PROXY STATEMENT

ANNUAL MEETING OF STOCKHOLDERS

August 1, 2007

Approximate date of mailing: June 28, 2007

This Proxy Statement is furnished in connection with the solicitation by the Board of Directors of CalAmp Corp. (the "Company" or "CalAmp") of proxies for use at the Annual Meeting of Stockholders of CalAmp (the "Annual Meeting") to be held on Wednesday, August 1, 2007 at 10:00 a.m. local time or at any adjournment or postponement thereof.

VOTING RIGHTS

Stockholders of record of CalAmp as of the close of business on the record date established for the Annual Meeting, June 18, 2007, have the right to receive notice of and to vote at the Annual Meeting. On June 18, 2007, CalAmp had issued and outstanding 23,627,091 shares of Common Stock, par value \$0.01 per share ("Common Stock"), the only class of voting securities outstanding.

Each stockholder of record as of the record date will be entitled to one vote for each share of Common Stock held as of the record date. The presence at the Annual Meeting in person or by proxy of a majority of the shares of Common Stock outstanding as of the record date will constitute a quorum for transacting business. Abstentions and broker non-votes are counted for purposes of determining the presence or absence of a quorum for the transaction of business. With regard to election of directors, votes may be cast in favor of or withheld; votes that are withheld will be excluded entirely from the vote and will have no effect. Abstentions may be specified on proposals other than the election of directors, and will be counted as present for purposes of the item on which the abstention is noted, and therefore counted in the tabulation of the votes cast on a proposal with the effect of a negative vote. In tabulating the voting result for any particular proposal, shares that constitute broker non-votes are not counted for purposes of determining the votes cast on the proposal and therefore will have no effect on the outcome of such matters requiring the affirmative vote of a majority of the votes cast.

1

Persons Making the Solicitation

The Proxy is solicited on behalf of the Board of Directors of the Company. The only solicitation materials to be sent to stockholders will be this Proxy Statement and the accompanying Proxy. The Board of Directors does not intend to use specially engaged employees or paid solicitors. The Board of Directors also intends to solicit the Proxies held on behalf of stockholders by brokers, dealers, banks and voting trustees, or their nominees. The Company will pay all reasonable expenses by such holders for mailing the solicitation material to the stockholders for whom they hold shares. All solicitation expenses are being paid by the Company.

Terms of the Proxy

The enclosed Proxy indicates the matters to be acted upon at the Annual Meeting and provides a box to be marked to indicate the manner in which the stockholder's shares are to be voted with respect to such matters. By appropriately marking the boxes, a stockholder may specify, with respect to the election of directors, whether the Proxy holder shall vote for or be without authority to vote on any or all candidates. The Proxy also confers upon the holders thereof discretionary voting authority with respect to such other business as may properly come before the Annual Meeting.

Where a stockholder has appropriately directed how the Proxy is to be voted, the shares will be voted in accordance with the stockholder's direction. In the absence of instructions, shares represented by valid Proxies will be voted in favor of the nominees for director and in favor of all proposals set forth in the Notice of Meeting and this Proxy Statement. If any other matters are properly presented at the Annual Meeting, the persons named in the Proxy will vote or refrain from voting in accordance with their best judgment. A Proxy may be revoked at any time prior to its exercise by giving written notice of the revocation thereof to the Corporate Secretary of the Company or by filing a duly executed Proxy bearing a later date. Stockholders may also vote in person if they attend the Annual Meeting even though they have executed and returned a Proxy.

A board of six directors will be elected at the 2007 Annual Meeting. Directors shall be elected by a plurality of the votes of shares present in person or represented by proxy at the meeting. The term of office of each person elected as director will continue until the next Annual Meeting of Stockholders, or until his successor has been elected and qualified. **The Board of Directors recommends a vote "FOR" each of the six nominees.**

In the event that any of the nominees for director listed below should become unavailable for election for any currently unforeseen reason, the persons named in the accompanying Proxy have the right to use their discretion to vote for such other person as may be determined by the holders of such Proxies. To the best of the Company's knowledge, all nominees are and will be available to serve.

The Board of Directors and Corporate Governance

The Company has established corporate governance practices designed to serve the best interests of the Company and its stockholders. The Company is in compliance with the current corporate governance requirements imposed by the Sarbanes-Oxley Act of 2002 and NASDAQ. The Company may make additional changes to its policies and procedures in the future to ensure continued compliance with developing standards in the corporate governance area.

Director Independence

The Board of Directors presently consists of six members, five of whom are independent. A director's independence is determined by the Board of Directors as defined by the rules of NASDAQ. The Board has determined that each director is independent, with the exception of Fred Sturm, the Company's President and Chief Executive Officer.

6

Executive Sessions

Non-management directors of the Board and Board committees meet in executive session routinely and regularly. During the executive sessions, the non-management directors have access to the Chief Executive Officer and other management officials. The Chairman of the Board or the Chairman of the Board committee, as applicable, preside over these executive sessions.

Number of Directorships

The Company has a policy that limits the number of public company boards that its directors may serve on. Under this policy, directors who also serve as CEOs or in equivalent positions should not serve on more than two other public company boards in addition to the CalAmp Board, and other directors should not serve on more than four public company boards in addition to the CalAmp Board.

Changes in Director Occupation or Status

The Company has a policy that requires a director to tender a letter of resignation to the Chairman of the Governance and Nominating Committee in the event the director's principal occupation or business affiliation changes substantially from the position he or she held when the director originally joined the Company's Board of Directors.

