STOCKHOLDER MEETING TO BE HELD ON OCTOBER 12, 2011

This proxy statement and our 2011 Annual Report to Stockholders, which includes our Annual Report on Form 10-K, are available at www.car-mart.com (http://www.car-mart.com/ir/2011_Proxy.pdf).

INFORMATION ABOUT THE ANNUAL MEETING

This proxy statement, which is first being mailed to stockholders on or about September 2, 2011, is furnished in connection with the solicitation of proxies by and on behalf of our board of directors for use at the annual meeting of stockholders to be held at the Company's principal executive office, 802 Southeast Plaza Avenue, Suite 200, Bentonville, Arkansas 72712, on Wednesday, October 12, 2011 at 10:00 a.m., local time, and at any or all adjournments or postponements thereof. To receive directions to the annual meeting, please call (479) 464-9944. The address of our principal executive offices is 802 Southeast Plaza Ave., Suite 200, Bentonville, Arkansas 72712 and our telephone number is (479) 464-9944.

Any person giving a proxy pursuant to this proxy statement may revoke it at any time before it is exercised at the annual meeting of stockholders by notifying, in writing, our Secretary at the address above prior to the annual meeting date. In addition, if the person executing the proxy is present at the annual meeting, he or she may, but need not, revoke the proxy by notice of such revocation to our Secretary at the annual meeting, and vote his or her shares in person. Proxies in the form enclosed, if duly signed and received in time for voting, and not so revoked, will be voted at the annual meeting in accordance with the instructions specified thereon. Where no choice is specified, proxies will be voted "FOR" the election of the nominees for director named in the proxy statement, "FOR" the resolution approving the Company's compensation of its named executive officers, "FOR" the stockholder advisory vote on the Company's executive compensation every year, "FOR" the ratification of the selection of Grant Thornton LLP as our independent registered public accounting firm, and, on any other matters presented for a vote, in accordance with the judgment of the persons acting under the proxies.

Please complete, sign, date and return the accompanying proxy card promptly in the enclosed addressed envelope even if you plan to attend the annual meeting. Postage need not be affixed to the envelope if mailed within the United States. The immediate return of your proxy card will be of great assistance in preparing for the annual meeting and is, therefore, urgently requested. If you attend the annual meeting and vote in person, your proxy card will not be used.

Only stockholders of record at the close of business on August 26, 2011 will be entitled to notice of and to vote at the annual meeting and any adjournments or postponements thereof. Each share of our common stock issued and outstanding on such record date is entitled to one vote. As of August 26, 2011, we had 9,818,185 shares of common stock outstanding.

The presence at the annual meeting of the holders of a majority of the shares of our common stock issued and outstanding and entitled to vote as of the record date is necessary to constitute a quorum. Stockholders will be counted as present at the annual meeting if they are present in person at the annual meeting or if they have properly submitted a proxy card. A plurality of the votes duly cast is required for the election of directors. The proposals regarding the advisory vote on executive compensation and the ratification of Grant Thornton LLP as our independent registered public accounting firm require the affirmative vote of the holders of a majority of the shares entitled to vote on, and that vote for or against or expressly abstain with respect to, the proposals. The frequency option (whether every one, two or three years) receiving the highest number of votes cast by stockholders will be considered the frequency recommended by the stockholders for future advisory votes on executive compensation.

Any abstaining votes and broker “non-votes” will be counted as present and entitled to vote, and therefore will be included for purposes of determining whether a quorum is present at the annual meeting. Abstentions will be treated as “votes cast” on certain matters, but broker “non-votes” will not be deemed to be “votes cast.” As a result, broker “non-votes” will not be included in the tabulation of the voting results on the election of directors and the other proposals presented in this proxy statement, and therefore will not have any effect on such votes. A broker “non-vote” occurs when a nominee holding shares for a beneficial owner does not vote on a particular proposal because the nominee does not have discretionary voting power with respect to that item and has not received voting instructions from the beneficial owner. Abstentions will not be included in the tabulation of the voting results on the election of directors and the frequency of the advisory vote on executive compensation, and therefore will not have any effect on such votes, but will have the same effect as a vote against the proposals regarding the advisory vote on executive compensation and the ratification of Grant Thornton LLP as our independent registered public accounting firm.

The Dodd-Frank Wall Street Reform and Consumer Protection Act, referred to in this proxy statement as the Dodd-Frank Act, directs national securities exchanges to prohibit broker discretionary voting of uninstructed shares held in “street name” (through a broker or nominee) for the election of directors, executive compensation and certain other matters. Under changes to New York Stock Exchange (NYSE) rules in 2010, broker discretionary voting is not permitted for the election of directors and executive compensation matters. Even though our stock is listed on The NASDAQ Stock Market, it is expected that brokers who are members of the NYSE will follow the NYSE rules governing proxy voting with respect to all proxies for publicly traded companies. Therefore, if you hold shares through a broker or other nominee and you do not give your broker or nominee specific instructions, including regarding the election of directors and the advisory vote on our executive compensation, your shares may not be voted on those matters and will not be counted in determining the number of shares necessary for approval.

We will bear the entire cost of the proxy solicitation, including preparation, assembly, printing and mailing of this proxy statement, the proxy card and any additional materials furnished to stockholders. Individual stockholders of record will receive copies of the proxy solicitation materials even if they share the same mailing address. Copies of proxy solicitation materials will be furnished to brokerage houses, fiduciaries and custodians holding shares in their names that are beneficially owned by others to forward to such beneficial owners. In addition, we may reimburse such persons for their cost of forwarding the solicitation materials to such beneficial owners. Solicitation of proxies by mail may be supplemented by one or more of telephone, e-mail, facsimile or personal solicitation by our directors, officers or regular employees. No additional compensation will be paid for such services. We have not engaged, and do not plan to engage, the services of a professional proxy solicitation firm to aid in the solicitation of proxies from certain brokers, bank nominees and other institutional owners. Our costs for such services, if any, will not be material.

PROPOSAL NO. 1
ELECTION OF DIRECTORS

Pursuant to our bylaws, our board of directors has set the number of directors for the ensuing year at seven, six of whom are proposed to be elected at the annual meeting of stockholders. Our Chairman of the Board, Tilman J. Falgout, III, age 62, announced on August 16, 2011 that he will retire from our board of directors effective as of the 2011 Annual Meeting when his current term expires. As of the date of this proxy statement, the board of directors has not selected an additional nominee to fill this position. In the event any nominee is unable or declines to serve as a director at the time of the annual meeting, the persons named as proxies therein will have discretionary authority to vote the proxies for the election of such person or persons as may be nominated in substitution by the present board of directors, upon the recommendation of the nominating committee of the board of directors. Management knows of no current circumstances that would render any nominee named herein unable to accept nomination for election. Directors shall be elected by a plurality of the votes cast by the holders of shares entitled to vote in the election at the annual meeting at which a quorum is present.

Members of our board of directors are elected annually to serve until the next annual meeting and until their successors are elected and qualified. The following persons have been nominated for election to our board of directors:

Mr. Williams' qualifications to serve on the Board include his financial and operational experience.

The board of directors recommends a vote FOR each of the six nominees to our board of directors.

PROPOSAL NO. 2
ADVISORY VOTE ON EXECUTIVE COMPENSATION

Under the Dodd-Frank Act and Section 14A of the Exchange Act, the Company's stockholders are now entitled to vote to approve, on an advisory (non-binding) basis, the compensation of the Company's named executive officers as disclosed in this proxy statement in accordance with SEC rules.

