SECURITIES AND EXCHANGE COMMISSION
WASHINGTON, D.C. 20549

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended March 31, 2016

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____
Commission file number 001-36720

UPLAND SOFTWARE, INC.
(Exact name of registrant as specified in its charter)

State of Delaware 27-2992077
(State or other jurisdiction of (I.R.S. Employer
incorporation or organization) Identification No.)

401 Congress Avenue, Suite 1850 78701
Austin, Texas
(Address of principal executive offices) (Zip Code)
Registrant's telephone number, including area code: (512) 960-1010

Not Applicable
(Former name, former address, and former fiscal year, if changed since last report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§ 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer

Edgar Filing: Upland Software, Inc. - Form 10-Q

Non-accelerated filer (Do not check if a smaller reporting company) Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date.

Class	Shares Outstanding at May 8, 2016
Common Stock, \$0.0001 par value	17,205,398

Upland Software, Inc.

Notes to Unaudited Condensed Consolidated Financial Statements

1. Summary of Significant Accounting Policies

Basis of Presentation

These condensed consolidated financial statements have been prepared in conformity with accounting principles generally accepted in the United States ("GAAP"). The condensed consolidated financial statements include the accounts of the Company and its wholly owned subsidiaries. All intercompany accounts and transactions have been eliminated in consolidation.

The accompanying unaudited interim condensed consolidated financial statements have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission (the "SEC") for interim financial reporting. In the opinion of management of the Company, the unaudited interim condensed consolidated financial statements have been prepared on the same basis as the audited consolidated financial statements and include all adjustments necessary for a fair presentation. The results of operations for the three months ended March 31, 2016 are not necessarily indicative of the results to be expected for the year ending December 31, 2016 or for any other period.

The financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in the Company's 2015 Annual Report on Form 10-K filed with the SEC on March 30, 2016.

Use of Estimates

The preparation of the accompanying condensed consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the consolidated financial statements, and the reported amounts of revenues and expenses. Significant items subject to such estimates include allowance for doubtful accounts, stock-based compensation, warrant liabilities, acquired intangible assets, the useful lives of intangible assets and property and equipment, and income taxes. In accordance with GAAP, management bases its estimates on historical experience and on various other assumptions that management believes are reasonable under the circumstances. Management regularly evaluates its estimates and assumptions using historical experience and other factors; however, actual results could differ from those estimates.

Concentrations of Credit Risk and Significant Customers

Financial instruments that potentially subject the Company to credit risk consist of cash and cash equivalents and accounts receivable. The Company's cash and cash equivalents are placed with high-quality financial institutions, which, at times, may exceed federally insured limits. The Company has not experienced any losses in these accounts, and the Company does not believe it is exposed to any significant credit risk related to cash and cash equivalents. The Company provides credit, in the normal course of business, to a number of its customers. The Company performs periodic credit evaluations of its customers and generally does not require collateral. No individual customer represented more than 10% of total revenues in the three months ended March 31, 2016 or 2015 or for the year ended December 31, 2015, or more than 10% of accounts receivable as of March 31, 2016.

Fair Value of Financial Instruments

The Company's financial instruments consist principally of cash and cash equivalents, accounts receivable, and accounts payable, and long-term debt. The carrying value of cash and cash equivalents, accounts receivable, and accounts payable approximate fair value, primarily due to short maturities. The carrying values of the Company's debt instruments approximated their fair value based on rates currently available to the Company.

Recent Accounting Pronouncements

In May 2014, the FASB issued FASB ASU No. 2014-09, Revenue from Contracts with Customers (Topic 606), which supersedes the revenue recognition requirements in ASC 605, Revenue Recognition. The core principle of ASU 2014-09 is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The guidance provides a five-step process to achieve that core principle. ASU 2014-09 requires disclosures enabling users of financial statements to understand the nature, amount, timing and uncertainty of revenue and cash flows arising from contracts with customers. Additionally, qualitative and quantitative disclosures are required about contracts with customers, significant judgments and changes in judgments, and assets recognized from the costs to obtain or fulfill a contract. In August 2015, the FASB issued FASB ASU No. 2015-14, Revenue from Contracts with Customers (Topic 606): Deferral of the Effective Date, which deferred the effective date of ASU 2014-09 by one year. ASU 2014-09 is now effective for annual reporting periods beginning after December 15, 2017, including interim periods within that reporting period, using one of two retrospective application methods. Early application is permitted only as of annual reporting periods beginning after December 15, 2016, including interim reporting periods within that reporting period. The Company is currently evaluating the effect that the adoption of ASU 2014-09 and ASU 2015-14 will have on its financial statements as well as timing of adoption and method of adoption.

In August 2014, the FASB issued FASB ASU No. 2014-15, Presentation of Financial Statements - Going Concern (Subtopic 205-40): Disclosure of Uncertainties about an Entity's Ability to Continue as a Going Concern. The new standard provides guidance around management's responsibility to evaluate whether there is substantial doubt about an entity's ability to continue as a going concern and to provide related footnote disclosures. The new standard is effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2016, with early adoption permitted. The adoption of this standard is not expected to have a material impact on our financial statements. The Company does not intend to adopt this standard prior to the effective date.

In November 2015, the FASB issued ASU 2015-17, Income Taxes (Topic 740): Balance Sheet Classification of Deferred Taxes. ASU 2015-17 eliminates the requirement for an entity to separate deferred income taxes and liabilities into current and noncurrent amounts in a classified statement of financial position. To simplify the presentation of deferred income taxes, the amendments in this Update require that deferred tax liabilities and assets be classified as noncurrent in a classified statement of financial position. The guidance is effective for public business entities for fiscal years beginning after December 15, 2016, and interim periods within those fiscal years, with early adoption permitted. The Company is currently evaluating the effect that the adoption of ASU 2015-17 will have on its financial statements as well as timing of adoption and method of adoption.

In February 2016, the FASB issued ASU 2016-02, Leases (Topic 842). The core change with ASU 2016-02 is the requirement for the recognition of lease assets and lease liabilities by lessees for those leases classified as operating leases under previous GAAP. The new standard is effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2018, with early adoption permitted. The Company is currently evaluating the effect that the adoption of ASU 2016-02 will have on its financial statements.

In March 2016, the FASB issued ASU 2016-09, Stock Compensation (Topic 718). The core change with ASU 2016-09 is the simplification of several aspects of the accounting for share-based payment transactions, including the income tax consequences, classifications of awards as either equity or liabilities, and classification on the statement of cash flows. The new standard is effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2016, with early adoption permitted. The Company is currently evaluating the effect that the adoption of ASU 2016-09 will have on its financial statements.

2. Acquisitions

2016 Acquisitions

On January 7, 2016, Upland completed its purchase of substantially all of the assets of our California-based website analytics provider. The purchase price consideration paid was approximately \$8.1 million in cash payable at closing (net of \$0.3 million of cash acquired) and a \$1.2 million cash holdback payable in 12 months (subject to indemnification claims). The foregoing excludes additional potential earnout payments tied to performance-based conditions. Revenues recorded since the acquisition date for the three months ended March 31, 2016 were approximately \$669,000.

