of a specific review, or loss amounts from contracts not specifically included in the detailed review may be reserved for in the reserve for potential development on notable loss events ("RDE") and would be included as part of the Company's overall reserves. As at June 30, 2018, the Company had no RDE.

Table of Contents

For disclosure purposes, only those notable loss events which have an ultimate loss estimate above \$30.0 million are disclosed separately and included in the reserves for notable loss event roll forward table below. To the extent that there are increased complexity and volatility factors relating to notable loss events in the aggregate, RDE may be established for a specific accident year.

Sources of Liquidity

Holding Company Liquidity

Validus Holdings, Ltd. is a holding company and conducts no operations of its own. The Company relies primarily on cash dividends and other permitted payments from operating subsidiaries within the Reinsurance, Insurance, and Asset Management segments to pay dividends, finance expenses and other holding company expenses. There are restrictions on the payment of dividends from most operating subsidiaries, primarily due to regulatory requirements in the jurisdictions in which the operating subsidiaries are domiciled. The Company believes the dividend/distribution capacity of the Company's subsidiaries will provide the Company with sufficient liquidity for the foreseeable future. The Company continues to generate substantial cash from operating activities and remains in a strong financial position, with resources available for reinvestment in existing businesses, strategic acquisitions and managing capital structure to meet its short and long-term objectives.

(c) Total shareholders' equity available to Validus common shareholders excludes the liquidation value of the preferred shares.

Sources and Uses of Cash

The Company has written certain (re)insurance business that has loss experience generally characterized as having low frequency and high severity. This results in volatility in both results and operational cash flows. The potential for large claims or a series of claims under one or more reinsurance contracts means that substantial and unpredictable payments may be required within relatively short periods of time. As a result, cash flows from operating activities may fluctuate, perhaps significantly, between individual quarters and years. Management believes the Company's unused credit facility amounts and highly liquid investment portfolio are sufficient to support any potential operating cash flow deficiencies.

In addition to relying on premiums received and investment income from the investment portfolio, the Company intends to meet these cash flow demands by carrying a substantial amount of short and medium term investments that would mature, or possibly be sold, prior to the settlement of expected liabilities. The Company cannot provide assurance, however, that it will successfully match the structure of its investments with its liabilities due to uncertainty related to the timing and severity of loss events.

Table of Contents

There are three main sources of cash flows for the Company: operating activities, investing activities and financing activities. The movement in net cash provided by or used in operating, investing and financing activities and the effect of foreign currency rate changes on cash and cash equivalents and restricted cash for the six months ended June 30, 2018 and 2017 is provided in the following table:

(Dollars in thousands)	Six Months Ended	
	June 30,	
	2018	2017
Net cash provided by operating activities	\$163,148	\$52,685
Net cash (used in) investing activities	(182,883)	(90,287)
Net cash (used in) provided by financing activities	(116,352)	531,506
Effect of foreign currency rate changes on cash and cash equivalents and restricted cash	(8,068)	10,608
Net (decrease) increase in cash and cash equivalents and restricted cash	\$(144,155)	\$504,512

Operating Activities

Cash flow from operating activities is derived primarily from the receipt of premiums less the payment of losses and loss expenses related to underwriting activities.

Net cash provided by operating activities during six months ended June 30, 2018 and 2017 was \$163.1 million and \$52.7 million, respectively. The favorable movement of \$110.5 million during the six months ended June 30, 2018 compared to 2017 was primarily due to the timing of cash receipts and payments, notably with regard to premiums receivable and losses payable, respectively.

We anticipate that cash flows from operations will continue to be sufficient to cover cash outflows under our contractual commitments as well as most loss scenarios through the foreseeable future. Refer to the “Capital Resources” section below for further information on our anticipated obligations.

Investing Activities

Cash flow used in investing activities is primarily from net (purchases) sales made in the Company’s investment portfolio. As at June 30, 2018, the Company’s portfolio was composed of fixed income, short-term and other investments and investments in investment affiliates amounting to \$9.8 billion or 90.7% of total cash and investments. For further details related to investments pledged as collateral, refer to Note 4 to the Consolidated Financial Statements, “Investments,” in Part I Item 1.