Accordingly, the board of directors is seeking the advisory vote of stockholders on the compensation of the Company's Chief Executive Officer, Chief Operating Officer and Chief Financial Officer (collectively, our "named executive officers") as disclosed in this proxy statement. This proposal, commonly known as a "say-on-pay" proposal, gives the Company's stockholders the opportunity to express their views on our named executive officers' compensation. This vote is not intended to address any specific item of compensation, but rather the overall compensation of the named executive officers.

As discussed in our "Compensation Discussion and Analysis" below, we have designed our executive compensation program to attract and retain the highest quality executive officers, directly link pay to performance, and build value for our stockholders. The program provides total compensation opportunities at levels that are competitive in our industries, ties a significant portion of each executive's compensation to his or her individual performance and contribution to achieving our business objectives, and closely aligns the interests of our executives with the interests of our stockholders. Accordingly, the board of directors encourages you to review carefully the Compensation Discussion and Analysis and the tabular and other disclosures on compensation under Executive Compensation, and asks you to cast a vote to approve the compensation of our named executive officers through the following resolution:

"RESOLVED, that the Company's stockholders approve, on an advisory basis, the compensation of the named executive officers, as disclosed in the Company's proxy statement for the 2011 Annual Meeting pursuant to the compensation disclosure rules of the SEC, including the Compensation Discussion and Analysis, the compensation tables and related narrative discussion."

The say-on-pay vote is advisory, and therefore not binding on the Company, the compensation committee or the board of directors. The board and compensation committee value the opinions of our stockholders and to the extent there is any significant vote against the named executive officer compensation as disclosed in this proxy statement, we will consider our stockholders' concerns and the compensation committee will evaluate whether any actions are necessary to address those concerns.

The board of directors recommends a vote "FOR" the approval of the compensation of the Company's named executive officers, as disclosed in this proxy statement.

PROPOSAL NO. 3
FREQUENCY OF ADVISORY VOTE ON EXECUTIVE COMPENSATION

In addition to the nonbinding advisory vote on executive compensation, the Dodd-Frank Act also enables our stockholders to indicate their preference for how frequently the Company should seek an advisory say-on-pay vote on the compensation of its named executive officers. This nonbinding frequency vote is required at least once every six years beginning with our 2011 Annual Meeting. By voting on Proposal 3, stockholders may indicate whether they would prefer an advisory say-on-pay vote on named executive officer compensation once every one, two, or three years.

The board of directors has determined that an annual advisory vote on executive compensation will permit our stockholders to provide direct input on the Company's executive compensation philosophy, policies and practices as disclosed in the proxy statement each year, which is consistent with our efforts to engage in an ongoing dialogue with our stockholders on executive compensation and corporate governance matters.

The option of one year, two years or three years that receives the highest number of votes cast by stockholders will be considered the frequency recommended by the stockholders for future advisory votes on executive compensation. The board will take the results of the vote into account when deciding when to call for the next advisory vote on executive compensation. However, because this vote is advisory and not binding on the board of directors in any way, the board may decide that it is in the best interests of the stockholders and the Company to hold an advisory vote on executive compensation more or less frequently than the option approved by our stockholders. A scheduling vote similar to this Proposal 3 must occur at least once every six years.

The proxy card provides stockholders with the opportunity to choose among four options (holding the vote every one, two or three years, or abstain from voting) and, therefore, stockholders will not be voting to approve or disapprove the recommendation of the board of directors.

The board of directors recommends that stockholders vote to hold an advisory vote on executive compensation EVERY YEAR.

PROPOSAL NO. 4

RATIFICATION OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The audit committee has appointed Grant Thornton LLP as our company's independent registered public accounting firm to audit the consolidated financial statements of our company for the fiscal year ending April 30, 2012. Grant Thornton LLP served as our independent registered public accounting firm for the fiscal year ended April 30, 2011.

A representative of Grant Thornton LLP is expected to be present at the annual meeting of stockholders, will have an opportunity to make a statement and will be available to respond to appropriate questions that stockholders may have.

Principal Accountant Fees and Services

The aggregate fees billed by Grant Thornton LLP for professional services rendered for the fiscal years ended April 30, 2011 and 2010, respectively, were as follows:

	2011	2010
Audit Fees	\$ 268,269	\$ 265,055
Audit related fees	-	-
Tax fees	-	5,150
All other Fees	-	-
Total Fees	\$ 268,269	\$ 270,205

The audit fees for the years ended April 30, 2011 and 2010 were for the audits of our annual financial statements included in our annual report on Form 10-K, the audit of the effectiveness of our internal control over financial reporting, the review of the financial statements included in our quarterly reports on Form 10-Q and consents for and review of other documents filed with the SEC.

The tax fees for the year ended April 30, 2010 were for consulting and assistance with Internal Revenue Service audits.

Our audit committee has considered whether the provision of non-audit services by Grant Thornton LLP to us is compatible with maintaining such firm's independence with respect to us and has determined that the provision of the specified non-audit services is consistent with and compatible with Grant Thornton LLP maintaining its independence. See "Audit Committee Report."

Policy on Audit Committee Pre-Approval of Services of Independent Auditors

Our audit committee has established policies and procedures regarding pre-approval of all services provided by our independent auditor. Our audit committee will annually review and pre-approve the services that may be provided by our independent auditor without obtaining specific pre-approval from the audit committee. Unless a type of service has received general pre-approval, it requires specific pre-approval by our audit committee if it is to be provided by our independent auditor. During the fiscal year ended April 30, 2011, our audit committee pre-approved all audit and permitted non-audit services that were provided to us by our independent auditors.

Ratification of the Independent Registered Public Accounting Firm

Although stockholder ratification is not required by our bylaws or otherwise, the appointment of Grant Thornton LLP as our company's independent registered public accounting firm to audit the consolidated financial statements for the fiscal year ending April 30, 2012 is being submitted to our stockholders for ratification because we believe it is a matter of good corporate governance. In the event our stockholders do not ratify the appointment of Grant Thornton LLP as the independent registered public accounting firm for the fiscal year ending April 30, 2012, the adverse vote

will be considered as a recommendation to the audit committee to select other auditors for the following fiscal year. However, due to the difficulty in making any substitution of auditors after the beginning of the fiscal year, it is contemplated that the appointment of Grant Thornton LLP for the fiscal year ending April 30, 2012 will be permitted to stand unless the audit committee finds other good reason for making a change. The audit committee may terminate Grant Thornton LLP's

engagement as our company's independent registered public accounting firm without the approval of our stockholders if it deems termination appropriate and in our best interest and the best interests of our stockholders.

The board of directors recommends a vote FOR the ratification of Grant Thornton LLP as our independent registered public accounting firm for the fiscal year ending April 30, 2012.

CORPORATE GOVERNANCE AND BOARD MATTERS

Meetings of the Board of Directors

During our last fiscal year, our board of directors held four meetings. Each incumbent director attended at least 75% of the aggregate number of meetings held by the board of directors and by the committees of the board of directors on which such director served.

It is the policy of our board of directors that all directors should attend the annual meeting of stockholders unless unavoidably prevented from doing so by unforeseen circumstances. All directors attended the 2010 annual meeting of stockholders.

