Southern Copper Corporation

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

A. In the opinion of Southern Copper Corporation, (the Company, Southern Copper or SCC), the accompanying unaudited condensed consolidated financial statements contain all adjustments (consisting only of normal recurring adjustments) necessary to state fairly the Company's financial position as of September 30, 2010 and the results of operations and the cash flow for the three and nine months ended September 30, 2010 and 2009. Certain prior period amounts have been reclassified to conform to the current period's presentation. The condensed consolidated financial statements for the three and nine months ended September 30, 2010 and 2009 have been subject to a review by Galaz, Yamazaki, Ruiz Urquiza S.C., a member firm of Deloitte Touche Tohmatsu Limited, the Company's independent registered public accounting firm, whose report dated November 3, 2010 is presented on page 55. The results of operations for the three and nine months ended September 30, 2010 and 2009 are not necessarily indicative of the results to be expected for the full year. The December 31, 2009 balance sheet data was derived from audited financial statements, but does not include all disclosures required by generally accepted accounting principles in the United States of America. The accompanying condensed consolidated financial statements should be read in conjunction with the consolidated financial statements at December 31, 2009 and notes included in the Company's 2009 annual report on Form 10-K.

B. Adoption of New Accounting Standards:

In the nine months ended September 30, 2010 the Company adopted the following Accounting Standards Updates (ASU) to the FASB Accounting Standards Codification (the ASC) issued by the Financial Accounting Standard Board (FASB).

ASU No. 2010-09: In February 2010 the FASB issued ASU No. 2010-09 Amendments to Certain Recognition and Disclosure requirements, an amendment of ASC topic 855 Subsequent events. This ASU requires a SEC filer to evaluate subsequent events through the date the financial statements are issued. In addition, public filers are no longer required to disclose the date through which the evaluation of subsequent events was carried out. The Company adopted this ASU on the date it was issued.

ASU No. 2010-06: In January 2010, the FASB issued ASU No. 2010-06 Fair Value Measurements and Disclosures (Topic 820): Improving Disclosures about Fair Value Measurements, an update of ASC Subtopic 820-10 Fair Value Measurements and Disclosures - Overall.

This ASU includes the following new disclosure requirements:

1. Significant transfers in and out of Levels 1 and 2 fair value measurements and a description of the reasons for the transfers.

Edgar Filing: SOUTHERN COPPER CORP/ - Form 10-Q

2. The reconciliation of activity in Level 3 fair value measurements should present separately information about purchases, sales, issuances and settlements on a gross basis rather than as one net number.

This ASU also clarifies existing disclosures as follows:

1. A reporting entity should provide fair value measurement disclosures for each class of assets and liabilities. A class is often a subset of assets or liabilities within a line item in the statement of financial position. A reporting entity needs to use judgment in determining the appropriate classes of assets and liabilities.

Table of Contents

2. Disclosures about inputs and valuation techniques used to measure fair value for both recurring and nonrecurring fair value measurements. These disclosures are required for fair value measurements that fall in either Level 2 or Level 3.

The new disclosures and clarifications of existing disclosures are effective for interim and annual reporting periods beginning after December 15, 2009, except for the disclosures about purchases, sales, issuances, and settlements in the roll forward of activity in Level 3 fair value measurements, which are effective for fiscal years beginning after December 15, 2010, and for interim periods within those fiscal years. Please see disclosures required in Note Q Financial instruments.

ASU 2010-02: In January 2010, the FASB issued ASU 2010-02 Accounting and Reporting for Decreases in Ownership of a Subsidiary a Scope Clarification, an update of Subtopic 810-10 Consolidation-Overall to address implementation issues related to the changes in ownership provisions in Subtopic 810-10, which establishes the accounting and reporting guidance for non-controlling interests and changes in ownership interests of a subsidiary.

The amendments in this ASU are effective beginning in the first interim or annual reporting period ending on or after December 15, 2009 and should be applied retrospectively to the first period that an entity adopted Statement 160. The Company has adopted this ASU and will apply it to future decreases in ownership of subsidiaries.

C. Short-term Investments:

Short-term investments were as follows (in millions):

Investments	September 30, 2010		At December 31, 2009	
	Trading securities	\$	49.7	\$
Weighted average interest rate		1.37%		
Available for sale	\$	9.7	\$	22.9
Weighted average interest rate		1.01%		0.63%
Total	\$	59.4	\$	22.9

Trading securities: consist of \$50.0 million Petroleos Mexicanos bonds acquired at 99.4% and with original maturity on December 3, 2012. The Company has the intention to sell these bonds in the short-term.

Available for sale investments consist of securities issued by public companies. Each security is independent of the others and as of September 30, 2010 includes corporate bonds and asset and mortgage backed obligations. As of September 30, 2010 and December 31, 2009, gross unrealized gains and losses on available for sale securities were not material.

Edgar Filing: SOUTHERN COPPER CORP/ - Form 10-Q

Related to these investments the Company earned interest which was recorded as interest income in the condensed consolidated statement of earnings. Also the Company redeemed some of these securities and recognized gains, which were recorded as other income in the condensed consolidated statement of earnings.

Table of Contents

The following table summarizes the activity of these investments (in millions):

	Three months ended September 30,				Nine months ended September 30,			
	2010	2009	2010	2009	2010	2009	2010	2009
Interest earned	\$ 0.1	\$ 0.1	\$ 0.1	\$ 0.1	\$ 0.1	\$ 0.1	\$ 0.1	\$ 0.7
Investment redeemed	\$ 3.0	\$ 8.8	\$ 14.2	\$ 39.6				
Gain in fair value	\$ 0.3	\$ 0.9	\$ 0.7	\$ 3.2				

D. Inventories:

Inventories were as follows:

(in millions)	September 30, 2010	December 31, 2009
Metals at lower of average cost or market:		
Finished goods	\$ 55.7	\$ 55.5
Work-in-process	128.2	150.8
Supplies at average cost	246.5	249.8
Total inventories	\$ 430.4	\$ 456.1

E. Income taxes:

The income tax provision and the effective income tax rate for the nine months ended September 30, 2010 and 2009 were as follows:

(in millions)	2010	2009
Income tax provision	\$ 556.9	\$ 327.1
Effective income tax rate	34.3%	36.5%

These provisions include income taxes for Peru, Mexico and the United States. The decrease in the effective tax rate for the nine months ended September 30, 2010 is largely due to the proportionately higher incremental U.S. income tax provided on dividend distributions made by our Mexican subsidiary to the U.S. parent in the nine months ended September 30, 2009. Because the pretax earnings in the nine months period of 2009 were significantly lower than the 2010 pretax earnings, the effect of this incremental tax had a relatively large impact on the effective rate. For the full year 2009 the final effective tax rate was 33.5%. This dividend distribution is taxable in the U.S. at the difference between the 35% U.S. statutory rate and the Mexican statutory tax rate, which is currently 30%.

As of March 27, 2009, Grupo Mexico, S.A.B. de C.V. (Grupo Mexico), through its wholly-owned subsidiary, Americas Mining Corporation (AMC), became the beneficial owner of 80% of SCC s common stock. As a result of this new level of ownership, beginning March 27, 2009

Edgar Filing: SOUTHERN COPPER CORP/ - Form 10-Q

SCC no longer files a separate U.S. federal income tax return and its operating results are included in the AMC consolidated U.S. federal income tax return. In addition to now holding an 80% interest in SCC, AMC also owns 100% of ASARCO LLC (Asarco) and its subsidiaries. It is expected that current and deferred taxes will be allocated to members of the AMC group as if each were a separate taxpayer. The Company has initiated discussions with AMC to put in place a tax sharing agreement in order to establish this allocation as well as other procedures and policies necessary for an equitable management of U.S. federal income tax matters. SCC provides current and deferred income taxes as if it were a separate filer.

Income taxes payable on the Company's balance sheet are amounts accrued for income taxes payable to the Peruvian and Mexican government taxing agencies and also include the U.S. tax liability of the Company, which will be paid to AMC for the Company's share of the U.S. tax liability.

Table of Contents

Accounting for Uncertainty in Income Taxes:

There was no material changes in the unrecognized tax benefits in the nine months ended September 30, 2010.

F. Provisionally Priced Sales:

At September 30, 2010, the Company has recorded provisionally priced sales of copper at average forward prices per pound, and molybdenum at the September 30, 2010 market price per pound. These sales are subject to final pricing based on the average monthly London Metal Exchange (LME) or the New York Commodities Exchange (COMEX) copper prices and Dealer Oxide molybdenum prices in the future month of settlement.

Following are the provisionally priced copper and molybdenum sales outstanding at September 30, 2010:

Copper (million lbs.)		Priced at	Month of Settlement
5.4		3.63	October 2010

Molybdenum (million lbs.)		Priced at	Month of Settlement
3.6		15.35	October 2010
2.9		15.35	November 2010
2.9		15.35	December 2010
0.1		15.35	January 2011
9.5			

Management believes that the final pricing of these sales will not have a material effect on the Company's financial position or results of operations.

G. Derivative Instruments:

The Company occasionally uses derivative instruments to manage its exposure to market risk from changes in commodity prices and interest rate and exchange rate risk exposures. The Company does not enter into derivative contracts unless it anticipates a future activity that is likely to occur that will result in exposing the Company to market risk. The Company did not hold any derivative contracts for the nine months ended September 30, 2010, except as disclosed below.

Copper derivatives:

Edgar Filing: SOUTHERN COPPER CORP/ - Form 10-Q

Beginning on September 29, 2010 and through October 26th 2010, the Company entered into copper derivative contracts to protect the sales value of a portion of its fourth quarter of 2010 and 2011 copper production, as follows:

	4th Quarter		Year 2011	
Swap contracts (1)				
Pounds in millions		170.9		150.1
Weighted average LME price	\$	3.67	\$	3.73

Table of Contents

Zero Collar Contracts (1)		
Pounds in millions		211.6
Average LME cap price	\$	4.54
Average LME floor price	\$	3.00

(1) Pounds are proportionally distributed over the periods. Prices are the same for all months in periods

Gas swaps:

During the nine months ended September 30, 2010 and at September 30, 2010 the Company did not hold any gas derivative contracts.

Exchange rate derivatives, U.S. dollar/Mexican peso contracts:

During the nine months ended September 30, 2010 and at September 30, 2010 the Company did not hold any exchange rate derivative contracts.

H. Asset Retirement Obligation:

The Company maintains an estimated asset retirement obligation for its mining properties in Peru, as required by the Peruvian Mine Closure Law. In accordance with the requirements of this law, the Company's closure plans have been approved by the Peruvian Ministry of Energy and Mines (MINEM). The closure cost recognized for this liability consists of the cost as outlined in its closure plans, which includes the dismantling of the Toquepala and Cuajone concentrators, the smelter and refinery in Ilo, and the shops and auxiliary facilities at the three units.

The following table summarizes the asset retirement obligation activity for the nine months ended September 30, 2010 and 2009 (in millions):

	2010		2009	
Balance as of January 1	\$	48.9	\$	18.0
Changes in estimates		7.4		15.9
Additions				
Accretion expense		3.8		0.6
Balance as of September 30,	\$	60.1	\$	34.5

I. Related Party Transactions:

Edgar Filing: SOUTHERN COPPER CORP/ - Form 10-Q

Ferrocarril Mexicano S.A. de C.V.		0.1	
	\$	4.1	\$ 0.4

The Company has entered into certain transactions in the ordinary course of business with parties that are controlling shareholders or their affiliates. These transactions include the lease of office space, air transportation and construction services and products and services relating to mining and refining. The Company lends and borrows funds among affiliates for acquisitions and other corporate purposes. These financial transactions bear interest and are subject to review and approval by senior management, as are all related party transactions. It is the Company's policy that the Audit Committee of the Board of Directors shall review all related party transactions. The Company is prohibited from entering or continuing a material related party transaction that has not been reviewed and approved or ratified by the Audit Committee.

Purchase activity:

The following table summarizes the purchase activity with related parties in the nine months ended September 30, 2010 and 2009 (in millions):

	As of September 30,	
	2010	2009
Grupo Mexico and affiliates:		
Grupo Mexico Servicios, S.A de C.V	\$ 10.3	\$ 10.3
Ferrocarril Mexicano, S.A de C.V.	2.2	8.4
Mexico Proyectos y Desarrollos, S.A. de C.V. and affiliates	21.5	12.1
Perforadora Mexico S.A. de C.V.	0.2	
Consortio Tricobre	2.9	
Other Larrea family companies:		
Mexico Compañía de Productos Automotrices, S.A. de C.V.	1.9	0.2
Mexico Transportes Aereos, S.A. de C.V.	2.4	1.6
Companies with relationships to SCC executive officers families:		
Higher Technology S.A.C.	2.3	4.0

Breaker, S.A. de C.V.	0.5	0.8
Total purchased	\$ 45.2	\$ 38.3

Grupo Mexico, the Company's ultimate parent and the majority indirect stockholder of the Company, and its affiliates provide various services to the Company. These services are primarily related to accounting, legal, tax, financial, treasury, human resources, price risk assessment and hedging, purchasing, procurement and logistics, sales and administrative and other support services. The Company pays Grupo Mexico Servicios, S.A de C.V., a subsidiary of Grupo Mexico, for these services. The Company expects to continue to pay for these services in the future.

Edgar Filing: SOUTHERN COPPER CORP/ - Form 10-Q

In addition, during the nine months ended September 30, 2010 the Company made donations of \$0.8 million to Fundacion Grupo Mexico, an organization dedicated to

Table of Contents

promoting social and economic development of the communities close to our Mexican operations.

The Company's Mexican operations paid fees for freight services provided by Ferrocarril Mexicano, S.A de C.V. for construction services provided by Mexico Constructora Industrial, S.A. de C.V. and its affiliates and for drilling services provided by Perforadora Mexico S.A. de C.V.; the three companies are subsidiaries of Grupo Mexico.

The Company's Peruvian operations paid fees for engineering and consulting services provided by Consorcio Tricobre, a Peruvian company in which Servicios de Ingenieria Consultec, S.A. de C. V., an indirect subsidiary of Grupo Mexico has 42.7% participation.

The Larrea family controls a majority of the capital stock of Grupo Mexico, and has extensive interests in other businesses, including oil drilling services, construction, aviation, and real estate. The Company engages in certain transactions in the ordinary course of business with other entities controlled by the Larrea family relating to mining and refining services, the lease of office space, sale of vehicles and air transportation and construction services. In connection with this, the Company paid fees for maintenance services and sale of vehicles provided by Mexico Compañia de Productos Automotrices, S.A. de C.V., a company controlled by the Larrea family.