Attendance of Directors at Annual Meetings

It is a policy of the Board of Directors that attendance of all directors at the annual meeting of stockholders is strongly encouraged but is not required. All of the Company's directors attended last year's annual meeting.

Identifying and Evaluating Nominees for Directors

Pursuant to the policy set forth in the charter of the Governance and Nominating Committee, the Committee will utilize a variety of methods for identifying and evaluating nominees for director. The Governance and Nominating Committee's policy is to assess the appropriate size of the Board and whether any vacancies on the Board are expected due to retirement or otherwise. In the event that vacancies are anticipated, or otherwise arise, the Governance and Nominating Committee may consider various potential candidates for director. Candidates may come to the attention of the Governance and Nominating Committee through current Board members, stockholders or other parties such as retained recruiting firms. These candidates will be evaluated at meetings of the Governance and Nominating Committee, and may be considered at any point during the year. As described below, the Governance and Nominating Committee will consider properly submitted stockholder nominations for candidates for the Board. Following verification of the stockholder status of persons proposing candidates, recommendations will be aggregated and considered by the Governance and Nominating Committee at a regularly

scheduled meeting. If any materials are provided by a stockholder in connection with the nomination of a director candidate, such materials will be forwarded to the Governance and Nominating Committee.

Contacting the Board of Directors

Stockholders interested in communicating directly with the Board of Directors, any committee of the Board, the Chairman, or the non-management directors as a group may do so by sending a letter to the CalAmp Board of Directors, c/o Corporate Secretary, CalAmp Corp., 1401 North Rice Avenue, Oxnard, California 93030. The Corporate Secretary will review the correspondence and forward it to the Chairman of the Board, Chairman of the Governance and Nominating Committee, Audit Committee or to any individual director, group of directors or committee of the Board to whom the communication is directed, as applicable, if the communication is relevant to CalAmp's business and financial operations, policies and corporate philosophies.

7

Committees of the Board

The Board of Directors has delegated certain of its authority to four committees: the Audit Committee, the Compensation Committee, the Corporate Development Committee, and the Governance and Nominating Committee. The Audit Committee is composed of Messrs. Gold, Moyer and Perna, with Mr. Moyer serving as Chairman. The Compensation Committee is composed of Messrs. Hausman, Moyer, Pardun and Perna, with Mr. Hausman serving as Chairman. The Corporate Development Committee is composed of Messrs. Moyer, Pardun and Perna, with Mr. Perna serving as Chairman. The Governance and Nominating Committee is composed of Messrs. Gold and Perna, with Mr. Gold serving as Chairman. These four Board committees operate under written charters defining their functions and responsibilities. The charters of these committees are available on the Company's website at www.calamp.com.

Audit Committee

The primary functions of the Audit Committee are to review and approve the scope of audit procedures performed by the Company's independent auditors, to review the audit reports rendered by the Company's independent auditors, to monitor the internal control environment within the Company, and to pre-approve the fees for all audit and non-audit services charged by the independent auditors. The Audit Committee reports to the Board of Directors with respect to such matters and makes recommendations with respect to its findings. The Board of Directors has determined that Mr. Moyer is an audit committee financial expert within the meaning of SEC regulations. The Board has also determined that each member of the Audit Committee is independent as defined in the rules of NASDAQ. See also the Report of the Audit Committee included elsewhere herein.

Compensation Committee

The primary functions of the Compensation Committee are to review and make recommendations to the Board of Directors with respect to the compensation of the Company's executive officers and non-employee directors, and to administer the Company's stock option plans. The Board of Directors has determined that each member of the Compensation Committee is independent as defined in the rules of NASDAQ. See also the Compensation Discussion and Analysis beginning on page 11.

Corporate Development Committee

The primary functions of the Corporate Development Committee are to assist Company management and the Board of Directors to evaluate proposed corporate development transactions, including any proposed acquisition or disposition of assets, operations or businesses by merger, acquisition or disposition, business combination or other means, and proposed financing transactions including issuances of debt and equity.

Governance and Nominating Committee

The primary functions of the Governance and Nominating Committee are to review and make recommendations on the composition of the Board and its committees, to evaluate and recommend candidates for election to the Board, and to review and make recommendations to the full Board on corporate governance matters. The Board of

Directors has determined that each member of the Governance and Nominating Committee is independent as defined in the rules of NASDAQ. The Governance and Nominating Committee has the authority to obtain advice and assistance from, and receive appropriate funding from, CalAmp for outside legal, accounting or other advisors as the Governance and Nominating Committee deems necessary to assist it in the performance of its functions.

The bylaws of CalAmp permit stockholders to nominate director candidates to stand for election to the Board at an annual meeting of stockholders. Nominations may be made by the Board or by any stockholder. Under the Company's by-laws, a stockholder may nominate a person for election as a director at a particular stockholder meeting only if written notice has been given to the Company not later than 60 days in advance of the meeting or, if later, the seventh day following the first public announcement of the date of such meeting.

8

The policy of the Governance and Nominating Committee is to consider properly made stockholder nominations for directors as described above under "Identifying and Evaluating Nominees for Directors." In evaluating such nominations, like all nominations, the Board's criteria will include business experience and skills, independence, judgment, integrity, the ability to commit sufficient time and attention to Board activities and the absence of potential conflicts with CalAmp's interests. The Governance and Nominating Committee has not established any specific minimum qualification standards for nominees to the Board, although from time to time the Governance and Nominating Committee may identify certain skills or attributes (e.g., financial experience or business experience) as being particularly desirable to help meet specific Board needs that have arisen. Any stockholder nominations proposed for consideration by the Governance and Nominating Committee should include the nominee's name and qualifications for Board membership and should be addressed to the Governance and Nominating Committee, c/o Corporate Secretary, CalAmp Corp., 1401 North Rice Avenue, Oxnard, California 93030.

