NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

1. GENERAL

CERTAIN DEFINITIONS

For convenience in this report, the terms "Company," "our," "us" or "we" may be used to refer to Huntsman Corporation and, unless the context otherwise requires, its subsidiaries and predecessors. In this report, "Huntsman International" refers to Huntsman International LLC (our wholly-owned subsidiary) and, unless the context otherwise requires, its subsidiaries.

In this report, we may use, without definition, the common names of competitors or other industry participants. We may also use the common names or abbreviations for certain chemicals or products.

INTERIM FINANCIAL STATEMENTS

Our unaudited interim condensed consolidated financial statements and Huntsman International's unaudited interim condensed consolidated financial statements were prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP" or "U.S. GAAP") and in management's opinion reflect all adjustments, consisting only of normal recurring adjustments, necessary for a fair presentation of results of operations, comprehensive income, financial position and cash flows for the periods presented. Results for interim periods are not necessarily indicative of those to be expected for the full year. These unaudited condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements and notes to consolidated financial statements included in the Annual Report on Form 10-K for the year ended December 31, 2015 for our Company and Huntsman International.

DESCRIPTION OF BUSINESS

We are a global manufacturer of differentiated organic chemical products and of inorganic chemical products. Our products comprise a broad range of chemicals and formulations, which we market globally to a diversified group of consumer and industrial customers. Our products are used in a wide range of applications, including those in the adhesives, aerospace, automotive, construction products, personal care and hygiene, durable and non-durable consumer products, electronics, medical, packaging, paints and coatings, power generation, refining, synthetic fiber, textile chemicals and dye industries. We are a leading global producer in many of our key product lines, including MDI, amines, surfactants, maleic anhydride, epoxy-based polymer formulations, textile chemicals, dyes, titanium dioxide and color pigments.

We operate in five segments: Polyurethanes, Performance Products, Advanced Materials, Textile Effects, and Pigments and Additives. Our Polyurethanes, Performance Products, Advanced Materials and Textile Effects segments produce differentiated organic chemical products and our Pigments and Additives segment produces inorganic chemical products. In a series of transactions beginning in 2006, we sold or shutdown substantially all of our Australian styrenics operations and our North American polymers and base chemicals operations. We report the results of these businesses as discontinued operations.

COMPANY

Our Company, a Delaware corporation, was formed in 2004 to hold the Huntsman businesses. Jon M. Huntsman founded the predecessor to our Company in 1970 as a small packaging company.

1. GENERAL (Continued)

Since then, we have grown through a series of acquisitions and now own a global portfolio of businesses.

Currently, we operate all of our businesses through Huntsman International, our wholly-owned subsidiary. Huntsman International is a Delaware limited liability company and was formed in 1999.

HUNTSMAN CORPORATION AND HUNTSMAN INTERNATIONAL FINANCIAL STATEMENTS

Except where otherwise indicated, these notes relate to the condensed consolidated financial statements for both our Company and Huntsman International. The differences between our financial statements and Huntsman International's financial statements relate primarily to the following:

purchase accounting recorded at our Company for the 2003 step-acquisition of Huntsman International Holdings LLC, the former parent company of Huntsman International that was merged into Huntsman International in 2005;

the different capital structures; and

a note payable from Huntsman International to us.

PRINCIPLES OF CONSOLIDATION

Our condensed consolidated financial statements include the accounts of our wholly-owned and majority-owned subsidiaries and any variable interest entities for which we are the primary beneficiary. Intercompany accounts and transactions have been eliminated.

RECENT DEVELOPMENTS

Prepayment of Debt

On July 22, 2016, Huntsman International prepaid \$100 million of the 2015 extended term loan B facility due 2019 ("2015 Extended Term Loan B"). For more information, see "Note 6. Debt Direct and Subsidiary Debt."

Sale of European Surfactants Manufacturing Facilities

On July 29, 2016, Huntsman Investments (Netherlands) BV ("HIBV"), a wholly-owned subsidiary of Huntsman Corporation, entered into an Exclusivity and Put Option Agreement (the "Put Option Agreement") with Innospec International LTD ("Innospec"), a wholly-owned subsidiary of Innospec Inc. The Put Option Agreement, together with a Share and Asset Purchase Agreement in an agreed form and attached thereto as an exhibit (the "Purchase Agreement," and together with the Put Option Agreement, the "Acquisition Agreements"), set forth the terms of a commitment from Innospec to purchase HIBV's European surfactants manufacturing facilities and related assets for an enterprise value of \$225 million. Pursuant to the terms of the Acquisition Agreements, HIBV would retain its accounts receivable and certain trade payables. The purchase price would also be subject to additional working capital and other adjustments (the "Transaction"). Pursuant to the terms of the Acquisition Agreements, Innospec, upon exercise of the Put Option Agreement by HIBV and following satisfaction of closing conditions referred to below, would acquire HIBV's manufacturing facilities located in

Saint-Mihiel, France; Castiglione delle Stiviere, Italy; and Barcelona, Spain and HIBV would enter into supply and long-term tolling arrangements with Innospec to continue supplying certain surfactants and other key products globally.

The Acquisition Agreements contain customary representations, warranties, and covenants and provide for indemnification rights with respect to a breach of a representation, warranty or covenant by either party, as well as for other specified matters.

The Transaction is subject to the satisfaction or waiver of customary closing conditions, including, among others: (i) the representative bodies consultation processes required by French legislation, (ii) clearance by any applicable competition law authorities, and (iii) the absence of a change that has had or is reasonably likely to have a material adverse effect on the business. The Acquisition Agreements also contain certain customary termination rights for each of HIBV and Innospec.

The foregoing description of the terms of the Acquisition Agreements is qualified in its entirety by reference to such Agreements, which will be filed subsequently with the Securities and Exchange Commission.

The Acquisition Agreements will be included to provide investors and security holders with information regarding its terms. It is not intended to provide any other factual information about HIBV. The representations, warranties and covenants contained in the Acquisition Agreements were made only for purposes of such Agreements and as of specific dates, were solely for the benefit of the parties to such Agreements, and may be subject to limitations agreed upon by the contracting parties, including being qualified by confidential disclosures exchanged between the parties in connection with the execution of the Acquisition Agreements. The representations and warranties may have been made for the purposes of allocating contractual risk between the parties to the Acquisition Agreements instead of establishing these matters as facts, and may be subject to standards of materiality applicable to the contracting parties that differ from those applicable to investors.

USE OF ESTIMATES

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

2. RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

Accounting Pronouncements Adopted During 2016

In January 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2015-01, *Income Statement - Extraordinary and Unusual Items (Subtopic 225-20): Simplifying Income Statement Presentation by Eliminating the Concept of Extraordinary Items*, eliminating from U.S. GAAP the concept of extraordinary items. Reporting entities will no longer have to assess whether a particular event or transaction event is extraordinary. The amendments in this ASU are effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2015. We adopted the amendments in this ASU effective January 1, 2016, and the initial adoption of

2. RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS (Continued)

the amendments in this ASU did not have a significant impact on our condensed consolidated financial statements.

In February 2015, the FASB issued ASU No. 2015-02, *Consolidation (Topic 810): Amendments to the Consolidation Analysis*. The amendments in this ASU change the analysis that a reporting entity must perform to determine whether it should consolidate certain types of legal entities by placing more emphasis on risk of loss when determining a controlling financial interest. These amendments affect areas specific to limited partnerships and similar legal entities, evaluating fees paid to a decision maker or service provider as a variable interest, the effects of both fee arrangements and related parties on the primary beneficiary determination and certain investment funds. The amendments in this ASU are effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2015. We adopted the amendments in this ASU effective January 1, 2016, and the initial adoption of the amendments in this ASU did not have a significant impact on our condensed consolidated financial statements.

In April 2015, the FASB issued ASU No. 2015-05, *Intangibles - Goodwill and Other - Internal-Use Software (Subtopic 350-40): Customer's Accounting for Fees Paid in a Cloud Computing Arrangement*. The amendments in this ASU provide guidance that will help entities evaluate the accounting for fees paid by a customer in a cloud computing arrangement, including whether a cloud computing arrangement includes a software license. If a cloud computing arrangement includes a software license, then the customer should account for the software license consistent with the acquisition of other software licenses; otherwise, the customer should account for the arrangement as a service contract. The amendments in this ASU are effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2015. We adopted the amendments in this ASU effective January 1, 2016, and the initial adoption of the amendments in this ASU did not have a significant impact on our condensed consolidated financial statements.

Accounting Pronouncements Pending Adoption in Future Periods

In May 2014, the FASB issued ASU No. 2014-09, *Revenue from Contracts with Customers (Topic 606)*, outlining a single comprehensive model for entities to use in accounting for revenues arising from contracts with customers and supersedes most current revenue recognition guidance. In August 2015, the FASB issued ASU No. 2015-14, *Revenue from Contracts with Customers (Topic 606): Deferral of the Effective Date*, deferring the effective date of ASU No. 2014-09 for all entities by one year. Further, in March 2016, the FASB issued ASU No. 2016-08, *Revenue from Contracts with Customers (Topic 606): Principal versus Agent Considerations (Reporting Revenue Gross versus Net)*, clarifying the implementation guidance on principal versus agent considerations, in April 2016, the FASB issued ASU No. 2016-10, *Revenue from Contracts with Customers (Topic 606): Identifying Performance Obligations and Licensing*, clarifying the implementation guidance on identifying performance obligations in a contract and determining whether an entity's promise to grant a license provides a customer with either a right to use the entity's intellectual property (which is satisfied at a point in time) or a right to access the entity's intellectual property (which is satisfied over time), and in May 2016, the FASB issued ASU No. 2016-12, *Revenue from Customers (Topic 606): Narrow-Scope Improvements and Practical Expedients*, providing clarifications and practical expedients for certain narrow aspects in Topic 606. The amendments in these ASUs are effective for annual reporting periods

beginning after December 15, 2017, including interim periods within that reporting period. The amendments in ASU No. 2014-09, ASU No. 2016-08, ASU No. 2016-10 and ASU No. 2016-12 should be applied retrospectively, and early application is permitted. We are currently evaluating the impact of the adoption of the amendments in ASU No. 2014-09, ASU No. 2016-08, ASU No. 2016-10 and ASU No. 2016-12 on our condensed consolidated financial statements.

In July 2015, the FASB issued ASU No. 2015-11, *Inventory (Topic 330): Simplifying the Measurement of Inventory*. The amendments in this ASU do not apply to inventory that is measured using last-in first-out ("LIFO") or the retail inventory method, but rather does apply to all other inventory, which includes inventory that is measured using first-in first-out or average cost. An entity should measure in scope inventory at the lower of cost and net realizable value. Net realizable value is the estimated selling prices in the ordinary course of business, less reasonably predictable costs of completion, disposal, and transportation. Subsequent measurement is unchanged for inventory measured using LIFO or the retail inventory method. The amendments in this ASU are effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2016. The amendments in this ASU should be applied prospectively with earlier application permitted as of the beginning of an interim or annual reporting period. We do not expect the adoption of the amendments in this ASU to have a significant impact on our condensed consolidated financial statements.

In February 2016, the FASB issued ASU No. 2016-02, *Leases (Topic 842)*. The amendments in this ASU will increase transparency and comparability among entities by recognizing lease assets and lease liabilities on the balance sheet and disclosing key information about leasing arrangements. The amendments in this ASU will require lessees to recognize in the statement of financial position a liability to make lease payments (the lease liability) and a right-of-use asset representing its right to use the underlying asset for the lease term. The amendments in this ASU are effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2018. Early application of the amendments in this ASU is permitted for all entities. Reporting entities are required to recognize and measure leases under these amendments at the beginning of the earliest period presented using a modified retrospective approach. We are currently evaluating the impact of the adoption of the amendments in this ASU on our condensed consolidated financial statements.

In March 2016, the FASB issued ASU No. 2016-09, *Compensation - Stock Compensation (Topic 718): Improvements to Employee Share-Based Payment Accounting*. The amendments in this ASU simplify several aspects of the accounting for share-based payment transactions, including the income tax consequences, classification of awards as either equity or liabilities, and classification on the statement of cash flows. The amendments in this ASU are effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2016. Early adoption of the amendments in this ASU is permitted in any interim or annual period. We do not expect the adoption of the amendments in this ASU to have a significant impact on our condensed consolidated financial statements.

Table of Contents**HUNTSMAN CORPORATION AND SUBSIDIARIES****HUNTSMAN INTERNATIONAL LLC AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****3. INVENTORIES**

Inventories are stated at the lower of cost or market, with cost determined using LIFO, first-in first-out, and average cost methods for different components of inventory. Inventories consisted of the following (dollars in millions):

	June 30, 2016		December 31, 2015
Raw materials and supplies	\$ 353	\$	389
Work in progress	110		125
Finished goods	1,101		1,221
Total	1,564		1,735
LIFO reserves	(42)		(43)
Net inventories	\$ 1,522	\$	1,692

For both June 30, 2016 and December 31, 2015, approximately 9% of inventories were recorded using the LIFO cost method.

4. VARIABLE INTEREST ENTITIES

We evaluate our investments and transactions to identify variable interest entities for which we are the primary beneficiary. We hold a variable interest in the following joint ventures for which we are the primary beneficiary:

Rubicon LLC is our 50%-owned joint venture with Chemtura that manufactures products for our Polyurethanes and Performance Products segments. The structure of the joint venture is such that the total equity investment at risk is not sufficient to permit the joint venture to finance its activities without additional financial support. By virtue of the operating agreement with this joint venture, we purchase a majority of the output, absorb a majority of the operating costs and provide a majority of the additional funding.

