Date of fiscal year end: November 30

Date of reporting period: May 31, 2016

Letter to Shareholders

The sentiment for gold and gold mining shares improved sharply in the first half of 2016. After reaching a low during the third week of December 2015 at a price of \$1,049 per ounce, gold rose sharply, reaching a high for the period of \$1,294 per ounce during the first week of May 2016. While the gold price has been volatile, it remains well above the December low and sentiment for gold mining shares has improved substantially.

At May 31, 2016, ASA Gold and Precious Metals Limited (“ASA” or the “Company”) reported a net asset value (“NAV”) of \$13.49 per share. For the six-month period ended May 31, 2016, the Company’s NAV experienced a total return of 62.2% versus a total return of 74.9% for the FTSE Gold Mines Total Return Index (the “Index”). ASA’s more diversified portfolio and underweight investments in many of the senior gold producers, combined with our overweight investments in many of the royalty companies relative to the Index, were partially responsible for the relative underperformance during the last six months. The ASA share price returned 64.7% for the six-month period, closing at \$11.77 on May 31, 2016. The gold price, as measured by the London Gold PM Fix, rose 12.9%, significantly underperforming the gold mining shares during the same period.

The discount at which ASA’s shares traded in the market decreased slightly from 14.1% at the end of fiscal 2015 to 12.8% at the end of the first six months of fiscal 2016. During this period, the discount averaged 13.7% and reached a high of 17.1% and a low of 8.9%. After careful consideration, in December of 2015, the Company’s Board of Directors (the “Board”) decided not to utilize ASA’s Share Repurchase Program because the Board did not believe that a share repurchase would materially benefit shareholders, or accomplish a meaningful narrowing of the discount at that time. In addition, the Company would have to sell portfolio securities to raise cash for such actions and the expense ratio would likely increase as assets diminished. Since then, there has been an improvement in trading activity and a stabilization in the range of the discount. The Board continues to closely monitor the discount and undertakes a thorough review of the Company’s Share Repurchase Program regularly.

The Company’s portfolio investments continued to generate low levels of revenue during the last six months. Despite some significant improvements in cost control and capital allocation within the industry, commodity prices had not recovered sufficiently to enable the mining industry to increase dividend distributions. During the last six months, ASA distributed \$0.02 per share to shareholders, the same amount as during the first six months of 2015. ASA made the most recent distribution from previously undistributed investment income generated from past periods because the Company did not earn sufficient income from its investments.

Market Observations

When the Company’s 2015 annual report was published in January 2016, we anticipated some stability in the gold price after three years of decline. The U.S. Federal Reserve (the “Fed”) had announced an increase in interest rates in

December 2015 and it appeared that steady rate increases in 2016 were fully reflected in the gold price. What was not anticipated was a stumble in U.S. and global economic growth in late January and the Fed's decision to slow the pace of further interest rate increases. As a result, the gold price rebounded significantly, ending the period at \$1,212 on May 31,

2016. The improvement in the outlook for gold helped boost the share prices of mining companies. In June 2016, the United Kingdom voted to leave the European Union, giving gold another boost as investors looked for a safe haven investment in a tumultuous market. For the remainder of 2016, we believe that the performance of gold and gold mining companies will remain heavily linked to the stability of the world's leading economies and the direction taken by the Fed.

At the beginning of the current fiscal year, ASA reduced its exposure to base metals and platinum and increased its exposure to gold. As a result, the Company was well positioned to participate in the gold rally during the first half of 2016. ASA continues to believe in a diversified precious metals strategy, however, we are comfortable with our current metals exposure for the near term. It should be noted, as reflected in Chart 1 below, that the reduction in the allocation to silver mining companies during the last six months was due to the reclassification of Tahoe Resources Inc. from a silver producer to a gold producer following two recent acquisitions made by the company.

Chart 1: Metals Exposure

Industry / Portfolio Trends

During periods of a rapid rise in the gold price, like the one witnessed during the first half of 2016, highly leveraged and lower quality gold mining companies tend to outperform the broader gold mining indices, as they benefit the most from the move in the gold price. ASA has been largely underweight highly leveraged miners due to the Company's longer term, fundamentally based investment strategy, which emphasizes quality over operating or financial leverage. ASA prefers to invest in companies where management has demonstrated the ability to add value over time, build a strong balance sheet, and acquire low cost, long-lived assets.

