(Unaudited)

1. Basis of Presentation

The Condensed Consolidated Financial Statements reflect all normal recurring adjustments which, in management's opinion, are necessary for a fair statement of the results for interim periods. Results of operations for interim periods may not be representative of results to be expected for a full year.

Certain prior year amounts have been reclassified to conform to the current year presentation. The Company adopted Accounting Standards Update ("ASU") No. 2015-03, "Simplifying the Presentation of Debt Issuance Costs," on January 1, 2016. To conform to the current year's presentation, debt issuance costs have been reclassified from Other assets and are now presented as a direct deduction to the carrying amount of the related debt balance at December 31, 2015. The reclassification had no further effect on the Company's Consolidated Financial Statements.

For a complete set of financial statement notes, including the significant accounting policies of Colgate-Palmolive Company (together with its subsidiaries, the "Company" or "Colgate"), refer to the Company's Annual Report on Form 10-K for the year ended December 31, 2015, filed with the Securities and Exchange Commission.

2. Use of Estimates

Provisions for certain expenses, including income taxes, media advertising and consumer promotion, are based on full year assumptions and are included in the accompanying Condensed Consolidated Financial Statements in proportion with estimated annual tax rates, the passage of time or estimated annual sales.

3. Recent Accounting Pronouncements

On March 30, 2016, the Financial Accounting Standards Board ("FASB") issued ASU No. 2016-09, "Compensation—Stock Compensation (Topic 718): Improvements to Employee Share-Based Payment Accounting," which amends accounting for income taxes related to share-based compensation, the related classification in the statement of cash flows and share award forfeiture accounting. The new guidance is effective for the Company beginning on January 1, 2017 and early adoption is permitted. The Company is currently assessing the impact of the new standard on its Consolidated Financial Statements.

On March 15, 2016, the FASB issued ASU No. 2016-07, "Investments—Equity Method and Joint Ventures (Topic 323): Simplifying the Transition to the Equity Method of Accounting," which eliminates the requirement to retroactively adjust an investment that subsequently qualifies for equity method accounting (as a result of an increase in level of ownership interest or degree of influence) as if the equity method of accounting had been applied during all prior periods that the investment was held. The new standard requires that the investor add the cost of acquiring additional ownership interest in the investee to its current basis and prospectively adopt the equity method of accounting. Any unrealized gains or losses in an available-for-sale investment that subsequently qualifies as an equity method investment should be recognized in earnings at the date the investment qualifies as an equity method investment. The new guidance is effective for the Company beginning on January 1, 2017 and early adoption is permitted. This new guidance is not expected to have a material impact on the Company's Consolidated Financial Statements.

On February 25, 2016, the FASB issued its final standard on lease accounting, ASU No. 2016-02, "Leases (Topic 842)," which supersedes Topic 840, "Leases." The new accounting standard requires the recognition of right-of-use assets and lease liabilities for all long-term leases, including operating leases, on the balance sheet. The new standard also

provides additional guidance on the measurement of the right-of-use assets and lease liabilities and will require enhanced disclosures about the Company's leasing arrangements. This new standard is effective for the Company beginning January 1, 2019, with early adoption permitted. The standard requires a "modified retrospective" adoption, meaning the standard is applied to leases existing at, or entered into after the beginning of the earliest comparative period presented in the financial statements. The Company is currently assessing the impact of the new standard on its Consolidated Financial Statements.

(Dollars in Millions Except Share and Per Share Amounts)

(Unaudited)

On January 5, 2016, the FASB issued ASU No. 2016-01, “Financial Instruments—Overall (Subtopic 825-10): Recognition and Measurement of Financial Assets and Financial Liabilities.” The updated guidance enhances the reporting model for financial instruments and includes amendments to address aspects of recognition, measurement, presentation and disclosure. The amendment to the standard is effective for the Company beginning on January 1, 2018. While the Company is currently assessing the impact of the new standard, it does not expect this new guidance to have a material impact on its Consolidated Financial Statements.

On November 20, 2015, the FASB issued ASU No. 2015-17, “Income Taxes (Topic 740): Balance Sheet Classification of Deferred Taxes,” which simplifies the presentation of deferred income taxes. Under the new accounting standard, deferred tax assets and liabilities are required to be classified as noncurrent, eliminating the prior requirement to separate deferred tax assets and liabilities into current and noncurrent. As permitted, the Company adopted the new standard on March 31, 2016, on a prospective basis, and did not retrospectively adjust prior periods.

On July 22, 2015, the FASB issued ASU No. 2015-11, “Inventory (Topic 330): Simplifying the Measurement of Inventory,” which simplifies the subsequent measurement of inventories by replacing the lower of cost or market test with a lower of cost and net realizable value test. The guidance applies only to inventories for which cost is determined by methods other than last-in first-out (“LIFO”) and the retail inventory method. The new guidance is effective for the Company beginning on January 1, 2017, with early adoption permitted. This new guidance is not expected to have a material impact on the Company’s Consolidated Financial Statements.

On May 28, 2014, the FASB and the International Accounting Standards Board (“IASB”) issued their final converged standard on revenue recognition. The standard, issued as ASU No. 2014-09, “Revenue from Contracts with Customers (Topic 606)” by the FASB, provides a single, comprehensive revenue recognition model for all contracts with customers and supersedes current revenue recognition guidance. The revenue standard contains principles that an entity will apply to determine the measurement of revenue and timing of when it is recognized. The underlying principle is that an entity will recognize revenue to depict the transfer of goods or services to customers at an amount that the entity expects to be entitled to in exchange for those goods or services. The new standard also includes enhanced disclosures which are significantly more comprehensive than those in existing revenue standards. This new guidance is effective for the Company beginning January 1, 2018. On March 30, 2016, the FASB issued ASU No. 2016-08, “Revenue from Contracts with Customers (Principal versus Agent Considerations),” to clarify the implementation guidance on principal versus agent considerations. On April 14, 2016, the FASB issued ASU No. 2016-10, “Revenue from Contracts with Customers (Identifying Performance Obligations and Licensing),” to clarify the implementation guidance on identifying performance obligations and licensing. On May 9, 2016, the FASB issued ASU No. 2016-12, “Revenue from Contracts with Customers (Narrow-Scope Improvements and Practical Expedients),” to clarify the implementation guidance on assessing collectibility, presentation of sales taxes, noncash consideration and completed contracts and contract modifications at transition. The standard allows for either “full retrospective” adoption, meaning the standard is applied to all of the periods presented, or “modified retrospective” adoption, meaning the standard is applied only to the most current period presented in the financial statements. While the Company is currently assessing the impact of the new standard, it does not expect this new standard will have a material impact on its Consolidated Financial Statements.

4. Acquisitions and Divestitures

Sale of Land in Mexico

On September 13, 2011, the Company's Mexican subsidiary entered into an agreement to sell to the United States of America (the "Purchaser") the Mexico City site on which its commercial operations, technology center and soap production facility were located. The sale price is payable in three installments. During the third quarter of 2011, the Company received the first installment of \$24 upon signing the agreement. During the third quarter of 2012, the Company received the second installment of \$36. The parties have subsequently amended the agreement to extend the closing date. Under the existing agreement, the final installment of the purchase price is due upon the transfer of the property, which is subject to the Company's satisfaction of certain closing conditions relating to site preparation by July 29, 2016. While these conditions are not expected to be fully satisfied by July 29, 2016, in which case the Purchaser has several options under the agreement (including termination and the return to it of the first two installments of the purchase price), based on the discussions to date, the Company believes that an additional amendment will be negotiated and the transfer of the property is expected to occur in the third quarter of 2016. The Company has reinvested the first two installments to relocate its soap production to a new state-of-the-art facility at its Mission Hills, Mexico site, to relocate its commercial and technology operations within Mexico City and to prepare the existing site for transfer. Exit costs incurred during the project primarily relate to staff leaving indemnities, accelerated depreciation and demolition to make the site building-ready. During the six months ended June 30, 2016 and 2015, the Company did not expense any costs related to the sale.

5. Restructuring and Related Implementation Charges

In the fourth quarter of 2012, the Company commenced a Global Growth and Efficiency Program (as expanded in 2014 and 2015 as described below, the "2012 Restructuring Program") for sustained growth. The program's initiatives are expected to help Colgate ensure continued solid worldwide growth in unit volume, organic sales and earnings per share and enhance its global leadership positions in its core businesses.

On October 23, 2014, the Company's Board of Directors (the "Board") approved an expansion of the 2012 Restructuring Program to take advantage of additional savings opportunities.

Recognizing the macroeconomic challenges around the world and the successful implementation of the 2012 Restructuring Program, on October 29, 2015, the Board approved the reinvestment of the funds from the sale of the Company's laundry detergent business in the South Pacific to expand the 2012 Restructuring Program and extend it for one year through December 31, 2017. The Board approved the implementation plan for this expansion on March 10, 2016. Initiatives under the 2012 Restructuring Program will continue to fit within the program's three focus areas of expanding commercial hubs, extending shared business services and streamlining global functions and optimizing the global supply chain and facilities. Cumulative pretax charges resulting from the 2012 Restructuring Program, once all phases are approved and implemented, are estimated to be \$1,405 to \$1,585 (\$1,050 to \$1,170 aftertax).

The pretax charges resulting from the 2012 Restructuring Program are currently estimated to be comprised of the following categories: Employee-Related Costs, including severance, pension and other termination benefits (50%); asset-related costs, primarily Incremental Depreciation and Asset Impairments (10%); and Other charges, which include contract termination costs, consisting primarily of related implementation charges resulting directly from exit activities (20%) and the implementation of new strategies (20%). Over the course of the 2012 Restructuring Program, it is currently estimated that approximately 75% of the charges will result in cash expenditures. Anticipated pretax

charges for 2016 are expected to approximate \$270 to \$310 (\$200 to \$230 aftertax). It is expected that substantially all charges resulting from the 2012 Restructuring Program will be incurred by December 31, 2017.

