**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**

**A. The Company**

Teradyne, Inc. is a leading global supplier of automatic test equipment.

Teradyne's automatic test equipment products and services include:

semiconductor test ( Semiconductor Test ), and

military/aerospace ( Mil/Aero ) test instrumentation and systems, circuit-board test and inspection systems ( Commercial Board Test ) and automotive diagnostic and test systems ( Diagnostic Solutions ), collectively Systems Test Group

Statements in this Quarterly Report on Form 10-Q which are not historical facts, so called forward looking statements, are made pursuant to the safe harbor provisions of Section 21E of the Securities Exchange Act of 1934, as amended. Investors are cautioned that all forward looking statements involve risks and uncertainties, including those detailed in Teradyne's filings with the Securities and Exchange Commission (the SEC ). See also Item 2: Management's Discussion and Analysis of Financial Condition and Results of Operations Certain Factors That May Affect Future Results and Teradyne's Annual Report on Form 10-K for the year ended December 31, 2007.

**B. Accounting Policies**

*Basis of Presentation*

The condensed consolidated interim financial statements include the accounts of Teradyne and its subsidiaries. All significant intercompany balances and transactions have been eliminated. These interim financial statements are unaudited and reflect all normal recurring adjustments that are, in the opinion of management, necessary for the fair statement of such interim financial statements. Certain prior years' amounts were reclassified to conform to the current year presentation. The December 31, 2007 condensed consolidated balance sheet data were derived from audited financial statements, but do not include all disclosures required by generally accepted accounting principles.

The accompanying financial information should be read in conjunction with the consolidated financial statements and notes thereto contained in Teradyne's Annual Report on Form 10-K, filed with the SEC on February 28, 2008 for the year ended December 31, 2007.

On August 1, 2007, Teradyne completed the sale of Broadband Test Systems, its voice and broadband access network test division. The results of operations of Broadband Test Systems as well as cash flow amounts pertaining to this business have been classified as discontinued operations in the condensed consolidated financial statements.

*Preparation of Financial Statements*

The preparation of consolidated financial statements requires management to make estimates and judgments that affect the amounts reported in the financial statements. Actual results may differ significantly from these estimates.

**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

**C. Recently Issued Accounting Pronouncements**

In December 2007, the FASB issued SFAS No. 141(R), Business Combinations. This Statement replaces FASB Statement No. 141, Business Combinations. SFAS No. 141(R) establishes new principles and requirements for how an acquiring company 1) recognizes and measures in its financial statements the identifiable assets acquired, the liabilities assumed, and any non-controlling interest in the acquiree, 2) recognizes and measures the goodwill acquired in the business combination or a gain from a bargain purchase, and 3) determines what information to disclose to enable users of the financial statements to evaluate the nature and financial effects of the business combination. SFAS No. 141(R) is effective for business combinations occurring on or after the beginning of the fiscal year beginning on or after December 15, 2008. Teradyne is currently evaluating the impact of adopting this standard.

In March 2008, the FASB issued Statement of Financial Accounting Standards (SFAS) No. 161, Disclosures about Derivative Instruments and Hedging Activities—an amendment of FASB Statement No. 133. SFAS No. 161 expands the current disclosure requirements of SFAS No. 133, Accounting for Derivative Instruments and Hedging Activities, such that entities must now provide enhanced disclosures on a quarterly basis regarding how and why the entity uses derivatives; how derivatives and related hedged items are accounted for under SFAS No. 133 and how derivatives and related hedged items affect the entity's financial position, performance and cash flow. SFAS No. 161 is effective prospectively for periods beginning on or after November 15, 2008. Teradyne will adopt SFAS No. 161 in fiscal year 2009.

**D. Financial Instruments**

Effective January 1, 2008, Teradyne has adopted SFAS 157 for financial assets and liabilities. As defined in SFAS 157, fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. Teradyne uses the market approach technique to value its financial instruments and there were no changes in valuation techniques during the quarter ended March 30, 2008. SFAS 157 requires that assets and liabilities carried at fair value be classified and disclosed in one of the following three categories:

Level 1: Quoted prices in active markets for identical assets as of the reporting date.

