WILHELMINA INTERNATIONAL, INC. AND SUBSIDIARIES

Notes to the Consolidated Financial Statements

Note 1. Basis of Presentation

The interim consolidated financial statements included herein have been prepared by Wilhelmina International, Inc. (together with its subsidiaries "Wilhelmina" or the "Company") without audit, pursuant to the rules and regulations of the Securities and Exchange Commission ("SEC"). Although certain information and footnote disclosures normally included in the consolidated financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted pursuant to those rules and regulations, all adjustments considered necessary in order to make the consolidated financial statements not misleading have been included. In the opinion of the Company's management, the accompanying interim unaudited consolidated financial statements reflect all adjustments, of a normal recurring nature, that are necessary for a fair presentation of the Company's consolidated financial position, results of operations and cash flows for the periods presented. Except as otherwise noted, all dollar amounts other than per share data are presented in thousands. These interim unaudited consolidated financial statements should be read in conjunction with the audited consolidated financial statements and the notes thereto included in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2015, as amended. Results of operations for the interim periods are not necessarily indicative of results that may be expected for any other interim periods or the full fiscal year.

Note 2. Business

The primary business of Wilhelmina is fashion model management. These business operations are headquartered in New York City. The Company's predecessor was founded in 1967 by Wilhelmina Cooper, a renowned fashion model, and became one of the oldest, best known and largest fashion model management companies in the world. Since its founding, Wilhelmina has grown to include operations located in Los Angeles, Miami, London and Chile, as well as a network of licensees in various local markets in the U.S. and several international markets. Wilhelmina provides traditional, full-service fashion model and talent management services, specializing in the representation and management of models, entertainers, artists, athletes and other talent, to various clients, including retailers, designers, advertising agencies, print and electronic media and catalog companies.

Note 3. Business Acquisition

On January 5, 2015, the Company purchased 100% of the outstanding shares of Union Models Management Ltd. in London and renamed it Wilhelmina London Limited (“London”). The strategic acquisition of London establishes a footprint for the Company in Western Europe. It also serves as a base of operations to service the Company’s European clients and as a new talent development office for European models and artists.

The purchase price of \$1,321 included \$171 of discounted value of contingent consideration assuming London achieves certain performance benchmarks during the post-closing period. These amounts are due to the seller in the post-closing period subject to achieving these performance benchmarks. The purchase price net of cash acquired was \$453, of which \$282 was paid at the time of the closing. The Company reduced the contingent consideration to \$67 because London did not achieve the initial benchmark at December 31, 2015. The remaining contingent consideration payable is due on February 4, 2017, if London achieves its performance benchmark for the year ending December 31, 2016.

Under the purchase method of accounting, the purchase price was allocated to the net tangible and intangible assets acquired and liabilities assumed, based on the fair value of the assets and liabilities of London in accordance with ASC 805. The intangible assets acquired included intangible assets with finite lives, such as customer relationships and talent relationships, which are being amortized on a straight line basis over their estimated useful lives ranging from two to eight years. The remaining acquired intangible assets were allocated to non-amortizable goodwill. The following table summarizes the estimated fair values of the assets acquired and liabilities assumed at the date of completion of the London transaction.

(in thousands)

Fair value of operating assets acquired:	
Cash	\$868
Accounts receivable	355
Other current assets	10
Equipment	15
Total operating assets acquired	1,248
Fair value of intangible assets acquired:	
Other intangible assets with finite lives	400
Goodwill	629
Total intangible assets acquired	1,029
Total assets acquired	2,277
Fair value of liabilities assumed:	
Accounts payable and accrued liabilities	360
Due to models	511
Indemnification seller basket	8
Deferred income tax liability	77
Total liabilities assumed	956

Total net assets acquired	\$1,321
---------------------------	---------

The results of operations for London are included in the Company's consolidated results from the effective date of the acquisition.

Note 4. Foreign Currency Translation

The functional currency of London is the British Pound, and business is conducted in Chile using the Chilean Peso. Assets and liabilities are translated into U.S. dollars at the exchange rates in effect at each balance sheet date, revenues and expenses are translated at average monthly exchange rates and resulting translation gains or losses are accumulated in other comprehensive income as a separate component of shareholders' equity.

7

Note 5. Line of Credit

On November 10, 2015, the Company executed and closed the Fourth Amendment to Credit Agreement (the “Fourth Credit Agreement Amendment”) with Amegy National Bank National Association (“Amegy”) effective October 24, 2015. The Fourth Credit Agreement Amendment includes a \$7.0 million facility under which there is an extension of the \$4.0 million revolving line of credit along with a \$3.0 million term loan.

