NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(In thousands of U.S. dollars, except share and per share amounts or as otherwise disclosed)

(Unaudited)

1. BASIS OF PRESENTATION

The accompanying unaudited interim Consolidated Financial Statements of Accenture plc and its controlled subsidiary companies (collectively, the Company) have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission (SEC) for quarterly reports on Form 10-Q and do not include all of the information and note disclosures required by U.S. generally accepted accounting principles (U.S. GAAP) for complete financial statements. These Consolidated Financial Statements should therefore be read in conjunction with the Consolidated Financial Statements and Notes thereto for the fiscal year ended August 31, 2011 included in the Company's Annual Report on Form 10-K filed with the SEC on October 21, 2011.

The accompanying unaudited interim Consolidated Financial Statements have been prepared in accordance with U.S. GAAP, which requires management to make estimates and assumptions that affect amounts reported in the Consolidated Financial Statements and accompanying disclosures. Although these estimates are based on management's best knowledge of current events and actions that the Company may undertake in the future, actual results may be different from those estimates. The Consolidated Financial Statements reflect all adjustments of a normal, recurring nature that are, in the opinion of management, necessary for a fair presentation of results for these interim periods. The results of operations for the three months ended November 30, 2011 are not necessarily indicative of the results that may be expected for the fiscal year ending August 31, 2012.

The Company has evaluated events and transactions subsequent to the balance sheet date. Based on this evaluation, the Company is not aware of any events or transactions that occurred subsequent to the balance sheet date but prior to filing that would require recognition or disclosure in its Consolidated Financial Statements.

Allowances for Client Receivables and Unbilled Services

As of November 30, 2011 and August 31, 2011, total allowances recorded for client receivables and unbilled services were \$73,296.

Accumulated Depreciation

As of November 30, 2011 and August 31, 2011, total accumulated depreciation was \$1,590,670 and \$1,639,965, respectively.

Net income attributable to noncontrolling interests in Accenture SCA and Accenture Canada Holdings Inc. (1)	61,956	64,674
Net income for diluted earnings per share calculation	\$ 704,042	\$ 599,388
Basic weighted average Class A ordinary shares	644,285,298	637,298,491
Class A ordinary shares issuable upon redemption/exchange of noncontrolling interests (1)	62,152,896	77,066,192
Diluted effect of employee compensation related to Class A ordinary shares (2)	23,435,943	28,806,249
Diluted effect of share purchase plans related to Class A ordinary shares	240,210	324,333
Diluted weighted average Class A ordinary shares	730,114,347	743,495,265
Diluted earnings per share (2)	\$ 0.96	\$ 0.81

(1) Diluted earnings per share assumes the redemption of all Accenture SCA Class I common shares owned by holders of noncontrolling interests and the exchange of all Accenture Canada Holdings Inc. exchangeable shares for Accenture plc Class A ordinary shares, on a one-for-one basis. The income effect does not take into account Net income attributable to noncontrolling interests other, since those shares are not redeemable or exchangeable for Accenture plc Class A ordinary shares.

(2)

Edgar Filing: Accenture plc - Form 10-Q

Fiscal 2011 diluted weighted average Accenture plc Class A ordinary shares and earnings per share amounts have been restated to reflect the impact of the issuance of additional restricted share units to holders of restricted share units in connection with the payment of cash dividends. This did not result in a change to previously reported Diluted earnings per share.

3. INCOME TAXES

Effective Tax Rate

The Company's effective tax rate for each of the three months ended November 30, 2011 and 2010 was 28.3%.

Table of Contents**ACCENTURE PLC****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(In thousands of U.S. dollars, except share and per share amounts or as otherwise disclosed)****(Unaudited)****4. REORGANIZATION COSTS, NET**

In fiscal 2001, the Company accrued reorganization liabilities in connection with its transition to a corporate structure. These liabilities included certain non-income tax liabilities, such as stamp taxes, as well as liabilities for certain individual income tax exposures related to the transfer of interests in certain entities to the Company as part of the reorganization. These primarily represent unusual and disproportionate individual income tax exposures assumed by certain, but not all, of the Company's shareholders and partners in certain tax jurisdictions specifically related to the transfer of their partnership interests in certain entities to the Company as part of the reorganization. (Prior to fiscal 2005, the Company referred to its highest-level employees with the partner title and the Company continues to use the term partner to refer to these persons in certain situations related to its reorganization and the period prior to its incorporation.) The Company identified certain shareholders and partners who may incur such unusual and disproportionate financial damage in certain jurisdictions. These include shareholders and partners who were subject to tax in their jurisdiction on items of income arising from the reorganization transaction that were not taxable for most other shareholders and partners. In addition, certain other shareholders and partners were subject to a different rate or amount of tax than other shareholders or partners in the same jurisdiction. When additional taxes are assessed on these shareholders or partners in connection with these transfers, the Company has made and intends to make payments, and in one country has contractually committed, to reimburse certain costs associated with the assessment either to the shareholder or partner, or to the taxing authority. The Company has recorded reorganization expense and the related liability where such liabilities are probable. Interest accruals are made to cover reimbursement of interest on such tax assessments.

The Company's reorganization activity was as follows:

	Three Months Ended November 30,	
	2011	2010
Reorganization liability, beginning of period	\$ 307,286	\$ 271,907
Interest expense accrued	408	348
Foreign currency translation adjustments	(23,229)	9,526
Reorganization liability, end of period	\$ 284,465	\$ 281,781

As of November 30, 2011, reorganization liabilities of \$272,231 were included in Other accrued liabilities because expirations of statutes of limitations or other final determinations could occur within 12 months, and reorganization liabilities of \$12,234 were included in Other non-current liabilities. Timing of the resolution of tax audits or the initiation of additional litigation and/or criminal tax proceedings may delay final resolution. Final resolution, through settlement, conclusion of legal proceedings or a tax authority's decision not to pursue a claim, will result in payment by the Company of amounts in settlement or judgment of these matters and/or recording of a reorganization benefit or cost in the Company's Consolidated Income Statement. It is possible the aggregate amount of such payments in connection with resolution of all such proceedings could exceed the currently recorded amounts. As of November 30, 2011, only a small number of jurisdictions remain that have active audits/investigations or open statutes of limitations, and only one is significant (which is the country referenced above). In that country, current and former partners, and the Company, are engaged in disputes with tax authorities in connection with the corporate reorganization in 2001, some of which have resulted, and others of which are expected to result, in litigation. These individuals and the Company intend to vigorously defend their positions.