In general, the higher gold price, improvement in corporate balance sheets and the shedding of lower quality assets by many of the senior gold producers have left the industry in better financial shape than it was a year ago, but largely devoid of production growth. As we head into the second half of this year, we anticipate that larger gold producers will begin to address their lack of growth by acquiring low

cost production through mergers and acquisitions. ASA has positioned its portfolio to benefit from this trend. In the first half of 2016, ASA added four new positions in development stage companies, which we believe are potential acquisition targets due to the quality of their assets. Even without corporate M&A activity, we believe the valuation of these companies should improve as they shift from developers to producers and begin to generate free cash flow. Typically, the market attributes a higher valuation to producing companies than it does to non-producers and the performance of these development companies should positively capture an improvement in valuation.

MAG Silver Corp., a partner in a high grade silver project currently under development in Mexico, was added to ASA's portfolio during the first quarter of 2016. ASA has followed MAG for several years and saw an attractive entry point as the company finalized financing for its project and in advance of what we anticipate to be positive exploration updates. ASA also established a new position in Lydian International Ltd. when the company sought financing for a permitted project. With financing now complete for its development project in Armenia, we expect positive updates as they commence construction.

Atlantic Gold Corp. was also added to ASA's portfolio during the first half of 2016. Atlantic was relatively new to ASA this year, but the management team has been known to us for many years. We believe that its simple, open-pit asset in Canada should have a quick development timeline and return of capital. Integra Gold Corp was the fourth new addition. Still in the exploration stage, Integra is more junior than the others additions, however, it is in a highly prospective region, has a robust exploration budget and plan for 2016, and a solid leadership team that we anticipate will deliver positive catalysts for the stock.

ASA's previous investments in development companies generally performed well in the first half of 2016 as Torex Gold Resources Inc., Asanko Gold Inc., and Guyana Goldfields Inc. completed construction, commenced production, and transitioned from developers to producers on time and on budget. ASA added to positions in Asanko and Guyana throughout the first half of 2016 to take advantage of a brief retracement in these issuers. In general, we have been pleased with how ASA's investment thesis in these developers has played out over the last few years and believe that the trend will continue.

The Company added to positions in AngloGold Ashanti Ltd., Detour Gold Corp. and SEMAFO Inc. early in 2016 as we viewed these companies as solid operators that would perform well in a flat to rising gold market while also being able to weather gold price volatility.

Several positions were reduced during the last six months as they either grew disproportionately large or reached, what we considered to be a full valuation, in order to re-deploy capital in the aforementioned companies. Five positions were sold entirely that no longer had compelling investment cases and which were expected to underperform other miners in a rising gold price environment. Among these were ASA's positions in Anglo American Platinum Ltd. and Impala Platinum Holdings Ltd. After decades of investment, we could no longer see an investment case for the South African platinum miners as they face ever increasing labor issues, cost pressure and capital requirements in the face of weak commodity prices. In addition to the sale of the platinum miners, positions in the platinum and palladium ETFs were also trimmed. While ASA's net platinum and palladium exposure decreased in the first half of 2016 in order to allocate more capital to the gold mining sector, ASA did increase its position in Stillwater Mining Company,

a North American platinum miner, that we believe operates efficiently and cost effectively and has the balance sheet to withstand the current price environment without sacrificing necessary capital investment.

more volatile and less liquid than larger more established companies. Investments in foreign securities, especially those in the emerging markets, may involve increased risk as well as exposure to currency fluctuations. Shares of closed-end funds frequently trade at a discount to net asset value. All performance information reflects past performance and is presented on a total return basis. Past performance is no guarantee of future results. Current performance may differ from the performance shown.

This shareholder letter does not constitute an offer to sell or solicitation of an offer to buy any securities.

Certain Investment Policies and Restrictions (Unaudited)

The following is a summary of certain of the Company's investment policies and restrictions and is subject to the more complete statements contained in documents filed with the Securities and Exchange Commission.

The concentration of investments in a particular industry or group of industries. It is a fundamental policy (i.e., a policy that may be changed only by shareholder vote) of the Company that at least 80% of its total assets be (i) invested in common shares or securities convertible into common shares of companies engaged, directly or indirectly, in the exploration, mining or processing of gold, silver, platinum, diamonds or other precious minerals, (ii) held as bullion or other direct forms of gold, silver, platinum or other precious minerals, (iii) invested in instruments representing interests in gold, silver, platinum or other precious minerals such as certificates of deposit therefor, and/or (iv) invested in securities of investment companies, including exchange traded funds, or other

securities that seek to replicate the price movement of gold, silver or platinum bullion. Compliance with the percentage limitation relating to the concentration of the Company's investments will be measured at the time of investment. If investment opportunities deemed by the Company to be attractive are not available in the types of securities referred to in the preceding paragraph, the Company may deviate from the investment policy outlined in that paragraph and make temporary investments of unlimited amounts in securities issued by the U.S. Government, its agencies or instrumentalities or other high quality money market instruments.

