UDR, Inc.

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
JUNE 30, 2007
(UNAUDITED)**

1. CONSOLIDATION AND BASIS OF PRESENTATION

UDR, Inc., formerly United Dominion Realty Trust, Inc., is a self-administered real estate investment trust, or REIT, that owns, acquires, renovates, develops, and manages apartment communities nationwide. The accompanying consolidated financial statements include the accounts of UDR and its subsidiaries, including United Dominion Realty, L.P. (the Operating Partnership), and Heritage Communities L.P. (the Heritage OP) (collectively, UDR). As of June 30, 2007, there were 166,163,187 units in the Operating Partnership outstanding, of which 157,409,361 units or 95% were owned by UDR and 8,753,826 units or 5% were owned by limited partners (of which 1,627,769 are owned by the holders of the Series A OPPS). As of June 30, 2007, there were 5,542,200 units in the Heritage OP outstanding, of which 5,212,041 units or 94% were owned by UDR and 330,159 units or 6% were owned by limited partners. The consolidated financial statements of UDR include the minority interests of the unitholders in the Operating Partnership and the Heritage OP. All significant intercompany accounts and transactions have been eliminated in consolidation.

The accompanying interim unaudited consolidated financial statements have been prepared according to the rules and regulations of the Securities and Exchange Commission. Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States have been condensed or omitted according to such rules and regulations, although management believes that the disclosures are adequate to make the information presented not misleading. The accompanying consolidated financial statements should be read in conjunction with the audited consolidated financial statements and related notes appearing in UDR's Annual Report on Form 10-K for the year ended December 31, 2006, filed with the Securities and Exchange Commission as updated by the Current Report on Form 8-K dated and filed May 18, 2007.

In the opinion of management, the consolidated financial statements reflect all adjustments that are necessary for the fair presentation of financial position at June 30, 2007, and results of operations for the interim periods ended June 30, 2007 and 2006. Such adjustments are normal and recurring in nature. The interim results presented are not necessarily indicative of results that can be expected for a full year.

The preparation of these financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent liabilities at the dates of the financial statements and the amounts of revenues and expenses during the reporting periods. Actual amounts realized or paid could differ from those estimates. Certain previously reported amounts have been reclassified to conform to the current financial statement presentation.

UDR adopted FASB Interpretation 48, Accounting for Uncertainty in Income Taxes (FIN 48), on January 1, 2007. As a result of the implementation of FIN 48, UDR recognized no material adjustments to liabilities related to unrecognized income tax benefits. At the adoption date of January 1, 2007, UDR's taxable REIT subsidiaries had \$538,000 of net unrecognized tax benefits, which would favorably impact our effective tax rate if recognized. At June 30, 2007, UDR had \$642,000 of net unrecognized tax benefits. UDR and its subsidiaries are subject to U.S. federal income tax as well as income tax of multiple state jurisdictions. The tax years 2003-2006 remain open to examination by the major taxing jurisdictions to which we are subject. UDR recognizes interest and/or penalties related to uncertain tax positions in income tax expense. As of June 30, 2007, UDR had \$49,000 accrued for interest and \$0 accrued for penalties.

In September 2006, the FASB issued Statement No. 157, Fair Value Measurements, and in February 2007, Statement No. 159, The Fair Value Option for Financial Assets and Financial Liabilities. Statement 157 increases the consistency and comparability in fair value measurements and expands disclosures about fair value measurements. Statement 159 allows an entity to make a one-time election to measure many financial assets and financial liabilities at fair value (the fair value option). The election is made on an

Table of Contents**UDR, Inc.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

instrument-by-instrument basis and is irrevocable. If the fair value option is elected for an instrument, this statement specifies that all subsequent changes in fair value for that instrument are reported in earnings. Both statements are effective for fiscal years beginning after November 15, 2007. UDR is currently assessing the impact that these statements may have on its consolidated financial statements.

2. REAL ESTATE HELD FOR INVESTMENT

At June 30, 2007, there are 234 communities with 66,824 apartment homes classified as real estate held for investment. The following table summarizes the components of real estate held for investment (*dollars in thousands*):

	June 30, 2007	December 31, 2006
Land and land improvements	\$ 1,361,158	\$ 1,301,812
Buildings and improvements	3,815,792	3,669,376
Furniture, fixtures, and equipment	303,338	285,544
Real estate held for investment	5,480,288	5,256,732
Accumulated depreciation	(1,308,407)	(1,183,710)
Real estate held for investment, net	\$ 4,171,881	\$ 4,073,022

3. INCOME FROM DISCONTINUED OPERATIONS

UDR adopted FASB Statement No. 144, *Accounting for the Impairment or Disposal of Long-Lived Assets*, (FAS 144) as of January 1, 2002. FAS 144 requires, among other things, that the primary assets and liabilities and the results of operations of UDR's real properties which have been sold or are held for disposition, be classified as discontinued operations and segregated in UDR's Consolidated Statements of Operations and Consolidated Balance Sheets. Properties classified as real estate held for disposition generally represent properties that are actively marketed or contracted for sale which are expected to close within the next twelve months.

For purposes of these financial statements, FAS 144 results in the presentation of the primary assets and liabilities and the net operating results of those properties sold or classified as held for disposition through June 30, 2007, as discontinued operations for all periods presented. The adoption of FAS 144 does not have an impact on net income available to common stockholders. FAS 144 only results in the reclassification of the operating results of all properties sold or classified as held for disposition through June 30, 2007, within the Consolidated Statements of Operations for the three and six months ended June 30, 2007 and 2006, and the reclassification of the assets and liabilities within the Consolidated Balance Sheets for June 30, 2007 and December 31, 2006.

For the six months ended June 30, 2007, UDR sold three communities, 22 condominiums from one community with a total of 320 condominiums, and one parcel of land. UDR recognized after-tax gains for financial reporting purposes of \$50.5 million on these sales. At June 30, 2007, UDR had nine communities with a net book value of \$192.4 million,

one community with a total of 298 condominiums and a net book value of \$20.7 million, and one commercial unit with a net book value of \$0.4 million included in real estate held for disposition. For the six months ended June 30, 2006, UDR sold seven communities with a total of 1,903 apartment homes and 300 condominiums from four communities with a total of 612 condominiums. UDR recognized after-tax gains for financial reporting purposes of \$48.8 million on these sales. In conjunction with the sale of ten properties in July 2005, UDR received short-term notes for \$124.7 million that bear interest at 6.75% and had maturities ranging from September 2005 to July 2006. As of June 30, 2006, the balance on the notes receivable was \$8.0 million. UDR recognized gains for financial reporting purposes on

Table of Contents**UDR, Inc.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

these notes of \$10.6 million during the six months ended June 30, 2006. The results of operations for these properties are classified on the Consolidated Statements of Operations in the line item titled Income from discontinued operations, net of minority interests.

UDR has elected Taxable REIT Subsidiary (TRS) status for certain of its corporate subsidiaries, primarily those engaged in condominium conversion and development activities. UDR recognized a provision for income taxes of \$0.06 million and \$2.5 million for the three months ended June 30, 2007 and 2006, respectively. For the six months ended June 30, 2007, UDR recognized a \$4.2 million income tax benefit and for the six months ended June 30, 2006, UDR recognized a provision for income taxes of \$7.2 million. These amounts are included in the income from discontinued operations, net of minority interests in the accompanying consolidated statements of operations.

The following is a summary of income from discontinued operations for the periods presented, *(dollars in thousands)*:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2007	2006	2007	2006

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

4. SECURED DEBT

Secured debt on continuing and discontinued operations, which encumbers \$1.9 billion or 32% of UDR's real estate owned based upon book value (\$4.1 billion or 68% of UDR's real estate owned is unencumbered), consists of the following as of June 30, 2007 (*dollars in thousands*):

	Principal Outstanding		Weighted Average Interest Rate 2007	Weighted Average Years to Maturity 2007	Number of Communities Encumbered 2007
	June 30, 2007	December 31, 2006			
Fixed Rate Debt					
Mortgage notes payable	\$ 403,431	\$ 352,159	5.45%	3.4	19
Tax-exempt secured notes payable	25,945	26,070	5.84%	17.8	3
Fannie Mae credit facilities	584,193	399,362	5.94%	6.0	9
Total fixed rate secured debt	1,013,569	777,591	5.74%	5.2	31
Variable Rate Debt					
Mortgage notes payable	99,534	105,089	6.08%	3.7	3
Tax-exempt secured note payable	7,770	7,770	3.78%	21.0	1
Fannie Mae credit facilities	133,739	292,469	5.82%	7.2	38
Total variable rate secured debt	241,043	405,328	5.86%	6.2	42
Total secured debt	\$ 1,254,612	\$ 1,182,919	5.76%	5.4	73

Approximate principal payments due during each of the next five calendar years and thereafter, as of June 30, 2007, are as follows (*dollars in thousands*):

Year	Fixed Rate Maturities	Variable Rate Maturities	Total Secured Maturities
2007	\$ 79,850	\$	\$ 79,850
2008	9,500		9,500
2009	34,193	62,119	96,312

Edgar Filing: UDR, Inc. - Form 10-Q

2010	246,821		246,821
2011	109,448	15,783	125,231
Thereafter	533,757	163,141	696,898
	\$ 1,013,569	\$ 241,043	\$ 1,254,612

Table of Contents**UDR, Inc.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****5. UNSECURED DEBT**

A summary of unsecured debt as of June 30, 2007 and December 31, 2006 is as follows (*dollars in thousands*):

	June 30, 2007	December 31, 2006

Total Unsecured Debt	\$ 2,339,752	\$ 2,155,866

- (a) On July 27, 2007, UDR amended and restated its existing three-year \$500 million senior unsecured revolving credit facility with a maturity date of May 31, 2008 (which can be extended for an additional year at UDR's option) to increase the facility to \$600 million and to extend its maturity to July 26, 2012. The terms of the \$500 million credit facility provide that UDR has the right to increase the credit facility to \$750 million under certain circumstances. Based on UDR's current credit ratings, the \$500 million credit facility carries an interest rate equal to LIBOR plus a spread of 57.5 basis points. Under a competitive bid feature and for so long as UDR maintains an Investment Grade Rating, UDR has the right to bid out 50% of the commitment amount under the \$500 million credit facility and can bid out 100% of the commitment amount once per quarter.
- (b) At any time on or after July 15, 2011, prior to the close of business on the second business day prior to September 15, 2011, and also following the occurrence of certain events, the notes will be convertible at the option of the holder. Upon conversion of the notes, UDR will deliver cash and common stock, if any,

Table of Contents**UDR, Inc.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

based on a daily conversion value calculated on a proportionate basis for each trading day of the relevant 30 trading day observation period. The initial conversion rate for each \$1,000 principal amount of notes is 26.6326 shares of our common stock, subject to adjustment under certain circumstances. In connection with the issuance of the 3.625% convertible senior notes, UDR entered into a capped call transaction with respect to its common stock. The convertible note and capped call transaction, both of which expire September 2011, must be net share settled. The maximum number of shares to be issued under the convertible notes is 6.7 million shares, subject to certain adjustment provisions. The capped call transaction combines a purchased call option with a strike price of \$37.548 with a written call option with a strike price of \$43.806. These transactions have no effect on the terms of the 3.625% convertible senior notes by effectively increasing the initial conversion price to \$43.806 per share, representing a 40% conversion premium. The net cost of \$12.6 million of the capped call transaction was included in stockholders' equity.