5. BUSINESS COMBINATIONS AND GOODWILL

During the three months ended November 30, 2011, the Company acquired the net assets of a provider of residential and commercial mortgage processing services. In addition, the Company completed three individually immaterial acquisitions. The total consideration for all acquisitions was \$160,055. In connection with these acquisitions, the Company recorded goodwill of \$119,303, which was allocated among the reportable operating segments. Goodwill also included immaterial adjustments related to recent acquisitions. The Company also recorded \$51,466 in intangible assets, primarily related to customer relationships. The intangible assets are being amortized over a period of three to seven years. The pro forma effects on the Company's operations were not material.

The changes in the carrying amount of goodwill by reportable operating segment were as follows:

	August 31, 2011	Additions/ Adjustments	Foreign Currency Translation Adjustments	November 30, 2011

The Company uses derivative financial instruments to manage foreign currency exchange rate risk. The Company's derivative financial instruments consist of deliverable and non-deliverable foreign currency forward contracts.

The activity related to the change in net unrealized (losses) gains on cash flow hedges, net of tax, in Accumulated other comprehensive loss was as follows:

	Three Months Ended November 30,	
	2011	2010
Net unrealized gains on cash flow hedges, net of tax, beginning of period	\$ 32,354	\$ 4,340
Change in fair value, net of tax	(80,101)	17,575
Reclassification adjustments into Cost of services, net of tax	5,885	(3,569)

Net unrealized (losses) gains on cash flow hedges, net of tax, end of period	\$ (35,442)	\$ 16,929

As of November 30, 2011, \$(28,362) of the net unrealized losses on cash flow hedges is expected to be reclassified into earnings in the next 12 months. The ineffective portion of the change in fair value of a cash flow hedge is recognized immediately in Other income, net in the Consolidated Income Statement and, for the three months ended November 30, 2011, was not material. In addition, the Company did not discontinue any cash flow hedges during the three months ended November 30, 2011.

Realized gains or losses and changes in the estimated fair value of foreign currency forward contracts that have not been designated as hedges were a net loss of \$(138,778) and a net gain of \$39,529 for the three months ended November 30, 2011 and 2010, respectively. Net losses are offset by net foreign currency gains, including net gains related to the underlying balance sheet exposures and are recorded in Other income, net in the Consolidated Income Statement.

8. COMMITMENTS AND CONTINGENCIES

Commitments

The Company has the right to purchase or may also be required to purchase substantially all of the remaining outstanding shares of its Avanade Inc. subsidiary (Avanade) not owned by the Company at fair value if certain events occur. Certain holders of Avanade common stock and options to purchase the stock have put rights that, under certain circumstances and conditions, would require Avanade to redeem shares of its stock at fair value. As of November 30, 2011 and August 31, 2011, the Company has reflected the fair value of \$113,039 and \$113,143, respectively, related to Avanade's redeemable common stock and the intrinsic value of the options on redeemable common stock in Other accrued liabilities on the Consolidated Balance Sheet.

Indemnifications and Guarantees

In the normal course of business and in conjunction with certain client engagements, the Company has entered into contractual arrangements through which it may be obligated to indemnify clients with respect to certain matters. The limitations of liability under these arrangements may be expressly limited or may not be expressly specified in terms of time and/or amount.

As of November 30, 2011 and August 31, 2011, the Company's aggregate potential liability to its clients for expressly limited guarantees involving the performance of third parties was approximately \$891,000 and \$976,000, respectively, of which all but approximately \$244,000 and \$256,000, respectively, may be recovered from the other third parties if the Company is obligated to make payments to the indemnified parties that are the consequence of a performance default by the other third parties. For arrangements with unspecified limitations, the Company cannot reasonably estimate the aggregate maximum potential liability, as it is inherently difficult to predict the maximum potential amount of such payments, due to the conditional nature and unique facts of each particular arrangement.

To date, the Company has not been required to make any significant payment under any of the arrangements described above. The Company has assessed the current status of performance/payment risk related to arrangements with limited guarantees, unspecified limitations and/or indemnification provisions and believes that any potential payments would be immaterial to the Consolidated Financial Statements, as a whole.

Legal Contingencies

As of November 30, 2011, the Company or its present personnel had been named as a defendant in various litigation matters. The Company and/or its personnel also from time to time are involved in investigations by various regulatory or legal authorities concerning matters arising in the course of its business around the world. Based on the present status of these matters, management believes the range of reasonably possible losses in addition to amounts accrued, net of insurance recoveries, will not have a material effect on the Company's results of operations or financial condition.

9. SEGMENT REPORTING

The Company's reportable operating segments are the five operating groups, which are Communications, Media & Technology, Financial Services, Health & Public Service, Products and Resources. Information regarding the Company's reportable operating segments is as follows:

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion and analysis should be read in conjunction with our Consolidated Financial Statements and related Notes included elsewhere in this Quarterly Report on Form 10-Q and in our Annual Report on Form 10-K for the year ended August 31, 2011, and with the information under the heading Management's Discussion and Analysis of Financial Condition and Results of Operations in our Annual Report on Form 10-K for the year ended August 31, 2011.

We use the terms Accenture, we, the Company, our and us in this report to refer to Accenture plc and its subsidiaries. All references to years, unless otherwise noted, refer to our fiscal year, which ends on August 31. For example, a reference to fiscal 2012 means the 12-month period that will end on August 31, 2012. All references to quarters, unless otherwise noted, refer to the quarters of our fiscal year.

We use the term in local currency so that certain financial results may be viewed without the impact of foreign currency exchange rate fluctuations, thereby facilitating period-to-period comparisons of business performance. Financial results in local currency are calculated by restating current period activity into U.S. dollars using the comparable prior year period's foreign currency exchange rates. This approach is used for all results where the functional currency is not the U.S. dollar.