Board of Director and Committee Meeting Attendance

In fiscal year 2007, the Board of Directors held 10 meetings, the Audit Committee held 4 meetings, the Compensation Committee held 8 meetings, the Corporate Development Committee held 11 meetings, and the Governance and Nominating Committee held 2 meetings. All directors attended more than 75% of the aggregate meetings of the Board and committees on which the directors serve that were held during fiscal year 2007.

Code of Ethics

The Company has a written Code of Business Conduct and Ethics ("Code of Ethics") that applies to all of the Company's directors, officers and employees. Section 14 of this Code of Ethics contains a Financial Management Code of Ethics that applies specifically to the Company's Chief Executive Officer and all finance and accounting employees including the Company's senior financial officers, in accordance with Section 406 of the Sarbanes-Oxley Act of 2002 and the rules of the Securities and Exchange Commission promulgated thereunder. EXECUTIVE COMPENSATION AND RELATED INFORMATION

Compensation Discussion and Analysis

Role of the Compensation Committee

The members of the Compensation Committee have been appointed by the Board of Directors. The Compensation Committee consists of four directors, all of whom are "independent directors" as defined in the listing standards of the NASDAQ Marketplace Rules. The current members of the Compensation Committee are Arthur Hausman, who serves as Chairman, Bert Moyer, Thomas Pardun and Frank Perna, Jr.

The Compensation Committee operates under a written charter that was originally adopted by the Board in December 2002 and which has subsequently been amended from time to time, most recently in January 2007. The charter of the Compensation Committee is posted on the Company's website at www.calamp.com.

The Compensation Committee is responsible for monitoring the performance and compensation of executive officers, reviewing the compensation plans, including bonuses, and administering the Company's equity award plans. While the Company's Board of Directors is responsible for the final approval of executive compensation, it relies heavily on the advice and recommendations of the Compensation Committee.

Compensation Philosophy and Programs

The Company's executive compensation programs are designed to attract, motivate and retain executives who will contribute significantly to the long-term success of the Company and the enhancement of stockholder value. Consistent with this philosophy, the following goals provide a framework for the Compensation Committee's administration of the executive compensation program:

- executive compensation should be comparable to the median compensation level of technology industry peer companies to allow the Company to attract and retain talented management;
- annual variable compensation should reward the executives for achieving specific results which should lead to increased stockholder value;
- total compensation for each executive should be related to overall Company performance as well as individual performance;
- it should align the interests of the Company's executives with those of its stockholders; and
- supplemental benefits and perquisites that reward executives without regard to performance should be minimal.

Elements of Compensation

In order to achieve the above goals, the named executive officer total compensation packages include base salary and annual bonus paid in cash, as well as long-term compensation in the form of equity awards. *Salary* is set at a competitive level to attract and retain qualified candidates. *Bonuses* are tied specifically to performance of the Company or a specific business unit of the Company and/or individual contributions. *Equity-based incentive awards* are granted in amounts the Compensation Committee believes are necessary to provide incentives for future performance, taking into account competitive long-term incentive practices of similar companies, responsibilities and duties of each officer, and individual performance. This mix of compensation elements is intended to place a significant portion of compensation at risk and emphasizes performance.

The Company also provides executive officers with benefit plans that are generally available to all regular full-time employees of CalAmp. The Compensation Committee believes that appropriately balancing the total compensation package and ensuring the viability of each component of the package (both on its own and taken together as a whole) is necessary in order to provide market-competitive compensation. The Compensation Committee strives to balance the various components of the officer compensation program in order to motivate executives to improve the Company's results on a cost-effective basis. The factors that are used to determine individual compensation packages are generally similar for each named executive officer, including the CEO.

Role of Management in the Compensation Determination Process

The Compensation Committee periodically meets with Fred Sturm, the Company's Chief Executive Officer, and/or Richard Vitelle, the Company's Chief Financial Officer, to obtain information with respect to compensation programs. Mr. Sturm makes recommendations to the Committee on the base salaries, incentive targets and measures, and equity compensation for the Company's executive officers. The Compensation Committee

considers, but is not bound by and does not always accept, management's recommendations with respect to executive officer compensation. The Compensation Committee also typically seeks input from compensation consultants or other independent information sources prior to making any final determinations. Messrs. Sturm and Vitelle attend most of the Compensation Committee's meetings, but the Committee also regularly holds executive sessions not attended by any members of management. The Compensation Committee discusses Mr. Sturm's compensation package with him, but makes decisions with respect to Mr. Sturm's compensation without him present. The Committee has not delegated any of its authority with respect to the compensation of executive officers to any member of management.

Role of Compensation Consultants in the Compensation Determination Process

The Compensation Committee has the authority to engage its own compensation consultants and other independent advisors to assist in creating and administering the Company's executive compensation policies. Each year since 2003, the Compensation Committee has retained the services of Towers Perrin, an independent compensation consulting firm, to conduct various compensation-related studies and analyses. During this time period, Towers Perrin has not provided any other services to the Company and has received no compensation other than with respect to the services provided to the Compensation Committee.

