1 DESCRIPTION OF BUSINESS

Spectrum Brands Holdings, Inc., a Delaware corporation (“SB Holdings” or the “Company”), is a diversified global branded consumer products company. SB Holdings' common stock trades on the New York Stock Exchange (the “NYSE”) under the symbol “SPB.”

The Company’s operations include the worldwide manufacturing and marketing of alkaline, zinc carbon and hearing aid batteries, as well as aquariums and aquatic health supplies and the designing and marketing of rechargeable batteries, battery-powered lighting products, electric shavers and accessories, grooming products and hair care appliances. The Company’s operations also include the manufacturing and marketing of specialty pet supplies. The Company also manufactures and markets herbicides, insecticides and insect repellents in North America. The Company also designs, markets and distributes a broad range of branded small appliances and personal care products. The Company also designs, markets, distributes and sells certain hardware, home improvement and plumbing products. The Company’s operations utilize manufacturing and product development facilities located in the United States (“U.S.”), Europe, Latin America and Asia.

The Company sells its products in approximately 160 countries through a variety of trade channels, including retailers, wholesalers and distributors, hearing aid professionals, industrial distributors and original equipment manufacturers and enjoys name recognition in its markets under the Rayovac, VARTA and Remington brands, each of which has been in existence for more than 80 years, and under the Tetra, 8-in-1, Dingo, Nature's Miracle, IAMS, Eukanuba, Healthy-Hide, Digest-eeze, Spectracide, Cutter, Hot Shot, Black & Decker, George Foreman, Russell Hobbs, Farberware, Black Flag, FURminator, Kwikset, Weiser, Baldwin, National Hardware, Stanley, FANAL and Pfister brands.

The Company’s global branded consumer products have positions in six major product categories: consumer batteries, small appliances, personal care, hardware and home improvement, pet supplies and home and garden controls.

The Company manages the businesses in four vertically integrated, product-focused reporting segments: (i) Global Batteries & Appliances, which consists of the Company’s worldwide battery, personal care and small appliances primarily in the kitchen and home product categories (“Global Batteries & Appliances”); (ii) Hardware & Home Improvement, which consists of the Company's worldwide hardware, home improvement and plumbing business (“Hardware & Home Improvement”); (iii) Global Pet Supplies, which consists of the Company’s worldwide pet supplies business (“Global Pet Supplies”); and (iv) Home and Garden, which consists of the Company’s home and garden and insect control business (“Home and Garden”). Management reviews the performance of the Company based on these segments, which also reflect the manner in which the Company’s management monitors performance and allocates resources. For information pertaining to our business segments, see Note 12, “Segment Results.”

2 SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation: The condensed consolidated financial statements include the accounts of SB Holdings and its subsidiaries and are prepared in accordance with U.S. Generally Accepted Accounting Principles (“GAAP”). All

intercompany transactions have been eliminated.

These condensed consolidated financial statements have been prepared by the Company, without audit, pursuant to the rules and regulations of the Securities and Exchange Commission (“SEC”) and, in the opinion of the Company, include all adjustments (which are normal and recurring in nature) necessary to present fairly the financial position of the Company at March 29, 2015, the results of operations for the three and six month periods ended March 29, 2015 and March 30, 2014, the comprehensive income (loss) for the three and six month periods ended March 29, 2015 and March 30, 2014 and the cash flows for the six month periods ended March 29, 2015 and March 30, 2014. Certain information and note disclosures normally included in consolidated financial statements prepared in accordance with GAAP have been condensed or omitted pursuant to such SEC rules and regulations. These condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements and notes thereto included in the Company’s Annual Report on Form 10-K for the fiscal year ended September 30, 2014.

Table of Contents

SPECTRUM BRANDS HOLDINGS, INC.

Notes to Condensed Consolidated Financial Statements (Unaudited) – (Continued)

(Amounts in millions of dollars, except per share figures or as otherwise specified)

Use of Estimates: The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Intangible Assets: Intangible assets are recorded at cost or at fair value if acquired in a purchase business combination. Customer relationships and proprietary technology intangibles are amortized, using the straight-line method, over their estimated useful lives. Excess of cost over fair value of net assets acquired (goodwill) and indefinite lived trade name intangibles are not amortized. GAAP requires that goodwill and indefinite-lived intangible assets be tested for impairment annually or more often if an event or circumstance indicates that an impairment loss may have been incurred. Goodwill is tested for impairment at the reporting unit level, with such groupings being consistent with the Company's reportable segments. If impairment is indicated, a write-down to fair value (normally measured by discounting estimated future cash flows) is recorded. Indefinite lived trade name intangibles are tested for impairment at least annually by comparing the fair value with the carrying value. Any excess of carrying value over fair value is recognized as an impairment loss in income from operations.

The Company's annual impairment testing is completed at the August financial period end. Management uses its judgment in assessing whether assets may have become impaired between annual impairment tests. Indicators such as unexpected adverse business conditions, economic factors, unanticipated technological change or competitive activities, loss of key personnel, and acts by governments and courts may signal that an asset has become impaired.

Shipping and Handling Costs: The Company incurred shipping and handling costs of \$66.1 and \$130.8 for the three and six month periods ended March 29, 2015, respectively, and \$63.7 and \$128.3 for the three and six months periods ended March 30, 2014, respectively. These costs are included in Selling expenses in the accompanying Condensed Consolidated Statements of Operations (Unaudited). Shipping and handling costs include costs incurred with third-party carriers to transport products to customers as well as salaries and overhead costs related to activities to prepare the Company's products for shipment from its distribution facilities.

Concentrations of Credit Risk: Trade receivables subject the Company to credit risk. Trade accounts receivable are carried at net realizable value. The Company extends credit to its customers based upon an evaluation of the customer's financial condition and credit history, and generally does not require collateral. The Company monitors its customers' credit and financial condition based on changing economic conditions and makes adjustments to credit policies as required. Provisions for losses on uncollectible trade receivables are determined based on ongoing evaluations of the Company's receivables, principally on the basis of historical collection experience and evaluations of the risks of nonpayment for a given customer.

The Company has a broad range of customers including many large retail outlet chains, one of which accounts for a significant percentage of its sales volume. This customer represented approximately 13% and 14% of the Company's Net sales during the three and six month periods ended March 29, 2015, respectively, and 16% of the Company's Net sales for both the three and six month periods ended March 30, 2014. This customer also represented approximately 11% and 14% of the Company's Trade accounts receivable, net at March 29, 2015 and September 30, 2014, respectively.

Approximately 39% and 42% of the Company's Net sales during the three and six month periods ended March 29, 2015, respectively, and 39% and 43% of the Company's Net sales during the three and six month periods ended March 30, 2014, respectively, occurred outside the U.S. These sales and related receivables are subject to varying degrees of credit, currency, political and economic risk. The Company monitors these risks and makes appropriate provisions for ability to collect based on an assessment of the risks present.

Stock-Based Compensation: The Company measures the cost of its stock-based compensation plans based on the fair value of its employee stock awards and recognizes these costs over the requisite service period of the awards.

Total stock compensation expense associated with restricted stock units recognized by the Company during the three and six month periods ended March 29, 2015 was \$13.8 and \$19.4, respectively. Total stock compensation expense associated with restricted stock units recognized by the Company during the three and six month periods ended March 30, 2014 was \$11.3 and \$17.9, respectively. The remaining unrecognized pre-tax compensation cost related to restricted stock units at March 29, 2015 was \$48.6.

(Amounts in millions of dollars, except per share figures or as otherwise specified)

The Company granted approximately 0.30 million and 0.53 million restricted stock units during the three and six month periods ended March 29, 2015, respectively. The 0.53 million restricted stock units granted during the six months ended March 29, 2015 include 0.13 million restricted stock units that vested immediately and 0.13 million time-based restricted stock units that vest over a period ranging from one to three years. The remaining 0.27 million restricted stock units are performance and time-based and vest over a period ranging from one to two years. The total market value of the restricted stock units on the dates of the grants was approximately \$47.8.

The Company granted approximately 0.02 million and 0.44 million restricted stock units during the three and six month periods ended March 30, 2014, respectively. The 0.44 million restricted units granted during the six months ended March 30, 2014, include 0.09 million restricted stock units that vested immediately and 0.05 million time-based restricted stock units that vest over a one year period. The remaining 0.30 million restricted stock units are performance and time-based and vest over a two year period. The total market value of the restricted stock units on the dates of the grants was approximately \$30.1.

The fair value of restricted stock units is determined based on the market price of the Company's shares of common stock on the grant date. A summary of the activity in the Company's non-vested restricted stock units during the six months ended March 29, 2015 is as follows:

	Shares	Weighted Average Share Price at Grant Date	Fair Value at Grant Date
Restricted Stock Units	(in millions)		
Non-vested restricted stock units at September 30, 2014	0.83	\$ 67.66	\$ 56.0

Vested	(0.70)	68.28	(48.1)
Non-vested restricted stock units at March 29, 2015	0.64	\$ 85.50	\$ 54.4

Acquisition and Integration Related Charges: Acquisition and integration related charges reflected in Operating expenses in the accompanying Condensed Consolidated Statements of Operations (Unaudited) include, but are not limited to, transaction costs such as banking, legal, accounting and other professional fees directly related to acquisitions, termination and related costs for transitional and certain other employees, integration related professional

fees and other post business combination expenses associated with mergers and acquisitions.

The following table summarizes acquisition and integration related charges incurred by the Company during the three and six month periods ended March 29, 2015 and March 30, 2014:

3 COMPREHENSIVE INCOME (LOSS)

Comprehensive income (loss) includes foreign currency translation gains and losses on assets and liabilities of foreign subsidiaries, effects of exchange rate changes on intercompany balances of a long-term nature and transactions designated as a hedge of a net investment in a foreign subsidiary, deferred gains and losses on derivative financial instruments designated as cash flow hedges and amortization of deferred gains and losses associated with the Company's pension plans. The foreign currency translation gains and losses for the three and six month periods ended March 29, 2015 and March 30, 2014 were principally attributable to the impact of translation of the net assets of the Company's European and Latin American operations, which primarily have functional currencies in Euros, Pounds Sterling and Brazilian Real.

For information pertaining to the reclassification of unrealized gains and losses on derivative instruments, see Note 8, "Derivative Financial Instruments."

The Company has the following debt instruments outstanding at March 29, 2015: (i) a senior secured term loan (the “Term Loan”) pursuant to a senior credit agreement (the “Senior Credit Agreement”) which consists of \$635.2 (“Tranche A”), \$508.6 principal (“Tranche C”), \$30.5 Canadian dollar denominated principal (“CAD Term Loan”), \$242.5 Euro denominated principal (“Euro Term Loan Tranche A”) and \$163.3 Euro denominated principal (“Euro Term Loan Tranche B”) (together, the “Term Loan”); (ii) \$300.0 6.75% unsecured notes (the “6.75% Notes”); (iii) \$520.0 6.375% unsecured notes (the “6.375% Notes”); (iv) \$570.0 6.625% unsecured notes (the “6.625% Notes”); (v) \$250.0 6.125% unsecured notes (the “6.125% Notes”) and (vi) a \$400.0 asset based lending revolving credit facility (the “ABL Facility”).

Interest Terms

Certain of the Company's debt instruments are subject to variable interest rates. The variable rates disclosed in the table above are weighted averages based on outstanding debt balances and corresponding rates in effect as of the period end. At March 29, 2015, the Company's variable interest rate terms are as follows: Tranche A is equal to LIBOR (International Exchange London Interbank Offered Rate), subject to a 0.75% floor, plus 2.25%, with a Base option rate of 4.5%; Tranche C is equal to LIBOR, subject to a 0.75% floor, plus 2.75%, with a Base option rate of 5.0%; the CAD Term Loan is equal to CDOR (Canadian Dollar Offered Rate), subject to a 1.25% floor (1.29% at March 29, 2015) plus 3.75%, with a Base option rate of 5.6%; Euro Term Loan Tranche A and Euro Term Loan Tranche B are equal to EURIBOR, subject to a 0.75% floor, plus 3.0%, with no Base option available; the ABL Facility is equal to LIBOR plus 1.75%, with a Base option rate of 4.0%.

