NOTES TO THE UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

Note 1. Summary of Significant Accounting Policies

Basis of Presentation: The accompanying Unaudited Consolidated Financial Statements of Peoples Bancorp Inc. and its subsidiaries ("Peoples" refers to Peoples Bancorp Inc. and its consolidated subsidiaries collectively, except where the context indicates the reference relates solely to Peoples Bancorp Inc.) have been prepared in accordance with accounting principles generally accepted in the United States ("US GAAP") for interim financial information and the instructions for Form 10-Q and Article 10 of Regulation S-X. Accordingly, these financial statements do not contain all of the information and footnotes required by US GAAP for annual financial statements and should be read in conjunction with Peoples' Annual Report on Form 10-K for the fiscal year ended December 31, 2013 ("2013 Form 10-K").

The accounting and reporting policies followed in the presentation of the accompanying Unaudited Consolidated Financial Statements are consistent with those described in Note 1 of the Notes to the Consolidated Financial Statements included in Peoples' 2013 Form 10-K, as updated by the information contained in this Form 10-Q. Management has evaluated all significant events and transactions that occurred after June 30, 2014, for potential recognition or disclosure in these consolidated financial statements. In the opinion of management, these consolidated financial statements reflect all adjustments necessary to present fairly such information for the periods and dates indicated. Such adjustments are normal and recurring in nature. All significant intercompany accounts and transactions have been eliminated. The Consolidated Balance Sheet at December 31, 2013, contained herein has been derived from the audited Consolidated Balance Sheet included in Peoples' 2013 Form 10-K.

The preparation of the consolidated financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes. Results of operations for interim periods are not necessarily indicative of the results to be expected for the full year, due in part to seasonal variations and unusual or infrequently occurring items.

New Accounting Pronouncements: In June 2014, the Financial Accounting Standards Board issued an accounting standards update requiring that a performance target that affects vesting, and that could be achieved after the requisite service period, be treated as a performance condition. This standard will be effective for all entities for interim and annual periods beginning after December 15, 2015. Peoples will adopt this new guidance as required, and it is not expected to have a material impact on Peoples' consolidated financial statements.

In January 2014, the Financial Accounting Standards Board issued an accounting standards update allowing entities to make an accounting policy election with respect to using the proportional amortization method for investments in qualified affordable housing projects, if certain conditions are met. This standard will be effective for public companies for interim and annual periods beginning after December 15, 2014. Peoples will adopt this new guidance as required, and it is not expected to have a material impact on Peoples' consolidated financial statements.

Also in January 2014, the Financial Accounting Standards Board issued an accounting standards update clarifying guidance for in substance repossessions and foreclosures, and requiring additional disclosures regarding foreclosed residential real estate property and recorded investments in consumer mortgage loans collateralized by residential real estate in the process of foreclosure. This standard will be effective for public companies for interim and annual periods beginning after December 15, 2014. Peoples will adopt this new guidance as required, and it is not expected to have a material impact on Peoples' consolidated financial statements.

The fair values used by Peoples are obtained from an independent pricing service and represent either quoted market prices for the identical securities (Level 1 inputs) or fair values determined by pricing models using a market approach that considers observable market data, such as interest rate volatilities, LIBOR yield curves, credit spreads and prices from market

Table of Contents

makers and live trading systems (Level 2). Management reviews the valuation methodology and quality controls utilized by the pricing services in their overall assessment of the reasonableness of the fair values provided and challenges prices when it believes a material discrepancy in pricing exists.

Certain financial assets and financial liabilities are measured at fair value on a non-recurring basis; that is, the instruments are not measured at fair value on an ongoing basis but are subject to fair value adjustments in certain circumstances (for example, when there is evidence of impairment). Financial assets measured at fair value on a non-recurring basis included the following:

Impaired Loans: Impaired loans are measured and reported at fair value when the amounts to be received are less than the carrying value of the loans. One of the allowable methods for determining the amount of impairment is estimating fair value using the fair value of the collateral for collateral-dependent loans. Management's determination of the fair value for these loans uses a market approach representing the estimated net proceeds to be received from the sale of the collateral based on observable market prices or market value provided by independent, licensed or certified appraisers (Level 2 inputs). At June 30, 2014, impaired loans with an aggregate outstanding principal balance of \$1.0 million were measured and reported at a fair value of \$0.8 million. For the three months ended June 30, 2014, Peoples recognized \$34,000 of losses and for the six months ended June 30, 2014, Peoples recognized losses of \$67,000, on impaired loans through the allowance for loan losses.

The following table presents the fair values of financial assets and liabilities carried on Peoples' consolidated balance sheets, including those financial assets and financial liabilities that are not measured and reported at fair value on a recurring basis or non-recurring basis:

(Dollars in thousands)	June 30, 2014		December 31, 2013	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
Financial assets:				
Cash and cash equivalents	\$ 53,962	\$ 53,962	\$ 53,820	\$ 53,820
Investment securities	664,987	664,850	680,526	677,398
Loans	1,305,404	1,284,401	1,180,857	1,165,560
Financial liabilities:				
Deposits	\$ 1,660,918	\$ 1,666,358	\$ 1,580,758	\$ 1,587,448
Short-term borrowings	115,869	115,869	113,590	113,590
Long-term borrowings	118,815	124,798	121,826	128,205

The methodologies for estimating the fair value of financial assets and liabilities that are measured at fair value on a recurring or non-recurring basis are discussed above. For certain financial assets and liabilities, carrying value approximates fair value due to the nature of the financial instrument. These instruments include cash and cash equivalents, demand and other non-maturity deposits, and overnight borrowings. Peoples used the following methods and assumptions in estimating the fair value of the following financial instruments:

Loans: The fair value of portfolio loans assumes sale of the notes to a third-party financial investor. Accordingly, this value is not necessarily the value to Peoples if the notes were held to maturity. Peoples considered interest rate, credit and market factors in estimating the fair value of loans (Level 3 inputs). In the current whole loan market, financial investors are generally requiring a much higher rate of return than the return inherent in loans if held to maturity given the lack of market liquidity. This divergence accounts for the majority of the difference in carrying amount over fair value.

Deposits: The fair value of fixed maturity certificates of deposit is estimated using a discounted cash flow calculation based on current rates offered for deposits of similar remaining maturities (Level 2 inputs).

Long-term Borrowings: The fair value of long-term borrowings is estimated using a discounted cash flow analysis based on rates currently available to Peoples for borrowings with similar terms (Level 2 inputs).

Bank premises and equipment, customer relationships, deposit base, banking center networks, and other information required to compute Peoples' aggregate fair value are not included in the above information. Accordingly, the above fair values are not intended to represent the aggregate fair value of Peoples.

Peoples' investment in equity securities was comprised largely of common stocks issued by various unrelated bank holding companies at both June 30, 2014 and December 31, 2013. At June 30, 2014, there were no securities of a single issuer, other than U.S. Treasury and government agencies, and U.S. government sponsored agencies/enterprises, that exceeded 10% of stockholders' equity.

The gross gains and gross losses realized by Peoples from sales of available-for-sale securities for the periods ended June 30 were as follows:

(Dollars in thousands)	Three Months Ended June 30,		Six Months Ended June 30,	
	2014	2013	2014	2013
Gross gains realized	\$ 220	\$ 1,267	\$ 734	\$ 3,312

Management systematically evaluates available-for-sale investment securities for other-than-temporary declines in fair value on a quarterly basis. At June 30, 2014, management concluded no individual securities were other-than-temporarily impaired since Peoples did not have the intent to sell nor was it more likely than not that Peoples would be required to sell any of the securities with an unrealized loss prior to recovery. Further, the unrealized losses at both June 30, 2014 and December 31, 2013, were largely attributable to changes in market interest rates and spreads since the securities were purchased.

At June 30, 2014, approximately 99% of the mortgage-backed securities that had been at an unrealized loss position for twelve months or more were issued by U.S. government sponsored agencies. The remaining 1%, or three positions, consisted of privately issued mortgage-backed securities with all of the underlying mortgages originated prior to 2004. Two of the three positions had a fair value less than 90% of their book value, with an aggregate book and fair value of \$0.9 million and \$0.6 million, respectively. Management has analyzed the underlying credit quality of these securities and concluded the unrealized losses were primarily attributable to the floating rate nature of these investments and the low number of loans remaining in these securities.

Furthermore, the four bank-issued trust preferred securities that had been in an unrealized loss position for twelve months or more at June 30, 2014 were primarily attributable to the floating nature of those investments, the current interest rate environment and spreads within that sector.

Table of Contents

The table below presents the amortized cost, fair value and weighted-average yield of available-for-sale securities by contractual maturity at June 30, 2014. The average yields are based on the amortized cost. In some cases, the issuers may have the right to call or prepay obligations without call or prepayment penalties prior to the contractual maturity date. Rates are calculated on a fully tax-equivalent basis using a 35% federal income tax rate.