In addition to the cash consideration described above, the Asset Purchase Agreement included a contingent share consideration component pursuant to which Upland expects to issue an aggregate of approximately \$2.4 million in common stock (to be determined on trigger date) of its common stock to the seller after July 7, 2016 based on certain minimal post-closing performance-based conditions. The Company agreed to additional consideration of up to \$5 million in cash to the selling shareholders of our website analytics business based on the achievement of certain revenue targets during fiscal years 2016 and 2017.

On March 14, 2016, Upland completed its purchase of substantially all of the assets of Hipcricket, Inc., a cloud-based mobile messaging software provider. The consideration paid to the seller consisted of our issuance of one million shares of our common stock and the transfer of our EPM Live product business. The value of the shares on the closing date of the transaction was approximately \$5.7 million and the fair value of our EPM Live product business was approximately \$5.9 million. The Company recognized a loss on the transfer in conjunction with the EPM Live net asset value of approximately \$0.7 million in Other expense, net. Prior to the transaction, Hipcricket was owned by an affiliate of ESW Capital, LLC, which is a shareholder of Upland. Raymond James & Co. provided a fairness opinion to Upland in connection with the transaction. Revenues recorded since the acquisition date for the three months ended March 31, 2016 were approximately \$350,000.

The Company recorded the purchase of the acquisitions described above using the acquisition method of accounting and, accordingly, recognized the assets acquired and liabilities assumed at their fair values as of the date of the acquisition. The purchase price allocations for the 2015 acquisition of Ultriva and the 2016 acquisitions are preliminary as the Company has not obtained and evaluated all of the detailed information necessary to finalize the opening balance sheet amounts in all respects. Management has recorded the purchase price allocations based upon acquired company information that is currently available. Management expects to finalize its purchase price allocations in mid-2016.

The following condensed table presents the preliminary acquisition-date fair value of the assets acquired and liabilities assumed for the acquisitions, as well as assets and liabilities divested (in thousands):

Year Acquired or Divested	HipCricket	Website Analytics Business	Divestiture of EPM Live
	2016	2016	2016
Cash	\$ —	\$ 290	\$ —
Accounts receivable	1,275	178	(1,404)
Other current assets	238	55	(339)
Property and equipment	—	5	(98)
Customer relationships	1,900	2,310	(1,796)
Trade name	70	70	—
Technology	900	1,390	(936)
Goodwill	7,747	12,524	(3,692)
Other assets	—	6	—
Total assets acquired	12,130	16,828	(8,265)
Accounts payable	(200)	—	41
Accrued expense and other	—	(178)	83
Deferred revenue	(330)	(910)	1,511
Total liabilities assumed	(530)	(1,088)	1,635
Total consideration	\$ 11,600	\$ 15,740	\$ (6,630)

Tangible assets were valued at their respective carrying amounts, which approximates their estimated fair value. The valuation of identifiable intangible assets reflects management's estimates based on, among other factors, use of established valuation methods. Customer relationships were valued using an income approach, which estimates fair value based on the earnings and cash flow capacity of the subject asset. The value of the marketing-related intangibles was determined using a relief-from-royalty method, which estimates fair value based on the value the owner of the asset receives from not having to pay a royalty to use the asset. Developed technology was valued using a cost-to-recreate approach. The Goodwill divested with EPM Live was based on the relative fair value of EPM Live to the Company's fair value immediately prior to the divestiture.

Goodwill deductible for tax purposes is \$4.9 million for our website analytics business acquisition and \$8.2 million for HipCricket.

3. Fair Value Measurements

Fair value is defined as the exit price, or the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants as of the measurement date. GAAP sets forth a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. The three tiers are Level 1, defined as observable inputs, such as quoted market prices in active markets; Level 2, defined as inputs other than quoted prices in active markets that are either directly or indirectly observable; and Level 3, defined as unobservable inputs in which little or no market data exists, therefore, requiring an entity to develop its own assumptions.

Changes to the fair value of earnout liabilities are recorded to other expense, net. Liabilities measured at fair value on a recurring basis are summarized below (in thousands):

	Fair Value Measurements at December 31, 2015			
	Level 1	Level 2	Level 3	Total
Earnout consideration liability	\$—	—\$ 500	\$ 500	\$ 500

	Fair Value Measurements at March 31, 2016 (unaudited)			
	Level 1	Level 2	Level 3	Total
Earnout consideration liability	\$—	—\$ 6,640	\$ 6,640	\$ 6,640

The earnout consideration liability consists of amounts associated with the acquisitions of Mobile Commons and our website analytics business acquisition. The fair value of the earnout consideration associated with the Mobile Commons acquisition was determined using the Binary Option model based on the present value of the probability-weighted earnout consideration. The \$6.1 million of fair value of the earnout consideration associated with our website analytics business acquisition was determined using the Monte Carlo Simulation method based on the present value of the probability-weighted earnout consideration. The Monte Carlo Simulation method includes assumptions as to probability of various outcomes and, accordingly, the actual contingent consideration incurred could vary from the current estimate. However, the total contingent consideration incurred would not exceed the maximum potential payout of \$2.4 million in common stock and \$5 million in cash (see Note 2).

In connection with the Company's acquisition of Hipcricket, the Company transferred the net assets of its EPM Live business to the seller (see Note 2). To record the effect of the transfer of the net assets of EPM Live, the Company determined the fair value of such assets as \$5.9 million on the date of disposition. Such fair value determination was based upon a Level 3 hierarchy and included management assumptions such as financial forecasts, discount rates and market multiples based upon comparable companies.

	Fair Value Measurements at March 31, 2016 (unaudited)			
	Level 1	Level 2	Level 3	Total
EPM Live enterprise value	\$—	—\$ 5,900	\$ 5,900	\$ 5,900

Debt

The Company believes the carrying value of its long-term debt at March 31, 2016 approximates its fair value based on the variable interest rate feature or based upon interest rates currently available to the Company.

The estimated fair value of our debt at March 31, 2016 and December 31, 2015 is \$29.6 million and \$24.9 million, respectively, based on valuation methodologies using interest rates currently available to the Company which are Level 2 inputs.

4. Goodwill and Other Intangible Assets

Changes in the Company's goodwill balance for the three months ended March 31, 2016 are summarized in the table below (in thousands):

Balance at December 31, 2015	\$47,422
Acquired in business combinations	20,271
Divestiture of business	(3,692)
Adjustment due to finalization of business combinations	67
Foreign currency translation adjustment	780
Balance at March 31, 2016	\$64,848

Intangible assets, net, include the estimated acquisition-date fair values of customer relationships, marketing-related assets, and developed technology that the Company recorded as part of its business acquisitions.