Term Loan

On December 19, 2014 the Company amended the Term Loan, issuing a tranche maturing December 19, 2021, which provides for borrowings in an aggregate principal amount of €150.0 (the "Euro Term Loan Tranche B"). The Euro Term Loan Tranche B is guaranteed by the Company's wholly owned subsidiary, SB/RH Holdings, LLC, as well as by the borrower's, Spectrum Brands, Inc. (the "Borrower" or the "Issuer"), existing and future domestic subsidiaries. The net proceeds from the amendment, together with the net proceeds of the 6.125% Notes, were used to fund acquisitions, repay certain amounts drawn under the revolving credit facility and for general corporate purposes, which may include, among other things, working capital needs, the refinancing of existing indebtedness and business expansion.

Notes to Condensed Consolidated Financial Statements (Unaudited) – (Continued)
(Amounts in millions of dollars, except per share figures or as otherwise specified)

The Euro Term Loan Tranche B was issued at a .25% discount and recorded net of the discount incurred. The €0.4 discount is reflected as an adjustment to the carrying value of principal, and is being amortized with a corresponding charge to interest expense over the remaining life of the debt. In connection with the Euro Term Loan Tranche B, the Company recorded \$0.2 and \$2.3 of fees during the three and six month periods ended March 29, 2015, respectively. The fees are classified as Debt issuance costs within the accompanying Condensed Consolidated Statements of Financial Position (Unaudited) and are being amortized as an adjustment to interest expense over the remaining life of the loan.

6.125% Notes

On December 4, 2014, the Issuer issued \$250.0 aggregate principal amount of 6.125% Notes at par value, due December 15, 2024 (the “6.125% Notes”). The 6.125% Notes are guaranteed by the Company’s wholly owned subsidiary, SB/RH Holdings, LLC, as well as by the Issuer’s existing and future domestic subsidiaries.

The Issuer may redeem all or a part of the 6.125% Notes, upon not less than 30 or more than a 60 day notice, at specified redemption prices. Further, the indenture governing the 6.125% Notes (the “2024 Indenture”) requires the Issuer to make an offer, in cash, to repurchase all or a portion of the applicable outstanding notes for a specified redemption price, including a redemption premium, upon the occurrence of a change of control of the Issuer, as defined in the 2024 Indenture.

The 2024 Indenture contains customary covenants that limit, among other things, the incurrence of additional indebtedness, payment of dividends on or redemption or repurchase of equity interests, the making of certain investments, expansion into unrelated businesses, creation of liens on assets, merger or consolidation with another company, transfer or sale of all or substantially all assets, and transactions with affiliates.

In addition, the 2024 Indenture provides for customary events of default, including failure to make required payments, failure to comply with certain agreements or covenants, failure to make payments when due or on acceleration of certain other indebtedness, and certain events of bankruptcy and insolvency. Events of default under the 2024 Indenture arising from certain events of bankruptcy or insolvency will automatically cause the acceleration of the amounts due under the 6.125% Notes. If any other event of default under the 2024 Indenture occurs and is continuing, the trustee for the 2024 Indenture or the registered holders of at least 25% in the then aggregate outstanding principal amount of the 6.125% Notes, may declare the acceleration of the amounts due under those notes.

The Company recorded \$0.6 and \$4.6 of fees in connection with the offering of the 6.125% Notes during the three and six month periods ended March 29, 2015, respectively. The fees are classified as Debt issuance costs within the accompanying Condensed Consolidated Statements of Financial Position (Unaudited) and are amortized as an adjustment to interest expense over the remaining life of the 6.125% Notes.

ABL Facility

As a result of borrowings and payments under the ABL Facility, at March 29, 2015, the Company had aggregate borrowing availability of approximately \$257.6, net of lender reserves of \$6.4 and outstanding letters of credit of \$30.3.

8 DERIVATIVE FINANCIAL INSTRUMENTS

Derivative financial instruments are used by the Company principally in the management of its interest rate, foreign currency exchange rate and raw material price exposures. The Company does not hold or issue derivative financial instruments for trading purposes. Derivative instruments are reported at fair value in the Condensed Consolidated Statements of Financial Position (Unaudited). When hedge accounting is elected at inception, the Company formally designates the financial instrument as a hedge of a specific underlying exposure and documents both the risk management objectives and strategies for undertaking the hedge. The Company formally assesses both at the inception of the hedging instrument and at least quarterly thereafter, whether the financial instruments that are used in hedging transactions are effective at offsetting changes in the forecasted cash flows of the related underlying exposure. Because of the high degree of effectiveness between the hedging instrument and the underlying exposure being hedged, fluctuations in the value of the derivative instruments are generally offset by changes in the forecasted cash flows of the underlying exposures being hedged. Any ineffective portion of a financial instrument's change in

fair value is recognized in earnings in the period incurred. For derivatives that are not designated as cash flow hedges, or do not qualify for hedge accounting treatment, the change in the fair value is also recognized in earnings in the period incurred.

Derivative Financial Instruments

Cash Flow Hedges

The Company uses interest rate swaps to manage its interest rate risk. The swaps are designated as cash flow hedges with the changes in fair value recorded in Accumulated Other Comprehensive Income (Loss) (“AOCI”) and as a derivative hedge asset or liability, as applicable. The swaps settle periodically in arrears with the related amounts for the current settlement period payable to, or receivable from, the counter-parties included in accrued liabilities or receivables, respectively, and recognized in earnings as an adjustment to Interest expense from the underlying debt to which the swap is designated. At both March 29, 2015 and September 30, 2014, the Company had a series of U.S. dollar denominated interest rate swaps outstanding which effectively fix the interest on floating rate debt, exclusive of lender spreads, at 1.36% for a notional principal amount of \$300.0 through April 2017. The derivative net loss on these contracts recorded in AOCI by the Company at March 29, 2015 was \$1.8, net of tax benefit of \$0.0. At March 29, 2015, the portion of derivative net losses estimated to be reclassified from AOCI into earnings by the Company over the next 12 months is \$1.3, net of tax.

The Company’s interest rate swap derivative financial instruments at March 29, 2015 and September 30, 2014 are summarized as follows:

	March 29, 2015		September 30, 2014	
	Notional	Remaining	Notional	Remaining
	Amount	Years	Amount	Years
Interest rate swaps - fixed	\$ 300.0	2.0	\$ 300.0	2.5

The Company periodically enters into forward foreign exchange contracts to hedge the risk from forecasted foreign currency denominated third party and intercompany sales or payments. These obligations generally require the Company to exchange foreign currencies for U.S. Dollars, Euros, Pounds Sterling, Australian Dollars, Brazilian Reals, Mexican Pesos, Canadian Dollars or Japanese Yen. These foreign exchange contracts are cash flow hedges of fluctuating foreign exchange related to sales of product or raw material purchases. Until the sale or purchase is recognized, the fair value of the related hedge is recorded in AOCI and as a derivative hedge asset or liability, as applicable. At the time the sale or purchase is recognized, the fair value of the related hedge is reclassified as an adjustment to Net sales or purchase price variance in Cost of goods sold. At March 29, 2015, the Company had a series of foreign exchange derivative contracts outstanding through June 2016 with a contract value of \$215.4. The derivative net gain on these contracts recorded in AOCI by the Company at March 29, 2015 was \$15.2, net of tax expense of \$5.4. At March 29, 2015, the portion of derivative net gains estimated to be reclassified from AOCI into earnings by the Company over the next 12 months is \$15.2, net of tax.

The Company is exposed to risk from fluctuating prices for raw materials, specifically zinc and brass used in its manufacturing processes. The Company hedges a portion of the risk associated with the purchase of these materials through the use of commodity swaps. The hedge contracts are designated as cash flow hedges with the fair value changes recorded in AOCI and as a hedge asset or liability, as applicable. The unrecognized changes in fair value of the hedge contracts are reclassified from AOCI into earnings when the hedged purchase of raw materials also affects earnings. The swaps effectively fix the floating price on a specified quantity of raw materials through a specified date. At March 29, 2015, the Company had a series of zinc swap contracts outstanding through September 2016 for 7.3 thousand metric tons with a contract value of \$16.0. At March 29, 2015, the Company had a series of brass swap contracts outstanding through September 2016 for 1.9 thousand metric tons with a contract value of \$9.2. The derivative net loss on these contracts recorded in AOCI by the Company at March 29, 2015 was \$0.7, net of tax benefit of \$0.1. At March 29, 2015, the portion of derivative net loss estimated to be reclassified from AOCI into earnings by the Company over the next 12 months is \$0.8, net of tax.

Derivative Contracts Not Designated as Hedge Accounting

The Company periodically enters into forward and swap foreign exchange contracts to economically hedge the risk from third party and intercompany payments resulting from existing obligations. These obligations generally require the Company to exchange foreign currencies for U.S. Dollars, Canadian Dollars, Euros or Australian Dollars. These foreign exchange contracts are fair value hedges of a related liability or asset recorded in the accompanying Condensed Consolidated Statements of Financial Position (Unaudited). The gain or loss on the derivative hedge contracts is recorded in earnings as an offset to the

change in value of the related liability or asset at each period end. At March 29, 2015 and September 30, 2014, the Company had \$174.1 and \$108.9, respectively, of notional value of such foreign exchange derivative contracts outstanding.

The Company periodically enters into commodity swap contracts to economically hedge the risk from fluctuating prices for raw materials, specifically the pass-through of market prices for silver used in manufacturing purchased watch batteries. The Company hedges a portion of the risk associated with these materials through the use of commodity swaps. The swap contracts are designated as economic hedges with the unrealized gain or loss recorded in earnings and as an asset or liability at each period end. The unrecognized changes in fair value of the hedge contracts are adjusted through earnings when the realized gains or losses affect earnings upon settlement of the hedges. The swaps effectively fix the floating price on a specified quantity of silver through a specified date. At March 29, 2015, the Company had a series of such swap contracts outstanding through September 2015 for 15.0 thousand troy ounces with a contract value of \$0.3. At September 30, 2014, the Company had a series of such swap contracts outstanding through September 30, 2015 for 25.0 thousand troy ounces with a contract value of \$0.4.

Changes in AOCI from Derivative Instruments

For derivative instruments that are designated and qualify as cash flow hedges, the effective portion of the gain or loss on the derivative is reported as a component of AOCI and reclassified into earnings in the same period or periods during which the hedged transaction affects earnings. Gains and losses on derivatives representing either hedge ineffectiveness or hedge components excluded from the assessment of effectiveness are recognized in current earnings. See Note 3, "Comprehensive Income (Loss)" for further information.

For derivative instruments that are used to economically hedge the fair value of the Company's third party and intercompany foreign currency payments, commodity purchases and interest rate payments, but are not designated as hedging instruments under ASC 815, the gain (loss) associated with the derivative contract is recognized in earnings in the period of change. During the three month periods ended March 29, 2015 and March 30, 2014, the Company recognized the following gains (losses) on these derivative contracts:

Derivatives Not Designated as Hedging Instruments Under ASC 815	Amount of Gain (Loss) Recognized in		Location of Gain (Loss) Recognized in
	Income on Derivatives 2015	Income on Derivatives 2014	
Foreign exchange contracts	\$ (5.7)	\$ (0.1)	Other expense, net

During the six month periods ended March 29, 2015 and March 30, 2014, the Company recognized the following gains (losses) on these derivative contracts:

Derivatives Not Designated as Hedging Instruments Under ASC 815	Amount of Gain (Loss) Recognized in		Location of Gain (Loss) Recognized in
	Income on Derivatives 2015	Income on Derivatives 2014	
Commodity contracts	\$ —	\$ (0.1)	Cost of goods sold

The carrying values of cash and cash equivalents, accounts and notes receivable, accounts payable and non-publicly traded debt approximate fair value. The fair values of long-term publicly traded debt are based on unadjusted quoted market prices (Level 1) and derivative financial instruments are generally based on quoted or observed market prices (Level 2).