- (c) In March 2007, UDR sold \$150 million aggregate principal amount of 5.50% senior unsecured notes due April 2014 under its medium-term note program. The net proceeds of approximately \$149 million were used for debt repayment.
- (d) Prior to December 15, 2030, upon the occurrence of specified events, the notes will be convertible at the option of the holder into cash and, in certain circumstances, shares of UDR's common stock at an initial conversion price of approximately 35.2988 shares per \$1,000 principal amount of notes. On or after December 15, 2030, the notes will be convertible at any time prior to the second business day prior to maturity at the option of the holder into cash, and, in certain circumstances, shares of UDR's common stock at the above initial conversion rate. The initial conversion rate is subject to adjustment in certain circumstances.

6. EARNINGS PER SHARE

Basic earnings per common share is computed based upon the weighted average number of common shares outstanding during the period. Diluted earnings per common share is computed based upon common shares outstanding plus the effect of dilutive stock options and other potentially dilutive common stock equivalents. The dilutive effect of stock options and other potentially dilutive common stock equivalents is determined using the treasury stock method based on UDR's average stock price.

The following table sets forth the computation of basic and diluted earnings per share for the periods presented, (dollars in thousands, except per share data):

	Three Months Ended		Six Months Ended	
	June 30,		June 30,	
	2007	2006	2007	2006
Numerator for basic and diluted earnings per share				
Net income available to common stockholders	\$ 811	\$ 28,342	\$ 28,801	\$ 36,508
Denominator:				
Denominator for basic earnings per share				

Edgar Filing: UDR, Inc. - Form 10-Q

Weighted average common shares outstanding	135,604	134,443	135,491	134,330
Non-vested restricted stock awards	(877)	(767)	(871)	(696)
	134,727	133,676	134,620	133,634
Effect of dilutive securities:				
Employee stock options, non-vested restricted stock awards, and convertible debt				
Denominator for diluted earnings per share	134,727	133,676	134,620	133,634
Basic and diluted earnings per share	\$ 0.01	\$ 0.21	\$ 0.21	\$ 0.27

Table of Contents

UDR, Inc.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

The effect of the conversion of the operating partnership units, Series A Out-Performance Partnership Shares, convertible preferred stock, and convertible debt, is not dilutive and is therefore not included in the above calculations.

If the operating partnership units were converted to common stock, the additional shares of common stock outstanding for the three and six months ended June 30, 2007 would be 7,765,772 and 7,982,809 weighted average common shares, and 8,742,297 and 8,747,834 weighted average common shares for the three and six months ended June 30, 2006.

If the Series A Out-Performance Partnership Shares were converted to common stock, the additional shares of common stock outstanding for the three and six months ended June 30, 2007 would be 1,627,769 and 1,627,894 weighted average common shares, respectively, and 1,764,662 weighted average common shares for the three and six months ended June 30, 2006.

At June 30, 2007, if the measurement periods had ended on that date, the Series C, D and E Out-Performance Partnership Share program performance thresholds would not have been met. Accordingly, no additional operating partnership units would have been issued at that date.

At June 30, 2006, if the measurement periods had ended on that date, the Series C and D Out-Performance Partnership Share program performance thresholds would have been met. Accordingly, 381,990 and 400,264 operating partnership units would have been issued had the measurement periods ended at that date; however, those units have been excluded in the calculation of diluted earnings per share because their effect would be anti-dilutive.

If the convertible preferred stock were converted to common stock, the additional shares of common stock outstanding would be 2,803,812 weighted average common shares for the three and six months ended June 30, 2007 and 2006.

7. COMMITMENTS AND CONTINGENCIES

Commitments

UDR is committed to completing its wholly owned real estate under development, which has an estimated cost to complete of \$436.0 million at June 30, 2007.

UDR is committed to completing its development joint venture projects, which have an estimated cost to complete of \$204.4 million at June 30, 2007. The estimated cost to complete consists of \$43.5 million related to a consolidated joint venture and \$160.9 million related to unconsolidated joint ventures in which UDR owns 49%. These unconsolidated joint ventures are expected to be completed at various times between the second quarter of 2008 and the third quarter of 2010.

UDR has entered into four contracts to purchase apartment communities upon their development completion. Provided that the developer meets certain conditions, UDR will purchase these communities for approximately \$154 million. These apartment communities are expected to be completed at various times between the fourth quarter of 2007 and the first quarter of 2009.

Contingencies

Series C Out-Performance Program

In May 2005, the stockholders of UDR approved a new Out-Performance Program and the first series of new Out-Performance Partnership Shares under the program are the Series C Out-Performance Units (the Series C Program) pursuant to which certain executive officers and other key employees of UDR (the Series C Participants) were given the opportunity to invest indirectly in UDR by purchasing interests in UDR Out-Performance III, LLC, a Delaware limited liability company (the Series C LLC), the only asset of

Table of Contents

UDR, Inc.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

which is a special class of partnership units of the Operating Partnership (Series C Out-Performance Partnership Shares or Series C OPPSs). The purchase price for the Series C OPPSs was determined by the Compensation Committee of UDR's board of directors to be \$750,000, assuming 100% participation, and was based upon the advice of an independent valuation expert. UDR's performance for the Series C Program will be measured over the 36-month period from June 1, 2005 to May 30, 2008.

The Series C Program is designed to provide participants with the possibility of substantial returns on their investment if the cumulative total return on UDR's common stock, as measured by the cumulative amount of dividends paid plus share price appreciation during the measurement period is at least the equivalent of a 36% total return, or 12% annualized (Minimum Return).

At the conclusion of the measurement period, if UDR's cumulative total return satisfies these criteria, the Series C LLC as holder of the Series C OPPSs will receive (for the indirect benefit of the Series C Participants as holders of interests in the Series C LLC) distributions and allocations of income and loss from the Operating Partnership equal to the distributions and allocations that would be received on the number of OP Units obtained by:

- i. determining the amount by which the cumulative total return of UDR's common stock over the measurement period exceeds the Minimum Return (such excess being the Excess Return);
- ii. multiplying 2% of the Excess Return by UDR's market capitalization (defined as the average number of shares outstanding over the 36-month period, including common stock, common stock equivalents and OP Units); and
- iii. dividing the number obtained in clause (ii) by the market value of one share of UDR's common stock on the valuation date, computed as the volume-weighted average price per day of common stock for the 20 trading days immediately preceding the valuation date.

For the Series C OPPSs, the number determined pursuant to (ii) above is capped at 1% of market capitalization.

If, on the valuation date, the cumulative total return of UDR's common stock does not meet the Minimum Return, then the Series C Participants will forfeit their entire initial investment.

Based on the results through June 30, 2007, no Series C OPPSs would have been issued had the Program terminated on that date. However, since the ultimate determination of Series C OPPSs to be issued will not occur until May 30, 2008, and the number of Series C OPPSs is determinable only upon future events, the financial statements do not reflect any impact for these events. Accordingly, the contingently issuable Series C OPPSs will only be included in basic earnings per share after the measurement period has ended and the applicable hurdle has been met. Furthermore, the Series C OPPSs will only be included in common stock and common stock equivalents in the calculation of diluted earnings per share after the hurdle has been met at the end of the reporting period (if any), assuming the measurement period ended at the end of the reporting period.

Series D Out-Performance Program

In February 2006, the board of directors of UDR approved the Series D Out-Performance Program (the Series D Program) pursuant to which certain executive officers of UDR (the Series D Participants) were given the opportunity to invest indirectly in UDR by purchasing interests in UDR Out-Performance IV, LLC, a Delaware limited liability

company (the Series D LLC), the only asset of which is a special class of partnership units of the Operating Partnership (Series D Out-Performance Partnership Shares or Series D OPPSs). The Series D Program is part of the New Out-Performance Program approved by UDR's stockholders in May 2005. The Series D LLC has agreed to sell 830,000 membership units to certain members of UDR's senior management at a price of \$1.00 per unit. The aggregate purchase price of \$830,000 for the

Table of Contents

UDR, Inc.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Series D OPPSs, assuming 100% participation, is based upon the advice of an independent valuation expert. The Series D Program will measure the cumulative total return on our common stock over the 36-month period beginning January 1, 2006 and ending December 31, 2008.

The Series D Program is designed to provide participants with the possibility of substantial returns on their investment if the cumulative total return on UDR's common stock, as measured by the cumulative amount of dividends paid plus share price appreciation during the measurement period is at least the equivalent of a 36% total return, or 12% annualized (Minimum Return).

At the conclusion of the measurement period, if UDR's cumulative total return satisfies these criteria, the Series D LLC as holder of the Series D OPPSs will receive (for the indirect benefit of the Series D Participants as holders of interests in the Series D LLC) distributions and allocations of income and loss from the Operating Partnership equal to the distributions and allocations that would be received on the number of OP Units obtained by:

- i. determining the amount by which the cumulative total return of UDR's common stock over the measurement period exceeds the Minimum Return (such excess being the Excess Return);
- ii. multiplying 2% of the Excess Return by UDR's market capitalization (defined as the average number of shares outstanding over the 36-month period, including common stock, OP Units, common stock equivalents and OP Units); and
- iii. dividing the number obtained in (ii) by the market value of one share of UDR's common stock on the valuation date, computed as the volume-weighted average price per day of the common stock for the 20 trading days immediately preceding the valuation date.

For the Series D OPPSs, the number determined pursuant to clause (ii) above is capped at 1% of market capitalization.

If, on the valuation date, the cumulative total return of UDR's common stock does not meet the Minimum Return, then the Series D Participants will forfeit their entire initial investment.

Based on the results through June 30, 2007, no Series D OPPSs would have been issued had the Program terminated on that date. However, since the ultimate determination of Series D OPPSs to be issued will not occur until December 31, 2008, and the number of Series D OPPSs is determinable only upon future events, the financial statements do not reflect any impact for these events. Accordingly, the contingently issuable Series D OPPSs will only be included in basic earnings per share after the measurement period has ended and the applicable hurdle has been met. Furthermore, the Series D OPPSs will only be included in common stock and common stock equivalents in the calculation of diluted earnings per share after the hurdle has been met at the end of the reporting period (if any), assuming the measurement period ended at the end of the reporting period.

