Report of Independent Accountants

To the Participants and Administrator of
Protein Technologies International Savings Investment Plan

In our opinion, the accompanying statements of net assets available for benefits and the related statements of changes in net assets available for benefits present fairly, in all material respects, the net assets available for benefits of Protein Technologies International Savings Investment Plan (the "Plan") at December 31, 2000 and 1999, and the changes in net assets available for benefits for the years then ended in conformity with accounting principles generally accepted in the United States of America. These financial statements are the responsibility of the Plan's management; our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with auditing standards generally accepted in the United States of America, which require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedules of assets (held at end of year) and reportable transactions are presented for the purpose of additional analysis and are not a required part of the basic financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. These supplemental schedules are the responsibility of the Plan's management. The supplemental schedules have been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

PROTEIN TECHNOLOGIES INTERNATIONAL SAVINGS
INVESTMENT PLAN

Notes to Financial Statements

Note 1 - Description of Plan

The following description of the Protein Technologies International (the "Company") Savings Investment Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined-contribution plan covering all domestic regular full-time and part-time sales, administrative and clerical, production and maintenance employees of the Company. Participants may contribute to the Plan upon

Edgar Filing: DUPONT E I DE NEMOURS & CO - Form 11-K

enrollment; however, one year of covered service is required in order to receive Company matching contributions (see "Contributions" below). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The Company sold the Fiber Sales & Development Corporation division on August 25, 2000. The Company vested all employees from the sold division in the Plan.

The Plan is administered by the Company. Vanguard Fiduciary Trust Company ("VFTC") is the Trustee of the assets of the Plan. As Trustee, VFTC has the authority to hold, manage and protect the assets of the Plan in accordance with the provisions of the Plan and the trust agreements.

Contributions

Each year, participants may contribute up to 12% of annual compensation on a pre-tax basis, or up to 10% of compensation on an after-tax basis with a combined total not to exceed 15% of compensation, subject to certain limits imposed by the Internal Revenue Service ("IRS") and the Plan terms. Basic contributions not exceeding 6% of the participant's compensation are matched 100% by the Company after one year of service.

Participant accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings and charged with an allocation of administrative expenses, if any. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching contribution portion of their accounts plus actual earnings thereon occurs upon the participant's completion of five years of credited service.

Participant Loans

Participants may borrow from their fund accounts subject to the provisions of the Plan. Loans are limited to the lesser of \$50,000 or 50% of the vested amount in the participant's account, reduced by other outstanding participant loan balances on the date of the loan. The minimum loan amount is \$1,000. Participants pay interest on such loans at a fixed rate of 1 percentage point above the prime rate on the date of the loan. Participant loans can be short or long-term, up to a maximum loan period of 5 years for general purpose loans and 10 years for the purpose of a principal residence. Loan repayments are made through payroll deduction each pay period. A promissory note in the amount of the loan must be delivered to VFTC, and in the event of the participant's termination, the unpaid balance and accrued interest become due immediately

and payable in full.

Edgar Filing: DUPONT E I DE NEMOURS & CO - Form 11-K

Payment of Benefits

Plan withdrawals of before-tax contributions may be made prior to termination or retirement for cases of financial hardship or at the age of 59 1/2. Hardship distributions are limited to the amount required to meet the need created by the hardship and are made at the discretion of the Plan administrator. After-tax contributions and earnings thereon may be withdrawn at any time.

Forfeitures

Upon the participant's termination of employment, any Company matching contributions and earnings thereon which are not vested will be forfeited, but will be restored and eligible for additional vesting if the participant again becomes an eligible employee within five years after termination and completes the required years of service. Forfeitures, net of amounts restored, are used to reduce future Company contributions required under the Plan. Forfeitures were \$20,340 and \$48,553 for the years ended December 31, 2000 and 1999, respectively. At December 31, 2000, forfeited non-vested accounts totaled \$83,201.

Plan Termination

The Company may, by action of its Board of Directors, terminate the Plan with respect to all participating companies. In case of such termination, participants shall be fully vested in Company matching contributions credited to their accounts and, subject to Plan provisions and applicable law, the total amount in each participant's account shall be distributed to the participant or for the participant's benefit.

Note 2 - Summary of Accounting Policies

The following accounting policies, which conform with accounting principles generally accepted in the United States, have been used consistently in the preparation of the Plan's financial statements:

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Use of Estimates

The preparation of financial statements, in conformity with accounting principles generally accepted in the United States, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, as well as reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Shares of registered investment companies are valued at quoted market prices which represent the net asset value of shares held by the Plan at year-end. Units of the Retirement Savings Trust are valued at net asset value at year-end. The Conoco and DuPont stock funds are valued at their year-end unit closing prices (comprised of common stock at year-end market price plus uninvested cash position). Participant loans are valued at cost which approximates fair value.

Edgar Filing: DUPONT E I DE NEMOURS & CO - Form 11-K
