Notes to Condensed Consolidated Financial Statements
(Unaudited)

Note 1 - BASIS OF PRESENTATION

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with the instructions to Form 10-Q in conformity with accounting principles generally accepted in the United States. The accompanying unaudited condensed financial statements reflect all adjustments which are, in the opinion of management, necessary to a fair presentation of the results for the interim periods. All such adjustments are of a normal recurring nature. For further information, refer to the December 31, 2002 consolidated financial statements and footnotes included in the Company's annual report on Form 10-K.

Note 2 - COMPREHENSIVE INCOME

The components of comprehensive income (loss), net of related tax, for the three and six month periods ended June 30, 2003 and 2002 are as follows:

	-----		-----
	Three Months Ended June 30,		Six Months En

Comprehensive Income (Loss)	\$2,101,109	\$ (1,519,187)	\$2,186,025

Note 3 - DERIVATIVE INSTRUMENTS AND HEDGING ACTIVITIES

The Company's derivatives outstanding at June 30, 2003 include approximately \$200,000 of embedded options on convertible bonds and \$2,000 of other open option positions. Hedge accounting is not used for these securities and changes in market value are reported currently as realized gains or losses.

Note 4 - NET REALIZED INVESTMENT GAINS (LOSSES), NET OF EXPENSES

The Company recorded pretax reductions to the carrying value of available for sale securities totaling \$135,000 and \$1,932,000 for the six months ended June 30, 2003 and 2002, respectively, relating to declines in value which were considered by management to be other than temporary. These amounts are included along with other net realized losses. The Company also nets certain direct, incremental investment management fees against net realized investment gains and losses presented in the Condensed Consolidated Statements of Operations. Such costs are based directly on or, are primarily associated with capital gains. Costs netted against realized investment gains and losses total \$225,000 and \$6,000 for the six months ended June 30, 2003 and 2002, respectively.

Note 5 - INCOME TAXES

Current taxes are provided based on estimates of the projected effective annual tax rate. Deferred taxes reflect the net effects of temporary differences between the carrying amount of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes.

Part I; Item 1 (continued)

Note 6 - SEGMENT INFORMATION

The Company's operations are managed along five principal insurance product lines: Home Service Life, Broker Life, Preneed Life, Dental, and Other Health. Products in all five lines are sold through independent agency operations. Home Service Life consists primarily of traditional life insurance coverage sold in amounts of \$10,000 and under to middle and lower income individuals. This distribution channel is characterized by a significant amount of agent contact with customers throughout the year. Broker Life product sales consist primarily of simplified issue and graded-benefit policies in amounts of \$10,000 and under. Other products in this segment which are not aggressively marketed include: group life, universal life, annuities and participating life coverages. Preneed Life products are sold to individuals in connection with prearrangement of their funeral and include single premium and multi-pay policies with coverages generally in amounts of \$10,000 and less. These policies are generally sold to older individuals at increased premium rates. Dental products are term coverages generally sold to small and intermediate size employer groups. Other Health products include various accident and health coverages sold to individuals and employer groups. Segment information as of June 30, 2003 and 2002, and for the

Part I; Item 1 (continued)

The Company evaluates performance based on several factors, of which the primary financial measure is segment profit. Segment profit represents pretax earnings, except net realized investment gains and interest expense are excluded. A significant portion of the Company's realized investment gains are generated from investments in equity securities. The equities portfolio averaged (on a cost basis) approximately \$9,066,000 and \$7,149,000 during the six months ended June 30, 2003 and 2002, respectively.

Part I; Item 1 (continued)

Note 7 - LITIGATION

United Liberty, which the Company acquired in 1998, is defending an action in an Ohio state court brought by two policyholders. The Complaint refers to a particular class of life insurance policies that United Liberty issued over a period of years ending around 1971. It alleges that United Liberty's dividend payments on these policies from 1993 through 1999 were less than the required amount. It does not specify the amount of the alleged underpayment but implies a maximum of about \$850,000. The plaintiffs also allege that United Liberty is liable to pay punitive damages, also in an unspecified amount, for breach of an implied covenant of good faith and fair dealing to the plaintiffs in relation to the dividends. The action has been certified as a class action on behalf of all policyholders who were Ohio residents and whose policies were still in force in 1993. United Liberty has denied the material allegations of the Complaint and is defending the action vigorously. Pre-trial discovery is continuing. United Liberty has filed a motion for summary judgment, which has been fully briefed and argued and awaits decision by the Court. At United Liberty's request, an initial mediation session has been completed and negotiations are continuing. As a pre-requisite for the mediation, United Liberty offered to settle the matter for payments over time, which would include attorneys' fees, and which would be contingent upon an exchange or reformation of the insurance policies currently owned by the members of the class. At this stage of the litigation, the Company is unable to determine whether an unfavorable outcome of the action is likely to occur or, alternatively, whether the chance of such an outcome is remote. Therefore, at this time, management has no basis for estimating potential losses, if any. In addition, the Company is party to other lawsuits in the normal course of business. Management believes that recorded claims liabilities are adequate to ensure that these other suits will be resolved without material financial impact to the Company.

