2

RISK FACTORS

You should carefully consider the following factors and the other information in this prospectus before making an investment in the shares.

THE GAMING INDUSTRY IS A HIGHLY COMPETITIVE INDUSTRY

There is intense competition among companies in the gaming industry. We have numerous competitors, including land-based casinos, dockside casinos, riverboat casinos, casinos located on Indian reservations and other forms of legalized gaming. Many of our competitors have greater resources than we do. Certain states have recently legalized, and several other states are currently considering legalizing, casino gaming in designated areas. Legalized casino gaming in these states and on Indian reservations will increase competition and could adversely affect our operations, particularly to the extent that such gaming is conducted in areas close to our operations. Proposition 1A, a California ballot initiative passed by voters in California in March 2000, permits Indian tribes who enter into agreements with the State of California to conduct gaming activities including slot machines, banking and percentage card games (including 21), and lottery games. There are currently nearly 60 California Indian tribes that have entered into agreements with the State of California. We are not certain how gaming on California Indian

Edgar Filing: STATION CASINOS INC - Form S-8 POS

reservations will affect us; however, because visitors from California make up Nevada's largest visitor market, increased competition from Indian gaming may cause a decline in our revenues and may have a negative impact on our business.

Our properties face more direct competition from 36 nonrestricted gaming locations primarily targeted to the local and the repeat visitor markets. Some of these competitors have completed expansions and existing competitors and new entrants into these markets are in the planning stages or under construction on other projects. Although we have competed strongly in these marketplaces, there can be no assurance that additional capacity will not have a negative impact on us.

Our casino properties face competition from all other casinos and hotels in the Las Vegas area, including to some degree, from each other. In addition, our casino properties face competition from all smaller nonrestricted gaming locations and restricted gaming locations (locations with 15 or fewer slot machines) in the greater Las Vegas area. As of December 31, 2001, there were 1,347 restricted gaming locations with a total of 13,285 slot machines in the Las Vegas area. Major additions, expansions or enhancements of existing properties or the construction of new properties by competitors, could also have a material adverse effect on the businesses of the casino properties. The additional capacity has had little, if any, impact on our properties' hotel occupancy or casino volume to date, although there can be no assurance our hotel occupancy or casino volume will not be adversely affected in the future.

To a lesser extent, our operations compete with gaming operations in other parts of the state of Nevada, such as Reno, Laughlin and Lake Tahoe, riverboat gaming markets in the Midwest and South, facilities in Atlantic City, New Jersey, casinos located on Indian reservations and other parts of the world and with state-sponsored lotteries, on-and-off-track pari-mutuel wagering, card parlors and other forms of legalized gambling.

In 1997, the Nevada legislature enacted Senate Bill 208. This legislation identified certain gaming enterprise districts and classifications of real property wherein gaming development would be permitted throughout the Las Vegas valley. We believe the growth in gaming supply in the Las Vegas locals' market has been, and will continue to be, limited by the provisions of Senate Bill 208.

WE MAY EXPERIENCE DIFFICULTY MANAGING OUR OVERALL GROWTH

Because we continually pursue expansion and acquisition opportunities, we face significant challenges not only in managing and integrating all of our current operations, but also in managing our expansion projects and any other gaming operations we may acquire in the future. Management of

3

these new projects will require increased managerial resources, and we intend to continue our efforts to enhance our gaming management team. However, there can be no assurances that we will succeed in doing so. Failure to manage our growth effectively could have a material adverse effect on our operating results.

DEPENDENCE ON KEY MARKETS

Our operating strategy emphasizes attracting and retaining customers from the local and repeat visitor market. All of our casino properties are dependent upon attracting Las Vegas residents. We cannot be sure that we will be able to continue to attract a sufficient number of guests, gaming customers and other visitors in Nevada to make our operations profitable.

OTHER ACQUISITION AND DEVELOPMENT OPPORTUNITIES

We regularly evaluate and pursue new gaming acquisition and development opportunities in existing and emerging jurisdictions. These opportunities have in the past, and may in the future, take the form of joint ventures. To the extent that we decide to pursue any new gaming acquisition or development opportunities, our ability to benefit from such investments will depend upon a number of factors, including:

our ability to identify and acquire attractive acquisition opportunities and development sites;

our ability to secure required federal, state and local licenses, permits and approvals, which in some jurisdictions, are limited in number;

Edgar Filing: STATION CASINOS INC - Form S-8 POS

certain political factors;

the availability of adequate financing on acceptable terms (including waivers of restrictions existing credit arrangements); and

our ability to identify and develop satisfactory relationships with joint venture partners.

Most of these factors are beyond our control. Therefore, we cannot be sure that we will be able to recover our investment in any new gaming development opportunities or acquired facilities, or successfully expand to additional locations.

We have invested, and will likely continue to invest, in real property in connection with the pursuit of expansion opportunities. At March 31, 2002, we had \$96.0 million of land held for development that consists primarily of four gaming sites in the Las Vegas valley that are owned or leased, which comprise 151 acres. In addition, we have options to purchase a total of 66 acres adjacent to two of the sites.

These investments are subject to the risks generally incident to the ownership of real property, including:

changes in economic conditions;

environmental risks;

governmental rules and fiscal policies; and

other circumstances over which we may have little or no control.

The development of such properties is also subject to restrictions under our revolving credit facility. We cannot be sure that we will be able to recover our investment in any such properties or be able to prevent incurring investment losses.

