COLONIAL HIGH INCOME MUNICIPAL TRUST

SEMIANNUAL REPORT

MAY 31, 2002

PRESIDENT'S MESSAGE

DEAR SHAREHOLDER:

The environment for the municipal bond market has been shaped by economic events and investor uncertainties over the past six months. Although the Federal Reserve halted its string of interest rate cuts in December 2001, its presence on the sidelines was felt by the market as investors tried to guess the timing of its next move. A robust first quarter suggested that the Fed could act early in 2002 to begin to raise short-term interest rates; however, they remained at a 40-year low throughout the period. Indications of more moderate economic growth in the second quarter raised the possibility that the Fed may delay action until later in the year.

The municipal bond market was one of the strongest bond market sectors for the six-month period. As cities and states face leaner times and tighter budgets, the volume of new municipal bonds increased somewhat. However, demand also increased as investors favored bonds over stocks, and that has helped support municipal bond returns.

The following report will provide you with more detailed information about the trust's performance and the strategies used by portfolio manager Maureen G. Newman. For more information, contact your financial advisor. As always, we thank you for investing in Colonial High Income Municipal Trust and for giving us the opportunity to help you build a strong financial future.

Sincerely,

/s/ Keith T. Banks

PORTFOLIO MANAGER'S REPORT

For the six-month period ended May 31, 2002, Colonial High Income Municipal Trust generated a 2.55% total return, based on net asset value. The trust

Edgar Filing: COLONIAL HIGH INCOME MUNICIPAL TRUST - Form N-30D

outperformed its peer group, the Lipper High Yield Municipal Debt Funds Category Average, which was 2.01%. The trust performed in line with the Lehman Brothers Municipal Bond Index, which returned 2.56%. Good security selection and a focus on yield benefited the trust. The trust's leverage, investing the proceeds from the sale of preferred shares in long-term bonds and paying out a short rate, boosted its income. As a result, the income available for distribution to common shareholders was enhanced. The trust's relatively large allocation to intermediate-term bonds, which outperformed shorter-term bonds, also aided performance.

Early in the period, financial data began to indicate that the economy was poised for recovery. While there was uncertainty about how strong the economic rebound would be, interest rates rose. In this environment, we began reducing the trust's commitment to defensive issues, such as health care, which tend to perform well in a poor economy, and added cyclical securities which usually do well when economic growth picks up. In the cyclical area we invested in Cessna Citation Service Center, the aircraft division of Textron Manufacturing Company (0.2% of net assets).⁽¹⁾ We also established a position in Seminole Tribe Convention Center (0.2% of net assets), a Florida gaming company.

Looking ahead, we believe interest rates have the potential to stabilize or rise as the economy slowly recovers. Therefore, we expect most of the trust's total return to come from income.

(1) Holdings are disclosed as of May 31, 2002 and are subject to change.

Because the trust is actively managed, there can be no guarantee that the trust will continue to maintain this quality breakdown or invest in these sectors in the future. Past performance is no guarantee of future investment results. The principal value and investment returns will fluctuate, resulting in a gain or loss on sale.

Tax-exempt investing offers current tax-exempt income, but it also involves certain risks. The value of the trust shares will be affected by interest rate changes and the creditworthiness of issues held in the trust. Interest income from certain tax-exempt bonds may be subject to the federal alternative minimum tax for individuals and corporations.

		\$ 2,340,000

- (c) Settlement of this security is on a delayed delivery basis.
- (d) This issue is in default of certain debt covenants. Income is not being fully accrued.
- (e) Accrued interest accumulates in the value of the security and is payable at redemption.
- (f) These securities are exempt from registration under Rule 144A of the Securities Act of 1933 and may be resold in transactions exempt from registration, normally to qualified institutional buyers. At May 31, 2002, the value of these securities amounted to \$5,598,267, which represents 1.7% of net assets.
- (g) The Trust has been informed that each issuer has placed direct obligations of the U.S. Government in an irrevocable trust, solely for the payment of principal and interest.
- (h) This security, or a portion thereof with a market value of \$2,759,288, is being used to collateralize open futures contracts.

Edgar Filing: COLONIAL HIGH INCOME MUNICIPAL TRUST - Form N-30D

- (i) Variable rate demand notes are considered short-term obligations. Interest rates change periodically on specified dates. These securities are payable on demand and are secured by either letters of credit or other credit support agreements from banks. The rates listed are as of May 31, 2002.
- (j) Cost for generally accepted accounting principles is \$337,998,095. Cost for federal income tax purposes is \$337,800,265. The difference between cost for generally accepted accounting principles and cost on a tax basis is related to amortization/accretion tax elections on fixed income securities.

