Form 10-Q
May 02, 2014

UNITED STATES SECURITIES AND EXCHANGE COMMISSION
WASHINGTON, D.C. 20549

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended March 31, 2014

or

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission File Number: 1-14303

AMERICAN AXLE & MANUFACTURING HOLDINGS, INC.
(Exact Name of Registrant as Specified in Its Charter)

Delaware 38-3161171
(State or Other Jurisdiction of Incorporation or Organization) (I.R.S. Employer Identification No.)

One Dauch Drive, Detroit, Michigan 48211-1198
(Address of Principal Executive Offices) (Zip Code)
(313) 758-2000
(Registrant's Telephone Number, Including Area Code)

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See definition of "accelerated filer," "large accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer Accelerated filer Non-accelerated filer Smaller reporting company

(Do not check if a smaller reporting company)

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

As of April 30, 2014, the latest practicable date, the number of shares of the registrant's Common Stock, par value \$0.01 per share, outstanding was 75,679,151 shares.

Internet Website Access to Reports

The website for American Axle & Manufacturing Holdings, Inc. is www.aam.com. Our annual reports on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K and amendments to those reports filed or furnished pursuant to Section 13 or 15(d) of the Exchange Act are available free of charge through our website as soon as reasonably practicable after they are electronically filed with, or furnished to, the Securities and Exchange Commission (SEC). The SEC also maintains a website at www.sec.gov that contains reports, proxy and information statements, and other information regarding issuers that file electronically with the SEC.

FORWARD-LOOKING STATEMENTS

In this Quarterly Report on Form 10-Q (Quarterly Report), we make statements concerning our expectations, beliefs, plans, objectives, goals, strategies, and future events or performance. Such statements are “forward-looking” statements within the meaning of the Private Securities Litigation Reform Act of 1995 and relate to trends and events that may affect our future financial position and operating results. The terms such as “will,” “may,” “could,” “would,” “plan,” “believe,” “expect,” “anticipate,” “intend,” “project,” “target,” and similar words or expressions, as well as statements in future tense, are intended to identify forward-looking statements.

Forward-looking statements should not be read as a guarantee of future performance or results, and will not necessarily be accurate indications of the times at, or by, which such performance or results will be achieved. Forward-looking statements are based on information available at the time those statements are made and/or management’s good faith belief as of that time with respect to future events and are subject to risks and may differ materially from those expressed in or suggested by the forward-looking statements. Important factors that could cause such differences include, but are not limited to:

- reduced purchases of our products by General Motors Company (GM), Chrysler Group LLC (Chrysler) or other customers;
- reduced demand for our customers' products (particularly light trucks and sport utility vehicles (SUVs) produced by GM and Chrysler);
- our ability or our customers' and suppliers' ability to successfully launch new product programs on a timely basis;
- our ability to realize the expected revenues from our new and incremental business backlog;
- our ability to develop and produce new products that reflect market demand;
- lower-than-anticipated market acceptance of new or existing products;
- our ability to attract new customers and programs for new products;
- our ability to respond to changes in technology, increased competition or pricing pressures;
- our ability to achieve the level of cost reductions required to sustain global cost competitiveness;
 - supply shortages or price increases in raw materials, utilities or other operating supplies for us or our customers as a result of natural disasters or otherwise;
- global economic conditions, including the impact of the continued market weakness in the Euro-zone;
- risks inherent in our international operations (including adverse changes in political stability, taxes and other law changes, potential disruptions of production and supply, and currency rate fluctuations);
- liabilities arising from warranty claims, product recall or field actions, product liability and legal proceedings to which we are or may become a party, or the impact of product recall or field actions on our customers;
- price volatility in, or reduced availability of, fuel;
- our ability to successfully implement upgrades to our enterprise resource planning systems;
- our ability to maintain satisfactory labor relations and avoid work stoppages;
- our suppliers', our customers' and their suppliers' ability to maintain satisfactory labor relations and avoid work stoppages;
- our ability to attract and retain key associates;
 - availability of financing for working capital, capital expenditures, research and development (R&D) or other general corporate purposes, including our ability to comply with financial covenants;
- our customers' and suppliers' availability of financing for working capital, capital expenditures, R&D or other general corporate purposes;
- changes in liabilities arising from pension and other postretirement benefit obligations;
- risks of noncompliance with environmental laws and regulations or risks of environmental issues that could result in unforeseen costs at our facilities;
- adverse changes in laws, government regulations or market conditions affecting our products or our customers' products (such as the Corporate Average Fuel Economy (CAFE) regulations);

- our ability to consummate and integrate acquisitions and joint ventures;
- our ability or our customers' and suppliers' ability to comply with the Dodd-Frank Act and other regulatory requirements and the potential costs of such compliance; and
- other unanticipated events and conditions that may hinder our ability to compete.

It is not possible to foresee or identify all such factors and we make no commitment to update any forward-looking statement or to disclose any facts, events or circumstances after the date hereof that may affect the accuracy of any forward-looking statement.