Pacific Iron Products Sdn Bhd is our 50%-owned joint venture with Coogee Chemicals that manufactures products for our Pigments and Additives segment. In this joint venture, we supply all the raw materials through a fixed cost supply contract, operate the manufacturing facility and market the products of the joint venture to customers. Through a fixed price raw materials supply contract with the joint venture, we are exposed to risk related to the fluctuation of raw material pricing.

Arabian Amines Company is our 50%-owned joint venture with Zamil group that manufactures products for our Performance Products segment. As required in the operating agreement governing this joint venture, we purchase all of Arabian Amines Company's production and sell it to our customers. Substantially all of the joint venture's activities are conducted on our behalf.

Sasol-Huntsman is our 50%-owned joint venture with Sasol that owns and operates a maleic anhydride facility in Moers, Germany. This joint venture manufactures products for our Performance Products segment. The joint venture uses our technology and expertise, and we bear a disproportionate amount of risk of loss due to a related-party loan to Sasol-Huntsman for which we bear the default risk.

Table of Contents**HUNTSMAN CORPORATION AND SUBSIDIARIES****HUNTSMAN INTERNATIONAL LLC AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****4. VARIABLE INTEREST ENTITIES (Continued)**

Viance is our 50%-owned joint venture with Dow Chemical. Viance markets timber treatment products for our Pigments and Additives segment. The joint venture sources all of its products through a contract manufacturing arrangement at our Harrisburg, North Carolina facility, and we bear a disproportionate amount of working capital risk of loss due to the supply arrangement whereby we control manufacturing on Viance's behalf.

Creditors of these entities have no recourse to our general credit. See "Note 6. Debt - Direct and Subsidiary Debt." As the primary beneficiary of these variable interest entities at June 30, 2016, the joint ventures' assets, liabilities and results of operations are included in our condensed consolidated financial statements.

The following table summarizes the carrying amount of our variable interest entities' assets and liabilities included in our condensed consolidated balance sheets, before intercompany eliminations, as of June 30, 2016 and our consolidated balance sheets as of December 31, 2015 (dollars in millions):

2016 RESTRUCTURING ACTIVITIES

In December 2015, our Performance Products segment announced plans for a reorganization of its commercial and technical functions and a refocused divisional business strategy to better position the segment for growth in coming years. In addition, a program was launched to capture growth opportunities, improve manufacturing cost efficiency and reduce inventories. In connection with this restructuring program, we recorded restructuring expense of \$10 million in the six months ended June 30, 2016.

On September 27, 2011, we announced plans to implement a significant restructuring of our Textile Effects segment, including the closure of our production facilities and business support offices in Basel, Switzerland, as part of an ongoing strategic program aimed at improving the Textile Effects segment's long-term global competitiveness. In connection with this plan, during the six months ended June 30, 2016, our Textile Effects segment recorded charges of \$1 million for non-cancelable long-term contract termination costs, \$1 million for decommissioning and \$2 million in other restructuring costs associated with this initiative.

On December 1, 2014, we announced a comprehensive restructuring program to improve the global competitiveness of our Pigments and Additives segment. As part of the program, we are reducing our workforce by approximately 900 positions. In connection with this restructuring program, we recorded restructuring expense of \$4 million in the six months ended June 30, 2016.

On March 4, 2015, we announced plans to restructure our color pigments business, another step in our comprehensive restructuring program in our Pigments and Additives segment, and recorded restructuring expense of approximately \$8 million in the six months ended June 30, 2016.

On July 6, 2016, we announced plans to close our Pigments and Additives segment's South African titanium dioxide manufacturing facility. As part of the program, we recorded restructuring expense of approximately \$3 million in the six months ended June 30, 2016. Additionally, we recorded an impairment charge of \$1 million during the second quarter of 2016. The majority of the long-lived assets associated with this manufacturing facility were impaired in the fourth quarter of 2015.

5. RESTRUCTURING, IMPAIRMENT AND PLANT CLOSING COSTS (Continued)

In connection with planned restructuring activities, our Pigments and Additives segment recorded accelerated depreciation as restructuring expense of \$7 million during the six months ended June 30, 2016.

2015 RESTRUCTURING ACTIVITIES

In June 2015, our Polyurethanes segment announced a restructuring program in Europe. In connection with this restructuring program, we recorded restructuring expense of \$13 million in the six months ended June 30, 2015 related primarily to workforce reductions.

In June 2015, our Advanced Materials segment initiated a restructuring program in Europe. In connection with this restructuring program, we recorded restructuring expense of \$6 million in the six months ended June 30, 2015 related primarily to workforce reductions and accelerated depreciation recorded as restructuring, impairment and plant closing costs.

On September 27, 2011, we announced plans to implement a significant restructuring of our Textile Effects segment, including the closure of our production facilities and business support offices in Basel, Switzerland, as part of an ongoing strategic program aimed at improving the Textile Effects segment's long-term global competitiveness. In connection with this plan, during the six months ended June 30, 2015, our Textile Effects segment recorded charges of \$5 million for non-cancelable long-term contract termination costs, \$3 million for decommissioning and \$2 million in other restructuring costs associated with this initiative.

On December 1, 2014, we announced that we are taking significant action to improve the global competitiveness of our Pigments and Additives segment. As part of a comprehensive restructuring program, we plan to reduce our workforce by approximately 900 positions. In connection with this restructuring program, during the six months ended June 30, 2015, our Pigments and Additives segment recorded charges of \$50 million for workforce reductions, \$3 million for pension related charges and \$7 million in other restructuring costs associated with this initiative.

On February 12, 2015, we announced a plan to close the 'black end' manufacturing operations and ancillary activities at our Calais, France site, which will reduce our titanium dioxide capacity by approximately 100 kilotons, or 13% of our European titanium dioxide capacity. In connection with this announcement, we began to accelerate depreciation on the affected assets and recorded accelerated depreciation in the six months ended June 30, 2015 of \$73 million as restructuring, impairment and plant closing costs. In addition, during the six months ended June 30, 2015, we recorded charges of \$23 million for workforce reductions and non-cash charges of \$10 million.

On March 4, 2015, we announced plans to restructure our color pigments business, another step in our previously announced plan to significantly restructure our global Pigments and Additives segment, and recorded restructuring expense of approximately \$4 million in the six months ended June 30, 2015 related to workforce reductions.

Huntsman Corporation's direct debt and guarantee obligations consist of a guarantee of certain indebtedness incurred from time to time to finance certain insurance premiums. Substantially all of our other debt, including the facilities described below, has been incurred by our subsidiaries (primarily Huntsman International). Huntsman Corporation is not a guarantor of such subsidiary debt.

Certain of our subsidiaries are designated as nonguarantor subsidiaries ("Nonguarantors") and have third-party debt agreements. These debt agreements contain certain restrictions with regard to dividends, distributions, loans or advances. In certain circumstances, the consent of a third party would be required prior to the transfer of any cash or assets from these subsidiaries to us.

Debt Issuance Costs

We record debt issuance costs related to a debt liability on the balance sheet as a reduction in the face amount of that debt liability. As of June 30, 2016 and December 31, 2015, the amount of debt issuance costs directly reducing the debt liability was \$64 million and \$67 million, respectively. We record the amortization of debt issuance costs as interest expense.

Senior Credit Facilities

As of June 30, 2016, our senior credit facilities ("Senior Credit Facilities") consisted of our revolving credit facility ("Revolving Facility"), our 2015 Extended Term Loan B, our 2014 term loan B facility due 2021 ("2014 Term Loan B"), and our 2016 term loan B facility due 2023 ("2016 Term Loan B") (dollars in millions):

Facility	Committed Amount	Principal Outstanding	Unamortized Discounts and Debt Issuance Costs	Carrying Value	Interest Rate(3)	Maturity
Revolving Facility(1)	\$ 650	\$	\$	\$	USD LIBOR plus 3.00%	2021

2016 Term Loan B	N/A	549	(8)	541	USD LIBOR plus 3.50%(2)	2023

(1) We had no borrowings outstanding under our Revolving Facility; we had approximately \$16 million (U.S. dollar equivalents) of letters of credit and bank guarantees issued and outstanding under our Revolving Facility.

(2) The 2014 Term Loan B and the 2016 Term Loan B are subject to a 0.75% LIBOR floor.

(3) The applicable interest rate of the Senior Credit Facilities is subject to certain secured leverage ratio thresholds. As of June 30, 2016, the weighted average interest rate on our outstanding balances under the Senior Credit Facilities was approximately 4%.

6. DEBT (Continued)

Our obligations under the Senior Credit Facilities are guaranteed by substantially all of our domestic subsidiaries and certain of our foreign subsidiaries (collectively, the "Guarantors"), and are secured by a first priority lien on substantially all of our domestic property, plant and equipment, the stock of all of our material domestic subsidiaries and certain foreign subsidiaries, and pledges of intercompany notes between certain of our subsidiaries.

On July 22, 2016, Huntsman International prepaid \$100 million of the 2015 Extended Term Loan B.

Amendment to the Credit Agreement

On April 1, 2016, Huntsman International entered into a fifteenth amendment to the agreement governing the Senior Credit Facilities (the "Credit Agreement"). The amendment provides for a new term loan facility, the 2016 Term Loan B, to refinance existing term loans pursuant to the Credit Agreement in an aggregate principal amount of \$550 million. The net proceeds of the 2016 Term Loan B were used to repay in full Huntsman International's extended term loan B due 2017, our extended term loan B series 2 due 2017 and our term loan C due 2016 ("Term Loan C"). In connection with these repayments, we recorded a loss on early extinguishment of debt of approximately \$2 million in the second quarter of 2016.

The 2016 Term Loan B matures on April 1, 2023, provided that the maturity date will accelerate if we do not repay, refinance or have a minimum level of liquidity available to enable us to repay certain of our senior notes upon maturity. The 2016 Term Loan B is subject to the same terms and conditions as our existing senior secured term loan facilities.

The 2016 Term Loan B bears interest at an interest rate margin of LIBOR plus 3.50% (subject to a 0.75% floor) and amortizes in annual amounts equal to 1% of the principal amount of the 2016 Term Loan B, payable quarterly commencing on June 30, 2016.

The amendment also extends the stated termination date of our Revolving Facility from March 20, 2017 to March 20, 2021, provided that the maturity date will accelerate if we do not repay, refinance or have a minimum level of liquidity available to enable us to repay our 2015 Term Loan B due 2019 or our senior notes upon their maturity. The amendment further increased the committed amount of our Revolving Facility by \$25 million (from \$625 million to \$650 million). Borrowings under the Revolving Facility bear interest at the same rate as the existing revolving commitments. As of June 30, 2016 we had no borrowings under our Revolving Facility.

A/R Programs

Our U.S. accounts receivable securitization program ("U.S. A/R Program") and our European accounts receivable securitization program ("EU A/R Program" and collectively with the U.S. A/R Program, "A/R Programs") are structured so that we transfer certain of our trade receivables to the U.S. special purpose entity ("U.S. SPE") and the European special purpose entity ("EU SPE") in transactions intended to be true sales or true contributions. The receivables collateralize debt

incurred by the U.S. SPE and the EU SPE. Information regarding our A/R Programs as of June 30, 2016 was as follows (monetary amounts in millions):

Facility	Maturity	Maximum Funding Availability(1)	Amount Outstanding	Interest Rate(2)
U.S. A/R Program	March 2018	\$250	\$90(3)	Applicable rate plus 0.95%
EU A/R Program	March 2018	€225 (approximately \$249)	€114 (approximately \$126)	Applicable rate plus 1.10%

- (1) The amount of actual availability under our A/R Programs may be lower based on the level of eligible receivables sold, changes in the credit ratings of our customers, customer concentration levels and certain characteristics of the accounts receivable being transferred, as defined in the applicable agreements.
- (2) The applicable rate for our U.S. A/R Program is defined by the lender as either USD LIBOR or CP rate. The applicable rate for our EU A/R Program is either GBP LIBOR, USD LIBOR or EURIBOR. In addition, the U.S. SPE and the EU SPE are obligated to pay unused commitment fees to the lenders based on the amount of each lender's commitment.
- (3) As of June 30, 2016, we had approximately \$7 million (U.S. dollar equivalents) of letters of credit issued and outstanding under our U.S. A/R Program.

As of June 30, 2016 and December 31, 2015, \$492 million and \$438 million, respectively, of accounts receivable were pledged as collateral under our A/R Programs.

Redemption of Notes and Loss on Early Extinguishment of Debt

During the six months ended June 30, 2015, we redeemed or repurchased the following notes (dollars in millions):

Note Payable from Huntsman International to Huntsman Corporation

As of June 30, 2016, we had a loan of \$796 million to our subsidiary, Huntsman International (the "Intercompany Note"). The Intercompany Note is unsecured and \$100 million of the outstanding amount is classified as current as of June 30, 2016 on our condensed consolidated balance sheets. As of June 30, 2016, under the terms of the Intercompany Note, Huntsman International promises to pay us interest

on the unpaid principal amount at a rate per annum based on the previous monthly average borrowing rate obtained under our U.S. A/R Program, less 10 basis points (provided that the rate shall not exceed an amount that is 25 basis points less than the monthly average borrowing rate obtained for the U.S. LIBOR-based borrowings under our Revolving Facility).

COMPLIANCE WITH COVENANTS

We believe that we are in compliance with the covenants contained in the agreements governing our material debt instruments, including our Senior Credit Facilities, our A/R Programs and our notes.

