Timothy R. Schwertfeger
Chairman of the Board

#### Abstract

Once again, I am pleased to report that over the six-month period covered by this report your Fund continued to provide you with attractive monthly tax-free income. For more details about the management strategy and performance of your Fund, please read the Portfolio Managers' Comments, the Dividend and Share Price Information, and the Performance Overview sections of this report.

For some time, I've used these letters to remind you that municipal bonds can be an important building block in a well-balanced investment portfolio. In addition to providing attractive tax-free monthly income, a municipal bond investment like your Fund may help you achieve and benefit from greater portfolio diversification. Portfolio diversification is a recognized way to try to reduce some of the risk that comes with investing. For more information about this important investment strategy, I encourage you to contact your personal financial advisor. ```"IN ADDITION TO PROVIDING ATTRACTIVE TAX-FREE MONTHLY INCOME, A MUNICIPAL BOND INVESTMENT LIKE YOUR FUND MAY HELP YOU ACHIEVE AND BENEFIT FROM GREATER PORTFOLIO DIVERSIFICATION."```

We also are pleased to be able to offer you a choice concerning how you receive your shareholder reports and other Fund information. As an alternative to mailed copies, you can sign up to receive future Fund

# Edgar Filing: NUVEEN MUNICIPAL HIGH INCOME OPPORTUNITY FUND - Form N-CSRS 

reports and other Fund information by e-mail and the internet. The inside front cover of this report contains information on how you can sign up.

We are grateful that you have chosen us as a partner as you pursue your financial goals, and we look forward to continuing to earn your trust in the months and years ahead. At Nuveen Investments, our mission continues to be to assist you and your financial advisor by offering investment services and products that can help you to secure your financial objectives.

Sincerely,
/s/ Timothy R. Schwertfeger

Timothy R. Schwertfeger
CHAIRMAN OF THE BOARD

Nuveen Investments Municipal Closed-End Funds NQM, NQS, NQU, NPF, NMZ

Portfolio Managers'
COMMENTS

PORTFOLIO MANAGERS PAUL BRENNAN, TOM SPALDING, AND JOHN MILLER REVIEW KEY INVESTMENT STRATEGIES AND THE SIX-MONTH PERFORMANCE OF THESE FIVE NATIONAL FUNDS. WITH OVER 17 YEARS OF INVESTMENT EXPERIENCE, PAUL ASSUMED PORTFOLIO MANAGEMENT RESPONSIBILITY FOR NQM AND NPF IN JULY 2006. A 30-YEAR VETERAN OF NUVEEN, TOM HAS MANAGED NQS AND NQU SINCE 2003. JOHN, WHO HAS 14 YEARS OF MUNICIPAL MARKET EXPERIENCE, HAS MANAGED NMZ SINCE ITS INCEPTION IN 2003.

WHAT KEY STRATEGIES WERE USED TO MANAGE THESE FUNDS DURING THE SIX-MONTH REPORTING PERIOD ENDED APRIL 30, 2007?

During this six-month period, we continued to see a further flattening of the yield curve. In this environment, where the slope of the yield curve remained a dominant market factor, we continued to emphasize a disciplined approach to duration 1 management and yield curve positioning. As part of this approach, our purchases for the Funds' portfolios focused mainly on attractively priced bonds with longer maturities: 20 years and longer in NQS and NQU, 25 years and longer in NQM and NPF, and 25 to 30 years in NMZ. We believed that bonds in this range of the curve generally offered more attractive yields, better value, and reward opportunities more commensurate with their risk levels.

Our duration management strategies during this period also included the use of inverse floating rate trusts, 2 a type of derivative financial instrument, in all five of these Funds. The inverse floaters had the dual benefit of increasing the Funds' distributable income and bringing their durations closer to our preferred strategic target. In past shareholder reports, we discussed the use of forward interest rate swaps and futures contracts (additional types of derivative instruments) as duration management tools.

We also continued to put emphasis on individual credit selection, using a long-term relative value approach. During this period, the municipal market saw steady new money issuance as well as a number of major advance refundings 3 and debt restructurings, which provided us with an increased number of bonds from which to choose. For the six months ended April 30, 2007 , municipal issuance nationwide totaled $\$ 223.7$ billion, up $32 \%$ compared with the six-month period

# Edgar Filing: NUVEEN MUNICIPAL HIGH INCOME OPPORTUNITY FUND - Form N-CSRS 

ended April 30, 2006. During the first four months of 2007 , supply increased $37 \%$ over that of the first four months of $2006--$ to $\$ 135.4$ billion--primarily due to a $71 \%$ increase in refundings during this period.

1 Duration is a measure of a bond's price sensitivity as interest rates change, with longer duration bonds displaying more sensitivity to these changes than bonds with shorter durations.

2 An inverse floating rate trust is a financial instrument designed to pay long-term tax-exempt interest at a rate that varies inversely with a short-term tax-exempt interest rate index. For the Nuveen Funds, the index typically used is the Securities Industry and Financial Markets (SIFM) Municipal Swap Index (previously referred to as the Bond Market Association Index or BMA). Inverse floaters, including those inverse floating rate securities in which the Funds invested during the six-month period, are further defined within the "Notes to Financial Statements" and "Glossary of Terms Used in This Report" sections of this shareholder report.

3 Advance refundings, also known as pre-refundings or refinancings, occur when an issuer sells new bonds and uses the proceeds to fund principal and interest payments of older existing bonds. This process often results in lower borrowing costs for bond issuers.

Much of the new supply was highly rated and/or insured, and this factor, combined with enhanced credit quality resulting from a number of advance refundings, meant that the Funds' allocations of credits rated AAA generally increased over this period. In NQM, NQS, NQU, and NPF, we also continued to work to maintain our weightings of lower credit quality bonds because of their strong performance and support for the Funds' income streams. In NQM and NQU, this included participating in the new offerings of California and New Jersey tobacco bonds that were issued as part of the advance refunding of older tobacco bonds in these two states. However, as credit spreads continued to tighten, these four Funds generally found fewer attractively structured lower-rated credit opportunities in the market.

In NQS and NQU, most of the cash we redeployed during this period came from called holdings, which we used to enhance the Funds' diversification by investing in a variety of essential services sectors such as water and sewer and utilities. We also continued to keep these Funds well diversified geographically, looking to states with stronger issuance, including California, Texas, New York, Florida, and Illinois, for many of the additions to the portfolios.

In NQM and NPF, in addition to reinvesting a few bond call proceeds, we selectively sold some of the Funds' holdings that were nearing redemption in order to generate cash for purchases. We also took advantage of opportunities to sell bonds that were purchased when yields were lower and replace them with newer credits that yielded comparatively more. We continued to redeploy proceeds to bonds that could help us increase income-generating potential, such as credits with unusual types of coupons, including zero coupon and discount bonds.

