AMERICAN REALTY INVESTORS INC
Form 10-K
March 31, 2015

UNITED STATES

SECURITIES AND EXCHANGE COMMISSION
WASHINGTON, D.C. 20549

FORM 10-K

x ANNUAL REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the fiscal year ended December 31, 2014

OR

¨ TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

Commission File Number 001-15663

American Realty Investors, Inc.
(Exact name of registrant as specified in its charter)

Nevada (State or other jurisdiction of Incorporation or organization)	75-2847135 (IRS Employer Identification Number)
1603 LBJ Freeway, Suite 300 Dallas, Texas (Address of principal executive offices)	75234 (Zip Code)

(469) 522-4200
Registrant's Telephone Number, including area code

Securities registered pursuant to Section 12(b) of the Act:

Title of Each Class	Name of each exchange on which registered
Common Stock, $0.01 par value	New York Stock Exchange

Securities registered pursuant to Section 12(g) of the Act:
NONE

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act.
Yes ¨ No x
Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act.

Yes ¨ No x

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes x No ¨

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulations S-T (232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes x No ¨

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K (§229.405 of this chapter) is not contained herein, and will not be contained, to the best of registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K. x

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting company. See the definitions of "large accelerated filer", "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer ¨	Accelerated filer ¨
Non-accelerated filer ¨ (Do not check if smaller reporting company)	Smaller reporting company x

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act.

Yes ¨ No x

The aggregate market value of the shares of voting and non-voting common equity held by non-affiliates of the Registrant, computed by reference to the closing price at which the common equity was last sold which was the sales price of the Common stock on the New York Stock Exchange as of June 30, 2014 (the last business day of the Registrant's most recently completed second fiscal quarter) was $13,650,042 based upon a total of 2,019,237 shares held as of June 30, 2014 by persons believed to be non-affiliates of the Registrant. The basis of the calculation does not constitute a determination by the Registrant as defined in Rule 405 of the Securities Act of 1933, as amended, such calculation, if made as of a date within sixty days of this filing, would yield a different value.

As of March 15, 2015, there were 14,027,619 shares of common stock outstanding.

FORWARD-LOOKING STATEMENTS

Certain Statements in this Form 10-K are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, Section 27A of the Securities Act of 1933, and Section 21E of the Securities Exchange Act of 1934. The words "estimate," "plan," "intend," "expect," "anticipate," "believe," and similar expressions are intend identify forward-looking statements. The forward-looking statements are found at various places throughout this Report and in the documents incorporated herein by reference. The Company disclaims any intention or obligations to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise. Although we believe that our expectations are based upon reasonable assumptions, we can give no assurance that our goals will be achieved. Important factors that could cause our actual results to differ from estimates or projections contained in any forward-looking statements are described in Part I, Item 1A. "Risk Factors".

PART I

ITEM 1. BUSINESS

General

As used herein, the terms "ARL," "the Company," "We," "Our," or "Us" refer to American Realty Investors, Inc., a Neva corporation, individually or together with its subsidiaries. The Company is headquartered in Dallas, Texas and its common stock trades on the New York Stock Exchange ("NYSE") under the symbol ("ARL"). ARL is a "C" corporation for U.S. federal income tax purposes. ARL was organized in 1999. In August 2000, the Company acquired American Realty Trust, Inc., a Georgia corporation ("ART") and National Realty L.P., a Delaware limited partnership ("NRLP"). ART was the successor to a District of Columbia business trust organized in 1961. The business trust was merged into ART in 1988. NRLP was organized in 1987 and subsequently acquired all of the assets and assumed all of the liabilities of several public and private limited partnerships. NRLP also owned a portfolio of real estate and mortgage loan investments.

Approximately 86.7% of ARL's stock is owned by related entities. ARL subsidiaries own approximately 80.9% of the outstanding shares of common stock of Transcontinental Realty Investors, Inc., a Nevada corporation ("TCI") whose common stock is traded on the NYSE under the symbol ("TCI"). ARL has consolidated TCI's accounts and operations since March 2003. TCI, a subsidiary of ARL, owns approximately 81.1% of the common stock of Income Opportunity Realty Investors, Inc. ("IOT"). Effective July 17, 2009, IOT's financial results were consolidated with those of ARL and TCI and their subsidiaries. IOT's common stock is traded on the New York Stock Exchange Euronext ("NYSE MKT") under the symbol ("IOT").

ARL's Board of Directors is responsible for directing the overall affairs of ARL and for setting the strategic policies that guide the Company. As of April 30, 2011, the Board of Directors delegated the day-to-day management of the Company to Pillar Income Asset Management, Inc. ("Pillar"), a Nevada corporation, under a written Advisory Agreement that is reviewed annually by ARL's Board of Directors. The directors of ARL are also directors of TCI and IOT. The Chairman of the Board of Directors of ARL also serves as the Chairman of the Board of Directors of TCI and IOT. The officers of ARL also serve as officers of TCI, IOT and Pillar.

Effective since April 30, 2011, Pillar, the sole shareholder of which is Realty Advisors, LLC, a Nevada limited liability company, the sole member of which is Realty Advisors, Inc. ("RAI"), a Nevada corporation, the sole shareholder of which is May Realty Holdings, Inc. ("MRHI", formerly known as Realty Advisors Management, Inc. "RAMI", effective August 7, 2014), a Nevada corporation, the sole shareholder of which is a trust known as the May Trust, became the Company's external Advisor and Cash Manager. Pillar's duties include, but are not limited to, locating, evaluating and recommending real estate and real estate-related investment opportunities. Pillar also

arranges, for the Company's benefit, debt and equity financing with third party lenders and investors. Pillar also serves as an Advisor and Cash Manager to TCI and IOT. As the contractual advisor, Pillar is compensated by ARL under an Advisory Agreement that is more fully described in Part III, Item 10. "Directors, Executive Officers and Corporate Governance – The Advisor". ARL has no employees. Employees of Pillar render services to ARL in accordance with the terms of the Advisory Agreement.

Effective since January 1, 2011, Regis Realty Prime, LLC, dba Regis Property Management, LLC ("Regis"), the sole member of which is Realty Advisors, LLC, manages our commercial properties and provides brokerage services. Regis receives property management fees, construction management fees and leasing commissions in accordance with the terms of its property-level management agreement. Regis is also entitled to receive real estate brokerage commissions in accordance with the terms of a non-exclusive brokerage agreement. See Part III, Item 10. "Directors, Executive Officers and Corporate Governance – Property Management and Real Estate Brokerage". ARL engages third-party companies to lease and manage its apartment properties.

On January 1, 2012, the Company's subsidiary, TCI, entered into a development agreement with Unified Housing Foundation, Inc. ("UHF") a non-profit corporation that provides management services for the development of residential apartment projects in the future. This development agreement was terminated December 31, 2013. The Company has also invested in surplus cash notes receivables from UHF and has sold several residential apartment properties to UHF in prior years. Due to this ongoing relationship and the significant investment in the performance of the collateral secured under the notes receivable, UHF has been determined to be a related party.

Our primary business is the acquisition, development and ownership of income-producing residential, hotel and commercial real estate properties. In addition, we opportunistically acquire land for future development in in-fill or high-growth suburban markets. From time to time and when we believe it appropriate to do so, we will also sell land and income-producing properties. We generate revenues by leasing apartment units to residents; leasing office, industrial and retail space to various for-profit businesses as well as certain local, state and federal agencies; and renting hotel rooms to guests. We also generate revenues from gains on sales of income-producing properties and land.

At December 31, 2014, our income-producing properties consisted of:

- 9 commercial properties consisting of four office buildings, one industrial warehouse, three retail properties, and a golf course comprising in aggregate approximately 2.1 million square feet, excluding the golf course;

- 38 residential apartment communities comprising 6,344 units, excluding apartments being developed.

The following table sets forth the location of our real estate held for investment (income-producing properties only) by asset type as of December 31, 2014:

	Apartments		Commercial	
Location	No.	Units	No.	SF
Arkansas	4	678	-	-
Colorado	2	260	-	-
Florida	-	-	1	6,722
Illinois	-	-	1	306,609
Kansas	1	320	-	-
Louisiana-Other	2	384	-	-
Mississippi	7	568	-	-
Ohio	1	200	-	-
Tennessee	2	312	-	-
Texas-Greater Dallas-Ft Worth	12	2,122	5	1,652,098
Texas-Greater Houston	2	416	-	-
Texas-San Antonio	2	468	-	-
Texas-Other	3	616	-	-
St. Thomas, US Virgin Islands	-	-	1	5,929,304
Wisconsin	-	-	1	122,205
Total	38	6,344	9	8,016,938

We finance our acquisitions primarily through operating cash flow, proceeds from the sale of land and income-producing properties and debt financing primarily in the form of property-specific, first-lien mortgage loans from commercial banks and institutional lenders. We finance our development projects principally with short-term, variable-rate construction loans that are refinanced with the proceeds of long-term, fixed-rate amortizing mortgages when the development has been completed and occupancy has been stabilized. When we sell properties, we may carry a portion of the sales price generally in the form of a short-term, interest bearing seller-financed note receivable, secured by the property being sold. We may also from time to time enter into partnerships or joint ventures with various investors to acquire land or income-producing properties or to sell interests in certain of our properties.

We join with various third-party development companies to construct residential apartment communities. We are in the predevelopment process on several residential apartment communities but have not yet begun construction. At December 31, 2014, we had one apartment projects in development. The third-party developer typically holds a

general partner as well as a limited partner interest in a limited partnership formed for the purpose of building a single property while we generally take a limited partner interest in the limited partnership. We may contribute land to the partnership as part of our equity contribution or we may contribute the necessary funds to the partnership to acquire the land. We are required to fund all required equity contributions while the third-party developer is responsible for obtaining construction financing, hiring a general contractor and for the overall management, successful completion and delivery of the project. We generally bear all the economic risks and rewards of ownership in these partnerships and therefore include these partnerships in our consolidated financial statements. The third-party developer is paid a developer fee typically equal to a percentage of the construction costs. When the project reaches stabilized occupancy, we acquire the third-party developer's partnership interests in exchange for any remaining unpaid developer fees.

At December 31, 2014, our apartment projects in development included (dollars in thousands):

Property	Location	No. of Units	Costs to Date (1)	Total Projected Costs (1)
Parc at Mansfield	Mansfield, TX	99	$1,512	$11,797
Total		99	$1,512	$11,797

(1) Costs include construction hard costs, construction soft costs and loan borrowing costs.

We have made investments in a number of large tracts of undeveloped and partially developed land and intend to a) continue to improve these tracts of land for our own development purposes or b) make the improvements necessary to ready the land for sale to other developers.

At December 31, 2014, our investments in undeveloped and partially developed land consisted of the following (dollars in thousands):

Property	Location	Date(s) Acquired	Acres	Cost	Primary Intended Use
Meloy Portage	Kent, OH	2004	53	$4,050	Single-family residential
McKinney Multi-Tracts	McKinney, TX	1997-2008	105	13,605	Mixed use
Mercer Crossing	Dallas, TX	1996-2013	450	63,265	Mixed use
Travis Ranch	Kaufman County, TX	2008	25	2,547	Multi-family residential
US Virgin Islands Multi-Tracts	St. Thomas, USVI	2005-2014	184	16,788	Mixed use
Waco Multi-Tracts	Waco, TX	2005-2006	173	1,072	Single-family residential
Windmill Farms (1)	Kaufman County, TX	2006	2,932	44,159	Single-family residential
Other Land Holdings	Various	1990-2008	312	21,792	Various
Total Land Holdings			4,234	$167,278	

(1) Windmill Farms Land was acquired by a subsidiary of ARL in 2006 and 2,900 acres were subsequently sold to TCI in 2011.

Significant Real Estate Acquisitions/Dispositions and Financings

A summary of some of the significant transactions for the year ended December 31, 2014 are discussed below:

On February 6, 2014, TCI sold a 232-unit apartment complex known as Pecan Pointe, located in Temple, Texas, to an independent third party, for a sales price of $23.1 million. The buyer assumed the existing debt of $16.5 million secured by the property. A gain of $6.1 million was recorded on the sale.

On February 10, 2014, a subsidiary of the Company paid off an existing margin loan and entered into a $4 million promissory note with a third party, secured by TCI stock. The note matures on February 10, 2016 and has an interest rate of 6%.

On February 12, 2014, TCI exercised the first prepayment option on the settlement relating to the Amoco Building and paid $1.2 million to settle all obligations. The remaining balance of the note in the amount of $3.5 million, along with accrued interest, was forgiven. The 135,000 shares of Series K Convertible Preferred Stock of ARL that was pledged to the lender has been released to TCI. The Series K preferred stock was cancelled May 7, 2014.

On February 14, 2014, the Company entered into a settlement and loan modification agreement with the lender regarding EQK Portage land. The new loan is for $1.6 million, matures on February 6, 2017, and has an interest rate of one-month LIBOR plus 5%. The Company paid $200,000 at close which was used to adjust the current outstanding loan balance to the newly stated loan balance and the remainder was used to pay down interest that had been accruing under the prior agreement. The rest of the unpaid interest that accrued under the prior agreement was waived. Per the agreement, the Company was also required to pay off the property tax note of $257,000.

On February 28, 2014, TCI refinanced the existing mortgage on Parc at Denham Springs apartments, a 224-unit complex located in Denham Springs, Louisiana, for a new mortgage of $19.2 million. TCI paid off the existing mortgage of $19.2 million and $1.6 million in closing costs. The note accrues interest at 3.75% and payments of interest and principal are due monthly, maturing April 1, 2051

On March 13, 2014, 6.6 acres of land known as Three Hickory located in Farmers Branch, Texas was transferred back to TCI as a result of the settlement agreement with the lender. On the same day TCI sold the land to IOT for $1.2 million which resulted in a gain of $1.2 million.

On March 25, 2014, TCI exercised its lender granted option under the settlement agreement relating to the Galleria East Center Retail / Showcase Chevrolet land which was transferred to the existing lender on February 4, 2011. TCI paid the balance of the notes along with all accrued and unpaid interest and received a reduction in price of $0.4 million

On March 26, 2014, TCI sold 6.314 acres of land known as McKinney Ranch land, located in McKinney, Texas, to an independent third party, for a sales price of $1.7 million. TCI paid $1.5 million on the existing mortgage to satisfy a portion of the multi-tract collateral debt of $6.6 million, secured by various land parcels located in McKinney, Texas. A gain of $0.8 million was recorded on the sale.

On March 28, 2014, TCI secured financing of $40.0 million from an independent third party. The note has a term of five years at an interest rate of 12.0%. The note is interest only for the first year with quarterly principal payments due of $500,000 starting April 1, 2015. The loan is secured by various equity interests in residential apartments and can be prepaid at a penalty rate of 4% for year 1 with the penalty declining by 1% each year thereafter.

On March 31, 2014, the Company purchased 16.87 acres of land known as Valwood Acres, located in Farmers Branch, Texas, from an independent third party, for a purchase price of $3.2 million.

On March 31, 2014, TCI entered into a settlement agreement relating to the Fenton Centre building which was transferred to the existing lender on June 7, 2011. The total amount of the settlement was $7.0 million, $5.0 million was paid at the time of the settlement and the remaining $2.0 million will be paid out in equal monthly installments through November 5, 2015.

On April 3, 2014, TCI sold a 512,593 square foot commercial building known as 1010 Common, located in New Orleans, Louisiana, to an independent third party, for a sales price of $16.6 million. A gain of $7.0 million was recorded on the sale.

On May 28, 2014, a $1.5 million principal payment was made to the existing Realty Advisors, Inc. mortgage and two additional land parcels, including 8.0 acres of Ladue land owned by TCI and 16.87 acres of Valwood land owned by ARL, were substituted as collateral under the note in exchange for a release of a $4 million deposit account. The principal balance is allocated based on the land valuation.

On July 25, 2014, TCI sold 24.498 acres of land known as Stanley Tools and Kelly Lots, located in Farmers Branch, Texas, to an independent third party, for a sales price of $4.3 million. TCI paid off the existing mortgage of $1.7 million in addition to making a $0.2 million payment on an existing mortgage related to another parcel of land located in Gulfport, Mississippi. A nominal gain was recorded on the sale.

On July 31, 2014, TCI refinanced the existing mortgage on Desoto Ranch apartments, a 248-unit complex located in Desoto, Texas, for a new mortgage of $15.7 million. TCI paid off the existing mortgage of $15.7 million and $0.5 million in closing costs. The note accrues interest at 3.50% and payments of interest and principal are due monthly,

maturing June 1, 2050.

On August 12, 2014, TCI sold a 20,715 square foot commercial building known as Sesame Square, located in Anchorage, Alaska, to an independent party, for a sales price of $2.6 million. TCI paid off the existing mortgage of $0.8 million. A gain of $1.8 million was recorded on the sale.

On August 28, 2014, TCI refinanced the existing mortgage on Treehouse apartments, a 160-unit complex located in Irving, Texas, for a new mortgage of $5.8 million. TCI paid off the existing mortgage of $4.7 million and $1.1 million in closing costs and escrows. The note accrues interest at 3.55% and payments of interest and principal are due monthly, maturing September 1, 2044.

On September 19, 2014, TCI acquired 100% ownership of Summer Breeze I-V, LLC, from an independent third party, which resulted in the acquisition of Sunset Lodge, a 216-unit complex located in Odessa, Texas. We exchanged the existing note receivable and all accrued interest in the amount of $3.5 million for the ownership interest.

On September 23, 2014, TCI sold a 106-unit complex known as Bridgewood Ranch, located in Kaufman, Texas, to an independent third party, for a sales price of $8.0 million. TCI paid off the existing mortgage of $4.5 million and the buyer obtained a new mortgage of $6.6 million. TCI did not recognize or record the sale in accordance with ASC 360-20 due to our continuing involvement as a result of having the option to repurchase the sold property at a later date. The exercise of the option is subject to the approval of the U.S. Department of Housing and Urban Development. TCI determined a sale had not occurred for financial reporting purposes and therefore the asset remains on their books.

On October 17, 2014, the construction loan in the amount of $19.7 million that was taken out by TCI on July 1, 2012, to fund the development of Sunset Lodge apartments, a 216-unit complex located in Odessa, Texas, closed into permanent financing. The note accrues interest at 3.00% and payments of interest only are payable commencing August 1, 2012, through February 1, 2014, at which time principal and interest payments are due through the maturity date of February 1, 2054.

On November 3, 2014, TCI sold a 290-unit apartment complex known as Blue Ridge, located in Midland, Texas, to an independent third party, for a sales price of $52.8 million. We paid off the existing mortgage of $23.7 million. A gain of $26.7 million was recorded on the sale.

On November 6, 2014, TCI acquired 100% ownership of Dun-Run Golf, Dun-Run Development, and Dun-Run Restaurants, all limited liability companies, which resulted in the acquisition of Mahogany Run Golf Course for a purchase price of $13.3 million. TCI took out a note as seller financing to aid in the purchase in the amount of $6.6 million. The note accrues at 8% with interest only payments due through the maturity date of November 6, 2015. An option to renew for one more year can be exercised if a $1.0 million principal payment is made before maturity.

On November 13, 2014, TCI sold a 216-unit complex known as Sunset Lodge, as well as 5.98 acres of land, both located in Odessa, Texas, to an independent third party, for a combined sales price of $40.6 million. The buyer assumed the existing debt of $19.0 million secured by the property. A gain of $18.9 million was recorded on the sale.

On December 1, 2014, TCI acquired a 208-unit complex known as Legacy at Pleasant Grove, located in Texarkana, Texas, from a third party. We exchanged the existing note receivable and all accrued interest in the amount of $5.0 million for the complex.

On December 1, 2014, TCI acquired a 148-unit complex known as Villas at Park West I, located in Pueblo, Colorado, from a third party. We exchanged the existing note receivable and all accrued interest in the amount of $1.3 million for the complex.

On December 1, 2014, TCI acquired a 112-unit complex known as Villas at Park West II, located in Pueblo, Colorado, from a third party. We exchanged the existing note receivable and all accrued interest in the amount of $5.1 million for the complex.

On December 12, 2014, TCI refinanced the existing mortgage on Stanford Center, a 333,381 square foot commercial building located in Dallas, Texas, for a new mortgage of $28.0 million. We paid off the existing mortgage of $21.3 million and $7.8 million in closing costs and escrows. The note accrues interest at a floating rate of 5.50% above the 30-day LIBOR index, with a floor of 5.75% and payments of interest only, maturing on January 5, 2017.

On December 30, 2014, TCI acquired 8.387 acres of land known as Bonneau Land, located in Farmers Branch, Texas, from a third party, for a purchase price of $1.2 million.

On December 30, 2014, TCI sold 2.606 acres of land known as Carr (Luna) Land, located in Farmers Branch, Texas, to a third party, for a sales price of $0.3 million. A loss of $0.4 million was recorded on the sale.