Board Independence

Our board of directors currently consists of seven members. Our board of directors has determined that Daniel J. Englander, William M. Sams, John David Simmons and Robert Cameron Smith are “independent” as defined by the listing standards of The NASDAQ Stock Market, referred to in this proxy statement as NASDAQ. Our independent directors meet separately at least twice each year.

Board Leadership Structure

Currently Mr. Henderson serves as Chief Executive Officer and Mr. Falgout serves as Chairman of the Board. The board of directors currently believes that this leadership structure is advantageous because it allows Mr. Henderson to focus on the management of our business and our day-to-day operations. However, the board of directors does not have a policy that requires that the positions of Chairman of the Board and Chief Executive Officer be held by different people. The board of directors believes that this gives it the flexibility to determine that one person should hold both positions if such leadership structure would be in our best interests and the best interests of our stockholders.

The Board’s Role in Risk Oversight

The audit committee reviews and discusses with management our processes and policies with respect to risk assessment and risk management. In addition, our risk oversight process involves the board receiving information from management on a variety of matters, including operations, legal, regulatory, finance, reputation and strategy, as well as information regarding any material risks associated with each matter. The full board (or the appropriate board committee, if the board committee is responsible for the oversight of the matter) receives this information through updates from the appropriate members of management to enable it to understand and monitor the company’s risk management practices. When a board committee receives an update the chairperson of the relevant board committee reports on the discussion to the full board during the next board meeting. This enables the board and the board committees to coordinate the risk oversight role.

Stockholder Communications with the Board of Directors

Our board of directors has implemented a process for stockholders to send communications to our board of directors. Any stockholder desiring to communicate with our board of directors, or with specific individual directors, may do so by writing to our Secretary at 802 Southeast Plaza Ave., Suite 200, Bentonville, Arkansas 72712. Our Secretary has been instructed by our board of directors to promptly forward all such communications to our board of directors or such individual directors.

Committees of the Board of Directors

Our board of directors presently has three standing committees: audit committee, compensation and stock option committee, referred to in this proxy statement as the compensation committee, and nominating committee. Each of these committees is described below.

11

Audit Committee

Our audit committee assists our board of directors in overseeing our accounting and financial reporting process and audits for our financial statements. It is directly responsible for the appointment, compensation, retention and oversight of the work of our registered public accounting firm. Our audit committee reviews the auditing accountant's audit of our financial statements and its report thereon, management's report on our system of internal controls over financial reporting, various other accounting and auditing matters and the independence of the auditing accountants. The committee reviews and pre-approves all audit and non-audit services performed by our auditing accountants, or other accounting firms, other than as may be allowed by applicable law. Our audit committee has established procedures for the receipt, retention and treatment of complaints regarding accounting, internal accounting controls or auditing matters, and the confidential, anonymous submission by employees of concerns regarding questionable accounting and auditing matters. Our audit committee meets with management to review any issues related to matters within the scope of the audit committee's duties. The committee operates pursuant to a written charter adopted by our board of directors, which may be found on our website at www.car-mart.com.

Our audit committee presently consists of William M. Sams, John David Simmons and Daniel J. Englander, Chairman, each of whom is "independent," as such term is defined by the NASDAQ's listing standards and Rule 10A-3 of the Exchange Act. In addition, the board has determined that each audit committee member is able to read and understand fundamental financial statements and, other than strictly in his capacity as a member of our board of directors or a committee of our board of directors, has not participated in preparing our financial statements in any of the past three years. Our board of directors has determined that Daniel J. Englander is an "audit committee financial expert," as defined by the rules of the SEC. Our audit committee held three meetings during the last fiscal year. See "Audit Committee Report" for additional information regarding our audit committee.

Compensation Committee

Our compensation committee presently consists of William M. Sams, Daniel J. Englander and Robert Cameron Smith, Chairman, each of whom the board of directors has determined to be "independent" as defined by the NASDAQ listing standards. In addition, all compensation committee members are "outside directors" within the meaning of Section 162(m) of the Internal Revenue Code, and also "non-employee directors" within the meaning of Rule 16b-3 under the Exchange Act. Our compensation committee assists our board of directors with respect to our compensation programs and compensation of our executive officers and is authorized to administer our equity and non-equity incentive plans. Our compensation committee operates pursuant to a written charter adopted by our board of directors, which may be found on our website at www.car-mart.com. Our compensation committee held one meeting during the last fiscal year. See "Executive Compensation – Compensation Discussion and Analysis – Role of Compensation Committee" for additional information.

Nominating Committee

Our nominating committee presently consists of our current independent board members, Daniel J. Englander, William M. Sams, John David Simmons and Robert Cameron Smith. Our nominating committee operates pursuant to a written charter adopted by our board of directors, which may be found on our website at www.car-mart.com. Nominees for election to our board of directors are considered and recommended by our nominating committee. Our full board of directors considers the recommendations of the nominating committee and recommends the nominees to our stockholders. Our nominating committee's process for identifying and evaluating potential nominees includes soliciting recommendations from our directors and officers and considering nominations from our stockholders. Absent special circumstances, our nominating committee will continue to nominate qualified incumbent directors whom the nominating committee believes will continue to make important contributions to our board of directors. While there are no minimum qualifications for nomination, our nominating committee generally requires that nominees be persons of sound ethical character, be able to represent all stockholders fairly, have no

material conflicts of interest, have demonstrated professional achievement, have meaningful experience and have a general appreciation of the major issues facing us. In addition, the board of directors believes that it, as a whole, should possess a combination of skills, professional experience and diversity of backgrounds necessary to oversee our business. In seeking a diversity of background, the nominating committee seeks a variety of occupational and personal backgrounds in order to obtain a range of viewpoints and perspectives. Accordingly, the nominating committee considers the qualifications of directors and director candidates

individually and in the broader context of the board's overall composition and our current and future needs. In evaluating nominees, and considering incumbent directors for nomination, the nominating committee has considered all of the criteria described above and the nominating committee believes that all of the six director nominees listed above are highly qualified and have the skills and experience required for service on our board of directors. The biographies above contain specific information regarding the experiences, qualifications and skills of each of our director nominees. Our nominating committee held one meeting during the last fiscal year.

Stockholder Nominations

Our nominating committee will consider persons recommended by our stockholders in selecting nominees for election. Our nominating committee does not have a formal policy with regard to the consideration of any director candidates recommended by stockholders because it believes that it can adequately evaluate any such nominee on a case-by-case basis. However, our nominating committee would consider for possible nomination qualified nominees recommended by stockholders. Stockholders who wish to propose a qualified nominee for consideration should submit complete information as to the identity and qualifications of that person to our Secretary at 802 Southeast Plaza Ave., Suite 200, Bentonville, Arkansas 72712. See "Stockholder Proposals" for information regarding the procedures that must be followed by stockholders in order to submit stockholder proposals, including proposals to nominate director candidates.

Compensation Committee Interlocks and Insider Participation

None of the members of our compensation committee is or has been one of our officers or employees. There are no compensation committee interlocks and no insider participation in compensation decisions that are required to be disclosed in this proxy statement.