Determination of Executive Officer Compensation for Fiscal 2007

In March 2006, the Compensation Committee engaged Towers Perrin to assist the Committee in the evaluation of appropriate cash and equity compensation for executive management for fiscal 2007. Towers Perrin prepared a competitive compensation analysis by comparing the Company's executive officer compensation with combined, or blended, compensation data of the Radford Executive Survey and of a public company peer group as reported in proxy statements and other public filings. The peer group for fiscal 2007, consisting of 10 companies of similar size and profile to CalAmp, was established in consultation with management and was approved by the Compensation Committee. These peer group companies are C-Cor Inc., Dot Hill Systems Corp., EMS Technologies Inc., Harmonic Inc., Herley Industries Inc., Novatel Wireless Inc., Stratex Networks Inc., Symmetricom Inc., Terayon Communication Systems Inc. and Universal Electronics Inc.

The results of Towers Perrin's fiscal 2007 competitive compensation analysis were presented to the Compensation Committee at a meeting held in early April 2006, at which time the CEO also presented proposed amounts for fiscal 2007 officer compensation. The Committee considered the competitive compensation analysis and the CEO's recommendations, requested that certain modifications be made to the compensation proposals, and subsequently approved the modified proposals, subject to ratification by the full Board. On May 5, 2006, the Board of Directors ratified the named executive officer base salaries, short-term incentive compensation plan and equity awards for fiscal 2007, subject to the subsequent adjustment of the short-term incentive plan by the Board of Directors to reflect acquisitions, divestitures and other significant corporate events.

As a result of the acquisitions on May 26, 2006 of Dataradio Inc. and the Mobile Resource Management product line of TechnoCom Corporation, and the Solutions Division goodwill impairment charge of \$29.7 million pursuant to an impairment analysis conducted in June 2006, the Compensation Committee and the Board determined that the fiscal 2007 officer short-term incentive plan should be revised to take these factors into consideration. Accordingly, management developed and presented a revised fiscal 2007 officer short-term incentive plan to the Compensation Committee. The Compensation Committee reviewed and discussed the proposed revisions to the fiscal 2007 incentive plan, asked that certain modifications be made thereto, including reincorporating consolidated and division revenue amounts in the financial performance goals, and subsequently the modified short-term incentive plan was approved by the Committee, subject to ratification by the full Board (which ratification was obtained on July 31, 2006).

Base Salary

Base salary for named executive officers, including that of the CEO, is set according to the responsibilities of the position, the specific skills and experience of the individual and the competitive market for executive talent. The Compensation Committee reviews salaries annually and adjusts them as appropriate to reflect changes in market conditions, individual performance and responsibilities, and the Company's financial position. The aggregate value of total cash compensation (base salary and bonus) for executives is generally targeted at approximately the 50th percentile of executive compensation at comparable companies, based on the blended Radford survey data and

public company peer group data, with the intent that superior performance under incentive bonus plans would enable the executive to elevate his total cash compensation to levels that are above the average of comparable companies. Base salaries for the named executive officers are disclosed in the Summary Compensation Table on page 18.

Short-Term Incentive Compensation Plan

The Company's annual incentive bonus plan for executive officers reflects the Compensation Committee's belief that a meaningful component of executive compensation should be contingent on the financial performance of the Company and the individual performance of the officers. Prior to fiscal 2007, the officer incentive bonus plan was based primarily on the achievement of profitability goals, with the target bonus factored up or down, within minimum and maximum limits, based on the Company's (or in the case of divisional presidents, the Company's and the division's) performance against earnings targets specified in advance by the Compensation Committee. For fiscal 2007, the Compensation Committee changed the structure of the officer incentive bonus plan to include revenue performance targets and individual non-financial performance objectives in addition to profitability targets. Revenue and profitability targets were established in connection with the Company's annual budgeting process. These measures are believed to best reflect the short-term performance of the Company, as they are directly influenced by management's actions. For fiscal 2007 the division profitability target was operating income, and the consolidated profitability target was pretax income. Individual non-financial performance objectives were established for each executive officer in light of his departmental responsibilities and operational priorities.

For each financial measure, minimum, target and maximum performance levels were set, corresponding to payout levels of 33%, 100%, and 167% to 200% of the target incentive, respectively. The Committee believes that this structure rewards the executives for overachievement of the Company's financial goals and provides limited downside protection in the event of performance that is close to, but below, the target level. The target levels for each measure are generally set at approximately the levels set forth in the annual operating plan established by management and approved by the Board in advance of each year, which are levels that the Board feels are challenging but achievable with significant effort. The maximum levels for each measure are generally set so as to represent both extremely challenging performance goals and outstanding achievement. Payouts are prorated on a straight-line basis for achievement between the minimum and target levels or the target and maximum levels. If the Company does not achieve at least the minimum performance level for a measure, no payout is made for that measure.

