Dear Fellow Molson Coors Brewing Company Stockholders,

You are invited to attend our 2019 Annual Meeting of Stockholders (Annual Meeting), which will be held on Wednesday, May 22, 2019, at 11:00 a.m., Eastern Daylight Time, at the Montreal Brewery, 1670 Notre Dame Street East, Montreal, Quebec, Canada H2L 2R4. Molson Coors Brewing Company (Molson Coors, Company, we, us or our) alternates its annual meetings between its two principal executive offices in Montreal, Quebec, and Denver, Colorado. This year, we are pleased to return to Montreal, the home of the original Molson brewery.

At the Annual Meeting, we will ask our stockholders to:

elect our Board of Directors (our Board);
approve, on an advisory basis, the compensation of our named executive officers; and
ratify the appointment of PricewaterhouseCoopers LLP as our independent registered public accounting firm for the fiscal year ending December 31, 2019.

We will also review our progress during the past year and discuss any new business matters properly brought before the meeting. The attached 2019 Notice of Annual Meeting and Proxy Statement explains our voting procedures, describes the business we will conduct at the Annual Meeting, and provides information about our Company that you should consider when you vote your shares.

Company Performance⁽¹⁾

As described in our Annual Report on Form 10-K filed on February 12, 2019⁽²⁾, net sales revenue decreased 2.1%, and diluted earnings per share was \$5.15, down 28.8% versus the prior year. Despite headwinds in 2018, we had strong operating cash flow of \$2.3 billion, an increase of 24.9% versus the prior year, we premiumized our portfolio, and delivered on our commitment to cost savings and deleverage. Net income attributable to MCBC decreased versus the prior year primarily due to a non-cash one-time income tax benefit recognized in the prior year as a result of U.S. tax

reform.

Our primary focus in 2018 remained margin expansion and bottom-line growth with emphasis on productivity and cost savings, efficient commercial investments and deleverage to maintain our investment-grade debt ratings. Second, we remained focused on delivering an improved top line through our commercial excellence approach, which provides the most sustainable source of profit growth over the medium to long term. Capital allocation within our business continues to be guided by our Profit after Capital Charge (PACC) approach, as we seek to deliver Total Shareholder Returns.

(1) Unless otherwise indicated, all \$ amounts are in U.S. Dollars, and all comparative results are for the year ended December 31, 2018, compared to the year ended December 31, 2017.

(2) Please refer to our Annual Report on Form 10-K filed on February 12, 2019 for more information regarding our performance and financial results for the year ended December 31, 2018 and comparisons to prior periods.

Across our business, we continued to focus on portfolio premiumization. Above-premium brand volumes as a percentage of total brand volumes increased year-over-year and represent nearly 20% of our total annual brand volumes.

To take a step back from the annual performance, our track record over the last few years reflects consistency in earning more, using less and investing wisely. Our enterprise and regional teams have earned more by energizing our core, above premium and craft portfolios, through existing brands, successful bolt-on acquisitions, such as Aspell Cyder, and innovations, including our independent Canadian cannabis beverage joint venture, Truss LP (Truss). We are using less by over-delivering on cost savings, and we have continued to invest wisely with very strong cash generation and deleverage focus.

Sustainability at Molson Coors, or Our Beer Print, is the way we approach corporate responsibility and the right way to grow our business. Our Beer Print is integral to our efforts to build long-term value for society and our stockholders, while leaving a positive imprint on our communities, on our environment and on our business. Our Board is committed to seeing that we continue to live up to these responsibilities through Our Beer Print 2025 strategy. We continuously work to help consumers get the most out of their enjoyment of our products by promoting responsible drinking, providing nutritional information and driving innovation in great-tasting low- and no-alcohol products. We are focused on achieving water efficiency in our breweries and our agricultural supply chain and have set ambitious science-based targets for reducing absolute carbon emissions. We are also striving to ensure that every one of our major manufacturing and brewing facilities achieves zero waste to landfill. Molson Coors has been recognized on the Dow Jones Sustainability North America Index for eight consecutive years for our sustainability performance.

Across Molson Coors, against a backdrop of complex structural and brand portfolio integration and challenging market conditions during 2018, we delivered financial and commercial results that demonstrate our balanced priorities for bottom- and top-line growth. Our integration work streams delivered foundational work to drive future productivity and savings, and our commercial teams strengthened our brand portfolio and our customer relationships.

We hope you will be able to attend the Annual Meeting. Whether or not you plan to attend, your vote is important to us. 2018 Compensation Highlights — Page 37

Our business strategy drives our compensation philosophy and the choices we make as a business. Our primary focus is our First Choice strategy of earning more, using less and investing wisely by utilizing our PACC model. We earn more through our commercial excellence initiatives, which premiumize our portfolio globally and drive disruptive growth. By using less we protect our bottom-line performance, delivering our cost savings plan and improving productivity through our shared services model and world class supply chain improvements. Finally, investing wisely enables us to deliver our deleverage commitments allowing us to return cash to shareholders and strengthen our business through brand led growth opportunities.

Our business strategy involves a balanced focus on both the bottom and top-line, and is supported by our 2018 annual incentive program (Molson Coors Incentive Plan or MCIP) that incorporates two bottom-line metrics and two top-line metrics, with each weighted 25%. The bottom-line metrics are underlying Pretax Income and Free Cash Flow (FCF), and the top-line metrics are Volume and Net Sales Revenue per Hectoliter (NSR / HL). The combination of these four metrics incentivizes our executive team to focus every day on earning more, using less and investing wisely, helping us become First Choice for Consumers and Customers.

Capital allocation within our business continues to be guided by PACC, which will help us grow shareholder value over the medium to long-term. To maintain a disciplined, consistent approach with PACC across the business, we include PACC as a metric in our long term incentive program (LTIP) for our performance share units (PSUs). Additionally we use relative total shareholder return (Relative TSR) as a PSU metric to ensure alignment with our stockholders.

2018 Annual Incentive (MCIP) Metric (Weight)⁽¹⁾	2018 MCIP Company Performance Multiplier⁽²⁾	2018 Highlights
Pretax Income (25%)	98%	Underlying Pretax Income decreased 2.4% vs. 2017
NSR / HL (25%)	92%	NSR / HL on a brand-volume basis decreased 0.2% vs. 2017
FCF (25%)	104%	We delivered more than \$1.4 billion of underlying FCF
Volume (25%)	51%	Worldwide brand volume decreased 1.9% and Financial volume declined 2.9% ⁽³⁾ vs. 2017
TOTAL 2018 MCIP PAYOUT	86%	

2016 to 2018 PSU Metric	2016 to 2018 PSU Performance Multiplier⁽²⁾	2016 to 2018 Highlights
PACC	126%	PACC continues to be the key driver for our cash and capital allocation strategy
Relative TSR	70%	Relative TSR over the three-year performance period was in the 10 th percentile relative to the companies in the S&P 500 Index (S&P 500)

TOTAL 2016 TO 2018 88%
PSU PAYOUT

- (1) *Performance Measures, with the exception of Relative TSR, are adjusted and non-GAAP as defined on pages 46 and 48.*
- (2) *See further information about our MCIP and actual performance beginning on page 45 and for LTIP beginning on page 47.*
- (3) *See further information on financial volume and Worldwide Brand Volume starting on page 41 of our Form 10-K.*

We accomplished much in 2018, delivering strong FCF and meeting our deleverage commitments, restoring underlying Earnings Before Interest, Taxes and Depreciation and Amortization (EBITDA) growth in the second half of the year, premiumizing our portfolio across our regions including launching Truss, scaling volume and profitability in our fast growing International business and continuing to strengthen our European business. Through the year we further scaled our cost savings program which insulated us in part from the effects of weaker industry demand in North America, higher anticipated input inflationary pressures and challenges associated with the implementation of our US breweries' supply chain system.

SUSTAINABILITY

Sustainability at Molson Coors, or Our Beer Print, is the way we approach corporate responsibility and the right way to grow our business. We believe in producing a beer we can be proud of, from barley to bottle. Our Beer Print is integral to our business strategy, and includes our commitments to governance, ethics, alcohol responsibility, environmental stewardship, sustainable sourcing, and investments in our people and communities that we believe create long term value for society, stockholders, and our other stakeholders.

The Audit Committee represents and assists the Board in overseeing our sustainability efforts. In addition, our Sustainability Leadership Council, consisting of executive leadership and senior managers of key corporate functions, meets multiple times a year and provides governance and accountability for delivering performance against Our Beer Print 2025 goals, which are described below.

In 2012, Molson Coors became a charter member of the International Alliance for Responsible Drinking (IARD). This collaborative industry body represents the 11 largest global brewers, distillers and vintners, and partners with public sector, civil society and private stakeholders to work toward a 10% reduction in harmful use of alcohol by 2025. In 2017, our CEO Mark Hunter assumed the role of Vice Chair of IARD, demonstrating Molson Coors' global leadership in reducing harmful drinking. He will assume the position of IARD Chair in 2019.

In 2017, we launched Our Beer Print 2025 agenda, Raising the Bar on Beer, which is our sustainability strategy and set of ambitious goals to take us to 2025. Informed by our materiality assessment and with the United Nations Sustainable Development Goals in mind, we focused our efforts where we believe we can have the most positive impact on our business and society. We established goals across three pillars - Responsibly Refreshing, Sustainable Brewing and Collectively Crafted - that aim to address the shifting expectations of our consumers and stakeholders, while we continue to drive our operations to be even more resource efficient and resilient.

Board and Committee Governance

BOARD LEADERSHIP STRUCTURE

We separate the roles of Chair and CEO. According to our Bylaws, the Chair is appointed by the Class A-C Nominating Subcommittee or the Class A-M Nominating Subcommittee, alternating on a biennial basis. Peter H. Coors was appointed Chair by the Class A-C Nominating Subcommittee effective May 2017, and he will serve in this position until the Annual Meeting. The Class A-M Nominating Subcommittee has the right to appoint the Chair following the Annual Meeting to serve until our 2021 annual meeting of stockholders.

BOARD SIZE

Our Board has currently set the number of directors at 15, consisting of 12 Class A directors and three Class B directors. However, only 14 directors are being nominated for election at the Annual Meeting, leaving one Class A director vacancy. Our Board does not currently plan to fill the Class A director vacancy.

Our Restated Certificate of Incorporation and Bylaws allow for our Board to change its size by resolution which must be approved by at least two-thirds of the authorized number of directors (including vacancies), provided that any decrease in the number of directors to less than 15 must be approved by the holders of the Class A common stock and Special Class A voting stock, voting together as a class.

BOARD'S ROLE IN RISK OVERSIGHT

Our Board is responsible for overseeing our enterprise risk management program (ERM Program) to ensure it is appropriately designed to identify and manage the principal risks of our business. Our Board realizes that the achievement of our strategic objectives necessarily involves taking calculated risks, and that, as our business evolves, risks applicable to our business change. The ERM Program is designed to enable us to appropriately identify, monitor, manage, prioritize and mitigate these risks, and foster a culture of integrity, risk awareness and compliance within our Company. Our Board has also tasked its committees as designated below with certain risk management categories, and these committees regularly report to our Board:

Board/Committee
Board

Primary Areas of Risk Oversight

Adopting a strategic planning process and approving annually a strategic plan, taking into account the risks of our business

Ensuring the dedication of resources and implementation of appropriate systems to manage the principal risks of our business

Oversight and monitoring of our ERM Program (shared with the Audit Committee)

- Annual review of the risk program
- Review regular reports from management on material risks, the degree of exposure to those risks, and plans to address such risks

Review reports on risk assessment from the Audit and Compensation & HR Committees

- Audit Committee reports are regularly provided to our Board
 - Compensation & HR Committee reports are provided to our Board as appropriate
- Oversight and monitoring of our risk management efforts, including our ERM Program (shared with our Board) and corporate responsibility efforts

Audit Committee

Oversight of the management of our major financial risks, cybersecurity risks and the steps management has taken to monitor and control such risks

Oversight of our internal controls and internal audit function

**Compensation & HR
Committee**

Oversight of the risks relating to our compensation plans and programs

Finance Committee

Oversight of our financial position and policies, including the risks related to our capital structure, debt portfolio, pension plans, taxes, currency risk and hedging programs.

Management is charged with managing the business and the risks associated with the enterprise and reporting regularly to our Board. Management primarily regulates risk through the ERM Program, robust internal processes and control environments, comprehensive internal and external audit processes, a strong ethics and compliance department and by adhering to the Code of Business Conduct and our other policies. Management routinely communicates business risks identified through the ERM Program, or otherwise, with our Board, the committees thereof and individual directors.

[Back to Contents](#)

Our Compensation & HR Committee believes that we have no compensation policies or programs that give rise to risks reasonably likely to have a material adverse effect on our Company.

Our Board believes its leadership structure is appropriate because it effectively allocates authority, responsibility and oversight between management and the non-management directors, including with respect to risk oversight.

To learn more about the risks we face, you can review the risk factors included in Part I, “Item 1A. Risk Factors”, starting on page 20 of the Annual Report.

BOARD COMPOSITION AND REFRESHMENT

In accordance with the Board Guidelines, the Board considers the following objectives in determining the appropriate size and composition of the Board:

1. The size of the Board should facilitate substantive discussions by the whole Board in which each director can participate meaningfully; and
2. The composition of the Board should encompass a broad range of skills, expertise, industry knowledge, diversity of opinion, and contacts relevant to our business.

In addition to the above considerations, our Board Guidelines require our Board and Nominating Committee to base director nominations on criteria that reflect the best interests of our Company, stockholders and corporate responsibilities. In doing so, our directors strive to attain the appropriate balance and diversity of background and experience on our Board.

According to our Board Guidelines, the factors considered for the selection of director nominees to serve on the Board include, but are not limited to, the individual’s:

diversity of opinion, personal and professional background and experience, as well as gender, race or ethnicity, nationality or country of origin diversity;
personal qualities and characteristics, accomplishments and reputation in the business community;
current knowledge and contacts in the communities in which we do business and in our industry or other industries relevant to our business;
ability and willingness to commit adequate time to our Board and committee matters;

skills, personality and compatibility with our other directors and potential directors in an effort to build a Board that is effective, collegial and responsive to our needs; and characteristics as they correspond with the perceived needs of our Company and our Board and its committees at the time.