Series E Out-Performance Program

In February 2007, the board of directors of UDR approved the Series E Out-Performance Program (the Series E Program) pursuant to which certain executive officers of UDR (the Series E Participants) were given the opportunity to invest indirectly in UDR by purchasing interests in UDR Out-Performance V, LLC, a Delaware limited liability company (the Series E LLC), the only asset of which is a special class of partnership units of the Operating

Partnership (Series E Out-Performance Partnership Shares or Series E OPPSs). The Series E Program is part of the New Out-Performance Program approved by UDR s stockholders in May 2005. The Series E LLC has agreed to sell 805,000 membership units to certain members of UDR s senior management at a price of \$1.00 per unit. The aggregate purchase price of \$805,000 for the Series E OPPSs, assuming 100% participation, is based upon the advice of an independent valuation expert.

Table of Contents

UDR, Inc.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

The Series E Program will measure the cumulative total return on our common stock over the 36-month period beginning January 1, 2007 and ending December 31, 2009.

The Series E Program is designed to provide participants with the possibility of substantial returns on their investment if the cumulative total return on UDR's common stock, as measured by the cumulative amount of dividends paid plus share price appreciation during the measurement period is at least the equivalent of a 36% total return, or 12% annualized (Minimum Return).

At the conclusion of the measurement period, if UDR's cumulative total return satisfies these criteria, the Series E LLC as holder of the Series E OPPSs will receive (for the indirect benefit of the Series E Participants as holders of interests in the Series E LLC) distributions and allocations of income and loss from the Operating Partnership equal to the distributions and allocations that would be received on the number of OP Units obtained by:

- i. determining the amount by which the cumulative total return of UDR's common stock over the measurement period exceeds the Minimum Return (such excess being the Excess Return);
- ii. multiplying 2% of the Excess Return by UDR's market capitalization (defined as the average number of shares outstanding over the 36-month period, including common stock, OP Units, common stock equivalents and OP Units); and
- iii. dividing the number obtained in (ii) by the market value of one share of UDR's common stock on the valuation date, computed as the volume-weighted average price per day of the common stock for the 20 trading days immediately preceding the valuation date.

For the Series E OPPSs, the number determined pursuant to clause (ii) above is capped at 0.5% of market capitalization.

If, on the valuation date, the cumulative total return of UDR's common stock does not meet the Minimum Return, then the Series E Participants will forfeit their entire initial investment.

Based on the results through June 30, 2007, no Series E OPPSs would have been issued had the Program terminated on that date. However, since the ultimate determination of Series E OPPSs to be issued will not occur until December 31, 2009, and the number of Series E OPPSs is determinable only upon future events, the financial statements do not reflect any impact for these events. Accordingly, the contingently issuable Series E OPPSs will only be included in basic earnings per share after the measurement period has ended and the applicable hurdle has been met. Furthermore, the Series E OPPSs will only be included in common stock and common stock equivalents in the calculation of diluted earnings per share after the hurdle has been met at the end of the reporting period (if any), assuming the measurement period ended at the end of the reporting period.

Litigation and Legal Matters

UDR is subject to various legal proceedings and claims arising in the ordinary course of business. UDR cannot determine the ultimate liability with respect to such legal proceedings and claims at this time. UDR believes that such liability, to the extent not provided for through insurance or otherwise, will not have a material adverse effect on our financial condition, results of operations or cash flow.

8. SUBSEQUENT EVENT

On July 27, 2007, UDR amended its existing \$500 million senior unsecured revolving credit facility to increase the facility to \$600 million and extend its maturity to July 26, 2012. The credit facility was arranged by Wachovia Capital Markets, LLC and J.P. Morgan Securities, Inc. and was syndicated to 17 banks.

Table of Contents

UDR, Inc.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Under certain circumstances, UDR may increase the credit facility to \$750 million. Based on UDR's current credit ratings, the credit facility carries an interest rate equal to LIBOR plus a spread of 47.5 basis points, which represents a 10 basis point reduction to the previous unsecured revolver, and the facility fee remained at 15 basis points. Under a competitive bid feature and for so long as UDR maintains an Investment Grade Rating, UDR has the right to bid out 50% of the commitment amount and can bid out 100% of the commitment amount once per quarter.

During July 2007, UDR repurchased 320,200 shares of its common stock at an average price of \$27.12 per share.

Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Forward-Looking Statements

This Report contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. Such forward-looking statements include, without limitation, statements concerning property acquisitions and dispositions, development activity and capital expenditures, capital raising activities, rent growth, occupancy, and rental expense growth. Words such as expects, anticipates, intends, plans, believes, seeks, estimates, and variations of such words and similar expressions are intended to identify such forward-looking statements. Such statements involve known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements to be materially different from the results of operations or plans expressed or implied by such forward-looking statements. Such factors include, among other things, unanticipated adverse business developments affecting us, or our properties, adverse changes in the real estate markets and general and local economies and business conditions. Although we believe that the assumptions underlying the forward-looking statements contained herein are reasonable, any of the assumptions could be inaccurate, and therefore such statements included in this Report may not prove to be accurate. In light of the significant uncertainties inherent in the forward-looking statements included herein, the inclusion of such information should not be regarded as a representation by us or any other person that the results or conditions described in such statements or our objectives and plans will be achieved.

The following factors, among others, could cause our future results to differ materially from those expressed in the forward-looking statements:

- unfavorable changes in apartment market and economic conditions that could adversely affect occupancy levels and rental rates,
- the failure of acquisitions to achieve anticipated results,
- possible difficulty in selling apartment communities,
- the timing and closing of planned dispositions under agreement,
- competitive factors that may limit our ability to lease apartment homes or increase or maintain rents,
- insufficient cash flow that could affect our debt financing and create refinancing risk,
- failure to generate sufficient revenue, which could impair our debt service payments and distributions to stockholders,
- development and construction risks that may impact our profitability,
- potential damage from natural disasters, including hurricanes and other weather-related events, which could result in substantial costs to us,
- risks from extraordinary losses for which we may not have insurance or adequate reserves,

uninsured losses due to insurance deductibles, self-insurance retention, uninsured claims or casualties, or losses in excess of applicable coverage,

delays in completing developments and lease-ups on schedule,

our failure to succeed in new markets,

changing interest rates, which could increase interest costs and affect the market price of our securities,

potential liability for environmental contamination, which could result in substantial costs to us,

the imposition of federal taxes if we fail to qualify as a REIT under the Internal Revenue Code in any taxable year,

our internal control over financial reporting may not be considered effective which could result in a loss of investor confidence in our financial reports, and in turn have an adverse effect on our stock price, and

changes in real estate tax laws, tax laws and other laws affecting our business.

A discussion of these and other factors affecting our business and prospects is set forth below in Part II, Item 1A. Risk Factors. We encourage investors to review these risks factors.

Table of Contents**Business Overview**

We are a real estate investment trust, or REIT, that owns, acquires, renovates, develops, and manages apartment communities nationwide. We were formed in 1972 as a Virginia corporation. In June 2003, we changed our state of incorporation from Virginia to Maryland. Our subsidiaries include two operating partnerships, Heritage Communities L.P., a Delaware limited partnership, and United Dominion Realty, L.P., a Delaware limited partnership. Unless the context otherwise requires, all references in this Report to we, us, our, the company, or UDR refer collectively to UDR, Inc. and its subsidiaries.

At June 30, 2007, our portfolio included 249 communities with 71,290 apartment homes nationwide. The following table summarizes our market information by major geographic markets (includes real estate held for disposition, real estate under development, and land, but excludes commercial properties):

	As of June 30, 2007			Three Months Ended June 30, 2007		Six Months Ended June 30, 2007

Table of Contents

Liquidity and Capital Resources

Liquidity is the ability to meet present and future financial obligations either through operating cash flows, the sale or maturity of existing assets, or by the acquisition of additional funds through capital management. Both the coordination of asset and liability maturities and effective capital management are important to the maintenance of liquidity. Our primary source of liquidity is our cash flow from operations as determined by rental rates, occupancy levels, and operating expenses related to our portfolio of apartment homes. We routinely use our unsecured bank credit facility to temporarily fund certain investing and financing activities prior to arranging for longer-term financing. During the past several years, proceeds from the sale of real estate have been used for both investing and financing activities.

We expect to meet our short-term liquidity requirements generally through net cash provided by operations and borrowings under credit arrangements. We expect to meet certain long-term liquidity requirements such as scheduled debt maturities, the repayment of financing on development activities, and potential property acquisitions, through long-term secured and unsecured borrowings, the disposition of properties, and the issuance of additional debt or equity securities. We believe that our net cash provided by operations will continue to be adequate to meet both operating requirements and the payment of dividends by the company in accordance with REIT requirements in both the short- and long-term. Likewise, the budgeted expenditures for improvements and renovations of certain properties are expected to be funded from property operations.

We have a shelf registration statement filed with the Securities and Exchange Commission which provides for the issuance of an indeterminate amount of common stock, preferred stock, debt securities, warrants, purchase contracts and units to facilitate future financing activities in the public capital markets. Access to capital markets is dependent on market conditions at the time of issuance.

Future Capital Needs

Future development expenditures are expected to be funded with proceeds from the sale of property, with construction loans, through joint ventures, the use of our unsecured revolving credit facility, and, to a lesser extent, with cash flows provided by operating activities. Acquisition activity in strategic markets is expected to be largely financed through the issuance of equity and debt securities, the issuance of operating partnership units, the assumption or placement of secured and/or unsecured debt, and by the reinvestment of proceeds from the sale of properties.

During the remainder of 2007, we have approximately \$79.8 million of secured debt and \$75.4 million of unsecured debt maturing and we anticipate repaying that debt with proceeds from borrowings under our secured or unsecured credit facilities, the issuance of new unsecured debt securities or equity, or from disposition proceeds.

Critical Accounting Policies and Estimates

Our critical accounting policies are those having the most impact on the reporting of our financial condition and results and those requiring significant judgments and estimates. These policies include those related to (1) capital expenditures, (2) impairment of long-lived assets, and (3) real estate investment properties. Our critical accounting policies are described in more detail in the section entitled "Management's Discussion and Analysis of Financial Condition and Results of Operations" in our Annual Report on Form 10-K for the year ended December 31, 2006. There have been no significant changes in our critical accounting policies from those reported in our 2006 Annual Report on Form 10-K. With respect to these critical accounting policies, we believe that the application of judgments and assessments is consistently applied and produces financial information that fairly depicts the results of operations for all periods presented.

Statements of Cash Flows

The following discussion explains the changes in net cash provided by operating and financing activities and net cash used in investing activities that are presented in our Consolidated Statements of Cash Flows.