Disclosure Regarding Forward-Looking Statements

This Quarterly Report on Form 10-Q contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934 (the Exchange Act) relating to our operations, results of operations and other matters that are based on our current expectations, estimates, assumptions and projections. Words such as may, will, should, likely, anticipates, expects, intends, plans, projects, believes, estimates and similar expressions are used to identify these forward-looking statements. These statements are not guarantees of future performance and involve risks, uncertainties and assumptions that are difficult to predict. Forward-looking statements are based upon assumptions as to future events that may not prove to be accurate. Actual outcomes and results may differ materially from what is expressed or forecast in these forward-looking statements. Risks, uncertainties and other factors that might cause such differences, some of which could be material, include, but are not limited to:

Our results of operations could be adversely affected by volatile, negative or uncertain economic conditions and the effects of these conditions on our clients' businesses and levels of business activity.

Our business depends on generating and maintaining ongoing, profitable client demand for our services and solutions, and a significant reduction in such demand could materially affect our results of operations.

If we are unable to keep our supply of skills and resources in balance with client demand around the world and attract and retain professionals with strong leadership skills, our business, the utilization rate of our professionals and our results of operations may be materially adversely affected.

The consulting and outsourcing markets are highly competitive, and we might not be able to compete effectively.

Our results of operations (including our net revenues and operating income) and the value of balance-sheet items originally denominated in other currencies could be materially adversely affected by unfavorable fluctuations in foreign currency exchange rates.

We could have liability or our reputation could be damaged if we fail to protect client and Accenture data or information systems as obligated by law or contract or if our information systems are breached.

Our Global Delivery Network is increasingly concentrated in India and the Philippines, which may expose us to operational risks.

Edgar Filing: Accenture plc - Form 10-Q

As a result of our geographically diverse operations and our growth strategy to continue geographic expansion, we are more susceptible to certain risks.

Our results of operations could materially suffer if we are not able to obtain sufficient pricing to enable us to meet our profitability expectations.

If our pricing estimates do not accurately anticipate the cost, risk and complexity of performing our work or third parties upon which we rely do not meet their commitments, then our contracts could have delivery inefficiencies and be unprofitable.

Our work with government clients exposes us to additional risks inherent in the government contracting environment, including risks related to governmental budget and debt constraints.

Our business could be materially adversely affected if we incur legal liability in connection with providing our services and solutions.

Table of Contents

Our results of operations and ability to grow could be materially negatively affected if we cannot adapt and expand our services and solutions in response to ongoing changes in technology and offerings by new entrants.

Outsourcing services subject us to different operational risks than our consulting and systems integration services.

Our services or solutions could infringe upon the intellectual property rights of others or we might lose our ability to utilize the intellectual property of others.

We have only a limited ability to protect our intellectual property rights, which are important to our success.

Our ability to attract and retain business and employees may depend on our reputation in the marketplace.

Our alliance relationships may not be successful or may change, which could adversely affect our results of operations.

We may not be successful at identifying, acquiring or integrating other businesses.

Our profitability could suffer if our cost-management strategies are unsuccessful, and we may not be able to improve our profitability through improvements to cost-management to the degree we have done in the past.

Many of our contracts include performance payments that link some of our fees to the attainment of performance or business targets and/or require us to meet specific service levels. This could increase the variability of our revenues and impact our margins.

Changes in our level of taxes, and audits, investigations and tax proceedings, or changes in our treatment as an Irish company, could have a material adverse effect on our results of operations and financial condition.

If we are unable to manage the organizational challenges associated with our size, we might be unable to achieve our business objectives.

If we are unable to collect our receivables or unbilled services, our results of operations, financial condition and cash flows could be adversely affected.

Our share price and results of operations could fluctuate and be difficult to predict.

Our results of operations and share price could be adversely affected if we are unable to maintain effective internal controls.

We are incorporated in Ireland and a significant portion of our assets are located outside the United States. As a result, it might not be possible for shareholders to enforce civil liability provisions of the federal or state securities laws of the United States. We may also be subject to criticism and negative publicity related to our incorporation in Ireland.

Edgar Filing: Accenture plc - Form 10-Q

Irish law differs from the laws in effect in the United States and might afford less protection to shareholders.

We might be unable to access additional capital on favorable terms or at all. If we raise equity capital, it may dilute our shareholders ownership interest in us.

For a more detailed discussion of these factors, see the information under the heading **Risk Factors** in our Annual Report on Form 10-K for the year ended August 31, 2011. We undertake no obligation to update or revise any forward-looking statements.

Overview

Our results of operations can be affected by economic conditions, including macroeconomic conditions, credit market conditions and levels of business confidence. Revenues are driven by the ability of our executives to secure new contracts and to deliver solutions and services that add value relevant to our clients' current needs and challenges. The level of revenues we achieve is based on our ability to deliver market-leading service offerings and to deploy skilled teams of professionals quickly and on a global basis.

Revenues before reimbursements (net revenues) for the first quarter of fiscal 2012 were \$7.07 billion, compared with \$6.05 billion for the first quarter of fiscal 2011, an increase of 17% in U.S. dollars and 14% in local currency. All of our operating groups experienced double-digit year-over-year revenue growth in local currency in the first quarter of fiscal 2012, with very strong growth in Products, Communications, Media & Technology and Resources. Based on new contract bookings over the last several quarters, we expect growth to continue in many areas of our business. We also continue to expect the level of year-over-year growth will moderate in the second half of fiscal 2012, particularly in consulting, and vary across operating groups and geographic regions. There continues to be significant volatility in markets around the world, as well as economic and geopolitical uncertainty in many of the markets where we operate. Such volatility and uncertainty, should it continue, could adversely affect our clients and the levels of business activities in the industries and geographies where we operate. We continue to monitor our costs closely in order to respond to changing conditions and to manage any impact to our results of operations.