8

COLGATE-PALMOLIVE COMPANY

Notes to Condensed Consolidated Financial Statements (continued)

(Dollars in Millions Except Share and Per Share Amounts)

(Unaudited)

It is expected that the cumulative pretax charges, once all projects are approved and implemented, will relate to initiatives undertaken in North America (15%), Europe (20%), Latin America (5%), Asia Pacific (5%), Africa/Eurasia (5%), Hill's Pet Nutrition (10%) and Corporate (40%), which includes substantially all of the costs related to the implementation of new strategies, noted above, on a global basis. It is expected that, when it has been fully implemented, the 2012 Restructuring Program will contribute a net reduction of approximately 3,300–3,800 positions from the Company's global employee workforce.

For the three and six months ended June 30, 2016 and 2015, restructuring and related implementation charges are reflected in the Condensed Consolidated Statements of Income as follows:

	Three Months Ended June 30, 2016		Six Months Ended June 30, 2015	
Cost of sales	\$12	\$4	\$20	\$8
Selling, general and administrative expenses	14	11	40	29
Other (income) expense, net	33	37	54	115
Total 2012 Restructuring Program charges, pretax	\$59	\$52	\$114	\$152

Total 2012 Restructuring Program charges, aftertax \$44 \$40 \$82 \$107

Restructuring and related implementation charges in the preceding table are recorded in the Corporate segment as these initiatives are predominantly centrally directed and controlled and are not included in internal measures of segment operating performance.

Total charges incurred for the 2012 Restructuring Program relate to initiatives undertaken by the following reportable operating segments:

	Three Months Ended June 30, 2016		Six Months Ended June 30, 2015		Program-to-date Accumulated Charges
North America	23%	14%	32%	17%	15%

(Unaudited)

Since the inception of the 2012 Restructuring Program in the fourth quarter of 2012, the Company has incurred pretax cumulative charges of \$1,114 (\$821 aftertax) in connection with the implementation of various projects as follows:

	Cumulative Charges as of June 30, 2016
Employee-Related Costs	\$ 438
Incremental Depreciation	74
Asset Impairments	10
Other	592
Total	\$ 1,114

The majority of costs incurred since inception relate to the following projects: the implementation of the Company's overall hubbing strategy; the consolidation of facilities; the extension of shared business services and streamlining of global functions; the simplification and streamlining of the Company's research and development capabilities and oral care supply chain, both in Europe; the closing of the Morristown, New Jersey personal care facility; and restructuring how the Company will provide future retirement benefits to substantially all of the U.S.-based employees participating in the Company's defined benefit retirement plan by shifting them to the Company's defined contribution plan.

The following tables summarize the activity for the restructuring and related implementation charges discussed above and the related accruals:

Employee-Related Costs primarily include severance and other termination benefits and are calculated based on long-standing benefit practices, local statutory requirements and, in certain cases, voluntary termination arrangements. Employee-Related Costs also include pension and other retiree benefit enhancements amounting to \$1 and \$2 for the three and six months ended June 30, 2016, respectively, which are reflected as Charges against assets within Employee-Related Costs in the preceding tables as the corresponding balance sheet amounts are reflected as a reduction of pension assets or an increase in pension and other retiree benefit liabilities (see Note 10, Retirement Plans and Other Retiree Benefits).

Incremental Depreciation is recorded to reflect changes in useful lives and estimated residual values for long-lived assets that will be taken out of service prior to the end of their normal service period. Asset Impairments are recorded to write down assets held for sale or disposal to their fair value based on amounts expected to be realized. Charges against assets within Asset Impairments are net of cash proceeds pertaining to the sale of certain assets.

Other charges consist primarily of charges resulting directly from exit activities and the implementation of new strategies as a result of the 2012 Restructuring Program. These charges for the three and six months ended June 30, 2016 include third-party incremental costs related to the development and implementation of new business and strategic initiatives of \$26 and \$57, respectively, and contract termination costs and charges resulting directly from exit activities of \$11 and \$16, respectively, directly related to the 2012 Restructuring Program. These charges were expensed as incurred. Also included in Other charges for the three and six months ended June 30, 2016 are other exit costs related to the consolidation of facilities of \$0 and \$1, respectively.

11. Income Taxes

Since 2002, the Company has taken a tax position in a foreign jurisdiction that has been challenged by the tax authorities. In May 2015, the Company became aware of several Supreme Court rulings in the foreign jurisdiction disallowing certain tax deductions which had the effect of reversing prior decisions. The Company had taken deductions in prior years similar to those disallowed by the Court. As a result, as required, the Company reassessed its tax position and increased its unrecognized tax benefits by \$15 in the quarter ended June 30, 2015.

During the quarter ended June 30, 2016, the Supreme Court in the foreign jurisdiction decided the matter in the Company's favor for the years 2002 through 2005 and, as a result, the Company recorded a net tax benefit of \$13 including interest. The tax benefit of deductions related to this tax position taken for the years 2006 through 2014 total approximately \$32 at current exchange rates. These deductions are currently being challenged by the tax authorities either in the lower courts or at the administrative level and, if resolved in the Company's favor, will result in the Company recording additional tax benefits, including interest.

12. Contingencies

As a global company serving consumers in more than 200 countries and territories, the Company is routinely subject to a wide variety of legal proceedings. These include disputes relating to intellectual property, contracts, product liability, marketing, advertising, foreign exchange controls, antitrust and trade regulation, as well as labor and employment, environmental and tax matters and consumer class actions. Management proactively reviews and monitors the Company's exposure to, and the impact of, environmental matters. The Company is party to various environmental matters and, as such, may be responsible for all or a portion of the cleanup, restoration and post-closure monitoring of several sites.

The Company establishes accruals for loss contingencies when it has determined that a loss is probable and that the amount of loss, or range of loss, can be reasonably estimated. Any such accruals are adjusted thereafter as appropriate to reflect changes in circumstances.

The Company also determines estimates of reasonably possible losses or ranges of reasonably possible losses in excess of related accrued liabilities, if any, when it has determined that a loss is reasonably possible and it is able to determine such estimates. For those matters disclosed below, the Company currently estimates that the aggregate range of reasonably possible losses in excess of any accrued liabilities is \$0 to approximately \$250 (based on current exchange rates). The estimates included in this amount are based on the Company's analysis of currently available information and, as new information is obtained, these estimates may change. Due to the inherent subjectivity of the assessments and the unpredictability of outcomes of legal proceedings, any amounts accrued or included in this aggregate amount may not represent the ultimate loss to the Company. Thus, the Company's exposure and ultimate losses may be higher or lower, and possibly significantly so, than the amounts accrued or the range disclosed above.

Based on current knowledge, management does not believe that the ultimate resolution of loss contingencies arising from the matters discussed herein will have a material effect on the Company's consolidated financial position or its ongoing results of operations or cash flows. However, in light of the inherent uncertainties noted above, an adverse outcome in one or more matters could be material to the Company's results of operations or cash flows for any particular quarter or year.

Brazilian Matters

There are certain tax and civil proceedings outstanding, as described below, related to the Company's 1995 acquisition of the Kolynos oral care business from Wyeth (the "Seller").

The Brazilian internal revenue authority has disallowed interest deductions and foreign exchange losses taken by the Company's Brazilian subsidiary for certain years in connection with the financing of the Kolynos acquisition. The tax assessments with interest, at the current exchange rate, are approximately \$141. This amount includes additional assessments received from the Brazilian internal revenue authority in April 2016 relating to net operating loss carryforwards used by the Company's Brazilian subsidiary to offset taxable income that had also been deducted from the authority's original assessments. The Company has been disputing the disallowances by appealing the assessments since October 2001. Numerous appeals are currently pending at the administrative level. In the event the Company is ultimately unsuccessful in its administrative appeals, further appeals are available within the Brazilian federal courts.

In September 2015, the Company lost one of its appeals at the administrative level, and has filed a lawsuit in Brazilian federal court. In the event the Company is unsuccessful in this filing, further appeals are available within the Brazilian federal courts. Although there can be no assurances, management believes, based on the opinion of its Brazilian legal counsel, that the disallowances are without merit and that the Company should ultimately prevail. The Company is challenging these assessments vigorously.

In July 2002, the Brazilian Federal Public Attorney filed a civil action against the federal government of Brazil, Laboratorios Wyeth-Whitehall Ltda. (the Brazilian subsidiary of the Seller) and the Company, as represented by its Brazilian subsidiary, in the 6th. Lower Federal Court in the City of São Paulo, seeking to annul an April 2000 decision by the Brazilian Board of Tax Appeals that found in favor of the Seller's Brazilian subsidiary on the issue of whether it had incurred taxable capital gains as a result of the divestiture of Kolynos. The action seeks to make the Company's Brazilian subsidiary jointly and severally liable for any tax due from the Seller's Brazilian subsidiary. The case has been pending since 2002, and the Lower Federal Court has not issued a decision. Although there can be no assurances, management believes, based on the opinion of its Brazilian legal counsel, that the Company should ultimately prevail in this action. The Company is challenging this action vigorously.

In December 2005, the Brazilian internal revenue authority issued to the Company's Brazilian subsidiary a tax assessment with interest and penalties of approximately \$59, at the current exchange rate, based on a claim that certain purchases of U.S. Treasury bills by the subsidiary and their subsequent disposition during the period 2000 to 2001 were subject to a tax on foreign exchange transactions. The Company had been disputing the assessment within the internal revenue authority's administrative appeals process. However, in November 2015, the Superior Chamber of Administrative Tax Appeals denied the Company's final administrative appeal and the Company has filed a lawsuit in Brazilian federal court. In the event the Company is unsuccessful in this filing, further appeals are available within the Brazilian federal courts. Although there can be no assurances, management believes, based on the opinion of its Brazilian legal counsel, that the tax assessment is without merit and that the Company should ultimately prevail. The Company is challenging this assessment vigorously.