Table of Contents

Operating Activities

For the six months ended June 30, 2007, our cash flow provided by operating activities was \$117.9 million compared to \$97.1 million for the same period in 2006. The increase in cash flow from operating activities resulted primarily from the increase in property operating income from our apartment community portfolio for the six months ended June 30, 2007 (see discussion under Apartment Community Operations).

Investing Activities

For the six months ended June 30, 2007, net cash used in investing activities was \$176.0 million as compared to \$194.0 million for the same period in 2006. Changes in the level of investing activities from period to period reflects our strategy as it relates to our acquisition, capital expenditure, development, and disposition programs, as well as the impact of the capital market environment on these activities, all of which are discussed in further detail below.

Acquisitions

During the six months ended June 30, 2007, we acquired nine apartment communities with 1,599 apartment homes, three parcels of land and one operating joint venture for an aggregate consideration of \$200.7 million. Our long-term strategic plan is to achieve greater operating efficiencies by investing in fewer, more concentrated markets. As a result, we have been expanding our interests in the fast growing Southern California, Florida, Texas, and Metropolitan Washington DC markets over the past four years. During 2007, we plan to continue to channel new investments into those markets that we believe will provide the best investment returns. Markets will be targeted based upon defined criteria including past performance, expected job growth, current and anticipated housing supply and demand, the ability to attract and support household formation and opportunities to create value in real estate that exceeds our invested capital.

Capital Expenditures

In conformity with accounting principles generally accepted in the United States, we capitalize those expenditures related to acquiring new assets, materially enhancing the value of an existing asset, or substantially extending the useful life of an existing asset. Expenditures necessary to maintain an existing property in ordinary operating condition are expensed as incurred.

During the first six months of 2007, we spent \$104.2 million or \$1,503 per home on capital expenditures for all of our communities, excluding development and commercial properties. These capital improvements included turnover related expenditures for floor coverings and appliances, other recurring capital expenditures such as roofs, siding, parking lots, and other non-revenue enhancing capital expenditures, which aggregated \$18.4 million or \$266 per home. In addition, revenue enhancing capital expenditures, kitchen and bath upgrades, upgrades to HVAC equipment, and other extensive exterior/interior upgrades totaled \$43.4 million or \$625 per home and major renovations totaled \$42.4 million or \$612 per home for the six months ended June 30, 2007.

Table of Contents

The following table outlines capital expenditures and repair and maintenance costs for all of our communities, excluding real estate under development, condominium conversions and commercial properties, for the periods presented:

	Six Months Ended June 30, (dollars in thousands)			Six Months Ended June 30, (per home)		
	2007	2006	% Change	2007	2006	% Change
Turnover capital expenditures	\$ 6,920	\$ 6,442	7.4%	\$ 100	\$ 87	14.9%
Other recurring capital expenditures	11,484	5,358	114.3%	166	72	130.6%
Total recurring capital expenditures	18,404	11,800	56.0%	266	159	67.3%
Revenue enhancing improvements	43,366	71,082	(39.0)%	625	958	(34.8)%
Major renovations	42,444	17,601	141.1%	612	237	158.2%
Total capital improvements	\$ 104,214	\$ 100,483	3.7%	\$ 1,503	\$ 1,354	11.0%
Repair and maintenance	20,902	20,957	(0.3)%	301	282	6.7%
Total expenditures	\$ 125,116	\$ 121,440	3.0%	\$ 1,804	\$ 1,636	10.3%

Total capital improvements increased \$3.7 million or \$149 per home for the six months ended June 30, 2007, compared to the same period in 2006. This increase was partially attributable to an additional \$24.8 million of major renovations at certain of our properties. These renovations may include the re-wiring and/or re-plumbing of an entire building as well as major structural changes and/or architectural revisions to existing buildings. The increase was also attributable to an additional \$6.6 million being invested in recurring capital expenditures as compared to the same period in 2006. These increases were offset by \$27.7 million less being invested in revenue enhancing improvements compared to the same period in 2006. We will continue to selectively add revenue enhancing improvements which we believe will provide a return on investment substantially in excess of our cost of capital. Recurring capital expenditures during 2007 are currently expected to be approximately \$610 per home.

Development

Development activity is focused in core markets in which we have strong operations in place. For the six months ended June 30, 2007, we invested approximately \$42.8 million on development projects, an increase of \$21.9 million from \$20.9 million for the same period in 2006.

Real Estate Under Development

The following wholly owned apartments were under development as of June 30, 2007:

Completed	Cost to	Budgeted	Estimated	Expected
-----------	---------	----------	-----------	----------

	Number of Apartment Homes	Apartment Homes	Date (In thousands)	Cost (In thousands)	Cost per Home	Completion Date
Villas at Ridgeview Townhomes Plano, TX	48	42	\$ 10,105	\$ 10,000	\$ 208,333	3Q07
RIACHI at One21 Plano, TX	202	60	15,277	18,000	89,109	4Q07
Northwest Houston Phase I Houston, TX	320		5,971	22,000	68,750	2Q08
Lincoln Towne Square Phase II Plano, TX	302		6,680	25,000	82,781	3Q08
Addison Assemblage Dallas, TX	2,750		57,935	457,000	166,182	4Q09
Total wholly owned apartments	3,622	102	\$ 95,968	\$ 532,000	\$ 146,880	

Table of Contents

The Addison Assemblage has not received final zoning approval regarding the apartment home and retail mix.

In addition, we own nine parcels of land held for future development aggregating \$68.3 million at June 30, 2007.

Consolidated Development Joint Ventures

In June 2006, we completed the formation of a development joint venture that will invest approximately \$138 million to develop one apartment community with 298 apartment homes in Marina del Rey, California. UDR is the financial partner and is responsible for funding the costs of development and receives a preferred return from 7% to 8.5% before our partner receives a 50% participation. Our initial investment was \$27.5 million. Under FASB Interpretation No. 46, Consolidation of Variable Interest Entities, this venture has been consolidated into UDR's financial statements. Our joint venture partner is the managing partner as well as the developer, general contractor, and property manager.

The following consolidated joint venture project was under development as of June 30, 2007:

	Number of Apartment Homes	Completed Apartment Homes	Cost to Date (In thousands)	Budgeted Cost (In thousands)	Estimated Cost per Home	Expected Completion Date
Jefferson at Marina del Rey Marina del Rey, CA	298		\$ 94,523	\$ 138,000	\$ 463,087	1Q08

Unconsolidated Development Joint Ventures

In July 2006, we closed on a joint venture to develop a site in Bellevue, Washington. At closing, we owned 49% of the \$135 million project that involves building a 400 home high rise apartment building with ground floor retail. Our initial investment was \$5.7 million.

In November 2006, we closed on a joint venture site adjacent to our Bellevue Plaza development in the central business district of Bellevue, Washington. This project will include the development of 271 apartment homes. Construction began in the fourth quarter of 2006 and is scheduled for completion in 2008. At closing, we owned 49% of the \$97 million project. Our initial investment was \$10.0 million.

The following unconsolidated joint venture projects were under development as of June 30, 2007 (budgeted cost amounts include retail units):

	Number of Apartment Homes	Completed Apartment Homes	Cost to Date (In thousands)	Budgeted Cost (In thousands)	Estimated Cost per Home	Expected Completion Date
Bellevue Plaza Bellevue, WA	400		\$ 35,789	\$ 135,000	\$ 337,500	3Q10
	271		35,306	97,000	357,900	4Q08

Ashwood Commons
Bellevue, WA

**Total unconsolidated
development joint
ventures**

671	\$	71,095	\$	232,000	\$	345,800
------------	-----------	---------------	-----------	----------------	-----------	----------------

Unconsolidated Operating Joint Venture

In January 2007, we closed on a joint venture for a recently completed 23-story, 166 apartment home high rise community in the central business district of Bellevue, Washington. At closing, UDR owned 49% of the \$58 million project (subject to a \$34 million mortgage). Our initial investment was \$11.8 million.

Table of Contents

Disposition of Investments

For the six months ended June 30, 2007, UDR sold three communities with a total of 725 apartment homes for a gross consideration of \$121.3 million, 22 condominiums from one community with a total of 320 condominiums for a gross consideration of \$4.2 million, and one parcel of land for \$4.5 million. We recognized after-tax gains for financial reporting purposes of \$50.5 million on these sales. Proceeds from the sales were used primarily to reduce debt.

During 2007, we plan to continue to pursue our strategy of exiting markets where long-term growth prospects are limited and redeploying capital into markets we believe will provide the best investment returns. We intend to use the proceeds from 2007 dispositions to reduce debt, acquire communities, and fund development activity.

Financing Activities

Net cash provided by financing activities during the six months ended June 30, 2007, was \$58.8 million as compared to \$87.6 million for the same period in 2006. As part of the plan to improve our balance sheet, we utilized proceeds from dispositions to pay down existing debt and purchase new properties.

The following is a summary of our financing activities for the six months ended June 30, 2007:

Repaid \$45.7 million of secured debt and \$92.3 million of unsecured debt.

Sold \$150 million aggregate principal amount of 5.50% senior unsecured notes due April 2014 in March 2007 under our medium-term note program. The net proceeds of approximately \$149 million were used for debt repayment.

Redeemed 5,416,006 shares of our 8.60% Series B Cumulative Redeemable Preferred Stock on May 29, 2007, the redemption date, for a cash redemption price of \$25 per share plus accrued and unpaid dividends to the redemption date.

Sold \$135 million, or 5,400,000 shares, of our 6.75% Series G Cumulative Redeemable Preferred Stock in May 2007. The shares have a liquidation preference of \$25.00 per share and will be redeemable at par at the option of UDR on or after May 31, 2012. The net proceeds from the offering were used to fund the redemption of all of the outstanding shares of our 8.60% Series B Cumulative Redeemable Preferred Stock.

Repurchased 1,131,000 shares of UDR common stock at an average price per share of \$28.42 under our 10 million share repurchase program during the second quarter of 2007.

Credit Facilities

We have four secured revolving credit facilities with Fannie Mae with an aggregate commitment of \$860 million. As of June 30, 2007, \$717.9 million was outstanding under the Fannie Mae credit facilities leaving \$142.1 million of unused capacity. The Fannie Mae credit facilities are for an initial term of ten years, bear interest at floating and fixed rates, and can be extended for an additional five years at our option. We have \$584.2 million of the funded balance fixed at a weighted average interest rate of 5.9% and the remaining balance is currently at a weighted average variable rate of 5.8%.