Additionally, in 2007, the Company's Mexican subsidiaries provided guaranties for two loans obtained by Mexico Transportes Aereos, S.A. de C.V. (MexTransport), a company controlled by the Larrea family, from Bank of Nova Scotia in Mexico. These loans require semi-annual repayments. Conditions and balance as of September 30, 2010 are as follows:

	Loan 1	Loan 2	Total
Loans (in millions)	\$2.3	\$8.5	\$10.8
Maturity	August 2010	August 2013	
Interest rate	Libor + 0.65%	Libor + 0.15%	
Remaining balance at September 30, 2010 (in millions)	\$	\$3.9	\$3.9

MexTransport provides aviation services to the Company's Mexican operations. The guaranty provided to MexTransport is backed up by the transport services provided by MexTransport to the Company's Mexican subsidiaries. If MexTransport defaults on the loan, SCC's subsidiaries would have to satisfy the guaranty and repay to the bank the remaining balances, plus interest. The Company pays fees to MexTransport for aviation services.

The Company purchased industrial materials from Higher Technology S.A.C in which Mr. Carlos Gonzalez has a proprietary interest. Also the Company paid fees for maintenance services provided by Servicios y Fabricaciones Mecanicas S.A.C., a company in which Mr. Carlos Gonzalez has a proprietary interest. Mr. Carlos Gonzalez is the son of SCC's Chief Executive Officer.

The Company purchased industrial material from Sempertrans France Belting Technology, in which Mr. Alejandro Gonzalez is employed as a sales representative. Also, the Company purchased industrial material from PIGOBA, S.A. de C.V., a company in which Mr. Alejandro Gonzalez has a proprietary interest. Mr. Alejandro Gonzalez is the son of SCC's Chief Executive Officer.

The Company purchased industrial material and services from Breaker, S.A. de C.V.; a company in which Mr. Jorge Gonzalez, son-in-law of SCC's Chief Executive Officer, has a proprietary interest.

Table of Contents

Sales activity:

In the second quarter of 2010 the Company recovered from Asarco, a subsidiary of Grupo Mexico, \$7.7 million related to a previously written-off net accounts receivable position. This recovery was recorded in the condensed consolidated statement of earnings as follows: \$5.0 million in cost of sales, \$1.6 million in other income and \$1.1 million as interest income. Also, in the nine months ended September 30, 2010 the Company sold \$3.4 million of copper anodes and sulfuric acid to Asarco.

In addition, in the third quarter of 2010, the Company received fees of \$0.2 million from building rental and maintenance services provided to Perforadora Mexico S.A. de C.V., a subsidiary of Grupo Mexico.

It is anticipated that in the future the Company will enter into similar transactions with these same parties.

J. Financing:

New SCC Notes:

On April 16, 2010 the Company issued \$1.5 billion in fixed-rate unsecured notes with a discount of \$10.3 million, which is being amortized over the term of the related debt. Net proceeds will be used for general corporate purposes, including the financing of the Company's capital expenditure program.

The \$1.5 billion fixed-rate senior unsecured notes were issued in two tranches, \$400 million due in 2020 at an annual interest rate of 5.375% and \$1.1 billion due in 2040 at an annual interest rate of 6.75%. The Company has registered these notes under the Securities Act of 1933, as amended.

Interest on the notes will be paid semi-annually in arrears. The notes constitute our general unsecured obligations and the series of notes rank pari passu with each other and rank pari passu in right of payment with all of our other existing and future unsecured and unsubordinated indebtedness.

Also, related to these notes the Company has deferred \$8.8 million of costs associated with the issuance of this facility, which is included in Other assets non-current in the condensed consolidated balance sheet and is being amortized as interest expense over the life of the loans.

Edgar Filing: SOUTHERN COPPER CORP/ - Form 10-Q

In connection with the transaction, on April 16, 2010 the Company entered into a base indenture with Wells Fargo Bank, National Association, as trustee, as well as a first supplemental indenture and a second supplemental indenture which provide for the issuance, and set forth the terms of, the two tranches of notes described above. The indentures contain covenants that limit the Company's ability to, among other things, incur certain liens securing indebtedness, engage in certain sale and leaseback transactions, and enter into certain consolidations, mergers, conveyances, transfers or leases of all or substantially all the Company's assets. If we experience a Change of Control Triggering Event (as defined in the indentures governing the notes), we must offer to repurchase the notes at a purchase price equal to 101% of the principal amount thereof, plus accrued and unpaid interest, if any. A Change of Control Trigger Event also includes a rating decline, that is, if the rating of the notes, by at least one of the rating agencies shall be decreased by one or more gradations.

Table of Contents

Changes in Credit Risk Rating:

In connection with the issuance of the new notes, on April 1, 2010 Moody's investor service upgraded to Baa2 from Baa3 the Company's senior unsecured ratings and the rating on our Yankee bonds. Also on April 5, 2010 Fitch and Standard & Poor's (S&P) ratings services assigned ratings of BBB and BBB-, respectively, to the new notes issued. At the same time, these credit rating agencies confirmed their long-term corporate credit rating on SCC (Baa2, BBB and BBB- for Moody's, Fitch and S&P, respectively).

K. Benefit Plans:

SCC Defined Benefit Pension Plans

The components of the net periodic benefit costs for the nine months ended September 30, 2010 and 2009 are as follows (in millions):

M. Commitments and Contingencies:

Environmental matters:

The Company has instituted extensive environmental conservation programs at its mining facilities in Peru and Mexico. The Company's environmental programs include, among other features, water recovery systems to conserve water and minimize impact on nearby streams, reforestation programs to stabilize the surface of the tailings dams and the implementation of scrubbing technology in the mines to reduce dust emissions.

Environmental capital expenditures in the nine months ended September 30, 2010 and 2009 were as follows (in millions):

	2010	2009
Peruvian operations	\$ 3.2	\$ 1.4
Mexican operations	7.5	18.5
Total	\$ 10.7	\$ 19.9

Peruvian operations

The Company's operations are subject to applicable Peruvian environmental laws and regulations. The Peruvian government, through the Environmental Ministry conducts annual audits of the Company's Peruvian mining and metallurgical operations. Through these environmental audits, matters related to environmental commitments, compliance with legal requirements, atmospheric emissions, and effluent monitoring are reviewed. The Company believes that it is in material compliance with applicable Peruvian environmental laws and regulations.

Edgar Filing: SOUTHERN COPPER CORP/ - Form 10-Q

In 2003 the Peruvian congress published a law announcing future closure and remediation obligations for the mining industry. In accordance with the requirements of this law the Company's closure plans were approved by the MINEM. As part of the closure plans, the Company is providing guarantees to ensure that sufficient funds will be available for the asset retirement obligation. See Note H, Asset retirement obligation, for further discussion of this matter.

Mexican operations

The Company's operations are subject to applicable Mexican federal, state and municipal environmental laws, to Mexican official standards, and to regulations for the protection of the environment, including regulations relating to water supply, water quality, air quality, noise levels and hazardous and solid waste.

Table of Contents

The principal legislation applicable to the Company's Mexican operations is the Federal General Law of Ecological Balance and Environmental Protection, which is enforced by the Federal Bureau of Environmental Protection (PROFEPA). PROFEPA monitors compliance with environmental legislation and enforces Mexican environmental laws, regulations and official standards. PROFEPA may initiate administrative proceedings against companies that violate environmental laws, which in the most extreme cases may result in the temporary or permanent closing of non-complying facilities, the revocation of operating licenses and/or other sanctions or fines. Also, according to the federal criminal code, PROFEPA must inform corresponding authorities regarding environmental non-compliance.

Mexican environmental regulations have become increasingly stringent in recent years, and this trend is likely to continue and has been influenced by the environmental treaty entered into by Mexico, the United States and Canada in connection with NAFTA in 1999. However, the Company's management does not believe that continued compliance with the federal environmental law or Mexican state environmental laws will have a material adverse effect on the Company's business, properties, results of operations, financial condition or prospects or will result in material capital expenditures. Although the Company believes that all of its facilities are in material compliance with applicable environmental, mining and other laws and regulations, the Company cannot assure that future laws and regulations would not have a material adverse effect on the Company's business, properties, results of operations, financial condition or prospects.

On March 16, 2010, the Company announced to the Mexican Federal Environmental authorities the closure of the copper smelter plant at San Luis Potosi. There is a general obligation to remediate the site, and we are currently performing an analysis and evaluation of the property in order to establish the cost of such remediation. We expect to determine it in the fourth quarter of this year and to submit it for approval by the Mexican environmental authorities.

Litigation matters:

Peruvian operations

Garcia Ataucuri and Others against SCC's Peruvian Branch (SCC's Peruvian Branch , Branch, or Peruvian Branch):

In April 1996, the Branch was served with a complaint filed in Peru by approximately 800 former employees seeking the delivery of a substantial number of its labor shares (acciones laborales) plus dividends on such shares, to be issued in a proportional way to each former employee in accordance with their time of employment with SCC's Peruvian Branch.

The labor share litigation is based on claims of former employees for ownership of labor shares issued during the 1970s until 1979 under a former Peruvian mandated profit sharing system. In 1971, the Peruvian government enacted legislation providing that mining workers would have a 10% participation in the pre-tax profits of their employing enterprises. This participation was distributed 40% in cash and 60% in an equity interest of the enterprise. In 1978 the equity portion, which was originally delivered to the mining industry organization, was set at 5.5% of pre-tax profits and was delivered in the form of labor shares to individual workers. The cash portion was set at 4.0% of pre-tax earnings and continued to be delivered to individual employees. In 1992 the workers' participation was set at 8%, with 100% payable in cash and the equity participation was eliminated from the law.

Edgar Filing: SOUTHERN COPPER CORP/ - Form 10-Q

In 1995, the labor shares were exchanged for common stock of the Company and approximately 80.8% of the issued labor shares were exchanged. After that, from time to time the Company has purchased labor shares on the open market. The remaining net

Table of Contents

0.71% is included on the consolidated balance sheet under the caption Non-controlling interest.

In relation to the issuance of labor shares by the Branch in Peru, the Branch is a defendant in the following lawsuits:

1) The Garcia Ataucuri litigation seeks the delivery of 38,763,806.80 labor shares (acciones laborales), now investment shares (acciones de inversion) (or nuevos soles (S/.) 3,876,380,679.56), plus dividends on such shares. After lengthy proceedings before the civil courts in Peru on September 19, 2001, on appeal from the Branch, the Peruvian Supreme Court annulled the proceedings noting that the civil courts lacked jurisdiction and that the matter had to be decided by a labor court.

In October 2007, in a separate proceeding initiated by the plaintiffs, the Peruvian Constitutional Court nullified the September 19, 2001 Peruvian Supreme Court decision and ordered the Supreme Court to decide again on the merits of the case accepting or denying the Branch's 2000 appeal.

In May 2009, the Supreme Court rejected the 2000 appeal of the Branch affirming the adverse decision of the appellate civil court and lower civil court. While the Supreme Court has ordered SCC's Peruvian Branch to deliver the labor shares and dividends, it has clearly stated that SCC's Peruvian Branch may prove, by all legal means, its assertion that the labor shares and dividends were distributed to the former employees in accordance with the profit sharing law then in effect, an assertion which SCC's Peruvian Branch continues to make.

On June 9, 2009 SCC's Peruvian Branch filed an extraordinary appeal before a civil court in Peru seeking the nullity of the 2009 Supreme Court decision and other protective measures. The civil court has now rendered a favorable decision suspending the enforcement of the Supreme Court decision, for the reasons indicated above and other reasons. In view of this, and the recent civil court decision, SCC's Peruvian Branch continues to analyze the manner in which the Supreme Court decision may be enforced and what financial impact, if any, said decision may have.

2) The May 10, 2006 Cornejo Flores and others vs. SCC's Peruvian Branch litigation, seeks the same number of labor shares as in the Garcia Ataucuri case, plus interest, labor shares resulting from capital increases made by the Branch in 1980 for the amount of the workers participation of S/.17,246,009,907.20, equivalent to 172,460,099.72 labor shares, and dividends. On May 23, 2006, the Branch answered this new complaint denying the validity of the claim. As of September 30, 2010 the case remains open with no new developments.

3) The June 27, 2008 Alejandro Zapata Mamani and others vs. SCC's Peruvian Branch litigation seeks the same number of labor shares as in the Garcia Ataucuri case, plus interest, labor shares resulting from capital increases and dividends. The Branch answered this new complaint, denying the validity of the claim. As of September 30, 2010 the case remains open with no new developments.

4) The January 2009 Arenas Rodriguez and others represented by Mr. Cornejo Flores- vs. SCC's Peruvian Branch litigation seeks the same number of labor shares as in the Garcia Ataucuri case, plus interest, labor shares resulting from capital increases and dividends. The Branch answered this complaint, denying the validity of the claim. In August 2010 the Civil Court dismissed the case due to procedural defects. The plaintiffs appealed the Civil Court's resolution before the Superior Court. This appeal is pending resolution.

5) The June 2010 Macedo Condori vs. SCC s Peruvian Branch litigation seeks the delivery of 8,012 labor shares plus dividends in the amount of S/.496,744 (as of

Table of Contents

May 2010) and interest. The Branch answered this new complaint, denying the validity of the claim. In July, 2010 the Civil Court dismissed the case due to procedural defects. This case is now closed.

The Company asserts that the labor shares were distributed to the former employees in accordance with the profit sharing law then in effect. The Company has not made a provision for these lawsuits because it believes that it has meritorious defenses to the claims asserted in the complaints. Additionally, the amount of this contingency cannot be reasonably estimated by management at this time.

Exploraciones de Concesiones Metalicas S.A.C.:

In August 2009 a lawsuit was filed against SCC's Branch by the former stockholders of Exploraciones de Concesiones Metalicas S.A.C. (Excomet). The plaintiffs allege that the acquisition of their shares in Excomet by the Branch is null and void because the \$2 million purchase price paid by the Branch for the shares of Excomet was not fairly negotiated by the plaintiffs and the Branch. In 2005, the Branch acquired the shares of Excomet after lengthy negotiations with the plaintiffs, and after the plaintiffs, which were all of the stockholders of Excomet, approved the transaction in a general stockholders' meeting. Excomet was at the time owner of a mining concession which forms part of the Tia Maria project

Sociedad Minera de Responsabilidad Limitada Virgen Maria de Arequipa (SMRL Virgen Maria):

In August 2010 a lawsuit was filed against SCC's Branch and others by SMRL Virgen Maria, a company which until July 2003 owned the mining concession Virgen Maria, which forms part of the Tia Maria project. SMRL Virgen Maria sold this mining concession in July 2003 to Excomet (see above noted case).