AMERICAN AXLE & MANUFACTURING HOLDINGS, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
March 31, 2014
(Unaudited)

1. ORGANIZATION AND BASIS OF PRESENTATION

Organization American Axle & Manufacturing Holdings, Inc. (Holdings) and its subsidiaries (collectively, we, our, us or AAM) is a Tier I supplier to the automotive industry. We manufacture, engineer, design and validate driveline and drivetrain systems and related components and chassis modules for light trucks, sport utility vehicles (SUVs), passenger cars, crossover vehicles and commercial vehicles. Driveline and drivetrain systems include components that transfer power from the transmission and deliver it to the drive wheels. Our driveline, drivetrain and related products include axles, chassis modules, driveshafts, power transfer units, transfer cases, chassis and steering components, driveheads, transmission parts and metal-formed products. In addition to locations in the United States (U.S.) (Michigan, Ohio, Indiana and Pennsylvania), we also have offices or facilities in Brazil, China, Germany, India, Japan, Luxembourg, Mexico, Poland, Scotland, South Korea, Sweden and Thailand.

Basis of Presentation We have prepared the accompanying interim condensed consolidated financial statements in accordance with the instructions to Form 10-Q under the Securities Exchange Act of 1934. These condensed consolidated financial statements are unaudited but include all normal recurring adjustments, which we consider necessary for a fair presentation of the information set forth herein. Results of operations for the periods presented are not necessarily indicative of the results for the full fiscal year.

The balance sheet at December 31, 2013 presented herein has been derived from the audited consolidated financial statements at that date but does not include all of the information and footnotes required by accounting principles generally accepted in the United States of America (GAAP) for complete consolidated financial statements.

In order to prepare the accompanying interim condensed consolidated financial statements, we are required to make estimates and assumptions that affect the reported amounts and disclosures in our interim condensed consolidated financial statements. Actual results could differ from those estimates.

For further information, refer to the audited consolidated financial statements and notes included in our Annual Report on Form 10-K for the year ended December 31, 2013.

Revenue Recognition In the first quarter of 2014, we reached an agreement with General Motors Company (GM) to increase installed capacity and adjust product mix for our largest vehicle program. As a result of this agreement, we received \$13.8 million in the first quarter of 2014 and recorded a receivable for \$20.6 million that we expect to receive in three equal installments over the remaining three quarters of 2014. We recorded deferred revenue of \$34.4 million related to this agreement. We will recognize this deferred revenue into sales over the life of the program on a straight line basis over approximately 5 years, which is the period we expect GM to benefit from this capacity and mix change. In the first quarter of 2014, we recognized revenue of \$0.3 million related to this agreement. As of March 31, 2014, we have \$7.2 million of deferred revenue that is classified as a current liability and \$26.9 million of deferred revenue that is recorded as a noncurrent liability on our Condensed Consolidated Balance Sheet.

Also in the first quarter of 2014, we reached an agreement with GM to recover certain costs related to the delay of another major product program. We received \$5.7 million in the first quarter of 2014 and recorded a receivable for \$3.6 million that we expect to receive in the second quarter of 2014 related to this agreement. As of March 31, 2014, we recorded deferred revenue of \$9.3 million, \$1.1 million of which is classified as a current liability and \$8.2 million is recorded as a noncurrent liability on our Condensed Consolidated Balance Sheet. We will recognize this deferred

revenue into sales over the life of the program on a straight-line basis over approximately 8 years, which is the period we expect GM to benefit from this agreement. We will begin recognizing this deferred revenue as revenue in the second quarter of 2014 when this program is launched in certain markets.

Effect of New Accounting Standards On January 1, 2014, new accounting guidance became effective regarding financial statement presentation of an unrecognized tax benefit when a net operating loss (NOL) carryforward, a similar tax loss, or a tax credit carryforward exists. The new guidance requires entities to present an unrecognized tax benefit, or a portion of an unrecognized tax benefit, in the financial statements as a reduction to a deferred tax asset for an NOL carryforward, a similar tax loss, or a tax credit carryforward, except when one is not available as of the reporting date or the entity does not intend to use the deferred tax asset for this purpose. This guidance does not affect the tabular reconciliation of the total amounts of

AMERICAN AXLE & MANUFACTURING HOLDINGS, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

unrecognized tax benefits, as the tabular reconciliation presents the gross amount of unrecognized tax benefits. The adoption of this new guidance has had no impact on our condensed consolidated financial statements.

2. INVENTORIES

We state our inventories at the lower of cost or market. The cost of our inventories is determined using the FIFO method. When we determine that our gross inventories exceed usage requirements, or if inventories become obsolete or otherwise not saleable, we record a provision for such loss as a component of our inventory accounts.

Inventories consist of the following:

	March 31, 2014 (in millions)	December 31, 2013
Raw materials and work-in-progress	\$258.6	\$263.4
Finished goods	27.8	25.7
Gross inventories	286.4	289.1
Inventory valuation reserves	(28.4) (27.3
Inventories, net	\$258.0	\$261.8

3. LONG-TERM DEBT

Long-term debt consists of the following:

	March 31, 2014 (in millions)	December 31, 2013
Revolving credit facility	\$—	\$—
Term facility	148.1	150.0
7.75% Notes	200.0	200.0
6.625% Notes	550.0	550.0
6.25% Notes	400.0	400.0
5.125% Notes	200.0	200.0
Foreign credit facilities	75.1	53.8
Capital lease obligations	5.2	5.3
Long-term debt	\$1,578.4	\$1,559.1

Revolving Credit Facility and Term Facility As of March 31, 2014, the revolving credit facility provided up to \$523.5 million of revolving bank financing commitments through September 13, 2018. At March 31, 2014, we had \$501.7 million available under the revolving credit facility. This availability reflects a reduction of \$21.8 million for standby letters of credit issued against the facility.