The carrying values of goodwill, intangible assets and other long-lived assets are tested annually, or more frequently if an event occurs that indicates an impairment loss may have been incurred, using fair value measurements with unobservable inputs (Level 3).

The carrying amounts and fair values of the Company's financial instruments are summarized as follows ((liability)/asset):

10 EMPLOYEE BENEFIT PLANS

Pension Benefits

The Company has various defined benefit pension plans covering some of its employees in the U.S. and certain employees in other countries, including the United Kingdom, the Netherlands, Germany, Guatemala, Brazil, Mexico and Taiwan. These pension plans generally provide benefits of stated amounts for each year of service.

The Company's results of operations for the three and six month periods ended March 29, 2015 and March 30, 2014 reflect the following pension and deferred compensation benefit costs:

The Company funds its U.S. pension plans in accordance with the Internal Revenue Service defined guidelines and, where applicable, in amounts sufficient to satisfy the minimum funding requirements of applicable laws. Additionally, in compliance with the Company's funding policy, annual contributions to non-U.S. defined benefit plans are equal to the actuarial recommendations or statutory requirements in the respective countries. The Company's contributions to its pension and deferred compensation plans for the three and six month periods ended March 29, 2015 and March 30, 2014 were as follows:

	Three		Six Months	
	Months		Ended	
	2015	2014	2015	2014
Pension and deferred compensation contributions				
Contributions made during period	\$ 3.3	\$ 2.1	\$ 5.5	\$ 5.4

The Company sponsors a defined contribution pension plan for its domestic salaried employees, which allows participants to make contributions by salary reduction pursuant to Section 401(k) of the Internal Revenue Code. The Company also sponsors defined contribution pension plans for employees of certain foreign subsidiaries. Company contributions charged to operations, including discretionary amounts, for the three and six month periods ended March 29, 2015 were \$2.5 and \$6.0, respectively. Company contributions charged to operations, including discretionary amounts, for the three and six month periods ended March 30, 2014 were \$3.1 and \$7.3, respectively.

The Company's effective tax rates for the three and six month periods ended March 29, 2015 were 22% and 27%, respectively. The Company's effective tax rates for the three and six month periods ended March 30, 2014 were 24% and 21%, respectively. The Company's effective tax rates differ from the U.S. federal statutory rate of 35% principally due to (i) income earned outside the U.S. that is subject to statutory rates lower than 35%, (ii) the release of valuation allowance on U.S. net operating loss deferred tax assets offsetting tax expense on both U.S. pretax income and foreign income not permanently reinvested, and (iii) deferred income tax expense related to the change in book versus tax basis of indefinite-lived intangibles, which are amortized for tax purposes but not for book purposes.

The Company records the impact of a tax position if it concludes that the position is more likely than not sustainable upon audit, based on the technical merits of the position. At March 29, 2015 and September 30, 2014, the Company had \$10.9 and \$11.3, respectively, of unrecognized tax benefits related to uncertain tax positions. At March 29, 2015 and September 30, 2014, the Company had approximately \$3.4 and \$3.5, respectively, of accrued interest and penalties related to the uncertain tax positions. Interest and penalties related to uncertain tax positions are reported as Income tax expense.

As of March 29, 2015, certain of the Company's legal entities in various jurisdictions are undergoing income tax audits. The Company cannot predict the ultimate outcome of the examinations; however, it is reasonably possible that during the next 12 months some portion of previously unrecognized tax benefits could be recognized.

12 SEGMENT RESULTS

The Company manages its business in four vertically integrated, product-focused reporting segments: (i) Global Batteries & Appliances; (ii) Hardware & Home Improvement; (iii) Global Pet Supplies; and (iv) Home and Garden.

Global strategic initiatives and financial objectives for each reportable segment are determined at the corporate level. Each reportable segment is responsible for implementing defined strategic initiatives and achieving certain financial objectives and has a general manager responsible for the sales and marketing initiatives and financial results for product lines within that segment.

Net sales and Cost of goods sold from transactions with other business segments have been eliminated. The gross contribution of intersegment sales is included in the segment selling the product to the external customer. Segment net sales are based upon the segment from which the product is shipped.

The operating segment profits do not include restructuring and related charges, acquisition and integration related charges, interest expense, interest income and income tax expense. Corporate expenses primarily include general and administrative expenses and global long-term incentive compensation plan costs which are evaluated on a consolidated basis and not allocated to the Company's operating segments. All depreciation and amortization included in income from operations is related to operating segments or corporate expense. Costs are identified to operating segments or corporate expense according to the function of each cost center.

All capital expenditures are related to operating segments. Variable allocations of assets are not made for segment reporting.

Segment information for the three and six month periods ended March 29, 2015 and March 30, 2014 is as follows:

13 RESTRUCTURING AND RELATED CHARGES

The Company reports restructuring and related charges associated with manufacturing and related initiatives in Cost of goods sold. Restructuring and related charges reflected in Cost of goods sold include, but are not limited to, termination, compensation and related costs associated with manufacturing employees, asset impairments relating to manufacturing initiatives, and other costs directly related to the restructuring or integration initiatives implemented.

The Company reports restructuring and related charges relating to administrative functions in Operating expenses, such as initiatives impacting sales, marketing, distribution or other non-manufacturing functions. Restructuring and

related charges reflected in Operating expenses include, but are not limited to, termination and related costs, any asset impairments relating to the functional areas described above and other costs directly related to the initiatives.

The following table summarizes restructuring and related charges incurred by segment for the three and six month periods ended March 29, 2015 and March 30, 2014:

certain facilities and the sale of a portion of the Hardware & Home Improvement operations in Canada. Costs associated with these initiatives, which are expected to be incurred through September 30, 2016, are projected to total approximately \$11.0.

The Company recorded \$1.3 and \$1.4 of pretax restructuring and related charges during the three and six month periods ended March 29, 2015, and no pretax restructuring and related charges during the three and six month periods ended March 30, 2014, related to the HHI Business Rationalization Initiatives.

Global Expense Rationalization Initiatives Summary

During the third quarter of the fiscal year ended September 30, 2013, the Company implemented a series of initiatives throughout the Company to reduce operating costs (the “Global Expense Rationalization Initiatives”). These initiatives consist of headcount reductions primarily in the Global Batteries & Appliances segment, the Global Pet Supplies segment, the Home and Garden segment and within Corporate. Costs associated with these initiatives, which are expected to be incurred through September 30, 2015, are currently projected to approximately \$36.0.

The Company recorded \$2.8 and \$10.0 of pretax restructuring and related charges during the three and six month periods ended March 29, 2015, respectively, and \$5.8 and \$8.7 of pretax restructuring and related charges during the three and six month periods ended March 30, 2014, respectively, related to the Global Expense Rationalization Initiatives.

The following table summarizes the remaining accrual balance associated with the Global Expense Rationalization Initiatives and the activity during the six month period ended March 29, 2015:

14 ACQUISITIONS

In accordance with ASC Topic 805, “Business Combinations” (“ASC 805”), the Company accounts for acquisitions by applying the acquisition method of accounting. The acquisition method of accounting requires, among other things, that the assets acquired and liabilities assumed in a business combination be measured at their fair values as of the closing date of the acquisition.

Tell Manufacturing

On October 1, 2014, the Company completed the acquisition of Tell, a leading manufacturer and distributor of commercial doors, locks and hardware. The preliminary value of the consideration given in this acquisition, net of working capital adjustments, was \$30.3 and is not significant individually.

The results of Tell's operations since October 1, 2014 are included in the Company's Condensed Consolidated Statements of Operations (Unaudited) and are reported as part of the Hardware & Home Improvement segment.

Preliminary Valuation of Assets and Liabilities

The assets acquired and liabilities assumed in the Tell acquisition have been measured at their fair values at October 1, 2014 as set forth below. The excess of the purchase price over the fair values of the net tangible assets and identifiable intangible assets was recorded as goodwill, which includes value associated with the assembled workforce including an experienced research team, and is expected to be deductible for income tax purposes. The preliminary fair values recorded were determined based upon a valuation and the estimates and assumptions used in such valuation are subject to change, which could be significant, within the measurement period (up to one year from the acquisition date). The primary areas of acquisition accounting that are not yet finalized relate to amounts for intangible assets, contingent liabilities, residual goodwill and income taxes.

The preliminary fair values recorded for the assets acquired and liabilities assumed for Tell are as follows:

Cash	\$ 1.1
------	--------

Accounts receivable	5.4
Inventories	7.2
Prepaid expense	0.6
Property, plant and equipment, net	1.5
Intangible assets	12.5
Total assets acquired	\$ 28.3
Total liabilities assumed	5.1
Total identifiable net assets less goodwill	23.2
Goodwill	7.1
Total identifiable net assets	\$ 30.3
Preliminary Valuation Adjustments	

The Company performed a preliminary valuation of the acquired inventories, property, plant and equipment, trade name and customer relationships at October 1, 2014. A summary of the significant inputs to the valuation is as follows:

- Inventories – The replacement cost approach was applied to estimate the fair value of the raw materials inventory. Finished goods were valued at estimated selling price less the sum of costs of disposal and a reasonable profit on the value added in the completion and disposal effort.

Table of Contents

SPECTRUM BRANDS HOLDINGS, INC.

Notes to Condensed Consolidated Financial Statements (Unaudited) – (Continued)

(Amounts in millions of dollars, except per share figures or as otherwise specified)

- Property, plant and equipment – The cost approach was utilized to estimate the fair value of approximately 97.0% of the property, plant and equipment. The sales comparison approach was utilized to estimate the fair value of the remaining 3.0% of the property, plant and equipment.
- The Company valued an indefinite-lived trade name using the income approach, specifically the relief from royalty method. Under this method, the asset value was determined by estimating the hypothetical royalties that would have to be paid if the trade name was not owned. Royalty rates were selected based on consideration of several factors, including prior transactions of Tell, related trademarks and trade names, other similar trademark licensing and transaction agreements and the relative profitability and perceived contribution of the trade name. Trade name was valued at \$4.0 under this approach.
- The Company valued customer relationships using the income approach, specifically the multi-period excess earnings method. In determining the fair value of the customer relationships, the multi-period excess earnings approach values the intangible asset at the present value of the incremental after-tax cash flows attributable only to the customer relationship after deducting contributory asset charges. The incremental after-tax cash flows attributable to the subject intangible asset are then discounted to their present value. Only expected sales from current customers were used, which were estimated using annual expected growth rates of 2.5% to 7.1%. The Company assumed a customer retention rate of approximately 90%, which was supported by historical retention rates. Income taxes were estimated at 38% and amounts were discounted using a rate of 20%. The customer relationships were valued at \$8.5 under this approach and will be amortized over 13 years.

European IAMS and Eukanuba

On December 31, 2014, the Company completed the acquisition of European IAMS and Eukanuba, leading premium brands for dogs and cats. The preliminary value of the consideration given in this acquisition, net of working capital adjustments, was \$116.0 and is not significant individually.

The results of European IAMS and Eukanuba's operations since December 31, 2014 are included in the Company's Condensed Consolidated Statements of Operations (Unaudited) and are reported as part of the Global Pet Supplies segment.

Preliminary Valuation of Assets and Liabilities

The assets acquired and liabilities assumed in the European IAMS and Eukanuba acquisition have been measured at their fair values at December 31, 2014 as set forth below. The excess of the purchase price over the fair values of the net tangible assets and identifiable intangible assets was recorded as goodwill. The preliminary fair values recorded were determined based upon a valuation and the estimates and assumptions used in such valuation are subject to change, which could be significant, within the measurement period (up to one year from the acquisition date). The primary areas of acquisition accounting that are not yet finalized relate to amounts for intangible assets, contingent liabilities, residual goodwill and income taxes.