Under the terms of the Fourth Credit Agreement, the total availability of \$7.0 million is subject to a borrowing base derived from 80% of eligible accounts receivable (as defined) and the Company’s minimum net worth covenant of \$20.0 million. The revolving line of credit is due on October 24, 2016 with interest paid monthly at prime plus 0.50%. The term loan, which is currently undrawn, would be payable in 60 monthly payments, interest only at 4.25% until November 2016 followed by 47 equal monthly payments of principal and interest computed based on a 60-month amortization schedule and a final payment of principal and interest due on October 24, 2019. The revolving facility contains the ability to issue up to \$0.5 million of standby letters of credit. Outstanding letters of credit reduce the Company’s availability under the facility.

As of March 31, 2016, the Company had no outstanding borrowings under the revolving credit facility or the term loan.

Note 6. Commitments and Contingencies

On October 24, 2013, a purported class action lawsuit was brought against the Company by former Wilhelmina model Alex Shanklin and others (the “Shanklin Litigation”), in New York State Supreme Court (New York County) by the same lead counsel who represented plaintiffs in a prior, now-dismissed action brought by Louisa Raske (the “Raske Litigation”). The claims in the Shanklin Litigation initially included breach of contract and unjust enrichment allegations arising out of matters similar to the Raske Litigation, such as the handling and reporting of funds on behalf of models and the use of model images. Other parties named as defendants in the Shanklin Litigation include other model management companies, advertising firms, and certain advertisers. On January 6, 2014, the Company moved to dismiss the Amended Complaint in the Shanklin Litigation for failure to state a claim upon which relief can be granted and other grounds, and other defendants also filed motions to dismiss. On August 11, 2014, the court denied the motion to dismiss as to Wilhelmina and other of the model management defendants. Further, on March 3, 2014, the judge assigned to the Shanklin Litigation wrote the Office of the New York Attorney General bringing the case to its attention, generally describing the claims asserted therein against the model management defendants, and stating that the case “may involve matters in the public interest.” The judge’s letter also enclosed a copy of his decision in the Raske Litigation, which dismissed that case. Plaintiffs have retained substitute counsel, who has filed a Second Amended Complaint. Plaintiffs’ Second Amended Complaint asserts causes of action for alleged breaches of the plaintiffs’ management contracts with the defendants, conversion, breach of the duty of good faith and fair dealing, and unjust enrichment. The Second Amended Complaint also alleges that the plaintiff models were at all relevant times employees, and not independent contractors, of the model management defendants, and that defendants violated

the New York Labor Law in several respects, including, among other things, by allegedly failing to pay the models the minimum wages and overtime pay required thereunder, not maintaining accurate payroll records, and not providing plaintiffs with full explanations of how their wages and deductions therefrom were computed. The Second Amended Complaint seeks certification of the action as a class action, damages in an amount to be determined at trial, plus interest, costs, attorneys' fees, and such other relief as the court deems proper. On October 6, 2015, Wilhelmina filed a motion to dismiss as to most of the claims in the Second Amended Complaint. The motion to dismiss has been fully briefed, and the Court has scheduled a hearing on the motion to dismiss for May 2016. The Company believes the claims asserted in the Second Amended Complaint are without merit, and intends to continue to vigorously defend the action.

On August 20, 2015, a lawsuit was brought against the Company and the Company's former Chief Accounting Officer by a former employee of Wilhelmina model, Angel Betancourt (the "Plaintiff"). The lawsuit alleges that the Plaintiff was discriminated against during his time of employment and upon his termination. The lawsuit further alleges that the Plaintiff was not compensated fully due to FLSA misclassification by the Company. The Company has provided documentation to the Plaintiff's counsel that suggests that the Plaintiff unlikely was due additional compensation during the time of employment. The proceeding is in the preliminary stages, and by agreement with the Plaintiff further action in the lawsuit has been abated pending ongoing settlement discussions. The Company expects that the lawsuit will be resolved within the limits of the Company's insurance coverage.

In addition to the legal proceedings disclosed herein, the Company is also engaged in various legal proceedings that are routine in nature and incidental to its business. None of these routine proceedings, either individually or in the aggregate, are believed, in the Company's opinion, to have a material adverse effect on its consolidated financial position or its results of operations.

