#### VAALCO ENERGY, INC. AND SUBSIDIARIES

#### NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

#### UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS AND ACCOUNTING POLICIES

The condensed consolidated financial statements of VAALCO Energy, Inc. and subsidiaries (collectively, VAALCO or the Company), included herein are unaudited, but include all adjustments consisting of normal recurring accruals which the Company deems necessary for a fair presentation of its financial position, results of operations and cash flows for the interim period. Such results are not necessarily indicative of results to be expected for the full year. These financial statements should be read in conjunction with the financial statements and notes thereto included in the Company s Form 10-K for the year ended December 31, 2008, which also contain a summary of the significant accounting policies followed by the Company in the preparation of its consolidated financial statements. These policies were also followed in preparing the quarterly report included herein. The Company follows the successful efforts method of accounting for oil and gas exploration and development costs.

VAALCO is a Houston-based independent energy company, principally engaged in the acquisition, exploration, development and production of crude oil and natural gas. VAALCO owns producing properties and conducts exploration activities as the operator of two production sharing contracts in Gabon, West Africa, conducts exploration activities in one concession in Angola, West Africa and has recently conducted exploration activities on two blocks in the British North Sea. Domestically, the Company has minor interests in the Gulf of Mexico.

VAALCO s subsidiaries holding interests in Gabon are VAALCO Energy (International), Inc., VAALCO Gabon (Etame), Inc. and VAALCO Production (Gabon), Inc. In Angola VAALCO holds its concession interest in VAALCO Angola (Kwanza), Inc. In Great Britain VAALCO holds its North Sea interests in VAALCO UK (North Sea), Ltd. VAALCO Energy (USA), Inc. holds interests in certain properties in the United States.

#### 2. EARNINGS PER SHARE

The Company accounts for earnings per share in accordance with Statement of Financial Accounting Standards (SFAS) No. 128 Earnings per Share, (EPS). SFAS No. 128 requires the presentation of basic and diluted EPS on the face of the income statement. Basic EPS is calculated using the average number of shares of common stock outstanding during each period. Diluted EPS assumes the exercise of all stock options and warrants having exercise prices less than the average market price of the common stock using the treasury stock method. For purposes of computing EPS in a loss quarter, potential common shares are excluded from the computation of weighted average common shares outstanding as their effect is antidilutive. For the three and six month periods ended June 30, 2009, 502,195 and 224,422 potential common shares were excluded, respectively.

Diluted shares consist of the following:

	Three mor	nths ended	Six mont	ths ended
Item	June 30, 2009	June 30, 2008	June 30, 2009	June 30, 2008
Basic weighted average common stock issued and outstanding	58,260,074	58,878,846	58,260,741	59,107,639
Dilutive options	0	746,802	0	592,152
Total diluted shares	58,260,074	59,625,648	58,260,741	59,699,791

#### VAALCO ENERGY, INC. AND SUBSIDIARIES

#### NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

Options to purchase 2,085,612 and 1,697,640 shares were excluded in the three months and six months ended June 30, 2009, respectively, because they would have been anti-dilutive.

On September 14, 2007, the Board of Directors of the Company adopted a Rights Agreement dated as of September 14, 2007 between the Company and the Registrar and Transfer agent of the Company, as Rights Agent. The Plan created a dividend of one right for each outstanding share of the Company s Common Stock. The rights are represented by and traded with the Company s Common Stock. Initially, there will be no separate certificates or market for the rights. The rights do not separate from the Common Stock unless one or both of the following conditions are met: a public announcement that a person has acquired 15% or more of the Common Stock of the Company, or a tender or exchange offer is made which, if completed, would result in the bidder beneficially owning 15% or more of the Common Stock of the Company. The Rights Agreement was voted upon at the 2009 Annual Meeting of Stockholders held on June 3, 2009. Stockholders did not approve the ratification and the Company announced on July 8, 2009 that its Board of Directors has determined to redeem the rights issued under the Company s stockholder rights plan.