NOTES TO FINANCIAL STATEMENTS

May 31, 2002 (Unaudited)

NOTE 1. ACCOUNTING POLICIES

ORGANIZATION:

Colonial High Income Municipal Trust (the "Trust") is a Massachusetts business trust registered under the Investment Company Act of 1940 (the "Act"), as amended, as a diversified, closed-end management investment company. The Trust's investment goal is to provide high current income, generally exempt from federal income taxes. The Trust's secondary investment goal is to seek total return. The Trust is authorized to issue an unlimited number of common shares of beneficial interest and 4,800 Auction Preferred Shares ("APS").

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates. The following is a summary of significant accounting policies consistently followed by the Trust in the preparation of its financial statements.

SECURITY VALUATION AND TRANSACTIONS:

Debt securities generally are valued by a pricing service based upon market transactions for normal, institutional-size trading units of similar securities. When management deems it appropriate, an over-the-counter or exchange bid quotation is used.

Futures contracts are valued based on the difference between the last sale price and the opening price of the contract.

Options are valued at the last reported sale price, or in the absence of a sale, the mean between the last quoted bid and asking price.

Short-term obligations with a maturity of 60 days or less are valued at amortized cost.

Investments for which market quotations are not readily available are valued at fair value under procedures approved by the Board of Trustees.

Security transactions are accounted for on the date the securities are

Edgar Filing: COLONIAL HIGH INCOME MUNICIPAL TRUST - Form N-30D

purchased, sold or mature.

Cost is determined and gains (losses) are based upon the specific identification method for both financial statement and federal income tax purposes.

The Trust may trade securities on other than normal settlement terms. This may increase the risk if the other party to the transaction fails to deliver and causes the Trust to subsequently invest at less advantageous prices.

FEDERAL INCOME TAXES:

Consistent with the Trust's policy to qualify as a regulated investment company and to distribute all of its taxable and tax-exempt income, no federal income tax has been accrued.

At November 30, 2001, capital loss carryforwards available (to the extent provided in regulations) to offset future realized gains were as follows:

YEAR OF EXPIRATION -----	CAPITAL LOSS CARRYFORWARD -----
2002	\$ 6,578,630
2003	5,267,623
2004	2,815,387
2005	5,926,653
2007	3,941,668
2008	14,340,573
2009	4,198,716

	\$43,069,250
	=====

Expired capital loss carryforwards, if any, are recorded as a reduction of paid-in capital. Interest income, debt discount and premium:

INTEREST INCOME, DEBT DISCOUNT AND PREMIUM:

Interest income is recorded on the accrual basis. Original issue discount is accreted to interest income over the life of the security with a corresponding increase in the cost basis. Premium is amortized against interest income with a corresponding decrease in the cost basis.

Effective December 1, 2001, the Trust adopted the provisions of the AICPA Audit and Accounting Guide for Investment Companies and began accreting discount on all debt securities. The cumulative effect of this accounting change did not impact total net assets, but resulted in a \$151,796 increase in cost of securities and a corresponding \$151,796 increase in net unrealized depreciation, based on securities held by the Trust on December 1, 2001.

The effect of this change for the six months ended May 31, 2002 was to increase net investment income by \$44,578, increase net unrealized depreciation by \$46,034 and decrease net realized losses by \$1,456. The Statement of Changes in Net Assets and the Financial Highlights for prior periods have not been restated to reflect this change.

DISTRIBUTIONS TO SHAREHOLDERS:

Distributions to common shareholders are recorded on the ex-date.

Edgar Filing: COLONIAL HIGH INCOME MUNICIPAL TRUST - Form N-30D

The amount and character of income and gains to be distributed are determined in accordance with income tax regulations, which may differ from generally accepted accounting principles. Reclassifications are made to the Trust's capital accounts to reflect income and gains available for distribution (or available capital loss carryforwards) under income tax regulations.

Distributions to preferred shareholders are recorded daily and are payable at the end of each dividend period. Each dividend payment period for the APS is generally seven days. The applicable dividend rate for the APS on May 31, 2002 was 1.60% for Series T and 1.54% for Series W. For the six months ended May 31, 2002, the Trust declared dividends to Auction Preferred shareholders amounting to \$890,492 representing an average APS dividend rate of 1.48%.