The plaintiff alleges that the sale of the mining concession Virgen Maria to Excomet is null and void because the persons who attended the shareholders meeting of SMRL Virgen Maria, at which the purchase was agreed upon, were not the real owners of the shares. The plaintiff is also pursuing the nullity of all the subsequent acts regarding the mining property (acquisition of the shares of Excomet by SCC's Branch, noted above, and the sale of the concession to SCC's Branch by Excomet).

The Company asserts that the lawsuits are without merit and is vigorously defending against these lawsuits.

Mexican Operations

Pasta de Conchos Accident:

Edgar Filing: SOUTHERN COPPER CORP/ - Form 10-Q

On February 19, 2010 three widows of miners, who perished in the 2006 Pasta de Conchos accident, filed a complaint for damages in the United States District Court for the District of Arizona against the defendants, Grupo México, Americas Mining Corporation and Southern Copper Corporation. The plaintiffs allege that the defendants' purported failure to maintain a safe working environment at the mine amounted to a violation of several laws and treaties. The Company considers that the court does not have subject-matter jurisdiction over the plaintiffs' claims and will defend itself vigorously. On June 25, 2010 the Company filed a motion to dismiss the plaintiffs' complaint. At September 30, 2010 this motion is pending.

Labor matters:

In recent years the Company has experienced a number of strikes or other labor disruptions that have had an adverse impact on its operations and operating results.

Table of Contents

Peruvian Operations

Approximately 60% of the Company's Peruvian labor force was unionized at September 30, 2010, represented by eight separate unions. Three of these unions, one at each major production area, represent the majority of the Company's workers. On September 30, 2010, the Company reached a new three year collective bargaining agreement with these three unions. This agreement includes, among other things, a 5% annual salary increase and a signing bonus of approximately \$6,700 for each of the workers (approximately 2,000). In addition, the agreement provides for productivity savings and includes no-strike clauses. Additionally, there are five smaller unions, representing the balance of workers. Collective bargaining agreements for this group are in force through November 2012.

During 2010 and 2009 there were no strikes at the Company's Peruvian operations.

Mexican operations

Approximately 74% of the Mexican labor force was unionized at September 30, 2010, represented by two separate unions. Under Mexican law, the terms of employment for unionized workers is set forth in collective bargaining agreements. Mexican companies negotiate the salary provisions of collective bargaining agreements with the labor unions annually and negotiate other benefits every two years. The Company conducts negotiations separately at each mining complex and each processing plant.

On March 20, 2009 the Company notified the Mexican federal labor court of the termination of all the individual labor contracts of the Cananea workers, including the collective bargaining agreement with the union. This decision was based upon a finding by the Mexican mining authorities that confirmed that the Cananea mine was in a force majeure situation since it was unable to operate due to severe damages caused by striking workers. On April 14, 2009, the Mexican federal labor court issued a resolution approving the termination of Cananea's labor relationships with individual and unionized employees, as well as the termination of its collective bargaining agreement with its employees and with the National Mining and Metal Workers Union. This ruling was challenged before federal tribunals. Most of the individual challenges by unionized workers have been resolved by a federal judge who dismissed their complaints.

On February 11, 2010, a Mexican federal district court confirmed that the damages caused to the Cananea mine by the neglect and sabotage of striking workers since the commencement of labor stoppages and strikes in July 2007 resulted in force majeure providing legal basis for the termination of individual and unionized employees by the Company's subsidiary, Mexicana de Cananea, S.A. de C.V. A workers' appeal was dismissed on April 21, 2010 by the Mexican Supreme Court. Local and federal authorities in Mexico regained access to, and control of, the Cananea mine. On June 6, 2010 the Company commenced the necessary evaluations to assess the magnitude of the significant damages to the plant, machinery and equipment caused by the strike that commenced in July 2007. The Company has already started the rehabilitation and reconstruction of the Cananea mine, with a team of approximately 3,400 individuals, composed of Company workers and contractors personnel. The estimated cost of repairing the damages to the property is \$114 million. Losses arising from damages to the fixed assets, net of estimated insurance recoveries, are not material.

Additionally, the San Martin and Taxco mines have been on strike since July 2007. On December 10, 2009 a federal tribunal confirmed the legality of the San Martin strike. In the case of the Taxco mine, following the workers refusal to allow exploration of new reserves, the Company commenced litigation seeking to terminate the labor relationship with workers of the Taxco mine (including the related collective

bargaining agreement). On September 1, 2010, the federal labor court issued a ruling approving the termination of the collective bargaining agreement and

Table of Contents

all the individual labor contracts of the workers affiliated with the Mexican Mining Union at the Taxco mine. The ruling was based upon the resistance of the mining union to allow mining experts to search for reserves at the Taxco mine. If sustained, this ruling will also have the effect of terminating the protracted strike at the Taxco Unit. The mining union has presented an appeal of the labor court ruling before federal tribunals.

In 2009, more than 40% of the workers of the San Martin mine and 50% of the workers of the Taxco mine voluntarily requested severance payments and terminated their labor relationship with the Company.

In the third quarter of 2010 operations at the La Caridad metallurgical complex were disrupted due to access road blockages established by a group of terminated workers and other agitators. However, in October 2010, with the assistance of the Mexican authorities, order was restored and normal operations were restarted. La Caridad's mining operations continued during the blockage period and as a result the Company was able to maintain output.

Other legal matters:

Class actions:

Three purported class action derivative lawsuits have been filed in the Delaware Court of Chancery (New Castle County) late in December 2004 and early January 2005 relating to the acquisition of Minera Mexico by SCC. On January 31, 2005, the three actions *Lemon Bay, LLP v. Americas Mining Corporation, et al.*, Civil Action No. 961-N, *Therault Trust v. Luis Palomino Bonilla, et al.*, and *Southern Copper Corporation, et al.*, Civil Action No. 969-N, and *James Sousa v. Southern Copper Corporation, et al.*, Civil Action No. 978-N were consolidated into one action titled, *In re Southern Copper Corporation Shareholder Derivative Litigation, Consol. Civil Action No. 961-N* and the complaint filed in *Lemon Bay* was designated as the operative complaint in the consolidated lawsuit. The consolidated action purports to be brought on behalf of the Company's common stockholders.

The consolidated complaint alleges, among other things, that the acquisition of Minera Mexico is the result of breaches of fiduciary duties by the Company's directors and is not entirely fair to the Company and its minority stockholders. The consolidated complaint seeks, among other things, a preliminary and permanent injunction to enjoin the acquisition, the award of damages to the class, the award of damages to the Company and such other relief that the court deems equitable, including interest, attorneys' and experts' fees and costs. The defendants believe that this lawsuit is without merit and are vigorously defending against the action.

Four purported class action derivative lawsuits have been filed in the Delaware Court of Chancery (*Oklahoma Firefighters Pension & Retirement System et al. v. SCC et al.*, *Gary Martin et al. v. SCC et al.*, *Thomas Griffin et al. v. SCC et al.*, and *Sheet Metal Workers Pension Plan of Northern California et al. v. SCC et al.*) and one in the Superior Court of Arizona, in and for the County of Maricopa, (*The City of North Miami Beach Police Officers' and Firefighters' Retirement Plan et al. v. SCC et al.*) from August to October 2010 relating to the proposed combination of the Company with AMC, the parent company of Asarco. The complaints name SCC, its current and certain former directors, AMC and Grupo Mexico as defendants. Two of the actions also name Asarco as a defendant. The actions purport to be brought on behalf of the Company's common stockholders.

The complaints allege, among other things, that the proposed transaction would result in breaches of fiduciary duties by the defendants and is not entirely fair to the Company and its minority stockholders. The complaints seek, among other things, a preliminary and permanent injunction to enjoin the transaction, the award

Table of Contents

of damages to the plaintiffs and the class, and such other relief that the court deems equitable, including interest, attorneys' and experts' fees and costs. The defendants believe that these lawsuits are without merit and are vigorously defending against the actions.

The Company is involved in various other legal proceedings incidental to its operations, but the Company does not believe that decisions adverse to it in any such proceedings, individually or in the aggregate, would have a material adverse effect on its financial position or results of operations. Additionally, the Company does not believe that the outcome of the purported class action derivative lawsuits would have a material adverse effect on its financial position or results of operations.

Other commitments:

Regional development contribution:

In 2006, the Company's Peruvian Branch signed a contract with the Peruvian government committing the Company to make annual contributions for five years, through 2010, to support the regional development of Peru based on prior year's net earnings. This was in response to an appeal by the president of Peru to the mining industry. The contributions are being used for social benefit programs. This agreement requires a final contribution against 2010 profits. The Company believes that this contribution could be extended to continue the flow of funds to the government.

These contributions were deposited with a separate entity, Asociacion Civil Ayuda del Cobre, which will make disbursements for approved investments in accordance with the agreement until the five year contributions are fully used. The commitment of the Branch is for a total of 1.25% of its annual earnings, after Peruvian income tax. If the average annual LME copper price is below \$1.79 per pound the contribution will cease.

The Company made provisions for this contribution in the nine months ended September 30, 2010 and 2009, as follows (in millions):

	2010		2009	
Regional development contribution	\$	9.4	\$	5.0

These provisions are included in Other income (expense) in the condensed consolidated statement of earnings.

Royalty charge

Edgar Filing: SOUTHERN COPPER CORP/ - Form 10-Q

In June 2004, the Peruvian Congress enacted legislation imposing a royalty charge to be paid by mining companies. Under this law, the Company is subject to a 1% to 3% royalty, based on sales, applicable to the value of the concentrates produced at the Toquepala and Cuajone mines. The Company made provisions for this charge in the nine months ended September 30, 2010 and 2009, as follows (in millions):

	2010		2009	
Royalty charge	\$	44.1	\$	28.6

These provisions are included in Cost of sales (exclusive of depreciation, amortization and depletion) in the condensed consolidated statement of earnings.

Table of Contents

Power purchase agreement

In 1997, SCC sold its Ilo power plant to an independent power company, Enersur S.A. (Enersur). In connection with the sale, a power purchase agreement was also completed under which SCC agreed to purchase all of its power needs for its Peruvian operations from Enersur for twenty years, commencing in 1997. In 2003 the agreement was amended, releasing Enersur from its obligation to construct additional capacity to meet the Company's increased electricity requirements and changing the power tariff as called for in the original agreement.

The Company has recently signed a Memorandum of Understanding (MOU) with Enersur regarding its power supply agreement. The MOU contains new economic terms that the Company believes better reflect current economic conditions in the power industry and in Peru. The Company expects to obtain savings in its future power costs. The new economic conditions agreed to in the MOU have been applied by Enersur to its invoices to the Company since May 2009. Additionally, the MOU includes an option for providing power for the Tia Maria project.

Tax contingency matters:

Tax contingencies are provided for under ASC 740-10-50-15 Uncertain tax position (see Note E, Income taxes).

N. Segment and Related Information:

Company management views Southern Copper as having three operating segments and manages on the basis of these segments. The segments identified by the Company are: the Peruvian operations, the Mexican open pit operations and the Mexican underground mining operations segment identified as the IMMSA unit.

Financial information is regularly prepared for each of the three segments and the results of the Company's operations are regularly reported to the Chief Operating Officer on the segment basis. The Chief Operating Officer of the Company focuses on operating income and on total assets as measures of performance to evaluate different segments and to make decisions to allocate resources to the reported segments. These are common measures in the mining industry.

P. Stockholders' Equity:

Treasury Stock:

Activity in treasury stock in the nine-month period ended September 30, 2010 and 2009 is as follows (in millions):

	2010	2009
Southern Copper common shares		
Balance as of January 1,	\$ 460.7	\$ 389.0
Purchase of shares	0.4	71.9
Used for corporate purposes	(0.2)	(0.2)
Balance as of September 30,	460.9	460.7
Parent Company (Grupo Mexico) common shares		
Balance as of January 1,	142.7	125.5
Other activity, including dividend, interest and currency translation effect	14.4	11.0
Balance as of September 30,	157.1	136.5
Treasury stock balance as of September 30,	\$ 618.0	\$ 597.2

The following table summarizes share distributions in the nine months ended September 30, 2010 and 2009:

	2010	2009
Southern Copper common shares		
Directors' Stock Award Plan	14,400	12,000
Parent Company (Grupo Mexico) common shares		
Employee stock purchase plan (shares in millions)	10.9	11.8

SCC share repurchase program:

In 2008 the Company's Board of Directors authorized a \$500 million share repurchase program. Under this program the Company may purchase additional shares from time to time, based on market conditions and other factors. This repurchase program has no expiration date and may be modified or discontinued at any time. These shares will be available for general corporate purposes.

The following table summarizes the repurchase program activity since its inception in 2008:

Edgar Filing: SOUTHERN COPPER CORP/ - Form 10-Q

From	Period	To	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plan	Maximum Number of Shares that may yet be Purchased Under the Plan @ \$35.12	Total Cost (\$ in millions)
2008:							
08/11/08		12/31/08	28,510,150	\$ 13.49	28,510,150		\$ 384.6
							71.9
2009:							
01/12/09		09/30/09	4,912,000	14.64	33,422,150		
2010:							
05/05/10		05/05/10	13,200	28.75	33,435,350		0.4
08/12/10		08/12/10	1,200	29.33	33,436,500		0.1
Total Purchased			33,436,550	\$ 13.67		1,225,120	\$ 457.0

At September 30, 2010, as a result of the purchases of SCC common shares and AMC's purchases of SCC shares, Grupo Mexico's direct and indirect ownership of SCC is 80%.

Table of Contents

Directors Stock Award Plan:

The Company established a stock award compensation plan for certain directors who are not compensated as employees of the Company. Under this plan, participants will receive 1,200 shares of common stock upon election and 1,200 additional shares following each annual meeting of stockholders thereafter. 600,000 shares of Southern Copper common stock have been reserved for this plan. The fair value of the award is measured each year at the date of the grant.

The activity of the plan in the nine-month period ended September 30, 2010 and 2009 is as follows:

	2010	2009
Total SCC shares reserved for the plan	600,000	600,000
Total shares granted at January 1,	(241,200)	(229,200)
Granted in the period	(14,400)	(12,000)
Total shares granted at September 30,	(255,600)	(241,200)
Remaining shares reserved	344,400	358,800

Employee Stock Purchase Plan:

In January 2007, the Company offered to eligible employees a stock purchase plan (the Employee Stock Purchase Plan) through a trust that acquires shares of Grupo Mexico stock for sale to its employees, and employees of subsidiaries, and certain affiliated companies. The purchase price is established at the approximate fair market value on the grant date. Every two years employees will be able to acquire title to 50% of the shares paid in the previous two years. The employees will pay for shares purchased through monthly payroll deductions over the eight year period of the plan. At the end of the eight year period, the Company will grant the participant a bonus of 1 share for every 10 shares purchased by the employee.

