**THE CATO CORPORATION  
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)  
FOR THE THREE MONTHS AND NINE MONTHS ENDED**

**OCTOBER 29, 2011 AND OCTOBER 30, 2010**

**NOTE 1 - GENERAL:**

The condensed consolidated financial statements have been prepared from the accounting records of The Cato Corporation and its wholly-owned subsidiaries (the “Company”), and all amounts shown as of and for the periods ended October 29, 2011 and October 30, 2010 are unaudited. In the opinion of management, all adjustments considered necessary for a fair presentation have been included. All such adjustments are of a normal, recurring nature unless otherwise noted. The results of the interim period may not be indicative of the results expected for the entire year.

The interim financial statements should be read in conjunction with the consolidated financial statements and notes thereto, included in the Company’s Annual Report on Form 10-K for the fiscal year ended January 29, 2011. Amounts as of January 29, 2011, have been derived from the audited balance sheet other than the retrospective application of the change in accounting principle (described below).

On November 22, 2011, the Board of Directors maintained the quarterly dividend at \$.23 per share.

**CHANGE IN ACCOUNTING PRINCIPLE:**

The Company elected to change its method of accounting for inventory to the weighted average cost method from the retail method effective January 30, 2011. In accordance with ASC 250 “Accounting Changes and Error Corrections,” all periods have been retrospectively adjusted to reflect the period-specific effects of the change to the weighted average cost method. The Company believes that the weighted average cost method better matches cost of sales with related sales, as well as having an inventory valuation that more closely reflects the acquisition cost of inventory by valuing inventory on a unit basis versus the product department level under the retail method. The cumulative adjustment as of January 31, 2010, was an increase in inventory of \$11,700,000 and an increase in retained earnings of \$7,300,000.

Additionally, the Company has changed the classification for certain balance sheet items to conform to the 2011 presentation. This change in classification has reduced accounts payable and inventory by \$1,628,000 as of January 29, 2011 and \$618,000 as of October 30, 2010.

In addition, the Company has changed the classification of certain prior year income statement items to conform to the 2011 presentation. The change has no effect on net income; however, it does increase retail sales by \$191,000, cost of goods sold by \$99,000 and selling, general and administrative expense by \$92,000 for the three months ended October 30, 2010. The change also reduces retail sales by \$555,000, cost of goods sold by \$240,000 and selling, general and administrative expense by \$315,000 for the nine months ended October 30, 2010.

**NOTE 2 - EARNINGS PER SHARE:**

ASC 260 – *Earnings Per Share* requires dual presentation of basic and diluted Earnings Per Share (EPS) on the face of all income statements for all entities with complex capital structures. The Company has presented one basic EPS and one diluted EPS amount for all common shares in the accompanying Condensed Consolidated Statements of Income. While the Company’s certificate of incorporation provides the right for the Board of Directors to declare dividends on Class A shares without declaration of commensurate dividends on Class B shares, the Company has historically paid the same dividends to both Class A and Class B shareholders and the Board of Directors has resolved to continue this practice. Accordingly, the Company’s allocation of income for purposes of the EPS computation is the same for Class A and Class B shares and the EPS amounts reported herein are applicable to both Class A and Class B shares.

Basic EPS is computed as net income less earnings allocated to non-vested equity awards divided by the weighted average number of common shares outstanding for the period. Diluted EPS reflects the potential dilution that could occur from common shares issuable through stock options and the Employee Stock Purchase Plan.

**OCTOBER 29, 2011 AND OCTOBER 30, 2010**

**NOTE 4 – FINANCING ARRANGEMENTS:**

As of October 29, 2011, the Company had an unsecured revolving credit agreement of \$35.0 million. The revolving credit agreement is committed until August 2013. The credit agreement contains various financial covenants and limitations, including the maintenance of specific financial ratios with which the Company was in compliance as of October 29, 2011. There were no borrowings outstanding under this credit facility during the nine months ended October 29, 2011 or October 30, 2010. Interest on any borrowings is based on LIBOR, which was 0.25% at October 29, 2011.

At October 29, 2011 and October 30, 2010 the Company had approximately \$4.2 million and \$5.7 million, respectively, of outstanding irrevocable letters of credit relating to purchase commitments.

**NOTE 5 – REPORTABLE SEGMENT INFORMATION:**

The Company has two reportable segments: retail and credit. The Company operated its fashion specialty retail stores in 31 states at October 29, 2011, principally in the southeastern United States. The Company offers its own credit card to its customers and all related credit authorizations, payment processing, and collection efforts are performed by a separate subsidiary of the Company.