NOTE 2. FEES AND COMPENSATION PAID TO AFFILIATES

MANAGEMENT FEE:

Colonial Management Associates, Inc. (the "Advisor") is the investment advisor of the Trust and furnishes accounting and other services and office facilities for a monthly fee equal to 0.75% annually of the Trust's average weekly net assets.

15

BOOKKEEPING FEE:

The Advisor is responsible for providing pricing and bookkeeping services to the Trust under a Pricing and Bookkeeping Agreement. Under a separate agreement (the "Outsourcing Agreement"), the Advisor has delegated those functions to State Street Bank and Trust Company ("State Street"). The Advisor pays fees to State Street under the Outsourcing Agreement.

Under its pricing and bookkeeping agreement with the Trust, the Advisor receives from the Trust an annual flat fee of \$10,000, paid monthly, and in any month that the Trust's average weekly net assets are more than \$50 million, a monthly fee equal to the average weekly net assets of the Trust for that month multiplied by a fee rate that is calculated by taking into account the fees payable to State Street under the Outsourcing Agreement.

OTHER:

The Trust pays no compensation to its officers, all of whom are employees of the Advisor or its affiliates.

The Trust's Independent Trustees may participate in a deferred compensation plan which may be terminated at any time. Obligations of the plan will be paid solely out of the Trust's assets.

The Trust has an agreement with its custodian bank under which \$1,591 of custody fees were reduced by balance credits for the six months ended May 31, 2002. The Trust could have invested a portion of the assets utilized in connection with the expense offset arrangement in an income-producing asset if it had not entered into such an agreement.

NOTE 3. PREFERRED SHARE OFFERING

The Trust currently has outstanding 4,800 APS (2,400 shares each of Series T and W). The APS are redeemable at the option of the Trust on any dividend payment date at the redemption price of \$25,000 per share, plus an amount equal to any dividends accumulated on a daily basis unpaid through the redemption date (whether or not such dividends have been declared).

Edgar Filing: COLONIAL HIGH INCOME MUNICIPAL TRUST - Form N-30D

Under the Act, the Trust is required to maintain asset coverage of at least 200% with respect to the APS as of the last business day of each month in which any APS are outstanding. Additionally, the Trust is required to meet more stringent asset coverage requirements under the terms of the APS and in accordance with the guidelines prescribed by the rating agencies. Should these requirements not be met, or should dividends accrued on the APS not be paid, the Trust may be restricted in its ability to declare dividends to common shareholders or may be required to redeem certain of the APS. At May 31, 2002, there were no such restrictions on the Trust.

Certain reclassifications have been made relating to the presentation of the APS in the Statement of Changes in Net Assets for the year ending November 30, 2001 and the financial highlights for the year ending November 30, 2001 and 2000 to conform to current requirements.

NOTE 4. PORTFOLIO INFORMATION

INVESTMENT ACTIVITY:

For the six months ended May 31, 2002, purchases and sales of investments, other than short-term obligations, were \$26,212,574 and \$22,647,177, respectively.

Unrealized appreciation (depreciation) at May 31, 2002, based on cost of investments for federal income tax purposes, was:

Gross unrealized appreciation	\$ 13,657,261
Gross unrealized depreciation	(22,692,157)

Net unrealized depreciation	\$ (9,034,896)
	=====

OTHER:

There are certain risks arising from geographic concentration in any state. Certain revenue or tax related events in a state may impair the ability of certain issuers of municipal securities to pay principal and interest on their obligations.

The Trust may focus its investments in certain industries, subjecting it to greater risk than a trust that is more diversified.

The Trust may invest in municipal and Treasury bond futures contracts and purchase and write options on futures. The Trust may invest in these instruments to hedge against the effects of changes in the value of portfolio securities due to anticipated changes in interest rates and/or market conditions, for duration management, or when the transactions are economically appropriate to the reduction of risk inherent in the management of the Trust and not for trading purposes. The use of futures contracts and options involves certain risks, which include (1) imperfect correlation between the price movement of the instruments and the underlying securities, (2) inability to close out positions due to different trading hours, or the temporary absence of a liquid market, for either the instrument or the underlying securities or (3) an inaccurate prediction by the Advisor of the future direction of interest rates. Any of these risks may involve amounts exceeding the amount recorded in the Trust's Statement of Assets and Liabilities at any given time.