Net cash used in investing activities during the six months ended June 30, 2018 was \$182.9 million compared to \$90.3 million during the six months ended June 30, 2017. The increase in net cash used in investing activities of \$92.6 million during the six months ended June 30, 2018 compared to 2017 was primarily driven by an increase in the purchases of both fixed maturity and short-term investments, partially offset by non-recurring expenditure in 2017 for the purchase of CRS.

Financing Activities

Cash flow (used in) provided by financing activities is derived primarily from the issuance and purchase of shares in the Company and its subsidiaries, including third party investments in the funds and sidecars, as well as the issuance of notes payable to AlphaCat investors, and is partially offset by repurchases of shares in the Company and the payment of dividends.

Net cash used in financing activities during the six months ended June 30, 2018 was \$116.4 million compared to net cash provided by financing activities of \$531.5 million during the six months ended June 30, 2017. The primary driver of this change was the deployment of \$645.2 million of third party subscriptions into AlphaCat ILS Funds and Sidecars.

^(b) Refer to Part I, Item 1, Note 11 to the Consolidated Financial Statements, "Share capital," for further details and discussion on the Company's preferred shares.

^(c) Total capitalization equals total shareholders' equity plus redeemable noncontrolling interests and total debt.

^(d) Total capitalization available to Validus equals total capitalization (as per ^(c)) less redeemable noncontrolling interests and noncontrolling interests.

Shareholders' Equity

Shareholders' equity available to Validus common shareholders at June 30, 2018 was \$3.4 billion, compared to \$3.5 billion at December 31, 2017. Including the liquidation value of preferred shares, shareholders' equity available to Validus at June 30, 2018 was \$3.8 billion, compared to \$3.9 billion at December 31, 2017.

On May 4, 2018, the Company announced a quarterly cash dividend of \$0.38 per common share and cash dividends of \$0.3671875 and \$0.3625000 per depository share on the outstanding Series A and Series B Preferred Shares, respectively. The common share dividend was paid on May 30, 2018 to holders of record on May 15, 2018. The preferred share dividends were paid on June 15, 2018 to shareholders of record on June 1, 2018.

The Company has repurchased 81,035,969 common shares for an aggregate purchase price of \$2.7 billion from the inception of the share repurchase program to July 26, 2018. The Company had \$293.4 million remaining under its authorized share repurchase program as of July 26, 2018.

Debt and financing arrangements

For additional information about our debt, including the terms of our financing arrangements, basis for interest rates and debt covenants, refer to Part I, Item 1, Note 13 to the Consolidated Financial Statements, "Debt and financing arrangements," and Part II, Item 8, Note 19 to the Consolidated Financial Statements, "Debt and financing

arrangements,” in the Company’s Annual Report on Form 10-K for the year ended December 31, 2017.

Table of Contents

Noncontrolling interests

Investors in certain of the AlphaCat and BetaCat ILS funds have rights that enable them, subject to certain limitations, to redeem their shares. Such investments held by third parties are therefore recorded in the Company's Consolidated Balance Sheets as redeemable noncontrolling interests, a mezzanine item between liabilities and shareholders' equity. If and when a redemption notice is received, the fair value of the redemption is reclassified to accounts payable and accrued expenses. As at June 30, 2018 and December 31, 2017, the amount of the Company's total capitalization owed to third parties as redeemable noncontrolling interests was \$1.4 billion and \$1.0 billion, respectively.

The AlphaCat sidecars and one of the AlphaCat ILS funds have no shareholder redemption rights. Therefore, the third party equity is recorded in the Company's Consolidated Balance Sheets as noncontrolling interests. As at June 30, 2018 and December 31, 2017, the amount of the Company's total capitalization owed to third parties as noncontrolling interests was \$371.3 million and \$16.7 million, respectively. Refer to Part I, Item 1, Notes 6 and 7 to the Consolidated Financial Statements, "Variable Interest Entities," and "Noncontrolling interests," respectively, for further details.

Recent Accounting Pronouncements

For information relating to relevant recent accounting pronouncements, refer to Part I, Item 1, Note 2 to the Consolidated Financial Statements, “Recent accounting pronouncements,” for further details.