In NMZ, which was established as a high-yield Fund that can invest up to $50 \%$ of its portfolio in subinvestment-grade quality municipal credits, our focus was primarily on credit-specific analysis and selection, which we believe are critical in this segment of the market. Fund holdings were analyzed on the basis of credit quality, credit spreads, and relative value and sold to generate cash

```
if we determined that we could purchase other bonds that were more attractive in
these areas. During this period, many of these sales involved higher-quality
bonds and pre-refunded bonds with shorter durations. Proceeds were then
reinvested in longer, high-yield bonds that would help to keep NMZ's 50%
investment-grade/50% subinvestment-grade mix in balance.
```

5

While each of NMZ's purchases was based on the credit's individual merits, three additions to our portfolio during this period involved lower-rated bonds issued for convention center hotels in St. Louis, Austin and the Chicago suburbs. In each case, we believed these bonds offered the potential for future credit quality improvement.

HOW DID THE FUNDS PERFORM?

Individual results for these Funds, as well as relevant index and peer group information, are presented in the accompanying table.

TOTAL RETURNS ON NET ASSET VALUE

# Edgar Filing: NUVEEN MUNICIPAL HIGH INCOME OPPORTUNITY FUND - Form N-CSRS 

For additional information, see the individual Performance Overview for your Fund in this report.

For the six months ended April 30, 2007, the cumulative returns on NAV for NPF, NQM and NQU trailed the Lehman Brothers Municipal Bond Index while NQS performed inline. These four funds lagged the Lipper peer group average. NMZ's 6-month return trailed the Lehman Brothers High-Yield Municipal Bond Index but outperformed the Lipper High-Yield peer group for the period. It is important to note that the Lehman High-Yield Municipal Bond Index is composed of $100 \%$ high-yield bonds, while NMZ comprises a maximum of $50 \%$ subinvestment-grade bonds offering high yields, with the remainder invested in investment-grade credits. This difference can play an important role in NMZ's performance

4 The Lehman Brothers Municipal Bond Index is an unleveraged, unmanaged national index comprising a broad range of investment-grade municipal bonds. The Lehman Brothers High-Yield Municipal Bond Index is an unleveraged, unmanaged national index comprising municipal bonds rated below investment grade (i.e., below Baa by Moody's Investors Service and below BBB by Standard \& Poor's or Fitch Ratings). Results for the Lehman Brothers Indexes do not reflect any expenses.

The Lipper General Leveraged Municipal Debt Funds Average is calculated using the returns of all closed-end funds in this category for each period as follows: 6 months, 56; 1 year, 56; 5 years, 45; and 10 years, 39 . Fund and Lipper returns assume reinvestment of dividends. The Lipper High-Yield Municipal Debt Funds Average is calculated using the returns of all 15 closed-end funds in this category for the six-month and one-year periods. Fund and Lipper returns assume reinvestment of dividends.
relative to the index, especially during periods when the high-yield market outperforms the municipal market as a whole, as was the case during the six months ended April 30, 2007.

Factors that influenced the Funds' returns during this period included duration, individual security selection, exposure to lower-rated credits, sector allocations, and advance refunding activity.

As the yield curve continued to flatten over the course of this period, municipal bonds with maturities of 20 years and longer, as measured by the Lehman Brothers Municipal Bond Index, performed best, generally outpacing municipal bonds with shorter maturities. As mentioned earlier, one of our strategies during this period focused on adding longer bonds to our portfolios. This purchase activity and our duration management strategies helped to extend the Funds' durations and bring them closer in line with our preferred strategic range, which was generally beneficial. Overall, however, NQM was not as well positioned in terms of duration as the other Funds in this report, which detracted from its performance.

During this period, we continued to employ strategies that we believed could help strengthen the future income streams of our portfolios. In addition to income potential, the Funds' holdings of zero coupon bonds, which we continued to build, also provided a positive impact on performance for this period.

With bonds rated BBB or lower and non-rated bonds generally outperforming other credit quality sectors during this period, all of these Funds also benefited from their weightings in lower-quality credits. The outperformance of these

# Edgar Filing: NUVEEN MUNICIPAL HIGH INCOME OPPORTUNITY FUND - Form N-CSRS 

credit sectors was largely the result of investor demand for the higher yields typically associated with lower-rated bonds, which drove up their value. Overall, NQU had heavier exposure to lower-rated and non-rated credits than NQM, NQS and NPF, which helped its return. In addition to its holdings of approximately 9\% in bonds rated BBB, NMZ held 20\% in bonds rated BB or lower (subinvestment-grade) and $35 \%$ in non-rated bonds, some of which Nuveen has determined to be of investment-grade quality. Overall, conditions in the high-yield market remained positive during this period due to narrowing credit spreads, low default rates, and strong demand for high-yield paper. This benefited the performance NMZ's holdings of high-yield credits during this period.

Among the lower-rated holdings making positive contributions to the Funds' returns for this period were industrial development revenue (IDR) bonds and healthcare (including hospitals) credits. One of NMZ's higher-yielding hospital holdings that appreciated significantly during this period was a non-rated bond Hills and Dales General Hospital in Michigan. Lower-rated bonds backed by the 1998 master tobacco settlement agreement, which comprised approximately $4 \%$ of the portfolios of NQM, NQS, NQU, and NPF as of April 30, 2007, also performed well. As the result of advance refundings, NMZ's allocation of BBB-rated tobacco bonds fell to about $1 \%$ over this period, although we continued to hold the pre-refunded tobacco bonds, which were upgraded to AAA. While NMZ did not participate in the new offerings of California or New Jersey tobacco bonds, we continued to monitor the secondary market in these names to watch for opportunities to increase the Fund's lower-rated tobacco exposure.

We continued to see positive contributions from increased advance refunding activity, which benefited the Funds through price appreciation and enhanced credit quality. As previously mentioned, two of the more significant advance refundings during this period involved $B B B$ rated tobacco bonds issued by California's Golden State Tobacco Securitization Corporation (held by NPF and NMZ) and by New Jersey's Tobacco Settlement Financing Corporation (held by NQM, NQS, NQU, and NMZ). In addition to these tobacco bonds, NMZ also benefited from advance refundings of casino bonds issued by the Lac Courte Oreilles Band of Lake Superior Chippewa Indians in Wisconsin and IDR credits issued for the Rockbridge County Horse Center in Virginia.

8

At the same time, holdings of older, previously pre-refunded bonds tended to underperform the general municipal market during this period, particularly those with effective maturities between 5 and 10 years. NMZ also held two non-rated credits that experienced some financial stress during this period, which resulted in small declines in valuation: Heritage Christian School of Northern Colorado and the Pickwick Apartments, a multifamily housing project in Kansas City, Missouri.

