COLONIAL NEW YORK
INSURED MUNICIPAL FUND

Semiannual Report
May 31, 2005

[LOGO] Not FDIC Insured May Lose Value
No Bank Guarantee

[GRAPHIC]

Dear Shareholder:

In 2004, Colonial Funds became part of Columbia Management, the asset management division of Bank of America, one of the largest, most respected financial institutions in the United States. As a direct result of this merger, a number of changes are in the works that we believe offer significant potential benefits for our shareholders. First, some funds may be merged in order to eliminate redundancies, others may be liquidated and fund management teams will be aligned to maximize performance potential. You will receive more detailed information about these changes if your fund is affected and you may be asked to vote on certain fund changes. In this matter, your timely response will enable us to implement the changes in 2005.

As a result of these changes, we believe we will offer shareholders an even stronger lineup of investment options. What will not change as we enter this next phase of consolidation is our commitment to the highest standards of performance and our dedication to superior service. Change for the good has another name: it's called improvement. It helps move us forward, and we believe that it represents progress for all our shareholders in their quest for long-term financial success.

In the pages that follow, you'll find a detailed report from the fund's managers on key factors that influenced your fund's performance. We hope that you will read the manager reports carefully and discuss any questions you might have with your financial advisor.

As always, we thank you for choosing Colonial Funds. We appreciate your continued confidence. And, we look forward to helping you keep your long-term

Edgar Filing: COLONIAL NEW YORK INSURED MUNICIPAL FUND - Form N-CSRS

financial goals on target in the years to come.

Sincerely,

/s/ Christopher L. Wilson

Christopher L. Wilson
President, Columbia Funds

Christopher L. Wilson is Head of Mutual Funds for Columbia Management, President of Columbia Funds, President & CEO of Nations Funds and President of Galaxy Funds, responsible for the day-to-day delivery of mutual fund services to the firm's investors. With the exception of distribution, Chris oversees all aspects of the mutual fund services operation, including treasury, investment accounting and shareholder and broker services. Chris joined Bank of America in August 2004.

The views expressed in the President's Message and Portfolio Manager's Report reflect the current views of the respective parties. These views are not guarantees of future performance and involve certain risks, uncertainties and assumptions that are difficult to predict so actual outcomes and results may differ significantly from the views expressed. These views are subject to change at any time based upon economic, market or other conditions and the respective parties disclaim any responsibility to update such views. These views may not be relied on as investment advice and, because investment decisions for a Colonial fund are based on numerous factors, may not be relied on as an indication of trading intent on behalf of any particular Colonial fund. References to specific company securities should not be construed as a recommendation or investment advice.

[GRAPHIC]

Portfolio Manager's Report

For the six-month period ended May 31, 2005, Colonial New York Insured Municipal Fund had a return of 6.79% based on its market price. Changes in the market price of the fund's shares reflect investor demand and are not necessarily linked directly to changes in net asset value. The fund returned 5.55%, based on investment at net asset value. The fund's return was in line with the average return of its peer group, the Lipper New York Insured Municipal Debt Funds Category, which was 5.74%/1/.

Non-callable issues, hospital bonds boosted returns

The fund's position in non-callable bonds in the long and intermediate maturity ranges, some purchased more than two years ago, helped boost the fund's return as they rose in value during the period. (A non-call provision means that the issuer cannot redeem the bonds prior to maturity.) Holdings in the hospital sector were also solid performers. The prices of both Sloan- Kettering Hospital and New Island Hospital bonds (4.1% and 2.8% of total investments, respectively) rose after a better-than-expected Medicaid reimbursement package was passed by Congress during the period./2/ This higher-yielding sector of the municipal market also benefited from an environment of relatively low to declining interest rates among intermediate and long-term maturities, which

Edgar Filing: COLONIAL NEW YORK INSURED MUNICIPAL FUND - Form N-CSRS

made lower quality issues attractive to yield-seeking investors.

The fund's dividend dropped as short-term interest rates rose and the fund was required to raise its payout to preferred shareholders. The fund earned some of its income through leverage, which comes from preferred shares issued in 1999. We invested the proceeds from the preferred shares in longer maturity, higher-yielding bonds and pay out to preferred shareholders a short-term rate influenced by the federal funds rate--the overnight rate at which banks lend each other money. As the fed funds rate climbed during the period, the payout rate to preferred shareholders rose, reducing the income earned by the fund. In addition, leverage adds volatility to the fund, but continued to give the fund an income advantage over non-leveraged funds.

Insurance sector update

The bond insurance industry has gained several participants, adding to competition, yet is dominated by established companies characterized by ultraconservative underwriting standards. The industry continues to diversify from traditional municipal business as international opportunities mature. MBIA, the world's largest bond insurer, has received subpoena requests from state and federal authorities covering several points of interest and is fully cooperating with investigators. Based on available information to date, we remain comfortable in MBIA's underwriting model and claims paying ability and continue to approve their municipal insured bonds for purchase.

/1/Lipper Inc., a widely respected data provider in the industry, calculates an average total return (assuming reinvestment of distributions) for mutual funds with investment objectives similar to those of the fund. Lipper makes no adjustment for the effect of sales loads.