The following is a summary of the Company's intangible assets, net (in thousands):

	Estimated Useful Life (Years)	Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount
December 31, 2015:				
Customer relationships	1-10	\$ 31,848	\$ 9,054	\$ 22,794
Trade name	1-3	2,909	2,476	433
Developed technology	4-7	13,808	5,509	8,299
Total intangible assets		\$ 48,565	\$ 17,039	\$ 31,526

	Estimated Useful Life (Years)	Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount
March 31, 2016:				
Customer relationships	1-10	\$ 33,861	\$ 9,533	\$ 24,328
Trade name	1-3	2,604	2,146	458
Developed technology	4-7	14,481	5,354	9,127
Total intangible assets		\$ 50,946	\$ 17,033	\$ 33,913

The following table summarizes the Company's weighted-average amortization period, in total and by major finite-lived intangible asset class (in years), as of:

	March 31, 2016	December 31, 2015
Customer relationships	8.1	9.3
Trade name	2.8	2.9
Developed technology	5.4	6.4
Total weighted-average amortization period	8.1	8.1

The Company periodically reviews the estimated useful lives of its identifiable intangible assets, taking into consideration any events or circumstances that might result in either a diminished fair value or revised useful life. There have been no indicators of impairment or change in the useful life during the three months ended March 31,

2016 and 2015. Total amortization expense was \$1.9 million and \$1.4 million during the three months ended March 31, 2016 and 2015, respectively.

Estimated annual amortization expense for the next five years and thereafter is as follows (in thousands):

	Amortization Expense
Year ending December 31:	
Remainder of 2016	\$ 5,241
2017	5,948
2018	5,623
2019	4,808
2020 and thereafter	12,293
Total	\$ 33,913

5. Income Taxes

The Company's income tax provision for the three months ended March 31, 2016 and 2015 reflects its estimate of the effective tax rates expected to be applicable for the full years, adjusted for any discrete events that are recorded in the period in which they occur. The estimates are reevaluated each quarter based on the estimated tax expense for the full year. The tax provision for the three months ended March 31, 2016 and 2015 is primarily related to foreign income taxes associated with our Canadian operations, changes in deferred tax liabilities associated with amortization of United States tax deductible goodwill and state taxes in certain states in which the Company does not file on a consolidated basis. The Company has historically incurred operating losses in the United States and, given its cumulative losses and limited history of profits, has recorded a valuation allowance against its United States net deferred tax assets, exclusive of tax deductible goodwill, at March 31, 2016 and 2015.

The Company has reflected any uncertain tax positions within its current taxes payable, but none in deferred taxes. Federal, state, and foreign income tax returns have been filed in jurisdictions with varying statutes of limitations. Varying among the separate companies, tax years 1998 through 2015 remain subject to examination by federal and most state tax authorities due to our net operating loss carryforwards. In the foreign jurisdictions, tax years 2008 through 2015 remain subject to examination.

6. Net Loss Per Share

The following table sets forth the computations of loss per share (in thousands, except share and per share amounts):

	Three Months Ended March 31,	
	2016	2015
Numerator:		
Net Loss	\$(5,573)	\$(3,743)
Denominator:		
Weighted-average common shares outstanding, basic and diluted	15,432,405	14,841,316
Net loss per common share, basic and diluted	\$(0.36)	\$(0.25)

Due to the net losses for the three months ended March 31, 2016 and 2015, basic and diluted loss per share were the same, as the effect of all potentially dilutive securities would have been anti-dilutive. The following table sets forth the anti-dilutive common share equivalents (which does not include \$2.4 million in contingent common shares subject to the achievement of certain revenue targets, issuable in the third quarter of 2016):

	March 31,	
	2016	2015
Stock options	751,201	616,705
Restricted stock	983,937	431,872
Total anti-dilutive common share equivalents	1,735,138	1,048,577

7. Commitments and Contingencies

Purchase Commitments

The Company has an outstanding purchase commitment for software development services pursuant to a technology services agreement in the amount of \$2.3 million in 2016, of which \$0.6 million was incurred during the three months ended March 31, 2016. For years after 2016, the purchase commitment amount for software development services will be equal to the prior year purchase commitment increased (decreased) by the percentage change in total revenue for the prior year as compared to the preceding year. For example, if 2016 total revenues increase by 10% as compared to 2015 total revenues, then the 2017 purchase commitment would increase by approximately \$0.2 million from the 2016 purchase commitment amount to \$2.6 million. A similar 10% increase in 2017 total revenues as compared to 2016 total revenues would increase the 2018 purchase commitment amount from the theoretical 2017 purchase commitment amount of \$2.6 million by approximately \$0.3 million to \$2.9 million.

Litigation

In the normal course of business, the Company may become involved in various lawsuits and legal proceedings. While the ultimate results of these matters cannot be predicted with certainty, the Company does not expect them to have a material adverse effect on the consolidated financial position or results of operations of the Company.

8. Stockholders' Equity

Restricted Stock Awards

Restricted share activity during the three months ended March 31, 2016 was as follows:

	Number of Restricted Shares Outstanding	Weighted-Average Grant Date Fair Value
Unvested balances at December 31, 2015	513,943	
Awards granted	492,317	
Awards vested	(22,323)	
Awards forfeited	—	
Unvested balances at March 31, 2016	983,937	\$ 7.60

Stock Option Activity

Stock option activity during the three months ended March 31, 2016 was as follows:

	Number of Options Outstanding	Weighted- Average Exercise Price
Outstanding at December 31, 2015	778,388	\$ 5.75
Options granted	2,408	\$ 5.75
Options exercised	(5,382)	\$ 3.45
Options forfeited	(4,483)	\$ 5.70
Options expired	(19,730)	\$ 3.29
Outstanding at March 31, 2016	751,201	\$ 5.83

Share-based Compensation

The Company recognized share-based compensation expense from all awards in the following expense categories (in thousands):

	Three Months Ended March 31, 2016 2015	
Cost of subscription and support revenue	\$7	\$9
Cost of professional services revenue	—	3
Sales and marketing	13	14
Research and development	14	12
General and administrative	660	516
Total	\$694	\$554

9. Domestic and Foreign Operations

Revenue by geography is based on the ship-to address of the customer, which is intended to approximate where the customer's users are located. The ship-to country is generally the same as the billing country. The Company has operations in the U.S., Canada and Europe. Information about these operations is presented below (in thousands):

	Three Months Ended March 31, 2016 2015	
Revenues:		
U.S.	\$14,430	\$14,160
Canada	1,002	1,097
Other International	2,150	2,271
Total Revenues	\$17,582	\$17,528

10. Related Party Transactions

The Company purchased software development services pursuant to a technology services agreement with a company controlled by a non-management investor in the Company during the three months ended March 31, 2016 and 2015 in the amount of \$570,000 and \$425,000, respectively. Refer to Note 7 for a description of purchase commitments to this company.

When the Company receives requested services as detailed by statements of work pursuant to the software development agreement, it determines whether such software development costs should be capitalized as either internally-used software or software to be sold or otherwise marketed. If such costs are not capitalizable, the Company expenses such costs as the services are received. If the Company anticipates that it will not utilize the full amount of the annual minimum fee, the estimated unused portion of the annual minimum fee is expensed at that time.