Code of Ethics

We have adopted a code of business conduct and ethics that applies to all employees, including executive officers and directors. A copy of our code was filed as Exhibit 14.1 to our annual report on Form 10-K for the fiscal year ended April 30, 2004. In the event that we make any amendments to, or grant any waiver from, a provision of the code that requires disclosure under applicable SEC or NASDAQ rules, we will disclose such amendment or waiver and the reasons therefore as required.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Exchange Act requires our directors, executive officers and persons who own more than 10% of our outstanding common stock to file with the SEC reports of changes in ownership of our common stock held by such persons. Executive officers, directors and greater than 10% stockholders are also required to furnish us with copies of all forms they file under Section 16(a). To our knowledge, based solely on a review of the copies of such reports furnished to us and representations that no other reports were required, during the fiscal year ended April 30, 2011, our executive officers, directors and greater than 10% stockholders complied on a timely basis with all Section 16(a) filing requirements applicable to them, except for as follows: two Form 4 "Statement of Changes in Beneficial Ownership" reports, referred to in this proxy statement as Form 4 reports, for William H. Henderson, each reporting one transaction, were filed late; two Form 4 reports for Eddie L. Hight, each reporting one transaction, were filed late; and one Form 4 report for Jeffrey A. Williams reporting one transaction was filed late.

The following table provides certain information concerning compensation for each director during the fiscal year ended April 30, 2011. Discussion of Director Compensation

Effective November 1, 2004, each non-employee director receives a \$3,000 monthly retainer. The chairman of our audit committee receives an additional \$2,000 monthly retainer. Directors who are also our employees do not receive separate compensation for their services as a director. On the first business day of May in each year, each of our then serving non-employee directors is automatically granted an option under our Option Plan to purchase 3,750 shares of common stock, except for the Chairman of the board, who receives an option to purchase 5,000 shares of common stock. These options are issued at an exercise price equal to the fair market value of our common stock on the date of grant. These options are vested upon grant and are exercisable for a period of up to ten years from the date of grant or, in the event that a director ceases to be one of our directors for any reason, one year following the date on which such director ceased to be a director, if earlier.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

Compensation Philosophy

Our compensation philosophy is to align the interests of our executive officers with those of our stockholders and induce our executive officers to remain in our employ. We believe that this is best accomplished by the following:

- paying executives a base salary commensurate with their backgrounds, industry knowledge, special skill sets and responsibilities;
- offering incentive cash bonuses conditioned on our consolidated financial results; and
 - making periodic grants of restricted stock and/or stock options.

Our overall goal is to ensure that our executive compensation program and policies are consistent with our strategic business objectives and that we provide incentives for the attainment of those objectives. We strive to accomplish this goal in the context of a compensation program that includes annual base salary, annual cash incentives and stock ownership.

Role of Compensation Committee

Our compensation committee retains broad flexibility in the administration of our executive compensation program. We believe this flexibility is critical to retaining key executives. Our compensation committee is focused on ensuring that executive compensation is directly tied to our economic performance.

Our compensation committee operates under a written charter adopted by our board of directors. Our compensation committee has several duties and responsibilities, including the following:

- establish and review our overall executive compensation philosophy;
- review and approve our goals and objectives relevant to the compensation of our Chief Executive Officer and other executive officers, including annual performance objectives;
- on an annual basis, review the compensation and performance of our officers, review and approve corporate goals relevant to the compensation of our Chief Executive Officer and other executive officers, evaluate our Chief Executive Officer's performance in light of these goals and objectives, evaluate the performance of our other executive officers, and based on such evaluation, approve the annual compensation of our Chief Executive Officer and other executive officers;
- review the annual compensation discussion and analysis and produce an annual report on executive compensation for inclusion in our annual proxy statement, in accordance with all applicable rules and regulations;
- as requested by our board of directors, make recommendations to our board of directors with respect to the approval of incentive compensation plans and equity-based incentive plans, and administer such plans;
- periodically review the policies and criteria for the administration of all executive compensation programs, the operations of the compensation programs and whether they are achieving their intended purposes;

- monitor compliance by executives with the terms and conditions of our executive compensation plans and programs;

15

- establish and periodically review policies in the area of senior management perquisites;
- review board of director compensation levels and practices periodically, and recommend to our board of directors, from time to time, changes in such compensation levels and practices;
- review and approve plans and processes for management development and succession; and
- periodically review and reassess the adequacy of the compensation committee charter and recommend any proposed changes to our board of directors for approval.

For additional information on the duties and responsibilities of our compensation committee, see our compensation committee charter available on our website at www.car-mart.com.

Compensation Process

Our compensation committee reviews and administers our compensation program for each of our named executive officers. Compensation is typically set at multi-year increments in order to help ensure that longer-term results are the primary focus, which we believe is critically important in our industry. Our compensation committee periodically meets with our Chief Executive Officer, who provides insight into how individual executives are performing.

Employment Agreements

We have employment agreements with all of our named executive officers. We believe that the employment agreements, which include change-in-control provisions, are necessary to attract and retain executives in light of all relevant factors, which include each officer's past employment experience, desired terms and conditions of employment, and the strategic importance of their respective positions. We believe that the change-in-control provisions are necessary to maintain stability among our executive group and that the terms of such provisions are reasonable based on our review of similar provisions for similar companies. Our compensation committee reviews the employment agreements at the time such agreements are entered into in order to determine current market terms for the particular executive and agreement. See "Executive Compensation – Employment Agreements" and "Executive Compensation – Change in Control Agreements" for a discussion of the terms of the employment agreements.

Total Compensation and Elements of Compensation

Our principal focus is on total compensation, a significant portion of which is based on each executive's performance and is not guaranteed. Although we do informally review what other companies within our industry or other companies of comparable size, growth, performance and complexity are offering to their executives, we believe the appropriate level of compensation is determined through careful consideration of the individual employee and our business goals. We consider a variety of factors in determining the total compensation for our named executive officers, including their backgrounds, industry knowledge, special skill sets and responsibilities.

Our executive compensation program primarily consists of base salary, annual short-term incentives in the form of cash awards, and long-term incentives in the form of restricted stock and/or stock options. We also provide certain of our named executive officers with minimal perquisites and personal benefits. In addition, we provide our named executive officers with the ability to contribute a portion of their earnings to our 401(k) plan. Our 401(k) plan is available generally to all of our employees.

Base Salary

We offer what we believe to be competitive base salaries to our named executive officers. The base salary must be sufficient to attract talented executives and provide a secure base of cash compensation. Due to the relatively small size of our industry and the non-existence of public competitors, we have not engaged in any formal compensation benchmarking studies; however, our base salary levels for our named executive officers are generally set to be competitive in relation to salary levels of executive officers in other companies within our industry or other companies of comparable size, growth, performance and complexity, while also taking into consideration the executive officer's position, responsibility and special expertise. Annual base salary increases, typically determined in May of each year, are not assured and adjustments to base salary take into account subjective factors such as the executive's performance during the prior year, responsibilities and experience. In fiscal 2011, Mr. Henderson received a 16.7% increase in base salary to \$350,000. Mr. Henderson did not receive an increase in fiscal 2010. In fiscal 2011, Mr. Hight and Mr. Williams received an 18.9% and 22.2% increase, respectively, in base salary to \$250,000. In fiscal 2010, Mr. Hight and Mr. Williams both received a 12.2% increase in base salary to \$210,319 and \$204,626, respectively. These increases represented partial cost of living adjustments and were made in accordance with the amendments to the employment agreements entered into in November 2009. The factors considered in deciding to grant these increases included performance of the Company in the prior fiscal year, their direct contributions to the increased profitability of the Company, increased experience and specialized industry knowledge as well as compensation levels the compensation committee considered to be appropriate to remain generally competitive with similar sized public companies. See "Executive Compensation – Employment Agreements" for a discussion of the terms of the employment agreements, as amended.