Competition Matters

The Company is subject to competition law investigations and legal proceedings in a number of countries. The Company's policy is to comply with antitrust and competition laws and, if a violation of any such laws is found, to take appropriate remedial action and to cooperate fully with any related governmental inquiry. Competition and antitrust law investigations often continue for several years and can result in substantial fines for violations that are found and associated private actions for damages. While the Company cannot predict the final financial impact of these competition law issues, as these matters may change, the Company evaluates developments in these matters quarterly and accrues liabilities as and when appropriate.

European Competition Matters

Certain of the Company's subsidiaries in Europe have been subject to investigations, and, in some cases, fines, by governmental authorities in a number of European countries related to potential competition law violations. The Company understands that substantially all of these matters also involve other consumer goods companies and/or retail customers. The status of the various pending matters is discussed below.

Fines have been imposed on the Company in the following matter, although, as noted below, the Company has appealed each of these fines:

In December 2014, the French competition law authority found that 13 consumer goods companies, including the Company's French subsidiary, exchanged competitively sensitive information related to the French home care and personal care sectors, for which the Company's French subsidiary was fined \$57. In addition, as a result of the Company's acquisition of the Sanex personal care business in 2011 from Unilever N.V. and Unilever PLC (together with Unilever N.V., "Unilever") pursuant to a Business and Share Sale and Purchase Agreement (the "Sale and Purchase Agreement"), the French competition law authority found that the Company's French subsidiary, along with Hillshire Brands Company (formerly Sara Lee Corporation ("Sara Lee")), were jointly and severally liable for fines of \$25 assessed against Sara Lee's French subsidiary. The Company is entitled to indemnification for this fine from Unilever as provided in the Sale and Purchase Agreement. The Company is appealing both fines in the French courts.

Currently, the following formal claim of violations is pending against the Company:

In July 2014, the Greek competition law authority issued a statement of objections alleging a restriction of parallel imports into Greece. The Company has responded to this statement of objections.

Since December 31, 2015, the following matters have been resolved:

In December 2009, the Swiss competition law authority imposed a fine of \$6 on the Company's GABA subsidiary for alleged violations of restrictions on parallel imports into Switzerland, which the Company appealed. In January 2014, this appeal was denied. The Company had appealed before the Swiss Supreme Court, but its appeal was denied in June 2016.

In December 2010, the Italian competition law authority found that 16 consumer goods companies, including the Company's Italian subsidiary, exchanged competitively sensitive information in the cosmetics sector, for which the Company's Italian subsidiary was fined \$3. The Company had appealed the fine in the Italian courts, but has decided not to further pursue its appeal.

Australian Competition Matter

In December 2013, the Australian competition law authority instituted civil proceedings in the Sydney registry of the Federal Court of Australia alleging that three consumer goods companies, including the Company's Australian subsidiary, a retailer and a former employee of the Company's Australian subsidiary violated the Australian competition law by coordinating the launching and pricing of ultra concentrated laundry detergents. In 2015, the Company recognized a charge of \$14 in connection with this matter. In March 2016, the Company and the Australian competition law authority reached an agreement to settle these proceedings for a total of \$14, which includes a fine and cost reimbursement to the competition law authority. The former employee of the Company also reached an agreement to settle. The settlement agreements were approved by the court in May 2016.

Talcum Powder Matters

The Company is a defendant in a number of civil actions alleging that certain talcum powder products it sold prior to 1996 were contaminated with asbestos. As of June 30, 2016, there were 79 individual cases pending against the Company in state and federal courts throughout the United States, 29 of which were filed against the Company during the quarter ended June 30, 2016. On June 24, 2016, a jury rendered a verdict in the Company's favor in one of the pending cases following a trial in California. In addition to the pending cases, as of June 30, 2016, 28 cases filed against the Company had been voluntarily dismissed and/or had final judgment entered in favor of the Company, and the Company had settled 16 cases for amounts that are not material to the Company's results of operations.

A number of the 79 pending cases are expected to go to trial in 2016. While the Company and its legal counsel believe that these cases are without merit and intend to challenge them vigorously, there can be no assurances of the outcome at trial. Since the amount of any potential losses from these cases currently cannot be estimated, the range of reasonably possible losses in excess of accrued liabilities disclosed above does not include any amount relating to these cases.

N8

The Company is a defendant in a lawsuit pending in Utah federal court brought by N8 Medical, Inc. ("N8 Medical"), Brigham Young University ("BYU") and N8 Pharmaceuticals, Inc. ("N8 Pharma") (collectively "plaintiffs"). The complaint, originally filed in November 2013, alleges breach of contract and other torts arising out of the Company's evaluation of a technology owned by BYU and licensed, at various times, to Ceragenix Pharmaceuticals, Inc., now in bankruptcy, N8 Medical and N8 Pharma.

In the third quarter of 2015, plaintiffs completed a submission of documents in the litigation alleging damages of approximately \$2,500. The Company and its legal counsel believe these damages allegations are without merit and are vigorously challenging them and defending this case on its merits. This case is expected to go to trial in 2017.

13. Segment Information

The Company operates in two product segments: Oral, Personal and Home Care; and Pet Nutrition.

Effective April 1, 2016, the operations of the Oral, Personal and Home Care product segment are now managed geographically in five reportable operating segments: North America, Latin America, Europe, Asia Pacific and Africa/Eurasia.

Through March 31, 2016, the Oral, Personal and Home Care product segment included the North America, Latin America, Europe/South Pacific, Asia and Africa/Eurasia geographic operating segments. As a result of management changes effective April 1, 2016, the Company realigned the geographic structure of its Europe/South Pacific and Asia reportable operating segments. Management responsibility for the South Pacific operations was transferred from Europe/South Pacific management to Asia management. Accordingly, commencing with the Company's financial reporting for the quarter ended June 30, 2016, the results of the South Pacific operations are reported in the Asia Pacific reportable operating segment. The Company has recast its historical geographic segment information to conform to the new reporting structure. These changes have no impact on the Company's historical consolidated financial position, results of operations or cash flows.

The Company evaluates segment performance based on several factors, including Operating profit. The Company uses Operating profit as a measure of operating segment performance because it excludes the impact of corporate-driven decisions related to interest expense and income taxes.

The accounting policies of the operating segments are generally the same as those described in Note 2, Summary of Significant Accounting Policies to the Company's Consolidated Financial Statements included in the Company's Annual Report on Form 10-K for the year ended December 31, 2015. Intercompany sales have been eliminated. Corporate operations include costs related to stock options and restricted stock units, research and development costs, Corporate overhead costs, restructuring and related implementation costs and gains and losses on sales of non-core product lines and assets. The Company reports these items within Corporate operations as they relate to Corporate-based responsibilities and decisions and are not included in the internal measures of segment operating performance used by the Company to measure the underlying performance of the operating segments.

14. Fair Value Measurements and Financial Instruments

The Company uses available market information and other valuation methodologies in assessing the fair value of financial instruments. Judgment is required in interpreting market data to develop the estimates of fair value and, accordingly, changes in assumptions or the estimation methodologies may affect the fair value estimates. The Company is exposed to the risk of credit loss in the event of nonperformance by counterparties to financial instrument contracts; however, nonperformance is considered unlikely and any nonperformance is unlikely to be material, as it is the Company's policy to contract only with diverse, credit-worthy counterparties based upon both strong credit ratings and other credit considerations.

The Company is exposed to market risk from foreign currency exchange rates, interest rates and commodity price fluctuations. Volatility relating to these exposures is managed on a global basis by utilizing a number of techniques, including working capital management, sourcing strategies, selling price increases, selective borrowings in local currencies and entering into selective derivative instrument transactions, issued with standard features, in accordance with the Company's treasury and risk management policies, which prohibit the use of derivatives for speculative purposes and leveraged derivatives for any purpose. It is the Company's policy to enter into derivative instrument contracts with terms that match the underlying exposure being hedged. Hedge ineffectiveness, if any, is not material for any period presented.

The Company's derivative instruments include interest rate swap contracts, foreign currency contracts and commodity contracts. The Company utilizes interest rate swap contracts to manage its targeted mix of fixed and floating rate debt, and these swaps are valued using observable benchmark rates (Level 2 valuation). The Company utilizes foreign currency contracts, including forward and swap contracts, option contracts, local currency deposits and local currency borrowings to hedge portions of its foreign currency purchases, assets and liabilities arising in the normal course of business and the net investment in certain foreign subsidiaries. These contracts are valued using observable market rates (Level 2 valuation). Commodity futures contracts are utilized to hedge the purchases of raw materials used in production. These contracts are measured using quoted commodity exchange prices (Level 1 valuation). The duration of foreign currency and commodity contracts generally does not exceed 12 months.

The carrying amount of cash, cash equivalents, accounts receivable and short-term debt approximated fair value as of June 30, 2016 and December 31, 2015. The estimated fair value of the Company's long-term debt, including the current portion, as of June 30, 2016 and December 31, 2015, was \$7,041 and \$6,767, respectively, and the related carrying value was \$6,569 and \$6,544, respectively. The estimated fair value of long-term debt was derived principally from quoted prices on the Company's outstanding fixed-term notes (Level 2 valuation).

Fair Value Hedges

The Company has designated all interest rate swap contracts and certain foreign currency forward and option contracts as fair value hedges, for which the gain or loss on the derivative and the offsetting gain or loss on the hedged item are recognized in current earnings. The impact of foreign currency contracts is primarily recognized in Selling, general and administrative expenses and the impact of interest rate swap contracts is recognized in Interest (income) expense, net.