The Company also purchased approximately \$46,000 in services from a company controlled by a non-management investor in the Company during the three months ended March 31, 2016. There are no purchase commitments with this company, and the Company continues to use their services in 2016.

The Company has an arrangement with a former subsidiary to provide management, human resource/payroll and administrative services, the fees for which during 2015 totaled \$360,000 and are expected to be similar in 2016, and these fees during the three months ended March 31, 2016 totaled \$90,000.

On March 14, 2016, Upland completed its purchase of substantially all of the assets of Hipcricket, Inc., a cloud-based mobile messaging software provider. Prior to the transaction, Hipcricket was owned by an affiliate of ESW Capital, LLC, which is a shareholder of Upland. Raymond James & Co. provided a fairness opinion to Upland in connection with the transaction. Refer to Note 3 for a description of the transaction. Relating to this transaction, the Company is providing certain transition services to and receiving certain transition services from the affiliate seller of Hipcricket. The cost offsets earned by the Company for these services during the three months ended March 31, 2016 totaled \$152,000. and the fees owed to the affiliate by the Company for these services during the three months ended March 31, 2016 totaled \$30,000.

11. Subsequent Events

On April 27, 2016, Upland acquired Advanced Processing & Imaging, Inc., a content management platform driving workflow in governments and schools. The purchase price consideration consisted of \$4.0 million in cash payable at closing (net of \$0.2 million of cash acquired), and a \$0.8 million cash holdback payable in 12 months (subject to indemnification claims). The Company financed the acquisition by drawing on its existing facility with Wells Fargo Capital Finance.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Forward Looking Statements

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with our unaudited condensed consolidated financial statements and the notes thereto appearing elsewhere in this Quarterly Report on Form 10-Q.

This Quarterly Report on Form 10-Q contains "forward-looking statements" within the meaning of Section 27A of the Securities Act, and Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act").

Forward-looking statements may be identified by the use of forward-looking words such as "anticipate," "believe," "may," "will," "continue," "seek," "estimate," "intend," "hope," "predict," "could," "should," "would," "project," "plan," "expect" or the plural of these words or similar expressions, although not all forward-looking statements contain these words. Factors or risks that could cause our actual results to differ from the results we anticipate include, but are not limited to:

- our financial performance and our ability to achieve or sustain profitability or predict future results;
- our ability to attract and retain customers; our ability to deliver high-quality customer service;
- the growth of demand for enterprise work management applications;
- our ability to effectively manage our growth;
- our ability to consummate and integrate acquisitions;
- maintaining our senior management team and key personnel;
- our ability to maintain and expand our direct sales organization;
- our ability to obtain financing in the future on acceptable terms or at all;
- our ability to adapt to changing market conditions and competition;
- our ability to successfully enter new markets and manage our international expansion;
- the operation and reliability of our third-party data centers;
- our ability to adapt to technological change and continue to innovate;
- economic and financial conditions;
- our ability to integrate our applications with other software applications;
- maintaining and expanding our relationships with third parties;
- costs associated with defending intellectual property infringement and other claims;
- our ability to maintain, protect and enhance our brand and intellectual property;
- our ability to comply with privacy laws and regulations; and
- other risk factors included under "Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2015, filed with the SEC on March 30, 2016, as updated by this Quarterly Report on Form 10-Q.

The outcome of the events described in these forward-looking statements is subject to known and unknown risks, uncertainties and other factors that could cause actual results to differ materially from our forward-looking

Table of Contents

statements, including those factors discussed in Part I: "Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2015, filed with the SEC on March 30, 2016, as updated by Part II, Item 1A: "Risk Factors" of this Quarterly Report on Form 10-Q and other risks and uncertainties detailed in this and our other reports and filings with the SEC. The forward-looking statements in this Quarterly Report on Form 10-Q represent our views as of the date of this Quarterly Report on Form 10-Q. We anticipate that subsequent events and developments may cause our views to change. However, while we may elect to update these forward-looking statements at some point in the future, we have no current intention of doing so except to the extent required by applicable law. You should, therefore, not rely on these forward-looking statements as representing our views as of any date subsequent to the date of this Quarterly Report on Form 10-Q.

Overview

Upland is a leading provider of cloud-based enterprise work management software. We define enterprise work management software as software applications that enable organizations to plan, manage and execute projects and work. Our family of applications enables users to manage their projects, professional workforce and IT investments, automate document-intensive business processes and effectively engage with their customers, prospects and community via the web and mobile technologies.

The continued growth of an information-based economy driven by technological innovation and globalization is causing a fundamental shift in the way work is done. These changes have given rise to a large and growing group of knowledge workers who operate in dynamic work environments as part of geographically dispersed and virtual teams. McKinsey estimates that, as of May, 2013, there were more than 200 million knowledge workers globally. We believe that manual processes and legacy on-premise enterprise systems are insufficient to address the needs of the modern work environment. In order for knowledge workers to be successful, they need to interact with intuitive enterprise work systems in a collaborative way, including real-time access at any time, from anywhere and on any device. Today, legacy processes and systems are being disrupted and replaced by cloud-based enterprise work management software that improves visibility, collaboration and productivity.

In response to these changes, we are helping transform how work gets done by providing organizations and their knowledge workers with software applications that better align resources with business objectives and increase visibility, governance, collaboration, quality of customer experience and responsiveness to changes in the business environment. This results in increased work capacity, higher productivity, better execution and greater levels of customer engagement. Our applications are easy-to-use, highly scalable and offer real-time collaboration for knowledge workers distributed on a local or global scale. Our applications address enterprise work challenges in the following categories:

• **Project and Information Technology (IT) Financial Management.** Enables customers to manage their organization's projects, professional workforce and IT costs.

• **Workflow Automation.** Enables customers to automate document-intensive workflows among internal functional areas as well as with their partners and supply chain.

• **Digital Engagement.** Enables customers to effectively engage with their customers, prospects and community via the web and mobile technologies.

We sell our software applications primarily through a direct sales organization comprised of inside sales and field sales personnel. In addition to our direct sales organization, we have an indirect sales organization, which sells to distributors and value-added resellers. We employ a land-and-expand go-to-market strategy. After we demonstrate the value of an initial application to an organization, our sales and account management teams work to expand the adoption of that initial application across the organization, as well as cross-sell additional applications to address other enterprise work management needs of the organization. Our customer success organization supports our direct sales efforts by managing the post-sale customer lifecycle.

Our subscription agreements are typically sold either on a per-seat basis or on a minimum contracted volume basis with overage fees billed in arrears, depending on the application being sold. We service customers ranging from large global corporations and government agencies to small- and medium-sized

Table of Contents

businesses. We have more than 2,000 customers with over 235,000 users across a broad range of industries, including financial services, retail, technology, manufacturing, education, consumer goods, media, telecommunications, government, food and beverage, healthcare and life sciences.