Economic Profit

Prior to fiscal year 2011, the performance criteria for our named executive officers for their short-term and long-term incentive compensation was economic profit per share, as opposed to profit under generally accepted accounting principles, referred to in this proxy statement as GAAP. We define economic profit per share as net operating profit after taxes minus the cost of capital (after tax) necessary to generate those profits, divided by the number of fully diluted shares outstanding. Economic profits are realized only if actual financial results exceed the cost of capital to generate those profits. Economic profit is neither calculated in accordance with, nor should it be considered an alternative to, GAAP. However, we believe that maximizing economic profit is important in creating long-term stockholder value and that it provides our stockholders with another meaningful tool to evaluate our performance. Economic profit was \$1.30 per diluted share in fiscal 2010 compared to a revised budget of \$.81 per diluted share (60.5% above budget). The initial economic profit budget for fiscal 2010 was \$.68 per diluted share. Economic profit was \$.84 per diluted share in fiscal 2009 compared to a revised budget of \$.72 per diluted share (16.7% above budget). The initial economic profit budget for fiscal 2009 was \$.54 per diluted share.

GAAP Earnings per Share

Effective for fiscal 2011 through fiscal 2015 and for an additional short-term cash incentive granted to our named executive officers for fiscal 2010, the performance criteria for our named executive officers for their short-term and a portion of their long-term incentive compensation is fully diluted GAAP earnings per share. Because we have fully instituted measures to better monitor operating results, including economic profits, and significant infrastructure investments have been made and have become a standard part of our operations over the last three years, the compensation committee decided to use fully diluted GAAP earnings per share as the measure for incentive compensation. Using fully diluted GAAP earnings per share will directly align the goals of our named executive officers with our stockholders. See "Executive Compensation – Employment Agreements" for a discussion of the terms of the employment agreements and the performance criteria for each named executive officer.

Short-Term Incentive Compensation

Our short-term incentive plans for our named executive officers, which are contained in their employment agreements, are intended to drive short-term operating and financial results deemed crucial to our long-term term success. Our program entails granting annual cash incentive bonuses which are dependent on our performance. The purpose of the annual cash incentive bonuses paid to our named executive officers is to reflect the breadth of their experience and

17

responsibility, and to make the cash component of their compensation competitive. These cash incentive bonuses are a material portion of the named executive officers' overall compensation. All such cash incentive bonuses are subject to our compensation committee's discretion to award cash incentives greater than the target if deemed appropriate. Our compensation committee also administers the calculation of amounts earned under the short-term incentive plans.

For fiscal years 2009 and 2010, the performance criteria for our short-term incentive plans for our named executive officers were based on attaining certain levels of economic profit per diluted share. Target payments typically ranged from 10% to 20% of base salary, depending on the named executive officer's position and our performance as related to our economic profit per share goals. Our compensation committee set the awards for each named executive officer based on the duration of employment with us, job responsibilities, industry knowledge, special skills and performance. The performance goals are set at levels that our compensation committee considers attainable, but not assured, and representative of solid operating and financial performance within our industry. Our compensation committee revised the initial target levels set for the performance goals for fiscal 2009 once (after the completion of fiscal 2008) and twice for fiscal 2010 (after the completion of fiscal 2008 and again at the completion of fiscal 2009).

For fiscal 2010, the compensation committee added an additional short-term incentive bonus for the named executive officers based on the attainment of a specific target for fully diluted GAAP earnings per share of \$2.20 for fiscal 2010. Actual fully diluted earnings per share for fiscal 2010 was \$2.27 and, as a result, Mr. Henderson received an additional cash incentive bonus of \$60,000, Mr. Hight received an additional cash incentive bonus of \$36,000 and Mr. Williams received an additional cash incentive bonus of \$30,000.

Effective for fiscal 2011 through fiscal 2015, the performance criteria for our short-term incentive plans for our named executive officers is fully diluted GAAP earnings per share. Target payments range from 19% to 70% of base salary, depending on the named executive officer's position and our performance as related to our fully diluted GAAP earnings per share goals. Our compensation committee set the awards for each named executive officer based on the duration of employment with us, job responsibilities, industry knowledge, special skills and performance. The performance goals are set at levels that our compensation committee considers attainable, but not assured, and representative of solid operating and financial performance within our industry. See "Executive Compensation – Employment Agreements" for a discussion of the performance criteria for each named executive officer.

Long-Term Incentive Compensation

Our compensation objective of inducing executives to remain in our employ as well as aligning their interests with those of our stockholders leads us to make periodic equity awards. These awards provide incentives for our named executive officers to remain with us over the long term and gives the compensation committee additional flexibility to reward superior performance by our named executive officers. We believe that dependence on equity for a significant portion of a named executive officer's compensation more closely aligns such executive's interests with those of our stockholders, since the ultimate value of such compensation is linked directly to our stock price.

We utilize our two equity incentive plans for our long-term incentive compensation, the 2007 Stock Option Plan, referred to in this proxy statement as the Option Plan, and the Stock Incentive Plan, referred to in this proxy statement as the Incentive Plan. The allocation of long-term incentive compensation between stock options under the Option Plan and restricted stock under the Incentive Plan is generally made with the goal of rewarding long-term service with the issuance of restricted shares and rewarding efforts related to increasing the stock price over the long-term with the issuance of stock options. In fiscal 2008, stock options were granted to our named executive officers that were performance-based and, like our short-term incentive compensation, were to be earned by the named executive officer only if we met certain economic profit per share goals. Our compensation committee revised the initial target levels set for the performance goals for fiscal 2009 once (after the completion of fiscal 2008) and twice for 2010 (after the completion of fiscal 2008 and again at the completion of fiscal 2009). These performance-based stock options vested at 100% on June 18, 2010 based on the attainment of the revised economic profit per share target. See "Executive

Compensation – Employment Agreements” for a discussion of the performance criteria for the long-term incentive compensation of our named executive officers. In addition, in fiscal 2008, restricted stock awards that vested in equal installments at the end of each of fiscal year 2008, 2009 and 2010 were granted to Mr. Henderson and Mr. Hight.

In fiscal 2010, in connection with the amendments to the employment agreements of our named executive officers, our compensation committee granted the named executive officers restricted stock awards that vest upon the attainment of certain fully diluted GAAP earnings per share goals. See “Executive Compensation – Employment Agreements” for a discussion of the performance criteria for the long-term incentive compensation of our named executive officers. In addition, each of the named executive officers were granted stock options that vest in equal installments at the end of each of fiscal year 2011, 2012, 2013, 2014 and 2015.

As discussed below under the section entitled “Executive Compensation - Employment Agreements,” we are prepared to issue significant equity awards to certain key executives as part of our strategy of providing meaningful long-term performance-based incentives for our management team in order to more closely align management’s interest with the interests of our stockholders.

Perquisites and Personal Benefits

Our named executive officers receive additional compensation consistent with our philosophy of hiring and retaining key personnel. Such perquisites include executive health insurance, automobile allowances, club dues and matching contributions to our 401(k) plan. See “Executive Compensation – Summary Compensation Table for Fiscal 2011” for the aggregate incremental cost to us during fiscal 2011 of such benefits. The Company in past years has also made certain cash payments to the executive officers pursuant to their employment agreements or on a discretionary basis to defray the income taxes due upon the vesting of restricted stock. These amounts were known as tax gross-up payments. No tax gross up payments were paid during 2011, and the Company does not presently intend to make tax gross-up payments in the future related to the vesting of restricted stock. Tax gross-up amounts paid in fiscal 2010 and 2009 were paid in accordance with the employment agreements. No discretionary amounts for tax gross-ups were paid in fiscal 2010 or 2009.