Note 4. Loans

Peoples' loan portfolio has consisted of various types of loans originated primarily as a result of lending opportunities within Peoples' primary market areas of northeastern, central and southeastern Ohio, west central West Virginia, and northeastern Kentucky. The major classifications of loan balances, excluding loans held for sale, were as follows:

(Dollars in thousands)	June 30, 2014	December 31, 2013
Commercial real estate, construction	\$ 56,421	\$ 47,539
Commercial real estate, other	463,734	450,170

Deposit account overdrafts	5,282	2,060
Loans, net of deferred fees and costs	\$ 1,319,352	\$ 1,196,234

Peoples has acquired various loans through business combinations for which there was, at acquisition, evidence of deterioration of credit quality since origination, and for which it was probable that all contractually required payments would not be collected. The carrying amounts of these loans included in the loan balances above are summarized as follows:

(Dollars in thousands)	June 30, 2014	December 31, 2013

Additions:	
Midwest	1,102
Accretion	(570)
Balance, June 30, 2014	\$ 2,186

Peoples has pledged certain loans secured by 1-4 family and multifamily residential mortgages under a blanket collateral agreement to secure borrowings from the FHLB. The amount of such pledged loans totaled \$264.3 million and \$259.1 million at June 30, 2014 and December 31, 2013, respectively. Peoples also had pledged commercial loans to secure borrowings with the FRB. The outstanding balances of these loans totaled \$194.0 million and \$113.0 million at June 30, 2014 and December 31, 2013, respectively.

Nonaccrual and Past Due Loans

A loan is considered past due if any required principal and interest payments have not been received as of the date such payments were required to be made under the terms of the loan agreement. A loan may be placed on nonaccrual status regardless of whether or not such loan is considered past due.

The recorded investments in loans on nonaccrual status and accruing loans delinquent for 90 days or more were as follows:

Credit Quality Indicators

As discussed in Note 1 of the Notes to the Consolidated Financial Statements included in Peoples' 2013 Form 10-K, Peoples categorizes the majority of its loans into risk categories based upon an established risk grading matrix using a scale of 1 to 8. A description of the general characteristics of the risk grades used by Peoples is as follows:

“Pass” (grades 1 through 4): Loans in this risk category involve borrowers of acceptable-to-strong credit quality and risk who have the apparent ability to satisfy their loan obligations. Loans in this risk grade would possess sufficient mitigating factors, such as adequate collateral or strong guarantors possessing the capacity to repay the debt if required, for any weakness that may exist.

“Watch” (grade 5): Loans in this risk grade are the equivalent of the regulatory definition of “Other Assets Especially Mentioned” classification. Loans in this category possess some credit deficiency or potential weakness, which requires a high level of management attention. Potential weaknesses include declining trends in operating earnings and cash flows and/or reliance on the secondary source of repayment. If left uncorrected, these potential weaknesses may result in noticeable deterioration of the repayment prospects for the asset or in Peoples' credit position.

“Substandard” (grade 6): Loans in this risk grade are inadequately protected by the borrower's current financial condition and payment capability or of the collateral pledged, if any. Loans so classified have one or more well-defined weaknesses that jeopardize the orderly repayment of debt. They are characterized by the distinct possibility that Peoples will sustain some loss if the deficiencies are not corrected.

Edgar Filing: PEOPLES BANCORP INC - Form 10-Q

“Doubtful” (grade 7): Loans in this risk grade have all the weaknesses inherent in those classified as substandard, with the added characteristic that the weaknesses make collection or orderly repayment in full, on the basis of current existing facts, conditions and values, highly questionable and improbable. Possibility of loss is extremely high, but because of certain important and reasonably specific factors that may work to the advantage and strengthening of the exposure, its classification as an estimate loss is deferred until its more exact status may be determined.

“Loss” (grade 8): Loans in this risk grade are considered to be non-collectible and of such little value that their continuance as bankable assets is not warranted. This does not mean the loan has absolutely no recovery value, but rather it is neither practical nor desirable to defer writing off the loan, even though partial recovery may be obtained in the future. Charge-offs against the allowance for loan losses are taken in the period in which the loan becomes uncollectible. Consequently, Peoples typically does not maintain a recorded investment in loans within this category. Consumer loans and other smaller-balance loans are evaluated and categorized as “substandard”, “doubtful” or “loss” based upon the regulatory definition of these classes and consistent with regulatory requirements. All other loans not evaluated individually, nor meeting the regulatory conditions to be categorized as described above, would be considered as being “not rated”.

The following table summarizes the risk category of Peoples' loan portfolio based upon the most recent analysis performed:

At June 30, 2014, Peoples' impaired loans shown in the table above included loans that were classified as troubled debt restructurings ("TDRs").

In assessing whether or not a borrower is experiencing financial difficulties, Peoples considers information currently available regarding the financial condition of the borrower. This information includes, but is not limited to, whether (i) the debtor is currently in payment default on any of its debt; (ii) a payment default is probable in the foreseeable future without the modification; (iii) the debtor has declared or is in the process of declaring bankruptcy; and (iv) the debtor's projected cash flow is insufficient to satisfy contractual payments due under the original terms of the loan without a modification.

Peoples considers all aspects of the modification to loan terms to determine whether or not a concession has been granted to the borrower. Key factors considered by Peoples include the debtor's ability to access funds at a market rate for debt with similar risk characteristics, the significance of the modification relative to the unpaid principal balance or collateral value of the debt, and the significance of a delay in the timing of payments relative to the original contractual terms of the loan. The most common concessions granted by Peoples generally include one or more modifications to the terms of the debt, such as (i) a reduction in the interest rate for the remaining life of the debt, (ii) an extension of the maturity date at an interest rate lower than the current market rate for new debt with similar risk, (iii) a temporary period of interest-only payments, and (iv) a reduction in the contractual payment amount for either a short period or the remaining term of the loan.

The following table summarizes the loans that were modified as a TDR during the three and six months ended June 30, 2014 and 2013.

Note 6. Employee Benefit Plans

Peoples sponsors a noncontributory defined benefit pension plan that covers substantially all employees hired before January 1, 2010. The plan provides retirement benefits based on an employee's years of service and compensation. For employees hired before January 1, 2003, the amount of postretirement benefit is based on the employee's average monthly compensation pay over the highest five consecutive years out of the employee's last ten years with Peoples while an eligible employee. For employees hired on or after January 1, 2003, the amount of postretirement benefit is based on 2% of the employee's annual compensation plus accrued interest. Effective January 1, 2010, the pension plan was closed to new entrants. Effective March 1, 2011, the accrual of pension plan benefits for all participants was frozen. Peoples recognized this freeze as a curtailment as of December 31, 2010 and March 1, 2011, under the terms of the pension plan. Peoples also provides post-retirement health and life insurance benefits to former employees and directors. Only those individuals who retired before January 27, 2012 were eligible for life insurance benefits. All retirees are eligible for health benefits; however, Peoples only pays 100% of the cost for those individuals who retired before January 1, 1993. For all others, the retiree is responsible for most, if not all, of the cost of health benefits. Peoples' policy is to fund the cost of the benefits as they arise. The following tables detail the components of the net periodic cost for the plans:

	Pension Benefits

Under US GAAP, Peoples is required to recognize a settlement gain or loss when the aggregate amount of lump-sum distributions to participants equals or exceeds the sum of the service and interest cost components of the net periodic pension cost. The amount of settlement gain or loss recognized is the pro rata amount of the unrealized gain or loss existing immediately prior to the settlement. In general, both the projected benefit obligation and fair value of plan assets are required to be remeasured in order to determine the settlement gain or loss.

In the first six months of 2014, the total lump-sum distributions made to participants caused the total settlements to exceed the recognition threshold for settlement gains or losses. As a result, Peoples remeasured its pension obligation and plan assets as of April 1, 2014 as part of the calculation of the settlement loss recognized.

Table of Contents

The following table summarizes the change in pension obligation and funded status as a result of this remeasurement and the aggregate settlements for the six months ended June 30, 2014:

Note 7. Stock-Based Compensation

Under the Peoples Bancorp Inc. Second Amended and Restated 2006 Equity Plan (the “2006 Equity Plan”), Peoples may grant, among other awards, nonqualified stock options, incentive stock options, restricted stock awards, stock appreciation rights and unrestricted share awards to employees and non-employee directors. The total number of shares available under the 2006 Equity Plan is 1,081,260. The maximum number of shares that can be issued for incentive stock options is 800,000 shares. Prior to 2007, Peoples granted nonqualified and incentive stock options to employees and nonqualified stock options to non-employee directors under the 2006 Equity Plan and predecessor plans. Since February 2007, Peoples has granted a combination of restricted shares and stock appreciation rights (“SARs”) to be settled in shares to employees and restricted shares to non-employee directors subject to the terms and conditions prescribed by the 2006 Equity Plan. In general, shares issued in connection with stock-based awards are issued from treasury shares to the extent available. If no treasury shares are available, shares are issued from authorized but unissued shares.