The following schedule summarizes certain segment information (in thousands):

**NOTE 6 – STOCK BASED COMPENSATION:**

As of October 29, 2011, the Company had three long-term compensation plans pursuant to which stock-based compensation was outstanding or could be granted. The Company's 1987 Non-Qualified Stock Option Plan authorized 5,850,000 shares for the granting of options to officers and key employees. The 1999 Incentive Compensation Plan and 2004 Amended and Restated Incentive Compensation Plan authorized 1,500,000 and 1,350,000 shares, respectively, for the granting of various forms of equity-based awards, including restricted stock and stock options to officers and key employees. The 1999 Plan has expired as to the ability to grant new awards.

The following table presents the number of options and shares of restricted stock initially authorized and available for grant under each of the plans:

	1987 Plan	1999 Plan	2004 Plan	Total
Options and/or restricted stock initially authorized	5,850,000	1,500,000	1,350,000	8,700,000
Options and/or restricted stock available for grant:				
January 29, 2011	18,627	-	627,872	646,499
October 29, 2011	19,677	-	538,725	558,402

In accordance with ASC 718, the fair value of current restricted stock awards is estimated on the date of grant based on the market price of the Company's stock and is amortized to compensation expense on a straight-line basis over the related vesting periods. As of October 29, 2011 and October 30, 2010, there was \$6,665,000 and \$6,705,000 of total unrecognized compensation cost related to nonvested restricted stock awards, which have a remaining weighted average vesting period of 2.5 years and 2.6 years, respectively. The total fair value of the shares recognized as compensation expense during the third quarter and nine months ended October 29, 2011 was \$613,000 and \$1,870,000, respectively compared to \$545,000 and \$1,771,000 for the third quarter and nine months ended October 30, 2010, respectively. These expenses are classified as a component of selling, general and administrative expenses in the Condensed Consolidated Statements of Income.

The Company's Employee Stock Purchase Plan allows eligible full-time employees to purchase a limited number of shares of the Company's Class A Common Stock during each semi-annual offering period at a 15% discount through payroll deductions. During the nine months ended October 29, 2011 and October 30, 2010, the Company sold 21,810 and 22,745 shares to employees at an average discount of \$3.59 and \$3.19 per share, respectively, under the Employee Stock Purchase Plan. The compensation expense recognized for the 15% discount given under the Employee Stock Purchase Plan was approximately \$78,000 and \$72,000 for the nine months ended October 29, 2011 and October 30, 2010, respectively. These expenses are classified as a component of selling, general and administrative expenses.

The following is a summary of the changes in stock options outstanding during the nine months ended October 29, 2011:

No options were granted in the first nine months of fiscal 2011 or fiscal 2010.

The total intrinsic value of options exercised during the third quarter and nine months ended October 29, 2011 was zero and \$41,000, respectively.

During the second quarter of 2010, the Company completed amortizing its nonvested options. In accordance with ASC 718, the Company adjusted its related forfeiture assumption and recognized a reduction in share based compensation expense of \$0 and \$52,000 for the third quarter and nine month period ended October 30, 2010. There was no stock option compensation expense for the third quarter and nine month period ended October 29, 2011.

Stock option awards outstanding under the Company's current plans were granted at exercise prices which were equal to the market value of the Company's stock on the date of grant, vest over five years and expire no later than ten years after the grant date.

**NOTE 7 – INCOME TAXES:**

For the quarter ended October 29, 2011, the Company's effective tax rate was 31.4% compared to 32.0% for the prior year quarter ended October 30, 2010. The current year quarter was impacted by the reduction of a reserve for certain unrecognized tax benefits from the closing of a state income tax audit. The effective income tax rate for the first nine months of fiscal 2011 was 35.4% compared to 36.1% for the first nine months of fiscal 2010. During the next 12 months, various taxing authorities' statutes of limitations are expected to expire which could result in a potential

reduction of unrecognized tax benefits. In addition, certain tax examinations may close, the ultimate resolution of which could materially affect the effective tax rate. As a consequence, the balance in unrecognized tax benefits can be expected to fluctuate from period to period. It is reasonably possible such changes could be significant when compared to our total unrecognized tax benefits, but the amount of change is not currently estimable.