The revolving credit facility provides back-up liquidity for our foreign credit facilities. We intend to use the availability of long-term financing under the revolving credit facility to refinance any current maturities related to such debt agreements that are not otherwise refinanced on a long-term basis in their local markets.

In the first quarter of 2014, we made a principal payment of \$1.9 million on our term facility.

In the first quarter of 2013, we terminated our class C loan facility of \$72.8 million, which would have matured on June 30, 2013. Upon termination, we expensed \$0.5 million of unamortized debt issuance costs related to the class C facility. We had been amortizing the debt issuance costs over the expected life of the borrowing.

AMERICAN AXLE & MANUFACTURING HOLDINGS, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

5.125% Notes In 2013, we issued \$200.0 million of 5.125% senior unsecured notes due 2019 (5.125% Notes). Net proceeds from the 5.125% Notes were used to redeem the remaining \$190.0 million outstanding under our 9.25% senior secured notes due 2017. We paid remaining debt issuance costs of \$0.2 million in the first quarter of 2014 related to the 5.125% Notes.

6.25% Notes In the first quarter of 2013, we issued \$400.0 million of 6.25% senior unsecured notes due 2021 (6.25% Notes). Net proceeds from the 6.25% Notes were used to purchase and redeem the entire \$300.0 million outstanding of our 7.875% senior unsecured notes due 2017 (7.875% Notes) and for other general corporate purposes. We paid debt issuance costs of \$6.2 million in the first quarter of 2013 related to the 6.25% Notes.

In the first quarter of 2013, we expensed \$8.5 million related to tender and redemption premiums, \$0.2 million of professional fees and unamortized debt issuance costs of \$2.1 million related to the purchase and redemption of the 7.875% Notes. We had been amortizing the debt issuance costs for the 7.875% Notes over the expected life of the borrowing.

We utilize local currency credit facilities to finance the operations of certain foreign subsidiaries. At March 31, 2014, \$75.1 million was outstanding under these facilities and an additional \$19.8 million was available.

The weighted-average interest rate of our long-term debt outstanding was 6.3% at both March 31, 2014 and December 31, 2013.

4. FAIR VALUE

The fair value accounting guidance defines fair value as “the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.” The definition is based on an exit price rather than an entry price, regardless of whether the entity plans to hold or sell the asset. This guidance also establishes a fair value hierarchy to prioritize inputs used in measuring fair value as follows:

- Level 1: Observable inputs such as quoted prices in active markets;
- Level 2: Inputs, other than quoted prices in active markets, that are observable either directly or indirectly; and
- Level 3: Unobservable inputs in which there is little or no market data, which require the reporting entity to develop its own assumptions.

Financial instruments The estimated fair values of our financial assets and liabilities that are recognized at fair value on a recurring basis, using available market information and other observable data, as of March 31, 2014, are as follows:

Balance Sheet Classification	March 31, 2014		December 31, 2013		Input
	Carrying Amount (in millions)	Fair Value	Carrying Amount (in millions)	Fair Value	
Cash equivalents	\$7.5	\$7.5	\$6.1	\$6.1	Level 1
Prepaid expenses and other current assets	1.1	1.1	0.7	0.7	Level 2
Currency forward contracts					
Other assets and deferred charges					

Edgar Filing: AMERICAN AXLE & MANUFACTURING HOLDINGS INC - Form 10-Q

Currency forward contracts	0.2	0.2	—	—	Level 2
Other accrued expenses					
Currency forward contracts	0.1	0.1	0.4	0.4	Level 2

8

AMERICAN AXLE & MANUFACTURING HOLDINGS, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

The carrying values of our cash, accounts receivable, accounts payable and accrued liabilities approximate their fair values due to the short-term maturities of these instruments. The carrying values of our borrowings under the foreign credit facilities approximate their fair values due to the frequent resetting of the interest rates. We estimated the fair value of the amounts outstanding on our debt using available market information and other observable data, to be as follows:

	March 31, 2014		December 31, 2013		Input
	Carrying Amount (in millions)	Fair Value	Carrying Amount (in millions)	Fair Value	
Revolving Credit Facility	\$—	\$—	\$—	\$—	Level 2
Term Facility	148.1	146.6	150.0	147.8	Level 2
7.75% Notes	200.0	230.0	200.0	227.5	Level 2
6.625% Notes	550.0	596.8	550.0	578.9	Level 2
6.25% Notes	400.0	425.0	400.0	423.0	Level 2
5.125% Notes	200.0	208.2	200.0	206.0	Level 2

5. DERIVATIVES

Our business and financial results are affected by fluctuations in world financial markets, including interest rates and currency exchange rates. Our hedging policy has been developed to manage these risks to an acceptable level based on management's judgment of the appropriate trade-off among risk, opportunity and cost. We do not hold financial instruments for trading or speculative purposes.