In our consulting business, net revenues for the first quarter of fiscal 2012 were \$4.08 billion, compared with \$3.57 billion for the first quarter of fiscal 2011, an increase of 14% in U.S. dollars and 11% in local currency. All five operating groups experienced year-over-year consulting revenue growth in local currency in the first quarter of fiscal 2012, led by very strong growth in Resources and Products. In our consulting business overall, clients are even more focused on initiatives designed to deliver cost savings and operational efficiency, as well as projects to integrate their global operations and grow and transform their businesses. Compared to fiscal 2011, we continued to provide a greater proportion of systems integration consulting through use of lower-cost resources in our Global Delivery Network, and we expect this trend to continue in the medium term. While the business environment remained competitive, pricing was relatively stable and we saw some improvement in certain areas of our business.

In our outsourcing business, net revenues for the first quarter of fiscal 2012 were \$2.99 billion, compared with \$2.48 billion for the first quarter of fiscal 2011, an increase of 21% in U.S. dollars and 18% in local currency. All five operating groups experienced year-over-year outsourcing revenue growth in local currency in the first quarter of fiscal 2012, led by significant growth in Communications, Media & Technology and Financial Services and very strong growth in Products. This strong demand for outsourcing services resulted in a shift in our mix of work toward outsourcing, particularly in Communications, Media & Technology and Financial Services, and this trend is expected to continue in the near term. Clients continue to be focused on projects that will improve operational effectiveness. Growth in outsourcing was driven by higher volumes, scope and geographic expansions and new work at existing clients, as well as services for new clients. As with systems integration consulting, compared to fiscal 2011, we provided a greater proportion of application outsourcing through use of lower-cost resources in our Global Delivery Network.

As we are a global company, our revenues are denominated in multiple currencies and may be significantly affected by currency exchange-rate fluctuations. If the U.S. dollar weakens against other currencies, resulting in favorable currency translation, our revenues and revenue growth in U.S. dollars may be higher. If the U.S. dollar strengthens against other currencies, resulting in unfavorable currency translation, our revenues and revenue growth in U.S. dollars may be lower. When compared to the first quarter of fiscal 2011, the U.S. dollar weakened against many currencies during the first quarter of fiscal 2012. This resulted in favorable currency translation and U.S. dollar revenue results that were approximately 3% better than our results in local currency for the first quarter of fiscal 2012. Assuming that exchange rates stay within recent ranges for the remainder of fiscal 2012, we estimate the foreign-exchange impact to our full fiscal 2012 revenue growth will be approximately 1% lower growth in U.S. dollars than our growth in local currency.

The primary categories of operating expenses include cost of services, sales and marketing and general and administrative costs. Cost of services is primarily driven by the cost of client-service personnel, which consists mainly of compensation, subcontractor and other personnel costs, and non-payroll outsourcing costs. Cost of services as a percentage of revenues is driven by the prices we obtain for our solutions and services, the utilization of our client-service personnel and the level of non-payroll costs associated with new outsourcing contracts. Utilization primarily represents the percentage of our consulting professionals' time spent on billable work. Utilization for the first quarter of fiscal 2012 was approximately 87% and within our target range. This level of utilization reflects continued strong demand for resources in our Global Delivery Network and in most countries. We continue to hire to meet current and projected future demand.

We proactively plan and manage the size and composition of our workforce and take actions as needed to address changes in the anticipated demand for our services, given that payroll costs are the most significant portion of our operating expenses. Based on current and projected future demand, we have increased our headcount, the majority of which serve our clients, to more than 244,000 as of November 30, 2011, compared with approximately 236,000 as of August 31, 2011 and 211,000 as of November 30, 2010. The year-over-year increase in our

Edgar Filing: Accenture plc - Form 10-Q

headcount reflects an overall increase in demand for our services, including those delivered through our

Table of Contents

Global Delivery Network in lower-cost locations. Annualized attrition, excluding involuntary terminations, for the first quarter of fiscal 2012 was 12%, compared with 14% in the fourth quarter of fiscal 2011 and 15% in the first quarter of fiscal 2011. We adjust levels of new hiring, evaluate voluntary attrition and use involuntary terminations as means to keep our supply of skills and resources in balance with client demand. In addition, we also adjust compensation in certain skill sets and geographies in order to attract and retain appropriate numbers of qualified employees, and we may need to continue to adjust compensation in the future. For the majority of our personnel, compensation increases for fiscal 2012 became effective September 1, 2011. As in prior fiscal years, we strive to adjust pricing and/or the mix of resources to reduce the impact of compensation increases on our gross margin. Our ability to grow our revenues and increase our margins could be adversely affected if we are unable to keep our supply of skills and resources in balance with client demand, mobilize our employees globally on a timely basis, manage attrition, recover increases in compensation and/or effectively assimilate and utilize new employees.

Gross margin (Net revenues less Cost of services before reimbursable expenses as a percentage of Net revenues) for the first quarter of fiscal 2012 was 31.8%, compared with 32.2% for the first quarter of fiscal 2011. Gross margin for the first quarter of fiscal 2012 was lower than the first quarter of fiscal 2011, principally due to higher payroll costs in the first quarter of fiscal 2012, partially offset by lower non-payroll costs and a favorable foreign-exchange impact.

Sales and marketing and general and administrative costs as a percentage of net revenues were 18.0% for the first quarter of fiscal 2012, compared with 18.5% for the first quarter of fiscal 2011. Sales and marketing costs are driven primarily by compensation costs for business-development activities, investment in offerings, and marketing- and advertising-related activities. General and administrative costs primarily include costs for non-client-facing personnel, information systems and office space. We continuously monitor these costs and implement cost-management actions, as appropriate, to maintain or lower these costs as a percentage of revenues. These actions include performing a greater proportion of general and administrative activities in lower-cost locations. For the first quarter of fiscal 2012 compared to the first quarter of fiscal 2011, both sales and marketing and general and administrative costs decreased approximately 0.3% as a percentage of net revenues. The decreases were due to growth of these costs at a rate lower than that of net revenues. In addition, in the first quarter of fiscal 2011, we recorded a reduction in the allowance for client receivables and unbilled services due to better than expected bad debt experience. We continue to expect the reduction in general and administrative costs as a percentage of net revenues to moderate in fiscal 2012. Our margins could be adversely affected if our cost-management actions are not sufficient to maintain sales and marketing and general and administrative costs at or below current levels as a percentage of net revenues.