We have achieved significant growth and scale in a relatively short period of time. Through a series of acquisitions, we have established a diverse family of software applications under the Upland brand, each of which addresses a specific enterprise work management need. Our revenue has grown from \$22.8 million in fiscal 2012 to \$69.9 million in fiscal 2015, representing a 207% period-over-period growth rate. See Note 16 of the Notes to Consolidated Financial Statements for more information regarding our revenue as it relates to domestic and foreign operations. Our operating results in a given period can fluctuate based on the mix of subscription and support, perpetual license and professional services revenue. For the years ended December 31, 2015, 2014, and 2013, our subscription and support revenue accounted for 82%, 75% and 75%, respectively of our total revenue in both periods. Our customer agreements for program and portfolio management, project management and collaboration, and professional services automation typically are sold on a per-seat basis with terms varying from one to three years, paid in advance. Our customer agreements for workflow automation and enterprise content management and financial management historically have been sold on a volume basis with a one-year term, paid in advance. We generally seek to enter into multi-year contracts with our customers when possible. In each case, our customer agreements provide us with revenue visibility over a number of quarters. We typically negotiate the total number of seats or total minimum contracted volume a customer is entitled to use as part of its subscription, but these seats or minimum contracted volume may not be fully utilized over the term of the agreement. In addition, where customers exceed the minimum contracted volume, additional overage fees are billed in arrears.

Historically, we have sold certain of our applications under perpetual licenses, which also are paid in advance. For the years ended December 31, 2015, 2014, and 2013, our perpetual license revenue accounted for 4%, 4%, and 5% of our total revenue, respectively. We expect perpetual license revenue to decrease as a percentage of revenue in the future. The support agreements related to our perpetual licenses are one-year in duration and entitle the customer to support and unspecified upgrades. The revenue related to such support agreements is included as part of our subscription and support revenue.

Professional services revenue consists of fees related to implementation, data extraction, integration and configuration and training on our applications. For the years ended December 31, 2015, 2014, and 2013, our professional services revenue accounted for 14%, 21%, and 20%, respectively. We expect the proportional revenue contribution of product and professional services revenue to shift more to product revenue and less to professional services revenue in future periods.

We have historically experienced seasonality in terms of when we enter into customer agreements. We sign a significantly higher percentage of agreements with new customers, and renew agreements with existing customers, in the fourth quarter of each calendar year as our customers tend to follow budgeting cycles at the end of the calendar year. Our cash flow from operations has historically been higher in the first quarter of each calendar year than in other quarters. This seasonality is reflected to a much lesser extent, and sometimes is not immediately apparent, in our revenue, due to the fact that we defer revenue recognition. In addition, seasonality may be difficult to observe in our financial results during periods in which we acquire businesses as such results typically are most significantly impacted by such acquisitions. We expect this seasonality to continue, or possibly increase in the future, which may cause fluctuations in our operating results and financial metrics.

To support continued growth, we intend to pursue acquisitions of complementary technologies, products and businesses to enhance the features and functionalities of our applications, expand our customer base and provide access to new markets and increased benefits of scale. We will prioritize acquisitions within the enterprise functions we currently serve, including information technology, process excellence, finance, professional services and marketing, as well as pursue acquisitions that serve other enterprise functions. Consistent with our growth strategy, we made ten acquisitions in the four years ending March 31, 2016.

Table of Contents

Key Metrics

In addition to the GAAP financial measures described below in “—Components of Operating Results,” we regularly review the following key metrics to evaluate and identify trends in our business, measure our performance, prepare financial projections and make strategic decisions:

Adjusted EBITDA

Adjusted EBITDA. We monitor our Adjusted EBITDA to help us evaluate the effectiveness and efficiency of our operations. Adjusted EBITDA is a non-GAAP financial measure. We define Adjusted EBITDA as net income (loss), calculated in accordance with GAAP, plus net income (loss) from discontinued operations, depreciation and amortization expense, interest expense, net, other expense (income), net, provision for income taxes, stock-based compensation expense, acquisition-related expenses, non-recurring litigation costs, and purchase accounting adjustments for deferred revenue.

The following table presents a reconciliation of net loss from continuing operations, the most comparable GAAP measure, to Adjusted EBITDA for each of the periods indicated.

	Three Months Ended	
	March 31,	
	2016	2015
	(dollars in thousands)	
Reconciliation of GAAP Net loss to Non-GAAP Adjusted EBITDA:		
Net Loss	\$(5,573)	\$(3,743)
Add:		
Depreciation and amortization expense	2,515	2,001
Interest expense, net	561	347
Other expense (income), net	748	512
Provision for income taxes	103	(243)
Stock-based compensation expense	694	554
Acquisition-related expense	2,428	545
Nonrecurring litigation expense	12	371
Purchase accounting deferred revenue discount	515	113
Adjusted EBITDA	\$2,003	\$457
Weighted average ordinary shares outstanding - basic	15,432,405	14,841,316
Weighted average ordinary shares outstanding - diluted	15,702,270	15,131,723
Adjusted EBITDA per share - basic	\$0.13	\$0.03
Adjusted EBITDA per share - diluted	\$0.13	\$0.03
Total revenue plus purchase accounting deferred revenue discount	\$18,097	\$17,641
Adjusted EBITDA margin	11	% 3 %

We believe that Adjusted EBITDA provides useful information to management, investors and others in understanding and evaluating our operating results for the following reasons:

Adjusted EBITDA is widely used by investors and securities analysts to measure a company’s operating performance without regard to items that can vary substantially from company to company depending upon their financing, capital structures and the method by which assets were acquired;

our management uses Adjusted EBITDA in conjunction with GAAP financial measures for planning purposes, in the preparation of our annual operating budget, as a measure of our operating performance, to assess the effectiveness of our business strategies and to communicate with our board of directors concerning our financial performance because Adjusted EBITDA eliminates the impact of items that we do not consider indicative of our core operating performance; and

Table of Contents

- Adjusted EBITDA provides more consistency and comparability with our past financial performance, facilitates period-to-period comparisons of our operations and also facilitates comparisons with other companies, many of which use similar non-GAAP financial measures to supplement their GAAP results.

Adjusted EBITDA should not be considered as an alternative to net loss or any other measure of financial performance calculated and presented in accordance with GAAP. The use of Adjusted EBITDA as an analytical tool has limitations such as:

depreciation and amortization are non-cash charges, and the assets being depreciated or amortized will often have to be replaced in the future and Adjusted EBITDA does not reflect cash requirements for such replacements; however, much of the depreciation and amortization currently reflected relates to amortization of acquired intangible assets as a result of business combination purchase accounting adjustments, which will not need to be replaced in the future;

Adjusted EBITDA may not reflect changes in, or cash requirements for, our working capital needs or contractual commitments;

Adjusted EBITDA does not reflect the potentially dilutive impact of stock-based compensation;

Adjusted EBITDA does not reflect interest or tax payments that could reduce cash available for use; and,

other companies, including companies in our industry, might calculate Adjusted EBITDA or similarly titled measures differently, which reduces their usefulness as comparative measures.