Our material financing arrangements contain certain covenants with which we must comply. A failure to comply with a covenant could result in a default under a financing arrangement unless we obtained an appropriate waiver or forbearance (as to which we can provide no assurance). A default under these material financing arrangements generally allows debt holders the option to declare the underlying debt obligations immediately due and payable. Furthermore, certain of our material financing arrangements contain cross-default and cross-acceleration provisions under which a failure to comply with the covenants in one financing arrangement may result in an event of default under another financing arrangement.

Our Senior Credit Facilities are subject to a single financial covenant (the "Leverage Covenant"), which applies only to the Revolving Facility and is calculated at the Huntsman International level. The Leverage Covenant is applicable only if borrowings, letters of credit or guarantees are outstanding under the Revolving Facility (cash collateralized letters of credit or guarantees are not deemed outstanding). The Leverage Covenant is a net senior secured leverage ratio covenant, which requires that Huntsman International's ratio of senior secured debt to EBITDA (as defined in the applicable agreement) is not more than 3.75 to 1.

If in the future Huntsman International fails to comply with the Leverage Covenant, then we may not have access to liquidity under our Revolving Facility. If Huntsman International failed to comply with the Leverage Covenant at a time when we had uncollateralized loans or letters of credit outstanding under the Revolving Facility, Huntsman International would be in default under the Senior Credit Facilities, and, unless Huntsman International obtained a waiver or forbearance with respect to such default (as to which we can provide no assurance), Huntsman International could be required to pay off the balance of the Senior Credit Facilities in full, and we may not have further access to such facilities.

The agreements governing our A/R Programs also contain certain receivable performance metrics. Any material failure to meet the applicable A/R Programs' metrics in the future could lead to an early termination event under the A/R Programs, which could require us to cease our use of such facilities, prohibiting us from additional borrowings against our receivables or, at the discretion of the lenders, requiring that we repay the A/R Programs in full. An early termination event under the A/R Programs would also constitute an event of default under our Senior Credit Facilities, which could require us to pay off the balance of the Senior Credit Facilities in full and could result in the loss of our Senior Credit Facilities.

7. DERIVATIVE INSTRUMENTS AND HEDGING ACTIVITIES

We are exposed to market risks, such as changes in interest rates, foreign exchange rates and commodity pricing risks. From time to time, we enter into transactions, including transactions involving derivative instruments, to manage certain of these exposures.

Table of Contents**HUNTSMAN CORPORATION AND SUBSIDIARIES****HUNTSMAN INTERNATIONAL LLC AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****7. DERIVATIVE INSTRUMENTS AND HEDGING ACTIVITIES (Continued)**

All derivatives, whether designated as hedging relationships or not, are recorded on our balance sheet at fair value. If the derivative is designated as a fair value hedge, the changes in the fair value of the derivative and the hedged items are recognized in earnings. If the derivative is designated as a cash flow hedge, changes in the fair value of the derivative are recorded in accumulated other comprehensive loss, to the extent effective, and will be recognized in the income statement when the hedged item affects earnings. To the extent applicable, we perform effectiveness assessments in order to use hedge accounting at each reporting period. For a derivative that does not qualify as a hedge, changes in fair value are recognized in earnings.

We also hedge our net investment in certain European operations. Changes in the fair value of the hedge in the net investment of certain European operations are recorded as an unrealized currency translation adjustment in accumulated other comprehensive loss.

Our revenues and expenses are denominated in various foreign currencies, and our cash flows and earnings are thus subject to fluctuations due to exchange rate variations. From time to time, we may enter into foreign currency derivative instruments to minimize the short-term impact of movements in foreign currency rates. Where practicable, we generally net multicurrency cash balances among our subsidiaries to help reduce exposure to foreign currency exchange rates. Certain other exposures may be managed from time to time through financial market transactions, principally through the purchase of spot or forward foreign exchange contracts (generally with maturities of one year or less). We do not hedge our foreign currency exposures in a manner that would eliminate the effect of changes in exchange rates on our cash flows and earnings. As of June 30, 2016, we had approximately \$168 million in notional amount (in U.S. dollar equivalents) outstanding in forward foreign currency contracts.

Huntsman International has entered into two interest rate contracts to hedge the variability caused by monthly changes in cash flow due to associated changes in LIBOR under our Senior Credit Facilities. These swaps are designated as cash flow hedges and the effective portion of the changes in the fair value of the swaps are recorded in other comprehensive income (loss) (dollars in millions):

June 30, 2016					
Notional Value	Effective Date	Maturity	Fixed Rate	Fair Value	
\$ 50	December 2014	April 2017	2.5%	\$1 current liability	
50	January 2015	April 2017	2.5%	1 current liability	

Beginning in 2009, Arabian Amines Company entered into a 12-year floating to fixed interest rate contract providing for a receipt of LIBOR interest payments for a fixed payment of 5.02%. In connection with the consolidation of Arabian Amines Company as of July 1, 2010, the interest rate contract is now included in our consolidated results. See "Note 4. Variable Interest Entities." The notional amount of the swap as of June 30, 2016 was \$22 million, and the interest rate contract is not designated as a cash flow hedge. As of June 30, 2016, the fair value of the swap was \$2 million and was recorded in noncurrent liabilities on our condensed consolidated balance sheets. For each of the three and six months ended June 30, 2016, we recorded a reduction of interest expense of nil due to changes in fair value of the swap.

7. DERIVATIVE INSTRUMENTS AND HEDGING ACTIVITIES (Continued)

In November 2014, we entered into two five year cross-currency interest rate contracts and one eight year cross-currency interest rate contract to swap an aggregate notional \$200 million for an aggregate notional €161 million. This swap is designated as a hedge of net investment for financial reporting purposes. Under the cross-currency interest rate contract, we will receive fixed U.S. dollar payments of \$5 million semiannually on May 15 and November 15 (equivalent to an annual rate of 5.125%) and make interest payments of approximately €3 million (equivalent to an annual rate of approximately 3.6%). As of June 30, 2016, the fair value of this swap was \$26 million and was recorded in noncurrent assets on our condensed consolidated balance sheets.

In March 2010, we entered into three five year cross-currency interest rate contracts to swap an aggregate notional \$350 million for an aggregate notional €255 million. This swap was designated as a hedge of net investment for financial reporting purposes. During the six months ended June 30, 2015, we terminated these cross-currency interest rate contracts and received \$66 million in payments from the counterparties.

A portion of our debt is denominated in euros. We also finance certain of our non-U.S. subsidiaries with intercompany loans that are, in many cases, denominated in currencies other than the entities' functional currency. We manage the net foreign currency exposure created by this debt through various means, including cross-currency swaps, the designation of certain intercompany loans as permanent loans because they are not expected to be repaid in the foreseeable future and the designation of certain debt and swaps as net investment hedges.

Foreign currency transaction gains and losses on intercompany loans that are not designated as permanent loans are recorded in earnings. Foreign currency transaction gains and losses on intercompany loans that are designated as permanent loans are recorded in other comprehensive (loss) income on our condensed statements of comprehensive income (loss). From time to time, we review such designation of intercompany loans.

We review our non-U.S. dollar denominated debt and derivative instruments to determine the appropriate amounts designated as hedges. As of June 30, 2016, we have designated approximately €651 million (approximately \$721 million) of euro-denominated debt and cross-currency interest rate contracts as a hedge of our net investment. For the three and six months ended June 30, 2016, the amount of gain (loss) recognized on the hedge of our net investment was \$14 million and \$(7) million, respectively, and was recorded in other comprehensive (loss) income on our condensed consolidated statements of comprehensive income (loss).

The carrying amounts reported in our condensed consolidated balance sheets of cash and cash equivalents, accounts receivable and accounts payable approximate fair value because of the immediate or short-term maturity of these financial instruments. The fair values of non-qualified employee benefit plan investments and investments in equity securities are obtained through market observable pricing using prevailing market prices. The estimated fair values of our long-term debt are based on quoted market prices for the identical liability when traded as an asset in an active market (Level 1).

The fair value estimates presented herein are based on pertinent information available to management as of June 30, 2016 and December 31, 2015. The estimated fair value amounts have not been comprehensively revalued for purposes of these financial statements since June 30, 2016 and current estimates of fair value may differ significantly from the amounts presented herein.

- (1) As of April 1, 2015, we no longer exercise significant influence in our investment in Nippon Aqua Co., Ltd., for which we previously accounted using the equity method. Consequently, we now account for this investment at fair value as an available-for-sale equity security.
- (2) The income approach is used to calculate the fair value of these instruments. Fair value represents the present value of estimated future cash flows, calculated using relevant interest rates, exchange rates, and yield curves at stated intervals. There were no material changes to the valuation methods or assumptions used to determine the fair value during the current period.
- In November 2014, we entered into two five year cross-currency interest rate contracts and one eight year cross-currency interest rate contract. These instruments have been categorized by us as Level 3 within the fair value hierarchy due to unobservable inputs associated with the credit valuation adjustment, which we deemed to be significant inputs to the overall measurement of fair value at inception.

During the six months ended June 30, 2016 and 2015, we made contributions to our pension and other postretirement benefit plans of \$38 million and \$55 million, respectively. During the remainder of 2016, we expect to contribute an additional amount of approximately \$36 million to these plans.

10. HUNTSMAN CORPORATION STOCKHOLDERS' EQUITY**SHARE REPURCHASE PROGRAM**

Edgar Filing: Huntsman CORP - Form 10-Q

On September 29, 2015, our Board of Directors authorized our Company to repurchase up to \$150 million in shares of Huntsman Corporation common stock. Repurchases under this program may be made through open market transactions, in privately negotiated transactions, through accelerated share repurchase programs or by other means. The timing and actual number of shares repurchased depends on a variety of factors, including market conditions. The share repurchase authorization does not have an expiration date and repurchases may be commenced, suspended or discontinued from time

to time without prior notice. On October 27, 2015, we entered into and funded an accelerated share repurchase agreement to repurchase \$100 million of our common stock that was completed in January 2016 with the purchase of 8.6 million shares. During the three months ended June 30, 2016, we did not repurchase any shares of our outstanding common stock under the repurchase program. As of June 30, 2016, there remained approximately \$50 million of the amount authorized under the program that can be used for repurchases.

COMMON STOCK DIVIDENDS

During each of the quarters ended June 30, 2016 and March 31, 2016, we paid dividends of \$30 million, or \$0.125 per share, to common stockholders and during each of the quarters ended June 30, 2015 and March 31, 2015, we paid cash dividends of \$31 million, or \$0.125 per share, to common stockholders.

12. COMMITMENTS AND CONTINGENCIES

LEGAL MATTERS

Antitrust Matters

We were named as a defendant in consolidated class action civil antitrust suits filed on February 9 and 12, 2010 in the U.S. District Court for the District of Maryland alleging that we and our co-defendants and other alleged co-conspirators conspired to fix prices of titanium dioxide sold in the U.S. between at least March 1, 2002 and the present. The other defendants named in this matter were DuPont, Kronos and Cristal (formerly Millennium). On August 28, 2012, the court certified a class consisting of all U.S. customers who purchased titanium dioxide directly from the defendants (the "Direct Purchasers") since February 1, 2003. On December 13, 2013, we and all other defendants settled the Direct

Edgar Filing: Huntsman CORP - Form 10-Q

Purchasers litigation and the court approved the settlement. We paid the settlement in an amount immaterial to our condensed consolidated financial statements.

On November 22, 2013, we were named as a defendant in a civil antitrust suit filed in the U.S. District Court for the District of Minnesota brought by a Direct Purchaser who opted out of the Direct Purchasers class litigation (the "Opt-Out Litigation"). On April 21, 2014, the court severed the claims against us from the other defendants sued and ordered our case transferred to the U.S. District Court for the Southern District of Texas. Subsequently, Kronos, another defendant, was also severed from the Minnesota case and claims against it were transferred and consolidated for trial with our case in the Southern District of Texas. On February 26, 2016, we reached an agreement to settle the Opt-Out

Litigation for an amount immaterial to our condensed consolidated financial statements. The case was subsequently dismissed on March 9, 2016.

We were also named as a defendant in a class action civil antitrust suit filed on March 15, 2013 in the U.S. District Court for the Northern District of California by the purchasers of products made from titanium dioxide (the "Indirect Purchasers") making essentially the same allegations as did the Direct Purchasers. On October 14, 2014, plaintiffs filed their Second Amended Class Action Complaint narrowing the class of plaintiffs to those merchants and consumers of architectural coatings containing titanium dioxide. On August 11, 2015, the court granted our motion to dismiss the Indirect Purchasers litigation with leave to amend the complaint. A Third Amended Class Action Complaint was filed on September 29, 2015 further limiting the class to consumers of architectural paints. Plaintiffs have raised state antitrust claims under the laws of 15 states, consumer protection claims under the laws of 9 states, and unjust enrichment claims under the laws of 16 states. On November 4, 2015, we and our co-defendants filed another motion to dismiss. On June 13, 2016, the court substantially denied the motion to dismiss except as to consumer protection claims in one state. The Indirect Purchasers plaintiffs seek to recover injunctive relief, treble damages or the maximum damages allowed by state law, costs of suit and attorneys' fees. We are not aware of any illegal conduct by us or any of our employees. Nevertheless, we have incurred costs relating to this claim and could incur additional costs in amounts which in the aggregate could be material to us. Because of the overall complexity of this case, we are unable to reasonably estimate any possible loss or range of loss and we have made no accrual with respect to this claim.