The percentage of voting securities of any one issuer that the Company may acquire. It is a non-fundamental policy (i.e., a policy that may be changed by the Board of Directors) of the Company that the Company shall not purchase a security if, at the time of purchase, more than 20% of the value of its total assets would be invested in securities of the issuer of such security.

Report of Independent Registered Public Accounting Firm

To the Shareholders and the Board of Directors of ASA Gold and Precious Metals Limited

We have reviewed the accompanying statements of assets and liabilities of ASA Gold and Precious Metals Limited (the "Company"), including the schedules of investments, as of May 31, 2016 and May 31, 2015, and the related statements of operations for the six month periods ended May 31, 2016 and May 31, 2015, the statements of changes in net assets for the six month period ended May 31, 2016, and the financial highlights for the six-month periods ended May 31, 2016 and May 31, 2015. These financial statements and financial highlights are the responsibility of the Company's management.

We conducted our reviews in accordance with the standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit in accordance with the standards of the Public Company Accounting Oversight Board, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to the interim financial statements referred to above for them to be in conformity with U.S. generally accepted accounting principles.

We have previously audited, in accordance with the standards of the Public Company Accounting Oversight Board, the statement of changes in net assets for the year ended November 30, 2015 and the financial highlights for each of the four years in the period ended November 30, 2015, and in our report dated January 19, 2016, we expressed an unqualified opinion on those financial statements and financial highlights. Other auditors have previously audited, in accordance with the standards of the Public Company Accounting Oversight Board, the financial highlights for the year ended November 30, 2011 and in their report, dated January 24, 2012, they expressed an unqualified opinion on those financial highlights.

The notes to financial statements form an integral part of these statements.

Notes to Financial Statements (Unaudited)

1. Organization

ASA Gold and Precious Metals Limited (the “Company”) is a closed-end investment company registered under the Investment Company Act of 1940, as amended (the “1940 Act”), and was organized as an exempted limited liability company under the laws of Bermuda.

2. Investment objective and strategy

The Company is a non-diversified, closed-end, internally managed fund that seeks long-term capital appreciation primarily through investing in companies engaged in the exploration for, development of projects or mining of precious metals and minerals.

It is a fundamental policy of the Company that at least 80% of its total assets must be (i) invested in common shares or securities convertible into common shares of companies engaged, directly or indirectly, in the exploration, mining or processing of gold, silver, platinum, diamonds or other precious minerals, (ii) held as bullion or other direct forms of gold, silver, platinum or other precious minerals, (iii) invested in instruments representing interests in gold, silver, platinum or other precious minerals such as certificates of deposit therefor, and/or (iv) invested in securities of investment companies, including exchange traded funds, or other securities that seek to replicate the price movement of gold, silver or platinum bullion.

The Company employs bottom-up fundamental analysis and relies on detailed primary research including meetings with company executives, site visits to key operating assets, and proprietary financial analysis in making its investment decisions

3. Summary of significant accounting policies

The following is a summary of the significant accounting policies:

A. Security valuation

The net asset value of the Company generally is determined as of the close of regular trading on the New York Stock Exchange (the “NYSE”) or the Toronto Stock Exchange (the “TSX”), whichever is later, on the date for which the valuation is being made (the “Valuation Time”). Portfolio securities listed on U.S. and foreign stock exchanges generally are valued at the last reported sale price as of the Valuation Time on the exchange on which the securities are primarily traded, or the last reported bid price if a sale price is not available. Securities traded over the counter are valued at the last reported sale price or the last reported bid price if a sale price is not available. Securities listed on foreign stock exchanges may be fair valued based on significant events that have occurred subsequent to the close of the foreign markets.

Securities for which current market quotations are not readily available are valued at their fair value as determined in good faith by, or in accordance with procedures approved by, the Company’s Board of Directors. If a security is valued at a “fair value,” that value may be different from the last quoted price for the security. Various factors may be reviewed in order to make a good faith determination of a security’s fair value. These factors include, but are not limited to, the nature of the security; relevant financial or business developments of the issuer; actively traded similar or related securities; conversion rights on the security; and changes in overall market conditions.