During the first quarter, in relation to two termination agreements with former employee, the Company recorded \$283 of severance expense. \$126 of this severance was paid in the first quarter of 2016. The remaining \$157 will be paid in the second quarter of 2016.

Note 7. Share Capital

The Company has a shareholder's rights plan (the "Rights Plan"). The Rights Plan provides for a dividend distribution of one preferred share purchase right (a "Right") for each outstanding share of the Common Stock. The terms of the Rights and the Rights Plan are set forth in a Rights Agreement, dated as of July 10, 2006, as amended, by and between the Company and The Bank of New York Trust Company, N.A., now known as The Bank of New York Mellon Trust Company, N.A., as Rights Agent (the "Rights Agreement").

The Company's Board of Directors adopted the Rights Plan to protect shareholder value by protecting the Company's ability to realize the benefits of its net operating loss carryforwards ("NOLs"). In general terms, the Rights Plan imposes a significant penalty upon any person or group that acquires 5% or more of the outstanding Common Stock without the prior approval of the Company's Board of Directors. Shareholders that own 5% or more of the outstanding Common Stock as of the close of business on the Record Date (as defined in the Rights Agreement) may acquire up to an additional 1% of the outstanding Common Stock without penalty so long as they maintain their ownership above the 5% level (such increase subject to downward adjustment by the Company's Board of Directors if it determines that such increase will endanger the availability of the Company's NOLs). In addition, the Company's Board of Directors has exempted Newcastle Partners, L.P. ("Newcastle"), the Company's largest shareholder, from the penalties of the Rights Plan and may exempt any person or group that owns 5% or more if the Board of Directors determines that the person's or group's ownership will not endanger the availability of the Company's NOLs. Absent an exemption, a person or group that acquires a percentage of Common Stock in excess of the applicable threshold is called an "Acquiring Person". Any Rights held by an Acquiring Person are void and may not be exercised. The Company's Board of Directors authorized the issuance of one Right per each share of Common Stock outstanding on the Record Date. If the Rights become exercisable, each Right would allow its holder to purchase from the Company one one-hundredth of a share of the Company's Series A Junior Participating Preferred Stock, par value \$0.01 (the "Preferred Stock"), for a purchase price of \$10.00. Each fractional share of Preferred Stock would give the shareholder approximately the same dividend, voting and liquidation rights as one share of Common Stock. Prior to exercise, however, a Right does not give its holder any dividend, voting or liquidation rights.

Note 8. Income Taxes

Generally, the Company's combined effective tax rate is high relative to reported net income as a result of certain amounts of amortization expense and corporate overhead not being deductible or attributable to states in which it operates. Currently, the majority of taxes being paid by the Company are state taxes, not federal taxes. The Company operates in three states which have relatively high tax rates: California, New York and Florida. The Company's combined (federal and state) effective tax rate would be even higher if it were not for federal net operating loss carryforwards available to offset current federal taxable income. As of December 31, 2015, the Company had federal income tax loss carryforwards of approximately \$1.2 million, which are expected to be fully utilized upon filing the Company's 2015 income tax return during 2016. As defined in the Internal Revenue Code, ownership changes may limit the amount of net operating loss carryforwards that can be utilized annually to offset future taxable income. The

Company also operates and pays taxes in international jurisdictions.

Note 9. Treasury Stock

During 2012, the Board of Directors authorized a stock repurchase program whereby the Company could repurchase up to 500,000 shares of its outstanding Common Stock. During 2013, the Board of Directors renewed and extended the Company's share repurchase authority to enable it to repurchase up to an aggregate of 1,000,000 shares of Common Stock. The shares may be repurchased from time to time in the open market or through privately negotiated transactions at prices the Company deems appropriate. The program does not obligate the Company to acquire any particular amount of Common Stock and may be modified or suspended at any time at the Company's discretion.

From 2012 through March 31, 2016, the Company has repurchased 690,370 shares of Common Stock at an average price of approximately \$3.14 per share, for a total of approximately \$2,163 under the foregoing stock repurchase program. During the quarter ended March 31, 2016, 6,716 shares were repurchased at an average price of \$6.75 per share.

Note 10. Related Parties

The Executive Chairman of the Company, Mark E. Schwarz, is also the chairman, chief executive officer and portfolio manager of Newcastle Capital Management, L.P. ("NCM"), NCM is the general partner of Newcastle, which is the largest shareholder of the Company. Clinton Coleman (Managing Director at NCM) and James Dvorak (Managing Director at NCM) also serve as directors of the Company.