On July 27, 2007, we amended and restated our existing three-year \$500 million senior unsecured revolving credit facility with a maturity date of May 31, 2008 (which could be extended for an additional year at our option) to increase the facility to \$600 million and to extend its maturity to July 26, 2012. Under the terms of the \$500 million

credit facility, we had the right to increase the credit facility to \$750 million under certain circumstances. Based on our current credit ratings, the \$500 million credit facility carried an interest rate equal to LIBOR plus a spread of 57.5 basis points. Under a competitive bid feature and for so long as we maintain an Investment Grade Rating, we had the right to bid out 50% of the commitment amount under the \$500 million credit facility and to bid out 100% of the commitment amount once per quarter. As of June 30, 2007, \$208.9 million was outstanding under the credit facility leaving \$291.1 million of unused capacity.

Table of Contents

Under certain circumstances, we may increase the new \$600 million credit facility to \$750 million. Based on our current credit ratings, the new \$600 million credit facility carries an interest rate equal to LIBOR plus a spread of 47.5 basis points, which represents a 10 basis point reduction to the previous \$500 million credit facility. Under a competitive bid feature and for so long as we maintain an Investment Grade Rating, we have the right under the new \$600 million credit facility to bid out 50% of the commitment amount and we can bid out 100% of the commitment amount once per quarter.

The Fannie Mae credit facility and the bank revolving credit facility are subject to customary financial covenants and limitations.

Information concerning short-term bank borrowings under our bank credit facility is summarized in the table that follows (*dollars in thousands*):

	Three Months Ended June 30, 2007	Twelve Months Ended December 31, 2006
Total revolving credit facility	\$ 500,000	\$ 500,000
Borrowings outstanding at end of period	208,900	87,200
Weighted average daily borrowings during the period	155,454	264,102
Maximum daily borrowings during the period	300,400	415,800
Weighted average interest rate during the period	5.7%	5.3%
Weighted average interest rate at end of period	5.7%	5.6%

Funds from Operations

Funds from operations, or FFO, is defined as net income (computed in accordance with generally accepted accounting principles), excluding gains (or losses) from sales of depreciable property, premiums or original issuance costs associated with preferred stock redemptions, plus real estate depreciation and amortization, and after adjustments for unconsolidated partnerships and joint ventures. We compute FFO for all periods presented in accordance with the recommendations set forth by the National Association of Real Estate Investment Trusts (NAREIT) April 1, 2002 White Paper. We consider FFO in evaluating property acquisitions and our operating performance, and believe that FFO should be considered along with, but not as an alternative to, net income and cash flow as a measure of our activities in accordance with generally accepted accounting principles. FFO does not represent cash generated from operating activities in accordance with generally accepted accounting principles and is not necessarily indicative of cash available to fund cash needs.

Historical cost accounting for real estate assets in accordance with generally accepted accounting principles implicitly assumes that the value of real estate assets diminishes predictably over time. Since real estate values instead have historically risen or fallen with market conditions, many industry investors and analysts have considered the presentation of operating results for real estate companies that use historical cost accounting to be insufficient by themselves. Thus, NAREIT created FFO as a supplemental measure of REIT operating performance and defines FFO as net income (computed in accordance with accounting principles generally accepted in the United States), excluding gains (or losses) from sales of depreciable property, plus depreciation and amortization, and after adjustments for unconsolidated partnerships and joint ventures. The use of FFO, combined with the required presentations, has been fundamentally beneficial, improving the understanding of operating results of REITs among the investing public and making comparisons of REIT operating results more meaningful. We generally consider FFO to be a useful measure for reviewing our comparative operating and financial performance (although FFO should be reviewed in conjunction

with net income which remains the primary measure of performance) because by excluding gains or losses related to sales of previously depreciated operating real estate assets and excluding real estate asset depreciation and amortization, FFO can help one compare the operating performance of a company's real estate between periods or as compared to different companies. We believe that FFO is the best measure of economic profitability for real estate investment trusts.

Table of Contents

The following table outlines our FFO calculation and reconciliation to generally accepted accounting principles for the three and six months ended June 30, (*dollars and shares in thousands*):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2007	2006	2007	2006
Net income	\$ 6,696	\$ 32,184	\$ 38,529	\$ 44,193
Adjustments:				
Distributions to preferred stockholders	(3,624)	(3,842)	(7,467)	(7,685)
Real estate depreciation and amortization	64,108	54,687	124,682	107,268
Minority interests of unitholders in operating partnership	(707)	(663)	(1,390)	(1,389)
Contribution of unconsolidated joint ventures	49		303	
Discontinued Operations:				
Real estate depreciation	209	4,302	3,794	10,446
Minority interests of unitholders in operating partnership	708	2,508	3,087	3,766
Net gains on the sale of land and depreciable property	(8,921)	(33,482)	(50,452)	(48,828)
RE ³ gain on sales, net of tax	6,803	6,478	11,166	15,004
Funds from operations basic	\$ 65,321	\$ 62,172	\$ 122,252	\$ 122,775
Distributions to preferred stockholders Series E (Convertible)	931	931	1,863	1,863
Funds from operations diluted	\$ 66,252	\$ 63,103	\$ 124,115	\$ 124,638
Weighted average number of common shares and OP Units outstanding basic	142,493	142,418	142,603	142,382
Weighted average number of common shares, OP Units, and common stock equivalents outstanding diluted	148,114	147,940	148,623	147,874

In the computation of diluted FFO, OP Units, out-performance partnership shares, convertible debt, and the shares of Series E Cumulative Convertible Preferred Stock are dilutive; therefore, they are included in the diluted share count.

RE³ gain on sales, net of taxes, is defined as net sales proceeds less a tax provision and the gross investment basis of the asset before accumulated depreciation. We consider FFO with RE³ gain on sales, net of taxes, to be a meaningful supplemental measure of performance because the short-term use of funds produce a profit that differs from the traditional long-term investment in real estate for REITs.

Table of Contents

The following table is our reconciliation of FFO share information to weighted average common shares outstanding, basic and diluted, reflected on the Consolidated Statements of Operations for the three and six months ended June 30, (*shares in thousands*):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2007	2006	2007	2006
Weighted average number of common shares and OP units outstanding basic	142,493	142,418	142,603	142,382
Weighted average number of OP units outstanding	(7,766)	(8,742)	(7,983)	(8,748)
Weighted average number of common shares outstanding basic per the Consolidated Statements of Operations	134,727	133,676	134,620	133,634
Weighted average number of common shares, OP units, and common stock equivalents outstanding diluted	148,114	147,940	148,623	147,874
Weighted average number of OP units outstanding	(7,766)	(8,742)	(7,983)	(8,748)
Weighted average incremental shares from assumed conversion of stock options	(767)	(793)	(789)	(771)
Weighted average incremental shares from unvested restricted stock	(150)	(160)	(134)	(152)
Weighted average incremental shares from assumed conversion of \$250 million convertible debt	(272)		(665)	
Weighted average number of Series A OPPSs outstanding	(1,628)	(1,765)	(1,628)	(1,765)
Weighted average number of Series E preferred shares outstanding	(2,804)	(2,804)	(2,804)	(2,804)
Weighted average number of common shares outstanding diluted per the Consolidated Statements of Operations	134,727	133,676	134,620	133,634

FFO also does not represent cash generated from operating activities in accordance with generally accepted accounting principles, and therefore should not be considered an alternative to net cash flows from operating activities, as determined by generally accepted accounting principles, as a measure of liquidity. Additionally, it is not necessarily indicative of cash availability to fund cash needs.

A presentation of cash flow metrics based on generally accepted accounting principles is as follows for the three and six months ended June 30, (*dollars in thousands*):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2007	2006	2007	2006
Net cash provided by operating activities	\$ 81,594	\$ 64,865	\$ 117,939	\$ 97,082
Net cash used in investing activities	(77,411)	(172,986)	(175,956)	(193,970)
Net cash (used in) provided by financing activities	(2,931)	78,075	58,802	87,635

Results of Operations

The following discussion includes the results of both continuing and discontinued operations for the periods presented.

Net Income Available to Common Stockholders

Net income available to common stockholders was \$0.8 million (\$0.01 per diluted share) for the three months ended June 30, 2007, compared to \$28.3 million (\$0.21 per diluted share) for the same period in the prior year. The decrease for the three months ended June 30, 2007, when compared to the same period in

Table of Contents

2006, resulted primarily from the following items, all of which are discussed in further detail elsewhere within this Report:

- a \$24.6 million decrease in gains recognized from the sale of depreciable property,
- a \$5.3 million increase in real estate depreciation and amortization expense,
- a \$2.8 million increase in general and administrative expense, and
- a \$1.0 million increase in real estate taxes and insurance expense.

These decreases in income were partially offset by a \$3.3 million decrease in interest expense, a \$1.4 million decrease in personnel costs, a \$1.0 million decrease in utilities expense, and a \$0.5 million increase in apartment community operating results during the three months ended June 30, 2007 when compared to the same period in 2006.

Net income available to common stockholders was \$28.8 million (\$0.21 per diluted share) for the six months ended June 30, 2007, compared to \$36.5 million (\$0.27 per diluted share) for the same period in the prior year. The decrease for the six months ended June 30, 2007, when compared to the same period in 2006, resulted primarily from the following items, all of which are discussed in further detail elsewhere within this Report:

- a \$10.8 million increase in real estate depreciation and amortization expense, and
- a \$5.8 million increase in general and administrative expense.

These decreases in income were partially offset by a \$3.8 million increase in apartment community operating results, a \$3.2 million decrease in interest expense, and a \$1.6 million increase in gains recognized from the sale of depreciable property during the first six months of 2007 when compared to the same period in 2006.

Apartment Community Operations

Our net income is primarily generated from the operation of our apartment communities. The following table summarizes the operating performance of our total apartment portfolio for each of the periods presented (*dollars in thousands*):

	Three Months Ended June 30,			Six Months Ended June 30,		
	2007	2006	% Change	2007	2006	% Change
Property rental income	\$ 183,769	\$ 185,333	(0.8)%	\$ 366,453	\$ 366,668	(0.1)%
Property operating expense*	(65,207)	(67,248)	(3.0)%	(132,505)	(136,494)	(2.9)%
Property operating income	\$ 118,562	\$ 118,085	0.4%	\$ 233,948	\$ 230,174	1.6%
Weighted average number of homes	70,931	75,758	(6.4)%	70,590	75,436	(6.4)%
Physical occupancy**	93.2%	94.2%	(1.0)%	93.0%	94.2%	(1.2)%

* Excludes depreciation, amortization, and property management expenses.