These five Funds use leverage to potentially enhance opportunities for additional income for common shareholders. Although the extent of this benefit was reduced during this period due to high short-term interest rates that, in turn, kept the Funds' borrowing costs high, the Funds' use of leverage continued to provide incremental income. Consequently, the dividends of NQM, NQS, NQU, and NMZ remained stable throughout the six-month reporting period ended April 30, 2007. In NPF, our income strategies, including an increased position in inverse floaters and the use of forward interest rate swaps, resulted in a dividend increase effective at the beginning of this period (November 2006).

Due to normal portfolio activity, common shareholders of NMZ also received a capital gains distribution of $\$ 0.0045$ per share and a net ordinary income distribution of $\$ 0.0002$ per share at the end of December 2006.

All of the Funds in this report seek to pay stable dividends at rates that reflect each Fund's past results and projected future performance. During certain periods, each Fund may pay dividends at a rate that may be more or less than the amount of net investment income actually earned by the Fund during the period. If a Fund has cumulatively earned more than it has paid in dividends, it holds the excess in reserve as undistributed net investment income (UNII) as part of the Fund's NAV. Conversely, if a Fund has cumulatively paid dividends in excess of its earnings, the excess constitutes negative UNII that is likewise reflected in the Fund's NAV. Each Fund will, over time, pay all of its net investment income as dividends to shareholders. As of April 30, 2007, NQM, NQS, NQU and NMZ had positive UNII balances for both financial statement and, based on our best estimates, tax purposes, while NPF had a positive UNII balance, based on our best estimates, for tax purposes and a negative UNII balance for financial statement purposes.

## 10

PAST PERFORMANCE IS NOT PREDICTIVE OF FUTURE RESULTS.

1 Taxable-Equivalent Yield represents the yield that must be earned on a fully taxable investment in order to equal the yield of the Fund on an after-tax basis. It is based on a federal income tax rate of $28 \%$. When comparing this Fund to investments that generate qualified dividend income, the Taxable-Equivalent Yield is lower.

USD-LIBOR (United States Dollar-London Inter-Bank Offered Rate)

SIFM - The daily arithmetic average of the weekly SIFM
(the Securities Industry and Financial Markets) Municipal Swap Index.
(1) All percentages shown in the Portfolio of Investments are based on net assets applicable to Common shares unless otherwise noted.
(2) Optional Call Provisions: Dates (month and year) and prices of the earliest optional call or redemption. There may be other call provisions at varying prices at later dates. Certain mortgage-backed securities may be subject to periodic principal paydowns.
(3) Ratings: Using the higher of Standard \& Poor's or Moody's rating. Ratings below BBB by Standard \& Poor's Group or Baa by Moody's Investor Service, Inc. are considered to be below investment grade.
(4) Backed by an escrow or trust containing sufficient U.S. Government or U.S. Government agency securities which ensure the timely payment of principal and interest. Such investments are normally considered to be equivalent to AAA rated securities.
(5) Effective date represents the date on which both the Fund and counterparty commence interest payment accruals on each forward swap