**NOTE 8 – FAIR VALUE MEASUREMENTS (CONTINUED):**

The Company's investment portfolio was primarily invested in tax exempt variable rate demand notes ("VRDN"), corporate bonds, and governmental debt securities held in managed funds with underlying ratings of A or better at both October 29, 2011 and January 29, 2011. The underlying securities have contractual maturities which generally range from 278 days to 29 years. Although the Company's investments in VRDN's have underlying securities with contractual maturities longer than one year, the VRDN's themselves have interest rate resets of 7 days and are considered short-term investments. These securities are classified as available-for-sale and are recorded as short-term investments on the accompanying Condensed Consolidated Balance Sheets at estimated fair value, with unrealized gains and losses reported net of taxes in accumulated other comprehensive income.

Additionally, at October 29, 2011 and January 29, 2011, the Company had \$1.9 million of privately managed funds, \$0.5 million of corporate equities and a single auction rate security ("ARS") of \$3.5 million which continues to fail its auction. All of these assets are recorded within Other assets in the Condensed Consolidated Balance Sheets.

Level 1 category securities are measured at fair value using quoted active market prices. Level 2 investment securities include corporate and municipal bonds for which quoted prices may not be available on active exchanges for identical instruments. Their fair value is principally based on market values determined by management with assistance of a third party pricing service.

The Company's failed ARS is measured at fair value using Level 3 inputs at each reporting period. Due to the fact that there is no active market for this particular ARS, its fair value was determined through the use of a discounted cash flow analysis. The terms used in the analysis were based on management's estimate of the timing of future liquidity, which assumes that the security will be called or refinanced by the issuer or settled with a broker dealer prior to maturity. The discount rates used in the discounted cash flow analysis were based on market rates for similar liquid tax exempt securities with comparable ratings and maturities. Due to the uncertainty surrounding the timing of future liquidity, the Company also considered a liquidity/risk value reduction. In estimating the fair value of this ARS, the Company also considered the financial condition and near-term prospects of the issuer, the probability that the Company will be unable to collect all amounts due according to the contractual terms of the security and whether the

security has been downgraded by a rating agency. The Company's valuation is sensitive to market conditions and management's judgment and can change significantly based on the assumptions used.

The Company has two privately managed funds. The privately managed funds cannot be redeemed at net asset value at a specific date without advance notice. As a result, the Company has classified the investments as Level 3.

**NOTE 9 – RECENT ACCOUNTING PRONOUNCEMENTS:**

In January 2011, the Company adopted accounting guidance regarding changes to disclosure requirements for fair value measurements. For fair value measurements using significant unobservable inputs (Level 3), the guidance requires a reporting entity to present separate information about gross purchases, sales, issuances and settlements. The adoption of this guidance did not have a significant impact on the consolidated financial statement disclosures.

In June 2011, the Financial Accounting Standards Board issued guidance on the presentation of comprehensive income in financial statements to improve the comparability, consistency and transparency of financial reporting and to increase the prominence of items that are recorded in other comprehensive income. The new accounting guidance requires entities to report components of comprehensive income in either (1) a continuous statement of comprehensive income or (2) two separate but consecutive statements. In November 2011, the FASB proposed to defer the requirement to present reclassifications of other comprehensive income on the face of the income statement. The provisions of this new guidance are effective for the Company the first quarter of 2012. The adoption of this guidance is not expected to have any effect on operating results or financial position.

**CRITICAL ACCOUNTING POLICIES:**

The Company's accounting policies are more fully described in Note 1 to the Consolidated Financial Statements included in the Company's Annual Report on Form 10-K for the fiscal year ended January 29, 2011. As disclosed in Note 1 of Notes to Consolidated Financial Statements, the preparation of the Company's financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions about future events that affect the amounts reported in the financial statements and accompanying notes. Future events and their effects cannot be determined with absolute certainty. Therefore, the determination of estimates requires the exercise of judgment. Actual results inevitably will differ from those estimates, and such differences may be material to the financial statements. The most significant accounting estimates inherent in the preparation of the Company's financial statements include the allowance for doubtful accounts receivable, workers' compensation, general and auto insurance liabilities, group health insurance, litigation, calculation of asset impairment, store closings, inventory shrinkage and uncertain tax positions.

The Company's critical accounting policies and estimates are discussed with the Audit Committee on a quarterly basis.

**CHANGE IN ACCOUNTING PRINCIPLE:**

The Company elected to change its method of accounting for inventory to the weighted average cost method from the retail method effective January 30, 2011. In accordance with ASC 250 "Accounting Changes and Error Corrections," all periods have been retrospectively adjusted to reflect the period specific effects of the change to the weighted average cost method. The Company believes that the weighted average cost method better matches cost of sales with related sales, as well as having an inventory valuation that more closely reflects the acquisition cost of inventory by valuing inventory on a unit basis versus the product department level under the retail method. The cumulative adjustment as of January 31, 2010, was an increase in inventory of \$11,700,000 and an increase in retained earnings of \$7,300,000.