Currency forward contracts From time to time, we use foreign currency forward contracts to reduce the effects of fluctuations in exchange rates, primarily relating to the Mexican Peso, Euro, Swedish Krona, Polish Zloty and Pound Sterling. As of March 31, 2014, we have currency forward contracts outstanding with a notional amount of \$59.7 million that hedge our exposure to changes in foreign currency exchange rates for our payroll expenses, indirect inventory and other working capital items.

The following table summarizes the reclassification of pre-tax derivative gains into net income from accumulated other comprehensive income (loss):

	Location of Gain Reclassified into Net Income	Gain Reclassified During Three Months Ended		Gain Expected to be Reclassified During the Next 12 Months
		March 31, 2014 (in millions)	2013	
Currency forward contracts	Cost of goods sold	\$—	\$1.2	\$1.0

AMERICAN AXLE & MANUFACTURING HOLDINGS, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

6. EMPLOYEE BENEFIT PLANS

The components of net periodic benefit cost (credit) are as follows:

	Pension Benefits Three Months Ended March 31, 2014		2013
	(in millions)		
Service cost	\$0.9		\$0.9
Interest cost	9.0		8.5
Expected asset return	(12.1)	(11.5
Amortized loss	1.3		2.4
Amortized prior service cost	—		0.3
Net periodic benefit cost (credit)	\$(0.9)	\$0.6
	Other Postretirement Benefits Three Months Ended March 31, 2014		
	2013		
	(in millions)		
Service cost	\$0.1		\$0.1
Interest cost	3.8		3.3
Amortized loss	0.2		0.2
Amortized prior service credit	(0.7)	(0.4
Net periodic benefit cost	\$3.4		\$3.2

Due to the availability of our prefunding balances (previous contributions in excess of prior required pension contributions), we are not required to make any cash payments in 2014. We expect our cash outlay for other postretirement benefit obligations in 2014, net of GM cost sharing, to be approximately \$17 million.

AMERICAN AXLE & MANUFACTURING HOLDINGS, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

7. PRODUCT WARRANTIES

We record a liability for estimated warranty obligations at the dates our products are sold. These estimates are established using sales volumes and internal and external warranty data where there is no payment history and historical information about the average cost of warranty claims for customers with prior claims. We estimate our costs based on the contractual arrangements with our customers, existing customer warranty terms and internal and external warranty data, which includes a determination of our warranty claims and take actions to improve product quality and minimize warranty claims. We continuously evaluate these estimates and our customers' administration of their warranty programs. We closely monitor actual warranty claim data and adjust the liability, as necessary, on a quarterly basis.

The following table provides a reconciliation of changes in the product warranty liability:

	Three Months Ended March 31,	
	2014	2013
	(in millions)	
Beginning balance	\$ 14.3	\$ 29.1
Accruals	4.2	3.2
Settlements	(0.8) (9.2
Adjustment to prior period accruals	0.2	(0.2
Foreign currency translation	0.1	—
Ending balance	\$ 18.0	\$ 22.9

8. INCOME TAXES

We are required to adjust our effective tax rate each quarter to estimate our annual effective tax rate. We must also record the tax impact of certain discrete, unusual or infrequently occurring items, including changes in judgment about valuation allowances and effects of changes in tax laws or rates, in the interim period in which they occur. In addition, jurisdictions with a projected loss for the year or a year-to-date loss where no tax benefit can be recognized are excluded from the estimated annual effective tax rate. The impact of such an exclusion could result in a higher or lower effective tax rate during a particular quarter, based upon the mix and timing of actual earnings versus annual projections.

Income tax expense (benefit) was expense of \$7.0 million in the first quarter of 2014 as compared to a benefit of \$2.4 million in the first quarter of 2013. Our effective income tax rate was 17.3% in the first quarter of 2014 as compared to negative 48.1% in the first quarter of 2013. Our income tax expense (benefit) and effective tax rates for the three months ended March 31, 2014 and March 31, 2013 primarily reflect favorable foreign tax rates, along with our inability to realize a tax benefit for foreign losses.

Our income tax benefit and effective tax rate for the three months ended March 31, 2013 also reflect a tax benefit of \$1.5 million relating to the release of a prior year unrecognized tax benefit due to the expiration of the applicable statute of limitations and a benefit of \$3.3 million relating to an election we made in the first quarter of 2013 regarding the treatment of foreign exchange gains and losses in a foreign jurisdiction.

AMERICAN AXLE & MANUFACTURING HOLDINGS, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

9. EARNINGS PER SHARE (EPS)

The following table sets forth the computation of our basic and diluted EPS:

	Three Months Ended March 31,	
	2014	2013
	(in millions, except per share data)	
Numerator		
Net Income	\$33.6	\$7.3
Denominator		
Basic shares outstanding -		
Weighted-average shares outstanding	77.0	76.2
Effect of dilutive securities		
Dilutive stock-based compensation	0.1	—
Diluted shares outstanding -		
Adjusted weighted-average shares after assumed conversions	77.1	76.2
Basic EPS	\$0.44	\$0.10
Diluted EPS	\$0.44	\$0.10

Certain exercisable stock options were excluded in the computations of diluted EPS because the exercise price of these options was greater than the average period market prices. The number of stock options outstanding, which were not included in the calculation of diluted EPS, was 1.1 million at March 31, 2014 and 2.3 million at March 31, 2013. The ranges of exercise prices related to the excluded exercisable stock options were \$19.54 - \$40.83 at March 31, 2014 and \$15.58 - \$40.83 at March 31, 2013.