Product Delivery Claim

We have been notified by a customer of potential claims related to our alleged delivery of a different product than the one the customer had ordered. Our customer claims that it was unaware that the different product had been delivered until after that product had been used to manufacture materials which were subsequently sold. Originally, the customer stated that it had been notified of claims by its customers of up to an aggregate of €153 million (approximately \$169 million) relating to this matter and claimed that we may be responsible for all or a portion of these potential claims. Our customer has since resolved some of these claims and the aggregate amount of the current claims is now approximately €113 million (approximately \$125 million). Based on the facts currently available, we believe that we are insured for any liability we may ultimately have in excess of \$10 million. However, no assurance can be given regarding our ultimate liability or costs. We believe our range of possible loss in this matter is between €0 and €113 million (approximately \$125 million), and we have made no accrual with respect to this matter.

Indemnification Matters

On July 3, 2012, Deutsche Bank Securities Inc. and Credit Suisse Securities (USA) LLC ("the Banks") demanded that we indemnify them for claims brought against them by certain MatlinPatterson entities that were formerly our stockholders ("MatlinPatterson") in litigation filed by MatlinPatterson on June 19, 2012 in the 9th District Court in Montgomery County, Texas (the "Texas Litigation"). These claims allegedly arose from the failed acquisition by and merger with Hexion. The Texas Litigation was dismissed, which was upheld by the Ninth Court of Appeals and the Texas Supreme Court denied review by final order entered January 7, 2016.

12. COMMITMENTS AND CONTINGENCIES (Continued)

On July 14, 2014, the Banks demanded that we indemnify them for additional claims brought against them by certain other former Company stockholders in litigation filed June 14, 2014 in the United States District Court for the Eastern District of Wisconsin (the "Wisconsin Litigation"). The stockholders in the Wisconsin Litigation have made essentially the same factual allegations as MatlinPatterson made in the Texas Litigation and, additionally, have named Apollo Global Management LLC and Apollo Management Holdings, L.P. as defendants. Stockholder plaintiffs in the Wisconsin Litigation assert claims for misrepresentation and conspiracy to defraud. On June 30, 2016, the plaintiffs voluntarily dismissed the Apollo defendants and filed responses to the Banks' previously filed motions to dismiss. We denied the Banks' indemnification demand for both the Texas Litigation and the Wisconsin Litigation.

Other Proceedings

We are a party to various other proceedings instituted by private plaintiffs, governmental authorities and others arising under provisions of applicable laws, including various environmental, products liability and other laws. Except as otherwise disclosed in this report, we do not believe that the outcome of any of these matters will have a material effect on our financial condition, results of operations or liquidity.

13. ENVIRONMENTAL, HEALTH AND SAFETY MATTERS

EHS CAPITAL EXPENDITURES

We may incur future costs for capital improvements and general compliance under EHS laws, including costs to acquire, maintain and repair pollution control equipment. For the six months ended June 30, 2016 and 2015, our capital expenditures for EHS matters totaled \$22 million and \$56 million, respectively. Because capital expenditures for these matters are subject to evolving regulatory requirements and depend, in part, on the timing, promulgation and enforcement of specific requirements, our capital expenditures for EHS matters have varied significantly from year to year and we cannot provide assurance that our recent expenditures are indicative of future amounts we may spend related to EHS and other applicable laws.

ENVIRONMENTAL RESERVES

We have accrued liabilities relating to anticipated environmental cleanup obligations, site reclamation and closure costs and known penalties. Liabilities are recorded when potential liabilities are either known or considered probable and can be reasonably estimated. Our liability estimates are calculated using present value techniques as appropriate and are based upon requirements placed upon us by regulators, available facts, existing technology and past experience. The environmental liabilities do not include amounts recorded as asset retirement obligations. We had accrued \$38 million for environmental liabilities as of both June 30, 2016 and December 31, 2015. Of these amounts, \$5 million and \$6 million were classified as accrued liabilities in our consolidated balance sheets as of June 30, 2016 and December 31, 2015, respectively, and \$33 million and \$32 million were classified as other noncurrent liabilities in our consolidated balance sheets for June 30, 2016 and December 31, 2015, respectively. In certain cases, our remediation liabilities may be payable over periods of up to 30 years.

13. ENVIRONMENTAL, HEALTH AND SAFETY MATTERS (Continued)

We may incur losses for environmental remediation in excess of the amounts accrued; however, we are not able to estimate the amount or range of such potential excess.

ENVIRONMENTAL MATTERS

Under the Comprehensive Environmental Response, Compensation, and Liability Act ("CERCLA") and similar state laws, a current or former owner or operator of real property in the U.S. may be liable for remediation costs regardless of whether the release or disposal of hazardous substances was in compliance with law at the time it occurred, and a current owner or operator may be liable regardless of whether it owned or operated the facility at the time of the release. Outside the U.S., analogous contaminated property laws, such as those in effect in France and Australia, can hold past owners and/or operators liable for remediation at former facilities. Currently, there are approximately 10 former facilities or third-party sites in the U.S. for which we have been notified of potential claims against us for cleanup liabilities, including, but not limited to, sites listed under CERCLA. Based on current information and past experiences at other CERCLA sites, we do not expect these third-party claims to have a material impact on our condensed consolidated financial statements.

Under the Resource Conservation and Recovery Act ("RCRA") in the U.S. and similar state laws, we may be required to remediate contamination originating from our properties as a condition to our hazardous waste permit. Some of our manufacturing sites have an extended history of industrial chemical manufacturing and use, including on-site waste disposal. We are aware of soil, groundwater or surface contamination from past operations at some of our sites, and we may find contamination at other sites in the future. For example, our Port Neches, Texas, and Geismar, Louisiana, facilities are the subject of ongoing remediation requirements imposed under RCRA. Similar laws exist in a number of locations in which we currently operate, or previously operated, manufacturing facilities, such as Australia, India, France, Hungary and Italy.

West Footscray Remediation

By letter dated March 7, 2006, our former Base Chemicals and Polymers facility in West Footscray, Australia was issued a cleanup notice by the Environmental Protection Authority Victoria ("EPA Victoria") due to concerns about soil and groundwater contamination emanating from the site. On August 23, 2010, EPA Victoria revoked a second cleanup notice and issued a revised notice that included a requirement for financial assurance for the remediation. As of June 30, 2016, we had an accrued liability of approximately \$16 million related to estimated environmental remediation costs at this site. We can provide no assurance that the authority will not seek to institute additional requirements for the site or that additional costs will not be required for the cleanup.

North Maybe Mine Remediation

The North Maybe Canyon Mine site is a CERCLA site and involves a former phosphorous mine near Soda Springs, Idaho, which is believed to have been operated by several companies, including a predecessor company to us. In 2004, the U.S. Forest Service notified us that we are a CERCLA potentially responsible party ("PRP") for contamination originating from the site. In February 2010, we and Wells Cargo (another PRP) agreed to conduct a Remedial Investigation/Feasibility Study of a

portion of the site and are currently engaged in that process. At this time, we are unable to reasonably estimate our potential liabilities at this site.

Port Neches Flaring Matter

As part of the Environmental Protection Agency's (the "EPA") national enforcement initiative on flaring operations and by letter dated October 12, 2012, the U.S. Department of Justice (the "DOJ") notified us that we were in violation of the Clear Air Act ("CAA") based on our response to a 2010 CAA Section 114 Information Request. The EPA has used the enforcement initiative to bring similar actions against refiners and other chemical manufacturers and has sought to collect civil penalties in excess of \$100,000. Specifically, the EPA alleged violations at our Port Neches, Texas facility from 2007-2012 for flare operations not consistent with good pollution control practice and not in compliance with certain flare-related regulations. As a result of these findings, the EPA referred this matter to the DOJ. We provided a formal response to the DOJ and the EPA with a supplemental data submission on April 29, 2013. We have been engaged in discussions with the DOJ and the EPA regarding these alleged violations and conducted field trials on an alternate flare monitoring method beginning in September 2014. We are currently unable to determine the likelihood or magnitude of any potential penalty or injunctive relief that may be incurred in resolving this matter.

14. STOCK-BASED COMPENSATION PLANS

On May 5, 2016, our stockholders approved a new Huntsman Corporation 2016 Stock Incentive Plan (the "2016 Stock Incentive Plan"), which reserved 8.2 million shares for issuance. The Huntsman Corporation Stock Incentive Plan, as amended and restated (the "Prior Plan"), remains in effect for outstanding awards granted pursuant to the Prior Plan, but no further awards may be granted under the Prior Plan. Under the 2016 Stock Incentive Plan we may grant nonqualified stock options, incentive stock options, stock appreciation rights, restricted stock, phantom stock, performance share units and other stock-based awards to our employees, directors and consultants and to employees and consultants of our subsidiaries, provided that incentive stock options may be granted solely to employees. The terms of the grants under both the 2016 Stock Incentive Plan and the Prior Plan are fixed at the grant date. As of June 30, 2016, we were authorized to grant up to 8.2 million shares under the 2016 Stock Incentive Plan. As of June 30, 2016, we had approximately 8 million shares remaining under the 2016 Stock Incentive Plan available for grant. Option awards have a maximum contractual term of 10 years and generally must have an exercise price at least equal to the market price of our common stock on the date the option award is granted. Outstanding stock-based awards generally vest over a three-year period; certain performance share unit awards vest over a two-year period.

The compensation cost from continuing operations under the 2016 Stock Incentive Plan and the Prior Plan for our Company and Huntsman International were as follows (dollars in millions):

	Three months ended June 30,		Six months ended June 30,	
	2016	2015	2016	2015
Huntsman Corporation compensation cost	\$ 9	\$ 8	\$ 17	\$ 17

Table of Contents**HUNTSMAN CORPORATION AND SUBSIDIARIES****HUNTSMAN INTERNATIONAL LLC AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****14. STOCK-BASED COMPENSATION PLANS (Continued)**

The total income tax benefit recognized in the statements of operations for us and Huntsman International for stock-based compensation arrangements was \$3 million each for the six months ended June 30, 2016 and 2015.

STOCK OPTIONS

The fair value of each stock option award is estimated on the date of grant using the Black-Scholes valuation model that uses the assumptions noted in the following table. Expected volatilities are based on the historical volatility of our common stock through the grant date. The expected term of options granted was estimated based on the contractual term of the instruments and employees' expected exercise and post-vesting employment termination behavior. The risk-free rate for periods within the contractual life of the option was based on the U.S. Treasury yield curve in effect at the time of grant. The assumptions noted below represent the weighted average of the assumptions utilized for stock options granted during the periods.

	Three months ended June 30,		Six months ended June 30,	
	2016	2015	2016	2015
Dividend yield	3.3%	N/A	5.6%	2.2%
Expected volatility	57.7%	N/A	57.9%	58.0%
Risk-free interest rate	1.5%	N/A	1.4%	1.4%
Expected life of stock options granted during the period	5.9 years	N/A	5.9 years	5.9 years

During the three months ended June 30, 2015, no stock options were granted.

A summary of stock option activity under the 2016 Stock Incentive Plan and the Prior Plan as of June 30, 2016 and changes during the six months then ended is presented below:

The weighted-average grant-date fair value of stock options granted during the six months ended June 30, 2016 was \$2.97 per option. As of June 30, 2016, there was \$14 million of total unrecognized compensation cost related to nonvested stock option arrangements granted under the 2016 Stock Incentive Plan and the Prior Plan. That cost is expected to be recognized over a weighted-average period of approximately 2.1 years.

The total intrinsic value of stock options exercised during the six months ended both June 30, 2016 and 2015 was approximately nil.

NONVESTED SHARES

Nonvested shares granted under the 2016 Stock Incentive Plan and the Prior Plan consist of restricted stock and performance share unit awards, which are accounted for as equity awards, and phantom stock, which is accounted for as a liability award because it can be settled in either stock or cash.

The fair value of each performance share unit award is estimated using a Monte Carlo simulation model that uses various assumptions, including an expected volatility rate and a risk-free interest rate. For the six months ended June 30, 2016 and 2015, the weighted-average expected volatility rate was 39.3% and 30.0%, respectively and the weighted average risk-free interest rate was 0.9% and 0.7%, respectively. For the performance share unit awards granted in the six months ended June 30, 2016 and 2015 the number of shares earned varies based upon the Company achieving certain performance criteria over two-year and three-year performance periods. The performance criteria are total stockholder return of our common stock relative to the total stockholder return of a specified industry peer group for the two-year and three-year performance periods.

A summary of the status of our nonvested shares as of June 30, 2016 and changes during the six months then ended is presented below:

	Equity Awards		Liability Awards	
	Shares (in thousands)	Weighted Average Grant-Date Fair Value	Shares (in thousands)	Weighted Average Grant-Date Fair Value

(1)

As of June 30, 2016, a total of 454,900 restricted stock units were vested but not yet issued, of which 60,948 vested during the six months ended June 30, 2016. These shares have not been reflected as vested shares in this table because, in accordance with the restricted stock unit agreements, shares of common stock are not issued for vested restricted stock units until termination of employment.

As of June 30, 2016, there was \$35 million of total unrecognized compensation cost related to nonvested share compensation arrangements granted under the 2016 Stock Incentive Plan and the Prior Plan. That cost is expected to be recognized over a weighted-average period of approximately 2.2 years. The value of share awards that vested during the six months ended June 30, 2016 and 2015 was \$15 million and \$20 million, respectively.

15. INCOME TAXES

We use the asset and liability method of accounting for income taxes. Deferred income taxes reflect the net tax effects of temporary differences between the carrying amounts of assets and liabilities for financial and tax reporting purposes. We evaluate deferred tax assets to determine whether it is more likely than not that they will be realized. Valuation allowances are reviewed on an individual tax jurisdiction basis to analyze whether there is sufficient positive or negative evidence to support a change in judgment about the realizability of the related deferred tax assets. These conclusions require significant judgment. In evaluating the objective evidence that historical results provide, we consider the cyclical nature of our businesses and cumulative income or losses during the applicable period. Cumulative losses incurred over the applicable period limits our ability to consider other subjective evidence such as our projections for the future. Changes in expected future income in applicable jurisdictions could affect the realization of deferred tax assets in those jurisdictions.

