Item 2.03. Creation of a Direct Financial Obligation or an Obligation under an Off-Balance Sheet Arrangement of a Registrant.

O Reilly Automotive, Inc. (the Company), entered into interest rate swap transactions on October 14, 2008, with Branch Banking and Trust Company (BBT), Bank of America, N.A. (BA) and SunTrust Bank (SunTrust). The Company entered into the interest rate swap transactions to mitigate the risk associated with the Company's floating interest rate which is based on LIBOR on an aggregate of \$150 million of the Company's debt that is outstanding under its Credit Agreement, dated as of July 11, 2008, with Bank of America, N.A., as administrative agent, and the other parties thereto (the Credit Facility). Each interest rate swap has an effective date of October 17, 2008. The Company is required to make certain monthly fixed rate payments calculated on the notional amount of each swap and the applicable counterparty is obligated to make certain monthly floating rate payments to the Company referencing the same notional amounts. The interest rate swap transactions effectively fix the annual interest rate payable on these notional amounts of the Company's debt, which may exist under the Credit Facility, to rates ranging between 2.99% and 3.56%, plus an applicable margin under the terms of the Credit Facility. The applicable notional amount, effective interest rate and expiration date for each swap transaction are as follows:

Counterparty	Notional Amount (in millions)	Effective interest rate	Expiration Date
BBT	\$ 25	2.99%	October 17, 2010
BBT	25	3.01	October 17, 2010
BA	25	3.05	October 17, 2010
SunTrust	25	2.99	October 17, 2010
BA	50	3.56	October 17, 2011

Notwithstanding the terms of the interest rate swap transactions, the Company is ultimately obligated for all amounts due and payable under the Credit Facility. The Company may enter into additional swap transactions in the future from time to time.