10. RECLASSIFICATIONS OUT OF ACCUMULATED OTHER COMPREHENSIVE INCOME (LOSS)

Reclassification adjustments and other activity impacting accumulated other comprehensive income (loss) during the three months ended March 31, 2014 and March 31, 2013 are as follows (in millions):

	Defined Benefit Plans		Foreign Currency Translation Adjustments	Unrecognized Gain on Derivatives	Total
Balance at December 31, 2012	\$(274.5)	\$7.6	\$2.3	\$(264.6)
Other comprehensive income (loss) before reclassifications	(2.7)(a)	4.9	1.7	3.9
Amounts reclassified from accumulated other comprehensive income (loss)	1.6	(a)(b)	—	(1.2)(c) 0.4
Net current period other comprehensive income (loss)	(1.1)	4.9	0.5	4.3
Balance at March 31, 2013	\$(275.6)	\$12.5	\$2.8	\$(260.3)
Balance at December 31, 2013	\$(197.9)	\$(18.6) \$0.3	\$(216.2)
Other comprehensive income before reclassifications	4.5	(a)	7.8	0.9	13.2
Amounts reclassified from accumulated other comprehensive income (loss)	0.6	(a)(b)	—	—	(c) 0.6
Net current period other comprehensive income	5.1		7.8	0.9	13.8
Balance at March 31, 2014	\$(192.8)	\$(10.8) \$1.2	\$(202.4)

(a) The amounts are net of tax of \$(2.5) million and \$(0.2) million for other comprehensive income before reclassifications and the amounts reclassified from AOCI, respectively, for the three months ended March 31, 2014, and \$1.5 million and \$(0.8) million, respectively, for the three months ended March 31, 2013.

(b) The net amount reclassified from AOCI included \$0.8 million in cost of goods sold (COGS) and \$(0.2) million in selling, general & administrative expenses (SG&A) for the three months ended March 31, 2014 and \$1.2 million in COGS and \$0.4 million in SG&A for the three months ended March 31, 2013.

(c) The amounts reclassified from AOCI are included in COGS.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

This management's discussion and analysis (MD&A) should be read in conjunction with the unaudited condensed consolidated financial statements and notes appearing elsewhere in this Quarterly Report and our Annual Report on Form 10-K for the year ended December 31, 2013.

Unless the context otherwise requires, references to "we," "our," "us" or "AAM" shall mean collectively (i) American Axle & Manufacturing Holdings, Inc. (Holdings), a Delaware corporation, and (ii) American Axle & Manufacturing, Inc. (AAM, Inc.), a Delaware corporation, and its direct and indirect subsidiaries. Holdings has no subsidiaries other than AAM, Inc.

COMPANY OVERVIEW

We are a Tier I supplier to the automotive industry. We manufacture, engineer, design and validate driveline and drivetrain systems and related components and chassis modules for light trucks, sport utility vehicles (SUVs), passenger cars, crossover vehicles and commercial vehicles. Driveline and drivetrain systems include components that transfer power from the transmission and deliver it to the drive wheels. Our driveline, drivetrain and related products include axles, chassis modules, driveshafts, power transfer units, transfer cases, chassis and steering components, driveheads, transmission parts and metal-formed products. In addition to locations in the United States (U.S.) (Michigan, Ohio, Indiana and Pennsylvania), we also have offices or facilities in Brazil, China, Germany, India, Japan, Luxembourg, Mexico, Poland, Scotland, South Korea, Sweden and Thailand.

We are the principal supplier of driveline components to General Motors Company (GM) for its full-size rear-wheel drive (RWD) light trucks and SUVs manufactured in North America, supplying substantially all of GM's rear axle and four-wheel drive and all-wheel drive (4WD/AWD) axle requirements for these vehicle platforms. Sales to GM were approximately 66% of our consolidated net sales in the first quarter of 2014, as compared to 75% in the first quarter of 2013 and 71% for the full-year 2013.

We are the sole-source supplier to GM for certain axles and other driveline products for the life of each GM vehicle program covered by a Lifetime Program Contract (LPC). Substantially all of our sales to GM are made pursuant to the LPCs. The LPCs have terms equal to the lives of the relevant vehicle programs or their respective derivatives, which typically run 5 to 7 years, and require us to remain competitive with respect to technology, design and quality.

We also supply driveline system products for the Chrysler Group LLC's (Chrysler) heavy-duty Ram full-size pickup trucks and its derivatives, as well as the 2014 AWD Jeep Cherokee. Sales to Chrysler were approximately 19% of our consolidated net sales in the first quarter of 2014, as compared to 7% in the first quarter of 2013 and 12% for the full-year 2013. In addition to GM and Chrysler, we supply driveline systems and other related components to Volkswagen AG, Audi AG, Mack Trucks Inc., PACCAR Inc., Harley-Davidson Inc., Beijing Benz Automotive Co., Ltd., Nissan Motor Co., Ltd., Deere & Company, Scania AB, Tata Motors, Ford Motor Company and other original equipment manufacturers (OEMs) and Tier I supplier companies such as Jatco Ltd. and Hino Motors Ltd. Our consolidated net sales to customers other than GM increased 53% to \$287.8 million in the first quarter of 2014 as compared to \$188.1 million in the first quarter of 2013.

