Notes to Condensed Consolidated Financial Statements
As of June 30, 2017 and
For the Three and Six Month Periods Ended June 30, 2017 and 2016
(Unaudited)

1. Nature of operations

Headquartered in Downers Grove, Illinois, Univar Inc. (“the Company” or “Univar”) is a leading global chemicals and ingredients distributor and provider of specialty chemicals. The Company’s operations are structured into four operating segments that represent the geographic areas under which the Company manages its business:

- Univar USA (“USA”)
- Univar Canada (“Canada”)
- Univar Europe, the Middle East and Africa (“EMEA”)
- Rest of World (“Rest of World”)

Rest of World includes certain developing businesses in Latin America (including Brazil and Mexico) and the Asia-Pacific region.

2. Significant accounting policies

Basis of presentation

The condensed consolidated financial statements of the Company have been prepared in accordance with accounting principles generally accepted in the United States of America (“US GAAP”) as applicable to interim financial reporting. Unless otherwise indicated, all financial data presented in these condensed consolidated financial statements are expressed in US dollars. These condensed consolidated financial statements, in the Company’s opinion, include all adjustments, consisting of normal recurring accruals necessary for a fair presentation of the condensed consolidated balance sheets, statements of operations, comprehensive income, cash flows and changes in stockholders’ equity. The results of operations for the periods presented are not necessarily indicative of the operating results that may be expected for the full year. These condensed consolidated financial statements should be read in conjunction with the Company’s Annual Report on Form 10-K for the year ended December 31, 2016.

The condensed consolidated financial statements include the financial statements of the Company and its subsidiaries. Subsidiaries are consolidated if the Company has a controlling financial interest, which may exist based on ownership of a majority of the voting interest, or based on the Company’s determination that it is the primary beneficiary of a variable interest entity (“VIE”) or if otherwise required by US GAAP. The Company did not have any material interests in VIEs during the periods presented in these condensed consolidated financial statements. All intercompany balances and transactions are eliminated in consolidation.

The preparation of condensed consolidated financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the amounts reported and disclosed in the financial statements and accompanying notes. Actual results could differ materially from these estimates.

Recently issued and adopted accounting pronouncements

In March 2016, the FASB issued ASU 2016-09 “Compensation – Stock Compensation” (Topic 718) – “Improvement to Employee Share-Based Payment Accounting.” The core principal of the guidance is to simplify several aspects of the accounting for employee share-based payment transactions including the accounting for income taxes, forfeitures, and statutory tax withholding requirements, as well as classification of related amounts within the statement of cash flows. The standard will be effective for fiscal years beginning after December 15, 2016, including interim periods within such fiscal years. The guidance is to be applied using a modified retrospective method by means of a cumulative-effect adjustment to equity as of the beginning of the period in which the guidance is adopted. The Company adopted the ASU as of January 1, 2017 which resulted in an increase of $0.5 million, net of tax $0.2 million in accumulated deficit and the offset of $0.7 million is recorded in additional paid-in capital within condensed consolidated balance sheet and statements of changes in stockholders' equity.

In October 2016, the FASB issued ASU 2016-17 “Consolidation” (Topic 810) - “Interests Held through Related Parties That Are under Common Control.” The core principle of the guidance is to provide amendments to the current consolidation guidance. The revised consolidation guidance modifies how a reporting entity that is a single decision maker of a VIE should treat indirect interests in the entity held through related parties that are under common control with the reporting entity when determining whether it is the primary beneficiary of that VIE. This guidance is effective for fiscal years, and interim periods within those years, beginning after December 15, 2016. The Company adopted the ASU as of January 1, 2017 and the ASU is applied retrospectively

to all relevant prior periods beginning with the fiscal year in which the amendments in ASU 2015-02 “Consolidation” (Topic 810) - “Amendments to the Consolidation Analysis” were applied. The adoption of this ASU had no material impact on the Company’s condensed consolidated financial statements.

Accounting pronouncements issued and not yet adopted

In May 2014, the FASB issued ASU 2014-09 “Revenue from Contracts with Customers” (Topic 606), which supersedes the revenue recognition requirements in Accounting Standards Codification (“ASC”) 605, “Revenue Recognition.” This new revenue standard creates a single source of revenue guidance for all companies in all industries and is more principles-based than the current revenue guidance. The standard will be effective for public entities for interim and annual reporting periods beginning after December 15, 2017. The core principle of the guidance is that “an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services.” In achieving this objective, an entity must perform five steps: (1) identify the contract(s) with a customer, (2) identify the performance obligations of the contract, (3) determine the transaction price, (4) allocate the transaction price to the performance obligations in the contract, and (5) recognize revenue when (or as) the entity satisfies a performance obligation. In addition, the standard requires additional new disclosures of the nature, amount, timing, and uncertainty of revenue and cash flows arising from contracts with customers.

The Company has established a project team who has completed a review of revenue streams and customer contracts to identify and evaluate the potential impacts of the provisions of ASC 606. The Company has accumulated information that will be necessary for implementation disclosures and is assessing the impact the adoption of ASU 2014-09 will have on its consolidated financial statements, related disclosures, and reporting processes. The Company is also in the process of identifying and drafting changes to processes and controls to meet the ASU's updated reporting and disclosure requirements and plans to update its assessment of the impact of the ASU through the date of adoption. Based on the analysis to date, the Company is revising its estimation processes related to arrangements that involve, among other items, potential returns of unused products, as well as revenue deferral where performance to date may have reached right to receive consideration. These changes could impact the timing of revenue recognition between quarters. The Company expects to adopt the new standard using the modified retrospective approach, under which the cumulative effect of initially applying the guidance is recognized as an adjustment to the opening balance of retained earnings in the first quarter of 2018 for contracts that still require performance by the entity, and disclose all line items in the year of adoption as if they were prepared under the old revenue guidance.

In March 2017, the FASB issued ASU 2017-07 “Compensation - Retirement Benefits” (Topic 715) - “Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost.” The ASU requires entities to disaggregate the service cost component from the other components of net periodic benefit costs and present it with other current compensation costs for related employees in the income statement, and present the other component elsewhere in the income statement and outside of income from operations if that subtotal is presented. The amendments in this update also allow only the service cost component to be eligible for capitalization when applicable. The standard will be effective for fiscal years beginning after December 15, 2017, including interim periods within such fiscal years. Early adoption is permitted as of the beginning of an annual period for which financial statements (interim or annual) have not been issued or made available for issuance. The guidance is to be applied retrospectively for all periods presented. The Company is evaluating the impact of the ASU on its consolidated financial statements.

In May 2017, the FASB issued ASU 2017-09 “Compensation - Stock Compensation” (Topic 718) - “Scope of Modification Accounting.” The ASU provides clarity and reduces both diversity in practice and cost and complexity when applying the guidance in Topic 718, Compensation—Stock Compensation, to a change to the terms or conditions of a share-based payment award. The standard will be effective for fiscal years beginning after December 15, 2017, including interim periods within such fiscal years. Early adoption is permitted, including adoption in an interim period. The guidance is to be applied prospectively. The Company is evaluating the impact of the ASU on its consolidated financial statements.

Restructuring liabilities of $7.4 million and $10.1 million were classified as current in other accrued expenses in the condensed consolidated balance sheets as of June 30, 2017 and December 31, 2016, respectively. The long-term portion of restructuring liabilities of $9.0 million and $10.0 million were recorded in other long-term liabilities in the condensed consolidated balance sheets as of June 30, 2017 and December 31, 2016, respectively, and primarily consists of facility exit costs that are expected to be paid within the next four years.

While the Company believes the recorded restructuring liabilities are adequate, revisions to current estimates may be recorded in future periods based on new information as it becomes available.

7. Income taxes

The Company's tax provision for interim periods is determined using an estimate of the annual effective tax rate, adjusted for discrete items, if any, that are taken into account in the relevant period. Each quarter, an estimate of the annual effective tax rate is updated should management revise its forecast of earnings based upon the Company's operating results. If there is a change in the estimated effective annual tax rate, a cumulative adjustment is made. The quarterly tax provision and forecast estimate of the annual effective tax rate may be subject to volatility due to several factors, including the complexity in forecasting jurisdictional earnings before tax, the rate of realization of forecasting earnings or losses by quarter, acquisitions, divestitures, foreign currency gains and losses, pension gains and losses, etc.

The income tax expense for the three and six months ended June 30, 2017 was $7.3 million and $8.9 million, resulting in an effective tax rate of 18.9% and 14.2%, respectively. The Company's effective tax rate for the three month and six month periods ended June 30, 2017 was lower than the US federal statutory rate of 35.0% primarily due to the mix of earnings in multiple jurisdictions, non-taxable interest income and the release of a valuation allowance on certain foreign tax attributes. Included in the $7.3 million and $8.9 million expense for the three and six months ended June 30, 2017 was a $1.3 million and $3.5 million benefit, respectively, related to excess tax benefits from share-based compensation.

The income tax expense for the three and six months ended June 30, 2016 was $0.9 million and $6.0 million, resulting in an effective tax rate of 2.2% and 10.0%, respectively. The Company's effective tax rate for three months ended June 30, 2016 was lower than the US federal statutory rate of 35.0% primarily due to the mix of earnings in multiple jurisdictions, non-taxable interest income and the release of a valuation allowance on certain foreign tax attributes. The Company's effective tax rate for the six months ended June 30, 2016 was lower than the US federal statutory rate primarily due to the mix of earnings in multiple jurisdictions, non-taxable interest income and the release of a valuation allowance on certain foreign tax attributes.

Canadian General Anti-Avoidance Rule matters

In 2007, the outstanding shares of Univar N.V., the ultimate public company parent of the Univar group at that time, were acquired by investment funds advised by CVC. To facilitate the acquisition and leveraged financing of Univar N.V. by CVC, a restructuring of some of the companies in the Univar group, including its Canadian operating company, was completed (the "Restructuring"). In February 2013, the Canada Revenue Agency ("CRA") issued a Notice of Assessment, asserting the General Anti-Avoidance Rule ("GAAR") against the Company's subsidiary Univar Holdco Canada ULC ("Univar Holdco") for withholding tax of $29.4 million (Canadian), relating to this Restructuring. Univar Holdco appealed the assessment, and the matter was litigated in the Tax Court of Canada in June 2015. On June 22, 2016, the Tax Court of Canada issued its judgment in favor of the CRA. The Company subsequently appealed the

judgment and a trial in the Federal Court of Canada occurred on May 10, 2017. The Company has not yet received the Federal Court of Canada's decision on the matter. A $52.1 million (Canadian) Letter of Credit, covering the initial assessment of $29.4 million (Canadian) and interest of $22.7 million (Canadian), has been issued with respect to this assessment.

In September 2014, also relating to the Restructuring, the CRA issued the 2008 and 2009 Notice of Reassessments for federal corporate income tax liabilities of $11.9 million (Canadian) and $11.0 million (Canadian), respectively, and a departure tax liability of $9.0 million (Canadian). Likewise, in April 2015, the Company’s subsidiary received the 2008 and 2009 Alberta Notice of Reassessments of $6.0 million (Canadian) and $5.8 million (Canadian), respectively. These Reassessments reflect the additional tax liability and interest relating to those tax years should the CRA be successful in its assertion of the GAAR relating to the

Table of Contents

Restructuring described above. In accordance with the CRA's collection procedures, a $21.0 million (Canadian) Letter of Credit has been issued with respect to the federal assessment.

At June 30, 2017, the total Canadian federal and provincial tax liability assessed related to these matters, inclusive of interest of $41.5 million (Canadian), is $114.6 million (Canadian). The Company has not recorded any liabilities for these matters in its financial statements, as it believes it is more likely than not that the ruling will be reversed on appeal and the Company's position will be sustained, along with the release of all Letters of Credit currently provided to the CRA.

8. Earnings per share

(1) Stock options to purchase 0.9 million and 3.9 million shares of common stock were outstanding during the three months ended June 30, 2017 and 2016, respectively, but were not included in the calculation of diluted income per share as the impact of these stock options would have been anti-dilutive. Stock options to purchase 0.8 million and 4.2 million shares of common stock were outstanding during the six months ended June 30, 2017 and 2016, respectively, but were not included in the calculation of diluted income per share as the impact of these stock options would have been anti-dilutive.

Foreign currency gains and losses relating to intercompany borrowings that are considered a part of the Company’s investment in a foreign subsidiary are reflected in accumulated other comprehensive loss. There were no foreign currency gains and losses related to such intercompany borrowings for the three month period ended June 30, 2017 and there were $15.5 million in total foreign currency losses for the three month period ended June 30, 2016. Total foreign currency gains and losses related to such intercompany borrowings were $0.5 million in gains and $20.0

million in losses for the six month periods ended June 30, 2017 and 2016, respectively.

(in millions)	June 30, 2017	December 31, 2016
Amounts drawn under credit facilities	$10.4	$ 12.1
Bank overdrafts	9.0	13.2
Total short-term financing	$19.4	$ 25.3

As of June 30, 2017 and December 31, 2016, the Company had $179.4 million and $175.3 million in outstanding letters of credit and guarantees, respectively.

Long-term debt

Long-term debt consisted of the following:

(in millions)	June 30, 2017	December 31, 2016
Senior Term Loan Facilities:		
Term B Loan Due 2022, variable interest rate of 3.98% and 4.25% at June 30, 2017 and December 31, 2016, respectively	$2,189.0	$2,024.4
Euro Tranche Term Loan Due 2022, variable interest rate of 4.25% at June 30, 2017 and December 31, 2016	93.1	259.9
Asset Backed Loan (ABL) Facilities:		
North American ABL Facility Due 2020, variable interest rate of 2.97% and 4.25% at June 30, 2017 and December 31, 2016, respectively	222.5	152.0
North American ABL Term Loan Due 2018, variable interest rate of 4.05% and 3.75% at June 30, 2017 and December 31, 2016, respectively	50.0	83.3
Senior Unsecured Notes:		
Senior Unsecured Notes due 2023, fixed interest rate of 6.75% at June 30, 2017 and December 31, 2016	399.5	399.5
Capital lease obligations	66.1	63.4
Total long-term debt before discount	$3,020.2	$2,982.5
Less: unamortized debt issuance costs and discount on debt	(25.4)	(28.5)
Total long-term debt	$2,994.8	$2,954.0
Less: current maturities	(99.3)	(109.0)
Total long-term debt, excluding current maturities	$2,895.5	$2,845.0

The weighted average interest rate on long-term debt was 4.60% and 4.84% as of June 30, 2017 and December 31, 2016, respectively.

On January 19, 2017, Univar USA Inc. entered into an amended Term B loan agreement which replaced the existing US dollar denominated loans with new US dollar denominated loans in aggregate of $2.2 billion. The amendment also reduced the interest rate credit spread on the US dollar denominated loans by 50 basis points from 3.25% to 2.75% and removed the 1.00% LIBOR floor. The additional proceeds of $175.6 million received from the US dollar denominated loans were used to prepay a portion of the existing Euro denominated Term B Loans.

As a result of this debt amendment, the Company recognized debt refinancing costs of $4.2 million in other (expense) income, net in the condensed consolidated statements of operations during the six months ended June 30, 2017. Refer to “Note 6: Other (expense) income, net” for further information. In addition, the Company recognized a loss on extinguishment of debt of $0.8 million in the six months ended June 30, 2017.

Other intangible assets consist of intellectual property trademarks, trade names, supplier relationships, non-compete agreements and exclusive distribution rights.

Other accrued expenses

As of June 30, 2017, there were no other accrued expenses that were greater than five percent of total current liabilities. As of December 31, 2016, other accrued expenses that were greater than five percent of total current liabilities consisted of customer prepayments and deposits, which were $84.6 million.

12. Fair value measurements

Items measured at fair value on a recurring basis

The following table presents the Company’s gross assets and liabilities measured on a recurring basis:

Table of Contents

The net amounts related to forward currency contracts included in prepaid and other current assets were $0.2 million and $0.5 million as of June 30, 2017 and December 31, 2016, respectively. The net amounts related to foreign currency contracts included in other accrued expenses were $0.3 million as of June 30, 2017 and December 31, 2016. The fair value of forward currency contracts is calculated by reference to current forward exchange rates for contracts with similar maturity profiles. The fair value of interest rate swaps is determined by estimating the net present value of amounts to be paid under the agreement offset by the net present value of the expected cash inflows based on market rates and associated yield curves. Based on these valuation methodologies, these derivative contracts are classified as level 2 in the fair value hierarchy.

The fair value of the contingent consideration is based on a real options approach, which took into account management's best estimate of the acquiree's performance, as well as achievement risk. Based on the valuation methodology, contingent consideration is classified as level 3 in the fair value hierarchy.

The following table is a reconciliation of the fair value measurements that use significant unobservable inputs (Level 3), which consists of contingent consideration related to prior acquisitions.

(in millions)	Contingent consideration
Fair value as of December 31, 2016	$ 7.5
Fair value adjustments	(2.5)
Payments	(3.2)
Gain on settlement	(0.9)
Fair value as of June 30, 2017	$ 0.9

The change in the fair value and payments related to the contingent consideration are recorded in the other, net line item of the operating activities within the condensed consolidated statement of cash flows.

Financial instruments not carried at fair value

The estimated fair value of financial instruments not carried at fair value in the condensed consolidated balance sheets were as follows:

	June 30, 2017		December 31, 2016	
(in millions)	Carrying Amount	Fair Value	Carrying Amount	Fair Value
Financial liabilities:				
Long-term debt including current portion (Level 2)	$2,994.8	$3,045.0	$2,954.0	$3,019.1

The fair values of the long-term debt, including the current portions, were based on current market quotes for similar borrowings and credit risk adjusted for liquidity, margins and amortization, as necessary.

Fair value of other financial instruments

The carrying value of cash and cash equivalents, trade accounts receivable, net, trade accounts payable and short-term financing included in the condensed consolidated balance sheets approximate fair value due to their short-term nature.

13. Derivatives

Interest rate swaps

The objective of the interest rate swap contracts is to offset the variability of cash flows in LIBOR indexed debt interest payments attributable to changes in the aforementioned benchmark interest rate related to the Term B Loan due 2022.

At June 30, 2017, the Company had interest rate swap contracts with a total notional amount of $2.0 billion whereby a fixed rate of interest (weighted-average of 1.70%) is paid and a variable rate of interest (three-month LIBOR) is received on the notional amount. The Company does not currently apply hedge accounting for the interest rate swap contracts, which will expire on June 30, 2020. The interest rate swap contracts initially included a LIBOR floor of 1.00%, which was removed on February 1, 2017, as part of the amendment to the interest rate swap contracts. The contracts were amended as a result of the amendment of Senior Term B loan agreement with US dollar denominated tranche on January 19, 2017. Refer to "Note 10: Debt" for additional information. As a result of the interest rate swap

contracts amendment, the Company realized a gain of $1.4 million in other (expense) income, net in the condensed consolidated statement of operations. Changes in fair value of the interest rate swap contracts are also recognized directly in other (expense) income, net in the condensed consolidated statement of operations. Refer to "Note 6: Other (expense) income, net" for additional information.

Table of Contents

The fair value of interest rate swaps is recorded either in prepaids and other current assets, other assets, other accrued expenses or other long-term liabilities in the condensed consolidated balance sheets. As of June 30, 2017 and December 31, 2016, a current liability of $5.5 million and $5.6 million was included in other accrued expenses, respectively. As of June 30, 2017 and December 31, 2016, a noncurrent asset of $3.5 million and $9.8 million was included in other assets, respectively.

The Company had interest rate swap contracts with a total notional amount of $1.0 billion which expired during June 2017.

Interest rate caps

The Company had interest rate caps with a notional amount of $800.0 million which expired during June 2017. As of June 30, 2017, the interest rate cap premiums have been fully amortized through interest expense within the condensed consolidated statements of operations.

Foreign currency derivatives

The Company uses forward currency contracts to hedge earnings from the effects of foreign exchange relating to certain of the Company’s intercompany and third-party receivables and payables denominated in a foreign currency. These derivative instruments are not formally designated as hedges by the Company and the terms of these instruments range from one to three months. Forward currency contracts are recorded at fair value in either prepaid expenses and other current assets or other accrued expenses in the condensed consolidated balance sheet, reflecting their short-term nature. The fair value adjustments and gains and losses are included in other (expense) income, net within the condensed consolidated statements of operations. Refer to “Note 6: Other (expense) income, net” for more information. The total notional amount of undesignated forward currency contracts were $98.2 million and $111.0 million as of June 30, 2017 and December 31, 2016, respectively.

Cash flows associated with derivative financial instruments are recognized in the operating section of the condensed consolidated statement of cash flows.

14. Commitments and Contingencies

Litigation

In the ordinary course of business the Company is subject to pending or threatened claims, lawsuits, regulatory matters and administrative proceedings from time to time. Where appropriate the Company has recorded provisions in the condensed consolidated financial statements for these matters. The liabilities for injuries to persons or property are in some instances covered by liability insurance, subject to various deductibles and self-insured retentions.

The Company is not aware of any claims, lawsuits, regulatory matters or administrative proceedings, pending or threatened, that are likely to have a material effect on its overall financial position, results of operations or cash flows. However, the Company cannot predict the outcome of any claims or litigation or the potential for future claims or litigation.

The Company is subject to liabilities from claims alleging personal injury from exposure to asbestos. The claims result primarily from an indemnification obligation related to Univar USA Inc.’s 1986 purchase of McKesson Chemical Company from McKesson Corporation (“McKesson”). Univar USA is also a defendant in a small number of asbestos claims. As of June 30, 2017, there were fewer than 278 asbestos-related claims for which the Company has liability for defense and indemnity pursuant to the indemnification obligation. The volume of such cases has decreased in recent quarters. Historically, the vast majority of the claims against both McKesson and Univar USA have been dismissed without payment. The Company does incur costs in defending these claims. While the Company is unable to predict the outcome of these matters, it does not believe, based upon currently available facts, that the ultimate resolution of any of these matters will have a material effect on its overall financial position, results of operations or cash flows. However, the Company cannot predict the outcome of any present or future claims or litigation and adverse developments could negatively impact earnings or cash flows in a particular future period.

Environmental

The Company is subject to various federal, state and local environmental laws and regulations that require environmental assessment or remediation efforts (collectively “environmental remediation work”) at approximately 129 locations, some that are now or were previously Company-owned/occupied and some that were never

Company-owned/occupied (“non-owned sites”).

The Company’s environmental remediation work at some sites is being conducted pursuant to governmental proceedings or investigations. At other sites, the Company, with appropriate state or federal agency oversight and approval, is conducting the environmental remediation work voluntarily. The Company is currently undergoing remediation efforts or is in the process of active review of the need for potential remediation efforts at approximately 106 current or formerly Company-owned/occupied sites. In addition, the Company may be liable for a share of the clean-up of approximately 23 non-owned sites. These non-owned sites are typically (a) locations of independent waste disposal or recycling operations with alleged or confirmed contaminated soil and/or groundwater to which the Company may have shipped waste products or drums for re-conditioning, or (b) contaminated

non-owned sites near historical sites owned or operated by the Company or its predecessors from which contamination is alleged to have arisen.

In determining the appropriate level of environmental reserves, the Company considers several factors such as information obtained from investigatory studies; changes in the scope of remediation; the interpretation, application and enforcement of laws and regulations; changes in the costs of remediation programs; the development of alternative cleanup technologies and methods; and the relative level of the Company’s involvement at various sites for which the Company is allegedly associated. The level of annual expenditures for remedial, monitoring and investigatory activities will change in the future as major components of planned remediation activities are completed and the scope, timing and costs of existing activities are changed. Project lives, and therefore cash flows, range from 2 to 30 years, depending on the specific site and type of remediation project.

Although the Company believes that its reserves are adequate for environmental contingencies, it is possible due to the uncertainties noted above; that additional reserves could be required in the future that could have a material effect on the overall financial position, results of operations, or cash flows in a particular period. This additional loss or range of losses cannot be recorded at this time, as it is not reasonably estimable.

Changes in total environmental liabilities are as follows:

	Six months ended June 30,	
(in millions)	2017	2016
Environmental liabilities at beginning of period	$95.8	$113.2
Revised obligation estimates	6.9	5.1
Environmental payments	(10.0)	(9.7)
Foreign exchange	0.3	(0.1)
Environmental liabilities at end of period	$93.0	$108.5

Environmental liabilities of $29.0 million and $30.2 million were classified as current in other accrued expenses in the condensed consolidated balance sheets as of June 30, 2017 and December 31, 2016, respectively. The long-term portion of environmental liabilities is recorded in other long-term liabilities in the condensed consolidated balance sheets.

Customs and International Trade Laws

In April 2012, the US Department of Justice (“DOJ”) issued a civil investigative demand to the Company in connection with an investigation into the Company’s compliance with applicable customs and international trade laws and regulations relating to the importation of saccharin from 2002 through 2012. The Company also became aware in 2010 of an investigation being conducted by US Customs and Border Patrol (“CBP”) into the Company’s importation of saccharin. Finally, the Company learned that a civil plaintiff had sued the Company and two other defendants in a Qui Tam proceeding, such filing having been made under seal in 2012, and this plaintiff had requested that the DOJ intervene in its lawsuit.

The US government, through the DOJ, declined to intervene in the Qui Tam proceeding in November 2013 and, as a result, the DOJ’s inquiry related to the Qui Tam lawsuit and its initial investigation demand are now finished. On February 26, 2014, the Qui Tam plaintiff also voluntarily dismissed its lawsuit against the Company.

CBP, however, continued its investigation on the importation of saccharin by the Company’s subsidiary, Univar USA Inc. On July 21, 2014, CBP sent the Company a “Pre-Penalty Notice” indicating the imposition of a penalty against Univar USA Inc. in the amount of approximately $84.0 million. Univar USA Inc. responded to CBP that the proposed penalty was not justified. On October 1, 2014, the CBP issued a penalty notice to Univar USA Inc. for $84.0 million and has reaffirmed this penalty notice. On August 6, 2015, the DOJ filed a complaint on CBP’s behalf against Univar USA Inc. in the Court of International Trade seeking approximately $84.0 million in allegedly unpaid duties, penalties, interest, costs and attorneys’ fees. Discovery is underway in this matter. The Company continues to defend this matter vigorously. Univar USA Inc. has not recorded a liability related to this investigation as the Company believes a loss is not probable. Although the Company believes its position is strong it cannot guarantee the outcome of this or other litigation.

15. Segments

Management monitors the operating results of its operating segments separately for the purpose of making decisions about resource allocation and performance assessment. Management evaluates performance on the basis of Adjusted EBITDA. Adjusted EBITDA is defined as consolidated net income, plus the sum of: interest expense, net of interest income; income tax expense; depreciation; amortization; impairment charges; other operating expenses, net; and other (expense) income, net.

Transfer prices between operating segments are set on an arms-length basis in a similar manner to transactions with third parties. Corporate operating expenses that directly benefit segments have been allocated to the operating segments. Allocable

Table of Contents

operating expenses are identified through a review process by management. These costs are allocated to the operating segments on a basis that reasonably approximates the use of services. This is typically measured on a weighted distribution of margin, asset, headcount or time spent.
Other/Eliminations represents the elimination of inter-segment transactions as well as unallocated corporate costs consisting of costs specifically related to parent company operations that do not directly benefit segments, either individually or collectively.
Financial information for the Company's segments is as follows:

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Our operations are structured into four operating segments that represent the geographic areas under which we operate and manage our business. These segments are Univar USA ("USA"), Univar Canada ("Canada"), Univar Europe and the Middle East and Africa ("EMEA"), and Rest of World ("Rest of World"), which includes developing businesses in Latin America (including Brazil and Mexico) and the Asia-Pacific region.

We monitor the results of our operating segments separately for the purposes of making decisions about resource allocation and performance assessment. We evaluate performance on the basis of Adjusted EBITDA, which we define as our consolidated net income, plus the sum of interest expense, net of interest income, income tax expense, depreciation, amortization, loss on extinguishment of debt, other operating expenses, net (which primarily consists of acquisition and integration related expenses, employee stock-based compensation expense, restructuring charges, business optimization, and other unusual or non-recurring expenses) and other (expense) income, net (which consists of gains and losses on foreign currency transactions and undesignated derivative instruments, debt refinancing costs, and other nonoperating activity). We believe that Adjusted EBITDA is an important indicator of operating performance because:

- we report Adjusted EBITDA to our lenders as required under the covenants of our credit agreements;
- Adjusted EBITDA excludes the effects of income taxes, as well as the effects of financing and investing activities by eliminating the effects of interest, depreciation and amortization expenses;
- we use Adjusted EBITDA in setting performance incentive targets;
- we consider gains (losses) on the acquisition, disposal and impairment of assets as resulting from investing decisions rather than ongoing operations; and
- other significant items, while periodically affecting our results, may vary significantly from period to period and have a disproportionate effect in a given period, which affects comparability of our results.

We set transfer prices between operating segments on an arms-length basis in a similar manner to transactions with third parties. We allocate corporate operating expenses that directly benefit our operating segments on a basis that reasonably approximates our estimates of the use of these services.

Other/Eliminations represents the elimination of inter-segment transactions as well as unallocated corporate costs consisting of costs specifically related to parent company operations that do not directly benefit segments, either individually or collectively. In the analysis of our results of operations, we discuss operating segment results for the current reporting period following our consolidated results of operations period-to-period comparison.

The following is management's discussion and analysis of the financial condition and results of operations for the three and six months ended June 30, 2017 as compared to the corresponding period in the prior year. This discussion should be read in conjunction with the condensed consolidated financial statements, including the related notes, set forth in this report under "Financial Statements" and our Annual Report on Form 10-K for the year ended December 31, 2016.

Results of Operations

The following tables set forth, for the periods indicated, certain statements of operations data first on the basis of reported data and then as a percentage of total net sales for the relevant period.

Net sales

Net sales percentage change due to:	
Reported sales volumes	(5.8)%
Sales pricing and product mix	6.5 %
Foreign currency translation	(1.4)%
Total	(0.7)%

Net sales were $2,247.0 million for the three months ended June 30, 2017, a decrease of $15.5 million, or 0.7%, from the three months ended June 30, 2016. The decrease in net sales from reported sales volumes was driven by the USA, EMEA, and Rest of World segments, partially offset by higher sales volumes in the Canada segment. The increase in net sales from changes in sales pricing and product mix was driven by the USA, EMEA, and Rest of World segments, partially offset by a decrease in the Canada segment. Foreign currency translation decreased net sales, due to the US dollar strengthening against the British pound, euro, Canadian dollar, and Mexican peso, partially offset by the weakening of the US dollar against the Brazilian real. Refer to the "Segment results" for the three months ended June 30, 2017 discussion for additional information.

Table of Contents

Gross profit increased $21.0 million, or 4.7%, to $466.4 million for the three months ended June 30, 2017. The decrease in gross profit from reported sales volumes was driven by the USA, EMEA, and Rest of World segments, partially offset by higher sales volumes in the Canada segment. The increase in gross profit from changes in sales pricing, product costs and other adjustments was driven by all of our segments. Gross margin, which we define as gross profit divided by net sales, increased to 20.8% for the three months ended June 30, 2017 from 19.7% for the three months ended June 30, 2016 primarily due to favorable product mix and focused margin management efforts. Foreign currency translation decreased gross profit due to the strengthening of the US dollar against the British pound, euro, Canadian dollar, and Mexican peso, partially offset by the weakening of the US dollar against the Brazilian real. Refer to the "Segment results" for the three months ended June 30, 2017 discussion for additional information.

Outbound freight and handling

Outbound freight and handling expenses decreased $1.4 million, or 1.9%, to $71.9 million for the three months ended June 30, 2017. Foreign currency translation decreased outbound freight and handling expense by 1.0%, or $0.7 million. On a constant currency basis, outbound freight and handling expenses decreased 0.9%, or $0.7 million primarily due to lower reported sales volumes offset by higher delivery costs resulting from changes in product mix, market capacity constraints, and higher fuel costs. Refer to the "Segment results" for the three months ended June 30, 2017 discussion for additional information.

Warehousing, selling and administrative

Warehousing, selling and administrative expenses increased $9.7 million, or 4.3%, to $233.6 million for the three months ended June 30, 2017. Foreign currency translation decreased warehousing, selling and administrative expenses by 0.9%, or $2.0 million. On a constant currency basis, the $11.7 million increase is primarily due to higher personnel costs of $13.9 million primarily due to higher variable compensation expense and $3.6 million in higher outsourced services and consulting fees. The increases were partially offset by $0.9 million in lower legal fees and $0.8 million in lower insurance expense. The remaining $4.1 million decrease related to several insignificant components. Refer to the "Segment results" for the three months ended June 30, 2017 discussion for additional information.

Other operating expenses, net

Other operating expenses, net increased $12.7 million from $11.5 million for the three months ended June 30, 2016 to $24.2 million for the three months ended June 30, 2017. The increase was primarily related to $11.5 million of costs incurred to support the transformation of the US business and $3.8 million of higher stock-based compensation. The increase was partially offset by $3.7 million in lower restructuring charges and $1.9 million in lower acquisition and integration related expenses. The remaining $3.0 million increase related to several insignificant components. Foreign currency translation increased other operating expenses, net by 1.7%, or $0.2 million. Refer to "Note 4: Other operating expenses, net" and "Note 5: Restructuring charges" in Item 1 of this Quarterly Report on Form 10-Q for additional information.

Depreciation and amortization

Depreciation expense decreased $3.9 million, or 10.3%, to $34.1 million for the three months ended June 30, 2017. Foreign currency translation decreased depreciation expense by 0.8%, or $0.3 million. On a constant currency basis, the $3.6 million decrease was primarily related to the second quarter 2016 reassessment of useful lives of certain internally developed software which were fully depreciated by May 2017. The decrease in depreciation expense also resulted from asset retirements.

Amortization expense decreased $6.8 million, or 29.2%, to $16.5 million for the three months ended June 30, 2017. Foreign currency translation decreased amortization expense by 1.7%, or $0.4 million. On a constant currency basis, the decrease of $6.4 million was primarily driven by the third quarter 2016 impairment charge which reduced the intangible asset base along with lower expense related to intangibles reaching the end of their useful life.

Interest expense

Interest expense decreased $4.8 million, or 11.6%, to $36.6 million for the three months ended June 30, 2017 primarily due to lower average outstanding borrowings, as well as lower interest rates related to the January 2017 debt amendment of the Senior Term B loan agreement.

Other (expense) income, net

Other (expense) income, net changed by $17.4 million from an income of $5.7 million for the three months ended June 30, 2016 to an expense of $11.7 million for the three months ended June 30, 2017. The change was primarily driven by foreign currency denominated loan revaluation losses of $5.4 million primarily resulting from the revaluation of the Euro Tranche Term Loan in the three months ended June 30, 2017 compared to the gains of $5.4 million in the three months ended June 30, 2016. The change

Table of Contents

was also driven by the mark-to-market loss for interest rate swaps of $4.8 million in the three months ended June 30, 2017 compared to the gains of $1.5 million in the three months ended June 30, 2016. The remaining $0.3 million change is related to several insignificant components. Refer to “Note 6: Other expense, net” in Item 1 of this Quarterly Report on Form 10-Q for additional information.

Income tax expense

Income tax expense increased $6.4 million from $0.9 million for the three months ended June 30, 2016 to $7.3 million for the three months ended June 30, 2017 with the impact of a slight decrease in earnings offset by an unfavorable discrete item expense. As compared to the $0.4 million of discrete benefit recorded for the three months of 2016, $0.1 million of discrete expense was recorded for the three month period ended June 30, 2017.

In April 2017 President Trump signed an Executive Order directing the US Department of the Treasury (“Treasury”) to review tax regulations adopted over the past 18 months under former President Obama. In July 2017, Treasury issued Notice 2017-38 which initially identified certain tax regulations which met the criteria established by the Executive Order. The Company’s income tax expense was negatively impacted in December 2016 by a $47.3 million charge due to a tax regulation relating to the unrealized foreign exchange loss of non US branches which is currently under review by Treasury. Should the tax regulation be repealed, the Company would expect a favorable impact to its income tax expense during the quarter the law is enacted. Treasury expects to release its recommendation by September 2017.

External sales in the USA segment were $1,191.1 million, a decrease of $21.7 million, or 1.8%, for the three months ended June 30, 2017 due to lower sales volumes, partially offset by higher average selling prices resulting from the Company's efforts to improve its sales force effectiveness and margin management initiatives. Gross profit increased $12.6 million, or 4.8%, to $275.7 million for the three months ended June 30, 2017. Gross profit increased due to sales pricing primarily due to higher average selling prices and increased sales of higher margin products. Gross margin increased from 21.7% for the three months ended June 30, 2016 to 23.1% during the three months ended June 30, 2017 primarily due to the factors impacting gross profit discussed above.

Outbound freight and handling expenses decreased $0.9 million, or 1.9%, to $47.3 million for the three months ended June 30, 2017 primarily due to lower reported sales volumes, partially offset by higher delivery costs resulting from a combination of market capacity constraints and higher fuel costs. Operating expenses increased $4.7 million, or 3.6%, to $136.4 million for the three months ended June 30, 2017 of which $8.8 million is attributable to higher personnel expenses primarily driven by higher variable compensation expense and $1.2 million of higher outsourced services and consulting fees, partially offset by $1.1 million in lower environmental remediation expense, $0.8 million in lower insurance expense, and $0.5 million of lower lease expenses. The remaining $2.9 million decrease related to several insignificant components. Operating expenses as a percentage of external sales increased from 10.9% for the three months ended June 30, 2016 to 11.5% for the three months ended June 30, 2017.

Adjusted EBITDA increased by $8.8 million, or 10.6%, to $92.0 million for the three months ended June 30, 2017. Adjusted EBITDA margin increased from 6.9% in the three months ended June 30, 2016 to 7.7% for the three months ended June 30, 2017 primarily as a result of higher gross margin, partially offset by increased operating expenses as a percentage of sales.

External sales in the Canada segment were $492.4 million, an increase of $7.0 million, or 1.4%, for the three months ended June 30, 2017. Foreign currency translation decreased external sales dollars as the US dollar strengthened against the Canadian dollar when comparing the three months ended June 30, 2017 to the three months ended June 30, 2016. On a constant currency basis, external sales dollars increased $20.2 million, or 4.1%. The increase in external net sales was driven by higher reported sales volumes across all regions. The decrease in external net sales from changes in sales pricing was primarily driven by a change in market and product mix as a result of a soft agricultural season. Gross profit increased $6.9 million, or 11.4%, to $67.5 million in the three months ended June 30, 2017. Gross profit increased primarily due to sales pricing and product cost improvements in the energy and industrial end markets driven by product mix and margin management efforts and higher supplier rebates during the three months ended June 30, 2017. Gross margin increased from 12.5% for the three months ended June 30, 2016 to 13.7% for the three months ended June 30, 2017 primarily due to the factors impacting gross profit discussed above.

Outbound freight and handling expenses increased $0.8 million, or 9.5%, to $9.2 million for the three months ended June 30, 2017 primarily due to higher reported sales volumes and higher delivery costs resulting from changes in end market and product mix. Operating expenses increased by $0.8 million, or 3.9%, to $21.5 million for the three months ended June 30, 2017, and increased as a percentage of external sales from 4.3% for the three months ended June 30, 2016 to 4.4% for the three months ended June 30, 2017. Foreign currency translation decreased operating expenses by 4.3%, or $0.9 million. On a constant currency basis, operating expenses increased $1.7 million, or 8.2%, primarily due

to increased personnel expenses of $1.2 million driven by higher variable compensation expense. The remaining $0.5 million increase related to several insignificant components.

Adjusted EBITDA increased by $5.3 million, or 16.8%, to $36.8 million for the three months ended June 30, 2017. Foreign currency translation decreased Adjusted EBITDA by 3.5%, or $1.1 million. On a constant currency basis, Adjusted EBITDA increased $6.4 million, or 20.3%, primarily due to increased gross profit. Adjusted EBITDA margin increased from 6.5% for the three months ended June 30, 2016 to 7.5% for the three months ended June 30, 2017 primarily as a result of higher gross margin, partially offset by higher outbound freight and handling expenses as a percentage of sales.

External sales in the EMEA segment were $463.7 million, an increase of $3.8 million, or 0.8%, for the three months ended June 30, 2017, primarily due to higher average selling prices driven by mix improvement, and margin management initiatives, partially offset by lower volumes primarily due to three less selling days for the three months ended June 30, 2017 compared to the three months ended June 30, 2016. Foreign currency translation decreased external sales dollars resulting from the US dollar strengthening against the British pound and the euro, when comparing the three months ended June 30, 2017 to the three months ended June 30, 2016. Gross profit increased $1.6 million, or 1.6%, to $104.7 million in the three months ended June 30, 2017. Gross profit increased due to changes in sales pricing, product costs and other adjustments primarily due to increased sales of higher margin pharmaceutical finished goods as well as the continued impact of favorable product and end market mix. Gross margin increased from 22.4% for the three months ended June 30, 2016 to 22.6% for the three months ended June 30, 2017 primarily due to the factors discussed above.

Outbound freight and handling expenses decreased $1.0 million, or 6.8%, to $13.8 million, primarily due to lower reported sales volumes. Operating expenses decreased $0.7 million, or 1.3%, to $54.6 million for the three months ended June 30, 2017, and decreased as a percentage of external sales from 12.0% for the three months ended June 30, 2016 to 11.8% for the three months ended June 30, 2017. Foreign currency translation decreased operating expenses by 2.2%, or $1.2 million. On a constant currency basis, operating expenses increased $0.5 million, or 0.9%, which was primarily due to higher environmental remediation expense of $0.8 million. The remaining $0.3 million offsetting decrease related to several other insignificant components.

Adjusted EBITDA increased by $3.3 million, or 10.0%, to $36.3 million for the three months ended June 30, 2017. Foreign currency translation decreased Adjusted EBITDA by 7.0%, or $2.3 million. On a constant currency basis, Adjusted EBITDA increased $5.6 million, or 17.0%. Adjusted EBITDA growth in the quarter can be attributed to increased sales of pharmaceutical finished goods, along with improved sales force execution and margin management initiatives and continued reductions in outbound freight and handling expenses. For the three months ended June 30, 2017, the pharmaceutical finished goods product line represented approximately 30% of Adjusted EBIDTA in the EMEA segment. Adjusted EBITDA margin increased from 7.2% for the three months ended June 30, 2016 to 7.8% for the three months ended June 30, 2017 primarily due to higher gross margin and lower outbound freight and handling expenses and operating expenses as a percentage of sales.

External sales in the Rest of World segment were $99.8 million, a decrease of $4.6 million, or 4.4%, for the three months ended June 30, 2017. Foreign currency translation increased external sales dollars when comparing the three months ended June 30, 2017 to the three months ended June 30, 2016 primarily due to the US dollar weakening against the Brazilian real, partially offset by the US dollar strengthening against the Mexican peso. The decrease in

external net sales from reported sales volumes was due to weak industrial demand and in particular lower demand in upstream oil and gas products and solvents in Mexico. The increase in external net sales from changes in sales pricing and product mix was primarily due to favorable product mix and higher average selling prices resulting from the Company's efforts to improve its sales force effectiveness. Gross profit decreased $0.1 million,

or 0.5%, to $18.5 million for the three months ended June 30, 2017 as margin management efforts largely offset lower volumes across the region. Gross margin increased from 17.8% for the three months ended June 30, 2016 to 18.5% for the three months ended June 30, 2017 primarily due to the factors discussed above.

Outbound freight and handling expenses decreased $0.3 million, or 15.8%, to $1.6 million for the three months ended June 30, 2017, primarily due to delivery cost efficiencies resulting from changes in product mix and lower volumes.

Operating expenses decreased $0.5 million, or 4.0%, to $12.0 million for the three months ended June 30, 2017 and were flat as a percentage of external sales at 12.0% when comparing the three months ended June 30, 2016 to the three months ended June 30, 2017. Foreign currency translation increased operating expenses by 2.4%, or $0.3 million. On a constant currency basis, operating expenses decreased $0.8 million, or 6.4%, due to several insignificant components.

Adjusted EBITDA increased by $0.7 million, or 16.7%, to $4.9 million for the three months ended June 30, 2017. Foreign currency translation increased Adjusted EBITDA by 4.8%, or $0.2 million. On a constant currency basis, Adjusted EBITDA increased $0.5 million, or 11.9%, primarily due to the benefit from reductions in outbound freight and handling expenses and operating expenses, partially offset by gross profit reductions. Adjusted EBITDA margin increased from 4.0% for the three months ended June 30, 2016 to 4.9% for the three months ended June 30, 2017 primarily due to lower outbound freight and handling expenses as a percentage of sales.

Net sales were $4,245.8 million for the six months ended June 30, 2017, a decrease of $15.7 million, or 0.4%, from the six months ended June 30, 2016. The increase in net sales from acquisitions was driven by the March 2016 Nexus Ag acquisition in Canada and the March 2016 Bodine acquisition in the USA. The decrease in net sales from reported sales volumes was driven by the USA, EMEA, and Rest of World segments, partially offset by higher sales volumes in the Canada segment. The increase in net sales from changes in sales pricing and product mix was driven by the USA, EMEA, and Rest of World segments, partially offset by a decrease in the Canada segment. Foreign currency translation decreased net sales, due to the US dollar strengthening against the British pound, euro, Canadian dollar, and Mexican peso, partially offset by the weakening of the US dollar against the Brazilian real. Refer to the "Segment results" for the six months ended June 30, 2017 discussion for additional information.

Gross profit

Gross profit percentage change due to:	
Acquisitions	0.2 %
Reported sales volumes	(4.6)%
Sales pricing, product costs and other adjustments	8.8 %
Foreign currency translation	(1.0)%
Total	3.4 %

Gross profit increased $30.1 million, or 3.4%, to $905.8 million for the six months ended June 30, 2017. The increase in gross profit from acquisitions was driven by the March 2016 Bodine acquisition in the USA and March 2016 Nexus Ag acquisition in Canada. The decrease in gross profit from reported sales volumes was driven by the USA, EMEA, and Rest of World segments, partially offset by higher sales volumes in the Canada segment. The increase in gross profit from changes in sales pricing, product costs and other adjustments was driven by all of our segments. Gross margin, which we define as gross profit divided by net sales, increased to 21.3% for the six months ended June 30, 2017 from 20.5% for the six months ended June 30, 2016 primarily due to favorable product mix and focused margin management efforts. Foreign currency translation decreased gross profit due to the strengthening of the US dollar against the British pound, euro, Canadian dollar, and Mexican peso, partially offset by the weakening of the US dollar against the Brazilian real. Refer to the "Segment results" for the six months ended June 30, 2017 discussion for additional information.

Outbound freight and handling

Outbound freight and handling expenses decreased $1.7 million, or 1.2%, to $142.9 million for the six months ended June 30, 2017. Foreign currency translation decreased outbound freight and handling expense by 0.7%, or $1.0 million. On a constant currency basis, outbound freight and handling expenses decreased 0.5%, or $0.7 million primarily due to lower reported sales volumes offset by higher delivery costs resulting from changes in product mix, market capacity constraints, and increasing fuel prices. Refer to the "Segment results" for the six months ended June 30, 2017 discussion for additional information.

Warehousing, selling and administrative

Warehousing, selling and administrative expenses increased $10.9 million, or 2.4%, to $459.7 million for the six months ended June 30, 2017. Foreign currency translation decreased warehousing, selling and administrative expenses by 2.1%, or $3.2 million. On a constant currency basis, the $14.1 million increase is primarily due to higher personnel costs of $22.1 million primarily driven by higher variable compensation expense, including the absence of $4.5 million in prior service credits recognized in 2016 related to the US retiree health care plan, partially offset by $2.3 million in lower lease expense, driven by site closures, and $0.9 million in lower insurance expense. The remaining $4.8 million decrease related to several insignificant components. Refer to the "Segment results" for the six months ended June 30, 2017 discussion for additional information.

Other operating expenses, net

Other operating expenses, net increased $27.0 million from $17.0 million for the six months ended June 30, 2016 to $44.0 million for the six months ended June 30, 2017. The increase was primarily related to $20.6 million of costs incurred to support the transformation of the US business, $8.0 million of higher stock-based compensation, and $3.2 million of higher non-program specific severance costs. The increase was partially offset by $3.6 million in lower acquisition and integration related expenses and $3.0 million in lower restructuring charges. The remaining $1.8

million increase related to several insignificant components. Foreign currency translation increased other operating expenses, net by 1.8%, or $0.3 million. Refer to “Note 4: Other operating expenses, net” and “Note 5: Restructuring charges” in Item 1 of this Quarterly Report on Form 10-Q for additional information.

Depreciation and amortization

Depreciation expense decreased $1.5 million, or 2.1%, to $70.0 million for the six months ended June 30, 2017. Foreign currency translation decreased depreciation expense by 0.6%, or $0.4 million. On a constant currency basis, the $1.1 million decrease was primarily due to asset retirements, partially offset by the increase in depreciation expense due to the second quarter 2016 reassessment of useful lives of certain internally developed software.

Amortization expense decreased $12.1 million, or 26.7%, to $33.2 million for the six months ended June 30, 2017. Foreign currency translation decreased amortization expense by 0.9%, or $0.4 million. On a constant currency basis, the decrease of $11.7 million was primarily driven by the third quarter 2016 impairment charge which reduced the intangible asset base along with lower expense related to intangibles reaching the end of their useful life.

Interest expense

Interest expense decreased $9.6 million, or 11.6%, to $73.3 million for the six months ended June 30, 2017 primarily due to lower average outstanding borrowings, as well as lower interest rates related to the January 2017 debt amendment of the Senior Term B loan agreement.

Loss on extinguishment of debt

Loss on extinguishment of debt included $0.8 million for the six months ended June 30, 2017 due to the write off of unamortized debt discount and debt issuance costs related to the January 2017 debt amendment of the Senior Term B loan agreement.

Other expense, net

Other expense, net increased $13.1 million from $7.7 million for the six months ended June 30, 2016 to $20.8 million for the six months ended June 30, 2017. The increase was primarily due to the $7.0 million increase from the mark-to-market loss for interest rate swaps of $4.8 million in the three months ended June 30, 2017 compared to the gains of $2.2 million in the three months ended June 30, 2016. The increase was also driven by the $4.2 million in fees related to the January 2017 debt amendment of the Senior Term B loan agreement. The remaining $1.9 million increase is related to several insignificant components. Refer to “Note 6: Other expense, net” in Item 1 of this Quarterly Report on Form 10-Q for additional information.

Income tax expense

Income tax expense increased $2.9 million from $6.0 million for the six months ended June 30, 2016 to $8.9 million for the six months ended June 30, 2017 with the impact of an increase in earnings offset by a favorable discrete item benefit. As compared to the $0.9 million of discrete benefit for the six months of 2016, $3.8 million of discrete benefit was recorded for the six month period ended June 30, 2017 of which a $3.5 million benefit is related to excess tax benefits from share-based compensation.

In April 2017 President Trump signed an Executive Order directing the US Department of the Treasury (“Treasury”) to review tax regulations adopted over the past 18 months under former President Obama. In July 2017, Treasury issued Notice 2017-38 which initially identified certain tax regulations which met the criteria established by the Executive Order. The Company’s income tax expense was negatively impacted in December 2016 by a $47.3 million charge due to a tax regulation relating to the unrealized foreign exchange loss of non US branches which is currently under review by Treasury. Should the tax regulation be repealed, the Company would expect a favorable impact to its income tax expense during the quarter the law is enacted. Treasury expects to release its recommendation by September 2017.

External sales in the USA segment were $2,342.0 million, a decrease of $58.3 million, or 2.4%, for the six months ended June 30, 2017 due to lower sales volumes, partially offset by higher average selling prices resulting from the Company's efforts to improve its sales force effectiveness and margin management initiatives. The increase in external net sales from acquisitions was due to the March 2016 Bodine acquisition. Gross profit increased $12.6 million, or 2.4%, to $538.6 million for the six months ended June 30, 2017. Gross profit increased due to sales pricing, product costs and other adjustments primarily due to higher average selling prices and increased sales of higher margin products. The increase in gross profit from acquisitions was due to the March 2016 Bodine acquisition. Gross margin increased from 21.9% for the six months ended June 30, 2016 to 23.0% during the six months ended June 30, 2017 primarily due to the factors impacting gross profit discussed above.

Outbound freight and handling expenses decreased $1.8 million, or 1.9%, to $94.1 million for the six months ended June 30, 2017 primarily due to lower reported sales volumes, partially offset by higher delivery costs resulting from market capacity constraints and increasing fuel prices. Operating expenses increased $4.7 million, or 1.8%, to $270.8 million for the six months ended June 30, 2017 of which $13.9 million is attributable to higher personnel costs primarily driven by higher variable compensation expense, including the absence of $4.5 million in prior service credits recognized in 2016 related to the US retiree health care plan, partially offset by $2.5 million of lower lease expenses, driven by site closures, $1.6 million in lower bad debt charges, and $1.0 million in lower insurance expense. The remaining $4.1 million decrease related to several insignificant components. Operating expenses as a percentage of external sales increased from 11.1% for the six months ended June 30, 2016 to 11.6% for the six months ended June 30, 2017.

Adjusted EBITDA increased by $9.7 million, or 5.9%, to $173.7 million for the six months ended June 30, 2017. Adjusted EBITDA margin increased from 6.8% in the six months ended June 30, 2016 to 7.4% for the six months ended June 30, 2017 primarily as a result of higher gross margin, partially offset by increased operating expenses as a percentage of sales.

Foreign currency translation decreased external sales dollars as the US dollar strengthened against the British pound and euro, when comparing the six months ended June 30, 2017 to the six months ended June 30, 2016. Gross profit increased $7.2 million, or 3.6%, to $206.5 million in the six months ended June 30, 2017. Gross profit increased due to changes in sales pricing, product costs and other adjustments primarily due to increased sales of higher margin pharmaceutical finished goods as well as the continued impact of favorable product and end market mix. Gross margin increased from 22.2% for the six months ended June 30, 2016 to 22.9% for the six months ended June 30, 2017 primarily due to the factors discussed above.

Outbound freight and handling expenses decreased $1.6 million, or 5.6%, to $27.2 million, primarily due to lower reported sales volumes. Operating expenses decreased $2.1 million, or 1.9%, to $107.1 million for the six months ended June 30, 2017, and decreased as a percentage of external sales from 12.2% for the six months ended June 30, 2016 to 11.9% for the six months ended June 30, 2017. Foreign currency translation decreased operating expenses by 3.0%, or $3.3 million. On a constant currency basis, operating expenses increased $1.2 million, or 1.1%, which was primarily due to higher environmental remediation expense of $0.7 million and $0.7 million in higher bad debt charges. The remaining offsetting $0.2 million decrease related to several other insignificant components.

Adjusted EBITDA increased by $10.9 million, or 17.8%, to $72.2 million for the six months ended June 30, 2017. Foreign currency translation decreased Adjusted EBITDA by 8.5%, or $5.2 million. On a constant currency basis, Adjusted EBITDA increased $16.1 million, or 26.3%. Adjusted EBITDA growth in the first half can be attributed to increased sales of pharmaceutical finished goods compared to the first half of prior year and continued benefit from reductions in outbound freight and handling expenses. For the six months ended June 30, 2017, the pharmaceutical finished goods product line represented approximately 30% of Adjusted EBIDTA in the EMEA segment. Adjusted EBITDA margin increased from 6.8% for the six months ended June 30, 2016 to 8.0% for the six months ended June 30, 2017 primarily due to higher gross margin and lower outbound freight and handling expenses and operating expenses as a percentage of sales.

External sales in the Rest of World segment were $200.7 million, a decrease of $5.1 million, or 2.5%, for the six months ended June 30, 2017. Foreign currency translation decreased external sales dollars when comparing the six months ended June 30, 2017 to the six months ended June 30, 2016 primarily due to the stronger US dollar position as compared to the Mexican peso,

partially offset by the US dollar weakening against the Brazilian real. The decrease in external net sales from reported sales volumes was due to weak industrial demand and in particular lower demand in upstream oil and gas products and solvents in Mexico. The increase in external net sales from changes in sales pricing and product mix was primarily due to favorable product mix and higher average selling prices resulting from the Company's efforts to improve its sales force effectiveness. Gross profit decreased $1.8 million, or 4.6%, to $37.4 million for the six months ended June 30, 2017. Gross profit increased from sales pricing, product costs and other adjustments primarily due to changes in selling prices offset with unfavorable product costs across the region for the six months ended June 30, 2017. Gross margin decreased from 19.0% for the six months ended June 30, 2016 to 18.6% for the six months ended June 30, 2017 primarily due to the factors discussed above.

Outbound freight and handling expenses decreased $0.5 million, or 13.5%, to $3.2 million for the six months ended June 30, 2017, primarily due to delivery cost efficiencies resulting from changes in product mix and lower volumes.

Operating expenses decreased $0.8 million, or 3.4%, to $22.6 million for the six months ended June 30, 2017 and decreased as a percentage of external sales from 11.4% for the six months ended June 30, 2016 to 11.3% for the six months ended June 30, 2017. Foreign currency translation increased operating expenses by 1.7%, or $0.4 million. On constant currency basis, operating expenses decreased $1.2 million, or 5.1%, which was primarily related to lower personnel expenses of $0.6 million due to reduced headcount. The remaining $0.6 million decrease related to several insignificant components.

Adjusted EBITDA decreased by $0.5 million, or 4.1%, to $11.6 million for the six months ended June 30, 2017. Foreign currency translation increased Adjusted EBITDA by 2.5%, or $0.3 million. On a constant currency basis, Adjusted EBITDA decreased $0.8 million, or 6.6%, primarily due to gross profit reductions. Adjusted EBITDA margin decreased from 5.9% for the six months ended June 30, 2016 to 5.8% for the six months ended June 30, 2017 primarily due to lower gross margin, partially offset by lower operating expenses as a percentage of sales.

Liquidity and Capital Resources

Our primary source of liquidity is cash generated from our operations as well as borrowings under our credit facilities. As of June 30, 2017, we had $712.8 million available under our credit facilities.

We are in compliance with our covenants. Our primary liquidity and capital resource needs are to service our debt and to finance working capital, capital expenditures, other liabilities and cost of acquisitions. We believe that funds provided by these sources will be adequate to meet the liquidity and capital resource needs for at least the next 12 months under current operating conditions. We will continue to balance our focus on sales and earnings growth with continuing efforts in cost control and working capital management.

Cash Flows

The following table presents a summary of our cash flow activity for the periods set forth below:

(in millions)	Six months ended June 30, 2017	June 30, 2016
Net cash (used) provided by operating activities	$(15.7)	$115.1
Net cash used by investing activities	(38.1)	(98.8)
Net cash provided (used) by financing activities	20.8	(1.2)
Effect of exchange rate changes on cash and cash equivalents	18.4	20.6
Net (decrease) increase in cash and cash equivalents	$(14.6)	$35.7

Cash (Used) Provided by Operating Activities

Cash (used) provided by operating activities decreased $130.8 million from cash provided of $115.1 million for the six months ended June 30, 2016 to cash used of $15.7 million for the six months ended June 30, 2017.

Cash provided by operating activities decreased $1.0 million due to a decrease in net income exclusive of non-cash items. Net income exclusive of non-cash items was $168.6 million and 169.6 million in the six months ended June 30, 2017 and June 30, 2016, respectively. Refer to “Results of Operations” above for additional information.

The change in trade working capital; which includes trade accounts receivable, net, inventories and trade accounts payable; resulted in an increased use of cash of $94.1 million. Inventories used cash of $37.9 million and provided cash of $18.3 million for the six months ended June 30, 2017 and June 30, 2016, respectively. The current year cash outflows are primarily related to higher Ag inventory levels as a result of a soft agricultural season. Trade accounts receivable, net used cash of $321.6 million and

$274.1 million for the six months ended June 30, 2017 and June 30, 2016, respectively. The increase in current year cash outflows is primarily due to timing of customer payments compared to the prior six months ended June 30, 2016. Trade accounts payable provided cash inflows of $252.4 million and $242.8 million for the six months ended June 30, 2017 and June 30, 2016, respectively. The cash inflows related to trade accounts payable are primarily due to improvements in managing inventory spending.

Prepaid expenses and other current assets also contributed $40.9 million to the increased use of cash. During the six months ended June 30, 2017, prepaid expenses and other current assets used $13.2 million of cash, primarily due to increases in prepaid expenses, other receivables, and several other insignificant components. Prepaid expenses and other current assets provided cash of $27.7 million during the six months ended June 30, 2016, which was primarily due to the receipt of cash related to rebates, income tax receivables, and several other insignificant components.

The change in pensions and other postretirement benefit liabilities provided cash of $1.0 million, which consisted of cash outflows of $19.2 million and $20.2 million for the six months ended June 30, 2017 and June 30, 2016, respectively.

The remaining cash inflow related to operating activities of $4.2 million is related to other, net. During the six months ended June 30, 2017 and June 30, 2016, other, net used $44.8 million and $49.0 million of cash, respectively, primarily due to the settlement of customer prepayment obligations.

Cash Used by Investing Activities

Cash used by investing activities decreased $60.7 million from $98.8 million for the six months ended June 30, 2016 to $38.1 million for the six months ended June 30, 2017. The decrease is primarily related to lower cash outflows for purchases of businesses, net of cash acquired of $54.3 million primarily driven by the March 2016 acquisitions of Bodine and Nexus AG. Another factor contributing to the decrease in cash used by investing activities is a reduction in spending on capital expenditures of $6.6 million.

The remaining increase in cash used by investing activities of $0.2 million did not contain any significant activity.

Cash Provided (Used) by Financing Activities

Cash provided by financing activities increased $22.0 million from cash used of $1.2 million for the six months ended June 30, 2016 to cash provided of $20.8 million for the six months ended June 30, 2017.

An increase in cash provided by financing activities of $13.1 million was primarily due to a net change in the ABL facilities of $53.9 million and $3.7 million for the six months ended June 30, 2017 and June 30, 2016, respectively. The changes in the outstanding ABL facilities is due to changes in borrowings related to working capital funding requirements. Partially offsetting the increase in cash provided by financing activities are changes in term debt; inclusive of the Term B Loan, Euro Tranche Term Loan, and Senior Unsecured Note; related to repayments. The January 19, 2017 agreement to amend the Senior Term B loan resulted in a net cash outflow of $4.4 million of financing fees. Refer to "Note 10: Debt" in Item 1 of this Quarterly Report on Form 10-Q for additional information.

Cash provided by financing activities also increased by $27.4 million due to a net increase in share-based compensation of $28.1 million and $0.7 million for the six months ended June 30, 2017 and June 30, 2016, respectively. The change in the share-based compensation is due to cash receipts related to the exercise of stock options, for which there was cash used by financing activities of $7.5 million for taxes paid related to net share settlements of stock-based compensation awards.

The change in short-term financing, net contributed $6.5 million to the decrease in cash provided by financing activities. Short-term financing, net increased by $6.5 million and $5.8 million for the six months ended June 30, 2017 and June 30, 2016, respectively.

The remaining $0.5 million increase in cash used by financing activities did not contain any significant activity.

Forward looking statements and information

This Quarterly Report on Form 10-Q contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Some of the forward-looking statements can be identified by the use of forward-looking terms such as “believes,” “expects,” “may,” “will,” “should,” “could,” “seeks,” “intends,” “plans,” “estimates, or other comparable terms. These forward-looking statements include all matters that are not historical facts. They appear in a number of places throughout this Quarterly Report on Form 10-Q and include statements regarding our intentions, beliefs or current expectations concerning, among other things, our results of operations, financial condition, macro-economic conditions, liquidity, prospects, business trends, currency trends, competition, markets, growth strategies and the industries in which we operate and including, without limitation, statements relating to our estimated or anticipated financial performance or results. Forward-looking statements are subject to known and unknown risks and uncertainties, many of which may be beyond our control. We caution you that forward-looking statements are not guarantees of future performance and that our actual results of operations, financial condition and liquidity, and the development of the industries in which we operate may differ materially from those made in or suggested by the forward-looking statements contained in this Quarterly Report on Form 10-Q. In addition, even if our results of operations, financial condition and liquidity, and the development of the industries in which we operate are consistent with the forward-looking statements contained in this Quarterly Report on Form 10-Q, those results or developments may not be indicative of results, conditions or developments in subsequent periods. A number of important factors could cause actual results to differ materially from those contained in or implied by the forward-looking statements, including those reflected in forward-looking statements relating to our operations and business and the risks and uncertainties discussed in “Risk Factors.” Factors that could cause actual results to differ from those reflected in forward-looking statements relating to our operations and business include:

- general economic conditions, particularly fluctuations in industrial production and the demands of our customers;
- disruptions in the supply of chemicals we distribute or our customers’ or producers' operations;
- termination or change of contracts or relationships with customers or producers on short notice;
- the price and availability of chemicals, or a decline in the demand for chemicals;
- our ability to pass through cost increases to our customers;
- our ability to meet customer demand for a product;
- trends in oil and gas prices;
- our ability to execute strategic investments, including pursuing acquisitions and/or dispositions, and successfully integrating and operating acquired companies;
- challenges associated with international operations, including securing producers and personnel, import/export requirements, compliance with foreign laws and international business laws and changes in economic or political conditions;
- our ability to effectively implement our strategies or achieve our business goals;
- exposure to interest rate and currency fluctuations;
- competitive pressures in the chemical distribution industry;
- consolidation of our competitors;
- our ability to implement and efficiently operate the systems needed to manage our operations;
- the risks associated with security threats, including cybersecurity threats;
- increases in transportation costs and changes in our relationship with third party carriers;
- the risks associated with hazardous materials and related activities;
- accidents, safety failures, environmental damage, product quality issues, major or systemic delivery failures involving our distribution network or the products we carry or adverse health effects or other harm related to the materials we blend, manage, handle, store, sell or transport;

- evolving laws and regulations relating to hydraulic fracturing and risks associated with chemicals used in hydraulic fracturing;
- losses due to potential product liability claims and recalls and asbestos claims;
- compliance with extensive environmental, health and safety laws, including laws relating to our environmental services businesses and the investigation and remediation of contamination, that could require material expenditures or changes in our operations;
- general regulatory and tax requirements;
- operational risks for which we may not be adequately insured;

- ongoing litigation and other legal and regulatory actions and risks, including asbestos claims;
- potential impairment of goodwill;
- inability to generate sufficient working capital;
- loss of key personnel;
- labor disruptions and other costs associated with the unionized portion of our workforce;
- negative developments affecting our pension plans and multi-employer pensions;
- the impact of labeling regulations; and
- our substantial indebtedness and the restrictions imposed by our debt instruments and indenture.

You should read this Quarterly Report on Form 10-Q, including the uncertainties and factors discussed under "Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2016 completely and with the understanding that actual future results may be materially different from expectations. All forward-looking statements made in this Quarterly Report on Form 10-Q are qualified by these cautionary statements. These forward-looking statements are made only as of the date of this Quarterly Report on Form 10-Q and we do not undertake any obligation, other than as may be required by law, to update or revise any forward-looking or cautionary statements to reflect changes in assumptions, the occurrence of events, unanticipated or otherwise and changes in future operating results over time or otherwise.

Comparisons of results between current and prior periods are not intended to express any future trends, or indications of future performance, unless expressed as such, and should only be viewed as historical data.