Stock Options

Under the provisions of the 2006 Equity Plan and predecessor stock option plans, the exercise price per share of any stock option granted may not be less than the grant date fair market value of the underlying shares. All stock options granted to both employees and non-employee directors expire ten years from the date of grant. The most recent stock option grants to employees and non-employee directors occurred in 2006. The stock options granted to employees vested three years after the grant date, while the stock options granted to non-employee directors vested six months after the grant date.

The following table summarizes the changes to Peoples' stock options for the six months ended June 30, 2014:

	Number of Shares Subject to Options	Weighted-Average Exercise Price	Weighted-Average Remaining Contractual Life	Aggregate Intrinsic Value

Total	43,376	1.3 years	\$ 27.98

Stock Appreciation Rights

SARs granted to employees have an exercise price equal to the fair market value of Peoples' shares on the date of grant and will be settled using shares of Peoples. Additionally, the SARs granted vested three years after the grant date and expire ten years from the date of grant. The most recent grant of SARs occurred in 2008. The following table summarizes the changes to Peoples' SARs for the six months ended June 30, 2014:

\$23.77	10,582	3.6 years
\$29.25	8,710	2.6 years
Total	21,292	3.2 years

Restricted Shares

Under the 2006 Equity Plan, Peoples may award restricted shares to officers, key employees and non-employee directors. In general, the restrictions on restricted shares awarded to non-employee directors expire after six months, while the restrictions on restricted shares awarded to employees expire after periods ranging from one to three years. In the first quarter of 2014, Peoples granted restricted shares subject to performance-based vesting to officers and key employees with restrictions that will lapse one to three years after the grant date provided that in order for the restricted common shares to vest on each of the three foregoing dates, Peoples must have reported positive net income and maintained a well capitalized status by regulatory standards in the year immediately preceding the vesting date. During the second quarter of 2014, Peoples granted restricted common shares to non-employee directors with a six month time-based vesting period, and certain key employees with a three year time-based vesting period.

Table of Contents

The following table summarizes the changes to Peoples' restricted shares for the six months ended June 30, 2014:

	Time-Based Vesting		Performance-Based Vesting

For the six months ended June 30, 2014, the total intrinsic value of restricted shares released was \$1.3 million.

Stock-Based Compensation

Peoples recognized stock-based compensation expense, which is included as a component of Peoples' salaries and employee benefit costs, based on the estimated fair value of the awards on the grant date. The following table summarizes the amount of stock-based compensation expense and related tax benefit recognized:

	Three Months Ended		Six Months Ended

Note 9. Acquisitions

On May 30, 2014, Peoples completed its acquisition of Midwest Bancshares, Inc. ("Midwest") for total consideration of \$12.6 million which was settled 50% in cash and 50% in Peoples' common shares. Midwest merged into Peoples and Midwest's wholly-owned subsidiary, First National Bank of Wellston, which operates two full-service branches in Wellston and Jackson, Ohio, merged into Peoples' wholly-owned subsidiary, Peoples Bank, National Association ("Peoples Bank"). The acquisition was accounted for as a business combination under the acquisition method of accounting under US GAAP. The assets purchased, liabilities assumed, and related identifiable intangible assets were recorded at their acquisition date fair values. Per the applicable accounting guidance for business combinations, these fair values are preliminary and subject to refinement for up to one year after the closing date of the acquisition as additional information relative to closing date fair values become available. The goodwill recognized will not be deductible for income tax purposes.

As a result of the Midwest acquisition, Peoples acquired loans of \$59.7 million and deposits of \$78.1 million after purchase accounting adjustments. The balances and operations related to the acquisition are included in Peoples' consolidated financial statements from the date of the acquisition, and did not materially impact Peoples' financial position, results of operations or cash flows for any period presented.

On April 4, 2014, Peoples entered into an Agreement and Plan of Merger (the "Ohio Heritage Agreement") with Ohio Heritage Bancorp, Inc. ("Ohio Heritage"). The Ohio Heritage Agreement calls for Ohio Heritage to merge into Peoples, and for Ohio Heritage's wholly-owned subsidiary, Ohio Heritage Bank, which operates six full-service branches in Coshocton, Newark, Heath, Mount Vernon and New Philadelphia, Ohio, to merge into Peoples' wholly-owned subsidiary, Peoples Bank. This transaction is expected to close during the third quarter of 2014.

On April 21, 2014, Peoples entered into an Agreement and Plan of Merger (the "North Akron Agreement") with North Akron Savings Bank ("North Akron"), which operates four full-service branches in Akron, Cuyahoga Falls, Munroe Falls and Norton, Ohio. The North Akron Agreement calls for North Akron to merge into Peoples' wholly-owned subsidiary, Peoples Bank. This transaction is expected to close during the fourth quarter of 2014.

Non-interest expense (less intangible asset amortization) as a percentage of fully tax-equivalent net interest income (a) plus non-interest income (excluding gains or losses on investment securities and asset disposals and other transactions).

These amounts represent non-GAAP financial measures since they exclude the provision for (recovery of) loan (b) losses and all gains and losses included in earnings. Additional information regarding the calculation of these measures can be found later in this section under the caption "Pre-Provision Net Revenue".

(c) Nonperforming loans include loans 90 days past due and accruing, renegotiated loans and nonaccrual loans.

(c) Nonperforming assets include nonperforming loans and other real estate owned.

(d) Data presented as of the end of the period indicated.

These amounts represent non-GAAP financial measures since they exclude the balance sheet impact of intangible assets acquired through acquisitions on both total stockholders' equity and total assets. Additional information

(e) regarding the calculation of these measures can be found later in this discussion under the caption

"Capital/Stockholders' Equity".

Forward-Looking Statements

Certain statements in this Form 10-Q, which are not historical fact, are forward-looking statements within the meaning of Section 27A of the Securities Act, Section 21E of the Exchange Act, and the Private Securities Litigation Reform Act of 1995. Words such as “anticipate”, “estimates”, “may”, “feels”, “expects”, “believes”, “plans”, “will”, “would”, “should” similar expressions are intended to identify these forward-looking statements but are not the exclusive means of identifying such statements. Forward-looking statements are subject to risks and uncertainties that may cause actual results to differ materially. Factors that might cause such a difference include, but are not limited to:

- (1) the success, impact, and timing of the implementation of Peoples' business strategies, including the successful integration of the recently completed acquisitions and the expansion of consumer lending activity;
- (2) Peoples' ability to complete and, if completed, successfully integrate future acquisitions, including the pending acquisitions of Ohio Heritage and North Akron;
- (3) competitive pressures among financial institutions or from non-financial institutions may increase significantly, including product and pricing pressures and Peoples' ability to attract, develop and retain qualified professionals; changes in the interest rate environment due to economic conditions and/or the fiscal policies of the U.S.
- (4) government and Board of Governors of the Federal Reserve System ("Federal Reserve Board"), which may adversely impact interest margins and interest rate sensitivity;
- (5) changes in prepayment speeds, loan originations and charge-offs, which may be less favorable than expected and adversely impact the amount of interest income generated; adverse changes in the economic conditions and/or activities, including, but not limited to, impacts from the implementation of the Budget Control Act of 2011 and the American Taxpayer Relief Act of 2012, as well as
- (6) continuing economic uncertainty in the U.S., the European Union, and other areas, which could decrease sales volumes and increase loan delinquencies and defaults; legislative or regulatory changes or actions, including in particular the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010 and the regulations promulgated and to be promulgated thereunder by the Office
- (7) of the Comptroller of the Currency ("OCC"), the Federal Reserve Board and the Consumer Financial Protection Bureau, which may subject Peoples, its subsidiaries, or one or more acquired companies to a variety of new and more stringent legal and regulatory requirements which adversely affect their respective businesses;
- (8) deterioration in the credit quality of Peoples' loan portfolio, which may adversely impact the provision for loan losses;
- (9) changes in accounting standards, policies, estimates or procedures, which may adversely affect Peoples' reported financial condition or results of operations; adverse changes in the conditions and trends in the financial markets, including political developments, which
- (10) may adversely affect the fair value of securities within Peoples' investment portfolio, the interest rate sensitivity of Peoples' consolidated balance sheet, and the income generated by Peoples' trust and investment activities;
- (11) Peoples' ability to receive dividends from its subsidiaries;
- (12) Peoples' ability to maintain required capital levels and adequate sources of funding and liquidity;
- (13) the impact of new minimum capital thresholds established as a part of the implementation of Basel III;
- (14) the impact of larger or similar sized financial institutions encountering problems, which may adversely affect the banking industry and/or Peoples' business generation and retention, funding and liquidity;
- (15) the costs and effects of regulatory and legal developments, including the outcome of potential regulatory or other governmental inquiries and legal proceedings and results of regulatory examinations; Peoples' ability to secure confidential information through the use of computer systems and telecommunications
- (16) networks, including those of Peoples' third-party vendors and other service providers, may prove inadequate, which could adversely affect customer confidence in Peoples and/or result in Peoples incurring a financial loss;

under "ITEM 1A. RISK FACTORS" of Peoples' 2013 Form 10-K.

