TDS 2018 Annual Report Video Script

Hi, I'm Ted Carlson, President and CEO of TDS. I'm excited to share our plans for 2019 that build on our successes in 2018.

With 50 successful years in business, we continue to focus on implementing our core beliefs and operating philosophies. We are investing in the TDS Family of Businesses to bring our customers high-quality leading-edge wireless and broadband technology that positions the company for long-term sustainability and growth.

During 2018, at U.S. Cellular, we expanded our customer base while also increasing revenues and profitability. We reduced costs throughout the organization, while effectively investing for our future.

We will build on this momentum to execute on four key objectives for 2019.

First, we will continue to strengthen and grow our loyal wireless customer base by creating more personalized and simplified experiences through digital enhancements to our retail environment, including easy switching processes for new customers.

U.S. Cellular will capture new and emerging revenue opportunities by optimizing our device portfolio to ensure access to emerging categories like wearables, connected home devices, and innovative IoT business solutions.

We plan to increase revenues by also acquiring new customers through investing in expansion of some of our markets.

We are working to improve our network to meet evolving needs by making continuous investments in network technologies like new 5G and VoLTE.

While providing for increasing data usage growth, U.S. Cellular is working to expand margins through broad ranging cost management initiatives.

We are exercising expense discipline in seeking every opportunity to improve effectiveness and efficiency, and we are managing the costs of our network investments.

In 2018, TDS Telecom accomplished our strategic priorities with good success, generating strong increases in wireline broadband connections.

TDS Telecom's strategic imperatives for 2019 are increasing fiber deployment and broadband penetration, launching new customer-focused offerings, and meeting our increased data speed obligations under the Alternative Connect America Cost Model (A-CAM).

We are focused on fiber expansion, growing our fiber footprint in and out of our current ILEC territory.

In addition to fiber expansion, TDS Telecom plans to launch new offerings such as Cloud TV to improve our customers' experiences.

We have achieved steady growth in residential cable connections with eleven consecutive quarters of rapid broadband connection growth.

We continue to evaluate potential cable acquisitions in markets that have attractive demographics and little to no fiber competition.

At our hosted and managed IT services business, OneNeck IT Solutions, our strategic goals are to grow recurring service revenues and to further customize and standardize our processes across our portfolio of offerings.

Our primary objective at TDS is to successfully meet the needs of our growing customer base, thereby creating long-term value for all of our stakeholders. We maintain a financially sound foundation so that all our businesses can take advantage of growth opportunities to enhance their competitive positions.

We continue to return value to our shareholders primarily through our cash dividends, which have increased every year for the past 45 years.

The TDS Family of Businesses is building on the momentum of our progress in 2018 to implement our strategic imperatives in 2019. I am confident that TDS is well positioned for long-term sustainability and growth.

Thank you.