If Grupo Mexico pays dividends on shares during the eight year period, the participants will be entitled to receive the dividend in cash for all shares that have been fully purchased and paid as of the date that the dividend is paid. If the participant has only partially paid for shares, the entitled dividends will be used to reduce the remaining liability owed for purchased shares.

In the case of voluntary resignation of the employee, the Company will pay to the employee the purchase price applying a deduction over the amount to be paid to the employee based on the following schedule.

If the resignation occurs during:	% Deducted
1st year after the grant date	90%
2nd year after the grant date	80%

Edgar Filing: SOUTHERN COPPER CORP/ - Form 10-Q

3rd year after the grant date	70%
4th year after the grant date	60%
5th year after the grant date	50%
6th year after the grant date	40%
7th year after the grant date	20%

In the case of involuntary termination of the employee, the Company will pay to the employee the difference between the fair market value of the shares at the date of termination of employment, and the purchase price. When the fair market value of the shares is higher than the purchase price, the Company will apply a deduction over the amount to be paid to the employee based on the following schedule.

Table of Contents

If the termination occurs during:	% Deducted
1st year after the grant date	100%
2nd year after the grant date	95%
3rd year after the grant date	90%
4th year after the grant date	80%
5th year after the grant date	70%
6th year after the grant date	60%
7th year after the grant date	50%

In case of retirement or death of the employee, the Company will render the buyer or his legal beneficiary, the shares effectively paid as of the date of retirement or death.

For the nine months ended September 30, 2010 and 2009, the stock based compensation expense under this plan was as follows (in millions)

	2010		2009	
Stock based compensation expense	\$	1.6	\$	1.6
Unrecognized compensation expense	\$	9.0	\$	11.2

The unrecognized compensation expense under this plan is expected to be recognized over the remaining five year period.

The following table presents the stock award activity for the nine months ended September 30, 2010 and 2009:

	2010		2009	
	Shares	Unit Value	Shares	Unit Value
Outstanding shares at January 1,	11,556,625	\$ 1.16	14,577,011	\$ 1.16
Granted				
Exercised			(2,700,588)	1.16
Forfeited	(609,892)	1.16	(267,230)	1.16
Outstanding shares at September 30,	10,946,733	\$ 1.16	11,609,193	\$ 1.16

New Employee Stock Purchase Plan:

In September 2010, the Company offered to eligible employees a new stock purchase plan (the New Employee Stock Purchase Plan) through a trust that acquires series B of shares of Grupo Mexico stock for sale to its employees, and employees of subsidiaries, and certain affiliated companies.

Edgar Filing: SOUTHERN COPPER CORP/ - Form 10-Q

The purchase price, retroactive as of January 29, 2010, was established at 26.51 Mexican pesos (approximately \$2.05) for the initial subscription, which expires on November 30, 2010. Every two years employees will be able to acquire title to 50% of the shares paid in the previous two years. The employees will pay for shares purchased through monthly payroll deductions over the eight year period of the plan. At the end of the eight year period, the Company will grant the participant a bonus of 1 share for every 10 shares purchased by the employee. Any future subscription will be at the average market price at the date of acquisition or the grant date.

If Grupo Mexico pays dividends on shares during the eight year period, the participants will be entitled to receive the dividend in cash for all shares that have been fully purchased and paid as of the date that the dividend is paid. If the participant has only partially paid for shares, the entitled dividends will be used to reduce the remaining liability owed for purchased shares.

Table of Contents

In the case of voluntary resignation of the employee, the Company will pay to the employee the fair market sales price at the date of resignation of the fully paid shares, net of costs and taxes. When the fair market sales value of the shares is higher than the purchase price, the Company will apply a deduction over the amount to be paid to the employee based on the following schedule.

If the resignation occurs during:	% Deducted
1st year after the grant date	90%
2nd year after the grant date	80%
3rd year after the grant date	70%
4th year after the grant date	60%
5th year after the grant date	50%
6th year after the grant date	40%
7th year after the grant date	20%

In the case of involuntary termination of the employee, the Company will pay to the employee the fair market sales price at the date of termination of employment of the fully paid shares, net of costs and taxes. When the fair market sales value of the shares is higher than the purchase price, the Company will apply a deduction over the amount to be paid to the employee based on the following schedule.

If the termination occurs during:	% Deducted
1st year after the grant date	100%
2nd year after the grant date	95%
3rd year after the grant date	90%
4th year after the grant date	80%
5th year after the grant date	70%
6th year after the grant date	60%
7th year after the grant date	50%

In case of retirement or death of the employee, the Company will render the buyer or his legal beneficiary, the fair market sales value as of the date of retirement or death of the shares effectively paid, net of costs and taxes.

For the nine months ended September 30, 2010 and 2009, there was no stock based compensation under this plan.

Executive Stock Purchase Plan:

Grupo Mexico also offers a stock purchase plan for certain members of its executive management and the executive management of its subsidiaries and certain affiliated companies. Under this plan, participants will receive incentive cash bonuses which are used to purchase up to 2,250,000 shares of Grupo Mexico over an eight year period. The fair value of the award is estimated on the date of grant and is recognized as compensation expense over a weighted average requisite service period of eight years.

For the nine months ended September 30, 2010 and 2009, the stock based compensation expense under this plan was as follows (in millions)

Edgar Filing: SOUTHERN COPPER CORP/ - Form 10-Q

	2010		2009
Stock based compensation expense	\$	0.3	\$ 0.1
Unrecognized compensation expense at September 30,	\$	1.6	\$ 1.9

The unrecognized compensation expense under this plan is expected to be recognized over the remaining five year period.

Table of Contents

Q. Financial instruments:

Subtopic 810-10 of ASC Fair value measurement and disclosures Overall establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under Subtopic 810-10 are described below:

Level 1 - Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;

Level 2 - Inputs that are observable, either directly or indirectly, but do not qualify as Level 1 inputs. (i.e., quoted prices for similar assets or liabilities)

Level 3 - Prices or valuation techniques that require inputs that are both significant to the fair value measurement and unobservable (i.e., supported by little or no market activity).

The carrying amounts of certain financial instruments, including cash and cash equivalents, accounts receivable (other than accounts receivable associated with provisionally priced sales) and accounts payable approximate fair value due to their short maturities. Consequently, such financial instruments are not included in the following table that provides information about the carrying amounts and estimated fair values of other financial instruments that are not measured at fair value in the condensed consolidated balance sheet as of September 30, 2010 and December 31, 2009 (in millions):

	As of September 30, 2010		As of December 31, 2009	
	Carrying Value	Fair Value	Carrying Value	Fair Value
Liabilities:				
Long-term debt	\$ 2,765.3	\$ 3,152.1	\$ 1,280.3	\$ 1,292.3

Fair value for long term debt is based on quoted market prices classified as Level 1 in the fair value hierarchy. The Mitsui loan is based on the present value of the cash flow discounted at 11.3%, which is the Company's weighted average cost of capital.

Fair values of assets and liabilities measured at fair value on a recurring basis were calculated as follows as of September 30, 2010 and December 31, 2009 (in millions):

Table of Contents

Description	Fair Value at Measurement Date Using:				Fair Value at Measurement Date Using:			
	Fair Value as of September 30, 2010	Quoted prices in active markets for identical assets (Level 1)	Significant other observable inputs (Level 2)	Significant unobservable inputs (Level 3)	Fair Value as of December 31, 2009	Quoted prices in active markets for identical assets (Level 1)	Significant other observable inputs (Level 2)	Significant unobservable inputs (Level 3)
Assets:								
Short term investment:								
Trading securities	\$ 49.7	\$ 49.7						
Available for sale debt securities:								
Foreign bonds					\$ 1.9		\$ 1.9	
Corporate bonds	0.5		\$ 0.4	\$ 0.1	4.8		3.1	\$ 1.7
Asset backed obligations	0.4		0.4		6.6		6.6	
Mortgage backed securities	8.8		8.8		9.6		8.2	1.4
Derivatives:								
Provisionally priced sales:								
Copper	5.9	5.9			4.1	4.1		
Molybdenum	5.9	5.9			(16.2)	(16.2)		
Total	\$ 71.2	\$ 61.5	\$ 9.6	\$ 0.1	\$ 10.8	\$ (12.1)	\$ 19.8	\$ 3.1

The Company classifies investments within Level 3 of the valuation hierarchy in certain cases where there is limited activity or less observable inputs to the valuation. Investments classified within Level 3 include corporate bonds, asset backed obligations, and mortgage-backed securities. These investments are valued by the fund's management advisor taking into consideration different factors and methodologies considered appropriate in the circumstance. Factors can include the following or a combination of the following, observed transactions, broker quotes, cash flow analysis, vendor prices and other factors as appropriate.

Derivatives are valued using internal models that use as their basis readily observable market inputs, such as time value, forward interest rates, volatility factors, and current and forward market price for foreign exchange rates. The Company generally classifies these instruments within Level 2 of the valuation hierarchy. Such derivatives can include foreign currency, copper and zinc derivatives.

The Company's accounts receivables associated with provisionally priced copper sales are valued using quoted market prices based on the forward prices on the LME or on the COMEX. Such value is classified within Level 1 of the fair value hierarchy. Molybdenum prices are established by reference to the publication Platt's Metals Week and are considered Level 1 in the fair value hierarchy.

The Company invested \$49.7 million in Petroleos Mexicanos bonds, which it intends to sell in the near future and which are recorded at the market quotation at the end of the period. Such value is classified within Level 1 of the fair value hierarchy.

The table below sets forth a summary of changes in the fair value of the Company's Level 3 short-term investments (corporate bond, asset backed obligations, and mortgage backed securities) for the nine-month periods ended September 30, 2010 and 2009 (in millions):

Table of Contents

	9 months ended September 30, 2010			9 months ended September 30, 2009			
	Available for sale debt securities:			Available for sale debt securities:			
	Corporate bonds	Mortgage backed securities	Total	Corporate bonds	Asset backed obligations	Mortgage backed securities	Total
Balance as of January 1,	\$ 1.7	\$ 1.4	\$ 3.1	\$ 6.9	\$ 0.8	\$ 3.3	\$ 11.0
Unrealized gain (loss)				(0.1)	(0.3)	0.1	(0.3)
Purchases, sales, issuance and settlements (net)	(1.3)	(1.4)	(3.0)	(3.8)	(0.5)	(1.5)	(5.8)
Transfers in/out of Level 3	(0.3)			(1.1)		0.4	(0.7)
Balance as of September 30,	\$ 0.1	\$ 0.1	\$ 0.1	\$ 1.9	\$ 0.3	\$ 2.3	\$ 4.2

The unrealized gains (losses) were included in other income in the condensed consolidated statement of earnings for the nine-month periods ended September 30, 2010 and 2009.

R. AMC's business combination proposal:

On July 22, 2010, the Company received a non-binding proposal from its parent company, AMC, offering to effect an all-stock business combination of Southern Copper and AMC, the parent company of Asarco, in which all stockholders of Southern Copper would receive 1.237 common shares of AMC in exchange for each share of SCC. Under the proposal presented by AMC, the stock of AMC would be registered and listed on the New York, Mexico and the Lima Stock Exchanges.

On August 10, 2010, the Company formed a special committee of independent directors to evaluate AMC's proposal. The special committee has engaged independent legal and financial advisors to assist in this transaction and help in the evaluation of this proposal.

S. Subsequent events:

The Company has evaluated events after September 30, 2010 and through the date the condensed consolidated financial statements were issued and determined any events or transactions during this period that would require recognition or disclosure are appropriately addressed in these financial statements, including the following:

Dividends:

On October 27, 2010, the Board of Directors authorized a quarterly dividend of 43 cents per share payable on November 30, 2010 to SCC shareholders of record at the close of business on November 16, 2010.

Part I

Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion provides information that management believes is relevant to an assessment and understanding of the consolidated financial condition and results of operations of Southern Copper Corporation and its subsidiaries (collectively, "SCC", the Company, "our", and "we"). This item should be read in conjunction with our interim unaudited Condensed Consolidated Financial Statements and the notes thereto included in this quarterly report. Additionally, the following discussion and analysis should be read in conjunction with the Management Discussion and Analysis of Financial Condition and Results of Operations and the Consolidated Financial Statements included in Part II of our annual report on Form 10-K for the year ended December 31, 2009.

EXECUTIVE OVERVIEW

Business:

We are one of the largest integrated copper producers in the world and we believe we currently have the largest copper reserves of the industry. At December 31, 2009 we had estimated consolidated recoverable proven and probable reserves of 122 billion pounds of copper (calculated using long-term copper price assumption of \$1.80 per pound of copper) with potential for larger reserves at higher prices. In addition, we have projects under development and others for future development that would significantly increase these reserves. We are a NYSE and Lima Stock Exchange listed company that is 80% owned by Grupo Mexico, a Mexican company listed on the Mexican stock exchange. The remaining 20% ownership interest is held by the international investment community. We operate mining units and metallurgical facilities in Mexico and Peru and conduct exploration activities in Mexico, Peru and Chile.

Our business is primarily the production and sale of copper. In the process of producing copper, a number of valuable metallurgical by-products are recovered, such as molybdenum, zinc, silver, lead and gold, which we also produce and sell. Market forces outside of our control largely determine the sales prices for our products. We therefore focus on copper production, cost control, production enhancement and maintaining a prudent capital structure to remain profitable. We believe we achieve these goals through capital spending programs, exploration efforts and cost reduction programs. Our aim is to remain profitable during periods of low copper prices and to maximize financial performance in periods of high copper prices.

Outlook:

Average copper prices were \$3.29 per pound in the third quarter of 2010, about 24% higher than in the third quarter of 2009. Average molybdenum, silver and zinc prices in the third quarter of 2010 increased 3%, 14% and 29%, respectively, over average prices in the third quarter of 2009. We expect an average annual copper price of \$3.31 per pound for the year 2010 and average molybdenum, silver and zinc prices of \$15.65, \$18.73 and \$0.96, respectively.

We have recently entered into copper hedge contracts to reduce price volatility and protect sales value. Swaps contracts are currently hedging approximately 58% of fourth quarter 2010 copper production and 11% of 2011 copper production at prices averaging \$3.67 per pound for the fourth quarter 2010 and \$3.73 per pound for the year 2011. In addition, we have hedged approximately 16% of 2011 copper production through

Table of Contents

zero-cost collars with an average floor price of \$3.00 per pound and an average cap price of \$4.54 per pound.

