Abbott Laboratories and Subsidiaries

Notes to Condensed Consolidated Financial Statements

June 30, 2010

(Unaudited)

Note 1 Basis of Presentation

The accompanying unaudited, condensed consolidated financial statements have been prepared pursuant to rules and regulations of the Securities and Exchange Commission and, therefore, do not include all information and footnote disclosures normally included in audited financial statements. However, in the opinion of management, all adjustments (which include only normal adjustments) necessary to present fairly the results of operations, financial position and cash flows have been made. It is suggested that these statements be read in conjunction with the financial statements included in Abbott's Annual Report on Form 10-K for the year ended December 31, 2009.

The consolidated financial statements include the accounts of the parent company and subsidiaries, after elimination of intercompany transactions. The accounts of foreign subsidiaries are consolidated as of May 31, due to the time needed to consolidate these subsidiaries. In June 2010, a foreign subsidiary acquired certain product rights that were accounted for as acquired in-process research and development and another subsidiary received payment on a note receivable. These transactions were recorded in the second quarter of 2010 due to the significance of the amounts.

Note 2 Supplemental Financial Information

Unvested restricted stock units that contain non-forfeitable rights to dividends are treated as participating securities and are included in the computation of earnings per share under the two-class method. Under the two-class method, net earnings are allocated between common shares and participating securities. Net earnings allocated to common shares for the three months and six months ended June 30, 2010 were \$1.287 billion and \$2.288 billion, respectively, and net earnings allocated to common shares for the three months and six months ended June 30, 2009 were \$1.285 billion and \$2.721 billion, respectively.

Other (income) expense, net, for the first six months of 2009 includes the derecognition of a contingent liability of \$797 million associated with the conclusion of the TAP joint venture and income from the recording of certain investments at fair value in connection with business acquisitions. Other (income) expense, net, for the second quarter and first six months of 2010 and 2009 includes ongoing contractual payments from Takeda associated with the conclusion of the TAP joint venture.

Edgar Filing: ABBOTT LABORATORIES - Form 10-Q

Net foreign exchange loss (gain) for the first six months of 2010 includes a charge of approximately \$86 million for the impact of the devaluation of the bolivar currency in Venezuela on balance sheet translation.

Other, net in Net cash from operating activities for 2010 and 2009 includes the effects of contributions to defined benefit plans of approximately \$490 million and \$775 million, respectively, and to the post-employment medical and dental benefit plans of \$66 million and \$13 million, respectively.

The judgment entered by the U.S. District Court for the Eastern District of Texas against Abbott in its litigation with New York University and Centocor, Inc. requires Abbott to secure the judgment in the event that its appeal to the Federal Circuit court is unsuccessful in overturning the district court's decision. In the first quarter of 2010, Abbott deposited \$1.87 billion with an escrow agent and considers these assets to be restricted.

The components of long-term investments as of June 30, 2010 and December 31, 2009 are as follows:

(dollars in millions)	June 30 2010	December 31 2009
Equity securities	\$ 168	\$ 153
Note receivable from Boston Scientific, 4% interest		880
Other	83	100
Total	\$ 251	\$ 1,133

Under a registration statement filed with the Securities and Exchange Commission in February 2009, Abbott issued \$3.0 billion of long-term debt in the second quarter of 2010 that matures in 2015, 2020 and 2040 with interest rates of 2.7 percent, 4.125 percent and 5.3 percent, respectively.

Notes to Condensed Consolidated Financial Statements

June 30, 2010

(Unaudited), continued

Note 3 Taxes on Earnings

Taxes on earnings reflect the estimated annual effective rates and include charges for interest and penalties. The effective tax rates are less than the statutory U.S. federal income tax rate principally due to the benefit of lower statutory tax rates and tax exemptions in several foreign taxing jurisdictions. As a result of the Patient Protection and Affordable Care Act and the Health Care and Education Reconciliation Act which were signed into law in the first quarter of 2010, Abbott recorded a charge of approximately \$60 million in the first quarter 2010 to reduce deferred tax assets associated with retiree health care liabilities related to the Medicare Part D retiree drug subsidy.

Note 4 Litigation and Environmental Matters

Abbott has been identified as a potentially responsible party for investigation and cleanup costs at a number of locations in the United States and Puerto Rico under federal and state remediation laws and is investigating potential contamination at a number of company-owned locations. Abbott has recorded an estimated cleanup cost for each site for which management believes Abbott has a probable loss exposure. No individual site cleanup exposure is expected to exceed \$3 million, and the aggregate cleanup exposure is not expected to exceed \$15 million.

There are a number of patent disputes with third parties who claim Abbott's products infringe their patents. In April 2007, New York University (NYU) and Centocor, Inc. filed a lawsuit in the Eastern District of Texas asserting that *HUMIRA* infringes a patent co-owned by NYU and Centocor and exclusively licensed to Centocor. In June 2009, a jury found that Abbott had willfully infringed the patent and awarded NYU and Centocor approximately \$1.67 billion in past compensatory damages. In October 2009, the district court overturned the jury's finding that Abbott's infringement was willful, but denied Abbott's request to overturn the jury's verdict on validity, infringement, and damages. In December 2009, the district court issued a final judgment and awarded the plaintiffs an additional \$175 million in prejudgment interest. Abbott has appealed the jury's verdict. Abbott is confident in the merits of its case and believes that it will prevail on appeal. As a result, no reserves have been recorded in this case. Abbott's acquisition of Kos Pharmaceuticals Inc. resulted in the assumption of various cases and investigations and Abbott has recorded a reserve.

There are several civil actions pending brought by individuals or entities that allege generally that Abbott and numerous pharmaceutical companies reported false or misleading pricing information relating to the average wholesale price of certain pharmaceutical products in connection with federal, state and private reimbursement. Civil actions have also been brought against Abbott, and in some cases other members of the pharmaceutical industry, by state attorneys general seeking to recover alleged damages on behalf of state Medicaid programs. In May 2006, Abbott was notified that the U.S. Department of Justice intervened in a civil whistle-blower lawsuit alleging that Abbott inflated prices for Medicaid and Medicare reimbursable drugs. Abbott has settled a few of the cases and recorded reserves for its estimated losses in other cases. Abbott is unable to estimate the range or amount of possible loss for some of the remaining cases, and no loss reserves have been recorded for them. Many of the products involved in these cases are Hospira products. Hospira, Abbott's former hospital products business, was spun off to Abbott's shareholders in 2004. Abbott retained liability for losses that result from these cases and investigations to the extent any such losses both relate to the sale of Hospira's products prior to the spin-off of Hospira and relate to allegations that were made in such pending and future cases and investigations that were the same as allegations existing at the date of the spin-off.