While we do not have a formal diversity policy, our Board and Nominating Committee consider various diversity factors, including gender, race, ethnicity, nationality, and country of origin, as part of the assessment of director nominees to serve on our Board. In addition, the Board recently revised our Board Guidelines to require the Nominating Committee to instruct any search firm to identify director candidates who would, in addition to bringing skills and experience to the Board, also add to gender, racial or ethnic diversity on the Board.

The Board periodically reviews and assesses its composition and takes into consideration factors that may impact Board turnover and refreshment. The Board has implemented in the Board Guidelines a retirement age policy in which no person is eligible for nomination or election to our Board if such person has reached the age of 70 by the calendar year-end immediately preceding our next annual meeting, unless our Board approves an exception to this guideline on a case-by-case basis. These restrictions do not apply to our non-independent Class A directors. One of our independent Class A directors, Franklin Hobbs, has surpassed the age of 70. In connection with its review of director nominees for election to our Board at the Annual Meeting, the Nominating Committee reviewed and discussed Mr. Hobbs' continuing service on the Board and determined that, based on the value he provides and the important role that he serves as a member of the Board, Mr. Hobbs should continue to serve as a director. Upon the Nominating Committee's recommendation, our Board approved an exception to the retirement age guideline for Mr. Hobbs in connection with his nomination to stand for re-election at the Annual Meeting.

[Back to Contents](#)

NOMINATION PROCESS

Potential director nominees may come to our attention through recommendation by management, current members of our Board, our stockholders or third party search firms hired to identify and/or evaluate potential nominees. As mentioned above, any search firm hired to identify and/or evaluate potential nominees must identify candidates who would add to gender, racial or ethnic diversity on the Board. After our Board considers the qualifications outlined above to strike the appropriate balance and diversity of background and experience as well as feedback from any third party search firms hired to evaluate potential nominees, candidates are formally nominated and vacancies are filled in accordance with the terms of our Restated Certificate of Incorporation as follows:

(Pentland) and certain Molson family stockholders, in the case of the Class A-M Nominating Subcommittee, fall below certain ownership thresholds. The required thresholds are all currently satisfied.

CANDIDATES RECOMMENDED BY STOCKHOLDERS

Pursuant to our Board Guidelines, our Board will consider and evaluate a director candidate recommended by a stockholder in the same manner as candidates identified by other sources. Stockholders wishing to recommend a director candidate to serve on our Board may do so by providing advance written notice to us following the procedures set forth under Question 22 in the “Questions and Answers” section of this Proxy Statement. Any such recommendation must be accompanied by the information specified in Section 1.9.2 of our Bylaws.

DIRECTOR INDEPENDENCE

Although not required due to our “controlled company” status, a majority of the directors on our Board meet the NYSE Listing Standards definition of independence. In addition, our Restated Certificate of Incorporation contains provisions intended to ensure that at all times a majority of our directors are independent from our management. Specifically, our Restated Certificate of Incorporation defines an independent director as any director who is independent of management and is free from any interest and any business or other relationship (other than interests or relationships arising from ownership of shares of our stock) which could, or could reasonably be perceived to, materially interfere with the director’s ability to act in the best interests of our Company.

The following directors are independent under the NYSE Listing Standards and our Restated Certificate of Incorporation:

Independent Directors

Betty K. DeVita	Iain J.G. Napier
Roger G. Eaton	H. Sanford Riley
Mary Lynn Ferguson-McHugh	Douglas D. Tough
Charles M. Herington	Louis Vachon
Franklin W. Hobbs	

The independence determination for the above directors was made by our Board at its meeting held on February 14, 2019.

[Back to Contents](#)**BOARD COMMITTEES**

Our Board currently has four separately-designated committees: the Audit Committee, the Compensation & HR Committee, the Finance Committee and the Nominating Committee. In addition to the four current committees of our Board, our Board may from time to time establish additional committees.

As discussed on the previous page under “Nomination Process,” the Nominating Committee also has two sub-committees, which are required under our Restated Certificate of Incorporation.

The following table identifies the current members of each of our committees of our Board and the number of meetings held by each committee during 2018. As a “controlled company,” we are not required to follow typical director independence requirements for certain of our committees; however, other than the members of the Nominating Committee, which are prescribed by the terms of our Restated Certificate of Incorporation, each member of the other committees meets the definition of independent director under the NYSE Listing Standards and our Restated Certificate of Incorporation.

Nominating Committee

Pursuant to our Restated Certificate of Incorporation, our Nominating Committee is required to be made up of five directors: two directors who make up our Class A-C Nominating Subcommittee; two directors who make up our Class A-M Nominating Subcommittee; and one independent director (as defined in our Restated Certificate of Incorporation).

Primary Responsibility

Under the terms of the Nominating Committee's charter and our Restated Certificate of Incorporation, the responsibilities and duties of the Nominating Committee and its Nominating Subcommittees include, among other things:

- recommending to our Board three candidates for election by the holders of our Class B common stock and our Special Class B voting stock;
- nominating, directly or through its sub-committees, 12 candidates to stand for election by the holders of our Class A common stock and our Special Class A voting stock as further described in the "Nomination Process" section starting on page 24;
- periodically evaluating and recommending criteria for selection of Board members to be adopted by the Nominating Committee and our Board;

Independence

As a "controlled company," we are not required under applicable NYSE Listing Standards to have a nominating committee consisting entirely of directors who meet the independence requirements of the NYSE Listing Standards. Mr. H. Sanford Riley is independent under the NYSE Listing Standards and our Restated Certificate of Incorporation.

DIRECTORS' ATTENDANCE

Our Board held seven meetings during 2018. All incumbent directors attended 75% or more of the aggregate meetings of our Board and the committees of our Board on which they served during 2018. The directors are encouraged to attend the Annual Meeting. All directors standing for election at the Annual Meeting attended the 2018 annual meeting of stockholders.

BOARD AND COMMITTEE SELF-ASSESSMENTS

Pursuant to the Board Guidelines, our Board and its committees conduct annual self-assessments to evaluate the qualifications, experience, skills and balance of our Board and its committees and to ensure that they are working effectively. At the Board's instruction, the corporate secretary's office prepares and distributes anonymous self-assessment questionnaires to all directors, and the results of such questionnaires are discussed with our Board in detail. In addition, the independent member of our Nominating Committee periodically conducts one-on-one meetings with each member of our Board to receive additional feedback regarding director performance, Board and committee composition and effectiveness, and suggested areas of improvement.

EXECUTIVE SESSIONS OF NON-EMPLOYEE AND INDEPENDENT DIRECTORS

Our Board and each of our Board Committees generally hold executive sessions of its non-employee directors at each regularly scheduled meeting. In addition, the independent directors generally meet in executive sessions at each regularly scheduled Board meeting. Such executive sessions of independent directors are presided over by the independent member of the Nominating Committee, as set forth in the Board Guidelines.

Certain Governance Policies

HEDGING, PLEDGING AND SHORT SALE POLICIES

Under our insider trading policy (Insider Trading Policy), directors, executive officers, including our NEOs, and other employees are prohibited from purchasing any financial instrument that is designed to hedge or offset any decrease in the market value of the individual's securities holdings in our Company.

In addition, our Insider Trading Policy provides that directors, executive officers, including our NEOs, and other employees are prohibited from purchasing our securities on margin, borrowing against any account in which our securities are held or otherwise pledging securities as collateral for a loan, except they may pledge our securities as collateral for a loan (not including margin debt) with the prior approval of: (i) the Chief Legal Officer and (ii) the CFO.

Our directors, executive officers, and employees are also prohibited from engaging in short sales related to our common stock and the exchangeable shares issued by Exchangeco.

CLAWBACK POLICY

We adopted an enhanced clawback policy that applies to compensation paid in and after fiscal year 2015. Under the policy, we will use reasonable efforts to recoup from our current and former executive officers and other employees designated by our Board or our Compensation & HR Committee any excess incentive-based compensation awarded as a result of an accounting restatement due to material noncompliance with financial reporting requirements under the U.S. federal securities laws regardless of whether such officers were at fault in the circumstances leading to the restatement.

The financial statement restatement we announced on February 12, 2019 did not impact applicable incentive-based compensation metrics.

The Compensation & HR Committee intends to modify this policy based on the requirements to be issued by the NYSE pursuant to the mandate of Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010, as amended (Dodd-Frank) once the NYSE rules are finalized.

STOCKHOLDER ENGAGEMENT

Our Practices

We believe it is essential to actively engage with our stockholders to discuss and receive feedback regarding matters of importance to them. Accordingly, we are committed to the following practices to build and maintain relationships and trust with our stockholders:

conducting annual outreach to non-affiliated stockholders to discuss and seek input on our corporate governance policies, our sustainability efforts, our compensation policies and practices and any other topics requested by the stockholders;

engaging at stockholders' request to address questions and concerns regarding the Company;

providing stockholder feedback to the Board on a regular basis; and

considering and reflecting stockholder feedback in our periodic review and update of policies and practices.

How We Responded

Based on feedback we received as a result of our annual calls with our non-affiliated stockholders, in late 2017 we revised our Board Guidelines to expand the various types of diversity that the Board considers in evaluating director nominees and board composition, and in late 2018 we further revised our Board Guidelines to require the Nominating Committee to instruct any search firm requested to furnish a list of prospective director candidates to identify director candidates who would, in addition to bringing skills and experience to the Board, also add to gender, racial or ethnic diversity on the Board.

Access to Our Directors

Stockholders and other interested parties may communicate directly with members of our Board as described in Question 21 in the "Question and Answers" section on page 78.

[Back to Contents](#)**Director Compensation**

General

We use a combination of cash and stock-based compensation to ensure desired stability of our Board and to secure our ongoing ability to attract high-caliber individuals to serve on our Board. The Compensation & HR Committee, with assistance from the independent Compensation Consultant, reviews and makes recommendations to our Board annually with respect to the form and amount of director compensation. In setting director compensation, the Compensation & HR Committee considers the significant amount of time that directors expend in fulfilling their duties to our Company, the skill level required of our Board members, as well as the compensation of directors at our peer companies. Our overall director compensation philosophy is to target the median of our peer group (see page 43 for our peer group) for both cash and stock-based compensation.

2018 Compensation

For 2018, directors received an annual cash retainer and an annual equity grant in the form of restricted stock units (RSUs). All directors are reimbursed for any expenses incurred while attending our Board or any committee meetings and in connection with any other Company business. Board members also receive tax reporting and filing assistance given the complexities created by having Board meetings across multiple countries and tax jurisdictions. Below is an annual schedule of fees for 2018, approved by the Board of Directors on May 24, 2018. Fees paid are prorated according to dates of service.

Compensation Element	Members (non-Chair) (\$)	Chair & Vice Chair of our Board (\$)	Chair of the Audit Committee (\$)	Chair of the Compensation & HR Committee (\$)	Chair of the Finance Committee (\$)
Cash Retainer	100,000	190,000	120,000	120,000	115,000
RSUs	145,000	145,000	145,000	145,000	145,000
Total	245,000	335,000	265,000	265,000	260,000

After a review of our peer group median reference points in 2018, the Compensation & HR Committee believes our director pay approximates the median of our peer group and thus recommended to and the Board approved no changes to director equity grants, Chair and Vice Chair retainers or Audit and Compensation Chair retainers. The Compensation & HR Committee recommended and the Board approved an increase to the Finance Chair retainer from \$110,000 to \$115,000.

Under our Directors' Stock Plan, non Molson and Coors family directors may elect to receive 0%, 50% or 100% of their annual cash retainer in the form of either: (i) shares of Class B common stock; or (ii) deferred stock units (DSUs), with the balance in each case being paid in cash. Molson and Coors family directors receive their entire retainer and any Chair or Vice Chair retainer, as applicable, in cash. DSUs represent the right to receive shares of Class B common stock when the director's service on our Board terminates. Upon departure from the Board, directors who have elected DSUs are paid a cash amount equal to the dividends that would have been paid during the vesting period had each DSU been an actual share of Class B common stock.

Mr. Hunter, as our President and CEO, does not receive any compensation for his service on the Board. See the "Executive Compensation" section beginning on page 54 for Mr. Hunter's compensation as an employee of the company.

Director Stock Ownership Requirements

In order to further align the interests of directors with the long-term interests of our stockholders, our Board has determined that, by the end of his or her fifth year as a director, each director should own stock or stock equivalents with a value equal to five times his or her annual retainer. All of our directors currently meet or are on track to meet this requirement. Shares owned directly by the director, as well as the value of DSUs and unvested RSUs, are included in calculating ownership levels.

On May 24, 2018, each director received an annual equity grant of 2,357 RSUs with a grant date fair value of \$61.53 per unit and an aggregate grant date fair value of \$145,026. The grant date fair value is calculated in accordance with Financial Accounting Standards Board (FASB) Accounting Standards Codification 718, Compensation-Stock Compensation (FASB Topic 718). The assumptions used to calculate these amounts are incorporated by reference to Note 13 “Share-Based Payments” to our Company’s consolidated financial statements in the Annual Report. The RSUs cliff vest on May 24, 2021, or upon retirement of the director from our Board, whichever comes first. Upon vesting of RSUs, the director is paid a cash amount equal to the dividends that would have been paid during the vesting period had each RSU been an actual share of Class B common stock.

Related Person Transactions

Approval of Related Person Transactions

Our Board has adopted a formal written policy for the review, approval and ratification of “related person” transactions. Under the policy, the Audit Committee is required to approve all related person transactions (except those transactions between us and affiliates or members of the Molson or Coors families) with an aggregate amount involved that will, or may be expected to, exceed \$120,000. Other than salary and benefits to officers and employees in the ordinary course of business, any transaction between us and affiliates or members of the Molson or Coors families, regardless of the amount involved, requires Board approval under our Bylaws pursuant to the requirements set forth therein.