Through September 30, 2010 we produced 767 million pounds of copper and we expect to produce about 1.1 billion pounds of copper for the year 2010. We are progressing with the restoration of production at Cananea and we expect to reach full production by February 2011.

Through September 30, 2010 we sold 801.6 million pounds of copper and 33.9 million pounds of molybdenum. Barring any disruption to our operations we expect to sell about 300 million pounds of copper and 45.1 million pounds of molybdenum in the fourth quarter 2010. We are currently reviewing our production plan for 2011.

Operating cash cost per pound of copper, net of by-products credit, was 14.5 cents per pound in the first nine months of 2010 and 28.7 cents in the third quarter 2010, compared with 36.9 cents per pound and 11.5 cents per pound in the comparable 2009 periods. Assuming current average prices for our by-products for the fourth quarter 2010, we estimate an operating cash cost per pound of copper, net of by-products credit, of 18.0 cents per pound for year 2010.

We expect to spend \$450 million on capital expenditures in 2010. Also, we have investment projects in Peru and Mexico totaling \$1.8 billion and \$3.8 billion, respectively. When completed, these projects will increase our production capacity by approximately 1.3 billion pounds of copper and 12.3 million pounds of molybdenum while maintaining SCC's low cost leadership.

Earnings: Net earnings in the third quarter and nine months ended September 30, 2010 were 16.9% and 87.6% higher than the comparable 2009 periods, principally as a result of higher average copper prices and the prices for our major by-products.

Although market conditions continue to be turbulent due to US and European economic recovery concerns and a potential weakening of Chinese growth, we are confident about the long-term outlook of our Company. It is our view that we are moving toward a deficit copper market in 2011. At the end of the third quarter, the combined inventories of the LME, COMEX and Shanghai warehouses have decreased by 35% from their February peak. We believe that Southern Copper, with its aggressive growth programs, is well positioned to benefit from these markets and to continue to generate strong returns for its shareholders.

The table below highlights key financial and operational data for our Company for the three and nine months ended September 30, 2010 and 2009:

	3 months ended September 30,			9 months ended September 30,		
	2010	2009	Variance	2010	2009	Variance
Net sales (in millions)	\$ 1,258	\$ 1,152	\$ 106	\$ 3,650	\$ 2,598	\$ 1,052
Net income attributable to SCC (in millions)	\$ 365	\$ 312	\$ 53	\$ 1,062	\$ 566	\$ 496
Earnings per share	\$ 0.43	\$ 0.37	\$ 0.06	\$ 1.25	\$ 0.67	\$ 0.58

Edgar Filing: SOUTHERN COPPER CORP/ - Form 10-Q

Dividends per share	\$	0.37	\$	0.10	\$	0.27	\$	1.25	\$	0.26	\$	0.99
Average LME copper price	\$	3.29	\$	2.66	\$	0.63	\$	3.25	\$	2.11	\$	1.14
Pounds of copper sold (in millions)		288		303		(15)		802		840		(38)

Production: Third quarter 2010 mined production of our major by-products was lower compared with the third quarter of 2009, copper, however, increased 4.1%, principally due to the recovery of production at the Cananea mine. Also copper mined production increased 10.3% compared to the second quarter 2010 because of higher production in all of our mines due to higher ore grades, recoveries and Cananea's SXEW production.

Table of Contents

The table below highlights key mine production data for our Company for the three months ended September 30, 2010 and 2009:

(in million pounds except silver, in million ounces)	Three months ended			Nine months ended		
	2010	September 30, 2009	Variance	2010	September 30, 2009	Variance
Copper mined	276.0	265.1	10.9	767.2	792.1	(24.9)
Molybdenum mined	11.0	11.4	(0.4)	33.7	30.1	3.6
Zinc mined	54.0	61.3	(7.3)	169.2	181.9	(12.7)
Silver mined	3.1	3.3	(0.2)	9.4	9.8	(0.4)

Cananea mine: We are progressing with the restoration of production at Cananea. Production at this unit has reached 30% capacity and we expect to reach full production by February 2011. Approximately 3,400 contractors and Company workers are engaged in the recovery process which is estimated to cost \$114 million, part of which will be covered by insurance.

Tantahuatay: The construction of the Tantahuatay gold project, in which we have a 44.25% participation, has advanced and is expected to start dore gold production by June 2011. The project is expected to have an average annual production of 90,000 ounces of gold and about 426,000 ounces of silver, for 5 years. It will require a total investment of \$110 million.

AMC's business combination proposal: On July 22, 2010, we received a non-binding proposal from our parent company, AMC, offering to effect an all-stock business combination of Southern Copper and AMC, the parent company of Asarco, in which all stockholders of Southern Copper would receive 1.237 common shares of AMC in exchange for each share of SCC. Under the proposal presented by AMC, the stock of AMC would be registered and listed on the New York, Mexico and the Lima Stock Exchanges.

On August 10, 2010, we formed a special committee of independent directors to evaluate AMC's proposal. The special committee has engaged independent legal and financial advisors to assist in this transaction and help in the evaluation of this proposal.

KEY MATTERS:

We discuss below several matters that we believe are important to understand our results of operations and financial condition. These matters include, (i) our operating cash costs as a measure of our performance, (ii) metal prices, (iii) business segments, (iv) the effect of inflation and other local currency issues, and (v) capital expansion and exploration program.

Operating Cash Costs: An overall benchmark used by us and a common industry metric to measure performance is operating cash costs per pound of copper produced. Operating cash cost is a non-GAAP measure that does not have a standardized meaning and may not be comparable to similarly titled measures provided by other companies. A reconciliation of our operating cash cost per pound to the cost of sales (exclusive of depreciation, amortization and depletion) as presented in the condensed consolidated statement of earnings is presented under the subheading, Non-GAAP Information Reconciliation, below. From time to time we purchase copper concentrates on the open market in order to maximize

Edgar Filing: SOUTHERN COPPER CORP/ - Form 10-Q

the use of our smelter capacity or to take advantage of an attractive market situation. We view these purchases on an incremental basis and measure the results incrementally. We find that the inclusion of these purchases with our own production often creates a distortion in our unit cost. Accordingly we only include the net revenue or loss from the transaction in the calculation. We believe this will allow others to see a truer presentation of our cash cost. Amounts for prior periods have been restated to show this change.

Table of Contents

We have defined operating cash cost per pound as cost of sales (exclusive of depreciation, amortization and depletion), less the cost of purchased concentrates, plus selling, general and administrative charges, treatment and refining charges, net revenue (loss) on sale of metal purchased from third parties and by-products revenues, and sales premiums; less workers' participation and other miscellaneous charges, including the Peruvian royalty charge and the change in inventory levels; divided by total pounds of copper produced by our own mines. In our calculation of operating cash cost per pound of copper produced, we credit against our costs the revenues from the sale of by-products, primarily molybdenum, zinc, silver and the premium over market price that we receive on copper sales. We account for the by-product revenue in this way because we consider our principal business to be the production and sale of copper. We believe that our Company is viewed by the investment community as a copper company, and is valued, in large part, by the investment community's view of the copper market and our ability to produce copper at a reasonable cost. We also include copper sales premiums as a credit, as these amounts are in excess of published copper prices. The increase in recent years in the price of molybdenum, as well as increases in silver and zinc, have had a significant effect on our traditional calculation of cash cost and its comparability between periods. Accordingly, we present cash costs with and without crediting the by-product revenues against our costs.

We exclude from our calculation of operating cash cost depreciation, amortization and depletion, which are considered non-cash expenses. Exploration is considered a discretionary expenditure and is also excluded. Workers' participation provisions are determined on the basis of pre-tax earnings and are also excluded. Additionally excluded from operating cash costs are items of a non-recurring nature and the royalty charges.

Our operating cash costs per pound, as defined, are presented in the table below, for the three and nine months ended September 30, 2010 and 2009.

(dollars per pound)	Three Months Ended		Positive (negative) Variance	Nine months Ended		Positive (negative) Variance
	2010	September 30, 2009		2010	September 30, 2009	
Operating cash cost per pound of copper produced	\$ 0.287	\$ 0.115	\$ (0.172)	\$ 0.145	\$ 0.369	\$ 0.224
Less: by-products revenue and net revenue on sale of metal purchased from third parties	1.159	1.315	(0.156)	1.358	0.989	0.369
Operating cash cost per pound of copper produced without by-products revenue and net revenue on sale of metal purchased from third parties	\$ 1.446	\$ 1.430	\$ (0.016)	\$ 1.503	\$ 1.358	\$ (0.145)

As seen in the table above, our per pound cash cost for the three and nine months ended September 30, 2010 when calculated with by-products revenue are costs of 28.7 and 14.5 cents per pound, respectively, compared with costs of 11.5 and 36.9 cents per pound in the comparable periods of 2009. The increase of 17.2 cents per pound in the third quarter 2010 was primarily due to lower by-products credit in the 2010 period as a result of lower molybdenum, zinc and silver sales volume, partially offset by increases in 2010 prices for all of our by-products. The decrease of 22.4 cents per pound in the nine months period was primarily due to higher by-products credit in the 2010 period as a result of higher prices for all of our by-products and higher molybdenum sales volume.

Our cash cost, excluding by-product revenues, was higher by 1.6 and 14.5 cents per pound in the third quarter and the nine months of 2010 than in the 2009 periods due to higher power, labor, fuel and material repair costs.

Table of Contents

Metal Prices. The profitability of our operations is dependent on, and our financial performance is significantly affected by, the international market prices for the products we produce, especially for copper, molybdenum, zinc and silver. Metal prices historically have been subject to wide fluctuations and are affected by numerous factors beyond our control. These factors, which affect each commodity to varying degrees, include international economic and political conditions, levels of supply and demand, the availability and cost of substitutes, inventory levels maintained by producers and others and, to a lesser degree, inventory carrying costs and currency exchange rates. In addition, the market prices of certain metals have on occasions been subject to rapid short-term changes due to speculative activities.

We are subject to market risks arising from the volatility of copper and other metal prices. Assuming that expected metal production and sales are achieved, that tax rates are unchanged, giving no effect to potential hedging programs, metal price sensitivity factors would indicate the following change in estimated 2010 net income attributable to SCC resulting from metal price changes:

	Copper		Molybdenum		Zinc		Silver	
Change in metal prices (per pound, except silver per ounce)	\$	0.01	\$	1.00	\$	0.01	\$	1.00
Annual change in net income attributable to SCC (in millions)	\$	5.9	\$	25.7	\$	1.2	\$	8.1

Business Segments.

We view our Company as having three operating segments and manage on the basis of these segments. These segments are our (1) Peruvian operations, (2) our Mexican open-pit operations and (3) our Mexican underground operations, known as our IMMSA unit. Our Peruvian operations include the Toquepala and Cuajone mine complexes and the smelting and refining plants, industrial railroad and port facilities which service both mines. The Peruvian operations produce copper, with significant by-product production of molybdenum, silver and other material. Our Mexican open-pit operations include La Caridad and Cananea mine complexes, the smelting and refining plants and support facilities which service both mines. The Mexican open pit operations produce copper, with significant by-product production of molybdenum, silver and other material. Our IMMSA unit includes five underground mines that produce zinc, lead, copper, silver and gold, a coal mine which produces coal and coke, and several industrial processing facilities for zinc, copper and silver.

Segment information is included in our review of Results of Operations and also in Note N Segment and Related Information of our condensed consolidated financial statements.

Inflation and Devaluation of the Peruvian Nuevo Sol and the Mexican Peso.

Our functional currency is the U.S. dollar. Portions of our operating costs are denominated in Peruvian nuevos soles and Mexican pesos. Since our revenues are primarily denominated in U.S. dollars, when inflation/deflation in Peru or Mexico is not offset by a change in the exchange rate of the nuevo sol or the peso, respectively, to the dollar, our financial position, results of operations and cash flows could be adversely affected to the extent that the inflation/devaluation effects are passed onto us by our suppliers or reflected in our wage adjustments. In addition, the dollar value of our net monetary assets denominated in nuevos soles or pesos can be affected by devaluation of the nuevo sol or the peso, resulting in a remeasurement loss in our financial statements. Recent inflation and devaluation rates are provided in the table below for the three and nine month periods ended September 30, 2010 and 2009:

Table of Contents

	Three Months Ended September 30,		Nine months Ended September 30,	
	2010	2009	2010	2009
Peru:				
Peruvian inflation rate	0.6%	(0.1)%	2.0%	(0.1)%
Nuevo sol/dollar devaluation/(appreciation) rate	(1.4)%	(4.2)%	(3.6)%	(8.2)%
Mexico:				
Mexican inflation rate	1.0%	1.0%	2.4%	2.3%
Peso/dollar devaluation/(appreciation) rate	(1.2)%	2.2%	(4.3)%	(0.3)%

Capital Expansion and Exploration Programs

We have investment projects in Peru and Mexico totaling \$1.8 billion and \$3.8 billion, respectively. In Peru these projects include the development of the Tia Maria ore body and the expansion of the Toquepala and Cuajone properties. Projects in Mexico include expansion of the Cananea concentrator and SXEW facilities as well as a new smelter, refinery and power plant. When completed, these projects will increase our production capacity by approximately 1.3 billion pounds of copper and 12.3 million pounds of molybdenum.

We made capital expenditures of \$112.9 million and \$281.2 million for the three and nine months ended September 30, 2010, compared with \$110.6 million and \$316.7 million in the comparable periods of 2009, respectively. In general, the capital expenditures and projects described below are intended to increase production and to improve cost competitiveness.

Set forth below are descriptions of some of our current expected capital expenditures. We expect to meet the cash requirements for these projects from cash on hand, internally generated funds and from additional external financing, if required. All capital spending plans will continue to be reviewed and adjusted to respond to changes in the economy or market conditions.

Peruvian Operations:

Toquepala concentrator expansion: Through September 30, 2010, we have spent a total of \$114.6 million on the Toquepala concentrator expansion. The expansion is designed to increase annual production by approximately 220 million pounds of copper and 6.8 million pounds of molybdenum. The use of high pressure grinding rolls (HPGR) and wet screening at the tertiary crushing stage was defined. Engineering for the project is under review and the EIA is expected to be presented by the end of year 2010.

Tia Maria project: The project is expected to have annual production of 260 million pounds of SXEW copper when completed and has a budget of \$934 million. Additional information for the project including the use of sea water was submitted to the government. We expect the government's decision in the fourth quarter 2010 on the new actions required to obtain approval of the EIA. Construction works are scheduled to begin in the first quarter of 2011 and copper production by mid 2012.