The following is a description of the Company's fiscal 2007 revised incentive compensation plan for the named executive officers:

- Fred Sturm (President and CEO), was eligible for target and maximum bonuses of up to 60% and 100%, respectively, of his annual salary. Patrick Hutchins (then President of the Products Division and now president of the Satellite Division), Steven L'Heureux (Solutions Division President) and Richard Vitelle (Vice President, Finance and CFO) were each eligible for target bonuses of up to 45% of annual salary, and maximum bonuses of up to 75% of annual salary. Michael Burdick (then Executive Vice President - Wireless Datacom Strategy and Integration and now President of the Wireless DataCom Division) was eligible for a target bonus of up to 30% of annual salary, and a maximum bonus of up to 60% of annual salary.
- The target and maximum bonus amounts for Messrs. Sturm and Vitelle were based 70% upon the Company attaining certain levels of consolidated revenue and consolidated pretax income for fiscal 2007 and 30% upon achieving certain individual performance goals.
- The target and maximum bonus amounts for Mr. Hutchins were based 70% on attaining certain levels of Products Division revenue and operating income for fiscal 2007 and 30% upon achieving certain individual performance goals.
- The target and maximum bonus amounts for Mr. L'Heureux were based 60% on attaining certain levels of Solutions Division revenue and operating income for fiscal 2007 and 40% upon achieving certain individual performance goals.
- The target and maximum bonus amounts for Mr. Burdick were based 50% on attaining certain levels of consolidated revenue and consolidated pretax income for fiscal 2007 and 50% upon achieving certain individual performance goals.
- The consolidated pretax income goal amount for Messrs. Sturm, Vitelle and Burdick excluded: (i) the fiscal 2007 intangible asset amortization expense associated with the May 2006 acquisitions of Dataradio Inc. and the TechnoCom Mobile

Edgar Filing: CalAmp Corp. - Form DEF 14A

Resource Management product line; (ii) the \$6.9 million write-off of in-process research and development costs associated with the Dataradio acquisition; and (iii) the Solutions Division goodwill impairment charge of \$29.8 million.

- The Products Division revenue goal amount for Mr. Hutchins excluded the fiscal 2007 revenue of Dataradio, and the Products Division operating income goal amount for Mr. Hutchins excluded the fiscal 2007 operating income of Dataradio and the fiscal 2007 intangible asset amortization expense associated with the TechnoCom product line acquisition.
- The Solutions Division operating income goal amount for Mr. L'Heureux excluded the Solutions Division goodwill impairment charge of \$29.8 million.

Fiscal 2007 bonus payments under the revised short-term incentive plan were approved by the Board of Directors at its meeting on May 8, 2007. These bonus amounts are disclosed in the column titled "Non-Equity Incentive Plan (Bonus Plan)" of the Summary Compensation Table on page 18.

Adjustment or Recovery of Payments

CalAmp does not currently have a policy requiring a fixed course of action with respect to compensation adjustments following later restatements of performance targets. Under those circumstances, the Compensation Committee and the Board would evaluate whether compensation adjustments were appropriate based upon the facts and circumstances surrounding the restatement.

Equity Awards

The Compensation Committee believes that equity compensation plans are an essential tool to link the long-term interests of stockholders and employees, especially the Chief Executive Officer and executive management, and serve to motivate executives to make decisions that will, in the long run, give the best returns to stockholders. The competitive compensation analysis that Towers Perrin prepared and delivered to the Compensation Committee in early April 2006 indicated that total direct compensation (base salary, cash bonus and the expected value of long-term incentive awards) of CalAmp's executive officers was, as a group, 7% below the 50th percentile of comparable companies' total direct compensation, and 31% below the 75th percentile of comparable companies' total direct compensation, primarily as a result of significant shortfalls in the delivered value of equity-based awards relative to comparable companies. This notwithstanding, the fiscal 2007 stock options awarded to Messrs. Sturm, Vitelle, Hutchins and L'Heureux on May 5, 2006 of 150,000, 60,000, 60,000 and 30,000 options, respectively, were in the same quantities as the stock options awarded to these officers in fiscal 2006. Mr. Burdick was awarded an initial grant of 65,000 stock options upon joining the Company in June 2006.

FAS 123R required the Company to record a charge to earnings for employee and director stock options and director restricted stock beginning in fiscal 2007. The Compensation Committee continues to assess the impact of the accounting standard on the Company's earnings, and the attitude of financial analysts and investors towards these significant and potentially volatile non-cash charges. The Committee continues to believe that broad-based equity plans remain an essential element of a competitive compensation package, as such plans are offered currently by most public technology companies with whom the Company competes for both executives and non-executive employees. In order to moderate the financial statement impact of the FAS 123R accounting rules, the number of equity awards granted annually in the future may be reduced compared to awards made in fiscal 2007 and prior years.

Equity Award Practices

The Compensation Committee or the Board of Directors approves all equity awards. Stock options are generally granted when a key employee, including an executive officer, joins the Company, and on an annual basis thereafter. These stock options typically vest over a four year period and are granted at an exercise price equal to the fair market value of the Company's common stock on the date of grant. The date of grant is the date on which the Compensation Committee or the Board meets and approves the particular option grant or grants. Up to and including fiscal 2007, the Company has granted stock options to officers and other key employees during the first fiscal quarter, except for new hire grants that typically have been granted at or soon after the employee's start date. Beginning in fiscal 2008, the Company plans to make the annual grant of equity awards to officers and key employees on the day of the annual stockholders meeting, at the same time that equity awards are made to non-employee directors pursuant to the provisions of the Company's 2004 Incentive Stock Plan.

The size of an initial stock option grant is based upon the position, responsibilities and expected contribution of the individual, with subsequent grants also taking into account the individual's performance and potential contributions. This approach is designed to maximize stockholder value over the long term, because no benefit is realized from the option grant unless the price of the Company's common stock has increased over a number of years.

The Company does not time the granting of equity awards with any favorable or unfavorable news released by the Company. The timing of initial grants is driven by the date of hire of new employees. The Board of Directors and Compensation Committee meeting schedules, for review and approval of annual grants, are usually established several months or more in advance.