NOTE 8 - RECENTLY ISSUED ACCOUNTING STANDARDS

In January 2003, the Financial Accounting Standards Board (FASB) issued Interpretation No. 46, Consolidation of Variable Interest Entities, an Interpretation of Accounting Research Bulletin (ARB) No. 51 which states certain criteria for use in consolidating another entity. The Company has evaluated Interpretation No. 46 and does not believe it will have a material impact on the financial statements.

In May 2003, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards No. 150, Accounting for Certain Financial Instruments with Characteristics of Both Liabilities and Equity (FAS 150), effective for interim reporting periods beginning after June 15, 2003. Under the new rules, certain financial instruments classified as equity will be required to be presented as liabilities. The Company has evaluated FAS 150 and does not believe it will have a material impact on the financial statements.

Part I; Item 2 - Management's Discussion and Analysis

FINANCIAL POSITION. Shareholders' equity totaled approximately \$19,936,000 and \$17,758,000 at June 30, 2003 and December 31, 2002, respectively. These balances reflect an approximate 12% increase for the six months ended June 30, 2003. As described above, comprehensive income (loss) totaled approximately \$2,186,000 and \$(2,654,000) for the six months ended June 30, 2003 and 2002, respectively. A significant portion of comprehensive income (loss) is attributable to changes

Edgar Filing: CITIZENS FINANCIAL CORP /KY/ - Form 10-Q

in the value of the Company's fixed maturity and equity portfolios. Fixed maturity portfolio positions decreased \$1,102,000 on an amortized cost basis and increased \$1,891,000 on a market value basis during the first six months of 2003. This gross appreciation of \$2,993,000 resulted primarily from increasing bond prices during the period. However, during July 2003, bond values declined and a significant portion of this appreciation was reversed. Equity securities comprised approximately 8.0% and 5.2% of the Company's total assets as of June 30, 2003 and December 31, 2002, respectively. Equity portfolio positions increased \$3,204,000 on a cost basis and \$4,652,000 on a market value basis, during the first six months of 2003, resulting in gross appreciation of \$1,448,000. Cash and cash equivalent positions also decreased approximately \$400,000 during the six months ended June 30, 2003.

Equity markets continue to be volatile but were much more favorable during 2003 than results experienced during the prior three years. Late in the second quarter of 2003, interest yields on fixed maturity investments finally began to rise. Although this produces an adverse impact on the value of the Company's bond portfolio, the opportunity to invest new money at higher yields is expected to have a positive impact on the Company's operating earnings. Additionally, improving economic activity and equity valuations have resulted in a lower level of securities impairment writedowns during 2003. The 2003 environment as described continues to generate a relatively high level of qualitative investment risk. However, measures of quantitative risk per unit of investment are not believed to have changed significantly from those previously disclosed in the Company's 2002 Form 10-K

OPERATIONS. Net premiums and other considerations decreased approximately \$719,000, or 7% during the three months ended June 30, 2003 compared to the three months ended June 30, 2002 but increased \$1,000 for the first six months of 2003 compared to the first six months of 2002. Below is a summary of net premiums earned by segment, for the three and six month periods ended June 30, 2003, along with the change from the prior year.

NET PREMIUMS EARNED	Three Months Ended June 30,		Six Months Ended June 30,	
	Total	Change	Total	Change
Home Service Life	\$ 1,866,814	\$ 27,658	\$ 3,742,157	\$ 80,3
Broker Life	835,213	(80,795)	1,736,119	(124,8
Preneed Life	3,708,073	(712,408)	7,423,037	(135,8
Dental	2,085,654	62,787	4,226,005	197,5
Other Health	317,117	(16,633)	663,193	(16,1
Segment Totals	\$ 8,812,871	\$ (719,391)	\$17,790,511	\$ 1,0

The Home Service Life growth is attributable to a continuing focus on providing quality service to existing agents and customers along with a moderate level of new agent recruiting. The Broker Life declines are primarily attributable to competition from other carriers in the final expense marketplace. Preneed life premiums are lower, due in part to the Company's decision to emphasize the lower annual premium "multi-pay" policies rather than "single-pay" policies and some loss of volume attributable to reducing commission levels and the rate of annual growth credited to policies. Dental premium increases are attributable to additional broker relationships and normal inflationary premium increases. The

Edgar Filing: CITIZENS FINANCIAL CORP /KY/ - Form 10-Q

Other Health segment products are not being actively marketed.