Additionally, the Company has changed the classification for certain balance sheet items to conform to the 2011 presentation. This change in classification has reduced accounts payable and inventory by \$1,628,000 as of January

29, 2011 and \$618,000 as of October 30, 2010.

In addition, the Company has changed the classification of certain prior year income statement items to conform to the 2011 presentation. The change has no effect on net income; however, it does increase retail sales by \$191,000 and cost of goods sold by \$99,000 and selling, general and administrative expense by \$92,000 for the three months ended October 30, 2010. The change also reduces retail sales by \$555,000, cost of goods sold by \$240,000 and selling, general and administrative expense by \$315,000 for the nine months ended October 30, 2010.

See Note 1 to the Condensed Consolidated Financial Statements for details regarding the effects of the change in accounting principle and revised classifications on prior periods.

CONDITION AND RESULTS OF OPERATIONS (CONTINUED)**

**RESULTS OF OPERATIONS – (CONTINUED):**

**Comparison of Third Quarter and First Nine Months of 2011 with 2010.**

Total retail sales for the third quarter were \$194.1 million compared to last year's third quarter sales of \$198.2 million, a 2.0% decrease. Same-store sales decreased 3.0% in the third quarter of fiscal 2011 due to difficult economic conditions and resulting uncertainty affecting our customers. For the nine months ended October 29, 2011, total retail sales were \$699.1 million compared to last year's comparable nine month sales of \$689.1 million, and same-store sales decreased 1.0% for the comparable nine month period. Total revenues, comprised of retail sales and other income (principally, finance charges and late fees on customer accounts receivable and layaway fees), were \$196.7 million and \$707.2 million for the third quarter and nine months ended October 29, 2011, respectively, compared to \$201.0 million and \$697.6 million for the third quarter and nine months ended October 30, 2010, respectively. The Company operated 1,292 stores at October 29, 2011 compared to 1,281 stores at the end of last year's third quarter. For the first nine months of 2011, the Company opened 23 new stores, relocated three stores and closed 13 stores. The Company currently expects to open approximately 38 stores, relocate four stores and close approximately 29 stores in fiscal 2011.

Credit revenue of \$1.9 million represented 1.0% of total revenues in the third quarter of fiscal 2011, compared to \$2.1 million or 1.0% of total revenues in the third quarter of fiscal 2010. Credit revenue decreased for the most recent comparable period due to lower finance charge income resulting from decreased sales under the Company's proprietary credit card. Credit revenue is comprised of interest earned on the Company's private label credit card portfolio and related fee income. Related expenses include principally bad debt expense, payroll, postage and other administrative expenses and totaled \$1.1 million in the third quarter of 2011, compared to last year's third quarter expenses of \$1.3 million. The decrease was primarily due to lower bad debt expense slightly offset by increased administrative expenses compared to the third quarter of 2010.

Other income in total, as included in total revenues, was \$2.6 million and \$8.0 million for the third quarter and first nine months of fiscal 2011, compared to \$2.8 million and \$8.6 million for the prior year's comparable third quarter and first nine months. The slight overall year-to-date decrease resulted primarily from lower finance charges and late fees.

Cost of goods sold was \$125.8 million, or 64.8% of retail sales and \$429.4 million or 61.4% of retail sales for the third quarter and first nine months of fiscal 2011, compared to \$127.1 million, or 64.2% of retail sales and \$418.4 million or 60.7% of retail sales for the prior year's comparable three and nine month periods, respectively. The overall increase in cost of goods sold as a percent of retail sales for the third quarter was due to higher occupancy costs related to store development partially offset by a decrease in comparable store sales. For the first nine months of 2011, the increase resulted primarily from lower sell-throughs of regular priced merchandise. Cost of goods sold includes merchandise costs (net of discounts and allowances), buying costs, distribution costs, occupancy costs, freight and inventory shrinkage. Net merchandise costs and in-bound freight are capitalized as inventory costs. Buying and distribution costs include payroll, payroll-related costs and operating expenses for the buying departments and distribution center. Occupancy expenses include rent, real estate taxes, insurance, common area maintenance, utilities and maintenance for stores and distribution facilities. Total gross margin dollars (retail sales less cost of goods sold exclusive of depreciation) decreased by 3.8% to \$68.3 million for the third quarter of fiscal 2011 and decreased by 0.4% to \$269.7 million for the first nine months of fiscal 2011 compared to \$71.0 million and \$270.7 million for the prior year's comparable three and nine month periods, respectively. Gross margin as presented may not be comparable to those of other entities.