Equity Ownership Guidelines

We have an ownership philosophy, rather than a formal policy, regarding equity ownership by our named executive officers. The objectives of our philosophy are to instill an ownership mindset among our senior management and to align the interests of our named executive officers with the interests of our stockholders. The long-term incentive compensation arrangements discussed above are intended to bring the beneficial ownership interests of our named executive officers more in line with our compensation committee’s ownership level expectations.

Deductibility of Executive Compensation

The deductibility of executive compensation under Section 162(m) of the Internal Revenue Code, as amended, which provides that we may not deduct compensation of more than \$1,000,000 that is paid to certain individuals, has not been a material consideration for our compensation committee due to the levels and types of compensation paid to our named executive officers.

Accounting for Stock-Based Compensation

In accordance with recent SEC rule changes, stock-based compensation expense is computed in accordance with accounting rules that are a part of GAAP as set forth in Financial Accounting Standards Board’s Accounting Standards Codification Topic 718. The expense related to equity compensation has been and will continue to be a material consideration in our overall compensation program.

Risk Considerations in our Compensation Program

The compensation committee is responsible for reviewing and overseeing the compensation and other benefits structure applicable to our employees generally. We do not believe that our compensation policies and practices for our employees give rise to risks that are reasonably likely to have a material adverse effect on our company. In reaching this conclusion, we considered the following factors:

19

Edgar Filing: AMERICAS CARMART INC - Form DEF 14A

- Our compensation program is designed to provide a combination of both fixed and variable incentive compensation.
- The variable portions of compensation are designed to reward both annual performance and longer term performance. We believe this lessens any incentive for short-term risk taking that could be detrimental to our company's long-term best interests.
- A significant portion of our management's compensation is based on the performance of our company as a whole.

Our named executive officers are entitled to all benefits generally made available to our employees, including the eligibility to participate in our 401(k) plan. Our 401(k) plan is intended to be a tax-qualified defined contribution plan under Section 401(k) of the Internal Revenue Code of 1986, as amended, referred to in this proxy statement as the Code. In general, all of our employees who are at least 21 years of age are eligible to participate in our 401(k) plan one year following the date they were hired. Our 401(k) plan includes a salary deferral arrangement pursuant to which the participants may contribute up to the maximum amount permitted by the Code. We may make both matching and additional contributions, subject to certain Code limitations, at the discretion of our board of directors. A separate account is maintained for each participant in our 401(k) plan. The portion of a participant's account attributable to his or her own contributions is 100% vested. Distributions from our 401(k) plan may be made in the form of a lump sum cash payment or, for required minimum distribution, in installment payments.

Grants of Plan-Based Awards during Fiscal 2011

There were no grants of plan-based awards during fiscal year 2011.

Employment Agreements

In August 2007, we entered into employment agreements with each of our named executive officers and in November 2009, we entered into amendments to such employment agreements. The following is a discussion of the employment agreements related to the compensation earned by and paid to our named executive officers for fiscal 2011 and the compensation of our named executive officers for fiscal 2012 through fiscal 2015.

Each of the employment agreements with our named executive officers contains an agreement not to compete, which covers the term of employment and one year thereafter, a covenant against the solicitation of employees and customers, which covers the term of employment and one year thereafter, a provision against the use and disclosure of trade secrets, which covers the term of employment and an indefinite period thereafter, and a provision against the use and disclosure of confidential information, which covers the term of employment and two years thereafter.

William H. Henderson. Pursuant to the amendment to his employment agreement dated November 13, 2009, Mr. Henderson agreed to serve as a senior executive officer of our operating subsidiary for a term beginning May 1, 2010 and ending on April 30, 2015. For fiscal 2011, Mr. Henderson was entitled to a base annual salary of \$350,000, or such higher annual salary approved by our board of directors. Mr. Henderson has the right to participate in any operating subsidiary 401(k) profit sharing plan, as well as the medical and life insurance programs offered by our operating subsidiary.

In addition, pursuant to the amendment to his employment agreement, Mr. Henderson is entitled to earn an annual incentive bonus during the term beginning May 1, 2010 and ending April 30, 2015. Such incentive bonus will be based upon the attainment of our projected fully diluted GAAP earnings per share for each fiscal year. Mr. Henderson's bonus potential is \$125,000, \$137,500, \$151,250, \$166,375 and \$183,013 for fiscal years 2011, 2012, 2013, 2014 and 2015, respectively. If our actual fully diluted GAAP earnings per share equals 95-99% of the projected fully diluted GAAP earnings per share, the bonus for each fiscal year will be the bonus potential for such year multiplied by 0.67. If our actual fully diluted GAAP earnings per share equals 100-104% of the projected fully diluted GAAP earnings per share, the bonus for each fiscal year will be the bonus potential for such year multiplied by 1.0. If our actual fully diluted GAAP earnings per share equals 105% or more of the projected fully diluted GAAP earnings per share, the bonus for each fiscal year will be the bonus potential for such year multiplied by 1.33. For fiscal 2011, Mr. Henderson earned a bonus of \$83,750 based upon the actual fully diluted GAAP earnings per share of \$2.54, which equaled 97% of our projected fully diluted earnings per share of \$2.61.

Pursuant to the amendment to his employment agreement, Mr. Henderson also received 10,000 shares of restricted stock on November 27, 2009 pursuant to our Incentive Plan, which shares will vest on April 30, 2015 if we attain at least 70% of our cumulative projected fully diluted GAAP earnings per share for the period commencing on May 1, 2010 and ending on April 30, 2015. On the same date, Mr. Henderson also received, pursuant to our Option Plan, non-qualified stock options to purchase 240,000 shares of our common stock, which options vest in equal installments (48,000 options) on each of April 30, 2011, April 30, 2012, April 30, 2013, April 30, 2014 and April 30, 2015.

Pursuant to the terms of his employment agreement, as amended, if we terminate Mr. Henderson without cause (as defined in the employment agreement) and not in connection with a change in control, Mr. Henderson's base salary will continue to be payable through the term of the employment agreement, Mr. Henderson will be paid, within 60 days after termination, the pro rata portion of any bonus earned through the date of termination, and all unvested restricted stock and stock options will immediately vest in full without regard to the achievement of any applicable performance goals. This provision has been in place in Mr. Henderson's employment agreement since its inception in

August 2007. Assuming Mr. Henderson was terminated on April 30, 2011, and using the closing market price of our common stock on April 30, 2011 of \$24.48, the estimated payment amount would have been \$1,702,544.

Eddie L. Hight. Pursuant to the amendment to his employment agreement dated November 13, 2009, Mr. Hight agreed to serve as a senior executive officer of our operating subsidiary for a term ending on April 30, 2015. Mr. Hight is

21

entitled to a base annual salary of \$250,000, or such higher annual salary approved by our board of directors. Mr. Hight has the right to participate in any operating subsidiary 401(k) profit sharing plan, as well as the medical and life insurance programs offered by our operating subsidiary.