The Company's corporate headquarters are located at 200 Crescent Court, Suite 1400, Dallas, Texas 75201, which are also the offices of NCM. The Company occupies a portion of NCM space on a month-to-month basis at \$2.5 per month, pursuant to a services agreement entered into between the parties. Pursuant to the services agreement, the Company receives the use of NCM's facilities and equipment and accounting, legal and administrative services from employees of NCM. The Company incurred expenses pursuant to the services agreement totaling approximately \$7.5 for the quarters ended March 31, 2016 and 2015. The Company did not owe NCM any amounts under the services agreement as of March 31, 2016 or 2015.

The Company has an agreement with the unconsolidated Wilhelmina Kids affiliate to provide management and administrative services, as well as sharing of space. Management fee and rental income from the unconsolidated affiliate amounted to approximately \$27.5 for the quarters ended March 31, 2016 and 2015.

Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations.

The following is a discussion of the interim unaudited consolidated financial condition and results of operations for the Company and its subsidiaries for the quarter ended March 31, 2016 and 2015. It should be read in conjunction with the financial statements of the Company, the notes thereto and other financial information included elsewhere in this report, and the Company’s Annual Report on Form 10-K for the year ended December 31, 2015, as amended.

Forward-Looking Statements

This Quarterly Report on Form 10-Q contains certain “forward-looking” statements as such term is defined in Section 27A of the Securities Act of 1933, as amended, Section 21E of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), and the Private Securities Litigation Reform Act of 1995, such forward looking statement relating to the Company and its subsidiaries are based on the beliefs of the Company’s management as well as information currently available to the Company’s management. When used in this report, the words “anticipate,” “believe,” “estimate,” “expect” and “intend” and words or phrases of similar import, as they relate to the Company or Company management, are intended to identify forward-looking statements. Such statements reflect the current risks, uncertainties and assumptions related to certain factors including, without limitation, competitive factors, general economic conditions, the interest rate environment, governmental regulation and supervision, seasonality, changes in industry practices, one-time events and other factors described herein and in other filings made by the Company with the SEC. Should any one or more of these risks or uncertainties materialize, or should any underlying assumptions prove incorrect, actual results may vary materially from those described herein as anticipated, believed, estimated, expected or intended. The Company does not undertake any obligation to publicly update these forward-looking statements. As a result, you should not place undue reliance on these forward-looking statements.

OVERVIEW

The Company’s primary business is fashion model management and complementary business activities. The business of talent management firms, such as Wilhelmina, depends heavily on the state of the advertising industry, as demand for talent is driven by Internet, print and television advertising campaigns for consumer goods and retail clients. Wilhelmina believes it has strong brand recognition which enables it to attract and retain top agents and talent to service a broad universe of clients. In order to take advantage of these opportunities and support its continued growth, the Company will need to continue to successfully allocate resources and staffing in a way that enhances its ability to respond to new opportunities. The Company continues to focus on tightly managing costs, recruiting top agents when available, and scouting and developing new talent.

Although Wilhelmina has a large and diverse client base, it is not immune to global economic conditions. The Company closely monitors economic conditions, client spending, and other industry factors and continually evaluates opportunities to increase its market share and further expand its geographic reach. There can be no assurance as to the

effects on Wilhelmina of future economic circumstances, client spending patterns, client credit worthiness and other developments and whether, or to what extent, Wilhelmina's efforts to respond to them will be effective.

Trends and Opportunities

The Company expects that the combination of Wilhelmina's main operating base in New York City, the industry's capital, with the depth and breadth of its talent pool and client roster and its diversification across various talent management segments, together with its geographical reach should make Wilhelmina's operations more resilient to industry changes and economic swings than those of many of the smaller firms operating in the industry. Similarly, in the segments where the Company competes with other leading full service agencies, Wilhelmina competed successfully during the first quarter of 2016.

With total annual advertising expenditures on major media (newspapers, magazines, television, cinema, outdoor and Internet) exceeding approximately \$175 billion in recent years, North America is by far the world's largest advertising market. For the fashion talent management industry, including Wilhelmina, advertising expenditures on magazines, television, Internet and outdoor are of particular relevance.

Strategy

Management's strategy is to increase value to shareholders through the following initiatives:

- increase Wilhelmina's brand awareness and consideration among advertisers and potential talent;
- expand the Wilhelmina's network through strategic geographic market development;
 - expand the women's high end fashion board;
 - expand celebrity representation;
 - expand the network of licensee agencies; and
- promote model search contests, and events and partnering on media projects (television, film, books, etc.).

