PUBLIX SUPER MARKETS, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(1) Basis of Presentation

The accompanying unaudited condensed consolidated financial statements of Publix Super Markets, Inc. and subsidiaries (the Company) have been prepared in accordance with U.S. generally accepted accounting principles (GAAP) and the rules and regulations of the Securities and Exchange Commission (SEC) for interim financial reporting. Accordingly, the accompanying statements do not include all of the information and notes required by GAAP for complete financial statements. In the opinion of management, these statements include all adjustments that are of a normal and recurring nature necessary to present fairly the Company's financial position, results of operations and cash flows. Due to the seasonal nature of the Company's business, the results of operations for the three and six months ended June 26, 2010 are not necessarily indicative of the results for the entire 2010 fiscal year. These condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and accompanying notes included in the Company's Annual Report on Form 10-K for the year ended December 26, 2009.

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Certain 2009 amounts have been reclassified to conform with the 2010 presentation in the condensed consolidated balance sheets primarily due to the adoption of an amendment to the standard of accounting for Variable Interest Entities (VIE).

(2) New Accounting Standards

Recently Adopted Standards

In January 2010, the Financial Accounting Standards Board (FASB) issued an amendment to the standards of accounting for fair value measurements and disclosures. This amendment required expanded disclosures about the different classes of assets and liabilities measured at fair value, the transfers between Level 1 and Level 2 fair value measurement categories and the valuation techniques and inputs used to determine the fair value of assets and liabilities classified in Level 2 and Level 3 measurement categories. The adoption of this amendment during the quarter ended March 27, 2010 did not have an effect on the Company's financial condition, results of operations or cash flows.

In June 2009, the FASB issued a new standard that changed the definition of a VIE, contained new criteria for determining the primary beneficiary of a VIE, required enhanced disclosures to provide more information about a company's involvement in a VIE and increased the frequency of required reassessments to determine whether a company is the primary beneficiary of a VIE. The adoption of this standard during the quarter ended March 27, 2010 resulted in the consolidation of certain joint ventures (JV) in which the Company has a controlling financial interest. The Company is considered to have a controlling financial interest in a JV when it has (1) the power to direct the activities of the JV that most significantly impact the JV's economic performance and (2) the obligation to absorb losses or the right to receive benefits from the JV that could potentially be significant to such JV. The adoption of this standard did not have a material effect on the Company's financial condition, results of operations or cash flows (see Note 5).

(3) Fair Value of Financial Instruments

The fair value of certain of the Company's financial instruments, including cash and cash equivalents, trade receivables and accounts payable, approximate their respective carrying amounts due to their short-term maturity.

The fair value of available-for-sale (AFS) securities are based on market prices using the following measurement categories:

Level 1 Fair value is determined by using quoted prices in active markets for identical investments. AFS securities that are included in this category are primarily equity securities.

Level 2 Fair value is determined by using other than quoted prices. By using observable inputs (for example, benchmark yields, interest rates, reported trades and broker dealer quotes), the fair value is determined through processes such as benchmark curves, benchmarking of like securities and matrix pricing of corporate and municipal bonds by using pricing of similar bonds based on coupons, ratings and maturities. In addition, the value of collateralized mortgage obligation securities are determined by use of models to develop prepayment and interest rate scenarios for these securities which have prepayment features. AFS securities that are included in this category are primarily tax exempt and taxable bonds.

Level 3 Fair value is determined by using other than observable inputs. Fair value is determined by using the best information available in the circumstances and requires significant management judgment or estimation. No AFS securities are currently included in this category.

Following is a summary of fair value measurements for AFS securities as of June 26, 2010 and December 26, 2009:

	Fair			
	<u>Value</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>
				(Amounts are in thousands)
June 26, 2010	\$2,854,940	175,551	2,679,389	
December 26, 2009	2,197,031	189,053	2,007,978	

(4) Investments

All of the Company's debt and equity investments are classified as AFS and are carried at fair value. The Company evaluates whether AFS securities are other-than-temporarily impaired (OTTI) based on criteria that include the extent to which cost exceeds market value, the duration of the market decline, the credit rating of the issuer or security, the failure of the issuer to make scheduled principal or interest payments and the financial health and prospects of the issuer or security.