In addition, pursuant to the amendment to his employment agreement, Mr. Hight is entitled to earn an annual incentive bonus during the term beginning May 1, 2010 and ending April 30, 2015. Such incentive bonus will be based upon the attainment of our projected fully diluted GAAP earning per share for each fiscal year. Mr. Hight's bonus potential is \$70,000, \$77,000, \$84,700, \$93,170 and \$102,487 for fiscal years 2011, 2012, 2013, 2014 and 2015, respectively. If our actual fully diluted GAAP earnings per share equals 95-99% of the projected fully diluted GAAP earnings per share, the bonus for each fiscal year will be the bonus potential for such year multiplied by 0.67. If our actual fully diluted GAAP earnings per share equals 100-104% of the projected fully diluted GAAP earnings per share, the bonus for each fiscal year will be the bonus potential for such year multiplied by 1.0. If our actual fully diluted GAAP earnings per share equals 105% or more of the projected fully diluted GAAP earnings per share, the bonus for each fiscal year will be the bonus potential for such year multiplied by 1.33. For fiscal 2011, Mr. Hight earned a bonus of \$46,900 based upon the actual fully diluted GAAP earnings per share of \$2.54, which equaled 97% of our projected fully diluted earnings per share of \$2.61.

Pursuant to the amendment to his employment agreement, Mr. Hight also received 5,000 shares of restricted stock on November 27, 2009 pursuant to our Incentive Plan, which shares will vest on April 30, 2015 if we attain at least 70% of our cumulative projected fully diluted GAAP earnings per share for the period commencing on May 1, 2010 and ending on April 30, 2015. On the same date, Mr. Hight also received, pursuant to our Option Plan, non-qualified stock options to purchase 120,000 shares of our common stock, in which options vest in equal installments (24,000 options) on each of April 30, 2011, April 30, 2012, April 30, 2013, April 30, 2014 and April 30, 2015.

Pursuant to the terms of his employment agreement, as amended, if we terminate Mr. Hight without cause and not in connection with a change in control, Mr. Hight's base salary will continue to be payable through the term of the employment agreement, Mr. Hight will be paid, within 60 days after termination, the pro rata portion of any bonus earned through the date of termination, and all unvested restricted stock and stock options will immediately vest in full without regard to the achievement of any applicable performance goals. This provision has been in place in Mr. Hight's employment agreement since its inception in August 2007. Assuming Mr. Hight was terminated on April 30, 2011, and using the closing market price of our common stock on April 30, 2011 of \$24.48, the estimated payment amount would have been \$1,151,272.

Jeffrey A. Williams. Pursuant to the amendment to his employment agreement dated November 13, 2009, Mr. Williams agreed to serve as a senior executive officer of our operating subsidiary for a term ending on April 30, 2015. Mr. Williams is entitled to an annual salary of \$250,000, or such higher annual salary approved by our board of directors. Mr. Williams has the right to participate in any operating subsidiary 401(k) profit sharing plan, as well as the medical and life insurance programs offered by our operating subsidiary.

In addition, pursuant to the amendment to his employment agreement, Mr. Williams is entitled to earn an annual incentive bonus during the term beginning May 1, 2010 and ending April 30, 2015. Such incentive bonus will be based upon the attainment of our projected fully diluted GAAP earning per share for each fiscal year. Mr. Williams' bonus potential is \$70,000, \$77,000, \$84,700, \$93,170 and \$102,487 for fiscal years 2011, 2012, 2013, 2014 and 2015, respectively. If our actual fully diluted GAAP earnings per share equals 95-99% of the projected fully diluted GAAP earnings per share, the bonus for each fiscal year will be the bonus potential for such year multiplied by 0.67. If our actual fully diluted GAAP earnings per share equals 100-104% of the projected fully diluted GAAP earnings per share, the bonus for each fiscal year will be the bonus potential for such year multiplied by 1.0. If our actual fully diluted GAAP earnings per share equals 105% or more of the projected fully diluted GAAP earnings per share, the bonus for each fiscal year will be the bonus potential for such year multiplied by 1.33. For fiscal 2011, Mr. Williams earned a bonus of \$46,900 based upon the actual fully diluted GAAP earnings per share of \$2.54, which

equaled 97% of our projected fully diluted earnings per share of \$2.61.

Pursuant to the amendment to his employment agreement, Mr. Williams also received 5,000 shares of restricted stock on November 27, 2009 pursuant to our Incentive Plan, which shares will vest on April 30, 2015 if we attain at least

70% of our cumulative projected GAAP earnings per share for the period commencing on May 1, 2010 and ending on April 30, 2015. On the same date, Mr. Williams also received, pursuant to our Option Plan, non-qualified stock options to purchase 120,000 shares of our common stock, which options vest in equal installments (24,000 options) on each of April 30, 2011, April 30, 2012, April 30, 2013, April 30, 2014 and April 30, 2015.

Pursuant to the terms of his employment agreement, as amended, if we terminate Mr. Williams without cause and not in connection with a change in control, Mr. Williams' base salary will continue to be payable through the term of the employment agreement, Mr. Williams will be paid, within 60 days after termination, the pro rata portion of any bonus earned through the date of termination, and all unvested restricted stock and stock options will immediately vest in full without regard to the achievement of any applicable performance goals. This provision has been in place in Mr. Williams' employment agreement since its inception in August 2007. Assuming Mr. Williams was terminated on April 30, 2011, and using the closing market price of our common stock on April 30, 2011 of \$24.48, the estimated payment amount would have been \$1,151,272.

Stock Plans

2007 Stock Option Plan. In August 2007, our board of directors adopted the 2007 Stock Option Plan, referred to in this proxy statement as the Option Plan, which was subsequently approved by our stockholders at our 2007 annual meeting of stockholders. The Option Plan originally set aside 1,000,000 shares of our common stock for option grants to employees, directors and certain independent contractors, consultants and advisors at a price not less than the fair market value of our common stock on the date of grant or the par value per share of our common stock. Our stockholders approved an amendment to the Option Plan on October 13, 2010 to increase the number of shares available under the Option Plan by 500,000 shares to 1,500,000 shares. Options may be exercised in whole or in part, but in no event later than ten years from the date of grant with respect to incentive options. Any incentive option granted to an individual who owns more than 10% of the total combined voting of all classes of our stock or the stock of one of our subsidiaries may not be purchased at a price less than 110% of the fair market value on the date of grant, and no such option may be exercised more than five years from the date of grant. At April 30, 2011, there were 506,250 shares of common stock available for grant under the Option Plan. The Option Plan expires in August 2017.

1997 Stock Option Plan. In July 1997, our board of directors adopted the 1997 Stock Option Plan, referred to in this proxy statement as the 1997 Plan, which was subsequently approved by our stockholders at our 1997 annual meeting of stockholders. The 1997 Plan set aside 1,500,000 shares of our common stock for grants to employees, directors and certain advisors at a price not less than fair market value of our common stock on the date of grant. The options vest upon issuance. The purchase price of the shares purchased upon exercise must be equal to 100% of the market price on the date of grant; provided, that the purchase price of stock delivered upon the exercise of a qualified incentive stock option granted to a ten percent owner must not be less than 110% of the market price on the date of grant. Options granted pursuant to the 1997 Plan will expire five to ten years from the date of grant. The 1997 Plan expired in July 2007 and at April 30, 2011 there were no shares of common stock available for grant under the 1997 Plan.