Critical Accounting Policies and Estimates

There are certain accounting policies that the Company considers to be critical due to the judgment and uncertainty inherent in the application of those policies. In calculating financial statement estimates, the use of different assumptions could produce materially different estimates. The Company believes the following critical accounting policies affect significant estimates used in the preparation of the Company’s Consolidated Financial Statements:

- the reserve for losses and loss expenses;
- the premium written on a line slip or proportional basis;
- the valuation of goodwill and intangible assets;
- the loss reserves recoverable, including the provision for uncollectible amounts; and
- the valuation of invested assets and other financial instruments.

Critical accounting policies and estimates are discussed further in Part II, Item 7, “Management’s Discussion and Analysis of Financial Condition and Results of Operations” in the Company’s Annual Report on Form 10-K for the year ended December 31, 2017.

CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

The Private Securities Litigation Reform Act of 1995 provides a “safe harbor” for forward-looking statements. Any prospectus, prospectus supplement, the Company’s Annual Report to shareholders, any proxy statement, any other Form 10-K, Form 10-Q or Form 8-K of the Company or any other written or oral statements made by or on behalf of the Company may include forward-looking statements that reflect the Company’s current views with respect to future events and financial performance. These projections, goals, assumptions and statements are not historical facts but instead represent only the Company’s belief regarding future events, many of which, by their nature, are inherently uncertain and outside the Company’s control. These projections, goals, assumptions and statements include statements preceded by, followed by or including words such as “will,” “believe,” “anticipate,” “expect,” “intend,” “plan,” “focused on achieving,” “view,” “target,” “goal,” or “estimate.” All forward-looking statements address matters that involve risks and uncertainties. Accordingly, there are or will be important factors that could cause the Company’s actual results and financial condition to differ, possibly materially, from the results and financial condition indicated in these projections, goals, assumptions and statements and, therefore, you should not place undue reliance on any such statement.

We believe that these factors include, but are not limited to, the following:

- unpredictability and severity of catastrophic events;
- our ability to obtain and maintain ratings, which may affect by our ability to raise additional equity or debt financings, as well as other factors described herein;
- adequacy of the Company’s risk management and loss limitation methods;
- cyclicality of demand and pricing in the (re)insurance markets;
- the Company’s ability to implement its business strategy during “soft” as well as “hard” markets;
- adequacy of the Company’s loss reserves;
- continued availability of capital and financing;
- the Company’s ability to identify, hire and retain, on a timely and unimpeded basis and on anticipated economic and other terms, experienced and capable senior management, as well as underwriters, claims professionals and support staff;
- acceptance of our business strategy, security and financial condition by rating agencies and regulators, as well as by brokers and (re)insureds;
- competition, including increased competition, on the basis of pricing, capacity, coverage terms or other factors;
- potential loss of business from one or more major insurance or reinsurance brokers;

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

For quantitative and qualitative disclosures about market risk, see Item 7A, “Quantitative and Qualitative Disclosures About Market Risk” in the Company’s Annual Report on Form 10-K for the year ended December 31, 2017. The Company’s exposure to market risks has not changed materially since December 31, 2017.

ITEM 4. CONTROLS AND PROCEDURES

Conclusion Regarding the Effectiveness of Disclosure Controls and Procedures

The Company carried out an evaluation, under the supervision and with the participation of the Company’s management, including the Chief Executive Officer and Chief Financial Officer, of the effectiveness of disclosure controls and procedures as defined and in pursuant to Rules 13a-15 and 15d-15 promulgated under the Securities Exchange Act of 1934, as amended, as of the end of the period covered by this report.

Based on that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that the disclosure controls and procedures are effective to provide reasonable assurance that all material information relating to the Company required to be filed in this report has been recorded, processed, summarized and reported when required and the information is accumulated and communicated, as appropriate, to allow timely decisions regarding required disclosures.

Changes in Internal Control Over Financial Reporting

There have been no changes in internal control over financial reporting identified in connection with the Company’s evaluation required pursuant to Rules 13a-15 and 15d-15 promulgated under the Securities Exchange Act of 1934, as amended, that occurred during the most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, the Company’s internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

During the normal course of business, the Company and its subsidiaries are subject to litigation and arbitration. Legal proceedings such as claims litigation are common in the insurance and reinsurance industry in general. The Company and its subsidiaries may be subject to lawsuits and regulatory actions in the normal course of business that do not arise from or directly relate to claims on reinsurance treaties or contracts or insurance policies.