Activity related to fair value hedges recorded during the three and six months ended June 30, 2016 and 2015 was as follows:

	2016			2015		
	Foreign Currency Contracts	Interest Rate Swaps	Total	Foreign Currency Contracts	Interest Rate Swaps	Total
Notional Value at June 30,	\$347	\$1,250	\$1,597	\$1,136	\$1,438	\$2,574

Cash Flow Hedges

All of the Company's commodity contracts and certain foreign currency forward contracts have been designated as cash flow hedges, for which the effective portion of the gain or loss is reported as a component of Other comprehensive income ("OCI") and reclassified into earnings in the same period or periods during which the hedged transaction affects earnings.

Activity related to cash flow hedges recorded during the three and six months ended June 30, 2016 and 2015 was as follows:

	2016			2015		
	Foreign Currency Contracts	Commodity Contracts	Total	Foreign Currency Contracts	Commodity Contracts	Total

Net Investment Hedges

The Company has designated certain foreign currency forward and option contracts and certain foreign currency-denominated debt as net investment hedges, for which the gain or loss on the instrument is reported as a component of Cumulative translation adjustments within OCI, along with the offsetting gain or loss on the hedged items.

Activity related to net investment hedges recorded during the three and six months ended June 30, 2016 and 2015 was as follows:

	2016			2015

Gain (loss) on hedged items	16	23	39	(33)	(25)	(58)

Derivatives Not Designated as Hedging Instruments

Derivatives not designated as hedging instruments for each period consist of a cross-currency swap that serves as an economic hedge of a foreign currency deposit, for which the gain or loss on the instrument and the offsetting gain or loss on the hedged item are recognized in Other (income) expense, net for each period.

Activity related to these contracts during the three and six months ended June 30, 2016 and 2015 was as follows:

Other Financial Instruments

Other financial instruments are classified as Other current assets or Other assets.

Other financial instruments classified as Other current assets include marketable securities consisting of bank deposits of \$163 with original maturities greater than 90 days (Level 1 valuation) and the current portion of bonds issued by the Argentinian government (Level 2 valuation) in the amount of \$50. The long-term portion of these bonds in the amount of \$11 is included in Other assets.

Through its subsidiary in Argentina, the Company has invested in U.S. dollar-linked, devaluation-protected bonds issued by the Argentinian government. These bonds are considered held-to-maturity and are carried at amortized cost. As of June 30, 2016, the amortized cost of these bonds was \$61 and their approximate fair value was \$90.

Executive Overview and Outlook

Colgate-Palmolive Company (together with its subsidiaries, the "Company" or "Colgate") seeks to deliver strong, consistent business results and superior shareholder returns by providing consumers globally with products that make their lives healthier and more enjoyable.

To this end, the Company is tightly focused on two product segments: Oral, Personal and Home Care; and Pet Nutrition. Within these segments, the Company follows a closely defined business strategy to develop and increase market leadership positions in key product categories. These product categories are prioritized based on their capacity to maximize the use of the organization's core competencies and strong global equities and to deliver sustainable long-term growth.

Operationally, the Company is organized along geographic lines with management teams having responsibility for the business and financial results in each region. The Company competes in more than 200 countries and territories worldwide with established businesses in all regions contributing to the Company's sales and profitability. Approximately 75% of the Company's Net sales are generated from markets outside the U.S., with approximately 50% of the Company's Net sales coming from emerging markets (which consist of Latin America, Asia (excluding Japan), Africa/Eurasia and Central Europe). This geographic diversity and balance help to reduce the Company's exposure to business and other risks in any one country or part of the world.

Effective April 1, 2016, the Oral, Personal and Home Care product segment is now managed geographically in five reportable operating segments: North America, Latin America, Europe, Asia Pacific and Africa/Eurasia, all of which sell to a variety of retail and wholesale customers and distributors. The Company, through Hill's Pet Nutrition, also competes on a worldwide basis in the pet nutrition market, selling its products principally through authorized pet supply retailers and veterinarians.

Through March 31, 2016, the Oral, Personal and Home Care product segment included the North America, Latin America, Europe/South Pacific, Asia and Africa/Eurasia geographic operating segments. As a result of management changes effective April 1, 2016, the Company realigned the geographic structure of its Europe/South Pacific and Asia reportable operating segments within the Oral, Personal and Home Care product segment. Management responsibility for the South Pacific operations was transferred from Europe/South Pacific management to Asia management. Accordingly, commencing with the Company's financial reporting for the quarter ended June 30, 2016, the results of the South Pacific operations are reported in the Asia Pacific reportable operating segment, which results in a slight modification to the geographic components of the Oral, Personal and Home Care product segment, with no impact on historical Company results overall.

On an ongoing basis, management focuses on a variety of key indicators to monitor business health and performance. These indicators include market share, net sales (including volume, pricing and foreign exchange components), organic sales growth (net sales growth excluding the impact of foreign exchange, acquisitions, divestments and the deconsolidation of the Company's Venezuelan operations) and gross profit margin, operating profit, net income and earnings per share both on a GAAP and non-GAAP basis, as well as measures used to optimize the management of working capital, capital expenditures, cash flow and return on capital. The monitoring of these indicators and the Company's Code of Conduct and corporate governance practices help to maintain business health and strong internal controls.

To achieve its business and financial objectives, the Company focuses the organization on initiatives to drive and fund growth. The Company seeks to capture significant opportunities for growth by identifying and meeting consumer needs within its core categories, through its focus on innovation and the deployment of valuable consumer and shopper insights in the development of successful new products regionally, which are then rolled out on a global basis. To enhance these efforts, the Company has developed key initiatives to build strong relationships with consumers, dental and veterinary professionals and retail customers. Growth opportunities are greater in those areas of the world in which economic development and rising consumer incomes expand the size and number of markets for the Company's products.

The investments needed to support growth are developed through continuous, Company-wide initiatives to lower costs and increase effective asset utilization. Through these initiatives, which are referred to as the Company's funding-the-growth initiatives, the Company seeks to become even more effective and efficient throughout its businesses. These initiatives are designed to reduce costs associated with direct materials, indirect expenses, distribution and logistics and advertising and promotional materials, among other things, and encompass a wide range of projects, examples of which include raw material substitution, reduction of packaging materials, consolidating suppliers to leverage volumes and increasing manufacturing efficiency through SKU reductions and formulation simplification. The Company also continues to prioritize its investments toward its higher margin businesses, specifically Oral Care, Personal Care and Pet Nutrition.

Effective December 31, 2015, the Company concluded it no longer met the accounting criteria for consolidation of its Venezuelan subsidiary ("CP Venezuela") and began accounting for CP Venezuela using the cost method of accounting. As a result, effective December 31, 2015, CP Venezuela's net assets and operating results are no longer included in the Company's Consolidated Financial Statements. Prior periods have not been restated and CP Venezuela's Net sales, Operating profit and Net income are included in the Company's Consolidated Statements of Income through December 31, 2015. Beginning January 1, 2016, under the cost method of accounting, the Company will include income relating to its Venezuelan operations only to the extent it receives cash for sales of inventory to CP Venezuela or for dividends or royalties from CP Venezuela. Although the operating results of CP Venezuela are no longer included in the Company's Consolidated Financial Statements for accounting purposes, under current tax rules, the Company is required to continue including CP Venezuela's results in its consolidated U.S. federal income tax return.

In the fourth quarter of 2012, the Company commenced a Global Growth and Efficiency Program (as expanded in 2014 and 2015 as described below, the "2012 Restructuring Program") for sustained growth. The program's initiatives are expected to help the Company ensure continued solid worldwide growth in unit volume, organic sales and earnings per share and enhance its global leadership positions in its core businesses.

On October 23, 2014, the Company's Board of Directors (the "Board") approved an expansion of the 2012 Restructuring Program to take advantage of additional savings opportunities. Recognizing the macroeconomic challenges around the world and the successful implementation of the 2012 Restructuring Program, on October 29, 2015, the Board approved the reinvestment of the funds from the sale of the Company's laundry detergent business in the South Pacific to expand the 2012 Restructuring Program and extend it through December 31, 2017. The Board approved the implementation plan for this expansion on March 10, 2016.

The initiatives under the 2012 Restructuring Program continue to be focused on the following areas:

Expanding Commercial Hubs

Extending Shared Business Services and Streamlining Global Functions

Optimizing Global Supply Chain and Facilities

Cumulative pretax charges resulting from the 2012 Restructuring Program, once all phases are approved and implemented, are estimated to be \$1,405 to \$1,585 (\$1,050 to \$1,170 aftertax). Savings from the 2012 Restructuring Program, substantially all of which are expected to increase future cash flows, are projected to be approximately \$430 to \$495 pretax (\$400 to \$475 aftertax) annually, once all projects are approved and implemented.

In the three and six months ended June 30, 2016, the Company incurred aftertax costs of \$44 and \$82, respectively, associated with the 2012 Restructuring Program.

For more information regarding the 2012 Restructuring Program, see “Restructuring and Related Implementation Charges” below.

On September 13, 2011, the Company's Mexican subsidiary entered into an agreement to sell to the United States of America (the "Purchaser") the Mexico City site on which its commercial operations, technology center and soap production facility were located. The parties have subsequently amended the agreement to extend the closing date. Under the existing agreement, the final installment of the purchase price is due upon the transfer of the property, which is subject to the Company's satisfaction of certain closing conditions relating to site preparation by July 29, 2016. While these conditions are not expected to be fully satisfied by July 29, 2016, in which case the Purchaser has several options under the agreement (including termination and the return to it of the first two installments of the purchase price), based on the discussions to date, the Company believes that an additional amendment will be negotiated and the transfer of the property is expected to occur in the third quarter of 2016. The Company has reinvested the first two installments to relocate its soap production to a new state-of-the-art facility at its Mission Hills, Mexico site, to relocate its commercial and technology operations within Mexico City and to prepare the existing site for transfer. Exit costs incurred during the project primarily relate to staff leaving indemnities, accelerated depreciation and demolition to make the site building-ready.