** Based upon weighted average stabilized homes.

Table of Contents

The following table is our reconciliation of property operating income to net income as reflected on the Consolidated Statements of Operations for the periods presented, (*dollars in thousands*):

	Three Months Ended		Six Months Ended	
	June 30,		June 30,	
	2007	2006	2007	2006
Property operating income	\$ 118,562	\$ 118,085	\$ 233,948	\$ 230,174
Commercial operating income/(loss)	1,584	(189)	2,136	(661)
Non-property income	697	729	1,175	1,907
Real estate depreciation and amortization	(65,252)	(59,727)	(130,264)	(119,165)
Interest	(42,758)	(46,082)	(86,952)	(90,175)
General and administrative and property management	(14,706)	(11,930)	(29,577)	(23,685)
Other operating expenses	(314)	(301)	(625)	(599)
Net gain on sale of depreciable property	8,921	33,482	50,452	48,828
Minority interests	(38)	(1,883)	(1,764)	(2,431)
Net income per the Consolidated Statement of Operations	\$ 6,696	\$ 32,184	\$ 38,529	\$ 44,193

Same Communities

For the three months ended June 30, 2007, our same communities (those communities acquired, developed, and stabilized prior to June 30, 2006, and held on June 30, 2007, which consisted of 59,531 apartment homes) provided 88% of our property operating income.

For the second quarter of 2007, same community property operating income increased 6.5% or \$6.3 million compared to the same period in 2006. The increase in property operating income was primarily attributable to a 5.3% or \$8.1 million increase in revenues from rental and other income and a 3.3% or \$1.8 million increase in operating expenses. The increase in revenues from rental and other income was primarily driven by a 4.6% or \$7.0 million increase in rental rates and a 16.2% or \$1.8 million increase in reimbursement income and fee income. These increases were partially offset by a 6.9% or \$0.5 million increase in vacancy loss and a 16.1% or \$0.1 million increase in bad debt expense. Physical occupancy decreased 0.2% to 94.7%.

The increase in property operating expenses was primarily driven by a 90.6% or \$1.8 million increase in insurance costs and a 7.1% or \$0.6 million increase in repair and maintenance expense that was partially offset by a 2.4% or \$0.4 million decrease in real estate taxes and a 5.6% or \$0.3 million decrease in administrative and marketing costs.

As a result of the percentage changes in property rental income and property operating expenses, the operating margin (property operating income divided by property rental income) increased 0.7% to 65.2%.

For the six months ended June 30, 2007, our same communities provided 88% of our property operating income. Same community property operating income increased 6.7% or \$12.8 million compared to the same period in 2006. The increase in property operating income was primarily attributable to a 4.9% or \$15.0 million increase in revenues from rental and other income and a 2.0% or \$2.2 million increase in operating expenses. The increase in revenues from rental and other income was primarily driven by a 4.8% or \$14.7 million increase in rental rates and a 14.2% or

\$3.1 million increase in reimbursement income and fee income. These increases were partially offset by a 12.9% or \$2.0 million increase in vacancy loss, a 44.3% or \$0.5 million increase in bad debt expense, and a 5.7% or \$0.3 million increase in concession expense. Physical occupancy decreased 0.5% to 94.4%.

The increase in property operating expenses was primarily driven by a 4.4% or \$1.2 million increase in personnel expense, a 23.6% or \$1.2 million increase in insurance expense, and a 4.2% or \$0.7 million increase in repair and maintenance expense. These increases were partially offset by a 6.5% or \$0.6 million decrease in administrative and marketing costs and a 1.0% or \$0.3 million decrease in real estate taxes.

Table of Contents

As a result of the percentage changes in property rental income and property operating expenses, the operating margin increased 1.0% to 64.7%.

Non-Mature Communities

The remaining 12% or \$28.5 million of our property operating income during the six months ended June 30, 2007, was generated from communities that we classify as non-mature communities. UDR's non-mature communities consist primarily of communities acquired or developed in 2006 and 2007, sold properties, redevelopment properties, properties classified as real estate held for disposition and condominium properties.

Real Estate Depreciation and Amortization

For the three and six months ended June 30, 2007, real estate depreciation and amortization on both continuing and discontinued operations increased 9.0% or \$5.3 million and 9.1% or \$10.8 million compared to the same period in 2006, primarily due to the significant increase in per home acquisition cost compared to the existing portfolio and other capital expenditures.

Interest Expense

For the three months ended June 30, 2007, interest expense on both continuing and discontinued operations decreased 7.2% or \$3.3 million compared to the same period in 2006. For the three months ended June 30, 2007, the weighted average amount of debt outstanding increased 6.7% or \$220.5 million compared to the same period in 2006 and the weighted average interest decreased from 5.5% in 2006 to 5.3% in 2007. The weighted average amount of debt outstanding during 2007 is slightly higher than 2006 as acquisition costs in 2007 have been funded, in most part, by the issuance of debt. The decrease in weighted average interest rate during 2007 reflects short-term bank borrowings and variable rate debt that had lower interest rates in 2007 when compared to the same period in 2006.

For the six months ended June 30, 2007, interest expense on both continuing and discontinued operations decreased 3.6% or \$3.2 million compared to the same period in 2006. For the six months ended June 30, 2007, the weighted average amount of debt outstanding increased 6.8% or \$222.2 million compared to the same period in 2006 and the weighted average interest rate decreased from 5.5% in 2006 to 5.3% in 2007. The weighted average amount of debt outstanding during 2007 is slightly higher than 2006 as acquisition costs in 2007 have been funded, in most part, by the issuance of debt. The decrease in the weighted average interest rate during 2007 reflects short-term bank borrowings and variable rate debt that had lower interest rates in 2007 when compared to the same period in 2006.

General and Administrative

For the three months ended June 30, 2007, general and administrative expenses increased \$2.8 million or 40.5% compared to the same period in 2006. For the six months ended June 30, 2007, general and administrative expenses increased \$5.8 million or 42.9% compared to the same period in 2006. These increases were due to a number of factors, including increases in personnel costs, incentive compensation and legal and professional fees.

Gains on the Sales of Land and Depreciable Property

For the three and six months ended June 30, 2007, we recognized after-tax gains for financial reporting purposes of \$8.9 million and \$50.5 million compared to \$33.5 million and \$48.8 million for the comparable period in 2006. Changes in the level of gains recognized from period to period reflect the changing level of our divestiture activity from period to period, as well as the extent of gains related to specific properties sold.

Inflation

We believe that the direct effects of inflation on our operations have been immaterial. While inflation primarily impacts our results through wage pressures, utilities and material costs, substantially all of our leases are for a term of one year or less, which generally enables us to compensate for inflationary effects by

Table of Contents

increasing rents. Although extreme growth in energy prices could have a negative impact on our residents and their ability to absorb rent increases, this has not had a material impact on our results.

Off-Balance Sheet Arrangements

We do not have any off-balance sheet arrangements that have, or are reasonably likely to have, a current or future effect on our financial condition, changes in financial condition, revenue or expenses, results of operations, liquidity, capital expenditures or capital resources that are material.

Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We are exposed to interest rate changes associated with our unsecured credit facility and other variable rate debt as well as refinancing risk on our fixed rate debt. UDR's involvement with derivative financial instruments is limited and we do not expect to use them for trading or other speculative purposes. In prior periods, UDR had used derivative instruments solely to manage its exposure to interest rates.

See our Annual Report on Form 10-K for the year ended December 31, 2006 Item 7A. Quantitative and Qualitative Disclosures About Market Risk for a more complete discussion of our interest rate sensitive assets and liabilities. As of June 30, 2007, our market risk has not changed materially from the amounts reported on our Annual Report on Form 10-K for the year ended December 31, 2006.

Item 4. CONTROLS AND PROCEDURES

As of June 30, 2007, we carried out an evaluation, under the supervision and with the participation of our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures. Our disclosure controls and procedures are designed with the objective of ensuring that information required to be disclosed in our reports filed under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. Based on this evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures are effective in timely alerting them to material information required to be included in our periodic SEC reports. In addition, our Chief Executive Officer and our Chief Financial Officer concluded that during the quarter ended June 30, 2007, there has been no change in our internal control over financial reporting that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting. Our internal control over financial reporting is designed with the objective of providing reasonable assurance regarding the reliability of our financial reporting and preparation of financial statements for external purposes in accordance with generally accepted accounting principles.

It should be noted that the design of any system of controls is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions, regardless of how remote. However, our Chief Executive Officer and Chief Financial Officer have concluded that our disclosure controls and procedures are effective under circumstances where our disclosure controls and procedures should reasonably be expected to operate effectively.

Table of Contents

PART II OTHER INFORMATION

Item 1A. RISK FACTORS

There are many factors that affect our business and our results of operations, some of which are beyond our control. The following is a description of important factors that may cause our actual results of operations in future periods to differ materially from those currently expected or discussed in forward-looking statements set forth in this Report relating to our financial results, operations and business prospects. Except as required by law, we undertake no obligation to update any such forward-looking statements to reflect events or circumstances after the date on which it is made.

Unfavorable Changes in Apartment Market and Economic Conditions Could Adversely Affect Occupancy Levels and Rental Rates. Market and economic conditions in the metropolitan areas in which we operate may significantly affect our occupancy levels and rental rates and, therefore, our profitability. Factors that may adversely affect these conditions include the following:

a reduction in jobs and other local economic downturns,

declines in mortgage interest rates, making alternative housing more affordable,

government or builder incentives which enable first time homebuyers to put little or no money down, making alternative housing decisions easier to make,

oversupply of, or reduced demand for, apartment homes,

declines in household formation, and

rent control or stabilization laws, or other laws regulating rental housing, which could prevent us from raising rents to offset increases in operating costs.

The strength of the United States economy has become increasingly susceptible to global events and threats of terrorism. At the same time, productivity enhancements and the increased exportation of labor have resulted in limited job growth despite an improving economy. Continued weakness in job creation, or any worsening of current economic conditions, generally and in our principal market areas, could have a material adverse effect on our occupancy levels, our rental rates and our ability to strategically acquire and dispose of apartment communities. This may impair our ability to satisfy our financial obligations and pay distributions to our stockholders.

New Acquisitions, Developments and Condominium Projects May Not Achieve Anticipated Results. We intend to continue to selectively acquire apartment communities that meet our investment criteria and to develop apartment communities for rental operations, to convert properties into condominiums and to develop condominium projects. Our acquisition, development and condominium activities and their success are subject to the following risks:

an acquired apartment community may fail to perform as we expected in analyzing our investment, or a significant exposure related to the acquired property may go undetected during our due diligence procedures,

when we acquire an apartment community, we often invest additional amounts in it with the intention of increasing profitability. These additional investments may not produce the anticipated improvements in

profitability,

new developments may not achieve pro forma rents or occupancy levels, or problems with construction or local building codes may delay initial occupancy dates for all or a portion of a development community, and

an over supply of condominiums in a given market may cause a decrease in the prices at which we expect to sell condominium properties.