Due to the increasing ubiquity of the Internet as a standard business tool, the Company has increasingly sought to harness the opportunities of the Internet and other digital media to improve its communications with clients and to facilitate the effective exchange of fashion model and talent information. The Company continues to make significant investments in technology (including developing in-house art and social media departments) in pursuit of gains in efficiency and better communications with clients. At the same time, the Internet presents challenges for the Company, including (i) the cannibalization of traditional print media businesses, and (ii) pricing pressures with respect to digital media photo shoots and client engagements.

In January 2015, the Company purchased 100% of the outstanding shares of Union Models Management Ltd. in London and renamed it Wilhelmina London Limited (“London”). The strategic acquisition of London establishes a footprint for the Company and the brand in Western Europe. It will also serve as a base of operations to service the Company’s European clients, and as a new talent development office for European models and artists.

Key Financial Indicators

The key financial indicators that the Company reviews to monitor its business are gross billings, revenues, model costs, operating expenses and cash flows.

The Company analyzes revenue by reviewing the mix of revenues generated by the different “boards” (each a specific division of the fashion model management operations which specializes by the type of model it represents (Women, Men, Select, Media, Runway, Curve, Lifestyle, Kids, etc.)) by geographic locations and from significant clients. Wilhelmina has three primary sources of revenue: (i) revenues from principal relationships where the gross amount billed to the client is recorded as revenue when earned and collectability is reasonably assured; (ii) revenues from agent relationships where commissions paid by models as a percentage of their gross earnings are recorded as revenue when earned and collectability is reasonably assured; and (iii) separate service charges, paid by clients in addition to the booking fees, which are calculated as a percentage of the models’ booking fees and are recorded as revenues when earned and collectability is reasonably assured. See “Critical Accounting Policies - Revenue Recognition.” Gross billings are an important business metric that ultimately drive revenues, profits and cash flows.

Wilhelmina provides professional services. Therefore, salary and service costs represent the largest part of the Company’s operating expenses. Salary and service costs are comprised of payroll and related costs and travel, meals and entertainment (“T&E”) to deliver the Company’s services and to enable new business development activities.

Analysis of Consolidated Statements of Operations and Gross Billings

(in thousands)

	Three Months Ended		Percent	
	March 31	March 31	Change

Effective tax rate	290.8	49.4	%	%
NET INCOME	(124)	373	(133.2)	%

Service Revenues

Generally, the Company's service revenues fluctuate in response to its clients' willingness to spend on advertising and the Company's ability to have the desired talent available. The 2.1% increase in total service revenues consisted of recurring core model bookings. Some boards of the core modeling business experienced positive growth during the quarter ended March 31, 2016 when compared to the quarter ended March 31, 2015. The increase was driven primarily by growth from London.

License Fees and Other Income

License fees and other income include management and administrative services from an unconsolidated affiliate and franchise revenues from independently owned model agencies that use the Wilhelmina trademark and various services

provided by the Company. License fees decreased by 72.2% for the quarter ended March 31, 2016, when compared to quarter ended in March 31, 2015 due to a reduction in the number of licensed affiliates.

Gross Profit Margin

Gross profit margins increased by 0.3% of revenue in the quarter ended March 31, 2016, when compared to the quarter ended March 31, 2015 as a result of the increase in revenues exceeding the increase in model costs.

Salaries and Service Costs

Salaries and service costs consist of payroll and related costs and travel & entertainment required to deliver the Company's services to its clients and talent. The increase in salaries and service costs when comparing the quarter ended March 31, 2016 to the quarter ended March 31, 2015 was primarily due to severance costs to the Company's former Chief Executive Officer and another former employee of \$283 in the first quarter of 2016.

Office and General Expenses

Office and general expenses consist of office and equipment rents, advertising and promotion, insurance expenses, administration and technology cost. These costs are less directly linked to changes in the Company's revenues than are salaries and service costs. During the quarter ended March 31, 2016, office and general expenses increased when compared to quarter ended March 31, 2015, primarily due to recruiting fees of \$165 related to the hiring of the Company's new Chief Executive Officer in January 2016 and \$160 accrual for non-income tax expenses owed.

Amortization and Depreciation

Depreciation and amortization expense is incurred with respect to certain assets, including computer hardware, software, office equipment, furniture, and other intangibles. During the quarter ended March 31, 2016, depreciation and amortization expense decreased by 18.1% primarily due to several intangible assets being fully amortized during the first quarter of 2016. Fixed asset purchases (mostly related to technology) totaled approximately \$364 and \$158 during the quarters ended March 31, 2016 and March 31, 2015, respectively.