Operating income for the first quarter of fiscal 2012 was \$981 million, compared with \$827 million for the first quarter of fiscal 2011. Operating margin (Operating income as a percentage of Net revenues) for the first quarter of fiscal 2012 was 13.9%, compared with 13.7% for the first quarter of fiscal 2011.

Our Operating income and Earnings per share are also affected by currency exchange-rate fluctuations on revenues and costs. Most of our costs are incurred in the same currency as the related net revenues. Where practical, we also seek to manage foreign currency exposure for costs not incurred in the same currency as the related net revenues by using currency protection provisions in our customer contracts and through our hedging programs. We estimate that the aggregate percentage impact of foreign exchange rates on our operating expenses is similar to that disclosed for net revenues.

Table of Contents

Bookings and Backlog

New contract bookings for the first quarter of fiscal 2012 were \$7.79 billion, with consulting bookings of \$4.24 billion and outsourcing bookings of \$3.55 billion.

We provide information regarding our new contract bookings because we believe doing so provides useful trend information regarding changes in the volume of our new business over time. However, new bookings can vary significantly quarter to quarter depending in part on the timing of the signing of a small number of large outsourcing contracts. Clients continue to seek flexibility by using a phased approach to contracting consulting work, which is resulting in smaller initial total contract values than in the past. Information regarding our new bookings is not comparable to, nor should it be substituted for, an analysis of our revenues over time. There are no third-party standards or requirements governing the calculation of bookings. New contract bookings involve estimates and judgments regarding new contracts as well as renewals, extensions and changes to existing contracts. We do not update our new bookings for material subsequent terminations or reductions related to bookings originally recorded in prior fiscal years. New contract bookings are recorded using then-existing foreign currency exchange rates and are not subsequently adjusted for foreign currency exchange rate fluctuations.

The majority of our contracts are terminable by the client on short notice, and some without notice. Accordingly, we do not believe it is appropriate to characterize bookings attributable to these contracts as backlog. Normally, if a client terminates a project, the client remains obligated to pay for commitments we have made to third parties in connection with the project, services performed and reimbursable expenses incurred by us through the date of termination.

Revenues by Segment/Operating Group

Our five reportable operating segments are our operating groups, which are Communications, Media & Technology, Financial Services, Health & Public Service, Products and Resources. Operating groups are managed on the basis of net revenues because our management believes net revenues are a better indicator of operating group performance than revenues. In addition to reporting net revenues by operating group, we also report net revenues by two types of work: consulting and outsourcing, which represent the services sold by our operating groups. Consulting net revenues, which include management and technology consulting and systems integration, reflect a finite, distinct project or set of projects with a defined outcome and typically a defined set of specific deliverables. Outsourcing net revenues typically reflect ongoing, repeatable services or capabilities provided to transition, run and/or manage operations of client systems or business functions.

From time to time, our operating groups work together to sell and implement certain contracts. The resulting revenues and costs from these contracts may be apportioned among the participating operating groups. Generally, operating expenses for each operating group have similar characteristics and are subject to the same factors, pressures and challenges. However, the economic environment and its effects on the industries served by our operating groups affect revenues and operating expenses within our operating groups to differing degrees. The mix between consulting and outsourcing is not uniform among our operating groups. Local currency fluctuations also tend to affect our operating groups differently, depending on the geographic concentrations and locations of their businesses.

While we provide discussion about our results of operations below, we cannot measure how much of our revenue growth in a particular period is attributable to changes in price or volume. Management does not track standard measures of unit or rate volume. Instead, our measures of volume and price are extremely complex, as each of our services contracts is unique, reflecting a customized mix of specific services that does not fit into standard comparability measurements. Pricing for our services is a function of the nature of each service to be provided, the skills required and outcome sought, as well as estimated cost, risk, contract terms and other factors.

Net Revenues

Edgar Filing: Accenture plc - Form 10-Q

The following net revenues commentary discusses local currency net revenue changes for the first quarter of fiscal 2012 compared to the first quarter of fiscal 2011:

Operating Groups

Communications, Media & Technology net revenues increased 16% in local currency. Consulting revenues increased, driven primarily by growth in Communications in Americas. Outsourcing revenues reflected significant growth, driven by strong demand for our outsourcing services across all geographic regions and industry groups.

Financial Services net revenues increased 11% in local currency. Consulting revenues reflected modest growth, driven by very strong growth in Insurance across all geographic regions, partially offset by a decline in Banking and Capital Markets in Americas and EMEA. The uncertainty in the banking and capital markets industries had an impact on our consulting revenue growth in the first quarter of fiscal 2012. Outsourcing revenues reflected significant growth, driven by strong demand for our outsourcing services across all geographic regions and industry groups, led by Americas and EMEA.

Health & Public Service net revenues increased 11% in local currency. Consulting revenues reflected strong growth, driven primarily by Health in Americas and Asia Pacific. Outsourcing revenues increased due primarily to growth in Health in Americas. The uncertainty and challenges in the public sector, particularly in the United States, the United Kingdom and several other countries, continue to have an impact on demand in our public service business.

Products net revenues increased 17% in local currency. Consulting revenues reflected very strong growth, driven by growth across all geographic regions and industry groups, led by Consumer Goods & Services, Retail and Automotive. Outsourcing revenues also reflected very strong growth, driven by growth across all geographic regions and industry groups, led by Air, Freight & Travel Services and Life Sciences.

Table of Contents

Resources net revenues increased 15% in local currency. Consulting revenues reflected very strong growth, driven by growth across all geographic regions and most industry groups, led by Energy. Outsourcing revenues increased, driven by growth in Natural Resources and Energy across all geographic regions.

Geographic Regions

Americas net revenues increased 16% in local currency, led by the United States, Brazil and Canada.

EMEA net revenues increased 10% in local currency, driven by growth in most countries, led by the United Kingdom, Finland, the Netherlands, France, Italy and South Africa.

Asia Pacific net revenues increased 20% in local currency, led by Australia, Japan, China, Singapore, India and Malaysia.