Level 2: Pricing inputs other than quoted prices in active markets included in Level 1, which are either directly or indirectly observable as of the reported date. For example, a common approach for valuing fixed income securities is the use of matrix pricing. Matrix pricing is a mathematical technique used to value securities by relying on the securities' relationship to other benchmark quoted prices, and therefore is considered a Level 2 input.

Level 3: Unobservable inputs that are not corroborated by market data. Unobservable inputs are developed based on the best information available, which might include Teradyne's own data.

Teradyne's marketable securities consist primarily of high quality, corporate debt securities that are valued by an independent third party pricing service that utilizes matrix pricing. Teradyne has reviewed and agrees with the valuation methodologies and procedures utilized by these parties. The following table sets forth by input level

**E. Product Warranty**

Teradyne generally provides a one-year warranty on its products commencing upon installation or shipment. A provision is recorded upon revenue recognition to cost of revenues for estimated warranty expense based on historical experience. Related costs are charged to the warranty accrual as incurred. The balance below is included in other accrued liabilities.

**F. Stock-Based Compensation**

## Edgar Filing: TERADYNE, INC - Form 10-Q

During the three months ended March 30, 2008, Teradyne granted restricted stock units to employees, executives and directors. The total number of shares granted was 2.9 million at the weighted average grant date fair value of \$10.51. Service based awards granted to employees and executives vest in equal installments over four years. Awards granted to non-employee directors vest on the first anniversary of the grant date. A significant number of awards granted to executive officers are performance-based restricted stock units. The amount of actual performance-based restricted stock units that will vest will be determined on or near the third anniversary of the grant.

**Table of Contents****TERADYNE, INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

During the three months ended April 1, 2007, Teradyne granted restricted stock units to employees, executives and directors. The total number of shares granted was 2.0 million at the weighted average grant date fair value of \$15.24. Service based awards granted to employees and executives vest in equal installments over four years. Awards granted to non-employee directors vest on the first anniversary of the grant date. A significant number of awards granted to executive officers are performance-based restricted stock units. The amount of actual performance-based restricted stock units that will vest over four years will be determined on or near the first anniversary of the grant.

The computation of diluted net income (loss) per common share for the three months ended March 30, 2008 and April 1, 2007 excludes the effect of the potential exercise of options to purchase approximately 16.9 and 18.8 million shares and restricted stock units of 1.8 million and 0.4 million shares, respectively, because the effect would have been anti-dilutive.

**Table of Contents****TERADYNE, INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****J. Restructuring and Other, Net**

The tables below represent activity related to restructuring and other, net, in the three months ended March 30, 2008. The accrual for severance and benefits is reflected in accrued employees' compensation and withholdings. All remaining severance and benefits will be paid by the end of the third quarter of 2008. The accrual for lease payments on vacated facilities is reflected in other accrued liabilities and other long-term accrued liabilities and is expected to be paid out over the lease terms, the latest of which expires in 2012. Teradyne expects to pay out approximately \$2.3 million against the lease accruals over the next twelve months. Teradyne's future lease commitments are net of expected sublease income of \$11.0 million as of March 30, 2008.

**Table of Contents****TERADYNE, INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****K. Stock Repurchase Program**

In November 2007, Teradyne's Board of Directors authorized a \$400 million stock repurchase program. During the three months ended March 30, 2008, Teradyne repurchased 2.8 million shares of common stock for \$33.0 million at an average price of \$11.77. The cumulative repurchases as of March 30, 2008 total 3.8 million shares of common stock for \$44.4 million at an average price of \$11.74.

**L. Acquisitions****Business**

On January 24, 2008, Teradyne completed its acquisition of Nextest Systems Corporation ( Nextest ) of San Jose, California, for a total purchase price of \$402.8 million, which consisted of \$367.8 million of cash paid to acquire the outstanding common stock of Nextest, at a price of \$20.00 per share, \$28.9 million in fair value of assumed vested stock options and restricted stock units, which were converted into stock options and restricted stock units to purchase Teradyne's common stock, and \$6.1 million of acquisition related transaction costs, which primarily consisted of fees incurred for financial advisory and legal services. The fair value of stock options was estimated using the following weighted average assumptions:

Expected life	3.6 years
Expected volatility	40.6%
Risk-free interest rate	2.8%
Dividend yield	0.0%

Nextest designs, develops, manufactures, sells and services low-cost, high throughput automated test equipment systems for the semiconductor industry. Nextest competes in the flash memory, flash card, and flash memory based system-on-chip ( SOC ) markets. Nextest's products are used to test flash memory, microcontrollers, image sensors, smart cards and field programmable logic devices. The acquisition allows Teradyne to enter the flash memory test segment. Nextest is included within Teradyne's Semiconductor Test segment.