During the six months ended June 30, 2016 and 2015, for unrecognized tax benefits that impact tax expense, we recorded a net increase in unrecognized tax benefits and a corresponding income tax expense of \$1 million and a net decrease in unrecognized benefits and a corresponding income tax benefit of \$6 million, respectively. Additional increases and decreases in unrecognized tax benefits were offset by cash settlements or decreases in net deferred tax assets and, therefore, did not affect income tax expense.

Huntsman Corporation

We recorded income tax expense of \$59 million and \$36 million for the six months ended June 30, 2016 and 2015, respectively. Our tax expense is significantly affected by the mix of income and losses in the tax jurisdictions in which we operate, as impacted by the presence of valuation allowances in certain tax jurisdictions. Notably, we continue to earn a significant portion of our pre-tax income in the United States with an approximate 35% federal and state blended effective tax rate.

Huntsman International

Huntsman International recorded income tax expense of \$58 million and \$37 million for the six months ended June 30, 2016 and 2015, respectively. Our tax expense is significantly affected by the mix of income and losses in the tax jurisdictions in which we operate, as impacted by the presence of valuation allowances in certain tax jurisdictions. Notably, we continue to earn a significant portion of our pre-tax income in the United States with an approximate 35% federal and state blended effective tax rate.

16. NET INCOME PER SHARE

Basic income per share excludes dilution and is computed by dividing net income attributable to Huntsman Corporation common stockholders by the weighted average number of shares outstanding during the period. Diluted income per share reflects all potential dilutive common shares outstanding during the period and is computed by dividing net income available to Huntsman Corporation common stockholders by the weighted average number of shares outstanding during the period increased by the number of additional shares that would have been outstanding as dilutive securities.

Stock-based awards	3.2	3.4	2.1	3.3
Total weighted average shares outstanding, including dilutive shares	239.5	247.5	238.3	247.3

Additional stock-based awards of 5.9 million and 2.2 million weighted average equivalent shares of stock were outstanding during the three months ended June 30, 2016 and 2015, respectively, and 7.8 million and 2.7 million weighted average equivalent shares of stock were outstanding during the six months ended June 30, 2016 and 2015, respectively. However, these stock-based awards were not included in the computation of diluted earnings per share for the three and six months ended June 30, 2016 and 2015 because the effect would be anti-dilutive.

17. OPERATING SEGMENT INFORMATION

We derive our revenues, earnings and cash flows from the manufacture and sale of a wide variety of differentiated and commodity chemical products. We have reported our operations through five segments: Polyurethanes, Performance Products, Advanced Materials, Textile Effects and Pigments and Additives. We have organized our business and derived our operating segments around differences in product lines.

The major products of each reportable operating segment are as follows:

Segment	Products
Polyurethanes	MDI, PO, polyols, PG, TPU, aniline and MTBE
Performance Products	amines, surfactants, LAB, maleic anhydride, other performance chemicals, EG, olefins and technology licenses
Advanced Materials	basic liquid and solid epoxy resins; specialty resin compounds; cross-linking, matting and curing agents; epoxy, acrylic and polyurethane-based formulations
Textile Effects	textile chemicals, dyes and inks

Edgar Filing: Huntsman CORP - Form 10-Q

Pigments and Additives titanium dioxide, functional additives, color pigments,
timber treatment and water treatment chemicals

(1)

Beginning in the second quarter of 2016, we used segment adjusted EBITDA as the measure of each segment's profit or loss. We believe that adjusted EBITDA more accurately reflects what management uses to make decisions about resources to be allocated to the segments and assess their financial performance. We have restated the measure of each segment's profit or loss in the prior periods disclosed to reflect adjusted EBITDA.

Segment adjusted EBITDA is defined as net income of Huntsman Corporation or Huntsman International, as appropriate, before interest, income tax, depreciation and amortization, net income attributable to noncontrolling interests and certain Corporate and other items, as well as eliminating the following adjustments: (a) acquisition and integration expenses and purchase accounting adjustments; (b) EBITDA from discontinued operations; (c) loss on disposition of businesses/assets; (d) loss on early extinguishment of debt; (e) certain legal settlements and related

18. CONDENSED CONSOLIDATING FINANCIAL INFORMATION OF HUNTSMAN INTERNATIONAL LLC

The following unaudited condensed consolidating financial statements present, in separate columns, financial information for the following: Huntsman International (on a parent only basis), with its investment in subsidiaries recorded under the equity method; the Guarantors on a combined, and where appropriate, consolidated basis; and the Nonguarantors on a combined, and where appropriate, consolidated basis. Additional columns present eliminating adjustments and consolidated totals as of June 30, 2016 and December 31, 2015 and for the three and six months ended June 30, 2016 and 2015. There are no contractual restrictions limiting transfers of cash from the Guarantors to Huntsman International. Each of the Guarantors is 100% owned by Huntsman International and has fully and unconditionally guaranteed, subject to certain customary release provisions, Huntsman International's outstanding notes on a joint and several basis.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

FORWARD-LOOKING STATEMENTS

With respect to Huntsman Corporation, certain information set forth in this report contains "forward-looking statements" within the meaning the Private Securities Litigation Reform Act of 1995, Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. All statements other than historical factual information are forward-looking statements, including without limitation statements regarding: projections of revenue, expenses, profit, profit margins, tax rates, tax provisions, cash flows, pension and benefit obligations and funding requirements, our liquidity position or other projected financial measures; management's plans and strategies for future operations, including statements relating to anticipated operating performance, cost reductions, restructuring activities, new product and service developments, competitive strengths or market position, acquisitions, divestitures, spin-offs, or other distributions, strategic opportunities, securities offerings, stock repurchases, dividends and executive compensation; growth, declines and other trends in markets we sell into; new or modified laws, regulations and accounting pronouncements; outstanding claims, legal proceedings, tax audits and assessments and other contingent liabilities; foreign currency exchange rates and fluctuations in those rates; general economic and capital markets conditions; the timing of any of the foregoing; assumptions underlying any of the foregoing; and any other statements that address events or developments that we intend or believe will or may occur in the future. In some cases, forward-looking statements can be identified by terminology such as "believes," "expects," "may," "will," "should," "anticipates" or "intends" or the negative of such terms or other comparable terminology, or by discussions of strategy. We may also make additional forward-looking statements from time to time. All such subsequent forward-looking statements, whether written or oral, by us or on our behalf, are also expressly qualified by these cautionary statements.

All forward-looking statements, including without limitation management's examination of historical operating trends, are based upon our current expectations and various assumptions. Our expectations, beliefs and projections are expressed in good faith and we believe there is a reasonable basis for them, but there can be no assurance that management's expectations, beliefs and projections will result or be achieved. All forward-looking statements apply only as of the date made. We undertake no obligation to publicly update or revise forward-looking statements whether because of new information, future events or otherwise, except as required by securities and other applicable law.

There are a number of risks and uncertainties that could cause our actual results to differ materially from the forward-looking statements contained in or contemplated by this report. Any forward-looking statements should be considered in light of the risks set forth in "Part II. Item 1A. Risk Factors" below and "Part I. Item 1A. Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2015.

OVERVIEW

Business

We operate in five segments: Polyurethanes, Performance Products, Advanced Materials, Textile Effects and Pigments and Additives. Our products comprise a broad range of chemicals and formulations, which we market globally to a diversified group of consumer and industrial customers. Our products are used in a wide range of applications, including those in the adhesives, aerospace, automotive, construction products, personal care and hygiene, durable and non-durable consumer products, electronics, medical, packaging, paints and coatings, power generation, refining, synthetic fiber, textile chemicals and dye industries. We are a leading global producer in many of our key product lines, including MDI, amines, surfactants, maleic anhydride, epoxy-based polymer formulations,

textile chemicals, dyes, titanium dioxide and color pigments. Our revenues for the six months ended June 30, 2016 and 2015 were \$4,899 million and \$5,329 million, respectively.

RECENT DEVELOPMENTS

Prepayment of Debt

On July 22, 2016, Huntsman International prepaid \$100 million of the 2015 Extended Term Loan B. For more information, see "Note 6. Debt Direct and Subsidiary Debt" to our condensed consolidated financial statements.

Sale of European Surfactants Manufacturing Facilities

On July 29, 2016, Huntsman Investments (Netherlands) BV ("HIBV"), a wholly-owned subsidiary of Huntsman Corporation, entered into an Exclusivity and Put Option Agreement (the "Put Option Agreement") with Innospec International LTD ("Innospec"), a wholly-owned subsidiary of Innospec Inc. The Put Option Agreement, together with a Share and Asset Purchase Agreement in an agreed form and attached thereto as an exhibit (the "Purchase Agreement," and together with the Put Option Agreement, the "Acquisition Agreements"), set forth the terms of a commitment from Innospec to purchase HIBV's European surfactants manufacturing facilities and related assets for an enterprise value of \$225 million. Pursuant to the terms of the Acquisition Agreements, HIBV would retain its accounts receivable and certain trade payables. The purchase price would also be subject to additional working capital and other adjustments (the "Transaction"). Pursuant to the terms of the Acquisition Agreements, Innospec, upon exercise of the Put Option Agreement by HIBV and following satisfaction of closing conditions referred to below, would acquire HIBV's manufacturing facilities located in Saint-Mihiel, France; Castiglione delle Stiviere, Italy; and Barcelona, Spain and HIBV would enter into supply and long-term tolling arrangements with Innospec to continue supplying certain surfactants and other key products globally.

The Acquisition Agreements contain customary representations, warranties, and covenants and provide for indemnification rights with respect to a breach of a representation, warranty or covenant by either party, as well as for other specified matters.

The Transaction is subject to the satisfaction or waiver of customary closing conditions, including, among others: (i) the representative bodies consultation processes required by French legislation, (ii) clearance by any applicable competition law authorities, and (iii) the absence of a change that has had or is reasonably likely to have a material adverse effect on the business. The Acquisition Agreements also contain certain customary termination rights for each of HIBV and Innospec.

The foregoing description of the terms of the Acquisition Agreements is qualified in its entirety by reference to such Agreements, which will be filed subsequently with the Securities and Exchange Commission.

The Acquisition Agreements will be included to provide investors and security holders with information regarding its terms. It is not intended to provide any other factual information about HIBV. The representations, warranties and covenants contained in the Acquisition Agreements were made only for purposes of such Agreements and as of specific dates, were solely for the benefit of the parties to such Agreements, and may be subject to limitations agreed upon by the contracting parties, including being qualified by confidential disclosures exchanged between the parties in connection with the execution of the Acquisition Agreements. The representations and warranties may have been made for the purposes of allocating contractual risk between the parties to the Acquisition Agreements instead of establishing these matters as facts, and may be subject to standards of materiality applicable to the contracting parties that differ from those applicable to investors.

OUTLOOK

Our second quarter 2016 results reflect our continued focus on three strategic priorities: first, generating free cash flow of more than \$350 million in 2016; second, growing margins and earnings in our core downstream differentiated businesses; and third, separating our titanium dioxide business.

We believe that we are well positioned to accomplish these objectives. With an increased focus on inventory management, we generated strong free cash flow in the second quarter. We are expanding margins in our MDI urethanes business and have healthy margins in our Performance Products and Advanced Materials segments.

We are actively pursuing a separation of our Pigments and Additives segment and are currently exploring a spin-off of this segment, potentially combined with other of our businesses, to our stockholders. We are experiencing improved business conditions within the Pigments and Additives segment and we believe we will be well positioned for a separation. Our ability to effect such spin-off or any alternative strategic transaction is subject to, among other things, market conditions and the approval of our Board of Directors.

The following is a summary of the key trends expected in our business segments:

Polyurethanes:

Continued focus on downstream MDI differentiation

MDI demand growth

Low MTBE margins

Performance Products:

Benefit from self-help business optimization

Long term margin improvement

Benefit of growth projects, such as ethylene oxide expansion in the U.S. and polyetheramines expansion in Singapore

Relatively low ethylene margins

Advanced Materials:

Strong aerospace market more than one-third of earnings

Textile Effects:

Third quarter 2016 seasonal moderation in demand

Pigments and Additives:

Edgar Filing: Huntsman CORP - Form 10-Q

Increasing titanium dioxide selling prices

Second half 2016 seasonality in demand

In 2016, we expect to spend approximately \$450 million on capital expenditures.

We expect our full year 2016 adjusted effective tax rate to be approximately 25%-30%. Our MTBE earnings are taxed at the U.S. statutory rate of 35%, and variability in our MTBE earnings will have a meaningful impact on where our adjusted tax rate will be within that range. We expect our long-term adjusted effective tax rate will be approximately 30%.

Our management uses adjusted EBITDA to assess financial performance. Adjusted EBITDA is defined as net income of Huntsman Corporation or Huntsman International, as appropriate, before interest, income tax, depreciation and amortization, net income attributable to noncontrolling interests and certain Corporate and other items, as well as eliminating the following adjustments:

(a) acquisition and integration expenses and purchase accounting adjustments;

Table of Contents

(b) EBITDA from discontinued operations; (c) loss on disposition of businesses/assets; (d) loss on early extinguishment of debt; (e) certain legal settlements and related expenses; (f) amortization of pension and postretirement actuarial losses; (g) net plant incident remediation credits; and (h) restructuring, impairment, plant closing and transition costs. We believe that net income of Huntsman Corporation or Huntsman International, as appropriate, is the performance measure calculated and presented in accordance with U.S. GAAP that is most directly comparable to adjusted EBITDA.