All forward-looking statements speak only as of the filing date of this Form 10-Q and are expressly qualified in their entirety by the cautionary statements. Although management believes the expectations in these forward-looking statements are based on reasonable assumptions within the bounds of management's knowledge of Peoples' business and operations, it is possible that actual results may differ materially from these projections. Additionally, Peoples undertakes no obligation to update these forward-looking statements to reflect events or circumstances after the filing date of this Form 10-Q or to reflect the occurrence of unanticipated events except as may be required by applicable legal requirements. Copies of documents filed with the SEC are available free of charge at the SEC's website at www.sec.gov and/or from Peoples' website – www.peoplesbancorp.com under the "Investor Relations" section. This discussion and analysis should be read in conjunction with the audited Consolidated Financial Statements, and Notes thereto, contained in Peoples' 2013 Form 10-K, as well as the Unaudited Consolidated Financial Statements, Notes to the Unaudited Consolidated Financial Statements, ratios, statistics and discussions contained elsewhere in this Form 10-Q.

Business Overview

The following discussion and analysis of Peoples' Unaudited Consolidated Financial Statements is presented to provide insight into management's assessment of the financial condition and results of operations. Peoples offers diversified financial products and services through 50 financial service locations and 50 ATMs in northeastern, central and southeastern Ohio, west central West Virginia and northeastern Kentucky through its financial service units – Peoples Bank and Peoples Insurance Agency, LLC ("Peoples Insurance"), a subsidiary of Peoples Bank. Peoples Bank is subject to regulation and examination primarily by the OCC and secondarily by the Federal Reserve Board and the Federal Deposit Insurance Corporation (the "FDIC"). Peoples' products and services include traditional banking products, such as deposit accounts, lending products and trust services. Peoples provides services through traditional offices, ATMs, and telephone and internet-based banking. Peoples also offers a complete array of insurance products and makes available custom-tailored fiduciary and wealth management services. Brokerage services are offered by Peoples exclusively through an unaffiliated registered broker-dealer.

Critical Accounting Policies

The accounting and reporting policies of Peoples conform to US GAAP and to general practices within the financial services industry. The preparation of the financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could materially differ from those estimates. Management has identified the accounting policies that, due to the judgments, estimates and assumptions inherent in those policies, are critical to understanding Peoples' Unaudited Consolidated Financial Statements, and Management's Discussion and Analysis at June 30, 2014, which were unchanged from the policies disclosed in Peoples' 2013 Form 10-K.

Summary of Recent Transactions and Events

The following is a summary of recent transactions and events that have impacted or are expected to impact Peoples' results of operations or financial condition:

On April 21, 2014, Peoples entered into the North Akron Agreement. The North Akron Agreement calls for North Akron, which operates four full-service branches in Akron, Cuyahoga Falls, Munroe Falls and Norton, Ohio, to merge into Peoples' wholly-owned subsidiary, Peoples Bank. Under the terms of the North Akron Agreement, shareholders of North Akron will receive \$7,655 per share, or approximately \$20.1 million total value, with 80% of the total consideration to be paid in Peoples' shares and the remaining 20% to be paid in cash. The exchange ratio for the stock component of the transaction will be determined based on the Peoples' average closing stock price during the 20 consecutive trading days immediately preceding the closing of the transaction. The North Akron transaction is expected to be completed during the fourth quarter of 2014, pending adoption of the North Akron Agreement by the shareholders of North Akron, the satisfaction of

various closing conditions, including the accuracy of the representations and warranties of each party (subject to certain exceptions), the performance in all material respects by each party of its obligations under the North Akron Agreement, and other conditions customary for transactions of this type. The North Akron transaction is expected to add \$0.06 to \$0.08 to Peoples' annual earnings per share starting in 2015. One-time acquisition costs will more than offset the incremental earnings in 2014.

Table of Contents

On April 4, 2014, Peoples entered into the Ohio Heritage Agreement. The Ohio Heritage Agreement calls for Ohio Heritage to merge into Peoples, and for Ohio Heritage's wholly-owned subsidiary, Ohio Heritage Bank, an Ohio-chartered savings bank, which operates six full-service branches in Coshocton, Newark, Heath, Mount Vernon and New Philadelphia, Ohio, to merge into Peoples' wholly-owned subsidiary, Peoples Bank. Under the terms of the Ohio Heritage Agreement, shareholders of Ohio Heritage will have the right to receive merger consideration equal to \$110.00 per share, or approximately \$37.6 million total value, with 85% of the total consideration to be paid in Peoples' shares and the remaining 15% to be paid in cash. The exchange ratio for the Peoples shares component of the consideration will be determined based on Peoples' volume weighted-average closing share price during the 20 consecutive trading days immediately preceding the closing of the merger. The Ohio Heritage transaction is expected to be completed during the third quarter of 2014, pending adoption of the Ohio Heritage Agreement by the shareholders of Ohio Heritage, the satisfaction of various closing conditions, including the accuracy of the representations and warranties of each party (subject to certain exceptions), the performance in all material respects by each party of its obligations under the Ohio Heritage Agreement, and other conditions customary for transactions of this type. The Ohio Heritage transaction is expected to add \$0.10 to \$0.12 to Peoples' annual earnings per share starting in 2015. One-time acquisition costs are expected to offset incremental earnings in 2014.

At the close of business on May 30, 2014, Peoples completed the acquisition of Midwest and its full services offices in Wellston and Jackson, Ohio. Under the terms of the agreement, Peoples paid \$65.50 of consideration, or \$12.6 million, of which 50% was paid in cash and the remaining 50% in Peoples' shares. The acquisition added \$59.7 million of loans and \$78.1 million of deposits.

At the close of business on October 11, 2013, Peoples Bank completed the acquisition of Ohio Commerce Bank ("Ohio Commerce") and its single full-service office in Beachwood, Ohio. Under the terms of the agreement, Peoples Bank paid \$13.75 in cash for each share of Ohio Commerce stock for a total cash consideration of \$16.5 million. The acquisition added \$96.6 million of loans and \$110.9 million of deposits.

Peoples periodically has taken actions to reduce interest rate exposure within the investment portfolio and the entire balance sheet, which have included the sale of low-yielding investment securities and repayment of high-cost borrowings. These actions included the sale of \$68.8 million of investment securities, primarily low or volatile yielding residential mortgage-backed securities, during the first quarter of 2013. Some of the proceeds from these investment sales were reinvested in securities during the first quarter with the remaining reinvested early in the second quarter of 2013. During the first half of 2014, in an effort to reduce the relative size of the portfolio, Peoples used the cash flow generated from the investment portfolio to fund loan growth. Peoples' net interest income and margin are impacted by changes in market interest rates based upon actions taken by the Federal Reserve Board either directly or through its Open Market Committee. These actions include changing its target Federal Funds Rate (the interest rate at which banks lend money to each other), Discount Rate (the interest rate charged to banks for money borrowed from the Federal Reserve Bank) and longer-term market interest rates (primarily U.S. Treasury securities). Longer-term market interest rates also are affected by the demand for U.S. Treasury securities. The resulting changes in the yield curve slope have a direct impact on reinvestment rates for Peoples' earning assets.

The Federal Reserve Board has maintained its target Federal Funds Rate at a historically low level of 0% to 0.25% since December 2008 and has maintained the Discount Rate at 0.75% since December 2010. The Federal Reserve Board has indicated the possibility these short-term rates could start to be raised as early as 2015.

From late 2008 until year-end 2012, the Federal Reserve Board took various actions to lower longer-term market interest rates as a means of stimulating the economy – a policy commonly referred to as “quantitative easing”. These actions included the buying and selling of mortgage-backed and other debt securities through its open market operations. In December 2013, the Federal Reserve Board announced plans to taper its quantitative easing efforts. As a result, the slope of the U.S. Treasury yield curve has fluctuated significantly. Substantial flattening occurred in late 2008, in mid-2010 and early third quarter of 2011 through 2012, while moderate steepening occurred in the second half of 2009, late 2010 and mid-2013. The curve has remained relatively steep since mid-2013, primarily as a reaction to the Federal Reserve Board's announcement of a reduction in monthly asset purchases and generally improving economic conditions.

The impact of these transactions and events, where material, is discussed in the applicable sections of this Management's Discussion and Analysis.