RESULTS OF OPERATIONS — THREE MONTHS ENDED MARCH 31, 2014 AS COMPARED TO THREE MONTHS ENDED MARCH 31, 2013

Net Sales Net sales increased by 14% to \$858.8 million in the first quarter of 2014 as compared to \$755.6 million in the first quarter of 2013. The increase in sales in the first quarter of 2014 as compared to the first quarter of 2013 primarily reflects higher sales in support of Chrysler's 2014 AWD Jeep Cherokee and heavy-duty Ram full-size pickup trucks. Sales in the first quarter of 2013 reflected the adverse impact of a labor strike at GM's Rayong factory in Thailand, which we estimated to be approximately \$12.5 million.

Our content-per-vehicle (as measured by the dollar value of our products supporting our customers' North American light truck and SUV programs) increased to \$1,655 in the first quarter of 2014 as compared to \$1,504 in the first quarter of 2013. The increase is primarily due to additional content on GM and Chrysler's next generation full-size pickup truck programs. Our 4WD/AWD penetration rate on these vehicle programs increased to 67.5% in the first quarter 2014 as compared to 67.2% in the first quarter of 2013.

Gross Profit Gross profit increased to \$121.9 million in the first quarter of 2014 as compared to \$104.3 million in the first quarter of 2013. Gross margin increased to 14.2% in the first quarter of 2014 as compared to 13.8% in the first quarter of 2013. The changes in gross profit and margin in the first quarter of 2014, as compared to the first quarter of 2013, primarily reflect the benefit of higher contribution margin on increased sales, as well as lower project expense. Gross profit and margin in the first quarter of 2014 were adversely impacted by the timing of customer launch activity, which was partially offset by a gain of \$4.1 million related to the sale of our Detroit Manufacturing Complex (DMC).

Selling, General and Administrative Expenses (SG&A) SG&A (including research and development (R&D)) decreased to \$57.1 million or 6.6% of net sales in the first quarter of 2014 as compared to \$59.6 million or 7.9% of net sales in the first quarter of 2013. R&D was \$25.8 million in the first quarter of 2014, net of customer engineering, design and development (ED&D) recoveries, as compared to \$28.5 million in the first quarter of 2013. The decrease in SG&A in the first quarter of 2014 primarily reflects the favorable impact of lower R&D expense, which includes customer ED&D recoveries.

Operating Income Operating income increased to \$64.8 million in the first quarter of 2014 as compared to \$44.7 million in the first quarter of 2013. Operating margin was 7.5% in the first quarter of 2014 as compared to 5.9% in the first quarter of 2013. The changes in operating income and operating margin were due to factors discussed in Net Sales and Gross Profit above.

Interest Expense and Investment Income Interest expense was \$25.0 million in the first quarter of 2014 as compared to \$29.1 million in the first quarter of 2013. The decrease in interest expense reflects the decrease in our weighted-average interest rate in the first quarter of 2014 as compared to the first quarter of 2013 as a result of our refinancing actions taken in 2013. Investment income was \$0.3 million in the first quarter of 2014 as compared to \$0.1 million in the first quarter of 2013.

The weighted-average interest rate of our long-term debt outstanding was 6.3% in the first quarter of 2014 and 7.7% in the first quarter of 2013.

Other Income (Expense) Following are the components of Other Income (Expense) for the first quarter of 2014 and 2013:

Debt Refinancing and Redemption Costs In the first quarter of 2013, we expensed \$11.3 million of unamortized debt issuance costs and prepayment premiums related to the termination of our class C Revolving Credit Facility, the

purchase of \$172.6 million of our 7.875% Notes pursuant to a tender offer and the subsequent redemption of the remaining \$127.4 million of our 7.875% Notes.

Other, Net Other, net, which includes the net effect of our proportionate share of earnings from equity in unconsolidated subsidiaries and foreign exchange gains and losses, was income of \$0.5 million in the first quarter of both 2014 and 2013.

Income Tax Expense (Benefit) Income tax expense (benefit) was expense of \$7.0 million in the first quarter of 2014 as compared to a benefit of \$2.4 million in the first quarter of 2013. Our effective income tax rate was 17.3% in the first quarter of 2014 as compared to negative 48.1% in the first quarter of 2013. Our income tax expense (benefit) and effective tax rates for the three months ended March 31, 2014 and March 31, 2013 primarily reflect favorable foreign tax rates, along with our inability to realize a tax benefit for foreign losses.

Our income tax benefit and effective tax rate for the three months ended March 31, 2013 reflected a tax benefit of \$1.5 million relating to the release of a prior year unrecognized tax benefit due to the expiration of the applicable statute of limitations and a benefit of \$3.3 million relating to an election we made in the first quarter of 2013 regarding the treatment of foreign exchange gains and losses in a foreign jurisdiction.