#### 3. NEW ACCOUNTING PRONOUNCEMENTS

FASB Statement No. 157, Fair Value Measurements

In September 2006, the FASB issued FASB Statement No. 157, Fair Value Measurements

(SFAS 157), which defines fair value, establishes a framework for measuring fair value and enhances disclosures about instruments carried at fair value, but does not change existing guidance as to whether or not an instrument is carried at fair value. In February 2008, the FASB issued FASB Staff Positions (FSP) SFAS 157-2, Effective Date for FASB Statement 157. This FSP permits the delayed application of SFAS 157 for all non-recurring fair value measurements of non-financial assets and non-financial liabilities until fiscal years beginning after November 15, 2008. The Company adopted SFAS 157, as amended, on a prospective basis beginning January 1, 2008, for its financial assets and liabilities and January 1, 2009 for its non-financial assets and liabilities. The adoption of SFAS No. 157 for our nonfinancial assets and liabilities did not have an impact on the Company s consolidated results of operations or financial condition.

FASB Statement No. 141(R), Business Combinations, and FASB Statement No. 160, Noncontrolling Interests in Consolidated Financial Statements an amendment of ARB No. 51 The Company adopted FASB Statement No. 141(R), Business Combinations, which replaced FASB Statement No. 141, Business Combinations, (SFAS 141(R)) and FASB Statement No. 160, Noncontrolling Interests in Consolidated Financial Statements an amendment of ARB No. 51, (SFAS 160) on January 1, 2009. These statements significantly change the accounting for business combinations and noncontrolling interests. Among other things, and compared to the predecessor guidance, these statements will require more assets acquired and liabilities assumed to be measured at fair value as of the acquisition date, liabilities related to contingent consideration to be remeasured to fair value each subsequent reporting period, an acquirer in preacquisition periods to expense all acquisition-related costs, and noncontrolling interests in subsidiaries initially to be measured at fair value and classified as a separate component of equity. SFAS 160 changes the accounting and reporting for minority interests, which are re-characterized as noncontrolling interests, and classified as a component of equity. We retroactively applied the presentation and disclosure requirements of SFAS 160 to all periods presented.

8

#### VAALCO ENERGY, INC. AND SUBSIDIARIES

#### NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

Final Rule, Modernization of Oil and Gas Reporting In December 2008, the SEC released Final Rule, Modernization of Oil and Gas Reporting, to revise the existing Regulation S-K and Regulation S-X reporting requirements to align with current industry practices and technological advances. Further, the SEC on December 31, 2008, published the final rules and interpretations. Many of the revisions are updates to definitions in the existing oil and gas rules to make them consistent with the petroleum resource management system, which is a widely accepted standard for the management of petroleum resources that was developed by several industry organizations. Key revisions include the ability to include nontraditional resources in reserves, the use of new technology for determining reserves, permitting disclosure of probable and possible reserves, and changes to the pricing used to determine reserves in that companies must use a 12-month average price. The average is calculated using the first-day-of-the-month price for each of the 12 months that make up the reporting period. The SEC will require companies to comply with the amended disclosure requirements for registration statements filed after January 1, 2010, and for annual reports for fiscal years ending on or after December 15, 2009. Early adoption is not permitted. The Company is currently assessing the impact that the adoption will have on our disclosures, operating results, financial position and cash flows.

FASB FSPs No. FAS 107-1 and APB 28-1, Interim Disclosures about Fair Value of Financial Instruments In April 2009, the FASB issued FSP No. FAS 107-1 and APB 28-1, Interim Disclosures about Fair Value of Financial Instruments (FSP No. FAS 107-1). FSP No. FAS 107-1 amends SFAS No. 107 and Accounting Principles Board (APB) Opinion No. 28 to require disclosures about fair value of financial instruments in interim reporting periods for publicly traded companies. We adopted the provisions and applied the presentation and disclosure requirements of this FSP for the period ending June 30, 2009.

The Company s financial instruments consist primarily of cash, funds in escrow, trade accounts, trade payables and debt. The book values of cash, trade receivables, and trade payables are representative of their respective fair values due to the short-term maturity of these instruments. The book value of the Company s debt instruments are considered to approximate the fair value, as the interest rates are adjusted based on rates currently in effect.

<u>FASB Statement No. 165, Subsequent Events</u> In May 2009, the FASB issued SFAS No. 165, *Subsequent Events*. SFAS No. 165 establishes general standards of accounting for and disclosure of events that occur after the balance sheet date but before financial statements are issued or are available to be issued. SFAS No. 165 is effective for interim and annual reporting periods ending after June 15, 2009. We adopted SFAS No. 165 for the period ending June 30, 2009. We evaluated subsequent events through August 10, 2009.