Within the next year, legal proceedings may occur that may result in a change in the estimated reserves recorded by Abbott. For its legal proceedings and environmental exposures, except as noted above, Abbott estimates the range of possible loss to be from approximately \$255 million to \$300 million. The recorded reserve balance at June 30, 2010 for these proceedings and exposures was approximately \$275 million. These reserves represent management's best estimate of probable loss, as defined by FASB ASC No. 450, Contingencies.

While it is not feasible to predict the outcome of all such proceedings and exposures with certainty, management believes that their ultimate disposition should not have a material adverse effect on Abbott's financial position, cash flows, or results of operations, except for the patent case discussed in the second paragraph of this footnote, the resolution of which could be material to cash flows or results of operations.

Edgar Filing: ABBOTT LABORATORIES - Form 10-Q

Notes to Condensed Consolidated Financial Statements

June 30, 2010

(Unaudited), continued

Note 5 Post-Employment Benefits

Retirement plans consist of defined benefit, defined contribution, and medical and dental plans. Net cost for the three and six months ended June 30 for Abbott's major defined benefit plans and post-employment medical and dental benefit plans is as follows:

(dollars in millions)	Defined Benefit Plans				Medical and Dental Plans			
	Three Months Ended June 30		Six Months Ended June 30		Three Months Ended June 30		Six Months Ended June 30	
	2010	2009	2010	2009	2010	2009	2010	2009
Service cost – benefits earned during the period	\$ 78	\$ 60	\$ 156	\$ 120	\$ 14	\$ 12	\$ 28	\$ 24
Interest cost on projected benefit obligations	117	94	234	188	26	26	52	51
Expected return on plans assets	(149)	(127)	(298)	(254)	(7)	(6)	(14)	(12)
Net amortization	28	18	56	36	6	4	11	9
Net Cost	\$ 74	\$ 45	\$ 148	\$ 90	\$ 39	\$ 36	\$ 77	\$ 72

Abbott funds its domestic defined benefit plans according to IRS funding limitations. In the first six months of 2010 and 2009, \$490 million and \$775 million, respectively, was contributed to defined benefit plans and \$66 million and \$13 million, respectively, was contributed to the post-employment medical and dental benefit plans.

Note 7 Segment Information

Abbott's principal business is the discovery, development, manufacture and sale of a broad line of health care products. Abbott's products are generally sold directly to retailers, wholesalers, hospitals, health care facilities, laboratories, physicians' offices and government agencies throughout the world. Abbott's reportable segments are as follows:

Pharmaceutical Products Worldwide sales of a broad line of pharmaceuticals. For segment reporting purposes, three pharmaceutical divisions are aggregated and reported as the Pharmaceutical Products segment.

Nutritional Products Worldwide sales of a broad line of adult and pediatric nutritional products.

Diagnostic Products Worldwide sales of diagnostic systems and tests for blood banks, hospitals, commercial laboratories and alternate-care testing sites. For segment reporting purposes, three diagnostic divisions are aggregated and reported as the Diagnostic Products segment.

Vascular Products Worldwide sales of coronary, endovascular, vessel closure and other products.

Abbott's underlying accounting records are maintained on a legal entity basis for government and public reporting requirements. Segment disclosures are on a performance basis consistent with internal management reporting. Intersegment transfers of inventory are recorded at standard cost and are not a measure of segment operating earnings. The cost of some corporate functions and the cost of certain employee benefits are charged to segments at predetermined rates that approximate cost. Remaining costs, if any, are not allocated to segments. For acquisitions prior to 2006, substantially all intangible assets and related amortization are not allocated to segments. The following segment information has been prepared in accordance with the internal accounting policies of Abbott, as described above, and are not presented in accordance with generally accepted accounting principles applied to the consolidated financial statements.

(dollars in millions)	Net Sales to External Customers				Operating Earnings

Notes to Condensed Consolidated Financial Statements

June 30, 2010

(Unaudited), continued

Note 8 Incentive Stock Program

In the first six months of 2010, Abbott granted 1,578,076 stock options, 233,568 replacement stock options, 1,779,200 restricted stock awards and 5,813,486 restricted stock units under this program. At June 30, 2010, approximately 200 million shares were reserved for future grants. Information regarding the number of options outstanding and exercisable at June 30, 2010 is as follows:

	Outstanding	Exercisable
Number of shares	113,193,629	103,205,962
Weighted average remaining life (years)	5.3	5.0
Weighted average exercise price	\$ 50.29	\$ 49.84
Aggregate intrinsic value (in millions)	\$ 159	\$ 159

The total unrecognized share-based compensation cost at June 30, 2010 amounted to approximately \$390 million which is expected to be recognized over the next three years.

Note 9 Business Acquisitions

In February 2010, Abbott acquired Solvay's pharmaceuticals business (Solvay Pharmaceuticals) for approximately \$6.1 billion, in cash, plus additional payments of up to EUR 100 million per year if certain sales milestones are met in 2011, 2012 and 2013. Contingent consideration of approximately \$290 million was recorded based on a preliminary valuation. The acquisition of Solvay Pharmaceuticals provides Abbott with a large and complementary portfolio of pharmaceutical products and expands Abbott's presence in key global emerging markets. Abbott acquired control of this business on February 15, 2010 and the financial results of the acquired operations are included in these financial statements beginning on that date. Net sales for the acquired operations for the second quarter and first six months of 2010 were approximately \$880 million and \$1.1 billion, respectively. Pretax loss of the acquired operations, including acquisition and integration expenses, for the second quarter and first six months of 2010 were approximately \$35 million and \$70 million, respectively. The acquisition was funded with current cash and short-term investments. The preliminary allocation of the fair value of the acquisition is shown in the table below (in billions of dollars). The allocation of the fair value of the acquisition will be finalized when the valuations are completed.

Goodwill, non-deductible	\$ 2.0
Acquired intangible assets, non-deductible	4.2
Acquired in-process research and development, non-deductible	0.5
Acquired net tangible assets	0.8
Deferred income taxes recorded at acquisition	(1.1)
Total preliminary allocation of fair value	\$ 6.4

Edgar Filing: ABBOTT LABORATORIES - Form 10-Q

Acquired intangible assets consist primarily of product rights for currently marketed products and will be amortized over 2 to 14 years (average of 11 years). Acquired in-process research and development will be accounted for as indefinite lived intangible assets until regulatory approval or discontinuation. The net tangible assets acquired consist primarily of trade accounts receivable of approximately \$695 million, inventory of approximately \$420 million, property and equipment of approximately \$710 million, net of assumed liabilities, primarily trade accounts payable, accrued compensation and other liabilities.