The Nextest acquisition was accounted for as a purchase business combination and, accordingly, the results have been included in Teradyne's consolidated results of operation from the date of acquisition. The allocation of the total purchase price of Nextest's net tangible and identifiable intangible assets was based on their estimated fair values as of the acquisition date. The purchase price allocation is preliminary pending the final determination of the fair value of certain acquired assets and assumed liabilities and the completion of facility exit and restructuring plans. The excess of the purchase price over the identifiable intangible and net tangible assets in the amount of \$173.6 million was allocated to goodwill, which is not deductible for tax purposes. The following represents the preliminary allocation of the purchase price:

	Amount (in thousands)
Goodwill	\$ 173,551
Other intangible assets	99,800
<b>Tangible assets acquired and liabilities assumed:</b>	
Cash and cash equivalents	88,513

Teradyne estimated the fair value of other intangible assets using the income approach. Acquired other intangible assets will be amortized on a straight-line basis over their estimated useful lives. The following table represents components of these other intangible assets and their estimated useful lives at the acquisition date:

	Fair Value (in thousands)	Estimated Useful Life (in years)
Developed technology	\$ 53,600	5.8
Customer relationships	45,900	6.8
Tradenames	300	1.0
Total intangible assets	\$ 99,800	6.2

The following pro forma information gives effects of the acquisition as if the acquisition occurred at the beginning of the periods indicated. The pro forma results are not necessarily indicative of what actually would have occurred had the acquisitions been in effect for the periods presented:

	For the Three Months Ended	
	March 30, 2008	April 1, 2007
	(in thousands,	
	except per share data)	
Revenue	\$ 307,046	\$ 274,845

Net income (loss) per common share:		
Basic	\$ 0.01	\$ (0.10)
Diluted	\$ 0.01	\$ (0.10)

The pro forma results above include the following non recurring expense items: in-process research and development charge of \$1.1 million and acquired inventory fair value adjustment of \$4.3 million, in both periods presented.

**Technology**

On March 7, 2007, Teradyne purchased in-process enabling test technology and hired certain engineers from MOSAID Technologies Inc. ( MOSAID ) for \$17.6 million, which included \$0.6 million in fees directly related to the acquisition. Of the purchase price, \$16.7 million was allocated to in-process research and development and therefore was immediately charged to the statement of operations. The balance of the purchase price was allocated to acquired workforce and fixed assets.

**M. Retirement Plans****Defined Benefit Pension Plans**

## Edgar Filing: TERADYNE, INC - Form 10-Q

Teradyne has defined benefit pension plans covering a portion of domestic employees and employees of certain non-U.S. subsidiaries. Benefits under these plans are based on employees' years of service and compensation. Teradyne's funding policy is to make contributions to the plans in accordance with local laws and to the extent that such contributions are tax deductible. The assets of the plans consist primarily of equity and fixed income securities. In addition, Teradyne has an unfunded supplemental executive defined benefit plan in the United States to provide retirement benefits in excess of levels allowed by the Employment Retirement Income Security Act and the Internal Revenue Code, as well as unfunded foreign plans.

Teradyne contributed \$0.7 million to its United Kingdom Qualified Pension Plan and \$0.3 million to its Japan Qualified Pension Plan, in the three months ended March 30, 2008.

***Postretirement Benefit Plans***

In addition to receiving pension benefits, Teradyne's U.S. employees who meet specific retirement eligibility requirements as of their termination dates may participate in Teradyne's Welfare Plan, which includes death benefits, and medical and dental benefits up to age 65. Death benefits provide a fixed sum to retirees' survivors and are available to all retirees.

Substantially all of Teradyne's current U.S. employees could become eligible for these benefits, and the existing benefit obligation relates primarily to those employees.