Net Income and Earnings Per Share (EPS) Net income increased to \$33.6 million in the first quarter of 2014 as compared to \$7.3 million in the first quarter of 2013. Diluted EPS increased to \$0.44 in the first quarter of 2014 as compared to \$0.10 in the first quarter of 2013. Net income and EPS for the first quarters of 2014 and 2013 were primarily impacted by the factors discussed in Gross Profit and Debt Refinancing and Redemption Costs above.

LIQUIDITY AND CAPITAL RESOURCES

Our primary liquidity needs are to fund capital expenditures, debt service obligations and our working capital requirements. We believe that operating cash flow, available cash and cash equivalent balances and available committed borrowing capacity under our Revolving Credit Facility will be sufficient to meet these needs.

Operating Activities In the first quarter of 2014, net cash used in operating activities was \$55.5 million as compared to \$26.8 million in the first quarter of 2013. The following factors impacted cash used in operating activities in the first quarter of 2014 as compared to the first quarter of 2013:

Accounts receivable Accounts receivable was \$654.1 million at March 31, 2014 as compared to \$535.3 million at March 31, 2013. The increase in March 31, 2014 accounts receivable balance was primarily due to increased sales in February and March 2014 as compared to February and March 2013, the timing of weekly collections from our largest customer and an increase in deferred revenue, as described below.

Deferred revenue In the first quarter of 2014, we reached an agreement with GM to increase installed capacity and adjust product mix for our largest vehicle program. As a result of this agreement, we received \$13.8 million in the first quarter of 2014 and recorded a receivable for \$20.6 million that we expect to receive in three equal installments over the remaining three quarters of 2014. We recorded deferred revenue of \$34.4 million, and in the first quarter of 2014, we recognized revenue of \$0.3 million related to this agreement. As of March 31, 2014, we have \$7.2 million of deferred revenue that is classified as a current liability and \$26.9 million of deferred revenue that is recorded as a noncurrent liability on our Condensed Consolidated Balance Sheet.

Also in the first quarter of 2014, we reached an agreement with GM to recover certain costs related to the delay of another major product program. We received \$5.7 million in the first quarter of 2014 and recorded a receivable for \$3.6 million that we expect to receive in the second quarter of 2014 related to this agreement. As of March 31, 2014, we recorded deferred revenue of \$9.3 million, \$1.1 million of which is classified as a current liability and \$8.2 million is recorded as a noncurrent liability on our Condensed Consolidated Balance Sheet.

Interest paid Interest paid in the first quarter of 2014 was \$14.1 million as compared to \$27.2 million in the first quarter of 2013. The decrease primarily relates to the timing of interest payments on our 5.125% Notes, which were issued in 2013 as compared to our 9.25% Notes and 7.875% Notes which were purchased and redeemed in 2013.

Pension and other postretirement benefits Due to the availability of our prefunding balances (previous contributions in excess of prior required pension contributions), we are not required to make any cash payments in 2014. We expect our cash outlay for other postretirement benefit obligations in 2014, net of GM cost sharing, to be approximately \$17 million.

Investing Activities Capital expenditures were \$47.9 million in the first quarter of both 2014 and 2013. We expect our capital spending to approximate 6.5% of sales, which includes support for our significant global program launches in 2014 within our new and incremental business backlog.

In the first quarter of 2014, we sold our Detroit Manufacturing Complex and received net proceeds of \$9.2 million related to this transaction. For the first quarter of 2014, we have classified \$7.2 million of these proceeds, which represents the amount related to the land and building for which we will have no future continuing involvement, in the Investing Activities section of our Condensed Consolidated Statement of Cash Flows.

In the first quarter of 2013, we received proceeds of \$3.9 million related to a sale-leaseback transaction for equipment used in production.

Financing Activities In the first quarter of 2014, net cash provided by financing activities was \$20.7 million as compared to \$108.5 million in the first quarter of 2013. Total long-term debt outstanding increased \$19.3 million in the first quarter of 2014 to \$1,578.4 million as compared to \$1,559.1 million at year-end 2013, primarily as a result of additional borrowings on our foreign credit facilities during the quarter.

Revolving Credit Facility and Term Facility As of March 31, 2014, the revolving credit facility provided up to \$523.5 million of revolving bank financing commitments through September 13, 2018. At March 31, 2014, we had \$501.7 million available under the revolving credit facility. This availability reflects a reduction of \$21.8 million for standby letters of credit issued against the facility.

The revolving credit facility provides back-up liquidity for our foreign credit facilities. We intend to use the availability of long-term financing under the revolving credit facility to refinance any current maturities related to such debt agreements that are not otherwise refinanced on a long-term basis in their local markets.

In the first quarter of 2014, we made a principal payment of \$1.9 million on our term facility.

5.125% Notes In 2013, we issued \$200.0 million of 5.125% senior unsecured notes due 2019 (5.125% Notes). Net proceeds from the 5.125% Notes were used to redeem the remaining \$190.0 million outstanding under our 9.25% senior secured notes due 2017. We paid remaining debt issuance costs of \$0.2 million in the first quarter of 2014 related to the 5.125% Notes.