In December 2010, various commercial and land holdings were sold to FRE Real Estate, Inc., a related party. During the first three months of 2011, many of these transactions were rescinded as of the original transaction date and were subsequently sold to related parties under the same ownership as FRE Real Estate, Inc. As of December 31, 2014, one commercial building, Thermalloy, remains in FRE Real Estate, Inc. TCI did not recognize or record the sale in accordance with ASC 360-20 due to TCI’s continuing involvement, which included the potential payment of cash shortfalls, future obligations under the existing mortgage and guaranty, the buyer’s inadequate initial investment and TCI’s questionable recovery of investment cost. TCI determined that no sale had occurred for financial reporting purposes and therefore the asset remained on the books and continued to record operating expenses and depreciation as a period cost until a sale occurred that met the requirements of ASC 360-20.

As of December 31, 2014, there remain one apartment complex, one commercial building and 110 acres of land that TCI has sold to a related party and have deferred the recognition of the sale. These are treated as "subject to sales contract" on the Consolidated Balance Sheets. These properties were sold to a related party in order to help facilitate an appropriate debt or organizational restructure and may or may not be transferred back to the seller upon resolution. These properties have mortgages that are secured by the property and many have corporate guarantees. According to the loan documents, the maker is currently in default on these mortgages primarily due to lack of payment and is actively involved in discussions with every lender in order to settle or cure the default situation. TCI has reviewed each asset and taken impairment to the extent TCI feels the value of the property was less than its current basis. TCI did not recognize or record the sale in accordance with ASC 360-20 due to its continuing involvement, which included the potential payment of cash shortfalls, future obligations under the existing mortgage and guaranty, the buyer's inadequate initial investment and TCI's questionable recovery of investment cost. TCI determined that no sale had occurred for financial reporting purposes and therefore the asset remained on the books and continued to record operating expenses and depreciation as a period cost until a sale occurred that met the requirements of ASC 360-20. The buyers received no compensation for the facilitation of the bankruptcy or debt restructuring process.

We continue to invest in the development of apartment projects. For the twelve months ended December 31, 2014, we have expended $3.0 million related to the development or predevelopment of various apartment projects.

Business Plan and Investment Policy

Our business objective is to maximize long-term value for our stockholders by investing in residential and commercial real estate through the acquisition, development and ownership of apartments, commercial properties, hotels, and land. We intend to achieve this objective through acquiring and developing properties in multiple markets and operating as an industry-leading landlord. We believe this objective will provide the benefits of enhanced investment opportunities, economies of scale and risk diversification, both in terms of geographic market and real estate product type. We believe our objective will also result in continuing access to favorably priced debt and equity capital. In pursuing our business objective, we seek to achieve a combination of internal and external growth while maintaining a strong balance sheet and employing a strategy of financial flexibility. We maximize the value of our apartments and commercial properties by maintaining high occupancy levels while charging competitive rental rates, controlling costs and focusing on tenant retention. We also pursue attractive development opportunities either directly or in partnership with other investors.

For our portfolio of commercial properties, we generate increased operating cash flow through annual contractual increases in rental rates under existing leases. We also seek to identify best practices within our industry and across our business units in order to enhance cost savings and gain operating efficiencies. We employ capital improvement and preventive maintenance programs specifically designed to reduce operating costs and increase the long-term value of our real estate investments.

We seek to acquire properties consistent with our business objectives and strategies. We execute our acquisition strategy by purchasing properties which management believes will create stockholder value over the long-term. We will also sell properties when management believes value has been maximized or when a property is no longer considered an investment to be held long-term.

We are continuously in various stages of discussions and negotiations with respect to development, acquisition, and disposition projects. The consummation of any current or future development, acquisition, or disposition, if any, and the pace at which any may be completed cannot be assured or predicted.

Substantially all of our properties are owned by subsidiary companies, many of which are single-asset entities. This ownership structure permits greater access to financing for individual properties and permits flexibility in negotiating

a sale of either the asset or the equity interests in the entity owning the asset. From time-to-time, our subsidiaries have invested in joint ventures with other investors, creating the possibility of risks that do not exist with properties solely owned by an ARL subsidiary. In those instances where other investors are involved, those other investors may have business, economic, or other objectives that are inconsistent with our objectives, which may in turn require us to make investment decisions different from those if we were the sole owner.

Real estate generally cannot be sold quickly. We may not be able to promptly dispose of properties in response to economic or other conditions. To offset this challenge, selective dispositions have been a part of our strategy to maintain an efficient investment portfolio and to provide additional sources of capital. We finance acquisitions through mortgages, internally generated funds, and, to a lesser extent, property sales. Those sources provide the bulk of funds for future acquisitions. We may purchase properties by assuming existing loans secured by the acquired property. When properties are acquired in such a manner, we customarily seek to refinance the asset in order to properly leverage the asset in a manner consistent with our investment objectives.

Our businesses are not generally seasonal with regard to real estate investments. Our investment strategy seeks both current income and capital appreciation. Our plan of operation is to continue, to the extent our liquidity permits, to make equity investments in income-producing real estate such as hotels, apartments, and commercial properties. We may also invest in the debt or equity securities of real estate-related entities. We intend to pursue higher risk, higher reward investments, such as improved and unimproved land where we can obtain reasonably-priced financing for substantially all of a property's purchase price. We intend to continue the development of apartment properties in selected markets in Texas and in other locations where we believe adequate levels of demand exist. We intend to pursue sales opportunities for properties in stabilized real estate markets where we believe our properties' value has been maximized. We also intend to be an opportunistic seller of properties in markets where demand exceeds current supply. Although we no longer actively seek to fund or purchase mortgage loans, we may, in selected instances, originate mortgage loans or we may provide purchase money financing in conjunction with a property sale.

Our Board of Directors has broad authority under our governing documents to make all types of investments, and we may devote available resources to particular investments or types of investments without restriction on the amount or percentage of assets that may be allocated to a single investment or to any particular type of investment, and without limit on the percentage of securities of any one issuer that may be acquired. Investment objectives and policies may be changed at any time by the Board without stockholder approval.

The specific composition from time-to-time of our real estate portfolio owned by ARL directly and through our subsidiaries depends largely on the judgment of management to changing investment opportunities and the level of risk associated with specific investments or types of investments. We intend to maintain a real estate portfolio that is diversified by both location and type of property.

Competition

The real estate business is highly competitive and we compete with numerous companies engaged in real estate activities (including certain entities described in Part III, Item 13. "Certain Relationships and Related Transactions, and Director Independence"), some of which have greater financial resources than ARL. We believe that success against such competition is dependent upon the geographic location of a property, the performance of property-level managers in areas such as leasing and marketing, collection of rents and control of operating expenses, the amount of new construction in the area and the maintenance and appearance of the property. Additional competitive factors include ease of access to a property, the adequacy of related facilities such as parking and other amenities, and sensitivity to market conditions in determining rent levels. With respect to apartments, competition is also based upon the design and mix of the units and the ability to provide a community atmosphere for the residents. With respect to hotels, competition is also based upon the market served, i.e., transient, commercial, or group users. We believe that beyond general economic circumstances and trends, the degree to which properties are renovated or new properties are developed in the competing submarket are also competitive factors. See also Part I, Item 1A. "Risk Factors".

To the extent that ARL seeks to sell any of its properties, the sales prices for the properties may be affected by competition from other real estate owners and financial institutions also attempting to sell properties in areas where ARL's properties are located, as well as aggressive buyers attempting to dominate or penetrate a particular market.

As described above and in Part III, Item 13. "Certain Relationships and Related Transactions, and Director Independence", the officers and directors of ARL serve as officers and directors of TCI and IOT. TCI and IOT have business objectives similar to those of ARL. ARL's officers and directors owe fiduciary duties to both IOT and TCI as well as to ARL under applicable law. In determining whether a particular investment opportunity will be allocated to ARL, IOT, or TCI, management considers the respective investment objectives of each Company and the appropriateness of a particular investment in light of each Company's existing real estate and mortgage notes receivable portfolio. To the extent that any particular investment opportunity is appropriate to more than one of the entities, the investment opportunity may be allocated to the entity which has had funds available for investment for the longest period of time, or, if appropriate, the investment may be shared among all three or two of the entities.

In addition, as described in Part III, Item 13. "Certain Relationships and Related Transactions, and Director Independence", ARL competes with related parties of Pillar having similar investment objectives related to the acquisition, development, disposition, leasing and financing of real estate and real estate-related investments. In resolving any potential conflicts of interest which may arise, Pillar has informed ARL that it intends to exercise its best judgment as to what is fair and reasonable under the circumstances in accordance with applicable law.

We have historically engaged in and will continue to engage in certain business transactions with related parties, including but not limited to asset acquisitions and dispositions. Transactions involving related parties cannot be presumed to be carried out on an arm's length basis due to the absence of free market forces that naturally exist in

business dealings between two or more unrelated entities. Related party transactions may not always be favorable to our business and may include terms, conditions and agreements that are not necessarily beneficial to or in the best interests of the Company.

Available Information

ARL maintains an Internet site at http://www.amrealtytrust.com. Available through the website, free of charge, are Annual Reports on Form 10-K, Quarterly Reports on Form 10-Q, Current Reports on Form 8-K, reports filed pursuant to Section 16, and amendments to those reports, as soon as reasonably practicable after they are electronically filed or furnished to the Securities and Exchange Commission. In addition, we have posted the charters for the Audit Committee, Compensation Committee, and Governance and Nominating Committee, as well as the Code of Business Conduct and Ethics, Corporate Governance Guidelines on Director Independence, and other information on the website. These charters and principles are not incorporated in this report by reference. We will also provide a copy of these documents free of charge to stockholders upon written request. The Company issues Annual Reports containing audited financial statements to its common shareholders.

ITEM 1A. RISK FACTORS

An investment in our securities involves various risks. All investors should carefully consider the following risk factors in conjunction with the other information in this report before trading our securities.

Risk Factors Related to our Business

Adverse events concerning our existing tenants or negative market conditions affecting our existing tenants could have an adverse impact on our ability to attract new tenants, release space, collect rent or renew leases, and thus could adversely affect cash flow from operations and inhibit growth.

Cash flow from operations depends in part on the ability to lease space to tenants on economically favorable terms. We could be adversely affected by various facts and events over which the Company has limited or no control, such as:

- lack of demand for space in areas where the properties are located;
- inability to retain existing tenants and attract new tenants;
- oversupply of or reduced demand for space and changes in market rental rates;
- defaults by tenants or failure to pay rent on a timely basis;
- the need to periodically renovate and repair marketable space;
- physical damage to properties;
- economic or physical decline of the areas where properties are located; and
- potential risk of functional obsolescence of properties over time.

At any time, any tenant may experience a downturn in its business that may weaken its financial condition. As a result, a tenant may delay lease commencement, fail to make rental payments when due, decline to extend a lease upon its expiration, become insolvent or declare bankruptcy. Any tenant bankruptcy or insolvency, leasing delay or failure to make rental payments when due could result in the termination of the tenant's lease and material losses to the Company.

If tenants do not renew their leases as they expire, we may not be able to rent the space. Furthermore, leases that are renewed, and some new leases for space that is re-let, may have terms that are less economically favorable than expiring lease terms, or may require us to incur significant costs, such as renovations, tenant improvements or lease transaction costs. Any of these events could adversely affect cash flow from operations and our ability to make distributions to shareholders and service indebtedness. A significant portion of the costs of owning property, such as real estate taxes, insurance, and debt service payments, are not necessarily reduced when circumstances cause a decrease in rental income from the properties.

We may not be able to compete successfully with other entities that operate in our industry.

We experience a great deal of competition in attracting tenants for the properties and in locating land to develop and properties to acquire.

In our effort to lease properties, we compete for tenants with a broad spectrum of other landlords in each of the markets. These competitors include, among others, publicly-held REITs, privately-held entities, individual property owners and tenants who wish to sublease their space. Some of these competitors may be able to offer prospective tenants more attractive financial terms than we are able to offer.

If the availability of land or high quality properties in our markets diminishes, operating results could be adversely affected.

We may experience increased operating costs which could adversely affect our financial results and the value of our properties.

Our properties are subject to increases in operating expenses such as insurance, cleaning, electricity, heating, ventilation and air conditioning, administrative costs and other costs associated with security, landscaping, repairs, and maintenance of the properties. While some current tenants are obligated by their leases to reimburse us for a portion of these costs, there is no assurance that these tenants will make such payments or agree to pay these costs upon renewal or new tenants will agree to pay these costs. If operating expenses increase in our markets, we may not be able to increase rents or reimbursements in all of these markets to offset the increased expenses, without at the same time decreasing occupancy rates. If this occurs, our ability to make distributions to shareholders and service indebtedness could be adversely affected.

Our ability to achieve growth in operating income depends in part on its ability to develop additional properties.

We intend to continue to develop properties where warranted by market conditions. We have a number of ongoing development and land projects being readied for commencement.

Additionally, general construction and development activities include the following risks:

- construction and leasing of a property may not be completed on schedule, which could result in increased expenses and construction costs, and would result in reduced profitability for that property;
- construction costs may exceed original estimates due to increases in interest rates and increased cost of materials, labor or other costs, possibly making the property less profitable because of inability to increase rents to compensate for the increase in construction costs;
- some developments may fail to achieve expectations, possibly making them less profitable;
- we may be unable to obtain, or face delays in obtaining, required zoning, land-use, building, occupancy, and other governmental permits and authorizations, which could result in increased costs and could require us to abandon our activities entirely with respect to a project;
- we may abandon development opportunities after the initial exploration, which may result in failure to recover costs already incurred. If we determine to alter or discontinue its development efforts, future costs of the investment may be expensed as incurred rather than capitalized and we may determine the investment is impaired resulting in a loss;
- we may expend funds on and devote management’s time to projects which will not be completed; and
- occupancy rates and rents at newly-completed properties may fluctuate depending on various factors including market and economic conditions, and may result in lower than projected rental rates and reduced income from operations.

We face risks associated with property acquisitions.

We acquire individual properties and various portfolios of properties and intend to continue to do so. Acquisition activities are subject to the following risks:

- when we are able to locate a desired property, competition from other real estate investors may significantly increase the seller’s offering price;
- acquired properties may fail to perform as expected;
- the actual costs of repositioning or redeveloping acquired properties may be higher than original estimates;
- acquired properties may be located in new markets where we face risks associated with an incomplete knowledge or understanding of the local market, a limited number of established business relationships in the area and a relative unfamiliarity with local governmental and permitting procedures; and
- we may be unable to quickly and efficiently integrate new acquisitions, particularly acquisitions of portfolios of properties, into existing operations, and results of operations and financial condition could be adversely affected.

We may acquire properties subject to liabilities and without any recourse, or with limited recourse, with respect to unknown liabilities. However, if an unknown liability was later asserted against the acquired properties, we might be required to pay substantial sums to settle it, which could adversely affect cash flow.

Many of our properties are concentrated in our primary markets and the Company may suffer economic harm as a result of adverse conditions in those markets.

Our properties are located principally in specific geographic areas in the southwestern, southeastern, and mid-western United States. The Company's overall performance is largely dependent on economic conditions in those regions.

We are leveraged and may not be able to meet our debt service obligations.

We had total indebtedness at December 31, 2014 of approximately $655.5 million. Substantially all assets have been pledged to secure debt. These borrowings increase the risk of loss because they represent a prior claim on assets and most require fixed payments regardless of profitability. Our leveraged position makes us vulnerable to declines in the general economy and may limit the Company's ability to pursue other business opportunities in the future.

We may not be able to access financial markets to obtain capital on a timely basis, or on acceptable terms.

We rely on proceeds from property dispositions and third party capital sources for a portion of our capital needs, including capital for acquisitions and development. The public debt and equity markets are among the sources upon which the Company relies. There is no guarantee that we will be able to access these markets or any other source of capital. The ability to access the public debt and equity markets depends on a variety of factors, including:

- general economic conditions affecting these markets;
- our own financial structure and performance;
- the market's opinion of real estate companies in general; and
- the market's opinion of real estate companies that own similar properties.

We may suffer adverse effects as a result of terms and covenants relating to the Company's indebtedness.

Required payments on our indebtedness generally are not reduced if the economic performance of the portfolio declines. If the economic performance declines, net income, cash flow from operations and cash available for distribution to stockholders may be reduced. If payments on debt cannot be made, we could sustain a loss or suffer judgments, or in the case of mortgages, suffer foreclosures by mortgagees. Further, some obligations contain cross-default and/or cross-acceleration provisions, which means that a default on one obligation may constitute a default on other obligations.

We anticipate only a small portion of the principal of our debt will be repaid prior to maturity. Therefore, we are likely to refinance a portion of our outstanding debt as it matures. There is a risk that we may not be able to refinance existing debt or the terms of any refinancing will not be as favorable as the terms of the maturing debt. If principal balances due at maturity cannot be refinanced, extended, or repaid with proceeds from other sources, such as the proceeds of sales of assets or new equity capital, cash flow may not be sufficient to repay all maturing debt in years when significant "balloon" payments come due.

Our credit facilities and unsecured debt contain customary restrictions, requirements and other limitations on the ability to incur indebtedness, including total debt to asset ratios, secured debt to total asset ratios, debt service coverage ratios, and minimum ratios of unencumbered assets to unsecured debt. Our continued ability to borrow is subject to compliance with financial and other covenants. In addition, failure to comply with such covenants could cause a default under credit facilities, and we may then be required to repay such debt with capital from other sources. Under those circumstances, other sources of capital may not be available, or be available only on unattractive terms.

Our degree of leverage could limit our ability to obtain additional financing or affect the market price of our common stock.

The degree of leverage could affect our ability to obtain additional financing for working capital, capital expenditures, acquisitions, development or other general corporate purposes. The degree of leverage could also make us more vulnerable to a downturn in business or the general economy.

An increase in interest rates would increase interest costs on variable rate debt and could adversely impact the ability to refinance existing debt.

We currently have, and may incur more, indebtedness that bears interest at variable rates. Accordingly, if interest rates increase, so will the interest costs, which could adversely affect cash flow and the ability to pay principal and interest on our debt and the ability to make distributions to shareholders. Further, rising interest rates could limit our ability to refinance existing debt when it matures.

Unbudgeted capital expenditures or cost overruns could adversely affect business operations and cash flow.

If capital expenditures for ongoing or planned development projects or renovations exceed expectations, the additional cost of these expenditures could have an adverse effect on business operations and cash flow. In addition, we might not have access to funds on a timely basis to pay the unexpected expenditures.

Construction costs are funded in large part through construction financing, which the Company may guarantee. The Company's obligation to pay interest on this financing continues until the rental project is completed, leased-up and permanent financing is obtained, or the for sale project is sold, or the construction loan is otherwise paid. Unexpected delays in completion of one or more ongoing projects could also have a significant adverse impact on business operations and cash flow.

We may need to sell properties from time to time for cash flow purposes.

Because of the lack of liquidity of real estate investments generally, our ability to respond to changing circumstances may be limited. Real estate investments generally cannot be sold quickly. In the event that we must sell assets to generate cash flow, we cannot predict whether there will be a market for those assets in the time period desired, or whether we will be able to sell the assets at a price that will allow the Company to fully recoup its investment. We may not be able to realize the full potential value of the assets and may incur costs related to the early pay-off of the debt secured by such assets.

We intend to devote resources to the development of new projects.

We plan to continue developing new projects as opportunities arise in the future. Development and construction activities entail a number of risks, including but not limited to the following:

- we may abandon a project after spending time and money determining its feasibility;
- construction costs may materially exceed original estimates;
- the revenue from a new project may not be enough to make it profitable or generate a positive cash flow;
- we may not be able to obtain financing on favorable terms for development of a property, if at all;
- we may not complete construction and lease-ups on schedule, resulting in increased development or carrying costs; and
- we may not be able to obtain, or may be delayed in obtaining, necessary governmental permits.

The overall business is subject to all of the risks associated with the real estate industry.

We are subject to all risks incident to investment in real estate, many of which relate to the general lack of liquidity of real estate investments, including, but not limited to:

- our real estate assets are concentrated primarily in the southwest and any deterioration in the general economic conditions of this region could have an adverse effect;
- changes in interest rates may make the ability to satisfy debt service requirements more burdensome;
- lack of availability of financing may render the purchase, sale or refinancing of a property more difficult or unattractive;
- changes in real estate and zoning laws;
- increases in real estate taxes and insurance costs;
- federal or local economic or rent control;
- acts of terrorism, and
- hurricanes, tornadoes, floods, earthquakes and other similar natural disasters.

Our performance and value are subject to risks associated with our real estate assets and with the real estate industry.