Executive Officer Stock Ownership Guidelines

In April 2004, the Compensation Committee adopted executive officer stock ownership guidelines. For the Chief Executive Officer, the guideline stock ownership amount is 2-1/2 times annual base salary, and for all other executive officers the guideline stock ownership amount is 1-1/2 times annual base salary. The market value of the stock on the date of acquisition serves as the basis for determining compliance with the guidelines.

Retirement Benefits

The Company does not provide pension benefits or deferred compensation plans to any of its employees, including named executive officers, other than a 401(k) plan that is open to all regular, full-time U.S. employees. The 401(k) plan is a tax-qualified retirement savings plan pursuant to which all U.S. based employees, including the named executive officers, are permitted to contribute up to the limit prescribed by the Internal Revenue Service on a before-tax basis. The Company matches 50% of the first 4% of pay that is contributed to the 401(k) plan each year.

Severance and Change of Control Payments

The Company's Board of Directors has provided certain executive officers with severance and change of control arrangements in order to promote stability and continuity, and to mitigate a potential disincentive for the executives to pursue and execute an acquisition of the Company, particularly where the services of these executive officers may not be required by the acquirer. For a more detailed description of these severance and change of control benefits, please see the discussion under "Change of Control and Salary Continuation Arrangements" below.

Other Compensation

Other elements of executive compensation include life and long-term disability insurance and health benefits. These benefits are also available to all regular, full-time U.S. employees of the Company, except that the Company pays the entire disability and health insurance premiums for the named executive officers. The named executive officers are also covered by a supplemental medical insurance program that reimburses the officer for out-of-pocket eligible medical costs up to an annual limit of \$100,000 per officer. Company payments for named executive officers pursuant to these other elements of compensation in fiscal 2007 are included in the "All Other Compensation" column in the Summary Compensation Table on page 18.

Tax and Accounting Implications

As part of its role, the Compensation Committee reviews and considers the deductibility of executive compensation under Section 162(m) of the Internal Revenue Code, that provides that the Company may not deduct compensation of more than \$1,000,000 that is paid to certain individuals. To qualify for deductibility under Section 162(m), compensation in excess of \$1,000,000 per year paid to the named executive officers at the end of such fiscal year generally must be "performance-based" compensation as determined under Section 162(m). The Compensation Committee generally intends to comply with the requirements for full deductibility of executive compensation under Section 162(m). However, the Compensation Committee will balance the costs and burdens involved in such compliance against the value to the Company and its stockholders of the tax benefits that the Company would obtain as a result, and may in certain instances pay compensation that is not fully deductible if, in its determination, such costs and burdens outweigh such benefits.

Report of the Compensation Committee on Executive Compensation

The following Report of the Compensation Committee on Executive Compensation does not constitute soliciting material and shall not be deemed filed or incorporated by reference into any other Company filing under the Securities Act of 1933, as amended, or the Securities Exchange Act of 1934, as amended, except to the extent the Company specifically incorporates this Audit Committee Report by reference therein.

The Compensation Committee has reviewed and discussed with management the Compensation Discussion and Analysis contained in this Proxy Statement. Based on the Compensation Committee's review of and the discussions with management with respect to the Compensation Discussion and Analysis, the Compensation Committee has recommended to the Board of Directors that the Compensation Discussion and Analysis be included in this Proxy Statement and be incorporated by reference in the Company's Annual Report on Form 10-K for the fiscal year ended February 28, 2007.

(1) Amounts shown in this column represent the fiscal 2007 FAS 123R fair value compensation expense for financial statement reporting purposes computed using the Black-Scholes option pricing model and assuming no forfeitures. Assumptions made for the purpose of computing these amounts are described in the Company's fiscal 2007 Annual Report on Form 10-K in Note 1 to the Consolidated Financial Statements under the heading "Accounting for Stock Options" and in Note 8 to the Consolidated Financial Statements under the heading "Stock Options". Amounts shown in this column for Messrs. Sturm, Vitelle and Hutchins represent FAS 123R fair value option compensation associated with four annual option grants (fiscal years 2004 through 2007) to the extent that such fair value was amortized to expense in fiscal 2007, while the expense shown for Mr. L'Heureux relates to three annual option grants (fiscal years 2005 through 2007) and the expense shown for Mr. Burdiek, who joined the Company in June 2006, relates to one option grant made in fiscal 2007. There were no realized gains from option exercises for the named executive officers in fiscal 2007 but if there had been, such amounts would have been reported in a separate table.

(2) Amounts paid were determined on the basis of attaining certain financial targets for fiscal 2007 and achievement of certain individual goals specific to each officer.

(3) Represents a sign-on bonus paid to Mr. Burdiek when he joined the Company in June 2006.

(4) Mr. L'Heureux's position was eliminated effective May 15, 2007, and pursuant to the provisions of his employment agreement he is receiving continuation payments of his \$241,000 annual salary for a 12-month period. The elimination of his position occurred subsequent to the fiscal year covered by the table above, and accordingly these severance benefits are not included therein.

(5) Includes \$4,574 Company matching contribution under 401(k) Plan, \$8,702 under an executive medical cost reimbursement program and \$6,799 for health, disability and life insurance premiums paid by the Company for the benefit of Mr. Sturm.

(6) Includes \$4,531 Company matching contribution under 401(k) Plan, \$275 under an executive medical cost reimbursement program, and \$5,190 for health, disability and life insurance premiums paid by the Company for the benefit of Mr. Vitelle.

(7) Includes \$923 Company matching contribution under 401(k) Plan, \$296 under an executive medical cost reimbursement program and \$4,709 for health, disability and life insurance premiums paid by the Company for the benefit of Mr. Burdiek.