EXECUTIVE SUMMARY

Net income for the quarter ended June 30, 2014 was \$3.5 million, or \$0.32 per diluted share, compared to \$4.9 million and \$0.46 per diluted share a year ago, and \$4.8 million or \$0.44 per diluted share in the first quarter of 2014. The decreased earnings in the second quarter of 2014 were largely due to higher provision for loan losses compared to prior periods and increased non-interest expenses.

Peoples' provision for loan losses for the three months ended June 30, 2014 was \$583,000, compared to recoveries of loan losses of \$1.5 million during the three months ended June 30, 2013 and nominal provision for loan losses for the three months ended March 31, 2014. For the six months ended June 30, 2014, provision for loan losses was \$591,000 compared to recoveries of loan losses of \$2.5 million in 2013. The increase in provision for loan losses was a result of higher loan growth in recent quarters. Net charge-offs for the second quarter of 2014 were \$0.1 million compared to net recoveries of \$1.1 million in the second quarter of 2013 and net charge-offs of \$0.2 million in the first quarter of 2014. Asset quality metrics remained favorable during the second quarter of 2014.

Net interest income was \$16.0 million in the second quarter of 2014, compared to \$13.2 million for the second quarter of 2013, while net interest margin was 3.39% and 3.13%, respectively. For the six months ended June 30, 2014, net interest income was \$31.5 million, compared to \$26.1 million in 2013. The improvement over the prior year was driven by an increase in earning assets due to higher loan balances, stability in the asset yields and the change in asset mix. The acquired balances and accretion income from the Midwest acquisition added approximately 3 basis points of net interest margin for the second quarter of 2014. Compared to the prior year second quarter, net interest margin expanded 26 basis points from earning asset growth and accretion income from completed acquisitions.

Total non-interest income was up 5% in the second quarter and 9% for the first half of 2014, compared to the same periods in 2013, due largely to higher insurance income. During the second quarter of 2014, insurance income benefited from increased property and casualty commissions resulting from higher customer retention rates and referrals from other lines of business. In addition, deposit account service charges, and trust and investment income both grew 5% from the linked quarter and 9% from the prior year second quarter. Mortgage banking income continues to be pressured as refinancing activity has declined in response to the higher long-term interest rates, leading to a \$545,000 decline year-to-date.

Non-interest expenses were 6% higher than the linked quarter and 22% higher than the prior year second quarter. This increase included \$1.3 million of acquisition-related costs, consisting primarily of deconversion costs, and professional and legal fees, during the second quarter of 2014, compared to \$150,000 in the linked quarter and \$37,000 in the prior year second quarter. Salaries and employee benefit costs grew 4% over the linked quarter and 26% over the prior year second quarter as employee medical benefit plan costs increased due to higher claim activity and pension settlement charges of \$536,000 recognized in the second quarter of 2014. Pension settlement charges during the first half of 2014 were \$1.0 million, while there were no pension settlement charges recognized in the first half of 2013.

At June 30, 2014, total assets were \$2.16 billion, up \$104.8 million from year-end 2013. This increase was primarily the result of the Midwest acquisition, coupled with organic loan growth of \$63.4 million since December 31, 2013. The allowance for loan losses was \$17.4 million, or 1.32% of loans (net of deferred fees and costs), compared to \$17.1 million and 1.43% at December 31, 2013.

Total liabilities were \$1.92 billion at June 30, 2014, up \$82.1 million since year-end 2013. Retail deposit balances grew 6%, or \$88.6 million since year-end, primarily driven by the deposits acquired from Midwest of \$78.1 million. Non-interest bearing deposits increased 4% or \$16.5 million from December 31, 2013 primarily due to the Midwest acquisition. Peoples continues to focus on its strategy of reducing high-cost funding with increases in low-cost core deposits.

At June 30, 2014, total stockholders' equity was \$244.3 million, up \$22.7 million since December 31, 2013. During the second quarter of 2014, Peoples issued \$6.3 million of common shares in consideration for the Midwest acquisition. In addition, earnings exceeded dividends declared in 2014 and the fair value of the available-for-sale investment portfolio increased. Regulatory capital ratios remained significantly higher than "well capitalized" minimums. Peoples' Tier 1 Common Capital ratio remained stable at 12.33% at June 30, 2014, versus 12.42% at December 31, 2013, while the Total Risk-Based Capital ratio was 13.65% versus 13.78% at December 31, 2013. In

addition, Peoples' tangible equity to tangible asset ratio was 7.92% and tangible book value per share was \$15.10 at June 30, 2014, versus 7.26% and \$13.57 at December 31, 2013, respectively.

RESULTS OF OPERATIONS

Net Interest Income

Net interest income, the amount by which interest income exceeds interest expense, remains Peoples' largest source of revenue. The amount of net interest income earned by Peoples each quarter is affected by various factors, including changes in market interest rates due to the Federal Reserve Board's monetary policy, the level and degree of pricing competition for both loans and deposits in Peoples' markets, and the amount and composition of Peoples' earning assets and interest-bearing liabilities.

The following tables detail Peoples' average balance sheets for the periods presented:

- (1) Average balances are based on carrying value.
- (2) Interest income and yields are presented on a fully tax-equivalent basis using a 35% federal statutory tax rate. Average balances include nonaccrual and impaired loans. Interest income includes interest earned on nonaccrual
- (3) loans prior to the loans being placed on nonaccrual status. Loan fees included in interest income were immaterial for all periods presented.
- (4) Loans held for sale are included in the average loan balance listed. Related interest income on loans originated for sale prior to the loan being sold is included in loan interest income.

Net interest margin, which is calculated by dividing fully tax-equivalent (“FTE”) net interest income by average interest-earning assets, serves as an important measurement of the net revenue stream generated by the volume, mix and pricing of earning assets and interest-bearing liabilities. FTE net interest income is calculated by increasing interest income to convert tax-exempt income earned on obligations of states and political subdivisions to the pre-tax equivalent of taxable income using a 35% federal statutory tax rate. The following table details the calculation of FTE net interest income:

Net interest income for the second quarter of 2014 increased 4% compared to the linked quarter and 22% from the prior year second quarter. During the second quarter of 2014, net interest income and margin benefited from accretion income related to the Midwest and Ohio Commerce acquisitions of \$50,000 and \$226,000, respectively, and when combined, added 6 basis points to net interest margin. In comparison, accretion income from Ohio Commerce was \$231,000 in the first quarter of 2014.

Table of Contents

Net interest income continues to grow as increases in average loan balances from higher sales production and acquisitions occur. Loan growth, further reductions in the relative size of the investment portfolio and decreases in funding costs are improving net interest income and margin.

Average loan balances have benefited from double-digit annualized organic loan growth in each of the last five quarters. The organic growth and acquired loans position Peoples to meet, if not surpass, its goal of 15% to 20% year-over-year increase in average loan balances for the full year of 2014.

Peoples' strategy of replacing higher-cost funding with low-cost deposits caused a decline in funding costs in the second quarter of 2014. Compared to the prior year second quarter, loan growth has been funded by increases in low-cost deposits and wholesale funding, in addition to cash flows provided by the investment portfolio.

Management has not changed its overall balance sheet strategies of reducing the size of the investment portfolio relative to total earning assets and minimizing Peoples' long-term interest rate risk by potentially match funding some of the 2014 loan growth. Peoples continues to focus on reducing high-cost funding with increases in low-cost core deposits.

The pending acquisitions could provide management with additional opportunities to make meaningful progress with these balance sheet strategies. Specifically, Peoples could elect to sell some, or all, of the investment securities currently held by the acquired banks and use the proceeds to repay wholesale borrowings. Such action, if taken, would result in a smaller increase in total earning assets and net interest income.

Additional information regarding changes in the Unaudited Consolidated Balance Sheets can be found under appropriate captions of the "FINANCIAL CONDITION" section of this discussion. Additional information regarding Peoples' interest rate risk and the potential impact of interest rate changes on Peoples' results of operations and financial condition can be found later in this discussion under the caption "Interest Rate Sensitivity and Liquidity".

Provision for (Recovery of) Loan Losses

The following table details Peoples' provision for, or recovery of, loan losses:

	Three Months Ended			Six Months Ended

As a percentage of average gross loans (a)	0.19	%—	%(0.58)	% 0.10	%(0.51)%

(a) Presented on an annualized basis

The provision for, or recovery of, loan losses recorded represents the amount needed to maintain the adequacy of the allowance for loan losses based on management's quarterly analysis of the loan portfolio and procedural methodology that estimates the amount of probable credit losses. This process considers various factors that affect losses, such as changes in Peoples' loan quality, historical loss experience and current economic conditions. The provision for loan losses recorded during the second quarter of 2014 was driven mostly by higher loan growth. During 2014, charge-offs on loans exceeded recoveries by \$69,000 for the second quarter and \$272,000 on a year-to-date basis. In 2013, recoveries on loans surpassed charge-offs by \$1.1 million in the second quarter and \$1.8 million year-to-date. Peoples continued to experience loss trends and levels of criticized loans that were below historical averages.