Components of net periodic postretirement cost are as follows:

**N. Commitments and Contingencies**

**Legal Claims**

On September 5, 2001, after Teradyne's August 2000 acquisition of Herco Technology Corp. and Perception Laminates, Inc., the former owners of those companies filed a complaint against Teradyne and two of our then executive officers in the Federal District Court in San Diego, California, asserting securities fraud and breach of contract related to the acquisition. The District Court dismissed certain of the plaintiffs claims, granted partial summary judgment against them with respect to their breach of contract claim and denied their motion for

**Table of Contents****TERADYNE, INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

reconsideration. In July 2007, after an appeal by the plaintiffs, the U.S. Court of Appeals for the Ninth Circuit affirmed in part and reversed in part the District Court rulings. Teradyne petitioned the Ninth Circuit for a rehearing of the ruling that it reversed. In October 2007, the Ninth Circuit denied Teradyne's petition for rehearing. Teradyne continues to defend the claim that was sent back to the District Court.

In 2001, Teradyne was designated as a Potentially Responsible Party ( PRP ) at a clean-up site in Los Angeles, California. This claim arose out of Teradyne's acquisition of Perception Laminates in August 2000. Prior to that date, Perception Laminates had itself acquired certain assets of Alco Industries Inc. under an asset purchase agreement in 1992. Neither Teradyne nor Perception Laminates have ever conducted any operations at the Los Angeles site. Teradyne asked the State of California to drop the PRP designation, but California has not yet agreed to do so.

Teradyne believes that it has meritorious defenses against the above unsettled claims and intends to vigorously contest them. While it is not possible to predict or determine the outcomes of the unsettled claims or to provide possible ranges of losses that may arise, Teradyne believes the potential losses associated with all of these actions will not have a material adverse effect on its consolidated financial position or liquidity, but could possibly be material to its consolidated results of operations of any one period.

In addition, Teradyne is subject to legal proceedings, claims and investigations that arise in the ordinary course of business such as, but not limited to, patent, employment, commercial and environmental matters. Although there can be no assurance, there are no such matters pending that Teradyne expects to be material with respect to its business, financial position or results of operations.

**O. Segment Information**

Teradyne's two reportable segments are Semiconductor Test and Systems Test Group. The Semiconductor Test segment includes operations related to the design, manufacturing and marketing of semiconductor test products and services. The Systems Test Group segment includes operations related to the design, manufacturing and marketing of military/aerospace instrumentation test products and services, circuit-board test and inspection products and services, and automotive diagnostic and test products and services.

Teradyne evaluates performance based on several factors, of which the primary financial measure is business segment income from continuing operations before taxes. The accounting policies of the business segments are the same as those described in Note B: Accounting Policies in Teradyne's Annual Report on Form 10-K for the year ended December 31, 2007. Due to the sale on August 1, 2007 of Broadband Test Systems, its results have been excluded from segment reporting and included in discontinued operations for the three months ended April 1, 2007. Segment information for the three months ended March 30, 2008 and April 1, 2007 is as follows:

**Table of Contents****Results of Operations****First Quarter 2008 Compared to First Quarter 2007***Bookings*

Net bookings for our two reportable segments were as follows:

(in millions)	For the Three Months Ended		Dollar Change
	March 30, 2008	April 1, 2007	
Semiconductor Test(1)	\$ 263.8	\$ 202.7	\$ 61.1
Systems Test Group	47.6	43.3	4.3
	\$ 311.4	\$ 246.0	\$ 65.4

(1) Includes Nextest bookings from January 24, 2008 through March 30, 2008.

Semiconductor Test orders increased 30% or \$61.1 million from the first quarter of 2007 to 2008. Wireless market demand increased twofold over the first quarter of 2007, accounting for over half of the total improvement. Regionally, the majority of the increase was across South East Asia and Taiwan, driven primarily by higher demand from our outsource, assembly and test ( OSAT ) customers. The first quarter of 2008 also had \$23 million of Nextest orders.

Systems Test Group increase in orders of \$4.3 million or 10% was primarily due to increased Mil/Aero program-related bookings.

Cancellations for our two principal reportable segments were as follows:

(in millions)	For the Three Months Ended	
	March 30, 2008	April 1, 2007
Semiconductor Test	\$	\$2.2
Systems Test Group		0.1
	\$	\$2.3

Customers may delay delivery of products or cancel orders suddenly and without significant notice, subject to possible cancellation penalties. In the first quarter of 2008 and 2007, there were no significant cancellation penalties received. Due to possible changes in delivery schedules and cancellations of orders, our backlog at any particular date is not necessarily indicative of the actual sales for any succeeding period. Delays in delivery schedules and/or cancellations of backlog during any particular period could have a material adverse effect on our business, financial condition and results of operations.

Net bookings by region as a percentage of total net bookings were as follows:

Backlog of unfilled orders for our two reportable segments was as follows:

(in millions)	As of	
	March 30, 2008	April 1, 2007
Semiconductor Test	\$ 273.2	\$ 222.0
Systems Test Group	100.4	103.8
	\$ 373.6	\$ 325.8

*Revenue*

Net revenues for our two reportable segments were as follows:

(in millions)	For the Three Months Ended		
	March 30, 2008	April 1, 2007	Dollar Change
Semiconductor Test	\$ 247.7	\$ 194.0	\$ 53.7
Systems Test Group	49.6	59.7	(10.1)
	\$ 297.3	\$ 253.7	\$ 43.6

Semiconductor Test revenue increased \$53.7 million or 28% from the first quarter of 2007 to 2008. Higher Flex® family system sales resulting from a growth in wireless demand, along with \$20.8 million of sales from our Nextest acquisition, resulted in the majority of the increase. In addition, an increase in revenue for J750 systems in the first quarter of 2008 compared to the first quarter of 2007.

The decrease in Systems Test Group revenue of \$10.1 million or 17% resulted from a decrease from the first quarter of 2007 to 2008 in our Diagnostic Solutions and Commercial Board Test divisions, while Mil/Aero sales remained relatively flat.

Our revenues by region as a percentage of total net revenue were as follows:

	For the Three Months Ended	
	March 30, 2008	April 1, 2007
South East Asia	28%	17%
United States	20	28
Taiwan	19	7
Singapore	10	16

**Table of Contents***Gross Margin*

Our gross profit was as follows:

(in millions)	For the Three Months Ended		Dollar/ Point Change
	March 30, 2008	April 1, 2007	
Gross Profit	\$ 138.5	\$ 113.4	\$ 25.1
Percent of Total Revenue	46.6%	44.7%	1.9

Gross margins as a percentage of revenue increased from 2007 to 2008 by 1.9 percentage points. This increase in gross margin is the result of an increase of 2.2 points primarily from increased sales volume and 1.1 points from favorable service margins in the Semiconductor Test Systems segment. This increase was offset in part by 1.4 points resulting from a \$4.3 million charge to adjust Nextest acquired inventory to fair value.

We assess the carrying value of our inventory on a quarterly basis by estimating future demand and comparing that demand against on-hand and on-order inventory provisions. Forecasted revenue information is obtained from the sales and marketing groups and incorporates factors such as backlog and future revenue demand. This quarterly process identifies obsolete and excess inventory. Obsolete inventory, which represents items for which there is no demand, is fully reserved. Excess inventory, which represents inventory items that are not expected to be consumed during the next four quarters, is written-down to estimated net realizable value.

The provisions for excess and obsolete inventory were \$1.3 million and \$0.5 million for the three months ended March 30, 2008 and April 1, 2007, respectively. During the three months ended March 30, 2008 and April 1, 2007, we scrapped \$7.8 million and \$5.5 million of inventory, respectively. As of March 30, 2008, we have inventory related reserves for amounts which had been written-down or written-off totaling \$101.0 million. We have no pre-determined timeline to scrap the remaining inventory.

*Engineering and Development*

Engineering and development expenses were as follows:

(in millions)	For the Three Months Ended		Dollar Change
	March 30, 2008	April 1, 2007	
Engineering and Development	\$ 55.1	\$ 49.3	\$ 5.8
Percent of Total Revenue	18.5%	19.4%	

The increase of \$5.8 million in engineering and development expenses is due primarily to higher variable compensation, the acquisition of Nextest and investments in adjacent markets.

*Selling and Administrative*

Selling and administrative expenses were as follows:

(in millions)	For the Three Months Ended		Dollar Change
	March 30, 2008	April 1, 2007	
Selling and Administrative	\$ 65.2	\$ 62.9	\$ 2.3
Percent of Total Revenue	21.9%	24.8%	

**Table of Contents**

The increase of \$2.3 million from the first quarter of 2007 to 2008 is primarily the result of \$5.5 million in Nextest SG&A expenses, offset in part by a decrease of \$3.2 million in lower selling and administrative expenses resulting from on-going cost reduction initiatives.

*In-process Research and Development*

On January 24, 2008, we completed our acquisition of Nextest for the total purchase price of \$402.8 million. Of the purchase price, \$1.1 million has been allocated to in-process research and development and therefore has been immediately charged to the statement of operations.

On March 7, 2007, we purchased in-process enabling test technology and hired certain engineers from MOSAID for \$17.6 million. Of the purchase price, \$16.7 million has been allocated to in-process research and development and therefore has been immediately charged to the statement of operations.

*Restructuring and Other, Net*

The tables below represent activity related to restructuring and other, net, in the three months ended March 30, 2008. The accrual for severance and benefits is reflected in accrued employees' compensation and withholdings. All remaining severance and benefits will be paid by the end of the third quarter of 2008. The accrual for lease payments on vacated facilities is reflected in other accrued liabilities and other long-term accrued liabilities and is expected to be paid out over the lease terms, the latest of which expires in 2012. We expect to pay out approximately \$2.3 million against the lease accruals over the next twelve months. Our future lease commitments are net of expected sublease income of \$11.0 million as of March 30, 2008.

During the three months ended March 30, 2008, we recorded the following 2008 restructuring activities:

\$7.4 million of severance charges related to headcount reductions of 148 people across all segments;

\$0.2 million of facility charges related to an early exit of a facility in Bracknell, UK;

\$4.5 million of facility charges related to accelerated depreciation of a manufacturing facility in North Reading, MA a result of the transfer of this activity to an outsourced partner.

The restructuring actions taken during the three months ended March 30, 2008, are expected to generate quarterly cost savings of approximately \$3.3 million.

*Interest Income and Other, net*

Interest income decreased by \$5.5 million from \$10.1 million in the first quarter of 2007 to \$4.6 million in the first quarter of 2008, due primarily to lower cash balances as a result of our acquisition of Nextest and stock repurchase activity. Interest Expense and Other decreased by \$1.7 million from \$2.2 million in the first quarter of 2007 to \$0.5 million in the first quarter of 2008, due primarily to income, in the first quarter of 2007, of \$1.8 million for the recognition of fair value of an asset related to equity investment.

*Income Taxes*

The tax expense of \$4.1 million and \$1.4 million for the first quarter of 2008 and 2007, respectively, consists primarily of foreign taxes. The effective tax rate of 63% for the first quarter 2008 was caused by foreign losses that are not benefited and lower US profits which were driven primarily by the amortization of intangible assets associated with our acquisition of Nextest. As a result of incurring significant operating losses from 2001 through 2003, we determined that it is more likely than not that our deferred tax assets may not be realized, and since the fourth quarter of 2002 we have established a full valuation allowance for our net deferred tax assets. If we continue to generate sustained future taxable income against which these tax attributes may be applied, some portion or all of the valuation allowance will be reversed. If the valuation allowance were reversed, a portion would be recorded as an increase to additional paid in capital, and the remainder would be recorded as a reduction to income tax expense.

**Liquidity and Capital Resources**

Our cash, cash equivalents and marketable securities balance decreased \$302.3 million in the first three months of 2008, to \$440.7 million. Cash activity for the first three months of 2008 and 2007 was as follows:

## **Table of Contents**

Changes in operating assets and liabilities, net of product lines and businesses sold and acquired, used cash of \$2.7 million in the first three months of 2008. This was due to a number of factors including, an increase in other assets of \$9.5 million and a reduction in accrued income taxes of \$7.6 million due to income tax payments. These uses of cash were offset by a reduction in accounts receivable of \$15.0 million due to a decrease in days sales outstanding from 66 days as of December 31, 2007 to 62 days as of March 30, 2008 as a result of improved collections.

Investing activities consist of purchases, sales and maturities of marketable securities, proceeds from asset disposals, , cash paid for assets and purchases of capital assets and businesses. Investing activities used cash of \$248.9 million in the first three months of 2008, primarily due to \$280.5 million of cash used for the acquisition of Nextest, net of cash acquired.

Financing activities include issuance of our common stock and repurchases of our common stock. During the three months ended March 30, 2008, we repurchased 2.8 million shares of common stock for \$33.0 million at an average price of \$11.77.

We believe our cash, cash equivalents and marketable securities balance of \$440.7 million will be sufficient to meet working capital and expenditure needs for at least the foreseeable future. Inflation has not had a significant long-term impact on earnings.

## **Equity Compensation Plans**

Discussed in Note O: Stock Based Compensation in our 2007 Form 10-K, we have a 1996 Employee Stock Purchase Plan and a 2006 Equity and Cash Compensation Incentive Plan (the 2006 Equity Plan ), a cash and equity compensation incentive plan.

The purpose of the 1996 Employee Stock Purchase Plan is to encourage stock ownership by all eligible employees of Teradyne. The purpose of the 2006 Equity Plan is to provide equity ownership and compensation opportunities in Teradyne to our employees, officers, directors, consultants and/or advisors. Both plans were approved by our shareholders.

## **Recently Issued Accounting Pronouncements**

In September 2006, the Financial Accounting Standards Board ( FASB ) issued Statement of Financial Accounting Standards No. 157, Fair Value Measurements ( SFAS 157 ). SFAS 157 establishes a framework for measuring fair value and requires expanded disclosures regarding fair value measurements. For financial assets and liabilities, SFAS 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007. For non financial assets and liabilities, SFAS No. 157 is effective for financial statements issued for fiscal years beginning after November 15, 2008. We have adopted SFAS 157, as of January 1, 2008, for financial assets and liabilities.

In December 2007, the FASB issued SFAS No. 141(R), Business Combinations. This Statement replaces FASB Statement No. 141, Business Combinations. SFAS No. 141(R) establishes new principles and requirements for how an acquiring company 1) recognizes and measures in its financial statements the identifiable assets acquired, the liabilities assumed, and any non-controlling interest in the acquiree, 2) recognizes and measures the goodwill acquired in the business combination or a gain from a bargain purchase, and 3) determines what information to disclose to enable users of the financial statements to evaluate the nature and financial effects of the business combination. SFAS No. 141(R) is effective for business combinations occurring on or after the beginning of the fiscal year beginning on or after December 15, 2008. We are currently evaluating the impact of adopting this standard.

In March 2008, the FASB issued Statement of Financial Accounting Standards (SFAS) No. 161, Disclosures about Derivative Instruments and Hedging Activities-an amendment of FASB Statement No. 133.

## **Table of Contents**

SFAS No. 161 expands the current disclosure requirements of SFAS No. 133, Accounting for Derivative Instruments and Hedging Activities, such that entities must now provide enhanced disclosures on a quarterly basis regarding how and why the entity uses derivatives; how derivatives and related hedged items are accounted for under SFAS No. 133 and how derivatives and related hedged items affect the entity's financial position, performance and cash flow. SFAS No. 161 is effective prospectively for periods beginning on or after November 15, 2008. We will adopt SFAS No. 161 in fiscal year 2009.

### **Certain Factors That May Affect Future Results**

From time to time, information we provide, statements made by our employees or information included in our filings with the SEC (including this Form 10-Q) contain statements that are not purely historical, but are forward looking statements, made under Section 21E of the Securities Exchange Act of 1934, as amended (the Exchange Act), which involve risks and uncertainties. In particular, forward looking statements made herein include projections, plans and objectives for our business, financial condition, operating results, future operations, or future economic performance, statements relating to the sufficiency of capital to meet working capital requirements, capital expenditures, including future lease payments and commitments and contributions to our pension plan, expectations as to customer orders and demand for our products and statements relating to backlog, bookings and cancellations, gross margins and pricing considerations. These statements are neither promises nor guarantees but involve risks and uncertainties, both known and unknown, which could cause our actual future results to differ materially from those stated in any forward looking statements. Factors that may cause such differences include, but are not limited to the following:

we are subject to intense competition;

our business is dependent on the current and anticipated market for electronics, which historically has been highly cyclical;

our operating results are likely to fluctuate significantly;

we are subject to risks of operating internationally;

if we fail to develop new technologies to adapt to our customers' needs and if our customers fail to accept our new products, our revenues will be adversely affected;

if our suppliers do not meet product or delivery requirements, we could have reduced revenues and earnings;

our operations may be adversely impacted if our outsourced service providers fail to perform;