Looking forward, the Company expects global macroeconomic and market conditions to remain highly challenging. While the global marketplace in which the Company operates has always been highly competitive, the Company continues to experience heightened competitive activity in certain markets from strong local competitors and from other large multinational companies, some of which have greater resources than the Company does. Such activities have included more aggressive product claims and marketing challenges, as well as increased promotional spending and geographic expansion. Additionally, the Company continues to experience volatile foreign currency fluctuations and high raw and packaging material costs, driven by foreign exchange transaction costs. While the Company has taken, and will continue to take, measures to mitigate the effect of these conditions, should they persist, they could adversely affect the Company's future results.

The Company believes it is well prepared to meet the challenges ahead due to its strong financial condition, experience operating in challenging environments and continued focus on the Company's strategic initiatives: engaging to build our brands; innovation for growth; effectiveness and efficiency; and leading to win. This focus, together with the strength of the Company's global brands, its broad international presence in both mature and emerging markets and initiatives, such as the 2012 Restructuring Program, should position the Company well to increase shareholder value over the long term.

Results of Operations

Three Months

Worldwide Net sales were \$3,845 in the second quarter of 2016, down 5.5% from the second quarter of 2015, as net selling price increases of 3.0% were more than offset by volume declines of 3.0% and negative foreign exchange of 5.5%. Excluding divested businesses and the impact of the deconsolidation of the Company's Venezuelan operations, volume increased by 1.5%. Organic sales (Net sales excluding the impact of foreign exchange, acquisitions, divestments and the deconsolidation of the Company's Venezuelan operations), a non-GAAP financial measure as discussed below, increased 4.5% in the second quarter of 2016.

Net sales in the Oral, Personal and Home Care product segment were \$3,273 in the second quarter of 2016, down 7.0% from the second quarter of 2015, as net selling price increases of 3.0% were more than offset by volume declines of 4.0% and negative foreign exchange of 6.0%. Excluding divested businesses and the impact of the deconsolidation of the Company's Venezuelan operations, volume increased by 1.5%. Organic sales in the Oral, Personal and Home Care product segment increased 4.5% in the second quarter of 2016.

The Company's share of the global toothpaste market was 43.8% on a year-to-date basis, down 0.5 share points from the year ago period, and its share of the global manual toothbrush market was 33.5% on a year-to-date basis, down 0.1 share points from the year ago period. Year-to-date market shares in toothpaste were up in North America, Latin America and Africa/Eurasia and down in Europe and Asia Pacific versus the comparable 2015 period. In the manual toothbrush category, year-to-date market shares were up in North America and Europe and down in Latin America, Asia Pacific and Africa/Eurasia versus the comparable 2015 period. For additional information regarding market shares, see "Market Share Information" below.

Net sales in the Hill's Pet Nutrition segment were \$572 in the second quarter of 2016, an increase of 3.5% from the second quarter of 2015, as volume growth of 1.5% and net selling price increases of 2.5% were partially offset by negative foreign exchange of 0.5%. Organic sales in the Hill's Pet Nutrition segment increased 4.0% in the second quarter of 2016.

Gross Profit/Margin

Worldwide Gross profit decreased 3% to \$2,304 in the second quarter of 2016 from \$2,367 in the second quarter of 2015. Gross profit in both periods included charges resulting from the 2012 Restructuring Program. Excluding these charges in both periods, Gross profit decreased to \$2,316 in the second quarter of 2016 from \$2,371 in the second quarter of 2015, reflecting a decrease of \$128 resulting from the impact of the deconsolidation of the Company's Venezuelan operations effective December 31, 2015 and negative foreign exchange, partially offset by growth in organic sales. This decrease in Gross profit was partially offset by an increase of \$73 resulting from higher Gross profit margin in the second quarter of 2016.

Worldwide Gross profit margin increased to 59.9% in the second quarter of 2016 from 58.2% in the second quarter of 2015. Excluding charges resulting from the 2012 Restructuring Program in both periods, Gross profit margin increased by 190 basis points (bps) to 60.2% in the second quarter of 2016 from 58.3% in the second quarter of 2015. This increase in Gross profit margin was primarily driven by cost savings from the Company's funding-the-growth initiatives (180 bps) and the 2012 Restructuring Program (10 bps), and higher pricing (110 bps), partially offset by higher raw and packaging material costs (110 bps), which included foreign exchange transaction costs and the impact of the deconsolidation of the Company's Venezuelan operations effective December 31, 2015.

Selling, General and Administrative Expenses

Selling, general and administrative expenses decreased 4% to \$1,320 in the second quarter of 2016 from \$1,381 in the second quarter of 2015. The lower Selling, general and administrative expenses reflect the impact of the deconsolidation of the Company's Venezuelan operations effective December 31, 2015. Selling, general and administrative expenses in both periods included charges resulting from the 2012 Restructuring Program. Excluding these charges in both periods, Selling, general and administrative expenses decreased to \$1,306 in the second quarter of 2016 from \$1,370 in the second quarter of 2015, reflecting decreased advertising investment of \$16 and lower overhead expenses of \$48.

Selling, general and administrative expenses as a percentage of Net sales increased to 34.3% in the second quarter of 2016 from 34.0% in the second quarter of 2015. Excluding charges resulting from the 2012 Restructuring Program, Selling, general and administrative expenses as a percentage of Net sales were 34.0% in the second quarter of 2016, an increase of 30 bps as compared to the second quarter of 2015. This increase was a result of higher overhead expenses (20 bps) and increased advertising investment (10 bps), both as a percentage of Net sales. In the second quarter of 2016, advertising investment decreased 4% to \$394, as compared with \$410 in the second quarter of 2015, while as a percentage of Net sales it increased to 10.2% in the second quarter of 2016 from 10.1% in the second quarter of 2015.

Operating Profit

Operating profit increased 1% to \$944 in the second quarter of 2016 from \$932 in the second quarter of 2015. The change in Operating profit reflects the impact of the deconsolidation of the Company's Venezuelan operations effective December 31, 2015. Operating profit in both periods included charges resulting from the 2012 Restructuring Program. Operating profit in the second quarter of 2015 also included a charge related to the remeasurement of CP Venezuela's local currency-denominated net monetary assets as a result of an effective devaluation. Excluding these charges in both periods as applicable, Operating profit increased to \$1,003 in the second quarter of 2016 from \$1,000 in the second quarter of 2015, primarily due to a decrease in Selling, general and administrative expenses, partially offset by lower Gross profit.

Operating profit margin was 24.6% in the second quarter of 2016, an increase of 170 bps compared to 22.9% in the second quarter of 2015. Excluding the charges described above in both periods as applicable, Operating profit margin increased 150 bps to 26.1% in the second quarter of 2016 as compared to 24.6% in the second quarter of 2015. This increase in Operating profit margin was primarily due to an increase in Gross profit margin (190 bps), partially offset by an increase in Selling, general and administrative expenses as a percentage of Net sales (30 bps).

Interest (Income) Expense, Net

Interest (income) expense, net was \$25 in the second quarter of 2016 as compared to \$6 in the second quarter of 2015, primarily due to lower interest income on investments held outside the United States, which reflects the impact of the deconsolidation of the Company's Venezuelan operations effective December 31, 2015, and higher interest expense as a result of higher average interest rates on debt.

Net Income Attributable to Colgate-Palmolive Company and Earnings Per Share

Net income attributable to Colgate-Palmolive Company for the second quarter of 2016 increased to \$600 from \$574 in the second quarter of 2015, and Earnings per common share on a diluted basis increased to \$0.67 per share in the second quarter of 2016 from \$0.63 per share in the second quarter of 2015. The change in Net income attributable to Colgate-Palmolive Company reflects the impact of the deconsolidation of the Company's Venezuelan operations effective December 31, 2015. Net income attributable to Colgate-Palmolive Company in both periods included charges resulting from the 2012 Restructuring Program. Net income attributable to Colgate-Palmolive Company in the second quarter of 2016 also included a net benefit related to a foreign tax matter (see "Income taxes" below for further information). Net income attributable to Colgate-Palmolive Company in the second quarter of 2015 also included a charge related to the remeasurement of CP Venezuela's local currency-denominated net monetary assets as a result of an effective devaluation and a charge related to a foreign tax matter.

Excluding the items described above in both periods as applicable, Net income attributable to Colgate-Palmolive Company in the second quarter of 2016 decreased 1% to \$631 and Earnings per common share on a diluted basis was \$0.70, even with the second quarter of 2015.

Net sales in North America increased 2.0% in the second quarter of 2016 to \$793, driven by volume growth of 3.5% which was partially offset by net selling price decreases of 1.5%, while foreign exchange was flat. Organic sales in North America increased 2.0% in the second quarter of 2016.

The increase in organic sales in North America in the second quarter of 2016 versus the second quarter of 2015 was driven by Oral Care with strong organic sales in the manual toothbrush and toothpaste categories. Personal Care also contributed to organic sales growth, driven by gains in the shower gel category.

Operating profit in North America increased 12% in the second quarter of 2016 to \$250, or 290 bps to 31.5% of Net sales. This increase in Operating profit as a percentage of Net sales was primarily due to an increase in Gross profit (130 bps) and a decrease in Selling, general and administrative expenses (170 bps), both as a percentage of Net sales. This increase in Gross profit was primarily driven by cost savings from the Company's funding-the-growth initiatives (150 bps) and lower raw and packaging material costs (20 bps), which were partially offset by lower pricing due to increased in-store promotional activities. This decrease in Selling, general and administrative expenses was due to lower overhead expenses (140 bps) and decreased advertising investment (30 bps), in part reflecting a shift from advertising investment to in-store promotional activities.