Because of these limitations, you should consider Adjusted EBITDA together with other financial performance measures, including various cash flow metrics, net loss and our other GAAP results.

⁽¹⁾ Includes stock-based compensation detailed under Share-based Compensation in Note 8 of the Notes to Condensed Consolidated Financial Statements.

⁽²⁾ Includes General and administrative stock-based compensation of \$660,000 and \$516,000 for the three months ended March 31, 2016, respectively.

⁽³⁾ Includes depreciation and amortization of \$1,043,000 and \$987,000 for the three months ended March 31, 2016 and 2015, respectively.

Table of Contents

Comparison of the Three Months Ended March 31, 2016 and 2015

Revenue

	Three Months Ended March 31, 2016		2015		Change	
	Amount	Percent of Revenue	Amount	Percent of Revenue	Amount	% Change
(dollars in thousands)						
Revenue:						
Subscription and support	\$15,241	87 %	\$14,322	82 %	\$919	6 %
Perpetual license	318	2 %	811	5 %	(493)	(61)%
Total product revenue	15,559	89 %	15,133	87 %	426	3 %
Professional services	2,023	11 %	2,395	13 %	(372)	(16)%
Total revenue	\$17,582	100 %	\$17,528	100 %	\$54	— %

Total revenue was \$17.6 million in the three months ended March 31, 2016, compared to \$17.5 million in the three months ended March 31, 2015, an increase of \$0.1 million, or 0%. Total revenue increased by \$1.8 million as a result of the 2015 and 2016 acquisitions. Total revenue declined by \$1.2 million due to the divestiture of the EPM Live product line and by \$0.5 million from a lower foreign currency exchange rate between the Canada dollar versus the U.S. dollar during the most recent period. Therefore, on a constant currency basis, total revenue for the organic business was flat.

Subscription and support revenue was \$15.2 million in the three months ended March 31, 2016, compared to \$14.3 million in the three months ended March 31, 2015, an increase of \$0.9 million, or 6%. Of the increase in subscription and support revenue, \$1.7 million was due to the 2015 and 2016 acquisitions. Subscription and support revenue decreased by \$0.5 million due to the divestiture of the EPM Live product line and decreased by \$0.3 million from a lower foreign currency exchange rate between the Canada dollar versus the U.S. dollar during the most recent period. Therefore, on a constant currency basis, subscription and support revenue for the organic business was flat.

Perpetual license revenue was \$0.3 million in the three months ended March 31, 2016 as compared to \$0.8 million in the three months ended March 31, 2015, a decrease of \$0.5 million, or 61%. Perpetual license revenue declined by \$0.2 million due to the divestiture of the EPM Live product line and the remaining \$0.3 million decline was organic as we continue to focus sales efforts on recurring revenue customer contracts over one-time perpetual license sales. Professional services revenue was \$2.0 million in the three months ended March 31, 2016, compared to \$2.4 million in the three months ended March 31, 2015, a decrease of \$0.4 million, or 16%. The acquisitions we closed in 2015 and 2016 contributed to a \$0.1 million increase to professional services revenue. The divestiture of the EPM product line contributed to a \$0.5 million decrease in professional services revenue. The organic portion of our professional services business was substantially unchanged from prior year.

Table of Contents

Cost of Revenue and Gross Profit Percentage

	Three Months Ended March 31,		Change	
	2016	2015		
	Percent	Percent		
Amount of	Amount of	Amount	%	
Revenue	Revenue	Change	Change	
(dollars in thousands)				
Cost of revenue:				
Subscription and support ⁽¹⁾	\$5,226	\$4,732	\$494	10 %
Professional services	1,624	1,908	(284)	(15) %
Total cost of revenue	6,850	6,640	210	3 %
Gross profit	10,732	10,888	(156)	(1) %

⁽¹⁾ Includes depreciation and amortization expense as follows:

Depreciation	\$445	\$461	\$(16)	(3) %
Amortization	\$598	\$526	\$72	14 %

Cost of subscription and support revenue was \$5.2 million in the three months ended March 31, 2016, compared to \$4.7 million in the three months ended March 31, 2015, an increase of \$0.5 million, or 10%. The 2015 and 2016 acquisitions contributed a \$0.8 million increase in cost of subscription and support revenue, which consisted primarily of amortization of acquired intangible assets. Cost of subscription and support revenue decreased by \$0.2 million due to the divestiture of the EPM Live product line which consisted primarily of personnel and related costs. Cost of subscription and support revenue for the organic portion of our business was substantially unchanged in the three months ended March 31, 2016 as compared to the three months ended March 31, 2015.

Cost of professional services revenue was \$1.6 million in the three months ended March 31, 2016, compared to \$1.9 million in the three months ended March 31, 2015, a decrease of \$0.3 million, or 15%. The 2015 and 2016 acquisitions contributed an increase in cost of professional services revenue of \$0.1 million primarily due to personnel and related costs. Cost of professional services revenue decreased \$0.2 million due to the divestiture of the EPM Live product line consisting primarily of personnel and related costs. The cost of the organic portion of our professional services business declined by \$0.2 million and consisted primarily of personnel and related costs.

Total research and development	\$3,801 22 %	\$3,805 21 %	\$(4) — %

Research and development expense was substantially unchanged in the three months ended March 31, 2016 as compared to the three months ended March 31, 2015. The 2015 and 2016 acquisitions contributed a \$0.2 million increase to research and development expense primarily due to personnel and related costs. The divestiture of the EPM Live product line decreased research and development expense by \$0.1 million primarily consisting of personnel and related costs. Research and development expense for our organic business decreased by \$0.1 million primarily due to contractor and personnel and related costs.

Refundable Canadian tax credits were substantially unchanged in the three months ended March 31, 2016 as compared to the three months ended March 31, 2015.

General and Administrative Expense

	Three Months Ended March 31,		Change
	2016	2015	
	Percent	Percent	
Amount of	Amount of	Amount of	Amount
Revenue	Revenue	Revenue	Change
(dollars in thousands)			
General and administrative	\$4,123 23 %	\$5,119 29 %	\$(996) (19)%

General and administrative expense was \$4.1 million in the three months ended March 31, 2016, compared to \$5.1 million in the three months ended March 31, 2015, a decrease of \$1.0 million, or 19%. An increase in general administrative expense of \$0.1 million was due to the 2015 and 2016 acquisitions which consisted primarily of personnel costs and administrative fees. The divestiture of the EPM Live product line decreased general and administrative expense by \$0.1 million primarily consisting of personnel and related costs. General and administrative expense from our organic business decreased by \$1.2 million primarily due to a \$0.5 million decrease in personnel and related costs, \$0.4 million decrease in non-recurring litigation expenses, as well as decreases in outsourced professional service fees and contractor costs, most of which are the result of our planned operating efficiencies. The remaining \$0.1 million increase in general administrative expense was attributable to non-cash stock compensation expense.

