 - Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))
-

Item 8.01 Other Events.

On September 8, 2015, the U.S. Patent Trial and Appeal Board (“PTAB”) issued decisions involving U.S. Patent No. 7,631,191 B2 (the “Glazer” patent) owned by Secure Axxess, a subsidiary of IPC:

In CBM2014-00100 (consolidated with CBM2015-00009), the PTAB determined that claims 1–32 of the Glazer patent would have been obvious to one of ordinary skill in the art, and the claims were, therefore, unpatentable under 35 U.S.C. § 103(a).

In IPR2014-00475, the PTAB determined that claims 1–23 and 25-32 of the Glazer patent are unpatentable.

The Glazer patent is the subject of patent infringement litigation in the U.S. District Court for the Eastern District of Texas (Secure Axxess, LLC v. U.S. Bank, et al. 6:13-cv-00717-KNM). The District Court litigation has been stayed pending the *inter partes* and covered business method proceedings.

IPC is reviewing the PTAB decisions and has not made a determination regarding an appeal to the U.S Court of Appeals for the Federal Circuit.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned, hereunto duly authorized.