Net sales in Latin America decreased 16.5% to \$938 in the second quarter of 2016. Net selling price increases of 9.5% were more than offset by volume declines of 13.5% and negative foreign exchange of 12.5%. Excluding the impact of the deconsolidation of the Company's Venezuelan operations, volume was flat with volume gains in Mexico and Central America, offset by volume declines in Brazil and Argentina. Organic sales in Latin America increased 9.5% in the second quarter of 2016.

The increase in organic sales in Latin America in the second quarter of 2016 versus the second quarter of 2015 was due to increases in Oral Care, Personal Care and Home Care organic sales. The increase in Oral Care organic sales was driven by strong organic sales growth in the toothpaste and manual toothbrush categories. Personal Care organic sales growth was driven by gains in the underarm protection and shampoo categories. The increase in Home Care organic sales was due to strong growth in the fabric softener and liquid cleaners categories.

Operating profit in Latin America decreased 12% in the second quarter of 2016 to \$284, while as a percentage of Net sales, it increased 180 bps to 30.3% of Net sales. This increase in Operating profit as a percentage of Net sales was primarily due to an increase in Gross profit (380 bps), partially offset by an increase in Selling, general and administrative expenses (120 bps), both as a percentage of Net sales. This increase in Gross profit was due to cost savings from the Company's funding-the-growth initiatives (180 bps) and higher pricing, which were partially offset by higher costs (180 bps), which included foreign exchange transaction costs and the impact of the deconsolidation of the Company's Venezuelan operations effective December 31, 2015. This increase in Selling, general and administrative expenses was due to increased advertising investment (170 bps), which was partially offset by lower overhead expenses (50 bps).

Gross Profit/Margin

Worldwide Gross profit decreased 4% to \$4,552 in the first six months of 2016 from \$4,759 in the first six months of 2015. Gross profit in both periods included charges resulting from the 2012 Restructuring Program. Excluding these charges in both periods, Gross profit decreased to \$4,572 in the first six months of 2016 from \$4,767 in the first six months of 2015, reflecting a decrease of \$309 resulting from the impact of the deconsolidation of the Company's Venezuelan operations effective December 31, 2015 and negative foreign exchange, partially offset by growth in organic sales. This decrease in Gross profit was partially offset by an increase of \$114 resulting from higher Gross profit margin in the first six months of 2016.

Worldwide Gross profit margin was 59.8% in the first six months of 2016 as compared to 58.5% in the first six months of 2015. Excluding the charges resulting from the 2012 Restructuring Program in both periods, Gross profit margin increased by 150 bps to 60.1% in the first six months of 2016, from 58.6% in the first six months of 2015, driven by cost savings from the Company's funding-the-growth initiatives (160 bps) and higher pricing (90 bps), which were partially offset by higher raw and packaging material costs (110 bps), which included foreign exchange transaction costs and the impact of the deconsolidation of the Company's Venezuelan operations effective December 31, 2015.

Operating Profit

Operating profit increased 1% to \$1,811 in the first six months of 2016 from \$1,792 in the first six months of 2015. The change in Operating profit reflects the impact of the deconsolidation of the Company's Venezuelan operations effective December 31, 2015. Operating profit in both periods included charges resulting from the 2012 Restructuring Program. Operating profit in the first six months of 2015 also included a charge related to the remeasurement of CP Venezuela's local currency-denominated net monetary assets as a result of an effective devaluation. Excluding these charges in both periods as applicable, Operating profit for the first six months of 2016 decreased 2% to \$1,925 from \$1,960 in the first six months of 2015, primarily due to lower Gross profit, partially offset by a decrease in Selling, general and administrative expenses.

Operating profit margin was 23.8% in the first six months of 2016, an increase of 180 bps compared to 22.0% in the first six months of 2015. Excluding the charges described above in both periods as applicable, Operating profit margin was 25.3%, an increase of 120 bps from 24.1% in the first six months of 2015. This increase was primarily due to an increase in Gross profit margin (150 bps), partially offset by an increase in Selling, general and administrative expenses as a percentage of Net sales (20 bps).

Income Taxes

The effective tax rate was 30.6% for the second quarter of 2016 as compared to 33.5% for the second quarter of 2015. The quarterly provision for income taxes is determined based on the Company's estimated full year effective tax rate adjusted by the amount of tax attributable to infrequent or unusual items that are separately recognized on a discrete basis in the income tax provision in the quarter in which they occur. The Company's current estimate of its full year effective income tax rate before discrete period items is 31.5%, even with the second quarter of 2015. As reflected in the tables below, the non-GAAP income tax rate was 31.5% for the three-month and six-month periods ended June 30, 2016 and 2015.

⁽¹⁾ The income tax effect on non-GAAP items is calculated based upon the tax laws and statutory income tax rates applicable in the tax jurisdiction(s) of the underlying non-GAAP adjustment.

⁽²⁾ The impact of non-GAAP items on the Company's effective tax rate represents the difference in the effective tax rate calculated with and without the non-GAAP adjustment on Income before income taxes and Provision for income taxes.

Since 2002, the Company has taken a tax position in a foreign jurisdiction that has been challenged by the tax authorities. In May 2015, the Company became aware of several Supreme Court rulings in the foreign jurisdiction disallowing certain tax deductions which had the effect of reversing prior decisions. The Company had taken deductions in prior years similar to those disallowed by the Court. As a result, as required, the Company reassessed its

tax position and increased its unrecognized tax benefits by \$15 in the quarter ended June 30, 2015. During the quarter ended June 30, 2016, the Supreme Court in the foreign jurisdiction decided the matter in the Company's favor for the years 2002 through 2005 and as a result, the Company recorded a net tax benefit of \$13 including interest. The tax benefit of deductions related to this tax position taken for the years 2006 through 2014 total approximately \$32 at current exchange rates. These deductions are currently being challenged by the tax authorities either in the lower courts or at the administrative level and, if resolved in the Company's favor, will result in the Company recording additional tax benefits, including interest.

Net Income Attributable to Colgate-Palmolive Company and Earnings Per Share

Net income attributable to Colgate-Palmolive Company in the first six months of 2016 increased to \$1,133 from \$1,116 in the comparable 2015 period. The change in Net income attributable to Colgate-Palmolive Company reflects the impact of the deconsolidation of the Company's Venezuelan operations effective December 31, 2015. Earnings per common share on a diluted basis increased to \$1.26 per share from \$1.22 per share in the comparable 2015 period. Net income attributable to Colgate-Palmolive Company in both periods included charges resulting from the 2012 Restructuring Program. Net income attributable to Colgate-Palmolive Company in the first six months of 2016 also included a net benefit related to a foreign tax matter. Net income attributable to Colgate-Palmolive Company in the first six months of 2015 also included a charge related to the remeasurement of CP Venezuela's local currency-denominated net monetary assets as a result of an effective devaluation and a charge related to a foreign tax matter.

Excluding the items described above in both periods as applicable, Net income attributable to Colgate-Palmolive Company decreased 4% to \$1,202 in the first six months of 2016 from \$1,248 in the first six months of 2015 and Earnings per common share on a diluted basis decreased 2% to \$1.33 in the first six months of 2016 from \$1.36 in the first six months of 2015.

Restructuring and Related Implementation Charges

2012 Restructuring Program

In the fourth quarter of 2012, the Company commenced the 2012 Restructuring Program. The program's initiatives are expected to help Colgate ensure continued solid worldwide growth in unit volume, organic sales and earnings per share and enhance its global leadership positions in its core businesses.

The 2012 Restructuring Program is expected to produce significant benefits in the Company's long-term business performance. The major objectives of the program include:

Becoming even stronger on the ground through the continued evolution and expansion of proven global and regional commercial capabilities, which have already been successfully implemented in a number of the Company's operations around the world.

Simplifying and standardizing how work gets done by increasing technology-enabled collaboration and taking advantage of global data and analytic capabilities, leading to smarter and faster decisions.

Reducing structural costs to continue to increase the Company's gross and operating profit.

Building on Colgate's current position of strength to enhance its leading market share positions worldwide and ensure sustained sales and earnings growth.

On October 23, 2014, the Board approved an expansion of the 2012 Restructuring Program to take advantage of additional savings opportunities. Recognizing the macroeconomic challenges around the world and the successful implementation of the 2012 Restructuring Program, on October 29, 2015, the Board approved the reinvestment of the funds from the sale of the Company's laundry detergent business in the South Pacific to expand the 2012 Restructuring Program and extend it through December 31, 2017. The Board approved the implementation plan for this expansion on March 10, 2016.

The initiatives under the 2012 Restructuring Program continue to be focused on the following areas:

Expanding Commercial Hubs – Building on the success of this structure already implemented in several divisions, continuing to cluster single-country subsidiaries into more efficient regional hubs, in order to drive smarter and faster decision making, strengthen capabilities available on the ground and improve cost structure.

Extending Shared Business Services and Streamlining Global Functions – Implementing the Company's shared service organizational model in all regions of the world. While initially focused on finance and accounting, these shared services are now being expanded to additional functional areas to streamline global functions.

Optimizing Global Supply Chain and Facilities – Continuing to optimize manufacturing efficiencies, global warehouse networks and office locations for greater efficiency, lower cost and speed to bring innovation to market.

Cumulative pretax charges resulting from the 2012 Restructuring Program, once all phases are approved and implemented, are estimated to be \$1,405 to \$1,585 (\$1,050 to \$1,170 aftertax).