(8)

Includes \$4,531 Company matching contribution under 401(k) Plan, \$5,850 under an executive medical cost reimbursement program and \$6,557 for health, disability and life insurance premiums paid by the Company for the benefit of Mr. Hutchins.

- (9) Includes \$4,423 Company matching contribution under 401(k) Plan, \$2,301 under an executive medical cost reimbursement program, \$7,566 for health, disability and life insurance premiums paid by the Company for the benefit of Mr. L'Heureux, \$18,871 for lodging expenses paid by the Company on Mr. L'Heureux's behalf, and \$7,403 for a tax gross-up on the lodging expenses.

Change of Control and Salary Continuation Arrangements

The Company has entered into change of control and salary continuation agreements with certain named executive officers designed to protect such executives against the loss of their positions as a result of termination following a Change of Control or termination without Cause, in which:

- "Change of Control" is defined as the first to occur of (i) the sale or other transfer of all or substantially all of the assets of the Company to any person or group; (ii) the adoption of a plan of liquidation or dissolution of the Company; (iii) the merger or consolidation of the Company with or into another entity, or the merger of another entity into the Company or any subsidiary of the Company with the effect that immediately after the transaction the stockholders of the Company hold less than 50% of the total voting power of all securities entitled to vote in the election of directors, managers or trustees of the entity surviving such merger or consolidation; or (iv) the acquisition by any person or group of more than 50% of the voting power of all securities of the Company entitled to vote in the election of directors of the Company; and
- "Cause" is defined as the occurrence or existence of any of the following with respect to the covered executive officer, as determined by a majority of the directors of the Board: (i) unsatisfactory performance of the officer's duties or responsibilities, after written notice and reasonable opportunity to cure; (ii) willful failure to follow any lawful directive of the Company or Board consistent with the officer's position and duties, after written notice and reasonable opportunity to cure; (iii) material breach by the officer of his duty not to engage in any transaction that represents, directly or indirectly, self-dealing with the Company or any of its affiliates that has not been approved by a majority of the disinterested directors of the Board; (iv) commission of any willful or intentional act that could reasonably be expected to materially injure the property, reputation, business or business relationships of the Company or its customers; or (v) the conviction or the plea of "no contest" to a felony involving moral turpitude.

If the officer is terminated at any time without Cause, or the officer terminates his employment for Good Reason within the 12-month period immediately following a Change of Control, then the officer is entitled to severance in the form of continuation of payments of base salary and employee benefits coverage for 12 months (or 24 months in the case of the Chief Executive Officer). "Good Reason" means: (i) a material change or reduction in the officer's authority, duties and responsibilities following a Change of Control; (ii) transfer of the officer to another work location that is materially further away from the officer's current primary residence than the officer's current work location; or (iii) a reduction in the officer's base salary.

19

Each change in control agreement continues in effect until May 30, 2008, and automatically renews for successive one year terms thereafter; provided, however, that failure by the Company to renew the agreement constitutes termination without Cause.

The Company entered into change of control and salary continuation agreements with Messrs. Sturm, Hutchins and Vitelle in May 2002 and with Mr. L'Heureux in July 2005. Mr. L'Heureux's position with the Company was eliminated effective May 15, 2007, and he is currently receiving continuation payments of his \$241,000 annual salary for a 12-month period pursuant to the termination without Cause provisions described above. For illustration purposes, if the Change of Control or salary continuation provisions had been triggered as of the end of fiscal 2007 for Messrs. Sturm, Vitelle or Hutchins, the total salary severance benefits payable would have been \$830,000 in the case of Mr. Sturm (two times base salary) and \$268,000 each in the case of Messrs. Vitelle and Hutchins (one times base salary).

(A) The amounts shown in these columns represent the threshold, target and maximum payout levels under the revised fiscal 2007 executive officer short-term incentive plan. The actual amount of incentive bonus earned by each named executive officer for fiscal 2007 is reported under the "Non-Equity Incentive Plan (Bonus Plan)" column of the Summary Compensation Table.

(B) Prior to May 8, 2007, the Company's 2004 Incentive Stock Plan (the "2004 Plan") provided that the option exercise price was set at an amount not less than the closing stock price on the trading day immediately preceding the date of grant, and pursuant to this provision it was the Company's practice of setting the option exercise price equal to the closing stock price on the trading day immediately preceding the date of grant. On May 8, 2007, the 2004 Plan was amended to provide that the option exercise price will be set at an amount not less than the closing stock price on the date of grant.

(C) The amounts shown in this column are the grant date fair values calculated pursuant to FAS 123R.

Outstanding Equity Awards at the End of Fiscal 2007

The following table sets forth the outstanding equity awards of each named executive officer as of the end of fiscal 2007. All outstanding equity awards reported in this table consist of stock options that vest in equal annual installments over four years and expire 10 years from the date of grant. At the end of fiscal 2007 there were no unearned equity awards under performance-based plans.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Under the securities laws of the United States, the Company's directors, its executive officers, and any persons holding more than 10 percent of the Company's Common Stock are required to report their initial ownership of the Company's Common Stock and any subsequent changes in that ownership to the Securities and Exchange Commission, the National Association of Securities Dealers and the Company. Specific due dates for these reports have been established and the Company is required to disclose in this Proxy Statement any failure to file, or late filing, of such reports with respect to the fiscal year ended February 28, 2007. Based solely upon a review of reports delivered to the Company during this period, all of these filing requirements were satisfied on a timely basis.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

The Company has adopted a policy pursuant to which material transactions between the Company and its executive officers, directors, nominees for election as directors, and principal stockholders (i.e., stockholders owning beneficially five percent or more of the outstanding voting securities of the Company) and members of the immediate family of any of the foregoing persons, shall be submitted to the Board of Directors for approval by a disinterested majority of the directors voting with respect to the transaction. For this purpose, a transaction is deemed material if such transaction, alone or together with a series of similar transactions during the same fiscal year, involves an amount that exceeds \$60,000. No such transactions occurred during the fiscal year ended February 28, 2007.