Table of Contents

Possible Difficulty of Selling Apartment Communities Could Limit Operational and Financial Flexibility. We periodically dispose of apartment communities that no longer meet our strategic objectives, but market conditions could change and purchasers may not be willing to pay prices acceptable to us. A weak market may limit our ability to change our portfolio promptly in response to changing economic conditions. Furthermore, a significant portion of the proceeds from our overall property sales may be held by intermediaries in order for some sales to qualify as like-kind exchanges under Section 1031 of the Internal Revenue Code, so that any related capital gain can be deferred for federal income tax purposes. As a result, we may not have immediate access to all of the cash flow generated from our property sales. In addition, federal tax laws limit our ability to profit on the sale of communities that we have owned for fewer than four years, and this limitation may prevent us from selling communities when market conditions are favorable.

Increased Competition Could Limit Our Ability to Lease Apartment Homes or Increase or Maintain Rents. Our apartment communities compete with numerous housing alternatives in attracting residents, including other apartment communities and single-family rental homes, as well as owner occupied single- and multi-family homes. Competitive housing in a particular area could adversely affect our ability to lease apartment homes and increase or maintain rents.

Insufficient Cash Flow Could Affect Our Debt Financing and Create Refinancing Risk. We are subject to the risks normally associated with debt financing, including the risk that our operating income and cash flow will be insufficient to make required payments of principal and interest, or could restrict our borrowing capacity under our line of credit due to debt covenant restraints. Sufficient cash flow may not be available to make all required principal payments and still satisfy our distribution requirements to maintain our status as a REIT for federal income tax purposes, and the full limits of our line of credit may not be available to us if our operating performance falls outside the constraints of our debt covenants. Additionally, we are likely to need to refinance substantially all of our outstanding debt as it matures. We may not be able to refinance existing debt, or the terms of any refinancing may not be as favorable as the terms of the existing debt, which could create pressures to sell assets or to issue additional equity when we would otherwise not choose to do so. In addition, our failure to comply with our debt covenants could result in a requirement to repay our indebtedness prior to its maturity, which could have an adverse effect on our cash flow and increase our financing costs.

Failure to Generate Sufficient Revenue Could Impair Debt Service Payments and Distributions to Stockholders. If our apartment communities do not generate sufficient net rental income to meet rental expenses, our ability to make required payments of interest and principal on our debt securities and to pay distributions to our stockholders will be adversely affected. The following factors, among others, may affect the net rental income generated by our apartment communities:

the national and local economies,

local real estate market conditions, such as an oversupply of apartment homes,

tenants' perceptions of the safety, convenience, and attractiveness of our communities and the neighborhoods where they are located,

our ability to provide adequate management, maintenance and insurance, and

rental expenses, including real estate taxes and utilities.

Expenses associated with our investment in a community, such as debt service, real estate taxes, insurance and maintenance costs, are generally not reduced when circumstances cause a reduction in rental income from that

community. If a community is mortgaged to secure payment of debt and we are unable to make the mortgage payments, we could sustain a loss as a result of foreclosure on the community or the exercise of other remedies by the mortgage holder.

Debt Level May Be Increased. Our current debt policy does not contain any limitations on the level of debt that we may incur, although our ability to incur debt is limited by covenants in our senior indenture and our bank and other credit agreements. We manage our debt to be in compliance with these debt covenants, but subject to compliance with these covenants, we may increase the amount of our debt at any time without a concurrent improvement in our ability to service the additional debt.

Table of Contents

Financing May Not Be Available and Could Be Dilutive. Our ability to execute our business strategy depends on our access to an appropriate blend of debt financing, including unsecured lines of credit and other forms of secured and unsecured debt, and equity financing, including common and preferred equity. Debt or equity financing may not be available in sufficient amounts, or on favorable terms or at all. If we issue additional equity securities to finance developments and acquisitions instead of incurring debt, the interests of our existing stockholders could be diluted.

Development and Construction Risks Could Impact Our Profitability. We intend to continue to develop and construct apartment communities. Development activities may be conducted through wholly owned affiliated companies or through joint ventures with unaffiliated parties. Our development and construction activities may be exposed to the following risks:

we may be unable to obtain, or face delays in obtaining, necessary zoning, land-use, building, occupancy and other required governmental permits and authorizations, which could result in increased development costs and could require us to abandon our activities entirely with respect to a project for which we are unable to obtain permits or authorizations,

if we are unable to find joint venture partners to help fund the development of a community or otherwise obtain acceptable financing for the developments, our development capacity may be limited,

we may abandon development opportunities that we have already begun to explore, and we may fail to recover expenses already incurred in connection with exploring such opportunities,

we may be unable to complete construction and lease-up of a community on schedule, or incur development or construction costs that exceed our original estimates, and we may be unable to charge rents that would compensate for any increase in such costs,

occupancy rates and rents at a newly developed community may fluctuate depending on a number of factors, including market and economic conditions, preventing us from meeting our profitability goals for that community, and

when we sell to third parties homes or properties that we developed or renovated, we may be subject to warranty or construction defect claims that are uninsured or exceed the limits of our insurance.

Construction costs have been increasing in our existing markets, and the costs of upgrading acquired communities have, in some cases, exceeded our original estimates. We may experience similar cost increases in the future. Our inability to charge rents that will be sufficient to offset the effects of any increases in these costs may impair our profitability.

Some Potential Losses Are Not Covered by Insurance. We have a comprehensive insurance program covering our property and operating activities. We believe the policy specifications and insured limits of these policies are adequate and appropriate. There are, however, certain types of extraordinary losses for which we may not have insurance. Accordingly, we may sustain uninsured losses due to insurance deductibles, self-insured retention, uninsured claims or casualties, or losses in excess of applicable coverage.

We may not be able to renew insurance coverage in an adequate amount or at reasonable prices. In addition, insurance companies may no longer offer coverage against certain types of losses, such as losses due to terrorist acts and mold, or, if offered, these types of insurance may be prohibitively expensive. If an uninsured loss or a loss in excess of insured limits occur, we could lose all or a portion of the capital we have invested in a property, as well as the anticipated future revenue from the property. In such an event, we might nevertheless remain obligated for any

mortgage debt or other financial obligations related to the property. Material losses in excess of insurance proceeds may occur in the future. If one or more of our significant properties were to experience a catastrophic loss, it could seriously disrupt our operations, delay revenue and result in large expenses to repair or rebuild the property. Such events could adversely affect our cash flow and ability to make distributions to stockholders.

Table of Contents

Failure to Succeed in New Markets May Limit Our Growth. We may from time to time make acquisitions outside of our existing market areas if appropriate opportunities arise. We may be exposed to a variety of risks if we choose to enter new markets, and we may not be able to operate successfully in new markets. These risks include, among others:

inability to accurately evaluate local apartment market conditions and local economies,

inability to obtain land for development or to identify appropriate acquisition opportunities,

inability to hire and retain key personnel, and

lack of familiarity with local governmental and permitting procedures.

Changing Interest Rates Could Increase Interest Costs and Adversely Affect Our Cash Flow and the Market Price of Our Securities. We currently have, and expect to incur in the future, interest-bearing debt at rates that vary with market interest rates. As of June 30, 2007, we had approximately \$449.9 million of variable rate indebtedness outstanding, which constitutes approximately 13% of our total outstanding indebtedness as of such date. An increase in interest rates would increase our interest expenses to the extent our variable rate debt is not hedged effectively, and it would increase the costs of refinancing existing indebtedness and of issuing new debt. Accordingly, higher interest rates could adversely affect cash flow and our ability to service our debt and to make distributions to security holders. In addition, an increase in market interest rates may lead our security holders to demand a higher annual yield, which could adversely affect the market price of our common and preferred stock and debt securities.

Risk of Inflation/Deflation. Substantial inflationary or deflationary pressures could have a negative effect on rental rates and property operating expenses.

Limited Investment Opportunities Could Adversely Affect Our Growth. We expect that other real estate investors will compete with us to acquire existing properties and to develop new properties. These competitors include insurance companies, pension and investment funds, developer partnerships, investment companies and other apartment REITs. This competition could increase prices for properties of the type that we would likely pursue, and our competitors may have greater resources than we do. As a result, we may not be able to make attractive investments on favorable terms, which could adversely affect our growth.

Failure to Integrate Acquired Communities and New Personnel Could Create Inefficiencies. To grow successfully, we must be able to apply our experience in managing our existing portfolio of apartment communities to a larger number of properties. In addition, we must be able to integrate new management and operations personnel as our organization grows in size and complexity. Failures in either area will result in inefficiencies that could adversely affect our expected return on our investments and our overall profitability.

Interest Rate Hedging Contracts May Be Ineffective and May Result in Material Charges. From time to time when we anticipate issuing debt securities, we may seek to limit our exposure to fluctuations in interest rates during the period prior to the pricing of the securities by entering into interest rate hedging contracts. We may do this to increase the predictability of our financing costs. Also, from time to time we may rely on interest rate hedging contracts to limit our exposure under variable rate debt to unfavorable changes in market interest rates. If the terms of new debt securities are not within the parameters of, or market interest rates fall below that which we incur under a particular interest rate hedging contract, the contract is ineffective. Furthermore, the settlement of interest rate hedging contracts has involved and may in the future involve material charges.

Potential Liability for Environmental Contamination Could Result in Substantial Costs. Under various federal, state and local environmental laws, as a current or former owner or operator of real estate, we could be required to investigate and remediate the effects of contamination of currently or formerly owned real estate by hazardous or toxic substances, often regardless of our knowledge of or responsibility for the contamination and solely by virtue of our current or former ownership or operation of the real estate. In addition, we could

Table of Contents

be held liable to a governmental authority or to third parties for property damage and for investigation and clean-up costs incurred in connection with the contamination. These costs could be substantial, and in many cases environmental laws create liens in favor of governmental authorities to secure their payment. The presence of such substances or a failure to properly remediate any resulting contamination could materially and adversely affect our ability to borrow against, sell or rent an affected property.

We Would Incur Adverse Tax Consequences if We Fail to Qualify as a REIT. We have elected to be taxed as a REIT under the Internal Revenue Code. Our qualification as a REIT requires us to satisfy numerous requirements, some on an annual and quarterly basis, established under highly technical and complex Internal Revenue Code provisions for which there are only limited judicial or administrative interpretations, and involves the determination of various factual matters and circumstances not entirely within our control. We intend that our current organization and method of operation enable us to continue to qualify as a REIT, but we may not so qualify or we may not be able to remain so qualified in the future. In addition, U.S. federal income tax laws governing REITs and other corporations and the administrative interpretations of those laws may be amended at any time, potentially with retroactive effect. Future legislation, new regulations, administrative interpretations or court decisions could adversely affect our ability to qualify as a REIT or adversely affect our stockholders.