We believe adjusted EBITDA is useful to investors in assessing the businesses' ongoing financial performance and provides improved comparability between periods through the exclusion of certain items that management believes are not indicative of the businesses' operational profitability and that may obscure underlying business results and trends. However, this measure should not be considered in isolation or viewed as a substitute for net income of Huntsman Corporation or Huntsman International, as appropriate, or other measures of performance determined in accordance with U.S. GAAP. Moreover, adjusted EBITDA as used herein is not necessarily comparable to other similarly titled measures of other companies due to potential inconsistencies in the methods of calculation. Our management believes this measure is useful to compare general operating performance from period to period and to make certain related management decisions. Adjusted EBITDA is also used by securities analysts, lenders and others in their evaluation of different companies because it excludes certain items that can vary widely across different industries or among companies within the same industry. For example, interest expense can be highly dependent on a company's capital structure, debt levels and credit ratings. Therefore, the impact of interest expense on earnings can vary significantly among companies. In addition, the tax positions of companies can vary because of their differing abilities to take advantage of tax benefits and because of the tax policies of the various jurisdictions in which they operate. As a result, effective tax rates and tax expense can vary considerably among companies. Finally, companies employ productive assets of different ages and utilize different methods of acquiring and depreciating such assets. This can result in considerable variability in the relative costs of productive assets and the depreciation and amortization expense among companies.

Nevertheless, our management recognizes that there are material limitations associated with the use of adjusted EBITDA in the evaluation of our Company as compared to net income of Huntsman Corporation or Huntsman International, as appropriate, which reflects overall financial performance. For example, we have borrowed money in order to finance our operations and interest expense is a necessary element of our costs and ability to generate revenue. Our management compensates for the limitations of using adjusted EBITDA by using this measure to supplement U.S. GAAP results to provide a more complete understanding of the factors and trends affecting the business rather than U.S. GAAP results alone.

In addition to the limitations noted above, adjusted EBITDA excludes items that may be recurring in nature and should not be disregarded in the evaluation of performance. However, we believe it is useful to exclude such items to provide a supplemental analysis of current results and trends compared to other periods because certain excluded items can vary significantly depending on specific underlying transactions or events, and the variability of such items may not relate specifically to ongoing operating results or trends and certain excluded items, while potentially recurring in future periods, may not be indicative of future results. For example, while EBITDA from discontinued operations is a recurring item, it is not indicative of ongoing operating results and trends or future results.

(2)

Adjusted net income is computed by eliminating the after-tax amounts related to the following from net income attributable to Huntsman Corporation or Huntsman International, as appropriate: (a) acquisition and integration expenses and purchase accounting adjustments; (b) loss from discontinued operations; (c) loss on disposition of businesses/assets; (d) loss on early

Table of Contents

extinguishment of debt; (e) certain legal settlements and related (income) expenses; (f) amortization of pension and postretirement actuarial losses; (g) net plant incident remediation credits; and (h) restructuring, impairment and plant closing and transition costs. Basic adjusted net income per share excludes dilution and is computed by dividing adjusted net income by the weighted average number of shares outstanding during the period. Adjusted diluted net income per share reflects all potential dilutive common shares outstanding during the period and is computed by dividing adjusted net income by the weighted average number of shares outstanding during the period increased by the number of additional shares that would have been outstanding as dilutive securities. Adjusted net income and adjusted net income per share amounts are presented solely as supplemental information.

- (3) The income tax impacts, if any, of each adjusting item represent a ratable allocation of the total difference between the unadjusted tax expense and the total adjusted tax expense, computed without consideration of any adjusting items using a with and without approach. We do not adjust for changes in tax valuation allowances because we do not believe it provides more meaningful information than is provided under GAAP.
- (4) Includes costs associated with transition activities relating to the migration of our information system data centers and the transition of our Textile Effects segment's production from Basel, Switzerland to a tolling facility. These transition costs were included in either selling, general and administrative expenses or cost of sales on our condensed consolidated statements of operations.
- (5) Capital expenditures, net of reimbursements, represent cash paid for capital expenditures less payments received as reimbursements from customers and joint venture partners. During the six months ended June 30, 2016 and 2015, capital expenditures of \$189 million and \$296 million, respectively, were reimbursed in part by \$27 million and \$10 million, respectively.
- (6) Management internally uses a free cash flow measure: (a) to evaluate the Company's liquidity, (b) to evaluate strategic investments, (c) to plan stock buyback and dividend levels, and (d) to evaluate the Company's ability to incur and service debt. Free cash flow is not a defined term under U.S. GAAP, and it should not be inferred that the entire free cash flow amount is available for discretionary expenditures. The Company defines free cash flow as cash flows provided by operating activities and used in investing activities, excluding merger and acquisition activities. Free cash flow is typically derived directly from the Company's condensed consolidated statement of cash flows; however, it may be adjusted for items that affect comparability between periods.

Three Months Ended June 30, 2016 Compared with Three Months Ended June 30, 2015

For the three months ended June 30, 2016, net income attributable to Huntsman Corporation was \$87 million on revenues of \$2,544 million, compared with net income attributable to Huntsman Corporation of \$29 million on revenues of \$2,740 million for the same period of 2015. For the three months ended June 30, 2016 net income attributable to Huntsman International was \$86 million on revenues of \$2,544 million, compared with net income attributable to Huntsman International of \$29 million on revenues of \$2,740 million for the same period of 2015. The increase of \$58 million in net income attributable to Huntsman Corporation and the increase of \$57 million in net income attributable to Huntsman International was the result of the following items:

Revenues for the three months ended June 30, 2016 decreased by \$196 million, or 7%, as compared with the 2015 period. The decrease was primarily due to lower average selling prices in all our segments and lower sales volumes in our Performance Products and Advanced Materials segments. See " Segment Analysis" below.

Table of Contents

Our gross profit and the gross profit of Huntsman International for the three months ended June 30, 2016 decreased by \$92 million and \$91 million, respectively, or 17% each, as compared with the 2015 period. The decrease resulted from lower gross margins in our Performance Products and Pigments and Additives segments. See " Segment Analysis" below.

Our operating expenses and the operating expenses of Huntsman International for the three months ended June 30, 2016 decreased by \$37 million and \$35 million, respectively, or 13% and 12%, respectively, as compared with the 2015 period, primarily related to a decrease in acquisition expenses, the impact of translating foreign currency amounts to the U.S. dollar and a decrease in selling, general and administrative expenses as a result of cost savings from restructuring programs.

Restructuring, impairment and plant closing costs for the three months ended June 30, 2016 decreased to \$29 million from \$114 million in the 2015 period. For more information concerning restructuring activities, see "Note 5. Restructuring, Impairment and Plant Closing Costs" to our condensed consolidated financial statements.

Our interest expense and the interest expense of Huntsman International for the three months ended June 30, 2016 decreased \$3 million each, or 6% and 5%, respectively, as compared with the 2015 period. The decrease in interest expense was primarily related to lower average debt balances.

Loss on early extinguishment of debt for three months ended June 30, 2016 decreased to \$2 million from \$20 million in the 2015 period. During the three months ended June 30, 2015, we recorded a loss on early extinguishment of debt of \$20 million related to the redemption of our senior subordinated notes due 2021.

Our income tax expense for the three months ended June 30, 2016 decreased to \$32 million from \$34 million in the 2015 period. The income tax expense of Huntsman International for the three months ended June 30, 2016 decreased to \$31 million from \$34 million in the 2015 period. Our tax expense is significantly affected by the mix of income and losses in the tax jurisdictions in which we operate, as impacted by the presence of valuation allowances in certain tax jurisdictions. For further information concerning taxes, see "Note 15. Income Taxes" to our condensed consolidated financial statements.

Polyurethanes

The decrease in revenues in our Polyurethanes segment for the three months ended June 30, 2016 compared to the same period of 2015 was primarily due to lower average selling prices, partially offset by higher sales volumes. MDI average selling prices decreased in response to lower raw material costs. MTBE average selling prices decreased primarily as a result of lower pricing for high octane gasoline. MDI sales volumes increased due to higher demand in the Americas and European regions. PO/MTBE sales volumes increased due to the impact of the prior year planned maintenance outage. The increase in segment adjusted EBITDA was primarily due to the impact of the prior year planned PO/MTBE maintenance outage of approximately \$30 million and higher MDI margins and sales volumes, partially offset by lower MTBE margins.

Performance Products

The decrease in revenues in our Performance Products segment for the three months ended June 30, 2016 compared to the same period of 2015 was due to lower average selling prices and lower sales volumes. Average selling prices decreased primarily in response to lower raw material costs and competitive market conditions. Sales volumes decreased primarily due to softer demand in China and oilfield applications as well as competitive market conditions. The decrease in segment adjusted EBITDA was primarily due to lower margins in our amines, maleic anhydride and upstream intermediates businesses.

Advanced Materials

The decrease in revenues in our Advanced Materials segment for the three months ended June 30, 2016 compared to the same period of 2015 was due to lower sales volumes and lower average selling prices. Sales volumes decreased primarily due to soft demand for low value business in our coatings and construction market, partially offset by growth in our aerospace market across all regions. Average selling prices decreased in our Asia Pacific region primarily as a result of competitive pressure in our electrical and wind markets, partially offset by higher average selling prices in our European and Americas regions. Segment adjusted EBITDA was unchanged as higher margins from lower raw material costs were offset by lower sales volumes.

Textile Effects

The decrease in revenues in our Textile Effects segment for the three months ended June 30, 2016 compared to the same period of 2015 was due to lower average selling prices, partially offset by higher

sales volumes. Average selling prices decreased primarily due to lower raw material costs. Sales volumes increased in key target countries, such as Bangladesh and India. The increase in segment adjusted EBITDA was primarily due to higher margins from lower raw material costs.

Pigments and Additives

The decrease in revenues in our Pigments and Additives segment for the three months ended June 30, 2016 compared to the same period in 2015 was due to lower average selling prices, partially offset by higher sales volumes. Average selling prices decreased primarily as a result of competitive pressure; however, they increased compared to the prior quarter. Sales volumes increased primarily due to increased end use demand. The decrease in segment adjusted EBITDA was primarily due to lower margins for titanium dioxide.

Corporate and other

Corporate and other includes unallocated corporate overhead, unallocated foreign exchange gains and losses, LIFO inventory valuation reserve adjustments, loss on early extinguishment of debt, unallocated restructuring, impairment and plant closing costs, nonoperating income and expense, benzene sales and gains and losses on the disposition of corporate assets. For the three months ended June 30, 2016, adjusted EBITDA from Corporate and other for Huntsman Corporation decreased by \$14 million to a loss of \$45 million from a loss of \$31 million for the same period in 2015. For the three months ended June 30, 2016, adjusted EBITDA from Corporate and other for Huntsman International decreased by \$13 million to a loss of \$43 million from a loss of \$30 million for the same period in 2015. The decrease in adjusted EBITDA from Corporate and other resulted primarily from a decrease in LIFO inventory valuation income and a decrease in income from benzene sales.

Discontinued Operations

The operating results of our former polymers, base chemicals and Australian styrenics businesses are classified as discontinued operations, and, accordingly, the revenues of these businesses are excluded from revenues for all periods presented. The adjusted EBITDA of these former businesses are included in discontinued operations for all periods presented. The loss from discontinued operations represents the operating results, legal costs, restructuring, impairment and plant closing costs and gain (loss) on disposal with respect to our former businesses.

Six Months Ended June 30, 2016 Compared with Six Months Ended June 30, 2015

For the six months ended June 30, 2016, net income attributable to Huntsman Corporation was \$143 million on revenues of \$4,899 million, compared with net income attributable to Huntsman Corporation of \$34 million on revenues of \$5,329 million for the same period of 2015. For the six months ended June 30, 2016 net income attributable to Huntsman International was \$142 million on revenues of \$4,899 million, compared with net income attributable to Huntsman International of \$34 million on revenues of \$5,329 million for the same period of 2015. The increase of \$109 million in net income attributable to Huntsman Corporation and the increase of \$108 million in net income attributable to Huntsman International was the result of the following items:

Revenues for the six months ended June 30, 2016 decreased by \$430 million, or 8%, as compared with the 2015 period. The decrease was primarily due to lower average selling prices in all our segments and lower sales volumes in our Advanced Materials segment. See " Segment Analysis" below.

Our gross profit and the gross profit of Huntsman International for the six months ended June 30, 2016 decreased by \$126 million each, or 13% each, as compared with the 2015 period.

Table of Contents

The decrease resulted from lower gross margins in our Performance Products and Pigments and Additives segments. See " Segment Analysis" below.

Our operating expenses and the operating expenses of Huntsman International for the six months ended June 30, 2016 decreased by \$52 million and \$51 million, respectively, or 9% each, as compared with the 2015 period, primarily related to a decrease in acquisition expenses, the impact of translating foreign currency amounts to the U.S. dollar and a decrease in selling, general and administrative expenses as a result of cost savings from restructuring programs.

Restructuring, impairment and plant closing costs for the six months ended June 30, 2016 decreased to \$42 million from \$207 million in the 2015 period. For more information concerning restructuring activities, see "Note 5. Restructuring, Impairment and Plant Closing Costs" to our condensed consolidated financial statements.

Our interest expense and the interest expense of Huntsman International for the six months ended June 30, 2016 decreased by \$9 million and \$8 million, respectively, or 8% and 7%, respectively, as compared with the 2015 period. The decrease in interest expense was primarily related to lower average debt balances.