The following unaudited pro forma financial information reflects the consolidated results of operations of Abbott as if the acquisition of Solvay Pharmaceuticals had taken place on January 1, 2010 and January 1, 2009. The pro forma information includes adjustments for amortization of intangible assets and fair value adjustments to acquisition-date inventory as well as acquisition and integration expenses. The pro forma financial information is not necessarily indicative of the results of operations as they would have been had the transaction been effected on the assumed date. *(in billions of dollars, except per share amounts)*

Edgar Filing: ABBOTT LABORATORIES - Form 10-Q

Notes to Condensed Consolidated Financial Statements

June 30, 2010

(Unaudited), continued

	Three Months Ended June 30		Six Months Ended June 30	
	2010	2009	2010	2009
Net sales	\$ 8.8	\$ 8.3	\$ 17.1	\$ 15.7
Net earnings	1.3	1.2	2.3	2.5
Diluted earnings per common share	0.83	0.78	1.46	1.63

In March 2010, Abbott acquired STARLIMS Technologies for approximately \$100 million, in cash, net of cash held by STARLIMS, providing Abbott with leading products and expertise to build its position in laboratory informatics. A substantial portion of the fair value of the acquisition has been allocated to amortizable intangible assets and goodwill. The allocation of the fair value of the acquisition will be finalized when the valuation is completed.

In April 2010, Abbott acquired the outstanding shares of Facet Biotech Corporation for approximately \$430 million, in cash, net of cash held by Facet. The acquisition enhances Abbott's early- and mid-stage pharmaceutical pipeline, including a biologic for multiple sclerosis and compounds that complement Abbott's oncology program. A substantial portion of the fair value of the acquisition has been allocated to acquired in-process research and development that will be accounted for as an indefinite-lived intangible asset until regulatory approval or discontinuation. The allocation of the fair value of the acquisition will be finalized when the valuation is completed.

In February 2009, Abbott acquired the outstanding shares of Advanced Medical Optics, Inc. (AMO) for approximately \$1.4 billion in cash, net of cash held by AMO. Prior to the acquisition, Abbott held a small investment in AMO. Abbott acquired AMO to take advantage of increasing demand for vision care technologies due to population growth and demographic shifts and AMO's premier position in its field. Abbott acquired control of this business on February 25, 2009 and the financial results of the acquired operations are included in these financial statements beginning on that date. The acquisition was financed with long-term debt. The allocation of the fair value of the acquisition is shown in the table below: (*dollars in billions*)

Goodwill, non-deductible	\$ 1.7
Acquired intangible assets, non-deductible	0.9
Acquired in-process research and development, non-deductible	0.2
Acquired net tangible assets	0.4
Acquired debt	(1.5)
Deferred income taxes recorded at acquisition	(0.3)
Total allocation of fair value	\$ 1.4

Acquired intangible assets consist of established customer relationships, developed technology and trade names and are amortized over 2 to 30 years (average of 15 years). Acquired in-process research and development is accounted for as an indefinite-lived intangible asset until regulatory approval or discontinuation. The net tangible assets acquired consist primarily of trade accounts receivable, inventory, property and equipment and other assets, net of assumed liabilities, primarily trade accounts payable, accrued compensation and other liabilities. In addition, subsequent to the acquisition, Abbott repaid substantially all of the acquired debt of AMO.

Edgar Filing: ABBOTT LABORATORIES - Form 10-Q

In January 2009, Abbott acquired Ibis Biosciences, Inc. (Ibis) for \$175 million, in cash, to expand Abbott's position in molecular diagnostics for infectious disease. Including a \$40 million investment in Ibis in 2008, Abbott acquired 100 percent of the outstanding shares of Ibis. A substantial portion of the fair value of the acquisition has been allocated to goodwill and amortizable intangible assets, and acquired in-process research and development that will be accounted for as an indefinite-lived intangible asset until regulatory approval or discontinuation. The investment in Ibis in 2008 resulted in a charge to acquired in-process research and development. In connection with the acquisition, the carrying amount of this investment was revalued to fair value resulting in recording \$33 million of income, which is reported as Other (income) expense, net.

Edgar Filing: ABBOTT LABORATORIES - Form 10-Q

Notes to Condensed Consolidated Financial Statements

June 30, 2010

(Unaudited), continued

The allocation of the fair value of the 2009 acquisitions of Visiogen, Inc. and Evalve, Inc. will be completed when the valuations are completed.

Except for the acquisition of Solvay Pharmaceuticals, had the above acquisitions taken place on January 1 of the previous year, consolidated net sales and income would not have been significantly different from reported amounts.

In May 2010, Abbott announced an agreement to acquire Piramal Healthcare Limited's Healthcare Solutions business, a leader in the Indian branded generics market, for \$2.12 billion, in cash, plus additional payments of \$400 million annually in 2011, 2012, 2013 and 2014. This transaction is expected to close in the second half of 2010.

Note 10 Acquired In-process Research and Development

In the second quarter of 2010, Abbott entered into an agreement to develop and commercialize a product for the treatment of endometriosis resulting in a charge to acquired in-process research and development of \$75 million. Additional payments of approximately \$500 million could be required for the achievement of certain development, regulatory and commercial milestones.

Note 11 Financial Instruments, Derivatives and Fair Value Measures

Certain Abbott foreign subsidiaries enter into foreign currency forward exchange contracts to manage exposures to changes in foreign exchange rates for anticipated intercompany purchases by those subsidiaries whose functional currencies are not the U.S. dollar. These contracts, totaling \$816 million and \$2.0 billion at June 30, 2010 and December 31, 2009, respectively, are designated as cash flow hedges of the variability of the cash flows due to changes in foreign exchange rates. Accumulated gains and losses as of June 30, 2010 will be included in Cost of products sold at the time the products are sold, generally through the next twelve months. The amount of hedge ineffectiveness was not significant in 2010 and 2009 for these hedges.

Abbott enters into foreign currency forward exchange contracts to manage currency exposures for foreign currency denominated third-party trade payables and receivables, and for intercompany loans and trade accounts payable where the receivable or payable is denominated in a currency other than the functional currency of the entity. For intercompany loans, the contracts require Abbott to sell or buy foreign currencies, primarily European currencies and Japanese yen, in exchange for primarily U.S. dollars and other European currencies. For intercompany and trade payables and receivables, the currency exposures are primarily the U.S. dollar, European currencies and Japanese yen. At June 30, 2010 and December 31, 2009, Abbott held \$8.6 billion and \$7.5 billion, respectively, of such foreign currency forward exchange contracts.