Where the Company holds securities listed on foreign stock exchanges and American Depository Receipts (“ADRs”) representing these securities are actively traded in U.S. markets, the securities normally are fair valued based on the last reported sales price of the ADRs.

The difference between cost and market value is reflected separately as net unrealized appreciation (depreciation) on investments. The net realized gain or loss from the sale of securities is determined for accounting purposes on the identified cost basis.

Notes to Financial Statements (Unaudited) (Continued)*B. Restricted securities*

At May 31, 2016 and May 31, 2015, the Company held investments in restricted securities of 5.01% and 3.43% of net assets, respectively, valued in accordance with procedures approved by the Company's Board of Directors as follows:

Restricted Securities**May 31, 2016**

Shares/ Warrants	Cost	Issuer	Value Per Unit	Value	Acquisition Date

C. Fair value measurement

In accordance with U.S. GAAP, fair value is defined as the price that the Company would receive to sell an investment or pay to transfer a liability in a timely transaction with an independent buyer in the principal market, or in the absence of a principal market the most advantageous market for the investment or liability. U.S. GAAP establishes a three-tier hierarchy to distinguish between (1) inputs that reflect the assumptions market participants would use in pricing an asset or liability developed based on market data obtained from sources independent of the reporting entity (observable inputs) and (2) inputs that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing an asset or liability developed based on the best information available in the circumstances (unobservable inputs) and to establish classification of fair value measurements for disclosure purposes.

Various inputs are used in determining the value of the Company's investments. The inputs are summarized in the three broad levels listed below.

Level 1 –unadjusted quoted prices in active markets for identical investments

Level 2 – other significant observable inputs (including quoted prices for similar investments, interest rates, credit risk, etc.)

Level 3 – significant unobservable inputs (including the Company's own assumptions in determining the fair value of investments)

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

Notes to Financial Statements (Unaudited) (Continued)

The following is a summary of the inputs used as of May 31, 2016 and May 31, 2015 in valuing the Company's investments at fair value:

Investment in Securities**Measurements at May 31, 2016**

Description (1)	Level 1	Level 2	Level 3	Total
Common Shares				
Gold and Silver Investments				
Gold mining, exploration, development and royalty companies	\$ 194,451,511	\$ 42,210,081	\$—	\$ 236,661,592

Total Investments	\$ 187,374,232	\$ 37,194,768	\$ —	\$ 224,568,999

Transfers into and out of levels are recognized at the end of the period. During the six months ended May 31, 2015, there were no transfers into and out of Levels 1, 2, and 3.

(1) See schedules of investments for country classifications.

May not total due to independent rounding.

The table below presents a reconciliation for all financial assets and liabilities measured at fair value on a recurring basis, excluding accrued interest components, using significant unobservable inputs (Level 3) for the six months ended May 31, 2016.

Balance	Net Change	Balance
December 1, 2015	in Unrealized	May 31, 2016
	Depreciation (1)	Purchases
Warrants \$	— \$ (49,228)	\$ 342,340
		\$ 293,112

Included in net increase (decrease) in net unrealized appreciation (depreciation) on investments in the (1) accompanying Statements of Operations. The net change in unrealized depreciation for investments still held as of May 31, 2016 was \$(49,228).

Edgar Filing: ASA Gold & Precious Metals Ltd - Form N-CSRS

The following table provide quantitative information about the Company's Level 3 fair value measurements of its investments as of May 31, 2016. In addition to the techniques and inputs noted in the table below, the Company may also use other valuation techniques and methodologies when determining the fair value measurements. The table below is not intended to be all-inclusive, but rather provide information on the significant Level 3 inputs as they relate to the Company's fair value measurements.

Investment Type	Fair Value as of May 31, 2016	Valuation Techniques	Unobservable	
			Inputs (a)	Range
Warrants	\$293,112	Market Adjusted Black Scholes Options Pricing Model	Liquidity Discount Volatility	15 % 40 %

(a) Represents amounts used when the Company has determined that market participants would use such multiples when pricing the investments.

Notes to Financial Statements (Unaudited) (Continued)

D. Cash and Cash Equivalents

The Company considers all money market fund and all highly liquid temporary cash investments purchased with an original maturity of less than three months to be cash equivalents. The majority of the Company's cash and cash equivalents at May 31, 2015 consisted of overnight deposit of excess funds in a commercial paper sweep instrument issued by JPMorgan Chase & Co ("JPM"). JPM discontinued the commercial paper sweep instrument effective August 1, 2015.