Table of Contents

Depreciation and Amortization Expense

	Three Months Ended March 31,		2015		Change	
	2016		2015		Amount	%
	Amount of	Percent	Amount of	Percent	Change	Change
		Revenue		Revenue		
	(dollars in thousands)					
Depreciation and amortization:

		Revenue		Revenue		
	(dollars in thousands)					
Other Expense:						
Interest expense, net	\$(561)	(3)%	\$(347)	(2)%	\$(214)	62 %
Other income (expense), net	(748)	(4)%	(512)	(3)%	(236)	46 %
Total other expense	\$(1,309)	(7)%	\$(859)	(5)%	\$(450)	52 %

Interest expense was \$0.6 million in the three months ended March 31, 2016, compared to \$0.3 million in the three months ended March 31, 2015, an increase in interest expense of \$0.2 million, or 62%. The increase was due to an increase in borrowing on our debt facility with Wells Fargo Capital Finance for our recent acquisitions.

Other expense was \$0.7 million in the three months ended March 31, 2016, compared to other expense of \$0.5 million in the three months ended March 31, 2015, an increase of \$0.2 million. The other expenses of \$0.7 million in the three months ended March 31, 2016 was due to the non-cash accounting loss on the divestiture of the EMP Live assets as part of the acquisition of Hipcricket.

Table of Contents

(Provision for) Benefit from Income Taxes

	Three Months Ended March 31,		Change	
	2016	2015	Amount	%
	Percent	Percent	Amount	Change
	Amount of	Amount of	Amount	%
	Revenue	Revenue	Change	Change

(dollars in thousands)

(Provision for) Benefit from Income Taxes \$(103) (1)% \$243 2 % \$(346) (142)%

Provision for income taxes was \$0.1 million in the three months ended March 31, 2016, compared to the benefit for income taxes of \$0.2 million in the three months ended March 31, 2015, due to an increase in pre-tax net income in our Canadian operations compared to the prior period producing an increase of \$0.3 million, or 142%.

Liquidity and Capital Resources

To date, we have financed our operations primarily through issuance of preferred stock and common stock and cash from operating activities, and to a lesser extent, borrowing under our loan and security agreements and the issuance of seller notes. As of March 31, 2016, we had cash and cash equivalents of \$13.6 million, \$15.0 million of available borrowings under our loan and security agreements, and \$29.1 million of borrowings outstanding under our loan and security agreements compared to cash and cash equivalents of \$18.5 million, \$20.0 million of available borrowings under our loan and security agreements, and \$24.4 million of borrowings outstanding under our loan and security agreements as of December 31, 2015. In addition to the available borrowings noted above, our current credit facility provides for an additional \$10.0 million in subordinated seller notes for acquisitions plus an uncommitted \$15.0 million accordion loan for future acquisitions.

As of March 31, 2016 and December 31, 2015, we had a working capital deficit of \$11.7 million and surplus of \$1.0 million, respectively, which included \$21.5 million and \$19.9 million of deferred revenue recorded as a current liability as of March 31, 2016 and December 31, 2015, respectively. This deferred revenue will be recognized as revenue in accordance with our revenue recognition policy.

The following table summarizes our cash flows for the periods indicated:

Three Months
Ended March 31,
2016 2015
(dollars in
thousands)

Consolidated Statements of Cash Flow Data:

Net cash provided by operating activities	\$(118)	\$(388)
Net cash used in investing activities	(9,190)	(3,012)
Net cash provided by (used in) financing activities	4,177	(1,221)
Effect of exchange rate fluctuations on cash	243	221
Change in cash and cash equivalents	(4,888)	(4,400)
Cash and cash equivalents, beginning of period	18,473	30,988
Cash and cash equivalents, end of period	\$13,585	\$26,588

Cash Flows from Operating Activities

Cash used in operating activities is significantly influenced by the amount of cash we invest in personnel and infrastructure to support the anticipated growth of our business. Our operating assets and liabilities consist primarily of cash, receivables from customers and unbilled professional services, accounts payable and accrued expenses and deferred revenues. The volume of professional services rendered and the related timing of collections on those bookings, as well as payments of our accounts payable and accrued payroll and related benefits affect these account balances.

Our cash provided by operating activities for the three months ended March 31, 2016 primarily reflects our net loss of \$5.6 million plus \$0.4 million of foreign currency re-measurement gains, offset by non-cash expenses that included

\$2.5 million of depreciation and amortization, \$0.7 million of non-cash stock compensation expense

25

Table of Contents

and \$0.7 million loss on disposal of business. Working capital sources of cash included a \$1.1 million decrease in accounts receivable, a \$0.2 million decrease in prepaids and other and a \$1.3 million increase in deferred revenue. These sources of cash were offset by a \$0.6 million decrease in accounts payable.

A substantial source of cash is provided as a result of invoicing for subscriptions in advance, which is recorded as deferred revenue, and is included on our consolidated balance sheet as a liability. Deferred revenue consists of the unearned portion of booked fees for our software subscriptions and support, which is amortized into revenue in accordance with our revenue recognition policy. We assess our liquidity, in part, through an analysis of new subscriptions invoiced, expected cash receipts on new and existing subscriptions, and our ongoing operating expense requirements.

Cash Flows from Investing Activities

Our primary investing activities have consisted of acquisitions of complementary technologies, products and businesses. As our business grows, we expect our primary investing activities to continue to further expand our family of software applications and infrastructure and support additional personnel.

For the three months ended March 31, 2016 cash used in investing activities for business combinations, consisted of cash proceeds paid during the period to certain sellers of our website analytics business acquisition, which was acquired in January 2016 totaling \$8.1 million, purchases of customer relationships of \$0.4 million and purchases of property and equipment of \$0.7 million.

Our future capital requirements will depend on many factors, including our growth rate, the timing and extent of spending to support research and development efforts, the expansion of sales and marketing activities, the introduction of new and enhanced applications and professional service offerings and acquisitions of complementary technologies, products and businesses.

Cash Flows from Financing Activities

Our primary financing activities have consisted of capital raised to fund our operations, proceeds from debt obligations entered into to finance our operations, repayments of our debt obligations and share based payment activity.

During the three months ended March 31, 2016, we borrowed \$5.0 million under the revolver portion of our credit agreement in conjunction with the acquisition of our website analytics business acquisition, repaid \$0.3 million of term notes payable and made principal payments of \$0.5 million on capital leases.

Off-Balance Sheet Arrangements

During the three months ended March 31, 2016 and 2015, we did not have any relationships with unconsolidated organizations or financial partnerships, such as structured finance or special-purpose entities, that would have been established for the purpose of facilitating off-balance sheet arrangements or other contractually narrow or limited purposes.

Critical Accounting Policies and the Use of Estimates

We prepare our consolidated financial statements in accordance with generally accepted accounting principles in the United States. The preparation of consolidated financial statements also requires us to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenue, costs and expenses and related disclosures. We base our estimates on historical experience and on various other assumptions that we believe to be reasonable under the circumstances. Actual results could differ significantly from the estimates made by our management. To the extent that there are differences between our estimates and actual results, our future financial statement presentation, financial condition, results of operations and cash flows will be affected. We believe that the accounting policies discussed below are critical to understanding our historical and future performance, as these policies relate to the more significant areas involving management's judgments and estimates.