Litigation typically can include, but is not limited to, allegations of underwriting errors or misconduct, employment claims, regulatory activity, shareholder disputes or disputes arising from business ventures. These events are difficult, if not impossible, to predict with certainty. It is Company policy to dispute all allegations against the Company and/or its subsidiaries that management believes are without merit.

As at June 30, 2018, the Company was not a party to, or involved in any litigation or arbitration that it believes could have a material adverse effect on the financial condition, results of operations or liquidity of the Company.

ITEM 1A. RISK FACTORS

The Company’s results of operations and financial condition are subject to numerous risks and uncertainties described in “Risk Factors” included in Item 1A in the Company’s Annual Report on Form 10-K for the year ended December 31, 2017.

Table of Contents**ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS**

The Company, from time to time, repurchases its shares in the open market, or in privately negotiated transactions, under its share repurchase program. The timing, form and amount of the share repurchases under the program will depend on a variety of factors, including market conditions, the Company's capital position relative to internal and rating agency targets, legal requirements and other factors. Share repurchases may also include repurchases by the Company of shares from employees in order to facilitate the payment of withholding taxes on restricted shares that have vested. The Company repurchases these shares at their fair market value, as determined by reference to the closing price of its common shares on the day the restricted shares vested. The Company's share repurchase program may be modified, extended or terminated by its Board of Directors at any time.

The Company did not repurchase any common shares during the three months ended June 30, 2018. A summary of the common share repurchases made to date under the Company's previously announced share repurchase programs is as follows:

(Dollars in thousands, except share and per share amounts)	Total shares repurchased under publicly announced repurchase program			Approximate dollar value of shares that may yet be purchased under the Program
	Total number of shares repurchased	Aggregate Purchase Price ^(a)	Average Price per Share ^(a)	
Cumulative inception-to-date to July 26, 2018	81,035,969	\$2,730,975	\$ 33.70	\$ 293,426

^(a) Share transactions are on a trade date basis through July 26, 2018 and are inclusive of commissions. Average share price is rounded to two decimal places.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

None.

ITEM 4. MINE SAFETY DISCLOSURE

Not applicable.

ITEM 5. OTHER INFORMATION**Disclosure of Certain Activities Under Section 13(r) of the Securities Exchange Act of 1934**

Section 13(r) of the Securities Exchange Act of 1934, as amended, requires an issuer to disclose in its annual or quarterly reports whether it or an affiliate knowingly engaged in certain activities described in that section, including certain activities related to Iran during the period covered by the report.

Effective January 16, 2016, the Office of Foreign Assets Control of the U.S. Department of the Treasury adopted General License H which authorizes non-U.S. entities that are owned or controlled by a U.S. person to engage in certain activities with Iran so long as they comply with certain specific requirements set forth therein.

Certain of the Company's non-U.S. subsidiaries provide global marine hull, war, cargo and liability policies that provide coverage for vessels navigating into and out of ports worldwide. In light of EU and U.S. modifications to Iran sanctions in 2016, including the issuance of General License H, and consistent with General License H, the Company has been notified that certain of its policyholders have begun to ship cargo to and from Iran, including transporting crude oil from Iran to another country and transporting refined petroleum products to Iran. Since these policies insure multiple voyages and fleets containing multiple ships, the Company is unable to attribute gross revenues and net profits from such marine policies to these activities involving Iran. The Company intends for its non-U.S. subsidiaries to continue to provide such coverage to the extent permitted by applicable law.

Certain of the Company's other non-U.S. subsidiaries have policies that provide excess of loss reinsurance coverage for various risks worldwide. In light of EU and U.S. modifications to Iran sanctions in 2016, including the issuance of General License H, and consistent with General License H, the Company has been notified by certain of its cedants that they either provide or intend to provide aviation spare parts coverage or marine and hull, war and related coverage for certain risks involving Iran. As the reinsurance coverage provided to these cedants covers multiple global risks and

multiple insureds, the Company is unable to attribute gross revenues and net profits from such policy to these activities involving Iran. The Company intends for its non-U.S. subsidiaries to continue to provide such coverage to the extent permitted by applicable law.