Upon entering into a futures contract, the Trust deposits cash or securities with its custodian in an amount sufficient to meet the initial margin

Edgar Filing: COLONIAL HIGH INCOME MUNICIPAL TRUST - Form N-30D

requirement. Subsequent payments are made or received by the Trust equal to the daily change in the contract value and are recorded as variation margin payable or receivable and offset in unrealized gains or losses. The Trust recognizes a realized gain or loss when the contract is closed or expires. Refer to the Trust's Investment Portfolio for a summary of open futures contracts at May 31, 2002.

Restricted securities are securities that may only be resold upon registration under federal securities laws or in transactions exempt from such registration. In some cases, the issuer of restricted securities has agreed to register such securities for resale, at the issuer's expense either upon demand by the Trust or in connection with another registered offering of the securities. Many restricted securities may be resold in the secondary market in transactions exempt from registration. Such restricted securities may be determined to be liquid under criteria established by the Board of Trustees. The Trust will not incur any registration costs upon such resale. The Trust's restricted securities are valued at the price provided by dealers in the secondary market or, if no market prices are available, at the fair value as determined in good faith using methods approved by the Board of Trustees.

(b) Effective December 1, 2001, the Trust adopted the provisions of the AICPA

Edgar Filing: COLONIAL HIGH INCOME MUNICIPAL TRUST - Form N-30D

Audit and Accounting Guide for Investment Companies and began accreting discount on all debt securities. The effect of this change, for the six months ended May 31, 2002, was to increase the ratio of net investment income to average net assets from 8.32% to 8.36% and increase the ratio of net investment income (adjusted for dividend payments to preferred shareholders) from 7.49% to 7.53%. The impact to the net investment income and net realized and unrealized loss per share was less than \$0.01. Per share data and ratios for periods prior to May 31, 2002 have not been restated to reflect this change in presentation.

- (c) Per share data was calculated using average shares outstanding during the period.
- (d) The per share net investment income amount does not reflect the period's reclassification of differences between book and tax basis net investment income.
- (e) Total return at market value assuming all distributions reinvested at prices calculated in accordance with the Dividend Reinvestment Plan.
- (f) Not annualized.
- (g) The benefits derived from custody credits and directed brokerage arrangements, if applicable, had no impact.
- (h) Ratios reflect average net assets available to common shares only.
- (i) Annualized.
- (j) Ratios reflect reduction for dividend payments to preferred shareholders.

DIVIDEND REINVESTMENT PLAN

As a shareholder in the Trust you are eligible to participate in the Dividend Reinvestment Plan.

The Trust generally distributes net investment income monthly and capital gains annually. Under the Trust's Dividend Reinvestment Plan (the "Plan") all distributions will be reinvested automatically in additional shares of the Trust, unless the shareholder elects to receive cash or the shares are held in broker or nominee name and a reinvestment service is not provided by the broker or nominee. All cash distributions will be mailed by check directly to the record holder by the dividend paying agent.

If the market price of the shares on the distribution payment date is equal to or greater than the net asset value, Plan participants will be issued shares at the higher of net asset value or 95% of the market price. The aggregate market value of the shares may constitute income to shareholders for federal income tax purposes. However, if the market price of the shares is less than the net asset value, shares will be bought as soon as practicable (but no more than 30 days after the distribution, except as may be required to comply with federal securities laws) in the open market for the accounts of Plan participants. If, during this purchase period, the market price surpasses the net asset value, the average per share price paid may exceed the net asset value of the shares, resulting in the acquisition of fewer shares than if the distribution had been in newly-issued shares.

All Plan accounts receive written confirmations of all transactions. Shares purchased under the Plan are held in uncertificated form. Each shareholder's proxy includes shares purchased pursuant to the Plan. The automatic reinvestment of distributions does not relieve participants of any income tax payable on the distributions.

Fees and expenses of the Plan other than brokerage charges are incurred on shares issued directly by the Trust. Participants will bear a pro-rata share of brokerage charges incurred on open market purchases.

A Plan participant may terminate his or her participation by written notice to the Plan agent. The Plan may be amended or terminated on 30 days written notice to the Plan participants. All correspondence concerning the Plan should be directed to State Street Bank and Trust Company*, the Plan agent, by mail at P.O. Box 8200, Boston, MA 02266-8200 or by phone at 1-800-426-5523.

* EquiServe Trust Company, N.A. currently serves as Agent under the Dividend Reinvestment Plan.