Our economic performance and the value of our real estate assets, and consequently the value of our securities, are subject to the risk that if our properties do not generate revenues sufficient to meet our operating expenses, including debt service and capital expenditures, our cash flow will be adversely affected. The following factors, among others, may adversely affect the income generated by our properties:

- downturns in the national, regional and local economic conditions (particularly increases in unemployment);

- competition from other office, hotel and commercial buildings;
- local real estate market conditions, such as oversupply or reduction in demand for office, hotel or other commercial space;
- changes in interest rates and availability of financing;
- vacancies, changes in market rental rates and the need to periodically repair, renovate and re-let space;
- increased operating costs, including insurance expense, utilities, real estate taxes, state and local taxes and heightened security costs;
- civil disturbances, earthquakes and other natural disasters, or terrorist acts or acts of war which may result in uninsured or underinsured losses;
- significant expenditures associated with each investment, such as debt service payments, real estate taxes, insurance and maintenance costs which are generally not reduced when circumstances cause a reduction in revenues from a property;
- declines in the financial condition of our tenants and our ability to collect rents from our tenants; and
- decreases in the underlying value of our real estate.

Adverse economic and geopolitical conditions and dislocations in the credit markets could have a material adverse effect on our results of operations, and financial condition.

Our business may be affected by market and economic challenges experienced by the U.S. economy or real estate industry as a whole or by the local economic conditions in the markets in which our properties are located, including the current dislocations in the credit markets and general global economic recession. These current conditions, or similar conditions existing in the future, may adversely affect our results of operations, and financial condition as a result of the following, among other potential consequences:

- the financial condition of our tenants may be adversely affected which may result in tenant defaults under leases due to bankruptcy, lack of liquidity, operational failures or for other reasons;

- significant job losses within our tenants may occur, which may decrease demand for our office space, causing market rental rates and property values to be negatively impacted;

- our ability to borrow on terms and conditions that we find acceptable, or at all, may be limited, which could reduce our ability to pursue acquisition and development opportunities and refinance existing debt, reduce our returns from our acquisition and development activities and increase our future interest expense;

- reduced values of our properties may limit our ability to dispose of assets at attractive prices or to obtain debt financing secured by our properties and may reduce the availability of unsecured loans; and

- one or more lenders could refuse to fund their financing commitment to us or could fail and we may not be able to replace the financing commitment of any such lenders on favorable terms, or at all.

Real estate investments are illiquid, and the Company may not be able to sell properties if and when it is appropriate to do so.

Real estate generally cannot be sold quickly. We may not be able to dispose of properties promptly in response to economic or other conditions. In addition, provisions of the Internal Revenue Code may limit our ability to sell properties (without incurring significant tax costs) in some situations when it may be otherwise economically advantageous to do so, thereby adversely affecting returns to stockholders and adversely impacting our ability to meet our obligations.

ITEM 1B. UNRESOLVED STAFF COMMENTS

None.

ITEM 2. PROPERTIES

On December 31, 2014, our portfolio consisted of 47 income producing properties consisting of 38 apartments totaling 6,344 units, nine commercial properties consisting of four office buildings, one industrial warehouse, three retail centers, and a golf course. In addition, we own or control 4,234 acres of improved and unimproved land held for future development or sale. The average annual rental and other property revenue dollar per square foot is $10.19 for the Company's residential apartment portfolio and $9.55 for the commercial portfolio. The table below shows information relating to those properties in which we own or have an ownership interest:

Residential Apartments	Location	Units	Occupancy

ITEM 3. LEGAL PROCEEDINGS

Disposed of Entities:

ART and ART Midwest, Inc.

While the Company and all entities in which the Company has a direct or indirect equity interest are not parties to or obligated in any way for the outcome, a formerly owned entity (American Realty Trust, Inc.) and its former subsidiary (ART Midwest, Inc.) have been engaged since 1999 in litigation with Mr. David Clapper and entities related to Mr. Clapper (collectively, the “Clapper Parties”). The matter originally involved a transaction in 1998 in which ART and the Clapper Parties were to form a partnership to own eight residential apartment complexes. Through the years, a number of rulings, both for and against American Realty Trust, Inc. (“ART”) and ART Midwest, Inc., were issued. In October 2011, a ruling was issued under which the Clapper Parties received a judgment for approximately $74 million, including $26 million in actual damages and $48 million interest. The ruling was against ART and ART Midwest, Inc., but no other entity. During February 2014, the court of Appeals affirmed a portion of the judgment in favor of the Clapper Parties, but also ruled that a double counting of a significant portion of the damages had occurred and remanded the case back to the trial court to recalculate the damage award, as well as pre and post-judgment interest thereon. ART was also a significant owner of a partnership interest in the partnership that was awarded the initial damages in this matter.

In 2005, ART filed suit against a major national law firm over the initial transaction. That action was abated while the principal case with the Clapper Parties was pending, but the matter was recently unabated and is now moving forward. The only defendants in the litigation involving the Clapper Parties are ART and ART Midwest, Inc., which, together, had total assets and net worth, as of December 31, 2012, of approximately $10 million. In January 2012, the Company sold all of the issued and outstanding stock of ART to an unrelated party for a promissory note in the amount of $10 million. At December 31, 2012, the Company fully reserved and valued such note at zero.

Subsequent to the sale of the ART stock in January 2012, ART instituted a Chapter 11 bankruptcy proceeding in the United States Bankruptcy Court for the Northern District of Texas, Dallas Division. In March 2014, the bankruptcy court dismissed the proceeding.

In August 2014, David M. Clapper and two entities related to Mr. Clapper (all, collectively, the “Clapper Parties”) filed a complaint in the U. S. District Court against the Company, its directors and certain of its officers alleging purported transactions to the detriment of the Clapper Parties and others by transferring assets, cash and diverting property. Management of the Company believes that there is no basis for this action against the Company and its officers and directors and intends to vigorously defend itself. The August 2014 complaint does not allege any facts relating to the Company, except that the named directors and officers are directors and officers of the Company and that the Company is a Nevada corporation, with its headquarters/principal place of business in Dallas, Texas.

Management of the Company believes that the Company has no liability for any ultimate judgment in the proceeding involving the Clapper Parties; however, Management of the Company has serious reservations about the current collectability of the $10 million note and, accordingly, continues to maintain a full reservation of the value of such note at zero.

Port Olpenitz

ARL, through a foreign subsidiary, was involved in developing a maritime harbor town on the 420 acre site of the former naval base of Olpenitz in Kappeln, Germany. Disputes with the local partner related to his mismanagement of

the project resulted in his being replaced as the managing partner which was followed by a filing for bankruptcy protection in Germany to completely remove him from the project. An insolvency manager was placed in control of the project in order to protect the creditors and as of December 31, 2013, had sold the vast majority of assets (almost all land) of the project. The Company no longer has any financial responsibility for the obligations of the creditors related to the project and has claims filed for loans relating to our investment in the project. Due to the questionable collectability of these loans from the proceeds of the project, the Company has written off the unreserved balance of $5.3 million in the project. As of December 13, 2013, ARL had filed two lawsuits in Germany to recover funds invested in the project. The lawsuits are against: 1) the former German partner and his company, and 2) against the law firm in Hamburg originally hired to protect ARL's investment in the project. At this time it is unknown how much can be recovered or how successful the litigation will be.

Dynex Capital, Inc.

On February 13, 2013, the Court of Appeals, Fifth District of Texas at Dallas (the "Fifth Court of Appeals") rendered an opinion involving TCI in Case No. 05-04-01358-CV styled Basic Capital Management, Inc., American Realty Trust, Inc., Transcontinental Realty Investors, Inc., Continental Poydras Corp., Continental Common, Inc. and Continental Baronne, Inc. v. Dynex Commercial, Inc. and Dynex Capital, Inc. The case was on appeal from the 68th Judicial District Court of Dallas County, Texas, had previously been appealed to the Fifth Court of Appeals and further appealed to the Supreme Court of the State of Texas which had remanded the instant case back to the Fifth Court of Appeals to address certain issues. The case had its origin with Dynex Commercial making loans to Continental Poydras Corp., Continental Common, Inc. and Continental Baronne, Inc. (subsidiaries of Continental Mortgage & Equity Trust ("CMET"), an entity which merged into TCI in 1999 after the original suit was filed). Under the original loan commitment, $160,000,000 in loans were to be made to the entities. The loans were conditioned on the execution of a commitment between Dynex Commercial and Basic Capital Management, Inc. ("Basic").

An original trial to a jury resulted in the jury awarding significant damages to Basic for "lost opportunity," awarding damages in "increased costs" and "lost opportunity" damages to ART and damages of $960,646 in "increased costs" and $11,161,520 for "lost opportunity' damages in favor of TCI and its subsidiaries (a total of $12,122,166). The original Trial Court ignored the jury's findings and entered a "Judgment Notwithstanding the Verdict" ("JNOV") in Dynex's favor; the Fifth Court of Appeals has now ruled that the JNOV was improper because there was sufficient evidence to support the jury's findings. As a result, the Fifth Court of Appeals ordered the Trial Court to enter a new judgment consistent with the jury's original findings.

The Fifth Court of Appeals also determined that TCI was entitled to damages for "lost opportunities" relating to tenant improvements and awarded TCI an additional $252,577. Issues relating to attorneys fees were also addressed with the Fifth Court of Appeals ordering the Trial Court to "re-try" the issue of attorney's fees to determine the amount of fees to which TCI would be entitled on a "breach of commitment" claim. In addition, as a result of the changes in amounts awarded and passage of time, the Fifth Court of Appeals also ordered the Trial Court to recalculate the correct amounts of pre and post-judgment interest owed to Appellants.

While the fifteen year old controversy is not yet fully resolved, the Fifth Court of Appeals opinion is favorable to TCI, but TCI expects continued challenges by Dynex to the Fifth Court of Appeals opinion and any ultimate award of damages by the Trial Court.

The ownership of property and provision of services to the public as tenants entails an inherent risk of liability. Although the Company and its subsidiaries are involved in various items of litigation incidental to and in the ordinary course of its business, in the opinion of Management, the outcome of such litigation will not have a material adverse impact upon the Company's financial condition, results of operation or liquidity, unless noted otherwise above.

The Company is involved in and vigorously defending against other deficiency claims with respect to assets that have been foreclosed by various lenders. Such claims are generally against a consolidated subsidiary as the borrower or the Company as a guarantor of indebtedness or performance. Some of these proceedings may ultimately result in an unfavorable determination for the Company and/or one of its consolidated subsidiaries. While we cannot predict the final result of such proceedings, Management believes that the maximum exposure to the Company and its consolidated subsidiaries, if any, will not exceed approximately $20.0 million in the aggregate and will occur, if at all, in future years.

During the fourth quarter of the fiscal year covered by this Report, no proceeding previously reported was terminated.

ITEM 4. MINE SAFETY DISCLOSURES

Not applicable.

PART II

ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES

ARL's common stock is listed and traded on the NYSE under the symbol "ARL". The following table sets forth the high and low sales prices as reported in the consolidated reporting system of the NYSE for the quarters ended:

	2014		2013	
	High	Low	High	Low
First Quarter	$10.99	$4.33	$4.18	$2.71
Second Quarter	$9.99	$5.61	$6.69	$3.52
Third Quarter	$7.07	$5.09	$6.49	$3.40
Fourth Quarter	$6.40	$4.85	$6.60	$4.50

On March 12, 2015, the closing market price of ARL's common stock on the NYSE $5.05 per share, and was held by approximately 2,253 stockholders of record.

ARL's Board of Directors has established a policy that dividend declarations on common stock would be determined on an annual basis following the end of each year. In accordance with that policy, the Board determined not to pay any dividends on common stock in 2014, 2013 or 2012. Future distributions to common stockholders will be determined by the Board of Directors in light of conditions then existing, including the Company's financial condition and requirements, future prospects, restrictions in financing agreements, business conditions and other factors deemed relevant by the Board.

Under ARL's Amended Articles of Incorporation, 15,000,000 shares of Series A 10.0% Cumulative Convertible Preferred Stock are authorized with a par value of $2.00 per share and a liquidation preference of $10.00 per share plus accrued and unpaid dividends. Dividends are payable at the annual rate of $1.00 per share, or $.25 per share quarterly, to stockholders of record on the last day of each March, June, September, and December, when and as declared by the Board of Directors. The Series A Preferred Stock may be converted into common stock at 90.0% of the average daily closing price of ARL's common stock for the prior 20 trading days. At December 31, 2014, 2,461,252 shares of Series A Preferred Stock were outstanding. Of the outstanding shares, there were 300,000 shares owned by ART Edina, Inc., and 600,000 shares owned by ART Hotel Equities, Inc., a wholly-owned subsidiary of ARL. As of May 30, 2014, these 900,000 shares were transferred to ARL. Dividends are not paid on the shares owned by ARL.

Under ARL's Amended Articles of Incorporation, 91,000 shares of Series D 9.50% Cumulative Preferred Stock are authorized with a par value of $2.00 per share, and a liquidation preference of $20.00 per share. Dividends are payable at the annual rate of $1.90 per year or $0.475 per quarter to stockholders of record on the last day of each March, June, September and December when and as declared by the Board of Directors. The Series D Preferred Stock is reserved for the conversion of the Class A limited partner units of Ocean Beach Partners, L.P. The Class A units may be exchanged for Series D Preferred Stock at the rate of 20 Class A units for each share of Series D Preferred Stock. At March 15, 2015, no shares of Series D Preferred Stock were outstanding.

Under ARL's Amended Articles of Incorporation, 500,000 shares of Series E 6.0% Cumulative Preferred Stock are authorized with a par value $2.00 per share and a liquidation preference of $10.00 per share. Dividends are payable at the annual rate of $.60 per share or $.15 per quarter to stockholders of record on the last day of each March, June, September and December when and as declared by the Board of Directors. At March 15, 2014, no Series E Preferred Stock was outstanding. As an instrument amendatory to ARL's Amended Articles of Incorporation, 100,000 shares of

Series J 8% Cumulative Convertible Preferred Stock have been designated pursuant to a Certificate of Designation filed March 16, 2006, with a par value of $2.00 per share, and a liquidation preference of $1,000 per share. Dividends are payable at the annual rate of $80 per share, or $20 per quarter, to stockholders of record on the last day of each of March, June, September and December, when and as declared by the Board of Directors. Although the Series J 8% Cumulative Convertible Preferred Stock has been designated, no shares have been issued as of March 15, 2015.

The Company had 135,000 shares of Series K convertible preferred stock, which were held by TCI and used as collateral on a note. The note has been paid in full and the Series K preferred stock was cancelled May 7, 2014.

On September 1, 2000, the Board of Directors approved a share repurchase program authorizing the repurchase of up to a total of 1,000,000 shares of ARL common stock. This repurchase program has no termination date. In August 2010, the Board of Directors approved an increase in the share repurchase program for up to an additional 250,000 shares of common stock which results in a total authorization under the repurchase program for up to 1,250,000 shares.

The following table sets forth information regarding purchases made by ARL of shares of ARL common stock on a monthly basis during the fourth quarter of 2014:

Period	Total Number of Shares Purchased	Average Price Paid per share	Total Number of Shares Purchased as Part of Publicly Announced Program	Maximum Number of Shares that May Yet be Purchased Under the Program
Balance at September 30, 2014			986,750	263,250
October 31, 2014		$ -	986,750	263,250
November 30, 2014		$ -	986,750	263,250
December 31, 2014		$ -	986,750	263,250

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion should be read in conjunction with the financial statements and notes thereto appearing elsewhere in this report.

This Annual Report on Form 10-K contains forward-looking statements within the meaning of the federal securities laws, principally, but not only, under the captions "Business," "Risk Factors," and "Management's Discussion and Analysis of Financial Condition and Results of Operations." We caution investors that any forward-looking statements in this report, or which management may make orally or in writing from time to time, are based on management's beliefs and on assumptions made by, and information currently available to, management. When used, the words "anticipate", "believe", "expect", "intend", "may", "might", "plan", "estimate", "project", "should", "will", "result" and similar expressio relate solely to historical matters are intended to identify forward-looking statements. These statements are subject to risks, uncertainties, and assumptions and are not guarantees of future performance, which may be affected by known and unknown risks, trends, uncertainties, and factors, that are beyond our control. Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those anticipated, estimated, or projected. We caution you that, while forward-looking statements reflect our good faith beliefs when we make them, they are not guarantees of future performance and are impacted by actual events when they occur after we make such statements. We expressly disclaim any responsibility to update our forward-looking statements, whether as a result of new information, future events or otherwise. Accordingly, investors should use caution in relying on past forward-looking statements, which are based on results and trends at the time they are made, to anticipate future results or trends.

Some of the risks and uncertainties that may cause our actual results, performance or achievements to differ materially from those expressed or implied by forward-looking statements include, among others, the following:

- general risks affecting the real estate industry (including, without limitation, the inability to enter into or renew leases, dependence on tenants' financial condition, and competition from other developers, owners and operators of real estate);
- risks associated with the availability and terms of financing and the use of debt to fund acquisitions and developments;
- failure to manage effectively our growth and expansion into new markets or to integrate acquisitions successfully;
- risks and uncertainties affecting property development and construction (including, without limitation, construction delays, cost overruns, inability to obtain necessary permits and public opposition to such activities);
- risks associated with downturns in the national and local economies, increases in interest rates, and volatility in the securities markets;
- costs of compliance with the Americans with Disabilities Act and other similar laws and regulations;
- potential liability for uninsured losses and environmental contamination;
- risks associated with our dependence on key personnel whose continued service is not guaranteed; and
- the other risk factors identified in this Form 10-K, including those described under the caption "Risk Factors."

The risks included here are not exhaustive. Other sections of this report, including Part I, Item 1A. "Risk Factors," include additional factors that could adversely affect our business and financial performance. Moreover, we operate in a very competitive and rapidly changing environment. New risk factors emerge from time to time and it is not possible for management to predict all such risk factors, nor can we assess the impact of all such risk factors on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements. Given these risks and uncertainties, investors should not place undue reliance on forward-looking statements as a prediction of actual results. Investors should also refer to our quarterly reports on Form 10-Q for future periods and current reports on Form 8-K as we file them with the SEC, and to other materials we may furnish to the public from time to time through Forms 8-K or otherwise.

Overview

We are an externally advised and managed real estate investment company that owns a diverse portfolio of income-producing properties and land held for development. Our portfolio of income-producing properties includes residential apartment communities, office buildings, hotels and other commercial properties. Our investment strategy includes acquiring existing income-producing properties as well as developing new properties on land already owned or acquired for a specific development project. We acquire land primarily in urban in-fill locations or high-growth suburban markets. We are an active buyer and seller of real estate and during 2014 we acquired $48.6 million and sold $142.5 million of land and income producing properties. As of December 31, 2014, we owned 6,344 units in 38 residential apartment communities, nine commercial properties comprising approximately 2.1 million rentable square feet. In addition, we own 4,234 acres of land held for development. The Company currently owns income-producing properties and land in eleven states as well as in the U.S. Virgin Islands.

We finance our acquisitions primarily through operating cash flow, proceeds from the sale of land and income-producing properties and debt financing primarily in the form of property-specific first-lien mortgage loans from commercial banks and institutional lenders. We finance our development projects principally with short-term, variable interest rate construction loans that are converted to long-term, fixed rate amortizing mortgages when the development project is completed and occupancy has been stabilized. We will, from time to time, also enter into partnerships with various investors to acquire income-producing properties or land and to sell interests in certain of our wholly owned properties. When we sell assets, we may carry a portion of the sales price generally in the form of a short-term, interest bearing seller-financed note receivable. We generate operating revenues primarily by leasing apartment units to residents; leasing office, retail and industrial space to commercial tenants; and renting hotel rooms to guests.

We have historically engaged in and may continue to engage in certain business transactions with related parties, including but not limited to asset acquisition and dispositions. Transactions involving related parties cannot be presumed to be carried out on an arm's length basis due to the absence of free market forces that naturally exist in business dealings between two or more unrelated entities. Related party transactions may not always be favorable to our business and may include terms, conditions and agreements that are not necessarily beneficial to or in our best interest.

Effective since April 30, 2011, Pillar is the Company's external Advisor and Cash Manager under a contractual arrangement that is reviewed annually by our Board of Directors. Pillar's duties include, but are not limited to, locating, evaluating and recommending real estate and real estate-related investment opportunities. Pillar also arranges, for ARL's benefit, debt and equity financing with third party lenders and investors. Pillar also serves as an Advisor and Cash Manager to TCI and IOT. As the contractual Advisor, Pillar is compensated by ARL under an Advisory Agreement that is more fully described in Part III, Item 10. "Directors, Executive Officers and Corporate Governance – The Advisor". ARL has no employees. Employees of Pillar render services to ARL in accordance with the terms of the Advisory Agreement.

Effective since January 1, 2011, Regis manages our commercial properties and provides brokerage services. Regis is entitled to receive a fee for its property management and brokerage services. See Part III, Item 10. "Directors, Executive Officers and Corporate Governance – Property Management and Real Estate Brokerage". The Company contracts with third-party companies to lease and manage our apartment communities.