Stock Incentive Plan. In August 2005, our board of directors adopted the Incentive Plan, which was subsequently approved by our stockholders at our 2005 annual meeting of stockholders. The Incentive Plan originally set aside 150,000 shares of our common stock for grants to our employees, officers and directors. Our stockholders approved an amendment to the Incentive Plan on October 14, 2009 to increase the number of shares available under the Incentive Plan by 200,000 shares to 350,000 shares. Shares granted under the Incentive Plan have full voting rights prior to the date of vesting, if any; however, holders of any unvested shares must execute an irrevocable proxy granting us the right to vote such shares until the shares vest. At April 30, 2011, there were 187,027 shares of common stock available for grant under the Incentive Plan. The Incentive Plan will expire pursuant to its terms in August 2015.

Option Exercises and Stock Vested during Fiscal 2011

There were no option exercises or stock awards vested for any named executive officer during the fiscal year ended April 30, 2011.

Change in Control Agreements

The employment agreements with our named executive officers entered into in August 2007 and amended in November 2009 contain change in control provisions entitling them, upon the occurrence of certain events, to a portion of their base salary and the immediate vesting of stock options and restricted stock. Based on the size of the company, the industry in which it operates and because there are only three executives with employment agreements, the single trigger for change of control payments was established to more closely align the interests of the three executive officers with stockholders should there ever be a proposed change of control event and has been part of the employment agreements since their inception. Under the terms of the employment agreements, a change in control generally means the following:

24

- the acquisition by an individual, entity or group (within the meaning of Section 409A of the Code) of ownership of our stock that, together with stock held by such person, constitutes more than 50% of the total fair market value or total voting power of our stock;
- the acquisition by an individual, entity or group (within the meaning of Section 409A of the Code) during the twelve-month period ending on the date of the most recent acquisition by such person of ownership of our stock possessing 35% or more of the total voting power of our stock;
- the replacement of a majority of the members of our board of directors during any twelve-month period by directors whose appointment or election is not endorsed by a majority of the members of our board of directors prior to the date of the appointment or election; or
- the acquisition by an individual, entity or group (within the meaning of Section 409A of the Code) during the twelve-month period ending on the date of the most recent acquisition by such person of our assets that have a total gross fair market value equal to or more than 40% of the total gross fair market value of all of our assets immediately prior to such acquisition.

In the event of a change in control while the named executive officer is still employed under his employment agreement, on the date the change in control becomes effective, we must pay the named executive officer a lump sum cash payment equal to 2.99 times the “base amount” (as defined by Section 280G of the Code) with respect to his compensation and all unvested restricted stock and stock options previously granted vest in full, without regard to the achievement of any applicable performance goals. Such payments are referred to in this proxy statement as change in control payments. If, prior to the change in control, we terminate the named executive officer without cause and the termination is related to the change in control, then, for purposes of his change in control payments, such named executive officer will be treated as being employed on the date the change in control becomes effective. In such case, the named executive officer will receive the change in control payments in addition to any other compensation to which the named executive officer is entitled under his employment agreement as a result of his termination. A termination without cause includes any termination other than for “cause”, which generally consists of a breach, gross negligence or wrongdoing by the named executive officer.

If it is determined that any payment made in connection with a change in control or termination thereafter would be subject to excise taxes, the named executive officer will be entitled to receive a one-time additional payment in an amount reasonably determined by an independent accounting firm to be equal to such excise tax. Payments are payable even if such named executive officer is not eligible for termination benefits under his employment agreement. In the event of any underpayment of such amount, the amount of such underpayment will be promptly paid by us. In the event of any overpayment, the named executive officer will, at our direction and expense, take steps as are reasonably necessary to correct such overpayment; provided, however, that the named executive officer will in no event be obligated to return to us an amount greater than the net after-tax portion of the overpayment and the applicable provisions of the employment agreement will be interpreted in a manner consistent with the intent of making the named executive officer whole, on an after-tax basis.

Assuming that (1) a change in control occurred on April 30, 2011, and (2) the named executive officers were not terminated in connection with the change in control, and using the closing market price of our common stock on April 30, 2011 of \$24.48, the estimated payment amounts would have been as follows: \$2,565,894 for Mr. Henderson; \$1,549,619 for Mr. Hight; and \$1,052,388 for Mr. Williams. Assuming that (1) a change in control occurred on April 30, 2011, and (2) prior to the change in control the named executive officers were terminated without cause in connection with the change in control, and using the closing market price of our common stock on April 30, 2011 of \$24.48, the estimated payment amounts would have been as follows: \$4,245,894 for Mr. Henderson; \$2,749,619 for Mr. Hight; and \$2,252,388 for Mr. Williams.

If a named executive officer is a “specified employee” within the meaning of Section 409A of the Code, any benefits or payments that constitute a “deferral of compensation” under the Section 409A of the Code, become payable as a result of the named executive officer’s termination for reasons other than death, and become due under the employment

agreement during the first six months after termination of employment will be delayed and all such delayed payments will be paid to such named executive officers in full in the seventh month after the date of termination and all subsequent payments will be paid in accordance with their original payment schedule.

TRANSACTIONS WITH RELATED PERSONS, PROMOTERS AND CERTAIN CONTROL PERSONS

For the fiscal year ended April 30, 2011, there were no transactions with related persons required to be disclosed in this proxy statement.

In accordance with our audit committee charter, our audit committee is responsible for reviewing and approving, or rejecting, any transactions with “related persons” as defined by SEC rules and any potential conflicts of interest between us and any third party. The audit committee reviews and considers such transactions on a case-by-case basis in light of all facts and circumstances and does not use any prescribed criteria for approving or rejecting any proposed transaction or relationship.

AUDIT COMMITTEE REPORT

In accordance with the written charter adopted by our board of directors, a copy of which is available on our website, the audit committee assists the board of directors in fulfilling its responsibility for oversight of the quality and integrity of our accounting, auditing and financial reporting practices. During the fiscal year ended April 30, 2011, the audit committee met four times and discussed internal control, accounting, auditing and our financial reporting practices with our Chief Financial Officer and our independent auditors and accountants, Grant Thornton LLP. In discharging its oversight responsibility as to the audit process, each member of our audit committee has reviewed our audited financial statements as of and for the fiscal year ended April 30, 2011 and the audit committee held one meeting with management and Grant Thornton LLP to discuss the audited financial statements prior to filing our annual report on Form 10-K. Our audit committee also met with Grant Thornton LLP to discuss the matters required to be disclosed by statement on Auditing Standards No. 61, as amended (Professional Standards), prior to filing our annual report on Form 10-K.

In addition, the audit committee has received from Grant Thornton LLP the written disclosures and the letter required by the applicable requirements of the Public Company Accounting Oversight Board regarding Grant Thornton LLP's communications with the audit committee concerning independence and has discussed with Grant Thornton LLP its independence in connection with its audit of our financial statements for the fiscal year ended April 30, 2011. Our audit committee has also considered whether Grant Thornton LLP's provision of non-audit services to us is compatible with maintaining such firm's independence with respect to us and has determined that the provision of certain non-audit services is consistent with and compatible with Grant Thornton LLP maintaining its independence. See "Principal Accounting Fees and Services." Based upon the foregoing reviews and discussions, the audit committee recommended to our board of directors that the audited financial statements be included in our annual report on Form 10-K for the fiscal year ended April 30, 2011.