FASB Statement No. 167, Amendments to FASB Interpretation No. 46(R) In June 2009, the FASB issued SFAS No. 167, Amendments to FASB Interpretation No. 46(R) In June 2009, the FASB issued SFAS No. 167, Amendments to FASB Interpretation No. 46(R) amends FIN 46(R) to replace the calculation for determining which entities, if any, have a controlling financial interest in a variable interest entity (VIE) from a quantitative based risks and rewards calculation, to a qualitative approach that focuses on identifying which entities have the power to direct the activities of a variable interest entity that most significantly impact the entity is economic performance and,

9

#### VAALCO ENERGY, INC. AND SUBSIDIARIES

#### NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

the obligation to absorb losses of the entity or the right to receive benefits from the entity. This standard also requires ongoing assessments as to whether an enterprise is the primary beneficiary of a VIE (previously, reconsideration was only required upon the occurrence of specific events), modifies the presentation of consolidated VIE assets and liabilities, and requires additional disclosures about a company s involvement in VIEs. SFAS No. 167 will be effective for the Company beginning January 1, 2010. The Company is currently assessing the impact that the adoption will have on its disclosures, operating results, financial position and cash flows.

FASB Statement No. 168, The FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles In June 2009, the FASB issued SFAS No. 168, The FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles . SFAS No. 168 will become the source of authoritative GAAP recognized by the FASB to be applied by nongovernmental entities. Rules and interpretive releases of the SEC under authority of federal securities laws are also sources of authoritative GAAP for SEC registrants. On the effective date of this Statement, the Codification will supersede all then-existing non-SEC accounting and reporting standards. All other non-grandfathered non-SEC accounting literature not included in the Codification will become non authoritative. This statement is effective for financial statements issued for interim and annual periods ending after September 15, 2009. The Company does not expect the adoption of SFAS No. 168 to have an impact on its disclosures, operating results, financial position and cash flows.

#### 4. STOCK-BASED COMPENSATION

Stock options are granted under the Company s long-term incentive plan and have an exercise price that may not be less than the fair market value of the underlying shares on the date of grant. In general, stock options granted will become exercisable over a period determined by the Compensation Committee which in the past has been a five year life, with the options vesting over a three year period. In addition, stock options will become exercisable upon a change in control, unless provided otherwise by the Compensation Committee. At June 30, 2009, there were 1,570,896 shares subject to options authorized but not granted.

During the six months ended June 30, 2009, the Company granted no stock options.

For the three months and six months ended June 30, 2009, the Company recognized non-cash compensation expense of \$0.4 million and \$1.1 million respectively, (or \$0.01 and \$0.02 per basic and diluted share, respectively), related to stock options. For the three months and six months ended June 30, 2008, the Company recognized non-cash compensation expense of \$0.2 million and \$0.5 million, respectively (or \$0.00 and \$0.01 per basic and diluted share, respectively). These amounts were recorded as general and administrative expense. Because the Company does not pay significant United States taxes, no amounts were recorded for tax benefits related to excess stock based compensation deductions.

10

#### VAALCO ENERGY, INC. AND SUBSIDIARIES

#### NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

A summary of the unit option activity for the six months ended June 30, 2009 is provided below:

	Number of Shares Underlying Options (in thousands)	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term	Aggregate Intrinsic Value (in millions)
Outstanding at beginning of period	4,763	\$ 5.33	3.24	
Granted				
Exercised	(6)	3.85	0.54	
Forfeited	(24)	6.39	4.28	
Outstanding at end of period	4,733	\$ 5.32	2.64	\$ 1.0
Exercisable at end of period	3,371	\$ 5.30	2.64	\$ 1.0

The intrinsic value of a stock option is the amount by which the current market value of the underlying stock exceeds the exercise price of the option. As of June 30, 2009, unrecognized compensation costs totaled \$1.2 million. The expense is expected to be recognized over a weighted average period of 1.1 years. Stock options vested during the six months ended June 30, 2009 totaled 547,166 options.