/2/Holdings are disclosed as of May 31, 2005, and are subject to change.

Price per share as of 05/31/05 (\$)

Net asset value	15.96

Portfolio Manager's Report (continued)

Short-maturity bonds, US Treasury hedge detracted from performance

Edgar Filing: COLONIAL NEW YORK INSURED MUNICIPAL FUND - Form N-CSRS

The fund's short-term holdings detracted from performance. Yields on short-term bonds rose and prices fell in response to the Federal Reserve's continued cycle of interest rate increases. The fund's sizeable holdings in intermediate-term bonds (10-15 years) also contributed to its modest underperformance. These bonds remained relatively flat while longer maturity bonds (20 plus years) fared better in response to news of slightly slower economic growth.

In addition, a hedge involving US Treasuries dampened the fund's return during the period. The intention of the hedge was to reduce the fund's sensitivity to interest rate changes and bring it in line with that of its peers. However, by the end of the period the hedge had not fully achieved its desired results.

/s/ Kimberly A.Campbell

Kimberly Campbell has been the portfolio manager of Colonial New York Insured Municipal Fund since October 2003. Ms. Campbell has been with Columbia Management Advisors, Inc. or its predecessors or affiliate organizations since 1995.

On May 31, 2005, the fund's Board of Trustees approved a plan of liquidation of the Colonial New York Insured Municipal Fund. On June 10, 2005, the fund announced that it had completed the liquidation of its assets, including its portfolio securities, pursuant to the plan of liquidation.

Performance data quoted represents past performance and current performance may be lower or higher. Past performance is no guarantee of future results.

Tax-exempt investing offers current tax-exempt income, but it also involves special risks. The value of the fund will be affected by interest rate changes and the creditworthiness of issues held in the fund. When interest rates go up, bond prices generally drop and vice versa. Interest income from certain tax-exempt bonds may be subject to certain state and local taxes and, if applicable, the alternative minimum tax. Capital gains are not exempt from income taxes.

Investing in high-yield or "junk bonds" offers the potential for higher income than investments in investment-grade bonds but they also have a higher degree of risk. Changes in economic conditions or other circumstances may adversely affect a high-yield bond issuer's ability to make timely principal and interest payments.

Single-state municipal bond funds pose additional risks due to limited geographical diversification.

Notes to Financial Statements

May 31, 2005 (Unaudited)

Note 1. Organization

Colonial New York Insured Municipal Fund (the "Fund") is a Massachusetts business trust registered under the Investment Company Act of 1940 (the "Act"), as amended, as a non-diversified, closed-end management investment company.

Investment Goal

The Fund seeks to provide current income generally exempt from ordinary federal income tax and New York State and City personal income tax.

Fund Shares

The Fund may issue an unlimited number of common shares. On December 20, 1999, the Fund issued 564 Auction Preferred Shares ("APS").

Note 2. Significant Accounting Policies

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates. The following is a summary of significant accounting policies consistently followed by the Fund in the preparation of its financial statements.

Security Valuation

Debt securities generally are valued by pricing services approved by the Fund's Board of Trustees, based upon market transactions for normal, institutional-size trading units of similar securities. The services may use various pricing techniques which take into account appropriate factors such as yield, quality, coupon rate, maturity, type of issue, trading characteristics and other data, as well as broker quotes. Debt securities for which quotations are readily available are valued at an over-the-counter or exchange bid quotation. Certain debt securities, which tend to be more thinly traded and of lesser quality, are priced based on fundamental analysis of the financial condition of the issuer and the estimated value of any collateral. Valuations developed through pricing techniques may vary from the actual amounts realized upon sale of the securities, and the potential variation may be greater for those securities valued using fundamental analysis.

Short-term debt obligations maturing within 60 days are valued at amortized cost, which approximates market value.

Futures contracts are valued at the settlement price established each day by the board of trade or exchange on which they are traded.

Edgar Filing: COLONIAL NEW YORK INSURED MUNICIPAL FUND - Form N-CSRS

Investments for which market quotations are not readily available, or have quotations which management believes are not appropriate, are valued at fair value as determined in good faith under consistently applied procedures established by and under the general supervision of the Board of Trustees.

Security Transactions

Security transactions are accounted for on the trade date. Cost is determined and gains (losses) are based upon the specific identification method for both financial statement and federal income tax purposes.

Futures Contracts

The Fund may invest in municipal and U.S. Treasury futures contracts. The Fund will invest in these instruments to hedge against the effects of changes in the value of portfolio securities due to anticipated changes in interest rates and/or market conditions, for duration management, or when the transactions are economically appropriate to the reduction of risk inherent in the management of the Fund and not for trading purposes. The use of futures contracts involves certain risks, which include: (1) imperfect correlation between the price movement of the instruments and the underlying securities, (2) inability to close out positions due to differing trading hours, or the temporary absence of a liquid market, for either the instrument or the underlying securities, or (3) an inaccurate prediction by Columbia Management Advisors, Inc. of the future direction of interest rates. Any of these risks may involve amounts exceeding the variation margin recorded in the Fund's Statement of Assets and Liabilities at any given time.