Declines in the value of AFS securities determined to be OTTI are recognized in earnings and reported as other-than-temporary impairment losses. Debt securities with unrealized losses are considered OTTI if the Company intends to sell the debt security or if the Company will be required to sell the debt security prior to any anticipated recovery. If the Company determines that a debt security is OTTI under these circumstances, the impairment recognized in earnings is measured as the difference between the amortized cost and the current fair value. A debt security is also determined to be OTTI if the Company does not expect to recover the amortized cost of the security. However, in this circumstance, if the Company does not intend to sell the debt security and will not be required to sell the debt security, the impairment recognized in earnings equals the estimated credit loss as measured by the difference between the present value of expected cash flows and the amortized cost of the debt security. Expected cash flows are discounted using the debt security's effective interest rate. An equity security is

Edgar Filing: PUBLIX SUPER MARKETS INC - Form 10-Q

determined to be OTTI if the Company does not expect to recover the cost of the security. Declines in the value of AFS securities determined to be temporary are reported, net of tax, as other comprehensive losses and included as a component of stockholders' equity.

PUBLIX SUPER MARKETS, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

Interest and dividend income, amortization of premiums, accretion of discounts and realized gains and losses on AFS securities are included in investment income. Interest income is accrued as earned. Dividend income is recognized as income on the ex-dividend date of the stock. The cost of securities sold is based on the specific identification method.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(5) Consolidation of Joint Ventures

From time to time, the Company enters into JVs, in the legal form of limited liability companies, with certain real estate developers to partner in the development of shopping centers with the Company as the anchor tenant. The JVs are financed with capital contributions from the members, loans guaranteed by the members and/or with the cash flows generated by the shopping centers once in operation.

Generally, all major decision making in the Company's JVs is shared between all members. In particular, the use and sale of JV assets, business plans and budgets are generally required to be approved by all members. Management and other fees paid by the JV to a member are nominal and believed to be at market.

The Company evaluates these JVs using specific criteria to determine whether the Company has a controlling financial interest and is the primary beneficiary of the JV. Factors considered in determining whether the Company is the primary beneficiary include risk and reward sharing, experience and financial condition of the other JV members, voting rights, involvement in day to day capital and operating decisions and each member's influence over the shopping center's economic performance.

The consolidation of certain JVs during the quarter ended March 27, 2010 did not have an effect on beginning retained earnings since the earnings and losses of these JVs were previously accounted for under the equity method. The noncash balance sheet effect from the consolidation of these JVs as of the beginning of the six months ended June 26, 2010 was as follows:

	Increase (decrease) <u>in Asset, Liability or Equity</u> (Amounts are in thousands)
Trade receivables	\$ 1,976
Prepaid expenses	316
Other noncurrent assets	(39,331)
Property, plant and equipment	132,311
Accounts payable	1,957
Accrued expenses - other	487
Long-term debt	55,837
Noncontrolling interests	36,991

As of June 26, 2010, the carrying amounts of the assets and liabilities of the consolidated JVs, including previously consolidated JVs, were \$235,812,000 and \$131,380,000, respectively. The Company's debt results primarily from the consolidation of certain JVs. The assets are owned by, and the liabilities are obligations of, the JVs, not the Company, except for a portion of the long-term debt guaranteed by the Company. The long-term debt maturities range from June 2011 through January 2015 and have either (1) fixed interest rates ranging from 4.85% to 5.28% or (2) variable interest rates based on a LIBOR index plus basis points ranging from 80 basis points to 250 basis points. Total earnings attributable to noncontrolling interests for the three and six months ended June 26, 2010 and June 27, 2009 were immaterial. The Company's involvement with these JVs does not have a significant effect on the Company's financial condition, results of operations or cash flows.