#### GUARANTEES

In September 2007, the Company entered into an amendment to the Floating Production, Storage and Offloading (FPSO) contract for the fields within the Etame Marin block to extend the contract until September 2015. In connection with the charter of the FPSO, the Company as operator of the Etame Marin block guaranteed the charter payments through the same time period. The charter continues for two years beyond that period unless one year s prior notice is given to the owner of the FPSO. The Company obtained several guarantees from its partners for their share of the charter payment. The Company s share of the charter payment is 28.1%. The Company believes the need for performance under the charter guarantee is remote. The estimated obligations for the annual charter payment and the Company s share of the charter payments through the end of the charter are as follows (in thousands):

Year	Fu	ll Charter Payment	Con	pany Share
2009 (remainder)	9	8,713	\$	2,446
2010	9	17,105	\$	4,802
2011	9	16,906	\$	4,746
2012	9	16,769	\$	4,708
2013	\$	16,814	\$	4,720
Thereafter	9	28,346	\$	7,958

The Company has recorded a liability of \$0.6 million at June 30, 2009 representing the guarantee s fair value.

#### 6. COMMITMENTS

## Edgar Filing: VAALCO ENERGY INC /DE/ - Form 10-Q

In January 2006, the partners elected to extend the Etame Production Sharing Contract related to the Etame Marin block for an additional five-year term commencing July 2006. The extension consists of a three-year and a two-year follow-on term. The first term carries a minimum work obligation of one exploration well for a minimum \$7.0 million exploration expenditure commitment (\$2.1 million net to the Company). The exploration well commitment was met with the drilling of the North Etame

11

#### VAALCO ENERGY, INC. AND SUBSIDIARIES

#### NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

prospect in February 2009, which was abandoned after encountering water bearing sands. For the optional two year extension, an additional exploration well is required.

In November 2005, the Company signed a production sharing contract for the Mutamba Iroru block onshore Gabon. The five-year contract awards the Company exploration rights along the central coast of Gabon. During the first three years of the contract the Company is required to drill one exploration well and expend a minimum of \$4.0 million. During the optional two-year extension to the contract, the Company is required to acquire specified levels of seismic data, drill one exploration well and expend a minimum of \$5.0 million. In February 2009, the Company drilled the exploration well required under the first exploration period after receiving an extension on the first period to complete the well. The well was abandoned after encountering water bearing sands. A second exploration well was drilled in the first quarter of 2009. The well also found water bearing sands and was abandoned. The Company has given notice that it will enter into the second exploration period and is seeking clarification as to whether the second well drilled on the Mutamba Iroru block fulfills the exploration well commitment in the extension.

In November 2006, the Company signed a production sharing contract for Block 5 offshore Angola. The seven-year contract awards the Company exploration rights to 1.4 million acres offshore central Angola. The Company s working interest in the contract is 40%, plus the Company is required to carry the Angolan National Oil Company, Sonangol P&P, for 10% of the work program. During the first four years of the contract, the consortium is required to acquire and process 1,000 square kilometers of 3-D seismic, drill two exploration wells and expend a minimum of \$29.5 million (\$14.8 million net to the Company). During the optional three-year extension to the contract, the consortium is required to acquire 600 square kilometers of 3-D seismic data, drill two exploration wells and expend a minimum of \$27.2 million (\$13.6 million net to the Company). The consortium acquired the 1,175 square kilometers of 3-D data called for in the first exploration period at a cost of \$7.5 million (\$3.75 million net to the Company) in January 2007. Subsequently, the consortium acquired 524 square kilometers of proprietary 3-D seismic data on the block during the fourth quarter of 2008 at a cost of \$6.0 million (\$3.0 million net to the Company). The Company has identified several potential exploration well locations and expects the consortium will drill the two exploration wells in 2010.

In January 2008, the Company signed a farm-in agreement for a 25% working interest in Block 48/25c offshore in the British North Sea. The Company is obligated to pay its share of the drilling of one well on the block and a portion of the share of the farminee s share of the well. The block is located in the Southern Gas Basin and an exploration well began drilling in February 2009. The well was deemed to be non-commercial and was abandoned.

#### 7. PARTNER REALIGNMENT AGREEMENT

On June 3, 2009, a realignment agreement was signed with a joint venture partner that originally did not participate in an appraisal well and one of the development wells in the Ebouri field, offshore Gabon. Pursuant to the realignment agreement, the joint venture partner paid its proportionate share of capital expenditures for the wells, which reduced the Company s capital expenditures by \$5.7 million. In addition the Company benefits from a \$15.0 million (\$6.5 million net to the Company) risk

premium being paid by the partner benefiting the other joint venture partners that originally participated in those two wells. In the quarter ended June 30, 2009 the Company received a \$2.0 million payment from the partner and the payment was recorded as other operating income. The remaining proceeds of \$4.5 million are expected to be received and recognized as income in the third quarter of 2009.