Operating Expenses

Operating expenses for the first quarter of fiscal 2012 were \$6,608 million, an increase of \$957 million, or 17%, over the first quarter of fiscal 2011, and decreased as a percentage of revenues to 87.1% from 87.2% during this period. Operating expenses before reimbursable expenses for the first quarter of fiscal 2012 were \$6,093 million, an increase of \$875 million, or 17%, over the first quarter of fiscal 2011, and decreased as a percentage of net revenues to 86.1% from 86.3% during this period.

Cost of Services

Cost of services for the first quarter of fiscal 2012 was \$5,338 million, an increase of \$804 million, or 18%, over the first quarter of fiscal 2011, and increased as a percentage of revenues to 70.3% from 70.0% during this period. Cost of services before reimbursable expenses for the first quarter of fiscal 2012 was \$4,823 million, an increase of \$722 million, or 18%, over the first quarter of fiscal 2011, and increased as a percentage of net revenues to 68.2% from 67.8% during this period. Gross margin for the first quarter of fiscal 2012 decreased to 31.8% from 32.2% during this period, principally due to higher payroll costs in the first quarter of fiscal 2012, partially offset by lower non-payroll costs and a favorable foreign-exchange impact.

Sales and Marketing

Sales and marketing expense for the first quarter of fiscal 2012 was \$837 million, an increase of \$106 million, or 14%, over the first quarter of fiscal 2011, and decreased as a percentage of net revenues to 11.8% from 12.1% during this period. This decrease as a percentage of net revenues was due to growth of business development costs at a rate lower than that of net revenues.

General and Administrative Costs

General and administrative costs for the first quarter of fiscal 2012 were \$433 million, an increase of \$47 million, or 12%, over the first quarter of fiscal 2011, and decreased as a percentage of net revenues to 6.1% from 6.4% during this period. The decrease as a percentage of net revenues was primarily due to management of these costs at a growth rate lower than that of net revenues. In addition, in the first quarter of fiscal 2011, we recorded a reduction in the allowance for client receivables and unbilled services due to better than expected bad debt experience.

Table of Contents**Operating Income and Operating Margin**

Operating income for the first quarter of fiscal 2012 was \$981 million, an increase of \$154 million, or 19%, over the first quarter of fiscal 2011, and increased as a percentage of net revenues to 13.9% from 13.7% during this period. Operating income and operating margin for each of the operating groups were as follows:

	Three Months Ended November 30, 2011		2010		Increase (Decrease) (2)
	Operating Income	Operating Margin	Operating Income	Operating Margin	
	(in millions of U.S. dollars)				
Communications, Media & Technology (1)	\$ 229	15%	\$ 193	15%	\$ 35
Financial Services	215	14	245	19	(30)
Health & Public Service	113	11	58	6	55
Products	219	13	157	11	62
Resources	206	16	174	15	32
Total (2)	\$ 981	13.9%	\$ 827	13.7%	\$ 154

(1) On September 1, 2011, we renamed the Communications & High Tech operating group to Communications, Media & Technology. No amounts have been reclassified in any period in connection with this name change.

(2) May not total due to rounding.

We estimate that the aggregate percentage impact of foreign currency exchange rates on our Operating income during the first quarter of fiscal 2012 was similar to that disclosed for Net revenues. During the first quarter of fiscal 2012, each operating group benefited from our management of general and administrative costs at a growth rate lower than that of our net revenues. In addition, in the first quarter of fiscal 2011, we recorded a reduction in the allowance for client receivables and unbilled services due to better than expected bad debt experience. The commentary below provides additional insight into operating group performance and operating margin for the first quarter of fiscal 2012, compared with the first quarter of fiscal 2011, exclusive of these impacts.

Communications, Media & Technology operating income increased, primarily due to revenue growth.

Financial Services operating income decreased, primarily due to lower contract profitability, higher sales and marketing costs as a percentage of net revenues and costs related to recent acquisitions, partially offset by strong outsourcing revenue growth.

Health & Public Service operating income increased due to revenue growth, improved consulting contract profitability and lower sales and marketing costs as a percentage of net revenues.

Products operating income increased, primarily driven by revenue growth and improved outsourcing and consulting contract profitability.

Resources operating income increased, primarily driven by strong revenue growth.

Other Income, net

Edgar Filing: Accenture plc - Form 10-Q

Other income, net for the first quarter of fiscal 2012 was \$6 million, a decrease of \$7 million from the first quarter of fiscal 2011. The change was driven by lower net foreign exchange gains during the first quarter of fiscal 2012.

Provision for Income Taxes

The effective tax rate for both the first quarter of fiscal 2012 and fiscal 2011 was 28.3%.

Our provision for income taxes is based on many factors and subject to volatility year to year. We expect the fiscal 2012 annual effective tax rate to be in the range of 27% to 28%. The fiscal 2011 annual effective tax rate was 27.3%.

Table of Contents**Net Income Attributable to Noncontrolling Interests**

Net income attributable to noncontrolling interests for the first quarter of fiscal 2012 was \$70 million, a decrease of \$1 million, or 2%, from the first quarter of fiscal 2011. The decrease was due to a reduction in the Accenture SCA Class I common shares and Accenture Canada Holdings Inc. exchangeable shares average noncontrolling ownership interest to 9% for the first quarter of fiscal 2012 from 11% for the first quarter of fiscal 2011, offset by higher Net income of \$106 million.

Earnings Per Share

Diluted earnings per share were \$0.96 for the first quarter of fiscal 2012, compared with \$0.81 for the first quarter of fiscal 2011. The \$0.15 increase in our earnings per share was due to increases of \$0.12 from higher revenues and operating results in local currency, \$0.02 from favorable foreign currency exchange rates and \$0.02 from lower weighted average shares outstanding, compared with the first quarter of fiscal 2011. These increases were partially offset by a decrease of \$0.01 from lower non-operating income. For information regarding our earnings per share calculations, see Note 2 (Earnings Per Share) to our Consolidated Financial Statements under Item 1, Financial Statements.

Liquidity and Capital Resources

Our primary sources of liquidity are cash flows from operations, available cash reserves and debt capacity available under various credit facilities. In addition, we could raise additional funds through public or private debt or equity financings. We may use our available or additional funds to:

take advantage of opportunities, including more rapid expansion;

acquire complementary businesses or technologies;

develop new services and solutions; or

facilitate purchases, redemptions and exchanges of Accenture shares.