Edgar Filing: Spectrum Brands Holdings, Inc. - Form 10-Q

The preliminary fair values recorded for the assets acquired and liabilities assumed for European IAMS and Eukanuba are as follows:

Inventories	\$ 17.2
Prepaid expense	1.3
Other current assets	2.6
Property, plant and equipment, net	58.3
Intangible assets	40.5
Total assets acquired	\$ 119.9

Preliminary Valuation Adjustments

The Company performed a preliminary valuation of the acquired inventories, property, plant and equipment, trade name and customer relationships at December 31, 2014. A summary of the significant inputs to the valuation is as follows:

- Inventories – The replacement cost approach was applied to estimate the fair value of the raw materials inventory. Work-in-process and finished goods inventory were valued at estimated selling price less the sum of costs of disposal and a reasonable profit on the value added in the completion and disposal effort.
- Real estate, property, plant and equipment – The market approach was utilized to estimate the fair value of land. The direct cost approach was utilized to estimate the fair value of property, plant and equipment.
- The Company valued technology using the income approach, specifically the relief from royalty method. Under this method, the asset value was determined by estimating the hypothetical royalties that would have to be paid if the technology was not owned. Royalty rates were selected based on consideration of several factors, including prior transactions, related licensing agreements and the importance of the technology and profit levels, among other considerations. The Company anticipates using these technologies through the legal life of the underlying patent; therefore, the expected life of these technologies was equal to the remaining life of the underlying patents which was 8 years. The technology assets were valued at \$3.6 under this approach.
- The Company valued indefinite-lived trade names using the income approach, specifically the relief from royalty method. Under this method, the asset value was determined by estimating the hypothetical royalties that would have to be paid if the trade names were not owned. Royalty rates were selected based on consideration of several factors, including prior transactions of European IAMS and Eukanuba, related trademarks and trade names, other similar trademark licensing and transaction agreements and the relative profitability and perceived contribution of the trade names. Trade names were valued at \$26.7 under this approach.
- The Company valued customer relationships using the income approach, specifically the multi-period excess earnings method. In determining the fair value of the customer relationships, the multi-period excess earnings approach values the intangible asset at the present value of the incremental after-tax cash flows attributable only to the customer relationship after deducting contributory asset charges. The incremental after-tax cash flows attributable to the subject intangible asset are then discounted to their present value. Only expected sales from current customers were used, which were estimated using annual expected growth rates of 0.5% to 13.2%. The Company assumed a customer retention rate of approximately 90% - 100%, which was supported by historical retention rates. Income taxes were estimated at 25% and amounts were discounted using a rate of 15% - 16%. The customer relationships were valued at \$10.2 under this approach and will be amortized over a period of 2 and

15 years.

Salix

On January 16, 2015, the Company completed the acquisition of Salix, the world's leading and largest vertically integrated producer and distributor of premium, natural rawhide dog chews, treats and snacks. The preliminary value of the consideration given in this acquisition, net of working capital adjustments, was \$148.0 and is not significant individually.

The results of Salix's operations since January 16, 2015 are included in the Company's Condensed Consolidated Statements of Operations (Unaudited) and are reported as part of the Global Pet Supplies segment.

Preliminary Valuation of Assets and Liabilities

The assets acquired and liabilities assumed in the Salix acquisition have been measured at their fair values at January 16, 2015 as set forth below. The excess of the purchase price over the fair values of the net tangible assets and identifiable intangible assets was recorded as goodwill, which includes value associated with the assembled workforce including an experienced research team, and is expected to be deductible for income tax purposes. The preliminary fair values recorded were determined based upon a valuation and the estimates and assumptions used in such valuation are subject to change, which could be significant, within the measurement period (up to one year from the acquisition date). The primary areas of acquisition accounting that are not yet finalized relate to amounts for intangible assets, contingent liabilities, residual goodwill and income taxes.

The preliminary fair values recorded for the assets acquired and liabilities assumed for Salix are as follows:

Cash	\$ 0.5
Accounts receivable	9.9
Inventories	17.0
Prepaid expense	2.4
Property, plant and equipment, net	1.2
Intangible assets	58.5
Total assets acquired	\$ 89.5
Total liabilities assumed	10.3
Total identifiable net assets less goodwill	79.2
Goodwill	68.8
Total identifiable net assets	\$ 148.0

Preliminary Valuation Adjustments

The Company performed a preliminary valuation of the acquired inventories, property, plant and equipment, trade name, customer relationships and non-compete agreement at January 16, 2015. A summary of the significant inputs to the valuation is as follows:

- Inventories – The replacement cost approach was applied to estimate the fair value of the raw materials and unbranded finished goods inventory. Branded finished goods were valued based on the comparative sales method, which estimates the expected sales price of the finished goods inventory, reduced for all costs expected to be incurred in its completion/disposition and a profit on those costs.

- Property, plant and equipment – The cost approach was utilized to estimate the fair value of approximately 98.0% of the property, plant and equipment. The sales comparison approach was utilized to estimate the fair value of the remaining 2.0% of the property, plant and equipment.
- The Company valued technology using the income approach, specifically the relief from royalty method. Under this method, the asset value was determined by estimating the hypothetical royalties that would have to be paid if the technology was not owned. Royalty rates were selected based on consideration of several factors, including prior transactions, related licensing agreements and the importance of the technology and profit levels, among other considerations. The Company anticipates using these technologies through the legal life of the underlying patent; therefore, the expected life of these technologies was equal to the remaining life of the underlying patents which was 17 years. The technology assets were valued at \$2.1 under this approach.
- The Company valued indefinite-lived trade names using the income approach, specifically the relief from royalty method. Under this method, the asset value was determined by estimating the hypothetical royalties that would have to be paid if the trade names were not owned. Royalty rates were selected based on consideration of several factors, including prior transactions of Salix, related trademarks and trade names, other similar

trademark licensing and transaction agreements and the relative profitability and perceived contribution of the trade names. Trade names were valued at \$20.0 under this approach.

- The Company valued definite-lived trade names using the income approach, specifically the relief from royalty method. Under this method, the asset value was determined by estimating the hypothetical royalties that would have to be paid if the trade names were not owned. Royalty rates were selected based on consideration of several factors, including prior transactions of Salix, related trademarks and trade names, other similar trademark licensing and transaction agreements and the relative profitability and perceived contribution of the trade names. Trade name was valued at \$1.0 under this approach and will be amortized over 13 years.
- The Company valued customer relationships using the income approach, specifically the multi-period excess earnings method. In determining the fair value of the customer relationships, the multi-period excess earnings approach values the intangible asset at the present value of the incremental after-tax cash flows attributable only to the customer relationship after deducting contributory asset charges. The incremental after-tax cash flows attributable to the subject intangible asset are then discounted to their present value. Only expected sales from current customers were used, which were estimated using annual expected growth rates of 0.0% to 12.1%. The Company assumed a customer retention rate of approximately 92.5%, which was supported by historical retention rates. Income taxes were estimated at 38% and amounts were discounted using a rate of 12% - 13%. The customer relationships were valued at \$34.0 under this approach and will be amortized over 13 years.
- The Company valued a non-compete agreement using the income approach that compares the prospective cash flows with and without the non-compete agreement in place. The value of the non-compete agreement is the difference between the discounted cash flows of the business under each of these two alternative scenarios (with competition and without competition), considering both tax expenditure and tax amortization benefits. The non-compete agreement was valued at \$1.4 under this approach and will be amortized over 3 years.

15 SUBSEQUENT EVENTS

ASC 855, “Subsequent Events” (“ASC 855”), establishes general standards of accounting and disclosure of events that occur after the balance sheet date but before financial statements are issued or available to be issued. ASC 855 requires the Company to evaluate events that occur after the balance date through the date of the Company’s financial statements are issued, and to determine whether adjustments to or additional disclosures in the financial statements are necessary. The Company has evaluated subsequent events through the date these financial statements were issued.

On April 28, 2015, the Company entered into an Agreement and Plan of Merger (the “AAG Merger Agreement”) with Armored AutoGroup Parent Inc. (“AAG”), Ignite Merger Sub, Inc., a direct wholly owned subsidiary of Spectrum Brands, Inc., and Avista Capital Partners II GP, LLC, as representative for the shareholders and optionholders of AAG. Under the AAG Merger Agreement, the Company will acquire AAG for a purchase price of approximately \$1,400.0 (subject to customary adjustments for cash, debt, net working capital and transaction-related expenses described in the AAG Merger Agreement), which will be paid entirely in cash (the “AAG Acquisition”). The obligations of the parties to complete the AAG Acquisition are subject to various customary closing conditions, including the expiration or termination of the applicable waiting period under the Hart-Scott-Rodino Antitrust Improvements Act of 1976, as amended and, in the case of the Company’s obligation to complete the acquisition, the accuracy of AAG’s representations and warranties (subject to certain qualifications), material compliance by AAG with certain pre-closing covenants and no material adverse change in AAG since the date of the AAG Merger Agreement. The AAG Merger Agreement may be terminated by mutual consent of AAG and the Company and under certain other circumstances, including by AAG or the Company if the closing of the acquisition has not occurred by June 30, 2015. The acquisition is expected to close in the third quarter of our Fiscal 2015. The Company will account for this acquisition in accordance with ASC 805.

Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations

Introduction

Spectrum Brands Holdings, Inc., a Delaware corporation (“SB Holdings”), is a diversified global branded consumer products company. SB Holdings' common stock trades on the New York Stock Exchange (the “NYSE”) under the symbol “SPB.”

Unless the context indicates otherwise, the terms the “Company,” “Spectrum,” “we,” “our” or “us” are used to refer to SB Holdings and its subsidiaries.

Business Overview

We manufacture and market alkaline, zinc carbon and hearing aid batteries, herbicides, insecticides and repellants and specialty pet supplies. We design and market rechargeable batteries, battery-powered lighting products, electric shavers and accessories, grooming products and hair care appliances. We also design, market and distribute a broad range of branded small household appliances and personal care products. We also design, manufacture, market, distribute and sell certain hardware, home improvement and plumbing products, and are a leading United States (“U.S.”) provider of residential locksets and builders' hardware and a leading provider of faucets. Our manufacturing and product development facilities are located in the U.S., Europe, Latin America and Asia. Substantially all of our rechargeable batteries, chargers and portable lighting products, shaving and grooming products, small household appliances and personal care products are manufactured by third-party suppliers, primarily located in Asia.

We sell our products in approximately 160 countries through a variety of trade channels, including retailers, wholesalers and distributors, hearing aid professionals, industrial distributors and original equipment manufacturers and enjoy strong name recognition in our markets under the Rayovac, VARTA and Remington brands, each of which has been in existence for more than 80 years, and under the Tetra, 8-in-1, Dingo, Nature's Miracle, IAMS, Eukanuba, Healthy-Hide, Digest-eeze, Spectracide, Cutter, Hot Shot, Black & Decker, George Foreman, Russell Hobbs, Farberware, Black Flag, FURminator, Kwikset, Weiser, Baldwin, National Hardware, Stanley and Pfister brands. We also have patented technologies such as Smartkey, a rekeyable lockset technology, and Smart Code Home Connect.

Our diversified global branded consumer products have positions in six major product categories: consumer batteries, small appliances, personal care, hardware and home improvement, pet supplies and home and garden controls.

Our chief operating decision-maker manages the businesses in four vertically integrated, product-focused reporting segments: (i) Global Batteries & Appliances, which consists of the Company’s worldwide battery, personal care and small appliances primarily in the kitchen and home product categories (“Global Batteries & Appliances”); (ii) Hardware & Home Improvement, which consists of the Company’s worldwide hardware, home improvement and plumbing business (“Hardware & Home Improvement”); (iii) Global Pet Supplies, which consists of the Company’s worldwide pet supplies business (“Global Pet Supplies”); and (iv) Home and Garden, which consists of the Company’s home and garden and insect control business (“Home and Garden”). Management reviews our performance based on these segments. For information pertaining to our business segments, see Note 12, “Segment Results” of Notes to Condensed Consolidated Financial Statements (Unaudited), included in this Quarterly Report on Form 10-Q.

Global and geographic strategic initiatives and financial objectives are determined at the corporate level. Each business segment is responsible for implementing defined strategic initiatives and achieving certain financial objectives and has a general manager responsible for sales and marketing initiatives and the financial results for all

product lines within that business segment.