E. Foreign Currency Translation

Portfolio securities and other assets and liabilities denominated in foreign currencies are translated into U.S. dollar amounts at the rate of exchange reported one hour after the Valuation Time. Purchases and sales of investment securities and income and expense items denominated in foreign currencies are translated into U.S. dollar amounts on the respective dates of such transactions. The Company separately reports the effect of changes in foreign exchange rates from changes in market prices of securities held. The resulting net foreign currency gain or loss is included on the Statements of Operations. Realized foreign currency gains or losses arise from sales of foreign currencies, currency gains or losses realized between the trade and settlement dates on securities transactions, fluctuation in exchange rates between the initial purchase date and subsequent sale date on securities transactions, and the difference between the amounts of dividends, interest, and foreign withholding taxes recorded on the Company's books and the U.S. dollar equivalent of the amounts actually received or paid.

F. Securities Transactions and Investment Income

During the six months ended May 31, 2016, sales and purchases of portfolio securities (other than temporary short-term investments) amounted to \$14,703,047 and \$10,430,795, respectively. During the six months ended May 31, 2015, sales and purchases of portfolio securities (other than temporary short-term investments) amounted to \$11,965,667 and \$11,514,440, respectively.

Dividend income is recorded on the ex-dividend date, net of withholding taxes or ADR fees, if any. Interest income is recognized on the accrual basis.

G. Dividends to Shareholders

Dividends to shareholders are recorded on the ex-dividend date. The reporting for financial statement purposes of dividends paid from net investment income and/or net realized gains may differ from their reporting for U.S. federal income tax purposes, primarily because of the separate line item reporting for financial statement purposes of foreign exchange gains or losses.

H. Use of Estimates

The preparation of the financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates. It is management's opinion that all adjustments necessary for a fair statement of the results of the interim periods presented have been made. All adjustments are of a normal recurring nature.

I. Basis of Presentation

The financial statements are presented in U.S. dollars.

J. Income Taxes

In accordance with U.S. GAAP requirements regarding accounting for uncertainties on income taxes, management has analyzed the Company's tax positions taken on federal and state income tax returns, as applicable, for all open tax years (2012 - 2015). As of May 31, 2016 and May 31, 2015, the Company has not recorded any unrecognized tax benefits. The Company's policy, if it had unrecognized benefits, is to recognize accrued interest and penalties in operating expenses.

Notes to Financial Statements (Unaudited) (Continued)

4. Tax status of the Company

The Company is a “passive foreign investment company” (“PFIC”) for United States federal income tax purposes and is not subject to Bermuda tax as an exempted limited liability company organized under the laws of Bermuda. Nor is the Company generally subject to U.S. federal income tax, since it is a non-U.S. corporation whose only business activity in the United States is trading in stocks or securities for its own account; under the U.S. federal tax law that activity does not constitute engaging in the conduct of a trade or business within the United States, even if its principal office is located therein. As a result, its gross income is not subject to U.S. federal income tax, though certain types of income it earns from U.S. sources (such as dividends of U.S. payors) are subject to U.S. federal withholding tax.

5. Exemptive order

The Company is a closed-end investment company and operates pursuant to an exemptive order issued by the Securities and Exchange Commission (the “SEC”) pursuant to Section 7(d) of the 1940 Act (the “Order”). The Order was originally conditioned upon, among other things, the Company complying with certain requirements relating to the custody of assets and settlement of securities transactions outside of the United States different than those required of other registered investment companies. These conditions made it more difficult for the Company to implement a flexible investment strategy and to fully achieve its desired portfolio diversification than if it were not subject to such requirements. On June 18, 2013, the SEC issued an order that amended certain conditions contained in the Company’s then-existing exemptive order, most notably, the Company’s ability to hold assets and settle trades in Canada, Australia, the United Kingdom, the United States, South Africa and Hong Kong (text of relief granted is available at: <http://www.sec.gov/Archives/edgar/data/1230869/999999999713009907/filename1.pdf>).

6. Retirement plans

The Company has recorded a liability for retirement benefits due to retired directors and one current director upon retirement. The liability for these benefits at May 31, 2016 and May 31, 2015 was \$635,429 and \$584,806, respectively. A director whose first election to the Board of Directors was prior to January 1, 2008 qualifies to receive retirement benefits if he has served the Company (and any of its predecessors) for at least twelve years prior to retirement. Directors first elected on or after January 1, 2008 are not eligible to participate in the plan.