Corporate Overhead

Corporate overhead expenses include director and executive officer compensation, insurance, legal, audit and professional fees, corporate office rent and travel. Corporate overhead increased by 4.6% for the quarter ended March 31, 2016, when compared to the quarter ended March 31, 2015, primarily due to costs incurred to enhance the Company's internal control processes.

Operating Margin

Operating margin for the quarter ended March 31, 2016, decreased from 4.0% to 0.5% when compared to the quarter ended March 31, 2015, primarily as a result of severance, recruiting and non-income tax expenses incurred in 2016.

Asset Impairment Charge

Each reporting period, the Company assesses whether events or circumstances have occurred which indicate that the carrying amount of an intangible asset exceeds its fair value. If the carrying amount of the intangible asset exceeds its fair value, an asset impairment charge will be recognized in an amount equal to that excess. No asset impairment charges were incurred during the quarters ended March 31, 2016 and March 31, 2015.

Foreign Currency Translation

The Company realized nominal foreign currency exchange gain during the quarter ended March 31, 2016 as compared to a loss in the same period of the prior year due to fluctuations in currencies from Latin America, Great Britain and Europe.

Income Taxes

Generally, the Company's combined effective tax rate is high relative to reported net income as a result of certain amounts of amortization expense and corporate overhead not being deductible or attributable to states in which it operates. Currently, the majority of taxes being paid by the Company are state taxes, not federal taxes. The Company operates in three states which have relatively high tax rates: California, New York and Florida. The Company's combined (federal and state) effective tax rate would be even higher if it were not for federal net operating loss carryforwards available to offset current federal taxable income. As of December 31, 2015, the Company had federal income tax loss carryforwards of approximately \$1.2 million, which are expected to be fully utilized upon filing the Company's 2015 income tax return during 2016. As defined in the Internal Revenue Code, ownership changes may limit the amount of net operating loss carryforwards that can be utilized annually to offset future taxable income.

During the quarter ended March 31, 2016, the Company incurred \$164 of income taxes related to a change in deferred taxes resulting from the cancellation of stock options of the Company's former Chief Executive Officer. Realization of the Company's carryforwards is dependent on future taxable income. As defined in the Internal Revenue Code, ownership changes may limit the amount of net operating loss carryforwards that can be utilized annually to offset future taxable income.

Liquidity and Capital Resources

The Company's cash balance decreased to \$2.9 million at March 31, 2016, from \$4.6 million at December 31, 2015. For the quarter ended March 31, 2016, cash balances decreased primarily as a result of cash flows used by operations of approximately \$1.3 million and approximately \$0.4 million of capital expenditures. \$0.3 million of the capital expenditures during the first quarter of 2016 related to the upgrade of the Company's accounting and reporting software. Cash flows from operating activity include the use of cash from an increase in accounts receivables driven by increased revenues during the quarter ended March 31, 2016 compared to the quarter ended December 31, 2015. The increase in revenues usually negatively impacts cash flows as typically, the collection of customer receivables averages greater than 60 days, while the Company's operating expenses usually have shorter payment terms.

The Company's primary liquidity needs are for working capital associated with performing services under its client contracts. Generally, the Company incurs significant operating expenses with payment terms shorter than its average collections on billings.

As of March 13, 2016, the Company had no outstanding borrowings under its revolving or term credit facility.

Off-Balance Sheet Arrangements

As of March 31, 2016, the Company had outstanding a \$0.2 million irrevocable standby letter of credit under the Company's revolving credit facility with Amegy. The letter of credit serves as security under the lease relating to the Company's office space in New York City that expires February 2021.

Effect of Inflation

Inflation has not historically been a material factor affecting the Company's business. General operating expenses, such as salaries, employee benefits, insurance and occupancy costs are subject to normal inflationary pressures.

Critical Accounting Policies

Basis of Presentation

The financial statements include the consolidated accounts of Wilhelmina and its wholly owned subsidiaries. All significant inter-company accounts and transactions have been eliminated in consolidation.