\end{tabular}
(1) All percentages shown in the Portfolio of Investments are based on net assets applicable to Common shares unless otherwise noted.
(2) Optional Call Provisions: Dates (month and year) and prices of the earliest optional call or redemption. There may be other call provisions at varying prices at later dates. Certain mortgage-backed securities may be subject to periodic principal paydowns.
(3) Ratings: Using the higher of Standard \& Poor's or Moody's rating. Ratings below BBB by Standard \& Poor's Group or Baa by Moody's Investor Service, Inc. are considered to be below investment grade.
(4) Backed by an escrow or trust containing sufficient U.S. Government or U.S. Government agency securities which ensure the timely payment of principal and interest. Such investments are normally considered to be equivalent to AAA rated securities.
(5) Non-income producing security, in the case of a bond, generally denotes that the issuer has defaulted on the payment of principal or interest or
```

has filed for bankruptcy.
(6) The issuer has received a formal adverse determination from the Internal
Revenue Service (the "IRS") regarding the tax-exempt status of the
bonds' coupon payments. The Fund will continue to treat coupon payments
as tax-exempt income until such time that it is formally determined that
the interest on the bonds should be treated as taxable.
N/R Not rated.
(ETM) Escrowed to maturity.
(IF) Inverse floating rate investment.
(UB) Underlying bond of an inverse floating rate trust reflected as a
financing transaction pursuant to the provisions of SFAS No. 140.

\section*{1. GENERAL INFORMATION AND SIGNIFICANT ACCOUNTING POLICIES}

The funds (the "Funds") covered in this report and their corresponding common share stock exchange symbols are Nuveen Investment Quality Municipal Fund, Inc. (NQM), Nuveen Select Quality Municipal Fund, Inc. (NQS), Nuveen Quality Income Municipal Fund, Inc. (NQU), Nuveen Premier Municipal Income Fund, Inc. (NPF) and Nuveen Municipal High Income Opportunity Fund (NMZ). Common shares of Investment Quality (NQM), Select Quality (NQS), Quality Income (NQU) and Premier Income (NPF) are traded on the New York Stock Exchange while Common shares of High Income Opportunity (NMZ) are traded on the American Stock Exchange. The Funds are registered under the Investment Company Act of 1940, as amended, as closed-end, diversified management investment companies.

Each Fund seeks to provide current income exempt from regular federal income tax by investing primarily in a diversified portfolio of municipal obligations issued by state and local government authorities or certain U.S. territories.

The following is a summary of significant accounting policies followed by the Funds in the preparation of their financial statements in accordance with U.S. generally accepted accounting principles.

INVESTMENT VALUATION

\title{
Edgar Filing: NUVEEN MUNICIPAL HIGH INCOME OPPORTUNITY FUND - Form N-CSRS
}

\begin{abstract}
The prices of municipal bonds in each Fund's investment portfolio are provided by a pricing service approved by the Fund's Board of Directors/Trustees. When market price quotes are not readily available (which is usually the case for municipal securities), the pricing service may establish fair value based on yields or prices of municipal bonds of comparable quality, type of issue, coupon, maturity and rating, indications of value from securities dealers, evaluations of anticipated cash flows or collateral and general market conditions. Prices of forward swap contracts are also provided by an independent pricing service approved by each Fund's Board of Directors/Trustees. If the pricing service is unable to supply a price for a municipal bond or forward swap contract, each Fund may use a market price or fair market value quote provided by a major broker/dealer in such investments. If it is determined that the market price or fair market value for an investment is unavailable or inappropriate, the Board of Directors/Trustees of the Funds, or its designee, may establish a fair value for the investment. Temporary investments in securities that have variable rate and demand features qualifying them as short-term investments are valued at amortized cost, which approximates market value.
\end{abstract}

\section*{INVESTMENT TRANSACTIONS}

Investment transactions are recorded on a trade date basis. Realized gains and losses from transactions are determined on the specific identification method. Investments purchased on a when-issued/delayed delivery basis may have extended settlement periods. Any investments so purchased are subject to market fluctuation during this period. The Funds have instructed the custodian to segregate assets with a current value at least equal to the amount of the when-issued/delayed delivery purchase commitments. At April 30, 2007, Investment Quality (NQM) had outstanding when-issued/delayed delivery purchase commitments of \(\$ 11,682,836\). There were no such outstanding purchase commitments in any of the other Funds at April 30, 2007.

\section*{INVESTMENT INCOME}

Interest income, which includes the amortization of premiums and accretion of discounts for financial reporting purposes, is recorded on an accrual basis. Investment income also includes paydown gains and losses, if any.

\section*{PROFESSIONAL FEES}

Professional fees presented in the Statement of Operations consist of legal fees incurred in the normal course of operations, audit fees, tax consulting fees and, in some cases, workout expenditures. Workout expenditures are incurred in an attempt to protect or enhance an investment, or to pursue other claims or legal actions on behalf of Fund shareholders. Legal fee refunds presented on the Statement of Operations for Premier Income (NPF) reflect a refund of workout expenditures paid in a prior reporting period.

FEDERAL INCOME TAXES

Each Fund is a separate taxpayer for federal income tax purposes. Each Fund intends to distribute substantially all net investment income and net capital gains to shareholders and to otherwise comply with the requirements of Subchapter \(M\) of the Internal Revenue Code applicable to regulated investment companies. Therefore, no federal income tax provision is required. Furthermore, each Fund intends to satisfy conditions which will enable interest from municipal securities, which is exempt from regular federal income tax, to retain such tax-exempt status when distributed to shareholders of the Funds. Net realized capital gains and ordinary income distributions paid by the Funds are subject to federal taxation.

\section*{DIVIDENDS AND DISTRIBUTIONS TO COMMON SHAREHOLDERS}

Dividends from tax-exempt net investment income are declared monthly. Net realized capital gains and/or market discount from investment transactions, if any, are distributed to shareholders not less frequently than annually. Furthermore, capital gains are distributed only to the extent they exceed available capital loss carryforwards.

Distributions to Common shareholders of tax-exempt net investment income, net realized capital gains and/or market discount, if any, are recorded on the ex-dividend date. The amount and timing of distributions are determined in accordance with federal income tax regulations, which may differ from U.S. generally accepted accounting principles.

\section*{PREFERRED SHARES}

The Funds have issued and outstanding Preferred shares, \(\$ 25,000\) stated value per share, as a means of effecting financial leverage. Each Fund's Preferred shares are issued in more than one Series. The dividend rate paid by the Funds on each Series is determined every seven days, pursuant to a dutch auction process overseen by the auction agent, and is payable at the end of each rate period. Prior to January 31, 2007, the dividend rate for High Income Opportunity's (NMZ) Series \(W\) was payable monthly at a rate which was negotiated at the time of the Preferred share offering. The number of Preferred shares outstanding, by Series and in total, for each Fund is as follows:
\begin{tabular}{|c|c|c|c|c|c|}

\hline Total & 12,040 & 11,160 & 18,080 & 6,600 & 6,200 \\
\hline
\end{tabular}

\section*{INVERSE FLOATING RATE SECURITIES}

Each Fund may invest in inverse floating rate securities. An inverse floating rate security is created by depositing a municipal bond, typically with a fixed interest rate, into a special purpose trust created by a broker-dealer. In turn, this trust (a) issues floating rate certificates, in face amounts equal to some fraction of the deposited bond's par amount or market value, that typically pay short-term tax-exempt interest rates to third parties, and (b) issues to a long-term investor (such as one of the Funds) an inverse floating rate certificate (sometimes referred to as an "inverse floater") that represents all remaining or residual interest in the trust. The income received by the inverse floater holder varies inversely with the short-term rate paid to the floating rate certificates' holders, and in most circumstances the inverse floater holder bears substantially all of the underlying bond's downside investment risk and also benefits disproportionately from any potential appreciation of the underlying bond's value. The price of an inverse floating rate security will be more volatile than that of the underlying bond because the interest rate is

\title{
Edgar Filing: NUVEEN MUNICIPAL HIGH INCOME OPPORTUNITY FUND - Form N-CSRS
}
dependent on not only the fixed coupon rate of the underlying bond but also on the short-term interest paid on the floating rate certificates, and because the inverse floating rate security essentially bears the risk of loss of the greater face value of the underlying bond.

A Fund may purchase an inverse floating rate security in a secondary market transaction without first owning the underlying bond (referred to as an "externally-deposited inverse floater"), or instead by first selling a fixed-rate bond to a broker-dealer for deposit into the special purpose trust and receiving in turn the residual interest in the trust (referred to as a "self-deposited inverse floater"). An investment in an externally-deposited inverse floater is identified in the Portfolio of Investments as an "Inverse floating rate investment". An investment in a self-deposited inverse floater is accounted for as a financing transaction in accordance with Statement of Financial Accounting Standards (SFAS) No. 140 "Accounting for Transfers and Servicing of Financial Assets and Extinguishment of Liabilities". In such instances, a fixed-rate bond deposited into a special purpose trust is identified in the Portfolio of Investments as an "Underlying bond of an inverse floating rate trust", with the Fund accounting for the short-term floating rate certificates issued by the trust as "Floating rate obligations" on the Statement of Assets and Liabilities. In addition, the Fund reflects in Investment Income the entire earnings of the underlying bond and accounts for the related interest paid to the holders of the short-term floating rate certificates as "Floating rate obligations interest expense and fees" in the Statement of Operations.

During the six months ended April 30, 2007, each Fund invested in externally deposited inverse floaters and/or self-deposited inverse floaters.

The average floating rate obligations outstanding and average annual interest rate and fees related to self-deposited inverse floaters during the six months ended April 30, 2007, were as follows:

\section*{FORWARD SWAP TRANSACTIONS}

The Funds are authorized to invest in certain derivative financial instruments. Each Fund's use of forward interest rate swap transactions is intended to help the Fund manage its overall interest rate sensitivity, either shorter or longer, generally to more closely align the Fund's interest rate sensitivity with that of the broader municipal market. Forward interest rate swap transactions involve each Fund's agreement with a counterparty to pay, in the future, a fixed or

\title{
Edgar Filing: NUVEEN MUNICIPAL HIGH INCOME OPPORTUNITY FUND - Form N-CSRS
}
variable rate payment in exchange for the counterparty paying the Fund a variable or fixed rate payment, the accruals for which would begin at a specified date in the future (the "effective date"). The amount of the payment obligation is based on the notional amount of the forward swap contract and the termination date of the swap (which is akin to a bond's maturity). The value of the Fund's swap commitment would increase or decrease based primarily on the extent to which long-term interest rates for bonds having a maturity of the swap's termination date increases or decreases. The Funds may terminate a swap contract prior to the effective date, at which point a realized gain or loss is recognized. When a forward swap is terminated, it ordinarily does not involve the delivery of securities or other underlying assets or principal, but rather is settled in cash on a net basis. Each Fund intends, but is not obligated, to terminate its forward swaps before the effective date. Accordingly, the risk of loss with respect to the swap counterparty on such transactions is limited to the credit risk associated with a counterparty failing to honor its commitment to pay any realized gain to the Fund upon termination. To reduce such credit risk, all counterparties are required to pledge collateral daily (based on the daily valuation of each swap) on behalf of each Fund with a value approximately equal to the amount of any unrealized gain above a pre-determined threshold. Reciprocally, when any of the Funds have an unrealized loss on a swap contract, the Funds have instructed the custodian to pledge assets of the Funds as collateral with a value approximately equal to the amount of the unrealized loss above a pre-determined threshold. Collateral pledges are monitored and subsequently adjusted if and when the swap valuations fluctuate, either up or down, by at least the predetermined threshold amount.

\section*{CUSTODIAN FEE CREDIT}

Each Fund has an arrangement with the custodian bank whereby certain custodian fees and expenses are reduced by credits earned on each Fund's cash on deposit with the bank. Such deposit arrangements are an alternative to overnight investments.

\section*{INDEMNIFICATIONS}

Under the Funds' organizational documents, their Officers and Directors/Trustees are indemnified against certain liabilities arising out of the performance of their duties to the Funds. In addition, in the normal course of business, the Funds enter into contracts that provide general indemnifications to other parties. The Funds' maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Funds that have not yet occurred. However, the Funds have not had prior claims or losses pursuant to these contracts and expect the risk of loss to be remote.

\section*{USE OF ESTIMATES}

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets applicable to Common shares from operations during the reporting period. Actual results may differ from those estimates.

\section*{74}

\section*{2. FUND SHARES}

Transactions in Common shares were as follows:

\section*{3. INVESTMENT TRANSACTIONS}

Purchases and sales (including maturities but excluding short-term investments and derivative transactions) during the six months ended April 30, 2007, were as follows:
\begin{tabular}{|c|c|c|c|c|c|c|}
\hline & & \begin{tabular}{l}
INVESTMENT \\
QUALITY \\
(NQM)
\end{tabular} & & \[
\begin{array}{r}

\hline
\end{tabular}

\section*{4. INCOME TAX INFORMATION}

The following information is presented on an income tax basis. Differences between amounts for financial statement and federal income tax purposes are primarily due to the treatment of paydown gains and losses, timing differences in recognizing taxable market discount, timing differences in recognizing certain gains and losses on investment transactions and the treatment of

\title{
Edgar Filing: NUVEEN MUNICIPAL HIGH INCOME OPPORTUNITY FUND - Form N-CSRS
}
```