Edgar Filing: ABBOTT LABORATORIES - Form 10-Q

Abbott has designated foreign denominated short-term debt as a hedge of the net investment in a foreign subsidiary of approximately \$600 million and approximately \$575 million as of June 30, 2010 and December 31, 2009, respectively. Accordingly, changes in the fair value of this debt due to changes in exchange rates are recorded in Accumulated other comprehensive income (loss), net of tax.

Abbott is a party to interest rate swap contracts totaling \$7.3 billion and \$5.5 billion at June 30, 2010 and December 31, 2009, respectively, to manage its exposure to changes in the fair value of \$7.3 billion and \$5.5 billion, respectively, of fixed-rate debt due 2011 through 2020. These contracts are designated as fair value hedges of the variability of the fair value of fixed-rate debt due to changes in the long-term benchmark interest rates. The effect of the hedge is to change a fixed-rate interest obligation to a variable rate for that portion of the debt. Abbott records the contracts at fair value and adjusts the carrying amount of the fixed-rate debt by an offsetting amount. No hedge ineffectiveness was recorded in income in 2010 or 2009 for these hedges.

Edgar Filing: ABBOTT LABORATORIES - Form 10-Q

(Unaudited), continued

The recorded value of investments that are valued using significant unobservable inputs did not change significantly. Changes in these values are recorded in Accumulated other comprehensive income. The fair value of the contingent consideration was determined based on an independent appraisal adjusted during the period for the time value of money.

Note 12 Goodwill and Intangible Assets

Abbott recorded goodwill of approximately \$2.1 billion in 2010 related to the acquisitions of Solvay Pharmaceuticals, STARLIMS Technologies and Facet Biotech. In addition, in the first quarter of 2010, Abbott paid \$250 million to Boston Scientific as a result of the approval to market the *Xience V* drug-eluting stent in Japan, resulting in an increase in goodwill. Abbott recorded goodwill of approximately \$1.7 billion in 2009 related to the acquisitions of Advanced Medical Optics, Inc. and Ibis Biosciences, Inc. Goodwill related to the Solvay Pharmaceuticals acquisition was allocated to the Pharmaceutical Products segment, goodwill related to the Boston Scientific payment was allocated to the Vascular Products segment and goodwill associated with the Ibis acquisition was allocated to the Diagnostic Products segment. Foreign currency translation adjustments and other adjustments decreased goodwill in the first six months of 2010 by approximately \$1.3 billion and increased goodwill by approximately \$505 million in the first six months of 2009. The amount of goodwill related to reportable segments at June 30, 2010 was \$7.7 billion for the Pharmaceutical Products segment, \$208 million for the Nutritional Products segment, \$386 million for the Diagnostic Products segment and \$2.6 billion for the Vascular Products segment. There were no reductions of goodwill relating to impairments or disposal of all or a portion of a business.

The gross amount of amortizable intangible assets, primarily product rights and technology was \$14.6 billion as of June 30, 2010 and \$10.8 billion as of December 31, 2009, and accumulated amortization was \$5.8 billion as of June 30, 2010 and \$5.1 billion as of December 31, 2009. Indefinite-lived intangible assets, which relate to in-process research and development acquired in a business combination, was approximately \$1.5 billion and \$610 million at June 30, 2010 and December 31, 2009, respectively. The estimated annual amortization expense for intangible assets is approximately \$1.4 billion in 2010, \$1.4 billion in 2011, \$1.3 billion in 2012, \$1.0 billion in 2013 and \$945 million in 2014. Amortizable intangible assets are amortized over 2 to 30 years (average 11 years).

Notes to Condensed Consolidated Financial Statements

June 30, 2010

(Unaudited), continued

Note 13 Restructuring Plans

In 2008, Abbott management approved a plan to streamline global manufacturing operations, reduce overall costs, and improve efficiencies in Abbott's core diagnostic business. Charges of approximately \$29 million and \$23 million were recorded in the first six months of 2010 and 2009, respectively, relating to this restructuring, primarily for accelerated depreciation and product transfer costs. Additional charges will occur through 2011 as a result of product re-registration timelines required under manufacturing regulations in a number of countries and product transition timelines. The following summarizes the activity for this restructuring: *(dollars in millions)*

	2010		2009	
Accrued balance at January 1	\$	98	\$	110
Restructuring charges				1
Payments and other adjustments		(5)		(10)
Accrued balance at June 30	\$	93	\$	101

In 2009 and prior years, Abbott management approved plans to realign its worldwide pharmaceutical and vascular manufacturing operations and selected domestic and international commercial and research and development operations in order to reduce costs. Charges of \$3 million and \$20 million were subsequently recorded in the first six months of 2010 and 2009, respectively, relating to these restructurings, primarily for accelerated depreciation and product transfer costs. The following summarizes the activity for these restructurings: *(dollars in millions)*

	2010		2009	
Accrued balance at January 1	\$	145	\$	105
Restructuring charges				26
Payments and other adjustments		(71)		(34)
Accrued balance at June 30	\$	74	\$	97

FINANCIAL REVIEWResults of Operations

The following table details sales by reportable segment for the three months and six months ended June 30. Percent changes are versus the prior year and are based on unrounded numbers.

(dollars in millions)	Net Sales to External Customers							
	Three Months Ended June 30				Six Months Ended June 30			
	2010	Percent Change	2009	Percent Change	2010	Percent Change	2009	Percent Change
Pharmaceutical Products	\$ 4,914	24.5	\$ 3,946	(4.3)	\$ 9,018	18.9	\$ 7,582	(5.0)
Nutritional Products	1,414	10.1	1,283	4.0	2,734	10.9	2,465	5.1

Total Reportable Segments	8,111	19.9	6,765	(0.3)	15,196	16.5	13,043	0.1
Other	715	(2.0)	730	37.5	1,328	13.5	1,170	11.6
Net Sales	\$ 8,826	17.8	\$ 7,495	2.5	\$ 16,524	16.3	\$ 14,213	0.9
Total U.S.	\$ 3,791	6.4	\$ 3,563	4.5	\$ 7,043	7.3	\$ 6,565	1.7
Total International	\$ 5,035	28.1	\$ 3,932	0.7	\$ 9,481	24.0	\$ 7,648	0.3