Revenue Recognition

In compliance with generally accepted accounting principles in United States of America, when reporting revenue gross as a principal versus net as an agent, the Company assesses whether the Company, the model or the talent is the primary obligor. The Company evaluates the terms of its model, talent and client agreements as part of this assessment. In addition, the Company gives appropriate consideration to other key indicators such as latitude in establishing price, discretion in model or talent selection and credit risk the Company undertakes. The Company operates broadly as a modeling agency and in those relationships with models and talents where the key indicators suggest the Company acts as a principal, the Company records the gross amount billed to the client as revenue when earned and collectability is reasonably assured, and the related costs incurred to the model or talent as model or talent cost. In other model and talent relationships, where the Company believes the key indicators suggest the Company acts as an agent on behalf of the model or talent, the Company records revenue when earned and collectability is reasonably assured, net of pass-through model or talent cost.

The Company also recognizes management fees as revenues for providing services to other modeling agencies as well as consulting income in connection with services provided to a television production network according to the terms of the contract. The Company recognizes royalty income when earned based on terms of the contractual agreement. Revenues received in advance are deferred and amortized using the straight-line method over periods pursuant to the related contract. The Company also records fees from licensees when the revenues are earned and collectability is reasonably assured.

Advances to models for the cost of initial portfolios and other out-of-pocket costs, which are reimbursable only from collections from the Company's clients as a result of future work, are expensed to model costs as incurred. Any repayments of such costs are credited to model costs in the period received.

Goodwill and Intangible Assets

Goodwill consists primarily of customer and talent relationships arising from past business acquisitions. Intangible assets with finite lives are amortized over useful lives ranging from two to seven years. Goodwill and intangible assets with indefinite lives are no longer subject to amortization, but rather to an annual assessment of impairment by applying a fair-value based test. A significant amount of judgment is required in estimating fair value and performing goodwill impairment tests.

The Company annually assesses whether the carrying value of its intangible assets exceeds their fair value and, if necessary, records an impairment loss equal to any such excess. Each interim reporting period, the Company assesses whether events or circumstances have occurred which indicate that the carrying amount of an intangible asset exceeds its fair value. If the carrying amount of the intangible asset exceeds its fair value, an asset impairment charge will be recognized in an amount equal to that excess. No asset impairment charges were incurred during the quarters ended March 31, 2016 and March 31, 2015.

Accounts Receivable and Allowance for Doubtful Accounts

Accounts receivable are accounted for at net realizable value, do not bear interest and are short-term in nature. The Company maintains an allowance for doubtful accounts for estimated losses resulting from the inability to collect on accounts receivable. Based on management's assessment, the Company provides for estimated uncollectible amounts through a charge to earnings and a credit to the valuation allowance. Balances that remain outstanding after the Company has used reasonable collection efforts are written off through a charge to the valuation allowance and a credit to accounts receivable. The Company generally does not require collateral.

Income Taxes

Income taxes are accounted for under the asset and liability method. Deferred income tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and operating loss and tax credit carryforwards. Deferred income tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred income tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. The Company continually assesses the need for a tax valuation allowance based on all available information. As of March 31, 2016, and as a result of this assessment, the Company believes that its deferred tax assets are more likely than not to be realized. In addition, the Company continuously evaluates its tax contingencies.

Accounting for uncertainty in income taxes recognized in an enterprise's financial statements requires a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. Also, consideration should be given to de-recognition, classification, interest and penalties, accounting in interim periods, disclosure and transition. There was no change to the net amount of assets and liabilities recognized in the consolidated balance sheets as a result of the Company's tax positions.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

Not required for smaller reporting company

Item 4. Controls and Procedures.

The Company maintains disclosure controls and procedures designed to ensure that information it is required to disclose in the reports filed or submitted under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified in the SEC's rules and forms. The Company's disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed in the reports filed or submitted under the Exchange Act is accumulated and communicated to the Company's management, including its principal executive officer and principal financial officer, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

The Company's management, including the Company's principal executive officer and principal financial officer, or persons performing similar functions, have evaluated the Company's disclosure controls and procedures as of the end of the period covered by this report. Based on such evaluation, the Company's principal executive officer and principal financial officer, or persons performing similar functions, have concluded that the Company's disclosure controls and procedures were effective as of the end of the period covered by this report. During the most recent fiscal quarter, there have been no changes in the Company's internal controls over financial reporting that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II

OTHER INFORMATION

Item 1. Legal Proceedings.