Additional information regarding changes in the allowance for loan losses and loan credit quality can be found later in this discussion under the caption "Allowance for Loan Losses".

Net Other (Losses) Gains

The following table details the other losses and gains recognized by Peoples:

	Three Months Ended			Six Months Ended	
	June 30, 2014	March 31, 2014	June 30, 2013	June 30, 2014	2013
(Dollars in thousands)					
Net gain on OREO	\$—	\$18	\$81	\$18	\$76
Net loss on bank premises and equipment	(187)(7)(87)(194)(87
Net other (losses) gains	\$(187)\$11	\$(6)(176)(11

The loss on bank premises and equipment recorded during the second quarter of 2014 included \$149,000 of losses due to asset write-offs associated with the Midwest acquisition. The remaining \$38,000 of losses were the result of relocation of banking and insurance offices during the second quarter of 2014. The net gain on OREO for the second quarter of 2013 was the result of the sale of two commercial properties. The net loss on bank premises and equipment for the second quarter of 2013 was due to the write-downs of \$89,000 related to closed office locations that are available for sale.

Non-Interest Income

Insurance income comprised the largest portion of second quarter 2014 non-interest income. The following table details Peoples' insurance income:

	Three Months Ended			Six Months Ended	
	June 30, 2014	March 31, 2014	June 30, 2013	June 30, 2014	2013
(Dollars in thousands)					
Property and casualty insurance commissions	\$2,709	\$2,453	\$2,705	\$5,162	\$4,876
Performance-based commissions	249	1,183	81	1,432	585
Life and health insurance commissions	393	425	309	818	455
Credit life and A&H insurance commissions	9	7	34	16	57
Other fees and charges	83	48	91	131	125
Total insurance income	\$3,443	\$4,116	\$3,220	\$7,559	\$6,098

The growth in property and casualty insurance commissions was primarily driven by higher premiums throughout the industry and increased production from referrals between lines of business at Peoples. The increase in life and health insurance commissions compared to 2013 was the result of acquisitions completed during the second quarter of 2013. The bulk of performance-based commissions typically are recorded annually in the first quarter and are based on a combination of factors, such as loss experience of insurance policies sold, production volumes, and overall financial performance of the individual insurance carriers.

Deposit account service charges continued to comprise a sizable portion of Peoples' non-interest income. The following table details Peoples' deposit account service charges:

	Three Months Ended			Six Months Ended	
	June 30, 2014	March 31, 2014	June 30, 2013	June 30, 2014	2013
(Dollars in thousands)					
Overdraft and non-sufficient funds fees	\$1,772	\$1,544	\$1,732	\$3,316	\$3,337
Account maintenance fees	413	377	311	790	601
Other fees and charges	42	190	2	232	164
Total deposit account service charges	\$2,227	\$2,111	\$2,045	\$4,338	\$4,102

The amount of deposit account service charges, particularly fees for overdrafts and non-sufficient funds, is largely dependent on the timing and volume of customer activity. Peoples typically experiences a lower volume of overdraft and non-sufficient funds fees annually in the first quarter attributable to customers receiving income tax refunds, while volumes generally increase in the fourth quarter in connection with the holiday shopping season.

Table of Contents

Peoples' fiduciary and brokerage revenues continue to be based primarily upon the value of assets under management, with additional income generated from transaction commissions. The following tables detail Peoples' trust and investment income and related assets under management:

Quarterly average	\$ 1,505,433	\$ 1,479,110	\$ 1,455,429	\$ 1,417,707	\$ 1,373,135

Over the last several years, Peoples has continued to attract new managed funds, due in part to the addition of experienced financial advisors in previously underserved market areas. In addition, Peoples added new business related to the retirement plans for which it manages the assets and provides services. The U.S. financial markets have experienced a general increase in market value since the beginning of 2013, which have also contributed to the increase in managed assets.

Peoples electronic banking services include ATM and debit cards, direct deposit services, internet banking, and personal electronic device applications, and serve as alternative delivery channels to traditional sales offices for providing services to customers. The growth in electronic banking income during the first half of 2014 was primarily due to an increase in the volume of debit card transactions.

Mortgage banking income decreased significantly from 2013 due to reduced refinancing activity, which is driven by mortgage interest rates available in the secondary market and customers' preference for long-term, fixed-rate loans. Compared to the linked quarter, mortgage banking income was up slightly due to the seasonality in the industry as home purchases typically increase during the spring and early summer. In the second quarter of 2014, Peoples sold approximately \$11.3 million of loans to the secondary market compared to \$7.8 million in the first quarter of 2014 and \$14 million in the second quarter of 2013. In the first six months of 2014, Peoples sold approximately \$19.1 million compared to \$46.1 million in the first half of 2013.

Non-Interest Expense

Salaries and employee benefit costs remain Peoples' largest non-interest expense, accounting for more than half of total non-interest expense.

Table of Contents

The following table details Peoples' salaries and employee benefit costs:

(Dollars in thousands)	Three Months Ended			Six Months Ended	
	June 30, 2014	March 31, 2014	June 30, 2013	June 30, 2014	2013

Full-time equivalent employees:					
Actual at end of period	576	557	545	576	545
Average during the period	563	549	531	556	521

For the three months ended June 30, 2014, base salaries and wages were primarily higher than the linked quarter as a result of severance and retention payouts associated with the Midwest acquisition. Compared to the prior year second quarter, the increase was due to the addition of new sales talent in several markets and completed acquisitions that have increased the number of full-time equivalent employees. Employee medical benefit costs were essentially flat compared to the prior quarter and nearly doubled compared to prior year second quarter due to higher claim activity experienced. During the second quarter of 2014, Peoples recorded a one-time pension settlement charge of \$536,000, compared to \$486,000 in the first quarter of 2014 and for which no charges were recorded in the first half of 2013. Given the nature of the pension settlement, it is inherently difficult to estimate the amount or exact timing of future pension settlement charges.

Peoples' net occupancy and equipment expense was comprised of the following:

(Dollars in thousands)	Three Months Ended			Six Months Ended	
	June 30, 2014	March 31, 2014	June 30, 2013	June 30, 2014	2013
Depreciation	\$ 677	\$ 685	\$ 590	\$ 1,362	\$ 1,357
Repairs and maintenance costs	451	458	460	909	907
Net rent expense	219	241	200	461	421
Property taxes, utilities and other costs	392	432	376	823	799
Total net occupancy and equipment expense	\$ 1,739	\$ 1,816	\$ 1,626	\$ 3,555	\$ 3,484

Net occupancy and equipment expense was stable in the second quarter and first six months of 2014 compared to prior periods. Seasonal fluctuations occur in the timing of repairs and maintenance costs, such as snow removal, and are generally higher in the first and fourth quarters.

Professional fees increased during the second quarter of 2014 due to \$375,000 of additional expenses associated with acquisition activity, compared to \$91,000 in the linked quarter and \$37,000 in the prior year. Through the first six months of 2014, professional fees increased \$278,000, which was primarily caused by acquisition-related expenses. Electronic banking expense, which is comprised of bankcard and internet-based banking costs, continued to increase in the second quarter and first six months of 2014 compared to prior periods. The primary reasons for the increase were a higher volume of transactions completed by customers and additional services provided.

Peoples' efficiency ratio, calculated as non-interest expense less amortization of other intangible assets divided by FTE net interest income plus non-interest income, was 75.58% for the second quarter of 2014, higher than the linked quarter of 71.13% and the prior year second quarter of 71.71%. Management continues to target an efficiency ratio in the range of 68% to 70%, absent acquisition-related costs and other one-time expenses, such as pension settlement charges.

Income Tax Expense

For the six months ended June 30, 2014, Peoples recorded income tax expense of \$3.7 million, for an effective tax rate of 31.1%. This effective tax rate represents management's current estimate of the rate for the entire year. In comparison, Peoples recorded income tax expense of \$4.8 million for the same period in 2013, for an effective tax rate of 32.7%.

Pre-Provision Net Revenue

Pre-provision net revenue ("PPNR") has become a key financial measure used by federal bank regulatory agencies when assessing the capital adequacy of financial institutions. PPNR is defined as net interest income plus non-interest income minus non-interest expense and, therefore, excludes the provision for loan losses and all gains and losses included in earnings. As a result, PPNR represents the earnings capacity that can be either retained in order to build capital or used to absorb unexpected losses and preserve existing capital.

The following table provides a reconciliation of this non-GAAP financial measure to the amounts reported in Peoples' consolidated financial statements for the periods presented:

During the second quarter of 2014, PPNR decreased due to additional costs from acquisition-related activities.