6.25% Notes In the first quarter of 2013, we issued \$400.0 million of 6.25% senior unsecured notes due 2021 (6.25% Notes). Net proceeds from the 6.25% Notes were used to purchase and redeem the entire \$300.0 million outstanding of our 7.875% senior unsecured notes due 2017 (7.875% Notes) and for other general corporate purposes. We paid debt issuance costs of \$6.2 million in the first quarter of 2013 related to the 6.25% Notes.

In the first quarter of 2013, we expensed \$8.5 million related to tender and redemption premiums, \$0.2 million of professional fees and unamortized debt issuance costs of \$2.1 million related to the purchase and redemption of the 7.875% Notes. We had been amortizing the debt issuance costs for the 7.875% Notes over the expected life of the borrowing.

We utilize foreign credit facilities and uncommitted lines of credit to finance working capital needs. At March 31, 2014, \$75.1 million was outstanding with an additional \$19.8 million available under these facilities.

CYCLICALITY AND SEASONALITY

Our operations are cyclical because they are directly related to worldwide automotive production, which is itself cyclical and dependent on general economic conditions and other factors. Our business is also moderately seasonal as our major OEM customers historically have an extended shutdown of operations (typically 1-2 weeks) in conjunction with their model year changeover and an approximate one-week shutdown in December. Accordingly, our quarterly results may reflect these trends.

LITIGATION AND ENVIRONMENTAL MATTERS

We are involved in various legal proceedings incidental to our business. Although the outcome of these matters cannot be predicted with certainty, we do not believe that any of these matters, individually or in the aggregate, will have a material adverse effect on our financial condition, results of operations or cash flows.

We are subject to various federal, state, local and foreign environmental and occupational safety and health laws, regulations and ordinances, including those regulating air emissions, water discharge, waste management and environmental cleanup. We will continue to closely monitor our environmental conditions to ensure that we are in compliance with all laws, regulations and ordinances. We have made, and will continue to make, capital and other expenditures (including recurring administrative costs) to comply with environmental requirements. Such expenditures were not significant in the first quarter of 2014, and we do not expect such expenditures to be significant for the remainder of 2014.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

MARKET RISK

Our business and financial results are affected by fluctuations in world financial markets, including interest rates and currency exchange rates. Our hedging policy has been developed to manage these risks to an acceptable level based on management's judgment of the appropriate trade-off between risk, opportunity and cost. We do not hold financial instruments for trading or speculative purposes.

Currency Exchange Risk From time to time, we use foreign currency forward contracts to reduce the effects of fluctuations in exchange rates, primarily relating to the Mexican Peso, Euro, Swedish Krona, Polish Zloty and Pound Sterling. At March 31, 2014, we had currency forward contracts with a notional amount of \$59.7 million outstanding. The potential decrease in fair value of foreign exchange contracts, assuming a 10% adverse change in the foreign currency exchange rates, would be approximately \$5.4 million at March 31, 2014.

Future business operations and opportunities, including the expansion of our business outside North America, may further increase the risk that cash flows resulting from these activities may be adversely affected by changes in currency exchange rates. If and when appropriate, we intend to manage these risks by utilizing local currency funding of these expansions and various types of foreign exchange contracts.

Interest Rate Risk We are exposed to variable interest rates on certain credit facilities. From time to time, we have used interest rate hedging to reduce the effects of fluctuations in market interest rates. As of March 31, 2014, there are no interest rate swaps in place. The pre-tax earnings and cash flow impacts of a one-percentage-point increase in interest rates (approximately 16% of our weighted-average interest rate at March 31, 2014) on our long-term debt outstanding at March 31, 2014 would be approximately \$2.2 million on an annualized basis.

Item 4. Controls and Procedures

Under the direction of our Chief Executive Officer and Chief Financial Officer, we evaluated our disclosure controls and procedures and internal control over financial reporting and concluded that (1) our disclosure controls and procedures (as defined in Rules 13a-15(e) or 15d-15(e) under the Securities Exchange Act of 1934 (the "Exchange Act")) were effective as of March 31, 2014, and (2) no change in internal control over financial reporting occurred during the quarter ended March 31, 2014 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1A. Risk Factors

There were no material changes from the risk factors previously disclosed in our December 31, 2013 Form 10-K.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

In the first quarter of 2014, we withheld and repurchased shares of AAM stock to satisfy employee tax withholding obligations due upon the vesting of restricted stock units. The following table provides information about our equity security purchases during the quarter ended March, 31, 2014:

ISSUER PURCHASES OF EQUITY SECURITIES

Period	Total Number of Shares (Or Units) Purchased	Average Price Paid per Share (or Unit)	Total Number of Shares (or Units) Purchased as Part of Publicly Announced Plans or Programs	Maximum Number (or Approximate Dollar Value) of Shares (or Units) that May Yet Be Purchased Under the Plans or Programs
January 1 - January 31, 2014	—	\$—	—	—
February 1 - February 28, 2014	—	—	—	—
March 1 - March 31, 2014	14,127	19.70	—	—
Total	14,127	\$19.70	—	—

Item 6. Exhibits

Exhibits required by Item 601 of Regulation S-K are listed in the Exhibit Index.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.

AMERICAN AXLE & MANUFACTURING HOLDINGS, INC.