Under the policy, our directors, executive officers and beneficial owners of more than 5% of our Class A common stock, our Class B common stock, the Class A exchangeable shares, the Class B exchangeable shares or other voting securities (collectively, 5% beneficial owners) are expected to disclose the material facts of any transaction that could be potentially considered a “related person” transaction to our Company.

In determining whether to approve or ratify a transaction subject to the policy, the Audit Committee will review the relevant facts regarding the transaction including: (a) the extent of the related person’s interest in the transaction; (b) whether the transaction is on terms no less favorable than terms generally available to or from an unaffiliated third party under the same or similar circumstances; and (c) whether the related person transaction is consistent with the best interests of our Company and stockholders.

Each of the transactions and relationships set forth below were ratified and approved in the manner and to the extent required under our related party transaction policy or Bylaws, as applicable.

Certain Related Person Transactions

Eric H. Molson, the father of Andrew T. Molson and Geoffrey E. Molson, serves as a Director Emeritus. In connection with his role, he has the ability to recommend up to \$325,000 per year in charitable contributions.

We have a contractual relationship with the Montreal Canadiens. Geoffrey E. Molson, our Vice Chair, and Andrew T. Molson, a member of our Board, are affiliated with the general partner and one of the limited partners of CH Group Limited Partnership, the owner of the Montreal Canadiens, the Bell Centre, Spectra, Equipe and evenko. Geoffrey E. Molson is also the President and Chief Executive Officer of CH Group Limited Partnership. In 2018, we made

payments totaling approximately CAD \$3.0 million to the Montreal Canadiens in marketing, advertising, promotional endeavors and sponsorship rights in the ordinary course of business and the Montreal Canadiens or its affiliates made payments totaling approximately CAD \$4.0 million to us according to the terms of our agreements and purchased our products in the ordinary course of business. The business relationship has been in place for many years and our Board has determined it is fair and reasonable and comparable to market conditions for similar business relationships.

In addition, in connection with the sale by one of our predecessor entities of its ownership interest in the Montreal Canadiens, such predecessor agreed to: (a) assume the liability associated with the Montreal Canadiens Deferred Compensation Plan (MCDC) for the benefit of the Montreal Canadiens' players and coaches; and (b) guaranty the Montreal Canadiens' lease of the underlying land on which the Bell Centre Arena resides (the Lease Guaranty). During 2018, we made annual pension payments of approximately \$120,000 under the MCDC, and the Lease Guaranty lapsed pursuant to its terms causing us to record an associated non-cash gain of approximately \$4.3 million (CAD \$5.8 million).

We have an ongoing business relationship with RES PUBLICA and its subsidiary, NATIONAL Public Relations, for strategic public relations services. Geoffrey E. Molson and Andrew T. Molson are affiliated with RES PUBLICA. Andrew T. Molson is also a partner and the Chairman of RES PUBLICA, and Geoffrey E. Molson is a member of its board of directors. In 2018, we made payments to RES PUBLICA and NATIONAL Public Relations totaling approximately CAD \$181,000 and USD \$15,000 for strategic public relations services. The business relationship has been in place for many years, and our Board has determined it is fair and reasonable and comparable to market conditions for similar business relationships.

From time to time, we employ members of the Coors and Molson families, which together own a controlling interest in our Class A shares of our Company. Hiring and placement decisions are made based upon merit and compensation packages that are offered commensurate with policies in place for all employees of Molson Coors. Peter H. Coors, Peter J. Coors (son of Peter H. Coors), and David S. Coors (son of Peter H. Coors and brother of Peter J. Coors) are employed by the Company, each in non-executive positions. In 2018, David S. Coors received compensation in the ordinary course of business of approximately \$280,000, which included salary, bonus and equity awards. Our policies and procedures for review, approval and ratification of related person transactions did not require review, approval or ratification of David S. Coors' compensation because it was limited to salary and benefits paid to an employee in the ordinary course of business. Please see the "Director Compensation" section beginning on page 29 for a description of Peter H. Coors' and Peter J. Coors' compensation as non-executive employees and in their respective roles as directors of our Company.

PROPOSAL NO. 2 **ADVISORY VOTE TO APPROVE NAMED EXECUTIVE OFFICER COMPENSATION**
(THE ADVISORY SAY-ON-PAY VOTE)

Proposal Snapshot

What am I voting on?

Stockholders are being asked to approve, on an advisory basis, the compensation of our NEOs.

Voting Recommendation:

Our Board recommends a vote *FOR* the advisory vote to approve the compensation of our NEOs.

In accordance with Section 14A of the Exchange Act, we seek a non-binding advisory vote from the Class A Holders and the Class B Holders, voting together as a single class, to approve the compensation of our NEOs as described in the “Compensation Discussion and Analysis” section beginning on page 37 and the “Executive Compensation” section beginning on page 45. This proposal is also referred to as the say-on-pay vote. We have held a say-on-pay vote at each year’s annual meeting since 2013, and based on the 2017 advisory vote regarding the frequency of say-on-pay votes, our Board has determined to hold an advisory vote on named executive officer compensation every year until the next required advisory vote on the frequency of such votes or until the Board otherwise determines that a different frequency for such advisory votes is in the best interests of our stockholders.

In deciding how to vote on this proposal, we encourage you to read the “Compensation Discussion and Analysis” and “Executive Compensation” sections of this Proxy Statement. As described in more detail in those sections, we believe our compensation programs emphasize performance and accountability while maintaining alignment with stockholder interests.

We are asking our stockholders to approve the following advisory resolution at the Annual Meeting:

“RESOLVED, that the stockholders approve, on an advisory basis, the compensation of the Company’s named executive officers, as disclosed in this Proxy Statement pursuant to Item 402 of Regulation S-K, including the Compensation Discussion and Analysis, the executive compensation tables and the related narrative discussion.”

Because your vote is advisory, it will not be binding upon our Board. However, our Board values our stockholders' opinion and the Compensation & HR Committee will take into account the outcome of the vote when considering future executive compensation arrangements.

Executive Summary

LINKING COMPENSATION TO STRATEGY

Our business strategy drives our compensation philosophy and the choices we make as a business. Our primary focus is our First Choice strategy of earning more, using less and investing wisely by utilizing our PACC model. We earn more through our commercial excellence initiatives, which premiumize our portfolio globally and drive disruptive growth. By using less we protect our bottom-line performance, delivering cost savings and improving productivity through our shared services model and world class supply chain improvements. Finally, investing wisely enables us to deliver our deleverage commitments allowing us to return cash to stockholders, and strengthens our business through brand led growth opportunities.

Our business strategy involves a balanced focus on both the bottom and top-line, and is supported by our MCIP that incorporates two bottom-line metrics and two top-line metrics, with each weighted 25%. The bottom-line metrics are underlying Pretax Income and FCF, and the top-line metrics are Volume and NSR / HL. The combination of these four metrics incentivizes our executive team to focus every day on earning more, using less and investing wisely, helping us become First Choice for Consumers and Customers.

Capital allocation within our business continues to be guided by PACC, which helps us grow shareholder value over the medium to long-term. To maintain a disciplined, consistent approach with PACC across the business, we include PACC as a metric in our LTIP for our PSUs along with Relative TSR, which further aligns our PSU design to stockholders.

Business Goal	Performance Measures⁽¹⁾	Drivers
	Volume, NSR / HL,	Build extraordinary brands
Earn More	Pretax Income, FCF, PACC & Relative TSR	Strengthen customer excellence Drive disruptive growth Drive synergies and cost savings
Use Less	Pretax Income, FCF, PACC & Relative TSR	Increase productivity Increase efficiency of spend Brand led growth opportunities
Invest Wisely	FCF, Pretax Income, PACC & Relative TSR	Strengthen balance sheet Return cash to shareholders

Our 2018 MCIP included metrics for adjusted underlying Pretax Income and FCF, as well as NSR / HL and Volume. See discussion beginning on page 46 for further details on the annual incentive program and its (1) performance. Our 2018 LTIP PSUs used PACC modified by Relative TSR as PSU performance metrics. See discussion beginning on page 47 for further details on the LTIP. See page 48 for the definition of PACC and beginning on page 49 for details on PACC performance.

LINKING COMPENSATION TO PERFORMANCE

In 2018 we achieved the following Corporate MCIP results:

Slightly above target results for our Corporate underlying FCF metric, which allowed us to deleverage in line with expectations;
NSR / HL was below the MCIP target, but we made progress against our portfolio premiumization goals;

Although we fell slightly short of our target for underlying Pretax Income, we are over-delivering on our 2017 to 2019 cost savings plans driven by our sustainable productivity initiatives such as World Class Supply Chain 2.0, greenfield breweries in Canada and Global Business Services; and Volume continued to be challenged, especially in North America, and we performed below our MCIP target on this metric.

These results produced an overall Corporate MCIP payout at 86% of target.

Capital allocation within our business continues to be guided by PACC, and our 2016 to 2018 PSUs used PACC as the performance measure yielding strong results (approximately 109% of target). The PACC payout was reduced by our Relative TSR measured against the S&P 500, resulting in an 88% of target total PSU payout. After considering our stock price change during the performance period in addition to the 88% total PSU payout, approximately 58% of the previously reported 2016 PSU summary compensation table value was delivered at vest.

Incentive Plan	Performance Result
2018 Corporate MCIP	86%
2016 to 2018 PSUs	88%

Below are some other performance highlights against specific variable at-risk incentive metrics in our executive compensation program:

Performance Measure⁽¹⁾	2018 Corporate Results vs. Performance Measure Target⁽²⁾	2018 Highlights
Pretax Income		Underlying Pretax Income decreased 2.4% vs. 2017; and We are over-delivering on our original cost savings plans for 2017 through 2019 allowing us to offset inflation and protect marketing investment. NSR / HL on a brand-volume basis decreased 0.2% vs. 2017; and
NSR / HL		Above-premium brands now represent nearly 20% of our total annual brand volumes. We delivered more than \$1.4 billion of underlying FCF; and
FCF		Net debt was over \$1.4 billion less than at the beginning of the year.

Worldwide brand volume decreased 1.9% and financial volume declined 2.9%⁽³⁾ vs. 2017; and

Volume

Global priority brand volume decreased 3.1% vs. 2017.
PACC continues to be the key driver for our cash and capital allocation strategy;

PACC

We over-delivered against our 2016-2018 cumulative PACC target with performance period ending December 31, 2018; and

TSR

PSU unvested awards for 2017 to 2019 and 2018 to 2020 are also based on PACC modified by Relative TSR.

Relative TSR over the three-year performance period was in the 10th percentile vs. the S&P 500.

(1) Performance measures, with the exception of Relative TSR are adjusted GAAP or non-GAAP as defined on pages 46 and 48.

2018 CEO Realizable Pay Versus Adjusted Underlying Performance

CEO Realizable Pay shown as of December 31, 2018. Realizable pay includes base salary, actual non-equity incentive plan payments, intrinsic value of stock options valued at fiscal year-end 2018 and RSUs valued at the share price at year-end 2018. For PSUs, reflects the target number of shares for the 2018 award valued at the share price as of December 31, 2018.

As mentioned above, variable incentive metric performance was mixed for both MCIP and LTIP-PSUs in 2018. Both the total 2018 MCIP and 2016 to 2018 PSU awards paid out below target, 86% and 88% respectively, and stock price declines during the performance period significantly reduced the value of RSUs, PSUs and stock options at year-end vs. the grant date value.

We accomplished much in 2018, delivering strong FCF and meeting our deleverage commitments, restoring underlying EBITDA growth in the second half of the year, premiumizing our portfolio across our regions including launching Truss, scaling volume and profitability in our fast growing International business and continuing to strengthen our European business. Through the year we further scaled our cost savings program which insulated us in part from the effects of weaker industry demand in North America, higher anticipated input inflationary pressures and challenges associated with the implementation of our US breweries' supply chain system.

Considering all of the above factors, the Compensation & HR Committee found CEO realizable pay to be aligned with our performance.

Values related to performance incentive metrics shown in the chart above are reflective of final incentive plan results, and for MCIP incentive metrics are adjusted for the impact currency exchange rate fluctuations have on the calculations throughout the year and some unplanned items. The definitions of adjusted underlying Pretax Income and FCF, as well as adjusted NSR / HL and Volume as shown in this chart can be found in the "Components of Executive Compensation and 2018 Executive Pay Program Outcomes - Annual Incentives (MCIP)" section beginning on page 45. PACC and Relative TSR definitions and calculation can be found in the "PSUs or Performance Equity" section beginning on page 47.

Realizable CEO Pay versus Total Pay Opportunity (2016 to 2018)

- (1) *Total pay opportunity includes: base salary, target non-equity incentive payment and grant date fair value of PSUs, RSUs and stock options.*
CEO Realizable Pay includes base salary and actual MCIP payments as disclosed in the Summary Compensation Table on page 54, plus RSU and stock option awards valued at the December 31, 2018 stock price of \$56.16.
- (2) *PSUs, reflects the final payout of 88% for the 2016 award and the target amount for the 2017 and 2018 awards, also valued using the December 31, 2018 stock price.*
- (3) *PSU, RSU and stock option grant date stock prices for 2016, 2017 and 2018 were \$90.38, \$96.77 and \$78.79, respectively.*

CEO realizable pay for each year in the chart above is depicted at a point in time, December 31, 2018. For each year in the chart, CEO realizable pay is below CEO total pay opportunity largely due to our stock performance (i.e. our December 31, 2018 stock price was below the grant price of our 2016, 2017 and 2018 LTIP awards), which drove down the value of all our LTIP awards during those years.

Realizable CEO Pay for Performance versus Peer Group (2015 to 2017)

Comparing our TSR performance and our CEO's total realizable pay for fiscal years 2015 to 2017 (the most recent years available for our peer group) relative to our peer group's realizable pay and performance shows a strong alignment during those same years; while our TSR performance has generally been on the low end of the peer group so has our CEO's realizable pay. The peer group used for this purpose and for purposes of reviewing competitiveness of our compensation program for 2018 is shown on page 43.