REPORT OF THE AUDIT COMMITTEE

The following Audit Committee Report does not constitute soliciting material and shall not be deemed filed or incorporated by reference into any other Company filing under the Securities Act of 1933, as amended, or the Securities Exchange Act of 1934, as amended, except to the extent the Company specifically incorporates this Audit Committee Report by reference therein.

The members of the Audit Committee have been appointed by the Board of Directors. The Audit Committee operates under a written charter that was adopted by the Board in May 2001 and last amended in October 2004. The Audit Committee consists of three directors, none of whom were or are officers or employees of the Company. The current members of the Audit Committee are A.J. "Bert" Moyer, who serves as Chairman, Richard Gold and Frank Perna, Jr. Each is an "independent" director within Section 4200(a)(15) of the National Association of Securities Dealers' Marketplace Rules.

Duties of the Audit Committee during the period covered by this Report were to:

- oversee the Company's internal accounting and operational controls as well as its financial and regulatory reporting,

- select the Company's independent auditors and assess their performance on an ongoing basis,
- review the Company's interim and year-end financial statements and audit findings with management and the Company's independent auditors, and take any action considered appropriate by the Audit Committee and the Board,
- review the Company's general policies and procedures regarding audits, accounting and financial controls, the scope and results of the auditing engagement, and the extent to which the Company has implemented changes suggested by the auditors,
- review the results of each audit by the Company's independent accountants and discuss with them any factors, including, without limitation, the provision of any non-audit services, that may affect their independence,
- perform other oversight functions as requested by the full Board, and
- report activities performed to the full Board.

Management is responsible for the Company's internal controls. The Company's independent auditors are responsible for performing an independent audit of the Company's consolidated financial statements in accordance with the standards of the Public Company Accounting Oversight Board (United States) and to issue a report thereon. The Audit Committee's responsibility is to monitor and oversee these processes.

In this context, the Audit Committee reviewed CalAmp's audited financial statements for the fiscal year ended February 28, 2007 and discussed these financial statements with both the management of the Company and KPMG LLP ("KPMG"), CalAmp's independent public accountants. The Company's management, which has primary responsibility for the Company's financial statements, represented to the Audit Committee that its audited financial statements were prepared in accordance with accounting principles generally accepted in the United States.

24

The Audit Committee also discussed with KPMG the matters required to be discussed by Statement on Auditing Standards (SAS) No. 61, "Communication with Audit Committees," and SAS No. 90, "Audit Committee Communications." The Audit Committee also received from KPMG the written disclosures and letter required by Independence Standards Board Standard No. 1, "Independence Discussions with Audit Committees," and discussed with KPMG the independence of that firm. For the fiscal year ended February 28, 2007, KPMG received fees for the audit of CalAmp's consolidated financial statements and for related tax compliance and tax planning services. The Audit Committee also considered whether the provision of these services is compatible with maintaining the independence of KPMG.

Based on the review and discussions as described above, and in reliance thereon, the Audit Committee recommended to the Board of Directors that the audited financial statements be included in the Company's Annual Report on Form 10-K for the fiscal year ended February 28, 2007.

During fiscal 2007, management evaluated the Company's system of internal control over financial reporting in accordance with Section 404 of the Sarbanes-Oxley Act and related regulations. The Audit Committee was kept apprised of the progress of the evaluation and provided oversight and advice to management during the process. In connection with this oversight, the Audit Committee received periodic updates at its meetings. Once the documentation, testing and evaluation were completed, the Audit Committee reviewed and discussed with management its assessment and report on the effectiveness of the Company's internal control over financial reporting as of February 28, 2007. During fiscal 2007, the Audit Committee met with KPMG, with and without management present, to discuss the results of its examination and its observations and recommendations regarding the Company's internal control over financial reporting. The Audit Committee also reviewed and discussed with KPMG its attestation report on management's assessment of internal control over financial reporting and its review and report on the Company's internal control over financial reporting. The Company filed these reports with the SEC in its Annual Report on Form 10-K for the fiscal year ended February 28, 2007.

The Audit Committee pre-approved all of the foregoing fees in accordance with the Audit Committee's pre-approval policy described below.

Policy on Audit Committee Pre-Approval of Audit and Non-Audit Services of Independent Auditor.

The Audit Committee's policy is to pre-approve all audit and non-audit services provided by the independent auditor. These services may include audit services, audit-related services, tax services and other services. Pre-approval is generally provided for up to one year and any pre-approval is detailed as to the particular service or category of services and is generally subject to a specific budget. The Audit Committee may delegate pre-approval authority to one or more of its members, and the member or members to whom such authority is delegated must report any pre-approval decision to the Audit Committee at its next scheduled meeting. The Audit Committee cannot delegate its responsibilities to pre-approve services performed by the independent auditor to management. The Audit Committee's pre-approval policy includes a list of prohibited non-audit services, such as financial information systems design and implementation, that the independent auditor cannot perform for the Company under any circumstances.