7. Concentration risk

The Company invests at least 80% of its total assets in securities of companies engaged, directly or indirectly, in the exploration, mining or processing of gold or other precious minerals. The Company also invests a substantial portion of its assets in companies that are domiciled and/or have operations outside of the United States, including emerging market countries, such as South Africa. The Company is, therefore, subject to gold and precious metals-related risk as well as risk related to investing in foreign securities, including political, economic, regulatory, liquidity, currency fluctuation, and foreign exchange risks. The Company currently is invested in a limited number of securities and thus holds large positions in certain securities. Because the Company's investments are concentrated in a limited number of securities of companies involved in the holding or mining of gold and other precious minerals and related activities, the net asset value of the Company may be subject to greater volatility than that of a more broadly diversified investment company.

8. Indemnifications

In the ordinary course of business, the Company enters into contracts that contain a variety of indemnification provisions. The Company's maximum exposure under these arrangements is unknown.

Notes to Financial Statements (Unaudited) (Continued)

9. Compensation matters

For the six months ended May 31, 2016 and May 31, 2015, the aggregate remuneration paid to the Company's officers was \$1,029,613 and \$1,073,850, respectively. In addition, \$379,250 and \$384,500, respectively was accrued for bonuses to the Company's officers and employees. The accrued bonuses are reflected in the "Accrued affiliated expenses" on the Statements of Assets and Liabilities. The aggregate remuneration paid to the Company's directors was \$104,000 and \$104,000, respectively.

10. Operating lease commitment

In November 2012, the Company entered into a five-year operating lease agreement in San Mateo, CA for approximately 2,500 square feet to be used as office space for its employees. The lease provides for future minimum rental payments in the aggregate amount of \$224,489 as of May 31, 2016. The lease contains escalation clauses relating to the tenant's share of insurance, operating expenses and tax expenses of the lessor.

Future minimum rental commitments under the lease are as follows:

06/01/16 - 11/30/16	\$63,062
12/01/16 - 11/30/17	128,953
12/01/17 - 02/28/18	32,474
Total	\$224,489

11. Share repurchase

The Company may from time to time purchase its common shares at a discount to NAV on the open market in such amounts and at such prices as the Company may deem advisable.

The Company had 19,289,905 shares outstanding as of May 31, 2016 and May 31, 2015. There were no repurchases during the six months ended May 31, 2016 and May 31, 2015.

12. Subsequent events

In accordance with U.S. GAAP provisions, management has evaluated the possibility of subsequent events existing in the Company's financial statements through the date the financial statements were issued. The Company believes that there are no material events that would require disclosure.

Financial Highlights

Per share operating performance (1)	(Unaudited) Six months ended May 31		Year ended November 30

(1) Per share amounts from operations have been calculated using the average shares method.

(2) Total investment return is calculated assuming a purchase of common shares at the current market price at close the day before and a sale at the current market price on the last day of each period reported. Dividends are assumed, for purposes of this calculation, to be reinvested at prices obtained under the Company's dividend reinvestment plan.

(3) Total investment return is calculated assuming a purchase of common shares at the current net asset value at close the day before and a sale at the current net asset value on the last day of each period reported. Dividends are assumed, for purposes of this calculation, to be reinvested at prices obtained under the Company's dividend reinvestment plan.

(4) "Adviser operating expenses" impacted the expense ratio by 0.02% and 0.04% during fiscal years 2013 and 2012, respectively. The Company's former subsidiary, ASA Gold and Precious Metals Advisers LLC, was discontinued on September 23, 2013.

(5) Not annualized.

(6) Annualized.

The notes to financial statements form an integral part of these statements.

Certain Tax Information for U.S. Shareholders

The Company is a “passive foreign investment company” (“PFIC”) for U.S. federal income tax purposes. In view of this, U.S. investors holding common shares in taxable accounts are strongly urged to review the important tax information regarding the consequences of an investment in the common shares of the Company, which may be found at www.asaltd.com under “Investor

Information | Taxpayer Information - PFIC”. **Due to the complexity and potentially adverse effect of the applicable tax rules, U.S. shareholders are strongly urged to consult their own tax advisors concerning the impact of these rules on their investment in the Company and on their individual situations, and any additional informational filing requirements.**

Dividend Reinvestment and Direct Stock Purchase Plan

Computershare Trust Company, N.A. (“Computershare”) has been authorized by the Company to offer and administer the Computershare Investment Plan, a dividend reinvestment and direct stock purchase plan (“CIP”) to shareholders as well as new investors or non-shareholders. Shareholders and new investors may elect to participate in the CIP by signing an enrollment form or by going to www.computershare.com/investor and following the instructions. New investors or non-shareholders must include a minimum initial investment of at least \$500. Computershare as agent will apply to the purchase of common shares of the Company in the open market (i) all cash dividends (after deduction of the service charge described below) that become payable to such participant on the Company’s shares (including shares registered in his or her name and shares accumulated under the CIP) and (ii) any optional cash purchases (\$50 minimum, subject to an annual maximum of \$250,000) received from such participant.