EXECUTIVE COMPENSATION GOVERNANCE BEST PRACTICES CHECKLIST

What We Do

- Tie a significant portion of compensation to performance
- Use a balance of short and long-term incentive awards and establish diverse performance metrics for both
- Voluntarily implemented clawback provisions

What We Don't Do

- Design our executive compensation program to encourage excessive risk taking
- Re-price stock options without stockholder approval
- Provide excise tax gross-ups to new executives

Consider peer group and comparable industry data in setting compensation	Issue dividends or dividend equivalents to executives on unvested RSUs and PSUs
Establish significant executive and director stock ownership guidelines and evaluate compliance annually	Allow hedging of company stock
Segregate duties between the independent Compensation & HR Committee, our Board, the Compensation Consultant and management	Award excessive perquisites
Actively engage with investors regarding executive compensation and governance practices	Offer excessive change in control or severance benefits

Executive Compensation Philosophy

Our executive compensation philosophy establishes principles that enable us to attract and retain the leaders who will effectively develop and execute our business strategy. The Compensation & HR Committee reviews these principles regularly to ensure that they support our strategic objectives. Incentive plan metrics are reviewed against Board approved business and financial plans. Our objective is for our executive compensation programs to support our business and talent needs while being competitive in an ever-changing marketplace.

In setting those compensation levels, we use the following principles:

Pay for Performance Compensation Mix;
Market Competitiveness; and
Compensation Element Purpose.

[Back to Contents](#)

PAY FOR PERFORMANCE COMPENSATION MIX

We pay for performance. The percentage of at-risk performance-based pay increases with the level of responsibility and contribution to our Company. Consistent with our pay philosophy and in line with the compensation structure at our peer companies, our NEO's annual total direct compensation (TDC) at target levels are structured so that approximately 85% of the CEO's compensation and approximately 75% of the other NEO's compensation consists of annual and long-term compensation that is at-risk and varies with financial and stock price / TSR performance.

2018 Target Compensation Mix

For 2018, MCIP and PSU awards were based on the adjusted key financial measures as reflected below:

Combined, our short-term and long-term incentives are designed to drive and reward the performance of the Company, our business units and our people. Our mix of fixed and variable compensation motivates both short-term performance toward designated financial objectives and longer-term strategic performance, both driving value to our stockholders.

MARKET COMPETITIVENESS

We have one global philosophy and process for setting base salaries, annual incentive opportunities and equity grant values for our NEOs and other top executives, and generally we set benefits and perquisites on the basis of the home country practice and applicable law.

Each year, the Compensation & HR Committee reviews the competitiveness of our compensation program and individual elements. For 2018, the Compensation & HR Committee used a peer group of 15 companies and survey data from other consumer products industry companies to assess the competitive levels for each elements of the NEO's compensation (base salary, annual incentive and long-term incentives) and, when appropriate, perquisites and executive benefits.

The Compensation & HR Committee, in consultation with the independent Compensation Consultant, selected the 2018 peer group so that our annual revenue would fall near the median of the peer group's annual revenue. The Compensation & HR Committee also selected the peer group based on consideration of the following similarities:

Our 2018 peer group consisted of the following companies:

Brown-Forman Corporation

Campbell Soup Company

Carlsberg A/S

Coca-Cola European Partners Plc

ConAgra Brands, Inc.

Constellation Brands Inc.

Diageo plc

Dr Pepper Snapple Group, Inc.⁽¹⁾

General Mills, Inc.

Heineken NV

The Hershey Company

The J. M. Smucker
Company

Kellogg Company

The Kraft Heinz

Company

Mondelez

International, Inc.

⁽¹⁾ *Dr. Pepper Snapple Group, Inc. merged with Keurig Green Mountain in July 2018 after the Compensation & HR Committee assessed our peer group data.*

There were no changes to our peer group in 2018 compared to 2017.

COMPENSATION ELEMENT PURPOSE

The table below describes the purpose of each element of our pay program and what peer group reference point is included when the Compensation & HR Committee reviews our compensation programs. While the “Peer Group Reference Point” below illustrates the pay level we consider from our peer group when compensation decisions are made, we do not fix pay to peer group benchmarks; rather they are only one component in our decision making around executive compensation. Additionally, we consider executive experience and performance, business and industry challenges and macroeconomic factors.

Further, we facilitate cross-border mobility within our workforce through our compensation programs. Specifically, we maintain robust talent management programs, which allow for succession vertically, laterally and internationally across our business.

Element of Compensation	Purpose	Peer Group Reference Point
Base Salary - Fixed Pay	Fixed dollar amount which provides a competitive level of fixed compensation	Generally, median of peer group Generally, median of peer group
Annual Incentive Awards - Pay for Performance	Provides annual variable pay opportunities to reward achievement of short-term Company goals that drive long-term value creation	Actual payouts are determined by performance
	Provides long-term, stock-based variable pay opportunities to reward achievement of long-term Company goals	Generally, median of peer group
Long-Term Incentive Awards - Pay for Performance	Aligns executive compensation with stockholder outcomes	Actual payouts determined by performance
	Provides retention value

Components of Executive Compensation and 2018 Executive Pay Outcomes

Following is a summary of the key elements of our executive compensation program:

BASE SALARY

We use base salary as a level of fixed compensation that is meant to be competitive with our peers. Base salary is reviewed annually by the Compensation & HR Committee, and adjusted based on considerations such as positioning vs. our peer group, experience and performance in role, as well as scope of responsibilities.

For 2018, the Compensation & HR Committee approved the following NEO salary adjustments, other than for Mr. Hunter whose adjustment was approved by our Board after recommendation by the Compensation & HR Committee.

NEO	December 31, 2017 Base Salary (\$)	December 31, 2018 Base Salary (\$)	% of Base Salary Change
Mark R. Hunter	1,200,000	1,230,000	2.5%
Tracey I. Joubert	650,000	666,250	2.5%
Gavin D.K. Hattersley	959,400	959,400	—%
Simon J. Cox⁽¹⁾	446,570	459,967	3.0%
Celso L. White	500,304	517,815	3.5%

⁽¹⁾ A GBP to USD exchange rate of 1.2754 as of December 31, 2018 was used to convert Mr. Cox's 2018 and 2017 base salaries.

After another year as CEO in 2017, his third full year in the role, Mr. Hunter's 2018 base salary was increased 2.5% and approximates the peer group median. Ms. Joubert and Messrs. White and Cox's base salaries were all increased between 2.5% and 3.5% based on performance, experience in role and positioning vs. peer group median.

Mr. Hattersley received no merit increase based on his positioning vs. peer group median; however, he received a one-time 2.0% lump sum cash payment in lieu of a merit increase. The lump sum allowed the Company to maintain Mr. Hattersley's positioning vs. peer group median, while also providing Mr. Hattersley some additional compensation to recognize his performance and experience.

ANNUAL INCENTIVES (MCIP)

We refer to our annual incentive program as MCIP, which is administered under our Incentive Compensation Plan. MCIP provides variable pay opportunity for short-term performance, which is consistent with peer companies' practices and rewards participants for achievement against short-term objectives that can have a long-term impact on our Company's performance.

Our MCIP rewards executives, including the NEOs, for performance against pre-established annual performance goals at the Company, business unit and individual levels. Individual goals measure performance against specific job initiatives and carry a 25% weight of total MCIP target for all NEOs with the exception of Mr. Hunter, who does not have an individual component. For 2018, individual goals for our NEOs included, but were not limited to, cost savings targets, diversity and inclusion, premiumizing the portfolio, deleveraging, and retaining, attracting and developing key talent. It is important to note that the opportunity for payment against individual goals is fully conditional upon receiving a payout based on the results of the Company and / or applicable business unit. If the Company and / or business unit component does not pay out due to below threshold performance, the individual component does not pay out either. The Compensation & HR Committee maintains control over the MCIP award payout, gauging reasonableness of final award payout results against performance.

In the first quarter of 2018, the Compensation & HR Committee established a target and maximum MCIP award for each NEO based on annual operating plan financial metrics. Award payouts can range from 0% to 200% of the target award, based on level of achievement. The Compensation & HR Committee then has discretion to adjust those maximum award levels downwards (but not upwards) for unforeseen economic or business issues impacting any one or all of the business units. Any downward adjustments are determined by the results of the MCIP metrics and the executive's performance against specific individual goals.

[Back to Contents](#)

The 2018 MCIP awards were based on the following metrics:

Metric (weight %)⁽¹⁾	Corporate Definition
Underlying Pretax Income (25%)	Pretax income (loss) from continuing operations, adjusted for certain items
NSR / HL (25%) ⁽²⁾	Our total revenue from sales after excise taxes, adjusted for certain items, divided (/) by Volume ⁽³⁾
Volume (25%) ⁽²⁾	Worldwide Brand Volume ⁽⁴⁾
Underlying FCF (25%)	Cash provided by operating activities minus (-) capital expenditures, adjusted for certain items

For NEOs, the underlying Pretax Income and FCF, as well as NSR / HL and Volume achievements were measured against a performance scale which included threshold, target and maximum performance levels for the year, as shown below. Similar targets were used for other executive officers and all are based on their primary (1) geographical responsibilities along with a corporate component. The adjustments to arrive at these underlying metrics are determined in accordance with the Company's written policies regarding such matters. These underlying metrics are further adjusted at the discretion of, and subject to approval by, the Compensation & HR Committee in accordance with the MCIP.

(2) NSR / HL and Volume must each achieve threshold or above performance for either metric to payout.

Corporate NSR / HL = (Europe and International reported NSR plus (+) MillerCoors and Canada domestic NSR) (3) divided (/) by (MillerCoors and Canada domestic sales to wholesalers) plus (+) Europe financial volume plus (+) International brand volume (financial sales to wholesalers plus (+) royalty volume)).

(4) See further information on Worldwide Brand Volume starting on page 41 of our Form 10-K.

We calculate MCIP performance using Volume and NSR / HL, which are adjusted GAAP measures, and non-GAAP underlying Pretax Income and FCF. For underlying Pretax Income and FCF, results are calculated by excluding special and other non-core items from the nearest U.S. GAAP performance measure (for more (1) information on special items, see Part II, Item 8, Note 7 Special Items in our Annual Report), which is net income from continuing operations attributable to Molson Coors before tax for underlying Pretax Income and net cash provided by operating activities for underlying FCF. Applicable U.S. GAAP and underlying non-GAAP results may be adjusted for certain unplanned.

(2) Although the U.S. NSR / HL metric achieved above threshold performance, the Volume metric did not, and per plan design both metrics must achieve threshold or above performance for either to payout.

The following table summarizes the calculation of final 2018 MCIP awards for our NEOs after review by the Compensation & HR Committee (and the independent members of our Board in the case of Mr. Hunter) based on the payout percentages noted above. The individual goal multiplier for each NEO (with the exception of Mr. Hunter) is recommended by the CEO to and then approved by the Compensation & HR Committee, based on a 2018 performance assessment against individual goals. The “Grants of Plan Based Awards” table on page 56 provides information on each NEO’s threshold, target and maximum MCIP award.

The individual goals component of the MCIP multiplier are scaled by Company performance in the final MCIP (1) award calculation (e.g. Mr. Cox’s individual goal multiplier of 120% is multiplied (x) by 86% Company performance for a total of 103% of individual target).

LONG-TERM INCENTIVES (LTIP)

We use our LTIP to provide variable pay compensation in the form of equity that rewards executives when we achieve long-term results that align with our stockholders’ interests.

Under our LTIP, we grant executives three types of awards, which are administered under the Incentive Compensation Plan: PSUs, RSUs and stock options. Each NEO is awarded an aggregate LTIP value, which is allocated among the three types of awards. For 2018, we continued with our 2017 mix of awards (see table below) to provide balance of performance- and retention-based compensation to support our long-term strategy. This mix of awards is designed to tie executive compensation to TSR, balance performance focus with retention value, and mitigate the risk of over-focus on a single metric.

LTIP Allocation

Award Type	2018 (%)	2018 Alignment to Shareholders
PSUs	50	Payout depends on our performance against PACC targets modified by Relative TSR, and stock price
RSUs	30	Value of award depends on our stock price at time of vesting
Stock Options	20	Value is realized only if our stock price increases from the grant date

The number of PSUs, RSUs and stock options granted to each NEO in 2018 is detailed in the “Grants of Plan Based Awards” table beginning on page 56.

The key components of our LTIP are summarized below:

PSUs or Performance Equity

PSUs reward executives, including the NEOs, for our achievements against PACC targets over a three-year performance period, modified by our Relative TSR vs. the S&P 500.

PSUs are granted annually, which keeps focus on the applicable performance metrics. Annual grants (as opposed to end-to-end three-year grants) also provide less opportunity for the performance metrics to become misaligned with the strategic direction and objectives of our Company.

Back to Contents

The performance metrics for the 2016 to 2018 PSU vested awards were PACC, modified by Relative TSR. See performance results for these awards beginning on page 49.

The performance metric for the 2018 to 2020 PSUs is PACC, as modified by our Relative TSR (same design as 2016 to 2018).

This aligns one of the largest components of our executive pay program to our shareholder return (approximately 32% of total direct compensation at target levels for the CEO and approximately 27% for the other NEOs).

Metric	Definition
PACC	Operating Profits minus (-) Capital Charge
Operating Profits	Underlying earnings before taxes multiplied (x) by 1 minus (-) our underlying effective tax rate plus (+) underlying interest expense plus (+) underlying depreciation and amortization plus (+) cash tax savings as a result of the MillerCoors acquisition
Capital Charge	Underlying gross operating assets ⁽¹⁾ multiplied (x) by our weighted average cost of capital (WACC) ⁽²⁾
Relative TSR	Stock price appreciation plus (+) dividends paid during the performance period, divided (/) by starting stock price and compared relative to the S&P 500

Underlying gross operating assets means the Company's 13-point average gross operating asset balance used to calculate the Capital Charge. It includes current assets; gross property, plant and equipment; equity investment based upon the consolidated equity from our ownership interest in a joint venture; gross goodwill and intangibles; (1) and other assets and liabilities. It excludes deferred current and long term tax assets, notes receivables; deferred tax liabilities, and current and long term debt. It is also adjusted to exclude the impact of special or non-core items on gross operating assets to the extent the impact of the individual event requiring special or non-core treatment is in excess \$50 million.