FINANCIAL CONDITION

Cash and Cash Equivalents

At June 30, 2014, Peoples' interest-bearing deposits in other banks decreased compared to December 31, 2013. These balances included \$2.0 million of excess cash reserves being maintained at the Federal Reserve Bank at June 30, 2014, compared to \$14.2 million at December 31, 2013. The amount of excess cash reserves maintained is dependent upon Peoples' daily liquidity position, which is driven primarily by changes in deposit and loan balances.

Through six months of 2014, Peoples' total cash and cash equivalents increased \$0.1 million, as cash provided by operating activities totaling \$14.4 million was mostly offset by cash used in investing and financing activities. Within Peoples' investing activities, the \$50.1 million generated by activities related to available-for-sale securities, and \$6.3 million in proceeds from bank owned life insurance contracts were used to partially fund the \$62.8 million net loan growth. Peoples' financing activities used \$1.9 million as payments on long-term borrowings and cash dividends paid to shareholders exceeded cash provided by deposits and short-term borrowings.

In comparison, through the six months of 2013, Peoples' total cash and cash equivalents decreased \$24.8 million, as cash used in Peoples' investing and financing activities exceeded the \$20.3 million of cash generated by operating activities. Investing activities used \$27.6 million of cash to partially fund the \$42.9 million net loan growth, while proceeds from sales and principal payments of investment securities exceeded purchases by \$12.8 million. Within Peoples' financing activities, the decrease in deposits of \$56.5 million resulted in increased borrowed funds of \$41.6

million.

In the second quarter of 2014, reductions in the investment portfolio from the linked quarter were partially offset by increases in the unrealized gain or loss position of the securities. Peoples continues to use principal paydowns on securities to fund loan growth, in an effort to reduce the size of the investment portfolio. At June 30, 2014, the investment portfolio was 31% of total assets compared to 33% at year-end and 35% a year ago. In recent quarters, Peoples has maintained the size of the held-to-maturity securities portfolio, for which the unrealized gain or loss does not directly impact stockholders' equity, contrary to the available-for-sale securities portfolio.

Peoples' investment in residential and commercial mortgage-backed securities largely consists of securities either guaranteed by the U.S. government or issued by U.S. government sponsored agencies, such as Fannie Mae and Freddie Mac. The remaining portions of Peoples' mortgage-backed securities consist of securities issued by other entities, including other financial institutions, which are not guaranteed by the U.S. government.

The amount of these "non-agency" securities included in the residential mortgage-backed securities totals above was as follows:

(Dollars in thousands)	June 30, 2014	March 31, 2014	December 31, 2013	September 30, 2013	June 30, 2013

Net unrealized gain	\$ 596	\$ 789	\$ 520	\$ 1,143	\$ 1,245

Management continues to reinvest the principal runoff from the non-agency securities into U.S agency investments, which has accounted for the continued decline in the fair value of these securities. At June 30, 2014, Peoples'

non-agency portfolio consisted entirely of first lien residential mortgages, with nearly all of the underlying loans in these securities

originated prior to 2004 and possessing fixed interest rates. Management continues to monitor the non-agency portfolio closely for leading indicators of increasing stress and will continue to be proactive in taking actions to mitigate such risk when necessary.

Gross portfolio loans increased \$92.8 million, or 8% from the prior quarter due to organic growth and the Midwest acquisition. The loans acquired from Midwest added approximately \$2.1 million of commercial real estate loans, \$3.2 million of commercial and industrial loans, \$47.1 million of residential real estate loans and \$7.3 million of consumer loans after purchase accounting adjustments. The remaining increase in commercial and industrial loans was primarily driven by several new loan originations during the second quarter of 2014. Consumer loan balances, which consist mostly of loans to finance automobile purchases, have continued to increase in recent quarters due largely to Peoples placing greater emphasis on its consumer lending activity.

Loan Concentration

Peoples categorizes its commercial loans according to standard industry classifications and monitors for concentrations in a single industry or multiple industries that could be impacted by changes in economic conditions in a similar manner. Peoples' commercial lending activities continue to be spread over a diverse range of businesses from all sectors of the economy, with no single industry comprising over 10% of Peoples' total loan portfolio.

Loans secured by commercial real estate, including commercial construction loans, continue to comprise the largest portion of Peoples' loan portfolio.

Table of Contents

Peoples' commercial lending activities continue to focus on lending opportunities inside its primary and secondary market areas within Ohio, West Virginia and Kentucky. In all other states, the aggregate outstanding balances of commercial loans in each state were less than \$4.0 million at both June 30, 2014 and December 31, 2013.

Allowance for Loan Losses

The amount of the allowance for loan losses at the end of each period represents management's estimate of expected losses from existing loans based upon its quarterly analysis of the loan portfolio. While this process involves allocations being made to specific loans and pools of loans, the entire allowance is available for all losses incurred within the loan portfolio. The following details management's allocation of the allowance for loan losses:

(Dollars in thousands)	June 30, 2014	March 31, 2014	December 31, 2013	September 30, 2013	June 30, 2013	
Commercial real estate	10,267	13,327	13,215	12,826	12,568	
Commercial and industrial	3,219	2,130	2,174	2,195	2,188	
Total commercial	13,486	15,457	15,389	15,021	14,756	
Residential real estate	1,818	782	881	826	1,005	
Home equity lines of credit	656	329	343	337	490	
Consumer	1,298	198	316	564	740	
Deposit account overdrafts	126	104	136	154	122	
Total allowance for loan losses	\$ 17,384	\$ 16,870	\$ 17,065	\$ 16,902	\$ 17,113	
As a percent of loans, net of deferred fees and costs	1.32	% 1.38	% 1.43	% 1.60	% 1.66	%

The significant allocations to commercial loans reflect the higher credit risk associated with this type of lending and the size of this loan category in relationship to the entire loan portfolio. In the second quarter of 2014, Peoples increased the allowance for loan losses due to loan growth during recent quarters. Peoples' asset quality continued to remain favorable during 2014. Net charge-offs also remained at or below Peoples' long-term historical rate. These factors had a direct impact on the estimated loss rates used to determine the appropriate allocations for commercial loans.

The allowance allocated to the residential real estate and consumer loan categories is based upon Peoples' allowance methodology for homogeneous pools of loans. The fluctuations in these allocations have been directionally consistent with the changes in loan quality, loss experience and loan balances in these categories.

During the second quarter of 2014, loans reported as accruing and 90 days past due increased significantly, primarily due to a single relationship of \$1.2 million that is expected to payoff during the third quarter of 2014, coupled with acquired balances from the Midwest acquisition. The increase in OREO during the second quarter of 2014 was also the result of properties acquired from the Midwest acquisition.

During the second quarter of 2014, Peoples completed the acquisition of Midwest, which included retail certificates of deposits ("CDs") totaling \$36.2 million, money market deposit accounts of \$3.8 million, governmental deposit accounts of \$0.5 million, savings accounts of \$15.1 million, interest-bearing demand accounts of \$7.1 million and non-interest bearing deposits of \$15.4 million. Excluding the acquired deposit accounts, retail certificates of deposit, money market deposit accounts and governmental deposit accounts declined \$42.4 million from March 31, 2014. Peoples maintained its deposit strategy of growing low-cost core deposits, such as checking and savings accounts, and reducing its reliance on higher-cost, non-core deposits, such as CDs and brokered deposits.

Borrowed Funds

The following table details Peoples' short-term and long-term borrowings:

(Dollars in thousands)	June 30, 2014	March 31, 2014	December 31, 2013	September 30, 2013	June 30, 2013

Peoples' short-term FHLB advances generally consist of overnight borrowings being maintained in connection with the management of Peoples' daily liquidity position.

As disclosed in Peoples' 2013 Form 10-K, Peoples entered into a loan agreement in 2012, and is subject to certain covenants. At June 30, 2014, Peoples was in compliance with the applicable material covenants imposed by this agreement, as explained in more detail in Note 10 of the Notes to the Consolidated Financial Statements included in Peoples' 2013 Form 10-K.

Capital/Stockholders' Equity

During the second quarter of 2014, Peoples issued common shares (representing \$6.3 million) in partial consideration for the Midwest acquisition, and the remaining consideration was paid in cash. Accumulated other comprehensive income also benefited from an increase in the market value of available-for-sale investment securities. At June 30, 2014, capital levels for both Peoples and Peoples Bank remained substantially higher than the minimum amounts needed to be considered "well capitalized" institutions under banking regulations. These higher capital levels reflect Peoples' desire to maintain strong capital positions to provide greater flexibility to grow the company.