Critical Accounting Policies

We present our financial statements in accordance with generally accepted accounting principles in the United States ("GAAP"). In June 2009, the Financial Accounting Standards Board ("FASB") completed its accounting guidance codification project. The FASB Accounting Standards Codification ("ASC") became effective for our financial statements issued subsequent to September 30, 2009 and is the single source of authoritative accounting principles recognized by the FASB to be applied by nongovernmental entities in the preparation of financial statements in conformity with GAAP. As of the effective date, we no longer refer to the authoritative guidance dictating our accounting methodologies under the previous accounting standards hierarchy. Instead, we refer to the ASC guidance as the sole source of authoritative literature.

The accompanying Consolidated Financial Statements include our accounts, our subsidiaries, generally all of which are wholly-owned, and all entities in which we have a controlling interest. Arrangements that are not controlled through voting or similar rights are accounted for as a Variable Interest Entity (VIE), in accordance with the

provisions and guidance of ASC Topic 810 "Consolidation", whereby we have determined that we are a primary beneficiary of the VIE and meet certain criteria of a sole general partner or managing member as identified in accordance with Emerging Issues Task Force ("EITF") Issue 04-5, Investor's Accounting for an Investment in a Limited Partnership when the Investor is the Sole General Partner and the Limited Partners have Certain Rights ("EITF 04-5"). VIEs are generally entities that lack sufficient equity to finance their activities without additional financial support from other parties or whose equity holders as a group lack adequate decision making ability, the obligation to absorb expected losses or residual returns of the entity, or have voting rights that are not proportional to their economic interests. The primary beneficiary generally is the entity that provides financial support and bears a majority of the financial risks, authorizes certain capital transactions, or makes operating decisions that materially affect the entity's financial results. All significant intercompany balances and transactions have been eliminated in consolidation.

In determining whether we are the primary beneficiary of a VIE, we consider qualitative and quantitative factors, including, but not limited to: the amount and characteristics of our investment; the obligation or likelihood for us or other investors to provide financial support; our and the other investors' ability to control or significantly influence key decisions for the VIE; and the similarity with and significance to the business activities of us and the other investors. Significant judgments related to these determinations include estimates about the current future fair values and performance of real estate held by these VIEs and general market conditions.

For entities in which we have less than a controlling financial interest or entities where we are not deemed to be the primary beneficiary, the entities are accounted for using the equity method of accounting. Accordingly, our share of the net earnings or losses of these entities are included in consolidated net income. Our investment in Gruppa Florentina, LLC is accounted for under the equity method. Our investment in LK-Four Hickory, LLC was accounted for under the equity method until January 17, 2012, when the investment was sold.

The Company in accordance with the VIE guidance in ASC 810 "Consolidations" consolidates 36 and 34 multifamily residential properties located throughout the United States at December 31, 2014 and 2013, respectively, ranging from 32 units to 332 units. Assets totaling $363.5 million and $345.0 million at December 31, 2014 and 2013, respectively, are consolidated and included in "Real estate, at cost" on the balance sheet and are all collateral for their respective mortgage notes payable, none of which are recourse to the partnership in which they are in or to the Company. Assets totaling $0.0 and $16.4 million at December 31, 2014 and 2013, respectively, are consolidated and included in "Real estate held for sale at cost" on the balance sheet and are all collateral for their respective mortgage notes payable, none of which are recourse to the partnership in which they are in or to the Company.

Real Estate

Upon acquisitions of real estate, we assess the fair value of acquired tangible and intangible assets, including land, buildings, tenant improvements, "above-market" and "below-market" leases, origination costs, acquired in-place leases, other identified intangible assets and assumed liabilities in accordance with ASC Topic 805 "Business Combinations", and allocate the purchase price to the acquired assets and assumed liabilities, including land at appraised value and buildings at replacement cost.

We assess and consider fair value based on estimated cash flow projections that utilize appropriate discount and/or capitalization rates, as well as available market information. Estimates of future cash flows are based on a number of factors including the historical operating results, known and anticipated trends, and market and economic conditions. The fair value of the tangible assets of an acquired property considers the value of the property as if it were vacant. We also consider an allocation of purchase price of other acquired intangibles, including acquired in-place leases that may have a customer relationship intangible value, including (but not limited to) the nature and extent of the existing relationship with the tenants, the tenants' credit quality and expectations of lease renewals. Based on our acquisitions to date, our allocation to customer relationship intangible assets has been immaterial.

We record acquired "above-market" and "below-market" leases at their fair values (using a discount rate which reflects the risks associated with the leases acquired) equal to the difference between (1) the contractual amounts to be paid pursuant to each in-place lease and (2) management's estimate of fair market lease rates for each corresponding in-place lease, measured over a period equal to the remaining term of the lease for above-market leases and the initial term plus the term of any below-market fixed rate renewal options for below-market leases.

Other intangible assets acquired include amounts for in-place lease values that are based on our evaluation of the specific characteristics of each tenant's lease. Factors to be considered include estimates of carrying costs during hypothetical expected lease-up periods considering current market conditions, and costs to execute similar leases. In estimating carrying costs, we include real estate taxes, insurance and other operating expenses and estimates of lost rentals at market rates during the expected lease-up periods, depending on local market conditions. In estimating costs to execute similar leases, we consider leasing commissions, legal and other related expenses.

Sales to our subsidiary, TCI, have previously been reflected at the fair value sale price. Upon discussion with the SEC and in review of the guidance pursuant to ASC 250-10-45-22 to 24, we have adjusted those assets, in the prior year, to reflect a basis equal to ARL's cost basis in the asset at the time of the sale. The related party payables to ARL were reduced for the lower asset price. The Company reflected the original cost basis in consolidation, therefore no change in the financial statements were necessary to reflect this change.

Depreciation and Impairment

Real estate is stated at depreciated cost. The cost of buildings and improvements includes the purchase price of property, legal fees and other acquisition costs. Costs directly related to the development of properties are

capitalized. Capitalized development costs include interest, property taxes, insurance, and other direct project costs incurred during the period of development.

A variety of costs are incurred in the acquisition, development and leasing of properties. After determination is made to capitalize a cost, it is allocated to the specific component of a project that is benefited. Determination of when a development project is substantially complete and capitalization must cease involves a degree of judgment. Our capitalization policy on development properties is guided by ASC Topic 835-20 "Interest – Capitalization of Interest" and ASC Topic 970 "Real Estate - General". The costs of land and buildings under development include specifically identifiable costs. The capitalized costs include pre-construction costs essential to the development of the property, development costs, construction costs, interest costs, real estate taxes, salaries and related costs and other costs incurred during the period of development. We consider a construction project as substantially completed and held available for occupancy upon the receipt of certificates of occupancy, but no later than one year from cessation of major construction activity. We cease capitalization on the portion (1) substantially completed and (2) occupied or held available for occupancy, and we capitalize only those costs associated with the portion under construction.

Management reviews its long-lived assets used in operations for impairment when there is an event or change in circumstances that indicates impairment in value. An impairment loss is recognized if the carrying amount of its assets is not recoverable and exceeds its fair value. Fair value is determined by a recent appraisal, comparables based upon prices for similar assets, executed sales contract, a present value and/or a valuation technique based upon a multiple of earnings or revenue. If such impairment is present, an impairment loss is recognized based on the excess of the carrying amount of the asset over its fair value. The evaluation of anticipated cash flows is highly subjective and is based in part on assumptions regarding future occupancy, rental rates and capital requirements that could differ materially from actual results in future periods. If we determine that impairment has occurred, the affected assets must be reduced to their face value.

ASC Topic 360 "Property, Plant and Equipment" requires that qualifying assets and liabilities and the results of operations that have been sold, or otherwise qualify as "held for sale", be presented as discontinued operations in all periods presented if the property operations are expected to be eliminated and we will not have significant continuing involvement following the sale. The components of the property's net income that is reflected as discontinued operations include the net gain (or loss) upon the disposition of the property "held for sale", operating results, depreciation and interest expense (if the property is subject to a secured loan). We generally consider assets to be "held for sale" when the transaction has been approved by our Board of Directors, or a committee thereof, and there are no known significant contingencies relating to the sale, such that the property sale within one year is considered probable. Following the classification of a property as "held for sale", no further depreciation is recorded on the assets.

Any properties that are treated as "subject to sales contract" on the Consolidated Balance Sheets and are listed in detail in Schedule III, "Real Estate and Accumulated Depreciation" are those in which we have not recognized the legal sale according to the guidance in ASC 360-20 due to various factors, disclosed in each sale transaction under Item 1 Significant Real Estate Acquisitions/Dispositions and Financing. Any sale transaction that did not meet the requirements according to ASC 360-20 to record the sale, the asset involved in the transaction, including the debt and property operations, remained on the books of the Company. We continue to charge depreciation to expense as a period costs for the property until such time as the property has been classified as held for sale in accordance with guidance reflected in ASC 360-10-45 "Impairment or Disposal of Long-Lived Assets".

Investment in Unconsolidated Real Estate Ventures

Except for ownership interests in variable interest entities, we account for our investments in unconsolidated real estate ventures under the equity method of accounting because we exercise significant influence over, but do not control, these entities. These investments are recorded initially at cost, as investments in unconsolidated real estate ventures, and subsequently adjusted for equity in earnings and cash contributions and distributions. Any difference between the carrying amount of these investments on our balance sheet and the underlying equity in net assets is amortized as an adjustment to equity in earnings of unconsolidated real estate ventures over the life of the related asset. Under the equity method of accounting, our net equity is reflected within the Consolidated Balance Sheets, and our share of net income or loss from the joint ventures is included within the Consolidated Statements of Operations. The joint venture agreements may designate different percentage allocations among investors for profits and losses; however, our recognition of joint venture income or loss generally follows the joint venture's distribution priorities, which may change upon the achievement of certain investment return thresholds. For ownership interests in variable interest entities, we consolidate those in which we are the primary beneficiary.

Recognition of Rental Income

Rental income for commercial property leases is recognized on a straight-line basis over the respective lease terms. In accordance with ASC Topic 805 "Business Combinations", we recognize rental revenue of acquired in-place "above-market" and "below-market" leases at their fair values over the terms of the respective leases. On our Consolidated

Balance Sheets, we include as a receivable the excess of rental income recognized over rental payments actually received pursuant to the terms of the individual commercial lease agreements.

Reimbursements of operating costs, as allowed under most of our commercial tenant leases, consist of amounts due from tenants for common area maintenance, real estate taxes and other recoverable costs, and are recognized as revenue in the period in which the recoverable expenses are incurred. We record these reimbursements on a “gross” basis, since we generally are the primary obligor with respect to purchasing goods and services from third-party suppliers, have discretion in selecting the supplier and have the credit risk with respect to paying the supplier.

Rental income for residential property leases is recorded when due from residents and is recognized monthly as earned, which is not materially different than on a straight-line basis as lease terms are generally for periods of one year or less. For hotel properties, revenues for room sales and guest services are recognized as rooms are occupied and services are rendered. An allowance for doubtful accounts is recorded for all past due rents and operating expense reimbursements considered to be uncollectible.

Revenue Recognition on the Sale of Real Estate

Sales and the associated gains or losses of real estate are recognized in accordance with the provisions of ASC Topic 360-20, "Property, Plant and Equipment – Real Estate Sale". The specific timing of a sale is measured against various criteria in ASC 360-20 related to the terms of the transaction and any continuing involvement in the form of management or financial assistance associated with the properties. If the sales criteria for the full accrual method are not met, we defer some or all of the gain recognition and account for the continued operations of the property by applying the finance, leasing, deposit, installment or cost recovery methods, as appropriate, until the sales criteria are met.

Non-performing Notes Receivable

We consider a note receivable to be non-performing when the maturity date has passed without principal repayment and the borrower is not making interest payments in accordance with the terms of the agreement.

Interest Recognition on Notes Receivable

We record interest income as earned in accordance with the terms of the related loan agreements.

Allowance for Estimated Losses

We assess the collectability of notes receivable on a periodic basis, of which the assessment consists primarily of an evaluation of cash flow projections of the borrower to determine whether estimated cash flows are sufficient to repay principal and interest in accordance with the contractual terms of the note. We recognize impairments on notes receivable when it is probable that principal and interest will not be received in accordance with the contractual terms of the loan. The amount of the impairment to be recognized generally is based on the fair value of the partnership's real estate that represents the primary source of loan repayment. See Note 3 "Notes and Interest Receivable" for details on our notes receivable.

Fair Value of Financial Instruments

We apply the guidance in ASC Topic 820, "Fair Value Measurements and Disclosures," to the valuation of real estate assets. These provisions define fair value as the price that would be received to sell an asset or paid to transfer a liability in a transaction between market participants at the measurement date, establish a hierarchy that prioritizes the information used in developing fair value estimates and require disclosure of fair value measurements by level within the fair value hierarchy. The hierarchy gives the highest priority to quoted prices in active markets (Level 1 measurements) and the lowest priority to unobservable data (Level 3 measurements), such as the reporting entity's own data.

The valuation hierarchy is based upon the transparency of inputs to the valuation of an asset or liability as of the measurement date and includes three levels defined as follows:

— Unadjusted quoted prices for identical and unrestricted assets or liabilities in active markets.

Level 1

Level 2 — Quoted prices for similar assets and liabilities in active markets, and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.

Level 3 — Unobservable inputs that are significant to the fair value measurement.

A financial instrument's categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

Related parties

We apply ASC Topic 805, "Business Combinations", to evaluate business relationships. Related parties are persons or entities who have one or more of the following characteristics, which include entities for which investments in their equity securities would be required, trust for the benefit of persons including principal owners of the entities and members of their immediate families, management personnel of the entity and members of their immediate families and other parties with which the entity may deal if one party controls or can significantly influence the decision making of the other to an extent that one of the transacting parties might be prevented from fully pursuing its own separate interests, or affiliates of the entity.

Results of Operations

The discussion of our results of operations is based on management's review of operations, which is based on our segments. Our segments consist of apartments, commercial buildings, hotels, land and other. For discussion purposes, we break these segments down into the following sub-categories; same property portfolio, acquired properties, and developed properties in the lease-up phase. The same property portfolio consists of properties that were held by us for the entire period for both years being compared. The acquired property portfolio consists of properties that we acquired but have not held for the entire period for both periods being compared. Developed properties in the lease-up phase consist of completed projects that are being leased-up. As we complete each phase of the project, we lease-up that phase and include those revenues in our continued operations. Once a developed property becomes leased-up (80% or more) and is held the entire period for both years under comparison, it is considered to be included in the same property portfolio. Income producing properties that we have sold during the year are reclassified to discontinuing operations for all periods presented. The other segment consists of revenue and operating expenses related to the notes receivable and corporate entities.

The following discussion is based on our Consolidated Statements of Operations for the twelve months ended December 31, 2014, 2013, and 2012 as included in Part II, Item 8. "Consolidated Financial Statements and Supplementary Data". The prior year's property portfolios have been adjusted for subsequent sales. Continued operations relates to income producing properties that were held during those years as adjusted for sales in the subsequent years.

At December 31, 2014, 2013, and 2012, we owned or had interests in a portfolio of 47, 47, and 62 income producing properties, respectively. The total property portfolio represents all income-producing properties held as of December 31 for the year presented. Sales subsequent to year end represent properties that were held as of year end for the years presented, but sold in subsequent years. Continued operations represents all properties that have not been reclassed to discontinued operations as of December 31, 2014 for the year presented. The table below shows the number of income producing properties held by year.

	2014	2013	2012
Continued operations	47	43	43
Sales subsequent to year end	-	4	19
Total property portfolio	47	47	62

Comparison of the year ended December 31, 2014 to the same year ended 2013:

For the twelve months ended December 31, 2014, we reported net income applicable to common shares of $28.8 million or $2.50 per diluted earnings per share, as compared to a net income applicable to common shares of $38.8 million or $3.36 per diluted earnings per share for the same year ended 2013. The current year net income applicable to common shares of $28.8 million includes gain on land sales of $0.6 million and net income from discontinued operations of $37.9 million, as compared to the prior year net income applicable to common shares of $38.8 million, which includes a loss on land sales of $0.5 million, provisions on the impairment of notes receivable and real estate assets of $19.0 million, and net income from discontinued operations of $62.6 million.

Revenues

Rental and other property revenues were $79.4 million for the twelve months ended December 31, 2014. This represents a decrease of $1.4 million, as compared to the prior year revenues of $80.8 million. This change, by segment, is an increase in the apartment portfolio of $2.5 million, offset by a decrease in the commercial portfolio of

$3.8 million and a decrease in the other portfolio of $0.1 million. Our apartment portfolio continues to excel in the current economic conditions with occupancies averaging over 94% and increasing rental rates. We have been able to surpass expectations due to the high-quality product offered, strength of our management team and our commitment to our tenants. The decrease in the commercial segment is due to a lease termination fee received in the prior year. Our commercial portfolio expects to improve as the Company has been diligent in our actions to re-lease vacant space and has been successful in attracting high-quality tenants and expects to see the benefits of those new leases over the next twelve months. We continue to work aggressively to attract new tenants and strive for continuous improvement of our properties in order to maintain our existing tenants.

Expense

Property operating expenses were $42.1 million for the twelve months ended December 31, 2014. This represents an increase of $2.8 million, as compared to the prior year operating expenses of $39.3 million. This change, by segment, is an increase in the apartment portfolio of $1.3 million, and an increase in the commercial portfolio of $1.5 million. Within the apartment portfolio, the majority of the increase was due to tax refunds received for several properties in the prior year, an increase in the current year real estate taxes, as well as some non-recurring repair projects completed in the current year. In the commercial segment, the increase is due to an increase in occupancy as well as tax refunds received in the prior year.

Depreciation and amortization expenses were $17.6 million for the twelve months ended December 31, 2014. This represents an increase of $1.6 million as compared to prior year depreciation of $16.0 million. The majority of this change is in the commercial portfolio related to an increase in tenant improvements.

General and administrative expenses were $10.3 million dollars for the twelve months ended December 31, 2014. This represents an increase of $2.4 million, as compared to the prior year general and administrative expenses of $7.9 million. The majority of this change is in the other portfolio due to professional fees and franchise taxes.

There was no provision for impairment of notes receivable, investment in real estate partnerships, and real estate assets for the year ended December 31, 2014. This was a decrease of $19.0 million as compared to the prior year expense of $19.0 million. In the prior year impairment was recorded as an additional loss in the commercial and land portfolios. In our commercial portfolio, an impairment reserve of $9.6 million was taken to adjust for the appraised value of the building. In our land portfolio, an impairment reserve of $7.5 million was taken due to a potential sale of land at a value lower than book basis as well as disposal of another property due to bankruptcy. The remaining $1.9 million was related to provisions for losses taken on our notes receivable.

Net income fee was $3.7 million for the twelve months ended December 31, 2014. This represents a decrease of $0.4 million, as compared to the prior year net income fee of $4.1 million. The net income fee paid to Pillar is calculated at 7.5% of net income.

Advisory fees were $8.9 million for the twelve months ended December 31, 2014. This represents a decrease of $1.3 million, as compared to the prior year advisory fees of $10.2 million. Advisory fees are computed based on a gross asset fee of 0.0625% per month (0.75% per annum) of the average of the gross asset value.

Other income (expense)

Interest income was $20.1 million for the twelve months ending December 31, 2014. This represents an increase of $0.7 million, as compared to the prior year interest income of $19.4 million dollars. The majority of this increase is due to the purchase of new notes from UHF.

Other income was $1.4 million for the twelve months ending December 31, 2014. This represents a decrease of $8.8 million as compared to the prior year other income of $10.2 million. The decrease is primarily due to the December 30, 2013 Mercer/Travelers land mortgage note buyout, which was paid off at a discounted rate, as well as income recognized in the prior year relating to a released contingency on a sold commercial property.

Mortgage and loan interest expense was $35.4 million for the twelve months ended December 31, 2014. This represents a decrease of $0.8 million, as compared to the prior year expense of $36.2 million. This change by segment, is a decrease in the apartment portfolio of $1.0 million and a decrease in the land portfolio of $1.8 million, offset by an increase in the other portfolio of $1.9 million and an increase in the commercial portfolio of $0.1 million. Within the

apartment portfolio, the majority of the decrease is due to the refinances closed with long-term, low interest rates. The decrease in the land portfolio relates to principal payments made during the prior years, thereby requiring less future interest to be paid on debt obligations. Within the other portfolio, the majority of the increase is due to the securing of a new loan in the current year, offset by a decrease in the interest owed to our Advisor.

Loan charges and prepayment penalties were $2.9 million for the twelve months ended December 31, 2014. This represents a decrease of $2.7 million, as compared to the prior year expense of $5.6 million. There were fewer refinances completed in the current year than in the prior year.

Litigation settlement expenses were a credit of $3.6 million for the twelve months ended December 31, 2014. This represents a decrease of $23.9 million, as compared to the prior year expense of $20.3 million. The majority of the credit to the current year litigation expense is due to the settlement with the lender relating to the Amoco Building in which the balance in the amount of $3.5 million was forgiven. Matters were settled in the prior year in order to avoid future litigation and legal expenses.

Gain on land sales was $0.6 million for the twelve months ended December 31, 2014. In the current year we sold 76.3 acres of land in six transactions for a sales price of $8.1 million and recorded a gain of $0.6 million. .

Discontinued Operations

Discontinued operations relates to properties that were either sold or held for sale as of the respective year end. Included in discontinued operations are a total of 5 and 19 income-producing properties as of 2014 and 2013, respectively. In 2014, we sold three apartment complexes (Blue Ridge, Pecan Pointe and Sunset Lodge) and two commercial properties (1010 Common and Sesame Square). In 2013 we sold 11 apartment complexes (Dorado Ranch, Huntington Ridge, Laguna Vista, Legends of El Paso, Mariposa Villas, Paramount Terrace, River Oaks, Savoy of Garland, Stonebridge at City Park, Verandas at City View and Vistas of Pinnacle Park), four commercial properties (225 Baronne, Amoco, Ergon and Eton Square). The operations related to these properties sold are reclassed to prior years discontinued operations. The gains on sale of the properties sold were also included in discontinued operations for those years as shown in the table below (dollars in thousands):

	For the Years Ended December 31,	
	2014	2013
Revenues:		
Rental and other property revenues	$5,612	$34,922
	5,612	34,922
Expenses:		
Property operating expenses	2,350	16,479
Depreciation	751	5,563
General and administrative	451	966
Total operating expenses	$3,552	$23,008
Other income (expense):		
Other income (expense)	(507)	45
Mortgage and loan interest	(1,743)	(8,082)
Deferred borrowing costs amortization	(1,461)	(3,015)
Loan charges and prepayment penalties	(1,656)	(3,246)
Litigation settlement	(250)	(250)
Total other expenses	$(5,617)	$(14,548)
Loss from discontinued operations before gain on sale of real estate and taxes	(3,557)	(2,634)
Gain on sale of real estate from discontinued operations	61,879	98,951
Income tax benefit	(20,413)	(33,711)
Income from discontinued operations	$37,909	$62,606

Comparison of the year ended December 31, 2013 to the same year ended 2012:

For the twelve months ended December 31, 2013, we reported net income applicable to common shares of $38.8 million or $3.36 per diluted earnings per share, as compared to a net loss applicable to common shares of $8.0 million or $0.69 per diluted earnings per share for the same year ended 2012. The 2013 net income applicable to common shares of $38.8 million includes loss on land sales of $0.5 million, $19.0 million of provisions on the impairment of notes receivable and real estate assets, and net income from discontinued operations of $62.6 million, as compared to the prior year net loss applicable to common shares of $8.0 million, which includes gain on land sales of $5.5 million, provisions on the impairment of notes receivable and real estate assets of $2.3 million, and net loss from discontinued

operations of $0.3 million.

Revenues

Rental and other property revenues were $80.8 million for the twelve months ended December 31, 2013. This represents a decrease of $1.0 million, as compared to the prior year revenues of $81.8 million. This change, by segment, is an increase in the apartment portfolio of $2.9 million, offset by a decrease in the commercial portfolio of $3.9 million. Within the apartment portfolio, the increase is due primarily to increased rental rates and occupancy. Our apartment portfolio continues to thrive in the current economic conditions. Within the commercial portfolio, the same properties decreased by $3.9 million related to some larger square-foot tenants down-sizing or moving out. We continue to market our properties aggressively to attract new tenants and strive for continuous improvement of our properties in order to maintain our existing tenants.

Expenses

Property operating expenses were $39.3 million for the twelve months ended December 31, 2013. This represents a decrease of $0.7 million, as compared to the prior year operating expenses of $40.0 million. This change, by segment, is an increase in the apartment portfolio of $1.6 million, an increase in the land portfolio of $0.7 million, offset by a decrease in the commercial portfolio of $2.6 million, and a decrease in the other portfolio of $0.4 million. Within the apartment portfolio, the increase is due to an increase in real estate taxes for several properties in 2013. Within the land portfolio, the increase was mainly due to an increase in real estate taxes and professional services. Within the commercial portfolio, the decrease was due to real estate tax refunds from protests and litigations for several properties and lease commissions that were expensed in the prior year and adjusted to capitalize according to the lease terms in the current year. Within the other portfolio, the decrease was mainly due to a decrease in professional services.

Depreciation expense was $16.0 million for the twelve months ended December 31, 2013. This represents an increase of $1.1 million, as compared to the prior year expense of $14.9 million. This change, by segment, is an increase in the commercial portfolio of $0.9 million, an increase in the apartment portfolio of $0.1 million, and an increase in the other portfolio of $0.1 million. Within the commercial portfolio the increase is related to an increase in tenant improvements and lease commission amortization.

General and administrative expenses were $7.9 million for the twelve months ended December 31, 2013. This represents an increase of $1.9 million, as compared to the prior year expenses of $6.0 million. This increase, within the other portfolio is related to professional services and an increase in costs reimbursements to our Advisor.

The provision on impairment of notes receivable, investment in real estate partnerships, and real estate assets was $19.0 million for the period ended December 31, 2013. This was an increase of $16.7 million as compared to the prior year expense of $2.3 million. In 2013, impairment was recorded as an additional loss in the commercial and land portfolios. In our commercial portfolio, an impairment reserve of $9.6 million was taken to adjust for the appraised value of the building. In our land portfolio, an impairment reserve of $7.5 million was taken due to a potential sale of land at a value lower than book basis as well as disposal of another property due to bankruptcy. The remaining $1.9 million was related to provisions for losses taken on our notes receivable. In the prior period, the $2.3 million in impairment reserves was related to our land holdings. A prior year sale of adjacent land determined the fair value on a Waco, Texas land holding that resulted in an impairment reserve of $1.2 million, a comparable sale determined the fair value of a Florida land holding that resulted in an impairment reserve of $0.5 million and an appraisal determined the fair value of an Arkansas land holding that resulted in an impairment reserve of $0.6 million.

Net income fee was $4.1 million for the twelve months ended December 31, 2013. This represents an increase of $3.9 million, as compared to the prior year net income fee of $0.2 million. The net income fee paid to Pillar is calculated at 7.5% of net income.

Advisory fees were $10.2 million for the twelve months ended December 31, 2013, the same as the prior year advisory fees. Advisory fees are computed based on a gross asset fee of 0.0625% per month (0.75% per annum) of the average of the gross asset value.

Other income (expense)

Interest income was $19.4 million for the twelve months ended December 31, 2013. This represents an increase of $4.8 million, as compared to the prior year income of $14.6 million. This increase was due to an agreement made on January 1, 2013, whereby the Company extended the maturity on the surplus cash flow notes receivable from UHF for an additional term of five years in exchange for an early termination of the preferred interest rate. The original notes gave a five-year period of preferred interest rate at 5.25%, before returning to the original note rate of 12%.

Other income was $10.2 million for the twelve months ended December 31, 2013. This represents an increase of $2.4 million as compared to the prior year income of $7.8 million. The increase primarily relates to the Mercer/Travelers Land note payoff. Per the terms of the agreement, the note was paid off at a discounted rate and $7.5 million was recognized as a gain. There was also $2.5 million recognized from the reduction of the Piccadilly obligation with the lender. In the prior year, the Company recorded the fee per the development agreement between UHF and TCI for consulting services related to the development of apartment projects.

Mortgage and loan interest expense was $36.2 million for the twelve months ended December 31, 2013. This represents a decrease of $2.0 million, as compared to the prior year expense of $38.2 million. This change, by segment, is a decrease in the apartment portfolio of $2.7 million, a decrease in the land portfolio of $0.5 million, offset by an increase in the other portfolio of $0.6 million, and an increase in the commercial portfolio of $0.6 million. Within the apartment portfolio, the majority of the decrease relates to the refinances closed with long-term, low interest rates. The majority of the increase in the other portfolio is due to an increase in the interest paid to our Advisor. The decrease in the land portfolio was due to land sales.

Deferred borrowing costs amortization was $3.0 million for the twelve months ended December 31, 2013. This represents an increase of $2.3 million as compared to the prior year expense of $0.7 million. This increase is mainly due to the higher loan deferred borrowing costs in the same store properties of the apartment portfolio that were written off in 2013 upon the refinance into a new mortgage note.

Loan charges and prepayment penalties were $5.6 million for the twelve months ended December 31, 2013. This represents an increase of $2.0 million, as compared to the prior year expense of $3.6 million. This change, by segment, is an increase in the commercial portfolio of $0.2 million, an increase in the apartment portfolio of $0.4 million, an increase in the land portfolio of $1.0 million, and an increase in the other portfolio of $0.4 million. The majority of the land increase is due to the extension fees paid relating to the Mercer/Travelers Land note payoff. The apartment portfolio increased as well due to the prepayment penalties from the refinancing of several existing mortgage notes. There were more refinances completed in 2013 than in the prior year. Within the other portfolio the majority of the increase is due to an increase in loan extension fees.

Litigation settlement expense was $20.3 million for the twelve months ended December 31, 2013. This represents an increase of $20.1 million as compared to the prior year expense of $0.2 million. The majority of this increase relates to guarantor settlements on various real estate assets that were foreclosed upon in prior years. In order to avoid future litigation and legal expenses, we settled and are making payment plans on the agreed upon deficiencies.

Gain on land sales decreased in the current year. In the current year, we sold 45.2 acres of land in four separate transactions for an aggregate sales price of $14.0 million and recorded a loss of $0.5 million.

Discontinued Operations

Discontinued operations relates to properties that were either sold or held for sale as of the respective year end. Included in discontinued operations are a total of 19 and 25 income-producing properties as of 2013 and 2012, respectively. The prior periods' discontinued operations have been adjusted to reflect properties held during those years that were subsequently sold or held for sale as of December 31, 2014. In 2013 we sold 11 apartment complexes (Dorado Ranch, Huntington Ridge, Laguna Vista, Legends of El Paso, Mariposa Villas, Paramount Terrace, River Oaks, Savoy of Garland, Stonebridge at City Park, Verandas at City View and Vistas of Pinnacle Park) and four commercial properties (225 Baronne, Amoco, Ergon and Eton Square). In 2012, we sold two apartment complexes (Portofino and Wildflower Villas), three commercial properties (305 Baronne, Clarke Garage and Dunes Plaza), and one hotel (Comfort Inn. The operations related to these properties sold are reclassed to prior years discontinued operations. The gains on sale of the properties sold were also included in discontinued operations for those years as shown in the table below (dollars in thousands):

	For the Years Ended December 31,	
	2013	2012
Revenues:		
Rental and other property revenues	$34,922	$43,589
	34,922	43,589
Expenses:		
Property operating expenses	16,479	23,326
Depreciation	5,563	7,691
General and administrative	966	1,224
Provision on impairment of notes receivable and real estate assets	-	2,400
Total operating expenses	$23,008	$34,641

Other income (expense):		
Other income	45	7
Mortgage and loan interest	(8,082)	(12,737)
Deferred borrowing costs amortization	(3,015)	(1,793)
Loan charges and prepayment penalties	(3,246)	(3,472)
Litigation settlement	(250)	(250)
Total other expenses	$(14,548)	$(18,245)
Loss from discontinued operations before gain on sale of real estate and taxes	(2,634)	(9,297)
Gain on sale of real estate from discontinued operations	98,951	8,885
Income tax benefit (expense)	(33,711)	144
Income (loss) from discontinued operations	$62,606	$(268)

32

Liquidity and Capital Resources

General

Our principal liquidity needs are:

- fund normal recurring expenses;
- meet debt service and principal repayment obligations including balloon payments on maturing debt;
- fund capital expenditures, including tenant improvements and leasing costs;
- fund development costs not covered under construction loans; and
- fund possible property acquisitions.

Our principal sources of cash have been and will continue to be:

- property operations;
- proceeds from land and income-producing property sales;
- collection of mortgage notes receivable;
- collections of receivables from related companies;
- refinancing of existing debt; and
- additional borrowings, including mortgage notes payable, and lines of credit.

It is important to realize that the current status of the banking industry has had a significant effect on our industry. The banks' willingness and/or ability to originate loans affects our ability to buy and sell property, and refinance existing debt. We are unable to foresee the extent and length of this down-turn. A continued and extended decline could materially impact our cash flows. We draw on multiple financing sources to fund our long-term capital needs. We generally fund our development projects with construction loans, which are converted to traditional mortgages upon completion of the project.

We may also issue additional equity securities, including common stock and preferred stock. Management anticipates that our cash at December 31, 2014, along with cash that will be generated in 2015 from property operations, may not be sufficient to meet all of our cash requirements. Management intends to selectively sell land and income producing assets, refinance or extend real estate debt and seek additional borrowings secured by real estate to meet its liquidity requirements. Although the past cannot predict the future, historically, management has been successful at refinancing and extending a portion of the Company's current maturity obligations and selling assets as necessary to meet current obligations.

Management reviews the carrying values of ARL's properties and mortgage notes receivable at least annually and whenever events or a change in circumstances indicate that impairment may exist. Impairment is considered to exist if, in the case of a property, the future cash flow from the property (undiscounted and without interest) is less than the carrying amount of the property. The property review generally includes: (1) selective property inspections, (2) a review of the property's current rents compared to market rents, (3) a review of the property's expenses, (4) a review of maintenance requirements, (5) a review of the property's cash flow, (6) discussions with the manager of the property, and (7) a review of properties in the surrounding area. For notes receivable, impairment is considered to exist if it is probable that all amounts due under the terms of the note will not be collected. If impairment is found to exist, a provision for loss is recorded by a charge against earnings to the extent that the investment in the note exceeds management's estimate of the fair value of the collateral securing such note. The mortgage note receivable review includes an evaluation of the collateral property securing each note.

Cash Flow Summary

The following summary discussion of our cash flows is based on the Consolidated Statements of Cash Flows in Part II, Item 8. "Consolidated Financial Statements and Supplementary Data" and is not meant to be an all-inclusive discussion of the changes in our cash flows for the periods presented below (dollars in thousands):

	2014	2013	Variance
Net cash used in operating activities	$(37,968)	$(42,162)	$4,194
Net cash provided by investing activities	$38,485	$251,777	$(213,292)
Net cash used in financing activities	$(4,655)	$(206,577)	$201,922

The primary use of cash for operations is daily operating costs, general and administrative expenses, advisory fees and land holding costs. Our primary source of cash from operating activities is from rental income on properties. We used more cash to pay down related party payables in the prior period than in the current period.

Our primary cash outlays for investing activities are for construction and development, acquisition of land and income producing properties, and capital improvements to existing properties. Our primary sources of cash from investing activities are from the proceeds on the sale of land and income-producing properties. We received more proceeds from sales of properties and land in the prior period than in the current period. In addition, we spent $81 million on three residential properties and a combined 15.0 acres of land in the current period.

Our primary sources of cash from financing activities are from proceeds on notes payables. Our primary cash outlays are for recurring debt payments and payments on maturing notes payable. We used $22.2 million to make recurring note payments and $163.5 million for maturing notes, including payoffs required on sold properties, as compared to $18.2 million and $391.0 million in the prior period, respectively.

Equity Investments.

ARL has from time to time purchased shares of IOT and TCI. The Company may purchase additional equity securities of IOT and TCI through open market and negotiated transactions to the extent ARL's liquidity permits.

Equity securities of TCI held by ARL (and of IOT held by TCI) may be deemed "restricted securities" under Rule 144 of the Securities Act of 1933 ("Securities Act"). Accordingly, ARL may be unable to sell such equity securities other than in a registered public offering or pursuant to an exemption under the Securities Act for a one-year period after they are acquired. Such restrictions may reduce ARL's ability to realize the full fair value of such investments if ARL attempted to dispose of such securities in a short period of time.

34

Contractual Obligations

We have contractual obligations and commitments primarily with regards to the payment of mortgages. The following table aggregates our expected contractual obligations and commitments and includes items not accrued, per GAAP, through the term of the obligation such as interest expense and operating leases. Our aggregate obligations subsequent to December 31, 2014 are shown in the table below (dollars in thousands):

	Total	2015	2016	2017-2019	Thereafter
Long-term debt obligation(1)	$1,006,427	$138,830	$103,862	$150,525	$613,210
Capital lease obligation	-	-	-	-	-
Operating lease obligation	21,212	331	336	1,044	19,501
Purchase obligation	-	-	-	-	-
Other long-term debt liabilities reflected on the Registrant's	-	-	-	-	-
Registrant's Balance Sheet under GAAP					
Total	$1,027,639	$139,161	$104,198	$151,569	$632,711

(1) ARL's long-term debt may contain financial covenants that, if certain thresholds are not met, could allow the lender to accelerate principal payments or cause the note to become due immediately.

Environmental Matters

Under various federal, state and local environmental laws, ordinances and regulations, ARL may be potentially liable for removal or remediation costs, as well as certain other potential costs relating to hazardous or toxic substances (including governmental fines and injuries to persons and property) where property-level managers have arranged for the removal, disposal or treatment of hazardous or toxic substances. In addition, certain environmental laws impose liability for release of asbestos-containing materials into the air, and third parties may seek recovery for personal injury associated with such materials.

Management is not aware of any environmental liability relating to the above matters that would have a material adverse effect on ARL’s business, assets or results of operations.

Inflation

The effects of inflation on ARL’s operations are not quantifiable. Revenues from property operations tend to fluctuate proportionately with inflationary increases and decreases in housing costs. Fluctuations in the rate of inflation also affect the sales values of properties and the ultimate gains to be realized from property sales. To the extent that inflation affects interest rates, earnings from short-term investments and the cost of new financings as well as the cost of variable interest rate debt will be affected.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

ARL’s primary market risk exposure consists of changes in interest rates on borrowings under our debt instruments that bear interest at variable rates that fluctuate with market interest rates and maturing debt that has to be refinanced. ARL’s future operations, cash flow and fair values of financial instruments are also partially dependent on the then existing market interest rates and market equity prices.

As of December 31, 2014, our $655.5 million debt portfolio consisted of approximately $589.0 million of fixed-rate debt and approximately $66.5 million of variable-rate debt with interest rates ranging from 1.0% to 12.5%. Our overall weighted average interest rate at December 31, 2014 and 2013 was 4.88% and 5.81%, respectively.

ARL's interest rate sensitivity position is managed by the capital markets department. Interest rate sensitivity is the relationship between changes in market interest rates and the fair value of market rate sensitive assets and liabilities. ARL's earnings are affected as changes in short-term interest rates affect its cost of variable-rate debt and maturing fixed-rate debt.

If market interest rates for variable-rate debt average 100 basis points more in 2015 than they did during 2014, ARL's interest expense would increase and net income would decrease by $.7 million. This amount is determined by considering the impact of hypothetical interest rates on ARL's borrowing cost. The analysis does not consider the effects of the reduced level of overall economic activity that could exist in such an environment. Further, in the event of a change of such magnitude, management would likely take actions to further mitigate its exposure to the change. However, due to the uncertainty of the specific actions that would be taken and their possible effects, the sensitivity analysis assumes no change in ARL's financial structure.

The following table contains only those exposures that existed at December 31, 2014. Anticipation of exposures of risk on positions that could possibly arise was not considered. ARL's ultimate interest rate risk and its effect on operations will depend on future capital market exposures, which cannot be anticipated with a probable assurance level (dollars are in thousands):

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors of and
Stockholders of American Realty Investors, Inc.
Dallas, Texas

We have audited the accompanying consolidated balance sheets of American Realty Investors, Inc. and Subsidiaries as of December 31, 2014 and 2013, and the related consolidated statements of operations, comprehensive income, stockholders' equity, and cash flows for each of the years in the three-year period ended December 31, 2014. American Realty Investors, Inc.'s management is responsible for these consolidated financial statements. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the consolidated financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall consolidated financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

As described in Note 16, American Realty Investors, Inc.'s management intends to sell land and income producing properties and refinance or extend debt secured by real estate to meet the Company's liquidity needs.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of American Realty Investors, Inc. as of December 31, 2014 and 2013, and the results of its operations and its cash flows for each of the years in the three-year period ended December 31, 2014, in conformity with accounting principles generally accepted in the United States of America.

Our audits were made for the purpose of forming an opinion on the consolidated financial statements taken as a whole. Schedules III and IV are presented for the purpose of complying with the Securities and Exchange Commission's rules and are not a required part of the basic consolidated financial statements. These schedules have been subjected to the auditing procedures applied in the audits of the consolidated financial statements and, in our opinion, fairly state, in all material respects, the financial data required to be set forth therein in relation to the basic consolidated financial statements taken as a whole.

AMERICAN REALTY INVESTORS, INC.

NOTES TO FINANCIAL STATEMENTS

The accompanying Consolidated Financial Statements of American Realty Investors, Inc. ("ARL") and consolidated entities have been prepared in conformity with accounting principles generally accepted in the United States of America, the most significant of which are described in Note 1. "Organization and Summary of Significant Accounting Policies." The Notes to Consolidated Financial Statements are an integral part of the Consolidated Financial Statements. The data presented in the Notes to Consolidated Financial Statements are as of December 31 of each year and for the year then ended, unless otherwise indicated. Dollar amounts in tables are in thousands, except per share amounts.

Certain balances for 2012 and 2013 have been reclassified to conform to the 2014 presentation.

NOTE 1. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

FASB Accounting Standards Codification. The Company presents its financial statements in accordance with generally accepted accounting principles in the United States ("GAAP"). In June 2009, the Financial Accounting Standards Board ("FASB") completed its accounting guidance codification project. The FASB Accounting Standards Codification ("ASC") became effective for the Company's financial statements issued subsequent to June 30, 2009 and is the single source of authoritative accounting principles recognized by the FASB to be applied by nongovernmental entities in the preparation of financial statements in conformity with GAAP. As of the effective date, the company refers to the ASC Codification as the sole source of authoritative literature.

Organization and business. ARL was organized in 1999. In August 2000, the Company acquired American Realty Trust, Inc., ("ART"), a Georgia corporation, and National Realty L.P. ("NRLP"), a Delaware limited partnership. ART was the successor to a District of Columbia business trust organized in 1961. The business trust was merged into ART in 1988. NRLP was organized in 1987 and subsequently acquired all of the assets and assumed all of the liabilities of several public and private limited partnerships. NRLP also owned a portfolio of real estate and mortgage loan investments. ARL is a "C" corporation for U.S. federal income tax purposes.

The Company is headquartered in Dallas, Texas and its common stock trades on the New York Stock Exchange ("NYSE") under the symbol ("ARL"). Approximately 86.7% of ARL's stock is owned by related party entities. ARL subsidiaries own approximately 80.9% of the outstanding shares of common stock of Transcontinental Realty Investors, Inc. ("TCI"), a Nevada corporation, whose common stock is traded on the NYSE under the symbol ("TCI"). ARL has consolidated TCI's accounts and operations since March 2003.

TCI, a subsidiary of ARL, owns approximately 81.1% of the common stock of Income Opportunity Realty Investors, Inc. ("IOT"). Effective July 17, 2009, IOT's financial results were consolidated with those of ARL and TCI and their subsidiaries. IOT's common stock is traded on the New York Stock Exchange Euronext ("NYSE MKT") under the symbol ("IOT").

ARL's Board of Directors is responsible for directing the overall affairs of ARL and for setting the strategic policies that guide the Company. As of April 30, 2011, the Board of Directors delegated the day-to-day management of the Company to Pillar Income Asset Management, Inc. ("Pillar"), a Nevada corporation, under a written Advisory Agreement that is reviewed annually by ARL's Board of Directors. The directors of ARL are also directors of TCI and IOT. The Chairman of the Board of Directors of ARL also serves as the Chairman of the Board of Directors of TCI and IOT. The officers of ARL also serve as officers of TCI, IOT and Pillar.

Effective since April 30, 2011, Pillar, the sole shareholder of which is Realty Advisors, LLC, a Nevada limited liability company, the sole member of which is Realty Advisors, Inc. (“RAI”), a Nevada corporation, the sole shareholder of which is May Realty Holdings, Inc. (“MRHI”, formerly known as Realty Advisors Management, Inc. “RAMI”, effective August 7, 2014), a Nevada corporation, the sole shareholder of which is a trust known as the May Trust, became the Company’s external Advisor and Cash Manager. Pillar’s duties include, but are not limited to, locating, evaluating and recommending real estate and real estate-related investment opportunities. Pillar also arranges, for the Company’s benefit, debt and equity financing with third party lenders and investors. Pillar also serves as an Advisor and Cash Manager to TCI and IOT. As the contractual advisor, Pillar is compensated by ARL under an Advisory Agreement that is more fully described in Part III, Item 10. “Directors, Executive Officers and Corporate Governance – The Advisor”. ARL has no employees. Employees of Pillar render services to ARL in accordance with the terms of the Advisory Agreement.

Effective since January 1, 2011, Regis Realty Prime, LLC, dba Regis Property Management, LLC (“Regis”), the sole member of which is Realty Advisors, LLC, manages our commercial and hotel properties, and provides brokerage services. Regis receives property management fees and leasing commissions in accordance with the terms of its property-level management agreement. Regis is also entitled to receive real estate brokerage commissions in accordance with the terms of a non-exclusive brokerage agreement. See Part III, Item 10. “Directors, Executive Officers and Corporate Governance – Property Management and Real Estate Brokerage”. ARL engages third-party companies to lease and manage its apartment properties.

On January 1, 2012, the Company's subsidiary, TCI, entered into a development agreement with Unified Housing Foundation, Inc. ("UHF") a non-profit corporation that provides management services for the development of residential apartment projects in the future. This development agreement was terminated December 31, 2013. The Company has also invested in surplus cash notes receivables from UHF and has sold several residential apartment properties to UHF in prior years. Due to this ongoing relationship and the significant investment in the performance of the collateral secured under the notes receivable, UHF has been determined to be a related party.

Our primary business is the acquisition, development and ownership of income-producing residential and commercial real estate properties. In addition, we opportunistically acquire land for future development in in-fill or high-growth suburban markets. From time to time and when we believe it appropriate to do so, we will also sell land and income-producing properties. We generate revenues by leasing apartment units to residents, and leasing office, industrial and retail space to various for-profit businesses as well as certain local, state and federal agencies, and renting hotel rooms to guests. We also generate revenues from gains on sales of income-producing properties and land. At December 31, 2014, we owned 38 residential apartment communities comprising of 6,344 units, nine commercial properties comprising an aggregate of approximately 2.1 million square feet, and an investment in 4,234 acres of undeveloped and partially developed land.

Basis of presentation. The accompanying Consolidated Financial Statements include our accounts, our subsidiaries, generally all of which are wholly-owned, and all entities in which we have a controlling interest. Arrangements that are not controlled through voting or similar rights are accounted for as a Variable Interest Entity (VIE), in accordance with the provisions and guidance of ASC Topic 810 "Consolidation", whereby we have determined that we are a primary beneficiary of the VIE and meet certain criteria of a sole general partner or managing member as identified in accordance with Emerging Issues Task Force ("EITF") Issue 04-5, Investor's Accounting for an Investment in a Limited Partnership when the Investor is the Sole General Partner and the Limited Partners have Certain Rights ("EITF 04-5"). VIEs are generally entities that lack sufficient equity to finance their activities without additional financial support from other parties or whose equity holders as a group lack adequate decision making ability, the obligation to absorb expected losses or residual returns of the entity, or have voting rights that are not proportional to their economic interests. The primary beneficiary generally is the entity that provides financial support and bears a majority of the financial risks, authorizes certain capital transactions, or makes operating decisions that materially affect the entity's financial results. All significant intercompany balances and transactions have been eliminated in consolidation.

In determining whether we are the primary beneficiary of a VIE, we consider qualitative and quantitative factors, including, but not limited to: the amount and characteristics of our investment; the obligation or likelihood for us or other investors to provide financial support; our and the other investors' ability to control or significantly influence key decisions for the VIE; and the similarity with and significance to the business activities of us and the other investors. Significant judgments related to these determinations include estimates about the current future fair values and performance of real estate held by these VIEs and general market conditions.

For entities in which we have less than a controlling financial interest or entities where it is not deemed to be the primary beneficiary, the entities are accounted for using the equity method of accounting. Accordingly, our share of the net earnings or losses of these entities is included in consolidated net income. Our investment in Gruppa Florentina, LLC is accounted for under the equity method. Our investments in LK-Four Hickory, LLC was accounted for under the equity method until January 17, 2012, when the investment was sold.

The Company in accordance with the VIE guidance in ASC 810 "Consolidations" consolidates 36 and 34 multifamily residential properties located throughout the United States at December 31, 2014 and 2013, respectively, ranging from 32 units to 332 units. Assets totaling $363.5 million and $345.0 million at December 31, 2014 and 2013, respectively, are consolidated and included in "Real estate, at cost" on the balance sheet and are all collateral for their respective mortgage notes payable, none of which are recourse to the partnership in which they are in or to the

Company. Assets totaling $0.0 and $16.4 million at December 31, 2014 and 2013, respectively, are consolidated and included in "Real estate held for sale at cost" on the balance sheet and are all collateral for their respective mortgage notes payable, none of which are recourse to the partnership in which they are in or to the Company.

Real estate, depreciation, and impairment. Real estate assets are stated at the lower of depreciated cost or fair value, if deemed impaired. Major replacements and betterments are capitalized and depreciated over their estimated useful lives. Depreciation is computed on a straight-line basis over the useful lives of the properties (buildings and improvements—10-40 years; furniture, fixtures and equipment—5-10 years). We continually evaluate the recoverability of the carrying value of its real estate assets using the methodology prescribed in ASC Topic 360, "Property, Plant and Equipment," Factors considered by management in evaluating impairment of its existing real estate assets held for investment include significant declines in property operating profits, annually recurring property operating losses and other significant adverse changes in general market conditions that are considered permanent in nature. Under ASC Topic 360, a real estate asset held for investment is not considered impaired if the undiscounted, estimated future cash flows of an asset (both the annual estimated cash flow from future operations and the estimated cash flow from the theoretical sale of the asset) over its estimated holding period are in excess of the asset's net book value at the balance sheet date. If any real estate asset held for investment is considered impaired, a loss is provided to reduce the carrying value of the asset to its estimated fair value.

Any properties that are treated as "subject to sales contract" on the Consolidated Balance Sheets and are listed in detail in Schedule III, "Real Estate and Accumulated Depreciation" are those in which we have not recognized the legal sale according to the guidance in ASC 360-20 due to various factors, disclosed in each sale transaction under Item 1 Significant Real Estate Acquisitions/Dispositions and Financing. Any sale transaction where the guidance reflects that a sale had not occurred, the asset involved in the transaction, including the debt and property operations, remained on the books of the Company. We continue to charge depreciation to expense as a period costs for the property until such time as the property has been classified as held for sale in accordance with guidance reflected in ASC 360-10-45 "Impairment or Disposal of Long-Lived Assets".

Real estate held for sale. We periodically classify real estate assets as held for sale. An asset is classified as held for sale after the approval of the Company's board of directors and after an active program to sell the asset has commenced. Upon the classification of a real estate asset as held for sale, the carrying value of the asset is reduced to the lower of its net book value or its estimated fair value, less costs to sell the asset. Subsequent to the classification of assets as held for sale, no further depreciation expense is recorded. Real estate assets held for sale are stated separately on the accompanying consolidated balance sheets. Upon a decision to no longer market as an asset for sale, the asset is classified as an operating asset and depreciation expense is reinstated. The operating results of real estate assets held for sale and sold are reported as discontinued operations in the accompanying statements of operations. Income from discontinued operations includes the revenues and expenses, including depreciation and interest expense, associated with the assets. This classification of operating results as discontinued operations applies retroactively for all periods presented. Additionally, gains and losses on assets designated as held for sale are classified as part of discontinued operations.

Cost capitalization. The cost of buildings and improvements includes the purchase price of property, legal fees and other acquisition costs. Costs directly related to planning, developing, initial leasing and constructing a property are capitalized and classified as Real Estate in the Consolidated Balance Sheets. Capitalized development costs include interest, property taxes, insurance, and other direct project costs incurred during the period of development.

A variety of costs are incurred in the acquisition, development and leasing of properties. After determination is made to capitalize a cost, it is allocated to the specific component of a project that is benefited. Determination of when a development project is substantially complete and capitalization must cease involves a degree of judgment. Our capitalization policy on development properties is guided by ASC Topic 835-20 "Interest – Capitalization of Interest" and ASC Topic 970 "Real Estate - General". The costs of land and buildings under development include specifically identifiable costs. The capitalized costs include pre-construction costs essential to the development of the property, development costs, construction costs, interest costs, real estate taxes, salaries and related costs and other costs incurred during the period of development. We consider a construction project as substantially completed and held available for occupancy upon the receipt of certificates of occupancy, but no later than one year from cessation of major construction activity. We cease capitalization on the portion (1) substantially completed and (2) occupied or held available for occupancy, and we capitalize only those costs associated with the portion under construction.

We capitalize leasing costs which include commissions paid to outside brokers, legal costs incurred to negotiate and document a lease agreement and any internal costs that may be applicable. We allocate these costs to individual tenant leases and amortize them over the related lease term.

Fair value measurement. We apply the guidance in ASC Topic 820, "Fair Value Measurements and Disclosures," to the valuation of real estate assets. These provisions define fair value as the price that would be received to sell an asset or paid to transfer a liability in a transaction between market participants at the measurement date, establish a hierarchy that prioritizes the information used in developing fair value estimates and require disclosure of fair value measurements by level within the fair value hierarchy. The hierarchy gives the highest priority to quoted prices in active markets (Level 1 measurements) and the lowest priority to unobservable data (Level 3 measurements), such as

the reporting entity's own data.

The valuation hierarchy is based upon the transparency of inputs to the valuation of an asset or liability as of the measurement date and includes three levels defined as follows:

Level 1	—Unadjusted quoted prices for identical and unrestricted assets or liabilities in active markets.
Level 2	—Quoted prices for similar assets and liabilities in active markets, and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.
Level 3	—Unobservable inputs that are significant to the fair value measurement.

A financial instrument's categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

Related parties. We apply ASC Topic 805, "Business Combinations", to evaluate business relationships. Related parties are persons or entities who have one or more of the following characteristics, which include entities for which investments in their equity securities would be required, trust for the benefit of persons including principal owners of the entities and members of their immediate families, management personnel of the entity and members of their immediate families and other parties with which the entity may deal if one party controls or can significantly influence the decision making of the other to an extent that one of the transacting parties might be prevented from fully pursuing its own separate interests, or affiliates of the entity.

Recognition of revenue. Our revenues, which are composed largely of rental income, include rents reported on a straight-line basis over the lease term. In accordance with ASC 805 "Business Combinations", we recognize rental revenue of acquired in-place "above-" and "below-market" leases at their fair values over the terms of the respective leases.

Reimbursements of operating costs, as allowed under most of our commercial tenant leases, consist of amounts due from tenants for common area maintenance, real estate taxes and other recoverable costs, and are recognized as revenue in the period in which the recoverable expenses are incurred. We record these reimbursements on a "gross" basis, since we generally are the primary obligor with respect to purchasing goods and services from third-party suppliers, have discretion in selecting the supplier and have the credit risk with respect to paying the supplier.

Rental income for residential property leases is recorded when due from residents and is recognized monthly as earned, which is not materially different than on a straight-line basis as lease terms are generally for periods of one year or less. For hotel properties, revenues for room sales and guest services are recognized as rooms are occupied and services are rendered. An allowance for doubtful accounts is recorded for all past due rents and operating expense reimbursements considered to be uncollectible.

Sales and the associated gains or losses of real estate assets are recognized in accordance with the provisions of ASC Topic 360-20, "Property, Plant and Equipment – Real Estate Sale". The specific timing of a sale is measured against various criteria in ASC 360-20 related to the terms of the transaction and any continuing involvement in the form of management or financial assistance associated with the properties. If the sales criteria for the full accrual method are not met, the Company defers some or all of the gain recognition and accounts for the continued operations of the property by applying the finance, leasing, deposit, installment or cost recovery methods, as appropriate, until the sales criteria are met.

Foreign currency translation. Foreign currency denominated assets and liabilities of subsidiaries with local functional currencies are translated to United States dollars at year-end exchange rates. The effects of translation are recorded in the cumulative translation component of shareholders' equity. Subsidiaries with a United States dollar functional currency re-measure monetary assets and liabilities at year-end exchange rates and non-monetary assets and liabilities at historical exchange rates. The effects of re-measurement are included in income. Exchange gains and losses arising from transactions denominated in foreign currencies are translated at average exchange rates.

Non-performing notes receivable. ARL considers a note receivable to be non-performing when the maturity date has passed without principal repayment and the borrower is not making interest payments in accordance with the terms of the agreement.

Interest recognition on notes receivable. We record interest income as earned in accordance with the terms of the related loan agreements.

Allowance for estimated losses.   We assess the collectability of notes receivable on a periodic basis, of which the assessment consists primarily of an evaluation of cash flow projections of the borrower to determine whether estimated cash flows are sufficient to repay principal and interest in accordance with the contractual terms of the note. We recognize impairments on notes receivable when it is probable that principal and interest will not be received in accordance with the contractual terms of the loan. The amount of the impairment to be recognized generally is based on the fair value of the partnership's real estate that represents the primary source of loan repayment. See Note 3 "Notes and Interest Receivable" for details on our notes receivable.

Cash equivalents.   For purposes of the Consolidated Statements of Cash Flows, all highly liquid investments purchased with an original maturity of three months or less are considered to be cash equivalents. Restricted cash consists of cash reserved primarily for specific uses such as insurance, property taxes and replacement reserves.

Concentration of credit risk. The Company maintains its cash balances at commercial banks and through investment companies, the deposits of which are insured by the Federal Deposit Insurance Corporation (FDIC). At December 31, 2014 and 2013, the Company maintained balances in excess of the insured amount.

Earnings per share.   Income (loss) per share is presented in accordance with ASC 620 "Earnings per Share". Income (loss) per share is computed based upon the weighted average number of shares of common stock outstanding during each year.

Use of estimates. In the preparation of Consolidated Financial Statements in conformity with GAAP, it is necessary for management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the Consolidated Financial Statements and the reported amounts of revenues and expense for the year ended. Actual results could differ from those estimates.

Income taxes. The Company is a "C" corporation for U.S. federal income tax purposes. For tax periods ending before August 31, 2012, the Company filed an annual consolidated income tax return with TCI and IOT and their subsidiaries. ARL was the common parent for the consolidated group. After that date, the Company and the rest of the ARL group joined the MRHI consolidated group for tax purposes. The income tax expense (benefit) for the 2012 tax period in the accompanying financial statement was calculated under a tax sharing and compensating agreement between ARL, TCI and IOT. That agreement continued until August 31, 2012, at which time a new tax sharing and compensating agreement was entered into by ARL, TCI, IOT and MRHI for the remainder of 2012 and subsequent years. The agreement specifies the manner in which the group will share the consolidated tax liability and also how certain tax attributes are to be treated among members of the group.

Recent accounting pronouncements. There were no recent accounting pronouncements that our company has not implemented that materially affect our financial statements.

NOTE 2. REAL ESTATE

A summary of our real estate owned as of the end of the year is listed below (dollars in thousands):

	2014	2013
Apartments	$ 455,602	$ 436,109
Apartments under construction	1,512	-
Commercial properties	193,197	214,486
Land held for development	159,903	149,103
Real estate held for sale	-	18,817
Real estate subject to sales contract	21,326	29,547
Total real estate, at cost, less impairment	831,540	848,062
Less accumulated deprecation	(131,777)	(147,768)
Total real estate, net of depreciation	$ 699,763	$ 700,294

Expenditures for repairs and maintenance are charged to operations as incurred. Significant betterments are capitalized. When assets are sold or retired, their costs and related accumulated depreciation are removed from the accounts with the resulting gains or losses reflected in net income or loss for the period.

Depreciation is computed on a straight line basis over the estimated useful lives of the assets as follows:

Land improvements	25 to 40 years
Buildings and improvements	10 to 40 years
Tenant improvements	Shorter of useful life or terms of related lease
Furniture, fixtures and equipment	3 to 7 years

Provision for Impairment Losses

There was no provision for impairment of notes receivable, investment in real estate partnerships, and real estate assets for the year ended December 31, 2014.

In the prior year impairment was recorded as an additional loss in the commercial portfolio of $9.6 million, the land portfolio of $1.6 million and the remaining $7.8 million was related to provisions for losses taken on our notes receivable. A recent appraisal done during the refinance of an office building in Dallas, Texas resulted in a fair value lower than book basis. The impairment in our land portfolio was due to a potential sale of land at a value lower than book basis as well as disposal of another property due to bankruptcy.

Fair Value Measurement

The Company applies the guidance in ASC Topic 820, "Fair Value Measurements and Disclosures," to the valuation of real estate assets. The Company is required to assess the fair value of its consolidated real estate assets with indicators of impairment. The value of impaired real estate assets is determined using widely accepted valuation techniques, including discounted cash flow analyses on the expected cash flow of each asset, as well as the income capitalization approach, which considers prevailing market capitalization rates, analyses of recent comparable sales transactions, information from actual sales negotiations and bona fide purchase offers received from third parties. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Company believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurements used in these evaluations are considered to be Level 2 and 3 valuations within the fair value hierarchy in the accounting rules, as there are significant observable (Level 2) and unobservable inputs (Level 3). Examples of Level 2 inputs the Company utilizes in its fair value calculations are appraisals and bona fide purchase offers from third parties. Examples of Level 3 inputs the Company utilizes in its fair value calculations are discount rates, market capitalization rates, expected lease rental rates, timing of new leases, an estimate of future sales prices and comparable sales prices of similar assets, if available. All of the impairment charges outlined above were recorded in the statements of operations, either in continuing operations or discontinued operations. There was no provision for impairment for the year ended December 31, 2014.

		Fair Value Measurements Using (dollars in thousands):		
December 31, 2013	Fair Value	Level 1	Level 2	Level 3
Land	$ 4,899	$ ---	$ 4,899	$ ---
Commercial	$ 26,194	$ ---	$ 26,194	$ ---

Land with a carrying amount of $6,529,768 was written down to its fair value of $4,899,468 resulting in an impairment charge of $1,630,300 in 2013. Level 2 inputs used to determine the fair values above included third party appraisals and the method taking the debt balance on the collateralized acres plus the book value of the uncollateralized acres.

A commercial building with a carrying amount of $35,794,331 was written down to its fair value of $26,194,331 resulting in an impairment charge of $9,600,000 in 2013. The Level 2 input used to determine the fair value above was a third party appraisal.

		Fair Value Measurements Using (dollars in thousands):		
December 31, 2012	Fair Value	Level 1	Level 2	Level 3
Land	$ 2,699	$ ---	$ 1,800	$ 899
Commercial	$ 9,660	$ ---	$ 9,660	$ ---

Land with a carrying amount of $5,029,254 was written down to its fair value of $2,699,175 resulting in an impairment charge of $2,330,079 in 2012. Level 2 inputs used to determine the fair values above include bona fide purchase offers and third party appraisals. The Level 3 inputs used to determine the fair values above include comparable sales prices of similar assets.

A commercial building with a carrying amount of $12,060,247 was written down to its fair value of $9,660,247 resulting in an impairment charge of $2,400,000 in 2012. The method used to determine the fair value was agreement with lender as to value based on their evaluation of the property.

The following is a brief description of the more significant property acquisitions and sales in 2014:

On February 6, 2014, TCI sold a 232-unit apartment complex known as Pecan Pointe, located in Temple, Texas, to an independent third party, for a sales price of $23.1 million. The buyer assumed the existing debt of $16.5 million secured by the property. A gain of $6.1 million was recorded on the sale.

On March 13, 2014, 6.6 acres of land known as Three Hickory located in Farmers Branch, Texas was transferred back to TCI as a result of the settlement agreement with the lender. On the same day TCI sold the land to IOT for $1.2 million which resulted in a gain of $1.2 million.

On March 26, 2014, TCI sold 6.314 acres of land known as McKinney Ranch land, located in McKinney, Texas, to an independent third party, for a sales price of $1.7 million. TCI paid $1.5 million on the existing mortgage to satisfy a portion of the multi-tract collateral debt of $6.6 million, secured by various land parcels located in McKinney, Texas. A gain of $0.8 million was recorded on the sale.

On March 31, 2014, the Company purchased 16.87 acres of land known as Valwood Acres, located in Farmers Branch, Texas, from an independent third party, for a purchase price of $3.2 million.

On April 3, 2014, TCI sold a 512,593 square foot commercial building known as 1010 Common, located in New Orleans, Louisiana, to an independent third party, for a sales price of $16.6 million. A gain of $7.0 million was recorded on the sale.

On July 25, 2014, TCI sold 24.498 acres of land known as Stanley Tools and Kelly Lots, located in Farmers Branch, Texas, to an independent third party, for a sales price of $4.3 million. TCI paid off the existing mortgage of $1.7 million in addition to making a $0.2 million payment on an existing mortgage related to another parcel of land located in Gulfport, Mississippi. A nominal gain was recorded on the sale.

On August 12, 2014, TCI sold a 20,715 square foot commercial building known as Sesame Square, located in Anchorage, Alaska, to an independent party, for a sales price of $2.6 million. TCI paid off the existing mortgage of $0.8 million. A gain of $1.8 million was recorded on the sale.

On September 19, 2014, TCI acquired 100% ownership of Summer Breeze I-V, LLC, from an independent third party, which resulted in the acquisition of Sunset Lodge, a 216-unit complex located in Odessa, Texas. We exchanged the existing note receivable and all accrued interest in the amount of $3.5 million for the ownership interest.

On September 23, 2014, TCI sold a 106-unit complex known as Bridgewood Ranch, located in Kaufman, Texas, to an independent third party, for a sales price of $8.0 million. TCI paid off the existing mortgage of $4.5 million and the buyer obtained a new mortgage of $6.6 million. TCI did not recognize or record the sale in accordance with ASC 360-20 due to our continuing involvement as a result of having the option to repurchase the sold property at a later date. The exercise of the option is subject to the approval of the U.S. Department of Housing and Urban Development. TCI determined a sale had not occurred for financial reporting purposes and therefore the asset remains on their books.

On November 3, 2014, TCI sold a 290-unit apartment complex known as Blue Ridge, located in Midland, Texas, to an independent third party, for a sales price of $52.8 million. We paid off the existing mortgage of $23.7 million. A gain of $26.7 million was recorded on the sale.

On November 6, 2014, TCI acquired 100% ownership of Dun-Run Golf, Dun-Run Development, and Dun-Run Restaurants, all limited liability companies, which resulted in the acquisition of Mahogany Run Golf Course for a purchase price of $13.3 million. TCI took out a note as seller financing to aid in the purchase in the amount of $6.6 million. The note accrues at 8% with interest only payments due through the maturity date of November 6, 2015. An option to renew for one more year can be exercised if a $1.0 million principal payment is made before maturity.

On November 13, 2014, TCI sold a 216-unit complex known as Sunset Lodge, as well as 5.98 acres of land, both located in Odessa, Texas, to an independent third party, for a combined sales price of $40.6 million. The buyer assumed the existing debt of $19.0 million secured by the property. A gain of $20.7 million was recorded on the sale.

On December 1, 2014, TCI acquired a 208-unit complex known as Legacy at Pleasant Grove, located in Texarkana, Texas, from a third party. We exchanged the existing receivable and all accrued interest in the amount of $5.0 million

for the complex.

On December 1, 2014, TCI acquired a 148-unit complex known as Villas at Park West I, located in Pueblo, Colorado, from a third party. We exchanged the existing receivable and all accrued interest in the amount of $1.3 million for the complex.

On December 1, 2014, TCI acquired a 112-unit complex known as Villas at Park West II, located in Pueblo, Colorado, from a third party. We exchanged the existing receivable and all accrued interest in the amount of $5.1 million for the complex.

On December 30, 2014, TCI acquired 8.387 acres of land known as Bonneau Land, located in Farmers Branch, Texas, from a third party, for a purchase price of $1.2 million.

On December 30, 2014, TCI sold 2.606 acres of land known as Carr (Luna) Land, located in Farmers Branch, Texas, to a third party, for a sales price of $0.3 million. A loss of $0.4 million was recorded on the sale.

On December 2010, various commercial and land holdings were sold to FRE Real Estate, Inc., a related party. During the first three months of 2011, many of these transactions were rescinded as of the original transaction date and were subsequently sold to related parties under the same ownership as FRE Real Estate, Inc. As of December 31, 2014, one commercial building, Thermalloy, remains in FRE Real Estate, Inc. TCI did not recognize or record the sale in accordance with ASC 360-20 due to TCI's continuing involvement, which included the potential payment of cash shortfalls, future obligations under the existing mortgage and guaranty, the buyer's inadequate initial investment and TCI's questionable recovery of investment cost. TCI determined that no sale had occurred for financial reporting purposes and therefore the asset remained on the books and continued to record operating expenses and depreciation as a period cost until a sale occurred that met the requirements of ASC 360-20.

As of December 31, 2014, there remain one apartment complex, one commercial building and 110 acres of land that TCI has sold to a related party and have deferred the recognition of the sale. These are treated as "subject to sales contract" on the Consolidated Balance Sheets. These properties were sold to a related party in order to help facilitate an appropriate debt or organizational restructure and may or may not be transferred back to the seller upon resolution. These properties have mortgages that are secured by the property and many have corporate guarantees. According to the loan documents, the maker is currently in default on these mortgages primarily due to lack of payment and is actively involved in discussions with every lender in order to settle or cure the default situation. TCI has reviewed each asset and taken impairment to the extent TCI feels the value of the property was less than its current basis. TCI did not recognize or record the sale in accordance with ASC 360-20 due to its continuing involvement, which included the potential payment of cash shortfalls, future obligations under the existing mortgage and guaranty, the buyer's inadequate initial investment and TCI's questionable recovery of investment cost. TCI determined that no sale had occurred for financial reporting purposes and therefore the asset remained on the books and continued to record operating expenses and depreciation as a period cost until a sale occurred that met the requirements of ASC 360-20. The buyers received no compensation for the facilitation of the bankruptcy or debt restructuring process.

Sales to our subsidiary, TCI, have been reflected, in prior years, at the fair value sale price. Upon discussion with the SEC and in review of the guidance pursuant to ASC 250-10-45-22 to 24, we have adjusted those assets, in the prior year, to reflect a basis equal to ARL's cost basis in the asset at the time of the sale. The related party payables from TCI were reduced for the lower asset price. The Company reflected the original cost basis in consolidation, therefore no change in the financial statements was necessary to reflect this change.

NOTE 3. NOTES AND INTEREST RECEIVABLE

A portion of our assets are invested in mortgage notes receivable, principally secured by real estate. We may originate mortgage loans in conjunction with providing purchase money financing of property sales. Notes receivable are generally collateralized by real estate or interests in real estate and personal guarantees of the borrower and, unless noted otherwise, are so secured. Management intends to service and hold for investment the mortgage notes in our portfolio. A majority of the notes receivable provide for principal to be paid at maturity. Our mortgage notes receivable consist of first, wraparound and junior mortgage loans (dollars in thousands).

52

Junior Mortgage Loans. We may invest in junior mortgage loans, secured by mortgages that are subordinate to one or more prior liens either on the fee or a leasehold interest in real estate. Recourse on such loans ordinarily includes the real estate on which the loan is made, other collateral and personal guarantees by the borrower. At December 31, 2014, 14.9% of our assets were invested in junior and wraparound mortgage loans.

As of December 31, 2014, the obligors on $131.2 million or 91.2% of the mortgage notes receivable portfolio were due from related parties. The Company recognized $14.3 million of interest income from these related party notes receivables.

As of December 31, 2014, $3.1 million or 2.1% of the mortgage notes receivable portfolio were non-performing.

The Company has various notes receivable from Unified Housing foundation, Inc. ("UHF"). UHF is determined to be a related party due to our significant investment in the performance of the collateral secured under the notes receivable. Payments are due from surplus cash flow from operations, sale or refinancing of the underlying properties. These notes are cross collateralized to the extent that any surplus cash available from any of the properties underlying these notes will be used to repay outstanding interest and principal for the remaining notes. Furthermore, any surplus cash available from any of the properties UHF owns, besides the properties underlying these notes, can be used to repay outstanding interest and principal for these notes. The allowance on the notes was a purchase allowance that was netted against the notes when acquired.

In 2010, the Company agreed to reduce the interest rate from 12% to 5.25% for a five year period on the surplus cash flow notes receivable from UHF. As of January 1, 2013, the Company agreed to extend the maturity on these surplus cash flow notes receivable for an additional term of five years in exchange for the early termination of the reduced interest rate.

NOTE 4. ALLOWANCE FOR ESTIMATED LOSSES

The allowance account for receivables was reviewed and decreased in 2014. The decrease was due to a note that was paid off, and a note that was written off, both of which were fully reserved. The decrease in 2013 was due to an allowance amount on a fully reserved note that was adjusted by the amount of a payment received. This decrease was offset by a reserve amount taken on a related party note receivable due to questionable recovery. The increase in 2012 was related to a reserve taken on a related party note receivable due to questionable recovery, reduced by the amounts of two notes that were written off in the current year, both of which were fully reserved. The table below shows our allowance for estimated losses (dollars in thousands):

	2014	2013	2012
Balance January 1,	$ 19,600	$ 21,704	$ 13,383
Increase (decrease) in provision	(1,321)	(2,104)	8,321
Balance December 31,	$ 18,279	$ 19,600	$ 21,704

NOTE 5. INVESTMENTS IN UNCONSOLIDATED SUBSIDIARIES AND INVESTEES

Investments in unconsolidated subsidiaries, jointly owned companies and other investees in which we have a 20% to 50% interest or otherwise exercise significant influence are carried at cost, adjusted for the Company's proportionate share of their undistributed earnings or losses, via the equity method of accounting.

Investments accounted for via the equity method consists of the following:

	Percentage ownership as of December 31,		
	2014	2013	2012
Gruppa Florentina, LLC(1)	20.00 %	20.00 %	20.00 %
LK-Four Hickory, LLC(2)	0.00 %	0.00 %	0.00 %

(1) Other investees.
(2) Other investees. ARL's 28.57% investment in LK-Four Hickory, LLC was sold on January 17, 2012.

The market values, other than unconsolidated subsidiaries, as of the year ended December 31, 2014, 2013 and 2012 were not determinable as there were no readily traded markets for these entities. The following is a summary of the financial position and results of operations from our unconsolidated subsidiaries and investees (dollars in thousands):

	For the Twelve Months Ended December 31,		
	2014	2013	2012
Other Investees			
Real estate, net of accumulated depreciation	$11,647	$10,823	$12,343
Notes receivable	7,326	6,526	6,192

Depreciation	(1,151)	(1,166)	(1,277)
Operating expenses	(45,590)	(42,330)	(41,188)
Interest expense	(901)	(1,022)	(1,181)
Income from continuing operations	$1,251	$1,758	$1,859
Income from discontinued operations	-	-	-
Net income	$1,251	$1,758	$1,859
Company's proportionate share of earnings (1)	$250	$352	$372

(1) Earnings represent continued and discontinued operations

NOTE 6. NOTES AND INTEREST PAYABLE

Below is a summary of our notes and interest payable as of December 31, 2014 (dollars in thousands):

	Notes Payable	Accrued Interest	Total Debt
Apartments	$420,083	$1,157	$421,240
Commercial	114,085	433	114,518
Land held for development	83,439	117	83,556
Real estate held for sale	452	-	452
Real estate subject to sales contract	16,961	1,655	18,616
Other	20,464	213	20,677
Total	$655,484	$3,575	$659,059

The following table schedules the principal payments on the notes payable for the next five years and thereafter (dollars in thousands):

Year	Amount
2015	$ 109,841
2016	79,994
2017	43,602
2018	8,661
2019	43,583
Thereafter	369,803
Total	$ 655,484

Interest payable at December 31, 2014, was $3.6 million. Interest accrues at rates ranging from 1.0% to 12.5% per annum, and mature between 2014 and 2053. The mortgages were collateralized by deeds of trust on real estate having a net carrying value of $684.8 million. Of the total notes payable, the senior debt is $586.9 million, junior debt is $60.2 million, and other debt is $8.4 million. Included in other debt are property tax loans of $0.3 million.

With respect to the additional notes payable due to the acquisition of properties or refinancing of existing mortgages, a summary of some of the more significant transactions is discussed below:

On February 10, 2014, a subsidiary of the Company paid off an existing margin loan and entered into a $4 million promissory note with a third party, secured by TCI stock. The note matures on February 10, 2016 and has an interest rate of 6%.

On February 12, 2014, TCI exercised the first prepayment option on the settlement relating to the Amoco Building and paid $1.2 million to settle all obligations. The remaining balance of the note in the amount of $3.5 million, along with accrued interest, was forgiven. The 135,000 shares of Series K Convertible Preferred Stock of ARL that was pledged to the lender has been released to TCI. The Series K preferred stock was cancelled May 7, 2014.

On February 14, 2014, the Company entered into a settlement and loan modification agreement with the lender regarding EQK Portage land. The new loan is for $1.6 million, matures on February 6, 2017, and has an interest rate of one-month LIBOR plus 5%. The Company paid $200,000 at close which was used to adjust the current outstanding loan balance to the newly stated loan balance and the remainder was used to pay down interest that had been accruing under the prior agreement. The rest of the unpaid interest that accrued under the prior agreement was waived. Per the agreement, the Company was also required to pay off the property tax note of $257,000.

On February 28, 2014, TCI refinanced the existing mortgage on Parc at Denham Springs apartments, a 224-unit complex located in Denham Springs, Louisiana, for a new mortgage of $19.2 million. TCI paid off the existing mortgage of $19.2 million and $1.6 million in closing costs. The note accrues interest at 3.75% and payments of interest and principal are due monthly, maturing April 1, 2051.

On March 25, 2014, TCI exercised its lender granted option under the settlement agreement relating to the Galleria East Center Retail / Showcase Chevrolet land which was transferred to the existing lender on February 4, 2011. TCI paid the balance of the notes along with all accrued and unpaid interest and received a reduction in price of $0.4 million.

On March 28, 2014, TCI secured financing of $40.0 million from an independent third party. The note has a term of five years at an interest rate of 12.0%. The note is interest only for the first year with quarterly principal payments due of $500,000 starting April 1, 2015. The loan is secured by various equity interests in residential apartments and

can be prepaid at a penalty rate of 4% for year 1 with the penalty declining by 1% each year thereafter.

On March 31, 2014, TCI entered into a settlement agreement relating to the Fenton Centre building which was transferred to the existing lender on June 7, 2011. The total amount of the settlement was $7.0 million, $5.0 million was paid at the time of the settlement and the remaining $2.0 million will be paid out in equal monthly installments through November 5, 2015.

On May 28, 2014, a $1.5 million principal payment was made to the existing Realty Advisors, Inc. mortgage and two additional land parcels, including 8.0 acres of Ladue land owned by TCI and 16.87 acres of Valwood land owned by ARL, were substituted as collateral under the note in exchange for a release of a $4 million deposit account. The principal balance is allocated based on the land valuation.

On July 31, 2014, TCI refinanced the existing mortgage on Desoto Ranch apartments, a 248-unit complex located in Desoto, Texas, for a new mortgage of $15.7 million. TCI paid off the existing mortgage of $15.7 million and $0.5 million in closing costs. The note accrues interest at 3.50% and payments of interest and principal are due monthly, maturing June 1, 2050.

On August 28, 2014, TCI refinanced the existing mortgage on Treehouse apartments, a 160-unit complex located in Irving, Texas, for a new mortgage of $5.8 million. TCI paid off the existing mortgage of $4.7 million and $1.1 million in closing costs and escrows. The note accrues interest at 3.55% and payments of interest and principal are due monthly, maturing September 1, 2044.

On September 23, 2014, TCI sold a 106-unit complex known as Bridgewood Ranch, located in Kaufman, Texas, to an independent third party, for a sales price of $8.0 million. TCI paid off the existing mortgage of $4.5 million and the buyer obtained a new mortgage of $6.6 million. TCI did not recognize or record the sale in accordance with ASC 360-20 due to our continuing involvement as a result of having the option to repurchase the sold property at a later date. The exercise of the option is subject to the approval of the U.S. Department of Housing and Urban Development. TCI determined a sale had not occurred for financial reporting purposes and therefore the asset remains on their books.

On October 17, 2014, the construction loan in the amount of $19.7 million that was taken out on July 1, 2012, to fund the development of Sunset Lodge apartments, a 216-unit complex located in Odessa, Texas, closed into permanent financing. The note accrues interest at 3.00% and payments of interest only are payable commencing August 1, 2012, through February 1, 2014, at which time principal and interest payments are due through the maturity date of February 1, 2054.

On December 12, 2014, TCI refinanced the existing mortgage on Stanford Center, a 333,381 square foot commercial building located in Dallas, Texas, for a new mortgage of $28.0 million. We paid off the existing mortgage of $21.3 million and $7.8 million in closing costs and escrows. The note accrues interest at a floating rate of 5.50% above the 30-day LIBOR index, with a floor of 5.75% and payments of interest only, maturing on January 5, 2017.

In conjunction with the development of various apartment projects and other developments, we drew down $3.0 million in construction loans during the twelve months ended December 31, 2014.

NOTE 7. RELATED PARTY TRANSACTIONS AND FEES

We apply ASC Topic 805, “Business Combinations”, to evaluate business relationships. Related parties are persons or entities who have one or more of the following characteristics, which include entities for which investments in their equity securities would be required, trust for the benefit of persons including principal owners of the entities and members of their immediate families, management personnel of the entity and members of their immediate families and other parties with which the entity may deal if one party controls or can significantly influence the decision making of the other to an extent that one of the transacting parties might be prevented from fully pursuing its own separate interests, or affiliates of the entity.