(2) WACC is a fixed rate for any given award and is not subject to management adjustments. It takes into account the return required by stockholders and creditors to fund the Company on a long-term basis.

PACC is an annual calculation, and PSU PACC targets and actual results are based on a 3-year cumulative calculation.

In order to achieve a 200% maximum payout for the 2018 to 2020 PSU awards, our Company must exceed its PACC target by more than 120% and achieve a Relative TSR ranking of at least the 75th percentile. To achieve a minimum payout (56% of the target award), our Company must achieve at least 80% of its PACC target and any level of Relative TSR. Any result below 80% of the PACC target results in no payout of the PSUs. We believe the target level of the PACC metric is challenging, but achievable with good performance, whereas the maximum performance level represents a significant stretch goal.

The number of PSUs awarded to each NEO is determined at the date of grant by dividing (/) the target value of the total award by the closing price of our Class B common stock on that date, and rounded up to the next whole share. The final award amount, upon vesting, is then adjusted upwards or downwards based on final performance relative to the applicable metrics, subject to threshold and maximum limits (including maximum amounts approved by the Compensation & HR Committee for each NEO in connection with the grant of PSUs). PSUs have no value if threshold PACC performance is not met. At maximum performance, PSUs vest at 200% of the target value.

PSUs vest 100% on the third anniversary of the date of grant, subject to continuing employment.

Earned PSUs can be settled in cash or shares of our Class B common stock, or partly in cash and partly in shares, at the discretion of the Compensation & HR Committee. Historically, performance awards have been settled in all shares.

PSUs vest on a pro-rata basis in the event of retirement, death or disability, and are paid out following the performance period based on actual results. PSU performance is calculated at 120% of target upon a change in control. For any other termination of employment before the end of the performance period PSUs are forfeited.

Dividend equivalents are not paid on PSUs.

We continually review our incentive designs to ensure alignment to both our company strategy and shareholder interests. To that end, we have redesigned our 2019 to 2021 PSU awards in a way that we believe better accomplishes both of these goals. The new design will include 3 metrics: Relative TSR vs. companies in the Consumer Staples Index (vs. our existing awards which measure vs. the S&P 500); PACC; and cumulative 3-year NSR. Relative TSR will have a 50% weighting towards total PSU payout, and will have a 25th percentile threshold and a 75th percentile maximum. Any Relative TSR performance below the 25th percentile will result in zero payout on the entire PSU award. We have added 3-year cumulative NSR to the design to put more focus on our top-line growth and continued premiumization of the brand portfolio. NSR will have a 25% weighting towards total PSU payout. PACC will remain in the design and also have a 25% weighting towards total payout.

RSUs

Providing part of the annual LTIP award in the form of RSUs significantly strengthens the retention value of our LTIP by providing a full value component to balance stock options and PSUs.

RSUs vest 100% on the third anniversary of the date of grant, subject to continuing employment.

Vested RSUs are settled in shares of Class B common stock.

The number of RSUs is determined at the date of grant by dividing the target value of the award by the closing price of our Class B common stock on that date, and rounded up to the next whole share.

Dividend equivalents are not paid on the RSUs.

A pro-rata portion of the outstanding unvested RSUs will vest in the event of termination of employment due to retirement, death or disability. In the event of a change in control, all unvested RSUs will vest, except to the extent that a replacement award is provided. For any other termination of employment before the end of the vesting period, RSUs are forfeited.

[Back to Contents](#)**Stock Options**

Stock options align the interests of our executives with those of stockholders because stock options have no value unless there is an increase in the value of our shares from the grant date to some point in time after the vesting date. The ten-year term of our stock options provides an effective retention tool over the longer term because they retain potential value for executives even in the face of a prolonged downturn in the equity markets. This provides balance to PSU grants, which may lose all value if we miss the threshold performance criteria for the awards.

The number of stock options is determined at the date of grant by dividing the target value of the award by the Black-Scholes value of the award on that date, and rounded up to the next whole share.

The number of options and the associated exercise prices for NEOs are set forth in the “Outstanding Equity Awards at Fiscal Year-End” table beginning on page 58.

Upon retirement, unvested stock options vest. In the event of termination for any other reason, unvested options are forfeited. In the event of a change in control, all unvested stock options vest, except to the extent that a substitute award is provided.

We do not permit re-pricing of stock options without stockholder approval.

LONG-TERM INCENTIVE (LTIP) RESULTS

2016 to 2018 PSU Payout Results

Our third PSU award with adjusted PACC modified by Relative TSR as the performance metrics, vested on March 9, 2019 (where the 3-year performance period ended December 31, 2018) and achieved an 88% payout of target. The first chart below shows the full award performance matrix, and the subsequent charts show a breakout by component of how the Compensation & HR Committee calculated final results. Points in between results in the below charts are linearly interpolated.

Relative TSR Performance

Relative TSR vs. the S&P 500 over the performance period was at the 10th percentile, and thus achieved a 70% Relative TSR multiplier.

Final PSU Performance Calculation

The result of PACC performance (126%) is multiplied (or modified) by the result of Relative TSR performance (70%) for the total payout result of 88% (126% PACC performance multiplied (x) by 70% Relative TSR performance equals (=) 88%). After considering our stock price change during the performance period in addition to the 88% total PSU payout, approximately 58% of the previously reported 2016 PSU summary compensation table value was delivered at vest.

PERQUISITES

In addition to the executive compensation program elements described above, we provide certain limited perquisites to our executives, including the NEOs, which we believe are appropriate and competitive. These perquisites are described below and in the narrative following the “Summary Compensation Table” on page 54.

RETIREMENT AND OTHER POST-TERMINATION BENEFITS

Retirement

Generally, executive officers participate in the same retirement, 401(k) and pension plans as do other salaried employees in their home country. In addition to our 401(k) plans in the U.S., we provide supplemental defined contribution plans to highly-compensated U.S. employees to address the Internal Revenue Service (IRS) income and benefit limits placed on retirement plans. Similarly, in addition to the standard retirement plans provided in the U.K.,

we provide an Employer Financed Retirement Benefit Scheme (EFRBS) to highly-compensated legacy U.K. employees to address Her Majesty's Revenue and Customs income and benefit limits. These supplemental plans are further discussed below under Deferred Compensation.

Messrs. Hunter, Hattersley and Cox, as well as Ms. Joubert participate in various pension plans where benefits were frozen prior to 2010.

Details regarding the operation of our retirement and pension plans are provided in the narrative following the "Pension Benefits" table beginning on page 60.

Deferred Compensation

For highly compensated U.S. employees we established a Supplemental Thrift Plan and the MillerCoors Deferred Compensation Plan. These plans were merged in 2018 and renamed the DCP. The DCP is substantially similar in structure and operation to our qualified 401(k) plan and is intended to make employees whole on Company contributions which would otherwise be made to our 401(k) plans were it not for certain IRS limits. Additionally, the DCP allows certain highly compensated executives of the Company the ability to defer up to 75% of their base pay and up to 100% of MCIP award payments. Ms. Joubert, and Messrs. Hattersley and White participate in these plans.

In lieu of participating in our 401(k) or the DCP, Mr. Hunter participates in a U.S. non-qualifying deferred compensation plan (U.S. Pension Plan), and we make notional investments of £103,410 annually (translated to USD at time of each investment). Up until April 4, 2009, when the UK defined benefit pension plan was closed, Mr. Hunter's pension benefits were accruing under the Molson Coors (U.K.) Pension Plan, a registered U.K. pension scheme. Beginning on April 5, 2009 through December 31, 2014, Mr. Hunter's pension benefits had been accruing under an EFRBS (a non-registered UK pension scheme). From January 1, 2015, Mr. Hunter's pension benefits have been accruing under the U.S. Pension Plan designed to replicate the EFRBS with modifications made to ensure the new plan complies with requirements of Section 409A of the Internal Revenue Code (the Code) and relevant treasury regulations in the U.S. The U.S. Pension Plan is considered unfunded for US tax purposes and as a result Mr. Hunter will not be subject to U.S. tax until he receives actual distributions. In addition, the U.S. Pension Plan has been designed to have no adverse impact on Mr. Hunter's "enhanced protection" in the U.K., which protects against liability for lifetime allowance charges.

[Back to Contents](#)

We have established an unfunded individual EFRBS for Mr. Cox in the U.K. This allows certain tax benefits to be realized during the accumulation of the retirement benefits given Mr. Cox has reached the general limits on tax deductible pension accumulation in the U.K.

We believe these benefits to be competitive to similarly situated executives and market practices.

Details regarding the operation of our deferred compensation plans are contained in the “Non-Qualified Deferred Compensation” section beginning on page 61.

Change in Control and Severance

Through the combination of our change in control program (CIC Program) and our Severance Pay Plan, we provide protection to executives in situations involving termination “not for cause” following a change in control. All U.S. NEOs participate in the Severance Pay Plan, and Messrs. Hunter and Hattersley, as well as Ms. Joubert also participate in the CIC Program. Mr. Cox has a Directors Service Agreement in the U.K. which entitles him to severance in the event the Company terminates his employment without notice.

As a condition of participating in the CIC Program, eligible employees are required to enter into confidentiality and non-compete agreements in favor of the Company. The non-compete provisions of the CIC Program protect us whether or not a change in control occurs.

Under the CIC Program, a participant is entitled to certain “double-trigger” benefits following a change in control, that is, CIC Program benefits are payable if both (a) a change in control occurs and (b) if the participant is terminated by the Company other than for cause, death or disability or if the participant resigns for good reason, in each case, on or within a certain period of time (for NEOs, two years) after the change in control of the Company. Benefits are also payable if a qualifying termination occurs up to six months prior to the change in control at the request of a third party involved in or contemplating a change in control of the Company.

The Compensation & HR Committee last approved a change in control agreement that included an excise tax gross up in 2009, and no new participants have been or are expected to be gross-up eligible. Ms. Joubert became a participant in the CIC Program in 2018 and is not gross-up eligible. We no longer provide the excise tax gross-up benefit to Mr. Hunter following his appointment as President and CEO of the Company.

Additional information about our CIC Program, Severance Pay Plan and Mr. Cox’s Directors Service Agreement is provided in the “Potential Payments Upon Termination or Change in Control” section beginning on page 62.

Additional Information Regarding Executive Pay

GOVERNANCE OF EQUITY GRANT PROCESS

The Compensation & HR Committee generally evaluates and approves annual equity grants at or about the same time as it determines and approves annual salary adjustments and annual incentive payouts. This typically occurs at its regularly scheduled meeting in the first quarter of the year.

Individual recognition equity awards may be granted at other times during the year related to special circumstances, such as acquisitions, establishment of joint ventures, promotions, extraordinary performance, retention and other events. Awards of stock options, RSUs or other equity incentives to new executive officers also typically occur at the time the individual joins the organization or first becomes an officer.

Equity awards made to NEOs during 2018 are further described under the header “Long-Term Incentive (LTIP) Results” on page 49. These awards are also reflected in the relevant compensation tables beginning on page 54.

MOLSON COORS BREWING CO. - 2019 Proxy Statement 51

[Back to Contents](#)**STOCK OWNERSHIP GUIDELINES**

We have stock ownership guidelines for our executives, including the NEOs, because we believe that it is important for the leadership team to have a meaningful stake in the Company to further align management's interests with those of our stockholders. Under the guidelines, executives must accumulate shares and share equivalents having a market value equal to a prescribed multiple of annual salary. All of our NEOs currently satisfy the applicable stock ownership guidelines which are set forth below.

Position	Requirement Met?	Ownership Requirement: Multiple of Annual Salary	Additional Details
CEO	Yes	5 x	Each NEO has five years from the commencement of their current role within the Company to reach the required ownership level.
Other NEOs	Yes	3 x	
Other Senior Executives	Yes	3 x	Shares owned outright, the value of shares in deferred compensation plans and the projected value of unvested RSUs and PSUs count toward the ownership requirement while vested and unvested stock options are excluded. PSU projections take into account stock price changes but assume metric performance at target.

RECOVERY OF AWARDS

In 2015, we enhanced our clawback policy which allows for the recovery of incentive compensation from current and former executive officers and certain other employees, if designated by the Compensation & HR Committee, in the event we are required to prepare an accounting restatement due to material noncompliance with required financial reporting requirements under the securities laws, regardless of whether the officer was at fault in the circumstances leading to the restatement. This enhancement applies to incentives related to 2015 performance and beyond and will apply to current and former executive officers and certain other employees designated by the Compensation & HR Committee. The Compensation & HR Committee will further modify this recovery policy based on the requirements to be issued by the NYSE pursuant to the mandate under Dodd-Frank once the NYSE rules are finalized.

We also negotiate pay back terms for certain items in executive offer letters, such as sign-on bonuses and relocation expenses.

The financial statement restatement we announced on February 12, 2019 did not impact applicable incentive-based compensation metrics.

TAX DEDUCTIBILITY

Through December 31, 2017, Section 162(m) of the Code generally limited the tax deductibility of U.S. compensation paid by a public company to its chief executive officer and the three other most highly compensated executive officers (excluding the chief financial officer) who were in office at the end of the fiscal year to \$1 million per officer in the year the compensation becomes taxable to the executive. This group of executives were considered to be “covered employees.” There was however, an exception to the \$1 million limit on deductibility for compensation that qualifies as “performance-based” or satisfies another exemption. While the Compensation & HR Committee seeks to preserve tax deductibility in developing and implementing our executive compensation program, the Compensation & HR Committee believes it should retain flexibility in awarding compensation to our NEOs and thus has not adopted a policy that all compensation must be deductible for federal income tax purposes.