Our operating performance is influenced by a number of factors including: general economic conditions; foreign exchange fluctuations; trends in consumer markets; consumer confidence and preferences; our overall product line mix, including pricing and gross margin, which vary by product line and geographic market; pricing of certain raw materials and commodities; energy and fuel prices; and our general competitive position, especially as impacted by our competitors' advertising and promotional activities and pricing strategies.

On April 28, 2015, we entered into an agreement to acquire Armored AutoGroup Parent, Inc. ("AAG"). AAG is a consumer products company consisting primarily of Armor All® and STP® products, two of the most recognizable brands in the

automotive aftermarket appearance products and performance chemicals categories, respectively, and the AC/PRO® brand of do-it-yourself automotive air conditioner recharge products.

Results of Operations

Fiscal Quarter and Fiscal Six Months Ended March 29, 2015 Compared to Fiscal Quarter and Fiscal Six Months Ended March 30, 2014

In this Quarterly Report on Form 10-Q we refer to the three month period ended March 29, 2015 as the “Fiscal 2015 Quarter,” the six month period ended March 29, 2015 as the “Fiscal 2015 Six Months,” the three month period ended March 30, 2014 as the “Fiscal 2014 Quarter,” and the six month period ended March 30, 2014 as the “Fiscal 2014 Six Months.”

Net Sales. Net sales for the Fiscal 2015 Quarter increased \$45.3 million to \$1,067.0 million from \$1,021.7 million in the Fiscal 2014 Quarter, a 4% increase. The following table details the principal components of the change in net sales from the Fiscal 2014 Quarter to the Fiscal 2015 Quarter (in millions):

	Net Sales
Fiscal 2014 Quarter Net Sales	\$ 1,021.7

Global consumer battery sales decreased \$29.6 million, or 14%, during the Fiscal 2015 Quarter versus the Fiscal 2014 Quarter. Excluding the impact of negative foreign exchange of \$20.3 million, global consumer battery sales decreased \$9.3 million. The constant currency decrease in global consumer battery sales was attributable to a decrease in North American sales of \$15.0 million, which was partially offset by increases in European and Latin American consumer battery sales of \$4.2 million and \$1.4 million, respectively. The North American battery decrease was due to the following: (i) \$10.0 million in alkaline batteries; (ii) \$2.8 million in specialty batteries; and (iii) \$2.2 million in lights. The decrease in North American alkaline battery sales was primarily attributable to continued competitor discounting coupled with a retail customer bankruptcy. The decrease in North American specialty batteries and lights was primarily attributable to distribution loss to a competitor at a major retailer. On a constant currency basis, the European sales increase was primarily due to \$7.3 million in alkaline batteries tempered with a \$2.7 million decrease in specialty batteries. The increase in European alkaline battery sales was driven by customer gains and increased volume at existing retailers. The decrease in European specialty batteries was driven by non-recurrence of promotions. The Latin American sales increase was primarily attributable to \$2.2 million in our lighting category as a result of continuing geographic expansion coupled with an effective product launch of our compact fluorescent light bulbs. Global consumer battery sales decreased \$53.8 million, or 11%, during the Fiscal 2015 Six Months compared to the Fiscal 2014 Six Months. Excluding the impact of negative foreign exchange of \$33.5 million, global consumer battery sales decreased \$20.4 million. The constant currency decrease in global consumer battery sales was primarily attributable to the factors discussed above for the Fiscal 2015 Quarter across all geographic regions.

Small appliance sales decreased \$0.9 million, or 1%, during the Fiscal 2015 Quarter compared to the Fiscal 2014 Quarter, which included \$11.1 million of negative foreign exchange impact. Excluding foreign exchange, European, Latin American and North American sales increased \$6.6 million, \$3.3 million and \$0.3 million, respectively. The European sales increase was attributable to new products and promotions at current customers coupled with customer gains. The Latin American sales increase was attributable to volume gains, new products and sales promotions, specifically in Central America, Brazil, Argentina and Chile. Small appliance sales increased \$6.1 million, or 2%, during the Fiscal 2015 Six Months versus the Fiscal 2014 Six Months, which included a negative foreign currency exchange impact of \$18.6 million. Excluding foreign exchange, European and Latin American sales increased \$15.2 million and \$1.9 million, respectively, based on factors discussed above for the Fiscal 2015 Quarter. The North American sales increase of \$7.6 million during the Fiscal 2015 Six Months was due to promotions coupled with new products and existing retailer shelf space gains.

Personal care sales decreased \$6.5 million, or 6%, during the Fiscal 2015 Quarter compared to the Fiscal 2014 Quarter, which included \$11.1 million of negative foreign exchange impact. Excluding foreign exchange, North American and Latin American sales increased \$3.2 million and \$2.5 million, respectively, which was offset by a European sales decrease of \$1.1 million. The North American sales increase was primarily a result of product display location changes at a major customer. The Latin American sales increase was primarily attributable to the growth of our hair care product category and shaving products coupled with customer gains. The European sales decrease was due to non-recurrence of promotions that occurred in the Fiscal 2014 Quarter. Personal care sales decreased \$12.1 million, or 4%, during the Fiscal 2015 Six Months compared to the Fiscal 2014 Six Months. Excluding the negative foreign currency exchange impact of \$22.0 million, personal care sales increased \$9.9 million in the Fiscal 2015 Six Months. Excluding foreign exchange, European and Latin American sales increased \$7.0 million and \$3.3 million, respectively. These gains were tempered by a \$0.4 million sales decline in North America. The European sales increase during the Fiscal 2015 Six Months was due to strong sales in the first quarter of our fiscal year ending September 30, 2015 ("Fiscal 2015"), primarily due to new product releases related to male grooming coupled

Table of Contents

with geographic expansion into Eastern Europe. The Latin American sales increase was due to factors discussed above for the Fiscal 2015 Quarter.

Hardware and home improvement sales increased \$22.5 million, or 8%, during the Fiscal 2015 Quarter compared to the Fiscal 2014 Quarter, which included negative foreign exchange impact of \$4.6 million. On a constant currency basis, security sales, plumbing sales and hardware sales increased \$19.1 million, \$7.3 million and \$0.7 million, respectively. The port delays had a \$7.8 million negative impact on sales during the Fiscal 2015 Quarter. The sales gain in security was primarily from non-retail channels coupled with the acquisition of Tell Manufacturing, Inc. (“Tell”) during our first quarter of Fiscal 2015, which resulted in a \$9.3 million increase in sales during the Fiscal 2015 Quarter. The sales gain in plumbing was primarily was a result of promotions and retail growth due to new product launches. Hardware and home improvement sales increased \$15.3 million, or 3%, during the Fiscal 2015 Six Months compared to the Fiscal 2014 Six Months, which included negative foreign exchange impacts of \$6.9 million. On a constant currency basis, the sales increase was attributable to gains in security sales and plumbing sales of \$25.8 million and \$10.3 million, respectively. These gains were partially offset by a sales decline in hardware of \$13.9 million. The sales gains in security and plumbing were attributable to the strong Fiscal 2015 Quarter sales discussed above. The sales decline in hardware was mainly due to a distributor transition for our Asian supplier during our first quarter of Fiscal 2015.

Global pet supplies sales increased \$50.4 million, or 32%, during the Fiscal 2015 Quarter compared to the Fiscal 2014 Quarter, which included negative foreign exchange impact of \$7.7 million. On a constant currency basis and including acquisitions, companion animal sales increased \$61.7 million while aquatic sales decreased \$3.6 million. The constant currency sales increase in companion animal was primarily driven by the acquisitions of Proctor & Gamble’s European pet food business (“European IAMS and Eukanuba”) and Salix Animal Health LLC (“Salix”), which accounted for \$62.6 million of sales during the Fiscal 2015 Quarter. The aquatics sales decline was driven by weakness in the aquatic product category in North America coupled with lower international sales. Global pet supplies sales increased \$41.9 million, or 15%, during the Fiscal 2015 Six Months versus the Fiscal 2014 Six Months, which included a negative foreign exchange impact of \$10.7 million. On a constant currency basis and including acquisitions, companion animal sales increased \$61.2 million while aquatic sales decreased \$8.5 million, primarily due to the factors discussed above for both product categories during the Fiscal 2015 Quarter.

Home and garden control sales increased \$9.4 million, or 8%, during the Fiscal 2015 Quarter compared to the Fiscal 2014 Quarter. The sales gain was attributable to increases in repellent product sales, lawn and garden control product sales and household insect control sales of \$4.2 million, \$3.4 million and \$1.8 million, respectively. The sales increase in all three product categories was a result of distribution gains and strong sales at existing customers, which drove replenishment orders during the Fiscal 2015 Quarter. Home and garden control sales increased \$15.1 million, or 10%, during the Fiscal 2015 Six Months compared to the Fiscal 2014 Six Months, primarily attributable to the factors discussed above for the Fiscal 2015 Quarter coupled with the full period impact of the acquisition of The Liquid Fence Company, Inc. (“Liquid Fence”), which occurred during the second quarter of our fiscal year ended September 30, 2014 (“Fiscal 2014”).

Gross Profit. Gross profit and gross profit margin for the Fiscal 2015 Quarter was \$374.7 million and 35.1%, respectively, versus \$359.6 million and 35.2%, respectively, for the Fiscal 2014 Quarter. Gross profit was up primarily due to the previously discussed acquisitions during Fiscal 2015, which contributed \$24.9 million in gross profit in the Fiscal 2015 Quarter. Gross profit margin percentage was down slightly in the Fiscal 2015 Quarter compared to the Fiscal 2014 Quarter, primarily driven by impact of negative foreign currency exchange.

Gross profit for the Fiscal 2015 Six Months was \$744.9 million versus \$740.8 million for the Fiscal 2014 Six Months. Our gross profit margin for the Fiscal 2015 Six Months compared to the Fiscal 2014 Six Months was the same at 34.9% for both periods. Excluding the impact of negative foreign currency exchange, gross profit margin increased by 10 basis points to 35.0% for the Fiscal 2015 Six Months.

Operating Expenses. Operating expenses for the Fiscal 2015 Quarter totaled \$286.3 million compared to \$267.0 million for the Fiscal 2014 Quarter. The \$19.3 million increase in operating expenses during the Fiscal 2015 Quarter is primarily attributable to the increases in General and administrative expenses, Selling expenses and Acquisition and integration related charges, of \$8.4 million, \$7.4 million and \$5.6 million, respectively. These increases were partially offset by a decrease in Restructuring and related charges of \$2.6 million. The increase in General and administrative expenses and Selling expenses was mainly due to an increase in Net sales coupled with an increase in stock compensation expense of \$2.5 million. Selling expenses as a percentage of net sales remained constant at 16.2% for the Fiscal 2015 Quarter compared to the Fiscal 2014 Quarter. The \$5.6 million increase in Acquisition and integration related charges was primarily attributable to costs related to the acquisition of European IAMS and Eukanuba and Salix during the Fiscal 2015 Quarter.

Table of Contents

Operating expenses for the Fiscal 2015 Six Months totaled \$540.9 million compared to \$523.2 million for the Fiscal 2014 Six Months. The \$17.7 million increase in operating expenses during the Fiscal 2014 Six Months was primarily due to increases in Acquisition and integration related charges, General and administrative expenses, Selling expenses, Restructuring and related charges of \$8.2 million, \$3.7 million, \$3.0 million and \$1.9 million, respectively. The operating expense increase during the Fiscal 2015 Six Months was primarily attributable to the factors discussed above for the Fiscal 2015 Quarter.

See Note 2, "Significant Accounting Policies—Acquisition and Integration Related Charges," to our Condensed Consolidated Financial Statements (Unaudited) included in this Quarterly Report on Form 10-Q for additional information regarding our Acquisition and integration related charges.

See Note 13, "Restructuring and Related Charges," to our Condensed Consolidated Financial Statements (Unaudited) included in this Quarterly Report on Form 10-Q for additional information regarding our Restructuring and related charges.

Segment Results. As discussed above, we manage our business in four reportable segments: (i) Global Batteries & Appliances; (ii) Hardware & Home Improvement; (iii) Global Pet Supplies; and (vi) Home and Garden.