The Company has historically engaged in and may continue to engage in certain business transactions with related parties, including but not limited to asset acquisition and dispositions. Transactions involving related parties cannot be presumed to be carried out on an arm’s length basis due to the absence of free market forces that naturally exist in business dealings between two or more unrelated entities. Related party transactions may not always be favorable to our business and may include terms, conditions and agreements that are not necessarily beneficial to or in our best interest.

Effective since April 30, 2011, Pillar, the sole shareholder of which is Realty Advisors, LLC, a Nevada limited liability company, the sole member of which is RAI, a Nevada corporation, the sole shareholder of which is MRHI, a Nevada corporation, the sole shareholder of which is a trust known as the May Trust, became the Company's external Advisor and Cash Manager. Pillar's duties include, but are not limited to, locating, evaluating and recommending real estate and real estate-related investment opportunities. Pillar also arranges, for the Company's benefit, debt and equity financing with third party lenders and investors. Pillar also serves as an Advisor and Cash Manager to TCI and IOT. As the contractual advisor, Pillar is compensated by ARL under an Advisory Agreement that is more fully described in Part III, Item 10. "Directors, Executive Officers and Corporate Governance – The Advisor". ARL has no employees. Employees of Pillar render services to ARL in accordance with the terms of the Advisory Agreement.

Effective since January 1, 2011, Regis Realty Prime, LLC, dba Regis Property Management, LLC ("Regis"), the sole member of which is Realty Advisors, LLC, manages our commercial and hotel properties, and provides brokerage services. Regis receives property management fees and leasing commissions in accordance with the terms of its property-level management agreement. Regis is also entitled to receive real estate brokerage commissions in accordance with the terms of a non-exclusive brokerage agreement. See Part III, Item 10. "Directors, Executive Officers and Corporate Governance – Property Management and Real Estate Brokerage". Regis Hotel I, LLC, managed the Company's hotel investments. ARL engages third-party companies to lease and manage its apartment properties.

Below is a description of the related party transactions and fees between Pillar and Regis:

Fees, expenses, and revenue paid to and/or received from our advisor:

		2014	2013	2012
		(dollars in thousands)		
Fees:				
	Advisory	$ 8,943	$ 10,166	$ 10,182
	Construction advisory	-	-	181
	Mortgage brokerage and equity refinancing	1,152	1,878	1,881
	Net income	3,669	4,089	180
	Property acquisition and sales	177	-	20
		$ 13,941	$ 16,133	$ 12,444
Other Expense:				
	Cost reimbursements	$ 3,449	$ 3,466	$ 3,359
	Interest paid (received)	(1,043)	431	495
		$ 2,406	$ 3,897	$ 3,854
Revenue:				
	Rental	$ 701	$ 670	$ 587

Fees paid to Regis and related parties:

		2014	2013	2012
		(dollars in thousands)		
Fees:				
	Property acquisition	$ 348	$ -	$ 71
	Property management, construction manaement and leasing commissions	583	474	2,189
	Real estate brokerage	2,848	4,081	2,321
		$ 3,779	$ 4,555	$ 4,581

The Company received rental revenue of $0.7 million in 2013, $0.6 million in 2012, and $0.4 million in 2011 from Pillar and its related parties for properties owned by the Company.

As of December 31, 2014, the Company had notes and interest receivables, net of allowances, of $73.9 million and $5.8 million, respectively, due from UHF, a related party. See Part 2, Item 8. Note 3. “Notes and Interest Receivable”. During the current period, the Company recognized interest income of $13.0 million, originated $5.4 million, received principal payments of $21.9 million and received interest payments of $24.8 million from these related party notes receivables.

As of December 31, 2014, the Company had notes and interest receivables of $21.0 million and $1.0 million, respectively, due from FBH, a related party. See Part 2, Item 8. Note 3. “Notes and Interest Receivable”. During the current period, the Company recognized interest income of $1.0 million and originated $21.0 million from these related party notes receivables.

On January 1, 2012, the Company’s subsidiary, TCI, entered into a development agreement with UHF, a non-profit corporation that provides management services for the development of residential apartment projects in the future. This development agreement was terminated December 31, 2013. The Company has also invested in surplus cash notes receivables from UHF and has sold several residential apartment properties to UHF in prior years. Due to this ongoing relationship and the significant investment in the performance of the collateral secured under the notes

receivable, UHF has been determined to be a related party.

The Company is part of a tax sharing and compensating agreement with respect to federal income taxes between ARL, TCI and IOT and their subsidiaries that was entered into in July of 2009. That agreement continued until August 31, 2012, at which time a new tax sharing and compensating agreement was entered into by ARL, TCI, IOT and MRHI for the remainder of 2012 and subsequent years. The expense (benefit) in each year was calculated based on the amount of losses absorbed by taxable income multiplied by the maximum statutory tax rate of 35%.

The following table reconciles the beginning and ending balances of the related party payable due to Pillar as of December 31, 2014 (dollars in thousands):

	Pillar
Related party receivable, December 31, 2013	$ 14,086
Cash transfers	59,372
Advisory fees	(8,943)
Net income fee	(3,669)
Cost reimbursements	(3,449)
Interest income	1,043
Notes receivable purchased	(26,290)
Fees and commissions	(4,526)
Expenses paid by Advisor	(6,957)
Financing (mortgage payments)	(3)
Sales/purchases transactions	750
Tax sharing	-
Related party receivable, December 31, 2014	$ 21,414

Below are transactions that involve a related party:

In December 2010, various commercial and land holdings were sold to FRE Real Estate, Inc., a related party. During the first three months of 2011, many of these transactions were rescinded as of the original transaction date and were subsequently sold to related parties under the same ownership as FRE Real Estate, Inc. As of December 31, 2014, one commercial building, Thermalloy, remains in FRE Real Estate, Inc. The Company did not recognize or record the sale in accordance with ASC 360-20 due to TCI's continuing involvement, which included the potential payment of cash shortfalls, future obligations under the existing mortgage and guaranty, the buyer's inadequate initial investment and the Company's questionable recovery of investment cost. The Company determined that no sale had occurred for financial reporting purposes and therefore the asset remained on the books and continued to record operating expenses and depreciation as a period cost until a sale occurred that met the requirements of ASC 360-20.

As of December 31, 2014, there remain one apartment complex, one commercial building and 110 acres of land that TCI has sold to a related party and have deferred the recognition of the sale. These are treated as "subject to sales contract" on the Consolidated Balance Sheets. These properties were sold to a related party in order to help facilitate an appropriate debt or organizational restructure and may or may not be transferred back to the seller upon resolution. These properties have mortgages that are secured by the property and many have corporate guarantees. According to the loan documents, the maker is currently in default on these mortgages primarily due to lack of payment and is actively involved in discussions with every lender in order to settle or cure the default situation. We have reviewed each asset and taken impairment to the extent we feel the value of the property was less than our current basis. The Company did not recognize or record the sale in accordance with ASC 360-20 due to our continuing involvement, which included the potential payment of cash shortfalls, future obligations under the existing mortgage and guaranty, the buyer's inadequate initial investment and the Company's questionable recovery of investment cost. The Company determined that no sale had occurred for financial reporting purposes and therefore the asset remained on the books and continued to record operating expenses and depreciation as a period cost until a sale occurred that met the requirements of ASC 360-20. The buyers received no compensation for the facilitation of the bankruptcy or debt restructuring.

Sales to our subsidiary, TCI, have been reflected, in prior years, at the fair value sale price. Upon discussion with the SEC and in review of the guidance pursuant to ASC 250-10-45-22 to 24, we have adjusted those assets, in the prior year, to reflect a basis equal to ARL's cost basis in the asset at the time of the sale. The related party payables from

TCI were reduced for the lower asset price. The Company reflected the original cost basis in consolidation, therefore no change in the financial statements were necessary to reflect this change.

NOTE 8. DIVIDENDS

ARL's Board of Directors established a policy that dividend declarations on common stock would be determined on an annual basis following the end of each year. In accordance with that policy, no dividends on ARL's common stock were declared for 2014, 2013, or 2012. Future distributions to common stockholders will be determined by the Board of Directors in light of conditions then existing, including the Company's financial condition and requirements, future prospects, restrictions in financing agreements, business conditions and other factors deemed relevant by the Board.

NOTE 9. PREFERRED STOCK

There are 15,000,000 shares of Series A 10.0% Cumulative Convertible Preferred Stock authorized, with a par value of $2.00 per share and liquidation preference of $10.00 per share plus accrued and unpaid dividends. Dividends are payable at the annual rate of $1.00 per share or $.25 per share quarterly to stockholders of record on the last day of each March, June, September and December when and as declared by the Board of Directors. The Series A Preferred Stock may be converted into ARL common stock at 90.0% of the average daily closing price of ARL's common stock for the prior 20 trading days. At December 31, 2014, 2,461,252 shares of Series A Preferred Stock were outstanding. Of the outstanding shares, there were 300,000 shares owned by ART Edina, Inc., and 600,000 shares owned by ART Hotel Equities, Inc., a wholly owned subsidiary of ARL. As of May 30, 2014, these 900,000 shares were transferred to ARL. Dividends are not paid on the shares owned by ARL.

Prior to July 17, 2014, RAI owned 2,451,435 shares of the outstanding Series A convertible preferred stock. On July 17, 2014, RAI converted 890,797 shares, including $6.3 million in accumulated dividends unpaid for these shares, into the requisite number of shares of common stock. As of December 31, 2014, RAI owns 1,560,638 shares of the outstanding Series A convertible preferred stock and has accrued dividends of $9.6 million.

There are 91,000 shares of Series D 9.50% Cumulative Preferred Stock authorized, with a par value of $2.00 per share, and a liquidation preference of $20.00 per share. Dividends are payable at the annual rate of $1.90 per year or $.475 per quarter to stockholders of record on the last day of each March, June, September and December when and as declared by the Board of Directors. The Series D Preferred Stock is reserved for the conversion of the Class A limited partner units of Ocean Beach Partners, L.P. The Class A units may be exchanged for Series D Preferred Stock at the rate of 20 Class A units for each share of Series D Preferred Stock. Between June 1, 2001 and May 31, 2006, all unexchanged Class A units are exchangeable. At December 31, 2014, no shares of Series D Preferred Stock were outstanding.

There are 500,000 shares of Series E 6.0% Cumulative Preferred Stock authorized, with a par value $2.00 per share and a liquidation preference of $10.00 per share. Dividends are payable at the annual rate of $.60 per share or $.15 per quarter to stockholders of record on the last day of each March, June, September and December when and as declared by the Board of Directors. At December 31, 2014, no shares of Series E Preferred Stock were outstanding.

100,000 shares of Series J 8% Cumulative Convertible Preferred Stock have been designated pursuant to a Certificate of Designation filed March 16, 2006, as an instrument amendatory to ARL's Amended Articles of Incorporation, with a par value of $2.00 per share, and a liquidation preference of $1,000 per share. Dividends are payable at the annual rate of $80 per share, or $20 per quarter, to stockholders of record on the last day of each of March, June, September and December, when and as declared by the Board of Directors. Although the Series J 8% Cumulative Convertible Preferred Stock has been designated, no shares have been issued as of December 31, 2014.

The Company had 135,000 shares of Series K convertible preferred stock, which were held by TCI and used as collateral on a note. The note has been paid in full and the Series K preferred stock was cancelled May 7, 2014.

NOTE 10. STOCK OPTIONS

In January 1999, stockholders approved the Director's Stock Option Plan (the "Director's Plan") which provided for options to purchase up to 40,000 shares of common stock. In December 2005, the Director's Plan was terminated. Options granted pursuant to the Director's Plan were immediately exercisable and expire on the earlier of the first anniversary of the date on which a Director ceases to be a Director or ten years from the date of grant. Each Independent Director was granted an option to purchase 1,000 common shares. As of December 31, 2014, there were 1,000 shares of stock options outstanding which were exercisable at $9.70 per share. These options expired

unexercised January 1, 2015.

NOTE 11. INCOME TAXES

For tax periods ending before August 31, 2012, ARL was part of the ARL consolidated federal return. After that date, ARL and the rest of the ARL group joined the MRHI consolidated group for tax purposes. The income tax expense (benefit) for the first part of the 2012 tax period was calculated under a tax sharing and compensating agreement between ARL, TCI and IOT. That agreement continued until August 31, 2012 at which time a new tax sharing and compensating agreement was entered into by ARL, TCI, IOT and MRHI for the remainder of 2012 and subsequent periods. For 2012 and 2014, MRHI, ARL, TCI and IOT had a combined net taxable loss and ARL recorded no current tax (benefit) or expense. For 2013, MRHI had net taxable income and ARL consolidated with TCI and IOT had a net taxable loss resulting in a tax (benefit) to ARL. The expense (benefit) in each year was calculated based on the amount of losses absorbed by taxable income multiplied by the maximum statutory rate of 35%.

Current expense (benefit) is attributable to (dollars in thousands):

	2014	2013	2012
Loss from continuing operations	$(1,169)	$(24,217)	$(5,387)
Income from discontinued operations	1,169	17,415	5,387
The full 2013 tax (benefit) to ARL comes from MRHI	$-	$(6,802)	$-

The Federal income tax expense differs from the amount computed by applying the corporate tax rate of 35% to the income before income taxes as follows (dollars in thousands):

	2014	2013	2012
Computed "expected" income tax (benefit) expense	$14,061	$15,684	$(1,955)
Book to tax differences in gains on sale of property	(2,350)	(20,373)	(8,503)
Book to tax differences from entities not consolidated for tax purposes	(23,900)	(33,565)	(3,831)
Book to tax differences of depreciation and amortization	1,415	1,250	1,460
Valuation allowance against current net operating loss benefit	20,125	17,415	5,387
Other book to tax differences	(9,351)	17,208	7,442
Total	$-	$(2,381)	$-
Alternative minimum tax	$-	$-	$-

Deferred income taxes reflect the tax effects of temporary timing differences between carrying amounts of assets and liabilities reflected on the financial statements and the amounts used for income tax purposes. ARL's tax basis in its net assets differs from the amount at which its net assets are reported for financial statement purposes, principally due to the accounting for gains and losses on property sales, and depreciation on owned properties. The tax effects of temporary differences and net operating loss carry forwards that give rise to the deferred tax assets are presented below (amounts in thousands):

	2014	2013	2012
Net operating losses	$74,357	$88,486	$68,034
AMT credits	2,201	2,201	2,201
Basis difference of:			
Real estate holdings and equipment	10,337	11,959	1,159
Notes receivable	6,946	7,448	8,248
Investments	(14,950)	(14,960)	(13,824)
Notes payable	8,189	13,360	17,691
Deferred gains	18,086	18,746	18,170
Total	$105,166	$127,240	$101,679
Deferred tax valuation allowance	(105,166)	(127,240)	(101,679)
Net deferred tax asset	$-	$-	$-

At December 31, 2014, 2013 and 2012 ARL had a net deferred tax asset due to tax deductions available to it in future years. However, as management could not determine that it was more likely than not that ARL would realize the benefit of the deferred tax asset, a 100% valuation allowance was established.

ARL has prior tax net operating losses and capital loss carryforwards of approximately $53.0 million expiring through the year 2033. The alternative minimum tax credit balance did not change in 2014 and remains at approximately $2.2 million. The credit has no expiration.

ARL is subject to routine audits by taxing jurisdictions; however, there are currently no audits in progress for any tax periods. Management believes ARL is no longer subject to income tax examinations for years prior to 2011.

NOTE 12. FUTURE MINIMUM RENTAL INCOME UNDER OPERATING LEASES

ARL's operations include the leasing of commercial properties (office buildings, industrial warehouses and retail centers). The leases, thereon, expire at various dates through 2025. The following is a schedule of minimum future rents due to ARL under non-cancelable operating leases as of December 31, 2014 (dollars in thousands):

Year	Amount
2015	$ 17,627
2016	16,063
2017	13,665
2018	12,470
2019	8,136
Thereafter	20,000
Total	$ 87,961

NOTE 13. OPERATING SEGMENTS

Our segments are based on management's method of internal reporting which classifies its operations by property type. The segments are commercial, apartments, hotels, land and other. Significant differences among the accounting policies of the operating segments as compared to the Consolidated Financial Statements principally involve the calculation and allocation of administrative and other expenses. Management evaluates the performance of each of the operating segments and allocates resources to them based on their net operating income and cash flow.

Items of income that are not reflected in the segments are interest, other income, gain on debt extinguishment, gain on condemnation award, equity in partnerships, and gains on sale of real estate. Expenses that are not reflected in the segments are provision for losses, advisory, net income and incentive fees, general and administrative, non-controlling interests, foreign currency transaction loss and net loss from discontinued operations before gains on sale of real estate.

The segment labeled as "Other" consists of revenue and operating expenses related to the notes receivable and corporate debt.

Presented below is the operating income of each operating segment and each segment's assets for 2014, 2013 and 2012 (dollars in thousands):

For the Twelve Months Ended Dec 31, 2014	Commercial Properties	Apartments	Hotels	Land	Other	Total
Operating revenue	$20,476	$58,882	$-	$1	$53	$79,412

Earnings from unconsolidated joint ventures and investees	347	391	372
Litigation settlement	3,591	(20,313)	(175)
Income tax benefit (expense)	20,413	40,513	(144)
Gain (loss) from continuing operations	$2,264	$(10,882)	$(6,443)

SEGMENT ASSET RECONCILIATION TO TOTAL ASSETS

The table below reconciles the segment information to the corresponding amounts in the Consolidated Balance Sheets (dollars in thousands):

	For the Years Ended December 31,		
	2014	2013	2012
Segment assets	$699,763	$700,294	$930,433
Investments in unconsolidated subsidiaries and investees	4,279	3,789	8,168
Notes and interest receivable	134,366	136,815	103,469
Other assets and receivables	127,090	102,424	93,275
Assets held for sale	-	-	-
Total assets	$965,498	$943,322	$1,135,345

NOTE 14. DISCONTINUED OPERATIONS

The Company applies the provisions of ASC Topic 360 “Property, Plant and Equipment.” ASC Topic 360 requires that long-lived assets that are to be disposed of by sale be measured at the lesser of (1) book value or (2) fair value less cost to sell. In addition, it requires that one accounting model be used for long-lived assets to be disposed of by sale and broadens the presentation of discontinued operations to include more disposal transactions.

Discontinued operations relates to properties that were either sold or repositioned as held for sale as of the year ended 2014, 2013 and 2012. Income from discontinued operations relates to 5, 19, and 25 properties that were sold or repositioned in 2014, 2013 and 2012, respectively. The following table summarizes revenue and expense information for these properties sold and held for sale (dollars in thousands):

	For the Years Ended December 31,		
	2014	2013	2012
Revenues:			
Rental and other property revenues	$5,612	$34,922	$43,589
	5,612	34,922	43,589
Expenses:			
Property operating expenses	2,350	16,479	23,326
Depreciation	751	5,563	7,691
General and administrative	451	966	1,224
Provision on impairment of notes receivable and real estate assets	-	-	2,400
Total operating expenses	$3,552	$23,008	$34,641
Other income (expense):			
Other income (expense)	(507)	45	7
Mortgage and loan interest	(1,743)	(8,082)	(12,737)
Deferred borrowing costs amortization	(1,461)	(3,015)	(1,793)
Loan charges and prepayment penalties	(1,656)	(3,246)	(3,472)
Litigation settlement	(250)	(250)	(250)
Total other expenses	$(5,617)	$(14,548)	$(18,245)
Loss from discontinued operations before gain on sale of real estate and taxes	(3,557)	(2,634)	(9,297)
Gain on sale of real estate from discontinued operations	61,879	98,951	8,885

	2014	2013	2012
Income tax benefit (expense)	(20,413)	(33,711)	144
Income (loss) from discontinued operations	$37,909	$62,606	$(268)

The Company's application of ASC Topic 360 results in the presentation of the net operating results of these qualifying properties sold or held for sale during 2014, 2013 and 2012 as income from discontinued operations. The application of ASC Topic 360 does not have an impact on net income available to common shareholders. ASC Topic 360 only impacts the presentation of these properties within the Consolidated Statements of Operations.

NOTE 15. QUARTERLY RESULTS OF OPERATIONS

The following is a tabulation of quarterly results of operations for the years 2014, 2013, and 2012. Quarterly results presented differ from those previously reported in ARL's Form 10-Q due to the reclassification of the operations of properties sold or held for sale to discontinued operations in accordance with ASC topic 360:

	Three Months Ended 2014			
	March 31,	June 30,	September 30,	December 31,
	(dollars in thousands, except share and per share amounts)			
2014				
Total operating revenues	$19,159	$19,500	$19,326	$21,427
Total operating expenses	18,957	19,914	18,858	24,882
Operating income (loss)	202	(414)	468	(3,455)
Other expense	(2,440)	(3,630)	(4,274)	(5,167)
Loss before gain on land sales, non-contolling interest, and taxes