As of November 30, 2011, Cash and cash equivalents was \$5.1 billion, compared with \$5.7 billion as of August 31, 2011.

Cash flows from operating, investing and financing activities, as reflected in our Consolidated Cash Flows Statements, are summarized in the following table:

	Three Months Ended		
	November 30,		
	2011	2010	Change
	(in millions of U.S. dollars)		
Net cash provided by (used in):			
Operating activities	\$ 475	\$ 106	\$ 369
Investing activities	(240)	(135)	(105)
Financing activities	(588)	(704)	116
Effect of exchange rate changes on cash and cash equivalents	(257)	54	(311)
Net decrease in cash and cash equivalents (1)	\$ (609)	\$ (678)	\$ 69

Edgar Filing: Accenture plc - Form 10-Q

(1) May not total due to rounding.

Operating activities: The \$369 million increase in cash provided by operating activities was primarily due to higher net income and changes in other operating assets and liabilities, including higher client prepayments in fiscal 2012.

Investing activities: The \$105 million increase in cash used was primarily due to increased spending on business acquisitions. For additional information, see Note 5 (Business Combinations and Goodwill) to our Consolidated Financial Statements under Item 1, Financial Statements.

Financing activities: The \$116 million decrease in cash used was primarily due to decreased net purchases of shares, partially offset by an increase in cash dividends paid. For additional information, see Note 6 (Shareholders' Equity) to our Consolidated Financial Statements under Item 1, Financial Statements.

We believe that our available cash balances and the cash flows expected to be generated from operations will be sufficient to satisfy our current and planned working capital and investment needs for the next twelve months. We also believe that our longer-term working capital and other general corporate funding requirements will be satisfied through cash flows from operations and, to the extent necessary, from our borrowing facilities and future financial market activities.

Table of Contents**Borrowing Facilities**

As of November 30, 2011, we had the following borrowing facilities, including the issuance of letters of credit, to support general working capital purposes:

	Facility Amount (in millions of U.S. dollars)	Borrowings Under Facilities \$
Syndicated loan facility (1)	\$ 1,000	\$
Separate, uncommitted, unsecured multicurrency revolving credit facilities	473	
Local guaranteed and non-guaranteed lines of credit	156	
Total	\$ 1,629	\$

- (1) On October 31, 2011, we replaced our \$1.2 billion syndicated loan facility maturing on July 31, 2012 with a \$1.0 billion syndicated loan facility maturing on October 31, 2016. This new facility provides unsecured, revolving borrowing capacity for general working capital purposes, including the issuance of letters of credit. Financing is provided under this facility at the prime rate or at the London Interbank Offered Rate plus a spread. This facility requires us to: (1) limit liens placed on our assets to (a) liens incurred in the ordinary course of business (subject to certain qualifications) and (b) other liens securing obligations not to exceed 30% of our consolidated assets; and (2) maintain a debt-to-cash-flow ratio not exceeding 1.75 to 1.00. As of November 30, 2011, we were in compliance with these terms. The facility is subject to annual commitment fees. As of November 30, 2011, we had no borrowings under the facility.

Under the borrowing facilities described above, we had an aggregate of \$167 million of letters of credit outstanding as of November 30, 2011. In addition, we had total outstanding debt of \$6 million as of November 30, 2011.

Share Purchases and Redemptions

The Board of Directors of Accenture plc has authorized funding for our publicly announced open-market share purchase program for acquiring Accenture plc Class A ordinary shares and for purchases and redemptions of Accenture plc Class A ordinary shares, Accenture SCA Class I common shares and Accenture Canada Holdings Inc. exchangeable shares held by our current and former senior executives and their permitted transferees. As of November 30, 2011, our aggregate available authorization was \$5,833 million for our publicly announced open-market share purchase and these other share purchase programs.

Our share purchase activity during the first quarter of fiscal 2012 was as follows:

	Accenture plc Class A Ordinary Shares		Accenture SCA Class I Common Shares and Accenture Canada Holdings Inc. Exchangeable Shares	
	Shares	Amount (in millions of U.S. dollars, except share amounts)	Shares	Amount
Open-market share purchases (1)	3,395,500	\$ 178		\$
Other share purchase programs			536,661	31
Other purchases (2)	1,411,284	77		
Total (3)	4,806,784	\$ 254	536,661	\$ 31

Edgar Filing: Accenture plc - Form 10-Q

- (1) We conduct a publicly announced, open-market share purchase program for Accenture plc Class A ordinary shares. These shares are held as treasury shares by Accenture plc and may be utilized to provide for select employee benefits, such as equity awards to our employees.
- (2) During the first quarter of fiscal 2012, as authorized under our various employee equity share plans, we acquired Accenture plc Class A ordinary shares via share withholding for payroll tax obligations due from employees and former employees in connection with the delivery of Accenture plc Class A ordinary shares under those plans. These purchases of shares in connection with employee share plans do not affect our aggregate available authorization for our publicly announced open-market share purchase and the other share purchase programs.

- (3) May not total due to rounding.

We intend to continue to use a significant portion of cash generated from operations for share repurchases during the remainder of fiscal 2012. The number of shares ultimately repurchased under our open-market share purchase program may vary depending on numerous factors, including, without limitation, share price and other market conditions, our ongoing capital allocation planning, the levels of cash and debt balances, other demands for cash, such as acquisition activity, general economic and/or business conditions, and board and management discretion. Additionally, as these factors may change over the course of the year, the amount of share repurchase activity during any particular period cannot be predicted and may fluctuate from time to time. Share repurchases may be made from time to time through open-market purchases, in respect of purchases and redemptions of Accenture SCA Class I common shares and Accenture Canada Holdings Inc. exchangeable shares, through the use of Rule 10b5-1 plans and/or by other means. The repurchase program may be accelerated, suspended, delayed or discontinued at any time, without notice.

Other Share Redemptions

During the first quarter of fiscal 2012, we issued 1,074,712 Accenture plc Class A ordinary shares upon redemptions of an equivalent number of Accenture SCA Class I common shares pursuant to our registration statement on Form S-3 (the registration statement). The registration statement allows us, at our option, to issue freely tradable Accenture plc Class A ordinary shares in lieu of cash upon redemptions of Accenture SCA Class I common shares held by senior executives, former executives and their permitted transferees.