Upon entering into a futures contract, the Fund deposits cash or securities with the broker in an amount sufficient to meet the initial margin requirement. Subsequent payments are made or received by the Fund equal to the daily change in the contract value and are recorded as variation margin receivable or payable and offset in unrealized gains or losses. The Fund also identifies portfolio securities as segregated with the custodian in a separate account in an amount equal to the futures contract. The Fund recognizes a realized gain or loss when the contract is closed or expires.

9

[GRAPHIC]

Notes to Financial Statements (continued)

May 31, 2005 (Unaudited)

Delayed Delivery Securities

The Fund may trade securities on other than normal settlement terms, including securities purchased or sold on a "when-issued" basis. This may increase the risk if the other party to the transaction fails to deliver and causes the Fund to subsequently invest at less advantageous prices. The Fund identifies cash or liquid portfolio securities in an amount equal to the delayed delivery commitment.

Income Recognition

Edgar Filing: COLONIAL NEW YORK INSURED MUNICIPAL FUND - Form N-CSRS

Interest income is recorded on the accrual basis. Original issue discount is accreted to interest income over the life of the security with a corresponding increase in the cost basis. Premium and discount are amortized and accreted, respectively, on all debt securities.

Federal Income Tax Status

The Fund intends to qualify each year as a "regulated investment company" under Subchapter M of the Internal Revenue Code, as amended, and will distribute substantially all of its tax-exempt or taxable income, if any, for its tax year, and as such will not be subject to federal income taxes. In addition, the Fund intends to distribute in each calendar year substantially all of its net investment income, capital gains and certain other amounts, if any, such that the Fund should not be subject to federal excise tax. Therefore, no federal income or excise tax provision is recorded.

Distributions to Shareholders

Distributions to common shareholders are recorded on the ex-date. Distributions to Auction Preferred shareholders are recorded daily and payable at the end of each dividend period. Each dividend payment period for the APS is generally seven days. The applicable dividend rate for the APS on May 31, 2005, was 1.93%. For the six months ended May 31, 2005, the Fund declared dividends to Auction Preferred shareholders amounting to \$126,635, representing an average dividend rate of 1.80% per APS.

Note 3. Federal Tax Information

The tax character of distributions paid during the year ended November 30, 2004 was as follows:

	November 30, 2004

Distributions paid from:	
Tax-Exempt Income	\$1,709,277
Ordinary Income	7,356
Long-Term Capital Gains	--

Unrealized appreciation and depreciation at May 31, 2005, based on cost of investments for federal income tax purposes, was:

Unrealized appreciation	\$3,850,379
Unrealized depreciation	(3,896)

Net unrealized appreciation	\$3,846,483

Note 4. Fees and Compensation Paid to Affiliates

Investment Advisory Fee

Columbia Management Advisors, Inc. ("Columbia"), an indirect wholly owned subsidiary of Bank of America Corporation ("BOA"), is the investment advisor to

Edgar Filing: COLONIAL NEW YORK INSURED MUNICIPAL FUND - Form N-CSRS

the Fund and provides administrative and other services to the Fund. Columbia receives a monthly investment advisory fee at the annual rate of 0.65% of the Fund's average weekly net assets, including assets applicable to the APS. Columbia contractually agreed to waive a portion of its investment advisory fee through November 30, 2005, so that such fee will not exceed 0.40% annually.

Pricing and Bookkeeping Fees

Columbia is responsible for providing pricing and bookkeeping services to the Fund under a pricing and bookkeeping agreement. Under a separate agreement (the "Outsourcing Agreement"), Columbia has delegated those functions to State Street Corporation ("State Street"). As a result, Columbia pays the total fees received to State Street under the Outsourcing Agreement.

Under its pricing and bookkeeping agreement with the Fund, Columbia receives from the Fund an annual flat fee of \$10,000 paid monthly, and in any month that the Fund's average weekly net assets, including assets applicable to APS, exceed \$50 million, an additional monthly fee. The additional fee rate is calculated by taking into account the fees payable to State Street under the Outsourcing Agreement. This rate is applied to the average weekly net assets, including assets applicable to APS, of the Fund for that month. The Fund also pays additional fees for pricing services based on the number of securities held by the Fund. For the six months ended May 31, 2005, the Fund's annualized effective pricing and bookkeeping fee rate, inclusive of out-of-pocket expenses, was 0.093% of the Fund's average weekly net assets, including assets applicable to APS.

Fee Waivers

Columbia has voluntarily agreed to reimburse the Fund for certain expenses so that total expenses (exclusive of investment advisory fees, brokerage commissions, interest, taxes and extraordinary expenses, if any) will

10

[GRAPHIC]

Notes to Financial Statements (continued)

May 31, 2005 (Unaudited)

not exceed 0.20% annually of the Fund's average weekly net assets, including assets applicable to APS. Columbia, at its discretion, may revise or discontinue this arrangement any time.

Custody Credits

The Fund has an agreement with its custodian bank under which custody fees may be reduced by balance credits. These credits are recorded as a reduction of total expenses on the Statement of Operations. The Fund could have invested a portion of the assets utilized in connection with the expense offset arrangement in an income-producing asset if it had not entered into such an agreement.