The operating segment profits do not include restructuring and related charges, acquisition and integration related charges, interest expense, interest income and income tax expense. Corporate expenses primarily include general and administrative expenses and global long-term incentive compensation plans which are evaluated on a consolidated basis and not allocated to our operating segments. All depreciation and amortization included in income from operations is related to operating segments or corporate expense. Costs are allocated to operating segments or corporate expense according to the function of each cost center.

All capital expenditures are related to operating segments. Variable allocations of assets are not made for segment reporting.

Financial information pertaining to our reportable segments is contained in Note 12, "Segment Results," to our Condensed Consolidated Financial Statements (Unaudited) included in this Quarterly Report on Form 10-Q.

Adjusted Earnings Before Interest, Taxes, Depreciation and Amortization ("Adjusted EBITDA") is a metric used by management and frequently used by the financial community which provides insight into an organization's operating trends and facilitates comparisons between peer companies, since interest, taxes, depreciation and amortization can differ greatly between organizations as a result of differing capital structures and tax strategies. Adjusted EBITDA can also be a useful measure of a company's ability to service debt and is one of the measures used for determining our debt covenant compliance. Adjusted EBITDA excludes certain items that are unusual in nature or not comparable from period to period. While we believe that Adjusted EBITDA is useful supplemental information, such adjusted results are not intended to replace our Generally Accepted Accounting Principles' ("GAAP") financial results and should be read in conjunction with those GAAP results.

Below are reconciliations of GAAP Net income (loss), as adjusted, to Adjusted Earnings Before Interest and Taxes ("EBIT") and to Adjusted EBITDA for each segment and for Consolidated SB Holdings for the Fiscal 2015 Quarter, the Fiscal 2015 Six Months, the Fiscal 2014 Quarter and the Fiscal 2014 Six Months:

Global Batteries & Appliances net sales to external customers are discussed within the “Product line net sales by segment” discussion above.

Segment profit in the Fiscal 2015 Quarter decreased to \$41.8 million from \$44.2 million in the Fiscal 2014 Quarter, driven by the previously discussed sales decrease which was partially tempered by operating cost savings from the Global Expense Rationalization Initiatives that were originally implemented in the fiscal year ended September 30, 2013 (“Fiscal 2013”) and expanded in Fiscal 2014. Segment profitability as a percentage of net sales increased to 9.4% in the Fiscal 2015 Quarter compared to 9.2% in the Fiscal 2014 Quarter as a result of the cost savings discussed above.

Segment profit in the Fiscal 2015 Six Months decreased to \$138.4 million from \$141.4 million in the Fiscal 2014 Six Months, driven by decreased sales and operating cost improvements as discussed for the Fiscal 2015 Quarter. Segment profitability as a percentage of net sales increased to 12.8% in the Fiscal 2015 Six Months versus 12.4% in the Fiscal 2014 Six Months, due to the cost improvements discussed above.

Segment Adjusted EBITDA in the Fiscal 2015 Quarter decreased to \$57.1 million from \$61.2 million in the Fiscal 2014 Quarter. Segment Adjusted EBITDA in the Fiscal 2015 Six Months decreased to \$169.2 million from \$175.4 million in the

Fiscal 2014 Six Months. The decrease in segment Adjusted EBITDA for both periods was driven by the factors that drove the decrease in segment profit discussed above for each respective period.

Segment assets at March 29, 2015 decreased to \$2,094.0 million from \$2,152.0 million at September 30, 2014. The decrease was primarily due to the decrease of \$44.7 million in intangible assets as a result of amortization of definite lived intangible assets and foreign currency impact.

Hardware and home improvement net sales to external customers are discussed within the “Product line net sales by segment” discussion above.

Segment profit in the Fiscal 2015 Quarter increased to \$37.3 million from \$34.8 million in the Fiscal 2014 Quarter. Segment profitability as a percentage of sales declined slightly to 12.9% in the Fiscal 2015 Quarter, versus 13.0% in the Fiscal 2014 Quarter. The increase in segment profit was driven by the previously discussed sales increase, whereas the slight decline in segment profitability as a percentage of sales was driven by an increase in manufacturing costs.

Segment profit in the Fiscal 2015 Six Months increased to \$76.1 million from \$74.8 million in the Fiscal 2014 Six Months. Segment profitability as a percentage of sales was 13.6% in the Fiscal 2015 Six Months and 13.7% in the Fiscal 2014 Six Months. The increase in segment profit and decrease in segment profitability as a percentage of sales was driven by factors discussed above for the Fiscal 2015 Quarter.

Segment Adjusted EBITDA was \$45.7 million in the Fiscal 2015 Quarter versus \$45.3 million in the Fiscal 2014 Quarter. The slight increase in Segment Adjusted EBITDA of \$0.4 million was due to the previously discussed increase in sales. Segment Adjusted EBITDA was \$97.7 million in the Fiscal 2015 Six Months versus \$95.0 million in the Fiscal 2014 Six Months. The increase in Segment Adjusted EBITDA for this period was driven by the increased

sales and cost savings discussed above.

Segment assets at March 29, 2015 and September 30, 2014 were \$1,700.6 million and \$1,629.0 million, respectively. The increase in segment assets was primarily driven by a seasonal increase in account receivable and inventory of \$70.5 million and the Tell acquisition, offset by depreciation and amortization.

Global pet supply net sales to external customers are discussed within the “Product line net sales by segment” discussion above.

Segment profit decreased to \$18.7 million in the Fiscal 2015 Quarter compared to \$20.6 million in the Fiscal 2014 Quarter and segment profitability as a percentage of sales in the Fiscal 2015 Quarter decreased to 8.9% from 12.9% in the Fiscal 2014 Quarter. The decreased in segment profit and segment profitability as a percent of sales were driven by an increase in product costs coupled with unfavorable product mix and a one-time increase to cost of goods sold in the Fiscal 2015 Quarter due to the sale of inventory revalued in connection with the Salix and European IAMS and Eukanuba acquisitions of \$1.7 million and \$0.5, respectively. These unfavorable items were partially offset by cost improvements from the Global Expense Rationalization Initiatives that were originally implemented in Fiscal 2013 and expanded upon in Fiscal 2014.

Segment profit decreased to \$24.4 million in the Fiscal 2015 Six Months compared to \$33.6 million in the Fiscal 2014 Six Months. Segment profitability as a percentage of sales in the Fiscal 2015 Six Months decreased to 7.4% from 11.6% in the Fiscal 2014 Six Months. The decreases in segment profit and segment profitability as a percent of sales were driven by the factors discussed above for the Fiscal 2015 Quarter.

Segment Adjusted EBITDA in the Fiscal 2015 Quarter increased to \$30.9 million from \$28.5 million in the Fiscal 2014 Quarter. The increase in Segment Adjusted EBITDA was primarily due a combined increase of \$7.7 million from the Salix and European IAMS and Eukanuba acquisitions tempered by the factors discussed above for the decrease in segment profit for the Fiscal 2015 Quarter. Segment Adjusted EBITDA in the Fiscal 2015 Six Months decreased to \$43.9 million from \$48.9 million in the Fiscal 2014 Six Months. The decrease in segment Adjusted EBITDA was driven by the factors that drove the decrease in segment profit discussed above, partially offset by the combined increase in Adjusted EBITDA of \$7.7 million from the Salix and European IAMS and Eukanuba acquisitions.

Segment assets at March 29, 2015 increased to \$1,151.7 million from \$890.4 million at September 30, 2014. The increase in segment assets was primarily attributable to the acquisitions of Salix and European IAMS and Eukanuba during the Fiscal 2015 Quarter. Goodwill and intangible assets increased to \$795.6 million at March 29, 2015 from \$668.7 million at September 30, 2014.

Home and Garden net sales to external customers are discussed within the “Product line net sales by segment” discussion above.

Segment profitability in the Fiscal 2015 Quarter increased to \$28.3 million from \$23.1 million in the Fiscal 2014 Quarter. Segment profitability as a percentage of sales in the Fiscal 2015 Quarter increased to 22.8% from 20.2% last year. The increase in segment profit and segment profitability as a percentage of sales is attributable to the increase in net sales to external customers as discussed within the “Product line net sales by segment” above coupled with cost improvements from the Global Expense Rationalization Initiatives that were originally implemented in Fiscal 2013 and expanded upon in Fiscal 2014.

Segment profitability in the Fiscal 2015 Six Months increased to \$31.1 million from \$21.9 million in the Fiscal 2014 Six Months, driven by increased sales in the Fiscal 2015 Six Months and cost improvements coupled with the Liquid Fence

acquisition that closed in the second quarter of Fiscal 2014. Segment profitability as a percentage of sales in the Fiscal 2015 Six Months increased to 19.0%, from 14.8% in the Fiscal 2014 Six Months due to factors discussed for the increase in segment profit.

Segment Adjusted EBITDA in the Fiscal 2015 Quarter increased to \$31.5 million from \$26.4 million in the Fiscal 2014 Quarter. Segment Adjusted EBITDA in the Fiscal 2015 Six Months increased to \$37.5 million from \$27.9 million in the Fiscal 2014 Six Months. The increase in segment adjusted EBITDA for both periods are driven by the factors discussed above for the increase in segment profit and segment profitability.

Segment assets at March 29, 2015 increased to \$617.3 million from \$526.6 million at September 30, 2014. The increase in segment assets was driven by normal seasonal increases in inventory in preparation of our major selling season. Goodwill and intangible assets decreased to \$443.8 million at March 29, 2015 from \$449.2 million at September 30, 2014, due to amortization of definite lived intangible assets.

Corporate Expense. Our corporate expense was \$21.4 million in the Fiscal 2015 Quarter compared to \$15.9 million in the Fiscal 2014 Quarter. The \$5.5 million increase in corporate expense is primarily attributable to an increase of \$2.5 million in stock compensation expense coupled with a \$1.7 million expense related to a transition and retention agreement entered into with a key executive. Corporate expense a percentage of consolidated net sales increased to 2.0% in the Fiscal 2015 Quarter compared to 1.6% in the Fiscal 2014 Quarter based on the factors discussed above.

Our corporate expense was \$34.2 million in the Fiscal 2015 Six Months compared to \$30.0 million in the Fiscal 2014 Six Months and corporate expense as a percentage of consolidated net sales increased to 1.6% in the Fiscal 2015 Six Months compared to 1.4% in the Fiscal 2014 Six Months. The increase in corporate expense and corporate expense as a percentage of net sales is primarily attributable to the factors discussed above for the Fiscal 2015 Quarter.

Acquisition and Integration Related Charges. Acquisition and integration related charges include, but are not limited to, transaction costs such as banking, legal and accounting professional fees directly related to acquisitions, termination and related costs for transitional and certain other employees, integration related professional fees and other post business combination related expenses associated with our acquisitions. See Note 2, "Significant Accounting Policies - Acquisition and Integration Related Charges" to our Condensed Consolidated Financial Statements (Unaudited) included in this Quarterly Report on Form 10-Q for further detail regarding our Acquisition and integration related charges.

Restructuring and Related Charges. See Note 13, "Restructuring and Related Charges" to our Condensed Consolidated Financial Statements (Unaudited) included in this Quarterly Report on Form 10-Q for information regarding our restructuring and related charges.

Interest Expense. Interest expense in the Fiscal 2015 Quarter was \$49.2 million compared to \$47.4 million in the Fiscal 2014 Quarter. The \$1.8 million increase in interest expense in the Fiscal 2015 Quarter is driven primarily by \$1.6 million in costs related to the Euro Term Loan Tranche B and \$3.9 million in costs related to the 6.125% Notes, which were incurred in connection with acquisitions made in the Fiscal 2015 Quarter, partially offset by savings due to lower interest on our Term Loan and other debt. See Note 7, "Debt," to our Condensed Consolidated Financial Statements (Unaudited) included in this Quarterly Report on Form 10-Q for additional information regarding our outstanding debt.