investments in inverse floating rate transactions subject to SFAS No.140. To the
extent that differences arise that are permanent in nature, such amounts are
reclassified within the capital accounts on the Statement of Assets and
Liabilities presented in the annual report, based on their federal tax basis
treatment; temporary differences do not require reclassification. Temporary and
permanent differences do not impact the net asset values of the Funds.
At April 30, 2007, the cost of investments was as follows:

```
```

Cost of investments
\$ 797,139,731 \$ 739,177,207 \$1,178,323,574

```

Gross unrealized appreciation and gross unrealized depreciation of investments at April 30, 2007, were as follows:
\begin{tabular}{|c|c|c|c|c|c|c|}

\hline Depreciation & & (299, 019) & & - -- & & \((554,594)\) \\
\hline Net unrealized appreciation (depreciation) of investments & \$ & 56,705,110 & \$ & 53,368, 041 & \$ & 86,429,876 \\
\hline
\end{tabular}

The tax components of undistributed net tax-exempt income, net ordinary income and net long-term capital gains at October 31, 2006 , the Funds' last tax year end, were as follows:
\begin{tabular}{rrrr} 
INVESTMENT & SELECT & QUALITY \\
QUALITY & QUALITY \\
(NQM) & \((\) NQS \()\) & INCOME \\
(NQU)
\end{tabular}

\title{
Edgar Filing: NUVEEN MUNICIPAL HIGH INCOME OPPORTUNITY FUND - Form N-CSRS
}
* Undistributed net tax-exempt income (on a tax basis) has not been reduced for the dividend declared on October 2, 2006, paid on November 1, 2006.
** Net ordinary income consists of taxable market discount income and net short-term capital gains, if any.

Notes to
FINANCIAL STATEMENTS (Unaudited) (continued)

The tax character of distributions paid during the Funds' last tax year ended October 31, 2006, was designated for purposes of the dividends paid deduction as follows:
\begin{tabular}{|c|c|c|c|c|}
\hline & INVESTMENT QUALITY (NQM) & \begin{tabular}{l}
SELECT QUALITY \\
(NQS)
\end{tabular} & \[
\begin{gathered}
\text { QUALITY } \\
\text { INCOME } \\
\text { (NQU) }
\end{gathered}
\] & PR \\
\hline Distributions from net tax-exempt income & \$38,825,191 & \$38,884,337 & \$58,786,651 & \$19,38 \\
\hline Distributions from net ordinary income ** & 83,195 & -- & -- & \\
\hline Distributions from net long-term capital gains & 6,081,436 & -- & -- & \\
\hline
\end{tabular}
** Net ordinary income consists of taxable market discount income and net short-term capital gains, if any.

At October 31, 2006, the Funds' last tax year end, the following Funds had unused capital loss carryforwards available for federal income tax purposes to be applied against future capital gains, if any. If not applied, the carryforwards will expire as follows:
\begin{tabular}{rr} 
INVESTMENT & SELECT \\

\hline
\end{tabular}
5. MANAGEMENT FEE AND OTHER TRANSACTIONS WITH AFFILIATES

\title{
Edgar Filing: NUVEEN MUNICIPAL HIGH INCOME OPPORTUNITY FUND - Form N-CSRS
}
```