**RESULTS OF OPERATIONS – (CONTINUED):**

Selling, general and administrative expenses (“SG&A”) primarily include corporate and store payroll, related payroll taxes and benefits, insurance, supplies, advertising, bank and credit card processing fees and bad debts. SG&A expenses were \$57.5 million, or 29.6% of retail sales and \$179.8 million, or 25.7% of retail sales for the third quarter and first nine months of fiscal 2011, respectively, compared to \$60.6 million, or 30.6% of retail sales and \$191.0 million, or 27.7% of retail sales for the prior year’s comparable three and nine month periods, respectively. SG&A expenses as a percentage of retail sales decreased 100 basis points for the third quarter of fiscal 2011 as compared to the prior year primarily as a result of lower accrued incentive compensation costs. For the first nine months of fiscal 2011, SG&A expenses decreased 200 basis points as compared to the prior year. The overall dollar decrease for the first nine months of fiscal 2011 was primarily attributable to decreased accrued incentive based compensation and insurance costs partially offset by an increase in payroll costs.

Depreciation expense was \$5.3 million, or 2.7% of retail sales and \$16.1 million, or 2.3% of retail sales for the third quarter and first nine months of fiscal 2011, respectively, compared to \$5.6 million, or 2.9% of retail sales and \$16.2 million, or 2.4% of retail sales for the prior year’s comparable three and nine month periods, respectively. The slight dollar decrease in depreciation expense was due to a reduction in store development and information technology investments.

Interest and other income was \$0.9 million, or 0.4% of retail sales and \$2.8 million, or 0.4% of retail sales for the third quarter and first nine months of fiscal 2011, respectively, compared to \$1.0 million, or 0.5% of retail sales and \$2.9 million, or 0.4% of retail sales for the prior year’s comparable three and nine month periods, respectively. The slight dollar decrease for the first nine months of fiscal 2011 was primarily due to lower miscellaneous income partially offset by higher interest income due to an increase in cash and short-term investments.

Income tax expense was \$2.8 million or 1.4% of retail sales and \$29.9 million, or 4.3% of retail sales for the third quarter and first nine months of fiscal 2011, respectively, compared to \$2.8 million, or 1.4% of retail sales and \$27.0 million, or 3.9% of retail sales for the prior year’s comparable three and nine month periods, respectively. The dollar increase in the first nine months of fiscal 2011 resulted from higher pre-tax income partially offset by a slightly lower

effective tax rate. The effective income tax rate for the third quarter of fiscal 2011 was 31.4% compared to 32.0% for the third quarter of 2010. The current year quarter was impacted by the reduction of a reserve for unrecognized tax benefits from the closing of a state income tax audit. The effective income tax rate for the first nine months of fiscal 2011 was 35.4% compared to 36.1% for the nine months of fiscal 2010.

CONDITION AND RESULTS OF OPERATIONS (CONTINUED)**

**LIQUIDITY, CAPITAL RESOURCES AND MARKET RISK:**

The Company has consistently maintained a strong liquidity position. Cash provided by operating activities during the first nine months of fiscal 2011 was \$68.0 million as compared to \$60.4 million in the first nine months of fiscal 2010. These amounts enable the Company to fund its regular operating needs, capital expenditure program, cash dividend payments, and share repurchases. In addition, the Company maintains a \$35.0 million unsecured revolving credit facility for short-term financing of seasonal cash needs. There were no outstanding borrowings on this facility at October 29, 2011.

Cash provided by operating activities for the first nine months of fiscal 2011 was primarily generated by earnings adjusted for depreciation and changes in working capital. The increase of \$7.6 million for the first nine months of fiscal 2011 as compared to the first nine months of fiscal 2010 was primarily due to an increase in net income and changes in inventories partially offset by a decrease in accounts payable and incentive compensation.

The Company believes that its cash, cash equivalents and short-term investments, together with cash flows from operations will be adequate to fund the Company's regular operating requirements, expected capital expenditures, dividends and share repurchases for fiscal 2011 and for the next twelve months.