we may incur higher tax rates than expected;

we may acquire new businesses or form strategic alliances in the future, and we may not realize the benefits of such acquisitions;

we have taken measures to ensure that we are prepared to address slowdowns in the market for our products, which could have long-term negative effects on our business or impact our ability to adequately address a rapid increase in customer demand;

we may incur significant liabilities if we fail to comply with environmental regulations;

we currently are and in the future may be subject to litigation that could have an adverse effect on our business;

we have significant guarantees and indemnification obligations;

if we are unable to protect our intellectual property, we may lose a valuable asset or may incur costly litigation to protect our rights;

our business may suffer if we are unable to attract and retain key employees;

our business is impacted by worldwide economic cycles, which are difficult to predict;

**Table of Contents**

acts of war, terrorist attacks and the threat of domestic and international terrorist attacks may adversely impact our business; and

provisions of our charter and by-laws and Massachusetts law make a takeover of Teradyne more difficult.

These factors, and others, are discussed from time to time in our filings with the SEC, including our Annual Report on Form 10-K filed with the SEC on February 28, 2008 for the year ended December 31, 2007.

**Item 3: Quantitative and Qualitative Disclosures about Market Risk**

For Quantitative and Qualitative Disclosures about Market Risk affecting Teradyne, see Item 7a. Quantitative and Qualitative Disclosures About Market Risks, in our Annual Report on Form 10-K filed with the SEC on February 28, 2008. There were no material changes in our exposure to market risk from those set forth in our Annual Report for the fiscal year ended December 31, 2007.

**Item 4: Controls and Procedures**

As of the end of the period covered by this report, our management, with the participation of our Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of our disclosure controls and procedures pursuant to Rule 13a-15(b) promulgated under the Exchange Act. Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that, as of the end of the period covered by this report, our disclosure controls and procedures were effective in ensuring that material information required to be disclosed in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, including ensuring that such material information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

During the period covered by this report, there have been no changes in our internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met.

**PART II. OTHER INFORMATION**

**Item 1: Legal Proceedings**

On September 5, 2001, after our August 2000 acquisition of Herco Technology Corp. and Perception Laminates, Inc., the former owners of those companies filed a complaint against Teradyne and two of our then executive officers in the Federal District Court in San Diego, California, asserting securities fraud and breach of contract related to the acquisition. The District Court dismissed certain of the plaintiffs' claims, granted partial summary judgment against them with respect to their breach of contract claim and denied their motion for reconsideration. In July 2007, after an appeal by the plaintiffs, the U.S. Court of Appeals for the Ninth Circuit affirmed in part and reversed in part the District Court rulings. We petitioned the Ninth Circuit for rehearing of the ruling that it reversed. In October 2007, the Ninth Circuit denied our petition for rehearing. We continue to defend the claim that was sent back to the District Court.

In 2001, we were designated as a Potentially Responsible Party ( PRP ) at a clean-up site in Los Angeles, California. This claim arose out of our acquisition of Perception Laminates in August 2000. Prior to that date, Perception Laminates had itself acquired certain assets of Alco Industries Inc. under an asset purchase agreement in 1992. Neither Teradyne nor Perception Laminates have ever conducted any operations at the Los Angeles site. We have asked the State of California to drop the PRP designation, but California has not yet agreed to do so.

We believe that we have meritorious defenses against the above unsettled claims and intend to vigorously contest them. While it is not possible to predict or determine the outcomes of the unsettled claims or to provide possible ranges of losses that may arise, we believe the potential losses associated with all of these actions will not have a material adverse effect on its consolidated financial position or liquidity, but could possibly be material to its consolidated results of operations of any one period.

In addition, we are subject to legal proceedings, claims and investigations that arise in the ordinary course of business such as, but not limited to, patent, employment, commercial and environmental matters. Although there can be no assurance, there are no such matters pending that we expect to be material with respect to its business, financial position or results of operations.

**Item 1A: Risk Factors**

In addition to the other information set forth in this Form 10-Q, you should carefully consider the factors discussed in Part I, Item 1A: Risk Factors in our Annual Report on Form 10-K for the year ended December 31, 2007, which could materially affect our business, financial condition or future results. The risks described in our Annual Report on Form 10-K are not the only risks that we face. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial condition and/or operating results.