Fees Paid to Officers and Trustees

With the exception of one officer, all officers of the Fund are employees of

Edgar Filing: COLONIAL NEW YORK INSURED MUNICIPAL FUND - Form N-CSRS

Columbia or its affiliates and receive no compensation from the Fund. The Board of Trustees appointed a Chief Compliance Officer to the Fund in accordance with federal securities regulations. The Fund, along with other affiliated funds, will pay its pro-rata share of the expenses associated with the Office of the Chief Compliance Officer. The Fund's fee for the Office of the Chief Compliance Officer will not exceed \$15,000 per year.

The Fund's Trustees may participate in a deferred compensation plan which may be terminated at any time. Obligations of the plan will be paid solely out of the Fund's assets.

Other

Columbia provides certain services to the Fund related to Sarbanes-Oxley compliance. For the six months ended May 31, 2005, the Fund paid \$763 to Columbia for such services. This amount is included in "Other expenses" on the Statement of Operations.

Note 5. Portfolio Information

For the six months ended May 31, 2005, the cost of purchases and proceeds from sales of securities, excluding short-term obligations, were \$-- and \$1,508,285, respectively.

Note 6. Preferred Shares

The Fund currently has outstanding 564 APS. The APS are redeemable at the option of the Fund on any dividend payment date at the redemption price of \$25,000 per share, plus an amount equal to any dividends accumulated on a daily basis unpaid through the redemption date (whether or not such dividends have been declared).

Under the Act, the Fund is required to maintain asset coverage of at least 200% with respect to the APS as of the last business day of each month in which any APS are outstanding. Additionally, the Fund is required to meet more stringent asset coverage requirements under the terms of the APS Agreement and in accordance with the guidelines prescribed by the APS' rating agencies. Should these requirements not be met, or should dividends accrued on the APS not be paid, the Fund may be restricted in its ability to declare dividends to common shareholders or may be required to redeem certain APS. At May 31, 2005, there were no such restrictions on the Fund.

Note 7. Disclosure of Significant Risks and Contingencies

Concentration of Credit Risk

The Fund holds investments that are insured by private insurers who guarantee the payment of principal and interest in the event of default or that are supported by a letter of credit. Each of the Fund's insurers is rated AAA by Moody's Investor Services, Inc., except Radian Asset Assurance, Inc. which is rated AA by Standard & Poor's. At May 31, 2005, private insurers who insured greater than 5% of the total investments of the Fund were as follows:

Insurer	% of Total Investments
MBIA Insurance Corp.	38.3%
Ambac Assurance Corp.	20.1
Financial Security Assurance, Inc.	16.2

Geographic Concentration

The Fund has greater than 5% of its total investments at May 31, 2005 invested in debt obligations issued by the state of New York and its respective political subdivisions, agencies and public authorities. The Fund is more susceptible to economic and political factors adversely affecting issuers of the state's municipal securities than are municipal bond funds that are not concentrated to the same extent in these issuers.

High-Yield Securities

Investing in high-yield securities may involve greater credit risk and considerations not typically associated with investing in U.S. government bonds and other higher quality fixed income securities. These securities are non-investment grade securities, often referred to as "junk bonds." Economic downturns may disrupt the high yield market and impair the ability of issuers to repay principal and interest. Also, an increase in interest rates would likely have an adverse impact on the value of such obligations. Moreover, high-yield securities may be less liquid to the extent that there is no established secondary market.

11

[GRAPHIC]

Notes to Financial Statements (continued)

May 31, 2005 (Unaudited)

Industry Focus

The Fund may focus its investments in certain industries, subjecting it to greater risk than a fund that is more diversified.

Issuer Focus

As a non-diversified fund, the Fund may invest a greater percentage of its total assets in the securities of fewer issuers than a diversified fund. The Fund may, therefore, have a greater risk of loss from a few issuers than a similar fund that invests more broadly.

Legal Proceedings

On February 9, 2005, Columbia and Columbia Funds Distributor, Inc. (collectively, the "Columbia Group") entered into an Assurance of Discontinuance with the New York Attorney General ("NYAG") (the "NYAG Settlement") and consented to the entry of a cease-and-desist order by the Securities and Exchange Commission ("SEC") (the "SEC Order"). The SEC Order and the NYAG Settlement are referred to collectively as the "Settlements". The Settlements contain substantially the same terms and conditions as outlined in the agreements in principle which Columbia Group entered into with the SEC and NYAG in March 2004.

Under the terms of the SEC Order, the Columbia Group has agreed among other

Edgar Filing: COLONIAL NEW YORK INSURED MUNICIPAL FUND - Form N-CSRS

things, to: pay \$70 million in disgorgement and \$70 million in civil money penalties; cease and desist from violations of the antifraud provisions and certain other provisions of the federal securities laws; maintain certain compliance and ethics oversight structures; retain an independent consultant to review the Columbia Group's applicable supervisory, compliance, control and other policies and procedures; and retain an independent distribution consultant (see below). The Columbia Funds have also undertaken to implement certain governance measures designed to maintain the independence of their boards of trustees. The NYAG Settlement also, among other things, requires Columbia and its affiliates, Banc of America Capital Management, LLC and BACAP Distributors, LLC to reduce certain Columbia Funds, Nations Funds and other mutual funds management fees collectively by \$32 million per year for five years, for a projected total of \$160 million in management fee reductions.

Pursuant to the procedures set forth in the SEC order, the \$140 million in settlement amounts described above will be distributed in accordance with a distribution plan to be developed by an independent distribution consultant, who is acceptable to the SEC staff and the Columbia Funds' independent trustees. The distribution plan must be based on a methodology developed in consultation with the Columbia Group and the Fund's independent trustees and not unacceptable to the staff of the SEC. At this time, the distribution plan is still under development. As such, any gain to the fund or its shareholders can not currently be determined.

As a result of these matters or any adverse publicity or other developments resulting from them, the market price of fund shares could decline.

A copy of the SEC Order is available on the SEC website at <http://www.sec.gov>. A copy of the NYAG Settlement is available as part of the Bank of America Corporation Form 8-K filing on February 10, 2005.

In connection with events described in detail above, various parties have filed suit against certain funds, the Trustees of the Columbia Funds, FleetBoston Financial Corporation and its affiliated entities and/or Bank of America Corporation and its affiliated entities. More than 300 cases including those filed against entities unaffiliated with the funds, their Boards, FleetBoston Financial Corporation and its affiliated entities and/or Bank of America Corporation and its affiliated entities have been transferred to the Federal District Court in Maryland and consolidated in a multi-district proceeding (the "MDL").

The derivative cases purportedly brought on behalf of the Columbia Funds in the MDL have been consolidated under the lead case. The fund derivative plaintiffs allege that the funds were harmed by market timing and late trading activity and seek, among other things, removal of the trustees of the Columbia Funds, removal of the Columbia Group, disgorgement of all management fees and monetary damages.

On March 21, 2005 purported class action plaintiffs filed suit in Massachusetts state court alleging that the conduct, including market timing, entitles Class B shareholders in certain Columbia funds to an exemption from contingent deferred sales charges upon early redemption (the "CDSC Lawsuit"). The CDSC Lawsuit has been removed to federal court in Massachusetts and the federal Judicial Panel has conditionally ordered its transfer to the MDL.

The MDL is ongoing. Accordingly, an estimate of the financial impact of this litigation on any fund, if any, can not currently be made.

On January 11, 2005, a putative class action lawsuit was filed in federal district court in Massachusetts against,

[GRAPHIC]

Notes to Financial Statements (continued)

May 31, 2005 (Unaudited)

among others, the Trustees of the Columbia Funds and Columbia. The lawsuit alleges that defendants violated common law duties to fund shareholders as well as sections of the Investment Company Act of 1940, by failing to ensure that the Fund and other affiliated funds participated in securities class action settlements for which the funds were eligible. Specifically, plaintiffs allege that defendants failed to submit proof of claims in connection with settlements of securities class action lawsuits filed against companies in which the funds held positions.

In 2004, certain Columbia funds, advisers and affiliated entities were named as defendants in certain purported shareholder class and derivative actions making claims, including claims under the Investment Company and the Investment Advisers Acts of 1940 and state law. The suits allege, inter alia, that the fees and expenses paid by the funds are excessive and that the advisers and their affiliates inappropriately used fund assets to distribute the funds and for other improper purpose. On March 2, 2005, the actions were consolidated in the Massachusetts federal court as In re Columbia Entities Litigation. The plaintiffs filed a consolidated amended complaint on June 9, 2005.

The Fund and the other defendants to these actions, including Columbia and various of its affiliates, certain other mutual funds advised by Columbia and its affiliates, and various directors of such funds, have denied these allegations and are contesting the plaintiffs' claims. These proceedings are ongoing, however, based on currently available information, Columbia believes that these lawsuits are without merit, that the likelihood they will have a material adverse impact on any fund is remote, and that the lawsuits are not likely to materially affect its ability to provide investment management services to its clients, including the Fund.

Note 8. Subsequent Event

On May 31, 2005, the Fund's Board of Trustees approved a plan of liquidation of the Fund. On June 10, 2005, the Fund announced that it had completed the liquidation of its assets, including its portfolio securities, pursuant to the plan of liquidation.

(a) The Fund commenced investment operations on November 19, 1999. Per share data and total return reflect activity from that date.

(b) Per share data was calculated using average shares outstanding during the period.

(c) Effective December 1, 2001, the Fund adopted the provisions of the AICPA

Edgar Filing: COLONIAL NEW YORK INSURED MUNICIPAL FUND - Form N-CSRS

Audit and Accounting Guide for Investment Companies and began accreting market discount on all debt securities. The effect of this change for the year ended November 30, 2002 was to increase the net investment income per share by \$0.01, increase the net realized and unrealized loss per share by \$0.01, increase the ratio of net investment income to average net assets from 7.30% to 7.38% and increase the ratio of net investment income (adjusted for dividend payments to preferred shareholders) from 6.54% to 6.62%. Per share data and ratios for periods prior to November 30, 2002 have not been restated to reflect this change in presentation.

- (d) The per share net investment income amount does not reflect the period's reclassifications of differences between book and tax basis net investment income.
- (e) Total return at market value assuming all distributions reinvested at prices calculated in accordance with the Dividend Reinvestment Plan.
- (f) Had the Investment Advisor not waived or reimbursed a portion of expenses, total return would have been reduced.
- (g) Not annualized.
- (h) The benefits derived from custody credits and directed brokerage arrangements, if applicable, had an impact of less than 0.01%, except for the year ended November 30, 2004 which had an impact of 0.01% and the year ended November 30, 2003 which had an impact of 0.02%.
- (i) Ratios reflect average net assets available to common shares only.
- (j) Ratios calculated using average net assets including auction preferred shares of the Fund, including the effect of custody credits, equals 0.60%, 0.55%, 0.55%, 0.55%, 0.52% and 0.20% for the six months ended May 31, 2005, year ended November 30, 2004, November 30, 2003, November 30, 2002, November 30, 2001 and November 30, 2000, respectively.
- (k) Annualized.

Shareholder Meeting Results

The annual meeting of shareholders of the Fund was held on May 25, 2005. The meeting was adjourned with respect to the following proposals: (i) a proposal to elect two Trustees to be voted on by the holders of Common Shares and Preferred Shares of the Fund, voting together as a single class; and (ii) a proposal to elect two Trustees to be voted on by the holders of Preferred Shares only, voting as a single class. Before the shareholder meeting reconvened, the Trustees approved a plan of liquidation for the Fund. As a result, no action on the proposals were taken by shareholders.

Dividend Reinvestment Plan

Colonial New York Insured Municipal Fund

Pursuant to the Fund's Dividend Reinvestment Plan (the "Plan"), all Common Shareholders whose shares are registered in their own names will have all distributions reinvested automatically in additional Common Shares of the Fund by Computershare (the "Plan Agent"), as agent under the Plan, unless a Common Shareholder elects to receive cash. An election to receive cash may be revoked or reinstated at the option of the Common Shareholder. Shareholders whose shares are held in the name of a broker or nominee will have distributions reinvested automatically by the broker or nominee in additional shares under the Plan, unless the service is not provided by the broker or nominee, or unless the shareholder elects to receive distributions in cash. If the service is not available, such distributions will be paid in cash. Shareholders whose shares are held in the name of a broker or nominee should contact the broker or nominee for details. All distributions to investors who elect not to participate (or whose broker or nominee elects not to participate) in the Plan will be paid by check mailed directly to the record holder by the Plan Agent, as dividend paying agent.

The Plan Agent will furnish each person who buys shares in the offering with written information relating to the Plan. Included in such information will be procedures for electing to receive distributions in cash (or, in the case of shares held in the name of a broker or nominee who does not participate in the Plan, procedures for having such shares registered in the name of the shareholder so that such shareholder may participate in the Plan).

If the Trustees of the Fund declare a dividend (including a capital gain dividend) payable either in shares or in cash, as holders of shares may have elected, then nonparticipants in the Plan will receive cash and participants in the Plan will receive the equivalent in shares valued as set forth below. Whenever a market price is equal to or exceeds net asset value at the time shares are valued for the purpose of determining the number of shares equivalent to the distribution, participants will be issued shares at the net asset value most recently determined as provided under "Net Asset Value" in the Fund's prospectus and its Statement of Additional Information, but in no event less than 95% of the market price. If the net asset value of the shares at such time exceeds the market price of shares at such time, or if the Fund should declare a dividend (including a capital gain dividend) payable only in cash, the Plan Agent will, as agent for the participants, use the cash that the shareholders would have received as a dividend to buy shares in the open market, the American Stock Exchange or elsewhere, for the participants' accounts. If, before the Plan Agent has completed its purchases, the market price exceeds the net asset value of the shares, the average per share purchase price paid by the Plan Agent may exceed the net asset value of the shares, resulting in the acquisition of fewer shares than if the dividend (including a capital gain dividend) had been paid in shares issued by the Fund. The Plan Agent will apply all cash received as a dividend (including a capital gain dividend) to purchase shares on the open market as soon as practicable after the payment date of such dividend, but in no event later than 30 days after such date, except where necessary to comply with applicable provisions of the federal securities laws.

There is no charge to participants for reinvesting dividends (including capital gain dividends). The Plan Agent's fees for handling the reinvestment of dividends (including capital gain dividends) will be paid by the Fund. There will be no brokerage charges with respect to shares issued directly by the Fund as a result of dividends or capital gains distributions payable either in stock or in cash. However, each participant will pay a pro rata share of brokerage commissions incurred with respect to the Plan Agent's open market purchases in connection with the reinvestment of dividends (including capital gain dividends).

The automatic reinvestment of dividends (including capital gain dividends) will not relieve participants of any income tax which may be payable on such dividends. The amount of the dividend for tax purposes may vary depending on whether the Fund issues new Common Shares or purchases them on the open market.

The Plan may be amended or terminated on 30 days' written notice to Plan participants. All correspondence concerning the Plan should be directed to Computershare., by mail at P.O.Box 43010, Providence, RI 02940-3010, or by phone at 1-800-730-6001.

Board Consideration and Approval of Investment Advisory Agreement

Section 15(c) of the Investment Company Act of 1940 (the "1940 Act") requires that the Board of Trustees/Directors (the "Board") of the Columbia Funds ("The Funds"), including a majority of the Trustees and Directors (collectively, the

Edgar Filing: COLONIAL NEW YORK INSURED MUNICIPAL FUND - Form N-CSRS

"Trustees") who are not "interested persons" of the Trusts, as defined in the 1940 Act (the "Independent Trustees"), annually review and approve the terms of the Funds' investment advisory agreements. At a meeting held on October 13, 2004, the Board reviewed and approved the management contracts ("Advisory Agreement") with Columbia Management Advisors, Inc. ("CMA") for the Fund.

At meetings held on September 23, 2004 and October 12, 2004, the Advisory Fees and Expenses Committee (the "Committee") of the Board considered the factors described below relating to the selection of CMA and the approval of the Advisory Agreement. At a meeting held on October 13, 2004, the Board, including the Independent Trustees (who were advised by their independent legal counsel), considered these factors and reached the conclusions described below.

Nature, Extent and Quality of Services

The Board considered information regarding the nature, extent and quality of services that CMA provides to the Fund under the Advisory Agreement. CMA provided the most recent investment adviser registration form ("Form ADV") and code of ethics for CMA to the Board. The Board reviewed information on the status of Securities and Exchange Commission ("SEC") and New York Attorney General ("NYAG") proceedings against CMA and certain of its affiliates, including the agreement in principle entered into with the SEC and the NYAG on March 15, 2004 to settle civil complaints filed by the SEC and the NYAG relating to trading activity in mutual fund shares./1/

The Board evaluated the ability of CMA, including its resources, reputation and other attributes, to attract and retain highly qualified research, advisory and supervisory investment professionals. The Board considered information regarding CMA's compensation program for its personnel involved in the management of the Fund.

Based on these considerations and other factors, including those referenced below, the Board concluded that they were generally satisfied with the nature, extent and quality of the investment advisory services provided to the Fund by CMA.

Fund Performance and Expenses

CMA provided the Board with relative performance and expense information for the Fund in a report prepared by Lipper Inc. ("Lipper") an independent provider of investment company data. The Board considered the total return performance information, which included the ranking of the Fund within a performance universe made up of funds with the same Lipper investment classification and objective (the "Performance Universe") by total return for one-year, three-year, five-year, ten-year or life of fund periods, as applicable. They also considered the Fund's performance in comparison to the performance results of a group (the "Performance Peer Group") of funds selected by Lipper based on similarities in fund type (e.g. open-end), investment classification and objective, asset size, load type and 12b-1/service fees and other expense features, and to the performance results of the Fund's benchmark index. The Board reviewed a description of Lipper's methodology for selecting the mutual funds in the Fund's Performance Peer Group and Performance Universe.

The Board considered statistical information regarding the Fund's total expenses and certain components thereof, including management fees (both actual management fees based on expenses for advisory and administrative fees including any reductions for fee waivers and expense reimbursements as well as contractual management fees that are computed for a hypothetical level of assets), actual non-management expenses, and fee waivers/caps and expense reimbursements. They also considered comparisons of these expenses to the expense information for funds within a group (the "Expense Peer Group") selected by Lipper based on similarities in fund type (e.g. open-end),

Edgar Filing: COLONIAL NEW YORK INSURED MUNICIPAL FUND - Form N-CSRS

investment classification and objective, asset size, load type and 12b-1/service fees and other expense features (but which, unlike the Performance Peer Group, may include funds with several different investment classifications and objectives) and an expense universe ("Expense Universe") selected by Lipper based on the criteria for determining the Expense Peer Group other than asset size. The expense information in the Lipper report took into account all existing fee waivers and expense reimbursements as well as all voluntary advisory fee reductions applicable to certain Funds that were being proposed by management in order to reduce the aggregate advisory fees received from mutual funds advised by CMA and Banc of America Capital Management, LLC ("BACAP") by \$32 million per year for five years as contemplated by the agreement in principle with the NYAG.

The Committee also considered the projected impact on expenses of these Funds resulting from the overall cost reductions that management anticipated would result from the proposed shift to a common group of service providers for transfer agency, fund accounting and custody services for mutual funds advised by Bank of America affiliates.

The Board also considered information in the Lipper report that ranked each Fund based on (i) each Fund's one-year performance and actual management fees, (ii) each Fund's one-year performance and total expenses and (iii) each Fund's 3-year performance and total expenses. Based on these comparisons and expense and performance rankings of the Fund in the Lipper Report, CMA determined an overall score for the Fund. The Committee and the Board also considered projected savings to the Fund that would result from certain modifications in soft dollar arrangements.

/1/On February 9, 2005, CMA and its affiliate, Columbia Funds Distributor, Inc., entered into settlement agreements with the SEC and the NYAG that contain substantially the terms outlined in the agreements in principle.

18

[GRAPHIC]

Board Consideration and Approval of Investment Advisory Agreement (continued)

The Committee also considered more detailed information relating to certain Funds, including the Fund, that were highlighted for additional review based upon the fact that they ranked poorly in terms of overall expense or management fees, maintained poor performance or demonstrated a combination of below average to poor performance while maintaining below average or poor expense rankings. At its September 23, 2004 meeting, the Committee discussed these Funds with management and in executive session. The Committee requested additional information from management regarding the cause(s) of the below-average relative performance of these Funds, any remedial actions management recommended to improve performance and the general standards for review of portfolio manager performance. At its October 12, 2004 meeting, the Committee considered additional information provided by management regarding these Funds. The Board also considered management's proposal to merge or liquidate some of these Funds.

Based on these considerations and other factors, the Board concluded that the overall performance and expense results supported by the approval of the Advisory Agreements for each Fund.

Edgar Filing: COLONIAL NEW YORK INSURED MUNICIPAL FUND - Form N-CSRS

Investment Advisory Fee Rates

The Board reviewed and considered the proposed contractual investment advisory fee rates (the "Advisory Agreement Rates") payable by the Funds to CMA for investment advisory services. In addition, the Board reviewed and considered the existing and proposed fee waiver and reimbursement arrangements applicable to the Advisory Agreement Rates and considered the Advisory Agreement Rates after taking the fee waivers and reimbursements into account (the "Net Advisory Rates"). At previous meetings, the Committee had separately considered management's proposal to reduce annual investment advisory fees for certain Funds under the NYAG agreement in principle and the impact of these reductions on each affected Fund. Additionally, the Board considered information comparing the Advisory Agreement Rates and Net Advisory Rates (both on a stand-alone basis and on a combined basis with the Funds' administration fee rates) with those of the other funds in the Expense Peer Group. The Board concluded that the Advisory Agreement Rates and Net Advisory Rates represented reasonable compensation to CMA, in light of the nature, extent and quality of the services provided to the Funds, the fees paid and expenses borne by comparable funds and the costs that CMA incurs in providing these services to the Funds.

Profitability

The Board considered a detailed profitability analysis of CMA based on 2003 financial statements, adjusted to take into account advisory fee reductions implemented in November 2003 and proposed reductions under the NYAG proposed settlement. The Board concluded that, in light of the costs of providing investment management and other services to the Funds, the profits and other ancillary benefits that CMA and its affiliates received for providing these services to the Funds were not unreasonable.

Economies of Scale

In evaluating potential economies of scale, the Board considered CMA's proposal to implement a standardized breakpoint schedule for combined advisory and administrative fees for the majority of the funds of the same general asset type within the Columbia Funds complex (other than index and closed-end funds). The Board noted that the standardization of the breakpoints would not result in a fee increase for any Fund. The Board concluded that any actual or potential economies of scale are, or will be, shared fairly with Fund shareholders, including most particularly through Advisory Agreement Rate breakpoints at current and reasonably foreseeable asset levels.

Information about Services to Other Clients

In evaluating the proposed fee reductions under the NYAG agreement in principle, the Board considered information regarding the advisory fee rates charged by BACAP for the Nations Funds. Members of the Committee and the Board had also separately reviewed advisory fee rates for variable insurance product funds advised by CMA. This information assisted the Board in assessing the reasonableness of fees paid under the Advisory Agreements in light of the nature, extent and quality of services provided under those agreements.

Other Benefits to CMA

The Board considered information regarding potential "fall-out" or ancillary benefits received by CMA and its affiliates as a result of their relationship with the Funds. These benefits could include benefits directly attributable to the relationship of CMA with the Funds (such as soft dollar credits) and benefits potentially derived from an increase in the business of CMA as a result of their relationship with the Funds (such as the ability to market to shareholders other financial products offered by CMA and its affiliates).

Other Factors and Broader Review

The Board reviews detailed materials provided by CMA annually as part of the approval process under Section 15(c) of the 1940 Act. The Board also regularly reviews and assesses the quality of the services that the Funds receive throughout the year. In this regard, the Board reviews information provided by CMA at their regular meetings, including, among other things, a detailed portfolio review, and detailed fund performance reports. In addition, the Board interviews the heads of each investment area at each regular meeting of the Board and selected portfolio managers of the Funds at various times throughout the year. After considering the above-described factors and based on the deliberations and their evaluation of the information provided to them, the Board concluded that re-approval of the Advisory Agreements for each of the Funds was in the best interest of the Funds and their shareholders. Accordingly, the Board unanimously approved the Advisory Agreements.

Important Information About This Report

The Transfer Agent for Colonial New York Insured Municipal Fund is:

Computershare
P.O. Box 43010
Providence, RI 02940-3010

The fund mails one shareholder report to each shareholder address. Shareholders can order additional reports by calling 800-730-6001. In addition, representatives at that number can provide shareholders information about the fund.

Financial advisors who want additional information about the fund may speak to a representative at 800-426-3750.

A description of the fund's proxy voting policies and procedures is available (i) at www.columbiamanagement.com; (ii) on the Securities and Exchange Commission's website at www.sec.gov, and (iii) without charge, upon request, by calling 800-730-6001. Information regarding how the fund voted proxies relating to portfolio securities during the 12-month period ended June 30, 2004 is available from the SEC's website. Information regarding how the fund voted proxies relating to portfolio securities is also available at www.columbiamanagement.com.

The fund files a complete schedule of portfolio holdings with the SEC for the first and third quarters of each fiscal year on Form N-Q. The fund's Form N-Q is available on the SEC's website at www.sec.gov and may be reviewed and copied at the SEC's Public Reference Room in Washington, DC. Information on the operation of the Public Reference Room may be obtained by calling 1-800-SEC-0330.