4

GAMING AND LIQUOR REGULATION

The ownership and operation of casino gaming facilities are subject to extensive state and local regulation. The state of Nevada and the local authorities require us to hold various licenses, findings of suitability, registrations, permits and approvals. The Nevada Gaming Commission may, among other things, limit, condition, suspend or revoke a license or approval to own the stock of any of our Nevada subsidiaries for any cause deemed reasonable by such licensing authority. We are responsible for acts of our employees on the premises. Substantial fines or forfeiture of assets for violations of gaming laws or regulations may be levied against us, our subsidiaries and the persons involved. The suspension or revocation of any of our licenses or the levy on us of substantial fines or forfeiture of assets would have a material adverse effect on our business.

To date, we have obtained all governmental licenses, findings of suitability, registrations, permits and approvals necessary for the operation of our gaming activities. Gaming licenses and related approvals are deemed to be privileges under Nevada law, and we cannot be sure that any new licenses, findings of suitability, registrations, permits and approvals that may be required in the future will be given or that existing ones will not be revoked. Any expansion of our gaming operations in Nevada or into new jurisdictions will require various licenses, findings of suitability, registrations, permits and approvals of the gaming authorities. The approval process can be time consuming and costly and has no assurance of success.

Gaming authorities have the authority generally to require that any beneficial owner of our securities file an application and be investigated for a finding of suitability. If a record or beneficial owner of our securities is required by any gaming authority to be found suitable, such owner will be required to apply for a finding of suitability within 30 days after request of such gaming authority or within such earlier time prescribed by such gaming authority. The applicant for a finding of suitability must pay all costs of the investigation for such finding of suitability.

THE MARKET PRICE OF OUR COMMON STOCK MAY BE VOLATILE

The trading price of our common stock could be subject to wide fluctuations in response to a number of factors, including the following:

quarterly variations on our operating results;

actual or anticipated announcements of new openings of locations, products or services by us or other business partners or competitors;

announcements of innovations by us or our competitors;

investor perception of our business prospects or the gaming industry in general;

changes in analysts' estimates of our financial performance;

general conditions in the markets in which we compete; and

worldwide economic and financial conditions.

The stock market has also experienced extreme price and volume fluctuations that have affected the market prices for many rapidly expanding companies. These fluctuations often have been unrelated to the operating performance of those companies. Broad market fluctuations and other factors may adversely affect the market price of our common stock. If the market price of our common stock experiences significant market volatility, some stockholders may file a class action lawsuit. We could incur substantial legal costs and our management's attention could be diverted to defend this type of litigation, even if we are ultimately successful in our defense. Declines in the market price of our common stock also could adversely affect employee morale, our ability to attract and retain qualified

employees and our access to additional capital. All of these factors could materially and adversely affect our business, operating results and financial condition.

USE OF PROCEEDS

We will not receive any of the proceeds from the offering hereunder. All expenses of registration incurred in connection with this offering are being borne us, but all selling and other expenses incurred by the individual selling stockholders will be borne by such selling stockholders.

PLAN OF DISTRIBUTION

The shares of common stock covered by this prospectus are being registered by us for the account of the selling stockholders.

The selling stockholders may sell the shares of common stock covered by this prospectus, and options related thereto, in one or more transactions (which may involve one or more block transactions) on the New York Stock Exchange, in sales occurring in the public market off such system, in privately negotiated transactions or in a combination of such transactions. Each such sale may be made either at market prices prevailing at the time of such sale or at negotiated prices. The selling stockholders may sell some or all of the shares, or options related to such shares, in transactions involving broker-dealers, who may act as agent or acquire the shares as principal. Any broker-dealer participating in such transactions as agent may receive commissions from the selling stockholders (and, if they act as agent for the purchaser of such shares, from such purchaser). The registered stockholders will pay usual and customary brokerage fees. Broker-dealers may agree with the registered stockholders to sell a specified number of shares at a stipulated price per share and, to the extent such a broker-dealer is unable to do so acting as agent for the selling stockholders, to purchase as principals any unsold shares at the price required to fulfill the respective broker-dealer's commitment to the selling stockholders. Broker-dealers who acquire shares as principals may thereafter resell such shares from time to time in

Edgar Filing: STATION CASINOS INC - Form S-8 POS

transactions (which may involve cross and block transactions and which may involve sales to and through other broker-dealers, including transactions of the nature described above) in the over-the-counter market, negotiated transactions or otherwise, at market prices prevailing at the time of sale or at negotiated prices, and in connection with such resales may pay to or receive from the purchasers of such shares commissions.

To our knowledge, there is currently no agreement with any broker or dealer respecting the sale of the shares offered hereby. Upon the sale of any such shares, the selling stockholders or anyone effecting sales on behalf of the selling stockholders may be deemed an underwriter, as that term is defined under the 1933 Act. We will pay all expenses of preparing and reproducing this prospectus, but will not receive the proceeds from sales by the selling stockholders.

We are bearing all costs relating to the registration of the shares. Any commissions or other fees payable to broker-dealers in connection with any sale of the shares will be borne by the registered stockholders or other party selling such shares. In order to comply with certain states' securities laws, if applicable, the shares will be sold in such jurisdictions only through registered or licensed brokers or dealers. In certain states the shares may not be sold unless the shares have been registered or qualified for sale in such state, or unless an exemption from registration or qualification is available and is obtained.