Edgar Filing: SOUTHERN COPPER CORP/ - Form 10-Q

Cuajone Concentrator Expansion: The Cuajone expansion project is also ongoing. As of September 30, 2010 we have spent a total of \$39.4 million. The purchase of mine and auxiliary equipment to support the work to optimize the Cuajone mining plan is in progress. As part of the Cuajone expansion plans, the project contemplates a variable grade cut-off methodology, which will increase the copper and molybdenum production by

Table of Contents

approximately a total of 324.1 million pounds and 6.6 million pounds, respectively, in the next 10 years.

Mexican operations:

The new SXEW plant (SXEW III) and the crushing, conveying and spreading system (Quebalix III) projects, both at Cananea, have been restarted. The basic engineering for the SXEW III, developed in 2006, is being reviewed by ICA-Fluor and is expected to be completed by December 2010. We expect to start the detailed engineering early in 2011 and, when completed, we will begin the acquisition of major equipment and construction of the plant. Total budget for this project is \$180 million, of which we have spent \$1.9 million as of September 30, 2010. Regarding the Quebalix III, we have almost completed the acquisition of the project equipment and will begin construction of the crusher building. We expect a total investment of \$56 million, of which we have spent \$34.9 million as of September 30, 2010.

Potential projects:

We have a number of other projects that we may develop in the future. We evaluate new projects on the basis of our long-term corporate objectives, expected return, environmental needs, required investment and estimated production, among other considerations. All capital spending plans will continue to be reviewed and adjusted to respond to changes in the economy or market conditions.

The above information is based on estimates only. We cannot make any assurances that we will undertake any of these projects or that the information noted is accurate.

ACCOUNTING ESTIMATES

Our discussion and analysis of financial condition and results of operations are based on our condensed consolidated financial statements, which have been prepared in accordance with U.S. GAAP. Preparation of these condensed consolidated financial statements requires our management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting periods. Management makes its best estimate of the ultimate outcome for these items based on historical trends and other information available when the financial statements are prepared. Changes in estimates are recognized in accordance with the accounting rules for the estimate, which is typically in the period when new information becomes available to management. Areas where the nature of the estimate makes it reasonably possible that actual results could materially differ from amounts estimated include: ore reserves, revenue recognition, estimated mine stripping ratios, leachable material and related amortization, the estimated useful lives of fixed assets, asset retirement obligations, litigation and contingencies, valuation allowances for deferred tax assets, tax positions, fair value of financial instruments and inventory obsolescence. We base our estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances. Actual results may differ from these estimates under different assumptions or conditions.

PRODUCTION

Copper mined production in the third quarter 2010 increased by 4.1% to 276.0 million pounds compared to 265.1 million pounds in the third quarter 2009. This increase was mainly the result of 11.0 million pounds of SXEW copper production at our Cananea mine. Toquepala mine production also increased to 77.9 million pounds in the third quarter 2010 from 70.2 million pounds in the third quarter 2009 due to higher ore grades and recoveries. These increases were partially offset by a decrease of 4.4

Table of Contents

million pounds at La Caridad mine due to lower ore grade and recoveries and a decrease of 4.4 million pounds at the Cuajone mine due to lower ore grade.

In the third quarter 2010, molybdenum production decreased 3.5% from the third quarter 2009 to 11.0 million pounds, principally due to lower grade at the Cuajone mine. In the nine months of 2010, molybdenum production increased by 12% to 33.7 million pounds from 30.1 million pounds in the nine months of 2009.

Zinc refined increased 0.7% in third quarter 2010 compared to third quarter 2009. Zinc mine production in the third quarter 2010 decreased by 11.9% to 54.0 million pounds compared to the third quarter 2009, mainly the result of lower production at the Santa Eulalia mine due to unusually heavy rains, which caused flooding in the area, and hindered production. We are working to correct this problem and expect to restore production by April 2011.

Silver refined production increased 5.5% in the third quarter 2010 to 3.5 million ounces compared to the third quarter 2009, principally due to higher silver content in third-party material processed at our Ilo facilities.

RESULTS OF OPERATIONS

The following highlights key financial results for the three and nine month periods ended September 30, 2010 and 2009 (in millions):

	Three Months Ended September 30,		Nine months Ended September 30,	
	2010	2009	2010	2009
Net sales	\$ 1,257.9	\$ 1,151.8	\$ 3,650.5	\$ 2,598.3
Operating costs and expenses	(655.0)	(643.1)	(1,898.4)	(1,642.2)
Operating income	602.9	508.7	1,752.1	956.1
Non-operating income (expense)	(57.0)	(26.7)	(127.5)	(59.5)
Income before income taxes	545.9	482.0	1,624.6	896.6
Income taxes	(178.7)	(167.7)	(556.9)	(327.1)
Net income attributable to non-controlling interest	(2.0)	(1.8)	(5.9)	(3.4)
Net income attributable to SCC	\$ 365.2	\$ 312.5	\$ 1,061.8	\$ 566.1

Average Metal Prices

The table below outlines the average metal prices during the three and nine month periods ended September 30, 2010 and 2009:

Edgar Filing: SOUTHERN COPPER CORP/ - Form 10-Q

	Three Months Ended			Nine months Ended		
	2010	September 30,		2010	September 30,	
		2009	% Change		2009	% Change
Copper (\$ per pound LME)	\$ 3.29	\$ 2.66	23.7%	\$ 3.25	\$ 2.11	54.0%
Copper (\$ per pound COMEX)	\$ 3.30	\$ 2.67	23.6%	\$ 3.26	\$ 2.13	53.1%
Molybdenum (\$ per pound)	\$ 14.86	\$ 14.50	2.5%	\$ 15.58	\$ 10.78	44.5%
Zinc (\$ per pound LME)	\$ 0.91	\$ 0.80	13.8%	\$ 0.96	\$ 0.67	43.3%
Silver (\$ per ounce COMEX)	\$ 18.98	\$ 14.76	28.6%	\$ 18.08	\$ 13.71	31.9%

Edgar Filing: SOUTHERN COPPER CORP/ - Form 10-Q

Table of Contents

Net Sales. Net sales for the three and nine months ended September 30, 2010 increased by \$106.1 million and \$1,052.2 million, respectively, compared with the same periods of 2009. These increases were principally due to higher metal prices and higher molybdenum sales volume in the nine months period partially offset by lower copper, silver and zinc sales volumes. Lower copper sales volume of 14.9 million pounds and 37.8 million pounds in the three and nine month periods respectively, were mainly at our Peruvian operations, and for the nine month period, was caused by lower copper production. In addition, in the third quarter of 2009 we had a sale of copper in blister and smelter slag. This type of sale does not occur very often at our Peruvian operations. The decrease in copper sales volume was partially offset by the sale of production from the Cananea mine.

The table below presents information regarding the volume of our copper sales by segment for the three and nine month periods ended September 30, 2010 and 2009:

Copper Sales (million pounds):

	Three Months Ended September 30,			Nine months Ended September 30,		
	2010	2009	Variance	2010	2009	Variance
Peruvian operations	201.0	224.6	(23.6)	574.9	605.6	(30.7)
Mexican open-pit	87.5	76.5	11.0	226.3	217.7	8.6
Mexican IMMSA unit	4.0	8.1	(4.1)	16.6	27.3	(10.7)
Other and intersegment elimination	(4.0)	(5.8)	1.8	(16.2)	(11.2)	(5.0)
Total	288.5	303.4	(14.9)	801.6	839.4	(37.8)

The table below presents information regarding the volume of sales by segment of our significant by-products for the three and nine month periods ended September 30, 2010 and 2009:

By-product Sales:

(in million pounds except silver in million ounces)	Three Months Ended September 30,		Nine months Ended September 30,	
	2010	2009	2010	2009
Peruvian operations				
Molybdenum contained in concentrates	5.5	5.9	16.5	13.8
Silver	1.4	1.2	3.3	3.1
Mexican open-pit				
Molybdenum contained in concentrates	5.5	5.4	17.3	16.1
Silver	2.1	1.6	5.7	4.6
Mexican IMMSA unit				
Zinc refined and in concentrate	48.1	57.7	159.8	170.8
Silver	1.4	3.4	5.3	9.2

Edgar Filing: SOUTHERN COPPER CORP/ - Form 10-Q

Other and intersegment elimination				
Zinc refined and in concentrate	(3.1)	(0.1)	(4.8)	1.1
Silver	(0.4)	(1.3)	(2.5)	(3.7)
Total by-product sales				
Molybdenum contained in concentrates	11.0	11.3	33.8	29.9
Zinc refined and in concentrate	45.0	57.6	155.0	171.9

Table of Contents

Operating Costs and Expenses

Operating costs and expenses were \$655.0 million and \$1,898.4 million in the three and nine month periods ended September 30, 2010, respectively, compared with \$643.0 million and \$1,642.2 million in the comparable periods of 2009. The increases of \$12.0 million and \$256.2 million were primarily due to higher cost of sales (exclusive of depreciation, amortization and depletion).

Cost of sales (exclusive of depreciation, amortization and depletion) in the third quarter of 2010 was \$542.5 million compared with \$529.9 million in the same period of 2009. The increase of \$12.6 million was primarily due to the following: 1) \$9.6 million of higher fuel and power cost primarily at our Mexican operations due to market prices and higher power purchased from third parties, 2) \$20.1 million of higher labor, material repair and other production cost, partially offset by a 3) \$33.7 million of lower cost of material purchased from third parties. The third quarter 2010 period also includes \$17.8 million of cost related to the Cananea and La Caridad labor disruptions.

Cost of sales (exclusive of depreciation, amortization and depletion) in the nine months ended September 30, 2010 was \$1,564.0 million compared with \$1,324.8 million in the same period of 2009. The increase of \$239.2 million was primarily due to the following: 1) \$33.1 million of higher fuel and power cost primarily at our Mexican operations due to market prices and higher power purchased from third parties, 2) \$50.1 million of higher labor, material repair and other production cost, 3) \$84.6 million of higher workers participation due to higher pre-tax earnings, 4) \$21.4 million of higher cost of material purchased from third parties, 5) \$17.8 million of costs related to the Cananea and La Caridad labor disruptions 6) \$2.5 million of severance payments related to the closing of the San Luis Potosi copper smelter, and 7) \$11.9 million of higher tolling fees and other costs at our IMMSA unit.

Non-Operating Income (Expense)

Non-operating income and expense were an expense of \$57.0 million and \$127.5 million in the three and nine month periods ended September 30, 2010, respectively, compared to an expense of \$26.7 million and \$59.5 million in the comparable periods of 2009.

The \$30.2 million increase in expense in the third quarter of 2010 includes \$21.4 million of higher interest expense as a result of the new debt taken in April 2010 and \$9.9 million of higher expense in other income (expense).

The \$9.9 million of higher expense in other income includes a higher contribution of \$0.7 million to the regional development fund and \$1.4 million of lower miscellaneous income, both at our Peruvian operations, \$6.0 million of higher cost of assets disposal and \$2.7 million of donations, services and other miscellaneous expenses at our Mexican operations.

The \$68.0 million increase in expense in the nine months ended September 30, 2010 includes \$46.4 million of higher interest expense, as noted above and \$16.9 million of higher expense in other income (expense). The 2009 period also includes \$4.1 million of gain on derivative instruments.

Edgar Filing: SOUTHERN COPPER CORP/ - Form 10-Q

The \$16.9 million decrease in other income (expense) was principally due to \$4.4 million of a higher contribution to the regional development fund and \$1.2 million of higher legal fees, both at our Peruvian operations, \$6.0 million of higher cost of assets disposal and \$2.7 million of donations, services and other miscellaneous expenses at our Mexican operations.

The 2009 period also included income of \$1.9 million for a termination fee received from a Canadian mining company after they backed out of our purchase offer.

Table of Contents

Income taxes: The income tax provision for the nine months ended September 30, 2010 and 2009 were \$556.9 million and \$327.1 million, respectively. These provisions include income taxes for Peru, Mexico and the United States. The income tax provision was 34.3% and 36.5% for the nine months ended September 30, 2010 and 2009, respectively. The decrease in the effective tax rate for the nine-month period of 2010 is largely due to the proportionately higher incremental U.S. income tax provided on dividend distributions made by our Mexican subsidiary to the U.S. parent in the nine-month period of 2009. Because the pretax earnings in the nine-month period of 2009 were significantly lower than the 2010 pretax earnings the effect of this incremental tax had a larger than normal impact on the effective rate. For the full year 2009 the final effective tax rate was 33.5%. This dividend distribution is taxable in the U.S. at the difference between the 35% U.S. statutory rate and the Mexican statutory tax rate, which is currently 30%.

As of March 27, 2009, Grupo Mexico, through its wholly-owned subsidiary AMC, became the beneficial owner of 80% of SCC's common stock. As a result of this new level of ownership, beginning March 27, 2009 SCC no longer files a separate U.S. federal income tax return and its operating results are included in the AMC consolidated U.S. federal income tax return. In addition to now holding an 80% interest in SCC, AMC also owns 100% of Asarco and its subsidiaries. In accordance with paragraph 30-27 of ASC 740-10-30, it is expected that current and deferred taxes will be allocated to members of the AMC group as if each were a separate taxpayer. We have initiated discussions with AMC to put in place a tax sharing agreement in order to establish this allocation as well as other procedures and policies necessary for an equitable management of U.S. federal income tax matters. SCC provides current and deferred income taxes as if it were a separate filer.

Segment Results AnalysisPeruvian Open-pit Operations

The following table sets forth net sales, operating cost and expenses and operating income for our Peruvian open pit operations segment, for the third quarter and the nine months ended September 30, 2010 and 2009 (in millions):

	Third Quarter		Variance		Nine months		Variance	
	2010	2009	Value	%	2010	2009	Value	%
Net sales	\$ 749.6	\$ 710.8	\$ 38.8	5.5%	\$ 2,209.6	\$ 1,532.9	\$ 676.7	44.1%
Operating costs and expenses	(343.1)	(370.6)	27.5	7.4%	(1,024.0)	(869.8)	(154.2)	(17.7)%
Operating income	\$ 406.5	\$ 340.2	\$ 66.3	19.5%	\$ 1,185.6	\$ 663.1	\$ 522.5	78.8%

Third quarter:

Net sales in the third quarter of 2010 were \$749.6 million compared with \$710.8 million in the third quarter of 2009. The increase of \$38.8 million was primarily the result of higher metal prices, partially offset by lower copper sales volume. Also in the 2009 third quarter we had a \$6.5 million sale of copper slag. This type of sale does not occur very often.