For a complete description of all share purchase and redemption activity for the first quarter of fiscal 2012, see Part II, Item 2, Unregistered Sales of Equity Securities and Use of Proceeds.

Off-Balance Sheet Arrangements

In the normal course of business and in conjunction with some client engagements, we have entered into contractual arrangements through which we may be obligated to indemnify clients with respect to certain matters. These arrangements with clients can include provisions whereby we have joint and several liability in relation to the performance of certain contractual obligations along with third parties also providing services and products for a specific project. Indemnification provisions are also included in arrangements under which we agree to hold the indemnified party harmless with respect to third party claims related to such matters as title to assets sold or licensed or certain intellectual property rights.

Typically, we have contractual recourse against third parties for certain payments made by us in connection with arrangements where third party nonperformance has given rise to the client's claim. Payments by us under any of the arrangements described above are generally conditioned on the client making a claim which may be disputed by us, typically under dispute resolution procedures specified in the particular arrangement. The limitations of liability under these arrangements may be expressly limited or may not be expressly specified in terms of time and/or amount.

For arrangements with unspecified limitations, we cannot reasonably estimate the aggregate maximum potential liability, as it is inherently difficult to predict the maximum potential amount of such payments, due to the conditional nature and unique facts of each particular arrangement.

To date, we have not been required to make any significant payment under any of the arrangements described above. For further discussion of these transactions, see Note 8 (Commitments and Contingencies) to our Consolidated Financial Statements under Item 1, Financial Statements.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

During the first quarter of fiscal 2012, there were no material changes in our market risk exposure. For a discussion of our market risk associated with foreign currency risk, interest rate risk and equity price risk as of August 31, 2011, see Quantitative and Qualitative Disclosures About Market Risk in Part II, Item 7A, of our Annual Report on Form 10-K for the year ended August 31, 2011.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

An evaluation was performed under the supervision and with the participation of our management, including our principal executive officer and our principal financial officer, of the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Exchange Act) as of the end of the period covered by this report. Any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives. Based on that evaluation, the principal executive officer and the principal financial officer of Accenture plc have concluded that, as of the end of the period covered by this report, our disclosure controls and procedures are effective at the reasonable assurance level.

Changes in Internal Control Over Financial Reporting

There has been no change in our internal control over financial reporting that occurred during the first quarter of fiscal 2012 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

We are involved in a number of judicial and arbitration proceedings concerning matters arising in the ordinary course of our business. We and/or our personnel also from time to time are involved in investigations by various regulatory or legal authorities concerning matters arising in the course of our business around the world. We do not expect that any of these matters, individually or in the aggregate, will have a material impact on our results of operations or financial condition.

We currently maintain the types and amounts of insurance customary in the industries and countries in which we operate, including coverage for professional liability, general liability and management liability. We consider our insurance coverage to be adequate both as to the risks and amounts for the businesses we conduct.

ITEM 1A. RISK FACTORS

For a discussion of our potential risks and uncertainties, see the information under the heading "Risk Factors" in our Annual Report on Form 10-K for the year ended August 31, 2011. There have been no material changes to risk factors disclosed in our Annual Report on Form 10-K for the year ended August 31, 2011.

Table of Contents**ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS****Purchases and redemptions of Accenture plc Class A ordinary shares and Class X ordinary shares**

The following table provides information relating to our purchases of Accenture plc Class A ordinary shares and redemptions of Accenture plc Class X ordinary shares during the first quarter of fiscal 2012.

Class X ordinary shares (5)	1,480,700	\$ 0.0000225		

- (1) Average price per share reflects the total cash outlay for the period, divided by the number of shares acquired, including those acquired by purchase or redemption and any acquired by means of employee forfeiture.
- (2) Since August 2001, the Board of Directors of Accenture plc has authorized and periodically confirmed a publicly announced open-market share purchase program for acquiring Accenture plc Class A ordinary shares. During the first quarter of fiscal 2012, we purchased 3,395,500 Accenture plc Class A ordinary shares under this program for an aggregate price of \$178 million. The open-market purchase program does not have an expiration date.
- (3) As of November 30, 2011, our aggregate available authorization for share purchases and redemptions was \$5,833 million, which management has the discretion to use for either our publicly announced open-market share purchase program or the other share purchase programs. Since August 2001 and as of November 30, 2011, the Board of Directors of Accenture plc has authorized an aggregate of \$20.1 billion for purchases and redemptions of Accenture plc Class A ordinary shares, Accenture SCA Class I common shares or Accenture Canada Holdings Inc. exchangeable shares.
- (4) During the first quarter of fiscal 2012, Accenture purchased 1,411,284 Accenture plc Class A ordinary shares in transactions unrelated to publicly announced share plans or programs. These transactions consisted of acquisitions of Accenture plc Class A ordinary shares via share withholding for payroll tax obligations due from employees and former employees in connection with the delivery of Accenture plc Class A ordinary shares under our various employee equity share plans. These purchases of shares in connection with employee share plans do not affect our aggregate available authorization for our publicly announced open-market share purchase and the other share purchase programs.

Edgar Filing: Accenture plc - Form 10-Q

- (5) During the first quarter of fiscal 2012, we redeemed 1,480,700 Accenture plc Class X ordinary shares pursuant to our articles of association. Accenture plc Class X ordinary shares are redeemable at their par value of \$0.0000225 per share.

Table of Contents**Purchases and redemptions of Accenture SCA Class I common shares and Accenture Canada Holdings Inc. exchangeable shares**

The following table provides additional information relating to our purchases and redemptions of Accenture SCA Class I common shares and Accenture Canada Holdings Inc. exchangeable shares for cash during the first quarter of fiscal 2012. We believe that the following table and footnotes provide useful information regarding the share purchase and redemption activity of Accenture. Generally, purchases and redemptions of Accenture SCA Class I common shares and Accenture Canada Holdings Inc. exchangeable shares for cash reduce shares outstanding for purposes of computing diluted earnings per share.