Each Fund's management fee is separated into two components - a complex-level
component, based on the aggregate amount of all fund assets managed by Nuveen
Asset Management (the "Adviser"), a wholly owned subsidiary of Nuveen
Investments, Inc. ("Nuveen"), and a specific fund-level component, based only on
the amount of assets within each individual fund. This pricing structure enables
Nuveen fund shareholders to benefit from growth in the assets within each
individual fund as well as from growth in the amount of complex-wide assets
managed by the Adviser.
The annual fund-level fee, payable monthly, for each Fund is based upon the
average daily net assets (including net assets attributable to Preferred shares)
of each Fund as follows:

```
AVERAGE DAILY NET ASSETS (INCLUDING NET ASSETS ATTRIBUTABLE TO PREFERRED SHARES)
For the first \(\$ 125\) million
For the next \(\$ 125\) million
For the next \(\$ 250\) million
For the next \(\$ 500\) million
For the next \(\$ 1\) billion
For the next \(\$ 3\) billion
For net assets over \$5 billion
76

AVERAGE DAILY NET ASSETS (INCLUDING NET ASSETS ATTRIBUTABLE TO PREFERRED SHARES)
```

For the first \$125 million
For the next \$125 million
For the next \$250 million
For the next \$500 million
For the next \$1 billion
For net assets over \$2 billion

```

The annual complex-level fee, payable monthly, which is additive to the fund-level fee, for all Nuveen sponsored funds in the U.S., is based on the aggregate amount of total fund assets managed as stated in the table below. As of April 30, 2007, the complex-level fee rate was . \(1824 \%\).

\title{
Edgar Filing: NUVEEN MUNICIPAL HIGH INCOME OPPORTUNITY FUND - Form N-CSRS
}

For the first \(\$ 55\) billion
For the next \(\$ 1\) billion
For the next \(\$ 1\) billion
For the next \(\$ 3\) billion
For the next \(\$ 3\) billion
For the next \(\$ 3\) billion
For the next \(\$ 5\) billion
For the next \(\$ 5\) billion
For the next \(\$ 15\) billion
For Managed Assets over \(\$ 91\) billion (2)
(1) The complex-level fee component of the management fee for the funds is calculated based upon the aggregate Managed Assets ("Managed Assets" means the average daily net assets of each fund including assets attributable to preferred stock issued by or borrowings by the Nuveen funds) of Nuveen-sponsored funds in the U.S.
(2) With respect to the complex-wide Managed Assets over \(\$ 91\) billion, the fee rate or rates that will apply to such assets will be determined at a later date. In the unlikely event that complex-wide Managed Assets reach \(\$ 91\) billion prior to a determination of the complex-level fee rate or rates to be applied to Managed Assets in excess of \(\$ 91\) billion, the complex-level fee rate for such complex-wide Managed Assets shall be . \(1400 \%\) until such time as a different rate or rates is determined.

The management fee compensates the Adviser for overall investment advisory and administrative services and general office facilities. The Funds pay no compensation directly to those of its Directors/Trustees who are affiliated with the Adviser or to its Officers, all of whom receive remuneration for their services to the Funds from the Adviser or its affiliates. The Board of Directors/Trustees has adopted a deferred compensation plan for independent Directors/Trustees that enables Directors/Trustees to elect to defer receipt of all or a portion of the annual compensation they are entitled to receive from certain Nuveen advised funds. Under the plan, deferred amounts are treated as though equal dollar amounts had been invested in shares of select Nuveen advised funds.

For the first eight years of High Income Opportunity's (NMZ) operations, the Adviser has agreed to reimburse the Fund, as a percentage of average daily net assets (including net assets attributable to Preferred shares), for fees and expenses in the amounts, and for the time periods set forth below:
\begin{tabular}{|c|c|c|c|}
\hline \multirow[t]{2}{*}{YEAR ENDING NOVEMBER 30,} & & \multicolumn{2}{|l|}{YEAR ENDING} \\
\hline & & NOVEMBER 30, & \\
\hline 2003* & . \(32 \%\) & 2009 & . \(24 \%\) \\
\hline 2004 & . 32 & 2010 & . 16 \\
\hline 2005 & . 32 & 2011 & . 08 \\
\hline 2006 & . 32 & & \\
\hline 2007 & . 32 & & \\
\hline 2008 & . 32 & & \\
\hline
\end{tabular}

\footnotetext{
* From the commencement of operations.
}

\title{
Edgar Filing: NUVEEN MUNICIPAL HIGH INCOME OPPORTUNITY FUND - Form N-CSRS
}

The Adviser has not agreed to reimburse High Income Opportunity (NMZ) for any portion of its fees and expenses beyond November 30, 2011.

Notes to
FINANCIAL STATEMENTS (Unaudited) (continued)

\section*{6. NEW ACCOUNTING PRONOUNCEMENTS}

FINANCIAL ACCOUNTING STANDARDS BOARD INTERPRETATION NO. 48

On July 13, 2006, the Financial Accounting Standards Board (FASB) released FASB Interpretation No. 48, "Accounting for Uncertainty in Income Taxes" (FIN 48). FIN 48 provides guidance for how uncertain tax positions should be recognized, measured, presented and disclosed in the financial statements. FIN 48 requires the evaluation of tax positions taken or expected to be taken in the course of preparing the Funds' tax returns to determine whether the tax positions are "more-likely-than-not" of being sustained by the applicable tax authority. Tax positions not deemed to meet the more-likely-than-not threshold would be recorded as a tax benefit or expense in the current year. Adoption of FIN 48 is required for fiscal years beginning after December 15, 2006, and is to be applied to all open tax years as of the effective date. Recent SEC guidance allows funds to delay implementing FIN 48 into NAV calculations until the fund's last NAV calculation in the first required financial statement reporting period. As a result, the Funds must begin to incorporate FIN 48 into their NAV calculations by October 31, 2007. At this time, management is continuing to evaluate the implications of FIN 48 and does not expect the adoption of FIN 48 will have a significant impact on the net assets or results of operations of the Funds.

FINANCIAL ACCOUNTING STANDARDS BOARD STATEMENT OF FINANCIAL ACCOUNTING STANDARDS NO. 157

In September 2006, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards (SFAS) No. 157, "Fair Value Measurements." This standard establishes a single authoritative definition of fair value, sets out a framework for measuring fair value and requires additional disclosures about fair value measurements. SFAS No. 157 applies to fair value measurements already required or permitted by existing standards. SFAS No. 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years. The changes to current generally accepted accounting principles from the application of this standard relate to the definition of fair value, the methods used to measure fair value, and the expanded disclosures about fair value measurements. As of April 30, 2007, the Funds do not believe the adoption of SFAS No. 157 will impact the financial statement amounts; however, additional disclosures may be required about the inputs used to develop the measurements and the effect of certain of the measurements included within the statement of Operations for the period.

AGREEMENT AND PLAN OF MERGER

