To announce the Company's August 2011 revenues

Date of events: 2011/09/09

Contents:

1. Date of occurrence of the event: 2011/09/09

2. Company name: Chunghwa Telecom Co., Ltd.

3. Relationship to the Company (please enter head office or affiliate company): Head office

4. Reciprocal shareholding ratios: N/A

5. Cause of occurrence: Chunghwa Telecom today announced a 11.7% year-over-year increase in unconsolidated total revenue to NT\$17.32 billion in August 2011. Operating income decreased by 16.0% year-over-year to NT\$4.24 billion, net income decreased by 15.0% year-over-year to NT\$3.70 billion, and EPS rose by 11.1% to NT\$0.5. The revenue increase was primarily attributable to (1) the revenue recognition of the government integrated taxation information system project, (2) rise in local fixed line revenue resulting from the shift of the pricing right of fixed-to-mobile call from mobile operators to fixed network operators, as well as to (3) the growth in mobile VAS revenue, which offset the impact of the pricing right shift on mobile voice revenue, (4) the tariff reduction mandated by regulator starting from April 2011 and (5) the broadband tariff reduction starting from the end of June. The increase in operating costs and expenses was primarily due to (1) the increase in cost of the taxation information system project, (2) interconnection and transition fees resulting from the pricing right shift, (3) the rise in cost of sales and marketing expenses due to the lower base for the same period last year (because iPhone 4 was not introduced till September 2010 in Taiwan), as well as (4) the higher maintenance fee resulting from promoting mobile internet service and migrating broadband customers to higher speed services. The increase in EPS was mainly due to the capital reduction in January 2011, which decreased the number of outstanding shares.