#### 8. TAX AUDIT

During the second quarter of 2009, the Gabon Ministry of Finance initiated a withholding tax audit for the Company s Gabon operations for the period 2005 2007. The Company has discovered certain vendors invoices were processed without the applicable withholding tax payment being made to the Republic of Gabon. An estimate of the additional tax has been calculated resulting in an accrued liability in the amount of \$0.8 million. The results of the audit are expected soon and it is expected the audit report claim will be made in excess of the amount recorded. Only after the report is received and resolved, perhaps through negotiations, will the final amount be known.

#### REPURCHASE OF COMMON STOCK

On June 24, 2009, the Company announced that its Board of Directors has authorized the repurchase of up to \$10 million of the Company s common stock over the next 12 months. Under the share buyback program, shares of common stock will be purchased on the open market or through privately negotiated transactions from time-to-time. The share buyback program does not obligate the Company to acquire any specific number of shares in any period, and may be modified, suspended, extended or discontinued at any time without prior notice. During the quarter ended June 30, 2009 the Company repurchased 146,354 shares at an average price of \$4.15 per share totaling \$0.6 million. As of August 10, 2009, the Company repurchased an additional 1,353,646 shares bringing the total amount of shares repurchased in this program to 1,500,000 shares. The average price paid for all shares was \$4.14 per share totaling \$6.2 million.

#### 10. SEGMENT INFORMATION

The Company s operations are based in Gabon, Angola, the British North Sea and in the United States. Management reviews and evaluates the operation of each geographic segment separately. The operations of all segments include exploration for and production of hydrocarbons where commercial reserves have been found and developed. Revenues are based on the location of hydrocarbon production. The Company evaluates each segment based on income (loss) from operations. Segment activity for the three months and six months ended June 30, 2009 and 2008 are as follows: (in thousands)

			North	Corporate and	
Three months ended June 30,	Gabon	Angola	Sea	Other	Total

MANAGEMENT S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS This report includes forward looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended ( Exchange Act ). All statements other than statements of historical fact included in this report (and the exhibits hereto), including without limitation, statements regarding the Company s financial position and estimated quantities and net present values of reserves, and statements preceded by, followed by or that otherwise include the word intends, projects, target, goal, anticipates, objective, should, or similar expressions or variations of such are forward looking statements. The Company can give no assurances that the assumptions upon which such statements are based will prove to have been correct. Important factors that could cause actual results to differ materially from the Company s expectations ( Cautionary Statements ) include the volatility of oil and natural gas prices; future production costs; future production quantities; the uncertainty of estimates of oil and natural gas reserves; the impact of competition; the availability and cost of seismic, drilling and other equipment; operating hazards inherent in the exploration for and production of oil and natural gas; difficulties encountered during the exploration for and production of oil and natural gas; difficulties encountered in delivering oil to commercial markets; general economic conditions, including the current economic and financial market crisis; changes in customer demand and producers supply; the uncertainty of the Company s ability to attract capital; compliance with, or the effect of changes in, the foreign governmental regulations regarding the Company s exploration and production, including those related to climate change; action of operators of the Company s oil and natural gas properties; political turmoil in the Republic of Gabon; weather conditions; and statements set forth in the Risk Factors section included in this report and in the Company s Form 10-K. All subsequent written and oral forward looking statements attributable to the Company or persons acting on its behalf are expressly qualified by the Cautionary Statements.

#### **INTRODUCTION**

The Company operates oil production sharing contracts in Gabon and Angola, and has non-active interests in two blocks in the British North Sea. In addition, the Company has minor onshore and offshore domestic United States production in the Gulf of Mexico.

The Company s primary source of revenue is from the Etame Production Sharing Contract related to the Etame Marin block located offshore the Republic of Gabon. The Company produces from the Etame, Avouma, South Tchibala and Ebouri fields on the block. Oil production commenced from the Etame field in September 2002 and from the Avouma and South Tchibala fields in January 2007. Most recently, the Company developed the Ebouri field. Production from the first well in this field began in January 2009. A second development well began producing oil in April 2009. During the first six months of 2009, the Etame, Avouma, South Tchibala and Ebouri fields produced approximately 4.1 million bbls (1.0 million bbls net to the Company).