On June 20, 2007, Nuveen Investments announced that it had entered into a definitive Agreement and Plan of Merger ("Merger Agreement") with an investor group majority-led by Madison Dearborn Partners, LLC. Madison Dearborn Partners, LLC is a private equity investment firm based in Chicago, Illinois. The investor group includes affiliates of Merrill Lynch, Wachovia, Citigroup, Deutsche Bank and Morgan Stanley. It is anticipated that Merrill Lynch and its affiliates will be indirect "affiliated persons" (as that term is defined in the Investment Company Act of 1940) of the Funds. Under the terms of the merger, each outstanding share of Nuveen Investments' common stock (other than dissenting shares) will be converted into the right to receive a specified amount of cash, without interest. The merger is expected to be completed by the end of the year, subject to customary conditions, including obtaining the approval of Nuveen Investments shareholders, obtaining necessary fund and client consents sufficient to satisfy the terms of the Merger Agreement, and expiration of certain regulatory waiting periods. The obligations of Madison Dearborn Partners, LLC to consummate the merger are not conditioned on its obtaining financing. The Merger Agreement includes a "go shop" provision through July 19, 2007 during which Nuveen Investments may actively solicit and negotiate competing takeover proposals.

The consummation of the merger will be deemed to be an "assignment" (as defined in the 1940 Act) of the investment management agreement between each fund and the Adviser, and will result in the automatic termination of each Fund's agreement. Prior to the consummation of the merger, it is anticipated that the Board of Directors/Trustees of each Fund will consider a new investment management agreement with the Adviser. If approved by the Board, the new agreement would be presented to the Fund's shareholders for approval, and, if so approved by shareholders, would take effect upon consummation of the merger.
There can be no assurance that the merger described above will be consummated as contemplated or that necessary shareholder approvals will be obtained.

* Annualized.
** Per share Distributions from Capital Gains to Preferred Shareholders and Capital Gains to Common Shareholders rounds to less than \(\$ .01\) per share.
*** Total Return on Market Value is the combination of changes in the market price per share and the effect of reinvested dividend income and reinvested capital gains distributions, if any, at the average price paid per share at the time of reinvestment. Total Return on Common Share Net Asset Value is the combination of changes in Common share net asset value, reinvested dividend income at net asset value and reinvested capital gains distributions at net asset value, if any. Total returns are not annualized.
**** After custodian fee credit, expense reimbursement and legal fee refund, where applicable.
\(+\quad\) The amounts shown are based on Common share equivalents.
++ Ratios do not reflect the effect of dividend payments to Preferred shareholders; income ratios reflect income earned on assets attributable to Preferred shares.
(a) For the six months ended April 30, 2007.

\author{
Reinvest Automatically \\ EASILY AND CONVENIENTLY \\ NUVEEN MAKES REINVESTING EASY. A PHONE CALL IS ALL IT TAKES TO SET UP YOUR REINVESTMENT ACCOUNT. \\ NUVEEN CLOSED-END FUNDS \\ DIVIDEND REINVESTMENT PLAN
}

Your Nuveen Closed-End Fund allows you to conveniently reinvest dividends and/or capital gains distributions in additional Fund shares.

By choosing to reinvest, you'll be able to invest money regularly and automatically, and watch your investment grow through the power of tax-free compounding. Just like dividends or distributions in cash, there may be times when income or capital gains taxes may be payable on dividends or distributions that are reinvested.

It is important to note that an automatic reinvestment plan does not ensure a profit, nor does it protect you against loss in a declining market.

\section*{EASY AND CONVENIENT}

To make recordkeeping easy and convenient, each month you'll receive a statement showing your total dividends and distributions, the date of investment, the shares acquired and the price per share, and the total number of shares you own.

\section*{HOW SHARES ARE PURCHASED}

The shares you acquire by reinvesting will either be purchased on the open market or newly issued by the Fund. If the shares are trading at or above net asset value at the time of valuation, the Fund will issue new shares at the greater of the net asset value or \(95 \%\) of the then-current market price. If the shares are trading at less than net asset value, shares for your account will be purchased on the open market. If the Plan Agent begins purchasing Fund shares on the open market while shares are trading below net asset value, but the Fund's shares subsequently trade at or above their net asset value before the Plan Agent is able to complete its purchases, the Plan Agent may cease open-market purchases and may invest the uninvested portion of the distribution in newly-issued Fund shares at a price equal to the greater of the shares' net asset value or \(95 \%\) of the shares' market value on the last business day immediately prior to the purchase date. Dividends and distributions received to purchase shares in the open market will normally be invested shortly after the dividend payment date. No interest will be paid on dividends and distributions awaiting reinvestment. Because the market price of the shares may increase before purchases are completed, the average purchase price per share may exceed the market price at the time of valuation, resulting in the acquisition of fewer shares than if the dividend or distribution had been paid in shares issued by the Fund. A pro rata portion of any applicable brokerage commissions on open market purchases will be paid by Plan participants. These commissions usually will be lower than those charged on individual transactions.

\title{
Edgar Filing: NUVEEN MUNICIPAL HIGH INCOME OPPORTUNITY FUND - Form N-CSRS
}

\author{
FLEXIBLE
}

You may change your distribution option or withdraw from the Plan at any time, should your needs or situation change. Should you withdraw, you can receive a certificate for all whole shares credited to your reinvestment account and cash payment for fractional shares, or cash payment for all reinvestment account shares, less brokerage commissions and a \(\$ 2.50\) service fee.

You can reinvest whether your shares are registered in your name, or in the name of a brokerage firm, bank, or other nominee. Ask your investment advisor if his or her firm will participate on your behalf. Participants whose shares are registered in the name of one firm may not be able to transfer the shares to another firm and continue to participate in the Plan.

The Fund reserves the right to amend or terminate the Plan at any time. Although the Fund reserves the right to amend the Plan to include a service charge payable by the participants, there is no direct service charge to participants in the Plan at this time.

\section*{CALL TODAY TO START REINVESTING DIVIDENDS AND/OR DISTRIBUTIONS}

For more information on the Nuveen Automatic Reinvestment Plan or to enroll in or withdraw from the Plan, speak with your financial advisor or call us at (800) 257-8787.

\section*{Glossary of}

TERMS USED IN THIS REPORT

AVERAGE ANNUAL TOTAL RETURN: This is a commonly used method to express an investment's performance over a particular, usually multi-year time period. It expresses the return that would have been necessary each year to equal the investment's actual cumulative performance (including change in NAV or market price and reinvested dividends and capital gains distributions, if any) over the time period being considered.