Loss on early extinguishment of debt for six months ended June 30, 2016 decreased to \$2 million from \$23 million in the 2015 period. During the six months ended June 30, 2015, we recorded a loss on early extinguishment of debt of \$23 million primarily related to the redemption of our senior subordinated notes due 2021.

Our income tax expense for the six months ended June 30, 2016 increased to \$59 million from \$36 million in the 2015 period. The income tax expense of Huntsman International for the six months ended June 30, 2016 increased to \$58 million from \$37 million in the 2015 period. The increases in income tax expense were due primarily to increased pre-tax income. Our tax expense is significantly affected by the mix of income and losses in the tax jurisdictions in which we operate, as impacted by the presence of valuation allowances in certain tax jurisdictions. For further information concerning taxes, see "Note 15. Income Taxes" to our condensed consolidated financial statements.

The increase in segment adjusted EBITDA was primarily due to the impact of the prior year planned PO/MTBE maintenance outage of approximately \$90 million and higher MDI margins and sales volumes, partially offset by lower MTBE margins.

Performance Products

The decrease in revenues in our Performance Products segment for the six months ended June 30, 2016 compared to the same period of 2015 was primarily due to lower average selling prices. Average selling prices decreased primarily in response to lower raw material costs and competitive market conditions. Sales volumes remained relatively flat. The decrease in segment adjusted EBITDA was primarily due to lower margins in our amines, maleic anhydride and upstream intermediates businesses.

Advanced Materials

The decrease in revenues in our Advanced Materials segment for the six months ended June 30, 2016 compared to the same period of 2015 was due to lower sales volumes and lower average selling prices. Sales volumes decreased in the Americas region, primarily due to competitive pressure and soft demand. Average selling prices decreased in our European and Asia Pacific regions primarily due to price concessions in our Asian electrical and wind markets, unfavorable product mix and the foreign currency exchange impact of a stronger U.S. dollar against major international currencies, partially offset by higher average selling prices in our Americas region due to sales in higher value markets. The increase in segment adjusted EBITDA was primarily due to higher margins from lower raw material costs.

Textile Effects

The decrease in revenues in our Textile Effects segment for the six months ended June 30, 2016 compared to the same period of 2015 was due to lower average selling prices. Average selling prices decreased primarily due to lower raw material costs and the foreign currency exchange impact of a stronger U.S. dollar against major international currencies. Sales volumes remained relatively flat. The increase in segment adjusted EBITDA was primarily due to higher margins from lower raw material costs and lower selling, general and administrative expenses.

Pigments and Additives

The decrease in revenues in our Pigments and Additives segment for six months ended June 30, 2016 compared to the same period of 2015 was due to lower average selling prices, partially offset by higher sales volumes. Average selling prices decreased primarily as a result of competitive pressure and the foreign currency exchange impact of a stronger U.S. dollar primarily against the euro. Sales volumes increased primarily due to increased end use demand. The decrease in segment adjusted EBITDA was primarily due to lower margins for titanium dioxide.

unallocated restructuring, impairment and plant closing costs, nonoperating income and expense, benzene sales and gains and losses on the disposition of corporate assets. For the six months ended June 30, 2016, adjusted EBITDA from Corporate and other for Huntsman Corporation decreased by \$19 million to a loss of \$87 million from a loss of \$68 million for the same period in 2015. For the six months ended June 30, 2016, adjusted EBITDA from Corporate and other for Huntsman International decreased by \$20 million to a loss of \$85 million from a loss of \$65 million for the same period in 2015. The decrease in adjusted EBITDA from Corporate and other resulted primarily from a decrease in LIFO inventory valuation income and a decrease in income from benzene sales.

Discontinued Operations

The operating results of our former polymers, base chemicals and Australian styrenics businesses are classified as discontinued operations, and, accordingly, the revenues of these businesses are excluded from revenues for all periods presented. The adjusted EBITDA of these former businesses are included in discontinued operations for all periods presented. The loss from discontinued operations represents the operating results, legal costs, restructuring, impairment and plant closing costs and gain (loss) on disposal with respect to our former businesses.

LIQUIDITY AND CAPITAL RESOURCES

The following is a discussion of our liquidity and capital resources and does not include separate information with respect to Huntsman International in accordance with General Instructions H(1)(a) and (b) of Form 10-Q.

Cash

Net cash provided by operating activities for the six months ended June 30, 2016 and 2015 was \$443 million and \$181 million, respectively. The increase in net cash provided by operating activities during the six months ended June 30, 2016 compared with the same period in 2015 was primarily attributable to increased operating income as described in " Results of Operations" above as well as a \$136 million favorable variance in operating assets and liabilities for the six months ended June 30, 2016 as compared with the same period of 2015.

Net cash used in investing activities for the six months ended June 30, 2016 and 2015 was \$174 million and \$233 million, respectively. During the six months ended June 30, 2016 and 2015, we paid \$189 million and \$296 million, respectively, for capital expenditures. During the six months ended June 30, 2016 and 2015, we made investments in Louisiana Pigment Company, L.P. of \$14 million and \$20 million, respectively, and in our BASF Huntsman Shanghai Isocyanate Investment B.V. joint venture of nil and \$12 million, respectively, and received dividends from Louisiana Pigment Company, L.P. of \$19 million and \$25 million, respectively. During the six months ended June 30, 2015, we received \$66 million from the termination of cross-currency interest rate contracts.

Net cash used in financing activities for the six months ended June 30, 2016 and 2015 was \$153 million and \$202 million, respectively. The decrease in net cash used in financing activities was primarily due to a decrease in repayments of long-term debt, net of proceeds from the issuance of long-term debt during the 2016 period as compared to the 2015 period. On April 1, 2016, we entered into the 2016 Term Loan B in an aggregate principal amount of \$550 million. Additionally, on April 1, 2016, we used the net proceeds of the 2016 Term Loan B to repay in full our extended term loan B due 2017, extended term loan B series 2 due 2017 and our Term Loan C. On March 31, 2015, we issued €300 million (approximately \$326 million) aggregate principal amount of 2025 Senior Notes. On April 17, 2015, we used the net proceeds of this offering to redeem \$289 million (\$294 million carrying value) of our senior subordinated notes due 2021.

Table of Contents

Free cash flow for the six months ended June 30, 2016 and 2015 were cash proceeds of \$269 million and use of cash of \$55 million, respectively. The improvement in free cash flow was attributable to the changes in cash flows from operating and investing activities, excluding merger and acquisition activities. We believe we will generate more than \$350 million of free cash flow in 2016.

Changes in Financial Condition

The following information summarizes our working capital position (dollars in millions):

	June 30, 2016	December 31, 2015	Increase (Decrease)	Percent Change
Cash and cash equivalents	\$ 373	\$ 257	\$ 116	45%
Restricted cash	10	12	(2)	(17)%

Working capital	\$ 2,102	\$ 1,917	\$ 185	10%

Our working capital increased by \$185 million as a result of the net impact of the following significant changes:

The increase in cash and cash equivalents of \$116 million resulted from the matters identified on our condensed consolidated statements of cash flows.

Accounts and notes receivable increased by \$97 million mainly due to higher revenues in the three months ended June 30, 2016 compared to the three months ended December 31, 2015.

Inventories decreased by \$170 million primarily due to lower inventory volumes and lower inventory costs.

Prepaid expenses decreased by \$57 million mainly due to the distribution of employee termination and other restructuring costs that were prefunded during the fourth quarter of 2015.

Other current assets decreased by \$27 million mainly due to lower bank accepted drafts with maturities greater than 90 days from receipt.

Accounts payable decreased by \$70 million primarily due to lower purchases consistent with the lower inventory balances noted above.

Edgar Filing: Huntsman CORP - Form 10-Q

Accrued liabilities decreased by \$84 million primarily due to the distribution of prefunded restructuring costs.

Current portion of debt decreased by \$74 million primarily due to the repayment of our Term Loan C during the second quarter of 2016. On April 1, 2016, this debt was refinanced with the 2016 Term Loan B. See "Note 6. Debt Direct and Subsidiary Debt" to our condensed consolidated financial statements.

SHORT-TERM AND LONG-TERM LIQUIDITY

We depend upon our cash, credit facilities, A/R Programs and other debt instruments to provide liquidity for our operations and working capital needs. As of June 30, 2016, we had \$1,213 million of combined cash and unused borrowing capacity, consisting of \$383 million in cash and restricted cash, \$634 million in availability under our Revolving Facility, and \$196 million in availability under our A/R Programs. Our liquidity can be significantly impacted by various factors. The following matters had, or are expected to have, a significant impact on our liquidity:

Cash from our accounts receivable and inventory, net of accounts payable, increased by approximately \$31 million for the six months ended June 30, 2016, as reflected in our condensed consolidated statements of cash flows. We expect volatility in our working capital components to continue.

During 2016, we expect to spend approximately \$450 million on capital expenditures. Our future expenditures include certain EHS maintenance and upgrades; and periodic maintenance and

Table of Contents

repairs applicable to major units of manufacturing facilities. We expect to fund this spending with cash provided by operations.

During the six months ended June 30, 2016, we made contributions to our pension and postretirement benefit plans of \$38 million. During 2016, we expect to contribute an additional amount of approximately \$36 million to these plans.

We are involved in a number of cost reduction programs for which we have established restructuring accruals. As of June 30, 2016, we had \$103 million of accrued restructuring costs from continuing operations, of which \$54 million is classified as current. For further discussion of these plans and the costs involved, see "Note 5. Restructuring, Impairment and Plant Closing costs" to our condensed consolidated financial statements.

On September 29, 2015, our Board of Directors authorized our Company to repurchase up to \$150 million in shares of our common stock. On October 27, 2015, we entered into and funded an accelerated share repurchase agreement to repurchase \$100 million of our common stock that was completed in January 2016 with the purchase of 8.6 million shares. We have \$50 million remaining that is available under this authorization that is available to be used to purchase additional shares. For more information, see "Note. 10. Huntsman Corporation Stockholders' Equity Share Repurchase Program" to our condensed consolidated financial statements.

On July 22, 2016, Huntsman International prepaid \$100 million of the 2015 Extended Term Loan B. For more information, see "Note 6. Debt Direct and Subsidiary Debt" to our condensed consolidated financial statements.

On July 29, 2016, HIBV entered into an Exclusivity and Put Option Agreement with Innospec, with a Share and Asset Purchase Agreement in an agreed form attached thereto as an exhibit, which together set forth the terms of a commitment from Innospec to purchase HIBV's European surfactants manufacturing facilities and related assets for an enterprise value of \$225 million. Pursuant to the terms of these agreements, HIBV would retain its accounts receivable and certain trade payables. The purchase price would also be subject to additional working capital and other adjustments. For more information, see "Note 1. General Recent Developments Sale of European Surfactants Manufacturing Facilities."

As of June 30, 2016, we had \$96 million classified as current portion of debt, including a short-term borrowing facility in China totaling \$33 million, scheduled Senior Credit Facilities amortization payments totaling \$25 million, debt at our variable interest entities of \$19 million, and certain other short-term facilities and scheduled amortization payments totaling \$19 million. Although we cannot provide assurances, we intend to renew, repay or extend the majority of these short-term facilities in the next twelve months.

As of June 30, 2016, we had approximately \$264 million of cash and cash equivalents, including restricted cash, held by our foreign subsidiaries, including our variable interest entities. Additionally, we have material intercompany debt obligations owed to us by our non-U.S. subsidiaries. We intend to use cash held in our foreign subsidiaries to fund our local operations. Nevertheless, we could repatriate cash as dividends or as repayments of intercompany debt. If foreign cash were repatriated as dividends, the dividends could be subject to U.S. federal and state income taxes without any offsetting foreign tax credit relief. At present, we estimate that we will generate sufficient cash in our U.S. operations, together with the payments of intercompany debt if necessary, to meet our cash needs in the U.S and we do not expect to repatriate cash to the U.S. as dividends. Cash held by certain foreign subsidiaries, including our variable interest entities, may also be subject to legal restrictions, including those arising from the interests of our partners, which could limit the amounts available for repatriation.

RESTRUCTURING, IMPAIRMENT AND PLANT CLOSING COSTS

Since our acquisition of the Performance Additives and Titanium Dioxide businesses of Rockwood Holdings, Inc., our Pigments and Additives segment has been involved in a cost reduction program expected to reduce costs by approximately \$140 million and improve its global competitiveness. In addition, we have announced a capacity reduction at our titanium dioxide manufacturing facility in Calais, France expected to generate approximately \$35 million of annual savings. The cost savings from this cost reduction program were achieved during the first half of 2016.

For further discussion of these and other restructuring plans and the costs involved, see "Note 5. Restructuring, Impairment and Plant Closing Costs" to our condensed consolidated financial statements.

LEGAL PROCEEDINGS

For a discussion of legal proceedings, see "Note 12. Commitments and Contingencies Legal Matters" and "Note 13. Environmental, Health and Safety Matters Environmental Matters" to our condensed consolidated financial statements.

ENVIRONMENTAL, HEALTH AND SAFETY MATTERS

As noted in our Annual Report on Form 10-K for the year ended December 31, 2015, "Part I. Item 1. Business Environmental, Health and Safety Matters" and "Part I. Item 1A, "Risk Factors," we are subject to extensive environmental regulations, which may impose significant additional costs on our operations in the future. While we do not expect any of these enactments or proposals to have a material adverse effect on us in the near term, we cannot predict the longer-term effect of any of these regulations or proposals on our future financial condition. For a discussion of environmental, health and safety matters, see "Note 13. Environmental, Health and Safety Matters" to our condensed consolidated financial statements.