Interest expense in the Fiscal 2015 Six Months was \$93.6 million compared to \$104.4 million in the Fiscal 2014 Six Months. The \$10.8 million decrease in interest expense in the Fiscal 2015 Six Months is primarily driven by the

non-recurrence of \$11.3 million in costs related to the refinancing of the Term Loan in the first quarter of our Fiscal 2014, consisting of the write off of unamortized deferred financing fees and original issue discount, coupled with savings due to lower interest on our Term Loan and other debt. These decreases were tempered by \$1.8 million in costs related to the Euro Term Loan Tranche B and \$4.9 million in costs related to the 6.125% Notes, which were incurred in connection with acquisitions made in the Fiscal 2015 Six Months. See Note 7, "Debt," to our Condensed Consolidated Financial Statements (Unaudited) included in this Quarterly Report on Form 10-Q for additional information regarding our outstanding debt.

Income Taxes. Our effective tax rates for the Fiscal 2015 Quarter and the Fiscal 2015 Six Months were 22% and 27%, respectively. Our effective tax rates for the Fiscal 2014 Quarter and the Fiscal 2014 Six Months were 24% and 21%, respectively. Our effective tax rates differ from the U.S. federal statutory rate of 35% principally due to (i) income earned outside the U.S. that is subject to statutory rates lower than 35%, (ii) the release of valuation allowance on U.S. net operating loss deferred tax assets offsetting tax expense on both U.S. pretax income and foreign income not permanently reinvested, and (iii) deferred income tax expense related to the change in book versus tax basis of indefinite-lived intangibles, which are

Table of Contents

amortized for tax purposes but not for book purposes. Additionally, we recorded a tax charge of \$3.6 million for both the Fiscal 2015 Quarter and the Fiscal 2015 Six Months, to establish a valuation allowance against certain deferred tax assets related to our Brazil operations, since it is more likely than not that we will not obtain tax benefits from these assets. For the Fiscal 2014 Quarter and the Fiscal 2014 Six Months, the tax rate was reduced due to a favorable Mexican tax law change.

We are not treating current and certain prior year earnings as permanently reinvested, except for jurisdictions where repatriation is either precluded or restricted by law. Due to the valuation allowance recorded against U.S. net deferred tax assets, including net operating loss carryforwards, we do not recognize any incremental U.S. tax expense on the expected future repatriation of foreign earnings. Should the U.S. valuation allowance be released at some future date, the recording of U.S. tax on foreign earnings not considered permanently reinvested might have a material effect on our effective tax rate. By the end of our fiscal year ending September 30, 2015, we expect to record approximately \$3.5 million of additional tax expense from non-U.S. withholding and other taxes expected to be incurred on repatriation of current earnings, and also expect to record \$16.9 million of U.S. tax on future repatriation that would be offset by operating losses.

During our fiscal year ending September 30, 2014, we earned domestic pretax book income after having generated significant domestic book and tax losses since our fiscal year ended September 30, 1997. We generated small domestic income during the Fiscal 2015 Quarter and the Fiscal 2015 Six Months. Should we generate domestic pretax profits in the near-term, there is a reasonable possibility that some or most of the domestic valuation allowance could be released, which could result in a material tax benefit. We estimate that \$123.4 million of valuation allowance related to domestic deferred tax assets cannot be released regardless of the amount of domestic income generated due to prior period ownership changes that limit the amount of NOLs we can use.

Liquidity and Capital Resources

Operating Activities

For the Fiscal 2015 Six Months, cash used by operating activities totaled \$180.3 million compared to cash used of \$155.6 million during the Fiscal 2014 Six Months. The \$24.7 million increase in cash used by operating activities was primarily due to:

- Cash used for working capital and other items of \$35.3 million was driven by increases in inventory, accounts receivable and other working capital accounts; partially offset by an increase in cash from the change in accounts payable;
- Other uses totaling \$1.9 million

Offset by,

- Lower cash payments for interest of \$7.1 million; and

- Lower cash payments for income taxes of \$5.4 million.

We expect to fund our cash requirements, including capital expenditures, interest and principal payments due in Fiscal 2015, through a combination of cash on hand, cash flow from operations and funds available for borrowings under our asset based lending revolving credit facility (the “ABL Facility”). Going forward, our ability to satisfy financial and other covenants in our senior credit agreements and senior unsecured indentures and to make scheduled payments or prepayments on our debt and other financial obligations will depend on our future financial and operating performance. There can be no assurances that our business will generate sufficient cash flows from operations or that future borrowings under our ABL Revolving Credit Facility will be available in an amount sufficient to satisfy our debt maturities or to fund our other liquidity needs. While our cash flow from operations for the Fiscal Six Months is negative, primarily driven by the seasonal increase of inventory related to Hardware and Home Improvement and Home and Garden Segments, we expect cash flow from operations for the full year Fiscal 2015 to be positive from normal operating performance and seasonal reductions in working capital during the second half of the fiscal year, which is consistent with the previous full fiscal years.

At March 29, 2015, there are no significant foreign cash balances available for repatriation. During Fiscal 2015, we expect to generate between \$75 million and \$125 million of foreign cash that may be repatriated for general corporate purposes.

See Item 1A. “Risk Factors” in our Annual Report on Form 10-K for the fiscal year ended September 30, 2014, for further discussion of the risks associated with our ability to service all of our existing indebtedness and our ability to maintain compliance with financial and other covenants related to our indebtedness.

Investing Activities

Net cash used by investing activities was \$322.3 million for the Fiscal 2015 Six Months compared to \$62.2 million for the Fiscal 2014 Six Months. The \$260.1 million increase in cash used by investing activities in the Fiscal 2015 Six Months is primarily driven by an increase in cash used for acquisitions of \$267.4 million, which was related to the \$147.5 million purchase, net of cash acquired, of Salix, the \$116.0 million purchase, net of cash acquired, of European IAMS and Eukanuba and the \$29.2 million purchase, net of cash acquired, of Tell, partially offset by the \$25.3 million Fiscal 2014 Six Months cash paid for the Liquid Fence acquisition coupled with a decrease in purchases of property, plant and equipment of \$6.9 million and proceeds from sales of property, plant and equipment of \$1.2 million.

Financing Activities

Debt Financing

At March 29, 2015 we had the following debt instruments outstanding: (i) a senior secured term loan pursuant to a senior credit agreement (the “Senior Credit Agreement”) which consists of \$635.2 principal due September 4, 2017 (“Tranche A”), \$508.6 principal due September 4, 2019 (“Tranche C”), \$30.5 Canadian dollar denominated principal due December 17, 2019 (“CAD Term Loan”), \$242.5 Euro denominated principal due September 4, 2019 (“Euro Term Loan Tranche A”) and \$163.3 Euro denominated principal due December 19, 2021 (“Euro Term Loan Tranche B”) (together, the “Term Loan”); (ii) \$300.0 6.75% unsecured notes (the “6.75% Notes”); (iii) \$520.0 6.375% unsecured notes (the “6.375% Notes”); (iv) \$570.0 6.625% unsecured notes (the “6.625% Notes”); (v) \$250.0 6.125% unsecured notes (the “6.125% Notes”) and (vi) a \$400.0 asset based lending revolving credit facility (the “ABL Facility”).

At March 29, 2015, we were in compliance with all covenants under the Senior Credit Agreement, the indenture governing the 6.375% Notes and the 6.625% Notes, the indenture governing the 6.75% Notes, the indenture governing the 6.125% Notes and the credit agreement governing the ABL Facility (the “ABL Credit Agreement”).

From time to time we may repurchase our existing indebtedness, including outstanding securities of SB/RH Holdings, LLC or its subsidiaries, in the open market or otherwise.

See Note 7, “Debt,” to our Condensed Consolidated Financial Statements (Unaudited) included in this Quarterly Report on Form 10-Q for additional information regarding our outstanding debt.

Financing Cash Flows

The Fiscal 2015 Six Months net cash provided by financing activities of \$407.7 million consisted of the following: (i) proceeds related to the issuance of \$250.0 million of unsecured notes; (ii) proceeds related to the Euro Term Loan Tranche B of \$185.4 million (iii) borrowings of \$42.0 million on our ABL Facility; (iv) a use to pay share-based tax withholdings of employees for vested stock awards of \$1.9 million, net of proceeds upon vesting; (v) a use to pay \$33.5 million of dividends; (vi) a use to pay \$6.9 million of debt issuance costs; (vii) a use of \$8.5 million for treasury stock purchases; (viii) a use of \$0.1 million from other financing activities; and (ix) a use for reduction of other debt of \$3.6 million. The primary use of the proceeds from these activities was to fund working capital needs as discussed within “Liquidity and Capital Resources - Operating Activities” and to provide resources for acquisitions.

The Fiscal 2014 Six Months net cash provided by financing activities of \$105.0 million consisted of the following: (i) proceeds related to the issuance \$523.7 million of Term Debt; (ii) a use of \$530.8 million to repay debt under the Senior Credit Facilities; (iii) borrowings of \$167.5 million on our ABL Facility; (iv) a use to pay share-based tax withholdings of employees for vested stock awards of \$26.5 million, net of proceeds upon vesting; (v) a use to pay \$29.0 million of dividends; (vi) a use to pay \$5.4 million of debt issuance costs; (vii) a use of \$4.5 million for treasury stock purchases; (viii) \$11.6 million proceeds from other financing activities; and (ix) a use for reduction of other debt of \$1.6 million. The primary use of the proceeds was to fund working capital needs as discussed within “Liquidity and Capital Resources - Operating Activities” and to provide resources for acquisitions.

Interest Payments and Fees

41

Table of Contents

In addition to principal payments on our debt obligations as mentioned above, we have annual interest payment obligations of approximately \$162.7 million in the aggregate. This includes interest under our 6.375% Notes of approximately \$33.2 million, interest under our 6.625% Notes of approximately \$37.8 million, interest under our 6.75% Notes of approximately \$20.3 million, interest under our 6.125% Notes of approximately \$15.3 million and interest under our Term Loan and ABL Facility of approximately \$54.5 million and \$1.6 million, respectively. Interest on our debt is payable in cash. Interest on the 6.375% Notes, the 6.625% Notes, the 6.75% Notes and the 6.125% Notes is payable semi-annually in arrears and interest under the Term Loan is payable on various interest payment dates as provided in the Senior Credit Agreement and the ABL Credit Agreement. We are required to pay certain fees in connection with our outstanding debt obligations. Such fees include a quarterly commitment fee of up to 0.375% on the unused portion of the ABL Facility and certain additional fees with respect to the letter of credit sub-facility under the ABL Facility.

Equity Financing Activities

During the Fiscal 2015 Six Months, we granted 0.53 million restricted stock units to our employees and our directors. All vesting dates are subject to the recipient's continued employment with us, except as otherwise permitted by our Board of Directors, or in certain cases where the employee is terminated without cause. The total market value of the restricted stock units on the date of grant was approximately \$47.8 million, which represented unearned restricted stock compensation. Unearned compensation is amortized to expense over the appropriate vesting period.

From time to time we may repurchase our outstanding shares of Common Stock in the open market or otherwise.

Financing Related to the AAG Acquisition

On April 28, 2015, we entered into an Agreement and Plan of Merger (the "AAG Merger Agreement") to acquire Armored AutoGroup Parent Inc. ("AAG"). AAG is a consumer products company consisting primarily of Armor All® and STP® products, two of the most recognizable brands in the automotive aftermarket appearance products and performance chemicals categories, respectively, and the AC/PRO® brand of do-it-yourself automotive air conditioner recharge products. We plan to fund the AAG Acquisition and associated fees and expenses through a combination of new debt and equity, including equity to be purchased by HRG Group, Inc. As part of the AAG Acquisition, we received financing commitments from Credit Suisse, Deutsche Bank and Jefferies, pursuant to which, and subject to certain conditions, the financial institutions committed to provide to us "back stop" bridge facilities in an aggregate amount of \$1,500.0 million (the "Bridge Facility"). The obligations of the financial institutions to provide debt financing under the Bridge Facility are subject to a number of conditions, including, without limitation, (i) that since February 28, 2015 through the date of the AAG Merger Agreement and since the date of the AAG Merger Agreement, there has not been material adverse change in AAG, (ii) the execution and delivery of definitive documentation with respect to the Bridge Facilities consistent with the debt commitment letter, (iii) the accuracy of certain specified representations and warranties in the loan documents and in the AAG Merger Agreement, (iv) consummation of the acquisition of AAG substantially in accordance with the terms and conditions of the AAG Merger Agreement concurrently with the initial funding of the Bridge Facilities, (v) delivery of certain customary closing documents (including, among others, a customary solvency certificate) and certain financial statements of AAG and (vi) payment of applicable costs, fees and expenses. The final termination date for the debt commitment letter is the earlier of (i) the termination of the AAG Merger Agreement, (ii) our receipt of an aggregate \$1,500.0 million in gross proceeds from equity and/or debt offerings and (iii) June 30, 2015.