If we fail to qualify as a REIT in any taxable year, we would be subject to federal income tax (including any applicable alternative minimum tax) on our taxable income at regular corporate rates, and would not be allowed to deduct dividends paid to our stockholders in computing our taxable income. Also, unless the Internal Revenue Service granted us relief under certain statutory provisions, we would be disqualified from treatment as a REIT for the four taxable years following the year in which we first failed to qualify. The additional tax liability from the failure to qualify as a REIT would reduce or eliminate the amount of cash available for investment or distribution to our stockholders. This would likely have a significant adverse effect on the value of our securities and our ability to raise additional capital. In addition, we would no longer be required to make distributions to our stockholders. Even if we continue to qualify as a REIT, we will continue to be subject to certain federal, state and local taxes on our income and property.

We May Conduct a Portion of Our Business Through Taxable REIT Subsidiaries, Which are Subject to Certain Tax Risks. We have established several taxable REIT subsidiaries. Despite our qualification as a REIT, our taxable REIT subsidiaries must pay income tax on their taxable income. In addition, we must comply with various tests to continue to qualify as a REIT for federal income tax purposes, and our income from and investments in our taxable REIT subsidiaries generally do not constitute permissible income and investments for these tests. While we will attempt to ensure that our dealings with our taxable REIT subsidiaries will not adversely affect our REIT qualification, we cannot provide assurance that we will successfully achieve that result. Furthermore, we may be subject to a 100% penalty tax, we may jeopardize our ability to retain future gains on real property sales, or our taxable REIT subsidiaries may be denied deductions, to the extent our dealings with our taxable REIT subsidiaries are not deemed to be arm's length in nature or are otherwise not respected.

Certain Property Transfers May Generate Prohibited Transaction Income, Resulting in a Penalty Tax on Gain Attributable to the Transaction. From time to time, we may transfer or otherwise dispose of some of our properties. Under the Internal Revenue Code, any gain resulting from transfers of properties that we hold as inventory or primarily for sale to customers in the ordinary course of business would be treated as income from a prohibited transaction subject to a 100% penalty tax. Since we acquire properties for investment purposes, we do not believe that our occasional transfers or disposals of property are prohibited transactions. However, whether property is held for investment purposes is a question of fact that depends on all the facts and circumstances surrounding the particular transaction. The Internal Revenue Service may contend that certain transfers or disposals of properties by us are prohibited transactions. If the Internal Revenue Service were to argue successfully that a transfer or disposition of property constituted a prohibited transaction, then we would be required to pay a 100% penalty tax on any gain

allocable to us from the prohibited transaction and we may jeopardize our ability to retain future gains on real property sales. In addition, income from a

Table of Contents

prohibited transaction might adversely affect our ability to satisfy the income tests for qualification as a REIT for federal income tax purposes.

Changes in Market Conditions and Volatility of Stock Prices Could Adversely Affect the Market Price of Our Common Stock. The stock markets, including the New York Stock Exchange, on which we list our common shares, have experienced significant price and volume fluctuations. As a result, the market price of our common stock could be similarly volatile, and investors in our common stock may experience a decrease in the value of their shares, including decreases unrelated to our operating performance or prospects.

Property Ownership Through Joint Ventures May Limit Our Ability to Act Exclusively in Our Interest. We have in the past and may in the future develop and acquire properties in joint ventures with other persons or entities when we believe circumstances warrant the use of such structures. If we use such a structure, we could become engaged in a dispute with one or more of our joint venture partners that might affect our ability to operate a jointly-owned property. Moreover, joint venture partners may have business, economic or other objectives that are inconsistent with our objectives, including objectives that relate to the appropriate timing and terms of any sale or refinancing of a property. In some instances, joint venture partners may have competing interests in our markets that could create conflicts of interest.

Real Estate Tax and Other Laws. Generally we do not directly pass through costs resulting from compliance with or changes in real estate tax laws to residential property tenants. We also do not generally pass through increases in income, service or other taxes, to tenants under leases. These costs may adversely affect funds from operations and the ability to make distributions to stockholders. Similarly, compliance with or changes in (i) laws increasing the potential liability for environmental conditions existing on properties or the restrictions on discharges or other conditions or (ii) rent control or rent stabilization laws or other laws regulating housing, such as the Americans with Disabilities Act of 1990 and the Fair Housing Amendments Act of 1988, may result in significant unanticipated expenditures, which would adversely affect funds from operations and the ability to make distributions to stockholders.

Risk of Earthquake Damage. Certain of our West Coast communities are located in the general vicinity of active earthquake faults. An earthquake could cause damage or losses greater than insured levels. In the event of a loss in excess of insured limits, we could lose our capital invested in the affected community, as well as anticipated future revenue from that community. We would also continue to be obligated to repay any mortgage indebtedness or other obligations related to the community. Any such loss could materially and adversely affect our business and our financial condition and results of operations.

Insurance coverage for earthquakes is expensive due to limited industry capacity. As a result, we may experience shortages in desired coverage levels if market conditions are such that insurance is not available.

Terrorist Attacks May Have an Adverse Effect on Our Business and Operating Results and Could Decrease the Value of Our Assets. Terrorist attacks and other acts of violence or war could have a material adverse effect on our business and operating results. Attacks that directly impact one or more of our apartment communities could significantly affect our ability to operate those communities and thereby impair our ability to achieve our expected results. Further, our insurance coverage may not cover any losses caused by a terrorist attack. In addition, the adverse effects that such violent acts and threats of future attacks could have on the U.S. economy could similarly have a material adverse effect on our business and results of operations.

Any Weaknesses Identified in Our Internal Control Over Financial Reporting Could Have an Adverse Effect on Our Stock Price. Section 404 of the Sarbanes-Oxley Act of 2002 requires us to evaluate and report on our internal report over financial reporting. If we identify one or more material weaknesses in our internal control over financial reporting, we could lose investor confidence in the accuracy and completeness of our financial reports, which in turn

could have an adverse effect on our stock price.

Maryland Law May Limit the Ability of a Third Party to Acquire Control of Us, Which May Not be in Our Stockholders' Best Interests. Maryland business statutes may limit the ability of a third party to acquire

Table of Contents

control of us. As a Maryland corporation, we are subject to various Maryland laws which may have the effect of discouraging offers to acquire our company and of increasing the difficulty of consummating any such offers, even if our acquisition would be in our stockholders' best interests. The Maryland General Corporation Law restricts mergers and other business combination transactions between us and any person who acquires beneficial ownership of shares of our stock representing 10% or more of the voting power without our board of directors' prior approval. Any such business combination transaction could not be completed until five years after the person acquired such voting power, and generally only with the approval of stockholders representing 80% of all votes entitled to be cast and 66 2/3% of the votes entitled to be cast, excluding the interested stockholder, or upon payment of a fair price. Maryland law also provides generally that a person who acquires shares of our equity stock that represents 10% (and certain higher levels) of the voting power in electing directors will have no voting rights unless approved by a vote of two-thirds of the shares eligible to vote.

Limitations on Share Ownership and Limitations on the Ability of Our Stockholders to Effect a Change in Control of Our Company May Prevent Takeovers That are Beneficial to Our Stockholders. One of the requirements for maintenance of our qualification as a REIT for U.S. federal income tax purposes is that no more than 50% in value of our outstanding capital stock may be owned by five or fewer individuals, including entities specified in the Internal Revenue Code, during the last half of any taxable year. Our charter contains ownership and transfer restrictions relating to our stock primarily to assist us in complying with this and other REIT ownership requirements; however, the restrictions may have the effect of preventing a change of control, which does not threaten REIT status. These restrictions include a provision that generally limits ownership by any person of more than 9.9% of the value of our outstanding equity stock, unless our board of directors exempts the person from such ownership limitation, provided that any such exemption shall not allow the person to exceed 13% of the value of our outstanding equity stock. These provisions may have the effect of delaying, deferring or preventing someone from taking control of us, even though a change of control might involve a premium price for our stockholders or might otherwise be in our stockholders' best interests.

Under the terms of our shareholder rights plan, our board of directors can, in effect, prevent a person or group from acquiring more than 15% of the outstanding shares of our common stock. Unless our board of directors approves the person's purchase, after that person acquires more than 15% of our outstanding common stock, all other stockholders will have the right to purchase securities from us at a price that is less than their then fair market value. Purchases by other stockholders would substantially reduce the value and influence of the shares of our common stock owned by the acquiring person. Our board of directors, however, can prevent the shareholder rights plan from operating in this manner. This gives our board of directors significant discretion to approve or disapprove a person's efforts to acquire a large interest in us.

Item 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

In February 2006, our Board of Directors authorized a 10 million share repurchase program. This program authorizes the repurchase of our common stock in open market purchases, in block purchases, privately negotiated transactions, or otherwise. As reflected in the table below, 1,131,000 shares of common stock were repurchased under this program during the quarter ended June 30, 2007.

		Total Number of Shares Purchased as Part of Publicly	Maximum Number of Shares that May Yet be Purchased
Total Number	Average		

Period	of Shares Purchased	Price per Share	Announced Plans or Programs	Under the Plans or Programs
Beginning Balance				10,000,000
April 1, 2007 through April 30, 2007	0	N/A	0	10,000,000
May 1, 2007 through May 31, 2007	295,000	\$ 28.87	295,000	9,705,000
June 1, 2007 through June 30, 2007	836,000	28.27	836,000	8,869,000
Balance as of June 30, 2007	1,131,000	\$ 28.42	1,131,000	8,869,000

Table of Contents**Item 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS**

On May 8, 2007, UDR held its Annual Meeting of Stockholders. At the meeting, our stockholders voted on the election of directors and a proposal to ratify the appointment of Ernst & Young LLP to serve as our independent auditors for the year ending December 31, 2007.

The following persons were elected directors of UDR, to serve as such for the term indicated and until the respective successors are duly elected and qualified or until their earlier resignation or removal, by the indicated vote:

Name	Votes For	Votes Withheld
Katherine A. Cattanach	121,603,897	462,883
Eric J. Foss	121,617,560	449,219
Robert P. Freeman	121,621,225	445,554
Jon A. Grove	121,449,825	616,954
James D. Klingbeil	121,390,643	676,136
Robert C. Larson	121,296,730	770,050
Thomas R. Oliver	121,604,064	462,716
Lynne B. Sagalyn	121,346,458	720,321
Mark J. Sandler	121,358,443	708,337
Thomas W. Toomey	121,607,203	459,577
Thomas C. Wajnert	121,416,175	650,604

The stockholders approved the proposal to ratify the appointment of Ernst & Young LLP to serve as independent auditors for the year ending December 31, 2007, by the indicated vote:

Votes For	Votes Against	Votes Abstained	Broker Non-Votes
121,103,079	761,547	202,154	

Item 6. EXHIBITS

The exhibits filed or furnished with this Report are set forth in the Exhibit Index.