For the purpose of making purchases, Computershare will commingle each participant’s funds with those of all other participants in the CIP. The price per share of shares purchased for each participant’s account shall be the weighted average price of all shares purchased in the open market with the net funds available from a cash dividend and any voluntary cash purchases being invested. Any stock dividends or split shares distributed on shares held in the CIP will be credited to the participant’s account.

A one-time \$10 enrollment fee to establish a new account for a new investor or non-shareholder will be deducted from the purchase amount. For each participant, each dividend reinvestment will entail a transaction fee of 5% of the amount reinvested, up to a maximum of \$3.00 plus \$0.03 per share purchased. Each optional cash purchase by check or one-time online bank debit will entail a transaction fee of \$5 plus \$0.03 per share purchased. If a participant has funds automatically deducted monthly from his or her savings or checking account, for each debit the transaction fee is \$2.50 plus \$0.03 per share purchased. Fees will be deducted from the purchase amount. Each batch order sale will entail a transaction fee of \$15 plus \$0.12 per share sold. Each market order sale will entail a transaction fee of \$25 plus \$0.12 per share sold. Fees are deducted from the proceeds derived from the sale. All per share fees include any brokerage commissions Computershare is required to pay. Additional fees are charged by Computershare for specific shareholder requests such as copies of account statements for prior years (\$10 per year requested) and a returned

check and ACH reject fee of \$25.

Participation in the CIP may be terminated by a participant at any time by written, telephone or Internet instructions to Computershare. Upon termination, a participant will receive a certificate for the whole number of shares credited to his or her account, unless he or she requests the sale of all or part of such shares. Dividends reinvested by a shareholder under the CIP will generally be treated for U.S. federal income tax purposes in the same manner as dividends paid to such shareholder in cash. See “Certain Tax Information

Dividend Reinvestment and Direct Stock Purchase Plan (continued)

for U.S. Shareholders” for more information regarding tax consequences of an investment in shares of the Company, including the effect of the Company’s status as a PFIC. The amount of the service charge is deductible for U.S. federal income tax purposes, subject to limitations.

To participate in the CIP, shareholders may not hold their shares in a “street name” brokerage account.

Additional information regarding the CIP may be obtained from Computershare, P.O. Box 30170, College Station, TX 77842-3170. Information may also be obtained on the Internet at www.computershare.com/investor or by calling Computershare’s Telephone Response Center at (800) 317-4445 between 9:00 a.m. and 5:00 p.m., Eastern time, Monday through Friday.

Privacy Notice

The Company is committed to protecting the financial privacy of its shareholders.

We do not share any nonpublic, personal information that we may collect about shareholders with anyone, including our affiliates, except to service and administer shareholders’ share accounts, to process transactions, to comply with shareholders’ requests of legal requirements or for other limited purposes permitted by law. For example, the Company may disclose a shareholder’s name, address, social security number and the number of shares owned to its administrator, transfer agent or other service providers in order to provide the shareholder with

proxy statements, tax reporting forms, annual reports or other information about the Company. This policy applies to all of the Company’s shareholders and former shareholders.

We keep nonpublic personal information in a secure environment. We restrict access to nonpublic personal information to Company employees, agents and service providers who have a need to know the information based on their role in servicing or administering shareholders’ accounts. The Company also maintains physical, electronic and procedural safeguards to protect the confidentiality of nonpublic personal information.

Results of proposal presented at the annual general meeting of shareholders

The following votes were cast at the Annual General Meeting of Shareholders held on March 15, 2016:

Election of Directors

	For	Against	Abstain
David Christensen	7,675,345	500,623	64,487
Gary Glynn	7,692,821	487,221	60,413
Bruce Hansen	7,692,659	484,879	62,917
Mary Joan Hoene	7,678,321	503,161	58,973

Form N-PX/Proxy Voting

The company files a list of its proxy votes with the SEC for the period of July 1 - June 30 of each year on Form N-PX. The policies and procedures used by the Company to determine how to vote proxies relating to portfolio securities and information regarding how the Company voted proxies relating to portfolio securities during the most recent twelve month period are available on the Company's website at www.asaltd.com and on the SEC's website at www.sec.gov. A written copy of the Company's policies and procedures is available without charge, upon request, by calling (800) 432-3378.