Off-Balance Sheet Arrangements

We do not have any off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that are material to investors.

Contractual Obligations and Commercial Commitments

There have been no material changes to our contractual obligations and commercial commitments as discussed in our Annual Report on Form 10-K for Fiscal 2014.

Critical Accounting Policies and Critical Accounting Estimates

Our Condensed Consolidated Financial Statements (Unaudited) included in this Quarterly Report on Form 10-Q have been prepared in accordance with generally accepted accounting principles in the United States of America and fairly present

New Accounting Pronouncements

Presentation of debt issuance costs

In April 2015, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) No. 2015-03, Interest – Imputation of Interest (Subtopic 835-30): Simplifying the Presentation of Debt Issuance Costs.

This ASU requires debt issuance costs related to a recognized debt liability to be presented on the balance sheet as a direct deduction from the debt liability, similar to the presentation of debt discounts. This ASU will become effective for us beginning in the first quarter of our fiscal year ending September 30, 2017. We do not expect the adoption of this standard to have a significant impact on our consolidated financial statements.

Revenue recognition

In May 2014, the FASB issued ASU No. 2014-09, Revenue from Contracts with Customers (Topic 606), which supersedes the revenue recognition requirements in ASC 605, Revenue Recognition. This ASU requires revenue recognition to depict the transfer of goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The new revenue recognition model requires identifying the contract, identifying the performance obligations, determining the transaction price, allocating the transaction price to performance obligations and recognizing the revenue upon satisfaction of the performance obligations. This ASU also requires additional disclosure about the nature, amount, timing and uncertainty of revenue and cash flows arising from customer contracts, including significant judgments and changes in judgments, and assets recognized from costs incurred to obtain or fulfill a contract. This ASU can be applied either retrospectively to each prior reporting period presented or retrospectively with the cumulative effect of initially applying the update recognized at the date of the initial application along with additional disclosures. This ASU will become effective for us beginning in the first quarter of our fiscal year ending September 30, 2018. We have not selected a method for adoption nor determined the potential effects on our consolidated financial statements.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Market Risk Factors

We have market risk exposure from changes in interest rates, foreign currency exchange rates and commodity prices. We, when appropriate, use derivative financial instruments to mitigate the risk from such exposures.

A discussion of our accounting policies for derivative financial instruments is included in Note 8, Derivative Financial Instruments, to our Condensed Consolidated Financial Statements (Unaudited) included in this Quarterly Report on Form 10-Q.

There have been no material changes to our market risk exposures, including those from interest rates, foreign currency exchange rates and commodity prices, from those discussed in our Annual Report on Form 10-K for Fiscal 2014.

Sensitivity Analysis

The analysis below is hypothetical and should not be considered a projection of future risks. Earnings projections are before tax.

At March 29, 2015, the potential change in fair value of our outstanding interest rate derivative instruments assuming a 1 percent unfavorable shift in interest rates would be a loss of \$2.0 million. The net impact on reported earnings, after also including the effect of the change on one year's underlying interest rate exposure on our variable rate Term Loan, would be a net loss of \$2.0 million.

At March 29, 2015, the potential change in fair value of outstanding foreign exchange derivative instruments, assuming a 10% unfavorable change in the underlying exchange rates, would be a loss of \$35.9 million. The net impact on reported earnings, after also including the effect of the change on one year's underlying foreign currency-denominated exposures, would be a net gain of \$21.0 million.

At March 29, 2015, the potential change in fair value of outstanding commodity price derivative instruments, assuming a 10% unfavorable change in the underlying commodity prices, would be a loss of \$2.5 million. The net impact on reported earnings, after also including the effect of the reduction in cost of one year's purchases of the related commodities due to the same change in commodity prices, would be a net gain of \$1.7 million.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures. Our management, with the participation of our principal executive officer and principal financial officer, has evaluated the effectiveness of our disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")) pursuant to Rules 13a-15(b) and 15d-15(b) under the Exchange Act as of the end of the period covered by this Quarterly Report on Form 10-Q. Based on this evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that, as of such date, our disclosure controls and procedures are effective to ensure that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in applicable SEC rules and forms, and is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Control Over Financial Reporting. There was no change in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) that occurred during the period covered by this Quarterly Report on Form 10-Q that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Limitations on the Effectiveness of Controls. Our management, including our Chief Executive Officer and Chief Financial Officer, does not expect that the Company's disclosure controls and procedures or the Company's internal controls over financial reporting will prevent all errors and all fraud. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the Company have been detected.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

Litigation

We are a defendant in various matters of litigation generally arising out of the ordinary course of business.

We do not believe that any matters or proceedings presently pending will have a material adverse effect on our results of operations, financial condition, liquidity or cash flows.

Item 1A. Risk Factors

When considering an investment in the Company, you should carefully consider the risk factors discussed in our Annual Report on Form 10-K filed with the SEC on November 21, 2014 (our "Form 10-K"). Any of these risk factors

could materially and adversely affect our or our subsidiaries' business, financial condition and results of operations and these risk factors are not the only risks that we or our subsidiaries may face. Additional risks and uncertainties not presently known to us or our subsidiaries or that are not currently believed to be material also may adversely affect us or our subsidiaries. With the exception of the additional risk factors discussed below, there have been no material changes in our risk factors from those disclosed in Part I, Item 1A, of our Form 10-K.

Risks Related to the AAG Acquisition

The AAG Acquisition may not be consummated, and if such acquisition is not consummated, we may be subject to monetary or other damages under the AAG Merger Agreement.

On April 28, 2015, we entered into an Agreement and Plan of Merger (the "AAG Merger Agreement") with Armored AutoGroup Parent Inc. ("AAG"), Ignite Merger Sub, Inc., a direct wholly owned subsidiary of Spectrum Brands, Inc., and

44

Table of Contents

Avista Capital Partners II GP, LLC, as representative for the shareholders and optionholders of AAG. Under the AAG Merger Agreement, the Company will acquire AAG for a purchase price of approximately \$1,400.0 million (subject to customary adjustments for cash, debt, net working capital and transaction-related expenses described in the AAG Merger Agreement), which will be paid entirely in cash (the “AAG Acquisition”). Completion of this acquisition is subject to certain limited conditions, including the accuracy of AAG’s representations and warranties, material compliance by AAG with certain pre-closing covenants, regulatory review and no material adverse change in AAG since the date of the AAG Merger Agreement.

We expect the AAG Acquisition to close by the end of our fiscal third quarter. There can be no assurance, however, that all closing conditions for the acquisition will be satisfied. The AAG Merger Agreement may be terminated by the mutual consent of the parties and under certain other circumstances, including by either party if the closing of the acquisition has not occurred by June 30, 2015.

The representations, warranties and covenants made by AAG in the AAG Merger Agreement do not survive the closing and are not subject to indemnification. Therefore, in the event that AAG breaches the representations, warranties and covenants made by AAG in the AAG Merger Agreement, except in respect of those covenants and agreements that by their terms apply or are to be performed in whole or in part at or after the Closing, we will have no recourse to AAG’s former shareholders other than for actual fraud. We have elected to self-insure against such risk.

We plan to fund the AAG Acquisition and associated fees and expenses through a combination of new debt and equity, including equity to be purchased by HRG Group, Inc. However, our ability to obtain financing is subject to certain conditions that may not be satisfied at the closing of the AAG Acquisition. If we are unable to obtain sufficient financing or experience a significant diminution of our existing cash and cash equivalents or other sources of capital, and as a result we do not have sufficient funds to complete the AAG Acquisition or otherwise do not consummate the AAG Acquisition, we may be subject to monetary or other damages under the AAG Merger Agreement as a result of our failure to complete the AAG Acquisition. Our ability to obtain financing is not a condition to closing under the AAG Merger Agreement.

Failure to complete the AAG Acquisition could impact our stock price and our future business and financial results.

If the AAG Acquisition is not completed or our financing for the AAG Acquisition becomes unavailable, our ongoing business and financial results may be adversely affected and we will be subject to a number of risks, including the following:

- depending on the reasons for the failure to complete the AAG Acquisition, we could be liable to AAG or its current owners for monetary or other damages in connection with the termination or breach of the merger agreement;
- we have dedicated significant time and resources, financial and otherwise, in planning for the AAG Acquisition and the associated integration;
- we are responsible for certain transaction costs relating to the AAG Acquisition, whether or not the acquisition is completed;
- while the AAG Merger Agreement is in force, we are subject to certain restrictions on the conduct of our business, including our ability to make certain other significant acquisitions, which may adversely affect our ability to execute certain of our business strategies; and
- matters relating to the AAG Acquisition (including integration planning) may require substantial commitments of time and resources by our management, whether or not the acquisition is completed, which could otherwise have been devoted to other opportunities that may have been beneficial to us.

In addition, if the AAG Acquisition is not completed, we may experience negative reactions from the financial markets and from our customers and employees. We may also be subject to litigation related to any failure to complete the acquisition or to enforcement proceedings commenced against us to perform our obligations under the merger agreement. If the acquisition is not completed, these risks may materialize and may adversely affect our business, financial results and financial condition, as well as the price of our common stock.

We face significant risks from the AAG Acquisition similar to risks generally associated with our acquisition and expansion strategy.

45

Table of Contents

The AAG Acquisition subjects us to significant risks generally associated with our acquisition and expansion strategy. Significant costs have been incurred and are expected to be incurred in connection with AAG Acquisitions and our integration of AAG with our business, including legal, accounting, financial advisory and other costs. We may also not realize the anticipated benefits of, and synergies from, the AAG Acquisition and will be responsible for certain liabilities and integration costs as a result of the AAG Acquisition. As a result of the AAG Acquisition and other acquisitions, we may also not be able to retain key personnel or recruit additional qualified personnel, which could require us to incur substantial additional costs to recruit replacement personnel. General customer uncertainty, including our and AAG's customers, related to the AAG Acquisition could also harm us. Each of these risks, which is described in more detail in our Form 10-K, could result in the AAG Acquisition having a material adverse effect on our business.

We and AAG have similar major customers and the loss of any significant customer may adversely affect our results of operations.

A limited number of the same customers represents a large percentage of our and AAG's respective net sales. One of our largest customers accounted for approximately 23% of AAG's net sales for AAG for the twelve months ended December 31, 2014. AAG's next largest customer accounted for approximately 12% of net sales for the same period and no other customer accounting for more than 10% of AAG's net sales for the same period. The success of our and AAG's businesses depends, in part, on our ability to maintain our level of sales and product distribution through high-volume distributors, retailers, super centers and mass merchandisers.

Currently, neither we nor AAG have long-term supply agreements with a substantial number of our retail customers, including our largest customers. These high-volume stores and mass merchandisers frequently reevaluate the products they carry. A decision by our major customers, whether before or after the AAG Acquisition, to discontinue or decrease the amount of products purchased from us, sell a national brand on an exclusive basis or change the manner of doing business with us could reduce our revenues and materially adversely affect our results of operations. See "Risk Factors—Risks Related to our Business—Consolidation of retailers and our dependence on a small number of key customers for a significant percentage of our sales may negatively affect our business, financial condition and results of operations," contained in our Form 10-K.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

During the Fiscal 2015 Quarter, we did not sell any equity securities that were not registered under the Securities Act. On August 6, 2013, the Board of Directors approved a \$200 million common stock repurchase program. The authorization is effective for 24 months. During the Fiscal 2015 Quarter, we did not purchase any shares under the common stock repurchase program.