The exception from Section 162(m) of the Code relating to the deduction limit for performance-based compensation has been repealed, effective for taxable years beginning after December 31, 2017, such that compensation paid to our covered executive officers in excess of \$1 million that was designed to be performance-based compensation will not be deductible unless it qualifies for transition relief applicable to certain arrangements in place as of November 2, 2017 and not modified. Furthermore, beginning in 2018, once an executive has been identified as a “covered employee” they will remain in the \$1 million compensation tested group (those employees whom are as of December 31, 2018 or have been a “covered employee” as of December 31, 2017).

The transition relief noted above is referred to as a “grandfather rule” that permits compensation pursuant to a written binding contract which was in effect on November 2, 2017 (the “grandfather date”) and which was not modified in any material respect on or after such date, to remain deductible when paid.

RESPONSE TO ADVISORY SAY-ON-PAY VOTE

The Compensation & HR Committee has also taken into consideration the results of the 2018 stockholder advisory vote to approve executive compensation. The result of the vote was that stockholders approved, on an advisory basis, the compensation of our NEOs presented in our 2018 proxy statement (receiving approximately 97% of votes cast in favor). The Compensation & HR Committee has followed a similar approach to compensation in 2019. The Compensation & HR Committee will continue to consider the result of say-on-pay votes when making future compensation decisions for the NEOs.

Compensation & HR Committee Report

The Compensation & HR Committee, comprised of independent directors, reviewed and discussed the above CD&A with management. The Compensation & HR Committee believes that the Company has no compensation policies and programs that give rise to risks reasonably likely to have a material adverse effect on the Company. Based on the review and discussion, the Compensation & HR Committee recommended to our Board that this CD&A be included in this Proxy Statement.

STOCK AWARDS

The amount in the “Stock Awards” column is the aggregate grant date fair value of stock awards granted to each NEO, calculated in accordance with the provisions of the FASB Topic 718. Further details regarding the stock awards program are described in the “Long-Term Incentives (LTIP)” section beginning on page 47.

The assumptions used to calculate these amounts are incorporated by reference to Note 13 “Share-Based Payments” to our consolidated financial statements in the Annual Report. The PSUs and RSUs were granted under the Incentive Compensation Plan, the material provisions of which are described in the “Long-Term Incentives (LTIP)” section beginning on page 47. In calculating the number of PSUs and RSUs, the Compensation & HR Committee uses the closing date stock price on the award date. The grant date fair value of the PSUs were calculated based on the achievement of target performance, as follows: \$2,732,905 for Mr. Hunter, \$596,961 for Ms. Joubert, \$1,242,230 for

Mr. Hattersley, \$596,333 for Mr. Cox and \$596,333 for Mr. White. For 2018, the grant date fair value, assuming the highest level of payout for PSUs, would be as follows: \$5,465,810 for Mr. Hunter, \$1,193,922 for Ms. Joubert, \$2,484,460 for Mr. Hattersley, \$1,192,666 for Mr. Cox and \$1,192,666 for Mr. White.

We caution that the amounts reported for these awards may not reflect the amounts that the NEOs will actually realize from the awards. Whether, and to what extent, an NEO realizes value is dependent on a number of factors including our performance, stock price, Relative TSR, PACC and the NEO's continued employment.

OPTION AWARDS

The amount in the "Option Awards" column is the grant date fair value of stock option awards granted to each NEO, calculated in accordance with FASB Topic 718. Further details regarding the option awards program are described in the "Long-Term Incentives (LTIP)" section beginning on page 47.

The assumptions used to calculate these amounts are incorporated by reference to Note 13 "Share-Based Payments" to the Company's consolidated financial statements in the Annual Report. The stock options were granted under the Incentive Compensation Plan.

NON-EQUITY INCENTIVE PLAN COMPENSATION

The amounts reported in the "Non-Equity Incentive Plan Compensation" column represent cash amounts earned by the NEOs for performance in the calendar year. Further details regarding Non-Equity Incentive Plan Compensation are described under the "Annual Incentives (MCIP)" section beginning on page 45.

[Back to Contents](#)**CHANGE IN PENSION VALUE AND NON-QUALIFIED DEFERRED COMPENSATION EARNINGS**

The amounts shown in the “Change in Pension Value and Non-Qualified Deferred Compensation Earnings” column include changes in pension values under the tax qualified pension plan for Molson Coors UK and MillerCoors and the Benefit Equalization Plan (BEP) (which supplements the MillerCoors LLC Pension Plan).

Actual payments under the MCIP plan have already been determined and were paid to NEOs in March 2019, and are included in the “Non-Equity Incentive Plan Compensation” column of the “Summary Compensation Table” section beginning on page 54.

The awards represent PSUs granted in 2018 under the Incentive Compensation Plan. The performance period for the PSUs is the beginning of the 2018 fiscal year through the end of the 2020 fiscal year. The grant date fair value (2) at target payout is included in the “Stock Awards” column of the “Summary Compensation Table” section beginning on page 54. For a discussion of the PSU awards for 2018, see the “Long-Term Incentives (LTIP)” section beginning on page 47.

The awards represent RSUs granted in 2018 under the Incentive Compensation Plan for all NEOs. The RSUs (3) granted on March 6, 2018 and March 28, 2018 for all NEOs vest on the third anniversary of the grant date. The grant date fair value is included in the “Stock Awards” column of the “Summary Compensation Table”. For a discussion of the RSUs granted in 2018, see the “Long-Term Incentives (LTIP)” section beginning on page 47.

The awards represent stock options granted in 2018 to NEOs under the Incentive Compensation Plan. These options have a term of ten years from the grant date and vest in three equal annual installments beginning on the first anniversary of the grant date. For a discussion of the stock options granted in 2018, see the “Long-Term Incentives (LTIP)” section beginning on page 47.

Ms. Joubert received a March 28, 2018 grant of RSUs, PSUs and Stock Options to recognize her expanded duties including oversight of IT and Global Business Services.

We have outstanding RSUs under the Incentive Compensation Plan. We may impose such conditions or restrictions on RSUs granted pursuant to the Incentive Compensation Plan as the Compensation & HR Committee may deem advisable including, without limitation, restrictions based upon the achievement of specific performance goals, time based restrictions on vesting following the attainment of the performance goals, time based restrictions, or restrictions under applicable laws or under the requirements of any stock exchange or market upon which such shares are listed or traded, or holding requirements or sale restrictions placed on the shares upon vesting of such RSUs.

This column includes stock options that have vested and have not been exercised. Stock options generally vest in (a) equal annual installments over a three year period, subject to acceleration of vesting in the event of a change in control or certain termination events.

(b) This column includes stock options that have not vested.

(c) This column indicates the stock option strike price.

(d) This column indicates the expiration date for stock options which is ten years from the date of grant.

(e) This column includes unvested RSUs, which generally vest on the third anniversary of the date of grant, based on continuing employment, subject to acceleration in the event of a change in control or certain termination events.

(f) Market value of RSUs that have not vested is calculated by multiplying the number of unvested RSUs by the closing market price of \$56.16 for Class B common stock on December 31, 2018.

This column represents unvested PSUs at the value the awards will pay assuming target performance. These awards will vest upon achievement of at least the threshold performance level at the conclusion of the performance (g) period upon Compensation & HR Committee certification of performance, subject to acceleration in the event of a change in control. Typically, the performance period is three years beginning with the fiscal year in which the award was granted. The final payout may be more or less depending on final performance.

The value of PSUs is calculated by multiplying the number of unvested PSUs by the closing market price of \$56.16 (h) for Class B common stock on December 31, 2018. The final payout may be more or less depending on final performance.

Option Exercises and Stock Vested

The following table sets forth information for each of our NEOs regarding stock options exercised and stock awards vested during fiscal year 2018.

Name	Option Awards		Stock Awards	
	Number of Shares Acquired on Exercise	Value Realized on Exercise ⁽¹⁾	Number of Shares Acquired on Vesting	Value Realized on Vesting ⁽¹⁾
	(#)	(\$)	(#)	(\$)

Simon J. Cox	1,356	31,025	12,433	1,008,192
Celso L. White	—	—	4,975	403,423

For stock awards vested, the values were calculated using the closing market price of the Class B common stock on (1) the date of vesting. For stock options exercised, the value realized is the difference between the market price of the Class B common stock at the time of exercise and the exercise price of the option.

Pension Benefits

The following table sets forth the present value of accumulated benefits payable to each of the NEOs under our tax-qualified retirement plans as well as our non-qualified supplemental plan and their years of service.

Name	Plan Name	Number of Years Credited Service	Present Value of Accumulated Benefits	Payments During Last Fiscal Year
		(#) ⁽¹⁾	(\$)	(\$)
Mark R. Hunter	U.K. Pension Plan	19	6,700,769	—
Tracey I. Joubert	MillerCoors LLC Pension Plan Retirement BEP	5	183,436	—
Gavin D.K. Hattersley	MillerCoors LLC Pension Plan Retirement BEP	5	228,279	—
Simon J. Cox	U.K. Pension Plan	4	558,913	—
Celso L. White⁽²⁾	—	—	—	—

(1) Actual years of service differ as follows: Mr. Hunter (30 years); Ms. Joubert (21 years); Mr. Hattersley (22 years); and Mr. Cox (14 years).

(2) Mr. White is not a participant in any pension plans.

U.S. PENSION

We froze our U.S. qualified defined benefit pension plan in 2008 and the assets and liabilities of the plan were transferred to MillerCoors. The qualified balances for Ms. Joubert and Mr. Hattersley are displayed in the table above. The present value of accumulated benefits for the U.S. qualified pension plan is shown (through December 31, 2018) using an assumed retirement age of 60 for Ms. Joubert and Mr. Hattersley and a discount rate of 4.00%.

Ms. Joubert and Mr. Hattersley participate in the BEP, which is a non-qualified supplemental defined benefit retirement plan designed to make legacy Miller employees whole when their accrued benefit under the MillerCoors LLC Pension Plan is limited due to Section 401(a) of the Code which limits the total amount of compensation that can be considered when determining an employee's benefit accrual. The BEP determines an employee's accrued pension benefit without regard to the compensation limit, and then subtracts the accrued benefit from the qualified retirement plan from this amount. The resulting difference is the benefit earned under the BEP. The benefit accruals were frozen under this plan as of December 31, 2007, the same date benefit accruals were frozen under the MillerCoors LLC Pension Plan. Ms. Joubert and Mr. Hattersley were impacted by the plan freeze.

[Back to Contents](#)**U.K. PENSION**

Effective April 4, 2009, we froze our U.K. defined benefit plan for all employees. For Messrs. Hunter and Cox, the rate of accrual was 1/45th of pensionable pay per year of service. Final pensionable pay is defined as a one-year average of basic pay. The benefit is earned on a “straight line approach.” Normal retirement age for executive participants is age 60. Messrs. Hunter and Cox ceased accruing additional benefits once the plan was frozen.

The qualified balances for Messrs. Hunter and Cox is displayed on the previous page. The present value of accumulated benefits for the U.K. qualified pension plan is shown (through December 31, 2018) using an assumed retirement age of 60, a discount rate of 2.90%, a price inflation rate of 3.15%, and pension increases which are assumed to be 3.00% for pre-April 2006 contributions and 2.35% for post-April 2006 contributions. A GBP to USD exchange rate of 1.2754 as of our fiscal year ended December 31, 2018 was used to convert the pension values, which was £5,253,857 for Mr. Hunter and £438,226 for Mr. Cox.

Non-Qualified Deferred Compensation

The following table sets forth information for each of the NEOs regarding aggregate executive and Company contributions and aggregate earnings (on the entire account balance) accrued during 2018, as well as year-end account balances under the deferred compensation plans.

(2) Company Contributions in the Last Fiscal Year to the DCP, U.S. Pension Plan and EFRBS are reflected in the “Summary Compensation Table” on page 54 in the “All Other Compensation” column.

(3) Mr. Hunter participates in U.S. Pension Plan in lieu of participation in the DCP.

THE MOLSON COORS DEFERRED COMPENSATION PLAN FOR U.S. PARTICIPANTS

For highly compensated U.S. employees we established a Supplemental Thrift Plan and the MillerCoors Deferred Compensation Plan. These plans were merged in 2018 and renamed the DCP. The DCP is substantially similar in structure and operation to our qualified 401(k) plan and is intended to make employees whole on Company contributions which would otherwise be made to our 401(k) plans were it not for certain IRS limits. Additionally, the DCP allows certain highly compensated executives of the Company the ability to defer up to 75% of their base pay and up to 100% of MCIP award payments. Ms. Joubert, and Messrs. Hattersley and White participate in these plans.

ADDITIONAL DEFERRED COMPENSATION PLANS

In lieu of participating in our 401(k) or the DCP, Mr. Hunter participates in the U.S. Pension Plan, and we make notional investments of £103,410 annually (translated to USD at time of each investment). Up until April 4, 2009, when the UK defined benefit pension plan was closed, Mr. Hunter's pension benefits were accruing under the Molson Coors (U.K.) Pension Plan, a registered U.K. pension scheme. Beginning on April 5, 2009 through December 31, 2014, Mr. Hunter's pension benefits had been accruing under an EFRBS (a non-registered UK pension scheme). From January 1, 2015, Mr. Hunter's pension benefits have been accruing under the U.S. Pension Plan designed to replicate the EFRBS with modifications made to ensure the new plan complies with requirements of Section 409A of the Code and relevant treasury regulations in the U.S. The U.S. Pension Plan is considered unfunded for US tax purposes and as a result Mr. Hunter will not be subject to U.S. tax until he receives actual distributions. In addition, the U.S. Pension Plan has been designed to avoid adverse impacts on Mr. Hunter's "enhanced protection" in the U.K., which protects against liability for lifetime allowance charges.

Back to Contents

We have established an unfunded individual EFRBS for Mr. Cox in the U.K. This allows certain tax benefits to be realized during the accumulation of the retirement benefits given Mr. Cox has reached the general limits on tax deductible pension accumulation in the U.K.