In the normal course of operations, the Company replaces supermarkets and closes supermarkets that are not meeting performance expectations. The impact of future supermarket closings is not expected to be material.

Net cash used in financing activities was \$473.1 million for the six months ended June 26, 2010, as compared with \$660.6 million for the six months ended June 27, 2009. The amount of common stock offered to the Company for repurchase is not within the control of the Company, but is at the discretion of the stockholders. The Company expects to continue to repurchase its common stock, as offered by its stockholders from time to time, at its then current value for amounts similar to those in prior years. However, such purchases are not required and the Company retains the right to discontinue them at any time.

Dividends

The Company paid an annual cash dividend on its common stock of \$0.46 per share or \$364.1 million, on June 1, 2010 to stockholders of record as of the close of business April 30, 2010. In 2009, the Company paid an annual cash dividend on its common stock of \$0.41 per share or \$325.3 million.

Cash requirements

In 2010, the cash requirements for current operations, capital expenditures and common stock repurchases are expected to be financed by internally generated funds or liquid assets. Based on the Company's financial position, it is expected that short-term and long-term borrowings would be available to support the Company's liquidity requirements, if needed.

Sales for the three months ended June 26, 2010 were \$6.2 billion as compared with \$6.0 billion for the three months ended June 27, 2009, an increase of \$206.8 million or a 3.4% increase. The Company estimates that its sales increased \$141.9 million or 1.1% from new supermarkets and \$198.0 million or 1.6% from comparable store sales. Sales for supermarkets that are replaced on site are classified as new supermarket sales since the replacement period for the supermarket is generally 9 to 12 months. Comparable store sales for the three and six months ended June 26, 2010 have improved but continue to be impacted by the economic downturn and deflationary pressures.

Gross profit

Gross profit as a percentage of sales was 28.3% and 28.0% for the six months ended June 26, 2010 and June 27, 2009, respectively. The increase in gross profit as a percentage of sales for the three and six months ended June 26, 2010 and June 27, 2009 was primarily due to improvements in shrink and buying and merchandising practices and decreases in distribution costs.

Operating and administrative expenses

Operating and administrative expenses as a percentage of sales were 21.4% and 21.9% for the three months ended June 26, 2010 and June 27, 2009, respectively. The decrease in operating and administrative expenses as a percentage of sales for the three and six months ended June 26, 2010 and June 27, 2009 was primarily due to decreases in facilities costs.

Investment income, net

Investment income, net was \$24.5 million and \$24.4 million for the three months ended June 26, 2010 and June 27, 2009, respectively, and \$48.2 million and \$24.8 million for the six months ended June 26, 2010 and June 27, 2009, respectively. Investment income, net for the three months ended June 26, 2010 remained relatively unchanged compared to the three months ended June 27, 2009. The increase in investment income, net for the six months ended June 26, 2010 is primarily due to the decrease in OTTI losses on AFS securities. There were no OTTI losses on equity securities for the three and six months ended June 26, 2010. The Company recorded OTTI losses on equity securities of \$1.8 million and \$19.3 million for the three and six months ended June 27, 2009, respectively. The effective income tax rates were 34.2% and 34.8% for the six months ended June 26, 2010 and June 27, 2009, respectively. The decreases in the effective tax rates are primarily due to increases in dividends paid to ESOP participants, tax exempt interest and deductions for manufacturing production costs.

Net earnings

Net earnings were \$348.4 million or \$0.44 per share and \$300.8 million or \$0.38 per share for the three months ended June 26, 2010 and June 27, 2009, respectively. Net earnings were \$712.8 million or \$0.91 per share and \$622.3 million or \$0.79 per share for the six months ended June 26, 2010 and June 27, 2009, respectively.