On October 24, 2013, a purported class action lawsuit was brought against the Company by former Wilhelmina model Alex Shanklin and others (the “Shanklin Litigation”), in New York State Supreme Court (New York County) by the same lead counsel who represented plaintiffs in a prior, now-dismissed action brought by Louisa Raske (the “Raske Litigation”). The claims in the Shanklin Litigation initially included breach of contract and unjust enrichment allegations arising out of matters similar to the Raske Litigation, such as the handling and reporting of funds on behalf of models and the use of model images. Other parties named as defendants in the Shanklin Litigation include other model management companies, advertising firms, and certain advertisers. On January 6, 2014, the Company moved to dismiss the Amended Complaint in the Shanklin Litigation for failure to state a claim upon which relief can be granted and other grounds, and other defendants also filed motions to dismiss. On August 11, 2014, the court denied the motion to dismiss as to Wilhelmina and other of the model management defendants. Further, on March 3, 2014, the judge assigned to the Shanklin Litigation wrote the Office of the New York Attorney General bringing the case to its attention, generally describing the claims asserted therein against the model management defendants, and stating that the case “may involve matters in the public interest.” The judge’s letter also enclosed a copy of his decision in the Raske Litigation, which dismissed that case. Plaintiffs have retained substitute counsel, who has filed a Second Amended Complaint. Plaintiffs’ Second Amended Complaint asserts causes of action for alleged breaches of the plaintiffs’ management contracts with the defendants, conversion, breach of the duty of good faith and fair dealing, and unjust enrichment. The Second Amended Complaint also alleges that the plaintiff models were at all relevant times employees, and not independent contractors, of the model management defendants, and that defendants violated the New York Labor Law in several respects, including, among other things, by allegedly failing to pay the models the minimum wages and overtime pay required thereunder, not maintaining accurate payroll records, and not providing plaintiffs with full explanations of how their wages and deductions therefrom were computed. The Second Amended Complaint seeks certification of the action as a class action, damages in an amount to be determined at trial, plus interest, costs, attorneys’ fees, and such other relief as the court deems proper. On October 6, 2015, Wilhelmina filed a motion to dismiss as to most of the claims in the Second Amended Complaint. The motion to dismiss has been fully briefed, and the Court has scheduled a hearing on the motion to dismiss for May 2016. The Company believes the claims asserted in the Second Amended Complaint are without merit, and intends to continue to vigorously defend the action.

On August 20, 2015, a lawsuit was brought against the Company and the Company’s former Chief Accounting Officer by a former employee of Wilhelmina model, Angel Betancourt (the “Plaintiff”). The lawsuit alleges that the Plaintiff was discriminated against during his time of employment and upon his termination. The lawsuit further alleges that the Plaintiff was not compensated due to FLSA misclassification by the Company. The Company has provided documentation to the Plaintiff’s counsel that suggests that the Plaintiff unlikely was due additional compensation during the time of employment. The proceeding is in the preliminary stages, and by agreement with the Plaintiff further action in the lawsuit has been abated pending ongoing settlement discussions. The Company expects that the lawsuit will be resolved within the limits of the Company’s insurance coverage.

In addition to the legal proceedings disclosed herein, the Company is also engaged in various legal proceedings that are routine in nature and incidental to its business. None of these routine proceedings, either individually or in the aggregate, are believed, in the Company's opinion, to have a material adverse effect on its consolidated financial position or its results of operations.

During the first quarter, in relation to two termination agreements with former employee, the Company recorded \$283 of severance expense. \$126 of this severance was paid in the first quarter of 2016. The remaining \$157 will be paid in the second quarter of 2016.

Item 1.A. Risk Factors.

Not required for smaller reporting company.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

During 2012, the Board of Directors authorized a stock repurchase program whereby the Company could repurchase up to 500,000 shares of its outstanding Common Stock. During 2013, the Board of Directors renewed and extended the Company's share repurchase authority to enable it to repurchase up to an aggregate of 1,000,000 shares of Common Stock. The shares may be repurchased from time to time in the open market or through privately negotiated transactions at prices the Company deems appropriate. The program does not obligate the Company to acquire any particular amount of Common Stock and may be modified or suspended at any time at the Company's discretion.

The following table furnishes information for purchases made pursuant to the stock repurchase program during the quarter ended March 31, 2016:

Period	Total Number of <u>Shares</u> Purchased	Average Price Paid <u>Per</u> <u>Share</u>	Total Number of Shares Purchased as Part of the Publicly <u>Announced</u> <u>Plans</u>	Maximum Number of Shares that May Yet Be Purchased <u>Under the</u> <u>Plans</u>
January 1-31, 2016	6,716	\$ 6.75	690,370	309,630
February 1-29, 2016	-	\$ -	690,370	309,630
March 1-31, 2016	-	\$ -	690,370	309,630