The pretax charges resulting from the 2012 Restructuring Program are currently estimated to be comprised of the following categories: Employee-Related Costs, including severance, pension and other termination benefits (50%); asset-related costs, primarily Incremental Depreciation and Asset Impairments (10%); and Other charges, which include contract termination costs, consisting primarily of related implementation charges resulting directly from exit activities (20%) and the implementation of new strategies (20%). Over the course of the 2012 Restructuring Program, it is currently estimated that approximately 75% of the charges will result in cash expenditures. Anticipated pretax charges for 2016 are expected to approximate \$270 to \$310 (\$200 to \$230 aftertax).

It is expected that the cumulative pretax charges, once all projects are approved and implemented, will relate to initiatives undertaken in North America (15%), Europe (20%), Latin America (5%), Asia Pacific (5%), Africa/Eurasia (5%), Hill's Pet Nutrition (10%) and Corporate (40%), which includes substantially all of the costs related to the implementation of new strategies, noted above, on a global basis. It is expected that, when it has been fully implemented, the 2012 Restructuring Program will contribute a net reduction of approximately 3,300–3,800 positions from the Company's global employee workforce.

Savings from the 2012 Restructuring Program, substantially all of which are expected to increase future cash flows, are projected to be in the range of \$430 to \$495 pretax (\$400 to \$475 aftertax) annually, once all projects are approved and implemented. The Company continues to expect estimated savings in 2016 to approximate \$60 to \$70 pretax (\$55 to \$65 aftertax).

For the three and six months ended June 30, 2016 and 2015, restructuring and related implementation charges are reflected in the Condensed Consolidated Statements of Income as follows:

	Three Months Ended		Six Months Ended	
	June 30, 2016	June 30, 2015	June 30, 2016	June 30, 2015
Cost of sales	\$12	\$4	\$20	\$8

Total 2012 Restructuring Program charges, aftertax	\$44	\$40	\$82	\$107

Restructuring and related implementation charges in the preceding table are recorded in the Corporate segment as these initiatives are predominantly centrally directed and controlled and are not included in internal measures of segment operating performance.

⁽¹⁾ The Company has recast its historical geographic segment information to conform to the new reporting structure. See "Executive Overview and Outlook" above for additional details.

Since the inception of the 2012 Restructuring Program in the fourth quarter of 2012, the Company has incurred cumulative pretax charges of \$1,114 (\$821 aftertax) in connection with the implementation of various projects as follows:

	Cumulative Charges as of June 30, 2016
Employee-Related Costs	\$ 438
Incremental Depreciation	74
Asset Impairments	10
Other	592
Total	\$ 1,114

The majority of costs incurred since inception relate to the following projects: the implementation of the Company's overall hubbing strategy; the consolidation of facilities; the extension of shared business services and streamlining of global functions; the simplification and streamlining of the Company's research and development capabilities and oral care supply chain, both in Europe; the closing of the Morristown, New Jersey personal care facility; and restructuring how the Company will provide future retirement benefits to substantially all of the U.S.-based employees participating in the Company's defined benefit retirement plan by shifting them to the Company's defined contribution plan.

Balance at June 30, 2016	\$76	\$ —	\$ —	\$141	\$217

Employee-Related Costs primarily include severance and other termination benefits and are calculated based on long-standing benefit practices, local statutory requirements and, in certain cases, voluntary termination arrangements. Employee-Related Costs also include pension and other retiree benefit enhancements amounting to \$1 and \$2 for the three and six months ended June 30, 2016, respectively, which are reflected as Charges against assets within Employee-Related Costs in the preceding tables as the corresponding balance sheet amounts are reflected as a reduction of pension assets or an increase in pension and other retiree benefit liabilities.

Incremental Depreciation is recorded to reflect changes in useful lives and estimated residual values for long-lived assets that will be taken out of service prior to the end of their normal service period. Asset Impairments are recorded to write down assets held for sale or disposal to their fair value based on amounts expected to be realized. Charges against assets within Asset Impairments are net of cash proceeds pertaining to the sale of certain assets.

Other charges consist primarily of charges resulting directly from exit activities and the implementation of new strategies as a result of the 2012 Restructuring Program. These charges for the three and six months ended June 30, 2016 include third-party incremental costs related to the development and implementation of new business and strategic initiatives of \$26 and \$57, respectively, and contract termination costs and charges resulting directly from exit activities of \$11 and \$16, respectively, directly related to the 2012 Restructuring Program. These charges were expensed as incurred. Also included in Other charges for the three and six months ended June 30, 2016 are other exit costs related to the consolidation of facilities of \$0 and \$1, respectively.

Non-GAAP Financial Measures

This Quarterly Report on Form 10-Q discusses certain financial measures on both a GAAP and a non-GAAP basis. The Company uses the non-GAAP financial measures described below internally in its budgeting process, to evaluate segment and overall operating performance and as a factor in determining compensation. The Company believes that these non-GAAP financial measures are useful in evaluating the Company's underlying business performance and trends; however, this information should be considered as supplemental in nature and is not meant to be considered in isolation or as a substitute for the related financial information prepared in accordance with GAAP. In addition, these non-GAAP financial measures may not be the same as similar measures presented by other companies.

Net sales growth (GAAP) and organic sales growth (Net sales growth excluding the impact of foreign exchange, acquisitions, divestments and the deconsolidation of the Company's Venezuelan operations) (non-GAAP) are discussed in this Quarterly Report on Form 10-Q. Management believes the organic sales growth measure provides investors and analysts with useful supplemental information regarding the Company's underlying sales trends by presenting sales growth excluding the external factor of foreign exchange, as well as the impact of acquisitions, divestments and the deconsolidation of the Company's Venezuelan operations. A reconciliation of organic sales growth to Net sales growth for the three and six months ended June 30, 2016 is provided below.

Worldwide Gross profit, Gross profit margin, Selling, general and administrative expenses, Selling, general and administrative expenses as a percentage of Net sales, Other (income) expense, net, Operating profit, Operating profit margin, effective income tax rate, Net income attributable to Colgate-Palmolive Company and Earnings per share on a diluted basis are discussed in this Quarterly Report on Form 10-Q both on a GAAP basis and, as applicable, excluding charges resulting from the 2012 Restructuring Program, a charge related to the remeasurement of CP Venezuela's local currency-denominated net monetary assets as a result of an effective devaluation and a net benefit and a charge related to a foreign tax matter (non-GAAP). These non-GAAP financial measures exclude items that, either by their nature or amount, management would not expect to occur as part of the Company's normal business on a regular basis, such as restructuring charges, charges for certain litigation and tax matters, gains and losses from certain divestitures and certain unusual, non-recurring items. Investors and analysts use these financial measures in assessing the Company's business performance and management believes that presenting these financial measures on a non-GAAP basis provides them with useful supplemental information to enhance their understanding of the Company's underlying business performance and trends. These non-GAAP financial measures also enhance the ability to compare period-to-period financial results. A reconciliation of each of these non-GAAP financial measures to the most directly comparable GAAP financial measures for the three and six months ended June 30, 2016 and 2015 is presented within the applicable section of Results of Operations.

Liquidity and Capital Resources

The Company expects cash flow from operations and debt issuances will be sufficient to meet foreseeable business operating and recurring cash needs (including for debt service, dividends, capital expenditures, costs resulting from the 2012 Restructuring Program and stock repurchases). The Company believes its strong cash generation and financial position should continue to allow it broad access to global credit and capital markets.

Net cash provided by operations increased 8% to \$1,320 in the first six months of 2016, compared with \$1,223 in the comparable period of 2015, due to strong operating earnings and the timing of income tax payments, partially offset by the impact of the deconsolidation of the Company's Venezuelan operations effective December 31, 2015 and a voluntary contribution to an employee postretirement plan.

The Company defines working capital as the difference between current assets (excluding Cash and cash equivalents and marketable securities, the latter of which is reported in Other current assets) and current liabilities (excluding short-term debt). The Company's working capital decreased to (2.6%) as a percentage of Net sales in the first six months of 2016 as compared to (0.2%) in the first six months of 2015, reflecting the Company's tight focus on working capital and the impact of reclassifying current deferred tax assets to noncurrent deferred tax assets upon the adoption of a new accounting standard.

Approximately 75% of total program charges resulting from the 2012 Restructuring Program, estimated to be \$1,405 to \$1,585 (\$1,050 to \$1,170 aftertax) are expected to result in cash expenditures. Savings from the 2012 Restructuring Program, substantially all of which are expected to increase future cash flows, are projected to be in the range of \$430 to \$495 pretax (\$400 to \$475 aftertax) annually, once all projects are approved and implemented. Anticipated pretax charges for 2016 are expected to approximate \$270 to \$310 (\$200 to \$230 aftertax) and savings in 2016 are expected to approximate \$60 to \$70 pretax (\$55 to \$65 aftertax). It is anticipated that cash requirements for the 2012 Restructuring Program will be funded from operating cash flows. Approximately 60% of the restructuring accrual at June 30, 2016 is expected to be paid in the next twelve months.

Investing activities used \$340 of cash in the first six months of 2016, compared with \$438 in the comparable period of 2015. Purchases of marketable securities and investments decreased in the first six months of 2016 to \$183 from \$365 in the comparable period of 2015. Proceeds from sale of marketable securities and investments decreased in the first six months of 2016 to \$87 from \$195 in the comparable period of 2015. The decrease in purchases of marketable securities and investments and proceeds from the sale of marketable securities and investments was primarily due to lower investments in bank deposits with original maturities greater than 90 days and also due to the impact of the deconsolidation of the Company's Venezuelan operations effective December 31, 2015.