The Company's Pretax Income (Loss) improved approximately \$1,805,000 to \$(388,000) for the three months ended June 30, 2003, and improved \$1,866,000 to \$(794,000) for the six months ended June 30, 2003, compared to the corresponding periods in 2002. Most of this improvement is attributable to improving realized investment gains (losses). Net realized investment gains (losses) totaled \$111,000 and \$(164,728) for the three and six month periods respectively, ending June 30, 2003. Both the equity and fixed income investment markets improved significantly during the first six months of 2003. Segment Profit (Loss), which excludes net realized investment

Part I; Item 2 - Management's Discussion and Analysis, continued

gains (losses) and interest expense improved approximately \$245,000 to \$(402,000) for the three months ended June 30, 2003, and improved \$265,000 for the six months ended June 30, 2003, compared to the corresponding periods in 2002. Most of this improvement is attributable to favorable Home Service Life mortality, a reduction in Other Health disability claim and reserve levels, and improvement in Dental claim levels. These favorable impacts were partially offset by net declines in the Company's investment portfolio yield and adverse Broker Life and Preneed Life mortality.

Below are pretax investment income and total return, along with approximate annualized yields for the six months ended June 30, 2003 and 2002.

Six Months Ended June 30	2003	2002
Investment Income	\$ 2,751,839	\$ 2,896,643
Realized and Unrealized Gains (Losses)	4,276,072	(2,456,404)
Total Return	\$ 7,027,911	\$ 440,239
Average Cash and Investments	\$128,685,929	\$113,549,504
Investment Income Yield - Annualized	4.28%	5.10%
Total Return - Annualized	10.92%	0.78%

The Company's effective income tax rate differs from the statutory federal rate primarily due to the effect of the small life insurance company deduction which allows certain companies to reduce their taxable income by up to 60% before computing provisions for regular and alternative minimum tax.

CASH FLOW AND LIQUIDITY. Cash flow from operations totaled \$3,489,000 for the six months ended June 30, 2003 compared to \$6,904,000 for the same period in the prior year. This positive cash flow for both periods is primarily attributable to growth in Preneed Life business, although the 2002 total also includes an approximate \$1,072,000 net recovery of federal income tax. The \$2,369,000 of cash used by investing activities for the six months ended June 30, 2003 resulted primarily from investing the proceeds of Preneed Life sales. The \$1,520,000 of cash used in financing activities during the first six months of 2003 is primarily attributable to bank loan principal repayments along with annuity and Universal Life account withdrawals. The quarterly bank loan payment due on July 1, 2003 was paid by June 30, 2003, accordingly, the outstanding bank loan balance decreased by three quarterly installments. Due to continued investment losses and earnings pressure from lower yields on investments and

cash equivalents, the Company is completing a strategic review of its products and operations. A key element of this initiative is improving profitability of the Preneed, Home Service, and Broker Life segments by increasing premiums, strengthening underwriting practices, modifying commissions, and where possible, lowering interest crediting or policy growth rates. Regarding the currently scheduled debt repayments, the Company believes its available funds will be adequate to service 2003 debt obligations and, with other available assets, will probably be adequate to service debt obligations through 2004. In addition, the Company's Chairman has expressed potential willingness to loan the Company an additional \$3,000,000 if necessary, which could service debt obligations through the majority of 2006.

FORWARD-LOOKING INFORMATION.

All statements, trend analyses and other information contained in this report relative to markets for the Company's products and trends in the Company's operations or financial results, as well as other statements including words such as "anticipate", "believe", "plan", "estimate", "expect", "intend", and other similar expressions, constitute forward-looking statements under the Private Securities Litigation Reform Act of 1995. Part I; Item 3 - Quantitative and Qualitative Disclosures about Market Risk

Quantitative and Qualitative Risk. The primary changes in quantitative market risks during the six months ended June 30, 2003 are discussed in Part I, Item 2

above.

Part I; Item 4 - Controls and Procedures

EVALUATION OF DISCLOSURE CONTROLS AND PROCEDURES. Management of the Company conducted an evaluation of its disclosure controls and procedures, with the supervision and participation of its Chief Executive Officer and Chief Financial Officer, as of the end of the period covered by this quarterly report. The Company does not expect that its disclosure controls and procedures will prevent all error and fraud. Such a control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must balance the constraint of prudent resource expenditure with a judgmental evaluation of risks and benefits. Based on this evaluation of disclosure controls and procedures, the Company's Chief Executive Officer and Chief Financial Officer have concluded that such controls and procedures provide reasonable assurance that material information required to be included in the Company's periodic SEC reports is made known on a timely basis to the Company's principal executive and financial officers.

CHANGES IN INTERNAL CONTROLS. There has been no change in the Company's internal control over financial reporting identified in connection with the evaluation, that occurred during the fiscal quarter ended June 30, 2003 that materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.