CRITICAL ACCOUNTING POLICIES

Our critical accounting policies are presented in Management's Discussion and Analysis of Financial Condition and Results of Operations included in our Annual Report on Form 10-K for the year ended December 31, 2015.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We are exposed to market risks, such as changes in interest rates, foreign exchange rates and commodity pricing risks. From time to time, we enter into transactions, including transactions involving derivative instruments, to manage certain of these exposures.

All derivatives, whether designated as hedging relationships or not, are recorded on our balance sheet at fair value. If the derivative is designated as a fair value hedge, the changes in the fair value of the derivative and the hedged items are recognized in earnings. If the derivative is designated as a cash flow hedge, changes in the fair value of the derivative are recorded in accumulated other comprehensive loss, to the extent effective, and will be recognized in the income statement when the hedged item affects earnings. To the extent applicable, we perform effectiveness assessments in order to use hedge accounting at each reporting period. For a derivative that does not qualify as a hedge, changes in fair value are recognized in earnings.

Edgar Filing: Huntsman CORP - Form 10-Q

Table of Contents

We also hedge our net investment in certain European operations. Changes in the fair value of the hedge in the net investment of certain European operations are recorded as an unrealized currency translation adjustment in accumulated other comprehensive loss.

Our revenues and expenses are denominated in various foreign currencies, and our cash flows and earnings are thus subject to fluctuations due to exchange rate variations. From time to time, we may enter into foreign currency derivative instruments to minimize the short-term impact of movements in foreign currency rates. Where practicable, we generally net multicurrency cash balances among our subsidiaries to help reduce exposure to foreign currency exchange rates. Certain other exposures may be managed from time to time through financial market transactions, principally through the purchase of spot or forward foreign exchange contracts (generally with maturities of one year or less). We do not hedge our foreign currency exposures in a manner that would eliminate the effect of changes in exchange rates on our cash flows and earnings. As of June 30, 2016, we had approximately \$168 million in notional amount (in U.S. dollar equivalents) outstanding in forward foreign currency contracts.

Huntsman International has entered into two interest rate contracts to hedge the variability caused by monthly changes in cash flow due to associated changes in LIBOR under our Senior Credit Facilities. These swaps are designated as cash flow hedges and the effective portion of the changes in the fair value of the swaps are recorded in other comprehensive income (loss) (dollars in millions):

June 30, 2016				
Notional Value	Effective Date	Maturity	Fixed Rate	Fair Value
\$ 50	December 2014	April 2017	2.5%	\$1 current liability
50	January 2015	April 2017	2.5%	1 current liability

Beginning in 2009, Arabian Amines Company entered into a 12-year floating to fixed interest rate contract providing for a receipt of LIBOR interest payments for a fixed payment of 5.02%. In connection with the consolidation of Arabian Amines Company as of July 1, 2010, the interest rate contract is now included in our consolidated results. See "Note 4. Variable Interest Entities" to our condensed consolidated financial statements. The notional amount of the swap as of June 30, 2016 was \$22 million, and the interest rate contract is not designated as a cash flow hedge. As of June 30, 2016, the fair value of the swap was \$2 million and was recorded in noncurrent liabilities on our condensed consolidated balance sheets. For each of the three and six months ended June 30, 2016, we recorded a reduction of interest expense of nil due to changes in fair value of the swap.

In November 2014, we entered into two five year cross-currency interest rate contracts and one eight year cross-currency interest rate contract to swap an aggregate notional \$200 million for an aggregate notional €161 million. This swap is designated as a hedge of net investment for financial reporting purposes. Under the cross-currency interest rate contract, we will receive fixed U.S. dollar payments of \$5 million semiannually on May 15 and November 15 (equivalent to an annual rate of 5.125%) and make interest payments of approximately €3 million (equivalent to an annual rate of approximately 3.6%). As of June 30, 2016, the fair value of this swap was \$26 million and was recorded in noncurrent assets on our condensed consolidated balance sheets.

In March 2010, we entered into three five year cross-currency interest rate contracts to swap an aggregate notional \$350 million for an aggregate notional €255 million. This swap was designated as a hedge of net investment for financial reporting purposes. During the six months ended June 30, 2015, we terminated these cross-currency interest rate contracts and received \$66 million in payments from the counterparties.

A portion of our debt is denominated in euros. We also finance certain of our non-U.S. subsidiaries with intercompany loans that are, in many cases, denominated in currencies other than the entities' functional currency. We manage the net foreign currency exposure created by this debt through

Table of Contents

various means, including cross-currency swaps, the designation of certain intercompany loans as permanent loans because they are not expected to be repaid in the foreseeable future and the designation of certain debt and swaps as net investment hedges.

Foreign currency transaction gains and losses on intercompany loans that are not designated as permanent loans are recorded in earnings. Foreign currency transaction gains and losses on intercompany loans that are designated as permanent loans are recorded in other comprehensive (loss) income on our condensed statements of comprehensive income (loss). From time to time, we review such designation of intercompany loans.

We review our non-U.S. dollar denominated debt and derivative instruments to determine the appropriate amounts designated as hedges. As of June 30, 2016, we have designated approximately €651 million (approximately \$721 million) of euro-denominated debt and cross-currency interest rate contracts as a hedge of our net investment. For the three and six months ended June 30, 2016, the amount of gain (loss) recognized on the hedge of our net investment was \$14 million and \$(7) million, respectively, and was recorded in other comprehensive (loss) income on our condensed consolidated statements of comprehensive income (loss).

ITEM 4. CONTROLS AND PROCEDURES

Our management, with the participation of our chief executive officer and chief financial officer, has evaluated the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act) as of June 30, 2016. Based on this evaluation, our chief executive officer and chief financial officer have concluded that, as of June 30, 2016, our disclosure controls and procedures were effective, in that they ensure that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is (1) recorded, processed, summarized and reported within the time periods specified in the Commission's rules and forms, and (2) accumulated and communicated to our management, including our chief executive officer and chief financial officer, as appropriate to allow timely decisions regarding required disclosure.

No changes to our internal control over financial reporting occurred during the quarter ended June 30, 2016 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act). However, we can only give reasonable assurance that our internal controls over financial reporting will prevent or detect material misstatements on a timely basis. Ineffective internal controls over financial reporting could cause investors to lose confidence in our reported financial information and could result in a lower trading price for our securities.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

During the three months ended June 30, 2016, there have been no material developments with respect to material legal proceedings referenced in Part I, Item 3 of our Annual Report on Form 10-K for the year ended December 31, 2015.

ITEM 1A. RISK FACTORS

For information regarding risk factors, see "Part I. Item 1A. Risk Factors," in our Annual Report on Form 10-K for the year ended December 31, 2015. In addition to the risk factors noted in the Annual Report on Form 10-K, the following risk factors are applicable to the Company.

Economic conditions and regulatory changes following the United Kingdom's likely exit from the European Union could adversely impact our operations, operating results and financial condition.

Following a referendum in June 2016 in which voters in the United Kingdom (the "U.K.") approved an exit from the European Union (the "EU"), it is expected that the U.K. government will initiate a process to leave the EU (often referred to as Brexit). The referendum triggered short-term financial volatility, including a decline in the value of the pound sterling in comparison to both the U.S. dollar and euro. The future effects of Brexit will depend on any agreements the U.K. makes to retain access to the EU or other markets either during a transitional period or more permanently. Given the lack of comparable precedent and the uncertainty around when the U.K. government will initiate the process to leave the EU, it is unclear what financial, trade and legal implications the withdrawal of the U.K. from the EU would have and how such withdrawal would affect our Company.

As noted in our most recent Annual Report on Form 10-K, we derive a significant portion of our revenues from sales outside the U.S., including 28% from Europe and 3% from the U.K. in 2015. The consequences of Brexit, together with what may be protracted negotiations around the terms of Brexit, could introduce significant uncertainties into global financial markets and adversely impact the markets in which we and our customers operate. Brexit could also create uncertainty with respect to the legal and regulatory requirements to which we and our customers in the U.K. are subject and lead to divergent national laws and regulations as the U.K. government determines which EU laws to replace or replicate.

While we are not experiencing any immediate adverse impact on our financial condition as a result of Brexit, adverse consequences such as deterioration in economic conditions, volatility in currency exchange rates or adverse changes in regulation could have a negative impact on our future operations, operating results and financial condition. All of these potential consequences could be further magnified if additional countries were to exit the EU.

We are subject to many environmental, health and safety regulations that may result in unanticipated costs or liabilities, which could reduce our profitability.

We are subject to extensive federal, state, local and foreign laws, regulations, rules and ordinances relating to pollution, protection of the environment and human health and safety, and the generation, storage, handling, transportation, treatment, disposal and remediation of hazardous substances and waste materials. Actual or alleged violations of environmental, health and safety, or EHS, laws or permit requirements could result in restrictions or prohibitions on plant operations and substantial civil or criminal sanctions, as well as, under some EHS laws, the assessment of strict liability and/or joint and several liability.

Many of our products and operations are subject to the chemical control laws of the countries in which they are located. These laws include the regulation of chemical substances and inventories under

Table of Contents

the Toxic Substances Control Act ("TSCA") in the United States and the Registration, Evaluation and Authorization of Chemicals ("REACH") regulation in Europe. Analogous regimes exist in other parts of the world, including China, South Korea, and Taiwan. In addition, a number of countries where we operate, including the United Kingdom, have adopted rules to conform chemical labeling in accordance with the globally harmonized system. Many of these foreign regulatory regimes are in the process of a multi-year implementation period for these rules. Additional new laws and regulations may be enacted or adopted by various regulatory agencies globally. For example, TSCA reform was enacted in June 2016, and the United States Environmental Protection Agency will begin issuing new chemical control regulations. The costs of compliance with any new laws or regulations cannot be estimated until the manner in which they will be implemented has been more precisely defined.

On May 31, 2016, the French Agency for Food, Environmental and Occupational Health and Safety ("ANSES") submitted a proposal to the European Chemicals Agency ("ECHA") that would classify titanium dioxide as presumed to have carcinogenic potential for humans by inhalation. Huntsman, together with other companies, relevant trade associations and the European Chemical Industry Council (Cefic), submitted comments opposing the classification, based on evidence from epidemiological studies and other scientific studies. If the ECHA were to recommend, and the European Commission were to subsequently adopt such a classification, it could require that many products manufactured with titanium dioxide be classified as containing a potential carcinogenic component, which could negatively impact public perception of our products and operations, the marketability of certain products, and subject us to new manufacturing regulations that could significantly increase costs.

Furthermore, governmental, regulatory and societal demands for increasing levels of product safety and environmental protection could result in increased pressure for more stringent regulatory control with respect to the chemical industry. In addition, these concerns could influence public perceptions regarding our products and operations, the viability of certain products, our reputation, the cost to comply with regulations, and the ability to attract and retain employees. Moreover, changes in EHS regulations could inhibit or interrupt our operations, or require us to modify our facilities or operations. Accordingly, environmental or regulatory matters may cause us to incur significant unanticipated losses, costs or liabilities, which could reduce our profitability. For example, several of our products are under currently being evaluated under REACH regulations and their classification could negatively impact sales.

For example, our operations are increasingly subject to regulations that seek to reduce emissions of greenhouse gases, or GHGs, such as carbon dioxide and methane, which may be contributing to changes in the Earth's climate. There are existing efforts to address GHG emissions at the international, national, and regional levels. The 2015 Paris climate summit agreement resulted in voluntary commitments by numerous countries to reduce their GHG emissions, and could result in additional firm commitments by various nations with respect to future GHG emissions. The European Union ("EU") regulates GHGs under the EU Emissions Trading Scheme. China has begun pilot programs for carbon taxes and trading of GHG emissions in selected areas. In August 2015, the EPA issued its final Clean Power Plan rules that establish carbon pollution standards for power plants, called CO₂ emission performance rates. Depending on how states decide to implement these rules, they may result in national or regional trading schemes. Collectively, these rules and agreements may affect the long term price and supply of electricity and natural gas and demand for products that contribute to energy efficiency and renewable energy. These various regulations and agreements are likely to result in increased costs to purchased energy, additional capital costs for installation or modification of GHG emitting equipment, and additional costs associated directly with GHG emissions (such as cap and trade systems or carbon taxes), which are primarily related to energy use. Compliance with these regulations and any more stringent restrictions in the future may increase our operational costs.

Table of Contents

In addition, some scientists have concluded that increasing concentrations of GHGs in the Earth's atmosphere may produce climate changes increase the frequency and severity of storms, droughts, floods and other climatic events. If any such effects were to occur in areas where we or our clients operate, they could have an adverse effect on our assets and operations.

We could incur significant expenditures in order to comply with existing or future EHS laws. Capital expenditures and costs relating to EHS matters will be subject to evolving regulatory requirements and will depend on the timing of the promulgation and enforcement of specific standards which impose requirements on our operations. Capital expenditures and costs beyond those currently anticipated may therefore be required under existing or future EHS laws.

Furthermore, we may be liable for the costs of investigating and cleaning up environmental contamination on or from our properties or at off-site locations where we disposed of or arranged for the disposal or treatment of hazardous materials or from disposal activities that pre-dated our purchase of our businesses. We may therefore incur additional costs and expenditures beyond those currently anticipated to address all such known and unknown situations under existing and future EHS laws.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

The following table provides information with respect to shares of our common stock that we repurchased as part of our share repurchase program and shares of restricted stock granted under our 2016 Stock Incentive Plan and our Prior Plan that we withheld upon vesting to satisfy our tax withholding obligations during the six months ended June 30, 2016.