In 2011, the Company's Mexican subsidiary entered into an agreement to sell the Mexico City site on which its commercial operations, technology center and soap production facility were located. During 2011 and 2012, the Company received the first and second installments of \$24 and \$36, respectively, related to the sale of land in Mexico. The parties have subsequently amended the agreement to extend the closing date. Under the existing agreement, the final installment of the purchase price is due upon the transfer of the property, which is subject to the Company's satisfaction of certain closing conditions relating to site preparation by July 29, 2016. While these conditions are not expected to be fully satisfied by July 29, 2016, in which case the Purchaser has several options under the agreement (including termination and the return to it of the first two installments of the purchase price), based on the discussions to date, the Company believes that an additional amendment will be negotiated and the transfer of the property is

expected to occur in the third quarter of 2016.

Capital spending decreased in the first six months of 2016 to \$248 from \$280 in the comparable period of 2015. The Company continues to focus its capital spending on projects that are expected to yield high aftertax returns. Capital expenditures for 2016 are expected to remain at an annual rate of approximately 4.5% of Net sales, which is higher than the Company's historical rate of approximately 3.5%, primarily due to the 2012 Restructuring Program.

COLGATE-PALMOLIVE COMPANY

Management's Discussion and Analysis of Financial

Condition and Results of Operations

(Dollars in Millions Except Share and Per Share Amounts)

Financing activities used \$867 of cash during the first six months of 2016, compared with \$756 in the comparable period of 2015, reflecting lower proceeds from the issuances of debt, partially offset by lower purchases of treasury shares in the first six months of 2016 compared to the first six months of 2015.

Long-term debt, including the current portion, increased to \$6,569 as of June 30, 2016 as compared to \$6,544 as of December 31, 2015 and total debt increased to \$6,572 as of June 30, 2016 as compared to \$6,548 as of December 31, 2015. The Company's debt issuances support its capital structure strategy objectives of funding its business and growth initiatives while minimizing its risk-adjusted cost of capital.

As of June 30, 2016, the Company had no commercial paper outstanding. As of June 30, 2015, domestic and foreign commercial paper outstanding was \$236. The average daily balances outstanding for commercial paper in the first six months of 2016 and 2015 were \$1,420 and \$2,036, respectively. The Company classifies commercial paper and certain current maturities of notes payable as long-term debt when it has the intent and ability to refinance such obligations on a long-term basis, including, if necessary, by utilizing its lines of credit.

Certain of the agreements with respect to the Company's bank borrowings contain financial and other covenants as well as cross-default provisions. Noncompliance with these requirements could ultimately result in the acceleration of amounts owed. The Company is in full compliance with all such requirements and believes the likelihood of noncompliance is remote.

In the first quarter of 2016, the Company increased the annualized common stock dividend by 3% to \$1.56 per share, effective in the second quarter of 2016.

Cash and cash equivalents increased \$115 during the first six months of 2016 to \$1,085 at June 30, 2016, compared to \$970 at December 31, 2015, most of which (\$1,053 and \$932, respectively) were held by the Company's foreign subsidiaries. The Company regularly assesses its cash needs and the available sources to fund these needs and, as part of this assessment, the Company determines the amount of foreign earnings it intends to repatriate to help fund its domestic cash needs and provides applicable U.S. income and foreign withholding taxes on such earnings.

As of December 31, 2015, the Company had approximately \$4,600 of undistributed earnings of foreign subsidiaries for which no U.S. income or foreign withholding taxes had been provided as the Company considered such earnings to be indefinitely reinvested outside of the U.S. and, therefore, not subject to such taxes.

In order to fully recognize a \$210 U.S. income tax benefit in 2016 principally related to changes in Venezuela's foreign exchange regime, the Company now intends to repatriate an incremental \$1,500 of earnings of foreign subsidiaries, and accordingly, recorded a tax charge of \$210 during the first quarter of 2016. The Company does not anticipate a need to repatriate additional undistributed earnings of foreign subsidiaries. Any future repatriation would be subject to applicable U.S. income and foreign withholding taxes. As the Company operates in over 200 countries and territories throughout the world, and due to the complexities in the tax laws and the assumptions that would have to be made, it is not practicable to determine the tax liability that would arise if these earnings were repatriated.

For additional information regarding liquidity and capital resources, please refer to the Company's Annual Report on Form 10-K for the year ended December 31, 2015.

Market Share Information

Management uses market share information as a key indicator to monitor business health and performance. References to market share in this Quarterly Report on Form 10-Q are based on a combination of consumption and market share data provided by third-party vendors, primarily Nielsen, and internal estimates. All market share references represent the percentage of the dollar value of sales of our products, relative to all product sales in the category in the countries in which the Company competes and purchases data (excluding Venezuela from all periods).

Market share data is subject to limitations on the availability of up-to-date information. The Company measures year-to-date market shares from January 1 of the relevant year through the most recent period for which market share data is available, which typically reflects a lag time of one or two months. We believe that the third-party vendors we use to provide data are reliable, but we have not verified the accuracy or completeness of the data or any assumptions underlying the data. In addition, market share information calculated by the Company may be different from market share information calculated by other companies due to differences in category definitions, the use of data from different countries, internal estimates and other factors.

Cautionary Statement on Forward-Looking Statements

This Quarterly Report on Form 10-Q may contain forward-looking statements as that term is defined in the Private Securities Litigation Reform Act of 1995 or by the Securities and Exchange Commission in its rules, regulations and releases. Such statements may relate, for example, to sales or volume growth, organic sales growth, profit or profit margin growth, earnings growth, financial goals, the impact of foreign exchange volatility, cost-reduction plans including the 2012 Restructuring Program, tax rates, the need to repatriate undistributed earnings of foreign subsidiaries, new product introductions, commercial investment levels, acquisitions and divestitures, including the Mexico land sale, or legal proceedings, among other matters. These statements are made on the basis of the Company's views and assumptions as of this time and the Company undertakes no obligation to update these statements, except as required by law. Moreover, the Company does not, nor does any other person, assume responsibility for the accuracy and completeness of those statements. The Company cautions investors that any such forward-looking statements are not guarantees of future performance and that actual events or results may differ materially from those statements. Actual events or results may differ materially because of factors that affect international businesses and global economic conditions, as well as matters specific to the Company and the markets it serves, including the uncertain economic environment in different countries and its effect on consumer spending habits, increased competition and evolving competitive practices, currency rate fluctuations, exchange controls, price or profit controls, labor relations, changes in foreign or domestic laws or regulations or their interpretation, political and fiscal developments, the availability and cost of raw and packaging materials, the ability to maintain or increase selling prices as needed, the ability to implement the 2012 Restructuring Program as planned or differences between the actual and the estimated costs or savings under such program, changes in the policies of retail trade customers, the ability to continue lowering costs, the ability to complete acquisitions and divestitures as planned and the uncertainty of the outcome of legal proceedings, whether or not the Company believes they have merit. For information about these and other factors that could impact the Company's business and cause actual results to differ materially from forward-looking statements, refer to the Company's Annual Report on Form 10-K for the year ended December 31, 2015, including the information set forth under the captions "Item 1A. Risk Factors" and "Cautionary Statement on Forward-Looking Statements."

Quantitative and Qualitative Disclosures about Market Risk

There is no material change in the information reported under Part II, Item 7, “Managing Foreign Currency, Interest Rate, Commodity Price and Credit Risk Exposure” contained in our Annual Report on Form 10-K for the year ended December 31, 2015.

Controls and Procedures

Evaluation of Disclosure Controls and Procedures

The Company's management, under the supervision and with the participation of the Company's Chairman of the Board, President and Chief Executive Officer and Chief Financial Officer, carried out an evaluation of the effectiveness of the design and operation of the Company's disclosure controls and procedures as of June 30, 2016 (the "Evaluation"). Based upon the Evaluation, the Company's Chairman of the Board, President and Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures (as defined in Rule 13a-15(e) of the Securities Exchange Act of 1934) are effective.

Changes in Internal Control over Financial Reporting

There were no changes in the Company's internal control over financial reporting that occurred during the Company's most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting. As part of the 2012 Restructuring Program, the Company is implementing a shared business service organization model in all regions of the world. This implementation is expected to continue in a phased approach in future years. At this time, certain financial transaction processing activities have been transitioned to these shared business services centers. The Company does not expect this transition to materially affect its internal control over financial reporting.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

On February 19, 2015, the Board authorized the repurchase of shares of the Company's common stock having an aggregate purchase price of up to \$5 billion under a new share repurchase program (the "2015 Program"), which replaced a previously authorized share repurchase program. The Board also has authorized share repurchases on an ongoing basis to fulfill certain requirements of the Company's compensation and benefit programs. The shares are repurchased from time to time in open market or privately negotiated transactions at the Company's discretion, subject to market conditions, customary blackout periods and other factors.

The following table shows the stock repurchase activity for the three months in the quarter ended June 30, 2016:

Month	Total Number of Shares Purchased ⁽¹⁾	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs ⁽²⁾	Approximate Dollar Value of Shares That May Yet Be Purchased Under the Plans or Programs ⁽³⁾ (in millions)
April 1 through 30, 2016	292,221	\$ 70.90	232,282	\$ 3,456
May 1 through 31, 2016	1,546,193	\$ 71.05	1,508,500	\$ 3,349
June 1 through 30, 2016	1,870,533	\$ 71.59	1,832,220	\$ 3,218
Total	3,708,947	\$ 71.31	3,573,002	

(1) Includes share repurchases under the 2015 Program and those associated with certain employee elections under the Company's compensation and benefit programs.

(2) The difference between the total number of shares purchased and the total number of shares purchased as part of publicly announced plans or programs is 135,945 shares, all of which relate to shares deemed surrendered to the Company to satisfy certain employee elections under the Company's compensation and benefit programs.

(3) Includes approximate dollar value of shares that were available to be purchased under publicly announced plans or programs that were in effect as of June 30, 2016.

Item 3. Defaults Upon Senior Securities

None.

Item 4. Mine Safety Disclosures