Worldwide sales for the second quarter and the first six months of 2010 compared to 2009 reflect the acquisition of Solvay Pharmaceuticals and the favorable effect of a relatively weaker U.S. dollar. Excluding 2.7 percent and 3.4 percent of favorable exchange for the second quarter and first six months of 2010, net sales increased 15.1 percent and 12.9 percent, respectively, which reflects primarily unit growth. The relatively weaker U.S. dollar increased second quarter 2010 Total International sales by 5.2 percent, Pharmaceutical Products segment sales by 2.8 percent, Nutritional Product segment sales by 2.8 percent, Diagnostic Products segment sales by 3.5 percent and Vascular Products segment sales by 2.3 percent over the second quarter of 2009. The relatively weaker U.S. dollar increased the first six months 2010 Total International sales by 6.3 percent, Pharmaceutical Products segment sales by 3.6 percent, Nutritional Product segment sales by 2.7 percent, Diagnostic Products segment sales by 4.5 percent and Vascular Products segment sales by 2.8 percent over the first six months of 2009. The relatively stronger U.S. dollar decreased second quarter 2009 consolidated net sales by 8.0 percent, Total International sales by 14.9 percent, Pharmaceutical Products segment sales by 8.3 percent, Nutritional Product segment sales by 5.2 percent, Diagnostic Products segment sales by 10.1 percent and Vascular Products segment sales by 8.7 percent over the second quarter of 2008. The relatively stronger U.S. dollar also decreased the first six months 2009 consolidated net sales by 7.1 percent, Total International sales by 13.0 percent, Pharmaceutical Products segment sales by 7.5 percent, Nutritional Product segment sales by 4.7 percent, Diagnostic Products segment sales by 9.0 percent and Vascular Products segment sales by 6.7 percent over the first six months of 2008. The sales growth in 2010 and 2009 for the Vascular Products segment was impacted by the launch in Japan of the *Xience V* drug eluting stent in the first quarter of 2010 and the U.S. launch of the *Xience V* drug eluting stent in the third quarter of 2008. The sales growth in 2010 for the Pharmaceutical Product segment is primarily due to the acquisition of Solvay Pharmaceuticals. The sales growth in 2009 for the Pharmaceutical Products segment was impacted by decreased sales of *Depakote* due to generic competition. The increase in Other sales for the second quarter of 2009 is primarily due to the acquisition of Advanced Medical Optics, Inc. in February 2009.

FINANCIAL REVIEW

(continued)

A comparison of significant product group sales for the six months ended June 30 is as follows. Percent changes are versus the prior year and are based on unrounded numbers.

(dollars in millions)	Six Months Ended June 30			
	2010	Percent Change	2009	Percent Change
Pharmaceutical Products				
U.S. Specialty	\$ 2,038	(2.4)	\$ 2,089	(10.8)
U.S. Primary Care	1,354	(1.6)	1,377	(2.4)
International Pharmaceuticals	4,105	9.9	3,734	(0.3)
Nutritional Products				
U.S. Pediatric Nutritionals	644	3.1	624	1.4
International Pediatric Nutritionals	819	18.8	690	8.7
U.S. Adult Nutritionals	652	6.2	614	9.2
International Adult Nutritionals	593	18.6	500	(3.8)
Diagnostics				
Immunochemistry	1,442	8.1	1,334	(5.4)

Decreased sales of *Depakote*, due to continued generic competition, *Zemplar* and *Lupron* decreased U.S. Specialty product sales in 2010 and was partially offset by increased sales of *HUMIRA*. Decreased sales of *Depakote* due to generic competition impacted U.S. Specialty product sales in 2009 and was partially offset by the addition of *Lupron* sales from the conclusion of the TAP joint venture in April 2008 and increased sales of *HUMIRA*. U.S. sales of *Depakote* for the first six months of 2010, 2009 and 2008 were \$67 million, \$190 million and \$727 million, respectively. U.S. Primary Care sales were impacted by the discontinuation of *Azmacort* and generic competition for *Cardizem LA* in 2010 and by decreased *Omnicef* and *Synthroid* sales in 2009 due to generic competition. These impacts were partially offset by increased sales of *Niaspan* and the *TriCor/Trilipix* franchise in both 2010 and 2009. Increased sales of *HUMIRA* favorably impacted International Pharmaceutical sales in both 2010 and 2009. International sales of *HUMIRA* for the first six months of 2010 and 2009 were \$1.752 billion and \$1.290 billion, respectively. Abbott forecasts full year worldwide *HUMIRA* sales growth of approximately 20 percent in 2010. The relatively weaker U.S. dollar increased International Pharmaceutical sales in 2010 by 6.7 percent and the relatively stronger U.S. dollar decreased International Pharmaceutical sales in 2009 by 14.3 percent. International Pediatric Nutritionals sales increases in 2010 and 2009 were due primarily to volume growth in developing countries. The relatively weaker U.S. dollar increased International Adult Nutritional sales in 2010 by 6.8 percent and the relatively stronger U.S. dollar decreased International Adult Nutritional sales in 2009 by 11.9 percent. The relatively weaker U.S. dollar increased Immunochemistry sales in 2010 by 4.9 percent and the relatively stronger U.S. dollar decreased Immunochemistry sales in 2009 by 9.7 percent.

The gross profit margin was 59.8 percent for the second quarter 2010, compared to 58.3 percent for the second quarter 2009. First six months 2010 gross profit margin was 58.4 percent, compared to 57.3 percent for the first six months 2009. The increases in the gross profit margin in 2010 were due, in part, to improved margins in the vascular and diagnostics businesses and the favorable effect of exchange on the gross profit margin ratio for the second quarter 2010.

Research and development expenses increased 28.0 percent in the second quarter 2010 and 20.2 percent for the first six months 2010 over comparable 2009 periods. These increases reflect the acquisition of Solvay Pharmaceuticals in February 2010. These increases also reflect continued pipeline spending, including programs in vascular devices, biologics, neuroscience, oncology and Hepatitis C. The majority of

Edgar Filing: ABBOTT LABORATORIES - Form 10-Q

research and development expenditures is concentrated on pharmaceutical products.

Selling, general and administrative expenses for the second quarter and first six months increased 35.5 percent and 19.8 percent, respectively, over the comparable 2009 periods. These increases reflect the acquisitions of Solvay Pharmaceuticals in February 2010 and AMO in February 2009 and higher provisions for litigation reserves in the second quarter of 2010.

FINANCIAL REVIEW

(continued)

Business Acquisitions

In February 2010, Abbott acquired Solvay's pharmaceuticals business (Solvay Pharmaceuticals) for approximately \$6.1 billion, in cash, plus additional payments of up to EUR 100 million per year if certain sales milestones are met in 2011, 2012 and 2013. Contingent consideration of approximately \$290 million was recorded based on a preliminary valuation. The acquisition of Solvay Pharmaceuticals provides Abbott with a large and complementary portfolio of pharmaceutical products and expands Abbott's presence in key global emerging markets. Abbott acquired control of this business on February 15, 2010 and the financial results of the acquired operations are included in these financial statements beginning on that date. Net sales for the acquired operations for the second quarter and first six months of 2010 were approximately \$880 million and \$1.1 billion, respectively. Pretax loss of the acquired operations, including acquisition and integration expenses, for the second quarter and first six months of 2010 were approximately \$35 million and \$70 million, respectively. The acquisition was funded with current cash and short-term investments. The preliminary allocation of the fair value of the acquisition is shown in the table below (*in billions of dollars*). The allocation of the fair value of the acquisition will be finalized when the valuations are completed.

Goodwill, non-deductible	\$	2.0
Acquired intangible assets, non-deductible		4.2
Acquired in-process research and development, non-deductible		0.5
Acquired net tangible assets		0.8
Deferred income taxes recorded at acquisition		(1.1)
Total preliminary allocation of fair value	\$	6.4

Acquired intangible assets consist primarily of product rights for currently marketed products and will be amortized over 2 to 14 years (average of 11 years). Acquired in-process research and development will be accounted for as indefinite lived intangible assets until regulatory approval or discontinuation. The net tangible assets acquired consist primarily of trade accounts receivable of approximately \$695 million, inventory of approximately \$420 million, property and equipment of approximately \$710 million, net of assumed liabilities, primarily trade accounts payable, accrued compensation and other liabilities.

The following unaudited pro forma financial information reflects the consolidated results of operations of Abbott as if the acquisition of Solvay Pharmaceuticals had taken place on January 1, 2010 and January 1, 2009. The pro forma information includes adjustments for amortization of intangible assets and fair value adjustments to acquisition-date inventory as well as acquisition and integration expenses. The pro forma financial information is not necessarily indicative of the results of operations as they would have been had the transaction been effected on the assumed date. (*in billions of dollars, except per share amounts*)

	Three Months Ended			Six Months Ended				
	June 30		June 30		June 30			
	2010	2009	2010	2009	2010	2009		
Net sales	\$	8.8	\$	8.3	\$	17.1	\$	15.7
Net earnings		1.3		1.2		2.3		2.5
Diluted earnings per common share		0.83		0.78		1.46		1.63

Edgar Filing: ABBOTT LABORATORIES - Form 10-Q

In March 2010, Abbott acquired STARLIMS Technologies for approximately \$100 million, in cash, net of cash held by STARLIMS, providing Abbott with leading products and expertise to build its position in laboratory informatics. A substantial portion of the fair value of the acquisition has been allocated to amortizable intangible assets and goodwill. The allocation of the fair value of the acquisition will be finalized when the valuation is completed.

In April 2010, Abbott acquired the outstanding shares of Facet Biotech Corporation for approximately \$430 million, in cash, net of cash held by Facet. The acquisition enhances Abbott's early- and mid-stage pharmaceutical pipeline, including a biologic for multiple sclerosis and compounds that complement Abbott's oncology program. A substantial portion of the fair value of the acquisition has been allocated to acquired in-process research and development that will be accounted for as an indefinite-lived intangible asset until regulatory approval or discontinuation. The allocation of the fair value of the acquisition will be finalized when the valuation is completed.

FINANCIAL REVIEW

(continued)

In February 2009, Abbott acquired the outstanding shares of Advanced Medical Optics, Inc. (AMO) for approximately \$1.4 billion in cash, net of cash held by AMO. Prior to the acquisition, Abbott held a small investment in AMO. Abbott acquired AMO to take advantage of increasing demand for vision care technologies due to population growth and demographic shifts and AMO's premier position in its field. Abbott acquired control of this business on February 25, 2009 and the financial results of the acquired operations are included in these financial statements beginning on that date. The acquisition was financed with long-term debt. The allocation of the fair value of the acquisition is shown in the table below: (*dollars in billions*)

Goodwill, non-deductible	\$	1.7
Acquired intangible assets, non-deductible		0.9
Acquired in-process research and development, non-deductible		0.2
Acquired net tangible assets		0.4
Acquired debt		(1.5)
Deferred income taxes recorded at acquisition		(0.3)
Total allocation of fair value	\$	1.4

Acquired intangible assets consist of established customer relationships, developed technology and trade names and are amortized over 2 to 30 years (average of 15 years). Acquired in-process research and development is accounted for as an indefinite-lived intangible asset until regulatory approval or discontinuation. The net tangible assets acquired consist primarily of trade accounts receivable, inventory, property and equipment and other assets, net of assumed liabilities, primarily trade accounts payable, accrued compensation and other liabilities. In addition, subsequent to the acquisition, Abbott repaid substantially all of the acquired debt of AMO.

In January 2009, Abbott acquired Ibis Biosciences, Inc. (Ibis) for \$175 million, in cash, to expand Abbott's position in molecular diagnostics for infectious disease. Including a \$40 million investment in Ibis in 2008, Abbott acquired 100 percent of the outstanding shares of Ibis. A substantial portion of the fair value of the acquisition has been allocated to goodwill and amortizable intangible assets, and acquired in-process research and development that will be accounted for as an indefinite-lived intangible asset until regulatory approval or discontinuation. The investment in Ibis in 2008 resulted in a charge to acquired in-process research and development. In connection with the acquisition, the carrying amount of this investment was revalued to fair value resulting in recording \$33 million of income, which is reported as Other (income) expense, net.

The allocation of the fair value of the 2009 acquisitions of Visiogen, Inc. and Evalve, Inc. will be completed when the valuations are completed.

Except for the acquisition of Solvay Pharmaceuticals, had the above acquisitions taken place on January 1 of the previous year, consolidated net sales and income would not have been significantly different from reported amounts.

In May 2010, Abbott announced an agreement to acquire Piramal Healthcare Limited's Healthcare Solutions business, a leader in the Indian branded generics market, for \$2.12 billion, in cash, plus additional payments of \$400 million annually in 2011, 2012, 2013 and 2014. This transaction is expected to close in the second half of 2010.

Acquired In-process Research and Development

In the second quarter of 2010, Abbott entered into an agreement to develop and commercialize a product for the treatment of endometriosis resulting in a charge to acquired in-process research and development of \$75 million. Additional payments of approximately \$500 million could be required for the achievement of certain development, regulatory and commercial milestones.

FINANCIAL REVIEW

(continued)

Restructuring Plans

In 2008, Abbott management approved a plan to streamline global manufacturing operations, reduce overall costs, and improve efficiencies in Abbott's core diagnostic business. Charges of approximately \$29 million and \$23 million were recorded in the first six months of 2010 and 2009, respectively, relating to this restructuring, primarily for accelerated depreciation and product transfer costs. Additional charges will occur through 2011 as a result of product re-registration timelines required under manufacturing regulations in a number of countries and product transition timelines. The following summarizes the activity for this restructuring: *(dollars in millions)*

	2010		2009	
Accrued balance at January 1	\$	98	\$	110
Restructuring charges				1
Payments and other adjustments		(5)		(10)
Accrued balance at June 30	\$	93	\$	101

In 2009 and prior years, Abbott management approved plans to realign its worldwide pharmaceutical and vascular manufacturing operations and selected domestic and international commercial and research and development operations in order to reduce costs. Charges of \$3 million and \$20 million were subsequently recorded in the first six months of 2010 and 2009, respectively, relating to these restructurings, primarily for accelerated depreciation and product transfer costs. The following summarizes the activity for these restructurings: *(dollars in millions)*

	2010		2009	
Accrued balance at January 1	\$	145	\$	105
Restructuring charges				26
Payments and other adjustments		(71)		(34)
Accrued balance at June 30	\$	74	\$	97

Other (income) expense, net and Net foreign exchange loss (gain)

Other (income) expense, net, for the first six months of 2009 includes the derecognition of a contingent liability of \$797 million associated with the conclusion of the TAP joint venture and income from the recording of certain investments at fair value in connection with business acquisitions. Other (income) expense, net, for the second quarter and first six months of 2010 and 2009 includes ongoing contractual payments from Takeda associated with the conclusion of the TAP joint venture.

Net foreign exchange loss (gain) for the first six months of 2010 includes a charge of approximately \$86 million for the impact of the devaluation of the bolivar currency in Venezuela on balance sheet translation.

Taxes on Earnings

Taxes on earnings reflect the estimated annual effective rates and include charges for interest and penalties. The effective tax rates are less than the statutory U.S. federal income tax rate principally due to the benefit of lower statutory tax rates and tax exemptions in several foreign taxing jurisdictions. As a result of the Patient Protection and Affordable Care Act and the Health Care and Education Reconciliation Act which were signed into law in the first quarter of 2010, Abbott recorded a charge of approximately \$60 million in the first quarter 2010 to reduce deferred tax assets associated with retiree health care liabilities related to the Medicare Part D retiree drug subsidy.

FINANCIAL REVIEW

(continued)

Liquidity and Capital Resources at June 30, 2010 Compared with December 31, 2009

Net cash from operating activities for the first six months 2010 totaled approximately \$3.9 billion. Other, net in Net cash from operating activities for 2010 and 2009 includes the effects of contributions to defined benefit plans of approximately \$490 million and \$775 million, respectively. Abbott expects annual cash flow from operating activities to continue to exceed Abbott's capital expenditures and cash dividends.

The acquisition of Piramal Healthcare Limited's Healthcare Solutions business will be funded with current cash.

Working capital was \$5.2 billion at June 30, 2010 and \$10.3 billion at December 31, 2009. The decrease in working capital was due to current cash and investments used to acquire Solvay Pharmaceuticals.

At June 30, 2010, Abbott's long-term debt rating was AA by Standard & Poor's Corporation and A1 by Moody's Investors Service. Abbott has readily available financial resources, including unused lines of credit of \$6.3 billion that support commercial paper borrowing arrangements of which a \$3.3 billion facility expires in October 2010 and a \$3.0 billion facility expires in 2012.

Under a registration statement filed with the Securities and Exchange Commission in February 2009, Abbott issued \$3.0 billion of long-term debt in the second quarter of 2010 that matures in 2015, 2020 and 2040 with interest rates of 2.7 percent, 4.125 percent and 5.3 percent, respectively. Proceeds from this debt were used to pay down short-term borrowings. Under the February 2009 registration statement, Abbott issued \$3.0 billion of long-term debt in the first quarter of 2009 that matures in 2019 and 2039 with interest rates of 5.125 percent and 6.0 percent, respectively. Proceeds from this debt were used to fund the acquisition of Advanced Medical Optics, Inc. and to repay debt of Advanced Medical Optics, Inc. In addition, Abbott repaid \$1 billion of long-term notes in 2009 that were due in February and May of 2009 using short-term borrowings.

In October 2008, the board of directors authorized the purchase of up to \$5 billion of Abbott's common shares from time to time and 14.8 million shares and 14.5 million shares were purchased under this authorization in the first six months of 2010 and 2009, respectively, at a cost of approximately \$800 million in both 2010 and 2009.

Legislative Issues

In the first quarter 2010, the Patient Protection and Affordable Care Act and the Health Care and Education Reconciliation Act (collectively referred to herein as "health care reform legislation") were signed into law in the U.S. Health care reform legislation includes an increase in the basic Medicaid rebate rate from 15.1% to 23.1% and extends the rebate to drugs provided through Medicaid managed care organizations. These

Edgar Filing: ABBOTT LABORATORIES - Form 10-Q

Medicaid rebate changes will continue to have a negative effect on the gross profit margin of the Pharmaceutical Products segment in future quarters.

Beginning in 2013, health care reform legislation will eliminate the federal income tax deduction for prescription drug expenses of retirees for which Abbott receives reimbursement under the Medicare Part D retiree drug subsidy program. As a result, Abbott recorded a charge of approximately \$60 million in the first quarter 2010 to reduce deferred tax assets associated with retiree health care liabilities.

In 2011, Abbott will begin recording the annual fee imposed by health care reform legislation on companies that sell branded prescription drugs to specified government programs. The amount of the annual fee will be based on the ratio of certain of Abbott's sales as compared to the total such sales of all covered entities multiplied by a fixed dollar amount specified in the legislation by year. In 2011, additional rebates will be incurred related to the Medicare Part D coverage gap - donut hole. Beginning in 2013, Abbott will record the 2.3% excise tax imposed by health care reform legislation on the sale of certain medical devices.

FINANCIAL REVIEW

(continued)

Abbott's primary markets are highly competitive and subject to substantial government regulations throughout the world. Abbott expects debate to continue over the availability, method of delivery, and payment for health care products and services. It is not possible to predict the extent to which Abbott or the health care industry in general might be adversely affected by these factors in the future. A more complete discussion of these factors is contained in Item 1, Business, and Item 1A, Risk Factors, in the 2009 Annual Report on Form 10-K and in Item 1A, Risk Factors, in the quarterly report for the quarter ended March 31, 2010.

Private Securities Litigation Reform Act of 1995 -- A Caution Concerning Forward-Looking Statements

Under the safe harbor provisions of the Private Securities Litigation Reform Act of 1995, Abbott cautions investors that any forward-looking statements or projections made by Abbott, including those made in this document, are subject to risks and uncertainties that may cause actual results to differ materially from those projected. Economic, competitive, governmental, technological and other factors that may affect Abbott's operations are discussed in Item 1A, Risk Factors, in the 2009 Annual Report on Form 10-K and in Item 1A, Risk Factors, in the quarterly report for the quarter ended March 31, 2010.

PART I. FINANCIAL INFORMATION

Item 4. Controls and Procedures

(a) *Evaluation of disclosure controls and procedures.* The Chief Executive Officer, Miles D. White, and Chief Financial Officer, Thomas C. Freyman, evaluated the effectiveness of Abbott Laboratories' disclosure controls and procedures as of the end of the period covered by this report, and concluded that Abbott Laboratories' disclosure controls and procedures were effective to ensure that information Abbott is required to disclose in the reports that it files or submits with the Securities and Exchange Commission under the Securities Exchange Act of 1934 (the Exchange Act) is recorded, processed, summarized and reported, within the time periods specified in the Commission's rules and forms, and to ensure that information required to be disclosed by Abbott in the reports that it files or submits under the Exchange Act is accumulated and communicated to Abbott's management, including its principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding required disclosure.

(b) *Changes in internal control over financial reporting.* During the quarter ended June 30, 2010, there were no changes in Abbott's internal control over financial reporting (as defined in Rule 13a-15(f) under the Exchange Act) that have materially affected, or are reasonably likely to materially affect, Abbott's internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

Abbott is involved in various claims, legal proceedings and investigations including (as of June 30, 2010) those below. While it is not feasible to predict the outcome of such pending claims, proceedings and investigations with certainty, management is of the opinion that their ultimate disposition should not have a material adverse effect on Abbott's financial position, cash flows, or results of operations, except for the case filed in April 2007 referred to in the second paragraph of Note 4 to Abbott's financial statements, the resolution of which could be material to cash flows or results of operations.

In its 2009 Form 10-K, Abbott reported that a class action case is pending against Abbott in the United States District Court for the Northern District of Illinois in which former Abbott employees allege that their transfer to Hospira, Inc., as part of the spin-off of Hospira, adversely affected their employee benefits in violation of the Employee Retirement Income Security Act, and that in their transfer, Abbott breached a fiduciary duty to plaintiffs involving employee benefits. In April 2010, the Court entered judgment in favor of Abbott on all counts. The plaintiffs appealed to the Court of Appeals for the Seventh Circuit.

In its Form 10-Q for the quarter ended March 31, 2010, Abbott reported that the motion of Solvay Pharmaceuticals, Inc. (a company Abbott acquired in February 2010) to dismiss the cases consolidated for pre-trial purposes in the United States District Court for the Northern District of Georgia under the Multi District Litigation Rules as *In re AndroGel Antitrust Litigation*, MDL No. 2084, was partially granted and that all of the Federal Trade Commission's (FTC) claims and all of the plaintiff's claims except those alleging sham litigation were dismissed. In June 2010, the FTC appealed to the Court of Appeals for the Eleventh Circuit.

Abbott is seeking to enforce its patent rights relating to fenofibrate tablets (a drug Abbott sells under the trademark Tricor®). In a case filed in June 2010 in the United States District Court for the District of New Jersey, Abbott and the patent owner Laboratoires Fournier, S.A. allege infringement of three patents and seek injunctive relief against Ranbaxy Laboratories Ltd., Ranbaxy Pharmaceuticals Inc. and Ranbaxy Inc. In related cases where Abbott became involved through its acquisition of Fournier Laboratories Ireland Ltd. (Fournier Ireland), Abbott is seeking to enforce additional rights relating to fenofibrate tablets. These cases were filed in the United States District Court for the District of New Jersey by joint patent owners Elan Pharma International Ltd. (Elan) and Fournier Ireland against Biovail Laboratories International SRL and Biovail Corporation in November 2008, Lupin Pharmaceuticals, Inc. and Lupin Limited in March 2009 and Impax Laboratories, Inc. in October 2009. These cases each allege infringement of three patents and seek injunctive relief. In a fourth case filed in June 2010 in the United States District Court for the District of New Jersey, Elan and Fournier Ireland allege infringement of two patents and seek injunctive relief against Ranbaxy Laboratories Ltd., Ranbaxy Pharmaceuticals Inc. and Ranbaxy Inc.

Abbott is seeking to enforce its patent rights relating to niacin extended release tablets (a drug Abbott sells under the trademark Niaspan®). In a case filed in June 2010 in the United States District Court for the District of Delaware, Abbott alleges Sandoz, Inc.'s proposed generic product infringes Abbott's patents and seeks declaratory and injunctive relief.

Abbott is seeking to enforce certain patent rights that cover the use of fully human anti-TNF alpha antibodies with methotrexate to treat rheumatoid arthritis. In a case pending in the United States District Court for the District of Massachusetts, Abbott alleges Centocor Inc.'s product Simponi® infringes Abbott's patents and seeks damages and injunctive relief. The case was filed in May of 2009, and stayed at Centocor's request while the parties arbitrated issues related to Centocor's license defenses. In June 2010 the arbitrator ruled, the Court lifted the stay, and the patent infringement case will proceed.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

(c) *Issuer Purchases of Equity Securities*

Period		(a) Total Number of Shares (or Units) Purchased	(b) Average Price Paid per Share (or Unit)	(c) Total Number of Shares (or Units) Purchased as Part of Publicly Announced Plans or Programs	(d) Maximum Number (or Approximate Dollar Value) of Shares (or Units) that May Yet Be Purchased Under the Plans or Programs
April 1, 2010	April 30, 2010	42,278(1)	\$ 52.519	0	\$ 3,392,180,505(2)
May 1, 2010	May 31, 2010	44,617(1)	\$ 48.660	0	\$ 3,392,180,505(2)
June 1, 2010	June 30, 2010	38,357(1)	\$ 47.433	0	\$ 3,392,180,505(2)
Total		125,252(1)	\$ 49.587	0	\$ 3,392,180,505(2)

1. These shares include:

(i) the shares deemed surrendered to Abbott to pay the exercise price in connection with the exercise of employee stock options 42,278 in April, 22,117 in May, and 15,857 in June; and

(ii) the shares purchased on the open market for the benefit of participants in the Abbott Laboratories, Limited Employee Stock Purchase Plan - 0 in April, 22,500 in May, and 22,500 in June.

These shares do not include the shares surrendered to Abbott to satisfy tax withholding obligations in connection with the vesting of restricted stock or restricted stock units.

2. On October 13, 2008, Abbott announced that its board of directors approved the purchase of up to \$5 billion of its common shares, from time to time.