At October 29, 2011, the Company had working capital of \$270.2 million compared to \$243.4 million at October 30, 2010. Additionally, the Company had \$2.4 million invested in privately managed investment funds and other miscellaneous equities and a single auction rate security of \$3.5 million at October 29, 2011, which are included in Other assets on the Condensed Consolidated Balance Sheets.

At October 29, 2011, the Company had an unsecured revolving credit agreement, which provides for borrowings of up to \$35.0 million. The revolving credit agreement is committed until August 2013. The credit agreement contains various financial covenants and limitations, including the maintenance of specific financial ratios with which the Company was in compliance as of October 29, 2011. There were no borrowings outstanding under the credit facility during the third quarter ended October 29, 2011.

At October 29, 2011 and October 30, 2010, the Company had approximately \$4.2 million and \$5.7 million, respectively, of outstanding irrevocable letters of credit relating to purchase commitments.

Expenditures for property and equipment totaled \$26.6 million in the first nine months of fiscal 2011, compared to \$14.3 million in last year's first nine months. The expenditures for the first nine months of 2011 were primarily for the development of 23 new stores, additional investments in new technology and the distribution center and home office expansion. For the full fiscal 2011 year, the Company expects to invest approximately \$32.0 million for capital expenditures. This includes anticipated expenditures to open 38 new stores and relocate four stores, upgrades to merchandise systems, and home office and distribution center expansion.

Net cash used in investing activities totaled \$51.1 million in the first nine months of fiscal 2011 compared to \$53.7 million used in the comparable period of 2010. The decrease was due primarily to the decrease in purchases of short-term investments.

On November 22, 2011, the Board of Directors maintained the quarterly dividend at \$.23 per share.

As of July 30, 2011, the Company had 320,564 shares remaining in the share repurchase program. On August 25, 2011, the Board of Directors authorized an increase in the Company's share repurchase program of two million shares. During the third quarter ended October 29, 2011, the Company repurchased and retired 330,400 shares for approximately \$7.7 million or an average market price of \$23.31. As of October 29, 2011, the Company had 1,990,164 shares remaining in open authorizations. There is no specified expiration date for the Company's repurchase program. For the nine months ended October 29, 2011, the Company repurchased 452,778 shares at an average cost of \$23.41 per share

The Company does not use derivative financial instruments.

The Company's investment portfolio was primarily invested in tax exempt variable rate demand notes ("VRDN"), corporate bonds, and governmental debt securities held in managed funds with underlying ratings of A or better at both October 29, 2011 and January 29, 2011. The underlying securities have contractual maturities which generally range from 278 days to 29 years. Although the Company's investments in VRDN's have underlying securities with contractual maturities longer than one year, the VRDN's themselves have interest rate resets of 7 days and are considered short-term investments. These securities are classified as available-for-sale and are recorded as short-term investments on the accompanying Condensed Consolidated Balance Sheets at estimated fair value, with unrealized gains and losses reported net of taxes in accumulated other comprehensive income.

Additionally, at October 29, 2011, the Company had \$1.9 million of privately managed funds, \$0.5 million of corporate equities and a single auction rate security ("ARS") of \$3.5 million which continues to fail its auction. See Note 8 – Fair Value Measurements for further information regarding the failed ARS. All of these assets are recorded within Other assets in the Condensed Consolidated Balance Sheets.

Information regarding new accounting pronouncements is provided in Note 9 to the Company's Condensed Consolidated Financial Statements.

**QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK**

**ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK:**

The Company is subject to market rate risk from exposure to changes in interest rates based on its financing, investing and cash management activities, but the Company does not believe such exposure is material.

**ITEM 4. CONTROLS AND PROCEDURES:**

We carried out an evaluation, with the participation of our Principal Executive Officer and Principal Financial Officer, of the effectiveness of our disclosure controls and procedures as of October 29, 2011. Based on this evaluation, our Principal Executive Officer and Principal Financial Officer concluded that, as of October 29, 2011, our disclosure controls and procedures, as defined in Rule 13a-15(e), under the Securities Exchange Act of 1934 (the "Exchange Act"), were effective to provide reasonable assurance that information we are required to disclose in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms and that such information is accumulated and communicated to our management, including our Principal Executive Officer and Principal Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

**CHANGES IN INTERNAL CONTROL OVER FINANCIAL REPORTING:**

No change in the Company's internal control over financial reporting (as defined in Exchange Act Rule 13a-15(f)) has occurred during the Company's fiscal quarter ended October 29, 2011 that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting except for the change in accounting principle to the weighted average cost method from the retail method for inventory accounting.