The following table details Peoples' actual risk-based capital levels and corresponding ratios:

In addition to traditional capital measurements, management uses tangible capital measures to evaluate the adequacy of Peoples' stockholders' equity. Such ratios represent non-GAAP financial information since their calculation removes the impact of intangible assets acquired through acquisitions on the Unaudited Consolidated Balance Sheets. Management believes this information is useful to investors since it facilitates the comparison of Peoples' operating performance, financial condition and trends to peers, especially those without a similar level of intangible assets to that of Peoples. Further, intangible assets generally are difficult to convert into cash, especially during a financial crisis, and could decrease substantially in value should there be deterioration in the overall franchise value. As a result, tangible equity represents a conservative measure of the capacity for a company to incur losses but remain solvent.

The following table reconciles the calculation of these non-GAAP financial measures to amounts reported in Peoples' Unaudited Consolidated Financial Statements:

Table of Contents

The increase in the linked quarter tangible equity to tangible assets ratio during the second quarter of 2014 was primarily caused by the issuance of equity in the Midwest acquisition and an increase in the market value of the available-for-sale investment portfolio. Compared to the second quarter of 2013, increases in stockholders' equity were driven primarily by earnings exceeding dividends, while higher tangible assets were attributable to loan production and acquisitions.

Interest Rate Sensitivity and Liquidity

While Peoples is exposed to various business risks, the risks relating to interest rate sensitivity and liquidity are major risks that can materially impact future results of operations and financial condition due to their complexity and dynamic nature. The objective of Peoples' asset/liability management ("ALM") function is to measure and manage these risks in order to optimize net interest income within the constraints of prudent capital adequacy, liquidity and safety. This objective requires Peoples to focus on interest rate risk exposure and adequate liquidity through its management of the mix of assets and liabilities, their related cash flows, and the rates earned and paid on those assets and liabilities. Ultimately, the ALM function is intended to guide management in the acquisition and disposition of earning assets, and selection of appropriate funding sources.

Interest Rate Risk

Interest rate risk ("IRR") is one of the most significant risks arising in the normal course of business of financial services companies like Peoples. IRR is the potential for economic loss due to future interest rate changes that can impact the earnings stream as well as market values of financial assets and liabilities. Peoples' exposure to IRR is due primarily to differences in the maturity or repricing of earning assets and interest-bearing liabilities. In addition, other factors, such as prepayments of loans and investment securities or early withdrawal of deposits, can expose Peoples to IRR and increase interest costs or reduce revenue streams.

Peoples has assigned overall management of IRR to its Asset-Liability Committee (the "ALCO"), which has established an IRR management policy that sets minimum requirements and guidelines for monitoring and managing the level and amount of IRR. The methods used by the ALCO to assess IRR remain unchanged from those disclosed in Peoples' 2013 Form 10-K.

The following table shows the estimated changes in net interest income and the economic value of equity based upon a standard, parallel shock analysis (dollars in thousands):

Increase in Interest Rate (in Basis Points)	Estimated Increase in Net Interest Income		Estimated Decrease in Economic Value of Equity					
	June 30, 2014	December 31, 2013	June 30, 2014	December 31, 2013	June 30, 2014	December 31, 2013		
300	\$6,504	10.1 %	\$5,473	8.9 %	\$(53,632)	(17.9 %)	\$(65,867)	(24.8 %)
200	5,329	8.3 %	4,494	7.3 %	(35,273)	(11.8 %)	(46,077)	(17.4 %)
100	3,411	5.3 %	2,885	4.7 %	(16,404)	(5.5 %)	(23,910)	(9.0 %)

At June 30, 2014, Peoples' Consolidated Balance Sheet remained positioned for a rising interest rate environment, as illustrated by the potential increase in net interest income shown in the above table. The benefit of the actions taken late in the first quarter of 2013 within the investment portfolio to reduce interest rate exposure were fully reflected in the analysis above. While parallel interest rate shock scenarios are useful in assessing the level of IRR inherent in Peoples' Consolidated Balance Sheet, interest rates typically move in a non-parallel manner, with differences in the timing, direction and magnitude of changes in short-term and long-term interest rates. Thus, any benefit that could occur as a result of the Federal Reserve Board increasing short-term interest rates in future quarters could be offset by an inverse movement in long-term interest rates.

Liquidity

In addition to IRR management, another major objective of the ALCO is to maintain a sufficient level of liquidity. The methods used by the ALCO to monitor and evaluate the adequacy of Peoples' liquidity position remain unchanged from those disclosed in Peoples' 2013 Form 10-K.

At June 30, 2014, Peoples had liquid assets of \$188.9 million, which represented 8.1% of total assets and unfunded commitments. This amount exceeded the minimal level of \$46.5 million, or 2% of total loans and unfunded commitments, currently required under Peoples' liquidity policy. Peoples also had an additional \$40.8 million of

unpledged securities not included in the measurement of liquid assets.

Table of Contents

Management believes the current balance of cash and cash equivalents and anticipated cash flows from the investment portfolio, along with the availability of other funding sources, will allow Peoples to meet anticipated cash obligations, as well as special needs and off-balance sheet commitments.

Off-Balance Sheet Activities and Contractual Obligations

Peoples routinely engages in activities that involve, to varying degrees, elements of risk that are not reflected in whole or in part in the Unaudited Consolidated Financial Statements. These activities are part of Peoples' normal course of business and include traditional off-balance sheet credit-related financial instruments, interest rate contracts and commitments to make additional capital contributions in low-income housing tax credit investments. Traditional off-balance sheet credit-related financial instruments continue to represent the most significant off-balance sheet exposure.

The following table details the total contractual amount of loan commitments and standby letters of credit:

(Dollars in thousands)	June 30, 2014	March 31, 2014	December 31, 2013	September 30, 2013	June 30, 2013
Home equity lines of credit	\$ 50,558	\$ 49,918	\$ 49,533	\$ 45,655	\$ 43,956
Unadvanced construction loans	29,396	23,231	30,203	25,923	25,646
Other loan commitments	155,858	136,805	137,661	129,418	138,783
Loan commitments	235,812	209,954	217,397	200,996	208,385
Standby letters of credit	\$ 33,852	\$ 33,555	\$ 33,998	\$ 34,804	\$ 35,845

Management does not anticipate Peoples' current off-balance sheet activities will have a material impact on its future results of operations and financial condition based on historical experience and recent trends.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The information called for by this Item 3 is provided under the caption "Interest Rate Sensitivity and Liquidity" under "ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF RESULTS OF OPERATIONS AND FINANCIAL CONDITION" in this Form 10-Q, and is incorporated herein by reference.

ITEM 4. CONTROLS AND PROCEDURES**Evaluation of Disclosure Controls and Procedures**

Peoples' management, with the participation of Peoples' President and Chief Executive Officer and Peoples' Executive Vice President, Chief Financial Officer and Treasurer, has evaluated the effectiveness of Peoples' disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")) as of June 30, 2014. Based upon that evaluation, Peoples' President and Chief Executive Officer and Peoples' Executive Vice President, Chief Financial Officer and Treasurer have concluded that:

- (a) information required to be disclosed by Peoples in this Quarterly Report on Form 10-Q and other reports Peoples files or submits under the Exchange Act would be accumulated and communicated to Peoples' management, including its President and Chief Executive Officer and its Executive Vice President, Chief Financial Officer and Treasurer, as appropriate to allow timely decisions regarding required disclosure;
- (b) information required to be disclosed by Peoples in this Quarterly Report on Form 10-Q and other reports Peoples files or submits under the Exchange Act would be recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms; and
- (c) Peoples' disclosure controls and procedures were effective as of the end of the fiscal quarter covered by this Quarterly Report on Form 10-Q.

Changes in Internal Control Over Financial Reporting

There were no changes in Peoples' internal control over financial reporting (as defined in Rule 13a-15(f) under the Exchange Act) that occurred during Peoples' fiscal quarter ended June 30, 2014, that have materially affected, or are reasonably likely to materially affect, Peoples' internal control over financial reporting.

PART II

ITEM 1. LEGAL PROCEEDINGS

In the ordinary course of their respective businesses or operations, Peoples or one of its subsidiaries may be named as a plaintiff, a defendant, or a party to a legal proceeding or any of their respective properties may be subject to various pending and threatened legal proceedings and various actual and potential claims. In view of the inherent difficulty of predicting the outcome of such matters, Peoples cannot state what the eventual outcome of any such matters will be; however, based on current knowledge and after consultation with legal counsel, management believes these proceedings will not have a material adverse effect on the consolidated financial position, results of operations or liquidity of Peoples.

ITEM 1A. RISK FACTORS

There have been no material changes from those risk factors previously disclosed in "ITEM 1A. RISK FACTORS" of Part I of Peoples' 2013 Form 10-K. Those risk factors are not the only risks Peoples faces. Additional risks and uncertainties not currently known to management or that management currently deems to be immaterial also may materially adversely affect Peoples' business, financial condition and/or operating results.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

The following table details repurchases by Peoples and purchases by "affiliated purchasers" as defined in Rule 10b-18(a)(3) under the Securities Exchange Act of 1934, as amended, of Peoples' shares during the three months ended June 30, 2014:
