Intertape Polymer Group Inc.

Notes to Interim Condensed Consolidated Financial Statements

March 31, 2014

(In US dollars, tabular amounts in thousands, except as otherwise noted)

(Unaudited)

1 - GENERAL BUSINESS DESCRIPTION

Intertape Polymer Group Inc. (the Parent Company), incorporated under the *Canada Business Corporations Act*, has its principal administrative offices in Montreal, Quebec, Canada and in Sarasota, Florida, U.S.A. The address of the Parent Company's registered office is 800 Place Victoria, Suite 3700, Montreal, Québec H4Z 1E9, c/o Fasken Martineau. The Parent Company's common shares are listed on the Toronto Stock Exchange (TSX) in Canada.

The Parent Company and its subsidiaries (together referred to as the Company), develops, manufactures and sells a variety of paper and film based pressure sensitive and water activated tapes, polyethylene and specialized polyolefin films, woven coated fabrics and complementary packaging systems for industrial and retail use.

Intertape Polymer Group Inc. is the Company's ultimate parent.

2 - ACCOUNTING POLICIES

Basis of Presentation and Statement of Compliance

The unaudited interim condensed consolidated financial statements (financial statements) present the Company's consolidated balance sheets as of March 31, 2014 and December 31, 2013, as well as its consolidated earnings (loss), comprehensive income (loss), changes in shareholders' equity and cash flows for the three months ended March 31, 2014 and 2013. These financial statements have been prepared in accordance with International Accounting Standard (IAS) 34 *Interim Financial Reporting* and are expressed in United States (US) dollars. Accordingly, certain information and footnote disclosures normally included in annual financial statements prepared in accordance with International Financial Reporting Standards (IFRS), as issued by the International Accounting Standards Board (IASB), have been omitted or condensed.

These financial statements reflect all adjustments which are, in the opinion of management, necessary to a fair statement of the results for the interim periods presented. These adjustments are of a normal recurring nature.

These financial statements were authorized for issuance by the Company's Board of Directors on May 7, 2014.

Critical Accounting Judgments, Estimates and Assumptions

The preparation of the financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Significant changes in the underlying assumptions could result in significant changes to these estimates. Consequently, management reviews these estimates on a regular basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected. The

judgments, estimates and assumptions applied in the financial statements, were the same as those applied in the Company's most recent annual audited consolidated financial statements. The only exceptions are the estimate of the provision for income taxes which is determined in the financial statements using the estimated weighted average annual effective income tax rate applied to the pre-tax income of the interim period and the remeasurement of the defined benefit liability which is required at year-end. These financial statements and notes should be read in conjunction with the Company's most recent annual audited consolidated financial statements.

Table of Contents**Change in Disclosure Requirement**

Effective January 1, 2014, IAS 36 *Impairment of Assets*: Requires disclosure of the recoverable amount of an asset (including goodwill) or a cash generating unit (CGU) when an impairment loss has been recognized or reversed in the period. When the recoverable amount is based on fair value less costs to sell, the valuation techniques and key assumptions must also be disclosed. The new requirements apply prospectively. The application of this new disclosure does not have a significant impact on the financial statements of the Company.

New Standards and Interpretations Issued But Not Yet Effective

Certain new standards, amendments and interpretations, and improvements to existing standards have been published by the IASB but are not yet effective, and have not been adopted early by the Company. Management anticipates that all of the relevant pronouncements will be adopted in the first reporting period following the date of application. Information on new standards, amendments and interpretations, and improvements to existing standards, which could potentially impact the Company's consolidated financial statements, are detailed as follows:

IFRS 9 *Financial Instruments*: The IASB aims to replace IAS 39 *Financial Instruments: Recognition and Measurement* in its entirety with IFRS 9, the replacement standard. To date, the chapters dealing with recognition, classification, measurement and derecognition of financial assets and financial liabilities as well as the chapter dealing with hedge accounting have been published. The chapter dealing with impairment methodology is still being developed. In November 2011, the IASB decided to consider making limited modifications to IFRS 9's financial asset classification model to address application issues. In addition, in November 2013, the IASB decided to defer the implementation of IFRS 9 to a date to be announced. Management has yet to assess the impact of this new standard on the Company's consolidated financial statements and does not expect to implement IFRS 9 until it has been completed and its overall impact can be assessed.

Certain other new standards and interpretations have been issued but are not expected to have a material impact on the Company's financial statements.

On February 26, 2013, the Company announced its intention to relocate its Columbia, South Carolina manufacturing facility within the region in order to modernize facility operations and acquire state-of-the-art manufacturing equipment. The charges incurred are included in the tables above under South Carolina project.

In 2014 and 2013, the other charges incurred in the table above are the incremental costs of the ongoing Richmond, Kentucky manufacturing facility closure, consolidation of the shrink film production from Truro, Nova Scotia to Tremonton, Utah, other small restructuring initiatives and the Brantford, Ontario facility closure and are included in the tables above under other projects.

5 - INVENTORIES

	104,242	94,319

The amount of inventories recognized as an expense during the period is included in the statement of consolidated earnings (loss) under the caption cost of sales.

6 - PROPERTY, PLANT AND EQUIPMENT

During the three months ended March 31, 2014 and 2013, acquisitions of property, plant and equipment amounted to \$14.4 million and \$5.8 million, respectively. During the three months ended March 31, 2014 and 2013, the net book value of property, plant and equipment disposals amounted to less than \$0.1 million for both periods, and the loss on those disposals amounted to less than \$0.1 million for both periods.

As of March 31, 2014 and December 31, 2013, the Company had commitments to purchase machines and equipment totalling \$12.5 million and \$12.9 million, respectively.

There were no impairment losses or reversals of impairment losses during the current and comparative reporting periods, other than those discussed in Note 4 and included in the statement of consolidated earnings (loss) under the caption manufacturing facility closures, restructuring and other related charges.

Table of Contents**7 - INCOME TAXES**

Income tax expense (benefit) is recognized in each interim period based on the best estimate of the weighted average annual income tax rate expected for the full financial year. Amounts accrued for income tax expense (benefit) in one interim period may have to be adjusted in a subsequent interim period of the financial year if the estimate of the annual income tax rate changes. The effective tax rate for the three months ended March 31, 2014 and 2013 was 39.0% and negative 2.9%, respectively. The increase in the effective tax rate is primarily due to (i) the fact that the US deferred tax assets were previously derecognized until the fourth quarter of 2013 and (ii) the impact of tax expense recorded in the first quarter of 2013 on losses before income taxes for stock options exercised and state income taxes.

8 - LONG-TERM DEBT

	March 31, 2014	December 31, 2013
	\$	\$
Asset-based loan facility (ABL facility ⁽¹⁾)	96,456	78,159

	149,119	129,814
Less: Installments on long-term debt	8,156	8,703
	140,963	121,111

⁽¹⁾ The ABL facility, Real Estate Loan and mortgage and other loans are presented net of unamortized related debt issue costs totalling \$1.8 million (\$1.9 million as of December 31, 2013).

As of March 31, 2014 and December 31, 2013, the effective interest rate on borrowings under the ABL facility was 3.10% and 2.89%, respectively.

The Company's unused availability under the ABL facility as of March 31, 2014 and December 31, 2013 was \$51.1 million and \$47.8 million, respectively.

The ABL facility has one financial covenant, a fixed charge ratio of greater than or equal to 1.0 to 1.0. The financial covenant becomes effective only when unused availability drops below \$25.0 million. A default under the ABL facility would be deemed a default under the Real Estate Loan, Equipment Financing Agreement and the mortgage loan entered into in connection with the Company's real estate purchase in Blythewood, South Carolina.

On August 14, 2012, the Company entered into a secured debt equipment finance agreement (the Equipment Finance Agreement) in the amount of up to \$24.0 million for qualifying US capital expenditures during the period May 2012 through March 31, 2014. The amount available under the facility was increased to \$25.7 million as of March 26, 2014. The terms of the arrangement include multiple individual finance leases, each of which have a term of 60 months and a fixed interest rate of 2.74%, 2.90%, and 2.95%, respectively, for leases scheduled prior to January 1,

2013, January 1, 2014, and March 31, 2014, respectively. The Company entered into the final schedule on March 26, 2014 for \$3.5 million, with an annualized payment of \$0.7 million.

As of March 31, 2014 and December 31, 2013, advance fundings under the Equipment Finance Agreement, which are amounts funded and borrowed but not yet scheduled, were nil and \$1.3 million, respectively. Advance fundings accrued interest at the 30-day LIBOR rate plus 200 basis points.

The Real Estate Loan contains two financial covenants, both of which are determined at the end of each fiscal month. The Company has been in compliance with these covenants since entering into the Real Estate Loan.

In 2013, the Company began the process to relocate the Langley, British Columbia manufacturing facility to a new nearby location due to the expiration of the non-renewable lease in April 2014. As a result, in 2014, the Company recorded an additional restoration provision for the new location where the Company is obligated to restore the leased property to the same condition that existed at the time of the lease commencement date. In addition, the Company reversed a portion of the outstanding restoration provision of the existing facility based on actual costs as of March 31, 2014 and remaining costs expected to be incurred. The reversal is included in the statement of consolidated earnings (loss) under the caption cost of sales and reduced depreciation and amortization. The carrying amount of these obligations are based on management's best estimate of the costs of the permanent removal of the Company's manufacturing equipment used in these facilities.

Approximately \$0.4 million of the additional provision recorded in severance and other provisions is for an estimated amount relating to the prior Chief Financial Officer based on the employment letter agreements entered into on October 30, 2009 and November 17, 2009. The remainder of the additional provision recorded in severance and other provisions primarily relates to the Columbia, South Carolina manufacturing facility closure. Refer to Note 4 for more information.

The Company is engaged in various legal proceedings and claims that have arisen in the ordinary course of business. The outcome of all of the proceedings and claims against the Company is subject to future resolution, including the uncertainties of litigation. Based on information currently known to the Company and after consultation with outside legal counsel, management believes that the probable ultimate resolution of any such proceedings and claims, individually or in the aggregate, will not have a material adverse effect on the financial condition of the Company, taken as a whole, and accordingly, no amounts have been recorded as of March 31, 2014.

10 - CAPITAL STOCK AND EARNINGS PER SHARE**Common Shares**

The Company's common shares outstanding as of March 31, 2014 and December 31, 2013 were 60,776,649.