Of the amounts in the “Aggregate Balance at Last Fiscal Year-End” column of the “Non-Qualified Deferred Compensation” table, the following amounts were also included in the “Total” column of the “Summary Compensation Table” on page 54 for 2018, 2017 and 2016.

The amounts do not include benefits earned or vested on or before December 31, 2018, or benefits provided under insurance or regular programs generally available to salaried employees.

- Messrs. Hunter, Hattersley and White are retirement eligible for purposes of the Incentive Compensation Plan and entitled to accelerated vesting of all stock options and accelerated vesting on a pro-rata portion of their PSUs and RSUs. The amounts in the table reflect the: (i) intrinsic value of the acceleration of vesting of stock options (the difference between the exercise price and \$56.16, the closing price of the Class B common stock on December 31, 2018); and (ii) the value of the applicable vesting PSUs and RSUs calculated using the closing price of the Class B common stock on December 31, 2018 which was \$56.16. Stock options are valued at zero in the table because, as of December 31, 2018, the exercise prices exceed the closing price of the underlying Class B common stock. PSUs are still subject to the Company meeting the applicable performance requirements. The table assumes performance at target.*
- (1) *Mr. Hunter is also entitled to full vesting of his PSUs and RSUs assuming Mr. Hunter and the Board agree on the timing and transition of the retirement and Mr. Hunter abides by his extended non-compete agreement. The full vesting amount would be \$7,694,650 (instead of \$4,402,719 as shown in the table) and would vest under the original terms outlined at the grant date.*
- Ms. Joubert and Mr. Cox are not retirement eligible and would receive no accelerated vesting benefits on equity awards.*
- For Mr. Hunter, the amounts are pursuant to his employment agreement. Mr. Hunter is retirement eligible and therefore the amount reflects a proration of all outstanding equity awards. All unvested RSU awards will be prorated based on the separation date. The prorated awards will accelerate and vest. The canceled portion of the RSUs with an original vest date within one year of the separation date will be paid in cash in the amount of \$51,337 and the remainder will be settled as equity.*
- (2) *For Ms. Joubert, the amounts are pursuant to the U.S. Severance Pay Plan. Ms. Joubert is not retirement eligible. The amount reflects any outstanding RSUs with an original vest date within one year of the separation date and will be paid in cash.*
- For Mr. Hattersley, the amounts are pursuant to his employment agreement. Mr. Hattersley is retirement eligible and therefore the amount reflects a proration of all outstanding equity awards.*
- For Mr. Cox, the amounts are pursuant to his employment agreement. Mr. Cox is not retirement eligible and would receive no accelerated vesting benefits on equity awards.*
- For Mr. White, the amounts are pursuant to the U.S. Severance Pay Plan. Mr. White is retirement eligible and therefore the amount reflects a proration of all outstanding equity awards. All unvested RSU awards will be prorated based on the separation date. The prorated awards will accelerate and vest. The canceled portion of the RSUs with an original vest date within one year of the separation date will be paid in cash in the amount of \$9,103 and the remainder will be settled as equity.*
- (3) *No payments are made to any NEO if terminated for cause.*
- The amounts in the table reflect the pro-rata value of stock options, RSUs and PSUs regardless of the retirement status of the NEOs. Stock options are valued at zero in the table because, as of December 31, 2018, the exercise prices exceed the closing price of the underlying Class B common stock. PSUs are still subject to the Company meeting the applicable performance requirement. The table assumes performance at target.*
- (4) *For Ms. Joubert and Messrs. Hunter and Hattersley, the amounts in the table, under Severance Payments and Benefits and Perquisites, reflect the payments under the CIC Program. For Mr. Cox the amounts reflect the terms of his employment agreement plus any additional standard redundancy pay benefits. For Mr. White the amounts reflect the terms of the U.S. Severance Pay Plan. The amounts in the Acceleration of Vesting of Stock Options and Acceleration of Vesting of Restricted Stock/Performance Units reflect the: (i) intrinsic value of the acceleration of vesting of stock options (the difference between the exercise price and \$56.16, the closing price of the Class B common stock on December 31, 2018); and (ii) the value of PSUs and RSUs using \$56.16 the closing price of the Class B common stock on December 31, 2018. CHANGE IN CONTROL PROGRAM

The CIC Program provides benefits to participants in the event that their employment is terminated within a specified period following a change in control of the Company. In the event of termination due to a change in control the benefits for participants under the CIC Program are:

A lump sum payment of the sum of salary and pro-rata annual bonus at target times the applicable multiplier (2-3x for the NEOs);

For executives participating in a U.S. health plan, the ability to continue health coverage under the Consolidated Omnibus Budget Reconciliation Act (COBRA), for a period of 18 months, at the same cost sharing level as active employees.

Up to 12 months of outplacement services;

Accelerated vesting of stock options, restricted stock, RSUs, and other stock based awards, including PSUs at 120% of target, with stock options remaining exercisable until the earlier of one year after termination of employment or the expiration of the term of the stock option; and

Ms. Joubert and Messrs. Hunter and Hattersley are not eligible to receive an excise tax gross-up under our CIC Program.

For Mr. Cox is not eligible for benefits under the CIC Program. Any eligible benefits are pursuant to the terms of his employment agreement signed in 2012. In addition, he would receive benefits under the standard redundancy pay policy which would include notice pay of £55,000 and health benefits through the end of the benefit year.

Mr. White is not eligible for benefits under the CIC Program. Under our Severance Pay Plan for senior level executives, Mr. White would receive continuation of pay equal to 12 months' of salary including insured benefits and perquisites through the severance period. The value of the PSUs are prorated with an assumed performance multiplier of 100% of target.

Under the CIC Program, "cause" will arise in the event of conviction of certain crimes, commission of certain illegal acts or breaches of the code of conduct or willful failure to perform duties. "Good reason" for a participant will arise following a change in control if we fail to pay the participant as promised, materially reduces or modifies the participant's position, responsibilities or authority or requires relocation outside a 50-mile radius of the participant's location of employment.

For purposes of the CIC Program, a change in control will occur if:

- i. an individual or group acquires voting stock of the Company sufficient to have more voting power than the voting trust established under the Class A Common Stock Voting Trust Agreement, as further described below;
- ii. Molson/Coors family nominees cease to constitute at least 50% of a majority of our Board elected by the voting securities held by the Class A Common Stock Voting Trust; or
- iii. a merger or other business combination occurs, unless following such merger or combination:
 - (a) the Class A Common Stock Voting Trust continues to hold voting securities entitled to elect a majority of our Board; and
 - (b) at least 50% of a majority of our Board is Molson/Coors family nominees.

The holders of Class A common stock and the Class A exchangeable shares (through our Class A Special voting stock) are entitled to one vote for each share held. The Coors Trust, Pentland and 4280661 Canada Inc. (Pentland's subsidiary) are parties to voting trust arrangements combining their voting power over the Class A common stock and Class A exchangeable shares they own, which is referred to as the "Class A Common Stock Voting Trust Agreement". The shares subject to the Class A Common Stock Voting Trust Agreement, together with any other shares deposited into the trust, are voted as a block by the trustees in the manner described in the Class A Common Stock Voting Trust Agreement.

The CIC Program supersedes change in control provisions in individual employment agreements. As a condition of accepting participation in the CIC Program, eligible employees are required to enter into confidentiality and non-compete agreements in favor of us. The non-compete provisions of the CIC Program protect us whether or not a change in control occurs.

Material Terms of Employment Agreements and Letters

Our arrangements with our NEOs are generally at-will, subject to certain potential severance and change in control payments described above under "Potential Payments Upon Termination or Change in Control" on page 62.

We entered into a new employment agreement with Mr. Hunter upon his appointment as our President and CEO effective January 1, 2015. In connection with his appointment, the excise tax gross-up benefit to Mr. Hunter under the CIC Program was eliminated.

Effective as of September 8, 2015, MillerCoors entered into an executive employment agreement with Mr. Hattersley when he became chief executive officer of MillerCoors. The initial term of the agreement extends to December 31,

2018, with automatic annual renewals, subject to certain termination rights of either party. Pursuant to the agreement, Mr. Hattersley is: (i) entitled to a minimum base salary of \$900,000; (ii) entitled to retain incentive awards that predate September 8, 2015, but had not vested as of such date; and (iii) is eligible to participate in various benefit, deferred compensation and perquisite plans and programs made available generally to senior executives of MillerCoors; *provided that*, Mr. Hattersley received the benefit of prior service going back to January 31, 1997, for purposes of the service requirement under MillerCoors' retiree plan. His agreement also provides that if MillerCoors terminates his employment other than for cause he is eligible to receive 52 weeks of severance and health insurance and benefits under the MillerCoors' severance pay plan, or, if such plan is terminated, an amount equal to his annual salary *plus* reimbursement for certain costs related to continued COBRA coverage. Mr. Hattersley's agreement also has a double-trigger change in control provision. The first trigger depends on a change in control of MillerCoors or Molson Coors and was not triggered by the Acquisition. The second trigger depends on criteria similar to those described in our CIC Program. If the double-trigger criteria are met, in lieu of the severance payments described in the previous sentence, MillerCoors is required to, among other things: (i) pay Mr. Hattersley a lump sum cash amount equal to (A) his pro rata portion of his target annual bonus for the year of termination *plus* (B) three times his annual base salary and his target bonus for the year of termination or the year prior, whichever is greater; (ii) reimburse certain costs related to continued COBRA coverage; and (iii) provide outplacement services.

We entered into a secondment agreement with Mr. Cox upon his appointment as President and Chief Executive Officer of our Europe business segment commencing January 1, 2015, which modified the terms of his employment agreement dated October 1, 2012. Mr. Cox's secondment agreement may generally be terminated by us upon sixty days' notice and the employment agreement may be terminated by us upon twelve months' notice. Under the terms of his agreements, Mr. Cox is entitled to a minimum base salary of £275,000, participates in the Molson Coors Europe Senior Mobile Workers' policy, and is eligible for twelve round trip tickets between the U.K. and Prague per year for his immediate family.

CEO Pay Ratio

Under Dodd-Frank, we are required to calculate and disclose the annual total compensation of our median employee and the ratio of the compensation of the median employee to the annual total compensation of our CEO (the CEO Pay Ratio).

2018 CEO PAY RATIO

Annual total compensation of our CEO in 2018	\$ 8,341,482
Annual total compensation of our estimated median employee in 2018	\$73,135
RESULTING CEO PAY RATIO	114 to 1

Methodology

As a company with global operations, we utilize compensation programs that vary region to region. Given the size and geographic composition of our workforce, we identified our estimated median employee as of December 31, 2017 (a) utilizing our internal records of annual salary as of December 31, 2017 and (b) for employees who are paid on an hourly basis, by applying such employee's hourly rate to the applicable standard working schedules as of December 31, 2017, which takes into account whether each such employee worked on a full-time or part-time basis. If compensation data for an employee was not available in our internal records, we utilized such employee's actual wages, not including overtime. We have included all employees who worked for us as of December 31, 2017, whether employed on a full-time, part-time, or seasonal basis in our analysis, except for approximately 83 employees (the excluded employees) who became our employees as a result of our acquisitions in 2017 of Birradamare, La Sagra Brew and Le Trou du Diable. We annualized our compensation measure for those of our full-time and part-time employees as of December 31, 2017 who were hired in 2017 but did not work for us for the entire year. For non-US employees, we converted such employees' pay to a US dollar equivalent by applying Bloomberg's applicable spot rates as of the close of business on December 31, 2017. Using this methodology, we determined that our estimated median employee as of December 31, 2017 was a full-time salaried employee located in North America.

Utilization of Alternative Median Employee

Taking into account the excluded employees, we believe there has been no change in our employee population or employee compensation arrangements during the 2018 fiscal year that would result in a significant change to our 2018 CEO Pay Ratio; *however*, the median employee identified in 2017 underwent a change in duties and received a corresponding salary increase during the 2018 fiscal year, which we believe may have significantly changed the 2018 CEO Pay Ratio. Accordingly, we identified an alternate median employee who had substantially similar compensation to the 2017 median employee based on the methodology described above. Similar to the 2017 median employee, the alternative median employee was a full-time salaried employee located in North America.

PROPOSAL NO. 3 **RATIFY APPOINTMENT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM FOR THE FISCAL YEAR ENDING DECEMBER 31, 2019**

Proposal Snapshot

What am I voting on?

Class A Holders are being asked to ratify the appointment of PwC as our independent registered public accounting firm for the fiscal year ending December 31, 2019.

Voting Recommendation:

Our Board recommends a vote *FOR* the ratification of PwC as the Company's independent registered public accounting firm for the fiscal year ending December 31, 2019.

Our Board is asking Class A Holders to ratify the Audit Committee's appointment of PwC as our independent registered public accounting firm for the fiscal year ending December 31, 2019. PwC is considered by the Audit Committee to be well qualified and was our independent registered public accounting firm for the fiscal year ended December 31, 2018.

Our Audit Committee and Board believe the continued retention of PwC as our independent registered public accounting firm is in the best interest of our Company and stockholders. In order to assure continuing auditor independence, the Audit Committee discusses with management the timing and process for rotation of our lead audit partner, the concurring partner and any other active audit engagement partner, and considers whether there should be a regular rotation of the audit firm itself. In conjunction with the mandatory rotation of our lead audit partner, the Audit Committee is directly involved in the selection of the audit firm's new lead engagement partner. Our current lead audit partner is in the fifth year of her rotation.

Representatives of PwC are expected to be present at the Annual Meeting to respond to appropriate questions and may make a statement if they so desire.

Pre-Approval Policy Regarding Independent Registered Public Accounting Firm Services

Duties of our Audit Committee are described under “Board Committees - Audit Committee” on page 25 and include appointing, retaining, compensating, evaluating and terminating the independent auditors, including sole authority to approve all audit engagement fees and terms. Accordingly, the Audit Committee pre-approves all audit, non-audit and internal control-related services provided by PwC prior to the engagement of PwC with respect to such services. The chair of the Audit Committee (Audit Chair) has been delegated authority by the Audit Committee to pre-approve interim services by PwC other than the annual audit. The Audit Chair must report all such pre-approvals to the entire Audit Committee at the next committee meeting. In 2018 and 2017, the Audit Committee (or the Audit Chair pursuant to the authority delegated) pre-approved all of the services performed by PwC. If the stockholders do not ratify the appointment of PwC, the Audit Committee will reconsider the appointment.

Audit Committee Report

Primary Responsibilities

The role of the Audit Committee is to prepare this report and to represent and assist our Board in its oversight of: (1) the integrity of our financial reporting process and our financial statements; (2) our compliance with legal and regulatory requirements, and our ethics and compliance program, including our Code of Business Conduct; (3) our systems of internal control over financial reporting and disclosure controls and procedures; (4) our internal audit function; and (5) the qualifications, engagement, compensation and performance of the independent registered public accounting firm, its conduct of the annual audit and its engagement for any lawful purpose.

The Audit Committee reviews its written charter annually. The Audit Committee also reviews and discusses with our management, internal audit and independent auditors our policies and procedures with respect to risk assessment and risk management. Our management is responsible for the preparation, presentation and integrity of our financial statements and the effectiveness of internal control over financial reporting. Management is also responsible for maintaining our accounting and financial reporting principles and internal controls and procedures reasonably designed to assure compliance with accounting standards and applicable laws and regulations. We have a full-time Internal Audit Department that reports regularly to the Audit Committee. The Internal Audit Department is responsible for objectively reviewing and evaluating the adequacy and effectiveness of our network of risk management, internal controls and governance processes relating, for example, to the reliability and integrity of our financial information and safeguarding our assets. PwC, our independent registered public accounting firm, is responsible for auditing our financial statements and expressing an opinion as to their conformity with accounting principles generally accepted in the U.S.

Audit Committee Report

In the performance of its oversight function, the Audit Committee has reviewed and discussed the audited financial statements in the Annual Report with management and PwC. The Audit Committee has also discussed with PwC the matters required to be discussed by Statement on Auditing Standards No. 61, as amended, *Communication With Audit Committees*, and the Public Company Accounting Oversight Board (PCAOB), AU Section 1301, *Communications with Audit Committees*, and has received the written disclosures and the letter from PwC required by applicable requirements of the PCAOB regarding the independent auditor's communications with the Audit Committee concerning independence. The Audit Committee has also discussed with PwC its independence. The Audit Committee has ultimate authority and responsibility to select, evaluate, and, when appropriate, replace our independent registered public accounting firm. The non-audit services performed by PwC were pre-approved by the Audit Committee and were also considered in the discussions of independence. Audit Committee members are not employees of our Company and do not perform the functions of auditors or accountants. As such, it is not the duty or responsibility of the Audit Committee or its members to conduct "field work" or other types of auditing or accounting reviews or procedures or to set auditor independence standards. Members of the Audit Committee rely on the information provided to them by management and PwC. Accordingly, the Audit Committee's considerations and discussions

referred to above do not assure that the audit of our financial statements has been carried out in accordance with standards of the PCAOB that the financial statements are presented in accordance with accounting principles generally accepted in the U.S. or that PwC is in fact “independent.”

Based upon the review and discussions described in this report, and subject to the limitations on the roles and responsibilities of the Audit Committee referred to above and in its charter, the Audit Committee recommended to our Board that the audited financial statements be included in the Annual Report for the fiscal year ended December 31, 2018, as filed with the SEC on February 12, 2019. The Audit Committee also appointed PwC as the independent registered public accounting firm for our Company for the fiscal year ending December 31, 2019, subject to ratification by our stockholders.

Written Proxy/Voting Instruction Card

All stockholders of record (including owners of record of exchangeable shares) can vote by written proxy/voting instruction card. If you are a beneficial owner of our common stock or the exchangeable shares, you will receive a written proxy/voting instruction card from your bank, broker or other nominee (Broker) relating to those shares.

By Telephone or via the Internet

All stockholders of record (including owners of record of exchangeable shares) may also submit a proxy/voting instruction card by touch-tone telephone from the U.S., Puerto Rico and Canada using the toll-free telephone number on the proxy/voting instruction card, or via the Internet, using the procedures and instructions described on the proxy/voting instruction card. Beneficial owners (including beneficial owners of exchangeable shares) may submit a proxy/voting instruction card by telephone or via the Internet if their Broker makes those methods available, in which case the Broker will enclose the instructions with the proxy materials. The telephone and Internet proxy/voting instruction procedures are designed to authenticate stockholders' identities, to allow stockholders to submit a proxy/voting instruction card for their shares and to confirm that their instructions have been properly recorded.

Beneficial owners of Class A or Class B common stock or exchangeable shares may revoke their proxy by following the instructions provided by their respective Broker.

Exchangeable Shares

If you are a holder of record of Class A exchangeable shares and/ or Class B exchangeable shares, you must provide your voting instructions by mail, via the internet or by phone no later than 9:00 a.m. EDT on May 20, 2019 in order for AST to vote your shares at the Annual Meeting. 12. HOW ARE ABSTENTIONS AND BROKER NON-VOTES COUNTED?

Abstentions and Broker non-votes are included in determining whether a quorum is present, but will not be included in votes cast, so they will not affect the outcome of the vote on any proposal.

13. CAN I ACCESS THE NOTICE OF ANNUAL MEETING, PROXY STATEMENT AND ANNUAL REPORT ON THE INTERNET?

The Notice of Annual Meeting, Proxy Statement and our Annual Report are available at www.proxyvote.com. Instead of receiving future copies of these documents by mail, stockholders of record and most beneficial owners can elect to receive an e-mail that will provide electronic links to these documents. Opting to receive your proxy materials online will save us the cost of producing and mailing documents to your home or business, and also will give you an electronic link to the proxy voting site.

Stockholders of Record (including Owners of Record of Exchangeable Shares)

If you submit proxy/voting instructions via the Internet at www.proxyvote.com, simply follow the prompts for enrolling in the electronic proxy delivery service.

Beneficial Owners

If you hold your shares in a bank or brokerage account, you also may have the opportunity to receive copies of these documents electronically. Please check the information provided in the proxy materials mailed to you by your Broker regarding the availability of this service.

15. HOW ARE PROXIES SOLICITED AND WHAT IS THE COST?

We have engaged Georgeson Inc. to assist with the solicitation of proxies for a customary fee of \$7,500, plus expenses. We will bear all expenses incurred in connection with the solicitation of proxies. We will reimburse brokers, fiduciaries and custodians for their costs in forwarding proxy materials to the beneficial owners of record of common stock and/or exchangeable shares. Our directors, officers and employees also may solicit proxies by mail, telephone and personal contact, however they will not receive any compensation for these activities.

16. WILL THERE BE AN AUDIO-CAST OF THE ANNUAL MEETING?

The information contained on our website is not incorporated by reference into this Proxy Statement.

17. WHAT IF I ONLY RECEIVED ONE COPY OF THE PROXY MATERIALS, EVEN THOUGH MULTIPLE STOCKHOLDERS RESIDE AT MY ADDRESS?

The SEC allows us to deliver a single Notice of Internet Availability of Proxy Materials and a single set of proxy materials to an address shared by two or more of our stockholders. This delivery method, referred to as "householding," can result in significant cost savings for our Company. As a result, stockholders who share the same address and hold some or all of their shares of common stock through a broker may receive only one copy of the Notice of Internet Availability of Proxy Materials, or upon request, the proxy materials, as the case may be, unless we have received contrary instructions from one or more of the stockholders at that address. Beneficial owners who desire to eliminate duplicate mailings, or request to receive multiple copies if a single copy is being received, should contact their Broker for more information. Stockholders of record of our common stock and the exchangeable shares should submit their request by contacting [Broadridge, Householding Department, 51 Mercedes Way, Englewood, NY 11717](#) or call them at [800-542-1061](tel:800-542-1061).

Upon written or oral request at the address or telephone number above, a separate copy of the proxy materials will be promptly delivered to any beneficial holder at a shared address to which a single copy of the proxy materials was delivered. However, please note that any stockholder who wishes to receive a paper or email copy of the proxy materials for purposes of voting at this year's Annual Meeting should follow the instructions included in the Notice of Internet Availability that was sent to the stockholder.

The Class A common stock and Class B common stock are traded on the NYSE under the symbols TAP.A and TAP, respectively.

Voting Rights

The holders of the Class B common stock and the Special Class B voting stock (as instructed by the holders of the Class B exchangeable shares) (collectively, the Class B Holders) may vote with respect to the following: (i) any matter required by the Delaware General Corporation Law, as amended (DGCL); (ii) for the election of up to three Class B directors; and (iii) as provided in our Restated Certificate of Incorporation, including, with respect to our advisory say-on-pay vote and those items described below. In all other cases, the right to vote is vested exclusively with the holders of the Class A common stock and the Special Class A voting stock (as instructed by the holders of Class A exchangeable shares) (collectively, the Class A Holders).

Under our Restated Certificate of Incorporation, the Class A Holders and Class B Holders have the right to vote, as separate classes and not jointly, on:

any merger that requires stockholder approval under the DGCL;
any sale of all or substantially all of our assets, other than to a related party;

- ~~l~~imit or deny existing preemptive rights of, or cancel or otherwise affect rights to distributions or dividends that have accumulated but have not yet been declared on, any shares of Class B common stock.

Annual Advisory Say-On-Pay Vote

In addition, the Class A Holders and Class B Holders, voting together as a single class, are entitled to vote to approve on a non-binding, advisory basis, the compensation of our NEOs.

Director Elections

The Class A Holders, voting together as a single class, are entitled to elect 12 of our directors, although there is one vacancy, which our Board does not currently plan to fill; and

The Class B Holders, voting together as a single class, are entitled to elect three of our directors.

WHAT ARE THE CLASS A EXCHANGEABLE SHARES AND CLASS B EXCHANGEABLE SHARES? 19.HOW DO THEY VOTE? HOW ARE THEY DIFFERENT FROM THE CLASS A COMMON STOCK AND CLASS B COMMON STOCK?

The Class A exchangeable shares and Class B exchangeable shares are publicly traded on the TSX under the symbols TPX.A and TPX.B, respectively, and were issued by Exchangeco in connection with the February 2005 merger of Molson Inc. with and into Adolph Coors Company. The Class A exchangeable shares and Class B exchangeable shares were issued to certain shareholders of Molson Inc. by Exchangeco in lieu of receiving our Class A common stock and/or our Class B common stock, respectively. These shares may, subject to certain terms and conditions, be exchanged for our shares of Class A common stock or our Class B common stock, respectively. Until exchanged, the exchangeable shares are intended to be provided substantially the same economic and voting rights as our Class A common stock and our Class B common stock into which they may be exchanged.

Generally, our Special Class A voting stock and our Special Class B voting stock vote together with the Class A common stock and Class B common stock, respectively, on all matters on which such class of our common stock is

entitled to vote. Furthermore, the outstanding share of our Special Class A voting stock is entitled to one vote for each outstanding Class A exchangeable share, and the outstanding share of our Special Class B voting stock is entitled to one vote for each outstanding Class B exchangeable share, in each case, excluding shares held by our Company or our subsidiaries.

Through a voting trust arrangement, owners of record of exchangeable shares, other than our Company or our subsidiaries, as of the Record Date are entitled to vote at the annual meetings of holders of the corresponding classes of our common stock. Specifically, such owners of record may provide voting instructions in respect of their exchangeable shares to AST, as trustee and registered stockholder of the Special Class A voting stock and Special Class B voting stock. AST, as trustee, is entitled to cast the number of votes equal to the number of then-outstanding Class A exchangeable shares and/or Class B exchangeable shares, as the case may be, but will only cast the number of votes equal to the number of corresponding exchangeable shares as to which it has received voting instructions from the owners of those exchangeable shares on the Record Date, and will cast its votes in accordance with such instructions so received.

20. I AM A HOLDER OF EXCHANGEABLE SHARES, WILL I RECEIVE ADDITIONAL MATERIALS?

No, you will not receive a notice of an annual meeting of the shareholders of Exchangeco, and you will not receive an information circular or proxy for an annual meeting of the shareholders of Exchangeco. The exchangeable shares are non-voting with respect to Exchangeco, except as required by the provisions attached to the exchangeable shares or by applicable law; however, the exchangeable shares (through our special voting stock) may generally vote together with our common stock into which such exchangeable shares may be exchanged. Therefore, this Proxy Statement and the proxy solicitation materials relate solely to our Company, and there will not be a separate annual meeting of Exchangeco.

The holders of exchangeable shares effectively have a participating interest in our Company rather than Exchangeco. It is, therefore, the information relating to the Company that is directly relevant to the

voting rights of holders of exchangeable shares in connection with the matters to be transacted at the Annual Meeting. The value of the exchangeable shares is derived from dividend and dissolution entitlements as well as capital appreciation corresponding to our common stock into which such shares may be exchanged. Accordingly, the value of the exchangeable shares may be determined by reference to the consolidated financial performance and condition of our Company and we believe the information regarding Exchangeco (other than as included in our public disclosure and consolidated financial statements) is not relevant to holders of exchangeable shares when exercising their voting rights on the matters to be transacted at the Annual Meeting.

For proposals not intended to be included in the Proxy Statement or nominations of persons to stand for election to our Board, our Bylaws require that such stockholder must be entitled to vote at the Annual Meeting and must have given timely notice of the stockholder proposal or director nomination in writing to the Secretary of our Company, and such business must be a proper matter for action by holders of the class of stock held by such stockholder. Failure to deliver a proposal or director nomination in accordance with the procedures discussed below and in our Bylaws may result in the proposal or director nomination not being deemed timely received. To be timely, notice of a director nomination or any other business for consideration at the stockholders’ meeting must be received by our Secretary at one of our

Principal Executive Offices, no less than 90 days nor more than 120 days prior to the first anniversary of the preceding year's annual meeting.