AVERAGE EFFECTIVE MATURITY: The average of the number of years to maturity of the bonds in a Fund's portfolio, computed by weighting each bond's time to maturity (the date the security comes due) by the market value of the security. This figure does not account for the likelihood of prepayments or the exercise of call provisions unless an escrow account has been established to redeem the bond before maturity. The market value weighting for an investment in an inverse floating rate security is the value of the portfolio's residual interest in the inverse floating rate trust, and does not include the value of the floating rate securities issued by the trust.

INVERSE FLOATERS: Inverse floating rate securities are created by depositing a municipal bond, typically with a fixed interest rate, into a special purpose trust created by a broker-dealer. This trust, in turn, (a) issues floating rate certificates typically paying short-term tax-exempt interest rates to third parties in amounts equal to some fraction of the deposited bond's par amount or market value, and (b) issues an inverse floating rate certificate (sometimes referred to as an "inverse floater") to an investor (such as a Fund) interested in gaining investment exposure to a long-term municipal bond. The income received by the holder of the inverse floater varies inversely with the short-term rate paid to the floating rate certificates' holders, and in most circumstances the holder of the inverse floater bears substantially all of the underlying bond's downside investment risk. The holder of the inverse floater

\title{
Edgar Filing: NUVEEN MUNICIPAL HIGH INCOME OPPORTUNITY FUND - Form N-CSRS
}
typically also benefits disproportionately from any potential appreciation of the underlying bond's value. Hence, an inverse floater essentially represents an investment in the underlying bond on a leveraged basis.

LEVERAGE-ADJUSTED DURATION: Duration is a measure of the expected period over which a bond's principal and interest will be paid, and consequently is a measure of the sensitivity of a bond's or bond Fund's value to changes when market interest rates change. Generally, the longer a bond's or Fund's duration, the more the price of the bond or Fund will change as interest rates change. Leverage-adjusted duration takes into account the leveraging process for a Fund and therefore is longer than the duration of the Fund's portfolio of bonds.

MARKET YIELD (ALSO KNOWN AS DIVIDEND YIELD OR CURRENT YIELD): An investment's current annualized dividend divided by its current market price.

NET ASSET VALUE (NAV): A Fund's common share NAV per share is calculated by subtracting the liabilities of the Fund (including any MuniPreferred shares issued in order to leverage the Fund) from its total assets and then dividing the remainder by the number of shares outstanding. Fund NAVs are calculated at the end of each business day.

TAXABLE-EQUIVALENT YIELD: The yield necessary from a fully taxable investment to equal, on an after-tax basis, the yield of a municipal bond investment.

Other Useful
INFORMATION

QUARTERLY PORTFOLIO OF INVESTMENTS AND PROXY VOTING INFORMATION

Each Fund's (i) quarterly portfolio of investments, (ii) information regarding how the Funds voted proxies relating to portfolio securities held during the 12-month period ended June 30, 2006, and (iii) a description of the policies and procedures that the Funds used to determine how to vote proxies relating to portfolio securities are available without charge, upon request, by calling Nuveen Investments toll-free at (800) \(257-8787\) or on Nuveen's website at www. nuveen. com.

You may also obtain this and other Fund information directly from the Securities and Exchange Commission ("SEC"). The SEC may charge a copying fee for this information. Visit the SEC on-line at http://www.sec.gov or in person at the SEC's Public Reference Room in Washington, D.C. Call the SEC at 1-202-942-8090 for room hours and operation. You may also request Fund information by sending an e-mail request to publicinfo@sec.gov or by writing to the SEC's Public References Section at 450 Fifth Street NW, Washington, D.C. 20549.

\section*{CEO CERTIFICATION DISCLOSURE}

For Funds listed on the New York Stock Exchange, each Fund's Chief Executive Officer has submitted to the Exchange the annual CEO certification as required by Section 303A.12(a) of the NYSE Listed Company Manual.

Each Fund has filed with the Securities and Exchange Commission the certification of its Chief Executive Officer and Chief Financial Officer required by Section 302 of the Sarbanes-Oxley Act.

Not applicable to this filing.

ITEM 8. PORTFOLIO MANAGERS OF CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

Not applicable to this filing.

ITEM 9. PURCHASES OF EQUITY SECURITIES BY CLOSED-END MANAGEMENT INVESTMENT COMPANY AND AFFILIATED PURCHASERS

Not applicable.

ITEM 10. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS.

There have been no material changes to the procedures by which shareholders may recommend nominees to the registrant's Board implemented after the registrant last provided disclosure in response to this Item.

ITEM 11. CONTROLS AND PROCEDURES.
(a) The registrant's principal executive and principal financial officers, or persons performing similar functions, have concluded that the registrant's disclosure controls and procedures (as defined in Rule \(30 a-3(c)\) under the Investment Company Act of 1940 , as amended (the "1940 Act") (17 CER 270.30a-3(c))) are effective, as of a date within 90 days of the filing date of this report that includes the disclosure required by this paragraph, based on their evaluation of the controls and procedures required by Rule \(30 \mathrm{a}-3(\mathrm{~b})\) under the 1940 Act (17 CFR \(270.30 a-3(b))\) and Rules \(13 a-15(b)\) or \(15 d-15(b)\) under the Securities Exchange Act of 1934, as amended (the "Exchange Act") (17 CFR \(240.13 a-15(b)\) or \(240.15 d-15(b))\).
(b) There were no changes in the registrant's internal control over financial reporting (as defined in Rule \(30 a-3\) (d) under the 1940 Act (17 CFR 270.30a-3(d)) that occurred during the second fiscal quarter of the period covered by this report that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting.

ITEM 12. EXHIBITS.

File the exhibits listed below as part of this form.
(a) (1) Any code of ethics, or amendment thereto, that is the subject of the disclosure required by Item 2, to the extent that the registrant intends to satisfy the Item 2 requirements through filing of an exhibit: Not applicable to this filing.
(a) (2) A separate certification for each principal executive officer and principal financial officer of the registrant as required by Rule 30a-2(a) under the 1940 Act (17 CFR 270.30a-2(a)) in the exact form set forth below: Ex-99.CERT

\title{
Edgar Filing: NUVEEN MUNICIPAL HIGH INCOME OPPORTUNITY FUND - Form N-CSRS
}
attached hereto.
(a) (3) Any written solicitation to purchase securities under Rule 23c-1 under the 1940 Act (17 CFR 270.23c-1) sent or given during the period covered by the report by or on behalf of the registrant to 10 or more persons: Not applicable.
(b) If the report is filed under Section \(13(a)\) or \(15(d)\) of the Exchange Act, provide the certifications required by Rule 30a-2 (b) under the 1940 Act (17 CFR 270.30a-2 (b)); Rule 13a-14(b) or Rule 15d-14(b) under the Exchange Act (17 CFR \(240.13 a-14(b)\) or \(240.15 d-14(b))\), and Section 1350 of Chapter 63 of Title 18 of the United States Code (18 U.S.C. 1350) as an exhibit. A certification furnished pursuant to this paragraph will not be deemed "filed" for purposes of Section 18 of the Exchange Act (15 U.S.C. 78r), or otherwise subject to the liability of that section. Such certification will not be deemed to be incorporated by reference into any filing under the Securities Act of 1933 or the Exchange Act, except to the extent that the registrant specifically incorporates it by reference. Ex-99.906 CERT attached hereto.