Form N-Q/Portfolio Holdings

The Company files its complete schedule of portfolio holdings with the SEC for the first and third quarters of each fiscal year on Form N-Q. The Company's Forms N-Q are available on the SEC's website at www.sec.gov. The Company's Forms N-Q also may be reviewed and copied at the Reference Room in Washington, D.C.; information on the operation of the Public Reference Room may be obtained by calling 1-800-SEC-0330. The schedule of portfolio holdings on Form N-Q also is included in the Company's financial statements for the first and third quarters of each fiscal year which are available on the Company's website at www.asaltd.com.

Common Shares Repurchased

Notice is hereby given in accordance with Section 23(c) of the 1940 Act that the Company is authorized to purchase its common shares in the open market if the discount to net asset value exceeds a certain threshold as determined by the Board of Directors from time to time. The Company may purchase its common shares in such amounts and at such prices as the Company may deem advisable. There can be no assurance that such action will reduce the discount. There were no repurchases during the six months ended May 31, 2016 or May 31, 2015. The Company had 19,289,905 shares outstanding on May 31, 2016.

A Closed-End Fund
Specializing in Gold and Other
Precious Metals Investments

Edgar Filing: ASA Gold & Precious Metals Ltd - Form N-CSRS

- Item 2. Code of Ethics.
Not applicable.
- Item 3. Audit Committee Financial Expert.
The registrant's board of directors determined that Bruce Hansen, Chairman of the registrant's Audit and Ethics Committee, is an "audit committee financial expert" as defined in the instructions to Item 3 of Form N-CSR. Mr. Hansen is "independent" as defined in Item 3 of Form N-CSR.
- Item 4. Principal Accountant Fees and Services.
Not applicable.
- Item 5. Audit Committee of Listed Registrants.
Not applicable.
- Item 6. Schedule of Investments.
Included as part of the report to shareholders filed under Item 1.
- Item 7. Disclosure of Proxy Voting Policies and Procedures for Closed-End Management Investment Companies.
Not applicable.
- Item 8. Portfolio Managers of Closed-End Management Investment Companies
(a) Not Applicable
(b) Not applicable
- Item 9. Purchases of Equity Securities by Closed-end Management Investment Company and Affiliated Purchasers.
During the period covered by this report, there were no purchases made by or on behalf of the registrant or any affiliated purchaser, as defined in Rule 10b-18(a)(3) under Securities Exchange Act of 1934 (the Exchange Act), of any common shares of the registrant.
- Item 10. Submission of Matters to a Vote of Security Holders.
-

Edgar Filing: ASA Gold & Precious Metals Ltd - Form N-CSRS

There have been no material changes to the procedures by which shareholders may recommend nominees to the registrant's board of directors since the registrant provided disclosure in response to Item 22(b)(15) of Schedule 14A in its proxy statement dated January 26, 2016.

Item 11. Controls and Procedures

- (a) The Principal Executive Officer and the Principal Financial Officer, in their capacities as principal executive officer and principal financial officer of the registrant, have concluded that the registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940 (the "1940 Act")) are effective, based on their evaluation of these controls and procedures as of a date within 90 days prior to the filing date of this report.
- (b) There were no changes in the registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the 1940 Act) that occurred during the second fiscal quarter of the period covered by this report that have materially affected, or are reasonably likely to materially affect, the registrant's internal control over financial reporting.

Item 12. Exhibits.

- (a)(1) Not applicable.
 - (2) The certifications required by Rule 30a-2(a) under the 1940 Act are attached hereto.
 - (3) Not applicable.
 - (b) The certifications required by Rule 30a-2(b) under the 1940 Act, Rule 13a-14(b) under the Exchange Act and Section 1350 of Chapter 63 of Title 18 of the United States Code are attached hereto. These certifications are not deemed filed for purposes of Section 18 of the Exchange Act, or otherwise subject to the liability of that section. Such certifications will not be deemed to be incorporated by reference into any filing under the Securities Act of 1933 or the Exchange Act, except to the extent that the registrant specifically incorporates them by reference.