Table of Contents

The following critical accounting policies reflect significant judgments and estimates used in the preparation of our consolidated financial statements:

- revenue recognition and deferred revenue;
- stock-based compensation;
- income taxes; and
- business combinations and the recoverability of goodwill and long-lived assets.

Our unaudited interim financial statements and other financial information for the three months ended March 31, 2016, as presented herein and in Item 1 to this Quarterly Report on Form 10-Q, reflects no material changes in our critical accounting policies and estimates as set forth in our Annual report on Form 10-K for the year ended December 31, 2015 filed with the SEC on March 30, 2016. Please refer to this Annual Report for a detailed description of our critical accounting policies that involve significant management judgment.

We evaluate our estimates, judgments and assumptions on an ongoing basis, and while we believe that our estimates, judgments and assumptions are reasonable, they are based upon information available at the time. Actual results may differ significantly from these estimates under different assumptions, judgments or conditions.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

We have operations both within the United States and internationally, and we are exposed to market risks in the ordinary course of our business. These risks primarily include interest rate, foreign exchange and inflation risks, as well as risks relating to changes in the general economic conditions in the countries where we conduct business. The statement of operations impact is mitigated by having an offsetting liability in deferred revenue to partially or completely offset against the outstanding receivable if an account should become uncollectible. Our cash balances are kept in customary operating accounts, a portion of which are insured by the Federal Deposit Insurance Corporation, and uninsured money market accounts. The majority of our cash balances in money market accounts are with Comerica Bank, our former lender under our loan and security agreements. To date, we have not used derivative instruments to mitigate the impact of our market risk exposures. We also have not used, nor do we intend to use, derivatives for trading or speculative purposes.

Interest Rate Risk

Our exposure to market risk for changes in interest rates primarily relates to our cash equivalents and any variable rate indebtedness. The primary objective of our investment activities is to preserve principal while maximizing yields without significantly increasing risk. This objective is accomplished currently by making diversified investments, consisting only of money market mutual funds and certificates of deposit. Any draws under our loan and security agreements bear interest at a variable rate tied to the prime rate. As of March 31, 2016, we had a principal balance of \$18.3 million under our U.S. Term Loan, \$5.0 million under our U.S. Revolver, \$5.8 million under our Canadian Term Loan and \$0 under our Canadian Revolver. As of December 31, 2015, we had a principal balance of \$18.5 million under our U.S. Loan Agreement and \$5.9 million under our Canadian Loan Agreement.

Table of Contents

Foreign Currency Exchange Risk

Our results of operations and cash flows are subject to fluctuations due to changes in foreign currency exchange rates. In addition, we incur a portion of our operating expenses in foreign currencies, including Canadian dollars, British pounds and Euros, and in the future as we expand into other foreign countries, we expect to incur operating expenses in other foreign currencies. In addition, our customers are generally invoiced in the currency of the country in which they are located. We are exposed to foreign exchange rate fluctuations as the financial results of our international operations are translated from the local functional currency into U.S. dollars upon consolidation. A decline in the U.S. dollar relative to foreign functional currencies would increase our non-U.S. revenue and improve our operating results. Conversely, if the U.S. dollar strengthens relative to foreign functional currencies, our revenue and operating results would be adversely affected. The effect of a hypothetical 10% change in foreign currency exchange rates applicable to our business would have resulted in a change in revenue of \$0.5 million for the three months ended March 31, 2016. To date, we have not engaged in any hedging strategies. As our international operations grow, we will continue to reassess our approach to manage our risk relating to fluctuations in foreign currency exchange rates.

Inflation

We do not believe that inflation had a material effect on our business, financial condition or results of operations in the last three fiscal years. If our costs were to become subject to significant inflationary pressures, we may not be able to fully offset such higher costs through price increases. Our inability or failure to do so could harm our business, financial condition and results of operations.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

The term “disclosure controls and procedures,” as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act refers to controls and procedures that are designed to ensure that information required to be disclosed by a company in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the SEC’s rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that such information is accumulated and communicated to a company’s management, including its principal executive and principal financial officers, as appropriate to allow timely decisions regarding required disclosure.

Our management, with the participation of our Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of our disclosure controls and procedures as of March 31, 2016, the end of the period covered by this Quarterly Report on Form 10-Q. Based upon such evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that our disclosure controls and procedures were effective as of such date.

Changes in Internal Control over Financial Reporting

There were no changes in our internal control over financial reporting during the most recent fiscal quarter ended March 31, 2016 that materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II – OTHER INFORMATION

Risks Related to Our Business

Other than with respect to the replacement of the risk factor entitled our loan agreements contain operating and financial covenants that may restrict our business and financing activities set forth in our Annual Report on Form 10-K for the year ended December 31, 2015, with the risk factor set forth below, there have been no material changes from the risk factors disclosed in our Annual Report on Form 10-K for the year ended December 31, 2015.

Our credit facility contains operating and financial covenants that may restrict our business and financing activities.

Table of Contents

On May 14, 2015, we entered into a \$60 million credit facility with Wells Fargo Capital Finance. The facility is comprised of a \$25 million term loan, a \$10 million revolving credit facility and a \$10 million delayed draw term loan for acquisitions. Additionally, the facility provides for an uncommitted \$15 million accordion loan to further support future acquisitions and an additional \$10 million of subordinated seller notes for acquisitions. As of March 31, 2016, there was \$29.1 million outstanding under the credit facility, \$24.1 million of which was outstanding under the term loan portion and \$5.0 million outstanding under the revolving portion of the credit facility.

Our obligations and the obligations of the co-borrowers and any guarantors under the Wells Fargo credit facility are secured by a security interest in substantially all of our assets and assets of the co-borrowers' and of any guarantors, including intellectual property. The terms of the credit facility limits, among other things, our ability to

- sell, lease, license or otherwise dispose of assets;
- undergo a change in control;
- consolidate or merge with or into other entities;
- make or own loans, investments and acquisitions;
- create, incur or assume guarantees in respect of obligations of other persons;
- create, incur or assume liens and other encumbrances; or
- pay dividends or make distributions on, or purchase or redeem, our capital stock.

Furthermore, the Wells Fargo credit facility requires us and our subsidiaries to comply with certain financial covenants. The operating and other restrictions and covenants in the credit facility, and in any future financing arrangements that we may enter into, may restrict our ability to finance our operations, engage in certain business activities, or expand or fully pursue our business strategies, or otherwise limit our discretion to manage our business. Our ability to comply with these restrictions and covenants may be affected by events beyond our control, and we may not be able to meet those restrictions and covenants. A breach of any of the restrictions and covenants could result in a default under the credit facility or any future financing arrangements, which could cause any outstanding indebtedness under the credit facility or under any future financing arrangements to become immediately due and payable, and result in the termination of commitments to extend further credit.
