Item 8.01 Other Events.

On April 2, 2018, the Centers for Medicare Services (CMS) issued a quarterly update to the Healthcare Common Procedure Coding System (HCPCS) that included a product-specific Q code for ZILRETTA® (Q9993), which CMS indicated will be effective July 1, 2018. CMS issues Q codes at their discretion when they identify a programmatic need to differentiate a single source drug from other products available in the marketplace.

Code Q9993 will cover all Medicare claims for ZILRETTA administered in a physician office setting, which we estimate to represent approximately half of the U.S. market for ZILRETTA. With a product-specific code, Medicare claims are generally adjudicated more expeditiously than under the manual review process required with a miscellaneous code.

In March, CMS also issued a product-specific C code for ZILRETTA (C9469) for Medicare claims in the hospital outpatient department, which became effective April 1, 2018.

Flexion filed for a dedicated J code for ZILRETTA in late 2017. Per the HCPCS review process, CMS is expected to publish the list of products under consideration for dedicated J codes by the end of April. CMS is scheduled to hold a public hearing in May, and the final list of J codes expected to take effect on January 1, 2019 is anticipated to be published in Q4 of 2018.