Operating costs and expenses in the third quarter of 2010 decreased by \$27.5 million to \$343.1 million from the third quarter of 2009, primarily due to \$26.7 million of lower cost of sales (exclusive of depreciation, amortization and depletion).

Cost of sales (exclusive of depreciation, amortization and depletion) for the third quarter of 2010 was \$295.3 million compared to \$322.0 million in the comparable 2009 period. The decrease was principally the result of 1) \$28.9 million of lower inventory consumption in the 2010 period (inventory consumption in the third quarter

Table of Contents

of 2009 was \$31.3 million compared with a consumption of \$2.4 million in the third quarter 2010) and 2) \$19.6 million of lower cost of copper purchases from third parties, partially offset by 3) \$21.3 million of higher production cost, principally due to the maintenance of the Ilo smelter.

Nine months:

Net sales in the nine-month period of 2010 were \$2,209.6 million compared with \$1,532.9 million in the nine-month period of 2009. The increase of \$676.7 million was primarily the result of higher market prices, partially offset by lower copper sales volume.

Operating costs and expenses in the nine-month period of 2010 increased by \$154.2 million to \$1,024.0 million from \$869.8 million in the nine-month period of 2009, primarily due to \$143.3 million of higher cost of sales (exclusive of depreciation, amortization and depletion).

Cost of sales (exclusive of depreciation, amortization and depletion) for the nine-month period of 2010 was \$881.7 million compared to \$738.4 million in the comparable 2009 period. The principal elements of cost of sales, causing the increase, include the following: 1) \$58.1 million of higher workers participation and \$15.5 million of higher mine royalties, both due to higher earnings, 2) \$32.1 million for the higher cost of copper purchases from third parties and 3) \$50.9 million of higher production cost, principally due to higher operating and repair material costs.

Mexican Open-pit Operations

The following table sets forth net sales, operating cost and expenses and operating income for our Mexican open-pit operations segment for the third quarter and the nine months ended September 30, 2010 and 2009 (in millions):

	Third Quarter		Variance		Nine months		Variance	
	2010	2009	Value	%	2010	2009	Value	%
Net sales	\$ 430.6	\$ 328.3	\$ 102.3	31.2%	\$ 1,175.4	\$ 763.8	\$ 411.6	53.9%
Operating costs and expenses	(254.4)	(196.9)	(57.5)	(29.1)%	(696.2)	(547.1)	(149.1)	(27.3)%
Operating income	\$ 176.2	\$ 131.4	\$ 44.8	34.1%	\$ 479.2	\$ 216.7	\$ 262.5	121.1%

Third quarter:

Net sales in the third quarter of 2010 were \$430.6 million compared to \$328.3 million in the third quarter of 2009. The increase of \$102.3 million was due to higher metal prices and higher SXEW copper sales from the restored production at the Cananea mine.

Edgar Filing: SOUTHERN COPPER CORP/ - Form 10-Q

Operating costs and expenses in the third quarter of 2010 increased by \$57.5 million to \$254.4 million from \$196.9 million in the comparable 2009 period, primarily due to higher cost of sales (exclusive of depreciation, amortization and depletion).

Cost of sales (exclusive of depreciation, amortization and depletion) increased \$59.1 million to \$204.6 million in the third quarter of 2010 from \$145.5 million in the same period of 2009. The increase in cost of sales included: 1) \$12.1 million for the higher cost of copper purchases from third parties, 2) \$4.6 million of higher production cost, primarily resulting from higher fuel and power costs, 3) \$16.9 million of higher inventory sold at La Caridad mine, and 4) \$17.8 million of costs related to the Cananea and La Caridad labor disruptions.

Table of Contents

Nine months:

Net sales in the nine-month period of 2010 were \$1,175.4 million compared to \$763.8 million in the nine-month period of 2009. The increase of \$411.6 million was due to higher metal prices and higher copper, molybdenum and silver sales volumes. See sales volume above.

Operating costs and expenses in the nine-month period of 2010 increased by \$149.1 million to \$696.2 million from the comparable 2009 period, primarily due to higher cost of sales (exclusive of depreciation, amortization and depletion).

Cost of sales (exclusive of depreciation, amortization and depletion) increased \$150.2 million to \$547.9 million in the nine-month period of 2010 from \$397.7 million in the same period of 2009. The increase in cost of sales included: 1) \$89.6 million for the higher cost of copper purchases from third parties and 2) \$25.3 million of higher workers participation due to increased earnings. Also the 2010 period includes \$17.8 million of costs related to the Cananea and La Caridad labor disruptions.

Mexican Underground Operations (IMMSA)

The following table sets forth net sales, operating cost and expenses and operating income for our IMMSA segment, for the third quarter 2010 and 2009 (in millions):

	Third Quarter		Variance		Nine months		Variance	
	2010	2009	Value	%	2010	2009	Value	%
Net sales	\$ 100.4	\$ 150.2	\$ (49.8)	(33.2)%	\$ 366.6	\$ 388.6	\$ (22.0)	(5.7)%
Operating costs and expenses	(76.6)	(117.0)	40.4	34.5%	(271.7)	(313.8)	42.1	13.4%
Operating income	\$ 23.8	\$ 33.2	\$ (9.4)	(28.3)%	\$ 94.9	\$ 74.8	\$ 20.1	26.9%

Third quarter:

Net sales in the third quarter of 2010 were \$100.4 million compared to \$150.2 million in the third quarter of 2009. The decrease of \$49.8 million was principally due to lower copper, zinc and silver sales volume, partially offset by higher metal prices. The copper sales volume decrease was primarily due to lower blister sales caused by lower metal processed from third parties. The lower zinc sales volume was due to lower production from the Santa Eulalia mine, which had flooding problems in the third quarter of 2010.

Operating costs and expenses in the third quarter of 2010 decreased by \$40.4 million to \$76.6 million from \$117.0 million in the comparable 2009 period. This decrease was primarily due to \$41.1 million of lower cost of sales (exclusive of depreciation, amortization and depletion).

Edgar Filing: SOUTHERN COPPER CORP/ - Form 10-Q

Cost of sales (exclusive of depreciation, amortization and depletion) decreased by \$41.1 million to \$64.0 million from \$105.1 million in the third quarter of 2009. The decrease was primarily due to \$44.2 million of lower metal purchases from third parties, partially offset by \$3.8 million of higher production costs.

Nine months:

Net sales in the nine-month period of 2010 were \$366.6 million compared to \$388.6 million in the same period of 2009. This decrease of \$22.0 million in net sales was primarily due to lower copper, zinc and silver sales volume, partially offset by higher metal prices. The copper sales volume decrease was primarily due to lower blister sales caused by lower metal processed from third parties and flooding problems at the Santa Eulalia mine since May 2010.

Table of Contents

Operating costs and expenses in the nine months ended September 30, 2010 decreased by \$42.1 million, to \$271.7 million from \$313.8 million in the comparable 2009 period. This decrease was primarily due to \$47.4 million of lower cost of sales (exclusive of depreciation, amortization and depletion), partially offset by \$5.7 million of higher exploration cost at the Charcas, Santa Barbara and Santa Eulalia mines.

Cost of sales (exclusive of depreciation, amortization and depletion) decreased by \$47.4 million to \$234.1 million in the nine months ended September 30, 2010 from \$281.5 million in the same period of 2009. This decrease primarily included: 1) \$93.0 million of lower metal purchases from third parties partially offset by 2) \$2.5 million of severance payments related to the closing of the San Luis Potosi copper smelter, 3) \$13.6 million of higher production cost principally due to higher fuel, power and operating and repair material costs, 4) \$17.5 million due to changes in inventory levels, 5) \$3.8 million of higher tolling fees and 6) \$8.1 million of other production costs.

Intersegment Eliminations and Adjustments

The net sales, operating costs and expenses and operating income displayed above will not be directly equal to amounts in our condensed consolidated statement of earnings because the adjustments of intersegment operating revenues and expenses must be taken into account. Please see Note M of the condensed consolidated financial statements.

CASH FLOW

The following table shows the cash flow for the nine months ended September 30, 2010 and 2009 (in millions):

	Nine months ended September 30,		
	2010	2009	Variance
Net cash provided from operating activities	\$ 1,368.8	\$ 296.7	\$ 1,072.1
Net cash used for investing activities	\$ (310.3)	\$ (274.3)	\$ (36.0)
Net cash provided from (used for) financing activities	\$ 408.8	\$ (300.6)	\$ 709.4

Net cash provided from (used for) operating activities:

The increase of \$1,072.1 million in the nine months ended September 30, 2010 cash provided from operating activities compared with the same period of 2009, was primarily due to an increase of \$498.2 million in net income and a decrease in working capital needs of \$594.2 million, net of a decrease of \$20.3 million on adjustments to reconcile earnings to cash. The increase in net income was primarily due to higher metal prices.

The nine months ended September 30, 2010 and 2009 change in cash from working capital includes (in millions):

Edgar Filing: SOUTHERN COPPER CORP/ - Form 10-Q

	Nine months ended September 30,		
	2010	2009	Variance
Accounts receivable	\$ 1.6	\$ (302.9)	\$ 304.5
Inventories	25.7	33.9	(8.2)
Accounts payable and accrued liabilities	74.8	(360.4)	435.2
Other operating assets and liabilities	(9.4)	127.9	(137.3)
Total	\$ 92.7	\$ (501.5)	\$ 594.2

Table of Contents

Nine months ended September 30, 2010:

In the nine months ended September 30, 2010 net income was \$1,067.7 million approximately 78.0% of the net operating cash flow. Significant items (deducted from), or added to arrive to operating cash flow included, depreciation, amortization and depletion of \$242.1 million and a loss on currency translation of \$13.9 million principally due to a 2% revaluation of the Peruvian nuevo sol, which increased operating cash flow and \$46.8 million of deferred income tax benefit, which decreased operating cash flow.

In addition, in the nine months ended September 30, 2010 a decrease in working capital increased operating cash flow by \$98.0 million. The decrease in inventories was principally due to \$21.7 million of lower copper in process due to the closing of the San Luis Potosi copper smelter at our Mexican operations and \$10.6 million of higher supplies consumption at our Peruvian operations. The increase in accounts payable and accrued liabilities was primarily due to higher income tax and workers participation provision, both because of higher net earnings.

Nine months ended September 30, 2009:

In the nine months ended September 30, 2009, net income was \$569.5 million approximately 191.9% of the net operating cash flow. Significant items added to, or (deducted from) operating cash flow included, depreciation, amortization and depletion of \$239.2 million, \$40.1 million deferred income tax provision, and (\$57.0) million of unrealized gain on derivative instruments.

In addition, an increase in working capital decreased operating cash flow by \$501.5 million. The increase in accounts receivable value was due to the higher metal prices for most of our products. The decrease in accounts payable and accrued liabilities was mainly due to a \$112.8 million decrease in workers participation, due to payment of the 2008 provision and lower accrual in the current period, and \$181.9 million decrease in accounts payable.

Net cash used for investing activities:

Nine months ended September 30, 2010:

Net cash used for investing activities in the nine months ended September 30, 2010 included \$281.2 million for capital expenditures. The capital expenditures included \$201.1 million of investments at our Peruvian operations, \$115.0 million for the Tia Maria project, \$24.4 million for the Toquepala expansion project, \$16.9 million for the Cuajone expansion project and \$44.8 million for various other replacement expenditures. In addition, we had \$80.1 million of capital spending at our Mexican operations, \$52.7 million of which was at our Mexican open pit operations, \$19.4 million at our IMMSA unit and \$8.0 million at our other Mexican facilities. The nine months ended September 30, 2010 also include the purchase of short-term investments of \$49.7 million and proceeds from the redemption of short-term investments of \$14.0 million.

Edgar Filing: SOUTHERN COPPER CORP/ - Form 10-Q

Nine months ended September 30, 2009:

Net cash used for investing activities in the nine months ended September 30, 2009 included \$316.7 million for capital expenditures. The capital expenditures included \$220.9 million of investments at our Peruvian operations, \$132.4 million for the Tia Maria project, \$37.2 million for the Toquepala expansion project, \$4.2 million for the Cuajone expansion and \$47.1 million for various other replacement expenditures. In

Table of Contents

In addition, we spent \$95.8 million for replacement assets at our Mexican operations, \$55.8 million of which was at our Mexican open pit operations, \$17.9 million at our IMMSA unit and \$22.1 million at our other Mexican facilities. For the nine months ended September 30, 2009 cash from investing activities also includes proceeds of \$39.6 million from the redemption of short-term investments.

Net cash provided from (used for) financing activities:

Net cash provided from financing activities in the nine months ended September 30, 2010 was \$408.8 million, compared with a use of \$300.6 million in the nine months ended September 30, 2009. The nine-month period of 2010 includes \$1.5 billion from the issuance of fixed-rate unsecured notes (see Liquidity and capital resources - New SCC's notes below), a dividend distribution of \$1,062.5 million, compared with a distribution of \$224.1 million in the same period of 2009. The 2010 nine-month period also includes \$8.8 million of capitalized debt issuance cost. In addition, in the nine-month period of 2009 we purchased 4.9 million shares of our common stock at a cost of \$71.9 million.

LIQUIDITY AND CAPITAL RESOURCES

Dividends:

On August 25, 2010, we paid a quarterly dividend of 37 cents per share, totaling \$314.5 million. On October 27, 2010, our Board of Directors authorized a quarterly dividend of 43 cents per share, expected to total \$365.5 million, to be paid on November 30, 2010 to SCC shareholders of record at the close of business on November 16, 2010.

New SCC Notes:

On April 16, 2010 we issued \$1.5 billion in fixed-rate unsecured notes with a discount of \$10.3 million, which is being amortized over the term of the related debt. Net proceeds will be used for general corporate purposes, including the financing of our capital expenditure program.

The \$1.5 billion fixed-rate senior unsecured notes were issued in two tranches, \$400 million due on April 16, 2020 at an annual interest rate of 5.375% and \$1.1 billion due on April 16, 2040 at an annual interest rate of 6.75%.

Interest on the notes will be paid semi-annually in arrears. The notes will constitute our general unsecured obligations and the series of notes will rank pari passu with each other and will rank pari passu in right of payment with all of our other existing and future unsecured and unsubordinated indebtedness. Our ratio of debt to total capitalization increased to 41.5% at September 30, 2010 compared to 24.7% at December 31, 2009.

Changes in Credit Risk Rating:

In connection with the issuance of the new notes, on April 1, 2010 Moody's Investors Service upgraded to Baa2 from Baa3 the Company's senior unsecured ratings and the rating on our Yankee bonds. Also on April 5, 2010 Fitch and Standard & Poor's (S&P) ratings services assigned ratings of BBB and BBB-, respectively, to the new notes issued. At the same time, these credit rating agencies confirmed their long-term corporate credit rating on SCC (Baa2, BBB, and BBB-, for Moody's, Fitch and S&P, respectively).

Table of Contents

Contractual Obligations:

There was no material change in our contractual obligations in the third quarter 2010. Please refer to our June 2010 Form 10-Q and to Item 7 in our 2009 annual report on Form 10-K for further information regarding our contractual obligations.

Capital Expenditures:

Please see the detail of our capital expansion projects under the caption "Capital Expansion and Exploration Program" above. We expect to meet the cash requirements for these projects from cash on hand, internally generated funds and from additional external financing, if required. All capital spending plans will continue to be reviewed and adjusted to respond to changes in the economy or market conditions.

IMPACT OF NEW ACCOUNTING STANDARDS

Please see Note B to our condensed consolidated financial statements.

NON-GAAP INFORMATION RECONCILIATION

Following is a reconciliation of "Operating Cash Cost" to GAAP cost of sales (in millions of dollars and dollar per pound):

	Third quarter 2010		Third quarter 2009	
	\$	\$ per pound	\$	\$ per pound
Cost of sales (exclusive of depreciation, amortization and depletion) GAAP	\$ 542.5	\$ 1.983	\$ 529.9	\$ 2.053
Add:				
Selling, general and administrative	21.2	0.077	23.8	0.092
Treatment and refining charges	13.7	0.050	21.0	0.081
By-products revenue (1)	(314.0)	(1.148)	(332.2)	(1.287)
Net revenue on sale of metal purchased from third parties	(2.9)	(0.011)	(7.3)	(0.028)
Less:				
Workers' participation	(57.0)	(0.208)	(56.5)	(0.219)
Cost of metal purchased from third parties	(47.0)	(0.172)	(85.5)	(0.331)
Royalty charge and other, net	(53.9)	(0.197)	(32.2)	(0.125)
Inventory change	(23.9)	(0.087)	(31.3)	(0.121)
Operating cash cost	78.6	0.287	29.7	0.115
Less by-product revenue and net revenue on sale of metal purchased from third parties	316.9	1.159	339.5	1.315

Edgar Filing: SOUTHERN COPPER CORP/ - Form 10-Q

Operating cash cost, without by-product revenue and net revenue on sale of metal purchased from third parties	\$	395.5	\$	1.446	\$	369.2	\$	1.430
Total pounds of copper produced (in millions)		273.6				258.1		

Table of Contents

	Nine months ended September 30, 2010		Nine months ended September 30, 2009	
	\$ million	\$ per pound	\$ million	\$ per pound
Cost of sales (exclusive of depreciation, amortization and depletion) GAAP	\$ 1,564.0	\$ 2.073	\$ 1,324.8	\$ 1.711
Add:

Royalty charge and other, net	(132.4)	(0.174)	(85.3)	(0.110)
Inventory change	(22.3)	(0.030)	(13.2)	(0.017)
Operating cash cost	109.3	0.145	286.1	0.369
Less by-product revenue and net revenue on sale of metal purchased from third parties	1,024.3	1.358	765.3	0.989
Operating cash cost, without by-product revenue and net revenue on sale of metal purchased from third parties	\$ 1,133.6	\$ 1.503	\$ 1,051.4	\$ 1.358
Total pounds of copper produced (in millions)	754.5		774.4	

(1) Includes net by-product sales revenue and premiums on sales of refined products

Table of ContentsItem 3. Quantitative and Qualitative Disclosure about Market Risk

A portion of our outstanding debt bears interest at variable rates and accordingly is sensitive to changes in interest rates. Interest rate changes would also result in gains or losses in the market value of our fixed rate debt portfolio due to differences in market interest rates and the rates at the inception of the debt agreements. Based upon our indebtedness at September 30, 2010, a change in interest rates of one percent (or 100 basis points) would impact net income and cash flows by \$0.7 million annually. Most of our debt is at fixed rates.

We are also exposed to market risk associated with changes in foreign currency exchange rates as certain costs incurred are in currencies other than our functional currency. To manage the volatility related to the risk, we may enter into forward exchange contracts, currency swaps or other currency hedging arrangements.

Inflation and Devaluation of the Peruvian Nuevo Sol and the Mexican Peso:

Our functional currency is the U.S. dollar. Portions of our operating costs are denominated in Peruvian nuevos soles and Mexican pesos. Since our revenues are primarily denominated in U.S. dollars, when inflation/deflation in Peru or Mexico is not offset by a change in the exchange rate of the nuevo sol or the peso, respectively, to the dollar, our financial position, results of operations and cash flows could be adversely affected to the extent that the inflation/devaluation effects are passed on to us by our suppliers or reflected in our wage adjustments. In addition, the dollar value of our net monetary assets denominated in nuevos soles or pesos can be affected by devaluation of the nuevo sol or the peso, resulting in a remeasurement loss in our financial statements. Recent inflation and devaluation rates are provided in the table below for the three and nine month periods ended September 30, 2010 and 2009:

	Three Months Ended September 30,		Nine months Ended September 30,	
	2010	2009	2010	2009
Peru:				
Peruvian inflation rate	0.6%	(0.1)%	2.0%	(0.1)%
Nuevo Sol/dollar devaluation/(appreciation) rate	(1.4)%	(4.2)%	(3.6)%	(8.2)%
Mexico:				
Mexican inflation rate	1.0%	1.0%	2.4%	2.3%
Peso / dollar devaluation/(appreciation) rate	(1.2)%	2.2%	(4.3)%	(0.3)%

Change in monetary position:

Assuming an exchange rate variance of 10% at September 30, 2010 we estimate our net monetary position in Peruvian nuevo sol and Mexican peso would increase (decrease) our net earnings as follows:

Variance

		Effect in net earnings (in millions)
Appreciation of 10% in exchange rate of U.S. dollar vs. nuevo sol	\$	17.9
Devaluation of 10% in exchange rate of U.S. dollar vs. nuevo sol	\$	(14.7)
Appreciation of 10% in exchange rate of U.S. dollar vs. Mexican peso	\$	29.6
Devaluation of 10% in exchange rate of U.S. dollar vs. Mexican peso	\$	(24.2)

Metal price sensitivity:

We are subject to market risks arising from the volatility of copper and other metal prices. Assuming that expected metal production and sales are achieved, that tax rates

Table of Contents

are unchanged, and giving no effects to potential hedging programs, metal price sensitivity factors would indicate the following change in estimated 2010 net income attributable to SCC resulting from metal price changes:

	Copper		Molybdenum		Zinc		Silver	
Change in metal prices (per pound except silver per ounce)	0.01		1.00		0.01		1.00	
Annual change in net income attributable to SCC (in millions)	\$	5.9	\$	25.7	\$	1.2	\$	8.1

Provisionally priced sales:

At September 30, 2010, we have recorded provisionally priced sales of 5.4 million pounds of copper, at an average forward price of \$3.63 per pound. Also we have recorded provisionally priced sales of 9.5 million pounds of molybdenum at the September 30, 2010 market price of \$15.35 per pound. These sales are subject to final pricing based on the average monthly LME or COMEX copper prices and Dealer Oxide molybdenum prices in the future month of settlement. See Note F to our condensed consolidated financial statements.

Derivative instruments:

We occasionally use derivative instruments to manage our exposure to market risk from changes in commodity prices and interest rate and exchange rate risk exposures. We do not enter into derivative contracts unless we anticipate a future activity that is likely to occur that will result in exposure to market risk. We did not hold any derivative contracts for the nine months ended September 30, 2010.

Copper derivatives:

Beginning on September 29, 2010 and through October 26th, 2010, we entered into copper derivative contracts to protect the sales value of a portion of our fourth quarter and 2011 copper production, as follows:

	4th Quarter		Year 2011	
Swap contracts (1)				
Pounds in millions	170.9		150.1	
Weighted average LME price	\$	3.67	\$	3.73
Collar Contracts (1)				
Pounds in millions			211.6	
Average LME cap price	\$		4.54	
Average LME floor price	\$		3.00	

(1) Pounds are proportionally distributed over the periods. Prices are the same for all months in periods

Gas swaps:

During the nine months ended September 30, 2010 and at September 30, 2010 we did not hold any gas derivative contracts.

Exchange rate derivatives, U.S. dollar/Mexican peso contracts:

During the nine months ended September 30, 2010 and at September 30, 2010 we did not hold any exchange rate derivative contracts.

Table of Contents**Short-term Investment:**

Short-term investments were as follows (in millions):

Investments	September 30, 2010		At		December 31, 2009	
Trading securities (in millions)	\$	49.7	\$			
Weighted average interest rate		1.37%				
Available for sale (in millions)	\$	9.7	\$		22.9	
Weighted average interest rate		1.01%			0.63%	
Total	\$	59.4	\$		22.9	

Trading securities: consist of \$50.0 million Petroleos Mexicanos bonds acquired at 99.4% and with an original maturity on December 3, 2012, which we have the intention to sell in the short-term.

Available for sale investments consist of securities issued by public companies. Each security is independent of the others and as of September 30, 2010 includes corporate bonds and asset and mortgage backed obligations. As of September 30, 2010 and December 31, 2009, gross unrealized gains and losses on available for sale securities were not material.

Related to these investments we earned interest which was recorded as interest income in the condensed consolidated statement of earnings. Also we redeemed some of these securities and obtained gains (losses) due to changes in fair value, which were recorded as other income (expense) in the condensed consolidated statement of earnings.

The following table summarizes the activity of these investments (in millions):

	September 30,		September 30,		September 30,		September 30,	
	2010	2009	2010	2009	2010	2009	2010	2009
Interest earned	\$	0.1	\$	0.1	\$	0.1	\$	0.7
Investment redeemed	\$	3.0	\$	8.8	\$	14.2	\$	39.6
Gain in fair value	\$	0.3	\$	0.9	\$	0.7	\$	3.2

Cautionary Statement:

Forward-looking statements in this report and in other Company statements include statements regarding expected commencement dates of mining or metal production operations, projected quantities of future metal production, anticipated production rates, operating efficiencies, costs and expenditures as well as projected demand or supply for the Company's products. Actual results could differ materially depending upon

Edgar Filing: SOUTHERN COPPER CORP/ - Form 10-Q

factors including the risks and uncertainties relating to general U.S. and international economic and political conditions, the cyclical and volatile prices of copper, other commodities and supplies, including fuel and electricity, availability of materials, insurance coverage, equipment, required permits or approvals and financing, the occurrence of unusual weather or operating conditions, lower than expected ore grades, water and geological problems, the failure of equipment or processes to operate in accordance with specifications, failure to obtain financial assurance to meet closure and remediation obligations, labor relations, litigation and environmental risks as well as political and economic risk associated with foreign operations. Results of operations are directly affected by metal prices on commodity exchanges that can be volatile.

Item 4. Controls and Procedures

EVALUATION OF DISCLOSURE CONTROLS AND PROCEDURES

As of September 30, 2010, the Company conducted an evaluation under the supervision and with the participation of the Company's Disclosure Committee and the Company's management, including the Chief Executive Officer and Chief Financial Officer, of the effectiveness and the design and operation of the Company's disclosure controls and procedures. Based on that evaluation, the Chief Executive Officer and the Chief Financial Officer have concluded that the Company's disclosure controls and procedures are effective as of September 30, 2010, to ensure that information required to be disclosed in reports filed or submitted under the Exchange Act is:

1. recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and
2. accumulated and communicated to management, including the Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

CHANGES IN INTERNAL CONTROLS OVER FINANCIAL REPORTING

There was no change in the Company's internal controls over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Securities Exchange Act of 1934, as amended) that occurred during the quarter ended September 30, 2010 that has materially affected, or is reasonably likely to materially affect, the Company's internal controls over financial reporting.

Report of Independent Registered Public Accounting Firm

To the Board of Directors and Shareholders of

Southern Copper Corporation:

We have reviewed the accompanying condensed consolidated balance sheet of Southern Copper Corporation and subsidiaries as of September 30, 2010, and the related condensed consolidated statements of earnings and cash flows for the three-month and nine-month periods ended September 30, 2010 and 2009. These interim financial statements are the responsibility of the Company's management.

We conducted our reviews in accordance with the standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States), the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our reviews, we are not aware of any material modifications that should be made to such condensed consolidated interim financial statements for them to be in conformity with accounting principles generally accepted in the United States of America.

We have previously audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheet of Southern Copper Corporation and subsidiaries as of December 31, 2009, and the related consolidated statements of earnings, equity, and cash flows for the year then ended (not presented herein); and in our report dated February 25, 2010, we expressed an unqualified opinion on those consolidated financial statements. In our opinion, the information set forth in the accompanying condensed consolidated balance sheet as of December 31, 2009 is fairly stated, in all material respects, in relation to the consolidated balance sheet from which it has been derived.

Galaz, Yamazaki, Ruiz Urquiza S.C.

Member of Deloitte Touche Tohmatsu Limited

PART II OTHER INFORMATION

Item 1. Legal Proceedings

The information provided in Note M Commitments and Contingencies to the condensed consolidated financial statements contained in Part I of this Form 10-Q, is incorporated herein by reference.

Item 1A. Risk Factors:

There have been no material changes to our risk factors during the quarter ended September 30, 2010. For additional information on risk factors, please see risk factors , included in Part I, Item 1A of our annual report on Form 10-K for the year ended December 31, 2009, as updated in our June 30, 2010, Form 10-Q.

Table of ContentsItem 2. Unregistered Sale of Equity Securities and Use of Proceeds

SCC share repurchase program:

In 2008 the Company's Board of Directors authorized a \$500 million share repurchase program. Under this program the Company may purchase additional shares from time to time, based on market conditions and other factors. This repurchase program has no expiration date and may be modified or discontinued at any time. These shares will be available for general corporate purposes.

The following table summarizes the repurchase program activity since its inception in 2008:

From	Period	To	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plan	Maximum Number of Shares that may yet be Purchased Under the Plan @ \$35.12	Total Cost (\$ in million)
2008:							
08/11/08		12/31/08	28,510,150	\$ 13.49	28,510,150		\$ 384.6
							71.9
2009:							
01/12/09		09/30/09	4,912,000	14.64	33,422,150		
2010:							
05/05/10		05/05/10	13,200	28.75	33,435,350		0.4
08/12/10		08/12/10	1,200	29.33	33,436,500		0.1
Total Purchased			33,436,550	\$ 13.67		1,225,120	\$ 457.0

As a result of the repurchase of SCC common shares and AMC's purchase of SCC shares, Grupo Mexico's direct and indirect ownership remains at 80% at September 30, 2010.
